

# THE GOLDEN DAWN

CITY OF THE SUN FOUNDATION

NUMBER 53  
(Mar. Apr. 1930)

THE INTERPLANETARY CONCLAVE OF FEBRUARY 16TH, 1930.

On February 4th, I, Tu-El-La (the channel Thelma) was notified there was to be an important Interplanetary Council meeting on the day of the eclipse, this month. All of the Space Commanders would be present, the Masters of the many nations, the Chohans, World Teachers, and all members of the Highest Solar Tribunals would all be in attendance. Following the message I determined that the eclipse would take place on Saturday, February 16th, 1930.

The following morning, a Universal Master from outer space, called Matton, spoke with me. He identified His work as Coordinator of the many volunteering Space Commands who assist in the guardian and advancement actions for this planet. He advised me the Great Council meeting would begin at 7:00 Am earth time in my area, with the comment that these large Councils have been taking place about every three years in normal times, but they expect to have them twice yearly from this time on. Matton told me that my Higher Self would be pulled up to participate at the Council, and to hold myself in a receptive state at that hour.

Promptly at the time and day appointed, contact was made, and once again I was told to close my eyes and place my hands upon the arms of my two Heavenly Escorts. Unlike other similar experiences, this time the distance was very great. This escorted trip took longer than any other I had experienced in the past. Following the entrance preliminaries, my escorts withdrew. I was seated with other visitors and guests in an upper balcony like structure, with a good view of the scene below.

A speech introducing the keynote speaker, Sananda, also known as Jesus the Christ, Lord of Lords and Prince of Peace to Earth, had just been concluded.

In the absolute stillness of this vast crowd, the Beloved LORD JESUS arose, and with both hands raised high overhead, turned in circular manner to beam rays of blessings to all. Then, in this awesome moment of electrified inspiration, He began to speak:

"Lords and Ladies of the Heavenly Hierarchy; beloved Chohans; Ladies and Gentlemen Commanders and Officers of the great Galactic Space Command; Universal and Planetary Masters; Sons and Daughters of God in attendance as members or visitors of this great Solar Tribunal, I greet you with My Love and My Gratitude for your devoted service to the cause of interplanetary peace. We have assembled ourselves on this day that plans for peace on Earth might be brought forth. All of you, as Members of this august Tribunal are well informed, and aware of the delicate situation that now exists in international affairs, and the crisis that is taking place this very hour. You are all alerted to the present possibility of hostilities exploding into global

nuclear warfare. I take this opportunity to call upon each and every one of you to do everything within your domain of power under Universal Law, to contain these threats of hostilities and to prevent global involvement, for the sake of mankind upon Earth.

Let us, by our influence and our ability, see to it that the American hostages are returned safely to their families and their country. Let us join spiritual forces to place a ring of containment around that situation at this time. The secret plans and manipulations that have taken place in that area and in that situation must be routed and resolved. It is the work of this Tribunal to continually and constantly police the actions of those groups used by the dark forces to promote nuclear warfare wherever and whenever they can bring it to pass. We MUST combine all forces of Light in Heaven and on Earth to halt these fallen ones in their terrible deeds.

The threats to peace that have come forth following the invasion of Afghanistan can yet be resolved in a peaceful means, through the combined forces of all soldiers of the Light and the work of this Tribunal. We must send forth our calls to all Chelas and groups of Light on Earth, to give their energies to prayers and decrees to assist the heavenly forces in their efforts to contain this situation. We DARE NOT let it spread beyond its borders, and we DARE NOT permit this action to precipitate conflict in the Persian Gulf at this time. Through the influence brought to bear upon your Chelas of Light in high places and world audiences, in United Nations debates, this situation can be brought to a peaceful solution.

With patience and inner promptings of those whom it is possible to influence and to guide, we can victoriously contain the effects of this invasion in a peaceful manner. We must keep trying and never give up and never turn back. There are dark forces at work in this action which must be stopped. And I say they shall be stopped and they shall not realize their purposes. The world at this hour knows not what to expect. Within these nations there are those men serving their countries conscientiously, who are aware of the dangers that are involved to humanity in nuclear conflict. They themselves desire to avoid this at all costs. They can be appealed to with reason, diplomacy, and carefulness of approach. It is OUR duty as spiritual overseers of planetary affairs to beam in special help to all of those so inclined with all of the power that is at our disposal. This is NOT the time for global conflict. This is NOT the time to let the world slip into total destruction through the greed and machinations of the fallen ones.

Let us all assist the Masters of Africa also, to bring peace and adjustment and brotherly Love to that great land. Let each one also bring to bear our Love and Peace vibrations upon Ireland that peace shall reign. As America faces another election of its governing body, let all of us that are present this day, give of ourselves and our assistance to the Masters of America, to assist them in the placing of spiritual Chelas in seats of authority in this great nation. Down with those who are moved by the dark forces. Down with those whose chicanery and corruption are placed in high places. Let the hidden be brought forth. Let the Light of God shine upon the secret and hidden activities which attempt to destroy America. Rather, let there be lifted up let there be exalted, let there be placed in high places those souls whose calling it is to guide this ship of state into peaceful waters. For they ARE THERE, you know, They are standing in their places, ready to come forth and to serve, like watchers on the walls, on the authority of God, as Sons of God.

I charge you, Ladies and Gentlemen of this great Tribunal. I charge you to assist in every possible way these Masters of these nations, yea, all of the great world powers, at this time. It is most important that our Chelas of Light are placed into th

seats of authority and the high places of decision, in order that we may stem the tide of darkness upon the Earth.

THEY SHALL NOT PASS!  
THEY SHALL NOT PASS!  
THEY SHALL NOT PASS!

We serve the Light of God; we uphold the Light of God; we serve the Truth of God; and the Righteousness of God. Heaven shall not pass away ere the words are accomplished that we have spoken. Peace shall reign upon the Earth! And You, Ladies and Gentlemen, shall bring it to pass. I thank you."

Following the challenge given by Beloved Jesus, the reports of the Masters of the individual nations would be given. It was further explained to me that they would cite their victories and present their major problems. Debate would be open to all in an effort to assist in solving those problems. I was promised a summary when the debates were concluded, and instructed to meet with them again at 7:00 P.M. the same evening. At the appointed time my escorts appeared, and I was swept up once again to my same observation seat. The reports had been given and debate had concluded for the day. Many of the lesser nations, or those not involved in the immediate emergencies, had waived their allotted time in favor of those beset with problems. The promised summary was given as follows:

The Masters of the Middle East nations have received overwhelming support from the entire Conclave with great volumes of Light to be spent in that area towards Peace. The response was so gratifying the entire body arose to give great cheers of thanks to all.

The oil fields for world supply would appear now to be contained safely within this great volume of Light which is now held steady over that area. The Masters of these nations gave moving expressions of appreciation and gratitude to all who had offered their Light and assistance.

There had been a lengthy debate over the problems of world economy as well as the war threats. The tottering economy was seen to be controlled by those of certain groups whose work it was to bring chaos into international affairs. Continuing inflation was determined to be another effort at instigating worldwide hostilities. Since many believe that wars generate prosperity, conflicts are used in this manner by the manipulators of the world. Certain hindering effects are to be set in motion by the Hierarchical forces which will forestall this use of the economy as a war making strategy.

The further plot of the fallen ones to replace the heads of governments with robot type beings and puppets is to be thwarted by the Galactic officers and their groups, by virtue of their ability to penetrate unseen into places where this activity is produced. Strange things will happen to these false forms and to their places of production.

There will be a moving upon the populace to place into office those whose Light is for the good of the nation. The candidates of the dark forces are going to be faced with great struggle and opposition as the Masters and their councils bring action against this activity.

The farmers of this nation will also rise up against the price manipulators of their produce, who all but strip away profits that make it worthwhile to continue. This action of the dark forces to thus cut into American food supplies is recognized by

the heavenly host and it shall not prevail. The farm price manipulators shall fail in their efforts to close down the farm belts.

Efforts by well organized forces of darkness to cancel the registration of our young men shall not prevail. But they will cause much disharmony, working the self-centered human forces to destroy unity in this effort toward preparedness.

The changing weather patterns for the planet were discussed with much concern. The Space Commanders expressed their ability to control weather patterns, or change them. Hierarchal members agreed to call a vast meeting with the Elemental Kingdom to assist man in coping with these coming changes. There are dark angels of the air who many times are capable of gathering together momentum from a weather pattern to concentrate it in a manner of destruction. Spiritual controls everywhere will be increased to police these actions. There will be continuing weather problems as the alignment of planets comes closer into focus in the years immediately ahead. This is seen to be sufficient problem for man, without the hindering works of the dark forces in addition. The Chelas of the Light are to be alerted to call upon the Elemental Kingdom and its forces, for assistance and deliverance in times of stress due to weather conditions. The harsh weather patterns ushered in by this eclipse were noted.

The Council has agreed to meet again at the time of the August eclipse.

- - - - -

Following a long period of quietness and meditation, the Chairman arose to introduce the speaker of the evening. He spoke of the great Love-in-Action of this Beautiful Soul that radiated all over the planet, and whose work was well known in the cause of Peace and Harmony amongst mankind. He spoke of her dedication to the children of the World and educational processes for their enlightenment. He reminded the Council of the many thousands of incoming souls that had personally been sponsored by the World Mother, in efforts to strengthen the Light forces upon the planet. He acknowledged the great honor that was his, in introducing to the Council, BELOVED MARY, Queen of the Archangels, and Universal Mother. She arose slowly and majestically made her way to the podium and turned with hands outstretched to all during the standing ovation in her honor. Motioning for them to be seated, and beaming forth that indescribable Love Ray to all in every direction, softly, but clearly MARY began to speak:

"It is my great privilege to address this important Tribunal, all of these Dignitaries, and those Sons and Daughters of God who visit with us. I am the Universal Mother, and it is my desire to speak to you on behalf of all my children upon the Earth, and my Children's children, I speak also on behalf of the Christed Ones yet in their infancy and their early childhood, and I speak on behalf of those yet to be born upon Terra.

I call upon this great body of Light to consider what global confrontation would do to the calling and election of these little ones, for many surely would fall in such a catastrophe. This cannot be, for we have placed these little ones in all nations, in sheltered homes and chosen environments. This has been done that when their Light and their teachings are needed they shall be ready and prepared to raise their voices for the upliftment of a planet and its people. Thus, for the sake of these, my children's children I plead with those in attendance upon my words, that consideration shall be given to the little ones of the world. The famine that would surely follow, the pestilence, the suffering would fall hardest upon these little ones. We have placed them, we have sent them, we have commissioned them, and we cannot fail them in their time of nurturing and growth upon the planet. I call upon

the Heavenly Host in the name of my Beloved Son, Jesus the Christ, to stand guard over these shining stars, wherever they may be. I call forth special guardians to be dispatched to each little being, until that soul is capable and strong enough to hold the Light for themselves.

I call for the assistance of the Masters of each nation to send forth of their Councils those heavenly contacts to oversee the childhood, the raising, the teaching and the nurturing of these Christed Children where they are presently hidden from the dark forces. For as Herod of old sought to destroy all the little ones that he might destroy the Christ, so there is in this day abroad that same spirit that would care not for the little holy lives, but would go forward in their plans for destruction and bloodshed with never a thought to these little ones.

It is the younger ones who will carry the brunt of the New Age administration for the Hierarchies of Heaven. Those enlightened wayworn Saints of Light upon the planet at this time shall go on to their higher initiations and their higher service. But it is these little ones as they come into maturity at the close of this century whose work it shall be to establish enlightenment in Universal Law, awakening, strengthening, maturing those who remain and those who must enter. So it is that I would stir within the heart of everyone who hears my voice, the intensity of our debt to these young New Agers, and to reawaken our dedication to their security and their safety.

The Children of the World have been very close to my heart. I have many times chosen to bypass adults, to appear and speak with the children. For the purity of their devotion, the innocence of their faith is an eternal joy to me. Many times I have stood beside their bed as they knelt to speak their bedtime prayers, for these are the spiritual investments of the Hierarchy in the future of Terra. In these days, as the feminine ray upon the planet is coming into balance, and the being is made perfect in this balancing, the Ray of the World Mother is very active in the affairs of mankind. I am indebted to the Members of this great Council for so much that has been accomplished in response to my requests and my calls for your intervention on behalf of motherhood and the children of the world.

I stand beside every mother whose call is sent Heavenward on behalf of her children. Through my electronic Presence I touch them with my Love and pour Peace into their being. The youth of this day face temptations and destructions that were unheard of even half a century ago. The youth of the world face even a greater danger than nuclear warfare, for the danger facing the youth of the world is a threat to their very souls, as the fallen ones make bid for their attention and their allegiance. Through every avenue of life, at every turn, at every moment, they are besieged and overwhelmed with the magnetism of the fallen ones.

I call for the assistance of this entire Council body to debate together, to consider and evaluate what can be done to save the youth of this generation. Their bodies are threatened with destruction; their pure minds are threatened with mind pollution in every direction; their very souls are on the auction block of Lucifer and the fallen ones. I call for a special dispensation of Love and Protection for the Youth of the World.

I am grateful that my calls are heard and that response is always forthcoming when my requests are placed before this great Council. Even as I speak, I know that action on your part will be forthcoming and that new avenues of approach to young hearts will be given to the planet through your wise implementation. I express to each and every one of you my devoted appreciation, my deep respect for the great works that result from these important meetings. On behalf of the Mothers, the Young People, the Children and the Little Ones of planet Earth I thank you, and bid you good evening.

- - - - -

This concludes the report of The Interplanetary Conclave of February 16, 1930. May every praying mother whose young have stumbled in the snares of our polluted world, hide in their hearts the words of Beloved Mary, especially for them.

To those of us who serve here in the physical octave of being, the challenge has come. Beloved Jesus has clearly called every embodied, enlightened Child of Light to give themselves in prayers and decrees at this time for the containment of these emergencies. For the Heavenly Hosts, on the authority of our calls as Sons and Daughters of God, may intervene in the affairs of men that threaten the very planet itself. Build circles of Blue-Flame around these areas and proclaim them as a ring-pass-not in God's Name, that shall prevent the spreading of these crises and will preserve the peace.

Channel: TU-EL-LA  
(Thelma Terrell, City of the Sun)

-----  
THE VIOLET FLAME AND OTHER PRAYERS

We now send forth the Violet Transmuting Flame and other prayers to the Middle East to bring balance and light where needed.

By the use of the powerful Violet Transmuting Flame, with the help of St. Germain and legions of Violet Flame Angels, we now eliminate all human discords among governments, religions and races.

Especially do we pray on behalf of the Middle East where the battle of Armageddon is now taking place.

We decree that these negative human concepts be eliminated, that they be immediately replaced with the activating force of God's Love, Light, Peace, Wisdom and Joy, now and forever.

We accept and give thanks for this new condition of Divine Harmony and Love, penetrating every corner of the Earth, right now.

FOR PROTECTION AGAINST MILITARY CONTROL BY A FOREIGN COUNTRY.

I pray that Russia who is now conquering Afghanistan, shall be prevented from also attacking and ruling Iran, Pakistan and the Persian Gulf.

I pray to God that this entire area be protected by the Blue Flame from Archangel Michael. I surround this entire area by the ring-pass-not of this Blue Flame to prevent it from being conquered by Russia.

I send to these nations God's Love and Light, that wisdom and brotherly Love shall guide them in their affairs in the future.

W.H.T.

-----  
ON PSYCHIC UNFOLDMENT

Many are abroad in the world today who are on the psychic bandwagon, believing that this is the "in thing". You have your psychic seminars, trips to India and Egypt, holistic this and holistic that. Very few of those who conduct themselves in the psychic context are really psychic at all and very few of them are really qualified to teach their "trade" to anyone, let alone themselves.

Man beware of those who come in sheep's clothing to usurp the light and power that is yours, your own inheritance as a Child of God, a true spiritual being. We are not saying that everyone who is on the psychic bandwagon is "negative" or "bad", but we are saying the majority are not a part of the teachers or the teachings of the

Great White Brotherhood and as they have not our authority they can do damage to the unfolding Children of Light.

By their Light they will be known - by their fruit so shall they be known of the Father who is your Guiding Light. In these final days, the children of Light must go about their unfoldment with the greatest of care and caution. Above all, all unfoldment comes from WITHIN. Only those chosen by the Masters should attend to the spiritual unfoldment of any other. For as he does, so he takes the student's karma upon his own and holds it in abeyance. Those who are not authorized can very easily hurt the unfoldment process and in fact, start it to such a degree that it may take another lifetime to repeat the unfolding process. This is not said to alarm, but to only show that all growth MUST come from within. There are very few who truly can see within another and govern the rate of unfoldment.

Now more scientifically - the human is energy; energy vibrating at different rates of vibration, resulting in the dense physical body on the physical (third dimensional) plane, and the higher vibrating, finer bodies for the higher realms of consciousness such as the etheric, etc. As the human evolves back into his true spiritual awareness of being a true Son of God, there is a change in the rates of energy vibrating throughout his lower bodies (physical and non-physical) as he evolves higher and higher, or lower, as the case may be, on his evolutionary path. These changes in the rates of vibration come about through natural spiritual evolution and also during a time of high energy infiltration to the planet itself such as is taking place now as one age ends and another begins. During the transitory period, many find great spiritual stimulus. This is happening today. Those who are following the Path of Light, Knowledge and Wisdom are finding that the higher chakras are speeding up with the result violâ, psychic power!

Now here is the danger point. The soul has come along perfectly fine in its evolution to this point without too much interference from the personality. But now, the personality, stimulated by all the glamour as advertised by the so-called psychic cults, you name them, suddenly feels that it is missing out on all the glamour of the psychic world, so it hops on the bandwagon too. It does not realize that all unfoldment comes from within and up to now that unfoldment has come along very well without the personality's meddling.

Because of this, two things may occur. One, through the techniques of the psychic group, the personality may indeed unfold its psychic talents, and be so enthralled by the subsequent "power" that it loses all further spiritual unfoldment and must undergo specialized treatment and study on "our side" after it passes over to correct the situation. Or, through the inflow of the psychic power which is coming from the astral plane, the personality becomes unbalanced and is opened up to all manner of psychic attack, such as voices and actual physical harm.

Therefore, MOTIVE is the keyword in this day and age. Clearly, if the motive is truly to further one's spiritual evolution back to the Father, then the Higher Self can take over and lead the personality in its unfoldment. But, if the psychic talents are being unfolded simply for pleasure, excitement, the "in thing" to do, then the personality - beware! It can lead to destruction.

It is the greatest worry of the Masters and those of us who lead and would counsel with humanity that they not be led astray by those whose motives are not clear and true to the purpose of humanity's highest evolution. Only by going within and listening to the guidance of the "wee small voice of intuition" can you know for yourself the truth of what is right for you.

Mankind has free will, but he must exercise that free will with common sense and caution in the psychic field as in all else. Never more so than now is mankind tempted beyond belief, but he must stand steadfast in the ways of the Father.

The powerful incoming rays of which we have spoken are stimulating the nerve centers to a great degree bringing about this psychic stimulation. What mankind does with it is up to him. This is the greatest opportunity to turn to the soul's growth. For you see, it is TRUE psychic development that comes with the advancement of the soul. All else is astral energy and not true in the sense of being refined God Energy. Mankind must have the patience to unfold in a very natural way. All else will lead to his eventual downfall as it did in Lemuria and Atlantean times.

Therefore, we say neither yea or nay to the study of psychic unfoldment. Rather, we would encourage development from within, rather than from without. Let it come as a natural advent of the soul's continuing evolution.

And now, good day.

I AM MARIUS.

Chanel, Lucy Colson, Ojai, California.

-----  
SAY NOTHING when disturbed.  
SAY NOTHING when resentful  
SAY NOTHING when angered

But let not your silence be a rebuke to your companion. Rather so rise above that which disturbs you that your companion will be lifted up with you. Then shall you know how unimportant, how VERY unimportant, was that which disturbed you.

The only important thing is that you shall live this day in dedicated God-service, and in an understanding consciousness of His Love-illuminated Presence.

Selah

#### FAITH IN GOD

Words do so little to lead a doubter back to a belief in God. Be ye less concerned with what another's attitude may be. See to it that thine own faith convinceth without words. That other hath his own way to find. An hour of awakening will come to him but to be of value to him it must come from within not from without. His own higher self slumbereth not. In time, some exigency will prompt the seeming unbeliever to cry out to a power greater than himself, and in the flood of realization that will follow, he will himself SEE THE WAY HE IS TO DO.

Do ye so outshine the light of thine own inner faith and knowledge that all others, without words of thine, will realize that here is one who hath an inner peace, an inner joy, that is much to be desired. Words often antagonize whilst an outshining of inner light, an outgiving of sincere love draws such an one into the orbit of that Light and that Love.

Selah

Our children, what a struggle you do make in your endeavors, your upreachings, toward perfection. It is so simple really. Just Be, Think, Say, Do only those things which express your higher self, never your lower, selfish self.

Think with your higher mind, your selfless mind before you speak or act no matter how unimportant, to your thought, is that which is under consideration.

Selah

COMING EARTH CHANGES.

"Coming Earth Changes" (Concerning the forthcoming planetary alignment and its meaning for and to the earth, people, nations, atmosphere, and future) as prepared by the Blue Rose Ministry is the title of a discourse which we feel many of our readers will want to purchase. It is an account of five individuals who are placed in a state of post-hypnotic condition. These five people were requested to look at the future, and to relay information as they envisioned areas of our Earth from the year 1985 to the year 2,000. The information received by these individuals was in almost agreement, and then it was combined as if spoken by one person.

This will tell of many earthquakes, the flooding of most low levels of land, and the raising and lowering of many mountains in this country and throughout the world. The prophecies given by Edgar Cayce, and many other people over the years, we feel are soon coming about. But just where and when they will take place are seldom known to man. But many of these details are given to us in this discourse, which makes it most valueable to us. Many of these things will take place, we now learn, during the coming three or more years.

Many of us know that Edgar Cayce in a "sleep state" told us, for example, that the three Great Lakes will become much larger in size and that the Mississippi River will become much wider, which will seemingly divide the United States into two large halves. Here is what the "Coming Earth Changes" tells us about these three lakes: (Ontario, Huron and Michigan) "It's all changed. These three lakes are now one large sea lake. No fresh water. The salt water has come in. These three lakes (will) have combined, and they are now a sea of salt water. The lands coming into these Great Lakes have all changed." These words say that it has already happened, but not really of course! This particular bit of information is given as if this year is 1985, and thus it is told what has happened between 1930 and 1985. And then questions will be asked, what has happened between 1985 and 1990, etc. and the answers are also given in this paper.

1932 will be the beginning of the peak of the alignment of the planets. A disruption in the magnetic field will take place. This small movement of the Earth poles by 15° will increase the Sun's rays on them to melt the polar caps only, and this will increase the ocean levels of the earth somewhat, and much damage will occur. This 8-page discourse explains that these earthquakes and rising waters will break up furthermore our lands and will inundate many coastal areas. Much of this will occur long before the final "flipping" of the poles of the Earth.

To order "Coming Earth Changes" send 50¢ and your name and address to

The Blue Rose Ministry  
P. O. Box 622  
Joshua Tree, California 99252

First-class postage on this will be paid by that organization. Do not send orders to the City of the Sun. We have none to send.

N.H.T.

Editor's Note on "above material":

While most of us at the City of the Sun feel that the planetary alignment in the coming several years will have great geological effects upon our entire planet, we also feel that this information is probably not for all people. After reading it you could be filled with fear, resentment, discouragement. The planet does NOT need any more negativities to handle. Therefore GO WITHIN AND BE GUIDED if you are to send for the "Earth Change" material. These are days to evolve spiritually and rise above any "fear of the future". If you are able, become enlightened, but KNOW that GOD WILL CARE FOR YOU IN EVERY CIRCUMSTANCE."

Have you remembered the City of the Sun in your will?

SOLAR GREENHOUSE  
At the City of the Sun.

We came out here to the City of the Sun from Tucson, Arizona, in June, 1975 and were delighted to see such a beautiful country in which to take up our new home.

We built the first section of our adobe home in March, 1976. After living in the first section for a year, we then built on two bedrooms, another bath and a long hallway with plenty of storage space. Then I got the bright idea to build a SOLAR GREENHOUSE attached to the south side of the ell-shaped house.

In 1979 I ran on to a copy of ORGANIC GARDENING, December, 1977 issue, and on pages 63 to 67, was an article by a New Mexico man by the name of James DeKorne, about an attached greenhouse that he had found successful in this area, even though he lived in the colder part of New Mexico. So I decided this would be a good spot for us here. I started building my Solar Greenhouse in March, 1979.

Our greenhouse is 10 feet by 24 feet, built on a cement foundation with two layers of hollow cement blocks on top of the foundation. I bolted down a 2 by 6 plate for my 2 x 4 studdings. The studdings are set at an angle of 60 degrees, and the roofing sloped up to match the rafters of my house. The studs and rafters were spaced 47 inch centers to take care of the semi-clear fiber-glass corrugated sheeting on sides and roof. The west end of the house was solid plastered adobe with a door into a bedroom. On the north is fired adobe brick, with a kitchen window, a kitchen door and a living room window. The two doors are vented at top and bottom to get the proper circulation of cold air at bottom and the hot air at top into the house. The east end is studded and glazed the same as the south, with a door on the east for handy exit into the yard and storage shed.

On the roof I built a solar frame with copper tubing, well-insulated and covered with a 4 by 3 foot piece of plexiglass. The coils are piped under the roof into the kitchen hot water heater, with the solar hot water pipe as input to the water tank. Thus on cloudy days I can throw the switch and have the electricity heat the water. We do not have very many cloudy days here.

I have a wood burning stove in the living room as well as a passive gas heater I use at night from bed time until morning, set for around 65 degrees. During sunny days the solar greenhouse has given enough heat into the house so that we have not had so much cost in wood, gas and electricity. We have been able to save quite a bit on heating costs.

During the summer and fall of 1979, vegetables have grown nicely, for I had plenty of ventilation for growing. Then I closed up the vents and the east door during the winter, thus conserving energy.

We have had beautiful tomato plants growing to the ceiling this winter and several other vegetable plants and house plants, all nice and green with vigorous growth. This has reduced our grocery bills some with home grown organic vegetables. We will experiment on how to improve the greenhouse, and on how many things will do well in this environment. By building the house myself it has not cost much.

AT THE CITY OF THE SUN:

We were glad to have about a week of rain - not a steady one - but a gentle rain with some puddles lasting awhile. Everyone is getting garden-minded and getting soil spaded and manure add and mulch. Some time after March will be best for planting seeds. Some trees started to leaf out in the summer-like weather we had for awhile.

Ron Sease of Deming conducted one of our Sunday devotionals.

Among visitors stopping on their way through were William Humphrey of Big Sandy, Texas and Pete Goesinya of St. Cloud, Minnesota. Also friends from Arizona and California were here.

We have another new member who is to move into the camper section of the City of the Sun. He is a young man by the name of Mike Wyley. He is interested in community gardening and wants to build a small solar greenhouse. He will be active in our community garden and greenhouse.

On January 19, 1980 we had our Annual Meeting of the City of the Sun Foundation. Many reports were given of various standing committees. The following officers were elected:

Board of Trustees:	
Thelma Terrell, Chairman	Austin Love
Wayne Taylor, Vice-Chairman	Faun Homman
Secretary, Ruth Love	William Switzler
	Sam Stephen

Faun Homman was elected Foundation Treasurer again.

Mary Jane Switzler was elected Foundation Secretary again.

Faun Homman is Chairman of the Members' Meeting, and Eileen Schoen, Secretary.

The City of the Sun will soon have a beautiful blue wind generator with three seven foot blades whirling in the breeze on top of a sixty foot tower.

Several months ago the resident members decided that the most important survival need might be our own water well. A committee decided that a wind generator would be best to pump the well. Besides pumping the water, other uses of the electricity can be developed.

Our generator is the first one to be erected in this area. It is a model B74 manufactured by Dakota Wind and Sun Ltd. of Aberdeen, South Dakota. It was purchased from Larry Bushey of the Free Power Company of Deming, New Mexico.

The wind, turning the blades of the generator, sends direct current down to operate a motor which is coupled to an alternator. This in turn runs the submersible water pump, and other uses of electricity within the capacity of the system. A bank of nineteen storage batteries furnish 114 volts available during no wind periods. The generator will also charge the batteries as needed.

It is amazing how the many safeguards built into the equipment operates to protect the various components. An ingenious device will automatically feather the blades as the wind velocity increases and protect up to a hundred mile per hour gale.

All is in readiness now for the crane to come 90 miles from Silver City to raise the tower and place the generator. For the present, the water from the well will be used in the Community garden.

REPORT OF "GOLDEN DAWN" GIVEN AT ANNUAL MEETING:

January 19, 1980

This has been a very good year for our little publication. We are grateful that it continues to be helpful in people's lives - giving them higher knowledge and inspiration. We have tangible ways of measuring the help it gives, by the constant flow of letters and love offerings. Of course some people move, others pass over and are removed from the lists, but we continually gain new readers too. We are grateful for the material that has come into our hands. 1,000 copies are mimeographed. The list, I consider, is being kept current and up-to-date, as I feel the Trustees would wish done. We send out just over 700 with our bulk mailing permit and then send many overseas and

by special mailing. During the two months between mailings, we send out quite a few more as requested, and to those interested in our project.

I would like to mention some specific newer readers of the Golden Dawn. At year's end we had 6 people receiving it in Ghana. (1 is a prayer group and another a university faculty member.) We send 1 to Cameroon. 20 receive it in all parts of Nigeria. (We have had much correspondence from these eager Light seekers.) The Silver Light Sanctuary of Rhodesia is on the list. There is a new group in Spain. Rev. Damascos of the Philippines continues to use it, as do many others around the world who have been on the list for some time. At the first of the year we had 13 in Canada, and now it is 23.

Of course many times we are unaware of people who share the material, but we know that many in the United States also share with their neighbors, friends and the groups they belong to. We must remember too that this past year our friendship between the Silver Eagle Lodge groups of England was strengthened. This was the group in England who were directed to get in touch with us. This led, of course, to the two English ladies visiting. Now they expect "some more to visit us."

All of our community members continue to have the opportunity to work upon assembling the paper every two months. Harry Jones took charge of that during the first of the year, and lately Wayne Taylor has been doing this. Our dear ladies have continued to be faithful in putting the labels on.

From the "One who didn't expect to be doing this sort of work" I say, "Thank you for your confidence and backing during 1979."

Mary Jane Switzler
