

THE GOLDEN DAWN

CITY OF THE SUN FOUNDATION.

NUMBER 34
(January-1977)

MAN MUST OPEN AND EXPAND INTO A NEW CONSCIOUSNESS.

This is MATTON speaking. Light! Light! Light! You have been told to cast forth your light, but does man really understand what is meant by that term? It is important to bring forth that Light, because it is man's own inner being reflected outwardly. This Light is very potent. Everyone who comes in contact with the Light is affected whether he realizes it or not. But in order to let this Light shine forth man must become something more than the old personality which he has always been. He must drop his old habits, his old ways of thinking, his strong feelings, his limited viewpoints. He must open and expand into a new consciousness. He must become outwardly that which he really is in his inner being.

Man enters into this expansion very reluctantly because he feels a loss of security when he loses his old ways and changes his ideas. But the old habits and thinking must go. These are what hold man bound, and holding onto these he is not able to expand. Every person in this universe is expected to expand into a cosmic consciousness. There is so much more to life than what man has known up to this time, so much more than anything he has read about or been told about or been led to believe. When man first breaks the shell of his limited vision, there is a feeling of strangeness, it is true. It is a very big step man takes because it changes the whole course of his life, in his thinking, his desires, his aims and ambitions. It sometimes affects changes in his relationships to his family and friends. He moves out of the old crowd, so to speak, and becomes part of a new family. His thinking and his outlook changes in all areas of his life - social, political and religious. His motivations and reactions are on a higher plane. He knows that he may no longer cheat or lie or take advantage of his fellow man. He must treat his fellow man even as he himself would like to be treated. Even though this new way of life may seem strange to his old associates, man must nevertheless pursue this course, realizing that from henceforth, he is consciously a universal being. He realizes too that whatever he does has a greater impact now than it did before, both as it concerns his fellow man and the welfare of the planet on which he resides. Any man who can awaken and take this new stand will have made tremendous progress in a very short time.

He will find that the things he worried about before are no longer confronting him. All the things that the world worries about concerning its future, do not really concern him because his viewpoint is more expansive. His thinking has gone beyond mortal boundaries and he leaves the petty worries to the person of limited vision. Earth man limits himself because of his many fears and his inability to do real thinking. Man today must expand his mind. He must enlarge his outlook and

attain a new consciousness. As he begins this expansion, the Light within him begins to shine forth and automatically affects all that he says and does. Man allows the Light of the great inner Presence to take over and dominate all the affairs of his life. Thus he becomes a new man, - a cosmic being.

As man begins a new year, let him also begin a new approach to life. Let him determine to cut his bonds of limitation and expand into a new awareness. Let his outer life reflect the glory of the Light that is within him. Each man is responsible only for his own Higher Self, the living Christ within. Holding this thought in his mind, man could really usher in a new year, filled with love and light and beauty for all the world. Allowing the Light to flow through him, he would consciously help and uplift all with whom he comes in contact, that they too might be inspired to expand their concepts and their thinking far beyond the limited boundaries of the mortal world into a universal awareness of life. Do not worry or fret about how the Light is to become effective. Do not wait for someone else to show it forth. Begin with yourself and bring a new consciousness to bear on all your thoughts, words and activities. Become the Christ in action and do your part in helping to inspire and uplift your fellowman and hasten the evolvment of the very Earth on which you tread.

The blessings and the spiritual projections of all the higher beings are being showered upon man at this time in order that he open himself to receive them and profit by them. The Love and Light of the Heavenly Hierarchy shines upon all men. Under this beneficent influence, may your minds be unsealed, so that as true spiritual knowledge and wisdom flow in, you may release the Light of Life within you and let it shine forth. Blessings upon your New Year.

I AM MATTON.

Channel: Bettina Kramer, Aeolian Retreat, Columbus, N.M. 88029 Dec. 10, 1976.

VIGIL

Every cell within me sings a joyous melody,
Every atom dances with deific energy,
Each organic center is aglow with radiance bright,
My being waits to welcome the Lord of Living Light.

Open now the portals! Swing wide the inner gates.
Welcome Him in gladness for whom my soul awaits.
My house is all in order; I long to see His Face,
My soul shall soon experience the thrill of His embrace.

Inner ears are opened; inner eyes are keen
Expectant of His coming. He shall not pass unseen.
The outer world is sleeping all thru the darksome night
But I am keeping vigil for the Lord of Living Light.

H. V. K.

"In opening ourselves to God's influence
our greatest destiny is fulfilled."

William James

Editorial:

A Fruit of the Spirit is Peace

CHANGING TIMES

1977 will be a year of great change in the world. To the un-holy and the unethical, it will be a year of great strife, with great upheavals and chaotic conditions, with the possibility of 'global war'.

Man needs to get himself prepared for great change, and then take proper steps for adequate survival; climatically, economically and health-wise. For those of us who are led by The Spirit, the beginning of this year is an opportune time for a great revival of the power of the Spirit within. There is also great significance of two sevens in the new calendar year, for it is a mystical and spiritual number; and its vibrations, along with that of Aquarius, could give a great 'Break Through' for all people who are on the path of light.

With the glorious SPIRIT OF TRUTH vibrating so strongly, IT can set free the captive mind and spirit, and bring untold Peace of Mind to those who love the Lord. This Spirit can release us from all human created bondage which we have brought upon ourselves by wrong thinking and wrong dealings with our fellow man.

The Spirit will create within us the ability to survive in a changing world, and help us to rebuild a new earth if we but turn within to our own indwelling Christ Presence, - for each of us are SONS and DAUGHTERS of the Most High.

Let Christ come into your heart and mind, bringing His love, understanding and peace. Christ is a Presence which dwells within the center of our being - a spiritual, invisible Presence. This Spirit was present in our Lord Jesus, and He often spoke of IT as the Father Within. Thus, the same Father-Mother God dwells in every man or woman that breathes, for we are all made "in the image and after the likeness" of God.

Your glorious Christ Self stands at the threshold of your consciousness, ever waiting for you to open the door and behold His Shining Light. His compassionate voice ever whispers for you to come into the light, and receive the Peace and Rest that He has promised those who seek Him and love Him.

Let us pause for a few moments now and make CONTACT with the Lord within. Let us enter into our inner closet and close the door to every thing of a worldly nature.

Now let us feel that we are embraced in our own Light Self, the Real Self, the Self that is eternal, immortal and one with God. Now dwell upon the light of Christ within. As you dwell upon this effulgent light, you will begin to feel the love of His Presence, and feel a great Peace come over your being. Be still and listen. Do you not hear the "Still small voice of the Spirit", the voice of Christ within you? Let your Joy be complete, as you gently drift upon the sea of ecstasy, in the Light, before the throne of God. My peace I give unto you, - peace - peace, - peace. So must it be. Amen.

Austin Love

The GOLDEN DAWN is the official publication of the City of the Sun Foundation. It is published every two months, and sent upon a freewill offering basis.

AT THE CITY OF THE SUN:

With all of the happenings there were only 3 of us left here at Thanksgiving, and Blanche Carlson hosted us to a magnificent vegetarian dinner. We had had to get our woolies out early this year for the wintry weather, but December was again bright and sunny. Possibly we will have an early spring for our gardens.

On the afternoon of December 23 there was a Christmas party at the Columbus Fire Station for the 500 children of Columbus and Palomas, Mexico, just across the border, and the Fire Department, Teen Agers group, and the Quilters and Crafters Club had for each child a sack of hard candy, peanuts and an orange. After Santa gave out the sacks of goodies the children lined up for hot cocoa and cookies. What little ladies and gentlemen they were as they sang Christmas songs. We at the City of the Sun shared with our contributions.

Many of our people were gone for the holidays so it was very quiet in our little community. Ethel Van Elburg visited her brother, John Gohringer and wife in Scottsdale, Arizona. Gene Heron visited her brother and mother in Minneapolis, Minnesota. Dr. Phil Strong visited his family in California and friends, Dr. and Mrs. Fleisher in Silver Bell Estates in Southern Arizona.

Olie Mae Hale attended a family reunion in San Diego at the home of her son Robert Hale, the well-known opera singer who recently appeared in "Carmen" and then sang with the Southern California Mormon Choir. She also visited two other sons, (educators), Dwight Hale at Freemont, California and Elwood Hale at Sylmar, California. Mrs. Chas. R. Jones, her daughter, was visiting from Washington D.C.

Maurice Hastings has just finished another quarter at Summit Lighthouse University, Pasadena, California, and will be working with The White Lodge, Del Mar, California, soon.

Leo Armstrong of Cottonwood, Arizona, visited Shirley Saunders. Rev. Wayne Taylor enjoyed his guests from Idaho, Milton and Vernetta Haar, and Melvin and Elvera Swanson. Salvatore Escobar stopped here on his way into Central Mexico.

To GOLDEN DAWN READERS:

We were doing very well with address changes until we came to the holidays, when you became too involved to remember this important matter.

You Readers can help make our Secretary's life a little easier, and save cost to the Foundation (25¢ per return) by sending in address changes before they begin.

Thank you.

Accept My NEW YEAR' S wish today !
But NEW YEAR' S DAY is past, you say.
Not so - with each succeeding morn
Another year for us is born.
And if, perchance, you've failed to do
Some task that was assigned to you,
What then? Why then, cheer up, my Dear,
Tomorrow brings a brand New Year.
And so, for you, may this year prove
A NEW YEAR filled with Joy and Love.
H. B. Hastings.

We present the Second Contact with MARKUTE of the planet ATHENAS. The First Contact was given in Golden Dawn No. 33.

This is MARKUTE speaking from the planet ATHENAS. I have been watching and waiting for you. I am sorry that I was called away before we finished our last conversation. I believe I was speaking to you about the problems which confront us at the present time on our planet. Since then we have had many group meetings and conferences. We have requested the teacher who visited us previously, to come again and teach us the spiritual principles which we need to know. There are among us a couple of our people who understand the spiritual laws of life, and they will help us until this teacher returns to give us other instructions. We have decided that since we are advanced in our knowledge of law, we would like to be just as well advanced in our spiritual growth. We do not mean by this that we are trying to compete with any other planet but we desire that our people be fulfilled and well balanced, enlightened in all the aspects of life, both material and spiritual. At the present time, the two people I spoke of, are going about from one group to another giving us basic lessons so that we may understand the fundamentals of the inner life. Everyone is invited to attend these lectures, but when the great teacher arrives, it will be mandatory that every inhabitant of this planet attend his talks, and listen to his instructions, so that each one of us may attain to the knowledge necessary for spiritual progression.

Now is there anything else you would like to know about us?

Question: Brother Markute, we do have a few questions, the answers to which will give us a little clearer understanding of your planet and your people. May we ask first, by what means were we brought to your attention so that you could communicate with us?

Answer: We had heard that your planet has many difficulties and problems to overcome. We perceived the light of your desire to contact other planets. There are many earth planets but most are busy with their own affairs and do not reach out in seeking to communicate with their planetary neighbors.

Q: If you actually formulate laws for other planets how are they introduced and established among the inhabitants of those planets?

A: The Representatives from other planets come to us and they talk over the type of laws they feel would be most beneficial to their people. We formulate these laws and give them copies to take back with them. If more information is needed or if adjustments are to be made, they return to us later.

Q: Has your formulation of laws ever affected our planet Earth?

A: Yes, many of the basic laws used by you now were given to representatives of your planet long ages ago.

Q: What kind of communication system do you have among your people?

A: We use a sort of mental telepathy to relay information and messages around our planet. There are certain people or leaders of each group who receive the messages we send out. These in turn contact others who are capable of receiving and giving this information to the people.

Q: Can you tell us about transportation on your planet? Do you have means of inter-planetary space travel?

A: We do not have ships for inter-planetary space travel. People who visit us bring their own ships and we are often invited to visit their planets, being transported by them in their ships. As far as transportation around our own planet is concerned, we employ a type of floating carpet. We sit on this carpet and mentally direct it wherever we wish to go. It is soft, undulating and very comfortable and quite sufficient for all our transportation needs.

Q: What is the average life span of your people? When they pass on, do they leave their physical bodies?

- A: Our life span is from 150 to 175 years of your earth time. Yes, the physical body is left and it is cremated.
- Q: What are your ideas on the immortality of the soul or about future existences?
- A: We have just accepted the idea that we keep returning to this planet, reincarnating here. We really know very little about the spiritual life. We have not progressed in that area at all.
- Q: How does your physical appearance differ from ourselves? What is your mode of dress?
- A: We are people of medium height as you would consider it, altho some are taller than others. Some are slender while others are stocky. Like yourselves we have different colored hair and eyes. The men wear a kind of short tunic, sometimes overdressed with a toga. The women's gowns are long, and graceful. We either go barefoot or wear a type of open sandal.
- Q: Are the servant class on your planet a different race or nationality than their employers?
- A: Yes, they are a different type of people. Altho they are of average height they are more slender and delicately structured. However the greatest difference between us is in our mental outlook. Law does not interest them at all, nor does the purely material way of life appeal to them. They are more aesthetic, more interested in Nature and things spiritual. They are very adept in arts and crafts.
- Q: Do their children receive the same education as your children?
- A: We have different schools for the two groups. Altho we teach them literature, mathematics and astronomy, their principal training is in the trade or work they wish to follow. We train them to become proficient in the work they perform for us, so that in this way we too are benefited.
- Q: Do these people (the servant class) live in one place on your planet?
- A: No, they are generally dispersed around our planet even as we are.
- Q: Do you manufacture most things you need ?
- A: For the most part, yes, altho we do not have big factories as you think of them. All materials are hand woven and other things are built by manual labor.
- Q: What about agriculture and your food needs?
- A: Our climate is good for vegetation and wonderful for growing fruit trees. Farming is a way of life here and Nature supplies our needs without too much trouble.
- Q: Does everyone grow their own foods or are there central markets where fresh produce can be purchased?
- A: We have central market places. They are like plazas. The merchandise is attractively displayed and the people haggle over the cost as there is no set price. Trading here is an art.
- Q: Where is Athenas located relative to our planet Earth?
- A: We are out of your galaxy.
- Q: Is there more land or water surface on your planet?
- A: We have no oceans but do have a great many rivers, brooks and large lakes.
- Q: Of what material are your buildings and homes constructed?
- A: Mostly of stone, native to our planet.
- Q: Do your people live in large centers such as our cities?
- A: We have centers or cities with populations up to five thousand. However these communities are spread out and each has its libraries and museums. There are also a great many beautiful parks. Our houses are for the most part large, very clean and comfortable.
- Q: What is your form of government?
- A: It is like a Republic. We elect a board of four people. Under this governing board are representatives from every city, village and township on our planet. They all come together to attend the sessions. The voting and decisions are

very representative of the people. No one gets into a governmental office by purchasing votes. Representatives are chosen who are highly esteemed by the people because of their integrity, knowledge and responsibility. No representative stays in office for more than two terms.

Q: What are your views concerning people who habitually break the laws of a decent society?

A: Anyone who habitually breaks the laws must be punished so far as we are concerned. They may be sent to a place like a hospital where there are people like psychiatrists to help them. They are shown the error of their ways and taught how to adjust to society. If however they are not able to take their place as law abiding citizens, they are put in a separate colony and are never allowed to return to society again. They work there for their livelihood. They are never beaten and no unjust treatment is permitted.

Q: Do your people have any physical health problems?

A: No there is not much of that. The so called hospitals we have are mostly for psychiatric care.

Q: Do you have any buildings set aside for religious services or public worship?

A: No, we have nothing like that.

Rev. Kramer: Thank you very much, Markute. Your answers to our questions have given us a better understanding of your planet. We thank you for this information.

Markute: You are most welcome. I would like to come back later and ask you some questions about your planet. Signing off now.

I am MARKUTE

LET THE NEW YEAR COME FORTH WITH BEAUTY.

I AM KUTHUMI. This is a glorious season with the new year coming forth in the beauty of a great changing process. Think of all that is happening in this glorious year as a beautiful opening up of the Love-Light that God is bringing through to us in this new year. It is a new vibration. It is filled with the power of God's Love-Light. As you contemplate the glory of each new day think how there is a constantly renewing possibility of a beautiful uplift in your heart. Think of how the wonder of God's Plan is opening up to bring to you what is of tremendous new light such as has not been in your consciousness, and is coming forth now to be a banner to lead you into understanding of increasing joy and greater loveliness.

There is no circumstance in your life that is not of merit to you. There will be ever increasing recognition of the marvelous way that this heavenly journey is opening up your consciousness. Whenever there is any feeling on your part that you have descended to a lower level, remember that only the joy of God is real. The uplift of God is your own gift from your Father in Heaven. Place no faith in anything that is less than joyous. It is one of the reasons why you have come into this new year to be brought face to face in the steps (one at a time) that you will be expected to take upward. There will be only an upward path for you. Whatever event seems to be not a happy one, remember and be glad that this is the very circumstance that was needed to take you into a more beautiful and rewarding life. You may be confident that everything that happens to you is needed by you in order to carry out the Plan that God has for you to rise higher and ever higher into the rapture of the new day - the new life that is your gift from your Father in Heaven.

Please remember this very important message, that regardless of any seeming

difficulty which may seem confusing or undesirable at the time, that difficulty is actually lifting you if you will take that upward step, lifting you higher and bringing you closer to the miracle of God's Plan for you. Expect every so-called difficulty to open up to you the miracle of a more satisfying realization of God's Plan in your life. Whenever you have allowed yourself to be disheartened for a short time, start right away to feel an upward surge toward the glory of God's Love-Light, and God's precious power to draw you into a greater comprehension of your birth-right - that you are indeed the spiritual offspring of the Almighty who is drawing you forth to His Glorious Presence. The peace and sense of reality of the new life that is coming through to you day by day in this new year will become increasingly more real, more uplifting and you will wonder that you could have ever doubted the presence of your Father in Heaven with you at any time. He is always ready to lift you into this new world that you are already sensing, and that has a constant drawing power to bring forth such miraculous uplift in your life that you will be able to find only good and only peace and only uplift in every circumstance that comes into your daily life. You will be actually moving in a spiral of Living Light, the powerful Love-Light of God. This will be so satisfying to you that even during the times of testing (which are necessary at your stage of development) you will find a peace that to you seems ever more and more satisfying, and affording you a wonder that brings a most uplifting condition not only in your physical body but also in your environment there will be great moments of ecstasy as you draw nearer to the very heart of your Maker, your Creator. Be confident of this upward and ever more satisfying life. Be filled with the ecstasy, with the constant realization of your own spiritual being.

This is not to be considered a life completely detached from your responsibilities. It is rather a way of life that makes it possible for you to put your life into the stream of thought that will constantly remind you of your spiritual identity. This should be first in your consciousness, and you will find that as the path becomes more clear to you, there is more Light and Love and Joy on this path. You will find that your mundane duties will be taken care of much more easily and more expertly than before you had this realization that your spiritual being is the reality. To a certain extent, you have realized this but this realization should be more and more clear to you and should govern your daily life. Realize your spiritual identity and you will find that life will become more easily lived and you will not require as much thinking regarding your duties and responsibilities because you will be walking in the Light of God's Plan for you. There will be less disturbance for you regardless of what happens or takes place in the world.

See what you can do to offset any disturbance in your life, and in the world now undergoing a great change. You have sufficient understanding to experience a highly satisfying life - regardless of what takes place in the world about you. Hold always before your vision your immense opportunity to grow in grace. As you apply the understanding you have your spiritual life will unfold almost miraculously. Try to realize more clearly how important it is to make the progress you can make now. A new world is here for you to enter into this year if you will.

December 14, 1976

"It is possible that a man can be so changed
by love as hardly to be recognized as the same person"
- Terence

Acknowledgement is given to the "Illuminator", Boulder, Colorado, for the following message:

MESSAGE FROM JESUS.

All thinking people should realize the power their thoughts hold over their own lives and over the lives of others. Dear people on Earth, please strive to be happy in your thoughts as much as is possible in a world too full of heartache and tears. You must be strong enough to control your thinking, for thought is the greatest reality of all. Consciousness cannot be measured only in terms of physical existence, for thoughts are as much a reality to consciousness as is the physical world a reality to you right now. Thoughts can be felt by all those on Earth, and creating thoughts which merely perpetuate the tears and heartaches will do no good. You must be happy and full of love, those of you who read this and have good reason to be happy. You must be glad, and praise the Lord for all the good things in your life. You must! It is a commandment.

If you do not heed, negative thoughts will emanate from you and you will only contribute to more sorrow and heartache on Earth. The commandment to be happy and full of love, to praise the Lord for all of His creations, and to glory in your own existences is not an idle wish. It is not a wish at all. It is a commandment. The only way to save those around you from continuing pain is to drown the negative and sorrowful thoughts of the world with a flood of love and praise. That is the only way to lift the pall of darkness from Earth today. You must be happy and full of praise, for if you are not, the world is doomed. I have said the Earth will not be lost. It will not! I command you, in the name of the Great Creator, to praise the Lord and wash away the sin and unhappiness with your good feelings.

Prayer is a special form of thought. You are part of the consciousness of God, and when you pray, you are seeking Him out to communicate with Him, to love Him, and to be strengthened by your communion. Prayer can take any form, but one must be happy and full of praise for all of life in order to fully commune with the Father in Heaven. Think on your Father in Heaven all the time, and He will come to you at all times. Think on your Heavenly Father on Earth, and see the glories of creation in all around you. See glorious creation within yourself and within your own mind. This, too, is prayer.

When you communicate love and praise to the Universal Mind of God, your prayers are pure in their vibration and are felt by the whole world around as pure love vibrations. Pure love will cause the Universal Mind, the Father of us all, to be attracted to you, and you will be filled with light, love and harmony. You must pray for all people, and you must pray to bring your Creator in and around you on a vibratory level to help save all people with vibrations of love and harmony.

So, my children, you must pray and be happy. You must broadcast love, light, praise and happiness to all of heaven and Earth in order that the Earth not slide into more sorrow. It is vital that you communicate with the God of us all to realize your great and full potential, so that God's plan will one day be perfect on Earth.

I give you my blessings, always, and leave you in love and light, with peace and harmony in your hearts. You are forever my own beloved. I will be with you forever. Do not despair, for I am here with you always, and I will mediate for you with the Universal Mind, to the best of my ability, until all of you, my beloved children, have come to realize that you can do this too. I go in love and light.

QUO VADIS

The Lord: What is it thou fliest from,
O, pilgrim in the night?

The Soul: I flee the fearsome shadows
And I seek the living Light.

The Lord: Wherefrom art thou hastening;
Whereto, thy footsteps bent?

The Soul: From the vale of sin and sorrow
To the mount of fulfillment.

The Lord: Is thy joy outweighed by sorrows
And thy hope obscured by fears?
What deemest thou just recompense
For all thy earthly years ?

The Soul: Who art Thou that questioneth,
O voice within my breast?
Great Guardian at the threshold,
Why hinder thou my quest?

The Lord: I AM the One thou seekest, child,
We cannot stand apart.
Thy very life inflows thee
From my great cosmic heart.

The Soul: O Blessed One if this be true
Why should I think to flee?
My bliss is in awareness
Of Thy Reality.

The Lord: Whoso has learned this lesson
May graduate from earth.
What would's't thou have me give thee?
What are thy sufferings worth?

The Soul: O, ever loving Presence,
Whom I can never see,
Just let Thy Light shine thru me
As a clear transparency.

For no reward or heaven
Could compensate the strife
If Thou had's't not revealed Thyself
Within me, as my LIFE!

H. V. K.

"The purpose of prayer is not to give you what you
want when you want it but to make you the kind of
person God wanted you to be when He put you on the
planet Earth. : - Robert H. Schuller

We present another unpublished talk given by ANNALEE SKARIN:

LOVING.

We finally got this vision of loving, so we could seek out crowded places - bus stations, thronging streets, teeming thoroughfares or places where city throngs jostled against each other in great impatience and standing quietly, began "swishing" love. We sent it out with a prayer of peace on earth, good will to men, and a benediction that seemed to carry light with it and reach out into the very hearts of those around us and then go out until it encircled the very globe. We did it consciously, and daily with all the power we had. The most amazing things began to happen to us and to those around us. Strangers would seek us out. Those in need came to us. We kept this up until finally it became a habit and wherever we went or whatever we did we were vibrating love. It does things; great things! Try it and you will know!

After awhile this broadcasting of love became as much a part of our living as breathing is. At first it must be a thing that is practised continuously just as music is. It becomes glory and praise and song, and continual thanksgiving that becomes as much a part of one's existence as is his power to think. First one has to receive the vision of these higher things - then comes the desire to fulfill the vision - and after that it is just sweat and blood for awhile, like learning to become a master in any field. Only in this case man himself is the instrument.

As man continues to study, the discords seem to magnify and multiply themselves. This is only because our ears are becoming more attuned to the divine, and the contrast is more noticeable. But practise, continual practice gradually eliminates the discord. Then there is only the perfect divine melody. It doesn't take too long, and it is not at all difficult.

You ask me to tell you just what we do each day. That would be impossible. No two days are alike. We live them as they come, loving them, blessing them, glorying in them. Perhaps it would be easier for me to tell you the things we don't do. We no longer look down the dark unlighted hallways of the past. Then, we never look a day into the future. If one learns to perfect this day, the tomorrows have to follow as perfect as the planting of today.

Truly there need be no sorrow, no unhappiness, no despair, no death. When you can perfect your love for God and your fellow man you can leave all fear behind, for fear is darkness.

Walter Russell, a great artist and a great scientist says: "There is just one inch between the mediocre person and the genius; but that one inch is almost impossible to master." I say, it is just a tiny step - a step in consciousness from the terrestrial level of thinking to the celestial planes, but as one takes that step, and holds his place in the higher realm he leaves all confusion, discord, fears and ugliness behind. And surely he who cannot take that step in this life will have a much more difficult time in trying to take it in the next.

It is this road of glory and light and joy and eternal happiness I must share with you. It is heaven, and man is the door.

ANNALEE SKARIN

SANANDA SPEAKS:

Today Earth's light is dim, because she can only reflect as much light as is held by her inhabitants. As the people of Earth progress spiritually, her light will grow stronger and brighter until she becomes as a star visible in the heavens. We are eager that the Light and the knowledge of the New Age be spread into all areas. You are all workers in that which is planned. Altho you have free will, you are urged to go within to the Source of your being for that inspiration which will indicate which way you should follow.

Just remember that each one who strives to do his utmost, who lives according to the direction of the Divine Spirit within, who tries to carry out the Golden rule: "Do unto others as you would have them do unto you", such a one is uplifting this planet. He or she is an important cog in that spiritual wheel which is ever turning and enlarging. Without your lights we can do nothing. Yours is the light we need. I, Sananda, now ask you to expand your light and send it out to others so they may feel it and be benefited by it. The light you offer will help them to overcome their darkness, because this light is not your own, but it is the Christ Light being flooded thru you; the great Presence within you who does the work. So I ask each of you to help others while you are here on this earth. Help them to a greater understanding. Unless you help in this way you are but prolonging the time for the raising and transition of this Earth. We are eager for this transition to take place soon. It will take place as you help us. I send you love and I give each one of you my blessing.

I AM SANANDA
