BELOVED LORD ZADKIEL

THE TEMPLE OF TRANSMUTATION

PURIFICATION BY THE VIOLET FIRE

Pulsating in the Etheric Realm over the Island of Cuba, is the magnificent Temple of Transmutation, presided over by the Archangel Zadkiel and His Divine Complement, Holy Amethyst. In ages past, this Temple was a physical Focus located on the surface of the Earth in the days when Cuba was a part of the great continent of Atlantis.

When the Atlantean culture flourished, there was a 'White Order' of unascended lifestreams who were the Priests and Priestesses of the Order of Zadkiel. They wore purple robes with a white Maltese Cross upon the back of the garment.

The requirement was vital for a Temple of Purification to be established in the physical octave of Earth as part of the 'White Order' activities. This Temple was circular in form and very large. It was built of pure amethyst brought from all parts of the Earth and its great dome was crowned with a golden figure of Holy Amethyst.

Within the Temple itself, Archangel Zadkiel invoked and radiated the Violet Fire of Transmutation and Mercy into the atmosphere of Earth. Upon the great Altar, also builded of the same beautiful amethyst, was a mighty Focus of the Violet Fire which was attended by the Priests and Priestesses of Lord Zadkiel Who instructed them in the activities of invoking and radiating the Violet Transmuting Fire.

Around the central Temple of Lord Zadkiel were builded seven lesser Temples in the same circular design. From the Golden Dome of each

of these Temples there arose a living tangible Violet Flame which could be seen for many miles in every direction.

The Ascended Master Saint Germain was one of those Priests Who served in the Temples at that time, so it was not happenstance that drew Columbus westward across an uncharted sea to the Island of Cuba so long ago. It was the magnetic pull of Lord Zadkiel's Temple and Saint Germain's personal love of the Violet Fire Itself.

If it had not been for this Focus, the Flames (Virtues) held in other sections of the Atlantean Continent by other members of the 'White Order' could not, and would not have been sustained, nor would they have been allowed to later be carried to other parts of the landed surface of the Earth when the Atlantean Continent sank beneath the waves, at which time this entire Focus of the Violet Transmuting Flame was taken into the Etheric Realm where It still pulsates and radiates for the benefaction of all life everywhere.

With Beloved Holy Amethyst as One of the Sponsors for this year, there will be an accelerated Activity of Transmutation released by Holy Amethyst, Lord Zadkiel, and the entire Brotherhood at the Temple of Transmutation in the Etheric Realm over the Island of Cuba. The enlightened chela will realize that there is a wonderful opportunity this year to consciously serve with this Brotherhood to further bring about the Purification of the Earth and Her evolutions, through accepting the efficacy of the Violet Fire and then USING It for that dedicated purpose.

May Day

by Saint Germain

Ah, this is a glorious Day. The Beings Who comprise the Elemental Kingdom are putting forth their best efforts to cleanse the atmosphere with their strong and purposeful activity. Can you imagine My feeling of Love when I was invited to Shamballa by Our so gracious Lord Gautama to celebrate the Anniversary of My Ascension.

Early this morning, My Consciousness naturally considered what could be done to give the greatest blessing to the evolutions of this dear Earth.....Simultaneously I received a response from Beloved Helios and Vesta saying that the Beings of the Elements had been instructed to enter into a special service of Transmutation in recognition of the Violet Flame.

One of the most important activities in which the Spiritual Hierarchy is engaged in the purification of Long Island. Intensified Rays will come forth in the near future to raise the vibratory action of this Sacred Isle and She must be ready to receive them. The vibratory action of Long Island MUST BE ACCELERATED, and thanks to the efforts of the chelas of The Bridge to Freedom, tremendous purification has already taken place, - but I must emphasize that there is still a long way to go to accomplish Our Divine Goal.

Returning to the activity of the Beings of the Elements, I wish to direct your consciousness to the cooperation of all the Beings in Heaven's Realms. We have stated time and again

that when a thought is born within one's consciousness, that idea receives immediate response from those who are turning their attention to a compatible subject. So, when I was considering what this dear Planet did for Me, individually, the response from the Directors of the Elements came to Me on the return current.

Oh, the Beauty of this particular May Day. The Sky is an exquisite blue; the blossoms on bush and tree are gratefully smiling as they unfold their buds to the sight of the onlooker, bearing witness to their obedience to the Law of Love.

The earth substance is being warmed by the Sun, and the Sylphs of the Air are cavorting as they follow the 'unseen' rhythm of the Violet Fire which is engaged in a magnificent service to this locality.

In the days when electric washers and dryers were not in common use, one could notice on a clear day the clothes hung upon a line flapping in the breeze....and how pure the smell of that wash as the elements of Sun and Air rendered their cleansing service. I believe that is a good comparison of what is taking place on this Island today. All the elements had been alerted to the activity of the Violet Fire, and they are happily 'fumigating' this area.

I would direct your attention to the rapport enjoyed by all in Heaven's Realms, and how grateful We always are to serve in a cooperative manner. The Beings of the Elements are grateful for the efforts of those abiding on this Planet, and the Angelic Host always respond when They may participate in any manner to accelerate the Divine Plan.

At the close of this day, the Angels of the Violet Fire will encircle the Earth, bathing Her in the Essence of Transmutation. You, of course, realize that the more purification which stems from Long Island, the greater the purification of the entire Planet.

Since this month is dedicated specifically to the activity of the Ascension Flame at Luxor, you can well understand that the Mighty Serapis Bey, Lord of the Ascension Flame, did not hesitate for a moment to offer the services of His Brotherhood. The Angels of the Ascension Flame in countless numbers, and Beloved Serapis, are at Shamballa today releasing the raising service of that Flame, in conjunction with the Violet Fire. Knowing that the Great Chohan of the First Ray, El Morya, is a Man of Action.....He said you can always depend on the activity of God's Will.....Thus, His Legions and those of Beloved Lord Michael are here in the combined activity of the First Ray.

Beloved El Morya is specifically engaged at this time with the Affairs of State in these United States of America, as well as in other localities where negotiations are taking place, but, like the Great Commander which He is, His lieutenants have been assigned a responsible service while He joins Us at Shamballa for the Celebration of the Spiritual May Day.

At the conclusion of the Service, Angels and Devas of the Seven Rays will enfold the Earth in a Rainbow of God's Love. For Divine Love, dear ones, is service....not duty....through an expansion of the Gifts of the Godhead to widen the Borders of the Kingdom, thus enriching the Universe with Light and Love.

Blessed chelas, I trust that this worded description will enable you to visualize and comprehend the camaraderie enjoyed by the Beings in Heaven's Realms and stimulate your consciousness to further cooperate with Us so that you, too, may imbibe more fully the Elixir which is within the activity of Love Divine.

Please accept My eternal gratitude for your desire to serve with Us in the restoration of this dear Earth, and go now into the library of your consciousness and take out the record which is labeled THE VIOLET FIRE - and use, oh use it, in contemplation, through qualification of music, in worded decree, and through charging any mental or physical service in which you may be engaged, with the purifying activity of the Violet Fire of Transmutation.

As I conclude this Message of Love, I place a Mantle of Violet Fire about you, to personally assist you in your individual purification.

I LOVE YOU.

Saint Germain.

PROTECTION OF YOUR CONSCIOUSNESS
by Saint Germain

It is My great privilege to expand the Cause of Freedom on the Earthplane. Freedom is not a quality which is injected into a lifestream, for love of Freedom is as inherent within life as is the love of Life Itself.

In this New Day, dedicated to the Freedom of this Planet and this System of Worlds, you will see the God Power stretching forth and bursting the chains of limitation. Remember that Freedom and Expansion are One; Freedom and Activity are One; and Freedom and God are One.

When individuals open their consciousness to a realization of the presence of the Ascended Host, the Angelic Host and the Powers of Light, they invite and force in their experience through the natural Law of their being a companionship, friendship and association with these Divine Beings, and while yet unascended they are enabled to walk and talk with the Masters, - Who will always respond to an aspiring consciousness with Their own Personal Presence.

In general, the minds and feelings of the people have locked their consciousness against the entrance of these Celestial Beings and, by refusing to entertain them within, They had no open door through which the gifts and powers of the Masters may flow into their personal experience, because all of the activities and powers, and the qualities as well as the miraculous expression of the God Life reach the individual's world through the realm of that individual's consciousness.

We are continually stressing the tremendous possibilities that within your present grasp as you consciously invite, invoke and entertain the Arisen Host, allowing Them to fill your consciousness with Their confidence, Love and Light and Their Cosmic ability to wield the Sacred Fire in order to intensify and increase the Good in the Universe.

Your consciousness being so sensitive to the impressions of your senses, must be held in a steady determination upon the Good, until the momentum of Good has attained sufficient foothold so that the consciousness, by its own vibratory rate, will naturally repel imperfection.

When We refer to different states of consciousness, - We refer to conditions of thought and feeling that vibrate at many different wave lengths, and you may plug into the mass consciousness of any wave length you desire, your individual consciousness becoming one with the entire accumulated mass consciousness, vibrating at the rate which you have chosen.

This is particularly helpful for the awakened individual who wishes to unite his consciousness and individual endeavor with that of the Ascended Host, because according to his individual endeavor to maintain a vibratory action of thought and feeling that will enable his consciousness to be one with the Masters, such an one received a tremendous benefit of the full momentum of the Perfected Beings, and his consciousness is strengthened and enriched by all the qualities and powers within the COSMIC CONSCIOUSNESS.

In reverse action, the individual who al-

lows his consciousness to vibrate at a very low speed, tunes into and becomes one with the mass consciousness of depression, annoyance and weakness, and this only adds to his own accumulation which makes it very difficult even for the Ascended Masters to extricate him. You are aware of the activities of Archangel Michael and His Limitless Legions of Light, Who serve ceaselessly to cut the souls of men free from the astral and psychic realms. Many have thought that this activity dealt with the other side of the grave, but by far the greatest amount of time and energy is devoted to the cutting free of lifestreams still in embodiment from the mass consciousness, to which they have attached themselves by self-conscious choice and use of free will.

In the case of the chelas, they must feel that their consciousness is the most important, and in fact the only lasting activity of their lives. They must realize that their only contact with the Ascended Masters, the Angelic and Seraphic Hosts, and the Devic and Cosmic Beings is through the avenue of their own consciousness, and in no other way, if its vibratory action is connected with the appearance of the outer world they, themselves, close the door to the Higher Consciousness.

For many centuries - men have fed what is called the 'mass - consciousness' of the world through certain beliefs in evil, certain thoughts and uncertainties which vibrate like a blanket of heavy fog in the atmosphere in which men move. To move in the world and be not of it, one must have his consciousness so completely severed from the recognition and acceptance of any imperfection, that there is no tiny line of force which can connect him to the mass accumulation,

which immediately begins to flow back to him and bind him more firmly in the bands of human separateness.

To rid your consciousness of every quality and manifestation that is imperfect is to completely sever yourself from the mass consciousness of the outer world and allow it no longer to have entrance into your experience. While these qualities lie dormant within your consciousness, known or unknown, - there is always an avenue of entrance to the mass consciousness, and the further the chela proceeds upon the Path, the more subtle will be the tests by which his consciousness will be stirred and tuned into the human consciousness, in one manner or another.

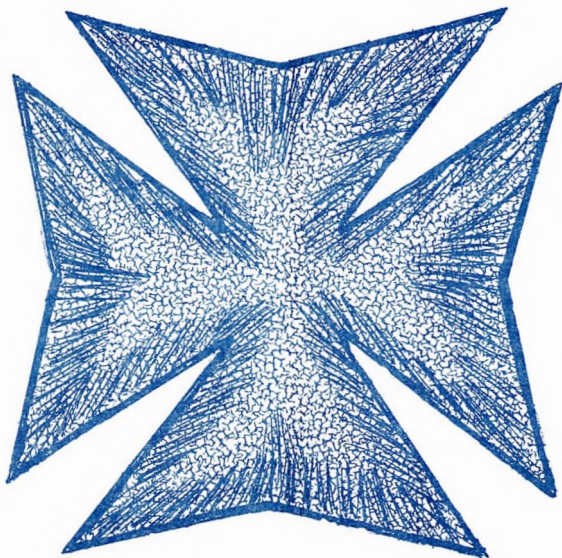

It has been stated, and truly, that 'a house divided against itself cannot stand', and a consciousness which entertains good and then evil alternately, will have neither expressed fully through the lifestream. This is not mastery, because while externals have more power, the individual lifestream cannot hold the consciousness inviolate against the entrance of discord and imperfection.....Such an one knows neither security nor full freedom, because in the case of sudden shock or emotional strain, the inner consciousness will immediately withdraw from the Divine Security of the Higher Octaves and tune into and become one with the appearance.

To invite the Ascended Masters and Cosmic Beings to fill the consciousness with Their Qualities, Strength and Light is to build into the consciousness a strength which will, by its very nature, repel human appearances. This natural Light drawn into the consciousness by the invocation of the individual to the Ascended and

Angelic Host will accomplish IN PEACE what the chela could never accomplish by effort of human will.

In the not too distant future, the Feeling World and the Realm of Consciousness will be revealed through the scientific world, and will revolutionize medical channels, and will teach the people true self control and mastery. Individuals will then keep their consciousness like the Holy Grail, completely free from the slightest tinge of shadow, and will draw as much Light, and as much Cosmic help as is required through that pure consciousness for the enrichment of all mankind.

Hand of God

by Holy AEolus

In the activity of the New Age, which will be the final manifestation of an era of great perfection for the Earth and her people, every hand of every lifestream will become a Hand of the Holy Spirit.

The dedication of the hands to the Holy Spirit was a most important ceremony in the days of Atlantis. It took place within the Temple, and was a most sacred sacrament...Individuals, who, after long thought and serious contemplation, chose to relinquish the free will action of their hands into the greater use of the Invisible Deity, would place their hands upon the Altar, and through the offices of a Priest or a Priestess of the Flame, have those hands united with the Cosmic Will of the Universal First Cause. Through the centuries, these individuals have carried that particular connection, and their hands have become naturally qualified to soothe, to heal, to convey blessings. This custom of the consecration of the hands is pursued down to the present day when an individual has chosen to dedicate his lifestream to a Cause, and is admitted into a certain Order. There is no limit to the service that life can render through the hands of an unascended being when dedicated to God-Cause. Sooner or later, every man must give his hands as well as his heart to God, but those who volunteer and precede that time are not only more loved of God, but experience the ecstasy of pre-dedication within themselves. The willing hand, dedicated to the Holy Spirit, can become the Hand of God in action.

PUT YOUR FAITH IN GOD'S UNFAILING LAW
BY BELOVED LORD ZADKIEL

Dear hearts, Beloved Saint Germain and I have talked together so often on just how - in the most efficacious way - We could present to you THE ABSOLUTE UNFAILING LAW of the USE OF THE VIOLET RAY AND FLAME, - so that you can and will use it with faith, confidence and certainty, as do the Ascended Hosts of Light right here in this physical world. Every time We come to you, We bring a concentrate of the Violet Fire with Us and, during the time We are with you, you are buoyed up to a certain extent by the feelings of Our confidence in Its reality and use, - some of the substance of that Ray and Flame remaining permanently in your worlds. However, when you return again to the experiences of your daily living and the limiting shadows of human creation seem still to appear in your own experience, it seems difficult for most of you to stand alone with your God, judging not according to appearances, giving all power to the transmuting activities of the Violet Fire of Freedom's love to remove those shadows, letting that Violet Flame replace them by Perfection's Light. THE VIOLET FIRE ALWAYS LEAVES A RESIDUE OF ITS OWN SUBSTANCE OF DIVINE LOVE wherever It passes through.

THINK.....Just where are you placing your

Faith?.....Where are you allowing your faith to abide?...Where are you placing the power, which is really your own life, in the appearances which plague you; in the appearances which displease you, or in Almighty God and His Virtues and Rays.. These are as available to you at your conscious call as the air you breathe, the water you drink and use for bathing purposes, and the Earth which you use as a platform beneath your feet. Did not Beloved Jesus say; "For everyone that asketh receiveth...."?

The Violet Ray and Flame are tremendous momentums of God Power. Perhaps you will remember that the Beloved Sanat Kumara was the very first Chohan of the Violet Ray to this Earth, and our Beloved Kwan Yin (Goddess of Mercy) was One of Its Chohans also. Beloved Saint Germain, long before His Ascension in 1684, - knowing of the conditions upon this Planet, and realizing the tremendous necessity for the purification of the energies of the Planet and Her evolutions, did volunteer to have that Violet Ray really grafted into His Own heart. Thus He came into embodiment century after century as the most powerful concentrated radiating center of that Violet Ray and Flame until the very places where He lived and everywhere He moved, the scent of violets was clearly discernible and Rays of Violet Fire energy drove into the actual substance of Earth. I can tell you that, when mankind have ceased to feed their various differences, individual, national and international; when the surface of Europe is cleansed of the distressing wars and blood baths which have been perpetrated there, (this impurity not only upon the surface of the Earth, but within Its substance also), man will find that every place where "The Wonderman" of Europe walked, there are deposits of the amethyst

jewel.....One day these will be found by those embodied here and utilized as talismen of the Virtues of Freedom, - and will be carried from wherever they are found to places all over the world.

Even in this country, every place where Beloved Saint Germain has walked, there are deposits of the magnificent amethyst.....Divine deposits created by His invocation of the Violet Ray and His constant and absolute devotion to It. Wherever the jewels of the Violet Ray have come forth in commercial pursuits, some member of the Order of Zadkiel had a Temple in that place at one time or another, and had utilized the vibratory action of the Seventh Ray there. So, the people who wear the Amethyst jewel upon their person are really using the condensed energy of prayer force, invocation, power and magnetization of the Priests and Priestesses of the Order of Zadkiel. Every individual who has personally benefited from the commercial sale of this life essence (the amethyst), owes to the Order of Zadkiel a certain balance in service to life for the profit which they have created from the use of the energies of the Brothers and Sisters of the Violet Ray ---- condensed in the form of this jewel.

In the days and years ahead, when the greed and the selfishness of mankind have been removed completely, - cause, effect, record and memory; when each lifestream is anchored within his own heart flame, - and he is able to magnetize and radiate the substance required to precipitate the food, clothing, housing and general sustenance of the body; when there is no longer any fear of lack, these magnificent jewels which are held within Virgo's Own body will be released

again into the use of mankind. Then they will be used mostly to adorn the Temples or as foci (talismen) to magnetize more of the Virtues of the Seventh Ray from the Godhead. The great gold deposits now safely kept secret will also be released for the use of all, not so much for personal adornment, but to use in many, many ways to bring forth the beauty and perfection here which will make our Planet like unto the Kingdom of Heaven - that perfection God created here in the beginning and which He desired to have sustained forever.

At Inner Levels of consciousness below the Perfected Realms, just what does the Violet Fire do - and what is the service of Its Ministering Angels? As you have been told, there are limitless Legions of Angels of Mercy and Compassion (Qualities of Violet Fire) Who give as much service as They can in the Astral Realm. This is the Realm which constitutes most of the Earth's atmosphere, - in the past and up to this time, for that Realm extends out from the Earth about ten thousand feet. In this Realm abide the destructively qualified thought and feeling forms created and released by mankind during embodiments here. As a soul leaves its garment of flesh in what the world terms 'death', that one is met by certain Angels who render a great service. These souls are taken to the River of Violet Flame - (spoken of in mythology as 'The River Styx'). This river has been provided at Inner Levels for the purification of those life-streams from as much discordantly qualified energy as is possible, before either going to the Sleepers Realm (if they need that rest), or before appearing before the Karmic Board to receive their assignments of study and service at Inner Levels between embodiments. You see, this Astral

Realm, which at present extends around the Earth up to about the ten thousand foot altitude, is that Realm in which the outer bodies, minds and feeling worlds of Earth's evolutions abide..... Therefore, you can understand that these ministering Angels are very busy every moment of the twenty-four hours as you count time.

This river of Violet Fire has been drawn forth by Those Who serve the Seventh Ray according to the same principles which We described to you. It is the drawing - first of the Ray through invocation to the Godhead, in the Name and Authority of the creative word "I AM", then as that Ray reaches the destination into which It was called forth, It immediately turns upward in the living Flame activity, as It returns to Its Source, completing the circle of Its existence. As this invocation is rhythmically continued day after day, year after year and century after century - (in the case of the Angels Who have drawn this River of Violet Fire), this Ray and Flame become very powerful and expands in size until they become a veritable River of this merciful, purifying, freeing essence, into which the evolutions of Earth may be taken between embodiments for as much purification as possible. This River has been sustained by the constant, never-ending, rhythmic calls of these Angels at definite periods during the twenty-four hours.

The beauty of this Violet Fire River is indescribable, therefore Its appearance does not frighten these souls who have passed through the change called 'death' when they are invited to step into It and bathe in Its substance. This Violet Fire then dissolves much of the causes and cores of the physical distresses of the in-

dividual's past Earth-life, - especially those which caused their recent demise.

Legions of Violet Fire Angels surround the Halls of Karma, as the soul who has just been released from an Earth life is called to appear before the Karmic Board. These Angels provide an atmosphere of purifying Violet Fire there so that every soul who, as he appears before the Karmic Board, must pass through Their radiation as they enter these Halls. Then, when the souls are given their individual assignments for instruction and assistance between embodiments, some of these Violet Fire Angels go with them to their places of abode at Inner Levels. While in these Inner Spheres, the Violet Fire Angels often use a very delicate shade of violet so that, as easily as possible, They are able to minister to these individuals without arousing the rebellions and resentments of their inner bodies by too quick or powerful an activity, even of the Mercy Flame.

Again, before entering the Gates of Birth, when the soul who desires to re-embodiment stands before the Great Karmic Board to ask permission to do so, these lovely Angels of the Violet Fire stand around the Karmic Halls - circle after circle - tier upon tier - as far as the eye can see. The love and beauty of these Violet Fire Angels is simply beyond description. Here again They provide an atmosphere of mercy and purification to assist the soul who needs Their help.

Especially since the advent of the Seventh Ray to this Planet, whenever and wherever possible, the Angels of Mercy and Compassion go with an incoming soul, going into places, sometimes, which are not too pure. They endeavor to prepare the home and its atmosphere (as well as the

parents - as much as they can) for the coming of the infant. At times, such an Angel is permitted to remain with that infant for a while, at least until the time comes when its little mind is disabused (shall we say) of the reality of Angels. When this 'shell' of rejection in thought and feeling is thus set up around the child, this beautiful Angel must leave that one and return to the Inner Spheres again.

Angels of Mercy and Compassion are always serving as much as possible in hospitals, mental institutions and foci of mankind's need and discord. Today, some of these are actually living in the auras of the conscious chelas (those of you who are daily consciously calling forth the Violet Fire, at least six of these glorious Beings stand around every conscious chela who call forth daily the Violet Fire for purification. These have been with you for quite a few years now). Such Angels await your daily conscious recognition and calls for Their greater assistance to your use of this merciful Flame of Freedom.

Beloved ones, the use and activity of the Violet Transmuting Flame here in this physical appearance world is so simple. There is nothing occult (meaning 'hidden') about it, and it certainly does not require the mind of an Einstein to comprehend it. One is merely required to make the sincere and conscious call in the Name of his own individualized Presence of God "I AM" to these specialized Beings Who have been trained in the invoking and projecting of this Violet Ray and Flame.....Such Beings to Whom you have called, instantly direct that Ray and Flame into this physical appearance world. Then - having called It forth, ONE MUST EXPECT Its raising of

discord into harmony as the Violet Flame arises in, through and around that which is to be purified. You have all witnessed transmutation as you light a match, and by its flame burn a piece of paper. It is just as simple as that. However, because the physical senses - especially the eyes and ears - do not yet see or hear the physical Flame of Violet Fire, It seems not quite so practical to you AS WE KNOW IT TO BE, - AND AS IT TRULY IS.....

ADDRESS BY BELOVED SAINT GERMAIN

"I AM" THE SPIRIT OF FREEDOM ...I bring to you a remembrance of the fact that you are FREE-BORN - free-born out of the bosom of the Eternal Father, - invested with the same Immortal Flame of Life by which every God Intelligence that has ever attained perfection won His or Her Freedom. Within your hearts is the Flame by which the Archangels soar in Their passage from one sphere to another to the realms of the Sun behind the Sun.

Within your hearts is the Flame by which the Mighty Elohim of Creation project Their wonderful ideas into the manifest world. Within your hearts is the Flame by which every Sun God and Goddess in the Universe create and sustain Their Solar Systems.

You are free-born, dear people, in the use of life and light, - in the use of thought and feeling which are your instruments of creation. You are also free to walk either in the ways of men or of angels, and to transfer, through radiation and example, this freedom to others.

Through the atmosphere of Earth tonight, I CALL in the great NAME OF FREEDOM to every man, woman and child, every angel and elemental, evolving in one form or another, on the Earth's surface.

YE ARE FREE-BORN.....ARISE AND ASSERT YOUR DOMINION. Throw off the shackles of your individual imaginings. Square your shoulders. Prepare to wear the ROBES OF FREEDOM.....And give this Freedom, by the power of radiation and contagion, to your fellowman.

I CHARGE and CHARGE and CHARGE you tonightwith the most powerful pressure of the Freedom Flame that has ever been known outside of a Retreat....ACCEPT IT deeply within the energies of your beings, and FEEL THAT FLAME regulate for you the atmospheric conditions in which you live, your personal affairs, your relationship to the Godhead, and give you the Ascended Master Consciousness while you still walk the Earth.

The Cosmic Law demands....that My voice be heard NOW by the mankind of this Planet which is destined to be FREEDOM'S STAR, but you are also My lips, My voice, My message. You are My Radiation and the POWER OF CONVICTION that will show mankind, by your word and example, the Freedom that is within the Violet Ray. Upon YOU I depend for that FREEDOM expressed.

* * * * *

Now, - beloved friends, I will give you an object lesson on the Power of Precipitation.

First, - you must realize that in order to

become masters of energy, - it is necessary to use the instruments of power with which we were endowed in the beginning, to both draw and dispense energy. These powers, beloved ones, are symbolized by the Crown and the Sceptre.

The Sceptre is the symbol of the rod of power. This is the same symbol that Sanat Kumara used to keep this Planet and its people from flying off into space. It is also symbolical of the rod of Aaron mentioned in the Scriptures.

The Crown is symbolical of the raised consciousness.

Within yourself, the Sceptre is your power of invocation - the power of concentrating your energies in mental or physical invocation on the higher Octaves, by which concentration the currents from above are drawn down and CHARGED and CHARGED and CHARGED into the condition to be rectified.

At the same time, the heart and mind (our consciousness) must become still long enough to let the Presence of God reveal to and through you that which should be done in the particular situation which prompted your Call.

All the power of the Sceptre is worthless unless there is a receptacle (Crown) into which the concentrated energies may be released, transubstantiated and prepared for dissemination to mankind.

The power of the Crown is likewise worthless without the invocative power of the Sceptre.

When you combine the two activities, - the power of invocation (Sceptre) with the quiet and reverent listening of the raised consciousness (Crown), you will have a completed operation, otherwise it is only half finished, - which is the main reason there are not more satisfactory results from your Calls.

You see, dear ones, if you are so busy with your Sceptre that your Crown is in a constant state of motion, making it impossible for your brain to catch the message from above, what good would you be in an emergency?

On the other hand, if you are busy visualizing ephemeral temples, flitting from cloud to cloud in a personal escape, not willing to draw down the Light, - either from your Presence or from the Angels, you have also missed the mark. It is the MIDDLE WAY alone that brings results and marks a safe pathway for your journey.

I thank you and I bless you, each one.

Saint Germain.
