## GREAT INITIATION

Alright Dear Beloved Ones, We bring you home to the Home of the Father, to the Center of the Sacred Heart of the Eternal Son. Open up Thyself, become One with each other and One with the Father, One with the Son and One with the Infinite Spirit. The time is Now; the clock is striking Twenty-Four Hundred Hours -Infinity. Now is the time for which you have prepared. It is your duty, your responsibility, your right and your privilege to be a part of this Great Initiation, this great changeover from hate to Love, from Light to Love, from the 3rd to the 4th Dimension. If it were not true, I would not have told you. I am Here within each and every one of you. We are One. We have always been One. This you must realize to get your errands straight. You must by all means attune within Yourself. This is what you have been trained for. This is what you have been waiting for. The True Leader of this world will soon appear in its midst. That ruler will be Divine. We shall know Him as of old. We have worked with Him times and times again. We will be working times and times again in the future of all planets, of all creations, some that do not exist at this point in cosmic time.

Beloved, allow thyself to be lifted ever upward. Let no question in your mind keep you from moving upward, ever upward into Love Itself. Do not deny yourself that choice, that chance, that opportunity. It is NOW. This is the time for you to release your Faith. Do not be disturbed by petty conceits, petty mundane worries. That is not important. Once we began, you ceased to be mundane, corporeal people. You are descended Immortals. Act as such and attune with your immortality. Clear your minds. Receive the Gift of the Holy Spirit, the Infinite Spirit Within, any name that you know it by, it matters not. Know the Truth and you shall be free. There is no reason for you to hold back. You are the Master of your Destiny at this point in time. You volunteered to come on this mission. The time is Now for you to attune with the real meaning behind the mission. The loss will be yours, no one elses. Should you go through transition and fail to attune to your rightful place in the mission, you will reproach yourself throughout many, many lifetimes for this. Beloved, We do not wish you to miss. We wish you to Become One with your Real Self which is the crux of the situation. Become One with Yourself. Do not clutter your mind with needless questions. You have the answers. Why do you question Faith? Why do you question Yourself? The Time is Now. I repeat, the Time is NOW for you to become attuned with yourself. The Loser will be you. No one else. We have brought many with us on both sides of these veils. The mission will be satisfactory, perfectly performed. We do not think in terms of one on one, Beloved. We have many, many - countless numbers - behind every one of Us that are here in the body. We are the more fortunate because we have earned the right to be here in the body, to be in the workshop (so to speak), in the physical or corporeal body, the vessel in this

time and space vibration. Know Ye not Ye are Gods, why Ye are here? Beloved, We feel this mundane corruption in your minds. You're clinging to mundane, minor (you have a word for it) petty, insignificant things in your daily lives. That is not the reason you are here on this planet, Beloved. Forget that. Become the Cosmic Being that you are. Dare to think BIG. Do not close your minds and use the anchor of the physical to keep the door shut. Open up.

Yes, yes, We are speaking as One Voice from Above. We wish you to know where your failures are. Your failures, Beloved, you are letting your physical get in the way of your Cosmic. Remove yourself from the physical. You have an expression- "Park That" - until it's needed. For the next two hours of your time We want strict attention to the vibration We're speaking from. We are not petty cosmic brothers and sisters, Beloved. We are representing the Throne of the Father. That is your Source. We are merely reminding you of your obligation made on frequencies far beyond the physical prior to your coming into vesselship. Remind Thyselves Beloved, and you will feel the Truth of what We are saying. I speak in the name of the Father, and of the Son, and of the Infinite Spirit. I speak from LOVE ITSELF which is where you have your Being; your roots, so to speak, are in the core of Love within the Sacred Heart. You are all members of the Sacred Heart - one or other creations of the Sacred Heart. It matters not where you stand. Your levels are far above those normally incarnated on this planet, or any planet for that matter. Become that that you are, Beloved. Do not allow yourselves NOT to make the step. You have Faith. RELEASE that Faith. Prove to Yourself. You are the judge and jury of Yourself.

We do not mean to be this curt, this blunt, but there are many of you here that need this reminder. You know who you are. Let the Truth fall where it may, and oh, Ye of little Faith, release Thy Faith, and let's be about the Father's business. Now let Yourself charge up to the maximum. We are no longer children; we are adults. We put away childish thoughts. That includes the physical. Become the Cosmic Being that you are. I repeat, attune Thyselves with the Love Center of the Sacred Heart. We have much to do for the Father. Let's not be dilatory in doing it. Remember Beloved, I said open Thy minds completely. There are no barriers, there are no limitations in the Love Vortexes. Do not allow yourselves to be hampered, or Thy progress to be retrograded. We do not wish that. You were told prior to your coming into vesselship that you would be reminded very forcefully from time to time should you stray from the Path. Those among you know who you are, know who this message is for. It has been told you many times that the Love Mission on this earth is the ONLY reason you have for existence - there or here. There is NOTHING ELSE on any frequency of Being any more important than the Mission of the Father. Take that to your hearts, to your inner cores of the Love Being that you are. There is nothing more important than the Mission that you are here to perform for the Father, for the Center, for the Sacred Heart Itself. Remember that for Eternities yet to come, Beloved Brothers and Sisters of Love. Attune with this Energy. We are using this not only for you individually, not only for this planet. We are using this for all creations at this point in time. Your cosmic vessels are conduits and reservoirs for this Love Energy. Allow that to flow through you ever outward till the cup, in truth, runneth over.

I Am speaking too from your Inner Selves. My words reflect what your Inner Self is speaking and saying to each and every one of you. Beloved, do NOT concern Thyselves with questions of a petty nature. If you have questions, ask them of Your own God Self. You have the answers. Think on a much higher level. Do not think intellectually. Think in Love. Intellectualism is not an abstract. It will lead you into blank walls, so to speak; have you running in circles. Remember, you are

Immortals. You have the full knowledge and wisdom of the Father to be used. Do not confuse Thyself with your petty quibbling and questions because these can simply be answered within the Self. Should you need to ask kindergarten questions, Beloved, you are not awakened. Turn within the Self where You should be looking, looking for your Center, your God Self. I have spoken enough. We will give You a few moments to charge. Beloved, charge to Your maximum. In the Name of the Infinite Father, and the Son, the Infinite Spirit, and It Is So. So Be It!

### THE CONCENTRATION OF THE PLANETS

It has at times been mentioned in this, and other publications, of the unusual concentration of the planets in a narrow section of the heavens. Descriptions of what it is all about, and comments upon its spiritual and mundane implications may, therefore, be of interest to Our Readers. The coming together of the slow moving planets, which has been going on for the last several years, reaches its greatest concentration in the weeks between now and the winter solstice.

Picture in your mind the face of a clock, if you will. On this imaginery clock face Neptune would be situated just slightly past the twelve o'clock position. Pluto would be found at the two o'clock position. Situated somewhere between the two would be the other slow moving planets - Jupiter, Saturn and Uranus. The inner planets, Venus and Mercury, will already be in this section, when the sun arrives there October 22 and comes into alignment with one or other of the slow moving planets by the time of the winter solstice, December 22. Moreover, there will be two five day periods within these weeks when the moon will also be present. Therefore, there will be days within the weeks ahead when every single heavenly body, with the exception of Mars, will be crowded together in less than 1/6th of the zodiac. No other such concentration has existed for a long time - perhaps not for centuries. Naturally, the terrific bombardment of our planet from this focus of solar and planetary energy can have a profound effect. Therein may be found the astrological signifiers of the often distressing weather conditions, as well as the many difficulties and problems. Tribulations will beset both individuals and nations everywhere. The trend of events is not entirely bleak, however. It has been said that sometime this fall - preferably about the time of the two December eclipses - cosmic existences from the Great Central Sun are expected to pour into our atmosphere unusual amounts of spiritual energy - energies available to all who wish to hasten their spiritual progress.

Of even greater significance, is the fact that it is toward the constellation of Sagittarius, which is included in the aforementioned sector, that the Solar System as a whole is reaching at this time, rushing into an area of galactic space where the vibrations are unfortunately higher than anything that has ever been experienced by our Solar System before. It is possible that the Solar System as a whole is already approaching the thinnest, more rarefied limits of this area, and that the concentration of planets is acting more or less as a lens which focuses these cosmic energies upon our planet. It has been said that were our planet to arrive along with the rest of our Solar System into that central area, or highest galactic vibration unprepared, the planet would vanish; it would cease to exist. Hence the tremendous effort being made by the Heavenly Ones to cleanse and prepare our planet for the great transition. Nothing that is not of the Light shall remain. As has been said, "The meek (that is the peace-loving and spiritually oriented) shall inherit the earth". The vile environment shall be removed to less advanced planets in a

less advanced Solar System, there to repeat the process for a thousand years with opportunity there to try at a later date. As it is, every single unit of consciousness in our Solar System, from that which encloses the tiny lives of the individual atoms of our mineral kingdom on through the plant, animal, human and super-human kingdom, all the way up to the Cosmic Fire Spirits who inhabit the Sun, all are about to take a great leap forward and reach higher levels of awareness than have ever been known before. Obviously, these are not ordinary times, and although we who are Light Seekers may experience our full share of trials and tribulations along with the rest of humanity; nevertheless, we have an understanding which should enable us to realize that it is a great privilege to be alive these days.

As all atoms of substance accelerate their vibratory rate it unavoidably has a profound effect upon the cellular structures of plants, animals and human beings. This in turn makes it necessary for the various organs, and the body as a whole, to make many adjustments and re-adjustments as the energies alter. It has, therefore, been suggested that Light Seekers especially apply what they know of good nutrition and sound healthful ways of living, and avoid excesses of all kinds giving the body plenty of rest and sleep, and practising relaxation which will enable it to more readily absorb and adjust to the increasingly high frequencies. It is wise to cultivate calmness and serenity at all times and not become embroiled emotionally in worldly issues. It is also important that we daily meditate, not being neglectful in focusing our attention on those areas of our lives which need attention, giving reasonable good care to our bodies, and make an effort to establish and maintain constructive and harmonious attitudes no matter what may or may not happen. This will undoubtedly go a long way to enable us to make the utmost of our present opportunity as the planet and its inhabitants move into the Fourth Dimension.

FELLOW SEEKER OF THE LIGHT  
City of the Sun

Dr. J. J. Hurtak's Material:

(Principle 3 and 4)

TWELVE SPIRITUAL PRINCIPLES

THE THIRD PRINCIPLE TELLS US THAT THE ESSENCE OF OUR CONNECTION WITH THE COSMOS, IS OUR SPIRITUAL RELATIONSHIP BETWEEN OURSELVES AND GOD. The connection, which is a real connection with the cosmos, is not only the intellectual grid which can compute that which it can handle rationally, logically, but to realize that there are dimensions far beyond the set that is rational to our level of organization. Also, there are sub-levels, or kingdoms that have not reached our level of rationalization, so we must be aware of the cosmos within us as well as beyond us. We must realize that there is as much space within us as we are within space, then we can connect the Shekinah, or inner light kingdoms, the bio-chemical life systems pulsating within our body with those of planetary organisms, the planetary fields, along with other cosmic dimensions. The Eastern teachers of Light spoke of myriads of universes, and the Hebrew teachers of Kabbalah spoke of the Kuchevim galaxies of the higher intelligence. Those distant galaxies are really there, and some of those galaxies can travel faster than the speed of Light as we define it. Some of those distant galaxies can send out vehicles of Light with which to check us out, to see if we are ready to graduate from this time cell to another. Some of those distant galaxies can actually project their thought forms and embody them within entities of Light, or in a physical presence of Light, which is like the new mind dimension that we move into when we're ready for it. When we can look at the universe and see the building blocks of the amino acids on all sides, when we can see the elements of life looking back at us as we look at them, then we can connect the infinite universe with the infinite mind with the infinite specie. Then we can truly

inhabit the cosmos, for the cosmos has already inhabited us. My friends, no earthling, no earthy garment, no earthly religion, or power, or principality has the power, or the right, to deny you co-citizenship, co-participation in those other dimensions of your galactic home. The same chemical energy and life force that went into this planet, into this life plasma, also went into all other dimensions of the galactic body. The expression of life out there is also the expression of life here, as we grow up and we take our place among the stars, we also feel the connection with those bodies of the greater intelligence out there, and by sharing we become true servants of this body of flesh, this body of time. THE STRENGTH OF A SPIRITUAL COMMUNITY DEPENDS ON EACH INDIVIDUAL MEMBER'S RELATIONSHIP WITH GOD. THE SHARING OF THAT SPIRITUAL RELATIONSHIP NURTURES THE COMMUNITY.

THIS IS THE FOURTH PRINCIPLE: THE COMMUNITY HAS THE MOST PERFECT INDIVIDUALITY AND THE MOST PERFECT PLURALITY. You cannot find completion in individuality until you find it in the collective self. Man is not man until he is mensch, until he completes the life cycle, until the sperm in the egg continues. In a real sense, he's both man and woman unified in the God-self. The communities of the New Age will move beyond the yin and the yang, the dualistic relationships of male and female, black and white, plus and minus, into a whole new energy field where there is a whole new energy relationship. This is the Holy Trinity of Light. This is sent forth in the teachings of Buddha who speaks of the Tri-partite relationships of the energy bodies, the three jewels, the Trichaya. This is mentioned in the teachings of the great prophets when they emphasize the bringing together of the teachings of Abraham, Isaac and Jacob, the three dimensions of the true spiritual Israel. This is mentioned in the teachings of Jesus when He speaks about the Father, Son and Holy Ghost. We must acknowledge the greater mind, which can project itself through light emanations and sustain itself through the Light forces, and the energy forces of the continual Light. When Enoch presented the sixty-four keys to me of future science that would be fulfilled by 1976, He told me that the keys were broken down into three sections.

The first section dealing with the keys of Father universes, we would say, super, super galaxies, of how the greater life dimensions actually create the smaller bio-satellites, create the actual bio-chemical testing fields, create the actual specie mutations. The second portion of the keys dealt with the Son universes, dealing with the Lords of Light whose mind energies in essence become the spiritual programming of a galactic dimension, of a local universe. The keys explain how one must go beyond worshipping one Son of Light and acknowledge many Sons of Light. Whether one takes this as worshipping One Sun System as the energy center of our Solar System, as the only Light Principle, the only Energy Principle, or we take this in terms of inner consciousness, that we have only one Messiah or Prophet as the spiritual nucleus of action, we must understand that there are many Sun Systems collectively. There are many dimensions of higher evolutionary consciousness collectively, and they all make up the God Force. That must be truly understood and acknowledged.

The third portion of the keys dealt with the Shekinah universes of Light or the Inner Kingdoms of Light. The Inner dimensions of Light are the inner circulatory fields which other mind energies could use. I was told that humans on this planet were bio-transducer sub-systems for the Light that comes through. We are the processors of the Light Force. As we see that thought forms can come in through the circulatory systems within, as well as without, the magnetic fields within as well as without; we see how we are part of this greater community of Light. It begins here in our individual relationship with God, the Greater Intelligence. Finding the infinite spark of Light, we find the cosmological constant which attaches

this God-self with the other God-selves, with the God Force of the galaxy, with the thought force, the Yod-He-Vcd-He of all galaxies, of all universal dimensions. In order to truly understand this one has to stand in awe of the universe. It means truly a re-examination of the teachings of Einstein, that man must stand in time space beyond conventional time in awe of the universe to understand that their mystical experience is the true foundation of science. When we are able then to see ourselves working within fields within fields, wheels within wheels, we will see that our spiritual community of Light attaches to other communities of Light, from this time cell to other consciousness time cells, the more we share, the more purpose, the more energy, the more creativity is brought together. The history of the specie upon this planet has sustained itself by the Brotherhoods of the Light, by the Brotherhoods of the spiritual science, both in Egypt and Tibet, India and Israel, and South America , as well as other portions of the world. They have carefully kept cosmological tables to use in the star fields, carefully recorded the higher spiritual science, the higher mathematics of how the human condition is but one stepping stone into an infinite mansion world of Light. As we begin to recognize that we are beginning to leave our playground and go out to help build other playgrounds, to help build other homes for our genetic form, we begin to open our threshold and and see the other building blocks of intelligence, the other bio-technology which is out there for us to use. We cannot use that unless we are in a relationship with the God Force of the Greater Intelligence.

The governments of the world do have film materials and documents showing that there is a higher intelligence, and that higher intelligence is god with a small g compared to the human evolution. By a greater humility we can realize that we do not have all of the answers or solutions on this planet, and through the higher belief we can then come in and ask them to participate with us, not simply at a distance through light projection but through the actual landing and love communication and light communication that will take place. If we make the inner connections then the mutual programming takes place. We are seeing now the heavens, plural, open; we are seeing now the existence of many different dimensions of this in relationship to God. It is not sufficient to build space vehicles to go from one planet to the next, for there is nothing to protect you ..when you are out there except your consciousness of wisdom, your consciousness of spiritual Light.

The return of the astronauts, and the work of the astronauts going into consciousness evolution, and the spiritual, is a sign of a great change that takes place when you are out there in space and see this little blood cell is but one of an infinite seed. You really begin to appreciate the words of Buddha, and the words of Isaiah, and the words of Jesus, and go beyond all of the intellectual garbage that these people are putting you on, and you actually see that there are other cosmological dimensions. The problem of earth man is to put these cosmological dimensions into a three dimensional universe and to nullify them. That information does not just necessarily work on the earth plane. You have to begin to see this in relation to many time cells, many embodiments of the Infinite Intelligence, many different dimensions of you as life process before this begins to center itself in the Light dimension, and as the Light dimension grows you begin to gather the sparks, and this is the real reason that we are called together to serve other people, and in serving other people we find ourselves in everyone and everything.

Have you remembered the City of the Sun Foundation in your Will?

(Third and Final Part of an Unpublished Message of ANNALEE SKARIN)  
BE STILL AND KNOW

Next, the Spirit and Power will be subject unto you, and all things both in heaven and on earth, and that is the Light and vibrations that reach out to the very ends of eternity. You will have the power to command this great eternal source of boundless energy, or substance, or power that fills the entire universe; and this is FAITH, for this is the very substance of things hoped for. It is the substance out of which all tangible things are formed. Know this, "He is under condemnation who rejecteth the Light," and "This is the Spirit of Christ that is given to lighteth every man that cometh into the world." It is glory. It is Light. It is power. It is all that you will let it be to you as you lay hold of this most sacred of all gifts. This sacred Holy Word of "Light" of "Christ" becomes flesh right within you as you bring it forth. Learn to relax. Relax your bodies and your minds, and then learn to command every little cell and fibre of your being to "Be Still, and Know that I Am God." The cells of your body will begin to obey for they are little brain cells of intelligence, and soon in every fiber of your being you will be filled with this sacred Light. Every atom and pore and fiber will know that power of contact with the Divine, or, to be exact, will become Divine.

As you learn to fulfill these things I am sending to you, you will begin to live life more and more as Christ lived it. You will be directed in everything you say, and in everything you think. You will link hands with majesty and walk in power. This knowledge is the very greatest I can possibly give you. Beyond this point you must travel in the Light that Christ gave to you. From here on we each must walk according to the Light given to us from within by the power of Jesus Christ.

There is so very much that cannot be written. But as you go on it will be revealed to you, and you will KNOW Truth with such a complete knowing, and you will walk in a fulness of Joy and Light, and truly you will command and your command will be fulfilled. For the elements, the forces of Nature, the Light, the Life, the Spirit and the Power will be at your hand to fulfill. These things are ours. They have always been ours, but we have been dull of hearing, and blind of mind, and hard of heart. May God forgive us for our slowness to accept His words and to believe them.

It has been a great and a glorious privilege to help you to find this one great TRUTH. The books I have written, the things I am endeavoring so hard to teach are only to lead you to this one great sacred bit of knowledge that will lead each of you personally into ALL truth. From here on the road is yours. Follow it. Glorify it. Rejoice in it. Magnify it. Worship and adore and praise and live continually in the Light, the very Light of Christ. Thank Him for it. This greatest of all gifts is now in your hands. Only he whose hands are clear, whose mind is pure, whose heart is filled with Love, and who is so endowed with humility that the Self and its desires no longer matter can receive of it. Even your intense desire to fulfill these great laws of perfection must be slowly blended into the one great and holy desire, that His Will be done in all things. Then will you know His Will, for you will hear His voice as Christ heard it - yea, at all times and in all things. From here on your prayer should become more according to this pattern: "Almighty God, let only Your Will be done, and Your name be glorified forever and ever in the name of Jesus Christ, Amen." More and more that will be the only thing that matters in your lives. All personal desires will be submerged to this glorious, divine desire - the Will of God. From here on you will begin to walk in glory.

Glorify this Light of Christ within you and it will glorify you. It is the greatest of all jewels. This is the seal, or Light of God that must be placed upon the heads of the righteous before His work can be consummated, according to Revelations. Each man must truly take this Light, bring it forth from within his own soul, and crown himself with it, or gather it as knowledge unto his conscious mind where it can become an everlasting power in his own life.

Following the ever emblazoned star  
To a far and distant land.

BE AS THE MAGI

By faith they traveled on  
Their hearts being strangely stirred  
To go and share their adoration  
For the One about whom they'd heard,  
With them they carried their gifts  
Of incense, myrrh and gold,  
Precious treasures each one itself,  
As the Holy Book has told.

Wherever the Spirit did lead them  
To stately mansion or cave,  
They went eagerly and humbly  
To see the Gift God gave.

At the feet of the Christed Child -  
Truly the Savior for the Age -  
They knelt and prayed to the future

We too can be as the Magi

GOD'S PRESENT TO YOU

God has given every soul on Earth a Christmas present that will last throughout Eternity. You can take it everywhere you go and use it anytime or anyplace. It contains Love, Peace, Wisdom and Happiness.

This present is yours only if you accept it yourself and use it.

Everyone, no matter what color, creed, station in life or what state of health, is eligible for this present.

Everyone contains within themselves a spark of Light from God that is different from anyone else's. This Light is yours alone throughout all your life times. No one can take it from you but it is like advice, it is of no use unless you use it.

Your Christ Light is your personal and direct contact with God. The more you expand your spark of Light, the more you become a co-worker of God.

This Christmas Season (as always) the Divine Light will be increased and held for the masses in the All Conscious of the All. Thus the masses can awaken to their Christ Self if they so choose. Remember, the choice is theirs alone.

A TREATMENT FOR PEACE OF MIND:

GOD is and all that is, is GOD. GOD is in every situation, every person and in every outcome. There is no circumstance or no person beyond the power and presence of GOD. GOD is in me now and I know that I am a unique expression of GOD. Peace, harmony, order and love are the very nature of GOD. As I quietly turn over my life and my thoughts to GOD, I am filled with GOD'S priceless gift of Peace. I release myself completely to the haven of the "everlasting arms of GOD" and I am at peace.

I thank God. And so it is

If there be righteousness in the heart,  
there will be beauty in the character.

If there is beauty in the character,  
there will be harmony in the home.

If there is harmony in the home,

There will be peace in the world.

THE ANGEL OF PEACE

In his full cycle  
Stands illumined Man,  
An independent Angel  
With Heaven-scan.

Outstretched,  
His arms confer  
Blessings of Peace  
On Rome and Ninevah,  
On Egypt and Atlantis,  
On planets old and new.  
This Planetary Angel  
Is me and he is you.

Unswerving,  
His Thought beams out,  
Causing the Realm  
Of Ecstasy to shout,  
The rivers to stream with fish,  
All creatures to dwell on land  
Because, in his woken Love,  
He has grown to understand.

Upon this beautiful Earth  
No future, no past exists.  
Man has merged his godhood  
And parted the mortal mists.

To his vision, every being  
Has beauty equal to his;  
Love is the primal element.  
On the Planet of Timeless Bliss.

Here is no secret army  
Hidden within Men's heart;  
Here is the open grandeur  
Of the soul's nuclear part.

O, shout in exultation!  
For Man has risen now  
To that enlightened Consciousness  
Of Life beyond the Plough.

And in his Hour of Glory  
Has blended the Great Divide;  
Man, Woman and all Life  
Dwelling on one side.

BETTER THAN

Better than one thousand words  
Is one word that brings peace.  
Better than one thousand hollow verses  
Is one verse that brings peace.  
Better than one thousand hollow lines is  
One line of the law - bringing peace.

It is better to conquer yourself  
Than to win one thousand battles.

Then the victory is yours,  
It cannot be taken from you -  
Not by angels  
Or by demons - heaven or hell.

LET THERE BE PEACE ON EARTH

Let there be Peace on Earth  
And let it begin with me.  
Let there be Peace on Earth  
The Peace that was meant to be;  
With God as our Father,  
Brothers all are we.  
Let me walk with my brother  
In perfect harmony.

Let Peace begin with me,  
Let this be the moment now;  
With every step I take,  
Let this be my solemn vow -  
To take each moment,  
And live each moment  
In Peace eternally;  
Let there be Peace on Earth  
And let it begin with me.

(The Song)

AT THE CITY OF THE SUN: - - - - -

Two fine new members became a part of the City of the Sun. First came Ellen Killeen who at present resides in Fullerton, California. She had spent a week here before and it was nice to renew our friendship with her. During the months ahead she will be trying to locate here. The second new member was a busy man, Cliff Moore who has headquarters in Pasadena, California. He has chosen his lot for occupancy and is making plans. He travels a part of each year. We are enjoying becoming acquainted with him.

Dorothy Rayburn Zawick had a pleasant birthday at Cheeseman's Coffee Shop in Columbus. Ten neighbors and friends were present.

For several days Harry Noah visited the Webbers and the City of the Sun. He and his family reside in Mexico.

Escobar, a long time friend of Wayne Taylor visited.

Wayne Cannon from Missouri has been several weeks at the City of the Sun. Randy Carty of Las Cruces, N.M. was here a short time.

We were pleased at the overnight stay of three ladies traveling from California. Studie Henderson, Hede Marker and Alice Hardeman. Two of them are connected with the Solar Cross group.

Frances Tillman has been staying at Olie Mae Hale's. She is director of the Columbus Recreation Meeting Place.

William Switzler made a delicious homemade treat which was served as a surprise ending for the September Members' meeting.

Several watermelon feasts were enjoyed by the City of the Sun members. They were grown on the property and surely were tasty. September 21, the first such gathering, honored our new member, Ellen Killeen.

The Village of Columbus celebrated with many activities on the "Columbus Holiday". Louisa and Carl Corp were present for the occasion and visited our community.

We had quite a bit of rain in early October. As a result we have wild flowers blooming all over.
