KUTHUMI HAS US LOOK AT "PROPHECIES".

This is KUTHUMI speaking. Prophecy is given for all mankind, but there are few men on earth who have the ability to know that one does not depend on prophecies. One listens to them and takes them into account but then he should be able to turn within and become his own prophet. This is what every man should do. As man turns within and learns to develop the spiritual senses that he possesses, he becomes a greater person. He is able to foretell his future because he is guided by his higher Self, the Christ within him.

Man is great only to the extent that he becomes aware of the spiritual gifts within himself, prophecy being one of these gifts. Every man has these gifts, which he may not have developed or used but they are lying dormant within him. Man can develop these gifts by seeking for them, by giving them attention during his times of meditation, asking that he may become aware of them. Humanly man cannot attain to these gifts of the Spirit. They are given to man only by the grace of God, but when man makes the Divine contact and acquires these gifts of the Spirit, it makes his life a richer and happier one. He attains a greater comprehension of life so that all who come in contact with him will be helped. Prophecy may influence man, but each man must make his own life. Some lead a life of continual worry, some live a life of dangerous adventure and some lead a very calm and placid life. Each man's thoughts make his life and his thinking even affects his health. The more arrogant the outer mind the harder it is for man to use the gifts of the Spirit in a way which would be beneficial to others, because man himself controls his thinking to a great extent. But as in the case of prophecy, for example, man must allow the Spirit to take over.

Man's material mind and his human desires must be put aside, so that the God Spirit, the Christ within, man's higher Self can take over. This inner Presence can change man's circumstances but man has to learn how to enter in to the gates of his being. It is the knowing of the great Being within that distinguishes the spiritual initiate. It is the true knowing of oneself, knowing that one's higher Self is part of the great Creator, the Almighty One, the Eternal One or whatever name man may choose to designate it. As man gets to know his own inner Being he thus becomes tuned in with the Cosmic Source of all being and is able to foretell the future. But to acquire this state of awareness requires humility and determination on man's part. He must get rid of the human "ego". Man cannot have the gifts of the Spirit and his human ego working at the same time. One or the other must yield. But if man desires spiritual growth, he must let go the human "ego". This is the little self that wants to run everything. It must be recognized and applauded. But when man lives by his Inner Presence and becomes aware of It as his very life, he does not worry.

about prophecies pertaining to others. If a prophecy is valid he is aware of how much of that prophecy pertains to him. This helps each man to accomplish that which he is to do in his own life. As each man finds his proper place in life the whole planet is helped. The light and love from his life shines out into other lives. He lives not just for himself.

So when you hear prophecies from others go within your own being and determine how it applies to you. No prophecy is irrevocable. Anything can change, but the Light must be used constructively in order to overcome those things which have been predicted. If man is not positive then the negative must be worked out in his life. I would ask that man turn within and seek the development of at least one of his spiritual gifts. In whatever way the Spirit chooses to express thru you, be grateful. The inner Self is waiting and willing to help, but each man must seek. The outer and the Inner are really one, if only man could once realize this fact. I send love and blessings to all.

I AM KUTHUMI.

NEW SLANT ON UFOLOGY.

Earthman cannot possibly conceive the tremendous energy in Vital Force. Because we function in higher regions of the One Universal Mind, we are timeless and spaceless, and therefore not calculable by Earth's standards. Vital Force is light, and light is sustenance to mind, body, our spacesuits and craft. It is Light that creates luminosity to all of these, perpetually. Without Light it would not be possible to enter those 'holes in the sky' that are indeed polarized vortexes into timeless and spaceless zones where we feel right at home. So we are not concerned with Earth calculus that we, of necessity, must travel millions of times the speed of Light. The Light Body knows not distance as you calculate distance. At this time we prefer to give only a brief analogy of spirit in this particular discourse. We tell you that spirit is indeed the Vital Body. As you evolve, our light operation becomes more comprehensible.

The intracellular and molecular System of a Light Body is so finely attuned to the Cosmos, it is almost unexplainable until you 'move up' in consciousness as we had to. Man and his planet Earth lack Vital Force to the extent of becoming almost .. exhaustible. You see, negativism (black atoms) turns Light off. If you do not learn how to balance your light and dark force fields in thy holistic body and planet, you are in deep trouble. What happens? You continue to build up amentia to crescendo! Again we remind you to unleash those white atoms that have so long been trapped in thy higher body. Yet, these white atoms comprised of Vital Force are atomically combustible, so awaken thy high self cautiously. And when all of you finally decide to reside in your Light Body, you shall recognize your Omnific, Omnipotent Potential, for this is the Creative Centre, or that Nucleus of Light reflected from the Godhead.

We have not admonished earthlings for ignoring our many lessons through our many channels, for we fully realize that, until you evolve, it's not possible to understand our lessons, so we patiently wait. But if you decide to progress, you shall better understand how we function, et al. Miracles are achieved by the utilization of light atoms, or this Vital Force also called God. If you do not use more light atoms, we see no other method by which to lift man out of the low Earth frequency, that is degrading. There is human insight and there is inner insight. Choose wisely. Only by comprehending your higher body shall you comprehend ours.

The big question in scientist's minds now, is: "Are UFO-nauts extraterrestrial?" The answer is 'Yes!' But we are also parapsychical, interdimensional and interplanetary. Perhaps you shall better understand if we point out here that, when earthlings experience astral or etheric body travel, they have left the low frequency and entered the higher planes of consciousness. Therefore, they are, 'at that moment in time', indeed extraterrestrial. You are only terrestrial when you are still in the low earth frequency, do you see? It is a matter of expanding consciousness, but this is a most complex premise, so we can give you but a little information at a time.

Why not look upon the One Universal Mind as having concentric circles. Now see each circle operating with varying rates of frequency analogous to each entity's degree of evolvment to each body, within. Your thought waves create the amount of light and dark atoms that you have decreed, so you are all boss of your holistic (total) body, are you not? As man evolves, he actually spirals toward the Light Center of his being. This variance in light atoms must not longer remain inexplicable to science because scientists shall never know how we function until first they know how their own higher body functions. When man ultimately reaches his Divine Level of Consciousness, he may easily levitate himself, others and objects, because the tenuous body with its Light Atoms has no weight and therefore cannot pull you then in a gravitational pull back to Earth. We hope that mankind shall soon 'join' us, for it is difficult for us to stand by and see so many of you destroy yourselves and your planet. We see thousands of teenagers snuff out their youth because they knew not how to call out for help to their ailing souls. We strive to teach man about his Light House within, where he is protected from Earth's turbulence.

We see another question in the mind of scientists: "Are you extraterrestrial even though many of you may reside in remote areas, i.e., under bodies of water and deep in the bowels of Earth? We reiterate: When man thinketh in his higher body, he functions naturally in this body. Any man may reach a higher degree of evolvment if he will raise his present rates of frequency. You must expand light when once you release IT from your higher mind. But, be not in a hurry to release white atoms. They are dynamite!

You wonder what happens to those souls not interested in soul progress. And what happens to those who will not listen to esoteric reasoning? If they have evil intent, they continue to breed armies that swarm with black atomic power! These are the potent, yet, low frequency thought forms that increase your crime rate. So what's happened? Black atoms in Ozone magnetize like patterns, so you not only have a conglomerate mass of black atoms from your atomic fallout; you also have a conglomerate mass of black atoms in those dark thought forms who endeavor to obliterate you off the face of your planet! We are the 'good guys' and the only method by which to get rid of evil is to nullify evil with Light and more Light!

Another question we shall answer in this discourse: "If you are parapsychical, how is it possible to sometimes disintegrate in front of your very eyes?" Well, we are forever radar-scoped by Mother ships and 'tailed' by sister craft. When we must lower our ships, the low frequency weakens our light and when we find ourselves in a bit of trouble, our Mother ships instantly change our frequency, so it only appears to human sight that we and our craft have disintegrated. Nothing could be further from the truth. Light atoms cannot destruct! We repeat: Light atoms cannot destruct! Know ye not that light atoms are the Vital Force, and Vital Force is God.

Another question by many scientists: "What causes UFO flaps?" Two important reasons shall be given here. (1) The Sun's turbulence causes magnetic changes in

Earth planet. So, when light of a different frequency 'hits' your third eye, the vision radioed to the outer visual orbit (human sight) is distorted. It is indeed this turbulent radiation from the Sun's movement that explains, 'Now you see us, now you don't'. Why is this? Because no two entities can see us alike because no two entities vibrate with the same rates of light frequency. The Lord of your planet advised, "Let thine eye be single." The ancient Cyclops thought this a splendid idea, so they balanced inner and outer vision and therefore needed only one eye!

Another question answered for earthman: "How can you sometimes appear solid and at other times appear translucent?" As our crafts enter low frequencies, we and our craft begin to take on a certain solidity. That is to say, we then function with less light atoms. So we appear to be solid, at times. That depends on the rate of frequency we happen to be in at the moment. Since the photoelectronic Visual System in the Pineal Eye varies greatly in frequency with the photoelectrical Visual System in human vision, this is what causes you to see us and our craft in so many different shapes and lights. This is very complex and we shall give further discourses to any channel who may be tuned in to our frequency. We welcome new channels!!!

Phase I is over. PHASE I included five specific categories. They are as follows: (a) UFO contact with our many channels all over the Earth globe. (b) New Ager's absorption of our data all over the globe. (c) Helping to awaken the Light, or Vital Body in sleeping souls. (d) Technological progress (this is a must as this correlates to man's spiritual awakening). (e) Emphasis on Spiritual Awareness, i.e. projecting Christ Consciousness interest in all races and in all religions, as God relates to Vital Force. In other words we awaken man to his own Christ and God Potential within himself as correlated to the Godhead. (f) Accomplishment of releasing white atoms to man's consciousness and as a cohesive element to his ailing planet.

PHASE II is already under way. This encompasses a, b, c, d, e and f, with more emphasis, because each day we see more and more awaken to truth, so our program must be repeated, and added unto. PHASE II shall embody safe steps as one penetrates even more deeply into nebulous regions of the One Universal Mind. We protect you with the correct amount of white atoms.

In closing, we wish to state that we shall continue to project our light beams unto earthman because not enough of the Sun's Vital Force is getting through that 'blanket of death' you call Ozone. Help us by projecting your Light right back to us in a never-ending exchange of Love and Light. I AM

FROM THE CITY OF THE SUN SECRETARY:

I feel that our Golden Dawn Readers are very "thoughtful people". Many of them send in change of address notices, and we really do appreciate it now when the postage rates on returnees has soared 150%. Then other people specify that they do not need receipts other than their cancelled checks, and this saves much time and expense. Thanks goes out to each one for their thoughtfulness.

Cosmic Consciousness

We thought that many of our Golden Dawn readers might like to glean some advanced knowledge and timely information on the little known subject of "Cosmic Consciousness".

There will be a few people who have had esoteric, occult, orthodox and catholic religions that may say that there is no such thing at the human level of awareness; but they are either misguided or have not yet awakened to a real understanding of life and the workings of Spirit. There is Scriptural proof of the higher states of consciousness, stating that one can be transformed by the renewing of his mind and spirit. Down through the ages since Jesus transferred His human level of consciousness to the Higher Level of Christ Consciousness, men and women have also AWAKENED THE INNER MAN and reached the Transcendental state of Cosmic Consciousness as well as that of Christ Consciousness. This writer has had an experience of both.

Many men and women who were members of Mystical Brotherhoods, many of the Saints in the Catholic and Protestant Churches had these experiences. Many of the Masters and Lamas of Tibet and India have been members of the "Illuminati" because they had opened up their consciousness to the Light and Spirit of God. The Mystical Brotherhoods have long been in touch with great Cosmic Beings of Light. These people have not only sought guidance from Cosmic Beings, but like Jesus and many of His disciples have learned how to awaken their inner faculties and gained direct communication with their Higher Christ Self. When this has been accomplished through fervent prayer, concentration and sincere devotion to the Christ Self, they have suddenly received great Illumination and entered into the sublime state of Cosmic Consciousness. My first illumination occurred at the age of fourteen, and it was an experience that I shall never forget.

Madam Blavatsky, writing in the 'Voice of Silence' speaks of her experience of this higher awareness. She described her experience of hearing the inner Sound. She heard each of the beautiful sounds of the five planes of mind. In the Scriptures the Inner Sound is called the Word. The masters of India call it the Shabd and the Naam. Jesus called it the Holy Ghost.

The Seer who beheld the vision of creation, as recorded in Genesis was in the state of mind known as Cosmic Consciousness where his power of vision and the cosmic voice showed him the manifestation of all life and the periods of growth and creation.

Only the Mystical Brotherhood Schools and their qualified teachers can teach one how to awaken to these Transcendental Illuminated states. These teachers have affiliated with the Positive Power of the Universe, while many other schools and teachers have attached themselves with Karma and the Negative Power of the Universe. Man must choose which path he will take. In the scriptures Jesus referred to the two paths. One led to the Light and the other one led to destruction. Which path will we choose?

We here at the City of the Sun send all of our readers and all who seek the Light of Truth, our love and blessings, as well as to all of mankind.

Peace be unto you,

Austin Love

We send forth to all five kingdoms of the Earth, God's Divine LOVE and LIGHT to bring perfection and balance into their continued manifestation. We decree that the Christ-Earth Body shall express the glorious perfection of God Himself, as it enters the Golden Age, beloved I AM, Beloved I AM, Beloved I AM.

SPEAKING THE "I AM".

I DRAW MY ATTENTION FROM THE LESSER AREAS OF MY BODY TO THE CROWN OF MY HEAD, WHERE I SEE AND FEEL THE PRESENCE OF MY SPIRITUAL SELF. HERE THE FLAME OF THE HOLY SPIRIT FLASHES, ENLIGHTENS AND MANIFESTS WITH MORE GREATNESS, AS I SAY WITH MUCH JOY, I AM! I AM! I AM!

AT THE CITY OF THE SUN:

Tending the vegetable gardens and exchanging produce take up much of the summertime. We have had beets, collards, chard, okra, corn, string beans, Armenian cucumbers, regular cucumbers, eggplant, lettuce, kale, kohlrabi, crookneck squash, summer and zucchini squash, turnips, tomatoes, etc. The experimental garden where Professor Peavy of Fort Stockton College installed a drip system has a stand of wonderful tasting corn 7 to 8 feet high. Melons of all kinds are ripening, and also pumpkins. We have not lacked for all of these important foods and the Elementals have surely worked with us in this endeavor, having had more rain this year.

Rev. Mark Stearns of Baker, Louisiana was here recently as were Mr. & Mrs. Wm. Seabert who have just moved into the Deming area. Ray and Claudia Meier visited from Truth or Consequences, New Mexico. Blanche Carlson's sister and husband, Mr. & Mrs. John Wogomon of Lake Isabella, California were here. Ann Limber and friend of the Boston area visited her aunt, Althea Noel.

Olie Mae Hale drove to El Paso recently to hear her son, Robert Hale in a musical concert. He is a leading baritone with the New York City Opera Company. Robert has just purchased a lovely home in San Diego, and the family came through for a visit on their way home.

Maurice Hastings returned from the Conference of the Summit Lighthouse group which was held in Washington, D. C. The group is moving their headquarters from Colorado Springs to Pasadena, California. Maurice visited in Minnesota on his trip home. Faun Homman has recently returned from a visit with her sister and friends in Minnesota. Everyone is glad to have her back.

When Blanche returned from vacation she brought some tapes of the Oral Roberts' class on the Holy Spirit, and we have enjoyed some of them on Wednesday evenings. Mr. and Mrs. Muir of Deming played tapes one Sunday afternoon of Dr. Peter Beter, American Patriotic Commission, Washington, D. C.

William Ernest (Scotty) Heron died Monday, August 16, 1976 at his home at the City of the Sun. Mr. Heron was born March 17, 1886 in New Castle, England. A retired General Motors design engineer, Mr. Heron also was a most distinguished artist. He painted murals of the United States Presidents and First Ladies which hang in the Lyndon B. Johnson Library in Austin, Texas. In addition to his wife, Geneva, of City of the Sun, he was survived by two daughters, Ella Hays, Carson City, Nevada, and Nancy Cisluga of Detroit, Michigan.

"A man cannot climb if he does not try; though if he does not climb it is true that he will not fall far. The strong man often makes serious errors; but the very force which enables him to make them also enables him to make great progress when he turns his energies in the right direction. Rapid progress affects the whole organism and is a great strain upon it, and this inevitably finds out whatever weak spots there are in the man. The plans of the Hierarchy will be carried out whatever we may or may not do, for we are but as pawns in the mighty game which is being played; but if we are intelligent pawns, and are will to cooperate, it gives much less trouble to the authorities, and incidentally to ourselves."

WE VISIT THE PLANET AZUL.

I am NIRANO speaking from the planet called Azul. This planet is of medium size, almost as large as your Earth, but less densely populated. This planet is noted for its sparkling crisp clear atmosphere which would make even the dullest stone appear as a bright jewel. We do not have any dull stones here. No individual is the head or ruler of this planet. The inhabitants here are very high beings. Ours is an astral world and the people here study and strive to live the life of the Christ within. They try to create harmony in their own lives and let this harmony flow out to others. We have no family life such as you have, no children of our own. We have friends all around us and we all think much along the same line. We need no laws and regulations or other such guidelines to keep us on the right way. We are what you might refer to as Masters. We are not yet of the highest but we are ever striving onwards and upwards. We see no need to have temples or places of worship because we realize that we have our own temples within us. Our whole life is concentrated on adoring and thanking the great Creator of all life on all planets throughout the universe, whose life is the very breath we breathe in.

Our homes are all round or circular shaped. They are built of a stone that looks like marble, but has a much higher sheen. This stone is of various colors. Our homes are in all beautiful shades and tints of pink, green, blue, yellow and a violet that you do not know of on your earth. Each home is surrounded by large gardens which gives us much privacy. There are no walls in our gardens and anyone may walk thru them, but they are so spacious that it insures privacy. Our homes are so built that we enjoy all the privacy we desire. We have many beautiful trees. Some are completely white, but with gorgeous colored blooms that seem to last indefinitely. Then there are pink trees that might have white, or blue and purple blossoms. Flowers grow in great profusion so that there is color all the time. We have many beautiful birds whose song is like a symphony of music. The air is so sparkling and clear that one can see and hear for many miles around. Our planet has rivers and large open bodies of water upon which we navigate our boats. They float or glide along on top of the water. They can travel at tremendous speeds or slowly and leisurely as one wishes. Everything is manipulated and controlled by mind concentration. Our homes are very elegantly furnished. We have a grass that is violet in color and has a sweet and pleasant odor. It never has to be cut. It grows to a certain height and remains that way. When we get rain, or what you might call a dew, it brings out the fragrances in the grasses, the flowers and the trees. There is beautiful music in the air and we can attune ourselves to it whenever we wish. We hear heavenly choruses and the music of the spheres.

People on your earth might be interested to know what we do to occupy our time, since the subject of work is most important to you. We on this planet really do not work as you might refer to it. We utilize our artistic abilities and produce whatever is useful or inspiring to us. Only highly evolved souls may come to this planet or plane of existence. Our great interest here is in creating harmony among ourselves, and then sending harmonious vibrations out upon the ethers so that they may reach and influence other earth planets. It takes a great deal of concentration to do this, but our mind power is very strong. That is how we contacted you, directly. We were not relayed thru a space ship. We wait and we watch to see who is interested in learning about other places in the universal creation. Two or three of us will sit together and just work on outside contacts. We have contacted other earth worlds besides yours. We hope that just by talking with people on other earth planets, the harmonic vibrations from our plane will penetrate into these other worlds and increase whatever harmony already exists there. Many of our people here used to be philosophers. Many held the Cosmic outlook when they were on earth, even in the

days when cosmic consciousness was not accepted by the majority of the people. Some of us came from your earth planet and some of us came from other earth worlds. We try to help all those in the lower astral realms by sending out powerful vibrations of harmony. We try to infuse harmony into all troubled conditions. Where there are obstacles or problems, either individual or collective, we try to harmonize all situations. That is our desire and the main goal of our activities here.

We do not all look alike on this plane of existence. Outwardly we are different appearing individuals even as you are, but we are of one mind and hold the same concepts. There is nothing to create disharmony among the inhabitants here. Age is of no concern to us. We simply live here until we are ready for the etheric planes. How long we stay depends upon our accomplishments. When our work here is finished we simply move on and up into the higher etheric realms.

Our homes with their furnishings, and everything else we need is precipitated. We exert no effort to acquire any of our needs. We have no outer means of transportation because we can transport ourselves individually wherever we wish to go. The boats I have spoken of are merely a form of recreation and relaxation for us but they are not a necessary means of travel. Our method of levitation and teleportation is very interesting. We leave a place one moment and the next moment we find ourselves in another place in our identical form. It is really a kind of transmutation. On this planet men and women can live together if they wish, but it is on a friendship basis, for we have long since ceased to feel the need for procreative activity. We recognize we are complete beings in ourselves, balanced polarities. We do not create any weather conditions here, even mentally. The weather is quite ideal and always the same. The refreshing dew comes whenever it is needed. There is no night time here but we do not need to sleep. Our sun is not like yours, not so strong and bright. It is a soft indirect light which gives one the feeling of cheerfulness and serenity. The colors in our sky are magnificent because of the sharpness and clarity of the atmosphere. This sparkling clearness is unlike anything you have on your earth so it would be most difficult for you to understand or comprehend it. The creations on this planet are for all to enjoy. The only thing each one must create individually is the harmony around himself. The pattern of architecture here is pretty much the same for everyone. Clothing, for those who prefer to wear it, is loose flowing and comfortable.

On this planet one feels as if he has attained the ultimate, but as he continues to live here, he realizes that this is but another step in his ongoing. But here one is enabled to expand his mind in greater understanding and attain a cosmic outlook or perspective. One becomes acquainted with many new things which before he did not even know existed. Our communication here is by means of telepathy or thought transference. There are different groups among the inhabitants of this planet. People are different in appearance even as on your earth but in their thinking and concepts they are all in accord. Most of us stay pretty much with whatever group we are attracted to. If all people on your planet were united in the one concept of love and unity, you would not have the troubles you experience today. Your groups are of different minds and outlooks. You have the purely spiritual groups and you have the material minded groups and then you have the many groups in between who will swing one way or the other as it appears to be advantageous for them. We have no troubles like that here. None may enter this plane of life unless they are of the same mind. On your earth you have many who are greedy, power mad and lustful which creates havoc in your society.

Ours is a unified concept which is conducive to harmony. Each one here may pursue individual lines of thought but no one wishes to control another or come into

conflict with another. People here pursue many lines of artistic expression. Some devote themselves to the study of medical science which is far in advance of anything known on your earth today. It relates to making mixtures from herbs which can prolong life or cure any type of illness. None of the people on this plane need ever return to earth life, but they help those on earth planets by projecting their thoughts and their knowledge. Of course there have to be people on the earth worlds who are sensitive and receptive enough to pick up the mental projections we send out, like your musicians who perceive melodies and harmonies which most people are not aware of. They write them down in the form of musical compositions. We are complete unto ourselves in every way and each individual expresses as he wishes while maintaining harmony with others. We experience a form of heavenly freedom which no earthly system can possibly realize. We do not have planned assemblies or large crowds. We get together as we wish in small groups of from six to eighteen. (end of tape) Thank you.

We wish to share this encouragement to Light Workers from New Age Teachings, Brookfield, Massachusetts. October 1975:

#### THE DIFFICULT ROLE OF THE DISCIPLE OF LIGHT.

"There are those among the Disciples of Light who are deeply perplexed regarding certain events in their lives. It is important that We, The Messengers of Light, voice to them further encouragement, as well as suggestions to cope with difficult situations.

"Keep always in mind, Beloved Souls, that ALL that transpires IS Cosmically blest, particularly if the Disciple is sincere, humble and persevering. Even the most troublous situation has a sound, spiritual reason for existing!!

"Some of you are guided to a specific area of activity for a dual purpose: 1) to give YOU strength through meeting certain situations which cause you to exercise Self-discipline, and 2) to assist those whom you are encountering to dissolve certain karmic debts. We realize that often discouraging events occur which cause you to desire a 'change'; a very normal emotion, however realize THIS Spiritual Truth: UNLESS there is full harmony and accord realized BEFORE you make a change, it will not be resolved and later, in another incarnation, the situation will need to be repeated!

"Remember this, My Beloved: When you have accepted the invitation to be a Disciple of Light, when you have been initiated into Service, you are given some very important and difficult assignments. Often you will feel that indignities are flung at you, you will be tempted to 'fly away' from the tormentors. But, Blessed Ones, you are ABOVE such 'human' frailties!! Retire WITHIN and you will be guided to see that your Role is that of the Humble Servant. Did not Jesus, that Highly Anointed One, suffer worse indignities than you, yet he forgave those who persecuted Him and He persevered to the end!!! Your role is not nearly so difficult. You must forego pride - you must embrace Light and Love. If you ARE persistent in your desire to be a Beacon to those struggling in the dark you will succeed and bring many to the Reality of Truth - you will be their aid in overcoming certain karma.

"My Beloved, complete your mission. Then, once harmony and balance has been restored, once the struggling souls have resolved their karmic difficulties in a

particular area, you may consider a change in your life-pattern. Actually, blessed Disciples, you will be guided to your next Cosmic Assignment which may or may not require a change of location. Permit Divine Guidance to Enlighten you when that time arrives.

"In the meanwhile We stress once again the fact that ALL is in Divine Order. Your task is not easy but it is important. And as you assist in the evolvement of another Soul or Souls you are uplifting your own!!! But Beloved, do not serve in anger or with resentment for then there is no merit in your service nor is there any progress - only a heaping on the fire of karma more unwanted fuel!!!

"Remember ALWAYS your duties as Disciples of Light. You have been Liberated from darkness through many lives of endurance, study, temptations, initiations. You are annointed AND ordained to serve in a special way. There is still a need for your own Soul to receive purgings so in this way you are Serving your Self as well as others. Be not discouraged nor dismayed. Cling to L I G H T and L O V E .... to the knowledge of your Mission. As soon as you fully accept and understand your role in the Divine Plan there WILL be progress!

"We send you the soothing Balms of the Anointing Oils of PEACE... LOVE... LIGHT... JOY... WISDOM."

(Note: While typing this transmission the following was received from a  
COSMIC MESSENGER:

"I must say to My Earth Brethren that this Message is a very important one and much needed by MANY Light Workers. From our Station in the Cosmic Realm We have been literally bombarded by the Thought-waves of many, many beloved ones who are now facing great tribulation in many areas. Some in their homes, others at their place of employment, still others in schools and in their social contacts. Also in communities where mis-understanding ones cast doubts upon those who strive to bring Light into the dark corners of their areas. I cannot emphasize enough the need there is for Our Disciples to develop TENACITY and STRENGTH in the face of all the obstacles. This is a very active time on the planet presently as the Forces of Light expand their activities. We can do N O T H I N G without the assistance of YOU, Beloved Light Workers!! We implore you...yes, we BEG you not to give vent to the human emotions of discouragement and annoyance. SEE in all these unsavory conditions the LIGHT that IS but that must be UNCOVERED!!

"We always send you B L E S S I N G S !!!

"The degree of spiritual consciousness which we attain can be measured by the extent to which we relinquish our dependence on the external world of form and place our faith and confidence in something greater than ourselves, in the Infinite Invisible, which can surmount any and every obstacle. It is an awareness of the grace of God."

Joel S. Goldsmith

"A man is ethical only when life, as such, is sacred to him, that of plants and animals as that of his fellowman, and when he devotes himself helpfully to all life that is in need of help."

Albert Schweitzer

The New Age Consciousness:

I see a New World so shining and bright, so free from all bondage and all that's not right.

I see a New Creation arising, as sweet as a rose, the New Man perfected, with a heart pure as gold.

So it's up to you and it's up to me, to enter this land of liberty, never retreating, but always advancing -

Towards Life that's free from all discord, anger and strife.

Never more from home to roam, For His arms are ever outstretched, welcoming us home.

Affirmation for Happiness:

Divine Love expressing through me now, draw to me all that is needed to make me happy and my life complete.

Olie Mae Hale.
