James S. Rigberg, Publisher & Editor

For the benefit of our readers who did not receive a copy of the New York Times which so graciously published a write up about our magazine and our shop we are reproducing the same for you here.

The New York Times.

Copyright, 1955, by The New York Times Company. NEW YORK, MONDAY, FEBRUARY 7, 1955.

FLASH.....The American Broadcasting Company (T.V.) took pictures and interviewed your editor, and several flying saucer fans including Mike and Charlie Fitzpatrick. Don Goddard the radio and T.V. commentator interviewed us. The date has not been set as to when the film will be shown. We will notify you the minute we get the news by posting on our bulletin board just outside our office at 1597 Third Ave., and 90th Street.

About New York

Earth-Bound Stargazers on Third Avenue Still See Saucers—

By MEYER BERGER

March 3, 1955 9:05 P.M. Radio Station WJGA New York, national broadcast hookup on the "Spend A Million" program. Your editor was interviewed by Joey Adams. P. S.---and he won a washing machine on the quiz program.

The Psychic Observer - April 25, 1955. In their editorial gave your editor some fine publicity.

Dorothy Kilgallen, famous columnist for the N.Y. Journal-American 3/24/55 gave us a bit of publicity with her humorous slant, for which we are thankful.

The London Evening News, John Marshall, reporting from New York also gave us a very fine write up. We are indeed proud and most grateful to our overseas friends. 2/21/55. We are reproducing this also for you.

The Food Trader 2/55 published by the Food Trades Vocational High School of New York City also went to bat to give our Flying Saucer News publicity. Our thanks to all.

IT may astonish townsfolk to learn that the flying-saucer spasm hasn't completely ended. Right now, for example, you can dial Filmore 8-6507 if you spot a saucer, or if that's not convenient you can send your report by regular or air mail to James and Margaret Rigberg at their book shop, 1597 Third Avenue. They're eager for anything on saucer phenomena.

The flying-saucer cult has membership all over the country and the Rigbergs keep the group in touch with everything new in saucers, through their publication, The Flying Saucer News, a twelve-page offset job, which they edit. They started the F. S. N. with the idea of putting it out quarterly, but it has gone so well they're toying with the notion of a monthly. Filmore 8-6507 is their store phone.

There's an anonymous poet laureate among the saucerites, too, someone who has turned out for the society's current journal a verse that begins: "Oh, I took a trip to Heaven in a model P-4-7." There are saucer publications all over the country, the Rigbergs confide, all thriving. One is West Virginia's "Saucerian"; another is the "Psychic Observer" of Chesterfield, Ind., which gives its readers the very latest saucer chitchat.

The Rigbergs think the most eloquent authority on saucers right now is Miss Nianda Lynnabeth Hayden, a woman who maintains in the society's New York journal: "Flying saucers, space craft from other planets, various types of fireballs, focused streamers of light and so forth, have been attracted to the Planet Earth at this particular time because the human race on this globe has reached a new high point in evolution." Miss Hayden has a lot about Sanat Kumara the great Venusian (she calls him that) who landed here twenty-one million years ago to guide mortal evolution. One other thing—The Flying Saucer News offers free subscriptions to members who come up with hot tips on saucers. Rigbergs taunt

THE SAUCERS ARE INTERDIMENSIONAL !

by

Gilbert N. Holloway, Ph.D.

Surely the greatest mystery to confront the world in many centuries is the advent of the flying saucers. For some years now these remarkable aerofoms have been reported in our skies, and there are three strange aspects of their behavior that puzzle the thinking mind.

First is their extraordinary speed. Many reports show speeds up to and beyond ten thousand miles per hour. Major Donald Keyhoe in his factual and informative " Flying Saucers from Outer Space" says that a military observation team clocked a saucer over Indiana at 46,000 miles per hour!

These remarkable speeds powerfully suggest that the craft have an " out of this world " basis. Rocket experts like Walter Riedel affirm that our science has no metal covering for an aircraft that can withstand the terrific heat of such speeds. Air friction would consume the craft in flames in a few moments, but the fact that they do not burn up is evidence that they have a covering or skin that is unknown to our earth science.

Maneuverability

Fact number two is their supernatural ability to maneuver and change direction of flight. At high speeds they are observed MAKING ANGULAR TURNS. This is incredible from any earthly knowledge of aerodynamics, and yet it happens, and is reported by both ground and air observers.

These angular turns so impressed Gerald Heard, noted British writer, that he concluded no human-like beings could pilot the saucers, and therefore they must be guided by some highly developed insect type from Mars or Venus! Statements like this lend an aura of fantasy to the whole subject. Indeed, conservative

men of science and religion tend to avoid the whole topic like the plague! One must have a good imagination and a strong stomach to probe deeply into the saucerian mystery.

One pilot even reported that a saucer coming towards him at high speed, seemingly headed into direct collision with him, suddenly REVERSED DIRECTION entirely and was seen above him and proceeding in the same direction with the earth craft

Mutability

Strange and wonderful as such behavior may be, there is a third consideration that is even more remarkable or incredible. This is the capacity of the saucers to alter color, shape and size in flight--- and even to disappear and reappear. This seems to be just too much for our already strained imaginations--- but it is reliably reported to be true.

In 1954 the entire crew and passengers of a British airliner flying the Atlantic saw a "Mother saucer" and several smaller space ships proceeding in their line of flight at a distance of several thousand yards. The captain reported this strange sight to the nearest airfield and a jet fighter was sent to investigate. Some minutes later at the approach of the jet plane, the space ships grew smaller and smaller then first the little ones disappeared and finally the mother ship. They did not fade away into the distance; they simply faded out of view -- but where?

The Etheric Hypothesis

It is now almost "old hat" to describe the saucers as interplanetary. Such knowledge is regarded as the veritable ABC of saucerian wisdom. But there is a deeper dimension to this mystery-- one that will co-

found many minds in years to come.

I refer to the fact that evidence is mounting as to the etheric origin and essential nature of these craft. Such a theory suggests that they are not only from another planet or star grouping-- but that many of them, if not all, are from another DIMENSION OF THE UNIVERSE. Only such a hypothesis can account for their strange habit of disappearing and reappearing so easily. They do not fade into "nothing"; they simply raise their frequency levels or vibrations rates and slip into another dimension-- where our jet fighters cannot see or follow them!

Is this preposterous? To the materialists who knows nothing of psychic science, occultism or parapsychology it is of course absurd. But to the enlightened student of esoteric and spiritual wisdom, the etheric idea is fascinating and intuitively makes a great appeal.

Aquarian Age Consciousness

It seems to me that the coming of the saucers must be interpreted in the light of our planetary transition into a new age. Piscean mentalities can never hope to understand the saucers. Our newspapers and organs of public opinion, being largely dominated by minds of the old Dispensation, cannot be relied upon to give an accurate or honest discussion of the saucers. It may require ten years for trenchant analysis and presentation to the public of the essential wisdom regarding this wonderful incursion of space ships.

The incoming Aquarian Age is an era of conquest of space, to be sure-- but imagine what our surprise will be when we discover that outer space is not so much "distance" as EXTENSION OF CONSCIOUSNESS.

The new age is to be a spiritual and psychic age, and its developing mentalities will learn much of the subtle ethers and invisible planes which surround and interpenetrate our earthly habitat.

Why They Are Here

Our atomic and thermonuclear explosions have affected not only our own planet adversely, but apparently also have undesirable repercussions in the subtle worlds. Therefore these craft have come to investigate us, to see what mischief we are about, and to observe our total planetary conditions.

Ashtar, a space intelligence presumably contacting earth people through various earthly sensitives, affirms that our upper atmosphere has at times thousands of space ships, but only occasionally do they lower their frequencies into our dimension, to be seen or heard by earthlings. **THEY ARE NOT HOSTILE**; in fact, the messages from Ashtar and other space people are filled with wisdom and sincere good-will. It is the malefactors and ignorant men of earth we should fear or guard against--not the saucer people!

They also come to warn us of impending geological changes-- some of which may appear to be catastrophes. They inform us that the earth crust is very unstable at this time, and it is probable that coming months and years will see many earthquakes and continuing climatic changes.

They suggest that during the coming TEN YEARS our planet will experience a housecleaning and moral purging, which in some ways is long over due.

Saucers and War Prospects

The saucerians, in their various messages to us through many channels, aver that a third world war with atomic bombs will not be permitted. They will not permit the destruction of this planet, and have warned that they will intervene if necessary to prevent such a holocaust. Apparently the asteroids in space are the fragments of a once fertile planet that was destroyed long ago through misuse of atomic power.

During 1955 they will con-

time to make landings in isolated areas and will contact various earth people. Then in 1956 they have said that many more landings will be attempted. They cannot come en masse now because of the abysmal ignorance and stupidity of the majority of earthlings regarding supernatural phenomena.

Welcome the Space People

We are desperately in need of an interdimensional and interplanetary Department of State! Our authorities are hiding from the public some of the most wonderful information since the time of Christ. We who know something of esoteric and occult matters must do our part to welcome the space people and receive their knowledge and advice.

Apparently they seek contact with qualified and sensitive earthlings. Many more such personal contacts are to be made this year and next. Are you available for liaison with space and the Ethers? When out in the open country and available for contact, send them a thought. Attempt contact first through telepathy. Observe all things and be receptive to the incoming of new ideas of a constructive nature. Gradually rapport will be established, and our earthlings civilization will receive incalculable benefits.

So welcome, Etherians! We offer cooperation in the true American and Aquarian spirit; we recognize your potential helpfulness to our beleaguered planet, and we shall work with you for the Highest Good of All.

Dr. Holloway has written five fine books on flying saucers. All five are available from this office. Your orders will be filled promptly.

If you are interested in joining a flying saucer club, receiving notices of meetings or lectures please forward your name and address.

SERVICE DEPARTMENT

Anyone wishing to give us a news tip on the saucers may call us at FI-lmore 8-6507 or write in care of this address:
Flying Saucer News
1597 Third Ave. & 90th Street
New York 28, New York

ATTENTION.... a one year subscription of Flying Saucer News will be sent free to any Interplanetary visitor. He or she is welcomed to visit this shop First

FREE....yes, a certain good-hearted lady who resides in New York City is now offering her 500 acre farm for landing purposes for the flying saucers only.

Flying Saucer News is now paying for written articles. Postage must accompany the story with a return envelope addressed to the sender.

DOES YOUR LIBRARY RECEIVE THE FLYING SAUCER NEWS? Subscriptions sent FREE....to any library provided librarian requesting same assures us that the magazine will be in full view of those who enter the reading room.

Saucer clubs, lecturers, and sales people are invited to sell our magazine. Good commission.

FLYING SAUCER NEWS will pay \$ \$ one dollar for each timely, interesting question submitted and used in our new column to be known as the QUESTION BOX.

A NEW kind of magazine will appear on the market soon. Will be advertised in May issue. This kind of a magazine will be real news even for the newspaper trade.

Isaiah 21:11 "Great signs shalt there be from heaven."

Others Saw Trail of Fire

HUDSON FLYING SAUCER REPORT STIRS AIR FORCE FURORE

Like the fairy tale character, Chicken Little, who reported that the sky is falling, Louis Penkalski, the Jersey City man who says he saw a "flying saucer" in town has caused a furore that is spreading.

For one thing, the Air Force, in military terms, is sending the report "up through channels."
IT'S SERIOUS

For another, several persons have come forward to say that they, too, saw "something," although none have been as bold as Penkalski to say it was a flying saucer.

The Air Force in Newark, which is charged with the responsibility of finding out what goes through the skies, takes all such things seriously.

A fact, according to Maj. Clinton McMillan, provost marshal at the base, is that Penkalski's claim will be forwarded to the Air Technical Intelligence Center at Wright Patterson Field, Dayton, Ohio.

NOT THEIR BABY

"It's out of our hands," McMillan said today.

Meanwhile, three Jersey City residents solemnly reported that they also saw "something in the west" Monday at dusk, at the time Penkalski definitely asserted he saw a flying saucer.

"It was something big and blue and it looked round and shot across the sky," said William Nafey of 275 North St. "It looks like sparks or flames was coming from it."

FLYING BALL

"My first impression," said John Coppola of 30 Lincoln St., "was that it was a burning airplane. As it traveled, it left a trail of fire about 3,000 feet up."

Robert Sullivan, a 12-year-old newsboy, of 350 Van Nostrand Ave., said that he saw "something that looked like a flying ball about 4,000 feet up, coming west over the Metro Glass Works on West Side Ave," when his attention was attracted.

Penkalski also said he saw the thing flying over Metro as he walked towards his home 401 Woodlawn Ave., early Monday evening.

The Air Force, when informed by a reporter that other people besides Penkalski had seen the thing, said it would add their names to its report.

SPECIAL

The poem "I TOOK A TRIP TO HEAVEN in a MODEL P-4-7" which the New York Times wrote about in their column (see our editorial page) has been set to music and arranged by Perry Voultzos. He is the well known orchestra leader. A real lively tune. A copy will be sent upon receipt of 25¢

OH

I TOOK A TRIP TO HEAVEN

Oh, I took a trip to heaven
In a model P-4-7,
Up where good folks always go;
And there an angel, in mid-air,
Awaited me to share her love,
I honestly declare,
That lovely creature up above
Made me fall radiantly in love.
I know why saints all live up there—
For with their joys naught can compare.
Oh, I took a trip to heaven,
In a model P-4-7,
That's where I met my angel in mid-air.
J.S.R.

Reprinted from Counter-Current

Visitors are welcomed to our office and book store from Monday through Saturday. Hours are 12 Noon to 10 P.M.

NEW BOOKS AND REVIEWS

" Messages from the Space People; "Dr. Gilbert N. Holloway \$1.00
Dr. Holloway has written a fine story and as usual we find the public demand for his literature is growing. One more detail we would like to add and that is the cover to this book is an improvement over his other literature.

" The Case for the U F O " by M. K. Jessup..... 3.50
Introduction by Frank Edwards, famous radio news reporter for the A. F. L. We understand his sponsors fired him because he talked too much flying saucers. Frank was one of the most popular news reporters in the world and we predict ... this book to be one of the best sellers in the non-fiction field in America. This book is down-to-Earth so to speak and not just an Occult experience.

" Secret of the Saucers " by Orfeo Angelucci 3.00
Orfeo has written many articles for various publications on flying saucers. Orfeo will appear in our magazine in the near future. He has submitted one story to us. With his experience in writing we know his book will be a success.

" Cahspe A New Bible " has been published for a long time but we wonder just how many folks know that this volume contains many statements on flying saucers. Published in 1882 it is still a good seller. American edition consists of thirty-six books in one volume of 890 pages. There are ninety-seven illustrations. It has flexible binding, round corners and gold lettering. A rare book indeed at the price of only \$5.00.

" Inside the Space Ships " by George Adamski will be ready this summer.

" Allan's Message To Men Of Earth " by Daniel Fry\$1.00
By the author of The White Sands Incident, the technician who rode in a flying saucer and talked with a space man. Thousands have eagerly awaited his second book which reveals a new contact with Alan - a being not of this earth. The message is tremendously important. The governments of the earth will heed it or mankind will destroy itself. Read and tell others.

" Signs in Heaven and on Earth by Franklin Hall25¢

" Flying Saucers, space travels " " " 25¢

These two books by Rev. Hall are about the only ones which we know of giving the fundamental viewpoint. Detailed information containing 24 pages each.

" Out of This World " by Jeff Thompson \$1.00
Yes, out of this world. It contains pictures, puzzles, games, jokes and 1,000 facts. This is an activity book based on space travel. For boys and girls from 9 to 15 years of age.

" The Flying Saucer Conspiracy" By Maj. Don. E. Keyhoe \$3.50
This book we predict will out sell all others. Available in May. His last book Flying Saucers from Outer Space sold 60,000 copies in the trade edition. Pocketbook edition sales unknown. Now out-of-print.

The Evening News

NO. 22,774

LONDON, MONDAY, FEBRUARY 21, 1955

THREE-HALFPENCE

JOHN MARSHALL . . . Reporting from NEW YORK

FOR me New York's Third Avenue has something of the quality of the King's-road, Chelsea; the same vaguely indecorous beckoning allure. It is, as to its outward aspect and as to the whole of its considerable length, a tatterdemalion sort of a street; but beneath the rags are riches.

Dylan Thomas is credited with the assessment that he didn't think a great deal of New York but he liked Third Avenue. His short life ended, to the world's detriment, not very far from Third Avenue.

Alas, I never had the chance to ask him just what he liked about this noisy, untidy street with the Elevated thundering past the second floor windows and the buses, which are London red on this route though green everywhere else, clattering below.

Old and New

It is a street of contrasts, here a stubborn clinging to the old, there an eager yielding to the new. As examples of these two extremes we might do a lot worse than to select the little shop down in the Bowery with the sign "William M. Olliffe, chemist and druggist, established 1805" and, far uptown, that which bears the name of James S. Rigberg, bookseller.

The former is the oldest pharmacy in New York City and it has made only a conditional surrender to the twentieth century. Olliffe's, now owned by one Herbert Wilks, is a druggist's shop and not a drug store. Mr. Wilks has resolutely refused to permit such modern innovations as the counter serving hot dogs, hamburgers and ice cream; and the revolving metal bookshelf stacked with paper-backed classics.

But ask for a leech and you shall not ask in vain.

Some summers ago a famous baseball player entered this shop in despair. He had a shiner so devastating that modern medical methods had failed to open the eye. Yet it must be opened for the big game against the Giants that very afternoon.

Magic Leech

Mr. Wilks disappeared behind the shelves bearing hand-blown bottles which had stood there since old Boney was strutting Europe and returned with a squirming leech, which he applied to the battered eye. In a few minutes the swelling was down, the eye open.

Up Third Avenue a hundred blocks or so we come upon a very different story. For James Rigberg and his attractive wife Margaret welcome all that is modern not only in this but in other worlds, too. Their bookshop is New York's flying saucer headquarters. All who see strange vessels in the sky by day

NO FLYING SAUCERS (yet) ON THIRD AVENUE

Third Avenue has much in common with the King's-road, S.W.3, but no Chelsea motorist ever parked his car and returned to find it almost hidden under snow. This happened in Third Avenue.

or night are invited to ring the Rigbergs or to call upon them so that their reports may be studied, the results passed on to the other saucerian zealots all over America and even perhaps accorded immortality in the Rigbergs' publication, *Flying Saucer News*.

The study of flying saucers is the hobby as well as the main pursuit of this young Pennsylvanian couple and firmly they believe that visitors from some other planet or planets will one day land upon our world from the stellar craft they hear about so often.

"Actually," Margaret confessed to me, "I have never seen a flying saucer but many people have, as our reports show. Among the Rigbergs' most faithful reporters are boy twins who have saved up to buy a telescope through which they contemplate the heavens above Third Avenue.

The *Flying Saucer News* proclaims a number of laudable objects such as awakening the

interest of the rank and file in flying saucers.

It offers, safely enough at present it would seem, one year's subscription free to any interplanetary visitor, and it even includes in the current issue a poem which starts:

*Oh, I took a trip to heaven,
In a model P-4-7.*

You can't be much more up-to-date than that, can you?

Familiar Topics

Two things, perhaps, that Third Avenue and the King's-road have in common—an interesting unconventionality about some of their inhabitants and enough bars to satisfy the most arid Bohemians. And, well, it's not such a big world. The accents and the jargon may differ but the bar topics are familiar. Substitute baseball for cricket and dames for, but there . . . as the night nears morning the discussion upon world affairs will be mighty similar and the pundits will be as ponderously oracular in Manhattan as in Chelsea.

CONVENTION REPORT
Reported by Dana Howard

The Second Annual Spacecraft Convention held at Yucca Valley, California on March 12th and 13th was just another revelation out of today's strange happenings. It was a picturesque approach to the Convention Spot travelling over many miles of sandy, sunlit desert roads, through forests of age-old Joshua trees, coming at last upon a wide stretch of "antediluvia" that appeared like land left over from The Flood. Imagine if you can, a boulder seven stories high that in days anterior to our histories was thrust up from an errant desert floor. The interior of the rock is a room of mystery for it is here that George Van Tassel, founder of the Universal School of Wisdom has held many profound discourses with men from outer space. In the immediate vicinity of The Rock, literally hundreds have attested to seeing flying saucers and other spacecraft since the days of the first sightings in 1947.

Most of those present felt they were no longer living in our troubled Twentieth Century, but in some strange way they had been projected into the Year Two Thousand and the New Age. The speaker's platform was like a modern Platonic Symposium, with Plato and his colleagues standing by. Most of those who had something to say because they have had unusual experiences, were from the ranks of the unlettered and the unsung. However, the stories they had to tell, stories where there was no hesitancy in the telling, would have sent our to-flight scientists, our philosophers and our educators scurrying to cover. The chosen ones took no credit to themselves for their advance knowledge on the baffling subjects of the day, but rather gave all the credit to their Space Teachers. Too, few out of the crowd of some 3000 were drawn from the ranks of the curious. There was no apprehension about invasion displayed, but rather they were all interested in finding a better way of life. "If other planets have it, why can't we?"

As one speaker put it:

"The space people tell us of an Utopian existence where there are no wars..no strife..no poverty or hopeless struggle. They tell us it's ours

Convention

Page 2

for the taking, so why not take it?"

The speakers included George Adamski, probably one of the best known Saucerites because of his co-authorship with Desmond Leslie in FLYING SAUCERS HAVE LANDED. Truman Bethurum, once a mechanic, who was taken aboard a saucer eleven times and who claims many pleasant chats with the saucer's charming captain, Aura Rhaines. Daniel W. Fry, who authored THE WHITE SANDS INCIDENT and ALAN'S MESSAGE TO MEN OF EARTH. While Fry was literally torn to shreds by his opponents, he stands today as a challenge to the thinkers of our world. Orfeo Angellucci who has just authored a new book was very much in evidence. So was George Williamson, the anthropologist turned Saucer-Scientist. But outstanding among them was a young chap named Richard Miller of Prescott, Arizona who maintains he was flown for twelve hours in a 150 foot diameter saucer after being picked up outside of Detroit. Miller was told by the Commander of the ship, named Sol-tec, that our earth is moving into a huge cloud of deadly cosmic rays and there are some 3,500,000 space people and ships screening the earth against this deadly radiation. Strangely enough this ties in with "yours truly's" message from space people some six weeks ago. And before I forget it--I was there too, talking about MY FLIGHT TO VENUS.

Another highlight of the Convention was a story told by Rev. Emma Kingham, of Alhambra, California. A few weeks ago I spoke at Rev. Kingham's Church and if ever there was a sincere, honest person, this woman is it. Let me state it in her own words:

"I had just gotten into bed when I opened the window to get some fresh air, and there was the saucer. At first I thought the object was an airplane, but the coloring was wrong and on further notice the shape was different. Besides I had seen another saucer a few weeks ago and was able to get a telepathic answer to my questions. Each time I asked a question

the saucer pilot answered with beautifully colored lights of red, green, blue and golden turning them on and off as each question was asked.'

In describing the saucer Rev. Kingham said: "The front part was maroon, the cross-bar section golden--a beautiful object in the past-midnight sky."

All in all the Spacecraft Convention was a huge success and more people today are convinced "the saucers are real."

FLYING SAUCER MEETINGS & LECTURES

The Civilian Flying Saucer Intelligence will hold their monthly membership meeting (no lecture) at a closed meeting on April 29th 1955. Members will be notified by mail where to meet and the time.

Rev. Leon C. Le Van an authority on flying saucers will give a talk or lecture on flying saucers to a local group of Rotary on April 12, 1955 which will feature the experience of Daniel W. Fry, as narrated in "THE WHITE SANDS INCIDENT". A record of Mr. Fry's conversation will also be given during the course of the lecture.

The meeting will be held at New Jerusalem Christian Church (Swedenborgian)

Sandusky at Parkhurst Street
Pittsburgh, Penna.

NOTE; we will reprint a circular of Rev. Le Van's in one of our future issues.

PUBLIC LECTURES AND WRITINGS OF DR. GILBERT N. HOLLOWAY

Dr. Holloway is one of America's foremost metaphysicians, intuitional sensitives, authors and counselors. His numerous publications include essays on the saucer mystery that will interest all students. They are:

- Coming of the Space People\$1.00
- Messages From the Space People 1.00
- Flying Saucer Mystery50
- Conquest of Space50

These unusual writings may be obtained from the FLYING SAUCER BOOK SHOP 1597 Third Ave., New York 28, N. Y. (or) by writing direct to the address below.

Holloway School of Philosophy, Health & Religion

Joel 2:30 " I will show wonders in the heavens ---- "

Our Visitors Page

Professor La Tour, the man who can give you one of the best astrological forecasts for very little and who is the owner of the La Tour Publishing Co., 382 Marlborough Rd., Brooklyn 26, N. Y. paid us a friendly visit.

Miss Helen Frank of New York City has been to our shop on numerous occasions, she is also interested in Yoga and other occult studies.

Elsie Dehn, Millinery Creator 320 East 79th St., New York 21, N.Y. RE 7-2635 is quite a fan for flying saucers and our other literature. We are very proud to have folks with the ability to create to call on us.

Mike & Charles Fitzpatrick the men behind the scenes with the Geo. H. Williamson literature has called on us. Folks have inquired if they were from outer space. Both are out of this world when it comes to health. They have it. And The latest news we have heard is that they have gone west. Pleasant journey fellows.

Miss Blanche Grossman of 90th St New York City, a pretty Young lady, a talented painter (and we mean good) and a flying saucer fan calls on us regularly. We hope to have her join our staff some day. And may we remind you that she paints FLYING SAUCERS. An article on her painting is now in order. How about it Blanche?

Miss Bryon a true flying saucer fan dropped into our shop lately. From what I have observed wedding bells will be ringing soon. What a lucky fellow!

Mr. Neil Divir of 269 William St New York paid us a pleasant visit last week. This gent has lived good in his day. Our only thought is that we hope others would follow his example of learning to live a clean life. He is very active for his age and loves to read occult literature.

Elder Charles Beck, P/ O/ Box 2082 G. P. O. Buffalo, N. Y. is a world famous radio minister and healer who came to visit us. And Elder Becker is interested in Flying Saucers as well. We hope to have him write us an article on the flying saucers some time. How about it Elder?

Visitors are welcomed to our office and book shop from

Monday thru Saturday from 12 Noon to 10 P. M.
