

# THE GOLDEN DAWN

CITY-OF-THE-SUN FOUNDATION

Number 5

## EARLY PREDICTIONS BY A MORMON PROPHET

Many years ago there was a prophet without honor in his own land, and in his own LDS Church. He died in 1949. His name was Bishop John H. Koyle.

His prophecies that foretold details about the First World War and other events all through the years up until now, came true with uncanny accuracy. Because of such accuracy, we cannot help but have much respect for what he foretold about the current period of time. He foretold with accuracy for forty years when the Republican Party candidates for President would win and when they would lose. According to these predictions, during 1972 the Republican 'elephant' would fall over dead, bringing an end to the Republican Party and the Democratic party also, "as the nation dissolved into chaos and the end of the U. S. Government". Bishop Koyle also saw the death of the Republican president now in office, resulting in no election this year.

During 1972 he also saw an over-night stock market and monetary crash that would result in a deflation of our values so that property, etc. would be worth only about 20¢ on the dollar. The banks would be full of money but they would be afraid to loan it out for lack of satisfactory security. Thus, more and more the money system would cease to function until, by Spring (1973) the paper dollar would be worthless and the U. S. Government at an end.

These prophecies, given many years ago, correspond very closely with predictions given by Sananda and Hilarion as printed in our Golden Dawns. For example, Bishop Koyle said that our money would be taken off the gold standard (which it was) therefore there would be nothing of value (gold or silver) to back up our paper money, and soon there would be no confidence in it and it would cease to have value as a medium of exchange. This agrees with what Sananda said, that the money system would soon be 'out'. Bishop Koyle's statement that there would be a stock market and monetary crash agrees with what Hilarion recently told us when he said, "Many will lose when the stock market finally takes its plunge which is forthcoming."

Bishop Koyle also made statements about there being strikes, riots, etc. in the Eastern cities and later of there being no automobiles on the roads, all being in agreement with what would happen if or when our electric systems would be knocked out, and the money system would be out, therefore a paralysis of industry with no factories operating for production of foodstuffs, etc., and that there would be desolation and loss of life. When our money system fails, our federal and local governments would likewise fail for they cannot operate (pay salaries, etc.) without money.

Bishop Koyle mentioned that eventually many thousands of people would find their way into the valleys of Utah, and that more people would be living in tents than in houses. And Hilarion, speaking of these dire times ahead said, "There is no time to sit idly by. The times must be ready. There will be many who will be stumbling along in the blackness of despair who will eventually come down the road into the City of the Sun".

NOTE: The above information about prophecies made by Bishop Koyle is taken from the book, "The Dream Mine Story" published in 1958 by Norman C. Pierce. This book is being revised and will be reprinted and available for distribution late in the summer of 1972. We will advise our readers when this book is ready. A two-chapter excerpt may be had now by sending 50¢ to Norman C. Pierce, 573 E. 27th South, Salt Lake City, Utah, 84106.

MOTHER SHIP FROM JUPITER

Lesson No. 3

Channel: Sari

When an entity is born for the very first time, an unseen 'recording device' is implanted within his mind. With each consecutive life-cycle, accumulated pertinent data is recorded within. These code-patterns which are your thoughts (after processed) are wave-lengths promulgated by colors which you had projected to your aura. It is the rate of frequency in your auric field of radiation that enables us to read you 'loud and clear'.

Now, you never bring back your spirit when being born into another physical vehicle time and time again because you are and always have been a ray from God's spirit. But you do bring back your soul. And of course soul is a part of Spirit. The recorder within appears to operate automatically but is proof to us that the Supreme Director who works constantly and forever with infallible mathematical precision is indeed scientifically oriented. The soul (you) returns as often as necessary, that is, until you have absorbed those lessons you came to learn. An entity's subconscious intelligence knows where 'it' left off, and having learned lessons in former life-cycles knows precisely where to begin his tapes again, so-to-speak. The percentage of lessons learned is what designates your future. All of you set the pace for your individual spiritual growth. And this is why no two people can be alike.

So many are curious why Mother ships and little craft (UFOs) are in your skies. There are many reasons. I am personally a member of a large crew on a Mother ship from Jupiter. However, we relay this discourse from our ship stationed in your higher earth spectrum. Many of our little craft scan your minds. They determine who cooperates with us in this great Divine Plan for spiritual growth, enmasse. They know who to contact. You see, from your present rate of frequency, we know your spiritual development, not what you think you know but what you really do know. We receive your blueprint off the tape. It is fed into a computer: the tapes from the elect (and not the self-chosen elect) are relayed to your homeland. No, not back to Earth particularly, but to that planet from which you came.

"Interesting", you say, "but how is this done?" Well, suppose you are from our home planet Jupiter. Here is the method of operation: (1) Our scout craft (UFOs) tune you in. (2) Trained men and women on Mother ships from Jupiter process your tape aboard ship. (3) Your percentage of spiritual knowledge is relayed to Jupiter for filing. (Of course, everyone's tapes are part of the Akashic Records.) If your home planet is Earth, we have methods by which to file your records, also.

My particular assignment given by my superiors is to evaluate tapes of some of you who returned to Earth at this time to cooperate in this great Christ awakening. If you happen to be from a planet other than Jupiter, the procedure is the same.

We would now like to commend those of you who brace and push through what you call an 'evil wind' in a firm determination to accomplish your mission. Earth instructors, sincere channels (not seeking publicity), and students in this Plan are all indeed very valuable to us. We cannot accomplish our mission unless you accomplish yours.

Our computers are always charged with what you call Ether-Energy (the God Vital Force) sometimes also called Substance. With our knowledge and by utilizing Ether-Energy, our computers operate with infallible precision. This is so because our evolved mathematics is principle'd by Universal Law (God).

Some of you wish to know how we can evaluate your tapes in a moment or two when it has taken some fifty years or so (to date) to record same. (1) We press a computer. Your tape is flashed upon a magnetic wall which magnifies this so-called color reel of film. Now, wouldn't it be superfluous if you recorded incidents not relevant to those lessons you came back to learn? So you record only those incidents which taught lessons. It is the end result of what you have learned that we view, because it is only pertinent data which you have recorded, you see.

Now, the computers we use aboard our Mother ships are the same as used on evolved planets of which we are aware and with whom we cooperate. Of course you are interested in knowing what your tape looks like after we process them. Visualize a minute radiant speck of sand, or dot. Your life-readings glisten for they radiate many colors. But

after we process these tapes, your colors blend into one basic color what designates YOU, or the whole of you --in other words, your composite self comprised of nine bodies (not seven). In this manner we know your rate of frequency. This tells us a very great deal. We shall explain in more detail: Since each thought is a wave-length and your colors form these diversified wave-lengths, we evaluate the over-all to determine your present rate of frequency.

Color-waves are analogous to the strength behind motivation of thought. Analogy: Suppose you hate someone with passion. Hatred creates violent reds and blacks and this hatred vibration swirls into thought-forms of your design. Then these negative forms operate on that frequency that you have set for them. Evil entities? They surely are if you designed them with your negative thought-waves. They are given only that power which you gave to them. But these negative entities gain more evil power as they are attracted to like patterns. Your world and the lower astral field is filled with such forms. But many of you are learning for the first time that you help to contribute to this negative condition! However, when you radiate spiritual love or do a good deed, or think kind and benevolent thoughts, or send out Christ Light, these positive thought-waves create cosmic colors which blend into Light. See the difference? Too many negative thought-waves have imbalanced your personal and planetary force fields and this is why your planet is experiencing such world-wide chaos. No matter which thoughts you project, they come back to you at one time or another, and greatly affect the life-cycle of the entity who received your thought wave.

Negative thoughts surely retard spiritual progress, so do project much Light to your own consciousness and to your entire planet, then you help to solidify or 'glue' your auric field and your 'woozy' planet together. When prophecies of doom reach you, quickly nullify this negation by projecting much Christ Light to these prophecies. If you permit these fear messages to enter your aura, who is there left to hold your planet from 'crumbling'? We cannot do all the work, you know. Too many negative thought-forms hold man earth-bound. Why earthbound lo these many centuries? Man-made laws hold man earth-bound!

You people should know by now that there is no real God-Substance to substantiate man-made laws, so without God-support, they must fall. The more real Substance you draw forth from your Christ-Core (center of you), the more quickly you evolve. But be absolutely certain you know what this potent Cosmic Energy is. Be sure that you know IT is the vital Force of God, the Creator. Therefore, you must learn how much or how little of this substance you can use. Wisdom is your measuring stick. As your higher Self awakens, you are discovering the real you; the real you is enveloped in love and Light. It is only the physical part of man that needs to wear a thousand 'masks' as he plays 'Russian Roulette'.

Now, the real you needs cosmic Energy to feed and sustain this higher Body, therefore it is now necessary to draw forth this God-Vital Force into your ecology, and especially your medical and political science, religion, and mathematics. Remember that your higher body is an integral part of the Father-Mother God, so absorb IT softly and elegantly into your innermost sanctuary. We must reach as many as possible so it has been necessary for us to resort to many methods of operation.

Right here, we would like to clarify a point that has come to our attention. Some upon planet Earth believe that our little craft (UFOs) borrow your electricity, causing your black-outs. This is most certainly not true. But there is such an abundance of effluvial force fields above your terrain that if and when our craft get 'temporarily' caught in your debris (including your negative thought-forms) the radiant energized fields of force that is around our craft is so powerful in Substance that IT can unwittingly affect some of your transformers. However, we assure you this is not intentional and we tell you why. We have no use at all for your Earth electricity, for with our evolved equipment and knowledge we would not get very far. Even our televisions and communication systems use Ether-Energy and would not even turn on with your low watts of power in Earth electricity, so we could not use your low voltage even if we could take it from you. So do you not see how ludicrous this idea is?

Many of you there are learning how to draw forth the higher rates of frequency in Light. We learned how to do this many, many Moons ago. Did you know that the pineal eye uses only this higher type of Energy? Your pineal gland is part of your higher body and therefore needs this cosmic Energy with which to function. We have long charged our inner vision with this potent Light that operates with very high rates of frequency beyond your electricity! So we have long been able to view many marvelous sights within the inner world of Universal Mind. Some day all of you will accomplish this, also.

I shall now take leave from this channel's vibration, for we have a big surprise for you, including this instrument. A Master has requested that he close this discourse, but until he gets through our 'line', I shall formulate a name to help you identify with me in the future. Call me Radia.

(Note: The 'tone' vibration changes considerably here.)

"As an entity evolves, it is like replacing a thorn with a shining star to bless you. Of course I am your beloved Yogananda who comes in to surprise you. It was I who furnished you with the spiritual part of this lesson, which I projected over the etheric wires (so-called) but not directly from Radia's mother-ship. Oh, he is not the Director of this ship but he is a very important member of the crew. He smiles because he knows that every member of this crew is very important or they would not be aboard. They are all specialists. It was Radia who explained the technicalities of computers of which I know virtually nothing. But it was beloved Hilarion who entered the channel's vibration on an Ohm during a recent meeting. Later, he impressed her to segregate a lengthy discourse into separate lessons for the Golden Dawn. This I have agreed upon. Therefore, this will be a series of lessons. So be it in love and Light; I am your beloved Yogananda until we join forces again"

Channel: Sari

March 1972

#### ACTIVITIES AT HEADQUARTERS

For several months past, our organization staff usually has consisted of myself (the Director) and a second person. A very important communication was recently received from Hilarion, our superior in the Hierarchal realm to whom I am responsible.

He reminds us that 'time has run out' and that we must step up our activities and enter into a new phase of our work. We are to expand our headquarters staff considerably to give it a broader scope of activity which will result in more planning, more projection of ideas into the ethers for fulfilling, more visualization, decreeing, praying, etc.-- in general, the establishing of a stronger focus of spiritual Light for the fulfilling of our objectives.

Without a doubt, the Masters have been directing various people to visit our headquarters lately, some of whom are qualified and are responding to our needs and are becoming resident-members of our enlarged headquarters staff. Every three or four days, lately, visitors have come to get acquainted with us and our activities. Three or four different people are purchasing mobile homes and, within the next two or three months will be established here in 'Taylor's Mobile Home Park'. This park was planned and built largely for this very purpose, of accommodating staff members during our pioneering period. Later these mobile homes will be moved to the community property after the utilities have been installed. Three or four other people are seriously considering, or tentatively planning on moving here to also be a part of this activity, not all of them to live in their own trailers. Later we should be able to include some photographs of staff members and of our mobile-home headquarters, etc.

We will, in the near future, be able to give more details of plans for our utility systems, plans for the apartments that are to be built, and suggestions on house plans, etc. Some of this information is now ready for sharing with you, our readers, and is given on other pages of this issue of the Golden Dawn, all of a preliminary nature.

There are over 3,500 names on our mailing list, and the Golden Dawns that are received are often shared with several other people, so we know that information about the City of the Sun plans, also about the prophecies of catastrophes and economic upheavals that loom very large ahead, have a wide distribution throughout the country. We also know that there are hundreds of people (our readers) who take these matters very seriously, and anxiously await every new issue of the Golden Dawn to learn of any new information that the Masters might give about world conditions, also about progress in the City of the Sun. They are vitally interested and concerned because they (a great many of them) feel that they must make important decisions soon regarding their homes, their jobs, their children, and whether the City of the Sun is really going to be built as planned and will offer the security and means of survival that is anticipated. Also, if they must move to the City of the sun, can they time their move so as to bring a maximum amount of cash and their worldly goods with them. These are momentous decisions to make for these are momentous times.

#### WE WILL DO THE BEST WE CAN.

We at headquarters are doing the best we can to work out the plans and details of this tremendous undertaking. In planning any one utility system, for example, our water system, we must determine where to drill our well, what size, how deep, erect or install a water-storage tank of the right size, determine the size and kind of pump, determine the size of water mains and where to lay these pipes, where to run the laterals, and where to install fittings to which houses or trailer can be connected, etc. Also we must learn the sources of needed materials and supplies. Of course we will consult the experts in such matters. Nevertheless, this all takes a lot of study and planning.

We will have to assemble miriads of details in connection with our many plans. When we are making extensive progress along these lines, we also must set up our accounting system and procedure for budgets and financing. From what has been outlined about our plans in the earlier issues of the Golden Dawn, plus further details that are given in this issue, our readers will have a fair concept of what we have to accomplish and how we are going about it. We have to operate in a very business-like way, and this depends not only on us at headquarters but also on you, our prospective members who will be living here in the City of the Sun. Without us there can be no plans. Without your financial support at the right time, we cannot proceed with the construction of the City of the Sun.

In our No.4 issue of the Golden Dawn, we explained about the membership fee as a guideline for our prospective members to follow. Remember, that time is 'of the essence' and we implore you not to let us down. We do not need to start constructing all these utility systems at the same time, therefore don't need all the money at one time. But we should have approximately \$10,000.00 before starting any one system. By the time this is or nearly so, more money should be on hand of a sufficient amount to proceed with the second utility system. We could be working on two or three systems at the same time if the money was on hand (which would be best), but we are saying that we can get started on these projects, or one of them with a limited amount of money.

If a person cannot supply the entire \$500.00 (minimum for membership) immediately, perhaps he can pay half that amount, or one-quarter of it, and follow such payment up with a similar amount next month. Let us each begin to get serious about this thing. Let us no longer consider ourselves as 'outsiders' wondering when they (others in the organization) are going to get this or that done, or they are going to get enough money to do this or that. We who are in the Light or are students of Truth, know that there is only One Life (God) and that if we live in His will, we cannot divide God between me and they where the financial affairs of the entire project are concerned. Thus, we must come to realize that this is our project, and that with my support along with the others, we are bound to succeed, and through our cooperation, everything will be accomplished without any lost motion. We, all of us who are to be an integral part of the City of the Sun, must start living the part now. Let us all go forth together in brotherly love and faith.

--- 0 ---

#### Let Us Continue With the Golden Dawn.

We will welcome the contributions of those we have not yet heard from. We wish to express our gratitude to those who have supported the Golden Dawn and made it possible to take care of all the costs of printing and mailing so far.

STANDARDIZING ON ARCHITECTURE.

People who have visited Santa Fe and Albuquerque, New Mexico, also numerous other areas of this state and Arizona, will never forget the beautiful homes and buildings built of adobe brick. They have a simplicity and beauty all of their own. These buildings have thick walls which makes them warm in winter and cool in summer.

This is to be the City of the SUN. Adobe-type homes and the SUN seem to belong together. A whole community of adobe-type homes and buildings, uniform in their soft lines and simplicity, will be a beauty to behold under the New Mexico sun. Visitors from other areas will associate our sun-drenched hacienda most appropriately with the City of the Sun. Most American cities just 'grew', without any uniform plan or style of architecture to start with, with the result that they are a conglomeration of everything and anything, with nothing very 'enchanting' about what should be a 'City Beautiful'. It seems obvious that we should standardize on this old Spanish-Mexican type of architecture. Those who prefer not to build with adobe brick can substitute concrete blocks and still follow the adobe type of architecture. Also, a new type of paint has been developed that is very heat-resistant to the sun's rays and would be very desirable on such a concrete block house.

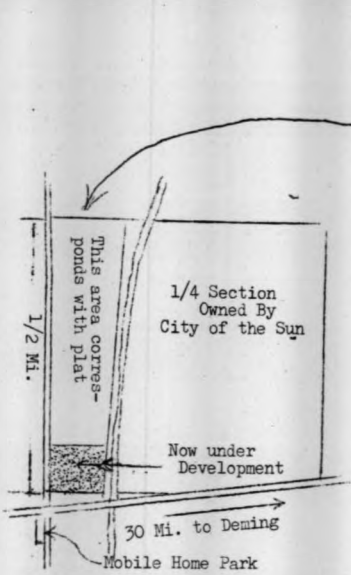

People who plan to build their own homes will find dozens of plans illustrated in magazines and in books of plans. They may alter one of these numerous plans to suit their own needs and tastes. It is our belief that most of such plans can be adapted to the Mexican-adobe type of architecture. That is, instead of having peak roofs, over-hanging eaves and front porches, these same floor plans can be used, except for minor changes, with the adobe 'treatment'. The wood eaves, shingles, trim, etc. which shrink, curl and crack in this dry warm sun, will cease to be such a problem when the adobe type of construction is substituted. One of the early projects for our staff which is now being enlarged, is to use a little skill and art work to take a few standard house plans and re-design the outside of those homes for adobe construction without changing the floor plans themselves. We will show pictures of some of these revised designs in our Golden Dawns at our first opportunity, to show our readers what can be done. The over-all cost will be less, also.

The adobe bricks in this territory are made by Mexicans just south of the border which is only four miles away. They can be purchased at about half the cost of concrete blocks which means economical construction. However, there may be a limited supply when needed and we are not certain of the quality at present. In time, however, these problems can be solved. Because of critical if not catastrophical conditions that may suddenly take place, we may quite suddenly find a clammering for houses and apartments which would mean large quantities of building materials. Adobe bricks are made slowly and have to 'cure' for weeks in the sun which would limit there supply in case of a rush of construction. Also they are not easily made during freezing weather.

Concrete blocks which might be preferred by many people, anyway, do have certain advantages. They are very strong, of uniform shape and quality, can be made and cured much faster than adobe bricks, and can be 'laid' very rapidly by experienced block masons, while adobe bricks can be laid by native Mexican labor at a much more reasonable cost.

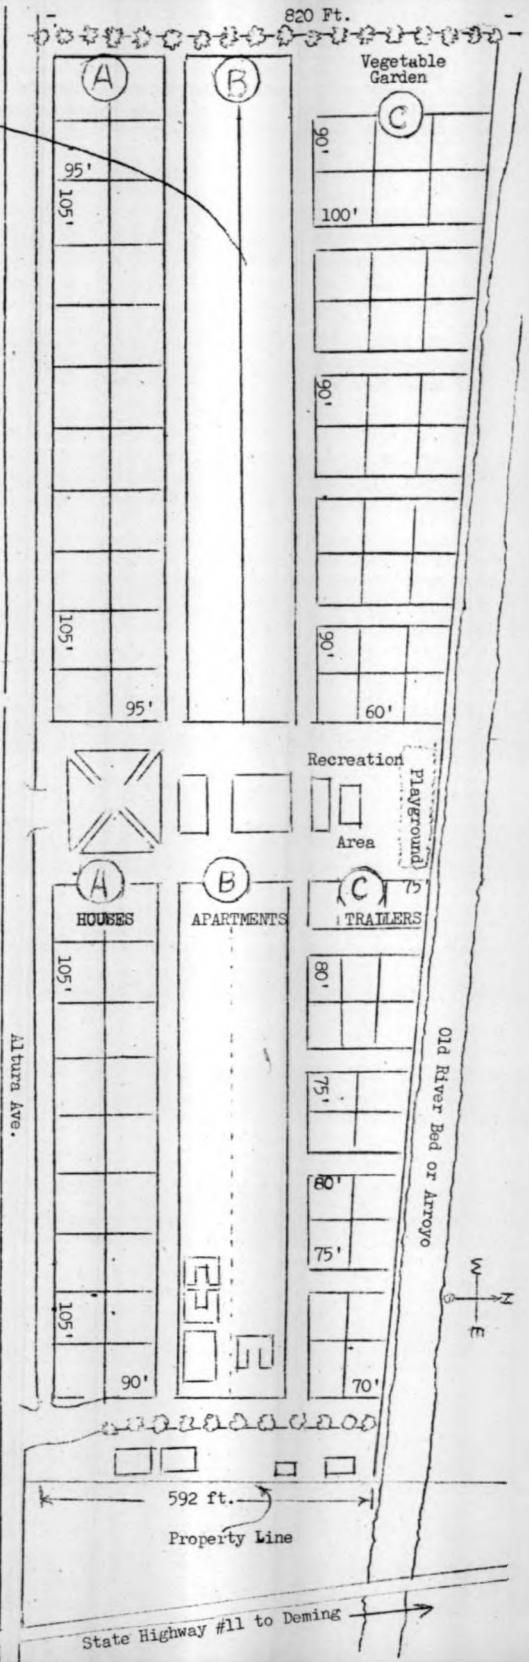

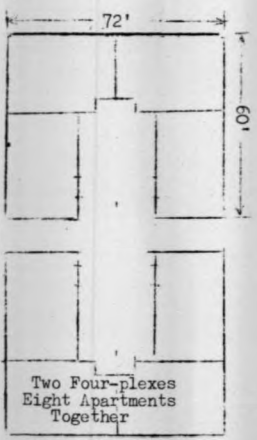

The other feature of concrete block, previously mentioned, is that they can be used on a home or building to look very much like an adobe structure, by following the adobe type of architecture plus a little ingenuity. I have seen some fine jobs done this way. Thus the City of the Sun can have the architecture, the simplicity and beauty of the adobe-type construction either by using adobe bricks or concrete blocks.

We must not overlook one feature of using adobe bricks. Where a family has to build their house on a very low budget, they not only can buy the adobe bricks at a great saving but they might build their own walls with the 'learn-by-doing' method, for it is much easier for an inexperienced man to put up an adobe wall than it is for him to put up a concrete-block wall. Many men who have followed other trades and professions over the years fast learns some of the construction skills. In this new environment, after a while, numbers of these 'fast-learners' can form construction crews and put up whole houses, having only one or two journeyman carpenters and block-layers, etc. in charge of the jobs. Thus, co-operative living will be a 'way of life' in the City of the Sun when both jobs and money may be scarce or non-existent in the years ahead.

This plat represents about one fourth of our community land, and is located on the South side of the property. It is separated from the North three-quarters by an old river bed or arroyo.

An avenue runs along side of this platted area. The lower or East end of this area has been cleared and graded and ready for installation of utilities to be followed by homes, trailers and apartments.

PLANS FOR DEVELOPING THE CITY OF THE SUN

On the reverse side of this page is the drawing of a plat covering about one quarter of our 159 acres of land. This land was deeded to the City of the Sun as a gift, and the organization has clear title to it except the donor reserved the mineral rights on this property. You can see by the drawing or plat that there is an old river bed or arroyo that separates about a quarter of the land that is on the south side, from the three-quarters that is on the north of the arroyo. This southern area of our land lies along side of a road, and is to be developed first.

You will notice that the homesites are divided into three long narrow areas, separated by two streets. These are marked 'A', 'B' and 'C'. The 'C' area is zoned for mobile homes. The central area, marked 'B' is for apartments. We feel that apartments will fill the need of many people who want economical housing, as compared to individual homes. Several apartments, all in one building, of the same size and shape, can be built faster and more cheaply than individual houses. These no doubt would be of concrete block construction. The most feasible and practical design for apartments seem to be four apartments (four-plexes) in one building, arranged in a 'U' shape. By putting two such four-plexes facing each other in reverse positions (See illustration on the other side of this page) there will be a protected court in the center of the eight apartments. These will all be two-bedroom apartments. Each family will pay for the cost of constructing its own apartment.

Also on our drawing boards are some very low priced 'budget' apartments, such as one large room with a small kitchen and bathroom at one end, providing no separate bedroom -- on the order of an efficiency apartment. Another plan, for those who cannot afford something better, is to have one bathroom and one kitchen to serve two families or individuals. That is, the kitchen and bathroom would be between rooms occupied by two different parties. Each would have their own gas plate and refrigerator. There would be provision for a large dinette in the kitchen which would also serve to some extent as a living room.

The 'A' area is zoned for individual homes, built by the owner or built for the owner, according to his own floor plan, etc. Building permits would be required, and quality of construction would have to be in accordance with the Stat building codes. A permit will also be required by the City of the Sun Foundation for either constructing a house or setting up a mobile home, or putting up any other kind of a structure.

As has been explained elsewhere, we plan to construct and operate all our own utility systems. This means we will drill our own water well, have a water tank which will be located as high as possible on our land so that, through gravity flow, water will reach every part of our community under good pressure. We plan to have our own gas distribution lines installed whereby we can distribute natural gas for heating and cooking. We expect to have gas supplied to us from an assured source of supply under a very favorable business arrangement. We plan to install our own electrical generating and distribution system, thus being assured of electric power for all our needs at all times.

We are installing a unique sewage disposal system, requiring no chemicals, agitators, or mechanical equipment, nor constant servicing. We have a 2% grade or slop on all of our land, which causes all sewage to flow by gravity to a specially constructed 'lagoon' in a very low and out-of-the way part of our property. The algae in the lagoon destroys or neutralizes the sewage bacteria which prevents or eliminates any bad odors. Our system was planned by licensed engineers and the plans approved by the State Health authorities. A county health officer invited me to accompany him to inspect such a system now being operated by the Phelps-Dodge Copper Company which they installed for their company town. When I stood near their lagoon I could smell no offensive odors whatever. The lagoon was concrete lined, neat and looked like a city reservoir, with a chain-link fence surrounding it. We are fortunate in being able to install this type of system, and at a very nominal cost. It will cost us less to install than it would to put in our own individual septic tanks.

It should be obvious to others, judging by our plans, that we are trying to be as self-sufficient as possible if and when our national economic and money systems break down. However, we must all work together, financially and otherwise, to be sure that no time is wasted in getting all these facilities under way. We can use some voluntary manpower, also, to help with these projects. Please let us know if you can help us.

JESUS-SANANDA: THE TEMPLE OF LOVE AND UNDERSTANDING  
OF THE WHITE BROTHERHOOD

Tonight, my dearly beloved children of Light, I have been pleased to lavish love and peace upon this gathering. It is your just reward for the many weeks of service, of hard work you have given Us. I am positive you have all been aware of this peace. I Am Jesus - Sananda.

There comes a time when rest is needed. Tonight, for you, was one of those times, and We were pleased -- most pleased -- to be able to project to you First and Seventh Ray activity, Peace, Love and Light, that you may be sustained for the days ahead, that you may be fortified, that you may be enlightened.

So not take upon yourselves more burden that you feel you can carry. You have been prepared; you are growing. Your ability has, of course, been enlarged and still I caution you, do not reach beyond your understanding! Spirit doesn't requir this of anyone. Project what you feel and then relax.

There are many forces, of course, in action upon the earth plane and not all of these actions can be averted and denied. We are doing all that We possibly can do to avert catastrophic experiences here, but it can not all be delayed or denied. We want you to know this so that you will in no way feel that you have failed in any aspect of your Light and Love projections, for you have not. For what is ahead, of course, is being diminished in this overt action, and Spirit always has the power, when directed through the minds of the agents of good, to eliminate much, but Earth has set a very intense pattern for itself and it can not all be eliminated. This is the message for tonight that I bring. I bring you peace. I bring you love. You are the Light; I AM the Light; We are the Light! We are the Light in action, as much as We are Love in action! Learn to relax in that Truth! All is well. God is blessing you. God is. Love!

AMEN.

Channel: Satanna

- - - - o - - - -

Good evening, my friends (in the Temple of Love and Understanding of the White Brotherhood). This is Sutura! I have been very busily occupied here on Sananda's ship. We have been recording your reactions to His message. It is most interesting, I may tell you!

You are of one mind in your courage; you are of one mind in your love; you are of one mind in your obedience to the Will of God and this We find most vital to what We must do in Our projections.

Wouldn't it be wonderful, We think many times, if all of Earthman could be this united! We see this unity in the Light workers throughout the Earth plane; and this Unity, though you believe you are quite small in number, does much to alleviate what people seem to feel is inevitability. Nothing is inevitable but the Will of God and We can defray many actions of negativity through such unity of purpose as you Light workers display.

We know We have chosen aright, by Our choice to project as We have these many weeks. You have been aware of much, but there is much that you, of course, can not be aware of; there is no need. That is why we have many in number to serve, many who have answered the call, each one doing his job, performing his own function, does accomplish what We have set out to accomplish. So, as individuals you have your own feelings and that is as it should be -- many aspects of God working for the One Goal to clear the way for the fourth dimensional frequency manifestations upon the earth plane. Clearing the way, of course, involves many things. You need only be aware of what is brought to your conscious mind. What the fellow next to you feels important to him may not be of concern to you at all. You do your part..... and you have done it to the best of your ability; We ask no more; God asks no more.

Tonight there has been a gathering of several space Brothers upon this ship and from here They shall leave on Their own various missions, encircling this globe, projecting the Light and all that that entails.

The Light means many things to many people, but en-light-en-ment is what is accomplished. We have been pleased, as Our Brother, Sananda, has already told you, to project Peace here, and We have done likewise to Light workers wherever they are on this globe,

wherever they feel they are alone and working alone. From this night forward they shall know they are a necessary link in the Light Plane. They shall no longer feel useless -- and all do feel useless at times. When we look at the whole picture it is quite astronomical, but thank goodness each one has his own work to do, that the whole may be accomplished!

Peace has ascended upon Earth this night and as you have wisely felt, yes, it may well be the quiet before the tempest! You are prepared. You are, as I said, of great courage. I am so happy to see we have recorded no thoughts of fear from the Light workers upon the earth plane. What a reward that is to Us! It proves that you have received the messages that We have projected, not only through (telepathic) channels -- the instruments, the broadcasters of the Word, but you have received within your own consciousness the Truth and the Truth has set you free from all thoughts of fear. That is a wonderful thing. Now, do it for your brothers! Project your own feelings, that is all that is necessary, your own feelings. Be true to your high Self and you shall be instrumental in removing the fear of many, many souls, perhaps not so much in the conscious mind, but in the sub-conscious mind they shall be set free. And when the time comes for action, they will act in a sensible, calm way; that is good!

When you speak the Truth to your brothers and sister, you shower them with the grace of Spirit. Yes, you shower them with the grace of Spirit, of your own Christ! You are a blessing unto your brothers; it matters not if they know it in their conscious mind. Sub-consciously they know when you have passed by, when you have sent them a thought, no matter how far they may be from you and they feel a moment of peace. It is a great gift, my friends, that you can give this. You have received, so you give, just as We do.

We shall pass unto you all necessary information; you shall receive intuitively your own guidance. Remember, We do not need the spoken word to communicate with each other; all We need is unity of purpose and that you have, that the Will of God may be done upon Earth, that He may be glorified.

We love you beyond words. We appreciate you more than We could ever say. You stand for something wonderful and good. God bless you each and every one. I am at peace with you. I Am Love. I AM Light. I AM your brother, Sutura. Goodnight and amen.

" I COME TO YOU IN THE SPIRIT OF MY LOVE"

The Christ Speaks to All the TRUE Disciples of Light!

As I foresaw these centuries ago, men and women are proclaiming to be the embodiment for My Spirit -- the Christ Spirit. In many areas of the world are those who say, "Here is Christ" or "There is the Christ." My beloved disciples, you who are aware of Truth, of the reality of My Presence among you, know that I need not take on the physical form of man in order to help My people during this dispensation. And you must warn others who are being deceived. When I return visibly (and that will be after the present dark age has dissipated itself and the blessed Golden New Age is with you) it is as I told you in other talks: I will descend from the Higher Realm and appear to you with the bands of Light Workers who are gathered with Me, some of them now on the Earth who will transcend and make the transition and work with Me until the time of My appearing. I will not be changed; those left on the planet, will have been transformed to an immortal body and will see what he presently cannot see due to his carnal covering which blinds him to Reality! Understand what I tell you, My chosen ones.

I speak through many dedicated disciples in the meantime, just as I did in days of old, but there are those claiming to speak My words who are in league with the Dark Forces and deceiving many. Disciples, always "ye will know them by their fruit." This is the yardstick to measure all things by in the realm of spiritual thinking. The 'fruit' is not what some may think. "By their fruit" means by their acts, by their deeds towards others, by their way of life, by their humility, by their simplicity and non-complex manner of life amid a society infiltrated with competitive tactics.

History records well the life of the Christ-Soul during His spiritual mission when He dwelt in His last Earth-body, known as Jesus. He did not collect material goods, and was unconcerned about the economics of his society and his followers. He concerned Himself only with the spiritual feeding of the flock who came to Him. He had given up home and family and the comforts they provide in order to devote full-time to the mission of His Father. Yes, as Jesus, My life was simple, unadorned and totally dedicated, and I admonished My chosen disciples to follow the same way even when I departed from them. Therefore, My beloved, can you envision that suddenly I would change and advocate the promotion of large buildings, of profit-making concerns, as some say who claim to be My voice? No, I have not changed; My way is Light and Truth with utmost simplicity.

By their fruits ye shall know them. My true representatives, My true disciples will be unadorned beings, unconcerned with expensive jewels, not desirous of elaborate homes, nor involved in competitive business operations. If they have been granted worldly wealth they will follow the suggestion given the rich young ruler, and distribute to the poor. This is how they can follow Me.

Disciples of My teachings will not make a 'god' of intellectualism; they will, instead be 'as little children, for of such is the Kingdom of God'.

My true disciples will not take My plain and unadorned teachings and make of them complicated documents. They will print what I say and permit the heart of each man, woman and child to understand it as he will for I will guide them from within where I eternally dwell. Neither will they isolate a passage of a lesson to elaborate upon it. Such beings are practising a form of 'dogma' and My disciples should have no part in them. I tell you, there is no light in those who so practise.

Yes, My disciples, chosen by the Father and Me, beware of the 'false prophets' who are rising in number during the latter days of the Age! They are deceiving many with their flattery, feeding the ego of love-starved ones who are blinded by their own desires for recognition!

The Spirit of Truth which flows like a fountain from the Father is pure; it changeth not from one generation to another, and fulfills the spiritual needs of every earthling who will be nourished by this Truth. It needeth no interpreters, no spokesmen. It is simple and given in language easily understood. My blessed souls, if it is not thus, it is not of My mouth! My words never condemn nor does it flatter the ego of man. I give Truth that it can bless man and perfect him. I tell you what is righteous, and just and good. My Words in essence are as spoken nearly 2,000 years ago. I have not changed. Truth has not changed. It is man who has made changes from simplicity to complexity, and from complete faith to doubt. But Truth never changes, It is still the same today as yesterday and will remain the same tomorrow. It is man who must change, who must return to the Way of Love, to the Way of the Father, to the Way I am in your midst to rekindle in you! But I am among you IN SPIRIT ONLY. I repeat, I do not need a physical body to travel in your dimension. I communicate through many vehicles in order to spread My Message to My people, but no one vehicle has been or every will be chosen as My body for I do not need a body of your dimension. Understand this and let no man deceive you! My concern is of the Spirit, Immortal, while man too often concerns himself with mortal things, hence visualizes Me in a mortal encasement.

My message is Light and My Spirit is Love. I speak not to flatter this one and that one. I speak to admonish, to instruct, to reveal to man what <sup>is</sup> good and elevating to his soul. The vehicles I truly speak through understand this and know that I waste no time in idle praise of them. They are beyond this -- above the physical needs of being honored by titles or praises. They have been willing to cast ego aside in order to do the work of Love, to spread the Gospel of Truth to all who will listen. There are many who are so dedicated, many whom I speak through. They work in humble quarters; are often persecuted by those who are in league with the dark forces and using My name, and are often looked upon as strange beings by their community. But you who are My workers, be courageous in the face of these 'sufferings'. Remember, I suffered thus when encased in a fleshly body.

The disciples of 2,000 years ago also suffered many indignities. Continue to be strong and to cast your Light in the dark recesses, thus casting the darkness out.

I did not promise an easy way when I chose you as My Disciples. I told you the way was hard and narrow, the pitfalls many, the 'thieves' (who would steal your soul) loitering at every corner. But I promised also that I would never leave you! That is why I am in the dimension above you, that I may be everywhere needed at one time. Yes I can be millions of MySelf at one time through the power vested in Me from this cosmic realm! I can be with you in your home, and with a beloved across the way as well as in the Far East, the Near East, in Europe, Israel, etc.! This is a marvel yet incomprehensible to man, but it is so. Because of man's limited vision he must put Me (and other Ascended Masters) in a flesh body, else he feels that I am not with him. How deceived he is. Can he not understand what limits he puts upon Me then? Oh man of Earth, ye are My people, so listen to what I say to you! Feel My presence within you for therein I dwell if you open the door of your heart, at which I knock and knock. Do not put a lock on that door. Open it wide and visualize Me as I enter in, spreading My love and comfort to you. Do not doubt any longer. It takes but the twinkling of an eye for you to accept this Reality of the Son of Man as part of you. Do not look here or there for Me. Do not search strange lands or your country, for that is wasted time. I am the Seed from the Father, Truth, the Christos, and I am everywhere! My peace I leave with you... and My love... !

Dear Friend in the Light:

A complete transcription is being made of the entire service of the Christ's Truth Church & School of Wisdom that was held on October 25th, 1970.

Because of modern technology -- the ability to preserve every word that was spoken by the great Masters of Wisdom on this memorable occasion -- we are thus able to duplicate the entire service in printed form.

I, personally, wish to send out a mimeographed folder (eight or more pages in length) to all Light groups and to any student in the Light who wishes a copy to be sent and so request it. (If any one wishes to contribute towards printing and mailing costs, it will be gratefully received, but this is not expected.)

Send in names of friends who are in the Light but who may not be on our mailing list. I will send them a copy of this folder plus a bulletin explaining our great project.

Blessings in the Light,

*Rev. Wayne H. Taylor*
