SCIENTOLOGY BOOMING IN ENGLAND

With the arrival of L. Ron Hubbard in London, Scientology took a sudden upcurve abroad, hit all at once by the new processes accumulated during many months in the United States. Ron's first public lecture in London not only filled an entire theatre, but sold out all of its standing room and turned many people away at the door.

Meeting with the London auditors, Ron gave them a rapid run-down on modern processes and sent them out to clean up all the cases which had been bogged down in the British Isles in the last two years. In subsequent meetings, reports were coming in that this was being done, and that it was being done successfully. The immediate goal is to leave no case bogged down in all of British Scientology.

The lack of accurate psychometric testing in the British Isles has denied the British auditor knowledge of how well his preclears had actually been doing. Auditors in the U.S.A., at least those around the H.A.S.I. have not been ignorant of the fact that even older processes were obtaining twenty to thirty points gain in intelligence, in every preclear processed. The availability of this psychometric testing gave reality to the results of processing. In the face of psychometrics, no preclear can get away with the story that nothing has happened to him during auditing, and no auditor can get away with the fact that something really did happen when nothing did.

Lecturing and writing and busy with welcoming parties, L. Ron has still been able to keep his communication lines going to some degree to the United States, despite his momentary absence. However, these lines are now being forwarded on to him as he will be in London several more weeks before his return to America.

Ron is very confident in the stability of the Washington operation, knowing that during his absence, he has on deck one of the best instructors Dianetics and Scientology has ever had, Dave Murray, and the finest processing director in Scientology history, Dr. Julia Lewis. The auditors at the center, all hand-trained by himself, are continuing their good work, and are getting fine results.

In view of the fact that one of the squirrel publications in Great

Britain, "The Fiscal Grief Charge" recently predicted that Scientology was on the wane. This enormous resurgence and welcome to L. Ron demonstrates how we can best measure our evidences of success - squirrel predictions, read in reverse.

WHAT ARE YOU GOING TO DO ABOUT IT?

Scientology has several problems it really shouldn't have. These are third and fourth dynamic problems. It should be enough that a science developed for the good of Man, and given freely into his knowledge, should simply be itself disseminated as itself, and without further intrusion into world affairs, but it so happens that the people of Dianetics and Scientology have an interest in the playing field called earth. Looking broadly about, one does not find very many people interested in the preservation of this playing field. They do not believe that it is their responsibility. The government of country A does not believe it is their responsibility; the government of country B does not believe it is their responsibility. It is very possible, from the view of a survey recently conducted, that there will be no actual forward effort at any time, anywhere, to modify the threatened havoc of the atom bomb, unless it is done quietly and effectively by a group which is interested beyond the interest of governments.

It is the belief of Scientology that no government should be interfered with. When a government is changed, it is changed to resume its old shape. No revolution is successful. It is a maxim of Scientology that if a Scientologist is trained within the boundaries of Libya, he is expected to follow out the training and beliefs of his nationality, and to support to the last degree his own government. Similarly, a Scientologist of the U.S.A. or a Scientologist of Great Britain is expected to support his own government to the fullest possible extent. Any and all changes which occur by reason of more knowledge occur along the lines of evolution and not along the lines of revolution. Therefore, Scientology is so far from seeking changes in governments that it would contest to the ability of every last communication line any threatened change in any government anywhere.

However, there is something which is above nationality today. It is even above the level of the United Nations which has proven its inability to handle the problems. Man is confronted with a weapon of such magnitude and range that unless some solution appears for this weapon, Man will cease to exist, and all life may cease to exist upon this planet.

How does one then influence a problem of this magnitude beyond the level of nations?

The answer to this problem is communication. We have seen that an area of enturbulence ceases to exist as soon as communication is levelled into it. True, the area has a tendency to explode somewhat in our faces before it as-ises, and tames. However, the answers to such problems as the atomic bomb lie in the problem of communication.

The communication of more knowledge, the communication of better abilities itself could bring about this change in time. However, we may not have this much time before us. Therefore, it is better that we communicate specifically upon the problem of the atomic bomb itself, and this is what we ask the peoples of the world as our communication, "What are you going to do about it?" By communicating, and by signaling the fact that no one is taking active responsibility for it, it may be that we can bring about vast significant changes upon the third dynamic.

There is a great deal of technology associated with this. Communication lines of great magnitude are necessary, but all these things are at this moment in preparation. We have never beheld a more sweeping forward look than we have at this time. There is no reason to suppose that we will fail. We know the thing not to do, and that is nothing.

We are not a group or organization dedicated exclusively to the bringing about of peace, but we are forced by our own impulses of self-preservation to take a hand in this game which seems too big even for nations to play. Nations cannot play this game because nations are not individuals. We are individuals and we know we are individuals, therefore, we can communicate to the world upon this problem without defying our own nationalities or enturbulating or upsetting the course of nations themselves. The bomb is bigger than nations and we ourselves as individuals, any one of us, have greater co-ordinative abilities than nations themselves. Thus the responsibility is ours, thus our campaign. We will tell you more about this. We are in deadly earnest. We have for the first time a good solid and workable answer to the problem of the atomic bomb, and we mean to use it. We know that if we communicate on the subject, we will be rewarded by solution to this gravest threat Man has ever had. We mean to do it. That's the way it is.

T-H-E C-O-A-U-D-I-T-O-R'S M-A-N-U-A-L O-F S-C-I-E-N-T-O-L-O-G-Y

by L. Ron Hubbard and John Sanborn

The one-buck-to-members, two-to-others Scientology books are coming along very well, with Dianetics: The Evolution Of A Science going out at the rate of many orders per day, and now on a sales increase. And with the next book of the series already at the printers, where the production is guaranteed to your H.A.S.I. headquarters in ten days.

This completely new book is the first ever written specifically for co-auditing teams. The Co-Auditor's Manual as first thought of was planned as a

ABILITY, page 4

fairly (but not too) light battery of processes for people of varied degrees of experience, ranging from "book auditor", to "old-time grizzley book auditor", to long-ago trained auditor, to the up-to-date Spiritual Counselor and Scientology Group Leader.

Well, when we got somewhere along in the writing of this manual, we began to improve our estimate of the amount of hoss-power, guts, velocity, and ability that is represented by the guys and gals in the field. And we kept improving it, to the point where the Co-Auditor's Manual is one outright bomb, and the amount of info on auditing, on preclears, on theory, on basic processes and on Life in that book amazed us when we saw it all add up to its book length.

An earlier manual, the H.C.A. Training Manual, a special edition of ABILITY (the one with the Tom Jefferson plaque on the green cover) is a different kind of book, published for a different purpose, which was for use in training and for the information of the H.A.S.I., H.D.R.F. memberships as to what the modern processes are, what the commands are and how they line up as a gradient scale of processes. It was meant to be a very extremely basic-essentials manual and is just that. The new Co-Auditor's Manual is something quite different.

Since the spring of '50 people have been co-auditing all over the place. As a matter of fact people have been co-auditing one way or another since the first person, wherever that was, who ever said, "Listen, I've got a problem here." But in the spring of '50 there were a lot of people all over the place who started listening a lot better than anyone had been doing it before.

There has always been co-auditing from Book One, Dianetics: The Modern Science of Mental Health.

There has been co-auditing on Advanced Procedures and Axioms (1951), The Handbook For Preclears (1951), Self Analysis in Dianetics (1951) - even "What to Audit" ('52), Scientology 8-80 ('52) and Scientology 8-8008 ('53) have been somehow pressed into the service of co-auditing teams. "Dianetics, 1955!" (1954), has been the most successful yet, since Book One, in the hands of co-auditors. That, and The Creation of Human Ability (1954), have been the standard texts for about a year (in terms of Dianetic and Scientology Central Time, a very long period!)

But since Book One we have not had at hand a manual, specially designed and organized to a compactness of information on the hows and whys and whens of modern Scientology technology for the field irrespective of training - a manual for co-auditors.

There is another reason behind this book, and that is the modern H.C.A. The Academy in Washington under Dave Murray and with close co-operation and supervision by L. Ron Hubbard, even while in London and by rather costly Atlantic Cable when necessary, has been making more and more advanced and superiorly trained and experienced auditors, and with such a rate of progress recently, that a gap is left between the "book-auditor's" know-how and the H.C.A. student's know-how which is a big enough gap to make room for some sort of stepped-up program of pre-training, and to make room for a manual of that

training. In several centers now the emphasis is going in the direction of D.Scns.s, H.A.A.s and H.C.A.s giving coaching in their communities to people interested in auditing. The new manual actually overshoots the mark a bit on that important activity, and gives a more advanced range of technology than possibly it should. But what it does is to take the casual and perhaps the experienced non-trained Dianeticist and Scientologist (the general H.D.R.F. - H.A.S.I. membership) up to a point where he would enter an H.C.A. course of Academy or London quality with a maximum efficiency. The H.C.A. course will continue to begin at the beginning, regardless of any past training or experience in the student, and a good reason for this, even if all students entering the H.C.A. course were D.Scns.s, is that the "beginning" is starting out in basics, and the basics are the most interesting, the most powerful, the completely necessary base of any auditing situation.

The Co-Auditor's Manual contains: (1) The basics - Definitions, Axioms, and the Rudiments of Auditing, (2) The Codes - The Auditor's Code and why it's there, (3) The processes, giving them in their correct and presentday form, plus a large amount of text on where the processes stem from the basic theory, why they are run, and how they are run, plus (4) many other things you'll see when you get the book!!!

It should please you to know that the production of this manual was horribly disturbed and upset and somewhat delayed by the decision to include in it much later and more top level material than was first planned. During the preparation of the book the field started looking brighter and brighter and eagerer and adventurouser - so we ripped the governor off the gas pedal and let 'er go.

We'll have them ready to ship about the same day you get this issue of ABILITY. Order as many as you want, and it's a dollar a copy to subscribers to ABILITY.

NICHOLS STARTS GROUP INFO PLAN

Bob Nichols, D.D., D.Scns. has been working for a long time on a project, now ready for action, of a co-ordinated program for assisting Scientology congregations and groups. Bob has been sparking groups and congregations throughout the Mid-West as H.A.S.I. Communicator for that area, and has had some of the finest successes. We get reports from areas where Bob has been that he has built interest and assisted greatly all types of Scientology activities.

As he moved around among the big states of the Mid-West, Bob made a lot of good observations, listened to what people had to say, tested out many types of group activity, and watched how things were running, in order to see what kinds of plans worked best, and what would do the most in any area fastest.

Now in Washington, Bob is launching a program of group information, which is available both to Scientology congregations and to other Scientology groups.

If you have a congregation or group, are a member of one, are thinking of starting a group, write to:

Rev. Bob Nichols
Communicator
SCIENTOLOGY
Box 242
Silver Spring, Maryland

He'll send you the information on group programs that work, and answer your questions. Information on either type of group activity - the congregation or the H.A.S.I. registered Scientology group.

BASIC TEACHINGS COURSES

A trained Scientologist holding a certificate-in-force (H.C.A., H.A.A., B.SCN., D.SCN.) can get the students he coaches in his Basic Teachings of Scientology Course, which covers the rudiments of auditing and group auditing, certified. Anyone who successfully completes such a course can be certified as S.B.A. (Scientology Basic Auditor) or Spiritual Counselor. Anyone who does any auditing should have at least the Spiritual Counselor Certificate. You might want to show someone this identification rather than argue with them. It defines the work you are doing - spiritual assistance, not psychotherapy. This was previously called the Practitioner of Spiritual Healing, but has been changed, because an "authority" might be confused as to whether you were healing the spirit or the body. Actually you are healing the spirit, but when talking to a body this idea sometimes produces a comm-lag.

To anyone, by the way, we recommend these Basic Teachings Courses. There are several already being given by auditors around the country. Probably the auditor nearest you is planning such a course. We know you'd be welcome in it, and the basics of Scientology are something you'll use both in auditing and in every-day life.

BROCHURE #1 AVAILABLE

The first of the Scientology brochures for your use as something to hand 'em (the general public) is ready and in stock and you can have these very nice looking little folders for only a very small amount in large quantity.

The next, #2, is at the compositors and should be ready in about a week - probably before you receive this notice. Write to the H.A.S.I., Box 242, Silver Spring, Maryland, for a couple hundred, or any number you want. H.A.S.I. members will want to have these on hand, so that you can hand something acceptable and attractive to people who ask, or people who don't ask, for that matter. The printing on these is very nice-looking. Will you please write to us for details, as we have several prices to offer depending on the quantity desired.

DAVE MURRAY INVITES: ALL D.SCN.S!!!

Not satisfied with the offer previously given in ABILITY, Dean of Scientology David Murray, director of training at the Academy in Washington, extends to all D.Scn.s with certificates-in-force a better one.

ABILITY Magazine is now pleased to announce that there will be NO CHARGE for D.Scn.s who come to the Academy for a two-week refresher and modernization course in basic theory and the practicalities of today's auditing, conducting a practice, conducting a congregation and the answers to how to assist individuals and groups in the community at fastest optimum.

D.Scn.s, this is your invitation and we look forward to seeing you. We are certain you will be pleased you came. Come in and repair the ravages of weeks and months in the field where many of you, we know, are operating solo. It sure is a pleasure to get in for your annual or semi-annual refresher course and to chew the fat with some of your old class mates, and you'll have a chance to get some of this modern auditing for a change! Of course, you'll be doing some as well as getting.

D.Scn.s are requested to WRITE IN ADVANCE about coming in for this refresher course to:

David W. Murray, Dean
The Academy of Religious Arts and Sciences
1845 "R" Street, N.W.
Washington, D.C.

You're all welcome - but not all at once!!!!!!

THE LONDON LECTURES

Five days a week, the Academy staff and students, and the staff at the Hubbard Guidance Center listen to an hour of the latest from Ron. These lectures are among the finest ever heard, and they are the most advanced Scientology ever released. They are the most basic and the most elementary lectures we've ever heard, and the most advanced.

They include a series of lectures to the public and the class lectures of the 4th London A.C.C.

Along with some very important newly noticed and newly codified information about Knowingness and solutions to problems about Knowingness which have no record anywhere of being either noticed or solved before, there is more auditing know-how in these lectures than Ron has ever given before.

Many, many of the practicalities of auditing come in here, and some of these things are the terribly simple, almost idiotically obvious points of procedure that have not been codified before because of that obviousness.

They are among the things that make Ron's auditing so deceptively lucky as to result. Auditors everywhere have been saying for years, "Now just what the blankety-blank IS it that makes Ron's auditing so blankety-blank effective? There must be some trick he uses that we never notice." Etc., etc.

Now we find that one of the tricks Ron uses when he audits is that when he audits he audits! The whole secret of this is so simple it's almost ridiculous to mention - the Rudiments of Auditing.

It's just, how to get a preclear into session and keep the session in session and how to keep in there auditing every minute. That's the Rudiments. Interestingly it explains why sometimes the best auditors have had no luck at all in auditing the people closest to them - parents, husbands, wives, etc. The reason was that there was "no auditor present"!

As these tapes on the advanced data of Scientology and the practicalities of auditing become available to you, by sale or rental plan, we will announce them in ABILITY. You'll like them!

NICHOLS-JOSLYN MARRIAGE PERFORMED BY DR. YOUNG

On Sunday November 6, 1955, at the Church of Scientology of Washington, D.C., with the Rev. William H. Young, Bishop of the Church, D.D., D.Sc., officiating, a very nice wedding took place with a huge crowd for the Church quarters at 1826 "R" Street, N.W., Washington, D.C.

Your editor covered the event and will attempt to give the required information. The dress worn very prettily by Elaine Joslyn (now Nichols) was a nice color of pthylocynine blue, rather luminous, and wore some flowers which I forget the name of, but liked. Of course, your Society Editor instantly recognized the material of the bride's dress to be Florentine Faille, her scarf to be white chiffon, and her slippers and handbag to be silver brocade. The hat a white sequined bendeaux.

Never having covered a wedding before the editor was much more nervous than the bride, the groom, and perhaps anyone else in the place. Bob Nichols, D.Sc., D.D., the groom, wore a light suit and a bow tie and came down the aisle like a combination of a casual Fred Astair and Frank Sinatra. Charlie Putnam, Bill Fisk, and Charlie Keaton were running all over the place being photographers and popping G.E. bulbs in every direction. Being amateurs they weren't invisible as wedding photogs are supposed to be.

Bill Young looked terrific up front, and this editor had a fleeting moment of reassurance that someone else around here was jittery, but it turned out that Bill was calm at least as a Minister, if not as an Arch-Bishop, is expected to be.

Bride Elaine's brother Earl Wood, H.C.A., and minister of the Church of Scientology, read a terrific short poem by Gibran from "The Prophet." Then Bishop Young performed the ceremony, a very wonderful one written by Ron for

Scientology weddings, and they both said, "I do", several times and then everyone went across the street to the Academy throwing rice down on the Nichols' heads, and your editor's and everyone else's.

The CAKE was a masterpiece built by the best firm of Washington caterers by phone direction from Earl Wood. It was a very simple design of two solid looking triangular shapes, the smaller one on top of the larger, with a minimum of decoration except for a very fine modeling within the general lines of the design. Admirable job.

ABILITY wishes to congratulate Elaine and Bob and wish them a wonderful future for themselves, and to say also that we are very glad to have them with us as fellow Scientologists (Elaine's an H.C.A., Bob a veteran auditor and D.Scen.).

And Bill is to be, and is, congratulated for a fine ceremony, the best we ever saw.

YOU MAY HAVE NOTICED IT:

Tapes are now of better quality. Masters recently recorded on our New Ampex tape recorder at 3 3/4 ips have assured a new uniformity of listening quality. Though our library has many good original recordings, the production masters which are all recorded at 3 3/4 ips were not so hot. These production masters or "Brood Mothers", as we call them, will, when the Ampex returns from England, be redone insuring better tapes all around. For the moment though, all recent tapes made at the Academy and most of those now coming from England have a sound which is pleasing to the listener, more highly intelligible and if one has a high fidelity tape player these tapes will be discovered to be of the superb quality necessary to the term HIGH FIDELITY.

MORE NEWS

The Main drawback to high speed tape production has been the upper limit to the frequencies being recorded by our copy machines from the master as it was going along at high speed. This has been solved. The H.A.S.I. has acquired a new series of recording heads which were recklessly adapted to the present machines and LO, and BEHOLD, copies were discovered to be as good as our new Ampex recorded Production Masters!

Though several machines remain to be adapted the H.A.S.I. is in a position to guarantee that all orders for recent lectures will be done on the new set-up. An additional change in machinery involving the recording of both tracks on a reel at the same moment has so improved production that the new Academy Lecture Series plus the new series being assembled from Ron's lectures to the A.C.C. in London (but not yet available) will be lower in cost. AS OF THIS DATE TAPES ARE NOT ONLY BETTER BUT CHEAPER TO BUY. The saving amounts to \$2.00 on a two hour reel such as listed on the following page:

We pondered long on the release of the above tape. Had we in Scientology, as Ron states at the outset of this tape, possibly reached a level of understanding which could not be communicated to a student? Research and Investigation assures us that this stuff can be communicated with success, great success. It is, therefore, with enthusiasm (and some relief) that we bring you this exciting new tape which has been sitting like a bomb in our midst these last weeks.

THE FOLLOWING TAPES HAVE BEEN REMOVED FROM THE RENTAL LIBRARY.

THE NEW "AMERICAN PERSONALITY ANALYSIS"
THE HUBBARD GUIDANCE CENTER

Director of the Center, Dr. Julia Lewis, D.D., D.Sc., will announce in the next issue of ABILITY (issue 17) the arrangements under which professional auditors can get for their use in practice and in training the new American Personality Analysis.

The test has been in use at the Guidance Center for some time now, and has been smoothed out and perfected by Dr. Lewis. It has proven itself to be an extremely valuable check on the conditions of students, personnel and pre-clears before-and-after processing. It contains, for the professional Scientologist especially many, many tips on the faster result with the individual thus tested. It is, of course, extremely valuable for your "case files".

These tests are of a type that only a registered "psychologist" has been in the past able to get. Dr. Lewis has worked on the project of getting good tests into the field for use by auditors for many months, in addition to her very demanding job as Director of Processing at the Center in Phoenix and now Washington. One of a very few really excellent psychometrics experts in the country today, Dr. Lewis is long experienced in every kind of testing, and is one of the earliest and most successful professional auditors, in Dianetics from its beginning, and in Scientology from its beginning also.

Julia is directing an extremely fine Guidance Center today, the best ever, and some of us who got some of the staff processing she gave in her first months with the staff in Phoenix could well wish that Julia had more time today from her duties as director - we'd like to get some sessions from her again. She's good!

For information on the tests, see the next (issue 17) ABILITY.

"SUNBURST CROSS", OFFICIAL FOR MINISTERS, GOES INTO PRODUCTION!!!!
IN PURE SILVER, TEN DOLLARS LESS THAN ORIGINAL TENTATIVE PRICE

The new minister's insignia we told you about in Issue 14 is now in the hands of an admiring Washington designer (he says it's one of the most beautiful things he's ever seen of its kind); it's being cast and a small number of crosses might be available before Christmas. As the die-makers are very busy at this season, our man says he doesn't want to promise Christmas delivery, but he will definitely do it if he can.

ABILITY, page 14

Not being jewelry experts ourselves, our prediction on what the price would be for a pure silver cross of the size we wanted was \$10.50 OVER the price we find can charge for this beautiful cross. Available only to ministers of the Church of Scientology and the Church of American Science (that of course includes D.D.s), the crosses will cost \$16.50, including the taxation upon such items. One version, one price. This includes a sterling silver chain for all crosses.

They are all silver (sterling), and there will be no plated or simulated-silver versions, as these turned out to cost the same and to be inferior in beauty to the all-sterling-silver.

Very handsome for street or formal wear, this cross has a distinction that sets it apart from mere costume jewelry or ordinary crosses. The model of this cross is the one that Ron discovered in Arizona, and which came from a very ancient Spanish mission. Three inches high and two inches wide. It is at once ornate and simple, has eight points, a true eight-dynamic Scientology cross.

Send your order to Scientology, Box 242, Silver Spring, Maryland, giving the date and place of your ordination so that we can find it easily.

We now have a distinctive insignia which gets away from collars-on-backwards. A simple design in pure silver.
