

# THE GOLDEN DAWN

CITY-OF-THE-SUN FOUNDATION

Number 4.

THOU HATH THE WILL TO ACCOMPLISH GREAT GOOD IN THESE DAYS

By Jesus-Sananda

"Beloved, in furtherance of that which thou hast received (the prophecy on the three days of darkness) thus saith I, thy Elder Brother of those upon this planet. Thou shalt remember that in thy holy writings which earth man calleth 'The Bible' it is stated that "He who liveth by the sword shalt die by the sword". Thus shouldst men interpret this statement.

"He who thinketh only of violence, carnal death and destruction shalt pass from this planet by this means, and especially doth this apply unto all who shalt have power over the minds of his fellow beings, whether by the law, by these so-called churches, by writings, or by personal-contact teachings.

He who shalt induce fear into the minds of his brothers and sisters as a means of obtaining their attention to that which he teacheth, that which he desireth to accomplish, or for gold or goods, condemmeth himself thereby, and violence shalt follow him unto the end of his earth physical life in this cycle. I say this not to incite fear in these brethren, but to show them that that which they wouldst do is abortive and leadeth those whom he contacteth, if they accept of his words, upon the downward path, and maketh but that much harder their return toward Divine Perfection when they discover their error.

Thou asketh how then shalt we do? Fear is of evil and always leadeth to destruction, and if continued, always to destruction of thy physical beings on this planet in this cycle as well as to retrogression.

Thou, beloved, who hath the will to do destructive things, either physical, through writings, or vocally, hath the will to accomplish great good in these days when evil wouldst control thy Earth.

How thou asketh? By thoughts only of love, peace, cooperation between all men, all races, all countries, and colors. All so-called human beings art thy brothers and sisters, and thou who hath all of the wisdom shouldst make every effort to use all thy powers both of mind concentration, and through thy words, to overcome these acts of violence and destruction which these evil ones wouldst induce them to do. By this method and this method only shalt thou succeed in they intents and plans and draw those to you which thou wouldst have in thy household and family so-to-speak. By this method only shalt thou destroy, or more properly, shalt thou causeth evil to destroy itself, and thus bring an end unto both mental and physical violence, and shalt gain that end for which thou striveth.

REMOVE ANGER, DISTRUST, AND DOUBT FROM THY MINDS. REPLACE THEM WITH LOVE FOR ALL MEN, PEACE THROUGHOUT THE PLANET, BROTHERHOOD OF ALL MEN AND BEINGS; AND IN THE SPIRIT OF COOPERATION WITHOUT THOUGHT OF SELF, IN ALL THINGS GOOD, TRULY SHALT THOU ENTER UNTO DIVINE PERFECTION.

Thus saith I, Jesus-Sananda, The Christ of the Piscean Age, thy Lord, Master and Elder Brother to all beings of Earth.

THE FATHER'S VINEYARD  
Yogananda's Lesson No.2.

Chelas in the higher vibration that is your Christ center, you are now gathered in your rightful vibrational level. We mean by this that you are now in your rightful place during this extremely important transition. I say unto you through the Lord Jesus Christ, in the oneness of the Christ, or the overall Christ Consciousness, have no concern for your future sustenance. In this instance I mean food for the human self because during the end of this era, or this cyclic vibrational wheel, that has churned its particular evolutionary cycle, we see that when the mass earth consciousness has begun to merge with the All-Consciousness, (your human component, meaning your human vehicle) will have met the higher body or be on the cosmic-consciousness level of awareness. This the great Father of supply will feed, being the seven so-called divisional Great Body that we see as the one divine body.

Now, when that time comes, which is almost now, you will become what you might say, the real you. When the human facet or component of man has completed his evolutionary cycle in the lower consciousness body, it will no longer require the food that was formerly required for the human part. Now, it has grown and will in the very near future be done with, or shall we say will have graduated to the next body, or what we may call the higher level of cyclic rhythm, which is cosmic, in effect, and an integral part of the Father's great plan, long ago set in cosmic consciousness by the divine finger which guides you in your cyclic consciousness rhythm you see as steps along this wondrous, glorious and spiritual path.

So, dear ones, until that merging, plant your food where you have been directed to come. Then when the physical body no longer needs its earthly food supply, forget this little earth garden and breathe deeply of the cosmic breath, and take into your higher body the element which is nectar of divine supply. When that time comes, an earth garden will no longer be needed, for the elements tempered by the Father and carefully measured for each entity will be all the food you will ever need. And during this great time your work load will be relegated solely to the Father's plan. You will become directives in the Father's cosmic office, sending messages which are lessons for the awakened chelas of Light, those who are half awakened, and for those who are about to awaken. So when you are elevated in consciousness, you will no longer give thought to food for the human vehicle because the human vehicle will be no more.

Now, we say this when the time is right. All very soon, my chelas. The human vibration merges into the higher level of consciousness. It cannot die, so it has to merge because it, too, is a living thing. It merges into the higher level of consciousness where earth food is no longer necessary. Why is this, beloved? Because your higher body has always been fed by cosmic elements. Were you not all cosmic or spirit in the beginning? And since literally there was never a beginning and never an ending, you are and always have been Spirit. But now, beloved souls, you are awakened to the awareness of this, and many of you know this now as factual. God does not need food. He is a supply in every sense of the word. And so, of course, your God of High Self also is part of that supply. How great and wondrous is your future, which is the now, for when you live in the spiritual plane, which means living in your higher body, or in the great, higher Christ consciousness, the only food you will ever need is to breathe in deeply of the cosmic elements, for the cosmic elements are and always have been all the food you will ever need.

Now, when you merge more deeply into your higher consciousness, you do not wish to desert your little garden that you so graciously fed your human component, do you? Well then, why not plant flowers in an array of cosmic colors and aroma to grace the Father, because you will no longer need food. Why flowers? Because they are not only a thing of beauty, but you will also breathe cosmic food held in the bud of each flower. Therefore, because they will be planted then in richer soil, which makes it spiritual, flowers are now and will be in the very near future, part of the cosmic food which you will all inbreathe, just as chlorophyll gives off cosmic oxygen.

KUTHUMI: YOU NEED NOT WONDER ABOUT ANYTHING.

I, Kuthumi, give you my blessings of love and peace. You must remember that each person is different because each is an individuality. Each is a different being. Each is a child of God, with the imprint of the Father upon it. All frustrations and anxieties should be put in the hands of your Christ. The I AM is so neglected, as is the God within you, the Father.

Use the I AM Presence when you do your work, and you will find the load not even on your shoulders. Those days of darkness that are prophesied by Mary, the mother of Jesus (as the Lady of Fatima) will come forth in 1972. It is written in the heavens. You are not to worry about the date; even We do not know. You are just given the year. And remember, that those who are following God to the letter, who are letting the Masters, the Angelic Host, and all those who have been appointed, guide them, will follow them and let themselves be led by them. You need not fear these days, because you will be protected. If it should be so drastic that you will be in danger, the space ships will be hovering above to take you to safety.

There are ten space brothers in this room tonight. Where we Masters are, and where the space brothers are accepted, know that they are always there. How you love them; how this channel loves them. I am speaking to you, My child, and to the other four; and when this is played back, I want you to ponder on these My words, spoken in wisdom and love. Today, everything is cemented in the Father, in His will, in His plan. The same with the City of the Sun. The City of the Sun is to be built and no one will deter it or its construction.

There is no need to wonder about anything. It's all there and it is coming. It is not for you to know exactly how it is to come, My brother Wayne, but at the right time, everything you need, whether it's in the construction, whether it's food, supplies, clothing, shelter, wisdom, knowledge...it's all there in the etheric. It is all coming.

You are born and created in His image and after His likeness. Is anything greater than this? You are not just children, you are children of God, the Creator. Sananda is with you, as We love Him. And pray each day that those who will not accept Jesus as Sananda, that will not accept the Masters, the brothers on the planets, who do not believe that the angels and the Archangels can come and mingle with them, pray that their eyes and their minds are opened. Oh, how our hearts are heavy with those who will not accept us. All we ask is to be accepted, to be loved. We don't ask for honor or praise; that must go to the Father, the Christ within you, the Spirit. Each of you who have the gift of tongues, speak in tongues, sing in tongues, even whistle in tongues if you can. Oh, the Spirit is so neglected.

We weep at times when we see the glorious gifts that are shoved aside for the demonical things which man is accepting. You were created for heaven, for goodness, for plenty, abundance and happiness, and you are accepting the shucks, the husks when all the jewels of heaven are within your grasp. When will you awaken to the gifts that your Father is pouring out? The heart of your Father is heavy. His children will not accept Him, but you do. Your load is twice as heavy, for you are doing the work of many who are lying idle. Many are taking aid from the country instead of using their talents and their energy to do the work that God has given them to do. One of these days, the entire veil will be rent from your eyes as it has never been in your entire life in this earth. Yes, My children, you are now coming into a new life. It will be a new living for you. Each one in this room is going to receive a new life, and life of closeness to those in the heavenly realms, of the space brothers.

My children, what do I have to do to tell you, to open your minds and your hearts and your soul? Every waking minute.....when you wake up in the morning, give your soul, your mind, your heart to God. Call on the Mentors, on Jesus-Sananda, your Masters, your guides, the Spirit within. Why do you think the Spirit is here, just to make a hay-day of it, as it were? You know, the Spirit has work to do too. We have work up here to do, for we certainly can't be bothered with foolishness. Our time is precious -- precious beyond words. You cannot bring back one lost minute, one lost hour. What are the people on the earth doing today? Oh, yes, they are revelling in gaiety, in money-spending, in loose living, and where will it get them? Do your loose living in God, do your gaiety in God

and in the spirit of the Christ within, the I AM. It doesn't matter what people think of you or what they say. Don't let it disturb you. Just be the children that your Father created you to be in the beginning. It isn't so difficult. When you give everything to your Father, you won't need to worry, you won't lose anything. You will get more back than you will ever know.

The riches of heaven, men will never comprehend. I shall leave you with this thought: You are one in the Father, and you are one with Me, Kuthumi, with Jesus-Sananda, with all in the heavenly realm, for we are all one in the Spirit. Heaven will bless you this night. I bless you.

KUTHUMI

Oct. 27, 1971

Question: I would like to ask a question concerning the discourse you just gave us. This is to the effect that the students in the Light would be taken care of and should not be concerned, the implication being that wherever they are, they can carry on as they are in safety. Yet we have been led to believe that we should encourage people to become interested in the City of the Sun or to come to other isolated high places to work together, to study together and for mutual protection and security, etc. I am inclined to think that many students will follow the line of least resistance and stay put, where they now are. If this is what they are supposed to do, I want to know that. If we are to encourage them to come here for mutual security and to help each other, should we encourage them to do that?

K. H. Remember, My son, this place is a place of refuge, and all who will come here will be protected. But if things become so difficult that your lives will be insecure and in jeopardy, all those who are here and in the refuge places, will be taken to safety. Not one will be left.

Wayne: I am assuming that we will be protected here. I am concerned about the people who do not come here that feel they don't want to be bothered to move away because they will be protected or looked after wherever they are.

K. H. If someone is divinely led to go to some place where they serve the Light, they will be protected there. Then, if they are with the forces of Light they will be transported to safety, because you see, My son, whole areas will be devastated, so all those who are with the Light, be they one here, two or three there, they will be transported; none will be lost in the Light groups. Do you understand?

Wayne: Well, I understand that's what you promise, but many people are inclined to be indifferent, and want to stay where they now are because there is their home and there is their job and .....

K. H. Yes, alright, but remember, in times of Noah, they were warned; they were told to go, but they would not listen. Those who will not listen.....they will have to take the consequences. We cannot force man. He has a free will. We love each son on this earth, but those who will not listen to the warnings, as in the time of Noah, will be with those who may be destroyed, if that is what comes in the end. Do you understand?

Wayne: I understand. That is the answer I was looking for.

K. H. Yes, I understand, My son. But I put it this way so you would have it concrete in your mind. That is all; I will see you at another time. Bless you My children.

YOU ARE NOT PHYSICAL CREATURES; YOU ARE SPIRITUAL BEINGS.

ST. GERMAIN. My children, tonight the angels are with you. Oh, how grateful we are to be here with you. We love each one of you. Each one is precious. I, St. Germain, am so grateful. Tonight, when you are asleep, think, and ask your subconscious mind to replay this to you, and each one will get an interpretation.

Each one of you are very precious in the sight of the Godhead. We are all one with God. Each one of you has this Father and Mother God. We are all one. Do not just say, 'the Father', say, 'Father-Mother God', because the Mother God is there, too. I am saying this in the language you can understand. Yes, you must not think that these words are too small, too childish. Remember, you are but children of the great I AM.

We, too, had to start from the beginning. The time we came into being, each incarnation, we learned, I learned, until I received and came into my mastership. You will all become Masters when you leave this earth.

Do the best that you can, even if it's just a small thing each day. Give your mind, your heart, your soul to your Creator. By doing so you pave the road each day for the path that you will trod.

Think of the million souls who are living away from that path. Bring them in as you bring the sheaves into the barn. Bring them into the house of the Lord. It does not have to be a church that you bring them to. Bring them here to the City of the Sun. If they need to be cared for, to be clothed or fed.....Remember, the I AM, the Father God, is the storehouse. You are just his emissaries.

We are so amazed at the new children today. They're hip, they're with it, doing their thing. Well, of course you know, each generation speaks differently. In my day it was 'thou, thine', and so many other adjectives and adverbs which are not used today. But it does not matter in what vernacular you speak. It's the heart that counts. Speak with the heart, from the heart with love. Even if someone strikes you, with angry words, or swearing, or unkindness, give forth love because love is like a blanket or water thrown on a fire to put out the fire. It may have some embers of coals still smoldering there, but that blanket of love is always put over everything negative. It does not matter who does it. Just remember, you are responsible for each word, each thought, each deed. You are not responsible for your brother. You may guide him, you may advise him, you may wish him well, but he alone, and each one of you, must trod that road yourselves. It takes one step to start the first mile, and many steps to keep on going. But see that no one stops going. If you have to run, run! But always give time to a slow pace. Each day give time to meditation, to being one with your God Self, your higher Self. The Christ is there waiting. You do not need an invitation. You have the key to open the door. The Spirit is there waiting for you to let It guide you.

Remember, God is not a personal God. He does not say, "Now, because you are not doing this or you are not doing that, I will not take care of you". Did Jesus not say, the rain falls upon the good and the bad? Your Father takes care of all of His children. There comes a time when the consciousness must be raised. You are not your own. You belong to God. Therefore, you must absolutely, above all else, give allegiance to Him and what you stand for. You are His children. You are not your own selves. You are not Wayne or Lucille, or Demarious or Electra. You are God. That doesn't mean you are God Himself. But you are His children. And it is the God within you that is working. So accept that inheritance that you have.

Do not act like someone at a bar who orders a drink and does not know where he comes from or where he is going. Put your feet on the bar of heaven. That bar that leads you up each step of Jacob's ladder. Keep climbing, one step at a time. And no one is asking you to run a race or to be at a certain place at one time, to do this thing. Sometimes it takes you a little while to get there. You need a shove, you need words, you need encouragement, you need a helping hand. You cannot complete your whole lifetime in just a few weeks or a few months. You did not come where you are now, when you were just babes. You are here now because of this gradual steppage that you have made, step by step. (I don't think that's in the dictionary; we'll make that a new word.) But anyway, you are going step by step, spiritually, mentally, and physically.

You are not physical creatures. You are spiritual beings. But you have a physical body. And in the discourse that was given just a short time ago, when the time comes that

you do not need food and material things, you will not use them. But at the present you need to nourish those bodies. You need to keep them pure, as pure as possible. And remember, you do not smoke, you do not indulge in drugs, but when you see someone doing this, in a very kind way, surround them with the love of God, surround them with Christ, because those souls are so lost, and so mixed up. This is their outlet. You have God as your outlet. Use that God. God want to be used. He does not expect to be within you and never to be used. And remember, when you do anything, that it is the Father within, the Christ within that is doing the work. Just give Him the homage and the honor that He needs. If you could but know the millions of souls who never think of Who is within them. And how your Father longs for that love. He is Love, He is just. How would you feel if you were in a place and no one loved you, no one put their hand in yours, no one said a kind word. Just think how the Father feels! He cannot suffer, but He does not accept rejection from His children. He is using you to bring His children to Him. You know the mother hen gathers her chickens under her wing. That's the way the Father is doing with you. He is gathering you under His wings. His wings are almighty, they are power. They are substance and abundance and plenty and mercy and kindness and love and all that He is. Why not put those children under those wings? He has two wonderful wings to hold you.

Your days are not easy. The forces of darkness are rampant everywhere you go, everywhere you turn. But remember, the wings of the Almighty are your shelter. So run to those wings. Run to the I:AM. Ask me, St. Germain, to help you. I am working day and night. We do not rest in the etheric. There is no night here. It's all day; it's all eternity; it is all now. Ask the masters and the mentors and the guides to help you. That's what they're there for, the angelic host. We are not sitting around doing nothing. We have so much to do. But remember, we always have time for you.

Now I will give you one last message, one last word of love. Keep in complete harmony and attunement, and when any discordant thoughts enter your consciousness, just say, 'I AM that I AM. Father, help me, my beloved mentors guides and Masters, I need your help.' And help will be there instantly. You do not need to wait until you leave this body. This body is just a shell. The real you is eternity. You are in eternity now. You are with me, and we are one in the Father. I bless you now with the flame of the Archangel Michael. And know that heaven holds you in its arms. Peace, love. I, St. Germain, leave you.

Nov.1971

#### MEMBERSHIP FEES AND DEVELOPMENT COSTS

People often write us, asking what our membership fee is. It has been difficult to arrive at a specific figure for, unlike a country club or other organization, the fee charged does not go into the pockets of a 'promoter' or someone who has invested or advanced a lot of money to get things started and then expects to get their money back by imposing a 'fee' on all new members. We therefore feel we have to set an arbitrary fee which, it has been decided upon, is \$500.00. This is for an individual member or for a family unit, all living together under one roof. People want to be told a specified amount so they can decide in their own minds if they can afford it or not, or if the organization is fair or not.

There are many costs that go into the development of any community, some that must be taken care of before homes are built, and some that occur months or years later. Some of these basic costs are in the utility systems that must be constructed or installed on the land before homes or apartments are constructed, etc. Others like certain community buildings, trucks, tractors, construction equipment, etc. occur from time to time over the years. Thus, this community is built by the members, with their money, and much with their own co-operative labor and resourcefulness. Actually, all too soon, with our money system not functioning, we will have to depend on our own resources (plus barter) for all that is produced or built.

The money that is collected by the City of the Sun from these many membership fees does not go into anyone's pocket, or the re-payment of previously-loaned money, etc., but is used in the development of the land, in the construction of these utilities, etc. as explained above. Regardless of what the membership fee might be, it is your investment in the community. It should not be considered an expense but an investment in a

community that is trying to maintain as many of the standards of the American way of life as possible.

This membership fee of \$500.00 should be considered very moderate as compared to what one would have to pay for a lot or homesite in any American City, which would be from \$2,000.00 to perhaps \$5,000.00. Our members are spared the cost of purchasing any home-site in the City of the Sun, for the use of this land is free to its members. A long-term lease will be issued to the members when they are ready to build their homes, apartments, or install their mobile homes on the site that has been selected.

This money will be used for the clearing and grading of the land, for the electric generating plant and distribution system, for the big water well and distribution pipes, and in the simple but very effective sewage system (that will cost less than individual septic tanks), also for the distribution system for natural gas for heating and cooking. The cost of installing all these utilities and other items enumerated above may average several times this minimum \$500.00 fee per member or family, eventually. But for the balance of the money needed for all these developing costs, we will depend on the generosity of those members who can afford to share more fully in these costs. In some cases there may be large gifts or endowments to greatly support this construction program. In a time of a national crises, when our economy and money system is falling apart, we know that we who are in the Light, will respond to our own divine guidance within us, and will look after our 'own', sharing with others what we can spare of our own prosperity and worldly goods. Soon enough, our money will be valueless and we surely will want it to accomplish the most good it can before it becomes worthless in our pockets or bank accounts.

If you buy or build a home in any American City, you are not confronted immediately with the cost of all of the needed utility systems. These are always financed through privately-owned utility companies or municipalities, who borrow the capital for constructing tremendous plants through the floating of bond issues. You, the consumer, are operating on a credit system. You have to pay a good profit to the utility company or municipality, plus all the interest charges, etc. on the outstanding bonds. This is a never-ending expense to you, the consumer.

When there is a breakdown in our money system and our national economy, these utility companies will cease to operate and you, the consumer, will be without their services. Neither would you have the legal right to make use of these abandoned systems even if you would like to. Living or operating on other people's money (credit) is the conventional American way of life but it is not sound economics.

Under New Age principles of economics, we will build our own utility systems, partly under contract, and partly under hired labor or volunteer help. There will not be a very great outlay of money at any one time. As we clear more land to prepare more homesites, we likewise will expand the water mains, the sewer pipes, the electric lines and the gas pipes as we need them, and at a minimum of cost.

As time goes on, our own members will become more skilled in construction work, and we should be able to build our own community buildings. Also through co-operative effort the members will be able to help each other build their own homes, construct community recreational facilities, clear land and help on projects of one kind or another.

We must remind you, however, that we have to depend on you, our members or prospective members, to advance these membership fees to us before homes and apartments are constructed, etc., so that we may build up our construction fund whereby we will have the needed money to go ahead with the first phases of these utilities. This would include the large well for our water supply, the excavation and building of a lagoon (that will resemble a small city water reservoir) into which our sewage flows, and likewise an electric generating plant. We estimate these preliminary investments will cost us in the neighborhood of \$50,000.00. After these are completed, the expansion of our utility systems, that is, more sewer pipes, water mains, gas lines and electric cables, etc. as we go along from month to month, will be at a minimum of cost. So please keep in touch with us regarding your plans and your readiness to send us your membership fees or contributions. Without your financial support, the City of the Sun can never become a reality.

REV. WAYNE H. TAYLOR, President

JESUS-SANANDA: YOU MAKE THE FIRST STEPS -- THE FATHER WILL DO THE REST.

I, Jesus-Sananda, the Avatar of Earth, come tonight to you to bring forth more Truth, more understanding for, as you are not as yet ascended beings, you need the assistance that I, the Masters, the Mentors, the spiritual guides, the Christ within, will give to you.

These days when it seems so difficult to understand that which is going on in the world.... Remember, the earth is going through a breach, a new birth. These eruptions, these displays in the weather conditions that are not conformative to that which should be, all seems to be in disorder, to be uprooted. This must be because of the negation that is shaking the earth, must also be taken away.

The logus of planet Earth (for she is female) is now bringing forth this new child, this new Earth that must be. She is shaking from her pinions all that is negative, all that is wrong, all that appears to be evil. For when this Earth is re-constructed, it must be peace, it must be good, it must be harmony. There must not be any disunity. There will be no hatred, no greed, no envy, no wars, no killings, no deceptions -- nothing but heavenly peace. It will be a heaven upon this earth, for did I not say there would be a new heaven and a new earth. This earth will not be destroyed through man's indiscretions, through man's hatred and anger, man's deceptions. Oh, yes, man has a free will, but this earth belongs to the planetary logus who created it.

The God of this Earth will not let these things come about. Those on the planets who are watching with you, who are helping you, ever have a watchful eye, and I the Prince of the Universe, the prince of Earth, the Prince of Peace, will see to it that destruction will not come upon this planet. Even now, men are doing their best with the atomic tests to see how violent that destructive force can be. But woe unto him when he leaves the Earth for he will have much to answer for, he who perverts God's Earth, God's laws, all the Creator has given for mankind, good, for his benefit. Woe be unto him who desecrates it. It were better had he not been born for he cannot escape the effects of the cause. You cannot play with toys that are very, very mighty, and cause destruction when used in the wrong way. The energy was put here to be used for mankind's good, to be used to benefit mankind, but man is using it in a destructive way.

You cannot toy with that which comes from God, whether it be harming His children, desecrating His land through pollution through destructive forces, or using the atomic energy the wrong way. There is a price to pay for these things, and man must heed; man must obey those laws. They were for all, but the forces of darkness will not dominate as they have in the past. There must come a time of reckoning, and that time is now. Be not alarmed when you hear it said, 'This will be destroyed, and that will be destroyed,' for only the Father knows what is to be.

My coming is known, yes, to me, but it will not be given to mankind. Each day, be ready in your hearts for my coming. You do not know how I will come before you. It does not mean that I will come where the masses can see me. I come to each one individually. All I ask is that you accept me today. Don't wait for tomorrow for to you tomorrow may never come.

I have a place for each one of you and that place is ready, but my place is here with you. Where thou goest, I go. What thou doest, I am with you. I know your needs, I know your travails, the sufferings, your wants, your desires, but be not impatient but be very patient. Remember, even the worlds were not created in an instant. Eons of time brought them forth, whether this planet or those beyond this planet. If the world is in a hurry, see that you need not be. Do not tarry along the path and wait for certain manifestations, certain needs to become dormant. Do not wait for that which you yourself cannot do. Put your first step there, and the second one, and the third, and when you do this, the Father within will do the rest. You cannot work with miracles, but you can have the faith that brings forth the manifestations that are needed. It does not matter how great they are. Is not the power of God able to take care of all that is needed. A little child, when it is in need, doesn't say, "Well, I won't have it; there is no way". It goes to its father; he comes to me with its needs and in faith. It waits

and its prayers are answered. Do the same. Do not have any doubts in your hearts and your minds that that which must be done can be. Be as a child. Accept. But you must do your part. Put your foot forward and go one step at a time. You can only do so much and no more.

I, and those who are helping you in the etheric realms, those on the planets, they too do nothing of their own. Did I not say it is the Father within you who doeth the works. Oh, yes, there are many playing God. They know the way. They can do it. They need no one. But how wrong they are. You cannot lift your finger without your Father, without your Creator, therefore you cannot manifest on your own until you are subjective and obedient. Obedience is for all, not for just a few. Until man accepts the commandments, the laws, and does his best, until that time there will be no peace. Peace begins within the heart of each individual. The ceasing of war will not bring peace when man cannot love each other. Until you love your brother, until you forgive your enemies, you yourself will have no peace. Great things will come upon this planet, upon you when you do the righteous, but those who do not will suffer the consequences.

Do not force things. By forcing an issue, the power is dormant. You must let each day take care of itself. Do not think of the past and what has happened. There is nothing wrong with having memories when pleasant and joyous and happiness for you. But when the memories are negative, chaotic, destructive, put them from your mind. Tomorrow, you do not know what will happen that day. Maybe tomorrow, you do not know what will happen that day. Maybe tomorrow will never come for you. Live each day, each moment, to the fullest. There is nothing wrong in preparing for certain issues that come about in the future, but do not let this be uppermost in your hearts and minds. Think on the present; think on 'now', for now is eternity, and this is the only time that you have. Each moment must be accounted for, each word, each action, and let not the thoughts of others and the deeds of others disturb you. You have a task to fulfill, and by doing your utmost you will do that. Never rely upon yourselves. Let the Christ within come forth. Be conscious of that great One within you for it is He who is there to assist you. I am one with the Christ; I am one with the Father. The Father and I know your needs. Even the Father knows before I know. Though I said I AM before Abraham was, I still am not the Father. The Father is within me and I am in Him, and you are in me, and we two are one.

Woe be unto him who don't follow these truths, these laws. As I have said, a child can accept them and understand them. But you who are created to the image and likeness of God will (probably) bypass these great gifts. They may mean nothing to you, and they are nothing unless you use them, unless you live them. By so doing, you fulfill that for which you were brought to earth to do.

Your task is before you. Each day you will be guided. Some will go this way, some another way, and that is the path you will trod. It is not necessary to know what position you fulfill, who you are, and where you are going, because sometimes that path is changed because of the conditions surrounding you; so each day, live in peace, in harmony and in love, and be not disturbed but have love and understanding, and the more you use of these gifts, the more profound will they be. Your loved ones are coming. You will take care of all your needs, and all the Father has is thine, full and running over.

Say affirmations that will help you to develop, to bring forth that which is needed for in those affirmations is power, because words are power. Use these words in reverence, in sincerity, not just saying them word for word; say them from your heart and let the Christ within become manifest, that each word you speak, each action that you perform, and know that I am one in the Father and in you. So have I spoken.

Channel: Electra.

Let Our Light Shine!

Each of us is as a candle.

Come! Together we can be the Sun.

ISAIAH: THIS NIGHT THE HEAVENS ARE BLESSING YOU.

I, Isaiah, will speak to you tonight, and I welcome you my dear children to this assembly. It is so very important that those who are with the Light groups come together for discourses that you can exchange ideas and feelings, and teachings. And always keep the truth uppermost in your minds.

I was what you would call a rather burley fellow when I walked the earth. Some didn't even think that I looked like a prophet, but God used me in that capacity. And I shall prophesy something to you this night.

The flood will come; the earthquake will come to the West Coast. But never rely on a specific date. Those beloved children of God are praying that the chaotic conditions will be subsided, that there will be peace upon the earth. Through prayer, many things will manifest, become changed. Never cease to pray, for that is your communication with your God, the creator. The Christed one of Earth is as a shining star in the heavens. And below Him is the black pall, the dark forces which spread this carpet above the earth, and below the feet of your savior.

The film..... that will be lifted. First it will be as if little pinpoints of Light are coming through this pall, and then they will become bigger and bigger, until the forces of darkness will vanish completely. You know, when you put something through a sieve, the entire contents is not run through at one time; it comes gradually. So, with the Light, the Christ Light is coming through, to shine upon each soul. What man is doing is causing so much havoc. What man is doing is causing the havoc. Remember, you were born to be with your Father. You came from Him. Now it is time that you return to Him, as His children. It is not His will that you hate one another, that you are prejudiced, that you are greedy, that you become angry at your brothers, for that which he does is not of your own making, your own will, your conformity to his wishes and desires.

You must accept and practice fortitude, brotherly love, and have love. If it could be every other word that you speak, it would be not enough. Love, My children, is the channel to your God, because God is love. You cannot accept God and hatred, God and envy, God and greed. God and material things do not mix in the material sense of the word.

Your Father wanted you to have all the good of His creation, from His storehouse, but you, (many of you) perverted this, have hated your brother. You have been miserly; you have been unkind, hateful, you have been murderous. No, My children, you must get all of this out of your hearts, minds and souls. I am not speaking to you in this room tonight, but those with whom you brush shoulders are the ones I am referring to -- your fellow workers, your neighbors, your acquaintances. There are many who, through their thoughts, are hindering each one of you. Keep yourself surrounded with the Light of the Christ. That I AM within you is what you must be aware of at all times. I AM, I AM, before Abraham was. I AM, Jesus said, before Abraham was. I AM one with the Father. This means each one of you, not just Jesus-Sananda. But each one of you, you are one with the Father. But do you realize how tremendous that is -- one with the Father of all mankind, of all creation? Think upon these simple truths.

You think upon the great things, but it is the little things that will make you great. You cannot run a mile in just a few steps. It takes many steps to reach that mile. It takes many, many trials and tribulations and endeavors to reach one mile of your spiritual growth, of your spiritual involvement and development. Do not be discouraged or downhearted. When things do not materialize every day you expect them to become manifest be ever watchful and ever thankful, and every prayerful because, remember, at the right time, according to God's time, all you need will come forth, be it the City of the Sun, be it the Light groups, be it St. Germain's work. It does not matter what your works are, there is time. We do not mean earth time. We mean eternity. By time I mean patience and fortitude, and striving and working. Keep ever at your goal, at that which was given to you. No matter how humble the task, keep at it, and do not become discouraged. Do not become impatient, or disheartened. If your cupboard

is bare today, in that same day could it not be filled with abundance from heaven? Remember the widow who had just one cruse of oil left, and a little wheat cake? That's all she had. She went and gathered the vessels from those who were living around her, and through faith they were filled to overflowing, never to cease.

The Father's abundance is all around you, be it clothing, be it money, be it food, be it your home, your car -- all your needs. I do not mean extravagance, like jewels, and having tickets to the ball game, and going out and gambling, or revelling some night in a night club. I do not mean this type of thing. I mean the things that you need..... if you need a new dress or shoes, or you need a sewing machine, or a new stove. Those are all necessities. God does not expect you to go naked like Adam and Eve. So, He will provide for you. Even He took care of His children after they left Eden. Their troubles and tribulations were many, but they were not without want.

There is a mis-interpretation about working by the sweat of your brow. Your Father has provided all things for you. All He asks is that you have faith in Him and put your hand in His and let Him be the guide. It does not matter what you do or how fantastic or colossal or tremendous the task. All that matters is that you put your hands in your Creator's; put your hands in Jesus Sananda, the Christ within you. Tell your Mighty I AM Presence that you will let Him be the guide, that you will let Him direct and guide your way. Oh, My children, if you knew how important it is to let God take the lead. You know, so many times you have enthusiasm, and you have perseverance and you are determined, and you have a job to do. But, instead, let that enthusiasm be your Father; let Him be the way, and put your hand in His, and you will not falter. Remember, each day ask that the Father's will be done. Put yourself out of the way completely. Do not think of you selves as even being there. Just know that you are the Father; you are one with Him. You are in the Father and the I AM is there, directing and guiding, for is not God all there is, the I AM that I AM? In Him I live and move and have My being. When you read your scriptures, take these as if they were meat and chew on them, and see the truths that are there. Many times it is hidden. One grain of sand can hardly be discernable in your hand, but a handful makes the ocean-bed, a shore at the beach. The same with Truth, one word will not make the whole Truth. But like the grain of sand, many words bring the Truth to you. The most priceless gift you have is the Word. I AM the Word, and it became flesh.

You are God's children; you are His Word, doing His work. You are His actions, working through you. Therefore, let Him take over completely in your lives. Surrender and dedicate your all to Him, whether you are building the City of the Sun, whether you are having a communication system, or whether you are doing the household chores, or you are the head of a foundation, it does not matter. Each job is important; and remember, any task, no matter how small, done in love and for God and His glory, is tremendous in scope and circumference.

I hope these words have helped you tonight, whether it's building a city, if you have a magazine to put out. That is not the only step. Make ready for those who will come. Plan your buildings, even if you don't have a cent. Start planning. Start planning, not for just what will bring in the money, but plan for those buildings that are to be constructed. You cannot put people alone on the desert. You don't want them in sleeping bags. You have to have them in places where they will have warmth and shelter, where they will be food, where they will have that which they need, and you will not falter in your efforts. But do that first step. Remember, you can only do so much. Your Father-Mother God has to do the rest. God does not expect the impossible. He is so liberal, so understanding. Be as a child when you go to Him. He does not expect you to go as a dignitary, an executive, a 'big-shot' as you call it. He just wants you to come to Him as His child, and that is all that is necessary. No matter how small the task, or how great, go to God as His son, as his child, each one of you. This night the heavens are blessing you. And when you sleep, it will be the peace of the angels. I, Isaiah, have spoken in Truth, and in love. I go now.

Spacecraft Activities. Master Yogunda: I would like to ask a question which has been on my mind. It is about the space ship that is 11 miles long and has been in our atmosphere since March 20th. Is it still there? If so, for what purpose?

Answer: Yes, my beloved chela, it is still there and will be there until approximately March next year. It has several different purposes. The main purpose is observation. The second purpose is the spraying of ozone and the neutralization of poisonous gases and even of fluorides you have been talking about tonight. This is to help you in the struggle you are having with the forces of darkness which are rampant on the earth plane today.

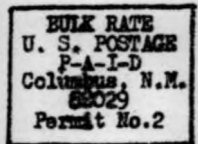

Now, this space craft is not a long one. There are 26 additional craft with this one. They are from various portions of this solar system and other galaxies. There are two from the constellation, Andromeda. There is one from farout in the Seventh Galaxy from the Central Sun. As you have been told, the call has gone out beyond our own solar system. I hope I can impress upon you tonight the seriousness of the situation that confronts the planet Earth at this time.

Editor's Note: The above communication took place at the Universarium Foundation in January, 1964. This gives a hint of a few of the amazing things that our space brothers can do who are brought in from other solar systems and other galaxies, with their sophisticated electronic devices. Large mother ships are available for removing millions of our people almost immediately in case a major holocaust takes place. They will be taken to places of safety on this or other planets, and returned when the earth is again inhabitable and safe.

Extra Copies Available.

Brief version of prophecy on 3 Dark Days ..... @ 2¢ each Post Paid  
Copies of Golden Dawns from No.1 to No.4 ..... @ 5¢ each Post Paid

Please notify us of changes in address in advance. Third class mail is not forwarded. We are charged 10 cents each for Golden Dawns returned to us by the Post Office.
