## VISION OF MAN'S MIND Yogananda's Lesson No.1 for City of the Sun

We will now give you a glimpse into man's mind. Mind is correlated and co-ordinates with man's brain. The brain was designed by the Great Designer --- the Father -- as Mind's instrument.

### Vision (By Sari)

I am witness to some of the intricacies going on in man's mind, working perpetually through the brain. I see countless multi-colored filaments finer than spider webs that appear to stretch forth from a focal point of energy. This energy comprises man's etheric body as part of his higher body. These multifarious 'wires' act as electric and electronic energy charged in its travels by the great golden Central Sun. As the recipient awakens to his higher body (the higher mind constituent) and begins to see with his inner sight the purpose for expansion of divine consciousness, these filaments become stronger and the color energies change according to the degree of spiritual progress. It is this Vital Force that stimulates and activates what may be called the Mercury Arc Valve which serves as generator for your ductless glands which are indeed Space Stations. Filaments in your Mercury Arc Valve which you call the pituitary body are fed by this generator. Your pituitary gland turns on your space stations which earthman calls pineal and leyden glands. You have now been given a glimpse into the technical operation of your mind and how it works through your brain. Therefore, this lesson is scientifically oriented for the sake of science in this dispensation which you call the Aquarian Age.

The Vital Force (God) enters your seven bodies or your one body comprised of seven facets of varying degrees of energy according to your spiritual evolution. You yourself 'set' the dials which turn on your particular and individualized rate of frequency. This Vital Force enters the seven bodies through various avenues. 'IT' enters through the crown chakra to feed your spiritual or higher body and the whirling crown chakra disseminates this energy at the rate you have given it. You also attract cosmic energy with varying rates of frequency through your other chakras and up through the soles of your feet. Ground charges are also called voltage or varying rates of frequency.

Bare feet can take in more charges than when one wears foot coverings. However, since it is necessary in most cases to wear shoes, they should be perforated to enable the charges to seep in. These charges enter the pores in the soles of the feet, go up the back of the legs and then up the spine to the crown chakra. As 'IT' travels, the Vital Force feeds all seven bodies but only as much as the recipient can 'take'. As previously stated, the 'dosage' is relegated to the individual's degree of spiritual evolution. In other words, some of you can accept more highly charged rates of frequency into your being than can others. Therefore, you have evolved to withstand the velocity of these higher charges. You can only absorb that amount of cosmic energy for which you have prepared yourself, for eons, to receive. Too much of this potent energy could explode you. Nature, therefore, appoints guides to safeguard you.

We caution you who are channels and students, old and new, to carefully 'measure' the correct amount of energy you can handle at the present time. Do not ever try to take in too much of this Vital Force until you are positive that you are ready. If you insist, mental aberrations and physical illness can result as it has in the past for others. This occurs when one is trying to develop too fast in the spiritual body. Let Nature develop you according to the Will of the Father.

A great portion of earthmen have no conception of cosmic energy. Therefore, the Father-Mother Principle (which is scientifically known as positive and negative energy seeking 'ITS' polarity) appoints what you call a 'spiritual guide' on your ray.

Throughout the centuries, We have cautioned earthman to guard his thoughts but not until the present dispensation is man truly beginning to realize that thoughts are energized wave lengths in colors. These colors are analogous to the motive behind the thought. Think well on this, beloved. We repeat: The colors are analogous to the motive behind each and every thought which you alone disseminate from your brain as your mind has evaluated it. You are all capable of disseminating angelic thoughts (positive) or evil (satanic) thoughts. Just look what your evil thought-waves can do to you, your fellowman and even your planet. Say that a person has deeply hurt your feelings (human ego). You, in turn, send that person an evil thought (negative). You have instantly created a so-called evil thought-form, and it is this conglomerate mass of negative thought-waves which is creating such malefic or dark fields of force all through your planet, under your ground (seepage) and into your skies. It is this imbalance of light and dark force-fields that has, in every 'dark age' created combustion of earthlings and their planet.

The Universal Law requires balance of light and dark force-fields within every person and in every atom, molecule, etc., that lives and breathes. It is not God who causes the combustion. Instead, it is you with your loaded black atoms carrying evil thought-waves! This is why We have so often requested our earth channels to ask everyone within the 'sound of our voice' to project the Light of Christ which is love and peace. Love and peace create the necessary energized wave-lengths to balance your force-fields and amalgamate these force-fields beyond your atmosphere. It is indeed this negativity that holds you and your planet earthbound! We cannot get you out. All We are allowed to do is to explain how you can get yourselves out. Therefore, break the barrier that binds thee to the earth. Think only positive connotative thought-waves, for each thought is an energy wave unto itself. We speak truly!

Man is like a harp -- a golden harp. He plays the chords according to his karmic symphony, so the quicker you compose the happier song (positive energies disseminated) the sooner you nullify the 'storm clouds' in your being and in your entire planet. When your symphony is in tune, you are in tune with the Godhead! You write the lyrics and the lyrics are born from your life theme. What you think throughout your lifetime and in all of your life-cycles, that you become! Every thought forever is sent to your higher mind station for evaluation, then 'inked' and computed into your memory cells which is part of the akashic records.

When you make your transition, it may appear to be an automatic process because it happens to everyone, but it is a glorious divine experience accredited to God only, from the very beginning of time. At transition, your memory cells (which you alone have computed to a facet of your higher mind for evaluation, and mind in turn radios this evaluation to your memory cells which you call the subconscious), along with every other facet or part of your higher body, including your superconscious and ultra-conscious, go with you. In fact, this higher body has never been out of the higher state of consciousness. The real you simply has encased itself into a human shell while the soul learns its cyclic lessons. Then, upon transition, you simply 'shift gears' within. What you have computed in each and every life cycle (incarnation) dictates your next road (vibration change). So, at so-called death, the shell body, being part of the elements, is re-used. Nothing is ever wasted! However, you do not, at any future time, have anything to do with that body. You take your space stations, (minus the physical part) with you, and

this higher body simply carries on where IT left off. You alone have set Its pace by your past deeds, good and bad. Therefore, at transition, you simply carry on where your computed life-chart left off.

To make a fine point: Transition is 'expansion of consciousness'. Time is expansion of consciousness which has to do with Light. Think well on this, beloved. Each one of you have written your composite life stories in your Book of Life. All you have thus recorded is impressed into the askashic records which are coded. Do make your next sequel a good, clean book, chelas! We can only guide you in each life experience. If you choose to break away from Our guidance in any life cycle, we stand by waiting for your call. The whole purpose of life is to learn how to walk in the great path of Light. Light (love) is what Christ is all about. How to find this path of Light? Simply by loving yourself and every living soul. Then you all become linked with Christ Light in brotherly love. This is surely coming.

Oh, what do you really know of love, chelas? You are all capable of spiritual love which is untold bliss, unattainable until each of you earns 'IT'. Then Glory as We know 'IT' can be yours. When you finally break the shell that bindeth your soul, you free the Spirit and wing 'Home', which is, of course, the Godhead. You are then one with the highest state of consciousness. But one can then expand even from that state!

Pain is caused primarily by your need for a lesson. With each painful lesson learned, do you not always get a clearer 'view' of our blessed Father? And His purpose for your Birth? Oh, know the Father and His great works. You are seedlings coming into fruition at this time. Never before have you been so recognized because your spiritual progress pleaseth the Father's 'eye'. You alone either permit the Great One to express Himself (life) through you, or 'shut Him off' with your negative vibrations. Even so, you can never shut God out, for each of you is an integral part of the Father-Mother God.

While in this moment of time, we are giving you a glimpse into the mechanism of Mind. We will explain a little about what your scientists call synapses in the brain. We see synapses as that distance (so-called) between those 'space stations' operating in your mind through your brain. Let us make this clear: In your dictionary, synapse is defined as 'the point at which the nervous impulse passes from one neuron to another'. You will also see that neuron indicates 'a nerve cell with all of its processes'. Therefore, synapses is symbolically a spiritual road that serves as evolutionary paths (life-cycles) between 'space stations' that operate within correlation with 'space'. This highly evolved and spiritual operation works in the Mind through the instrument you call brain. The whole operation while in your earth body, is secondarily controlled by your ductless glands. Now you know more about the so-called intricate operation of your ductless glands (space stations within) comprised primarily of your pituitary, pineal and leyden.

Here is a brand new lesson: Your Mercury-Arc Valve which you call the pituitary body is the method by which your High Self contacts Us. There is also a lower level in your mind that has to do with the operation you call Extra Sensory Perception, but many of you have evolved beyond ESP and no longer need it. You have outgrown it. Many still need it however. Your doctors should study ductless glands (of which they know little) simultaneously with the study of chakras because it is your chakras that 'whirl' cosmic energy (life) to your seven bodies. The physical part of your ductless glands serve as conduits for cosmic fluids. This mercurial shimmering cosmic substance can sometimes be seen with your electronic (third) eye, travelling constantly up and down your spinal column. What is this? It is life-in-action or God in action. Science must soon learn that man has seven bodies and unless and until all seven bodies harmonize, you cannot possibly function harmoniously with Universal Law.

In closing this dissertation which you may call Lesson #1, we slant it to the CITY OF THE SUN under the competent direction of beloved Rev. Wayne H. Taylor of Columbus, New Mexico whose center has already begun. We should like to add this information: Life,

with its myriad vibrations (countless numbers) forever operates with the Electromagnetic Principle (God in Action)! This principle works with minute mathematical precision. The deeper meaning to mathematics is cosmic in nature, and effect. Your scientists will soon learn of this facet because men have already been placed upon your planet for this specific reason. Books already published will not attract your scientists until they are evolved enough to comprehend the 'new math'. It is glorious! Every facet of your spins in the Oneness of a whirling universe. As you spin, you all gather and disseminate energy for your spiritual progress. Could you receive this energy standing still? Think on this, beloved. The one purpose for birth is to progress your spirit until you recognize your true parent (God) and learn to live in the Father's abode which is the highest state for which you can reach.

I now place My benediction upon you who are in the radius of My vibration. I am Master Yogananda once more coming into the influence of my channel's auric emanations. Her present degree of evolvment has once again attracted me into her new vibration. I now shower you with a golden Radiance that is from Mine own heart center. I come and I go. I visit many new cities of Light. We hear the call. Indeed, We are happy to help you all get started with your cities of Light, for they too are paths where Christs are fashioned. I bid thee well. Amen. A glorious Amen to all. I AM Yogananda.

#### OLD ECONOMICS AND A NEW AGE CITY

By Rev. Wayne H. Taylor

Today we are living in the 'end times' of a period of critical world events, a 2,000 year cycle, we speak of as the Piscean Age, and we are rapidly entering into another historical cycle known as the Aquarian Age, but often referred to as the New Age or Golden Age. The emergence of a new dispensation out of the previous one is always accompanied by dramatic events, such as cataclysms and catastrophes of one kind or another. These events seem to be necessary to break down the old unsatisfactory conditions and ways of life and to make way for the new.

Most of us students of the Light are aware of this but we find it difficult to face the realities of these changes. It disturbs us greatly to realize that there must be a breakdown of that economic and monetary system which seemingly has brought us a high degree of prosperity and freedom from want, and which demands from us a minimum of daily toil. However, millions in our own country and the majority of the people in the rest of the world are not emancipated from poverty, hunger and hard labor.

Oh, if only we could just keep our money system going, hold on to our stocks and bonds, not to mention our jobs (our claims on future earnings of our industrial system) and bring them into the New Age with us, what a comfort and how secure we would feel during this transition period. Of course we who own government bonds would expect the interest on this colossal debt of over \$300,000,000,000.00 to be paid right along, and the principal paid back to us. Oh! Oh! Can you imagine the Millenium being saddled with such a bonded debt, the interest on which should keep our present government going? Sad to say, such a debt will never be paid, nor will the interest on it be paid much longer. Like the egg-shaped creature we learned about as children, Humpty Dumpty who sat on a wall, and had a great fall (broke and fell apart). 'And all the king's horses and all the king's men, couldn't put Humpty Dumpty back together again.' This is what is happening, and fast, to our whole money system. We have been trying in our own country for many years to keep our own Humpty Dumpty from falling off the wall. We manipulate our tariffs to benefit our international trade. We try to prop up our economy by favoring certain segments of it by special tax advantages, or by not raising cotton or other products, or by giving financial support to some industries or farmers to guarantee them profits. The wall is shaking badly and the props are giving way, and soon our Humpty Dumpty will topple off the wall and completely fall apart, never to be put back together

again. We have reached the 'point of no return', not only in our monetary and economic processes but in our present social, political and 'religious' institutions and ways of life.

Sananda's prophecy concerning the three days of darkness and the devastation, loss of life and breakdown of our economy and money system, is being confirmed by other Masters of the Hierarchy. He makes it plain to all whom this message reaches, that we are to prepare in any way possible to meet the difficult conditions that will prevail. He tells us or implies, that without money to buy our necessities from farms and factories, without even electricity to operate our factories and food-processing plants, and without oil refineries to produce gasoline, our great cities and areas of population all over the country will thus be paralyzed and life may soon cease to exist in those places. To repeat some of the words of Sananda, "There will be desolation; there will be many who will be destroyed, and man will have to start in many ways from the beginning. Industry will receive a great blow. The money system will be 'out'. Man need not think about money now.' So those people who do not take these warnings seriously, who do not act on them at the right time, may find that their savings accounts, their stock, their second cars, their homes and other assets that are supposed to indicate prosperity and security, may all too soon become quite worthless, or almost so.

This complete breakdown will not happen overnight, by any means. It will be preceded by ever-increasing unemployment, a stock-market crash and the worst depression in the history of the world. As these conditions become progressively worse, people will start scrambling into the hills where they hope to find a place to grow their own food, find spring water, and move into any kind of a house where they can find shelter. Soon, all such suitable places will be occupied by those who come first. It won't be long until those who survive will be reduced to the most primitive living conditions and 'man will have to start in many ways from the beginning' as Sananda recently told us. Those who are wise will, somehow, migrate to high areas of around 4,000 feet altitude or above, especially away from the cities, etc. Many people will move to the high areas of Arizona, Colorado, Utah and New Mexico, and parts of Nevada. They will gather together in compatible groups of those who agree, either upon certain values, such as religious or political beliefs, or upon a certain life style.

It is in the high altitude of New Mexico (4,010 feet) that the City of the Sun is being established. It was known many thousands of years ago that the world would go through these crises at this time. And by seeming 'divine co-incidence' plans were made to establish this city at this time and place, for indeed it has been divinely ordained to be a gathering place of those who are in the Light, who have learned to follow their inner guidance as well as the admonitions of Jesus-Sananda and the other Masters of the Hierarchy whose responsibility it is to usher in the New Age, -- the thousand years of peace. This City of the Sun, many of us will feel, is the prototype of many New Age cities to come, and will serve as the nucleus and source of much information and guidance that will be given to the people who will comprise the age of Aquarius.

In making our blueprints and plans for building the City of the Sun, we have not made the mistake of depending on privately-owned companies that supply electric power, and gas, nor on the money markets to float bond issues to finance our water system, sewage system, etc. It is important that we own and operate our own utilities and not be dependent on outside money or corporations so that when our national economy breaks down, we will be able to carry on with our own utility systems. Remember, that our entire project is under the direction of the Masters of Wisdom. In a message recently received from the Master Kuthumi, (which will be published in a later issue of this news letter) He said, "There is no need to wonder about anything. It's all there and it is coming. It is not for you to know how it is to come. My brother Wayne, but at the right time, everything you need, whether it's in the construction, whether it's food, supplies, clothing, shelter, wisdom, knowledge, it's all there in the etheric. It is all coming."

(This is personal information given to me for my own guidance, but knowing how anxious our readers are to learn just how real this City of the Sun will be, and how this great dream can possibly come into manifestation, I am impressed to share this with you. I, myself, have learned to live by faith, and to follow the directions of the Masters. I liquidated my property holdings, my sources of income in Florida at sacrifice-prices in order to carry out the mission assigned to me. I will continue on in faith.)

In a month or two I hope to share with you information on how some of our plans are being worked out in a concrete sort of way. I must say this, however, that it costs a considerable sum of money to finance the construction of our own utility systems -- not millions of dollars for the initial investments, however, that will be needed for the small area we are preparing to develop at present. Fifty thousand dollars will pretty well prepare this area for a number of people to live on. This will accommodate some mobile homes, some private houses, and a number of apartments. Our resident-members will, of course, finance the construction of their own homes, or bring in their own mobile homes. Different sizes and types of apartments will be constructed in accordance with the financial means of the members. (More information will be given about these later). In any case, Some will be real economy or 'survival' units.

The land has been provided, free of charge, for the use of our members on which will be constructed our homes and apartments, and on which will be located our mobile homes (properly zoned). Those who finance the construction of their own homes and apartments must also expect to contribute towards the cost of the construction of our own utility systems. This is their investment in the community itself. We trust we will not need to specify a certain assessment for each person or family's share in the cost of the community development, including buildings, machinery, trucks, equipment of all kinds, etc. We who are in the 'Light' have learned that as we leave our competitive society, we must, more and more learn to 'be our brother's keeper', to share with others who are less fortunate than ourselves, and to serve others in any manner possible. We are entering into a situation and way of life where our own physical survival and that of our neighbor will be a paramount concern. Money will soon have no purchasing power, and those who are blest with more financial means than others, will surely want their money to accomplish something worthwhile for the common good rather than to allow it to become worthless while laying idle in their own pockets.

It will be a happy day when we, who are in the Light, will be living, loving, co-operating and sharing together as one joyous family in a brotherhood of man, under the Fatherhood of God. We are now taking certain measures in preparation for the transition from the Piscean Age into the Golden Age of Aquarius.

DISCOURSES BY ELIHU AND HILARION ON WORLD CONDITIONS AS RELATED  
TO THE THREE-DARK-DAYS PROPHECY

Beloved friends of the City of the Sun: You do well to be disturbed as to what shall come to pass. I am speaking to you as Elihu, Elihu who, in the land of Egypt, welcomed the strangers, the fleeing father, the beautiful young mother and the tender babe, into my home, and there they abode.

Now, working with those upon the earth plane, I am a teacher, one of those of the multitude of travelers and teachers throughout the universe. This, my channel, has earnestly desired that I bring unto you some enlightenment. As we on our plane know, of what shall happen on this earth planet in the latter days or the end times -- not the end of the world, per se, but the end times as spoken of by Sananda, the beloved Masters, when he taught in Galilee. Many of the disciples who thronged about him, asking, 'Master, when shall these things be?' And he said, 'Not until the end times.'

Know ye now that at this particular point in time and space, your earth planet hangs in the balance. Having reached a cycle-ending, an ending of time known as a planetary

cycle. Also, having traveled through an arc of time, known as the Piscean Age in which the people of the fish have grown to great numbers, having started out with persecution, with fear, with trembling, having carried the torch of progress, of knowledge, of wisdom, and upliftment of consciousness, across the miles and miles of the ancient world, until at last it found a resting place from which the Light was spread in many directions. So now, looking down the corridor of time, 2000 years or more, since I welcomed the babe of Bethlehem into my humble home in Egypt, we see there has been much progress in the upliftment of the consciousness of mankind. It is not a complete upliftment as yet. We see it in every age, mankind's problems have been uppermost; and in this realm of density and darkness, it has been difficult that each should open his consciousness and lift himself up to meet higher vibrations of knowledge and wisdom. It has been easier for mankind to live out his life upon the material plane, scrambling around in the darkness and in the densities, and the problems, and the multitudes and the vicissitudes of experiences from time to time, from lifetime to lifetime, going forth rather into the worlds of Spirit, with his little handful of knowledge, even as a child comes home from school with his report card.

Now we are face to face with problems that have accumulated upon the earth plane, mostly through the thoughtlessness, the carelessness, the un-caring attitudes of many of those who cannot, or will not, lift their consciousness above the material plane. This, my friends, is the time of the 'waters made bitter'. You see it in your newspapers. You read it in articles entitled, 'Polution in the waters of the planet'. Ecology is what they call it, but we called it in those days, through our channels, 'waters made bitter'.

Now, beloved friends, we must come to the realization and we so have said through many channels, all over the world, now is the day of judgment approaching, now is the time that mankind either will be lifted up in consciousness, (and there must be a stop to these things of contamination, of over-balancing of the properties of the planet), or, alas, for planet earth and its people, there will be a stop made by those to whom the planet is entrusted, and mankind will have nothing to say about it.

I would not be a prophet of doom. Never have I been a prophet of doom, but I must call your attention to the fact that for quite some time now, many channels across this great land, and in other parts of the world, have been receiving from those on high, warnings of the disasters impending. Make no mistake about it, my friends, the handwriting on the wall is bright and un-mistakable.

I bring you now, the Master, that great soul, the Master Hilarion who will explain to you why the City of the Sun was set up, and what must be done by the servants of the Most High God who work with this project. This project which was set up in the ethers, projected into the minds of the servants of the Most High upon the earth-plane, who now are asking for guidance, and for wisdom and for knowledge as to how they should proceed. The time grows short, very, very short, and the handwriting gleams with ominous tidings.

HILARION: Though I speak with the tongue of men and of angels, and have not love, so have I, in the many, many years, gone by upon the earth planet. All that we do in guidance, in asking, in seeking to alleviate the disasters of the end-time, is done in love, and the words we speak are in love. I am Hilarion. (The Apostle Paul)

One step we gave you, beloved Wayne, with your helpmate. You obeyed, seeking nothing for yourself, but rather that the will of the Most High God of all things, and the Master Sananda, should be done. We brought to you the tidings; we gave to you the directions and you have obeyed. Beloved, it is not that you should worry, not that you should fret about those who do not heed, for no pressure is put upon any individual soul by those on High, by those who earnestly seek to alleviate the disasters foretold for the end times. Each individual must choose for Himself. But now let me interpret to you a step further. Many times in the ancient world were they given prophecies that stretched beyond thousands of years, that the times might be made plain in the early days for those who should

come after, for it is true that there is nothing new under the Sun. There was at the end of one great age a tremendous overflow in many ways, in many places. Tremendous disasters coordinated with the end times in those days. Now this world trembles on the brink of many disasters. One channel who now walks among us in the spiritual realms gave out at the beginning of the Piscean Age, a remarkable book of prophecies and symbologies and messages of comfort and tidings designed to be interpreted in the days in which you now walk, the end times. This book called ye, The Book of Revelations.

There was upon the earth plane 4000 years ago several prophets who existed as contemporaries. They saw these times. Even that great one called Moses, looking ahead down the corridors of time foresaw these events. Let us be a little more explicit. What is the handwriting on the wall? Beloved, mind ye that your skies are lit up at night with lights which do not originate on the planet earth. He, the Master Sananda, said many years before, 'Look for the signs in the skies'. Many signs there are which you do not see. That greatspace ship, tremendous, large, big as an ordinary city, cruising high above the earth planet, is there as provision for those who otherwise could not otherwise escape, those of higher consciousness who will need transportation in the end-times. There are many others which will be of use to His people in the end times.

Beloved, count not any effort that you have made as wasted. See now the signs in your own newspapers, in your own books and in all the teachings, the lectures across the country. The wicked and fair generation, the parent-haters, the irreverent, the dope-addicts, those who seek escape in alcoholism, and those who just plainly do not care, those whose senses are so beguiled by the things of the material world that they have no time to seek upliftment, that those who do not understand that the Light of the Master, the white Christ Light may come into their own hearts and live there and lift them up in consciousness that we may reach down and have a common meeting place with them.

The planet hangs trembling, over-balanced by the contaminations of the objects made by the hands of man, the contaminations in the food, the water made bitter by the contaminations, and the pollution. See now, Oh beloved, that you are living in the end-times, the time of the opening of the sixth seal (Book of Revelations). We do not say that this whole country shall sink beneath the sea, though the prophets have given it many times. You know, and we have taught many across this country and in other countries, that conditions may be changed by prayer; and much prayer-power has been sent to us, amplified and re-directed to the fault lines of the earth, to the stratifications of the various formations off the coast of Oregon, off the coast of California, off the coast of New York City, and around the island homes of the Japanese people. We see this as a work that could be done much better had we more of these Light broadcasts, more of this tremendous prayer-power that can be generated by each broadcasting station or Light Group across the country, comprised of many who are unknown but knowledgeable and wise and who send this prayer power. Much more is needed, much more is needed, but I will say that the physical seal, the Sixth Seal, is not all that has been opened. The Master spoke of men's minds failing them for fear, and this is the sign of the times. Look now across the country and see how many of the institutions are filled with those who have had nervous break-downs, who cannot face the responsibilities of modern life, who are afraid. Fear rules their very beings and has wrecked their lives and ruined their chances for experiences that would contribute to the upliftment of consciousness in this age.

See now these great hordes of restless, roving young people in this so-called age of efficiency who have turned their backs upon the efficiencies of the machine age, and tried to revert to former times. Believe me, beloved, there is no reversion, there cannot be, for progress must always go forward. There is fear in the hearts of these young ones who have turned their backs on life, who have turned their backs on the progress in which the world must proceed, and have tried to re-capture the simplicity of olden days. This is not a thing of progress. This is a manifestation of fear in the hearts of the young people for they know not on what to build.

In going a little further, we see another sign of the times in that the money of this country is not stable any longer. We see that there is upheaval in the money markets of the world. There is upheaval in the ranks of labor across the world. There is fear of old age, fear of poverty, fear of contamination, fear of pollution -- all loosed across the land. These are the horses of disaster. These are the spirits that go forth to try the souls of mankind. We see now, beloved friends, that in these latter days, men's hearts shall indeed fail them for fear, for cometh upon the world the white horse of starvation. Yea, I say unto you, even in America the money shall become less and less stable. There shall be less and less employment, there shall be that is popularly known as a depression which will be a financial depression to end all financial depressions, for across this great land, yea, I say unto you verily that thousands shall be starving.

See now the planet, trembling in the balance, for the pollution, the lord of smoke, and exhalation of vapors of various chemicals, has polluted the atmosphere far and wide. The Lord has been sent to the Light groups so that something might be done to stop these things because the more that occurs, the more the planet hangs in the balance, and the imbalances are becoming too great to escape the finality of the actions that will occur if this is not taken care of.

Men's hearts shall truly fail for fear, and when changes occur, as they most surely will in the material and financial environment, then will those who are spiritually destitute, find in the City of the Sun a place of knowledge, a place of rest, a place of work. And this is no paradox, beloved, for when the Spirit is resting from worries, from troubles, from fretfulness, and there is love and a helping hand extended, then may the Spirit find true work, true rest, true peace, and there will be knowledge given, and thus we have said unto you that there should be a school and a church.

Beloved friends, you have asked for this wisdom. We cannot, I cannot, the Masters with whom we work, cannot pinpoint the day nor the hour, but much has been given. We are continually broadcasting unto the planet Earth so that the channels may pick up these messages. We are continually broadcasting, times and times and times. So many times and half times, we are continually broadcasting in order that this day might not come as a thief in the night. The Master Sananda told His disciples many, many, many years before, that no one knows the day nor the hour save the Father Himself, but we can say to you that you truly are living in the end times, and the time goes shorter, and shorter. I wish I could tell you the URGENCY that I feel, that I wish to extend and broadcast so that these who are channels may pick it up and impress it upon the people. There is no time to sit idly by. The times must be ready. There will be many who will be stumbling along in the blackness of despair who will eventually come down the road into the City of the Sun.

No past era of need and deprivation was nearly as grave as the manifestations of disaster which are to come, amongst which are lack of money and work. Many will lose when the stock market finally takes its plunge which is forthcoming. Others will finally lose their homes. They will not be able to pay for the two cars. They will not be able to continue working at the jobs that they have. And if you add to that the fact that never in the history of this world has the atmosphere been so polluted, never in the history of this world have the waters been made so bitter with contamination, with the dying fish, with the multiplication of bacteria and germs, and with the minerals and the pollutants poured into the waters of this planet. These factors all contribute to the end times. Read ye, read ye the prophecies of Revelations and see if ye cannot interpret them, asking earnestly for the word of wisdom and the word of knowledge to be given unto you.

I, Hilarion, weep that the time has come so near. So many, so many are there who are un-knowing, so many there are who will not hear, so many there are who have never heeded the admonition to seek, and to knock and to ask so that they may know what will be coming to them in the end times. Beloved, I trust that there has been enough said for you to understand the seriousness of the situation. Confusion shall reign in the minds of mankind during the impending trials that will take place on this planet.

Truly we are come now that you may have a glimpse of what lies ahead. The next step we will leave for your own revelation through your own communication with the everlasting source of wisdom and knowledge. We leave it to your powers of organization, to your gift of administration, to your gift of helps and to your guidance by that great Holy Breath of God. Beloved, we rest in your knowledge; we rest in your faith, in your beautiful acceptance of the problems that have been given to you, **And that you may know that you are a part and parcel of the divine plan for the guidance and upliftment of mankind upon the planet earth, is our prayer, and that you may be uplifted in love and Light, and in the knowledge of the necessity of your work.** Believe me, the work shall be done, and we bless you in love, and ask you to rest in faith, and to go forward with the knowledge that ye walk the pathway assigned to you as a servant of the most High God. Until such time that we may reveal further, rest ye therefore in the prophecy of the Master Sananda for in Him have spoken all the Hierarchy. I am Hilarion.

Scriptural References and Comments by Sara Gran Concerning the  
Blackout of the Sun, also Other Prophecies in the Latter days

Sara Gran: After hearing these messages by my friend and guide, Elihu, and by Hilarion, and also the message by Jesus-Sananda on three three days of darkness, I feel there is very, very much to be considered. It seems to me that the prophecies are dire but when I check with the Scriptures, it appears to me also that things are going along as they were prophesied.

In the 5th chapter of I Thessalonians, 3rd verse, this applies:

"For when they shall say peace and safety, then sudden destruction cometh upon them as travail upon woman with child; and they shall not escape. But ye, brethren are not in darkness that the day should overtake you as a thief. You are the children of Light and children of the day. We are not of the night nor of darkness. Therefore, let us not sleep as do others; but let us watch and be sober for they that sleep, sleep in the night, and that they that be drunken, be drunken in the night. But let us who are of the day be sober, putting on the breastplate of faith and love and for a helmet, the hope of salvation."

We see here what we hear and what we read in the newspapers: "For when they shall say peace and safety, then sudden destruction cometh upon them" In my opinion, this is also the sign of the times, and these are the words of Hilarion to which he has guided me.

In Luke, the 21st Chapter we see another sign of these times, and I believe it is the sign of the world-wide blackout that is coming. I really believe that it will happen.

Luke 21: 25. "And there shall be signs in the sun, and in the moon and in the stars, and as upon the earth, the stress of nations with perplexity; the sea and the waves roaring; men's hearts failing them for fear, and for looking after those things which are coming on the earth; for the powers of heaven shall be shaken."

This sounds rather drastic. He also says in the 33rd verse: "Heaven and earth shall pass away, but my words shall not pass away."

Then going on over into Mark in the 13th chapter and the 24th verse, we read: "But in those days, after that tribulation, the sun shall be darkened and the moon shall not give her light, and the stars of heaven shall fall, and the powers that are in heaven shall be shaken. And then shall they see the Son of man coming in the clouds with great power and glory."

And in the 24th chapter of Mathew, Vs. 27, we read: "For as the lightning cometh out of the East and shineth even unto the West, so shall also the coming of the Son of man be." And in the 29th verse, "Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven and the powers of the heavens shall be shaken: then shall appear the sign of the Son of man in heaven; and then shall all the tribes of earth mourn, and they shall see the Son of man coming in the clouds of heaven with power and great glory."

Going on over into Amos, Chapter 8, 9th verse: "And it shall come to pass on that day, saith the Lord God, that I shall cause the sun to go down at noon, and I will darken the earth in the clear day: and I will turn your feasts into mourning and your songs into lamentations; and I will bring up sackcloth upon all loins and baldness upon every head; and I will make it as the mourning of an only son, and the end thereof of as a bitter day. The days come, saith the Lord God that I will send a famine in the land, not a famine of bread nor a thirst for water -- not for water, but for hearing the words of the Lord: and they shall wander from sea to sea and from the North even to the East, they shall run to and fro to seek the word of the Lord, and shall not find it.

And Joel, the 2nd Chapter, the 2nd verse: "The day of darkness and of gloominess, they of clouds and of thick darkness, as the morning spread upon the mountains: a great people and a strong; there have not been ever the like, neither shall there be any more after it, even to the years of many generations."

And in the 10th verse, "The earth shall quake before them; the heaven shall tremble: the sun and the moon shall be dark, and the stars shall withdraw their shining: and the Lord shall utter His voice before His army: for his camp is very great for he is strong that executeth his word for the day of the Lord is great and very terrible; and who can abide it?"

And then in the 3rd chapter, we have quite a description here. Apparently this is one of the descriptions of the last days that he is talking about. He said he will gather all nations and bring them down into the Valley of Jehoshaphat. So, before this happens, before this happens, this is the time, in the 15th verse, he says, "The sun and moon shall be darkened and the stars shall withdraw their shining. The Lord shall also roar out of Zion, and utter his voice from Jerusalem; and the heavens and the earth shall shake: but the Lord will be the hope of His people, and the strength of the children of Israel."

We have seen the children of Israel restored to their land in 1917 as Isaiah prophesied, "as of birds flying". General Allenby conquered Jerusalem with airplanes. And in 1948, according to prophecy, the land of Israel was established and the people of Israel were gathered out from many nations and put back into the land of Palestine. This also is one of the signs of the last days, and I notice here that it says, "The Lord shall utter His voice from Jerusalem", and we know that in 1967, the battle of Jerusalem started and is still going on between Israel and Egypt, although, right now, it has quieted down. They are just shaking their fists at each other and are probably invading each other's territory with airplanes in small operations, yet it has not been so long since the Jews re-captured Jerusalem. The old part of the city, where the wailing wall is, was the only part that was left of the Temple, and we know that the Holy City is in the hands of its own people for one more time, and this is also a prophesied sign of the latter days.

We read also in the 13th chapter of Isaiah, the 9th and 10th verses: "Behold, the day of the Lord cometh, cruel both with wrath and fierce anger, to lay the land desolate: and he shall destroy the sinners thereof out of it. For the stars of heaven and the constellations thereof shall not give their light: The sun shall be darkened in his going forth, and the moon shall not cause her light to shine.

And in the 13th verse: "And therefore, I will shake the heavens, and the earth shall remove out of her place, in the wrath of the Lord of hosts, in the day of His fierce anger."

Also Revelations, Chapter 6; Verses 12-14. "And I beheld when he had opened the sixth seal, and lo, there was a great earthquake; and the sun became black as sackcloth of hair, and the moon became as blood; And the stars of heaven fell unto the earth, even as a fig tree casteth her untimely figs when she is shaken of a mighty wind. And the heavens departed as a scroll when it is rolled together; and every mountain and island were moved out of their places."

My friends, we have been told many times not to forsake the ancient wisdom, that that which was truth in ages past is still truth, though the truth today may be upgraded and may be of a fuller revelation in order that those of higher consciousness may learn and may discern more. Yet, ancient truth is still truth and so I am inclined to accept these words for much of the prophecy given in the books of Isaiah and Ezekiel as to the kings of the North and as to the happenings of tide and times according to prophecy for the

Israelites, has already been fulfilled. There, many, many changes we see from ancient times. Of course, we know, beyond a shadow of a doubt, that we are well into the 'time of the end' as the Lord told about it. We are inclined to accept the Master Sananda's word.

We do not understand it all. All we can do is ask and seek and knock and bang on the gates of heaven, with both hands if necessary, that those holy ones on High who know the knowledge and wisdom that we seek. I am assured by Hilarion, also by Elihu, that there will be more information forthcoming.
