THE ROCKY MOUNTAIN RETREAT

The magnificent natural cathedral, rising from the plains of the green fields of Wyoming, is the most ancient focus of the Ascended Masters upon the planet Earth. Here, ages ago, Lord Michael, the Archangel and the Lord Manu of the First Root Race led the first members of the human race from Inner Levels into their first embodiment upon this sweet Earth.

Here, the Seven-fold Flame of the Great Elohim formed the glorious Lotus of Living Fire, signifying to this Universe that the Earth was ready for physical habitation. Here, Beloved Virgo, Beloved Aries, Neptune and Amaryllis (Goddess of Spring) met the descending spirits of the First Root Race, offering the pristine purity of a Planet to them in the greatest hospitality and generosity of Service ever known.

Here, kneeling reverently around their Manu and Lord Michael, the members of the First Root Race thanked Almighty God for their Hostess (Earth) and all Her attendant Servants of Ministration! Here, in the etheric substance, still pulsates the Pathway of Light upon which the Lord Manu, Lord Michael, the Guardian Spirits and the Holy Innocents descended for the experience of their self-chosen expression upon the sweet Earth. From here, Masters, Angels and new-born men went North, East, South and West to carry the Light of God to the four corners of the Earth.

Thus, the Rocky Mountain Retreat is (by Its very nature) the Focus of Precipitation, expan-

sion of the Light, and manifestation in the world of form.

Today the Brotherhood of the Rocky Mountain Retreat hold as Their reason for being the sustained consciousness of Precipitation of the Divine Pattern through every member of the human race who chooses to return (in consciousness) to their own individualized "I AM" Presence and ask: "why was I born; sustained through countless ages; nourished by God and elemental life and given opportunity to this day to live upon the surface of the Planet Earth?"

Because this Retreat was established as the Open Door into Earth-experience, twice each year It opens Its doors to those men, women and children who desire to become part of the redemption of the Earth which, through the ages, has lost much of its pristine purity, happiness, peace, perfection and opulence.

Let all earnest chelas turn their attention consciously toward the Rocky Mountain Retreat as often as possible during the waking hours, as well as before they retire, with an earnest desire and sincere spiritual motive to help in the great Cosmic Service of redemption of misqualified life. This is an opportune time to make a Petition, in which you are willing to consciously and constantly engage your energies, to assist your fellow-man and the evolutions of this Earth. Remember, the Members of the Karmic Board are in attendance at these twice-yearly Meetings and are willing and eager to hear the Petitions and grant Dispensations when, in Their Wisdom, they are noteworthy and of benefit to the Planet and Her evolutions.

BELOVED LADY HOPEMarch 25, 1967Easter Class

Children of the One Supreme Source of all Life, I greet you in anticipation of the expansion of the Flame of Hope, of the Resurrecting Power, which can and will assist the unfolding Christ Presence within you to grow to Full Stature, as you so often call for in your affirmations!

I ask you, in all the love and dedication of My Being to feel the buoyancy and energizing power of the Resurrection Flame alive in your beings and to graciously 'open the door' to the most honored Guest you can entertain, your own Beloved "I AM" Presence. In this instance, the Guest can remain as your Tutor and serve through your lower vehicles until you become that Christ Presence in action at all times. Your God Self is present always and your hospitality, as it were, should permit It full use of your household, making your vehicles, as a result, the Temple of the Most High Living God. Energize the Flame of Expectancy and use the loving activity of the Violet Fire of Transmutation and Love to clear the vehicles of all debris, making them a fitting habitation for the Divine Presence of God Almighty!

When one is engaged in any form of precipitation, that one must expect the desired result, and in so doing acceptance is born. You know, in the world of form man, for the most part, that is those members of the race who have a certain amount of God Illumination desire

to better their standing and business status in the community, and it is the earnest striving and expectant feeling of the realization of that Goal which outpictures in the betterment of living conditions and an expansion of the consciousness of God-Good.

In the case of the chelas, no matter what the financial or outer status, the achievement of the Peak of Perfection can be attained right here on Earth, for you are aware of your God Presence within - your Guest has arrived and it is up to you to open the doors of your consciousness and permit that "I AM" Presence to freely use all the 'rooms' - your various vehicles of expression. Thus you become the Presence of God in action, abiding within the Sacred Temple which a loving Father-Mother God has provided for each of Their Children. Then, as a result, you blend more and more into Oneness with all that is.

Perfection is aligned only to Perfection, and the puny vibrations of the lower world, though strong in their determination to intrude, have no means of entrance into your Temple. One recognizes that a Temple is a place of worship to The Creator of all there is, when individuals choose to engage in activities to that end. How glorious when the individual considers himself the Temple of his Spirit, not made by human hands but through the artistry of the Divine Parents for Their Offspring. Then when individuals, chelas specifically, erect a Temple wherein they may congregate in holy and dedicated Service to the Eternal, that Spiritual Edifice becomes a Focus on the Planet Earth

for the Restoration and Sustenance of God's Gifts as was the Original Intent, a part of the Divine Plan made manifest.

It has oft been repeated that 'the family who prays together, stays together', and that simple affirmation can be expanded to mean "as God's Children serve together, they become one in the Unity of Spirit", the Oneness to which all strive.

At this time of year when the Flame of Resurrection is accelerated in the Western Hemisphere, it is equally active, Cosmically speaking, throughout the Planet, for as man turns his attention to the Mighty and Victorious Accomplishment of the Master Jesus in the observance of Easter, the Beings of the Resurrection Flame and the Angelic Kingdom serving particularly on this Ray come to the Reservoir of My Heart and further impregnate Their Beings with the Essence of Resuscitation, the Resurrection Flame. The Angelic Beings are encircling the Earth dispensing this Radiation into the souls of all men, and in the case of the Western Hemisphere the elemental substance of the Nature Kingdom, which will bring forth flower, shrub, tree and fruit and the manifold gifts and beauty which is dormant in the seed, bulb and so on.

Now, the tiny seeds are miniscule as compared to the consciousness of the human kingdom. If they can accept and use the Flame of Resurrection, which is Hope, why is man so recalcitrant in the acceptance thereof. The Flame of Hope is part of your beings! I challenge

you to use and use this Flame for the activation and resurrection of the Christ Presence within. True, the Presence is alive within you, but through your acceptance and submission of the little self can It function in expanded capacity as the Directing Intelligence of your lifestream.

We have long since advised you not to envision the crucified Jesus upon the cross and you have done this with considerable efficacy for which please accept the gratitude of the Spiritual Hierarchy, Beloved Jesus, in particular. Now, I plead with you to transmute the disfiguration, which is the human self in every man, and become the Resurrected Christ Presence while walking the Earth. Wear the Garments of Immortality for the inspiration and example to the searching souls not so privileged as you.

We of the Spiritual Hierarchy do not come to you again and again to entertain your consciousness, and through partial acceptance on your own volition assist you to Heaven's Realms at the close of your sojourn on Earth, to remain There, if you so desire, without re-embodiment. This is definitely not individual instruction and assistance, but God Illumination given to you to resuscitate and resurrect a Planet which is seething with iniquity of all kinds.

Beloved Amaryllis and Virgo are serving without cessation in the transformation and restoration of the Earth, as are all the Spiritual Hierarchy. Is it too much to ask Our beloved

chelas to employ the Flame of Hope, which is synonymous with Resurrection in a greater capacity than the Elemental Kingdom. Bless those tiny beings who so eagerly await the use of the Flame of Hope as they know and accept that through their training they are required to outpicture a Pattern given them by their Teachers. When their efforts fall short of the Perfection intended, they must wait until another season for the next opportunity.

Tell Me, you who have been in intensive training during this embodiment, are you going to culminate this journey, knowing that if it were not for the Dispensation granted to Lord Michael, you perhaps would have to again don a human form to make Good? Remember, when a Dispensation is granted that does not mean that the Karmic Council cannot withdraw the Boon! Over and over again We have stated that energy must be balanced, and it does not necessarily mean that the Cosmic Law will permit the Inner Realms to be 'over-loaded' We shall say with chelas making good on the Other Shore.

So, be wise, and in the Full Power of the Flame of Hope and the Cosmic Substance of Resurrection don the garments of the Priest or Priestess and provide a Temple for the Christ Presence, and proceed in great and holy dignity as you continue to traverse the Planet Earth, and be Living Examples of the Most High Living God to all upon this Globe.

Example is one of the greatest Teachers and remember, too, that you cannot separate your-

self from My Being. "I AM" a permanent Resident in your Temple, and I shall continue to nourish the Flame of Resurrection and Hope with all the Power of My Being, until you, beloved ones, attain the Goal which is your God Destiny. I shall expect greater inner recognition of the Glorious Flame of Resuscitation and Hope from the chelas in the future.

God bless you and Good Evening!

Lady Hope, of The Fourth Ray.

THE BRIDGE TO FREEDOM, INC. wishes to announce that Mr. Walter Huber
Obsthaldenstrasse 136

is the Director of all EUROPEAN BRIDGE Activities. ALL BRIDGE MATERIAL which issues from the Headquarters on Long Island, which is translated into the German Language, comes under the direction of Mr. Huber for dissemination throughout Europe.

BELoved JESUSMarch 26, 1967Easter Class

"I AM" the realization, the conviction and the positive assurance of the efficacious Power of the Resurrection Flame which I used to attain the Triumphant Victory of the Resurrection. "I AM" come this morning to blaze and blaze and blaze the feeling of acceptance which I know is Real, for did I not have the privilege of giving mankind a manifest example of that which could be accomplished and must be employed by all mankind now or later!

Children of God, I entreat you to be about The Father's Business in expanded activity so that you can be examples of the resurrection of the Perfection which you once knew, and be the wayshowers of those less privileged than you.

The time has long since passed when the 'faithful' as they are called, can just set aside the 40-days of repentance and then expect to receive the realization or full meaning of the Easter Celebration. This was not just a pageant in the evolution of the Planet and Her peoples. The Cosmic Law in Its great Wisdom knew that the time had arrived when something 'spectacular' had to take place which would rouse the inhabitants of this Earth out of their ways of iniquity, and so it was ordained that I would be given the opportunity, after passing certain tests at Inner Levels, to set the Example for the restoration of the God Way of Life on this Planet.

Before proceeding further, I wish to humbly and gratefully bow to the Light of My beloved Father, Joseph (Saint Germain) and My holy Mother Mary and all who served with Us, enabling the Victorious Accomplishment of this Mission. The tenacity and one-ness of Spirit of My Earth-Parents was a tremendous lever, or raising Power in the fulfillment of this Mission. My love and gratitude flows to Them at all times.

I shall continue this Release in a very direct and meaningful manner, in the hope that some among the children of men will receive the illumination to resuscitate their own consciousness and vehicles to assist the mankind of this Earth. I came to set the Example for all men, in the overcoming of the human tastes and appetites. Consider then what has been accomplished by the evolutions hereon, Spiritually speaking, in the decades of time since the public event of My Resurrection! I bow My head when I think My Mission was of so little avail, judging from the appearances, the chaotic conditions, which are rampant on this Planet at the present hour!

I pray that I shall not have to descend upon the Earth as an Emissary of The Father-Mother God in a tumultuous manner to awaken those who are spiritually inclined, and for the obliteration by drastic action the forces who are bent upon the destruction of any and all who have endeavored to the best of their present ability to hold true to a Concept, God-given and God-directed!

Now, holding true to a Concept is not

just the intellectual entertainment of a Vision. The outpicturing of that Concept, individually, is Victorious Accomplishment. And that is the purpose for which We of the Spiritual Hierarchy have released Our energies to the chelas these many years. AND, We are held accountable for the balance of these energies through the lifestreams who have been the recipients thereof. Thank the Merciful Father, We are in the Age when the Violet Flame of Transmutation and Love is the predominant and significant Radiation bathing the Earth, otherwise She would have little hope for the externalization of the Perfection which has been ordained.

I come not to alarm you, but to prod you on to further application of the Law at this crucial time. If I were to tell you that there were just so many days left for the redemption of the Earth and that you would be called to the Karmic Board for an accounting at the end of that period, I believe, like the drowning individual holding to a raft, you would be so spurred on to decreeing at every available time for the redemption of the Earth and Her evolutions.

Why think you that the Wisdom of the Mighty Gautama, after lengthy deliberation as to the activity for the Year of Nineteen Hundred and Sixty-seven, saw the requirement for the Planet saturated, blazing with the Violet Fire of Transmutation, and enfolded in a Heart of Pure Divine Love, as the Thought Form of the Year, with Beloved Lord Chamuel and Beloved Kwan Yin as Sponsors. Awake! Oh Children of

Light, never let go of the life-saving 'raft' of the Activity of the Thought Form! You can save this Earth by your constant and steadfast adherence to the Directives which We give you, through your application thereof!

There are many chelas who at the present time seem concerned as to what is going to happen to them, individually! as We proceed with the necessary evolutionary changes! Ah, precious ones, I humbly admonish you to forego such consideration of the little self! We of the Spiritual Hierarchy have been stating, and stating, over and over again, the necessity for becoming The Christ in action at all times, and We will continue so to do. When one is dedicated and determined to carry out the Instructions of the Cosmic Law, he surely realizes that there can be no separation in Life, that all is one mighty Composite of The Father-Mother God's Creation, the heart beat in the physical vehicle being the stepped-down vibration of the Heart of the Cosmos.

And there is a point which I would like to clear up in the consciousness of some at this time: a few wonder why We heretofore referred to the four lower expressions as 'bodies' and now call them 'vehicles'. For the very simple reason that a body denotes a certain density, and a vehicle, while having a degree of density can be a conductor of Light without necessarily conveying density or weight. Since the consciousness of the majority has advanced from that of students to that of chelas, each should now have progressed from giving so much power to the four lower bodies, for they should be

vehicles of Light and the Radiation thereof. I trust this clarifies that question.

Another matter which has given the chelas some consternation is where they should be physically located when Cosmic Changes do take place! There is no safer place, or haven, than right where you are at the time, provided, of course, that you do not clothe yourselves in the insidious activity of fear, and know, with conviction, that The Christ Presence right within you, is the Isle of Serenity and Protection. So anchored, you are safe at all times. There is no reason for fear or depression of any kind when one accepts, and knows, he is a Child of God, an Emissary of the Cosmic Source of all Life, come to Earth to fulfill a Mission.

On this Glorious Easter how I pray that there will be those who have hearts and ears to hear, and that includes all mankind who are truly seeking the way back Home, that they may henceforth be Emissaries of Light, Beacons pointing the way for others, so the less fortunate, and I say this because through their own free will, they have not been wise enough to choose the Path of Light, rather taking the by-ways of darkness and degradation!

Oh beloved and blessed chelas, would that you could see what the Celebration of Easter and the accelerated Release of Light has done, at least temporarily, for a Planet heavily burdened indeed. The Angels of Transmutation and of Resurrection are traversing the Earth using every possible means to change the vibratory action of imperfection. This is a most opportune

time for those who have chosen the Path of Light, be they affiliated with Orthodox Churches or other Organizations of Truth, and have turned their hearts and consciousness to the Victory of Easter Morn!

How beautiful the music and songs of praise and adoration to The Father-Mother God, in Whom "I AM" but One Cell in that Pulsating Fountain of Light and Perfection! Today may be likened to a Truce of Light, and while some forces of imperfection do exist, they are not as rampant as when the thoughts of the people of Earth are not raised Godward through the Resurrection Consciousness which is enfolding the Planet.

My dear ones, in My capacity as World Teacher, I must point the way for you, and thus I have endeavored to do today, and be assured that every word I have spoken is clothed in the Light of the Cosmic Source of all Life, and only Perfection and Victorious Accomplishment should be the result thereof! This can be - for you right now, for all mankind and for the entire Planet, according to your acceptance thereof!

In all the Divine Love of the Buoyancy of the established momentum of Victorious Accomplishment in the Light, I draw you close to My Heart and bathe you in the Feeling of the Resurrection Flame.

Good Morning!

BELOVED HOLY AEOLUSMarch 23, 1967

Children of My Heart, I have come to the Earth to join in the Celebration of the Greatest Feast known to the chelas abiding hereon, that of the Resurrection, as exemplified by Beloved Jesus.

"I AM" speaking to you from the Etheric Shamballa and shall journey to the Resurrection Temple to be there to participate the Cosmic Ceremonies which will take place.

Sitting in My Study I have contemplated the sincere and worthy endeavors of My Chelas throughout the Planet and have decided to relate a short treatise on the God Qualities...

Every Star and Planet and Sun was created to add to the Glory of the Universe and the ever-expanding richness of God's Bounty of Godly Qualities which make the Heavenly Realm an ever unfolding experience of belief, as the consciousness is exhilarated by the experience of one after another of the Godly emotions which are the natural activity of life.

There is no limit to the Beauty in the Universe; no limit to Love, to Happiness, to Peace and so on. Every Ascended Being and Cosmic Master, every Solar Lord, will attest to the fact that no matter how much of the God-Life one chooses to draw forth from within the Flame there is much exhilaration of consciousness in the realization that more and more of the Godly Virtues unfold, as one plunges into the Heart of any one of those Divine

Expressions of the Deity.

The Glorious Lady Venus could tell you that all the Beauty She has manifested on Her Planet has but opened the door to greater expressions of Beauty and Happiness than Her Consciousness yet can grasp. That is the Love, the Glory of God. It is a marvelous impetus toward soaring higher and higher in consciousness to know that there is no end to the unfolding of God's Perfection. It is like an eager child opening door after door into one of the wonder places of the imagination and finding treasures unbelievable in each room through which his feet pass, seeking ever greater and more glorious expressions of beauty and happiness. That is the natural activity of life.

Mankind has reversed this action and proceeded from depth to depth in his life experience, growing ever more unhappy as they descend into the darkest experiences of human living - when, easy as a breath, they might turn their attention to any one of the Virtues and find out what is within Beauty, within Tolerance, within Love, Peace, or Healing.

You know that the Virtues representative of the God Qualities are Flames. Their Heart Center has never been reached, and their circumference has never been measured. As mankind tap at the very surface of these Divine Qualities and taste a little of the elixir that is magic to their senses, it will draw them further and further into the greater experiences that lie within these Flames.

When you choose to come within the Flame of Divine Love, the Flame of Beauty, the Flame of Peace, or any other God Quality, you can feel that Flame enfold you and Its Radiation enter your consciousness, and there, like the lotus, it begins to open and the fragrance of Its gifts begin to raise your consciousness until petal after petal opens, one within the other, and your entire being becomes expressive of the Qualities upon which you meditate.

This can be done for another as well as yourself...where there is the requirement for Peace, or Beauty, or Light you can invoke the Flame that represents the Cosmic Virtue to be planted within that consciousness and begin to unfold there, until the consciousness, feeling that Radiation is awakened to an interest and goes deeper into the Search for the Light.

In earlier occult teaching there are Beings referred to as the Powers, the Dominions, the Principalities and the Virtues close to the Heart of God. These great Focuses of Flaming Power, Beings mighty as the Great Helios, these are the Cosmic Virtues which mankind trip so lightly on their tongues as "Faith, Hope and Charity".

Beloved ones, I trust that you have enjoyed this little review with Me, for as I look upon your inner vehicles they have been nodding their heads saying - 'yes, I know that' and so shall it be in your outer consciousness.

And so with a closing statement - to invoke these Cosmic Virtues where there is the requirement is a magic manner of transmuting the human consciousness.

BELOVED SERAPIS BEYApril 7, 1967Self Justification

Will I detect 'rumblings' in your consciousness when you read the heading of this Release of "oh, no, not me!"

Beloved ones, the unascended chela does not know when some individual may touch a sensitive spot in his or her feelings and will bristle at the comment or disgruntled remark of another. If this does happen, you will know that the personal self is still an entity desiring justification.

The mind of man is a series of thoughts and feelings, actions and re-actions which comprise a picture of what he thinks he is and his relationship to the universe surrounding him. This is the personality, which the individual desires to protect, and the energy of his being is poured constantly into appeasing and cultivating the requirements of this little self.

Now that the chela has progressed along the Spiritual Path and has conscientiously used the Sacred Fire of Transmutation and Purification, these defensive feelings are of a minor nature but be ever on the alert for the intruder who steps on your toes, so to speak. One who is striving, and advancing, toward the Goal of being The Christ Presence in action can be very susceptible, and it is the Divine Love which I hold for each of you that prompts Me to counsel you in this regard.

The personal self, apart from God, is an individual entity with separate tendencies. The momentum of holding the little self in such esteem through the ages has created a substance which has formed a dense or unclear condition in the consciousness, and this must be removed before the Happiness and God Perfection can be brought into being.

The vehicles of expression belonging to the Beloved "I AM" Presence which the life-stream inhabits were intended to be conductors of the Goodness of The Creator of all Life and for the expansion of the Gifts of the Fourth Dimension in the physical appearance world.

The consciousness of the personal self must be withdrawn from the outer enjoyment back to its Source, which will result in inner peace. Spiritual meditation, true art, color and music play an important part in this renouncement but entering the 'inner sanctum' of The Christ within will more quickly loose the hold of the outer which has enjoyed such a long tenure in your worlds. Be assured that the entire Host of Heaven are ready and willing at all times to assist you in this renunciation, when invoked, for every lifestream who has reached the point in its evolution where it desires to return to the Kingdom of Perfection is deserving of added assistance.

All consciousness is part of the Whole and while any part of the Universal Consciousness is enmeshed in false concepts, the Over-All Pattern of Perfection cannot express. Therefore, the Ascended Master Consciousness continues

to draw inward towards the Source of Being, on the inflow of the Life Breath; all the consciousness on the Planet is flowing inward in like manner, in plant life, animal life, and the life of man.

You can well realize how very important it is to condition your consciousness at this particular time to assist all the evolutions of this Earth to be prepared for the Cosmic In-breath which will draw all closer to their Great Source.

I admonish you to plunge constantly into Sea of Godliness, which is within, and be on guard at all times that the little self is no longer recognized or defended in thought or feeling. Once you actually get the inner feeling in the tranquil waters of Spirit you will find that you can actually 'cruise' to the Home Port, as it were, and not be buffeted about by the violent storms on the seas of imperfection and turbulence.

So, come with Me into the Heart of the Cosmic Consciousness on the Wings of Pure Divine Love and imbibe the Elixir of Spirit, the Living Essence of Perfection, where We shall, together, raise the consciousness of the evolutions of this Earth, and serve as ONE to the Glory of The Almighty.

Thank you for your acceptance of the Feeling given in this Release and for your determination and constancy to fulfill that part of your own Individual Divine Plan which was allotted to you, in Divine Love by The Creator of us ALL!

NEARER "I AM" TO THEE

Nearer "I AM" to Thee -
God-Self Divine;
Let me Thy Light now see -
My own God Design.
Be Thou my mind and soul;
Cleanse me and make me whole
'Til I attain my Goal
And ascend to Thee.

Holy Christ Self of me,
Reveal Thy Pow'r;
Let me Thyself now be
Every passing hour.
Now at Thy Holy Shrine
I see God's Plan Divine;
Love shall my world refine
And make me like Thee.

I see Thy Presence now
Bright as the Sun;
Thy crown upon my brow
Means my Vict'ry's won.
I hear Thy welcome voice,
And Angels now rejoice
That, given Freedom's choice
I return to Thee.

As Heaven's gates so fair
Now open wide,
I know that earnest prayer
E'er has been my guide.
Grateful to Saint Germain
For use of Freedom's Flame,
All bless His Sacred Name
For Eternity.

MELODY: "Nearer, my God, to Thee
