THE GREAT LIFESTREAM

Lesson No.5

Channel: Sari

Radia speaks: Earthman wonders how other planets are governed. We can speak only for our own planet and for those we are familiar with. However, we are given to understand that the methods by which any planet is governed depends wholly upon the evolvement of a given planet and its inhabitants. Without spiritual awakening, there is bound to be trouble everywhere. On more evolved planets, rank is determined by our auric colors. And these colors are analogous to our degree of spiritual evolvement. We say 'spiritual' because we must include all of our higher bodies. No one can ever feel another here because we have developed inner sight. We see and interpret colors within one's mind. Therefore, there is never a need to hide behind a facial facade, as earthman does. When you permit God to overshadow you at all times, there is never a need to wear a different mask for each occasion. When mankind cleans up his auric vibrations, he can be his true self and let the pure light of spirit shine through. You must all spiritually evolve to accomplish your purpose.

As you have a president to govern your United States, and other countries have their rulers, we have our god but he/she governs the entire planet. You see, our god knows how to govern all for this greatspirit has been taught in many incarnations, everything he/she needs to know to help the people evolve. Our god knows all about government issues, education, universal religion (which is, primarily, brotherly love), a deeper concept of philosophy, psychology, astrology, numerology, alchemy, ecology, astronomy, music, and the arts. Our god knows esoteric art to the point of reading people's auric emanations, at a glance. Deep perception is needed to help our god evaluate a person, or a given situation in a very short time.

Rehabilitation of earthman is a slow, painful and oftentimes a devious process. We say 'devious' because your parental and scholastic methods are very dated. In other words, you have outgrown those methods of education you needed up until the present. Earthman tends to tenaciously cling to old habits because he fears the unknown. He feels that his old habits are tangible and the unknown is intangible, but he must gain more courage to drop the old habits and accept the new standards of living. Only in this manner will he evolve his soul as the only method to expand his spirit.

Yes, a god of a planet must be wise in all things. How else can he / she evaluate? The answers which come from a god are concise and quickly understood. So our people do not have a long drawn-out superfluous education. Our education is creative.... to express the God within each one in the way any person wishes to express so long as his chosen way graces the god of our planet and would please the Supreme Director, who is God of All gods and all space, etc. As our god evolves, the colors evolve. This is good advice for everyone, for as you evolve there upon Earth planet, your colors evolve. Why? Because your colors gradually operate with higher rates of frequency, and ultimately your bodies become LIGHT BODIES. And your Light bodies naturally gravitate away from density. There is no weight to your astral or etheric body, nor your mind, soul, and spirit which comprise your higher body, so this is how you can travel. These higher bodies have no weight to pull you back to Earth, do you see?

If any of you wish to become a god of a planet, you can. But it will involve many meaningful incarnations. You cannot have a smattering of knowledge. You must really know

everything worthy of your soul. To become a god involves a great amount of time and effort on the entity's part. Stick to it. Our gods are seers and prophets of the highest order. And his higher body is so developed that he/she can soar any place in or beyond our galaxy even while he is attending to business, here. This is possible because we all have two levels of mind. As you are told, you have one Universal Mind. However, there are several so-called layers to the one Mind. And these layers operate through our nervous system -- the great Universal switchboard. Lower rates of electricity operate in man's lower consciousness, whereas higher rates of frequency in electronic energy (of ether) operates in man's higher body. A more finely-tuned body must operate with higher rates of frequency.

On evolved planets, mind reading begins at an early age. This art is awakened in children here at the age of three or four years. At this early age, our children know about our god and how he receives his direction through his superior, and how the superior god receives his/her direction from his superior, and so on. But all gods receive instruction and great love to sustain each one through the Supreme All, or God of All of us.

Our little children are taught about brotherly love and its benefits. When our children feel love, they want to share what they know and what they have, with their 'brothers'. They are not forced to share. We teach them how to want to share. We have long ago learned that when you force a child to do something against its nature, you warp its creativity. You dam the creative flow, you see. If your children show a desire to become a god, the parents realize that their offspring has experienced many fruitful incarnations and this desire is treated with the utmost respect. The child'd computed record tellshim/her what h/she wishes to become in life. We always go along with Nature and never against It. This is why we suffer no frustration as you earthlings suffer.

Everyone on every planet must earn his role. Our instructors never allow a child to skip a grade no matter how intelligent the child is. Each grade is for specific roles in the child's education. There is spiritual evolvment correlated to each grade in our schedule of instruction.

Just as your rulers need many, many helpers, our god needs many helpers. The Hierarchal Board can quickly vote in their officers due to the officers' colors in their auras. There is no guess work in our perfectly run government because the auric emanations of each soul designates their worth. And this is why our governments run smoothly. Oh, we have a few problems but we can quickly correct these. We would like to point out here that everyone has a predominate color running like a thread through your mainstem that you call the cortex or your seat of consciousness. See your spine as sort of a trunkline with tributaries (nerve centers) and trillions of messages forever disseminated through your trunkline to every minute part of your whole body, and reaches space, also. And when the higher body is developed, IT can reach us and other planets.

Your silver cord is not only your safety cord with your direct link to the god of your planet, but this cord is also a link to us, and/or your gurus, etc. The Supreme God is likened unto the Father-Mother Parent Supreme, linking you to 'Him-Her' like an umbilical cord or the silver cord that cannot be severed. You may ofttimes turn away from your god but you can never get too far from His sight for, when you get into trouble, He will pull you out. So none of you can get lost..... not ever! So work hard, all of you. Forget about prestige jobs and concentrate more upon prestige colors!

We here pick up a question by the channel. She asks, 'How is a god voted into office when it's time for a god to be ruler of a planet?' The Supreme Director, or the God of All, creates a planet. The spirit of the potential god travels astrally to this new planet and he/she disseminates spiritual Light to the whole planet. This Light activates cells, water beds, minerals, plant life, etc. Then when this is accomplished, entities are brought to this new planet in space ships (gigantic ones beyond your concept of size) and pro-creation begins, after the god of this planet has established residence. This is the basic principle of what goes on. Of course, a Supreme Council Board designates who will become god of a given planet. We will show you how this is done. The one who will become god of a planet sits at one end of a long table. The god of another planet sits at the opposite end. The Council Board members, all learned and wise men and women, sit at the sides of this table.

All are quiet, for telethot predominates. The god is quickly voted in and the initiation is recorded in the akashic records for all time.

Inhabitants of the planet where this god-initiation takes place causes much elation. The people of this planet rejoice in great temples where they worship their god through love, art, music, paintings, and all creativity to grace the god of their planet. And when this god takes charge of his new planet, he/she radiates great love, therefore, his people respect him out of love and honor. This great god is comprised of love and wisdom. He wishes only to serve his Superior god through love and devotion to the Supreme Director, of course. It is a privilege to serve his people, for in this manner, he serves faithfully his Superior god, do you see? Women have the right also to become gods of a planet. Women here are as highly respected as men because there is no human ego competitiveness to deal with.

So many of you wonder how you and your 'brothers' are one. The Supreme Director is the lifestream, and your bloodstream is analogous to this great lifestream that is, in effect, universal. It is the Life Force of the Supreme God that gives vitality to your bloodstream, therefore, in this manner, everyone becomes a 'blood brother'. Is not this a tenable hypothesis? This is how plasma often saves a life, for plasma constituents are comprised of God-vitality that doth the healing.

In closing this discourse we wish to state that we do not set aside one day of the week for worship, because we worship our god and the great and wondrous Supreme Deity every second of our lives! Each and every second of our lives we worship, love, and respect, work for and with the great Ones, to grace the Supreme Parent. Therefore, our temple is within our higher body where God reflects His image to each of us, and you.

Although your beloved Yogananda and I have given this discourse, your beloved Master wishes to speak alone, now:

"God is the great perpetual wonder of the Omniverse. God is the heart-beat of us all. We are all throbbing live 'wires' in God's world of electronic vibrations. Your awareness of what you are, truly, will evolve your bloodstream, and when your blood evolves, this lifestream operates with higher rates of frequency which a more finely-tuned body needs to function properly. In this evolvment your blood gradually turns to golden, the color of the spiritual lifestream.

"I come to you always in the spirit of life which is the spirit of love. To truly live, you must want to love the All. I love even the so-called lowest creature, for deep within the core of each entity is hidden the Father's Plan. So what you call a low creature is not that but, indeed, God not yet expressed in this poor unfortunate soul. Project your highest Christ Light to all unfortunate individuals to help awaken their God-Self. Bless you one and all. I am your beloved Master, Yogananda.

THE DARKNESS HAS NO POWER

Excerpt From Message given by Sananda in Voice of Universarius
July 1972 Issue, P.18.

Give all of this up, I beseech thee. Learn that the way of Life, the way of Love, is the only way. We are all One together in an influx of Light into a dark place. The darkness has no power unless you give it power, seeming power, by turning thy attention from the Father to thy form. Release your concept of your association with your body and let the Christ within you take control of those bodies. It is the Christ within. And you, as you conceive of yourself as being that which you in truth are, and findeth peace, prosperity, and release, your ascension will come upon that moment that you fully release all concept of personal endeavor, personal control, personal ability to see or know, personal ability to evaluate, personal effort of any kind. Conceive of yourselves as channels of Light, for such each of you are.

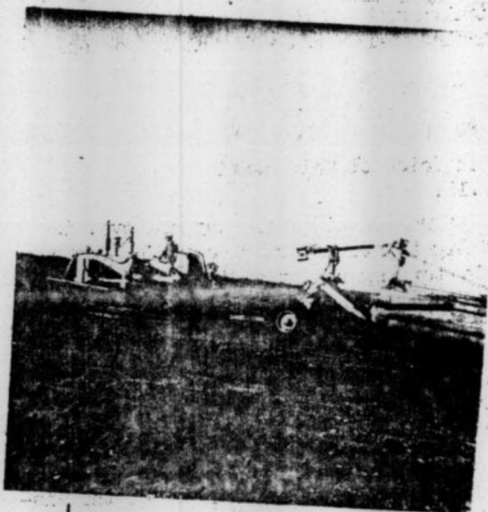

You are all channels of Light, for one manifestation or another, depending upon the discernment of your Higher Self, your true Self, your Father, That from which you came.

PHOTOGRAPHS AND PROGRESS

As you can see from the pictures on the previous page, there are signs of activity at headquarters and on the community property. During the past two months or so, several people have moved into the trailer park which is our headquarters. Those in the group photograph are:

Front row, left to right: William Switzler and Frank Sugarman. Back row: Elvin Noel Althea Noel, Mary Jane Switzler, Helen Sugarman, and Wayne Taylor. These are our present headquarters staff members. These people will move onto the community property when the utilities are installed and everything made ready.

The two men with the surveying instruments are William Switzler and Elvin Noel who have been laying out the lots and filling in details on plans for the water and sewage system lines and connections, etc.

One picture gives a distant view of the trailer park where our staff members live in their own mobile homes.

Another picture is the front view of our headquarters office, patio, also guest cottage and storehouse on the left. Since this photo was taken about two years ago, there is a nice lawn and four ten-foot trees with so many branches and morning glory vines in evidence that one could hardly see the mobile home (office) in back of the patio. The lower picture on the right is yours truly, Wayne Taylor, in front of the patio.

We are just about ready to start work on putting in our water system and sewage lines on the several acres that have been cleared so far. We should have these pretty well done by the time the next issue of the Golden Dawn is sent out, except that the excavation of the lagoon for the sewage system will have to be done to complete the sewage system. Additional money will no doubt be needed for this. We are depending on our members and prospective members to continue sending in their membership fees and contributions to keep this project moving ahead. If we are to have our land ready for houses, apartments and mobile homes without any delays, each must do his part as our partners in this project as the money is needed. Following completion of the water and sewage systems, we will be constructing our electrical and gas distribution systems which will require additional thousands of dollars.

PHANTOMS OF THE DARKNESS

We recently received a most disheartening letter from a friend and leader of a Light group in another part of the country which seemed to be singled out for attack by members of a Satanic church in their area. First, a saint-like member was murdered for no known reason. Then there was a long series of serious accidents and near-accidents that couldn't have been mere coincidences. Everything pointed to these tragedies being caused by these forces of darkness. The results were so shattering that the work of that group became seriously disorganized. While they would not acknowledge defeat, they were set back in their work, at least for the time being.

We know that in these latter days, the forces of darkness will attack every Light student and every spiritual activity wherever and whenever they can get their 'foot in the door' to do so. Even we who feel we are in the Light can, without realizing it, make real and give power to these man-created 'phantoms of the darkness' by thinking about them and dwelling on them. That is, we magnify them and give them power by acknowledging their reality. Without this support, they return to the nothingness from which they came. This spiritual leader wrote us and asked for our prayers and help. In entering into prayer on her behalf, the following message was directed to this leader through our own channel.

MESSAGE BY MADONNA, THE LADY OF MERCY.

My dear child, yours is a problem that faces many Light groups throughout the world. For though you do good works in uplifting yourselves and humanity as well, still it does not suffice to call upon the White Light of Christ to protect yourselves when dealing with forces of darkness that you give recognition to.

As you give life to these Satanic forces so do you give them power. As you give them power, so do you give them the force and the key to enter into your holy temples. This they

cannot do if they have not life, and the life they have is the life that you give them. God is the giver of Life, and we are but the receivers. We have not the right to give life. And so if we give recognition to a condition or a force, either good or evil, then we give it life and must live with our creation.

And so have you recognized the evil in your locale and thus have you given it life and power. Thus, as you war against this power and ask the Masters to destroy it because it is not good, the Masters are helpless to assist you in battle because the recognition of that existence is still in your conscious mind.

It is not up to you to judge what is good and what is evil. This is up to God, for what God creates is good. What man creates is neither good nor evil, but only as he judges it. And so as you absorb the Light and raise your vibrations, so do you absorb the darkness that surrounds you for darkness as well as Light is absorbed by students of the Light. If you recognize the power and life of that dark force, it enters your holy temples and makes you powerless to control it. If you do not recognize it then it becomes transmuted and is absorbed by the Light.

We of the higher realms are facing the same conditions of earth, for the dark forces are formed here (in this realm) due to the thoughts and actions of earthlings. So, as we try to transmute these negative energies here, still there are some which escape our watchful eyes and descend upon earth to enter un-enlightened mortals. Earthly mortals have created these entities by their Satanic actions upon their brothers, be they vegetable, mineral or animal; and though we attempt to minimize their potential dangers upon earth, still they have the power because mortal man gives them life by their negative thoughts, actions and deeds.

We, here, do not give any of these life as we try to transmute these energy force-fields. And we call upon even higher beings to help us to transmute the energies. So are you to do the same. War with them if you must, but do battle with them by not recognizing the power or the negative condition. For as you do this, they will have no life, no reality and thus they cannot harm you.

Be certain and know that they do not exist in your thoughts, for they do not exist unless you give them life. Life is Light, and this is why it is able to enter into your holy temples. Life is also energy and thus the energy which is absorbed by your being is contaminated by the negative energy which you unthinkingly gave life to.

The more you are in the Light, the more sensitive you become because your bodies cannot withstand the impurities of earthly matter due to the frequency of your vibrations. Therefore, you must be careful to keep the vigil and not allow negative conditions to enter your holy temples. So judge not, for as you judge, so shall that condition turn against you, and thus shall you be judged.

All the Light students, as well as your, yourself, must become aware of this law. They must be trained and warned to keep alert as to what they allow to enter into their consciousness. Call upon the Masters and the Violet Transmuting Flame to cleanse your bodies of all impurities that may have entered into your holy temples, without giving these impurities life, thus power. Ask them for their healing rays to purify your consciousness and your souls, and also forgive yourselves, not for giving the negative conditions life, but just forgive yourselves for judging what is good or evil, then judge not!!! Decree this act of the Masters, to cleanse your beings, several times during your meetings.

Bless you my children of Light. Defend what thoughts shall enter you. Watch your actions and deeds. Judge not. Mercy is upon you, and shall watch over you.

I am Madonna, the Lady of Mercy.

OUR MAILING LIST IS BEING REVISED

As explained in our No.6 issue of the Golden Dawn, hundreds of names were given to us from time to time to place on our mailing lists without charge. Many of these people have never written us expressing appreciation or desire to receive future issues. We cannot afford to continue to carry the financial load of printing and postage for these hundreds of subscriptions that are not self-supporting. Therefore, starting with issue No.8, many names will be dropped from our mailing lists unless we hear from these people to the contrary.

If you do have friends you feel would be interested in subscribing, we will send them the first three issues as sample copies without charge. There will be a rubber stamp notation telling of our subscription policy. Thank you.

A SPACE BROTHER SPEAKS ON THE SIGNIFICANCE OF THE DAYS AHEAD

XANTES. Beloved beings of Light: I have come to speak to you of the significance of the days ahead upon the planet. We knew that one of you, in this particular area, would be alerted by your higher consciousness and be awakened at the time when our ship was in full view and beaming radiations out to this area.* This hour (3:30 A.M.) was chosen because of the serenity and freedom from mortal consciousness. While physical beings are in the sleep state, they can more readily absorb (through the subconscious) a greater amount of the radiations.

It is our desire to assist in every way that we can the peoples of Earth in the preparation that is required of them to 'weather the storm'. From now on, more and more will be the rapidity of changes in everyone's life as well as your nation's -- yea, even all nations. Your news media tells of the fast-moving events in relation to the withdrawal of troops and armaments by your country from the war-torn area. This is a step that has been awaited by all of the space brethren as well as the hierarchies under whose jurisdiction planet Earth is being assisted. This move is but the beginning of many changes of policy. It can be likened to a landslide which starts an avalanche of debris, and what seemed located permanently, to move by an acceleration of force toward its 'doom' or destruction.

Though the cessation of present war activities in Vietnam is a great step in the betterment of relations and humane justice, the aftermath will call for tremendous adjustments in your country's affairs as well as in the lives of countless individuals and families. This is a part of the change-over which of necessity, must come to the planet Earth. Now, more than ever, is needed all the prayer-power force that can go out from Earth beings. As but a comparatively small percentage of the world population are aware of the reality of the ending of the old, and necessity for the preparation required for the oncoming new age, it is up to these to increase their efforts in every way possible in the continual sending out of love and Light to the entire Earth and all life on it.

There is yet time to reach those who are groping and searching for a better way of life. Each of those who are consciously aware of the planet's need may be tested and challenged in various ways to prove his faith, courage, stability, alertness, etc. This is all a part of the 'tempering' required to strengthen and prepare for the changes ahead.

Needless to say, you are not alone. Though functioning through the limitations of a physical body, there is ever a 'core' of energy, the life force and creative energy working in and through that provides the strength, fortitude, and power needed for the 'works' that you do and which are required of you as servers of the Light. Your individual Christ Selves, Master Teachers, the Hierarchy, and band of helpers, as well as those of us you call Space Beings, are ever ready to assist and serve in whatever capacity required. Conscious attunement with these and us, and prayerful supplication for your Earth brethren, can bring about an ever-increasing momentum of power for good, and hasten the day of the deliverance of your planet into the beauty and purity of the Golden Age.

May the Light of the Radiant One ever uplift you into higher dimensions of consciousness.

I am XANTES, of the craft in this area, serving to cleanse, purify and 'charge' it in preparation for its part in the coming age.

* Upon awakening at 3:30 A.M. the channel's attention was drawn to the window through which she saw a large, brilliant orange-colored light. It was pulsating rhythmically and moving slowly in a northerly direction. It appeared to be about a quarter of a mile away.

EXCERPT FROM DISCOURSE ON THE SEVEN BODILS OF MAN BY SRI SOUDAH.

The silver cord comes down from the I AM Presence, through all the other bodies, into your physical vehicle, and terminates in the left ventricle of your heart where is situated the seed atom. The seed atom is indestructable and contains all of the records of all the embodiments in which you have ever participated.

The Causal Body contains all of the so-called 'good' which has been accumulated in all the physical embodiments and sojourns in the spiritual realm. It is a composit accumulation of knowledge, wisdom, understanding, Light, power, goodness, etc. which is contained in your so-called akashic records stored in the Causal Body.

(From December 1970 Voice of Universarius)

KUTHUMI: MAN CONSTANTLY CREATES, SOME IDEAS CONSTRUCTIVELY, OFTEN DESTRUCTIVELY.

(Also Some Questions Answered)

As you all know, Earth was created of air, fire and water, the formation of which created a manifestation that is recognized by the five senses of our physical beings. Such beauty was created as all of us can see, all of us can smell, all of us can taste, all of us can touch and all of us can hear. Such beauty, such auras, such vibrations that we feel with every one of our five senses. We need but to close our eyes and still we can see. The same is true of every one of our physical senses. Yet there was much more created than meets the physical senses. For as we talk, think, feel, hear and see, we do all of these things on yet another level of consciousness of which many of us are not aware. For we are like a volcano which is ever seething to erupt, and each time we speak, a form is taking place, bursting out of this volcano.

The same is true in thought, perception, ideas, ideals. This eruption is constantly going on where there is constant creation, and creation is now, not had been, nor will be, but is ever now. And as we think to use this term mostly in this discourse, we are sending up the forces of air, fire and water, for these three elements are contained in every form of creation, even in thought. So this form comes out of this lava in molten form from this volcano, and it flows over the mountain and down into the valley until it covers the whole Earth. So do our thoughts, our words of speech, our mental ideas.

The Earth is not God's creation alone for He placed us here in order to preserve it, to multiply the beauties thereon, to multiply the atmosphere about it, to multiply the aura of peace and harmony and love. And so we as volcanos, actual living volcanos, are constantly creating the forms that appear about, around and on the Earth. So we must watch our thoughts, watch our speech and watch our actions and deeds, for the things about the Earth are the result of our own creation and not God's. Would we wish to have love, peace and harmony about the Earth, about our own environments, in our own neighborhoods, on our own streets, in our places of worship? Then we must think spiritual beauty and love, watch our mental concepts. We must be as Gods for we are gods on earth, each and every one of us. And so we must act in wisdom and understanding for our fellow men, our fellow creatures, our fellow brothers and sisters of nature.

I am pleased to tell you about this, this evening, for there is much happening in the world that alarms each and every one of its inhabitants. It is each and every one's responsibility to maintain the peace and harmony that was here from the beginning of time, even long before that peace and harmony was created in the mind of God even while He slept and dreamed of His creation. Think, dear people of Earth, and be at peace with yourselves and one another. Kuthumi speaks. Good night. Are there any questions?

Question: Many readers of our Golden Dawns are concerned about the approaching three days of darkness, if there are to be the three days of darkness.... if there are any signs along the way. They have read the prophecies by Jesus-Sananda and enlarged upon by Hilarion. Nothing has been said for several months along this line the way things have been progressing, or if some of these prophecies or conditions are being mitigated (lessening). Do you want to say something along the line that we should do something to mitigate them. Should we at headquarters, work along as fast as we can to get these utilities ready, to prepare the land, etc.? In other words, do you want to bring in something and add anything to what was said between the time when these prophecies were given and now, that is, bring us up to date on these matters.

Kuthumi: I have already warned and spoken tonight of the causes of the so-called three days of darkness which will not be three days in earth time, but three days in Spirit's time in which man shall have warnings of what is yet to come. Man has seen what he has done in the past and what has come as the result. And so he is in another stage of seeing what will come of what he is doing now. And it shall get yet worse if we do not heed my words, for mankind is bringing destruction upon himself by his actions, by his words, by his very deeds. Mankind now is in a greater state of development consciously than he was ever aware of in the past. Mankind is more intelligent, more perceptive, more intuitive. These were given

to him by the grace of God to overcome his course of action of the past. And so, mankind is entering into his three periods of darkness. Nay, not entering into, but is already in, and it shall get worse before it gets better by this course of action that he persists in. Is there yet another question?

Question: Are these storms we are having in this part of the country part of the first period of darkness, brought about by man's thought-forms of negation which they have put out into the ethers?

Kuthumi: Absolutely, yes! It is not only in this part of the country but in all parts of the world, where the ravages of storms, the forces of nature, are bestowing upon great multitudes in order to change their course of direction within their own lives. The first day of darkness is the wind and the rain among the earth inhabitants. I shall not tell you the second, but only warn that it shall get worse. I do not wish to alarm those of you who are here, for those of you who can hear, who are aware of the great sins being created within earthlings. But I only speak of this to you who are enlightened, to think more spiritually, act more spiritually, and be more spiritual in your daily lives, that you may overcome the vibrations of evil that are constantly permeating the ethers from those wicked multitudes. And the more that are enlightened, the greater the force to destroy it. The Light shall wipe out the darkness, but more and more of you must become enlightened and have constant conscious awareness of the causes that are ravaging the Earth.

Question: I'd like to ask you a specific question. Many people have read of the prophecies given by Jesus Sananda in which he gave rather specific statements regarding the destruction of our big electric systems, the stock market crash and things like this. Are these specific things to be taken literally, or are they things that may happen at some future time? Incidentally, this prediction seemed to parallel those that were given by Bishop Koyle, a former Mormon bishop. Some of these were mentioned in a recent issue of our magazine. Are we to take these prophecies that seem to parallel each other very literally?

Kuthumi: Yes, they are to be taken literally. There is no other way that they can be taken. By the course of action that the children of Light do their work, by the force of their energy and sincerity shall these things be determined as to when or to what extent they shall take place. However, they may take place even though you do your work, but on a lesser scale, which in itself would appear from my standpoint to be a miracle.

Are there any more questions? If not, then I'll ask you once again to pray, knowing that by your prayers are you creating Earth. Or, I might add, re-creating earth with positive energy and force to overcome the creations already appearing of sin and degradation. Bless you all, My children of Light, and be at peace with yourselves. Once again I bid you goodnight.

THE LOST MESSAGE.

My glorious message of God's grace, His favor, His mercy, has become lost in the welter of ideas that man's mind has manufactured to support man's pre-conceptions based upon his faulty motives. The simplicity of My message has been obscured by the complexity that man has submitted himself to by his own creation. Few there be who have been able to resist the lures and attractions of sense, of emotional urges, of mental gymnastics, to hew to the straight line of my teaching. For these few the rewards are great. They have arrived at, not a body of knowledge, of teachings, of codes, of laws and precepts, but they have arrived at Me, and with Me they have all that I AM. 'Take Me unto yourself' I plead, but so few heed My plea. 'I AM what you seek', I say to them but they hear not, or, hearing, they deny Me. Of you, I ask only that you speak of Me and to Holy Spirit. You're not to argue or persuade. Yours merely to state My case. This is the work of my disciple, done out of love for his fellows to the glorifying of the Father.

HILARION SPEAKS TO OUR HEADQUARTERS STAFF
ON PROGRESS AND ON THE PROPHECIES

I am pleased with your discussions tonight. And what you have to say is right, and you are well guided; have no fear. You are not alone.

I am speaking through each and every one of you. The ideas you have are not of your own volition, but of our direction. You are discussing openly which is good. You are in unison with our direction, and we feel your positive force. We are receiving all of your channels into our domain. There is an open 'pipe-line' to each and every one of you. There is no obstruction. The channel is pure and clear. Do you understand what I am saying?

You are not to be afraid to say what you think, but speak openly and freely, otherwise the channels will be blocked. Whatever comes to your mind at these meetings, speak up. Be not afraid. We are divinely guiding you, so have no fear. Each and every one of you are being used. Each and every one of you is a channel, so whatever communication we give you, whether you believe them to be stupid, or intelligent, speak up. But do not allow your intellectualism to become involved. Do not rationalize these things in your mind, but as they come to you, speak up because we are divinely guiding you.

Any mistakes that might be made on your part shall be corrected in our time. But they shall be corrected, so you may make some mistakes in the beginning, but have no fear that you have failed for you will not fail as long as you keep your channels open and listen for divine guidance, as was discussed tonight earlier in the lesson, that was read from the book. Tune into your Oversouls. Tune into us, our divine guidance. We can reach this Oversoul of yours. You are not mortal beings; you are spiritual ones, and you must act as spiritual beings, for this is to be a spiritual City of the Sun and not an intellectual one, for intellectualism brings fear and doubt as well as faith and hope. But we wish to have only faith and hope of which is the substance of Spirit. Do you understand? ('Yes, very good'.)

Helen: Is the City of the Sun progressing according to the Hierarchal plan, I mean, as far as we are now? Is it going according to the plan that you are over-seeing?

Hilarion: Yes, it is according to the plan. There will be many more coming by the end of the year..... if there is a place for them to stay. And many more shall come by the end of next year. It shall be almost tripled and quadrupled if there is a place for them to come. And many more would even like to come now, but their ties are strong at home and they have not broken them as yet, but they shall. For there are still many questions that are unanswered in their opinions. And they have fear of making change, and some things they have heard from this place, but they shall be overcome because we shall continue to touch them as they desire to be touched, as they think more about this place, and they will be directed. And they will be directed even moreso if they keep their channels open. So you are to represent to these people coming here with the spiritual way of life, by keeping attuned to us, here in the divine realms, who are guiding you, and helping you to progress along the path you are progressing now.

Elvin: Both as individuals and as a group, are we doing as well as we could? Is there some way in which we could do a lot better?

Hilarion: You are doing as well as you can. You cannot do any more than you are doing, and you are also to be placed in this position of having patience and developing your faith, even moreso, and your faith in us even moreso, that we are working through you in our own way. It cannot be any faster, for we are dealing with many people, many minds, some who are attuned with us, some who are not, some who are slow and some who are fast. But this is the nature of man and we cannot change this nature, but only bombard him with thoughts and ideas, and if he is open to them, he won't react faster, but will do the work we encourage him to do. So you are to develop patience and faith, and everything shall work out as planned. Just know that it shall. Do you understand (Yes! Yes!)

My children, you are doing very well. I am very well pleased with what I have chosen to work with here. You are all a credit to this Hierarchy. We are very proud of you. Do not be depressed or discouraged. We are working with you. How many times can I say this? Would that you could just see how we are working with you. If you could see the lines of communication that are set up here. But you can't see it so you must have faith in it, and know that you are not alone, that you have all the help that you need, and all the direction you need, but you must keep in tune with this channel of communication. If you do not need me now, I shall leave.

Wayne: I would like to ask a question. According to the original message on the three days of darkness, we were under the impression that there will be very negative forces at play during the so-called three specific days of darkness which will knock out the generators of the major electric systems. Is this true? At least this is the impression that I got.

Hilarion: This may or may not come about. It is not to happen for some time, and is not our concern at the present time.

Wayne: It prob_bly won't happen this year?

Hilarion: It shall not happen this year.

Wayne: We have been given some information that perhaps we are in the 'dark days' now, and this should be construed as being over a period of time and not three specific days, or will it take place in three specific days at a later time?

Hilarion: No, it shall not take place in three days but in three periods of time which you are in now. There shall not be any devastation that you are asking about this year, nor can I foresee it in the coming year. But you are in a stage of darkness now, not you necessarily, but earth, in general.

Wayne: Are there three periods of this darkness that correspond with the three so-called days of darkness?

Hilarion: Yes, absolutely.

Wayne: Could I bring this to the attention of the readers of the Golden Dawn, for they naturally are thinking in terms of three specific days? Should I bring these points to their attention as you have brought them to me?

Hilarion: You can.

Wayne: In other words, that we will have a little period of respite, that we don't expect any serious upheavals this year or devastation or great suffering?

Hilarion: Very good, because we do not want people to come here out of fear. We want them to come here because they wish to contribute something to the City of the Sun. And if they bring fear here, even they are thwarting our intentions. We wish to have people come here in faith and in hope and spiritual love. But if they come in fear, they will be adding nothing but, moreso, taking away from the vibrations of this community. So it would be good to tell them this, to release them from their fears. And even moreso, if they are dedicated, they will come, and this way you can avoid attracting those who would come, otherwise, that may not be an asset to the community. So this would be an excellent idea which we have sent to you via the open channel. If you wish to have higher ideas and ideals enter into you, then please keep your channels open to us, and we will help you, I promise you. You are not alone.

Mary Jane: I would like to ask a question. I have a feeling that perhaps we as a group can do something together, on these evenings when we meet together, to raise our vibrations. What would you suggest we do?

Hilarion: I suggest that at the beginning of each meeting (at each of the meetings) that you decree that you know of our presence, and 'light up the sky' with your knowing, for as you 'light up the sky', you are also lighting up the universe. And I wish to see more of a knowing during the meetings of our presence and, of course, at the end of the meeting. For these are three waves of energy that you are sending forth. And though they are said to be three waves, they are more than three; they are one, a one-power force-field that is going out continuously for the amount of time that you are here, and it is like a shock-wave, an atomic explosion that goes even beyond the universe, but into the cosmos and all the planets that you cannot see or even feel, and this pleases us. But we wish to have more of this knowing. It is a beautiful sight to see, an extremely powerful force. Does that answer your question?

Mary Jane: Is there someone in the group that does know how this should be performed?

Hilarion: I believe all of you should know that there should be a positive prayer at the beginning of each meeting, a positive affirmation during the meeting, and a positive ending of the meeting by your affirmation of your knowing of our presence. A gratitude should constantly be reflected, a feeling of knowing as you enter into the home you come to which immediately sets up a radiating force-field of energy, of positive energy, of spiritual

presence, not only here but everywhere as it goes from here. This is what you are setting up, when you have a feeling of 'knowing' not just to come to a meeting but to know who is present, that God is present, that you are coming into a house of worship, a house of God. You carry God with you at all times, though you know not that it is so at all times. This is understandable. But at this particular time when you enter a home for a devotional meeting or whatever kind of a meeting that it is, you are to know consciously that God and all of His forces are present, and that means that love is present, peace is present, harmony is present. And there is nothing to fear, and all that will come to you during the meeting will be positive radiations from the Hierarchy to stimulate the meeting, to stimulate the ideas that come from us through the open channels, and it will make the meeting even more meaningful for you, and not just some place that you have to come each night, which could be a drudgery at times. Feel the radiance of God as you enter whosever's home it is where you attend the meeting. Connect with it and tune in for divine, spiritual, positive guidance.

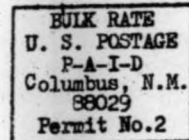

If there are no more questions.....

William: Thank you, Hilarion, for coming and talking to us tonight, for many of us have been hoping that you would, giving us great wisdom. We thank you.

Hilarion: I thank you for being able to be present here, and I thank the channel that I am using for letting me enter through him. And I wish to again repeat, before I leave, to keep your channels open, particularly at these meetings, and I shall try to reach each and every one of you -- not only I, but even God Himself, if you would let Him. I thank you, my children of Light, my emissaries upon earth for helping to build my city. Without you this could not be done, and for this I am grateful to be at your service at all times. And so I leave you with love, peace and happiness. Goodnight!
