LET THERE BE PEACE ON EARTH, Words & Music,- Back Cover -  
(and Let It Begin With Me - )

About the Cover:

The Cover Picture is of the International Children's Choir, as shown on the front cover of the Record Album described on page 6. These 90 children represent every race and nationality, and their age ranges from about three to eleven or twelve years.

The entire triple feature, including the front and back covers has been used in this issue at the behest of our Grand Director and Editor-in-Chief, The All Knowing One whose directives we follow implicitly.

We were instructed last December that the scope and format of the magazine should be greatly broadened, and let the chips fall where they may. It is our greatest hope that all who come to the Spiritual Feast in the Father's House will partake of His Bounty until your "cup runneth over" and that you may truly grow in grace, knowledge and understanding. Truly, NOTHING ELSE MATTERS!

Most Sincerely, Brother Francis.

THE EDITOR'S PAGE

So-called time marches on apace and the pace gets faster and faster as the mighty outpouring of Spiritual Energies upon the Earth continues. The period between Easter and the Summer Solstice, - nearly three months this year, has been especially potent. Perhaps most of you are aware of these peak periods when the great spiritual Light, Love and Power of the Cosmic Christ flood the earth beginning with about two weeks either side of Easter then blend into the Buddhic outpouring at the Wesak Festival and finally the 'Festival of Humanity' and the Summer Solstice more or less coincide. You may remember that there was a short article in the May issue under the title of "The Festival of Humanity", the author of which requested that she remain anonymous.

During the latter period your Editor took a break from the everyday program here at Headquarters by spending ten days in the State of Oregon, first going to the dedication of the International Cultural Center of UNDERSTANDING at Merlin, June 19 - 21. Many prominent New Age speakers were there and the Spiritual Feast was excellent! In one way the weather was kind to us, for there was no rain at all, - but the sun outdid itself to warm things up, and UP!-well over 100 degree temperatures every day. The love quality was also on the ascendancy, - brotherly love, I mean, Many warm friendships developed between former 'strangers' or mere acquaintances, and in some of these cases there will result an active cooperation between individuals and groups that heretofore have remained apart.

The Convention itself demonstrated one very good example of the working together of two different groups or organizations. Understanding, Inc., headed by Dr. Dan Fry combined their mutual time and talents with Aletheia Association headed by Rev. Jack Schwarz, of Selma, Oregon. The Aletheia part of the Convention continued for the three days June 22 - 24, though it should be noted that they both took an active part in each others program.

During the week of June 22 - 28, I was the guest of Universarium Foundation of Portland, Oregon, headed by Rev. Zelrun and Daisie Karsleigh. Perhaps some of you have seen their magazine, The Voice of Universarius which contains some very fine material channeled through Zelrun while in a trance state. Many of the highly evolved beings who speak through him would be immediately recognized if their names were to be mentioned. While there it was a delightful privilege to visit several of the beauty spots in and around Portland. One of these was a beautiful secluded spiritual retreat called "Blesthaven" about twenty miles west of the city of Portland. I surely envy the lovely people I met there, and those who live near enough to share it when they need to recharge their spiritual batteries.

Needless to say, I availed myself of the opportunity to acquaint those I met in Oregon with the Father's House, and gave out a large number of sample copies, and gained a number of new subscribers as well. It was a special pleasure to meet personally for the first time with several who were already on my subscription list. Bless you each and every one, with the Infinite Light and Limitless Love of the All Knowing One!

- - Brother Francis

## "LET THERE BE PEACE ON EARTH"

*(Let It Begin With Me)*

By Sy Miller and Jill Jackson

Let there be peace on earth  
And let it begin with me;  
Let there be peace on earth,  
The peace that was meant to be.

With God as our Father,  
Brothers all are we  
Let me walk with my brother  
In perfect harmony.

Let peace begin with me,  
Let this be the moment now.  
With ev'ry step I take,  
Let this be my solemn vow:

To take each moment and live each moment  
In peace eternally.  
Let there be peace on earth  
And let it begin with me.

One summer evening in 1955, a group of 180 teenagers of all races and religions, meeting at a workshop high in the California mountains locked arms, formed a circle and sang a song of peace. They felt that singing the song, with its simple basic sentiment—"Let there be peace on earth, and let it begin with me," helped to create a climate for world peace and understanding.

When they came down from the mountain, these inspired young people brought the song with them and started sharing it. And, as though on wings, "Let There Be Peace On Earth" began an amazing journey around the globe. It traveled first, of course with the young campers back to their homes and schools, churches and clubs. Then the circle started by the teenagers began to grow. Soon the song was being shared in all fifty states — at school graduations and at PTA meetings, at Christmas and Easter gatherings and as part of the celebration of Brotherhood Week. It was a theme for Veteran's Day, Human Rights Day and U. N. Day. 4H Clubs and the United Auto Workers began singing it. So did the American Legion, the B'nai B'rith, the Kiwanis Clubs and CORE. It was taped, recorded, copied, printed in song books, and passed by word of mouth.

The song spread overseas to Holland, England, France, Germany, Lebanon. To South America, Asia and Australia. The Maoris in New Zealand sang it — even the Zulus in Africa sang it.

Professional singers took it up. Among them, *Ernie Ford, Andy Williams, Danny Kaye, Nat Cole, the Smothers Brothers, Roy Rogers, Dale Evans, Eddie Albert, Edie Adams, John Gary, Pearl Bailey, Roberta Shore, Champ Butler, the King Sisters, Mary Tyler Moore, John Raitt, Robie Lester, Liberace, Bob Crosby, the International Childrens' Choir, Jack Halloran, Gisele MacKenzie, Richard Summers, Lloyd Bridges, Patti Page, Angela Cartwright, the Young Americans, Carole Wells, Jack Smith, Pat Boone, Johnny Mathis, Rhonda Fleming, Stan Melton, Norman Luboff, the Bing Crosby, Bob Hope, Lorne Greene and Ted Mack TV Shows and Father Keller's Christopher TV Series.*

The song began to win awards. "Let There Be Peace On Earth" was awarded the George Washington Honor Medal by the Freedoms Foundation at Valley Forge for "Outstanding achievement in helping to bring about a better understanding of the American Way of Life." It also received a Brotherhood Award from the National Conference of Christians and Jews.

*This simple thought, "Let There Be Peace On Earth, and Let it Begin With Me" first born on a mountain top in the voices of youth, continues to travel heart to heart — gathering in people everywhere who wish to become a note in a song of understanding and peace — peace for all mankind.*

## THE DARKEST HOURS PRECEDE THE DAWN

By Brother Francis

JILL JACKSON MILLER

The story on the preceding page would be incomplete without a brief account of the principal highlights of the life of Jill Jackson Miller up to shortly before that time. This story was dealt with quite at length in the January 1966 issue of Pageant magazine, but it is not my intention to quote excerpts from that article. Rather I shall merely mention some of the same events.

Orphaned at a very tender age, she had a very unhappy childhood and eventually ran away while still in her teens. An early marriage and a career in the movies beckoned to her, but true happiness and fulfillment failed to materialize for her. Psychoanalysis was tried as a last resort in an attempt to save the marriage, but rather than helping her, it worsened her emotional state, and in utter desperation and complete

frustration, she attempted self-destruction. This too was unsuccessful and all it brought her was months of severe physical suffering and semiparalysis. Like many another great soul whom Destiny has a job for on this Earth, she finally came to the point of making a vow that if God had work for her to do and spared her life, she would put herself completely in His hands, and henceforth would try, as she says, to be "like a pane of glass through which the light shines". She did live, - she did recuperate, and to shorten the story, met and married Sy Miller.

It wasn't long before the Millers began working together by pooling their natural talents and produced several dozen published songs. One day while they were listening to an inspiring talk on the radio they heard the speaker point out the fact that the dream of World Peace can become a reality ONLY as it begins in each individual's heart. Of course this is nothing new to the scene of profound thoughts and ideas, for it is the essence of what our Lord the Christ taught over and over again two thousand years ago. He embodied this thought at one time in what has come to be called "The Golden Rule" - and also in the statement, "As a man thinketh in his heart, so is he!"

The Millers then and there decided to write a song embodying the idea. Jill feels that music 'puts wings on words and ideas'. Their song "LET THERE BE PEACE ON EARTH" is reproduced on the back cover. Jill and Sy Miller have personally asked me to make it clear that they gladly waive copyright restrictions to make it possible for any group or individual may feel free to copy or reprint it. Like myself, they too feel it a privilege to give freely of ourselves in love and gratitude to the 'Cosmic Christ' who indwells every human soul. May His Kingdom on Earth become manifest!

THE INTERNATIONAL CHILDREN'S CHOIR

(... "and a little child shall lead them")

Most anyone who watches Television has enjoyed the International Children's Choir on the Bob Hope, Bing Crosby, Danny Kaye or Lorna Greene shows, - among many others. This Choir was formed in 1957 by Mrs. Easter Beekly of Long Beach, California, as a kind of "Children's Crusade" - with "LET THERE BE PEACE ON EARTH" as their theme. Since then these littlest peacemakers, - ninety children of all races, nationalities, colors and creeds have been sharing their songs of joy, of hope, of brotherhood and peace with millions of people on TV, and in hundreds of personal appearances. In the years since then, there have been many, many requests for a recording of these songs.

**AND NOW HERE IT IS!** - This record is the happy answer for people of all ages who not only want to hear the children again, - but to sing along with them as a family, a group, or as an organization.

The words of all fourteen songs on the record beginning with the inspiring "Let There Be Peace On Earth" and the "Golden Rule" song, - are printed on the back cover of the Album to make them easier to sing and share. The combination of the children's voices, the moving and imaginative words of lyricist Jill Miller and the orchestra's sensitive treatment of composer Sy Miller's music, has resulted, we believe, in a record which will inspire people everywhere. The group photograph of the Children's Choir appearing on the front cover of the record album is being used as our own cover picture on this issue of The FATHER'S HOUSE through the courtesy of the Millers, Sy and Jill. Both they and Brother Francis of the Father's House hope that these songs will help each of us to live and express their simple philosophy, and bring more understanding and harmony to the world.

NOTE: Proceeds from the sale of the album will be turned over to organizations of good will such as UNICEF, People to People, etc., Because of this, the writers of the songs are delighted to waive payment of any royalties. If you desire a copy of this wonderful record album, see 'Book and Album Orders' inside back cover.

\* \* \* \* \*

"REMIND ME TO BE KIND TODAY, - a line from the Golden Rule song, and "LET PEACE BEGIN WITH ME" - a line from "Let There Be Peace on Earth are now being used as Bumper Stickers, signs for offices, homes and most everywhere else to help awaken goodwill in the hearts of people everywhere and a further step to help all LIVE and SHARE these ideas more widely. Make them up in your own area as service projects to raise money for worthy causes engendering goodwill, harmony and peace. Wherever used they are helping to heal gaps between individuals or groups due to age or race differences, as well as those that seem to divide one religion from another.

May we all share these songs and ideas in harmony and goodwill, and put them into practice in our daily lives, so that we each become part of building a world our hearts envision, - a world worthy of the highest in each one! As a man thinketh upon constantly (and acts upon)- that HE BECOMES!

## THE TRUE STORY OF JUDAS

Channel: Sara Simmons

I would like to relate to you a story, not just out of the need to do so, or to be understood, but because the time is coming when there will need to be understanding of events and concepts that for the most part have been distorted if not lost.

This is primarily my story of one lifetime, during the time of Jesus. As a little boy I was mischievous. I went to what you call school, but my attention was not always on what was being read and talked about. The Rabbi who taught us could be very stern and life could be very grim. And it seemed to me that life should be full of laughter, love and gaiety. Somehow I knew the time had come for understanding life as full of love, joy and goodness. Within myself I sensed a God who was not being presented to me by the elders.

When I grew up I was a business man and I had a lot of fun. I loved to go to parties and could out-dance anyone. However, I still asked to be shown what God was really like, because I could not accept the God nor the teachings that were given to me. One day I went to the hills, and was again asking God to show Himself to me. I heard a song, a chant, and thought it was a voice from heaven. I followed it and found sitting on a hillside a lovely woman. She was chanting and I had never heard such beautiful sounds. And I had never seen anyone as beautiful as this girl. I simply stood and listened and watched, and I thought this was the sound of God; that through her I heard the God I was seeking; that she understood God to be like I thought He was, - a God of beauty, love laughter and joy.

Then she smiled and simply said, "You came, didnt you?" I said, "Yes". And she said, "I was told to come and chant, and one would come who is very much needed to fulfill the plan that is about to begin." I did not know what she was talking about, but I followed her. She led me down to a little village not my own, and as I walked, there was at the other end a man. Suddenly I knew that this man could teach me about the God I knew had to be.

This man grew with me and I grew with him. He held out his hand and I became one with him and I followed him. He indeed talked of a God of love, joy and peace. A God that did not require rituals; who could be found in the hills or sky or wind, trees or rocks; who demanded not to go to a temple; who did not ask for sacrifice in the sense of animals or people; who asked only that you believe in Him and let Him, God, work through you.

I followed the man called Jesus, whom I call The Master, and I was content. I did not change much. I still danced more than anyone else, and some of the others disapproved. But I maintained that dancing is an exercise and fun. I became something of the business manager. The others had various kinds of training and backgrounds, but we all followed the Master and did as He bid us. I grew in my understanding, my awareness and my oneness with God. For to me this is what the Master taught: that each of

us is the son of God rather than the son of man. He would come as our friend as well as our creator, - this God of love, peace and joy.

I grew more, and they kidded me because I actually grew physically taller and stronger. I was filled with joy and with gratitude that I had been so lucky to be here at this time to follow this man and learn what He had to teach. Then the knowledge came to us that this man would not always be here to teach us. We would not have him for twenty, thirty or forty years. If this plan were to be fulfilled, he would have to go away from us for us to fully understand all he had come to teach us. We did not talk much about this, but each of us became aware that none of us knew how the plan was to be carried out. We did not know what was to happen to him, or how it was to happen, - we only knew that something would happen. And his last act would be to help us understand that neither the body nor the mind nor the spirit dies with what we call death. I am sure that each of us in our hearts wondered how this was to be brought about. I am sure that even though we believed everything the Master taught, we did not see how He could teach us there was no death. We did not see how he could actually resurrect the body, be the same personality and have the same soul.

Then there came a time when he told us he must prepare for that ahead and he left us and went into the hills. Suddenly I wanted to go into the hills myself to be alone. So I went to a favorite place of mine. I was quiet and at peace. One night I was awakened, and a voice said to me, "I have a job for you to do". I said, "Of course! I will do anything!" The voice said to me, "You know the one whom you follow must die." I answered "Yes, I know this." The voice said, "do you know how?" I said, "No." The voice said that he was to be crucified, and I cried out against this. I said "No! You cant do this! Not this way! This is how we kill thieves and murderers. This man is your son; how can you allow this?" The voice said, "This is the way it must be in order to carry out the plan."

So I sat and thought about this for a while, and then the voice spoke again, telling me he would have to be betrayed and given up unto the people that they might do this to him, in order that he might show us. Again I protested, "Who would betray the Master? No one would do this! We love him." And the voice spoke again and said, "You will betray the Master." I could not speak. I cried, and I ran trying to go where the voice couldn't find me, - running until I was exhausted. I found myself sitting beside a rock. To this day I swear that rock put its arms around me and said to me "You do not know that it is given to each one of us our own particular part of the plan. My part of the plan is to be a rock; I will not try to be anything else. This is my part of the plan, what I am to fulfill. You have been chosen because remember you have bragged about how strong you are, how much you love him, that you will do anything for him. You have taken pride in being the strongest, the boldest, and thinking you loved him the most. Now you are being asked in effect to prove this. Do you mean it?"

When the rock, or maybe the voice, spoke again it said, "All right. You wont do this. Who would you have betray the Master? Would you have His mother go to the soldiers and betray Him?" Of course I shouted, "No! No!" "Would you have Miriam go and betray Him?" "NO!" "Would you

have", and he named all the names, and with each name I had to say, "No, no. They cannot do it, they would not know how, they have not the strength, they have not the belief." "Then who shall do it? It must be done. It is part of the plan. Who will do this? Who will fulfill this part of the plan?"

Finally I understood that this is why I had come. This is why I was here. So I said, "Very well. Prepare me. For I know not how to do it." The voice explained to me how I was to do it. But it said much more than that. It told me to pray, that I might be filled with a higher consciousness. As it unfolded the plan for me, I was shown that only if I would truly reach the heights I claimed to reach in my understanding and my love, and in my oneness with God, only if I could truly do this could the plan be fulfilled as it needed to be fulfilled. For I was shown that when I leaned to kiss Him the God-consciousness or energy in me would pass to Him. This would raise Him to the level of consciousness He would need in order to endure that which must be done.

So even as He knelt and prayed and had His trial and temptations, I also knelt and prayed and asked for the strength I had always claimed to have. I asked for the awareness of God I had always claimed to have.

The time came to go back down. The days passed and we entered Jerusalem. There passed between us an understanding. He knew I had been chosen. I knew He knew, but we could not speak of it for the others were not to know. This was our burden we had to carry.

Then came the night of the dinner or supper, and there was one. Jesus told us the time had come for the final fulfillment of the plan. We all cried out in anguish, and I among them. Then of course He did say, "One of you will betray me." When each of us said, "Me?" I did not say it with a question mark. I simply said, "Me." And He looked and smiled and gave me strength for what had to be done.

When the time came I did nothing but pray. I had to fulfill my role. I had to go to the soldiers, and I had to come to the garden. At that moment when I knew it was time for me to lean and kiss Him, there came throughout my body a bolt of lightning. That is the only way I can describe it. In that moment it did not come from me but through me, and as I made contact with Him this bolt of lightning lifted Him up to the level of consciousness that He could do what needed to be done, that He could at all times have control over the situation. And believe me, He did.

When they took Him away I could not move. It was as though my body had been completely burned out inside. I had nothing left, and could not move. Finally, asking for help, I dragged myself to the hills. Again the voice spoke to me and asked if I wanted to come with Him to help in what was to be done. I answered yes, and that which was left my body. The report that I committed suicide is not true. God in His great mercy and understanding, and out of His great gratitude, released me from my body because I had done what He asked of me. There was not much left of it; I could not have lived anyway. The bolt of lightning had destroyed most of the inside.

I went and stood beside the Master, and was with Him and helped Him. To me this is one of the greatest rewards ever granted unto anyone. Then I was allowed from this side, to understand how after His body had died He could prepare it that He might enter into it, that it might function again, and that we might truly understand that there is indeed no death.

There is not even death for the body, if you truly understood this. When you claim your concept of God, when you claim your only parents are the Father-Mother God, how can you claim death? God is eternal. He must create the only way He knows how. He creates eternally. When He created each of us, He created us eternally. He does not recognize death as we know it. This was truly shown to me. There is no death. Not even the body really needs to die. The main reason we leave the body behind is that at other levels we do not need it. But the time will come when each shall understand the function of the body, and that it can be either left behind or taken and reused. It can be structurally, cell by cell, reconstructed at a higher level, or a higher vibrational rate. You can take your body and utilize it at higher planes, or you can leave it here, but there is death. That which is you, your personality or mind, does not die; your soul does not die. All of this was shown to me, and I was able in my own way to participate and help. I saw how He did it, and how He came back to walk and talk with those left behind.

Then there was a longing in me for a few people to understand why I had done it. It did not bother me that the populace did not understand. But I wanted the Mother Mary to understand, and of course she did. I need not have worried there. She was so grateful for my having done what needed to be done. I was glad Miriam understood, for she was very special and important since she had led me to Him in the beginning. There was another one I wanted to understand. She had been close with the group, and how she had loved! She had loved life, and danced and sang and was joyful. She had adored the Master. I used to sit watching her adore the Master and wished she would adore me the same way. Yet I understood, for who did not adore the Master? I really wanted her to understand, and to some degree she did. Later on she came to understand fully, and we have been friends ever since.

The night I was chosen to do this, I was made aware that I would carry this burden for aware that I would carry this burden for a long time. The majority of people would not understand, and would despise me and call me weak. To me, this is my burden. I who had bragged how strong I was must now endure the brand of weakness, and perhaps this is the most difficult to carry. Even yet, it is surprising, people in their thoughts send me nothing but hatred and misunderstanding. However, what disturbs me most is not my burden, but how, -HOW can the people misunderstand what the Master came to teach?

How has it become so distorted, so misunderstood, so misused? He taught love, forgiveness, joy, healing, and that everything is important from grass, roots, trees and animals to every living person. He taught that there is a oneness. God created all, and because God created all there is divinity in everything. He taught that we, you and I, are the sons

of God. We are not of physical parents, but are sons of God, eternal, divine, spiritual, perfect, with love, peace and integrity.

Christ threw out sacrifice, ritual and dogma. And what do we have? The people who claimed Him have killed in His name, have discriminated in His name, have built up ritual and dogma that have no meaning in His name. This is what I have trouble in accepting.

Can you imagine what would happen if He were to come to you people? Suppose He came with long hair, a beard, sandals and a white robe. Many would call him a hippie. He would talk about love and brotherhood, and you would say, "We don't want you; you belong with the kids. "

If He would say, "what are the churches doing?" If He would turn out the money-lenders and the idols from the churches, what would you do to Him?

How have you grown and learned? What has to be done in the next few years? How will people come to know and understand what they have forgotten? Or distorted? Or refused to accept? Do you really follow His teachings? Do you love one another? Do you find yourself at peace? Or do you each have problems, conflicts, worries, doubts, fears, and insecurities? Do you go about joyfully because your heart is filled with the understanding that you are a son of God? That all the things the Master taught and did, you can teach and do? Do you go about loving everything because it has been created by the One?

The message is so simple. It is not filled with ritual, dogma or even prayers. It is simply an inner calmness and knowingness. Whenever anyone asks me to describe the Master, the one thing I usually talk about is: as I walked down that street toward Him for the first time, I was aware of the profound stillness that abided within His own being. Whether we were walking, talking, sleeping, or He was speaking to the people, or healing, always there was the stillness within Him. Sometimes the silence was so loud it swept you off your feet. Sometimes it was so gentle you could feel nothing but love. Even in the midst of the storm there was the silence. This is how I see Him.

He obviously got impatient, He laughed and joked, but this inner stillness never changed. It was always there. No matter what happened out here, how things changed, how many people pressed around Him, how much need He felt, this absolute core of knowingness abided within Him. And perhaps that is where each of us needs to be at this time. This is what we need to find and experience and hold onto. No matter what happens out there, this absolute core of silence, stillness, calmness, knowingness, abides within each one. This core of silence is God Himself. God is silence. You will find Him in the silence and He IS the silence. He is the very essence of the silence.

#### MEDITATION

Let us know that within each of us at the very center of our being is this core of absolute silence. And in this silence is God. God is the very essence of this silence. You will never lose this. You are never without this core of silence. Most of us are so busy doing things outside, so busy

taking care of other peoples problems, taking care of our own problems--and if we have none we are making some--and so busy with worries. No matter where you go or what you do, whether you are here on earth, or on other planes, or other planets, or other universes, there is at the center of your being this core of silence. It is with you eternally. Most have covered it up with noises, fears, doubts, hesitations, and do not know it is there, - but it is. It dwells in the center of your being forever.

In the silence is love, peace, absolute awareness. This is where you find God, - inside yourself at the center of your being, in the core of silence that abides within you. It is there. As you become fulfilled, and as you reach ever farther down into the center of your own being, trying to touch this core of silence, as you go deeper and deeper within, you can feel it there. You KNOW it is! As you come closer and closer, your body has no choice but to respond. It becomes still, at peace, relaxes, and lets loose the tensions. It does not do this consciously, but as you approach the silence, your outer world must correspond.

As you come ever close and touch the outer edges of the silence, the mind is still. Not dead. It is alert and aware, but it is not frantic, running here and there, not thinking, "Oh I can't find the silence." It is just being silent, letting go, letting thoughts flow through without stopping them. Soon it slows down and even as I touch the silence, I touch God, and my spirit soars. It declares, "I am the son of God; I am eternal; I am divine; I am love itself; I am peace; I am joyful and I AM GOD!"

This you hear in the absolute silence in the center of your own being. You walk forth in this world, and no matter what is happening outside, your silence remains within you, with joy welling up and pouring out, instead of doubt and fear and concern. Love itself is welling up, and pours forth. You do not guide and direct it. It just pours forth in all directions, encompassing all things and all people. It comes from the silence within. There is peace that passes all understanding. All the strength and courage you might ever need for anything is yours. All the knowledge you need in order to accomplish your Father's business is at the center of this silence. All the guidance, help, ideas you need are within you, and is pouring forth. All you have, need, or ever want is within you. The job you might need is not out there someplace; it is within the silence within you. The understanding you feel you need with others is not out there, it is within you in your silence. All the understanding you need is in your own silence.

Everything you could ever need is at the center of your being is in this silence, - and this silence is God. Live in it, move in it, have your being in it, - for this is the message! If we are to fulfill the plan as it comes forth, each of you with your role to play, will need to touch the silence within you, that God may pour forth in all directions to all things and to all people. And there is PEACE and LOVE IN ALL!"

THE MARK-AGE HIERARCHAL  
PERIOD AND PROGRAM

Channel: Nada-Yolanda

The May issue contained 'Instructions for Light Workers' and there was mention of the "rending of the third phase of the seventh veil" which we are told has already transpired this year. "The seventh and final veil is that which has kept mankind as a race in the dark for 26,000 years regarding his true spiritual self, his realization his role in all creation, and his power to act as co-creator with God."

We are now in the framework of an evolving race of man going from the third into total fourth dimensional consciousness. Until now the Earth planet has been laggard in expressing this total fourth dimensional consciousness and frequency. Bound as he is by the third dimension, man is not free to express all his spiritual talents and faculties.

THE FINAL VEIL TO BE RENT BY 1982-1993

"My sons and daughters of the Light, I am Jesus-Sananda of the Hierarchical Board. You are admonished here and now to begin to be, to work and to live in My image and likeness on the Earth as I demonstrated in the last days of My last incarnation upon the Earth planet. As you know, this requires entire and full devotion to the program which is to lift all men into their spiritual consciousness and evolvment. But until you who are so dedicated and phased into this understanding can fully operate as I made the plan and program pattern possible, it is not entirely probable that you can expect this on a planetary or dimensional frequency plane.

That is why you are being reminded of this at the present time, because without your cooperation, without your fulfillment of the decree and announcement that one hundred forty-four thousand Christed ones can work in unison and fully conscious aspects, it is not to be expected entirely that the whole planet can move into the next phase of its evolution. This also holds back all light force that is connected with the planet as a schoolroom and place for evolutionary learning.

Your responsibilities are great in this respect. Your training has been quite extensive in this time sequence, of which we designate the hierarchal plan of 26,000 years as preparatory to the demonstration of which I now speak. All are not prepared, it is true! Many have forfeited their place and position as solitary examples, because of soul karma and disciplines to which they did not adhere. But without the demonstration of a minimum number, which is approximately 144,000 light workers in conscious operation, we shall not achieve that for which we have been striving in these days of development during the twenty-six thousand year cycle.

You are not to look upon any one individual as the panacea, nor are you to blame anyone or any group for the various failures that have befallen the race during this particular cycle of time to which we refer. But without conscious application, understanding, mercy and fanfare, all cannot be congealed and completed as it is understood from the beginning of the plan and the vow which we have taken upon ourselves as a race in evolution.

the Sonship with God. He must demonstrate his brotherhood in full enlightenment, in full acceptance and in full consciousness and desire for that brotherhood, that Love Ray, that peace and eternal rest that come within the breast of each one when he knows he is at one with God within himself, and can do no more than rest in God, and can be in God consciousness to do his work.

It has been conceived erroneously that Seventh Ray function of love, rest and peace means rest in the mortal or the material sense of the word. The rest of which we speak is the resting in God, and having no alternative or path to follow but that of God's will and wish, so that you meet and measure the cycle of full-blown spiritual development, - the seventh step and final initiation, at the first place where it belongs: i. e., in the will of God and via the truth of divine energy and beingness.

That is the true rest and peace man must know. That is the true rest and peace you shall demonstrate in these latter days. But that resting and peace within yourself, that assurance and conscious base from which you will operate shall serve as an upheaval and detriment to the mortal consciousness and the mortal will. It will bring about the most horrendous and conflicts within your fellowmen. Naturally it will bring about these conflicts within those most closely associated, for that is the area in which you are most concerned as individuals, and even as a race.

Let us examine first the individual responsibilities. Those are the ones where you individually have placed yourself, by Karmic Board decree, announcement and decision, to survive as an earth body and personality within this scheme and plan of the Hierarchy's evolving program. It is where you are best suited to serve and to give of your own specialty and unique function. Therefore you have chosen to be what you are, - male or female, white, black, yellow or brown; good or evil as the term may apply in the overall production of your deeds, thoughts and desires. But as you grow, you then demonstrate in this immediate cycle and familiar surroundings, and give off whatever produce is of concern to those immediately concern with you as an individual in your own special function or talent, and bring about what changes must be in the area of your own specific promotions.

But now we speak of you as a group, and the nearness of those who are influenced by you as a race in embodiment upon the Earth. Those will be the individuals upon the astral planes or kingdoms upon the Earth who are influenced by man's decisions, actions and thoughts. This is the group responsibility. This is the race as a whole in the present evolutionary period of Mark Age time cycle upon the planet Earth in these latter days you are in now. But until you have achieved a total understanding and control over your individual karma and self-exposure, you will not be contributing consciously and fully to the group or race karma as it must be controlled and worked with in unison and under coordinated and cooperative planning upon the Earth for the betterment of mankind, for the evolution of the planet, and for the raising of all life form upon that planet. These are the multiple services that have to be performed by you in conscious application and in total awareness of rending the last four phases of the seventh veil.

Before I begin to speak of further essential matters concerning these last phases of our demonstration, I wish you to understand that above all you have the cooperation and the power at your command entirely and totally as spirit. For if this were not true, nothing we could say or do would be of any value, or of any lasting effects and gratitudes. Because this is essentially the sum total of what is about us and for us, then we can speak freely and fully, and our hearts can be full of gratitude and love that this essential principle is everlastingly and eternally ours. No one need be lost, no one need be discouraged, no one need be disturbed because in each one is the spiritual self, and in each one that Spiritual Self knows the eternal truth and the validity of which I here speak and beg you to obey.

If therefore one of you can fulfill in full measurement that which has been achieved before, and brings up one other soul into the Light and that achievement, you have done more than even I had accomplished as Jesus of Nazareth. For although, and I remind you of this quite specifically, - I had achieved the full Christ consciousness and had brought about the descent of the Holy Spirit within each one of the disciples and many more than are numbered by historical text, I cannot name another single soul in that period of time who had achieved fully his total Christ consciousness and powers.

But naturally as we know, and I must remind you again, no one person can do this for another. He merely can demonstrate and lead the way, or exact the particulars that are required of such a demonstration. Therefore it was in no way a failure on My part in that time and era as Jesus of Nazareth that none of the twelve or more could be brought into full consciousness and enlightenment, anymore than it shall be yours to be marked as a failure, if in the achievement of your own Christ consciousness you are not able to lead another soul into that full demonstration while upon the Earth in a physical embodiment.

But the time, the element, the encroachments upon the hierarchal allotment of cycles and periods are entirely different than when I walked the Earth in that embodiment and life cycle. That means many things which I had not been able to achieve are to be achieved now, as the time is upon us and the conditions are more proper and the preparations have been more secure and the experiences of millions of souls are more apt to produce that which is desirable for the entire race, all species upon the planet and the planet itself.

Therefore it no longer means you will be more special or more evolved than I, but that circumstances have been altered and learning processes have been expanded, and opportunities are present now that had not been present in those times, those eras or that particular condition or circumstance. But let us not dwell upon the past as we have too much work to do in the present.

You have every opportunity and advantage that were missing before. No stone has been left unturned that would be to your advantageous development. No avenue is blocked because you must achieve that of which I here speak: the upliftment of an entire planet, the evolvment of mankind on Earth into

You are not yet in the procedure of the final readings of the third phase of the seventh veil. Please do not confuse my statement with this fact. But in order to prepare you to understand, to accept and to desire the full rending of the third phase of the seventh veil, we prepare you by giving a preview of what must be comprehended in the last four phases or steps of the seventh-veil rending. That is, - to repeat: conscious application, willing cooperation and concerted action by the Light workers in full Christ consciousness and powers.

Where two or more such are gathered, you will do magnificent works. You will begin to accelerate the program in such a degree that the last four phases will be accomplished in a series of twelve to twenty-two or twenty-three years after the completion of the third-phase rending of this seventh veil. This shall permit all men to see as Christs, to desire the Christ consciousness and to begin to work in harmony as Christed beings.

This definitely will not mean all men upon the planet will be in the full Christ consciousness and powers as you who are the elect and the more highly evolved upon the planet can demonstrate in the next few years of time. But it will allow you to demonstrate as two or more gathered in the name of the Christ consciousness, and to give this demonstration impetus and amplification in order that all others will be drawn unto you for that teaching, for that completion in their own evolution and desires.

You are held responsible by the Karmic Board, for you have chosen to do this work. If you had not chosen to demonstrate this because of your own experiences elsewhere and upon the planet Earth in past incarnations, you would not have been so elected. Therefore you chose, and then were elected by number. Many more numbers were permitted to perform than are now present upon the Earth, as so many have come and gone in the meantime, and many more will go before the total program and purpose are served. But give not thought to these minor conditions. Give thought only unto your own responsibility, - for as I have said previously, you can be responsible only unto your own God-self within. You have no power to awaken another soul, but you can inspire everyone else to achieve that which you have achieved in your own life, in your own consciousness and by your own sincerity and the gravity of your own experiences.

Be that the primary and conscious goal as you now prepare for the final rending of the third phase of the seventh veil. For as you step into this very delicate stage, you shall see much that shall discourage you and will warrant discouragement, to be sure. But if you are of the mind and heart that all is in divine order and harmony as far as your own position and vow are concerned, then nothing can deter you and nothing can shake you from the faith and understanding that this is the time, this is the era for the full Christ manifestation in one and more than one upon the planet. You are to be concerned with your own conscious applications, and with those that are closest to you in evolvment, but not necessarily closest to you in physical relationships or mortal concerns. You are not bereft of any assistance that possibly can guide or can take you into the full Christ consciousness. Take advantage of that which has been given you in the fullness of God's Love, for He would deny you nothing that would bring you into His oneness. In this truth and in this light I am Sananda, Christ and Son of God, demonstrating now and forever upon the Earth until it becomes so filled with light that it and I are ONE! Amen.

Mark-Age address: 327 N. E. 20th Terrace, Miami, Florida, 33137

## ORIENTATION WITH REALITY

By Orphanus

Purging our minds of both religious and 'establishment' clutter that confuses and fetters us, we at long last become free afresh and clearly - to be openly receptive to the true inner impressions and inspiration of intuition. We may even become opened as channels or instruments of communications in inner attunement with the inner and higher Spirit Planes. This message is especially directed to the "new youth" who are not yet hopelessly fixed into the consciousness of narrow, superstitious and dogmatic sectarianism of sterile and false indoctrinations which greatly stultify freewill, and prevent attunement or awareness given through intuition and the In-dwelling Spirit. It is found that the faculty of intuition is presently dormant in youth to a large measure, but it is also particularly and fortunately potential of stimulation and arousal to considerable awakening to Reality Consciousness.

The awakening leads to the Liberating Living Truth directly, requiring no intermediary of priest, shaman or drugs. Truth-consciousness clearly exposes the falsity and vanity of the religious hierarchy, or of the 'establishment'. Truth-consciousness exposes the hypocrisy of orthodoxy and the hypnotic illusion of the "Maya of Outer Creation" of which much is written herein. The search for true release and liberation from the presently binding manmade systems is hopeless, vain and futile if reliance is given to those systems themselves. Reality is of the Realm of Spirit, and Spirit is 'closer than hands and feet'. It is hopeless to search for Light, Truth and Reality in the futilities of the transiencies of 'Outer-Creation'. It is written in John 1:5, - "The Light shineth in the darkness, and the darkness comprehendeth it not."

Of further consideration, what can man possibly find of conclusive liberation in the delineations of Astrology, the configurations of Numbers, the fall of straws, the divinations of Magic and Witchcraft, assuming various bodily contortions and practice of various other forms of manipulations of article, mind or body? For real solutions, LOOK WITHIN!

There is but one REALITY CONSCIOUSNESS, and that is the INFINITE, ALL PERVADING and ETERNAL DIVINE CONSCIOUSNESS which is within the deepest recesses of individual intelligence-consciousness. Although the ABSOLUTE is ONE, - and of Infinite pervasion, the Spirit that is its expression, is limited and curtailed only by the natural limitations of the material body or vehicle through which it must be imperfectly expressed. Let it be clearly understood however, that Spirit or Consciousness does not require a body of substance for its Being, Identity or Expression.

All the problems and difficulties of man arise from the seemingly incurable curiosity explorations and involvements in 'Outer-Creation' in which man cannot then avoid losing the awareness of the REALITY of his TRUE BEINGNESS. Certainly freedom from error, ignorance and distortion is a noble aspiration, but what is the 'Truth that sets us free'? Freedom does come within reach only after we have become awake and aware of the sad and rude fact that we have been literally entrapped in the conditionings that

stem from faculties of the deluded calculations of the body-mind, which are also factors of the illusory creation founded on curiosity experimentation, error of motive and distort ideation. The manipulations of error can never produce harmony, balance and unity, and so that which is imperfect must ultimately destroy itself. We must return consciousness that is projected into materiality back to the beginning point of it's wayward conception. We must restate with emphasis that all of physical creation is the result of nothing more than externalized figmentation of consciousness which must be dissolved of its wayward phase, and returned to its true attunement with REALITY CONSCIOUSNESS. It is important to emphasize this because we have been so completely indoctrinated into such false conceptions that we cannot be made to understand what is true otherwise.

The drawing back of wayward Consciousness into REALITY is the Great Work of The Great Plan of the Spiritual Hierarchy projecting its Love in the Spirit of God as a purifying Light dispelling all darkness, error and ignorance wherever it is met. It is this Spirit of God that is called The CHRIST in the Western world. It is this which represents the Will of Perfection Intelligence expressed as the mandate of the Great Consciousness-Intelligence functioning as a redemptive power working through receptive incarnate individuals who act as sensitized, attuned and willing instruments through whom the transforming and respiritualizing powers of the Christ Principle may operate on the third-dimensional plane of matter. Such channels must also deliberately volunteer for the service. It is possible for the Christ Light to be focused directly to the individual only if such a one is sufficiently prepared and opened in consciousness to receive the Light inspirationally and intuitively. Most individuals are not now in that state of spiritual attunement, hence they may receive the reflected impressions of the Christ Light as it is projected and transformed through appropriate human channels. We should rely on the inner intuitive wisdom of the true indwelling Self, aided by the communications channeled from the Spirit Brothers who are secured in the perfection of the seventh plane.

Each additional channel of Light that is opened on the physical plane, becomes in effect a great new bulwark of power against the prevailing influences of error, evil and distortion. The spirit of error which experimented with exteriorized consciousness built up in the natural distorted proclivities of "Outer Creation" producing accumulative powers of debasement manipulated by bands of noxiously inclined entities designated as "outer forces". The Higher Self awareness of every person must be forever on guard against the naturally weaker inclinations of the lower self to begin with, and then it must carefully guard against every outer negative influence that prevails.

We can now better understand why this physical life, this existence or 'outer-creation' is so greatly lacking in the true qualities of spiritual love, harmony and unity. Bolstered with this realization, the intuitive impressions that we may receive become meaningful and useful. Evil, corruption, error and darkness must increasingly crumble before the face of spiritual light and love being received on earth. Every person, of his own freewill, must choose which course he wishes to follow. The course which is of the 'tree of good and evil' - also called the 'Tree of Knowledge' represents polarity, relativity and temporality within the consequential cycles of corporal birth

are exceedingly binding, erroneous, restricting, confusing and utterly confounding. In bewilderment we have found ourselves strangely motivated and guided by an exciting pseudo-consciousness in planetary existence in which that consciousness is lost in the error, distortion, stupor and thrall of transiency and phenomena. Unfortunately the confusion attends the entity even into the astral and lower 'spiritual' planes. Full escape from the distortions and inversions of consciousness are not possible until the entity raises his consciousness at least to the sixth plane, but with a certainty of attaining the seventh.

**REALITY-CONSCIOUSNESS** transcends all falseness, error, distortion and illusion. In Reality-Consciousness we are lifted completely out of the attractions and attachments of planetary enthrallments and allurements. In the liberation we are enabled to become permanently freed from all shame-sin-guilt fixations, or further need for incarnation. The great deception of 'Outer-creation' is now clearly exposed with its deceptive allurements revealed as nothing more than the play of invert distortion-consciousness which is mere 'reflected' light creating the fantasy of relativity, - i. e., good and evil, light and shadow, positive and negative, - all following the law of polarity in the phenomena of externalized primal matter into physical matter. Planetary matter is brought into 'existence' by a distorting manipulation of consciousness in which the 'ideations' are reduced to energy fields and vortices, which are in turn reduced in vibrational frequencies and patterns to become the manifestations of form-matter that is of the nature of everything of, and in 'Outer Creation'.

Is this to infer then that man's abstract conception of God is in error, or that He did not ideate, will or desire into existence all or part of that which is represented in what is commonly termed the "outer manifest Creation?" That is indeed and precisely our inference - and more! We unequivocally state that The Great Spirit, - The Supreme Being, - The ABSOLUTE did not and could not bring forth 'Outer-creation'. PERFECTION cannot ideate, express or will imperfection which is of it's own nature self-annihilating. Despite the seeming wonders of the apparently inexplicable Outer-creation, it is a manifestation produced by the ramifications of consciousness in a phase of distortion on departure from full harmony and rapport with PERFECTION-CONSCIOUSNESS.

Reflect a moment! How could the perfect Intelligence-Consciousness that is ABSOLUTE, have been responsible for that which in the over-all painfully chaotic, instable and erratic, - a world whose nature sets the scene of perpetual treachery, war, plunder, debauchery, rapine and tears throughout countless civilizations and innumerable ages? AND, - what of the ceaseless processes of disease and death, - the shifting of the axis, the alternating sinking and rising of land masses, - the formation of vast walls of ice and the devastation of floods, storms and droughts? Who then did create the physical forms and material worlds in which we now find ourselves hopelessly enmeshed? Who are the so-called "prime movers" responsible for this reprehensible, incomprehensible and diabolic mockery of REALITY?

For the answers to these questions we must reach beyond the powers of the generally accepted scientific deductions, dialectic rationalisms and pious superstitions. We cannot be guided by these because they themselves

and death, repeated over and over again as incarnation and reincarnation. On the other hand, the 'Tree of Life' is that which assures Eternal Life in the Perfect Consciousness of SPIRIT REALITY. To awaken mankind to this truth awareness was the central and focal mission of the Master Jesus, - and now over 1900 years later, the REALITY is barely discernable as an awakening in consciousness in a comparatively few scattered individuals, - notably among some of the remarkable New Youth. The young people seem intuitively to know that Spiritual Love, unlike the antagonisms of selfish self-centerdness, is the true solvent of all human problems, and the conceiver of true peace and harmony. Thus the ultimate mass victory over existent error, darkness, illusion, ignorance and evil is being quickened.

Evil's would-be "ring-pass-not" of exteriorized consciousness already been rent asunder by the Great Truth Teachers of all ages, whose power of Light, Truth and Love have put evil, error and illusion into a state of steady crumbling, despite all appearances to the contrary. These Master Teachers are not to be confused with the distorted and diluted doctrines of the religious institutions bearing their names. The truly great Master Teachers never focussed attention to themselves, but always to the Universal and Oneness identified by various names in keeping with the language of the nation in which each Master did his work.

Take heart ye men of earth, and fear not, - for fear is also a device of the 'spirit of error' to divest you of your inner faith and courage. Fear not evil, and fear not death. Your victory of mind over these is your assurance of entering the Path of Eternal Life. Stand firm on the rock of Spiritual Truth and Love, and though your physical form may be stilled and silenced, the greater reward of transcendent consciousness will be yours. Fear not! The power of evil is false, and without permanent power, - unless you erroneously concede belief to it. Remember! Truth is the only genuine authority, and LOVE is its POWER!

"ANGEL'S HAIR"

INTERESTING AND ODD PHENOMENON

By Sally Irene Crofts

A strange gossamer substance which might at first be mistaken for spiders web has been observed falling in a number of different places over a period of nearly two years. But it is definitely not the work of spiders, for it has been given a thorough microscopic and tactile examination, indicating that it is fibrous, elastic, relatively strong, somewhat sticky and white in color. I have given the name of "Angel Hair" to this curious substance.

Angel hair falls in long strands, usually horizontally, and I see the most abundant falls right after it rains. This is proof to me that it could not be the product of spiders. Because it is white it cannot be seen against clouds but is most easily seen against the contrast of blue sky. You must be patient and look closely. A strand will catch the light for a second and then you will lose it, because it is constantly moving. Be patient and you will see that it just keeps coming.

Quite a lot of it floated down on November 7, 1969. My neighbor also saw it clinging to the trees and wires. We put one hand up to block the sun from our eyes and then looked past our hands. When you do this, the thin strands catch the light and you can see them falling past the sun, - delicate long strands of it undulating like waves, and also some large tufts gliding past. I can't help thinking of a crystal-like fairyland every time I see it, - so silvery and delicate.

I feel that this softly falling substance is slowly transmuting our entire world into a more rarified state. Is this the 'manna' referred to in the Bible? I feel wonderfully elated every time I see it, and seem to know that we have nothing to fear from any earthly situation or condition. That God and His Angels are constantly watching over, protecting and helping us in more ways than we can dream of. I need no proof of this fact, - however it looks as though we are going to get it anyway.

The teenage daughter of my neighbor came to my door with a piece she had caught on her way home from school, which was clinging to and covered her index finger. It was the largest piece I had seen close up. When I touched it, I discovered that it became quite tough and fibrous as I pulled on it. It actually felt like stringy white dough. Do you suppose this is what the Israelites gathered and used for food when they were wandering through the desert wilderness? In the Bible story it is called manna.

Could it be that our friends in the Space Ships from other more advanced worlds, are silently covering our world with these silvery threads? Not to make bread out of this time, but to transmute our entire planet into a higher dimensional state, - a state where we will eventually be one with them, sharing a conscious friendship and co-existence. Perhaps so, but in any event, it is a beautiful thought whether factual or not.

The following article appeared in the publication of The Heralds of The New Age, of Auckland, New Zealand, November 1969:

ANGELS HAIR DEFIES ANALYSIS

Houston, Texas: "A chemical analysis has failed to provide identification for a substance which allegedly floated down from a U. F. O. over this city on November 3rd (1968). The report from the Houston Science Discussion Group on U. F. O. 's said the mysterious substance which resembled "angels hair" would be sent to the Aerial Phenomenon Research Organization in Arizona for further analysis.

Robert Hubbard and David Kelly, both students of Spring Beach High School, told how they had observed the U. F. O. and with others had gathered the curious substance from the area. They said the U. F. O. looked like a coin on its side, with a dome and black dots like windows. They looked at it for about two minutes and then it started going up slowly and disappeared when a commercial jet plane came out of the north.

Kelly said he and Hubbard retrieved the hair-like fibers which began falling over the area before the jet arrived. Some of the substance reached the hands of David Wuliger, a professor of music at the University of Houston with an avid interest in U. F. O. 's. Wuliger said a chemist who requested anonymity for himself and his company, agreed to analyze it in the laboratory of a multi-million dollar petroleum company. Their subsequent report was as follows: "Microscopic and tactile examination indicates the substance to be fibrous, elastic, relatively strong and somewhat sticky. Under a powerful microscopelike a rope with many fibers, but after being carbonized, it appears to have a honeycomb structure. Our tests indicate it to be organic though we are unable to determine what the substance is."

UNIFICATION MANTRUM

The Sons of Men are ONE, and I am one with them.  
I seek to love, not hate;  
I seek to serve, and not exact due service.  
I seek to heal, not hurt.

Let pain bring due reward of Light and Love.  
Let the Soul control the outer form  
and life and all events,  
And bring to light the love  
That underlies the happenings of the time.

Let vision come, and insight;  
Let the future stand revealed.  
Let inner union demonstrate and outer cleavages be gone.  
LET LOVE PREVAIL! - LET ALL MEN LOVE!

## THE AUSTRALASIAN SUPPLEMENT

### Now Including NEW ZEALAND

In the May issue we reprinted pages 56 through 66 of The ESSENCE Of OPEN MIND, which blended in with the special articles submitted by Jacqueline Lander for that Supplement. Now we have been advised that they will not submit any special article for this issue of The Father's House, and the entire space allotted for the Supplement will be devoted to further reprint from the 'Essence of Open Mind' beginning with page 3.

### NEW AGE ENLIGHTENMENT

"What are we really looking for? Are we looking for sensational events or are we looking for the deeper meanings?"

New Age thoughts and information are only an extension of the world's known truths - known in this age. Many of the New Age Revelations are truths that have been hidden from man in God's deepest recesses, to be brought forth for man when God deemed fit. When man was again at a point of spiritual enlightenment that the 'old truths', now labelled "New Age Truths" could be given to him once again.

The truth is that we are aiming for perfection of this mortal self. To become the perfect whole and loving Christlike creation which we are inside, but which we have to bring forth. New Age Revelations are intended to give a further "lighted view" of the way in which this can be done. It was never intended to be another Sect, Religion or 'Ology. The trouble lies in people's inability to grasp that what is given them is a part of the whole GREAT TRUTH, - not something which is to be chased after as 'the only one' and above all other religions, etc. It is a Way of Life! Haven't all religions and creeds given to the world a way of life? They became religions because man made them religions. They were a Way of Life first!

Perhaps the answer lies in this A Way of Life, - not The Way of Life. For there are many ways and paths to God and Godhood. The true path of those receiving New Age inspiration is to help inspire those around them with the wonder of creation, the immensity of the Plan of God, and how He is in everything. How only by loving and keeping that flow moving through you, can you ever attain the Perfect Christlike Being which you want to become. Perhaps it should be asked, is that what we really want? How Many people are really in all faith, in all honesty and with great fervor really trying to perfect themselves in whatever way they are guided and instructed by God? Do they put this as a number one priority?

I believe that this is the only answer, to live and become the 'Perfect' as soon as possible. To be a ceaseless and everflowing channel for Truth and Love, the inseparable pair. All that I have ever been given to write

down I have hoped would increase those reading it, and inspire them with the greatest enthusiasm to go forward and become the perfect image which many know of and few believe can be theirs. For by these New Age Revelations, God is giving a further insight into His creation, - into His Mind if you like, for from His Mind came forth these wonders.

The New Age is a great and wonderful age to be born in, and one that we must take full advantage of. To sit up and take notice with eyes wide, ears open and minds switched on; with souls ready to receive all that is poured into them by the bounty of God, for truly there is so much wonderful knowledge available to man that there is really no excuse for him not to bound right up now and begin the search for the Path of Truth that's for him.

\* \* \* \* \*

### THE ELDER RACE

"How often before has man been helped and how few have responded. But the help always continues, for it is a duty of Love and therefore it is no duty. This planet has had many helpers who came across time and space to instruct and lovingly guide the hu-man race through countless ages of its involvement.

The first to establish a civilization on earth were the Cyclopeans. They were here millions of years ago and are remembered in the legends of this world as the original "God Race". While they were preparing this planet for habitation for other life-forms, they as a race, achieved great spiritual advancement. The records of what they did achieve and how they did it are still buried deep in underground cities under Mount Etna in Italy, and also under Lake Titicaca in Peru. This knowledge is waiting for us to use, for in spite of what we may at present feel, we are destined to follow, - to reach the gateway to Matter, Energy, Space and Time, and their knowledge will open it. For all they did, we can do also. We will never be as they, for we are of a different life-form, but we follow the same blueprint through the Universe, as do all evolving beings. We must advance one step at a time in the sure knowledge that others have passed that way before, and many have retraced their steps to help us along the Path.

It was the ambition of the Cyclopeans to perfect themselves to a point where they could become 'timeless' and in so doing they entered the Thought Universe. As one life-form moves out of an area or dimension of space, another moves in to take its place, thereby experiencing all that area can offer them for their spiritual advancement.

All the Mankind Race is waiting for earth to join them, for as soon as we can sort out our problems, the entire race will move forward on the greatest migration of our history, - a journey across Time and Space, - a journey to that part of the Universe reserved for us to evolve further towards perfection.

Before the Cyclopeans evolved into the Thought-Universe, they reached the stage of being able to teleport matter to any place on earth by the power

of their own thoughts. It is possible for one being to accomplish this on his own, but if the race of beings desired this as a whole, the collective power of their thoughts would bring about teleportation so much sooner. Some highly evolved people incarnating on earth at the present time possess this ability now, but we must strive to gain these abilities for ourselves. That which you wish with a pure heart will you accomplish.

After much collective effort the Cyclopeans discovered the nature of time and how to escape its seeming bounds. In order to become timeless one must negotiate what is termed a ninety degree phase shift. This simply means turning at right angles to your Time Stream and then moving outside it. Once outside, it would be possible to re-enter at any point one wishes. After leaving this Time Stream, the Cyclopeans took the symbol of their change, the Right-Angle as their name. They became known as the 'L' race or the 'Els'. Many of our words owe their origin to the Els, - such words as elevate, Elohim and many others. The Els were very methodical, dedicated people, and in their underground cities they set up vast 'Libraries'. These Libraries contain all their knowledge stored in tiny crystals.

As the Els wished to record for all time the knowledge they had gained from their millions of years of progression and from their final achievement upon earth, they sought a simple method of storing the actual thought itself. This thought storing process was easier than we might imagine, for a thought is real, having its own form, shape, color and vibrational frequency. All that was required was to create small crystals having the vibrational frequency of the thought to be stored, for crystals are living things with a high degree of intelligence in the mineral world. Thus the crystal acted as a physical manifestation of the thought-form and so was able to sustain it throughout time, so that later any person holding the crystal, (preferably to their forehead), would be able to tune in to the original thought and regain some of the information. According to the level of development of the individual is the intensity and meaning of the information understood, for the higher we evolve, the greater will be our understanding.

Soon these libraries will be opened, not by man himself, but by the vibrations of the earth as it goes into the New Age, and as the Cosmic Ray activity increases. Thus will the ages-old Timelock which has sealed away these vast libraries be triggered and man will have access to all the wisdom of the ancients; but he must be ready in body, mind and soul first!

\* \* \* \* \*

### TIME STREAMS AND U. F. O'S

"All phases of existence are connected by light lines of force which spiral down from Him who is, was and ever will be, through all realms and to all Universes, Galaxies, solar systems and worlds. At our level of existence one of the aspects of these light lines is magnetism and magnetic fields. Time is the product of a magnetic field, but in reality time does not exist and is left behind when man steps out of his own prison, - the prison of mortality. Time, as understood on earth, is but a measure of the earth's rota-

tion around the sun and on its axis. What is time to an immortal being, - his concept must surely be different!

There are many Time Streams, (magnetic fields), each stream being equivalent to a particular level of development spiritually, sociologically and scientifically, but above all, a level of awareness or consciousness. These Time Streams are always in existence, only the Time Stream on which we are, varies depending on our level of consciousness. A man is aware of a raindrop, but is the raindrop aware of the man? This example can be extended further by considering the spirit worlds and the thought worlds of which we are unaware. Therefore the greater the awareness, the greater is the vision of the worlds below that level, and the greater is the duty of those above to help those below.

There are other time streams representing a similar level of development to, - say the earth 6000 years ago, but the people living in that time stream are developing their own pattern, and are not necessarily following the pattern established on earth. To travel from one time stream to another is possible even on earth, especially where magnetic anomalies occur. These are caused when magnetic currents are bent by other influences, including the magnetic fields of individuals.

Therefore it is possible to travel through time, but not into your own past or future, -but only to different time streams of equivalent development to our own past and future. One can see one's own past and future by consulting the Akashic Record and relive the event out of the physical body. To return to the past in physical form could mean a complete change of destiny and perhaps make it impossible to return to your future. You see the past or future events moving on the Akashic screen, as an observer, but you cannot interfere with what you see. It is possible to pass to totally different time streams of existence which are in no way like those of earth. That is, an 'anti-matter' world or worlds where the life forms are those of 'sound'. Location in space, or distance between time streams is not important, as the time stream for a particular level of development IS, and once on it, you are THERE!

Many of the arguments used by men of science against the possibility of visitors from other galaxies and star systems, concern the impossibility - (to the scientists) of being able to travel the phenomenal distances between us and these star systems, even with the ability to travel with the speed of light. The speed of light was once thought to be a constant at 186,000 miles per second, but now the astronomers have found an object travelling at 202,000 miles per second. So what was once considered to be an ultimate speed is now proven to be only the speed at which certain vibrations travel through certain media.

When the scientists look over the brick wall they themselves have built around them, they will find a new world, where the possibilities are endless and ALL THINGS ARE POSSIBLE! Therefore is it not likely that some of the strange craft seen in our skies come from civilizations millions of years in advance of us, who have discovered the secret of being able to switch time streams?

Remember the Els (who became timeless), did they not achieve this condition by the use of a 90 degree phase-shift? Perhaps the secret of their success is hidden in ancient symbology, in the strange signs and symbols found carved on rocks, in temples and tombs of the Ancients. A study of these ancient symbols shows that some of the most frequent signs observed are the cross, the swastika and the circle-cross. It is possible that analysis of these three signs would throw much light on the past knowledge which has been preserved in symbolic form.

Is it not possible that the four arms of the cross represent the four primary forces of creation, - static electricity, pulsating electricity, static magnetism and resonating magnetic force? (The force which keeps all life together in form and shape; gravity is an aspect of this last force.) Therefore the swastika may represent these same four primary forces being operated on by another force at 90 degrees to their axes. To continue this logically, - by operating on these primary forces with an external force, can we not generate a change in the metabolism of the body or object operated on?

Then the circle-cross, representing firstly GOD, as the circle - Alpha and Omega never ending. Secondly, the four primary forces of creation and together they represent a transmuted body, or an accomplished or perfected creation.

Summing up the above, -

The cross represents the four primary forces.

The swastika represents the four primary forces undergoing a change by the operation of an external force.

The circle-cross represents the completed transmutation brought about by the Divine.

All of this appears to lead us away from the subject of Time Streams, but if a 90 degree phase-shift is required to be able to leave a time stream and become timeless, then the clues to this knowledge may be in the above interpretation of the symbols left behind by the Ancients.

Too often mankind has ignored the knowledge discovered by the Ancients as irrelevant superstitious nonsense. However one just has to look at the volume of data left by alchemists for instance, much of which is written in a symbolic manner, to realize that in the past some of the best brains of mankind have worked on solving the problems of transmutation. (Transmutation of lead into gold was a secondary product of their experiments. Scientists have now succeeded in doing similar transmutations by using a nuclear particle bombardier.)

Can we afford to ignore all this hard gained information? No, of course not! With our modern data processing computers, this information could be correlated and analyzed, - hypotheses being tested quickly and efficiently. But man does not seem to learn from mistakes of the past, let alone the successes! So all this knowledge will lie dormant until man awakes from his slumbers and dreams.

\* \* \* \* \*

ON THE NATURE OF NON

As every being evolves to the stage where he is a universe, he may if he so desires, take over an existing Universe. When conditions are correct he may take over the Universe he has evolved in. For every being in that Universe IS that Universe. When the present Lord of the Universe moves on to even greater existences and spheres of creativity, the new Lord may change his Universe to suit his particular personality.\*

IF however he feels like he would like to create his own new Universe, he applies for "space" and so begins his own creation. He doesn't just think a new Universe into existence; he first creates himself as the smallest seed in his new Universe. This seed is then able to evolve, leaving the pattern behind for the others of his race (which he created) to follow; the seeds that he has created as he himself evolved, until the time comes when he is himself again, the Lord and Creator of his own Universe. All the time he is evolving, his higher self is assisting him. This is the part of him which is directly in tune with the Absolute Creator. This process can take millions of years or no time at all, depending on whether it is a 'Time' or a "Non-Time" Universe. If it is a "Non-space" Universe, it can be anywhere, as "Non-space is everywhere and nowhere. It is real, yet occupies no space. Once in it, it is as large and real as your Universe is to you.

Imagine your entire Universe being contained in nothing; so small that any minute point that does occupy space would be too large. It is nothing, yet it is ALL. Your Universe is a space and time Universe. However as it itself evolves, it will first lose "time" (as it is in the higher realms where time is non-existent) and then it will lose "space". There are even states of existence beyond those of "non-time" and "non-space". You know of "Matter" and "Anti-matter"; there is also "Non-matter" and its balance "Non-antimatter". It follows that there is "Energy" and "Non-energy". What lies beyond, - the beyond of Matter, Energy, Space and Time? What wondrous realms are there out there?

Know that you can journey across time and non-time, space and non-space, matter and non-matter. Go out to the furthest ends of space and non-space only to find you have not even moved beyond the point of Non-space you are in, - such is the greatness of the worlds beyond. I know it is hard for you to keep your mind of earth on abstracts of thought, but we wish you to know some of the "Beyonds Beyond".

Time and Non-time are really very close. One is the NOW of being, and Non-time is the 'IS' of existence. You are in time at a certain point, however in Non-time you are perpetually at the stage of IS, - that state where all things ARE! They have their being in perfect form. Time is an ever-changing pattern in the Universe, moving faster or slower in accordance with the collective thoughts and aspirations of those beings in one of its many "Time Streams". So you have control of time; you can ask for more or less as you require it. Time can be bent, moved, molded and used to assist the progress of those evolving in it.

Non-time is out of Time. It is fixed, yet it is evolving. Evolving is a different form to Time, for it travels often parallel to Time, but they never touch one to the other. Non-time is time that is NOT, - yet Non-time IS. Any world in Non-time is there because it no longer had need of time. Once it is perfected at the level of Time, it moves into Non-time and there it evolves, but in a totally different way to evolvment in Time.

All things in Non-time are perfect, but some are more perfect than others. (See the Spiral of Perfection article.) Time and Non-time are not opposites as you would regard Space and Non-space. Of course these are not really opposite either in the true Omniversal sense of the word 'opposite'. However the important thing to grasp is that Time and Non-time are the same, except that one has a lack of the other.

I speak with you this way to make you all THINK, because by thinking about these seeming contradictions, - these Cosmic paradoxes, - you will be able to understand ALL.

There is more of the nature of non-time that I could explain to you. Firstly, when you are still and without movement, as when your body is physically inert, such as in sleep, you are no longer in time. In other words you are unaware of being in bed, or going to sleep, and as far as you know a few moments later you are awake and it is morning. Whatever happened to those hours? Did they pass or was it that you were not there to notice them pass? Again, if you are doing some tiresome task, an hour seems like eternity. Why? Because then you are very much in time. It was the same hours length that passed, the first one you didn't even know existed, and the other seemed as if it would never end. Does then your own attitude to time have some bearing on its relative speed? Yes, this is so. In sleep you are out of time altogether, or nearly so, but this would tend to show that non-time is a state of perpetual somnambulism would it not? This is not so either, for non-time is the more perfect state to be in.

When you have used your knowledge to unravel the method of surpassing time, - knowledge which we left in your world so long ago, - then will your world be able to show the rest of the Beings of your solar system how to make the journey across Matter, Energy, Space and Time to join us, although we wont be there then, but you will join us nevertheless, - for ALL IS PROGRESS, all is progressing.

One can always learn and find great enjoyment and contentment in the wondrous ways of the Omniverse.

I am one of those who were of the Cyclopean race, and who are now called Els. - - - - Elgartor.

\* \* \* \* \*

## THE VISITORS

The situation in the Space and U. F. O. field is somewhat hard to explain due to the fact that there are numerous problems needing to be solved and explained.

There are remnants of a lost race beneath the earth which have advanced cultures, sciences (in the beneficial sense) and advanced mental processes beyond many of earth men. This has been brought about by their 'closed order' as it were, of existence where the need to maintain their civilization was imperative. When they survived from their original ancient culture, they had great knowledge and abilities then, which they have retained and added to over the centuries. They are aware of the situation in space and are, for the most part, trying to link up and help those on the positive side of the space program. Many of the bases for spacecraft are hidden in their ancient cities and underground areas, and this is why many saucers disappear into mountain areas, lakes and seas where there are entrances to these underground cities. Some of the entrances are not visible to humans, as they need the power of thought to be able to enter through solid rock, etc., rather like your ancient site of Wisdom in Perth.

There are also people who have the ability for space flight and all the attendant knowledge, who have surpassed the physical existence as we know it, and are able to dwell on higher or more spiritual realms. They materialize onto our more dense physical world when required, and are part of the Spiritual Plan and Space Command Program for raising the earth. They are able therefore to work underground in the ancient sites of Wisdom to reactivate and restore various types of advanced machinery and equipment which has been buried there since the last great wave of scientific knowledge flowed over the earth some thousands of years ago.

They work in conjunction with the Higher Councils of Spirit which operate on the worlds which are unified in spirit and with the Masters and ascended Beings who carry out the Supreme Plan. Among these are the ones who contact spiritual channels all over the world giving them information on the space situation. Their whole aim is Light, spiritual progress and advancement, and service to mankind throughout the Universe, - not only just to earth. Because they have superseded the physical barrier, they know the truth of living 'in the spirit' in all their daily life.

Then there are the purely physical space people who are built like you on earth, but who are more perfected in body and mind and who live the ways of God on their physical world. They are also coming physically to the earth, and some who may come from rather negative worlds sometimes project themselves mentally or astrally into various people and channels. They usually only succeed where the people are weak and vibrationally suited to them. Sometimes they do project themselves into a spiritual medium, though this is rare.

Other ways of projecting themselves, but not used necessarily by negative space people, is by projecting part of themselves, their higher selves along high frequency rays which materialize before those to whom they wish to

communicate. This is particularly useful where the distances between the worlds of the two communicants is exceptionally vast.

The last type of space people are those who are advanced technically and mechanically, (as are the other space people) but in whom there is no soul force operating in regard to their fellow occupiers of space. They come to take what they can from earth or any other world they travel to - such things as minerals, energy, gases and various chemical properties that you on earth are unaware of at present.

They wish to silence and intimidate, as this is their mode of operation in regard to those they consider weaker than themselves, - meaning those not technologically advanced to their level. They wish to carry on their greedy activities unruffled and undeterred by anyone, and they feel that earth people are too small and terrified to be much of a problem anyway. Only when such earth people as U. F. O. investigators or ardent seekers for the truth of space and space people begin to interfere (as they would describe it) do they then begin to blackmail and silence. They are used to being conquerors in space in the galaxy in which they dwell, and expect to do the same here, although so far they have not had much, or hardly any opposition requiring them to put up any sort of a fight.

The best manner in which to proceed with regard to these people and the situation in general, is increase your vibrations as soon as possible, gain soul force, inner spirituality and ascension, for this is what the Supreme Plan of God is wishing for the people of earth, - Ascension to the worlds of Light. This is the aim towards which all the Masters, Guides, Teachers and the Space Command Program are working.

Those space people who are part of the Supreme Plan do reveal themselves to those on earth to try to show them the Great Truth, but mostly this is to people who are spiritually advanced or aware anyway. In many cases it appears that the contactees were or are of the Space Race or Mankind Race anyway, so they are contacting their own. They cannot reveal themselves en masse to an ignorant world who would not comprehend and possibly only fear their existence. This is what the technological - scientific type of beings play on, - as they wish to create the impression that they are the space people, so that earth men will not realize that the positive exists.

If the negative ones can keep the earth people in ignorance, they hope that when and if they wish to take over, or become in any way leaders of earth, that hu-man will be so terrified they will give in easily, because the masses of the world do not believe in space people anyway, or do not know that there are beneficial and loving ones trying to help.

All this complicated situation will be another aspect of the Great Tribulation as the war goes on between the Positive and negative, for as above so below. It is likely that those of the scientific worlds who are indifferent to the situation on earth and of its struggle towards the Light, may try to disrupt where they can, - the Space Commands efforts to bring in the New Age.

This war in the heavens, which is really more a spiritual concept than a physical war, - is one that has raged before - many thousands of years ago. This war is between those of the Cosmic God Consciousness and those who worship at the shrine of Science. Be that as it may, - the world will see great changes and the Tribulation is composed of many aspects, as we have already told you, one of the contributing factors will be earth's karma and the karma of those upon it.

My Blessings upon you!      -      A Friend from Space.

\* \* \* \* \*

### THE CONSCIOUSNESS OF EARTH

When we talk about the earth going through the 3rd density, what do we mean? In fact it means that the earth is going through the third density of its development, for worlds, solar systems and universes develop as man does. Therefore when it goes into the fourth density of its development its consciousness is raised and all that lives and dwells upon it is to some extent changed, - for the matter that earth is made of will become finer. Therefore the change that takes place will affect man's consciousness too. The Law of Order and Progress is such that every time a move up is made, something else also moves up, for one movement precipitates another.

The main change in man's consciousness though does not just come with a move into the fourth density by the world, for there are changes going on in man brought about by patterns and levels of development going on within the Race of Man. These strata or densities are within the soul and consciousness of man and these spur him on. Nevertheless as everything affects something else, it can be seen that the development of Earth into a higher being will affect life upon it, as well as the development of man and his thoughts will affect that of Earth. That is why man's thoughts and vibrations have such a disastrous effect on the earth in so many ways, because the Earth is young by Solar and Planetary standards. It is like a small child and it gets swayed easily by the thoughts it "hears". If it was an advanced student it would probably not be affected by the specks of man running all over it, and would exert more strength and power over man's development instead, perhaps bringing about a more stable and advanced life upon itself.

Therefore the greater effort put in by each part of humanity, each part of the solar system and the galaxies inside this Universe, the sooner can this Universe become a 'Perfect Being' in its own right. All things have a consciousness and by maltreating our earth we cause it suffering as if it were a human being. Possibly the Earth has agreed to suffer in this way to learn? Even so we should not make her sufferings any greater than absolutely necessary.

\* \* \* \* \*

## THE FORMAT OF CREATION

Life cannot be sustained alone. Soon there must be the realization that the 'aleness' must be replaced by a 'oneness' for are we not made of the same substance as all around us? Are we not of the same matter, - matter which is only vibrating and spinning and forming into a different shape from the flower we look at, the chair we sit on and the fruit we eat? Yea indeed is life all one thing. Matter fine or dense, formed into different shapes, designs, patterns; travelling at different speeds in different directions, yet "one". For if it were not one, it would not be of us, or of Him. For all that is created from a central source, must be of that source and all the substance must be of like structure, or the Universe would collapse.

Even an Anti-matter universe has the same potential basic substance, only its protons, neutrons and electrons are arranged in a different pattern which cannot blend and fuse with those of a Matter Universe. Only a totally new Creation would include all worlds, galaxies, universes and times could have a different structure. Suppose the patterns were changed, - would we know it? No, for we would still be 'one' with the new creation. Our particles and molecules would be changed to fit the new creation, and we would exist as before, in the pattern of the new mold.

How little we really know of what goes on, - how do we know that the Creator has not changed a million million times the format of His Creation? We would never know that the molecules and patterns we had two minutes ago were any different from those we now have, for when we went to compare them with other molecules in nature, we would find that ours matched as they should, with them. There would be none of the old structures and particles left for us to remember or compare with, gone in the twinkling of an eye!

With the ever-changing, flowing, outgrowing and fluctuation of nature and Creation, it is very possible that the forces and design of creation are changing from A to B and from B to C, as fast as we have a new change of blood in our bodies. We have a totally fresh blood supply every few minutes and maybe the blood of the Universe is changed as frequently?

\* \* \* \* \*

## NEED FOR TRANSMUTATION

People do not realize the vital need to transmute their bodies from the dense physical state of matter into spiritually finer matter. The invocation given below can be meditated on daily, preferably twice a day, and this will help mentally to align your body.

I will align my body to the Divine.  
Every cell of my body will respond to that Divine call.  
From this day forth I will become that which I most want to be,  
the perfect image of my Maker.  
Let these imperfect cells become activated so that the Divine Spark  
within them becomes the foremost part of their composition.

I shall activate these cells by my constant thought on the Divine Will, so that gradually my body may be turned from sickness into health, from death into eternal life, from helpless physical flesh into purest spiritual matter.

So pure will my body become and so imbued with the Divine, that no poisonous thing shall harm me.

For my perfectly divinely oriented cells being fully positive, cannot take in that which is not thus.

Therefore will all harmful substance pass through my body untouched.

Lord grant me this invocation, as I wish to succeed on the path of initiation. Take me through the lower initiations with this prayer, that I may become perfect in your sight, and of those that stand with Thee."

- - - - -

Pour this invocation out upon others within your sphere of action, as they will greatly benefit therefrom. The world needs upliftment at this time and all who pour forth from the deep fount within themselves can greatly assist this work. Say you, you have not a deep fount within? Yea indeed, you do not know thyself well, - for deep within each one of you is the never ending fount of goodness, planted within you long ago by a benevolent God when He sent you forth from His Kingdom as the first spark of His Creation. Therefore are ye only using that which He has given you, - so USE IT! How many realize that they have an eternal spring within the heart, that can pour forth day and night eternal Love and Hope. I pray thee and command thee by the higher law which operates within the worlds above, to love one another, to bless one another, day and night, using the never-ending well of goodness and love that is within.

At first it may seem hard, nay impossible to bring forth from within this somewhat stiffened emotion into a slowly beating heart, but gradually as you allow it full reign, you will find it wells up with greater force, and the heart of love pumps faster and swells fuller and fuller. Just allow yourself to begin to GIVE, even though it may be to those who have scorned the 'ME in you' - who have turned away in any number of ways from the True Life. Daily pour out blessings upon those around in the quiet and secret of your heart, it never being known to the outside world that this is your daily loving task.

Therefore I leave you to ponder and begin upon this great work of loving the world into perfection. To transmute it! To love in this sense is to use the power of creation and beauty. By appreciating and being fully aware of the marvelous and wonderful things that abound, and to silently bless them is to love them. To bless is to recognize within the silence of the inner you that you are thankful for their existence. No one hears but God and the highest part of yourself which struggles and strives eternally to bring His lower selves to perfection. Therefore although it may seem hard, and one does not know where to begin to love the world or anything else into Divine Perfection, the simple fact is to bless them, Bless Them, BLESS THEM! And the veil shall be lifted from your eyes, and you shall see, hear and walk through all dimensions, in all realms simultaneously. This is the REALITY of COSMIC CONSCIOUSNESS at its fullest degree!

\* \* \* \* \*

## THE GENERATION GAP

By Fred and Mary Robinson

On all sides we hear the question echoed; especially by parents who have teenage children, - "Where did we fail?" First of all we should realize that the younger generation were born into a mad and wicked world where wealth and want walk side by side, and war and waste are an accepted way of life.

The young ones were given freedom without discipline from early infancy, and encouraged to think and reason for themselves. They were given the responsibility for their own behavior at too early an age to allow them to develop 'balance'. The consequences are that they do have the ability to recognize the utter stupidity of the Way of Life that the older generation have accepted as natural and normal. True enough, - they are a "mixed bag" in a manner of speaking. Confused or damaged by drugs, they are lacking in the 'graces' upon which we have set so much store. But, - who are we to judge them? - we who have failed so dismally that some reputable scientists give us but a few short years to pollute ourselves out of existence - if we don't blow up the planet Earth in the meantime!

The 'older generation' has committed an awful crime for which we are now paying the price. Though our modern scientists have made tremendous strides in the technical knowledge and ability to produce the necessities and amenities of life in great abundance, we have chosen to wantonly squander this wonderful technical know-how on war, munitions, rockets, atomic explosions over, on and under the surface of the earth, as well as a myriad of other equally wasteful and worthless things.

As if all this were not enough to cope with, the clever brains of scientists of this modern era have invented synthetic poisons such as D. D. T. etc, and after scattering them all over the planet, polluting the soil, water and atmosphere, - hand over this ghastly, unnatural environment to the younger generation to correct, if they can.

Those responsible for this appalling state of affairs excuse themselves by saying that 'progress must become slowly' - implying that in the early stages of using such deadly synthetic cumulative poisons as D. D. T. and its numerous derivatives, minute doses should be harmless to humans. Only time will tell, if being cumulative, a long term program could be harmful or perhaps very dangerous. We for the most part, with a few notable exceptions, pay little attention to repeated warnings from those reputable scientists and experts who were NOT employed by the vested interests concerned solely in financial gain and aggrandizement.

Can we blame the young generation for refusing to accept this irresponsible attitude on the part of those we were taught to regard as "authorities" and that now they refuse to learn from us or take our advice? We, the older generation, had no right to permit our world to get into such a mess, and unless we call a halt to our mad rush toward self-annihilation, then the younger generation are going to attempt to halt it their way, and it may not be the way we would like for them to do it.

The young generation will adopt new methods to stop the rot that we have failed to stop. They will stop it by refusing to be a party to it. It would seem that the principle they are working on has its basis in the old adage, "wars will cease when men refuse to fight". In the meantime, their teachers in the colleges and universities, and the 'Keepers' of Law and Order are bearing the brunt of the burden beyond the call of duty, for they are in the direct line of fire, and they are paying the price of the crime committed by the older generations.

We had the knowledge; we had the intelligence and we had the ability, but we failed to apply wisdom and the willingness to serve; and we squandered our opportunity. We ought to be utterly ashamed of the world we have permitted to be, and humbly grateful to those who have come to try to set it straight. We have accepted evils without adequate protest. We have committed mass-murder and glorified it, - no matter in what terminology we have wrapped it up, and we have deliberately destroyed food while others starved!

All men and women are the children of the One Father, therefore each one is our brother or sister. These truths have long been in our possession and we reject them at our peril. Excuses will not save us. There is little or nothing else we can do but humbly step aside and thank God that those with courage and vision are prepared to try their hand at righting the wrong of the past before the midnight hour arrives and all is lost.

The least that we can do is try to understand, and to help them where we can. It is too late to demand respect. However, we can try to preserve the things of real value that mankind has managed to accrue. But if we endeavor to hang onto our ill-gotten gains while others starve, and think that we can continue to bomb other human beings, - no matter what name we call it, - then we will go down with the rest of the rubble that must be swept aside to make way for a decent society that is fit to bring children into.

Man has enough intelligence to fly to the Moon. Let him now turn his inventiveness to solving the problems confronting the human race. There is now one question to be decided by all individuals, irrespective of race, color, creed or political beliefs, and that question is, -

ARE YOU IN FAVOR OF PEACE OR ANNIHILATION?

Fred & Mary Robinson,  
"SHALAM" New Age Information Centre,  
Bedforddale Hill Road,  
Armadale, 6112, West Australia

"THE FOUR WINDS"

A Centre For Universal Light And Harmony  
In New Zealand

By Bruce & Lency Dawson

"Nga Hau E Wha" - in the Maori tongue means "the place of meeting for those from all over". So this then was the name chosen for the Centre of Light and Harmony being formed in New Zealand. A highly spiritual piece of land which overlooks the Manakau Harbor, and which is only fifteen miles from New Zealand's largest city, Auckland. Our nearest township is Titirangi (meaning "fringe of heaven") about five miles from our place.

It is with great joy that we have come to know Brother Francis and his fine international quarterly publication, "The FATHER'S HOUSE". He has asked us to write something of our work in New Zealand.

Briefly, we have come up through several years of intense spiritual and mental training. Ten of us were gathered together to undergo this spiritual growth and discipline. We met three nights a week for over a year and during this time we began issuing a Bulletin called "The Army of God". With this bulletin we endeavoured to bring a greater awareness of one group to another throughout the world in an attempt for unity and understanding.

This then led to our making by hand a type of concrete pottery which we sold to finance the issuance of the Bulletin which was later discontinued. Next we were taken out into the world of business to open a small hand-craft shop, each of us contributing in various ways and also taking in the crafts of others. A little later on we also opened a 'take-away' food bar which we called "The Space Bar". We ran the two shops supplying the needs of both with handcraft and foodstuffs. The food ranged from health foods to hamburgers, but this shop became more and more demanding and took the whole of our energies. We all worked in an extremely small area and we now realize that we could not have been given a better training-ground to knock off some of our many rough edges. However, after exactly a year, the "Space Bar" was sold and the final transactions for our new piece of land were completed.

Three of our families sold their homes in Hawkes Bay, and moved into caravans (mobile homes) on this beautiful fourteen acre site. We were literally rushed to this spot before Christmas 1969. This is the beginning of a Universal Centre for all peoples in every kind of need. We regard it as 'God's Land' and we His caretakers. We are working and guided entirely by prayer and divine inspiration, thereby becoming AT ONE not only within ourselves, but with God as manifesting within the animal, bird, fish, insect and vegetable kingdoms. We also work in harmony with the "Four Elements" in an endeavor to achieve rapport and cooperation with all aspects of the Creator's manifestations on this planet, for we feel that this is the way it will be in the coming New Age.

Our menfolk, wishing to spend as much time as possible on the property, have chosen to do casual work so that this aim can be achieved. We have

the beginnings of a very healthy vegetable and flower garden where no sprays are used and everything is compost grown. This garden will eventually supply most of our needs. The plans for our intended building have been submitted to our local Council and while this is underway we have followed the inner urge to cross the Pacific to America.

### TWO "KIWIS" VIEW THE MIGHTY EAGLE

"So you are English"! No. "Australian then". No-o - "Well you must come from that other country away down there that everyone wants to visit". Yes! yes, New Zealand!

This is the way we have so often been greeted since we arrived in this mighty land. We have come on a spiritual sojourn in an endeavor to make contact with as many and as varied groups of spiritual understanding as possible. We have found God's treasured souls hidden in many of the out of the way places. People who have given over their lives entirely to live and work in the Light in many fields of thought and consciousness, - each one contributing to the whole in a way that is needed now more than ever before in the history of this planet.

We come on a journey of unity. Unity, unity, - we hear the word spoken everywhere. Each person, each group speaks of it, but in the next breath many then begin to tell of the importance of their particular work, and the gist of it is that they are the chosen centre for the land, for the world! After experiencing this many times, we began to feel that there surely must be a plan behind this particular pattern. We took into consideration the importance of each work and fully understood it. Each part is a valuable and important portion of the whole, but no particular one is any more so than another.

We feel very deeply that the time is upon us where each one of us can safely recognize the fulfillment of each of these facets. We need not be afraid that anyone is going to steal another's glory. Each of us have more than enough on our hands to work through to a successful whole. Let us take time off to lift ourselves above the matter of various personalities, and view each aspect of the work on hand with the respect that it deserves thereby communing fully in understanding and tolerance. Let us acknowledge one another freely and the contributions that we each can make to the whole, by taking time off to listen, - really LISTEN to one another! We may toss out that which we feel is not correct, perhaps temporarily put aside that which we feel could be correct, and go along fully with that which we know to be true. All of this can be done in one single conversation with dedicated people. Each one has a path, - a path of fullness, - for they would not be still participating at this stage if they did not.

This then is how we view the American scene. Not only does it apply here, but also in our own country, and all the countries on this planet. As our consciousness begins to lift, let us draw nearer in patience, tolerance and understanding of each other. This country needs the unity of the Light Groups possibly more than any other at this time, for seemingly the

problems are great and they are many. People as a whole are deeply troubled, bewildered and agitated. We know that this does not apply here only, but is worldwide as these new and intense vibrations of Light enter the planet. As this Light rises it will reveal and eradicate the darkness hidden within the minds of mankind. Everything must rise to be cleared. Mostly unrecognized by the masses, they stagger under the weight. More and more souls are awakening, and they shall each need a particular kind of help, - an assistance to understand.

We visualize an immense city being built in this land, probably a city founded in the desert regions. A city where man and animal, plant and weather will all work together in harmony, one with another. It will begin with a nuclei of entirely universal people. It will be a place where those of every belief and understanding will have the opportunity to live in their own particular units. The leaders of these units will be of universal consciousness and will be able to meet together and discuss in a deep understanding, one with another. They then shall take this understanding back into their own particular units, allowing it to sift through to those living there.

People from all over the planet will be welcomed and they will move from one unit of understanding to another until they find that which is right for them. This then is the America of the future; something that will grow from a great need, as catastrophe after catastrophe hits the land; a land which is truly great; a land which has much to give to mankind; a land which needs prayer and light and help at this time. This will be found in spiritual unity given only as the 'Great White Spirit' of God flows unhampered through the minds and bodies of His children, - a spirit that lights the spark of Divine Love which then floods out to overcome all difficulties.

Once this spirit of Love and Light rises, language difficulties will fade. It will not matter if we do not understand each other verbally. We will vibrate in complete union and thereby transfer our thoughts one to another. In this way there can be no misunderstanding, for it would be pointless to think one thing and say another.

All aspects of science, education, religion and culture will gradually be brought into rapport with each other. As more and more people enter into the higher states of awareness, the waves of complete harmony shall really begin to flood out across the earth, bringing all aspects into line. This will come to pass gradually at first, but gather momentum rapidly as it becomes recognized and adhered to. This is no pipe dream; it is for real, and the sooner people become aware of this, - lifting their heads up from the darkness to walk proudly in the Light, the sooner harmony will be restored. We each have this responsibility. It is no one's else but our own, so let us accept it. The time for 'fence sitting' is over. We cannot have a foot deeply implanted in the world of materialism and also hope to enter fully into the kingdom that awaits us right here on earth. Let us rise to accept our full heritage right here and now.

As we prepare to return to New Zealand, we go with joy in our hearts, for we truly anticipate the fullness of unity that is upon us, and we rejoice!

- Bruce & Lency Dawson, "Four Winds", Box 60008,  
Titirangi, Auckland, New Zealand

A FOND ALOHA!

This beautiful Hawaiian term of greeting and farewell, seems to convey most appropriately, and better than anything else, our feeling of joy and gladness for the privilege of meeting and sharing thoughts, experiences and spiritual concepts with two of the most beautiful souls that one could ever hope to meet on this planet. I speak of Lency and Bruce Dawson whose story and article you have just read on the preceding pages.

They arrived in Los Angeles just as the last issue of this magazine was coming off the press, - the 14th of May. In fact they accompanied me to the printing plant and received the very first copies of the May issue on which the ink was hardly dry. By coincidence (if there is such a thing) they had received a copy of The Father's House, - the February issue, just before they left New Zealand. It was sent to them by our Australian representatives, Fred and Mary Robinson.

Upon arrival in this country, they have solved their transportation problem by purchasing a used car, and since then have travelled some 8500 miles through the West Coast States including Arizona and New Mexico. As I write this (July 22nd) they have disposed of the car and started out on a plane trip that will take them all the way to New York City, with five or six intermediate stops before returning here for departure back to their home country, New Zealand. Many of you they have already met, and many of you will meet them along the way before they go home.

Since they are obviously divinely guided, it is apparent that the purpose of this trip to our shores is much the same as the trips I was directed to take to England and Scotland and also the shorter trips in the U. S. On my recent trip to Oregon (Merlin and Portland) our paths crossed several times up there too. And it is not unlikely that our paths will some day cross and recross in other places while we are "about our Father's business". In the meantime our warm affection, love and prayers enfold and surround them as they too labor to do their part in the Father's Perfect Purpose and Plan to restore His Kingdom on planet Earth!

\* \* \* \* \*

REGARDING THE INSERT: This insert is largely self-explanatory. In copying from the "Essence of Open Mind" - page 63, in the summaries under "Events of the 80's" and also further down under "Events of the 1990's", the sub item (b) for both summaries is almost the same, and both begin with the word "GROWTH.." So when typing the first series of sub-items (under the 80's) apparently my eyes wandered down and picked up the same word under (b) at the bottom of the page and went on from there.

We have come to realize that there is actually no such thing as an accident, and this case is no exception. When it was brought to my attention by my Australian friends, I quickly checked it out, and then in meditation asked for an answer as to why this had happened. The answer came quickly and the key word is GROWTH and the lesson is for all of you. Think on it!! We who were involved here are not likely to forget this one very soon.

THE FATHER'S HOUSE  
FOREIGN REPRESENTATIVES

EUROPEAN Representative: Mrs. Ivy Caygill, - 38 Lewisham Park,  
Lewisham, S. E. 13, LONDON, ENGLAND

AUSTRALIA & NEWZEALAND - "SHALAM" NEW AGE CENTRE,  
Representatives Fred & Mary Robinson,  
Bedfordale Hill Road,  
ARMADALE, 6112, West AUSTRALIA

These Representatives handle all business matters including subscriptions, donations or financial gifts, and the individual mailing to all subscribers in their respective areas.

Please remember that it requires at least two months for surface mail to reach these representatives, so generally speaking, you should add two months plus about ten days to the publication date given on the front cover for each issue to reach you. Sometimes it may be less, as transit time varies some with each shipment. Occasionally it may also take longer.

Our invisible Director and Sponsor of this publication is referred to by us as "The ALL KNOWING ONE" of Limitless Love and Truth. We endeavor to follow His directives in all matters both material and spiritual. He has indicated that there shall be no price quoted as a subscription fee for The Father's House, and no one has permission to suggest or state a specified amount. However the recipient is expected to realize that this is an expensive operation to produce a magazine of this high quality, now expanded to 44 pages, and 'all meat' - no advertising permitted; remember advertising revenue is the principle source of income for most publications.

Those who have severe financial problems are invited to make this known to your representative if you live outside the U.S. and to Brother Francis if you live in the United States or Canada. Every possible consideration will be extended to these cases, and a workable plan will be suggested. Many send a smaller donation after receipt of each issue, which is quite acceptable.

A Free Bonus Incentive of a set of the hard cover "Mini-books" is still offered for all financial gifts of \$5 or more, exclusive of book orders. The titles of these are: "Adventures Into Unknown" - "Inner Peace" - "Pearls of Light" - or "Tides of Thought". Some of you have already received one or more sets of these; if so you can select one of the others.

\* \* \* \* \*

BOOK & ALBUM ORDERS

- "The THREE DAYS SCENE, By Jacob Lorber . . . . \$1. 50 (A Must!)
  - "The GREAT AWAKENING, By Jacqueline Lander . . . . 1. 50
  - "The Int. CHILDRENS CHOIR ALBUM . . . . . 2. 50
- (Other books listed in previous issues not available.)

IMPORTANT: Many are still in arrears on their 1970 Subscription donations. We regret that this must take precedence over book orders.
