

# THE GOLDEN DAWN

CITY-OF-THE-SUN FOUNDATION

Number 2

THE CITY OF THE SUN - A SPIRITUAL CITY FOR NEW AGE PEOPLE.

Preliminary information about our community and City-of-the-Sun to be was given in the No.1 issue of this news letter. Additional copies of this will be mailed to anyone who requests a copy. Or, send us names and addresses of friends who are in the Light.

We want to make it very clear that our plans are not to build just another American city, but one that was planned ages ago by the Masters of Wisdom to be built at this particular place and at this particular time. The prophets of old were given information about the many changes that are about to take place in these 'latter days' in upheavals, suffering and travail as a cleansing process to prepare the world for a better place to live in for the limited number of people who will qualify for this privilege in the period ahead, spoken of in the Bible as the millennium, or the thousand years of peace. Likewise, the City of the Sun is being prepared as a gathering place, a haven of protection during the days of travail that are upon us, and a place where those of us who are in the Light can exercise our talents and wisdom to prepare the first truly Aquarian Age City where co-operative living and brotherly love will be a 'way of life'.

## DEVELOPING THE LAND

Unlike conventional real estate developments, lots or homesites are not purchased by the members of the City-of-the-Sun Foundation. There is no charge being made for the use of the homesites. A lease for the homesite is issued to each member or to the family (which has a family membership) for the life of the corporate charter of the organization which is 100 years, when he is ready to construct a home or install a mobile home. Any county or state taxes on homes will be paid by the owner.

## MEMBERSHIP

People who are 'in the Light' as we speak of it, especially those who are students of the esoteric and occult teachings, who understand the work and activities of the Masters who reside in the etheric realms and study Their teachings and accept Their guidance as part of God's plan for themselves and for the earth itself as it moves into the higher vibrations of the Aquarian Age, are the ones who will be considered for membership in the City-of-the-Sun Foundation and residents of our community.

The most important credentials a person or family can present must come from within their own hearts and souls. The Holy Spirit within will guide them as to what they would give and what service they can offer that will be their contribution towards the fulfillment of the vision that is the City of the Sun.

The most valuable commodities to be found within their own being is the love of God and the love of our fellow man. From this naturally follows the giving of ones self in the form of service and the sharing of substance of what we have. A garden of the 'fruits of the Spirit' can't help but thrive in joy, peace, harmony, etc. for everyone concerned. A membership certificate will be in order for those who thus qualify, that is, those who are led by the Holy Spirit.

Money will soon lose its value as a medium of exchange. From then on, what we receive of the necessities of life will be bought with what we have to give: our skills, our service, what we make, what we grow and what we can barter.

Each shall provide for his own needs as far as he is able. We will share what we have with those less fortunate than ourselves. In a spirit of sharing, brotherly love and service, all will be provided for.

### OWNERSHIP OF UTILITIES

In most areas and cities of the United States, electric power, water, gas, etc. is owned by private corporations. The customer not only pays a profit to the corporation or municipality, but also a lot of interest on a large bonded indebtedness. We aim to build, own and operate each of our own utility systems as much and as soon as possible. Such privately owned corporations will soon be a thing of the past, and we want to be self-sufficient when the day of reckoning comes. The cost of these services to our members will be at a minimum when we own our own facilities. If and when our money system ceases to be, we still will be able to operate our own utility systems. To this end we are giving much thought and planning.

### OUR METHOD OF OPERATION

In most organizations, it is the dedicated and faithful two or three that do most of the work. This results in inefficiency and inharmony. For any who were fortunate enough to belong to an organization where each person did his share of the work, it was a pleasure and joy for all concerned. The practice of 'Many hands make light work' will be one of the principles on which our organization is formed, and to which all subscribe when they become members.

Most of the activities within the organization will be under the guidance of various Ministers who will work in close cooperation with those whom they serve. These Ministers will often gather together in 'workshop' sessions to deal with community problems where solutions will usually be reached through a 'consensus' of opinion, with the help of the Holy Spirit, and in close cooperation with the administrator or Director who is responsible to the Master Hilarion as explained in the No.1 issue of this news letter.

All these and other activities and regulations are covered in detail in the By-Laws of the Foundation. Such by-laws are required and approved by the Corporation Commission under the Articles of Incorporation of the State of New Mexico. This charter of the City-of-the-Sun Foundation is approved by the Corporation Commission as a non-profit corporation.

### HOMES AND ZONING.

Each person or family will build, or contract to have built, their own home. The plans will be submitted to the organization for approval, and the standards of materials and construction will follow the requirements of the State building codes. If, for any reason the home is to be sold, it can be sold only to a member of the Foundation in good standing. Certain areas will be set aside for mobile homes. The owners may sell these to another member in good standing who will live in it or the owner may move it off the community property.

The homesites will vary in size. In general, the smaller lots will be zoned for mobile homes, and the larger ones used for houses. The size of a lot or homesite assigned to a member depends on the size of his home or mobile home, also the member's willingness and ability to maintain the property in a neat and reasonably attractive condition.

In view of the crises that is facing the world and limited time in which to construct all the necessary housing that will be required in the months and short years (?) ahead, we have come to the conclusion that a 'crash' program of apartment building will be required. To what extent these apartments will be made available to the members on a purchase, rental, or lease basis, will be determined later, depending on various factors.

### GROWING OUR OWN FOOD.

Each member will have the privilege of maintaining his own vegetable garden. It is also planned that there will be a community garden to furnish vegetables to the membership at large. By utilizing tractors, mechanical cultivators, and irrigation systems, etc., there will be an economy of labor. In times of national crises when our transportation or money system may break down, some of the thousands of acres of land nearby, now being used for the raising of cotton and milo maize, can be quickly converted to vegetable gardens to take care of the people who live in this isolated section of the Mimbres Valley.

### THE SCHOOL OF WISDOM

Our community and future City of the Sun will be a gathering place of those who have known the higher teachings in ages past. Most of our members are known to the Masters as 'guardian spirits'.\* These came from other planets many thousands of years ago as

\* Explained in the book, PILLARS OF LIGHT by Rev. Wayne H. Taylor (Price \$2.00)

volunteers to help raise the spiritual level of mankind in Atlantis and other civilizations. They are now being attracted to 'Light' groups and to the study of New Age teachings. Many of these are now becoming interested in the program of this organization and in the founding of the City of the Sun.

We are being drawn to this community life for fellowship with kindred souls, for a haven of protection in times of upheaval, for joyous, co-operative living where, through association and the teachings of The School of Wisdom, we may progress more rapidly. Here we can recalm our spiritual heritage.

As given by Master Hilarion (known to most Bible students as the Apostle Paul), "There will be seven grades and seven levels of spiritual teachings. Seven channels will be there, with teachings which have been placed in their care throughout the past ages. They are now teaching in various areas on this great continent. These teachings will be brought to the community for the development of those who are to come".

After the students' progress through the seven levels, Master Hilarion continues, "Then they, too, will be used as teachers in that area. There will be need of many teachers for the thousands that will gather after the year of 1975".

#### COMMUNITY ACTIVITIES

This new community, the beginning of the City of the Sun, is being born during days of confusion, conflicting ideologies, wars and suffering. It will be a gathering place of those who realize the world of materialism has nothing more to offer them, neither a future nor comfort nor security. These are the students of the 'Light' -- the spiritual Light that guides them in the ways of God, symbolized by the Sun for which our city has been named. To this New Age community will be drawn the enlightened ones who seek a haven of protection during the days of suffering and travail, of misery and violence, where we can work together for the comfort and welfare of each other.

Together we can grow the foods we need, prepare and preserve our garden products for the months ahead, make furniture, clothes and other necessities of life, and pursue the arts and crafts for the beauty and cultural aspects of our lives.

As long as our money still has value, we can purchase and keep in reserve many tools, building materials, machinery, yard goods, clothing, household goods and other necessities. When money ceases to be a medium of exchange, we will revert to age-old methods of exchange and barter of goods and services.

We will operate our own co-operative stores. Each person will contribute of his own efforts and particular talents; each will receive his necessities from the community storehouse.

Here we will find the 'gathering of the clan' -- old friends and associates, from ages past who sense that feeling of kinship as they meet once again, where the love of God and love of each other will flower in great beauty and profusion. This is where brotherly love and co-operative living will truly be a 'way of life'. The City of the Sun, an idea born first in the mind of God, will be the forerunner of other New Age cities, a prototype for other great cities that will flourish in the Golden Age of tomorrow.

-0-

#### To our readers and prospective members of the City-of-the-Sun Foundation:

We would like to hear from those who are considering becoming members. We will try to answer questions that are not covered in our news letters.

We would also like to hear from those who have skills in the construction field, such as carpenters, block masons and concrete workers. This would particularly apply to people who have travel trailers or campers who could help in our pioneering efforts.

We would likewise desire to hear from single people who are experienced in office work who are financially able to volunteer their services and who may or may not have their own trailers to live in. Let us know your situation.

THE THREE DAYS OF DARKNESS.

More than one prophecy has been made in the Bible about the forthcoming time when the daylight would turn into darkness and the moon and stars would not be visible, and that terrible and disastrous things would happen on the earth and to many people. (The most noteworthy is the prophetic Book of Revelations. (See Chapter 6, Vs.12 to 17.)

On the 17th day of September, 1971, as the three of us were sitting around the supper table after our evening meal, at the headquarters of the City-of-the-Sun Foundation, we drifted into a discussion of prophecies in general and particularly the one given by the Lady of Fatima (Mother Mary) in 1913 to three young Sisters who were of the Catholic faith in a town in Portugal. As it was explained to one of us recently, the Virgin Mary told of many historical events that would occur in the future after 1913. The three girls were told that every ten years or so only a portion of these prophecies were to be released to the world that would be fulfilled during the several years that would follow the giving of that portion of the prophecies.

The prophecies that were given concerning the First World War, the Second World War, and other important events over the years, all came to pass at the specified times. According to the version of these prophecies that were supposed to have been explained by a certain Portugese priest who knew these girls and was familiar with them, a certain portion of these prophecies was not given to the world in 1960 when it was supposed to. According to this priest, the Church which assumed the responsibility of releasing this information, did not release the fact that in the year 1972 there would be the three days of darkness followed by world-wide catastrophes.

As we discussed this prophecy around the supper table that evening, realizing how world-shaking it would be if true, one of us said, 'Perhaps we should ask one of the Masters if 1972 is the correct time for this event'. We decided to set up the tape recorder to prepare for such a communication in case one of the Masters heard our request and decided to tell us the truth about this prophecy. At that moment, our channel, Electra, was alerted that Jesus-Sananda would give us this information, so we proceeded to prepare the tape recorder and enter into a few moments of prayer to establish a good attunement for the proper reception. The following discourse was then given by Jesus-Sananda:

JESUS PROPHECIES THREE DAYS OF DARKNESS AND BREAKDOWN OF OUR ECONOMY IN 1972.

I, Jesus-Sananda, come to you tonight, My beloved children. I know that there are many problems that confront you concerning the prophecies that have been given. Know that words of truth are coming through, and when the channel gives these discourses, it is not she but He who has been chosen to come through to speak that gives these truths to you. I wish to make this statement for those who will channel when this beloved child is gone. Be certain and see to it that each one who does channel, asks that their own ego, their own lower self, be out of the way and that the Christ Self, the God-self within, comes forth, for in this way error is not prevalent.

With those three days of darkness there will be weeping, wailing and gnashing of teeth, but they are a forewarning to man. God loves His children, each one, those who are going on the right way, those who are going on the wrong way, the narrow path, the broad path. This is, as it were, a warning, when this happens. Those who are 'righteous', those who will do the right.... in other words, My children, those who have their foot on the path but are still undecided which way to trod, they too, will be given this same information, the same dissertations that the righteous and the un-righteous will receive. There will be warnings, and when ready, you must do as told. Do not go out of your house, do not look out of your window, stay in prayer, meditation, and fast as much as possible, because those are very very dire conditions on the outside.

The heavens and the lower heavens will be in warfare. But Michael who is great beyond man's comprehension, will have his army of angels, and this is the only way that a great cleansing can begin. After three days of continued and solid darkness, the light will appear, and a trumpet will sound throughout the land to tell man that he may come out of his house.

There will be desolation; there will be many who will be destroyed. Much of that which is of a mechanical means to man's betterment, will be destroyed, and man will have to start in many ways from the beginning. Industry will receive a great blow. The money system will be 'out'. Man needs not think about money now.

It is time that mankind think about the attributes, all that they have. The gifts and the wonderful, wonderful talents that have been given to man by his creator will come forth. It will not be on a money basis or for man's aggrandizement. It will start now to help mankind. With those attributes and those gifts that you each have, you will share as never before. It has been many centuries that man has wanted to help each other because they love their fellow man. This is the reason for this. This must come. There is so much greed, so much hatred, so much envy, so much of man's adornment and aggrandizement. His every wish and whim has been catered to. But what about the poor man that doesn't have these chances, the man that has the lesser environment, the lesser gifts, that has great needs and is living in great poverty, so the rich can get richer and that is making the poor poorer. This is not the Father's way. This will bring forth brotherly love, togetherness that has not been upon the earth for centuries. It has to come.

You who are in the Light, you will be told to prepare before these great days. You will have the food that you need, you will have the clothing, you will have even the transportation, whether it be by horse, or whatnot. There will be some carriages that will not need electricity. But do not rely on the electrical systems any longer.

There are many things, new inventions that will come forth that have been stymied because of man's greed for money. As you were talking at the table this evening, the oil industry has been greedy. It doesn't care about anything but the money that they take in. There are many things that will come forth, and new inventions that are waiting to come forth and this is the only way that mankind can develop. As in the time of Atlantis, there were wonderful inventions coming forth, but they put God out of the picture. They were destroyed.

But this earth is not to be destroyed. God must reign. He must be in the hearts of each child, each grown-up, each man, each woman. Each heart and mind will turn towards his creator, towards his God, the Christ within. And I, Jesus will be there. You will see My star in the heavens as it was in the times of Bethlehem when I came upon the earth as an infant. When you see that star, My hands will be raised in blessing for a new earth will begin. It is time that this cleansing comes. And remember, you of the Light will be warned and will be ready and not one place where those who are Light groups will be destroyed or demolished in any way. You will be the nucleus for this new dispensation that is coming. It must come now.

Always be on guard, be ever watchful for the adversary is roaming like a lion to devour those whom he can take. But you children of Light will be guided and directed. The City of the Sun will now go forth under 'full steam', as it were. You will have your apartments, you will begin to have homes ready. There will be food, there will be clothing. If all is not completed when this happens, know that the ways and means, the new inventions will bring forth many wonders to this land. These new inventions have been stymied by man's greed, by man's need, for his want of wealth and power and suppression of the people. This must stop.

There is no more time left. God will not be mocked. His plans will not be thwarted. There are many good people upon this land who are powerless in the hands of the adversary. This will be broken for Satan must be bound. And upon this earth will flourish the pastures as in the psalms. The shepherd is now going to bring his flock. His lost ones will be corralled and put in His bosom, and there will be a new earth and a new heaven. And there will be singing hosannas and halleluiahs. Praise be to God as never before. God isn't worshipped as He should be. How many places start with a prayer in public edifices today? It's not even permitted in school. Little children whom I love so dearly and are close to in My heart, are not even permitted to say My name in school. Yet man plans to continue in chaotic conditions such as these?

God is not an angry God, but His heart is heavy. The soul of God is weeping for His children at the degradation, the diabolical things that are upon the earth today -- worse

than Scđom and Gomorrah. But did your Father not say that He would not destroy the earth again after the flood? This will not happen. Mankind is going to have a chance to redeem himself. My blood is taking care of this. But the demonical forces are so tremendous that this cleansing must take place in this way. But this is not the 'last day'. These are not the last days, My children. If in the last days man still continues, after this warning, this great warning, then he will be taken from the earth, and then will there be a burning and cleansing that this earth has never seen before. And then there will be a cooling period, and then will My children be gathered together as a hen gathers her chickens under her wings. And I will be your Prince of Peace, of love, for one thousand years. Yes, My children, be watchful and pray, for the adversary is ever roaming about to devour you. When you put yourselves in My arms and My love, no harm can ever come to you.

I thank you My precious one for letting Me come, for you and I are one in the Father. Go in peace. So it is, so it be.

Question: Can I ask if these three days of darkness will be in the year of 1972?

Jesus-Sananda: Yes, that is the date set. My mother prophesied that date.\* And when she gives a prophecy, it is only coming forth in truth and wisdom. But do not ask the time; it will be given to you. Thank you, My son.

Question: Lord, is there something that needs doing, that we have not followed instructions completely, that you could edify us in any way as we could look upon it as Thy great love upon us?

Jesus-Sananda: As this time approaches, you will be given instructions what to do. There will be a channel here and in all the Light groups who will guide and direct each step in each way so that there will be no faltering and there will be no need or lack or want.

Channel: Electra.

Sept. 17, 1971

\* This obviously refers to the time in Portugal when Mother Mary (as the Lady of Fatima) prophesied that the three dark days would occur in 1972.

EDITOR'S REMARKS:

It comes as a shock to many of us to realize that 'It is later than we think' and that, 'There is no more time left' (after the three days of darkness). Fortunately, we will have part of the year of 1972 at least, and possibly most of it, in which to liquidate what assets we can and remove ourselves from the metropolitan areas where lack of electricity and most means of transportation will paralyze most of the means of survival.

We, at headquarters, promise to pass on to you, our readers, any information we receive that we feel will be of particular interest and value to you, through the pages of this publication, that the Masters give to us.

We can't promise to answer all the letters written to us (unless we get more office workers than we now have) but we will try to answer most of your questions through the pages of this news letter if not by mail.

We are enclosing one copy of a 'brief version' of the three-days-of darkness prophecy by Jesus-Sananda that you can pass on to a friend. We can send any number of these to you. (Send them far and wide, and to foreign countries, to deserving friends and relatives, to alert them about these tragic events to come.) We can send any number of these to you. We can also send you extra copies of this Golden Dawn news letter No.2. However they should be given only to people who are in the Light who might be interested in living in the City of the Sun. These must be sincere, dedicated people who would be a credit to our community.

We will appreciate your sending enough money to cover cost of printing, etc.

Brief version of the prophecy (All on one page). Any number @ 2¢ ea. post paid.  
Copies of this News Letter No.2 ..... " " @ 5¢ ea. post paid.

JESUS SANANDA SPEAKS OF THE END OF THE AGE.

Excerpt Taken From New Age Teachings No.46 - Sept. 24, 1970.

You are living in the last years of Earth's present period. As you observe the armies surrounding the countries in the Middle and Far East, know that the days of the end of the age is nigh. Many signs will be evidenced in the sun, moon and stars (as the Cosmic Beloved releases divine energies to cleanse and purge a decaying planet). The Earth will tremble with more frequency. The rains will be destructive in some areas, causing massive floods, while other areas will have a scarcity causing a draught. And the sea will roar as it brings forth its lost continents. Men's hearts will fail them because of their fear. The minds of many will become imbecilic as a means of escape from 'reality'. Young people, out of confusion will resort to mind-destroying potions, and crime and terror in your streets will increase. But you, My beloved, who have been made aware of these forthcoming 'cleansings' will remain strong and upright during this period. You will look up and see 'in the clouds' the Son of Man (The Christ-Soul) as I re-appear to you.

(A note here, beloveds: When I say 'In the couds' I am referring to your own personal 'cloud' or Christ-Consciousness. I am always in the 'clouds' but many do not see me because they have not yet found awareness, or realized their indwelling self.)

To you these signs and wonders will be a mark on encouragement, the knowledge that soon your persecutions will end and all manner of 'filth and debris' will be swept from the planet, making it clean and ready for the habitation of the faithful and just souls who have reached a state of elevation which permits their dwelling on a planet worthy of being the habitation of dedicated, renewed and Holy Beings. The others, alas, will struggle through many more lifetimes in other planetary systems until they have overcome all frailties of spirit.

My disciples, you are dwelling in the latter days (latter period which is still several of your years, perhaps a few earth decades in time -- though to Us, dwelling in the higher realms, it is but the batting of an eye!) Look into the 'cloud' and see Me. Be aware constantly of the Presence of our Father in your midst.... and do the work at hand compassionately, cheerfully and with dignified grace no matter what humiliaties you must suffer!

Cosmic Love and Peace surrounds you, blessed ordained workers for Truth!

NEW AGE TEACHINGS, P.O.Box 477, BROOKFIELD, MASS. 01503

NOTE: The above message was also given by Jesus-Sananda, but this was given about a year prior to the three-days-of-darkness prophecy. In this discourse, He does not give any hint as to what may happen in what years. This is a general preview of some of the things that will happen, such as floods, hevly rains, draughts, also man's mental sufferings.

He does mention that the two continents, Atlantis and Lemuria, will emerge with the roar of the seas. The three-days-of-darkness message indicates that life will be carried on by many people under very difficult conditions without the benefits of our money or normal industrial processes. However, nothing is said as to when the two continents shall rise or how much land will be covered by water when they do come up.

Our readers have much reason to want the truth about these conditions and additional information that might be given to us to further enlighten you. In the No.3 and later issues of this news letter, we hope to have additional information to share with you as given by the Masters of Wisdom concerning the events to come.

- - - - - 0 - - - - -

We would like to hear from any Light students who are 'ham' operators and desire to become members and residents of the City of the Sun, regarding plans for establishing a net-work of ham stations throughout the country.

It is important that we set up our own network of ham stations, or to inform fellow ham operators of the problems the world will soon be facing, and to solicit their co-operation and teamwork for maintaining a network for nation-wide communication when all conventional means have ceased to operate. Contact Rev. Wayne H. Taylor, President, City of the Sun Foundation, Box 356, Columbus, New Mexico 88029.
