RON LECTURES TO THE SAINT HILL SPECIAL BRIEFING COURSE

Sketches made of L. Ron Hubbard giving lectures to students on the Saint Hill Special Briefing Course in the mid 60's. Tapes of these lectures and many others make up an important part of the theory sections of the Saint Hill Special Briefing Course checksheets.

THE EXTENT OF TECHNICAL MATERIALS

by L. Ron Hubbard

There is a possibility that some Scientologists have not realized the extent of technical materials which exist in Dianetics and Scientology on the subject of the spirit, mind and life.

For instance, there are about 25,000,000 words on tape in archives which provide the consecutive path of discovery.

When placed chronologically with books, HCOBs, HCO PLs and other issues this gives a nearly complete record of all discoveries and applications in these subjects.

It is from this tremendous archives that study packs and other materials are made up. These and their checksheets are very numerous and available.

A chronological study of materials is necessary for the complete training of a truly top grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest levels of development. Not the least advantage in this is the defining of words and terms, for each, when originally used, was defined, in most cases, with considerable exactitude, and one is not left with any misunderstandings. It is for this reason that the Saint Hill Briefing Course checksheet should consist only of the chronological materials, studied in chronological order, excepting only the Study Tapes which should be done first if not previously done properly.

Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for them. But this neglects the more considerable materials which deal with basics and fundamentals; processes are only one use of these.

Other people, having gotten their smallest toe damp as an HAS then wander off to other fields looking for answers, whereas had they taken Dianetics or Scientology Grade

training, to say nothing of the Saint Hill Briefing Course, they would have found more fundamentals than exist in all other subjects combined, a fact which any advanced student of Scientology can confirm.

Within the same civilization, many other subjects than Scientology exist. Many of these other subjects are in a very primitive state while pretending a very advanced position. Psychiatry and Psychology are a pair of these. Their pretenses, inhumanities and even cruelties muddy up the field of the spirit and mind. Because they produce negative or even damaging results and because they were "authority" before Scientology began to guide the field toward saner and more civilized levels, Scientology's task of handling the public is made far more difficult than if the public had not been so harmed and made suspicious of the field of the mind. Yet the most mind-wrenching problems Psychiatry and Psychology practitioners think they have (they have not confronted the real ones) give way before the lowest most pedestrian levels of Scientology. There is an amusing story of a Scientologist who attended a social meeting of Psychiatrists and Psychologists and listened to them for a while as they moaned about their patients and their own cases and then, being compassionate, began to explain to them in a sort of technical baby talk the nature and resolution of these "vast" "unsolvable" "problems". As he took no offense at their ignorant arrogance which first greeted him and as he did seem to have a grasp of their troubles, they kept him up until four AM going over their "problems" in detail and gave him more and more absorbed attention and began to cognate. They were very tame and very respectful when he left, certain they had heard the guru of all time; and this is amusing because he was not a trained auditor in any sense of the word and had only read a few Scientology books! Yet to them he

was their dean as a professional by comparative and sensible knowledge. Many Scientologists have had similar experiences.

Above such small bits of fringe information the bulk of Scientology knowledge towers into mountains. It is accessible, in the main, to those who seek it. The only barriers are usually their own lack of command of their own language and the misconceptions of study ground into them from kindergarten on. Means of solving these are also available and are daily applied to countless newcomers over the world.

Scientology now has more than enough data and technology to handle even the broad problems in the humanities. The main task now is getting it fully used, and along this line there are hundreds of thousands working every day around the world.

The materials of Scientology are the result of forty-three years of search, coordination and application to millions. The organizations of Scientology have been building and expanding for nineteen years (despite the fears and hates and jealousies of this civilization) on five continents and making it all the way, thanks to the magnificent people of Scientology.

We are very rich in materials, in results and in the potential future. Through our hardest times we have endured. Into our brightest times we are expanding.

These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life itself.

SUCCESSSES ON THE SAINT HILL SPECIAL BRIEFING COURSE

"Everything which was said about the BC tapes is true! They are incredible. The viewpoint one is given is such a tremendous boost to an auditor's beingness, doingness, and havingness. The practical section gave me the confidence I needed to smoothly deliver the auditing to my pc, who's continuing on his Bridge at the Advanced Organization now."

—Bill Hassing

"The Briefing Course is a whole new experience. There is nothing that I can compare it to. You receive data which you can find nowhere else on the planet. Data that is so valuable to a thetan. You don't know what livingness is until you travel the time track with Ron on the Briefing Course."

—Marilyn Trudell

"I think the thing I like best about the Briefing Course is that I have—at my fingertips constantly—so much data—so much Tech—and in every situation I just pull out my pack and show the reference—and for the first time I am able to do that. The Briefing Course really makes you a HOT SHOT in the Tech World! I am really proud and very grateful to be here."

—Kathy Roberts

"In 1976 I had really great fun doing OT V. Those abilities were rehabilitated and I've used them a lot since."

"On the Level A checksheet, I got the data on the Anatomy of OT V. Any thetan likes to have his curiosity fulfilled—so it's a great win, WOW. Knowing WHY as well as HOW."

—Mel Larsen

"It's a win to be on the Briefing Course—finally! I've gone from the Drug Rundown to New Era Dianetics for OTs completion and that has certainly been an adventure!"

"Having started the Briefing Course I feel really on purpose again—in short, I'm winning. There definitely are two sides to the Bridge and both are essential!"

—Mike Juneau

Bill Hassing checks over a preclear's folder before going into an auditing session.

"The best part of doing the Briefing Course is getting the exact stable datums so that I can operate successfully in any situation in life and in session. This gives me prediction on how things will go—especially, I can predict that my conditions and my environment will get BETTER. That gives me a nice sense of security and certainty. LRH really has built a better Bridge!"

—Annie McGregor

"I'm on the Saint Hill Special Briefing Course and I have the confidence and certainty of my training and every day, literally, on course is like an incredible session. It's so simple and fun. I've never done or experienced wins like this in my entire lifetime—and then some! And this is just the beginning!"

—Trina Shapiro

"Completing the Briefing Course has to rank high among my biggest wins in Scientology, and I've had a lot. It gave me the certainty I needed to confront and handle about any situation you could imagine. I gladly and truthfully recommend the Briefing Course to all who qualify, especially to those intending to do the OT Levels. I feel the knowledge of the development and the proper standard application of the tech will ensure their maximum gain from the OT Levels."

—John Kramer

LRH TECH FILMS PREMIERE AT ASHO!

Ron has always personally worked hard to see that auditors are well trained. Auditing skills are a major topic on the Briefing Course Lectures, and now Ron is releasing his newest development in training to help you move up to expert application of the tech: the LRH tech films!

Ron's brilliant technical films have come to ASHO! Eight films in all are now being shown to enthusiastic students on the Briefing Course and many other ASHO courses. Already released and being shown at ASHO are: "How the E-Meter Works", "Recognition and Identification of E-Meter Reads" (starring Senior C/S International, David Mayo), "The Cycle of Communication", "Use of a Doll in Auditing and TRs", "False TA", "The Auditor's Code", "PC Indicators", and "PC Indicators Drill Film". The films cover the basics of metering, TRs, and auditing so one can actually see the standard way to do it! Many more films are being completed now and will be shipped to ASHO as they come off the line.

Students are very excited about these new releases. One student, after seeing the film "How the E-Meter Works" wrote, "It was extremely clear how the meter worked after watching this film! All the electronic mumbo

jumbo really got blown and the simplicity of what actually occurs in the physical universe was right there and totally understandable. It was a terrific movie!"

Another related, "The unimportances of the mechanics are unceremoniously tossed aside and you get the basic picture of what the meter does!"

A third said, "The film is very entertaining, funny, and very informative. It demonstrated how the meter worked and it was very simple and easy to understand. A must for new and old auditors...I definitely want to see this again!"

Not only did Ron write all the scripts for the 29 technical films, he also trained up a team of Sea Org members to produce them.

The films will be shown on courses in orgs at no extra charge above the course donation.

This is a brand new era of training! ASHO is right now showing these films on the training courses they are part of. This includes the SAINT HILL SPECIAL BRIEFING COURSE, the Happiness Rundown Course, the Class VIII Course, the Class IX Course, all the C/S courses and internships for these levels, and many of the prerequisite courses to these (all of which ASHO delivers). In fact it is now policy that no student can graduate from any higher classed Auditor Training course until he has viewed all Tech Films that apply to his levels of training. Of course a student may see any of the films on his course as many times as he needs to to feel certain that he *knows* the data. Graduates of courses that now have tech films added to them and who want to see the tech films for those courses may do so for the donation fee of a retread and should contact the ASHO Registrar for details.

ASHO Training has always been of the finest quality. Now it's moving into a new era! With these LRH Tech films, students will have all the ingredients for superlative training: Top notch supervisors and word clearers, and course rooms set up with all the necessary equipment and materials—PLUS now when a student trains at ASHO it will be like having Ron right there in the course room ensuring the student fully understands the basics of Auditing tech through the tech films!

THE DIANETICS AND SCIENTOLOGY TECHNICAL DICTIONARY

It's not easy to work in the dark—step into the sunlight! Get your copy of the Dianetics and Scientology Technical Dictionary and learn to be more able to apply Ron's data to help others.

The dictionary has over 3,000 words—defined by L. Ron Hubbard, with an exact reference to the source of each definition, making the Dictionary a very thorough index of Dianetics and Scientology materials as well! No Briefing Course student would be without one—don't be ft in the dark without your own copy!

Clear away the shadows of misunderstood words and be fully able to apply the tech! Get your copy from the ASHO Bookstore today!

GET AN INCREASED UNDERSTANDING OF LIFE ON THE SAINT HILL SPECIAL BRIEFING COURSE!

Like a person standing on a mountain top, the student on the Saint Hill Special Briefing Course has a chance to see things from a truly unique viewpoint. As one standing on a mountain might see the whole pattern of a landscape where those below could see only a part, the Briefing Course student studies the wide scope of the technology of Dianetics and Scientology and its application to life.

Under the watchful eyes of ASHO's highly trained, veteran supervisors, Briefing Course students view the chronological development of Dianetics and Scientology, from the earliest materials to present time. In practical, Briefing Course students drill their basics and the procedures of auditing, and audit until they have their auditing skills down *cold*!

The Briefing Course can be completed in 4 to 6 months full time. Once the student starts, the supervisors make sure he goes straight on up through to graduation non-stop. In order to help students make it swiftly through the course, any trouble with studying is gone over and the study materials from the Briefing Course itself are applied to increase study speed!

Class VIs are, in Ron's words, "The Dukes of the Auditor elite". With a far-seeing viewpoint on life and a full command of the technology of Scientology, they are at the front of those helping Ron Clear the planet!

You can do the Briefing Course! The *only* prerequisites are:

Class IV Auditor
Permanent (Interned) NED Auditor
Student Hat Completion
Professional TRs Course

(For Clearing Course Clears, the Class IV prerequisite is waived!) Get on the Briefing Course at the top training organization on the planet—ASHO!

Cam and Tom Solari go over photos for a new audio visual presentation.

Class VI Does Award-Winning Photography

"After doing the Briefing Course you just own the tech. You don't have to remember it—you know it and you operate with it. Solutions I figure out to all sorts of problems, or ideas about how to set things up, how to run things, whatever it is—the things are correct because of the saturation of tech on the Briefing Course. The Briefing Course just got everything in focus for me—being an auditor made everything easier. You have to be an auditor to handle life, really."

"It's hard to imagine anybody not doing the Briefing Course when it's available. I can't imagine anybody being alive at this point in history and not getting it. It's especially important for an artist because they're the ones who are really leading things. LRH says it's the artists who are dreaming the dreams—and they've got to have the tech—they especially need to have it, and will be much more effective artists—there's no question!"

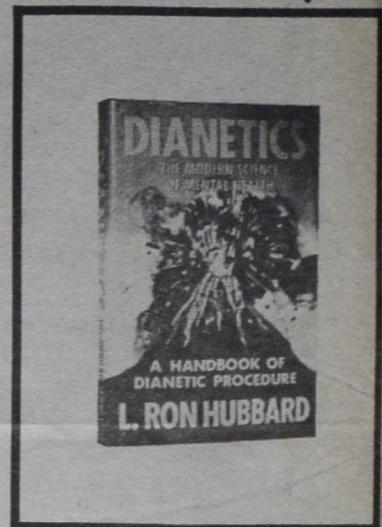

So says ASHO trained Class VI Cam Solari, award winning photographer, on how the Briefing Course has helped her. Cam and her husband, Tom, have been receiving wide recognition for their very effective commercial and educational slide shows and films.

Cam and Tom's work has an almost uncanny power to communicate. Many Scientologists across the Hemisphere have seen Cam and Tom's captivating slide show on the Briefing Course, "A New Plateau". Among their other recent projects have been a show for the Jet Propulsion Laboratory in Pasadena, California on the taking of photographs from outer space, shows for Carnation Company, Edlebrock, and three for the Ameritone Paint Company. Currently they are working on a show for McDonald-Douglass Corporation on their newest commercial jet. Their work was judged outstanding in its category in a trade fair recently over hundreds of other entries.

"LRH tech has helped me organize so I can pull it off," relates Cam, "because I have an incredible schedule. It has made it a lot easier—it used to be difficult!"

In addition to her photography work, Cam spends one half of her day educating her two young children, who, at four and five, are already learning Spanish, Japanese and many other subjects. Cam says, "being a good auditor makes having kids easy, because I really run good control on my kids—I really understand it, and the Briefing Course did that for me. Being a trained auditor, all aspects of life are easier!"

"Book One" Auditing using Dianetics: The Modern Science of Mental Health as a handbook, is becoming the thing to do around the planet in a boom spearheaded by highly trained Auditors.

Class VIII Spearheading Book One Boom!

The Book One auditing boom is on! Auditing using only the data in *Dianetics: The Modern Science of Mental Health* is being taught and done all over the planet in a surge of enthusiasm as thousands discover that the early techniques of Dianetics are as valid today as when Ron first released them in 1950!

ASHO-trained Class VIII Carter Manierre and his wife Anne (who received her Power Auditing here at ASHO) are among those spearheading the boom. They have given workshops at Flag, San Francisco, and most recently in Los Angeles. Carter is very enthusiastic about the Book One boom. "Everyone connects up with Source—that's the power of the thing. They have DMSMH in their hand and they apply it. They see how simple it is—they go in session and perform miracles on people—running out secondaries, running out pre-natal engrams. They come out totally blown out. They just want to continue all the way up."

"I have gained an incredible respect for the Briefing Course as a result of doing the Book One training. I see the type of errors that auditors got into—the type of situations they ran into that needed further clarification—how LRH handled those—what he did to further research the bank. The Briefing Course gave me a real respect—I mean a REAL respect for L. Ron Hubbard."

Carter and Anne have also recently started very successful new workshops on Auditing from the Research and Discovery Series Volume I. They now plan to take the Book One seminars to colleges and universities, where they are sure to cause quite a stir with Ron's exciting new discoveries—made over thirty years ago!

OUND THE WORLD

Briefing Course Students Work on Narconon Expansion Project

The Narconon Network across the US is currently launching the biggest campaign ever to get LRH tech being used in the drug rehabilitation and education field. The thrust of this campaign is to get other drug rehab and related professions personnel trained on LRH tech and using it in their programs and activities.

"Training is always the key in expanding an activity. And it is the key to changing conditions," says Nancy Hawkins, Briefing Course student now working on the Narconon Expansion project. "This has always been my attitude with my Scientology training as well and is why I did the Briefing Course. I have always said that the Briefing Course is the course in Scientology which really puts a Scientologist's hat on as a Scientologist. All the vital data you need in life is contained on this course."

Application of LRH technology in the society is what this Narconon campaign is all about. Nancy Hawkins, along with Nancy Nelson, another Briefing Course student, and a whole team of Narconon and US Guardian Office staff are showing the US what Scientology is all about and what LRH technology is for.

Narconon has gotten fantastic results applying LRH's technology in drug rehabilitation to drug users and addicts: a heroin addict feels hungry and sleepy again for the first time in eight years of addiction after only a couple of hours of touch assists and locationals on his withdrawal program... a father of one young ex-drug user helped at Narconon refers to the program as "a group of people in LA that help young people get started on the road to life." This is really what LRH technology is all about.

The new thrust with the Narconon network is now getting other groups and professions trained up on LRH technology. We know that we can get the fantastic results with the technology on our existing Narconon groups. But what will really handle this problem in the society is having the technology being used by all other drug groups as well. So far, this is having great impact.

Drug rehabilitation groups from all over the LA area have been reaching for more of LRH's technology after only learning about locationals. Preparations are now being made to train other groups to put in a whole Purification program and center. Business consultants are now reaching to Narconon to train up their counselors in handling executives who have drug and alcohol problems. Similar reaches are coming from all over the US.

"I really think that everyone would agree," Nancy Hawkins says, "That this is what Scientology is all about, getting LRH technology used in society to help people with their problems and make the environment safe. The Briefing Course is where you learn the technical application which then enables you to better conditions on all dynamics."

BRIEFING COURSE GRADUATE BOOMS NEW CHURCH!

"The auditing hours are up again!" Valley Church Executive Director Ike Kezsbom (left) and Public Executive Secretary Jim Nicastro go over some great-looking graphs.

One of the newest Class IV organizations in the world is the Valley Church, in Sherman Oaks, California. It is also one of the most upstat. With over 450 Well Done Auditing Hours per week and *all* major statistics of the Church soaring, Valley has gained a reputation of swift and steady expansion.

The Executive Director of Valley is ASHO-trained Ike Kezsbom. Ike did the Briefing Course at ASHO in 1974 followed by the Class VI Internship in 1975 and the Class VIII Course in 1977.

Ike says the Briefing Course was invaluable to him: "Becoming an auditor, in my universe, is the foundation in handling the physical universe. When you're a Class IV auditor you learn that the reactions of people are caused

by the bank. You do the Briefing Course, and you understand WHY, WHEREFORE, and HOW COME it all occurs. As a result of that you are able to handle a lot more quickly and observe the indicators of the people around you a lot more easily, because your confront after having all the data raises incredibly. I couldn't imagine not being a Class VI auditor.

"The people that don't have the data are missing so much. I'm OT, and that's a good thing, but I'm an auditor, and that's a better thing. As an auditor I can make things happen because I know how the physical universe works, I know what I'm dealing with. It makes everything not only for myself but for people around me simple because I can go into an area and help them locate what's wrong."

A very experienced Class IV auditor when he did the Briefing Course, Ike has this to say about the difference between being a Class IV auditor and being a Class VI:

"What the Briefing Course did for me was to give me the reason and let me understand why. I wasn't just rotely being an auditor anymore. When I started the Briefing Course I had audited 5,000 hours as a Class IV auditor so I was a very active auditor and a very good auditor. When I got to the Briefing Course I almost had an attitude that there was nothing I could really learn there. The incredible thing that happened to me while I was going through the BC and after I completed it was coming to understand exactly why I was doing the things I was doing, which enabled me to get even more down to basics, more down to be able to use TRs in auditing. It all became very very simple."

Ike recommends doing the Briefing Course to other executives as well as to auditors:

"The technology makes you able to act sanely in situations. The policy gives you the guide on how to do it but the sanity comes from learning the technology and when you complete the Briefing Course you've got all the sanity—I mean you've got *all* the sanity."

"The Briefing Course gives you basics that you need as an individual to operate. Any policy you take then starts to make sense because you're closer to Source. You know what Ron said. The Briefing Course does get you to know LRH and gets you to know how he came about discovering and implementing the technology. As a result of that it's a lot easier for you to observe and handle situations in a sane manner, which creates sanity, and that is the name of the game."

FOCUS ON SUCCESS

Briefing Course Student Wins in Co-Auditing

Barbara Oliver, Briefing Course student from Cincinnati, Ohio, recently completed her grades on a co-audit in the Briefing Course, and is now doing her OT Levels at the Advanced Organization. Highly pleased with the training and auditing she's been receiving at ASHO, she has this to say:

"It's really standard here. It's a Sea Org so the tech's in. I think it's a big boost for reality on standard tech to work where the tech is standard. You see the tech working around you, and you see that it is being applied correctly and is working. It becomes very real.

"ASHO is the place to go up both sides of the Bridge by being trained. Co-auditing is really in here. Students really do go up the Bridge. I'm amazed at how easy it is at ASHO. There've been no stops. When I started the Purification Rundown a year and a half ago I had some very quickied grades, no drug rundown at all and one Dianetic Clear Special Intensive. After the Purification Rundown I thought I must be ready for OT 1, because I was Clear and Grade IV after all. Then I heard rumors that people were having to do the SRD before OT 1. So, I did the SRD, which was about the most amazing thing I'd ever done! Among the gains were that for the first time in my life I felt good when I woke up in the morning, I could SEE things, and I actually felt happy a lot of the time.

"I was lucky to read the new Chart of Abilities Gained on four flows for the grades. I had the most amazing cognition that maybe there was more to be gotten out of the grades.

"I am so glad I am at ASHO and on the BC when I realized all this. Luckily it is true that being a student at ASHO really DOES get you up the other side of the Bridge too.

"Now finally I was truly on the grades. I had the amazing occurrence of being able to talk to someone freely at a party. Then somewhere in the middle of Grade 1, I found out and realized that auditing DID work for me. That was actually the first point I began to appreciate that I was doing the Bridge over again from the bottom up, and that doing the Bridge THE RIGHT WAY was THE ONLY WAY.

"So, I found out you could make problems vanish, and a

Superb skill in tech application, as taught on the Briefing Course, demands an UTTERLY ACCURATE AND RELIABLE E-METER. This is the meter—the computer-age Mark VI. The Mark VI is available in a variety of colors: black, beige, dark blue, peacock blue and silver. Currently there is a limited stock of aqua and gold meters available at a special low price!

Don't be without yours—order your Mark VI from the ASHO Bookstore today!

By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the Minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law, and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a fully qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. No other persons are permitted to have E-Meters. The Church permits the E-Meter to be sold, possessed, or owned only under these conditions.

Briefing Course Student Barb Oliver shares her wins with her auditor, fellow Briefing Course student John Paulson.

host of other things on this most amazing journey up the grades which I had previously been trying so hard to miss out on. But Grade 4 tops it all. I have spent literally all my life struggling with just what this grade handles. It was ruining my life and had been for a long, long time. I bear no resemblance today to the person who started the Purification Rundown a year and a half ago.

"All I can say is THANK GOD for the Keeping Scientology Working Series and the people at ASHO.

"I cannot use enough wonderful adjectives to describe my auditor.

"I couldn't be more thrilled that I came to ASHO."

Barbara has so far audited three other students on the Briefing Course—one all the way through his lower grades to Grade 4. "My results on pcs have been incredible since I got on the BC—I've had greater results by far. On the BC you get all the theory to back up what you're doing and it takes a lot of roteness off of your auditing—you know why you're doing what you're doing and that gives you a far greater reality on the tech."

Dianetic Clear Special Intensive

The Dianetic Clear Special Intensive is an auditing action designed by Ron to clear off invalidation and charge that some who are Clear may experience in connection with the state. The purpose of the rundown is to give a *full resurgence* of the state of Clear—to leave a Clear as a finished gem: gleaming and polished.

Ron spent many years, covered in the Briefing Course, researching all about Clear. Now you can take advantage of this research and get this very successful rundown, developed and recently revised and expanded by LRH himself.

Created for you by Ron, this intensive has been developed so that those who have achieved Dianetic Clear will have the correct acknowledgment and attain a full resurgence of that diamond like state!

Have the certainty that you should have!

Get the Dianetic Clear Special Intensive. Call or write the ASHO Registrar!
