SEE YOUR ULTIMATE PROTECTION.

By Archangel MICHAEL

In the survey of the areas of the planet in which so many of the Children of Light are finding the changes disturbing to their minds, we have given all protection possible. It is for those who cannot see, to find the way NOW to open their Eyesight, so they may see the fiery armies encamped about the Children of Light! See the Fiery Armies, your Ultimate Protection!

These are They who lay your apprehensions to rest beyond the shadow of a doubt, that all things are working together for good. The changes are coming about daily now, in an ever increasing avalanche, so that all things of the old will be swept away, before the final breaking of the dawn, when the skies of Life will be golden and pink with Love and Understanding and Great Wisdom! All things are coming about as they should be and they will be in the crucial times ahead thru the next few years.

The Fiery Armies are those Armies of Angelic Forces, those who are the Fire of the destruction of the Old, and the bringing and building up of the Energies of the New. Those are in themselves the essences of Protection, and the playing of the Blue Cosmic Rays of Light upon the establishments of the Light Groups across the World. Have no fear! Remember there are the Mountain Tops to which one flees for survival! These are not the physical mountains, but the mountain tops of Spiritual Joy and Ecstasy where nothing can reach you from the lower levels of the negative sides of the effluvia which flourish on the dark levels of life on this planet at this time.

Joy unconfined! Happiness almost unbelievable! Mercy and Love! All these are the attributes of the higher planes of spiritual Light to which the Children of Light must hasten from the lower levels of life - where too long some have tarried. Joy! Happiness! Are not these states of consciousness those which are sought thru-out all the levels of life upon this planet?

Some are so weary, for they have not found that which is sought. They are too busy doing; too busy being active, too busy working to accomplish that which they consider to be the ultimate of spiritual accomplishment.

Beloved Children of Light, I say unto you that it is now Time to turn your minds from the business of doing or trying to prove anything, or to earn anything. Now give your thoughts and your energy to the pure and simple state of Being. Learn to Be that which is good, which is beautiful, knowledgeable, interested and accomplishing. Learn now to Be the builder of all good things.

All these are goals which are worthy of being met. This will not happen as long as there are those who try to accomplish them, busy with their own energies, trying to prove that which they themselves can Do. There is no competition in the Light. Every person, every Light Group, every Ascended Master, every Chohan, every One of the Organization of the Great Worlds of Spirit, has each His own Being, and His own way of manifesting that which He desires to build.

Be ye not troubled! Remember you are important, in your own place, doing what you are called upon to do - but even better, you are in your own place Being that which you have so far achieved, always asking for greater Knowledge, Wisdom and Understanding in order that you may more and more become that which is greater and more Wise and more Wonderful in manifestation of Spirit which you desire to be.

CITIZENRY IN THE AQUARIAN AGE.

The people of the New Age are those whose hearts have been perfected in the fire of personal living on the highest levels. The attitudes of Earth must be purified; the goals of Earth must be corrected and the governments of Earth must become oriented to the needs of the people.

Whenever an individual or a nation exists for self alone and becomes irretrievably enmeshed in their own selfish desires, chaos will result. The discrimination of purpose is the destroyer of all ultimate good in the world. Without selfless motivations the majority will succumb to the mastery of greed and covetousness.

The earth must be cleansed of its materialism, hierarchies of greed and pride in high places and its unmindful thought of the lesser man. Men of every race must rise above their color and their creed and accept one another in the dignity with which God has clothed every individual soul. Man is created in God's Image, and man's inhumanity to man is man's sin against his Creator. Angels unaware have been cast out, and archangels have been despised; for the eyes of the flesh are blind, and the windows of the soul have the shades drawn while the doors of the mind are bolted shut.

These negations will be done away with in the Age of Enlightenment that now dawns upon the earth. The Prince of Peace will be known and loved, and Love will rule where once malice reigned. Those whose right it is will be made ready for this new environment, but how much less the suffering if knowing hearts would determine now to bring about these changes for God, within themselves, and within their environment, lest God send forth an Angel to see that it is done!

The changes must come. Let us not wait for God but rather inaugurate a new world, in a voluntary cleansing of purpose, mind and heart. Then, and only then, will the heart be ready for citizenry in the Aquarian Age.

WORK IN THE NOW, AND YOUR FUTURE IS SECURED.

This is KUTHUMI speaking. I have come to talk to you. So many prophecies are being made in this day, so many changes are predicted, that Earth man wonders if he is capable of facing the life ahead. I am not speaking now of the New Age you are looking forward to, but I am referring to the interim, the period for which great changes and calamities have been predicted. I will try to give you a feeling of ease and contentment to counterbalance the fears and worries which may have resulted from hearing predictions and prophecies.

Changes will occur - that is inevitable - but man is able to meet each new change as it comes if he knows how. Man is not being punished because he has not done all he is capable of doing. Part of what is coming is not man's fault, but part of this is man's fault. Man himself must change and he must be cleansed in order to be fitted for life in the New Age. That is one reason for the upheavals and changes which will take place. One thing man must learn to do in the times ahead is to conquer all fear. This isn't easy because man has relied for too long a time on outer things. But now man must realize that he himself is a spirit, a being of Light. With this realization in mind he will be able to weather any condition which confronts him. The way times are today man knows not what his future may be like. There is no more security in any part of the Earth planet for anyone. This is a terribly jarring situation for man to face. Nothing he thinks he owns is safe or secure. Yet man argues: "It is mine. I made it." The future will prove that nothing is his and what he thought he had built up is like a foundation built on sand, and disappears overnight.

There is but one thing that will never disappear and that is man's inner Light. Man is not a material being; he was not meant to be a material being. Man made himself a material being because he was drawn to those outer creations which are but mere playthings. Yet to these things he devotes all his energy, his love and adoration. In doing this he is unmindful of the great Almighty One, Creator of the Universe, and he forgets also the high being that he himself is.

But now the time has come when man must realize the truth of his being, who he is and what he is supposed to be doing here. So when outer conditions become upsetting and worrisome, and your world seems overcast and darkened, know that you can leave your material sense of body whenever you wish in the realization that you are spirit life. Whenever the outer seems impossible, go within. Say whatever prayer you wish to protect yourself and realize that your physical is but an outer cloak which the inner Self wears. Try to sense, feel and become that inner spiritual being which you really are. At first some of you may have a difficult time realizing your body of pure light substance. Try picturing or imagining a figure similar in form to yourself. See that form outlined in light, see it filled with light. Then animate that figure by projecting into it your mind, feeling and consciousness. Know yourself to be that very form of light. Know you can leave the outer body cloak behind and go wheresoever you will. Nothing can happen to you. You can only experience greater joy and upliftment. Try to feel your inner body of light as so buoyant and weightless that it could land on a bubble or a raindrop and not break it, or it could recline on a feather and float without weighing at all. If you will practice this a little each day, you will begin to get the feeling of your light body.

As you use your body of Light, be thankful to the Almighty One for all He has given His creation, for all life upon this planet. Thank Him for the planet itself. Radiate the light out from your light body as far as you can. Each time you do this you will find your outer life changing. You will not find the same problems or anxieties you left. Your troubles will be fewer than they were before. Many problems will have resolved themselves and some will disappear entirely. The material things you worried

about, your finances, will all be taken care of for you. No one would have to carry a personal burden on his shoulders if he would but start in contact with the Supreme Being as his own inner Presence. Many of you only remember the Supreme Being when you get into a bind, or some condition overwhelms you. Then you turn to Him, but right after the problem is cleared up, you go back to your worldly ways. But with life as it is to be lived in the New Age you cannot do this any more and expect results. You must change your whole outlook.

So you might as well start in now using your light body. You will need it a great deal when times become more difficult. In the future you will realize that no matter what condition presents itself, it is for the cleansing and upliftment of your planet. You will need tremendous spiritual strength and stamina to meet these changes. Those who do not possess the necessary degree of spiritual strength will be swept along with the tide of events. That is not necessary if you will but use your body of light to help you realize that you are not of the material any longer. Each time you animate your light body you are quickening yourself and raising your vibrations. Each time you make the ascent into light, you are actually changing the atoms and cells of your physical structure, until that material body has been entirely renewed.

I ask you to give this practice your serious consideration, - not because of me- (I do not need it.) but my love reaches out to each one of you and I would like to help you in every way I can, because I know that man has much to face in the future. But man also has many great gifts and qualities within himself and he can help himself by using them. This help is something no one can give to another. Each one of you must do it for yourself. So love yourself a little and work in the light. Whatever you do spiritually enlarges your future and makes it more beautiful. You are making your tomorrows today. If you would just take care of today you would not have to look forward to and worry about your future. Work in the NOW, and your future is secured.

Each time you go out in your body of light it is as if you had been on a beautiful trip. You are renewed and refreshed with a new outlook and with emotional balance. Emotional balance is your key word. It is important now even as it will be important in the future.

Develop and work in the light which you are and your worries and problems will not seem to be the mountains they were before. That I can promise you as Kuthumi. Your working with your body of light will bring you closer to the Almighty One and closer to Us. You will gain new wisdom and knowledge. So make this a practice for at least five minutes anytime during the day or night. You might make it longer if you wish but know that the short time you spend in this practice will bring you an eternity of joy. My love and blessings to all.

I AM KUTHUMI

CHRISTIANITY

Beloved, We wish to express certain Truths to you, who are Seekers of Light, regarding the word 'Christian' which is commonly thought of as the 'label' for those who are believers in 'Jesus Christ' - those who follow the teachings of the Church which was believed to be founded on the principles as taught by Jesus. For centuries 'man' has lived in ignorance of the TRUE definition of this word.

We wish to be definite in Our explanation to you, Sons of Light, so We will begin by explaining the word 'Christos' (from which Greek Word the word Christ derives). This word CHRISTOS - also KRISH - also BUDDHI all have the same definition which is: 'first born Sun of God.' This has no reflection on A human entity as has been believed for centuries! 'First born Sun (Son) of God' is translated to mean "The Highest State of Energy." Now this Energy, Beloved, is far beyond the knowledge of your investigative minds, or even your imaginations in your present state of existence. This Energy is actually SPIRITUAL LIGHT, the pure and original Source of all Light which is reflected within human beings, and in every living creature, in varying degrees - so it is that EVERYONE is a potential Christ, as We have so often reminded you.

As an incarnated being manifests more and more of This Light, through Soul Illumination, he and she is perfected through lifetimes until that one manifests as a fully prepared Avatar who has gained full power over physical life and death. Thus he and she reaches the Buddhistic State, an Enlightened One, into the state of Perfection at which time he/she becomes a Christ - a 'Savior' - of the race to which he/she belongs in the evolutionary scale.

The Ones known as Krishna, Buddha and Christ Jesus were such fully Illumined Souls - Saviors of Their Race at times in History when Their Leadership was gravely needed. With the limited vision of the populace in each of these eras, (and this can be said of all other religious bands of followers in ALL eras of life) movements were begun to honor the Avatar and titling (or naming) themselves after their Leader until today you have segregated groups such as: Hindus, Buddhists, Jews, Christians, Mohammedans, and so forth. We see no fault in this theoretically but there IS error when one group allows itself to smugly declare all others in error - often even declaring them pagans or heathens!

So the question is: What IS a Christian? Is it only the one who follows the Avatar known as Jesus who can 'qualify' for this title of 'Christian'? In the Realm of Light, My Children, CHRISTIANITY DENOTES THE UNIVERSAL BELIEF THAT TRUTH IS TAUGHT BY EACH ONE OF THE GREAT SOULS - THE CHRIST'S - WHO INCARNATED ON EARTH AT DIFFERENT TIMES IN ORDER TO TEACH AND REGENERATE THOSE KARMICALLY ATTRACTED TO THEM.

Pure Truth has never changed, Children of Light, NEVER! The basic Teachings emanating from The Christos (the Highest State of Energy) have never changed from Avatar to Avatar! However, human expression AND interpretation has oftentimes tampered with the Truth, as well as subtractions and additions being used to alter theology in order to fortify human dogmatic beliefs.

Now you are dwelling in a period of Revelation - the apparent decline in church membership and enrollment is not due to the immoral religious state of human mind as some people believe, but is instead due to the EXPLORING mind of human beings who refuse to be part of a band of followers when they 'sense' a need for UNIVERSAL understanding of TRUTH. They are more likely to be termed true 'Christians' because they follow the pure Teachings of the 'Highest State of Energy' - THE UNIVERSAL CHRISTOS!

My Beloved, seek not to be attached to a 'label', but to be in union with

Universal LIGHT - the Highest State of Energy! If you feel more comfortable naming yourself a Christian, or a Jew, or a Buddhist, or a Hindu, etc. do so with UNIVERSAL understanding, knowing that ALL ARE ONE in the Realm of Light where NO labels or titles exist - either collectively or singularly - that neither one or another is superior OR inferior - that ALL Avatars taught the exact same Principle - namely LOVE - COMPASSION - JUSTICE - FREEDOM. And you will find, as you spiritually continue to evolve, you will become more satisfied by seeing yourself as a child of UNIVERSAL LOVE-ENERGY.

The Diamond is a multi-faceted gem of rare beauty - The Christos is such a Spiritual Gem - manifesting as LIGHT through all evolved Souls, whether they live in the North, South, East or West of the planet, and whatever their 'title' or label might be, for their 'Name' is "UNIVERSAL LOVE-LIGHT" - UNIVERSAL CHRISTIAN - The Christos-Buddhi is Limitless and Spaceless, the Highest State of Energy, permeating EACH OF YOU, for you too are destined to be fulfilled Christs as you Evolve on the Wheel of Perfection! Lovingly 'sent' by THAT Spark of Highest Energy:

INNER AND OUTER SPACE.

We are indeed happy that even some hard-core scientists are stirring imagination and beginning to combine hypotheses with a more significant degree of in depth reasoning relative to our lessons. Recognize need of same as the old Order fades out and the New Order is ushered in. We (UFO Brothers) are part of this introduction to earthman. When We, your Brothers function both in inner and outer space, scientists demand to know the difference, and how we can accomplish "speed" and maneuverability. We, of necessity, must withhold certain information until you are sufficiently awakened to comprehend tenets of our incoming data thru our many channels strategically placed on your planet which we must use.

Let us explain that when anyone functions in inner space, there is tremendous difference in frequency than when functioning in outer space. Outer space may be likened to the peripheral rim of inner space. It is a so-called border-line. You do not jump from one frequency into another. You ease into it. Now in inner space we function with so-called compact energy. We deal here with mind expansion. It is not necessary for us to travel as you travel. We expand consciousness beyond the earth spectrum's low gravity. Now inner space deals with expansion of Universal Mind of which we are all a part. Thought-waves have power that scientists cannot yet fathom. We take the potent energy from our thought-waves and visualize what we want, or where we wish to go. By thinking of our destination, we are there. We reiterate: outside of the Earth's gravitational pull. Since the majority of earthmen still function in the lower regions of mind, you must still use physicals. Someday you shall learn how to combine thought-waves, soundwaves and lightwaves - taking the cosmic energy therefrom- and utilize same into our way of living.

Scientists keep at us (thru our channels) to explain to them in scientific terminology. We could do so but they are not sufficiently ready to comprehend the tenets of our data. Why not? Due to the fact that they have not yet reached the inner recesses of Universal Mind where are answers to their questions. They must first reach and utilize power of all mind areas before they can comprehend how the total man functions. All of man is correlated to the Oneness of Creation and we are endeavoring to teach science and layman how to reach the holistic body in that medical science

may coordinate same. But first doctors must reach the mind, spirit and body by seeing same as correlated to the whole; then treat IT accordingly.

Let us here endeavor to explain compact energy as we use IT. Your fastest jets appear to arrive at their destination much more quickly than your planes. This speed is just an analogy. We simply offer a clue. Jets with increasing speed compact cosmic energy, you see. Later your scientists shall be more cognizant of ether grooves, seas of radiation, spacebeams and lightbeams. Your usage of lasers are just in the 'infancy' stage upon your planet. Now Universal Mind functions with many light variants and man's thought-waves set the tempo in each mind area. Dwell upon this. You think in your conscious, subconscious, superconscious and ultraconscious mind level, do you not? Therefore, each mind area receives different tempo. The ultraconscious mind area is that level where the God-Christ Ego is reflected, but man has to turn on this light within. Higher regions of Universal Mind is the Citadel and this area is what we endeavor to help man reach in that he learns how to coordinate his correlated (to the cosmos) body, et al. Your faith, strength and deeper concepts of life all exist in the higher regions of Mind. Mind needs a temple in the physical development but is actually not an adherent of the physical vehicle, per se. The atomic arrangement in your level of awareness thru thought-waves and karmic patterns increases or decreases the tempo for your total evolvment. Do you see?

When scientists learn more about light variants in the Cosmos and how light in atoms function in all mind areas in and out of the human component of man, during mind expansion, all men shall better comprehend how light in atoms of higher frequency operates. It is almost impossible for you to believe how we can think of a destination. Blink an eye, and we are there! We reiterate: We can accomplish this by expanding Universal consciousness. Now when you limit mind to just your "own", you limit cosmic energy! Since we live only in higher regions of mind, we draw forth into our being more light that activates and reactivates our entire atomic structure. This is what empowers us, our suits and craft - LIGHT! It's like stretching the mind like a rubber band if this will give you a clearer picture of mind expansion. We offer analogy here: Say that you are planning to return to Florida for another annual vacation this year. Just thinking about that last trip and details takes you there - but in consciousness - does it not? "No," you answer, "We need to get to Florida by car, boat, train or plane, of course." True you do, but only because you desire to stay in the low gravitational force field in your lower mind area!

What is levitation but turning off atoms in lower mind areas and tuning in and turning on to a higher mind area that enables you to levitate. So, your travelling indicates to us that you still have your primary thinking in the lower mind area, using but a minute degree of energy. When you learn how to call forth and use tremendous degrees of cosmic energy, you can literally fly as men did in the past and as "box cars" shall fly in your future. These are like tiny car bodies without fenders, bumpers, motors - only a control stick or lever and utilizing will power. You shall borrow cosmic energy in future by which to take off and visit other planets. Be it known that all energy emanates from the Primary Transformer of Energy you call God. Indeed, the Godhead (Nucleus) is the true Source of energy but man has to turn on the frequencies. Many scientists are still atheists and agnostics due to the fact that they know not what God is, or how God functions in all of Creation. God is a Force and empowers and sustains all of life. Some on your planet still think of God as a man. We have endeavored to explain to you how God is your total supply. That is why you hear the expressions 'GOD IS' and 'I AM'. These encompass the whole. The Source feeds thee and me.

AT THE CITY OF THE SUN:

We have had erratic spring weather, with even a fast snow storm the middle of April! This was not the best for some of the trees and gardens which had been started. However Olie Mae Hale has grown in the Community Hot House a selection of vegetable plants for transplanting into the individual gardens.

After many busy days of work the beautiful wind generator - towering 60 feet in the air - is now operating the community water well. Soon there will be a chainlink fence enclosing it and the pump and storage shed for the batteries. We will be piping the water to the community garden.

During that sacred time when great vibrations come to Earth to elevate mankind a good part of the City of the Sun, and some neighbors and visitors, set aside time at noon each day of Holy Week for spiritual uplift. Thelma Terrell was in charge and did a tremendous job of planning and leading the sessions. Daily, we reviewed the mystical footsteps of Jesus and His activities during that momentous week. The Aquarian Gospel text was used, with emphasis on the esoteric meaning of these events. Following the devotional discussion the group entered The Silence in spiritual oneness. At the Good Friday healing service Beloved Mother Mary presided over its details, with intensities of high vibrations of love and spiritual communion. The week climaxed Easter morning as we faced the "Cross of Karma" and the necessity of self-mastery as paramount to attainment.

At the April Member's Meeting we received four new members into the City of the Sun Foundation: Basil and Mae Coburn, Jim Emerson and Sarah Leonard. The Coburns are from the Tucson, Arizona area and they plan on building a home here. Jim Emerson had an extended visit here, and as he became acquainted he also decided to build an adobe home. He is from Palm Beach, Florida. Then Sarah Leonard of Miami, Florida also visited and we are glad to say she too felt "led" to return to the City of the Sun. We look forward to the time when these dear people will be a permanent part of our community and its work.

Bob Cleghorn and wife of Roswell, New Mexico were in the area and stopped to get information on our community. Phyllis, Bob and Bill Peace from Lure Lake, N.C. visited several members here. Harry and Anna Maria Jones spent one weekend with us. Mr. & Mrs. Robert McMillan of Guntersville, Alabama stopped on their way to Arizona. They have been here before and so renewed acquaintances.

Coming from Payson, Arizona for a visit were Ione and Emmett Kirkland, sister and brother-in-law of Austin and Ruth Love.

Rev. and Mrs. Wm. Seibert of Deming brought a group and had a fine Sunday service. Stan and Margaret Senter and Robert and Bertha Cosnell of Baylis, Illinois were in the group, and others. Robert - singer, guitarist - gave several numbers. Our member from Deming, Eileen Schoen, also had charge of one Sunday service.

Almost every visitor visits our fine library at the City of the Sun. We do continue to appreciate the many books which have been donated. Olie Mae has worked a great deal in this activity.

Have you remembered the City of the Sun Foundation in your will?

"The boundaries of the universe are the boundaries of thought."

ATTACHMENTS.

"My devoted child: We shall speak of 'attachments' for this lesson.

Mankind as a whole is attached to many things, possessions, religious denominations or cults, to political parties, to social groups, to societies, fraternities, causes and to other people. The list is endless. Attachment is a limiting and binding force that inhibits growth for if one is attached to anything it keeps him its prisoner and he is behind the bars of his own shortsightedness.

It is well to be concerned about conditions, about helping your fellowman and about the future of your country, environment, etc. but when one becomes so involved in any of these activities that he loses sight of the Cosmic Plan, he is then attached to a tiny segment of activity and loses much of his effectiveness and ceases to expand spiritually. It is when one is consciously aware of his place in the Universal Plan and moves freely and unhindered through all challenges, all experiences and serves where he is best qualified without becoming emotionally involved that he is UN'attached.

You have been given much on the subject of 'love'. Pure love does not bind, it creates no attachment but frees all Life to express itself. Parents say they love their children and then attempt to bind them to their concepts, to their ideas of what they want for them. They do not give them the freedom to be themselves. They attach themselves to their children and seek to attach their children to them. This is not true love. Yes, a parent has the responsibility of providing for the physical needs of their loved ones, of planting seeds of truth in their minds - but beyond that they must allow each to go his own way, as it were.

Love enfolds but does not bind.

Love protects but does not hinder.

Love provides but does not force acceptance.

Thus love in its pure form creates no attachments.

When one becomes so involved in a movement or a cause that he can see only his own desire and not the overall results or how it will affect others, he is losing sight of the Cosmic Plan and defeats the very thing he is working for. We could sight many examples but these will give you food for thought.

The only attachment mankind should strive for is the dedication to God, to strive always to so live that every word, every deed, every thought is a sacrament of love placed on the altar of life.

Yes, my beloveds, seek always to be free from all that is of the world whether it be material possessions, persons, causes, political parties, religious teachings or whatever and be ATTACHED to the Universal principals which in themselves will set you free and yet will attach you firmly to the Cosmic.

My blessings are yours as you seek your freedom and your attachments!

WHAT IS CHARITY?

It's SILENCE when your words would hurt.

It's PATIENCE when your neighbor's curt.

It's DEAFNESS when a scandal flows.

It's THOUGHTFULNESS for other's woes.

It's PROMPTNESS when stern duty calls.

It's COURAGE when misfortune falls.

NOTE: ANNALEE SKARIN "translated" in June, 1952. We feel very privileged from time to time to be able to present one of her unpublished messages. This will appear in two parts - Golden Dawn 54 and 55. She frequently refers to "D. & C." This is "Doctrine and Covenants", a Mormon faith text.

THE MIGHTY POWER OF FAITH.

Faith itself is a word so blinding I bow my head before it in breathtaking awe. As my physical eyes are at last permitted to behold it and my physical mind comprehend it, I realize that it has not been glorified by being called the first Principle of our Gospel. Rather, we have defiled it by our very ignorance. Faith is truly the substance of things hoped for. It is the substance of spiritual energy and Light, the very power of God that fills all space, that enfolds all substance. It is more - it is the substance of which all things are composed. It is the eternal, creative power and substance of Almighty God, and all things are composed of it - universes, worlds, and all things that in them are; and we too are made of this divine spiritual substance. As one holds a hope in his heart, that hope makes a mold that is filled with this spiritual power of eternal, creative glory. And if we can hold that desire or hope in our hearts until every doubt is eliminated that hope has to be fulfilled, or made tangible and brought forth into concrete, visible form.

"All that the Father has is yours." This same power of creation out of which He created the worlds, is ours to use as our vision swings out and we lay hold upon it. Thus is fulfilled the dynamic, almost unspeakable promise given in the D. & C. Sec. 50:24-29. "And all things will be subject unto Him, both in heaven and on earth, the Light, and the Life, the Spirit and the Power." Drink in this promise. Live on it. Absorb it, and know it above all else. The Life and the Light is this Light of Christ within you which becomes subject unto you as you learn to cast out all darkness, and give it a chance to grow, or as given in I Thes. 5:16-23: "Rejoice evermore. Pray without ceasing. In everything give thanks; for this is the will of God." "Quench not the Spirit..". And the Spirit and the Power which will be completely subject unto one is the very law and principle and power of Faith in all its breathtaking glorious power of eternal creation and fulfillment.

It seems that my power to express these things falls so short, but if you will continue to read and study these letters, and the scriptures, and to pray about it, you will begin to comprehend these things that mortal minds have rarely comprehended. This is the beginning of the powers which Christ promised to those who would only believe - the powers to do the things which He did and even greater works than He did. This same dynamic power of faith is still waiting. It is ours to use. Again, our understanding of the words, "Show me your faith without your works, and I will show you my faith by my works," means exactly the opposite of what we have always thought. It does not mean any works in the church, like holding some office. It means the very works of power, the works of faith such as Christ promised. And Faith without these works is truly dead.

I want to urge you and everyone else who has hold of this work to begin to pray that, "The promises made to the fathers might begin to be fulfilled." We must begin to exercise the great and mighty faith manifest by the brother of Jared, for the time is now. God has given us this work just to teach and prepare us to exercise faith to that extent, that every great and dynamic promise ever made to the children of men might begin to find fulfillment. It is so urgent. We are going to need that power shortly. It is time for us to prepare with all the strength we possess. But remember, it is to be a work of faith - not of tearing your soul out of your body, nor your mind out of your head. It is to be an exercise of flaming glory, of love, of praise, of devotion, of ecstasy and joy and gladness that never ends. It is not a prayer of

desperate clinging darkness and sorrow. Our faith is to go forth clothed in Light and arrayed in glory. Lift up your soul and sing, and hold that high song of ecstasy vibrating in your soul. This is the faith that must be used.

Man is the branch or the door through which the very power of Life is manifest. It is only as he acknowledges or becomes aware of this power, or Light within, even as Christ did, that he can do the works of the Father.

I was awakened a couple of nights ago and told that Faith is an Element. For days upon days its blinding glory has been filling my soul. I expected a tiny crack to be opened in my brain when I first began praying for a complete understanding of faith. I expected a word, a phrase, a thought might penetrate into my dense mind and I would comprehend it. Not only my skull needed to be opened a crack, but it needed to be opened wide, and my heart and my soul and every pore of my body, for the thing for which I asked was to comprehend the very powers of the universe, the laws of creation, the foundation of all existing things and the substances thereof. And now I stand overwhelmed with the blinding power of Almighty God as it fills the Universe.

I wanted to share with you the seal that must be placed at the end of the book. I had wondered why the work had been delayed. Then last night it was made apparent and I was given this final seal and told that now it is finished. Read D. & C. 71:5 for it states that those who do not reject these things shall receive more - and the MORE will be the POWER.

When one once gets this vision of Light, the knowledge and understanding of Love; the comprehension that God desires us to begin to work for perfection right here on earth; then learns to leave the hurts, the hates, the fears, the worries and the darkness of thought behind, then nothing on earth could ever cause him to turn back. To lay down one's life for such divine principles would be an everlasting privilege. For when one steps into this higher vision, he is being prepared to be admitted into the Church and Kingdom of the Firstborn, and no man can cut him off, for it is truly the Kingdom of God. How glorious to belong to this Kingdom. Since we have been taught to believe that this belongs only to those who have died and passed on, we should study more carefully the rest of the scripture pertaining to it - the scripture which testifies that man cannot receive this fulness of joy unless his body and spirit are together, and unless he purifies himself from all sin, becomes born of the Spirit and receives the higher powers. How utterly blind we have been.

"And who overcomes by faith, and are sealed by the Holy Spirit of Promise, which the Father sheds forth upon all those who are just and true - they are they who are the Church of the Firstborn - they are they into whose hands the Father has given all things - they are they who are Priests and Kings, who have received of His fulness and of His glory." D. & C. 76:53-56.

GOD'S DWELLING PLACE.

The evils of this world will not come near my dwelling place for I now know it is not my dwelling but the Father within me doing the dwelling. It is His dwelling place.

LIFT UP YOUR EYES UNTO THE HARVEST

At this beautiful season of the year all of life takes on new thrust of growth, expansion, uplift and outreach.

It is that time also for your GOLDEN DAWN, that silent messenger of heaven's blessings, which is sent to you in love, every other month. We know that many of you enjoy it and treasure it, because you have told us so. We are all grateful for your many kind letters, and thankful to be of service in this way.

We are calling upon our family of readers at this special time to send us the names and addresses of friends, acquaintances or relatives, whom you feel are interested in the New Age truths as presented in the Golden Dawn.

For our Spring Outreach we will gladly send a courtesy copy to interested persons whose names are submitted. They, in turn, only need submit a note if they find they wish to continue to receive it.

The Higher Ones have alerted all Light Workers that Enlightenment is to be stepped up under the new incoming vibrations which are increasing all the time. Together, let us do all that we can to reach as many possible hungry hearts in the shortest possible time. We here, at the City of the Sun, are ready to triple our issues and our efforts, if God leads us to do so. The Golden Dawn continues to go forth as always on the free will offering plan. There is no price on Truth.
