COVER

Though we have chosen to use this cover five times previously, - the first being on the first issue of the FATHER'S HOUSE, February 1969, we have used a different title each time, - for it bears universal meaning. This time the inspiration came through clearly to use the new title of

"FROM MORTALITY TO IMMORTALITY!"

THE EDITOR'S PAGE

Somehow it seems that being ready to go to press early is becoming the rule rather than the exception, for as I write this there are several more days remaining in the month of May! My mind is being directed to the statement I made in the last issue on this page that this Spiritual Activity is entering its last and totally new Seven Year Cycle. Perhaps this 'speedup' just might be related to the above new cycle, for Our Father, sometimes referred to as the "Big Boss Upstairs" doesn't always see fit to explain His Plans in advance. At least it's been that way with me since I've been involved in this Activity, - and I think it is quite true with many others also.

This issue is 'supposed' to be the Summer Edition, and perhaps "Father Time" if he puts on a burst of speed may barely make it under the wire by the time the printer and 'yours truly' and the dear old Postal Service all do our respective parts it may be Summer by the time most of you receive it! It just occurred to me that the present period of "Acceleration of Spiritual Energies" is still in force, but will be ending at that time..(Summer Solstice).

While I think of it, there is one thing I mentioned on this page in the last issue that I now wish to question or qualify. It concerns the statement that I made concerning the Birth of Jesus having taken place under the sign of Aries the Ram. It came to my notice almost immediately after that issue was in the mail. Claims have been made for several different dates and time of year other than Christmas. It is also true, as I have learned, that there was a different calendar in effect in the days of Jesus' sojourn on Earth, and that the old 'Julian' calendar had a built-in defect or inaccuracy that has now accumulated a difference of about two weeks..(one day every 128 years). There was also an error made back there in placing the year of Jesus birth four years later than it actually happened, so that without changing our present calendar, He was really born in the year 4 B.C. (Not that it makes any real difference!) For Praise God, Jesus WAS born as the Avatar or Christ of the Piscean Age!! Glory Hallelujah!!! Now as our Cosmic Beloved Elder Brother and Wayshower for the New Aquarian Age, He is becoming increasingly known as Jesus-Sananda to all who have reached the level of understanding of those who are called 'Initiates'. Many of you are Initiates and don't realize it!

By WHATEVER name called, the Beloved Sun of God responds to the call of any human soul, - for He is the same yesterday, today and forever - One with the Father! He travelled all over the world way back then before He began His Ministry in Palestine, and the title of Sananda added to His name indicates His 'Worldwide Ministry' for this New Age including ALL mankind, - not just those called "Christians" or "Christendom!" Ponder and meditate on this truth, - for it will truly broaden your 'Horizon!' Let these words be your mandate here and NOW! For, is it not true that unless you GROW in Grace, Understanding and Wisdom, - in effect you are 'stagnating'? That which stagnates becomes as the Dead Sea and the Life Force has gone from it, - even though had been the fresh, living waters of Galilee and of the River Jord You may draw a 'parallel' here with your own life perhaps.

"EGO-LESS-NESS"

Through Illiana

While preparing the March issue of "New Age Teachings" it was impressed upon me by the I AM that a great need exists presently upon planet Earth, especially for those who declare themselves as "Light Workers" - to be consciously aware that 'NON-EGO' is a most important factor in being a pure and efficient Light Bearer, and that this fact must be stressed through every means possible!

It was further impressed upon me that the lessons on 'Ego-less-ness' be included in the very next issue of the Father's House, - (Summer Issue). At the same time Brother Francis received a similar 'nudge' and so this time the series of lessons "TO MY DISCIPLES" will be interrupted so that the I AM THAT I AM messages on "NON-EGO" may be presented.

As so-called 'time' accelerates, moving swiftly into the New Golden Age of Light, - the challenges are many as both Forces battle for our 'lives'. According to the Ascended Masters, this IS the 'Armageddon' spoken of in the Scriptures and in other literature. So we must constantly be aware and on guard regarding any 'demon' that may try to possess us, - INCLUDING the "ego-demon"!

Now I share with the readers of The FATHER'S HOUSE the words I was guided to write (as a sort of 'editorial') early in March, - and this will be followed by the lessons from the I AM THAT I AM.

Dear Ones, I can't begin to tell you the scope of Activity that has been revealed to me which is going on in the Higher Realms, intended to purge the world and awaken us into a more comprehensible understanding of the large program which is going on from the Realm of Light! Among other things, it has been IMPRESSED upon me that I MUST SPEAK BOLDLY in regards to the groups and Channels who declare THEMSELVES and their operation as THE focal point of Light on Planet Earth! Over and over again I am given a Vision of Earth, and in this Vision there are LIGHTS, - many, many Lights, all aglow in a POSITIVE RAY beaming forth to all those needing guidance. I see the Earth as a vast Ocean with multitudes of ships, and here and there are the Beacons shining from the many Lighthouses to guide the wandering ships safely home! Not any ONE Lighthouse is selected as THE Lighthouse, or the most important one, - but all of them which are PROPERLY LIGHTED serve to guide the 'traveller' HOME! Of course you see the symbolism here, just as I do.

How often we are reminded that we must not become enslaved by our selfish egos, thus causing us many times to become inflated with our own self-esteem until we truly begin to believe in our own exclusiveness. Recently many have expressed concern about such groups and Channels

and some have voiced confusion. I do not often speak to you on a 'personal' level regarding spiritual matters, - yet I seem to be doing this now. However it is because I am GUIDED to so speak, that I am doing so!

These are days of purging on our Planet, and during such periods it is necessary that ALL things are UNCOVERED, so that the positive and negative aspects of activity be exposed, and then we can sort out for ourselves that which is spiritually sound, and that which is NOT!

The Ascended Source of Light aids us through lessons that assist us in discrimination, but we ourselves must make the decision as to what is for US a 'Guiding Light'! Though in some ways we live in a small world, - at the same time it is quite large! Therefore it is imperative that MANY Lights, MANY Centers and MANY focal points are existing to serve comfortably all of mankind. The TRUE Focal Point of course, is on the Realm of Light which is not of Planet Earth. From this Cosmic Realm, ALL the focal points of Earth are fed, and they in turn feed those who are 'turned on' by them. Each one of us who serve as channels must be aware that we serve in a certain expression, - while another may serve in a different expression that is suited to his or her personality or understanding. And let us not forget that there are ALSO many false prophets on Earth!

At this time we share with you a lesson which was received as instruction to ALL of us regarding Channels of Light.

CHANNELS OF LIGHT - BE NOT DECEIVED BY EGO-DEMONS!

O My Children, - how often must I tell you that the COSMIC POINT of ILLUMINATION is in the Realm of Light, - not of your Earth at all! All of you, - groups and channels alike, are Lights being fed through the Central Vortex from this Higher Realm! There is no ONE group, no ONE Channel, no ONE geographical area chosen as a special point!! We know too well the ego-inflating problems of Earthlings, and we will do nothing to increase this tendency! Realize this, My Beloved! And also realize that in the Eyes of the Cosmic Beloved you are equal Stars of Light, though some of you may shine more brilliantly than others.

And, dear Hearts, - it is the one who is humble; who quietly goes about the work of casting Light on his path, who is noblest! Those who make elaborate proclamations through their claimed messages; who pridefully hold themselves superior to others and who are attached to titles of 'reverence' - are being deceived themselves!

Do you believe that We look upon one geographical area of Earth as superior to another? If you think that, Beloved, - then you are being misled! ALL Points of Light have EQUAL importance regardless of where they are located!! When one is found to be false, (a synthetic light), it (or they) will be exposed, dimmed of its light and eventually removed

from spiritual activity. There are many FALSE PROPHETS, and you have been given the signs to observe them, therefore review these signs and then discriminate for yourselves if certain ones are 'false' lights.

We instruct many souls to become Light Bearers, but only a "few are chosen" (few being a relative term) to be ordained for the noble Work. However, many are reluctant to retire when they ARE relieved of their activities by Us, - and so they continue, often elaborating and making strong claims for themselves! You know of course, the Tempters of Negativity are very forceful and convincing, - making their words sound like a MESSAGE FROM THE REALM OF LIGHT!

You who are 'Stars of Light', do not be disturbed by those who make claims to EXCLUSIVENESS! Just remember this: The Realm of Light, - NOT belonging to any planet, yet serving ALL of them, - is the Vortex where ALL PURE ACTIVITY springs from. From that Point in the Cosmic Realm, I AM directing the High Energies to BEAM OUT to the many, many Light Centers on Earth, - ALL of equal importance!

There is to be no "tug-of-war" in the Kingdom Of Light, My children. The competitive attitudes which exist between certain groups and individuals engrossed in Spiritual work is very destructive. Generally the hunger for power and fame is the root of this. If it is allowed to persist then their spiritual assignment will be cancelled, - for the Realm of Light can use ONLY the humble ego-less ones to serve hungering humanity.

Yes, yes, yes, - let me repeat again: Those who are TRULY strong Lights, emanating great power to all areas of the world, - are the quiet ones who serve with great humility, making no claims to exclusiveness, permitting only PURE Universal Teachings to come forth through them, - for ONLY such Teachings are expressed through Me, the I AM THAT I AM, and through all other Cosmic Messengers of Light. Anything else which may be stated is part of the EGO-consciousness which such channels inadvertently, and perhaps unconsciously, insert.

Do not misunderstand, Blessed Souls, - this message is not one of condemnation! We condemn no one! Yet, I AM THAT I AM, the Inner Source of Light for all of you, must advise you regarding the pitfalls you may encounter! Human ego is a very strong part of your makeup, and EACH ONE must be alert to its powerful influence! In these latter days many conditions are permitted to be expressed in order to 'weed the garden' as it were. ALL IS IN DIVINE MOTION and what remains attached to ego under the guise of spiritual activity, will be weeded out, you may be sure. They will not be condemned, but only removed from active duty until such time when they RELEASE THEIR HOLD ON EGO and become strong in HUMILITY!

My Beloved Souls, do not permit the ego-demon to control your life. And if you are ordained Cosmically to be a Channel for Light, be ever alert to the tempting dance that 'ego' performs before you!

"Let the I AM THAT I AM inspire you and instruct you. In this way you will be safe from the Tempter's power! I send you LOVE and constant GUIDANCE! I AM THAT I AM!"

(Note: To add to this lesson it seems appropriate that we share portions of a personal lesson which was received for Illiana and four other Channels who work in close association. We will eliminate the personal sections and give you the portions that apply to ALL Points of Light. I think you will find it illuminating and a fit postscript to the above Lesson.

EXCERPTS FROM THE SPECIAL MESSAGE:

This cycle of 'time' which you call 1977 is to be a strong period of activity on Planet Earth. New Life will be injected in many areas as the cleansing process goes on, and certain Light Workers will be extremely active. This is to be an INTENSE time of cleansing. During this cycle many groups and Channels who are "ego-motivated" will be 'dethroned' by their own acts of insincerity and deceit. The Biblical statement, - 'Many are called but few chosen' will prove very true, as it is revealed of the many who are called to be Pure Servers of Light who permit the enslavement to EGO to rule their deeds. This will cause the Cosmic Hierarchy to remove the 'power' from them! For several years the world has been exposed to many types, - some sincerely motivated to the Cause of Light, while others had aims toward selfish "ego-motivations". The time is NOW, in this period, to cause the negative types to fade away, making room for the Leaders who serve mankind the Pure Bread of Life!

Blessed Servers of Light, - continually clothe yourselves with the Holy Garments of humility, self-denial, self-control and Universal Love. Your exemplary lives along with the Spiritual Mission you are performing, has great influence among the people. In truth you are Representatives of the Higher Command, - the Hierarchy of Light. I AM the POLESTAR of this Activity and an integral part of each of you! You are ONE with Me, with the Logos, with each other and with humanity!

Each of you are united in one Divine Purpose, - serving Father-Mother God Light through cooperative means as well as through the individual missions you perform. Though some of you have not 'met' in physical form, - be assured that you are NOT strangers! In other lives, at other times, - you were in cooperative spiritual ventures together, and are infinitely bound together by the Thread of Activity serving the noble cause of LIGHT!

Just think of it, My Beloved Souls, - five of you form one Star, and eleven such Stars form a circle of Pure Light! MANY of these eleven-Star luminaries encircle the Universe made up of entities like yourselves from Earth and other Planets in your dimension as well as from other Dimensions in Space. This is the glowing LIGHT ACTIVITY that surrounds the Universe, - that cleanses, renews and reestablishes the Kingdom of Light! You indeed have a grave responsibility, and you must not shirk that responsibility!

Keep your Lights burning bright, illuminating every atom of space that is your responsibility to Light! Your tasks are EQUAL in importance, one lending to the other, forming the perfect whole. Work in harmony, ever free from ego-motives, detached from material desires. Avoid indiscriminate use of the senses and let all your actions be Divinely motivated.

I AM THAT I AM, - the Light that glows within you! At every moment I feed you the Manna of Love from the Cosmic Storehouse and surround you in the glowing Flame of Etheric Wisdom-Light that radiates as Peace, Joy and Unity in your Soul. As you serve in humility and Love, you will express the I AM principle and thus bring blessings to the seeking ones, and to yourself. Go with the Golden Ones in Peace and in LOVE!!

LOVE GOD - SERVE HIS CREATION!

Blessed Children of Light, - it is not WHAT happens to you that matters, - but HOW you react to the various experiences in your life that molds you into a worthy or an unworthy expression of God-Likeness. If you will be ever conscious of your Divine Self, then you will accept all physical experiences without strong emotions. As long as you remain aware that NO ONE nor ANYTHING can move your soul out of the Realm Of Divinity, - then you will be at Peace and ONE in the Spirit of Divine Love.

The ones who suffer the most from earth life's experiences are those who are dominated by desire. Because they seek wealth, fame, power and possessions, - they are susceptible to the many chaotic situations that surround them. To be totally happy and removed from these chaotic experiences, you must allow the lower self to 'die'; that is, you must destroy the self-motivated desires and appetites. Then you will be 're-born' and will live a true, a joyous and a triumphant Life as a child of God, which IS your true birthright.

My Blessed Souls, - the easiest way to break away from the self-centered attitudes is to Love God and serve His Children! It is only when your mercy and compassion are extended widely that you will truly know the vast scope of God's Immortal LOVE!

In your personal lives, do not react negatively to the insults that may come to you, - nor be exuberant over praise. If you are detached from all things, - then neither extreme will affect you. LOVE GOD; SERVE ALL! That is all you need for a fulfilling life. You are NOT the body! You are LIFE and DIVINITY, - One with the FATHER-MOTHER of the Universe! You arrived on Earth in this time and place as a Reflection of the Divine Spark. Do you express this Divinity? Are you gentle, forgiving and compassionate? Do you proclaim the Love of God for ALL Creation? Is this expressed through your every action as a Co-Worker with the Living Lord of Eternity?

YOUR INNER LORD, - THE DIVINE SOURCE

(Excerpts From the Diary of Phoenecia)
By Rev. Frances McKay

Beloved Self of Mine: - Every trial, every problem you face simply shows you a particular spot in your own self-awareness where you're failing to accept the Truth that God is constantly operating through you, AS YOU! Oh, Precious One, - don't you see? YOU'RE the King (or Queen) born to rule your Kingdom through self-knowledge and discipline, but you can never do this efficiently until you seek to understand and identify yourself FIRST OF ALL with your own INNER LORD, - your Divine Source of Life!

YOU and the Father are One, - but you must accept this Truth and remain conscious of it in everything you say, feel, think and do, - or in other words, you must "pray without ceasing!" "Be STILL and know that I Am God," for "I Am that I Am" IN YOU which can say, "I Am I forever" and having sought Me where I live within your very self, - must then let go and let Me work through you, - for that's why I projected you as a part of Me in the first place.

"It is the Father's good pleasure to give you the Kingdom," and this means you may have It outwardly as well, because as Jesus said, - "Heaven is here," right where you are on Earth, waiting to become a VISIBLE part of your human experience. Thus, since the Kingdom lies WITHIN you, "like leaven which a woman took and hid in three measures of meal, till all was leavened," so possessing health, harmony and abundance, - in fact any other good you may want or need is a part of your true and normal state of being. You are free to experience all of these joys as soon as you KNOW they are ready to become your own. Why? Because then you can mirror them into visible and tangible form deliberately through your CREATIVE CONSCIOUSNESS, and a good way to start is by affirming their present existence.

Decree PERFECTION in all your affairs! This establishes it onto you IMMEDIATELY, - for the Kingdom of Heaven is something that you ALREADY HAVE, - not something that you have to acquire. You're like the Prodigal in the parable, - free to return and accept your birthright from the Father at any time, through prayer, meditation and love for your Divine Source.

Since you actually BECOME that on which you focus your mind and heart, - your attention directed upon your wonderful I Am Presence will cause your Real Nature to unfold in Its 'image and likeness'. The more lovingly and consistently you keep your mind stayed on your Spiritual Source, - the sooner you will raise your soul's radiations in accord with the Fount of your Divinity until you manifest your Godhood in the flesh as Jesus did.

KNOW THYSELF! That's the most important goal you will ever have. In fact, no brilliant teacher, no inspired book, no Holy Creed can do anything more than point you toward the acceptance of your inner Christ Focus. This alone is your salvation, and that's why all 'your good deeds are but filthy rags' if you neglect to learn about the YOU within.

Of course when I say, "Know Thyself" I don't mean mere intellectual knowledge, even when it concerns your Divinity, - for you must get acquainted with your Animating Presence as lovingly and intimately as if you were establishing a dear, close relationship between the personal you and your Creator. To use a Biblical comparison, it might be like a bride getting to know her bridegroom until a conscious, you might even say an outer state of ONENESS with your True Self results.

This completes the Holy Trinity, - or the ONE God manifesting three aspects as a part of the Whole. The Father is the Source of all you have and are; the Son which is YOU-in-Focus (the Christ You), and the Holy Ghost or the Divine Substance from which your Reality takes form. This Holy Ghost is not a Spirit alone, - it is the LOVE Quality of Life from which all things and conditions materialize. When the outer you begins to reflect the Divinity within, - this form-making Essence in turn will mirror that Perfection back to you from your body and world.

To help you reach that state of Wholeness (or Holiness) in which you, the Father and the Spiritual Substance of Love are in perfect accord, - you should start viewing every irritation, sorrow or danger as a lesson, - an experience created in the "image and likeness" of your present self-concept by YOU in order to teach you whatever you need to know next about YOURSELF.

Each problem in your life clearly outpictures the current state of your mind and heart, and one can see some amusing illustrations of this in human existence. For example, there's the woman whose house is a lovely hodgepodge, - mirroring her interest in a dozen hobbies, but NOT in housework itself; or the orderly executive whose ultra-neat office shows his willingness to delegate the details of work to his helpers.

What seems like reality to you is nothing more than a picture of your present state of self-awareness. It reveals through the looking glass of matter, how well you are reflecting the Father Within. Your outer scene depends on the thoughts you entertain, - for they are constantly molding the SUBSTANCE of your feelings into the forms and conditions that you experience from day to day. Only YOU have the power to change what appears on your physical screen, and this is done, as I said before, - by turning your attention to your wonderful INNER PRESENCE, that you may reflect Its Perfection out there in your flesh and in your surroundings.

"As a man thinketh in HIS HEART"- or in other words, - into the 'substance' of his emotions, - "SO IS HE!" For the ideas on which he himself focuses with FEELING, causes him to encounter the conditions

of 'good' and 'evil' in his life that correspond to the emotional substance that he has created in the above manner. Whatever receives the **WHOLE-HEARTED** focus of your thoughts and feelings soon becomes a visible part of your experience, - so claim your Oneness with your Divine Source in order that you may materialize Its ideas perfectly, right to the point of becoming Christed and bringing back the Garden of Eden as your home on Earth. Then all that Jesus did, you too can do, just as He promised. Your world will become the 'image and likeness' of the God that you're reflecting, - for Spirit and man alike, create by mirroring themselves as they **FEEL** and **THINK** they **ARE!** The reality that they make is nothing but their own externalized portrait.

All of man's troubles result from the imbalanced way he goes about reflecting his God Within. The wisdom of his thinking has been expressed (or out-pictured) into the form-making essence of fear which causes him to feel hate, anger, greed etc., when he **COULD** have molded the beautiful Substance of Love into a Paradise for himself and his fellow human souls instead. Therefore, he has precipitated bombs, war, disease and a deadly kind of competitive living that shortens his stay on Earth, and deprives him of many wonderful things he could have and experience.

"What fools these mortals be" - for why should they struggle, compete, fight and try to steal their good from each other, - when all the time they could have gone within themselves and received what they sought for the asking! ?

LOVE produces the only reality that counts, - and the forms that are made from Its pure, perfect Substance, will blend themselves into a happy, productive, peaceful and prosperous world for everybody concerned during the new Golden Age to come, whether or not man considers this possible or practical at present. All the conditions that now seem so overwhelming and incontestably "scientific" will someday be defunct, complicated and imperfect structures that Love will supplant with ease.

For instance, - man has the commandment that says simply, - "Thou shalt not kill", yet for centuries he's been at war! Even today, most people think that a diet of meat leads to health! Lacking love enough to understand his oneness with all life everywhere, - he doesn't see that depriving a creature of its body, also deprives God of a means of expression. Such an act, - even the **INTENT** to commit it, - calls forth Karmic frustration, both on himself and his nation as well.

Beware of what you do unto "the least of My children, - for you do it unto Me!" And, "He who takes the sword, shall perish by the sword!" However, mankind as a whole is not yet in tune enough with their Father to see that He will gladly save them from the need for committing such crimes. Therefore the Karmic discipline of tainted meat and formidable weapons of death may have to be their teachers instead.

"Oh Jerusalem! I would take you into My arms, but you would have it not!" The time is so short! Embrace Me and learn how I Love you,

each and every Precious Soul of Mine, - for your work will soon be done along the present level of the Rays under which you've been born from incarnation to incarnation.

Many of you dear helpers on Planet Earth have chakras that are open and radiating, - each giving off the color of the Ray it emits, until at that certain point where you reach the state of Christliness, - you become a scintillating Spiritual Rainbow! Life after life you have devoted yourselves, subconsciously at least, - to the great Rays of Spiritual Light and Warmth that play upon your world and express the Nature of God through man. You have perfected your knowledge, use and absorption of each mighty Beam into the character of your souls, and now you are emerging with your bodily centers giving off the full, pure colors of Life like Joseph's coat.

"Ye are Gods!" Fast becoming Rainbows of the Christ Consciousness, able and glad to help those who contact your now enormous, outgoing, Spiritual auras, as Jesus promised you would do when He predicted that someday ALL would accomplish what He did, and thus carry on His work.

He who obeys the commandment to "Be perfect" by seeking Oneness with his own Divine Source until he mirrors Its Perfection fully in his environment at all times, - soon goes from 'helper' to 'disciple' and from there to the state of Christhood where he can radiate the Rainbow of Life in all Its glory for the benefit of mankind.

"Let go and let God" - IN YOU, BE YOU NOW! as the All-Rayed Consciousness of your own Divine Wholeness, - no matter what you have expressed physically, mentally and emotionally up to this point. LIVE the Christliness you've been unfolding through the ages, - from this day forward, sending out the soft blue of Power as you speak. Fill your heart with the perfect rosy Substance of Love that benefits yourself and others by forming your thoughts into perfect experience. Take the pure gold of God's ideas into your mind to mold what you would create as you want it to be. Then glow with the white that's untouched by "sin", symbolized by the lily and the lamb, and see the green Light of creativity established in the Third Eye between your brows.

FORGIVE every transgression of your own and others; every discord everywhere, and discern the Presence of God in all you meet after which you may contemplate once more upon the Father as you rest from your work in peace of mind, - knowing that what you've been doing is good. Stay ever ready to help and serve each blessed soul, that all may bring forth the Kingdom more easily in his or her reality, one by one.

Thus, you step into the Rainbow of God Self Awareness! You've earned Its mighty badge, which of course is the full use of all the Rays of Life, as man was meant to express them. You are Power, Love and Wisdom; Purity, Creativity and the Forgiveness that brings the perfect form-making Substance into your hands to establish a Heaven on Earth in your 'image and likeness'.

Now you know what it means to be 'Perfect', - the true reflection of your Lord, - the God-in-Focus whose world is a beautiful mirror of your own Divinity. Possessing as a God, the Rainbow of Christ Self Awareness you may help pass It on; may give all who are ready to receive It at their own specific level, the Spiritual Radiation they need most where they stand from the Limitless Perfection of your Omnipresent Source!

You are a "Christ Incarnate", strong, loving and wise in the Rainbow Wholeness of the Trinity of Life, - One with the Father, and serving the world as you agreed to do.

To all whose Inner Natures stir in humble response to my words, I have spoken. Blessed be every Christed Soul who thrills with the urge to Radiate the Rainbow, - for they are My beloved offspring in whom I am well pleased. Knowing all are One in Christ, - I speak for the Father in each!

"EGO-LESS-NESS" continued from page 8.

O My Souls, - how blessed you are! How privileged!! In this moment of the Eternal NOW you have been granted the Wisdom of knowing who you REALLY are! Is this not a marvelous revelation? Go forth triumphantly, Beloved, - and EXPRESS your God-Selves! You are ONE! - Each a Divine Spark from the ONE Dynamo, - GOD!! Let all ego-desires fall away and concentrate your activity on noble work in the Universal Kingdom. LOVE GOD and SERVE HIS CREATION! In your Limitless Love for the Cosmic Beloved, you will find no time for enmity toward anyone, and no desire to fight or struggle with anything or anyone. GOD IS LIMITLESS LOVE, - and if THIS is your attachment, - what else can occupy your heart and mind?

Beloved, be joyously happy in the Reality of this Truth, and LIVE according to its Law! I AM THAT I AM!

I extend my personal, loving affection to all Readers of the Father's House Quarterly. May each one be blest with the Cosmic Beloved's Joy, Light, Love, Peace and Harmony.

GOD'S LIGHT And LOVE NEVER FAILS!

By Mary Myneta

The Light of God NEVER fails when called into action in LOVE! And may I add, - in accord with the Law. The 'Light of God' may seem like a fantasy, for you haven't seen it; you cannot reach out and touch it; you cannot buy it or sell it, - but you can INVOKE It! What then is that light?

Light, as we speak of it in this context, is ENERGY. All life is teaming with energy, and all energy is God-energy! However it may be utilized by man for purposes which are not the work or the will of God, - but the energy that goes into them is 'God Energy'. Therefore, I can say that this Light of God cannot fail to produce perfection when called into action in Love and in accord with the Law. What is LOVE, and what is the Law? Love is the quality with which the Creative Presence has endowed all energy. It is a 'God Attribute!' Even man has sometimes been wise enough to say that 'God is Love'. But to the human mind, there are many kinds of love.

GOD'S LOVE refers only to that Divine feeling of adoration and compassion which the Creative Presence feels for His creation. Within this Divine Love is no feeling of possession, no feeling of contempt, jealousy, condemnation nor any human passion. The great Creative Presence of God expresses the Love quality in His creation. There are many creations in this Universe to which you belong that are not 'God Creations', but how can you tell the difference? A God Creation is one of ever-enduring Love! Therefore it is good for everyone, - not just for one, or for any particular race, - but to ALL! Also, not just for 'man' but for ALL creatures!

When you analyze love in this way, - you can immediately begin to eliminate many creations which are not of God. How then did they come into being? Man usurped the energy which flows into his being from God, - pure, perfect, holy energy, and qualified it with his lusts to kill, lusts of hate, lusts of adultery, - all of the things which your 'commandments' have prohibited. These are creations of man's thoughts, feelings and desires. But if man is a Love Creation of God, - then how and why does he create these diabolical manifestations?

There was a time when man began to fall from Grace. He was overtaken by desires not of God; you may call them Luciferian, if you will. As a race, man began to create thoughts, feelings and desires which were not qualities of love. He became aggressive and brutal, - expressing qualities that are the antithesis of love, and building therewith forces which increased with the evolution and propagation of man. If a man had any of these feelings, he created thought forms out of the God energy of his own being and world, - which were then qualified with subtle Satanic qualities. Then another man began to be influenced by these same desires, perhaps

by envy, jealousy, greed or resentment. We call these human qualities because they are not God qualities. When two or more men began to demonstrate these qualities, the energies of their thought forms united to make a larger thought form. Soon a large group of individuals, and then whole races of men were being influenced by these destructive thoughts, feelings and desires until they were spread over the whole planet and became so powerful that even God-fearing men were contaminated with human desires and feelings.

When the masses of mankind began to be impregnated by these forces, they began building up forces which became so powerful that God's Love within man was subjugated and forgotten. Man then began to feel himself to be a superior being, and eventually all of the negative, destructive creations of man came into manifestation on this planet Earth.

You now live in what you call a scientific age. Many of the creations of the scientists are not God-Creations, - for they are born out of the lust of the minds of men, - creations that allowed them in one way or another to take advantage of, or even destroy their fellow men. These creations came into being through God-energy wrongly qualified. All individuals upon the Earth are influenced to some degree, by this mass consciousness or Satanic influence which has been in process of building up over billions of years since the first evolving humans came into being on this planet and began to be influenced by Satanic powers. Neither 'Satan' as you refer to him, - nor 'Lucifer' really do not have that much power. It all began by suggestions being made to individuals. But when the peoples of a whole planet came under the influence of these Satanic suggestions, - the force which grew out of the mass consciousness became greater than either Satan or Lucifer alone. Disobedience to the Laws of God stemmed out of the heart of Lucifer, - but remember, his only weapon is that of 'suggestion!'

You are now a human being in the world of form, who has passed thru many embodiments, influenced by these forces, - sometimes more and sometimes less. Ofttimes you have come into embodiment seeking freedom from those influences, or seeking to help others escape the influence of these forces. Every individual is touched by them. Whether he yields to them or not is a matter of his own conscience, his own consciousness, his own wisdom and his own faith.

Since the great Master Jesus came into physical embodiment, and left the imprint of His perfect life within the etheric records of this planet and upon the consciousness of man, - men have drawn forth stronger faith and love to withstand these Satanic influences, thus creating more positive thought forms. More and more men began building these forms of higher ideals and higher states of consciousness, and thus the mass thought forms were strengthened and united to build a great thought form of faith, glorified by hope and truth and other God qualities. So there are now in the world in which you live, - two opposing forces. These are the Luciferian force of evil suggestion, and the God force of LOVE suggestion. The great battle

of the ages is being waged by these two forces. No one individual can battle these forces for another. The thought forms are enormous beyond your understanding. Every time one thinks an evil thought, it feeds into the power of the Satanic force which grows in strength. Every time one draws forth faith, hope and love through the God force, he adds to the God energies the Love Force of God. More and more individuals are utilizing the wonderful force of God Love. Thus as each force becomes greater and greater, - the battle becomes more intense because each is determined to win control over the consciousness of human kind.

Individuals come to a place on the path, (such individuals as yourself) wherein they begin to understand that they can, if they will, - turn from mass consciousness which is practically a hundred percent Satanic influence to the Consciousness of the great Creative God Presence under influence and direction of the mighty Master, Jesus the Christ. Christianity has done more to bring forth Love and Truth than any other influence that has come forth upon the planet since the fall of man. There are billions of so-called Christians, but all do not practice what they profess to believe, and that is not true Christianity.

To be a Christian means to be Christ-like! Though they go to their various churches and practice their particular religious dogma and recite their creed, - they go forth into the world committed almost entirely to the Satanic force of hatred, anger, jealousy, resentment, prejudice and other destructive human qualities. So long as an individual practices any of these human qualities, he is not 'Christian' or Christ-like! He may be on the road toward attaining discipleship, but he has not attained it! You have attained it ONLY when you have moved away from the human physical sense consciousness into your Holy Christ Self. Then and only then will you be a true Christian, having reached the state of Christ Consciousness.

Each of you have experienced a turning point in your life where you begin to realize that the way back into the Heart of the Father, (the way out of all trials and tribulations), was by the Light of Truth, by the Law of Love and by returning to the Laws of the great Creative Presence! You were brought under the radiation of the Ascended Masters, the Mentors and great Brotherhoods of Light, and taught under the direction of the great Creative Presence, to recognize the "Mighty I AM Presence", created by the great Creative Presence in Its Image!

Physical man was not made in the "image and likeness of God", - but the "I AM PRESENCE" IS in the likeness and image of God! You are gradually learning to ascend unto It. You are learning to separate yourselves from the human sense consciousness, (the Luciferian force) and become adherent to the forces of Love. Thus your faith builds and hope hovers within your consciousness, so that you grow under the radiation and guidance of great Beings who have already conquered these human qualities. Most of the Ascended Masters have passed through physical embodiment; some tarried but a short time, for they immediately rejected the Luciferian forces. Ascending into the Christ Consciousness and departed from the physical travail of earth, many became Cosmic Beings and some moved quickly to destroy or mitigate these forces of darkness.

Many have passed initiations which have qualified them to become Cosmic Beings, - which means that they can work, not only with Earthans but with other planetary Beings in this Universe, and perhaps in other Universes. Many of your Ascended Master Teachers have graduated from the activities with which you first knew them when they were your Mentors. Some of them are now engaged in Cosmic activities. You can become a 'chela' of these Beings by following in their footsteps.

The Master Jesus said to His disciples, - "Follow thou Me!" You are still being called by this great Master, our Lord and Saviour, Jesus. As you follow, your attention is drawn more and more to Ascended Master consciousness, - to Christ Consciousness, to God Consciousness. As you center your thoughts, your feelings and desires solely upon Divine qualities, you begin to expand and enlarge the forcefield around yourselves, qualifying it with God Qualities. As you do so, you become separated from the mass consciousness. The masses have created forcefields which attract the mass feelings, thoughts and desires, creating a 'world consciousness'.

Those of you who are now moving into the Christ Center of your Higher mental bodies, - are now building up the forces of resistance to worldly qualities and concepts, so that you are somewhat protected from the impingement of mass consciousness. Students such as yourselves, may arise temporarily into states of Christ Consciousness, - but drawn into the outer world by the necessity of moving about in physical bodies, may become victims of the mass consciousness again. Thus, they may suffer the influence of those human qualities upon their God Consciousness. These are the trials through which the Initiate must pass in order to ascend. Can you, - will you pass these tests, or will you surrender to the outer world consciousness?

Hold the human sense consciousness upon the Christ Self, upon the Ascended Master Beings who have become your guides and Teachers, - upon the Ascended Jesus, the Prince of Peace and Love, and the great Father Presence. Consider the Sacred Fire of Creation as manifested within your own hearts and symbolic of the Divine Energy of the Father Creator, qualified by that Divine Love, Wisdom and God-glorified energy. You can invoke the purity of the Sacred Fire to expand and express within your own world, because It is ALREADY within you! Every living creation that has form, has within it a focus of the Sacred Fire. It is the substance around which energy coalesces into form. Without the Sacred Fire, form could not exist, for there is no cohesive power to hold it in form.

When the life force departs from a physical body, it signifies the withdrawal of the Sacred Fire. The body then begins to decompose and return to the elements out of which it was created. Nothing whatever can exist after the Sacred Fire is withdrawn from it, for the Sacred Fire has to be within it in order to hold the form. As long as you recognize this Sacred Flame, and know that It is the Divine element within your being, - it becomes the measure for everything you think, feel and do. Through It you may free yourself from the outer world with its material thoughts, feelings and desires.

All energy which you have ever used since you originally came into physical embodiment and qualified with human imperfections, must be redeemed. You must redeem all energies which you have misqualified. You have been taught to redeem these energies by the use of the Violet Fire, and by strict adherence to the Laws of God, - forsaking all which is human. Why keep on suffering the accumulations of human misdeeds forever when there is a means of redemption?

Man is redeemed through LOVE! Even while still in the outer world, some perform great acts of love for their fellow men. Some are great healers, manifesting love and compassion in this way. Others may express unselfish love in various other ways, although they may still be affected or influenced at times by some Satanic influence. But WHATEVER they do that has a "God quality" redeems much of the energy that was wrongly qualified. After all, the Essence of God is ALL POWERFUL! All human creations and all evil are called dark forces which lose their influence when the Light of God shines upon them. You have been given knowledge of the Rays which emanate from the Sacred Fire, and you have been taught how to utilize those Rays and focus them into dark places. Darkness cannot remain in the Presence of Light!

Your goal as physical beings is to take control of the 'sense consciousness'. Use it for the purposes for which it was created, but do not allow it to become your master. No one should be a victim of his physical body or his human personality. I come to open the door of your consciousness and much of which you have already known but oftentimes forget. You must become so rooted in your God Consciousness that worldly influences cannot touch you. Feel yourselves surrounded by a sphere of "Light Energy". Sustain that awareness around yourselves as protection against thoughts, feelings and negative activities in the outer world. You do not need to be at the mercy of the horrors, fears and doubts of the outer world. You may be aware of them, but you must not be influenced by them. Physically you live in the material world and are aware of it, - but you can so harmonize and raise yourselves into the Christ Consciousness that these negative qualities cannot affect you.

I stand in your midst unseen by you, but nonetheless as real as the atmosphere you breathe. I can reach out and touch you even though you will not be aware of My touch. You will be influenced by the impact of My Consciousness reaching into yours, even as you are influenced by the impact of the outer world consciousness. Which do you choose? The world's influence, or that of the Ascended Master Teachers? You are free to make the choice! GOD BE WITH YOU!!

THE THRESHOLD

By 'The Quiet Ones'

Through Hallie Walter

In the days just ahead, chaotic conditions upon the face of the Earth will make it very difficult to write and publish even those very strong impressions which are coming through from On High. Information should be as up-to-the-minute as it possibly can be if it is to help those who are reaching for it so faithfully. But, of necessity it must be given when, and as Receivers are available to us.

Much BALANCING has been done, is being and is yet to be done. Planetary Balance of the PLANET EARTH itself is a great concern of all upon it and surrounding it. The recent partial eclipse of the MOON which caught so many by surprise, including meteorologists, should be a strong warning, - but in the midst of Earth's turmoil and confusion it is going almost unnoticed!

Now comes the PERSONAL BALANCING as you step further upon the great THRESHOLD. Much attention has been given to the Threefold Balance, (Physical-Mental-Spiritual), - with emphasis on balancing the conscious-awareness in total consideration and action. Spiritual depths had been long neglected and needed much readjusting. Among those who are earnestly trying, there is satisfactory progress in the right direction, - but TIME IS SHORT!

Great throngs are being taken out of physical embodiment through natural disasters, and through every conceivable kind of 'accident' and illness of the physical vehicle. Many will be taken in other ways also. Christians are aglow with their glorious hope, now so near to its fulfillment, even while hearts are aching for the suffering and the greater anguish of those who have not the hope.

Yes, it hurts to see so much suffering (and departing) among the dear ones. The pain of it is, in most of those, - that you cannot really do anything to help them. With aching hearts you must face the fact that each individual must go through their own 'Gethsemane' and even those who are nearest and dearest to them can only stand by and wait at whatever distance they may be located.

Then you begin to realize that you too have your own time of preparation to attend to, - and that you are indeed IN that time right now! The best that you can do for the others is to bless them on their way and ask God to send help for them to bear the suffering in the meantime. The EARTH SEQUENCE is nearly over! Earth family and Earth friends and dear ones belonged in an era that even now has almost passed, - and you are being drawn out from among it into your own

"Eternal Connections". So know that all is well, and in God's Divine Order.

Many areas that you have known are not to remain much longer, as it now appears in the sequence of Earth Changes. Try to release it and LET IT GO, - and keep looking UP! That's where the sunshine is. If you can take another one's hand, and give some help in the struggle, it is well to do so. But if there is nothing to be done by that helping hand, - then your concern is to be aware of your own direct path, for you MUST NOT let ANYTHING or anyone hold you back at this point!

GREAT FLEETS OF SPACESHIPS ARE STANDING BY FOR ACTION as they are in full readiness just beyond the range of physical visibility. The RESCUE FORCE is in full readiness, and this is great reassurance to those comparatively few who have permitted themselves full cooperation in this part of the overall action. Throngs of others who have been afraid of anything and everything which might challenge their established concepts of what they THINK they 'believe in', - are fearful now as they see more and more of the "Signs in Heaven above and in the Earth below." THESE will be the great masses of most frightened and pitiable ones in the final chaos.

It is extremely important for you to reach as many individuals as you possibly can reach in any degree whatever, with SOME part of the information which we have been giving. We cannot possibly rescue them in the final time of great need if they are filled with fear and rejection toward us! Nor can we take them, - if in so doing we would destroy them. It is first necessary for them to want rescue, - and many of them do, in their hearts, even while still arguing that they do not believe we exist! Having ignored all the requirements, they will not be ready for the full rescue which they will then cry out for in their final moments of anguish. Physical bodies that are saturated with tobacco cannot survive if taken by the POWER BEAM, - so the ones who have chosen to ignore all that has been given on that subject will NOT be taken among those who are free from it. It's just that simple!

Preparations have been made for receiving Earth people in several different levels, - depending on which level of consciousness and action they are in. Many who consider themselves to be very highly qualified will find that they are not, - but will go to whatever level they have earned. So there will be great rejoicing among those who ARE qualified and ready, and will find themselves among kindred souls.

Those of you who are working with us in the RESCUE FORCE are being given this special time of final preparation as individuals, and are becoming aware of the actual physical adjustments you must make. Physical bodies MUST be freed from some of the lifelong habits that have been a source of contamination. Certain foods commonly accepted by the majority of people on Earth, must now be rejected, - but not merely as a mental decision! The physical body itself is beginning to

come into its new state of being, - and as it does so, it rejects those foods it can no longer accept and utilize. Naturally, a conscious understanding of these factors is highly necessary and helpful.

Those of you who are, and will be in this level, are being made ready for a further change which must come at the time of "Liftoff". The absolute **BALANCING OF PHYSICAL BEING** is in process now. This means different things to different people, - depending upon their needs as individuals, and their former habits and attainments.

PHYSICAL BODIES: Precious vehicle that it is, - your physical body has been accepted as a unit in your limited understanding of it, which you could use in whatever way it suited your interests; and these depended upon your sense of values in all other aspects of your Being. However, now you are discovering that the physical body is not only a precious temple, - but that it also has several distinct functions, **ALL** of which must now become thoroughly **PURIFIED** and dedicated to the highest possible service in the great Universal Kingdom of Truth and Light. This unified purification is part of the qualifying for higher service, and it brings the required attunement.

In this time phase of the great change that is occurring, - when you go to sleep at night, you usually go immediately into the invisible world which interpenetrates your visible-physical state of being. As you go to sleep, you **RELEASE** the visibility limitations, and there you are! It's that simple! The section of the invisible world that you visit corresponds to your usual environment to a great extent. Not only your physical environment, but that which becomes your mental environment, - or the general level of your consciousness, as you choose your thoughts and interests, **AND** as you deal with the things which confront you, and with which you struggle to overcome; or as you strive to help others as **THEY** struggle to overcome. Under safe supervision, you may sometimes be permitted to descend to some of the lower levels on mercy and rescue missions. But your own usual pattern will be this extended area of your normal level.

Events and circumstances, - situations which you encounter during waking hours, may sometimes prevent the free flow of this pattern however. Therefore it is important for you to release all such things, and to prepare your consciousness to be spiritually at peace before you go to sleep. When you have done this, - the right balance and attunement can be maintained.

This, of course, is very different from the sleep travel in which you may be taken to places of very high and 'UN-Earthly' existence. For the time now **IS**, when you must have this kind of help in the adjustment which is being forced upon you as the "frequency rise" increases and as you must continue to serve in the very midst of chaotic conditions.

As you then merge with the 'invisible' world that surrounds you, you find a great extension of awareness and fellowship. However, those who do not live in a reasonably high state of consciousness during their waking hours, may have some genuinely terrifying experiences during sleep time, - which to them may be simply "nightmares" if they do not understand about these factors.

There is an intermingling of Beings who are no longer imprisoned in physical bodies. As your sleep state releases you from physical limitations, - you then find yourself in the very pleasant and comfortable existence or dimension of your immediate environment, your home, even your bed, or your neighborhood.

Waking from sleep in your recliner chair in your living room, you are astonished and find it hard to believe that your beloved Mother is not sitting in that other chair! Your communication and fellowship with her had been so vivid, so natural, - you assume she is still in your home, - perhaps in the bathroom since you had sensed her presence as going in that direction just as you were waking up. Actually she was leaving, so that you could get on with your Earth life, - but in such a way that you would have much to ponder that would force you to arrive at the realization which you are now finding.

These vivid incidents are precious teaching equipment, as those who love you deeply and eternally, are helping you across this very unique threshold. All of the physical-etheric-spiritual incidents which you are experiencing in this phase, - have specific concepts to teach you. Some are very private and personal, for you alone to experience and to use in your development. No one else could possibly understand those very personal experiences of another (and their significance) without having access to every facet of your own awareness and nature, and that of the others involved.

This intermingling works both ways. Not only do the Spirit Beings come to you to help you, (and you are protected from those who might have harmful intentions), - but as you now are learning, certain physical beings also have this same type of work to do, and can come to you in this way. At times this is an extremely important aspect of creating a closer bond of understanding, association and acceptance of unified assignments, - each supplying to the other the specific help that is needed for further achievement in TOTAL BALANCING! In deep love and understanding are vital elements which supply a further strengthening of the Innermost Being's integration and fulfillment.

So enjoy those treasured moments, - spiritually, physically and mentally. They are making you aware of the vibrant reality of the New Frequency, and are filling you with renewed joy and energies. Do not try to fit these incidents into your former concepts of Earth life behavior and pattern, but accept them for what they are, - precious

THY WILL BE DONE

Through God's Grace

"It is God's GOOD PLEASURE to GIVE you the KINGDOM OF HEAVEN." That Kingdom is yours no matter where you are, or what you are doing. The Kingdom is yours no matter who you are or what obstacle appears to be present.

All that the Father has is yours! His Peace, Love and Strength are always available for you to tap into at any time or in any place. Experiencing His Love and Peace is no more difficult than tuning into a distant radio station. The closer you are to the station, the stronger and clearer it comes in. Learning to communicate with the Father Within, - like all things we learn to do, takes practice. The more time and energy we put into it, the easier it becomes.

Mankind spends most of its lifetime in search of opportunities, things and persons that will make life happy. We establish goals, work, pray and receive the guidance to achieve what we desire. Without realizing it we tune to our Higher Self each time all our energies are concentrated in one given direction. If that concentration is focused on what we really want, - our highest goals can be achieved.

The disappointment comes when we finally receive or accomplish the thing we have been seeking, and find that it did not make us happy. In fact we were happier when we were striving toward our goal, - for then we were being guided and were accomplishing. Once the goal is reached we discover there is a letdown instead of the happiness we sought. We find a new goal and the cycle starts again. With the new goal comes, perhaps a new 'ego trip' or a materialistic object, person, position or a new theory.

Happiness found through other persons, places, things and/or positions are subject to change. The only perfect happiness is within and of yourself. It matters not where you are, what you are doing, when and with whom you are spending your time. You will be happy or unhappy because of your own decisions and attitude. Whether each moment is spent in heaven or hell, - depends on you, and where you focus your attention. This is true whether you are working, playing, confined, handicapped or living on top of the world in the 'castle' of your choice. It can still be your choice to experience heaven or hell. The worst or the best is present in every person, place or thing, and it is your decision/choice to be there or elsewhere and to enjoy or reject any phase, - for where you are now is the result of your past decisions and choices.

When we make the wrong choice or are disappointed by some thing or person that we thought would make us happy, many of us turn to prayer. The important thing to remember is that God is NOT your servant! Are we asking that God's will be done, or are we telling God what we want

Him to do for us? Who is all wise? Do we really know more than God? When we ask God to be our servant and give us what we desire, - do we then have faith in the results?

Our thoughts, energy and words are in essence the same as prayers. We must learn not to ask amiss if we wish God to do what we ask. If we are asking for good health. we must act by putting our energy, thinking and talking on good health. God will give us the the thoughts about what foods to eat, when to rest, what to do for exercise, then it is up to us to take the action that leads to good health. The same is true if we are seeking a loved one, position, material wealth, etc. God will send us the thoughts that will lead to what we desire, but we must take the action. It is also important that our thinking, conversation and knowing is centered on what we desire, - for that is what will be forthcoming. Past mistakes, illnesses, lost positions and unfulfilled desires are a thing of the past, the dead past! Let them stay dead! Don't draw to yourself more of the same.

Many of us have learned to be the master of our energy, thoughts and conversation, and to direct them toward what we really want in the here and now. Bravo! Breaking the bad habits of expecting the worst is probably the most difficult but rewarding accomplishment we will ever make.

The next step is the realization that our plans for ourselves may not lead to fulfillment. It is when we humbly go to the Father and say, "Thy will be done" and mean it, - that true fulfillment comes to us. The Father's Will for us is so much more complete and fulfilling than we could ever imagine.

When we live IN THE NOW enjoying ONE MOMENT AT A TIME, DOING GOD'S WILL, - the Many Mansions of the Kingdom of Heaven are opened up for us. We stop plotting, analyzing, worrying and being afraid. We let go of the past and future, and do what is set before us this moment to the very best of our ability. We take this moment, right now, - and we enjoy it to the fullest. If we are working, we take pride in doing our best. If we are vacationing, we see the beauty everywhere. If we are imprisoned, we explore the inner splendor within ourselves or another.

God is the life within our being that causes the heart to beat and circulates the blood. It is the God within that breathes through us automatically. We give no thought to these things. It is the God within that presents us with the thoughts that enable us to accomplish our goals. It is also the Father within that takes pleasure in giving the Kingdom of Heaven when we give up our own ideas, beliefs, opinions and goals to do His Will and His perfect works. Nothing is more beautiful and fulfilling than living each moment doing His Will, seeing through His Eyes and dispensing His Beautiful Power!

If we gain the whole world, we would still seek happiness. Happiness is right where you are this moment. The Kingdom is at hand this moment!

THE SYMBOLISM AND MYSTICISM
OF THE GREAT SEAL OF THE UNITED STATES

By Julius E. Scott

This message could be a revelation of great importance to every American interested in the ideals, hopes and aspirations of the Founders of the United States. It will be especially interesting to those who have wondered about the outcome of the present world conditions, and the future of the American people.

To say that the early American Founders did not dream of establishing a Republic that would endure and eventually grow into the ideal state of the Golden Rule, would not do them justice, nor would it display an understanding of human nature. Any close student of man or history knows that man has always dreamed of living some day in a golden haven of peace, - a "Shangri-La". Without the belief that such a kingdom will eventually arise, man would have little incentive to pioneer strange lands, build cities and establish law and order to attain greater civilized privileges.

There is much evidence, - but greatly glossed over, that our nation was founded around this ideal. It is quite evident that the Founders were inspired by their vision of a GOLDEN AGE in which Infinite Justice would rule, - and from this vision founded a governmental plan to serve as a foundation upon which a higher civilization could materialize.

Around the time of our nation's founding, a number of occultists had settled in what is now the New England states, and who with their great spiritual wisdom helped to formulate a Plan of the New Republic. If one is trained in the ancient lore of Arcane Wisdom, and can read the symbolism of the Mystics, - the occult story of the forming of the Union, and the purpose for which our Government was founded, can easily be read. The vision which the Founders of the Nation saw has been aptly recorded in the symbols of the Great Seal of the United States.

Soon after the Revolutionary War, Benjamin Franklin, John Adams and Thomas Jefferson were appointed as a committee to prepare a Great Seal for the New Republic, and they employed a French West Indian, DeSimontiere to furnish the design and also sketch any designs suggested by the members of the committee. One of the original designs displayed on a shield, the Armorial Ensigns of the several nations that had peopled America. On one side was Liberty with her cap; on the other side a rifleman in uniform with a rifle in one hand and a tomahawk in the other hand.

Benjamin Franklin proposed a design with Moses lifting his hand dividing the Red Sea with Pharaoh and his hosts overwhelmed by the water, - and for a motto the words of Oliver Cromwell, "Rebellion to tyrants is obedience to God".

John Adams proposed a design with Hercules leaning on his club, and

Virtue pointing to a mountain on one side, and Sloth glancing at her flowery paths of pleasure, wantonly reclining on the ground with Virtue, displaying her charms to seduce him.

Jefferson proposed a design showing the Children of Israel in the wilderness being led by a cloud by day and a pillar of fire by night; and on the reverse side 'Hengist and Horsa' the Saxon Chiefs from whom we claim descent, and whose political principles and form of government we have assumed.

Franklin and Adams then requested Jefferson to combine their ideas in a compact description of the proposed Great Seal. Jefferson complied and this design is now in the office of the Secretary of State in Washington, D.C.

A number of other designs were suggested, but for some reason or another were rejected. One suggestion was a 'Phoenix' sitting on a nest of flames. After vainly trying to perfect a Seal which would meet with the approval of Congress, Thompson, Secretary of Congress, finally received from John Adams, then in London, - a simple and appropriate design that was suggested by Sir John Prestwich, a warm friend of America and an accomplished antiquarian. It met with general approval and in June 1782 was adopted as the Great Seal of the United States. Leaving out most references to symbolism, it may be described thus: - an escutcheon with thirteen stripes, red, white and blue field placed on the breast of an American Eagle without support to denote self reliance. In the eagle's beak, a scroll with the words, "E Pluribus Unum" (one nation from many States). As a crest over the head of the eagle, - a 'golden glory' breaking through a blue cloud with thirteen golden stars. In the right talon, an olive branch with thirteen leaves and thirteen berries, - and in the left talon, thirteen arrows.

On the reverse side is represented the Great Pyramid of Gizeh, with thirteen rows of masonry showing 72 stones. Originally it was intended to show thirteen stones in each row. If we multiply 13 x 13 we have 169. The beginning of this nation was 1776; adding 169 to 1776 we have 1945, - the year that this nation reached as high as it could go under the old order. In 1945 we ended World War II by exploding the atom bomb, thus starting the Atomic Age.

The Pyramid is without a capstone, and above its upper platform floats a triangle containing the 'All Seeing Eye' surrounded by rays of light. Over the Eye are the words, "Annuit Coeptis" - He (God) has favored the undertaking.) and at the base "Novis Ordo Seclorum" (a new series of ages).

The Pyramid of Gizeh was believed by the ancient Egyptians to be the shrine tomb of the God Hermes or Thot, - the personification of Universal Wisdom. No trace has ever been found of the cap of the Great Pyramid. A flat platform about thirty feet square gives no indication that this part of the structure was ever finished, - and this is appropriate since the pyramid represents human society, itself imperfect and incomplete. The structure's ascending converging angles and faces represent the common aspirations of human kind. Above floats the symbol of the esoteric orders as the radiant triangle with its All Seeing Eye. The triangle is in the shape

of the Greek letter D, the delta, first letter of the Name of God, the Divine part of Nature completing the works of men.

There is a legend that on Atlantis stood a great University in which originated most of the arts and sciences of the present age. The university was in the form of a great pyramid with many galleries and corridors, and on the top was an observatory for the study of the stars. This university is shadowed forth in the Seal of the "New Atlantis". Was it the society of the old Atlantean philosophers who 'sealed' the new nation with the eternal emblems, - that ALL nations might know the purpose for which the new nation was founded?

The obverse of the Seal was cut in 1782, but the reverse was not cut at that time because it was regarded as a symbol of a secret society and not the proper device for a sovereign state. So the use of this symbol was not considered until recent years when Americans learned for the first time what was the reverse of this Seal when it appeared on the dollar bill, Series 1935A. It is interesting that the appearance of the reverse of the Great Seal should coincide with the great changes affecting democracy in all parts of the world. Tyranny was already extending itself across the surface of the globe and democracy was on the threshold of its most severe testing. Thus, on the common medium of our currency appeared the eternal emblem of our purpose!

Now let's go fully into the symbolism of the eagle. The spreading wings of the eagle represents the life of the American spirit. As shown they represent the sole purpose of the eagle is that it shall fly, when the proper time comes, - from the old order into the NEW!

The eagle wears an escutcheoned shield on which is the insignia of his new birth. The 13 bars on the shield represent the 13 original colonies, - and in their union the life of the eagle began. In the eagle's right claw is shown an olive branch, a symbol of peace, a power in the world that the spirit of life might grow. In his left claw he clasps a bunch of arrows, - a symbol of power in war, which he wields to protect the weak so they may grow and become strong. There are 13 arrows and 13 leaves on the olive branch. Thus, it is shown that there will be 13 times 13 periods (years), - or 169 years (already mentioned in this article), the time in which the new republic must grow before entering into the greater life.

The eagle's head is turned to the right toward the cardinal direction of the noonday sun, - and with his wings spread ready to fly when the sun reaches the meridian. The cloud of glory of 13 golden stars, with twelve forming an interlaced triangle around the thirteenth, - resembles the great Seal of Solomon. It has been said that this represents the equilibrium of the Macrocosmic and the Microcosmic Worlds of Creation within an infinite circle. We can see within this brilliantly illumined cloud the promised CHRIST KINGDOM of twelve states centered around the head.

It is curious to note how often the number thirteen appears as an important part in this symbolism. Evidently it must contain a mystic or

spiritual relation to the order and movement of the Universe. We observe that Jesus had 12 disciples, with Himself making thirteen. There are 12 houses of the Zodiac, controlled by the Sun, again forming the number 13. Thirteen years elapsed between the Declaration of Independence and the commencement of the government under the Constitution. It was signed by 39 of the 55 men appointed to draft it, - the number being three times 13. Thirteen troop ships made up the first contingent to sail for France in the First World War. They embarked on the 13th of the month, and the trip required 13 days. There were thirteen letters in the signatures of both the Commander-in-Chief, President Woodrow Wilson, and the General of the Forces, John J. Pershing.

The combination of the Eagle, the Pyramid and the All-Seeing-Eye, - the series of thirteens and the use of cryptic phrases is more than just chance or coincidence! There is only one possible origin for these symbols and that is the Secret Societies that came to this country 150 years before the Revolutionary War. Many believe that these societies were Divinely conceived and directed to help form the "NEW JERUSALEM"!

Now, having learned the interpretation of these symbols and having gained something of their meaning, - we may reconstruct the vision as it is represented by the symbols in the Great American Seal and read its message in the following manner:

"From the ashes of the immortal Phoenix there appeared a baby eagle. Thirteen twigs were collected together to form the eagle's nest. And in the warmth of the morning sun the eagle thrives and becomes strong, and the twigs become a sturdy tree of many branches. When the Sun arrives at the meridian, - the Immortal Spirit will be revived, and the Eagle will fly into the Sun!"

LIGHT WORKERS PREPARE!

By A Light Worker -

Those who are interested enough in the present changeover from the third to the fourth dimensional frequency, know and feel the change in vibratory rates to some extent. There are many Light Workers in the field at present, and more to come into the Light Work. Because most of the Light Workers have come through different schools and experiences, with different methods of training, - we now have small groups here and there, each working in their own way.

Light is an energy and will be used by the individual or group at their own level of understanding. There is need for strong leaders at the head of these Light Groups who can work in a harmonious way that will keep the vibrations going forth as synchronized.

It is almost impossible to get this kind of "harmonious synchronization" between two individuals, much less with the many involved in various size groups. As the Light Energies extend from each group into the Earth itself, and into the mental atmosphere of the planet, - it is most likely that some will clash with others, like the clashing of wills. This will set up a disruptive action throughout the entire planet clear to the center of Mother Earth. This inharmony and clashing of vibrational energies can, and most likely will, help bring about the earthquakes and tidal waves now predicted! But do not panic! read on, -

The topography of the Earth has changed many times and will again. It will come gradually and all who will listen and will synchronize their vibrations with the Universal Creativeness, will not only help to stabilize the vibrational frequencies coming from each individual and group activity but will also find yourself being led to right locations in plenty of time for safety.

Today the Light Worker is becoming more persistent. Many are being enlisted into service, and many are trying to serve the Light who have not been trained. They are expressing too much from their own personalities. Learn to let it flow through from the Light which is pure energy and impersonal. Just as personalities clash, so do or can vibrations. Vibration is energy in action or movement, and when projected from an individual, it will be affected by the feelings, attitudes and beliefs of the personality from which it stems.

One individual is the individualization of the Universe expressing at a personalized level. If the personality is one of criticisms and irritations, the vibrations will act in like manner, causing instability, static, discord and inharmony. The world is so full of discord, it does not need more of the same thing. Since like attracts like, - discordant vibrations blend with their own kind, helping to cause eruptions both at the emotional and also

at the physical level. Human thinking has more to do with the weather and physical conditions of the planet than most people believe.

The Light energies function well at the fourth dimensional level. It is at the third dimensional level where we find the static! The average third dimensional vehicles cannot receive direct unless they are prepared. For this reason we who work in the higher dimensions need psychic bodies that can act as transmitters from the higher dimensions to the lower, and out to the third dimensional world. The world needs to receive a great outpouring of Light! Therefore there is great need for persons not only desirous to be Light Workers, but also those who are willing to study.

There are books and schools that teach one how to control their sensitivity. Anyone can change their rate of vibration and the quality or intensity by changing their thinking, and sometimes their eating habits. This is easier to say than to do! The time depends upon the individual, and how much time one is willing to give to disciplined training.

A channel of "Peace" is like a well cleaned light globe, - it will radiate a clear, beautiful light. MANY peaceful channels will bring harmonious light activity to the world. If a Light Group will ask the Angels of Light to help them, - they will! These Angels know how to distribute the energy prepared by the group, to all the Earth and all of its living Kingdoms.

If a group of Light Workers will meet often (at least once a week) in the same place, the Light will build up. This is called a Light Center or Light Bank. This is where IF the Light Workers are prepared, they will become transmitters of the Light energy in cooperation with the Higher Workers, ranging from very advanced Ones in the Cosmic Heights to those close to and in the Earth's atmosphere. This is the way the Earth and all on it will be gradually lifted into the Fourth Dimension. Fortunate is the person who can become more selfless! Thinking of others first with Peace and Love in mind and heart, will cause one to serve the Light, and the Light will serve them.

Remember, the change will come gradually, and there will be signs, indications and instructions for all who are in tune. Do not work to WILL things to happen, - but learn to work IN willingness with flexibility. NOT flexible to other human will, - but to SPIRIT! Try to tune in more intuitively than psychologically.

None need to be taken out of the physical unless it is really their right time for transition. No need for fear or for panic. As you serve, - so are you served!!

TRANSCEND THE WORLD, MY BELOVED!

Special Message:

Through Illiana

Transcend the World, My Beloved! Rise ABOVE all the mundane trivia which binds you to the wheel of birth and REbirth! Rise UP, Rise Up, - Rise UP and meet the Sun of Righteousness in the Clouds of Everlasting Glory. I Am this cloud, I Am this 'Sun'. You need no longer seek hither and yon for the Sun of Life. I Am HERE in your midst, and I express Myself to you in many ways. I AM THAT I AM, - the Light in all lives which dwells silently within all of you.

Let your heart be ever awake to the Love of Father-Mother-God, and forever sing praises unto this Holy, Transcendent Spirit. Though the world seems like a Sea of Sorrow, yet by dwelling in that State of Bliss; by uttering inwardly the Holy Sound, - you can be gently transported to the other shore, - the Shore of Everlasting Peace, Joy, Light and Love! Let your vision be pure, Beloved Souls. Let your vision encompass the Mighty Spirit of Love which is glowing in LIGHT! Look upon NO man or woman as your Saviour or as an incarnated God. WITHIN each of you is the 'Saviour' hidden! God proclaims His Love for all of humanity through the effervescent SUN which inhabits your very Self!

Once you are conscious of this Reality and permit the Sun of Righteousness to express Itself through you, - you fulfill God's Plan for your Soul. It is then that you too become a Ray, - a Sun of God, - one who fulfills the Law and brings LIGHT through Holy Service. You must not make claims, nor take on titles, - neither must you become filled with self-righteous pomposity, for such are they who sound like clanging brass or noisy gongs! A Light (Sun) of God expresses gently, often without words, the principles of LIGHT. He or she makes no claim to greatness or of being a 'selected' Soul. Such a noble Soul sends out loving vibrations of healing, peace and love.

ALL are created SPIRITUALLY equal, - each being endowed with the Seed of perfect Light. ALL are destined to become illumined saints. None will ever taste 'death' who abide eternally in God! Even though the body must decay and be discarded, yet the Soul which dwells always with the Lord of Life, will make its CONSCIOUS departure from the body without pain and terror. Death cannot touch such an Illumined Soul!

Beloved, seek only this Perfect Light! Don't let 'famous' names impress you. Look WITHIN to the ONE true Saviour! Places, or names, - these have no importance in the Realm of Light! God-Light is everywhere present! There is no north, south, east or west in God's Perfect Realm! Nor are there 'famous' incarnations. All is ONE and everywhere present in God's Kingdom of Light! It is only man's limited mind that divides God's Kingdom! Be restored My Beloved, to that Perfect LIGHT and be ye Suns of God, expressing Light through your every thought, word and deed!

I AM THAT I AM!

I AM NOT AFRAID

By Volanda Raynald

I am not afraid of any experience that may come because I have proven that I Am bigger than any that have come before. I Am greater than any or all of my experiences! I Am the totality of ALL experience, for the Father and I are ONE!

I Am not afraid to move forward because all action is mental. I live in a mental world and mind's only action is unfoldment of the knowledge of the power and presence of the COSMIC PATTERN.

I Am not afraid to let go, because all I can ever lose is a false and limiting belief about the Good that I have and AM!

I Am not afraid to stand still, - because the point of stillness is the place of Absolute BEINGNESS!

I Am not afraid to act, for I Am ever within God's Love and Guidance and Protection!

I Am not afraid to be tranquil, - for in the peace of this stillness I hear the Voiceless Voice! Tranquility is the key to Divine Revelation.

I do not fear death, because death is the DOOR to the larger LIFE!

I Am not afraid of any seeming change, - for I myself am unto myself the principle of Divine Changelessness, the very Spirit of the Father God.

I Am not afraid to take my Good, for I shall have only that which I have given myself, and once given it stands forever. The Law of my Being is the Law of Indestructibility, - which is God Absolute!

I Am not afraid to meet myself, for that which I have created I understand, and that which I understand, I enjoy.

I Am not afraid to LIVE, because I myself am the LIFE of all Being. I Am motivated by Life and I Am the Life that motivates! I gave myself Life, - for I Am the LIFE OF LIFE! I Am the Lord of Life of my own Being. I Am Life Eternal! I, the Self, - the CHRIST of me is God, and HE has decreed it!

In the beginning I was made by God, - by His WORD; in His IMAGE and LIKENESS! Therefore that which I declare MY SELF to be is True! For the WORD OF GOD is forever, - Therefore -

I AM NOT AFRAID!

THE THRESHOLD, - Continued from page 22.

moments of EXPANDING LIFE,- Heaven and Earth intermingling, but at Earth level!

Know ye this; that to KNOW Love truly and completely,- you must also FEEL Love, and THINK Love, asleep or awake in Earth's dimension or beyond it. To achieve this yourself, enables you to help others to achieve it also. Individuals differ in this, as they do in all else. That which one may have achieved, another has yet to achieve,- perhaps with your specific understanding and help.

So,- LET THERE BE LOVE and LIGHT, and JOY, and LIFE!
And there shall be PEACE, (that innermost strength and serenity), the Peace which cannot be confined,- but shall express in the outer also!
This is the great BALANCING and HARMONIZING which must come.
There may be more scientific terms for describing It, but for the general consciousness, these are the elements that must become known. They are the great THRESHOLD into the NEW FREQUENCY EXISTENCE!

The EDITOR'S PAGE, Continued from page 3.

Stop and THINK deeply about the preceding paragraph and use this same parallel as a measuring stick in observing what has taken place within the entire field of "organized religion" - the so-called CHURCHES! It matters not whether it be a huge cathedral or a small country church out in the "sticks". I do not mean to say that there are no exceptions,- for there are! But there is too much tendency to repeat parrot-fashion the old creed and dogma of the hoary past until it becomes a veritable "Sahara Desert!" The Creative Life Force has gone from it like the waters of the Jordan after they enter the Dead Sea.

As I started to change the subject just now, I was prompted to caution our 'liberated' metaphysical friends who have sprouted a whole forest of small churches and group meetings, often but not always around a 'psychic channel',- let's not be too smug, lest we fall into the same PIT! I know,- I've been in the midst of it for many years until comparatively recently. I'm just beginning to get the courage to speak out, for so many are very dear personal friends! All the more reason why I should CARE ENOUGH to help them, of all people,- to catch a glimpse of the LIGHT that has now begun to penetrate my own dense "jungle"! I do care,- and I LOVE YOU!

Now just a brief change of subject,- The FATHER'S HOUSE is urgently in need of a great many more active subscribers to replace two hundred or more "dropouts" during the past few years. This becomes especially needful because of our large and still growing Prison Ashram Program that is now requiring well over a hundred copies of each issue. Many THANKS!!

THE THREE DAYS SCENE
At The Temple In Jerusalem

By Jacob Lorber

SPECIAL NOTE:-

About 40 copies of this precious out-of-print book still on hand. If you have one, - order a copy for a friend who will appreciate it!

Since a great many of our present readers are not familiar with this book now being featured as a companion-book to "INTIMATE GLIMPSES INTO THE EARTHLY LIFE OF JESUS" and "The AQUARIAN GOSPEL" we deem it important to give you this brief resume'.

The author, Jacob Lorber, was born in Austria July 22, 1800. At the age of 40, while packing to move to a distant city to take employment as musician, - suddenly a strong inner voice commanded "Take up thy pen and write!" He obeyed immediately and cancelled the position offered to him. The next 20 years were given over to writing as the Inner Voice dictated, and this book was among the last of his writings, - but also the most significant. In 1932 this and a few other writings was translated into English from the original German and is obtainable only from the publishers in Wurttemberg. Our Grand Director, the A.K.O. has been very positive in urging me to make it available again along with the two books mentioned above as a priceless set of three in which each author was long ago 'predestined' to write of His Life on Earth that portion or portions scarcely covered in our Bible.

Now a few brief excerpts:- (Jesus' words are in the first person, so undoubtedly directly from the Akashic Records.) In chapter 4, Jesus demands that the priests and elders explain the prophecy in Isaiah 9:6,7 "Unto us a child is born". It "blew their mind" that this lad of 12 had such flawless knowledge of the Scriptures to which in those days no layman had access. One of them sarcastically asked "now tell me what I am going to ask you?" To which Jesus replied, "It does no honor to you . . . if the obvious learning of a boy from Galilee causes you so much astonishment! for thereby you show that your boys stand but little above the animal kingdom in their education." (The Roman Commissioner laughed aloud!) Our space here is so limited that we can only give a portion of the summation by the Roman at the end of the three days.

. . . "He is most certainly a different being from us poor mortal men of this earth. . . I have taken note that the spirit of this boy really is the foundation of ALL LAWS as well as of each state and social and national order. . . at the same time He is a wise and most just judge. . . I therefore place Him above all our laws as well as your insignificant Temple laws, seeing He is evidently a Lord over all laws!" "He shall take the salvation from you Jews & give it to us heathen, and you shall be trodden under our heavy heels in this His time. Dust and ashes shall we strew upon this place where you allow yourselves to be praised, yea formerly to be adored as Gods by the infatuated people" . . . "Why waste holy words on completely deaf ears and hearts of stone!" and the session was ended.

This quarterly publication is a part of a New Age Spiritual Activity called "The FATHER'S HOUSE". It is completely independent of any particular church, system of philosophy or organization in preference to another, and has been likened to a sort of Spiritual Readers Digest. Its contributors are very carefully selected highly evolved spiritually attuned thinkers and writers, consecrated to the task of bringing into manifestation the "Kingdom of Heaven on Earth" WITHIN the hearts and minds of every human soul, HERE AND NOW! We recognize innumerable levels of spiritual understanding, as did our Master Teacher long ago when He said, "In My Father's House are many 'mansions' (dimensions of consciousness) therefore we make it a rule that all articles be couched in simple everyday language and terminology that is clear to the average reader.

Our subscription policy is based on the total support of this Spiritual Activity which now includes the Prison Program in which any prisoner can receive the Quarterly publication upon written request. Presently there are more than 100 copies of each issue going out to these "forgotten ones behind iron bars" and new requests are coming in constantly. The original policy of freewill donations in accordance with each persons financial means is still in force. No set fee or price will ever be required as a condition for receiving the publication, but we do feel it fair to all concerned to give you an idea of the minimum amount needed based on the present number of subscribers on our regular mailing list (other than prisoners). Whether on an annual or semi-annual basis of giving (except in rare special cases) there should be a minimum of \$10 a year. Anyone is welcome to make their gifts semi-annually to make it less of a financial strain for those on very limited incomes. The second gift should be sent in the month of June.

Regardless of the date of the original subscription, we request that ALL Renewals come due at the end of each calendar year. A one-time financial adjustment may be made with the first renewal if necessary. A very special blessing and grateful appreciation to our many wonderful family members who are giving many times the above suggested minimum. Their reward is promised - and always fulfilled- in Malachi 3:10!

A few highly recommended books, including many previously listed here are available. Postage/handling is 30¢ on first book; 15¢ on each additional book ordered at the same time + applicable Sales Tax in California. Canadian orders require 10¢ extra to above postage costs.
