EXCERPTS FROM ANNALEE'S LETTERS ON LOVE

We finally got this vision of loving, so we would seek out crowded places, bus stations, thronging streets, teeming thoroughfares, or places where city throngs jostled against each other in great impatience, and standing quietly, began "swishing" Love. We sent it out with a prayer of peace on Earth and good will to men, and a benediction that seemed to carry light with it, and reach out into the very hearts of those around us, and then go out until it encircles the very globe. We did it consciously, and daily, with all the power we had. The most amazing things began to happen to us and to those around us; how strangers would seek us out, those in need came to us. We kept this up until it finally became a habit, and wherever we went or whatever we did we were vibrating love. It does things! Great things! Try it and you will know.

After awhile this broadcasting of love becomes as much a part of your living as breathing is. At first it must be a thing that is practiced continuously just as music is. It becomes glory and praise and song, and continual thanksgiving that becomes as much a part of one's existence as is his power to think. First, one has to receive the vision of these higher things, then comes the desire to fulfill the vision, and after that, it is just sweat and blood for awhile, like learning to become a master in any field. Only in this case, man himself, is the instrument. As he continues to study, the discords seem to magnify and multiply themselves. That is only because our ears are becoming more attuned to the Divine, and the contrast is more noticeable. But practice, continual practice, gradually eliminates the discord, and there is only the perfect, divine melody. It doesn't take too long, and it is not at all difficult.

You ask me to tell you just what we do each day. That would be impossible. No two days are alike. We live them as they come, loving them, blessing them, glorying in them. Perhaps it would be easier to tell you the things we don't do. We no longer look down the dark, unlighted hallways of the past. Then - we never look a day into the future. We live now, and now is eternity. It holds the keys of all the future. If one learns to perfect this day the tomorrows have to follow as perfect as the planting of today.

Truly, there need be no sorrow, no unhappiness, no despair, no death. When you

can perfect your love for God and your fellow man you can leave all fear behind, for fear is darkness. Walter Russell, a great artist and a great scientist, says: "There is just one inch between the mediocre person and the genius; but that one inch is almost impossible to master." I say, it is just a tiny step - a step in consciousness from the terrestrial level of thinking to the celestial plane. But, as you say, sometimes the effort seems so great you wonder if it is worth it. That is a very good question. Perhaps it is easier to answer it this way. Can you lose anything by trying? Surely there is nothing to be lost, and glory and peace and unspeakable joy, light, happiness and power to be gained. If life is a miserable thing of darkness and despair, as it takes its tribute from you of the years, why let it continue to do so. Every minute of living should be paying tribute to us of the things we have earned from it. By that I do not mean money.

After you have worked so long on this you could no more drop it than you could stop breathing. After you have had the feel of it, caught the vision it contains, felt the light and glory of it, but there are few who can stand the test of knowing. Life was never meant to be drab - a hopeless thing of despair. These things are so divinely beautiful. They are unspeakable in their grandeur, so eternal and magnificent in their scope that there are no words to describe them. They can only be felt.

Is it worth it? Why wade in deep mud when you can travel a higher way of light. Why walk in darkness when it is your right to step forth and "Walk with God" - not just for an hour, a day, but every moment of existence. Stop worrying about the doubts and fears. From here on, just take hold of the light and hold to that light.

I want so badly to take you by the hand and lift you up into the light, but you must travel the road so that you will understand it thoroughly, so that you can reach out to lift others from the darkness and the night. Is it worth it? Just one hour of living in this divine light of love, peace and glory is worth all the struggling that is possible to give. It is all so wonderful. There is no end to the light and the knowledge that the Father has for us as we travel along up this glorious highway of Light. Yes, this work is true. All one needs to do to know of its truth is to live it. It is strange, but only the most spiritual of the saints can grasp these divine truths that have been before our eyes always, for anyone who denied these books would also have to deny the Four Standard Works, for all they do is throw the spotlight on the most inspired words of these precious, glorious books.

I wish I could share with you only a few of the letters that have come in from various parts of the Earth, letters that testify of the great blessings that have been given to those who have caught the vision these books contain, and have begun to apply them in their lives. Conditions that have been impossible have been changed utterly and joy and light fills hearts that were filled with despair, and these great blessings of vision and light are no more imaginary than is the electric system that lights our houses. These joyous conditions are not a fancy, nor a momentary bit of enjoyment, but it increases continually and becomes ever more real and beautiful.

Cultivate that song of faith and joy until it becomes an actual part of you. When you find it slipping from you then just turn your mind, lips and heart to praising the Lord. Worship and adore Him. Love Him with your whole soul, and as you do this you will find that the darkness has vanished and you are walking again in the light. These precious Keys of glory and happiness are ours to use always and forever. They open the portals to the Realms of Light and no one can ever take them from you. Only you can use them for yourself, and you are the only one who can let them rust from disuse. They are yours to use from this day henceforth, and forever. Guard

them well. Use them often. Love them and thank God for their power, and with their use know that there need be no more dives into the dark pit of darkness and despair. You can immediately surmount all darkness and banish it from your life, and know that as surely as you hold to the path of Light it will increase for you until you are filled with Light and comprehend all things. You will walk in the Light of God and His glory and His love will enfold you, and His power will be over you, and before too long the Keys to use that very power for His glory and the benefit of man will be added to you also.

A MIRACLE

Since we are having a class in a course on "Miracles" there has been a miracle happen here.

As Dr. Jim was having a problem with urination he went in the Memorial Hospital of Las Cruces, New Mexico on the 30th of July. Dr. R. Kolosseus did a Transurethral Resection (TURP). Two tests showed it to be an aggressive cancer. He was advised by Dr. Kolosseus that it should be treated aggressively by removal of the prostate. Dr. Jim refused the operation and started non-medical treatment. Friends rallied forth with many suggestions on treatment, and with many prayers.

On the 2nd of September a re-check was made, and found on examination that the prostate was reduced in size, and Dr. Kolosseus again recommended that proper medical treatment was removal of the prostate. Dr. Jim again felt that if he did his part, and continued strictly on his diet and other treatments, God would heal him.

On the 1st of October, just 60 days after the cancer was found on the 2nd examination, the doctor found the prostate was normal, and no hard spots. The doctor said that since Dr. Jim had not had any medical treatment he would write a paper about this case.

Dr. Jim is also writing a detailed account of his experience. If anyone should like more information they may write:

PLANETARY PRAYER DATE APPROACHES

December 31, 1986 at noon Greenwich Time:

Why is it set for this date? It is the same date and day around the Earth ONLY at noon Greenwich Mean Time. This is a different time in each time zone. (5:00 A.M. where we live at City of the Sun.)

For that ONE HOUR 10% of the Earth's population will suspend all thoughts of separation, conflict and fear. The mass consciousness will be altered as millions of the Earth's concerned citizens will give Light and Prayer Energy to this sincere effort for PEACE - each in his own way. This will be the most powerful prayer activity in modern day - a planetary affirmation of Love, Forgiveness and Understanding involving millions in a simultaneous global mind-link.

To mention a few activities:

- Hook-up on TV with 2 billion people participating in lighting candles for peace, Santa Cruz, CA.
- A gathering on the slopes of Haleakala, Hawaii.
- People in at least 18 African nations joining in.
- Churches, temples, ashrams and town squares in India will be filled with people in meditation.
- Utah, Colorado, Florida, to name 3 of many states, planning activities.
- Entire nation of Sri Lanka (15 million) participating.
- Several hundred churches in Alaska joining in.
- England plans TV coverage and encouragement.
- Over 100 Americans will go to Moscow to join the Russians in Arbatov Square in this special peace seeking "silence and celebration."
- The Asian Buddhist Conference in Mongolia will encourage their members to join in.
- The huge Astrodome of Texas and Humphrey Metrodome of Minnesota will be used.
- Small towns and large cities (too numerous to try to mention) are planning special events or gatherings in homes, stadiums, assembly halls, chapels.

IT IS A MOVEMENT OF THE DIVINITY OF US ALL UNITING IN A GIANT STEP TOWARD PEACE!!

Millions from around the Earth
With hearts aflame for peace
Will send forth in their own way
Petitions asking that wars cease.

We would love to have you join us
Upon this special occasion of prayer
When all the world joins in brotherhood
And shares Universal Love and Care.

THE TWELVE GREAT VIRTUES
Steppingstones to Human Perfection

Devotion:

Devotion is the consecration of oneself to an ideal or a cause such as to the service of God. Devotion implies singleness of purpose which supplies an interest so great that serving the object of one's devotion is a joyful, untiring experience. The finer emotions of allegiance, faithfulness, loyalty, steadfastness and reverence are involved in devotion, but to this is added zeal in service due to love of and personal attachment to the object of devotion.

Sincerity:

Sincerity conveys the absence of hypocrisy, affectatiousness, sham or deceit. The sincere person is genuine and straightforward in his desire to learn and practice what is right. Conscientiousness and honorable conduct are closely associated with sincerity; but sincerity should be practiced with knowledge of right thoughts and actions because most of the evil and wrongheaded errors brought upon the Earth have been the result of sincere though misinformed persons. The acquisition of the other Virtues is impossible without sincerity and the depth of application it affords.

Precision:

Precision involves exactness, accuracy and definiteness as opposed to purposeless activity, careless work and hazy thinking. Forethought, dependability, punctuality and thoroughness are hallmarks of the precise person. To remain a virtue, however, precision must not become piddling fussiness, or a display of meticulousness which intolerantly compares those of lesser preciseness and strips away all beauty from every situation in order to exhibit precision.

Efficiency:

Efficiency is the ability to deal effectively with one's environment with a minimum expenditure of energy, time and materials. To become more efficient requires an alert interest in methods and techniques and the acquisition of skills through practice. Attention to organization of details and planning ahead are the mark of the efficient person. Precision is inseparable from efficiency.

Discrimination:

Discrimination implies the power of discerning the motives of people and their character, and the ability to see the real truths below the apparent surface of situations. To discriminate emphasizes the power to distinguish the excellent and the appropriate; to judge between what is good and what is better; to weigh alternative courses of action in the light of karmic law; and to perceive the fallaciousness of teachings disseminated under the guise of all that is good and beautiful. Intuition is a natural extension of the power of discrimination.

Tolerance:

Tolerance is the wisdom of not making judgments on fellow men since we can never be sure of their true motivations, trials and personal problems. Criticism of others' beliefs, habits and personalities is unwarranted, self-righteous and inexcusable. The tolerant man does not measure others only by their errors, but rather he asks himself how he would have reacted under identical circumstances. In place of a critical, irritable attitude toward another, which can only add to the cross he must bear, the tolerant man is slow to speak and act lest he detract from his opportunity to spread happiness and peace into the lives of those with whom he comes in contact. To detract from the reputation by gossip and hearsay is karmically disastrous.

Kindliness:

Kindliness is the sincere desire never to bring hurt to another. It is consideration of the feelings of others as well as gentleness, sensitive benevolence and sympathy expressed in word and deed.

Patience:

Patience is the willingness to await the outworking of natural processes. Patience stresses calmness or composure under suffering or provocation or in performing a demanding task. Impatience with another person arises from lack of tolerance and a selfish peevishness to have one's own way. To fail to take the time to explain to a child or an employee what is to be done and then jump down his throat because the task was not performed as desired is a typical example of impatience. Impatience is a major source of irritability in our world, and much of this is due to desires which cannot be realized realistically.

Forbearance:

Forbearance is self-possession and serenity of mind under any provocation and conveys the patient lack of a desire for retaliation. It is the overcoming of revengeful reaction to personal affronts and injuries. The nursing of grudges only breeds bitterness and psychosomatic illness. Forbearance is an attitude of non-resistance and a bending with the situation. Knowledge of karmic law provides the comfort that one's desire for retaliation against an offender is pointless in light of the natural law of action and reaction. The offender will suffer karmically without us engaging in destructive thoughts; thus forbearance breaks the circle of repercussions typical of feuds. Forbearance becomes an exercise in humility; for personal pride and the need to uphold self are common causes of retaliatory instincts.

Courage:

Courage is quite distinct from bravery which is usually an instinctual response to a perilous situation and implies lack of fear and bold recklessness. Courage, on the other hand, carefully takes into account the dangers of a situation in advance of action and is the product of reason sustained by marshalling one's powers of moral determination in the face of personal fear. Resolution, tenacity and determined morale are associated with courage; and it is the noble quality of character which enables one to stand firmly for his convictions in spite of persecution.

Charity:

Charity stresses brotherly love, clemency, leniency and an interest in the welfare of others to the extent of giving of oneself. It is whole-hearted sympathy toward the suffering which man must endure until he begins conscious advancement. Charity precludes criticism of others.

Humility:

Humility connotes absence of arrogance, snobbishness, selfishness, pride, boastfulness and self-satisfaction. Humility does not imply weakness; rather it is the result of strength, power and true personal completeness so that one need not feel he must contend for a place in the sun. Similarly, meekness is the absence of wrath, and it stems from a sense of complete control over one's environment. Humility is the awareness of one's own shortcomings in a view of the knowledge that Virtue always recedes from one's present standing and that one has far to go to achieve the First Degree of Brotherhood.

A COSMIC SHIFT

In September 1984 the planet Earth accomplished a cosmic shift. That is, the consciousness of the planet was raised from the third dimension into the fourth dimension. There are two inter-related realms of consciousness sustaining our planet, one is the consciousness of the planet itself; the other is the consciousness of mankind. Since the cosmic shift which has accelerated and refined the field of Earth consciousness, these two spheres of consciousness have become incompatible. The collective consciousness of Mankind is like a sea full of rip-tides and cross currents sustained within a mighty ocean of deep tranquility and peace.

The third dimension is a dimension of fear, guilt, stress and tension. The fourth dimension is of pure all-embracing Love. It is the dimension of joy and wholeness, freedom and abundance. Before the cosmic shift, during the period known as "The Fall of Man", groups of individuals banded together for the purpose of helping the planet in her time of stress. These groups have been led into various disciplines and practices in order to be effective channels for the Spiritual Hierarchy. Now it is time for the newly awakened Spirit of Earth to assist mankind into realization that the past is gone and the present is radiant with the light of this new day.

It is time for change into new understanding. It is time to learn to rest and abide in the great Cosmic Heart of Love where truth reveals her beauty to the mind that has become stilled and quiet. It is time for the command:

"MAN KNOW THYSELF"

to be the impetus of all human direction and pursuit. For until he discovers what awaits him in his own heart, mankind remains trapped within his third dimensional consciousness and remains asleep to the gifts of Peace and Harmony that are being offered him.

The only disturbance now on Earth is within the consciousness of mankind. Man, in his human mind, is constantly resurrecting his fear-based past and the subsequent need to solve this past with worn out methods. It is as if man is subconsciously determined to stay locked within his nightmare and deaf to the prompting from his own heart that tells him all-is-well and the striving and struggling is over! The hand of love is gently touching the consciousness of every individual and quietly saying: "AWAKEN BEAUTIFUL ONE, ALL THAT YOU HAVE FEARED HAS GONE!"

The Spiritual Hierarchy desires from the heart that all mental communications and all human mental activity cease! It is the mental body of the human race that is causing the rip-tides in the planet's consciousness. Old habits and attitudes that belong to the way Earth was before the cosmic shift are now an impediment to the evolution of human life.

Tuning into the fourth dimension is only possible when the human faculties have been stilled. While the human mind and voice is active and dominant the individual is both deaf and blind to the voice of Love that speaks only from within each human heart. It is time for each individual within every group to tune into their own consciousness. Within each person awaits the still small voice of Love, longing to be heard and active in each one's daily life. When heeded and followed, this voice of Love becomes oil on troubled water of human consciousness, and so easily leads each individual into fourth dimensional consciousness. There is only one voice now, and one sound on Earth. It is Love. It is only heard when the mind is still and the heart listens.

The only worthwhile contribution any Group or Centre can make towards the

evolution of the human race is for each member to journey into their own heart. The Love and healing found will overflow their own consciousness into the consciousness of mankind bringing Peace and Wholeness to others. The Masters wait to speak through the heart of each individual. They require that each one ceases to listen to the echoes of the past that led to intensive mental and vocal activity. That time is gone! To believe otherwise is to contribute to the world's problems - not its solution.

HOW TO DEAL WITH THE INCREASED ENERGIES

The Divine Plan continues to unfold as members of Planet Earth assume more Spiritual Responsibility. My Suns, the role of Cosmic Energy has increased tremendously during this decade (the 80s) bringing many changes which affect all of you in countless ways. Those whose Awareness is in Spiritual focus deal normally with the Intense Energy - while others, in their perplexion, respond in a negative manner.

BUT ALL IS IN DIVINE ORDER. Think POSITIVELY about all of this. If you accept the Immortality of Spirit or Soul, you will not be confused regarding those whose role appears to be destructive, for you understand that only body - the ego - experiences these confusions. In time - the right time - the Soul-Self (Life Spark) will vacate the confused ego-body to move on to other Dimensions where It will resume Its Perfect, Immortal State, My Suns, do not let the material illusions that abound deter you from the Great Plan (LIGHT) which Evolves all the time.

If you will pay close attention to all events on the Planet you will SEE that even the 'darkest' events are raising the Awareness of many people. You see, certain Ones whom you envision as suffering human beings, are willing Sacrifices, giving of themselves in order that others may learn to GIVE, to SHARE, and to UNIFY. Human race, in majority, is a somewhat complacent group - being quite self-satisfied and not noticing the needs of others UNLESS THERE ARE DRAMATIC EVENTS OF POVERTY, FAMINE, WAR, ETC. WHICH LITERALLY CAUSES THEM TO JUMP UP AND TAKE NOTICE! You see, Humans are basically a caring lot - but, when comfortable, they tend to un-notice those in distress. When they are made to face the conditions stated above, MOST Humans become determined to take ACTION. In this moment of TIME, it is This ACTION We are happily observing.

But it must not stop there. It is a first step. The FINER qualities must also be developed. There must be a 'tuning in' to the Higher Senses so that the needs beyond the physical are also recognized. Remember this: If you will be an effective balancer of Energies in these highly 'electric' moments on Earth you must FIRST have yourself in perfect Balance so that you can guide and encourage others. If you feel negative or even doubtful about LIGHT'S DEEP PENETRATION of the Planet then you will not help a Soul! You need to be strong - Positive - and fully AWARE that LIGHT is intent on Balancing the Earth's Energies.

So, My Suns, it is very important that you DAILY spend time with LIGHT (GOD) as It fills you with Strong and Positive Energy, making you a fit Instrument whereby your Service will benefit the masses. Also, in order to keep focused on the Positive aspects of all that transpires, spend time with others who are also Servants (or Servers) of LIGHT. Such association will give each of you Strength, Courage, and Faith, and will align your Higher Consciousness to Universal Consciousness.

Take daily time to be a 'Student' by being in Receptive Silence. Thus you will be taught, while you are in the awake state, AND also in the sleep state, of the Workings of LIGHT - of SPIRIT. This will build within you a necessary Confidence which will enable others whom you serve to feel more secure in the face of what they see as 'disasters' of one form or another. Besides exhuming strength which others can grasp, you will also receive great Enlightenment which will give you ease in teaching those who are in your Path the Purpose behind the powerful Forces of DIVINE ENERGY.

Beloved, this is a very Vital and Important time for Earth. EACH OF YOU CHOSEN AS LIGHT WORKERS - LIGHT BEARERS - HAVE A GREAT RESPONSIBILITY. The Cosmic Realm depends on YOU to help bring the Planet into Positive Alignment with LIGHT. Be ever in Contact with US - the I AM THAT I AM - as TOGETHER we fulfill the Plan for Earth.

JUDGING

"We always teach what we are learning".

I will relate an experience of mine with judging; on how subtle it can be. Sometime in the year past I was permitted to spend some 10 to 12 days with my daughter who was hovering between life and death at the time. It was at times a moment to moment battle to keep her here alive; and somewhere along the line - although she had somewhat stabilized but was not responding as she should - I knew my presence there was no longer helpful.

Through a series of events, and several months later, I again had the good fortune (for both of us) to spend a few days with her. I would like at this time to relate this meeting:

I was in a room with at least 10 different people, completely unaware that she was about to enter. When the door opened and 3 to 5 more people came in, I did not even recognize her. It took not two, but three glances, and her recognition of me, to break the thought pattern I unconsciously had allowed to develop about her. This beautiful, well, charming young lady was not the one I had been holding onto in my mind, binding both she and myself to the past experience.

"By One of Us"

GOD AND I ARE ONE

The I AM is my being.
My soul does not roam.
My Spirit rises in ecstasy.
God is my true home.

These phrases ever re-echo
"I am never alone";
"The Father and I are one".
These uplift - set life's tone.

Joy is a constant companion.
Peace is within my heart.
Love flows as a river -
Light essence the greater part.

Oh to stay in this At-one-ment!
To keep this peaceful hour!
I can! I must! I Am!
God Himself is my power! mjs

PRELUDE - MY PRAYER

The Lord is my blessed shepherd; Hallowed be His name!
He pilots my ship on storm-tossed seas; He is my beacon, who guides me safely
into the Sancturaries of Light.

I never have been without spiritual manna.
He levitates my soul and I soar on spiritual wings.
He endowed me with strength and superior courage to endure the buffeting winds.

He is omniscient, omnipotent, and omnipresent; He heareth my soul cry.
I am resigned to His Will. He protects me from evil and always will sustain
me.

He illuminates my mind and I channel through the "Logos".
For a veiled purpose He assigned me to the sacred fire.
His uncanny moulding has made me seek the higher altar of devotion, trans-
cending sense to soul.
He anointed my head with Heavenly oil; in deep supplication I seek the higher
echelon He prepared for me.

My soul is as infinite as time itself.
Every cause produces an effect that ripples on the waves of time.
We crown or jeopardize our own lives.
I catch glimpses of His Divine Light in spiritual moments of solitude.
My mind is my Cathedral - the Kingdom of God With!
Let His Light so shine that others may see His gleam through mine.

For once I saw through a glass darkly; but then, face to face.
Now I know in part, but then I shall know even as also I am known.
The light of the body is the eye; if therefore thine eye be single, thy whole
body shall be filled with Light.
My profound perception hath opened mine eyes.

But they who wait upon the Lord shall renew their strength.
They shall mount up with wings as eagles; they shall run and not be weary,
and they shall walk and not faint.
My cup runneth o'er. I drank deeply from the cup of Life's spiritual elixir,
to serve His Majesty.
All are called - few are chosen.
My faith is supreme; on a purposeful, winged Mission He shall sail my ship
into home port - A valiant voyager.
He is near and dear to the heart of

AT THE CITY OF THE SUN:

Quite a few of the residents of City of the Sun and Columbus are taking part in "A Course On Miracles" published by Foundation For Inner Peace. Rev. Pierre Gallerdo, a Unity minister, will lead the group in the study from 4:00-5:00 P.M. every Wednesday at our Community Building. All interested persons invited.

Joe Stoker was here awhile to get settled in this area.

Tom McKay, coming from a group in northern New Mexico, visited a several days.

Dorothy Rayburn just returned from a lengthy stay in a hospital and health care center with a broken hip.

Kenneth and Alta returned after spending the summer in Wisconsin. One of the highlights for Alta was to also travel to Alaska to attend her daughter's wedding. Kenneth's sister and husband, Mr. & Mrs. George Busse of Wisconsin visited for several days. Also, a Mr. Herb Block came with them to stay during the winter.

Several others have returned from business trips, visiting, traveling, and even work - David Johnson, Andrew and Helen Webber, Esther Hayes and Sean Sands. Quickly they seem to be caught in the daily activities of home and community life.

October seems to be a most busy time with work progressing upon the Foundation's new lagoon; one resident moving in and installing his mobile home; other residents building an add-on sun room and office; others looking into adobe bricks to start building a house, as well as the usual weed eradication, winterizing, etc.

AN OLD BLESSING

May your joys be as bright as the morning,
Your years of happiness as numerous as the
stars in the heavens,
And your sorrows but shadows that fade in
the light.
