This is the third issue of the FLYING SAUCER NEWS. Thanks to the public interest and appreciation our circulation has jumped to 3,000.

The print in this issue is a little smaller but definitely clearer and easier to read than were our former two issues. We would like to hear from our readers just how the NEW print appeals to them.

A new flying saucer organization has been started. Saturday, April 16th, 1955 the FLYING SAUCER NEWS CLUB OF AMERICA, with headquarters at 1597 Third Avenue & 90th Street, New York 28, N.Y., began their drive for members. Dues are only \$3.50 per year. Benefits which the members receive:

- 1- Members receive a copy of FLYING SAUCER NEWS each month for 12 issues.
- 2- Other benefits include a 10% discount off the purchase of flying saucer books and pamphlets.
- 3- We have a film on flying saucers which we will be pleased to run just as soon as there is a sufficient demand for it.
- 4- A free plastic book cover with each \$2.00 purchase or more.

### SUBSCRIBERS

To the people who have subscribed to The Flying Saucer News and who wish to become members of the club half (1/2) of the amount of money they paid in for their subscription may be used for their membership dues. In other words, a \$2.00 subscription for one year would entitle you to \$1.00 toward your membership dues. \$2.50 would still have to be paid in order to qualify for the benefits as a member of the FLYING SAUCER NEWS CLUB OF AMERICA.

We wish to announce that the new magazine to which we referred in our last issue will be out in the very near future. This magazine will cover articles of a social and political nature designed to awaken an interest for the correction of social and political abuses.

A word about THE ABOLITIONIST SOCIETY, which is advertised in the Classified Section---This organization has been founded by your editor and does not represent the views of the members of the Flying Saucer News Club of America.

GRACE KELLY'S newest suitor is a Pennsylvania millionaire named Bill . . . Josh Logan is pulling a switch with the casting for the movie version of "Picnic." He's screen-testing in New York, and letting the Hollywood dolls fly in to try for the parts.

A new magazine called "The Flying Saucer News" is offering a one-year subscription free to any interplanetary visitor. (Note to interplanetary visitors: Please Do Not Contact This Column For Further Information!) . . . Over at RCA Victor they're sending up rockets because Dinah Shore's record of "Whatever Lola Wants" is so great . . . Peter Douglas and mannequin Nina DeVoe appear to have chilled it.

## FLYING SAUCERS

By Evelyn Whitell

"What is Truth?" said jesting Pilate, when Jesus stood before him.

The same question has been ringing through the Ages, waiting for the answer.

Before preparing to write on a subject like the Flying Saucers, I, who know so little about them, pray that I may be led to express the truth as it appears to me, that my guidance may be direct.

Years ago before the talk of Flying Saucers was spoken of, I had written a book of Fairy Tales, among which came the story of Flying Saucers under a different name. This story, among thousands of my others, lay forgotten until the talk about the Saucers became the talk of the day. Then, I remembered the vision of the past and unearthed it from my Fairy World, hidden in a forgotten drawer. To me, it seemed to fit in with the talk of the present and made me say "this was a revelation given to me years ago, when I was living in a world of my own making, wasn't this a glimpse of something about which the world was talking today."

I recalled in one of Olive Shriners' books, she describes the savage, who, sitting on the rock, picking the flesh from a man he had killed, suddenly sees a lightning flash out of the darkness of the night, and in that moment, there broke upon his stagnant brain, a consciousness of something higher than the one existence--something which held more for him than that which he had believed.

With a far keener vision than that of the past, man's spirit sight is stronger. The dust of the earth and materialism is clearing. We live in an Age of rush and hurry. Jesus knew the nature of men when He said "I have many things to say unto you, but you cannot bear them now." He knew the revelation of these things would come with gradual unfoldment, like the revelation of the Atomic Bomb, which has lain in silence for centuries, waiting for its discovery when the time had come.

I remember Sir Robert Ball, the great Astronomer said in one of his lectures "Cease to worry over whether Mars has canals or people like yourselves.

Millions of worlds are swinging in the ether which our holden eyes cannot see, even with the longest or strongest telescope. Unseen beings may walk beside us, atmospheric creatures may exist to which we are blind, for as Coulson Kernham wrote long ago "Can an ant crawl into the brain of man and see the world as man sees it, then, how are we expected, all in a moment, to get the true vision of what exists in the magnificence of space?"

"Let me see God", says the child, and it has to be explained that no one has seen Him, and this is hard at first for the child's mind to grasp until we explain that no man has seen electricity as we know of its mighty force and feel its power.

One world at a time. "I prefer," says the philosopher "to live for one world alone, the one where we have been placed by the hand of the Almighty, Who has supplied us with the power to create, preserve or destroy. When we are ready for another world, I believe our eyes will be open to it. It is God's beautiful gift to us, and if we had not been where we belonged, we would not have been placed here. He never made this beautiful world for us to destroy, but to discover all the beauty and glories He has thrown into it.

I hear there are visitants from far-off planes that have now touched our earth and are able to give their knowledge to its inhabitants, and they have, as they say, the gift of speaking any language, then, surely, seeing the condition of our world at the present time, we are told we need all their help. If they are coming for good, we would gladly welcome these advanced souls. Why should we have to go star-gazing and seeking the knowledge if they are willing to let us have it first hand?

Our world was given to us to beautify and never made for us to break to pieces. God is not sending this knowledge from other planes second-hand. If the Flying Saucers have anything to reveal to us, they will reveal it in His pure light. If they have not, then their light will die out like vanished stars.

Sonny Castator will lecture at the Castle Ballroom, 16th and Sheridan Road, North Chicago, Illinois, 8:15 P.M. May 5th. There will be slides shown also. Admission \$1.00.

The Civilian Flying Saucer Intelligence will hold their monthly membership meeting (no lecture) at a closed meeting on April 29th, 1955. Members will be notified by mail where to meet.

The Flying Saucer News Club of America with headquarters at 1597 Third Avenue & 90th Street, New York City, will function as a buying club for the present. The first meeting will probably take place in September. A flying saucer movie will be shown if enough members and interest is shown by then. Those interested in joining the club should contact this paper for further information.

PUBLIC LECTURES AND WRITINGS OF DR. GILBERT N. HOLLOWAY

Dr. Holloway is one of America's foremost metaphysicians, intuitional sensitives, authors and counselors. His numerous publications include essays on the saucer mystery that will interest all students. They are:

COMING OF THE SPACE PEOPLE .....	\$1.00
MESSAGES FROM THE SPACE PEOPLE .....	1.00
FLYING SAUCER MYSTERY .....	.50
CONQUEST OF SPACE .....	.50

These unusual writings may be obtained from the FLYING SAUCER BOOK SHOP, 1597 Third Avenue & 90th St., New York 28, New York or by writing to the address below.

Holloway School of Philosophy, Health & Religion  
 P.O. Box 27866, Los Angeles 27, California - Phone HO 5-0857

Dr. Holloway will lecture at 116 So. Michigan Avenue, Chicago, Illinois, April 24th through May 17th. Phone AN-dover 3-0776 - Studio 1208. Sundays at 3:00, 7:30 and 8:45 P.M. and Tuesday, Wednesday, and Fridays at 7:30 and 8:45 P.M.

ATTENTION !!!

Until further notice this page will be free to every FLYING SAUCER club, study group or lecturer to announce their meetings. Notice of your meetings and lectures should be given in advance so that we can offer such news to the public on time. Your cooperation will be appreciated.

*Join the Flying Saucer News Club of America.*

## NEW TREND ON SPACE TRAVEL

By

Max B. Miller, President, Flying Saucer International and Editor of the Magazine (SAUCERS)

### NEW TREND ON SPACE TRAVEL

Over the past several years, there has been much talk, conjecture, hullabaloo and exploitation of space travel and the establishment of an orbital satellite to circle around the Earth.

Top magazines have featured articles on this, motion pictures have been made, and so forth. Dr. Wernher von Braun, German rocket authority famous for his contribution to the V-2 rocket, has been largely responsible for the project's exploitation and possible success.

The group that advocates such a plan, hopes to spend something like four billion dollars to construct a number of three-stage rockets to carry the equipment 1,075 miles into outer space to build the proposed satellite.

From the construction of the satellite, it is hoped that scientists will be able to eventually go to the moon and our neighboring planets.

### PRESENT LIMITATIONS

However, there are many drawbacks to the proposed project:

1)---The heavy strain of enormous G-forces on the human body (1 G-force equals gravity, therefore 10 G-forces would be ten times the force of Earth's gravity) during acceleration to reach escape-velocity (around six miles per second).

2)---The constant danger from ever-present ultra-violet and Cosmic radiation. The ship would have to be shielded from these, though Cosmic radiation will still penetrate.

3)---The great possibility that rocket ships or the satellite may be struck by a meteoroid (the body of a meteor).

4)---The apparent insurmountable limitations of the present chemical reaction-rocket engine. The trip to the nearest planet would take many months. At the absolute theoretical maximum velocity--according to the Einstein Theory of Relativity--(which is close to 186,280 Miles Per Second) it would take about four and one-half years to reach the nearest star. It would take some 1,700,000 years to reach the nearest galaxy (island universe), Andromeda.

*(To be continued in next issue)*

# THE BOOK EXCHANGE

May 1955

Visitors from Space, Eugene H. Drake .....	\$1.00

New BOOKS and REVIEWS  
-----

A MESSAGE FROM OUTER SPACE by William Ferguson

Price \$1.25

Mr. Ferguson was a student of relaxation back in the early 1930's, and practiced it until he relaxed himself right out of the body. He learned to come and go at will, and learned a great deal that way. He kept quiet about it outside the family, though, until recently, when he consented to make certain of his discoveries public. This little book is just one of many things he has ready to publish. He's been to Mars more than once in this way. He has appeared on Tom Duggan's TV show in Chicago, and the response was so favorable, he was invited back again. He has been holding public lectures, explaining flying saucers and related phenomena and how they are possible, as well as why they are here and the message the space people have for Earth people. Note.....Easy reading, good clean printed job.

The Flying Saucers International Magazine, known as SAUCERS, is now the second best seller that we know of in New York. First, of course, is FLYING SAUCER NEWS, which has a circulation of over 2,000 per month.

The Saucerian Magazine is Third as a best seller. The LITTLE LISTENING POST is fourth. NEWSLETTER is fifth.

THE SAUCERS SPEAK by George H. Williamson & Alfred C. Bailey

Price \$2.00

A documentary Report of Interstellar Communication By Radiotelegraphy.

Contains startling scientific information and convincing proof that people from other Worlds are with us.

The amazing experience of Dr. Williamson and associates is fully described together with a transcript of communications received and the affidavit of the witnesses present. A remarkable book you will not want to miss.

WE COME IN PEACE by Franklin Thomas

Price \$1.00

Contains the translation of a letter from Austria describing the landing of a FLYING SAUCER, giving detailed description of a Martian and the method of communication. The message explains how we are being observed by men of other planets, and what must be done to survive. It promises help. It is full of beauty and compassion.

VISITORS FROM SPACE by Eugene H. Drake

Price \$1.00

This thirty-eight page book is really packed full of vital information. It certainly gives plenty of details besides two sketches of the space ships are included giving complete detail about them. A lot of data for very little money.

MY FLIGHT TO VENUS by Dana Howard

Price \$1.25

Dana Howard is terrific. She has written a good reading story; it is so good that we have sold as many as fifty in one day in our little book shop which is really way off the beaten path. Besides writing, Mrs. Howard also paints and in this sense we mean an artist. We have an original by Mrs. Howard on a screen. It is good! Come and see it, a real flying saucer done in color. See it at our book shop.

O u r V i s i t o r s P a g e  
-----

Mr. Charles Suliman is a flying saucer fan and also a student of telepathy. He claims he can project his thoughts on to another person's mind and would like to experiment.

DUKE UNIVERSITY.....this man offers his service to you but your institution must pay for transportation et cetera to be worked out with him. Please contact this paper for further information.

Mr. Barrera, Jr. (Lee Elwood Barnes) and his wife paid us a visit on March 18, 1955. He is the well known poet from Brooklyn. His book of poems SOLDIER'S SCORE, published by Exposition Press, 1949, is good reading. \$2.00 at all bookstores.

George F. Kelly, a marine engineer and a member of the Rosicrucian Order of Amore and also a FLYING SAUCER fan, visited us 3/25/55.

David MacDonald, Secretary of the Science Fiction Society of New York, 131-20 132nd Street, South Ozone Park, New York, visited us. He looks like a good leader to us and may we add a rather serious fellow at that.

Captain Steaker, newly appointed to the 23rd Police Pct. and Sgt. Collins both paid us a visit. (They're doing a fine job for our area and deserve a big hand."

Mr. Williams.....Who operates the Williams Photo Studios at 250 East 67th Street, New York City, does some fine portraits with personality. His telephone is BU 8-5960. He's interested in the occult.

Mr. V. Hansem, a sailor, who resides at 278 S. 2nd Street, Brooklyn, New York, visited us 4/23/55. An ardent flying saucer fan; claims he saw 7 flying saucers in 1951.

Arthur Morris, another newcomer to our retail store, is one who believes in the occult studies and the flying saucers. He lives in the Bronx.

Mrs. M. Nash, who lives at 110 East 99th Street, Apt. A, New York City, is one of the visitors we have MISSED in recent weeks. We understand she is going to have an operation. Letters from our readers, wishing her good health, will be much appreciated.

Miss A. E. Schultz, 412 East 51st Street, New York 22, N.Y., used to make the trip to our store regularly. Knowing of her disability, we want to wish you every good in your recovery. We look forward to seeing you whole, in perfect health and active in this life. Our best wishes to you and your group of I AM.

Visitors are welcomed to our office and retail book shop from Monday through Saturday from 12:00 noon to 10 P.M.

Say you saw it in the Flying Saucer News!
