

THE GOLDEN DAWN

CITY OF THE SUN FOUNDATION

A MASTER IS

NUMBER 95
(Mar.-Apr. 1987)

A Master detaches from his illusions about reality and recognizes that it exists only as that which he experiences. It can be experienced as a hostile separateness or a tranquil oneness.

A Master accepts others as they are without attempting to change them to be what he wants them to be.

A Master is a living example of "detached mind". His state of mind fluctuates only from positive to neutral as outside conditions change. He accepts all the warmth and joy in life while detaching from the negativity by allowing it to flow past him without affecting him.

A Master doesn't complain to others about anyone or anything. He accepts unalterable realities as they are without wasting mental or physical energy attempting to change what you cannot change.

A Master does not judge other human beings. He knows that everyone is doing the best they can, although maybe not the best they know how.

A Master doesn't blame anyone for anything. Blame is incompatible with the acceptance of karma. You and you alone are responsible for absolutely everything that ever happened to you. You set it up to experience and opportunity to learn.

A Master doesn't take anything personally. He knows that someone else's reaction to you, good or bad, comes out of their conditioning from the memory banks of their mind. It is their viewpoint and it has nothing to do with you. The way they relate to you they would relate to anyone who represented to them what you represent.

A Master knows that there is nothing to seek and nothing to find. You are already enlightened, and all the words in the world will not give you what you already have. The wise seeker therefore is concerned with one thing only: to become aware of what he already is, of the true self within.

TOLERANCE AND TEMPERANCE

My Treasured Disciples, there is still controversy among some of you regarding the manner of life you must express - how you should work, your manner of play, and what you should eat and drink. Some exhort certain restrictions, others advocate that all restrictions are irrelevant! But I say to you that there must be no extremes in either direction.

If students of Light will remember an important statement spoken by Beloved Apostle, PAUL, they will then observe a proper program for their lives. Paul, the Beloved, said: "Don't you know that your body is the Temple of the Holy Spirit which is IN you, which God gave you, so you are not your own? You are the Temple of the living God for God said: "'I will dwell in them and walk in them, and I will be their God and they will be My people.' Therefore, whether you eat or drink, or WHATEVER you do, do IT ALL FOR THE GLORY OF GOD." (See I Cor. 6:19, 2 Cor. 6:16, I Cor. 10:31)

Now My Blessed ones, this makes this lesson quite explicit. If you will seriously accept the Reality of your body being a sacred Temple and dedicated to God, the Father-Mother Creator of the Universe, you WILL BE concerned regarding your activities and the intake of food and drink. Do you deliberately set out to desecrate a house which you dwell in, or destroy the Temple (made of stone and wood) you worship in? How much more value there is in YOUR bodily Temple which is the TRUE Temple of God, and requiring your total dedication, care and upkeep. There are fanatics on both sides of this 'scale' and neither is justified. Common sense and intuition must be the ruling 'judge'.

It is true, as some say, that the physical is not really important, yet there is danger here in that certain ones refuse to understand that proper care of this physical (temple) reflects on the dedication one has to the immortal Inner Temple, for if the body is out of harmony with natural well-being it is true that the possessor of such a body cannot function as effectively in a spiritual way. It is like the building for worshippers which has not been cleansed, which is torn and upset inside so that when the worshippers enter in they are distracted from their worship because of the slovenly appearance, the discomfort found therein, and even the symbolic stench! Yes, it is intended for the Spirit and the Body to be one but it is not this way unless there is balance and harmony in BOTH aspects of this whole!

I, as the Logos of Earth, the Mystic Christ which dwells within you, agree that the Temple of the Living God (the human body) must be glowing. It must be in harmony with the Inner Temple which glows with God-Radiance. It is to His-Her glory (The Magnificent ONE) that you be concerned about what you eat and drink and that the consumed matter is non-destructive. More concern about this is necessary in the present time on Earth due to the pollutants that are included in much of your foods. Refraining from use of flesh foods is advisable for, out of mercy, a true child of Light will not be part of the slaughter. Also, such food is toxic and filled with fear vibrations which cause negativities that result in illnesses.

Yet, I must also say that it is not a right attitude to stand in judgment regarding others' ways of eating and living. You must be merciful beings, giving to each man and woman his or her rightful freedom. You must not, for example, look upon one who consumes flesh-food as being of lower soul-evolution; nor must you, who do consume flesh food, look upon the abstainer as being a fanatic or weak-minded. No one can, or must, judge another's way of Life or mode of nutrition. Each must

develop according to the Plan for that soul - the Laws of Truth are given to each one through the Inner Teacher (and through the chosen Channels who publish Cosmic Truth) and thus each one is free to reject or accept the practise of these Truths--- depending on each one's choice will be the speed of evolvment for the Soul.

Do not get into long debates on these matters - respect each other's views and be concerned with the Progress of the Soul rather than all the mundane arguments regarding one's way of Life. My Blessed Ones, a true fact is this: when a Child of Light concerns himself or herself with INNER purity, INNER peace, INNER comprehension of Truth, he or she will refine the Soul and will discover that the outer-self, the bodily temple, will come into Balance with that purified Soul and quite naturally that being will convert his manner of physical existence: doing RIGHT works, thinking RIGHT thoughts, consuming RIGHT foods. There will then be no conflict - no difficulties. ALL will be a natural transformation as the perfected soul 'feeds' the bodily temple Wisdom and they, the body and Soul, will harmonize and unify, becoming a glorious Vessel for Light! That is the ONLY pure way of becoming a 'righteous Son of God.'" I say to you to be concerned about becoming a 'righteous Son of God,' concerned about the outer temple while permitting evil deeds and thoughts to exist in the Inner Self is an abomination! This is like a householder who puts fresh paint on the outside of his house so that passers by may see his 'good works', while the inside of the house is torn, dirty and filled with all manner of corruption! Learn the Law of Balance, My Students and Disciples. Learn that a perfect Worker in the Father-Mother's Vineyard has found inner AND outer balance through study, practise, discipline and meditation. Such blessed ones are EXAMPLES to others of the value of RIGHT action, RIGHT thought, RIGHT eating. There is no need for them to shout about the Way to Live - their manner says it all, and others seek to emulate these noble ways and pure habits.

In your moments of Reflection, Children of Light, give serious heed to this Lesson I have here given you for it is a very important Lesson which concerns itself with your attitudes toward your brothers and sisters, even those who may have different views than yours, but who are equally concerned for the evolvment of their Soul!

Yes, be merciful and JUST in your thoughts about others. Be respectful of other's views about all things realizing how much you appreciate their respecting your own views! And are not ALL people entitled to this respect? Judge not for in like manner will YOU be judged!!

A PRAYER to use: -----

- O God, close my eyes to the flaws I have seen in others - make me aware only of Thy Presence in All.
 - O God, take my flaws and refine them into the virtues that will reveal Thee in my life.
 - O God, see the needs I have and be the strength that will supply the answers, and as I ask these of you so I give you my undying devotion and willing service that will give You the opportunity to work through me to bring the Kingdom to Earth.
- God is man - and man is God - but I must do my part to be the man God is - the God man is! So, I ask only to be what I already am - the body united with the soul for the spirit to unveil God in His perfection.

LET US CONSIDER SPRING -

- A TIME TO PLANT SEEDS
- EMERGENCE OF NEW GROWTH

Song of Solomon 2:11-12-19

"For lo, the winter is past, the rain is over and gone;

The flowers appear on the earth, the time of the singing of birds is come, and the voice of the turtle is heard in our land.

The fig tree putteth forth her green figs and the vines with the tender grape give a good smell."

Psalms 104:30a

"Thou renewest the face of the Earth."

Shall we dream a dream and plant a seed?

The seed of the personal Christ is within us all to bring forth -

Fatherhood of God
 Brotherhood of Man
 Harmony from diversity
 The Law of Love
 Oneness with the Creator

(From an illumined Pilgrim)

POPPIES

Beneath the wheel wild seed appears
 Moved from the sleep of a thousand years.
 Between the lightning and the rain
 Rise urgent stalks amid the grain
 Whose scarlet flags must dance and leap
 Before the sower comes to reap.

Such seeds are we, released to feel
 When moved by evolution's wheel,
 Stretching in shaken shades of life
 To bear forth blossom fair and rife,
 Whose seed, ere life's wheel reappears,
 May sleep another thousand years.

Pam Page, 104 Argyle Gardens,
 Upminster, Essex, England

WHEN A THOUGHT BECOMES AN EMOTION then it receives the life or power of vibration and is sent forth. It will bring back just what is sent out, multiplied a thousand fold. Therefore, it is not just thinking that must be watched, but these FEELINGS that go out from us."

From "Thoughts and Emotions"

"OUR" PLANTING

We took the seed of "Peace"
 And planted it so deep
 Let's now enjoy the crop
 As Earth its blessings reap.

We took the seed of "Love"
 To spread it far and near
 Now abundant growth repays
 Garnered results so dear.

See Thy seeds, O Christ,
 Implanted within each heart.
 Let's tend, nourish, cultivate
 And bring to harvest "our" part.

ANNALEE SKARIN SPEAKS:

"Thoughts are seeds. Remember?
 Yes, they are. But every seed is not planted. Every grain of wheat is a seed, but few comparatively are again planted into the earth to multiply and produce. The same is true of thoughts. A THOUGHT DOES NOT BECOME FERTILE, OR BEGIN TO GROW UNTIL IT IS PLANTED INTO THE EMOTIONS.

ANOTHER MESSAGE FROM ANGELS

Dear One: Joyfully we come to fill your heart and mind with the light and the love of the Holy One. We are the Angels of Light and Love and we have been sent to give you a message of love. There are many messengers of God and we are but two but we bring the fullness of our beings to enfold you in everlasting love and eternal light.

You have been aware of us on many occasions but we have never had the opportunity to speak to you before, and so it is with great joy that at last we are allowed to tell you of ourselves and our work. We are an invisible vibration, yet we have form. We each have a designated mission and it is our joy to fulfill it - it is our ONLY desire. We are always available and awaiting recognition so that we may more efficiently do our work. When one is unaware of us, or does not know about angels, it is more difficult for us to be effective in our endeavors.

As you are aware of us and give us recognition we come to enfold you in our love and light, which is the Light of Love of God. There are many levels of consciousness, many realms of life and each has its own vibratory rate and its own part to play in the great scheme of creation.

There are the nature spirits and the devas, the angels who oversee the mountains, prairies, oceans, etc. the weather spirits or gods; there are those which build and those whose work is to tear down or decompose matter. There are the angels of the animal kingdom. There are the angels of healing, birth and death, angels of the home, guardian angels. There is an endless variety in the so-called spirit or angelic kingdoms. Were it not so, there would be no food, or flowers, no trees. The earth would be barren, and man could not survive without the help of his invisible companions and servants.

It is well that more and more of mankind are becoming aware of what goes on 'behind the scenes' so to speak, for when he understands he will give more cooperation and he will benefit, and the nature spirits and angels' work will become less arduous. When man can love ALL life - the seen and the unseen alike, he will find peace, for peace and love go hand in hand.

We are Love and Light shedding our radiance upon the earth. Receive us and be immersed in our glory. Open your heart and allow us entrance and you may feel the 'flutter' of our wings as we move throughout your being, and you may catch glimpses of our glory as you look upon the world.

We are your constant companions. You cannot escape us for we are

SEEING

"All that you can see is yours". Imagine riding down a street in an automobile and hearing these words as I had been looking at the trees, sidewalks, streets, cars, buildings, etc. It was a very sobering thought, to say the least. Obviously they were not mine, but I knew the words to be true because the All-Knowing Voice from within had said them. Well - then after sometime I realized it must be in the "seeing". And then I heard, "One day you will see as you are seen."

I don't pretend to have this all understood as yet, but let me try to explain how I see this today. Once you can see, know or remember a thing, you can image it. In fact, this is the real culprit behind most of our problems today, Our present belief system or understanding on how we acquire money, houses, health and happiness.

But perhaps the difference lies in this: when we ponder on these things even for a fleeting instant, too many times we are raying out a feeling of "want", which is directly opposite to "having"; hence we have "lack" rather than "plenty". "Yes, the Kingdom of Heaven is beyond thought," or talking about it. It is "being" - the very essence of Life itself - all of those things we consciously or unconsciously image in. Yes, even Solomon in all his glory was not clothed as one of these. (A pure white lily.)

Yes, I now know it to be in the way I am "seeing" - with gratitude rather than want; praise rather than berating; love rather than hate or indifference.

Yes, we all have our work cut out for us.

"One of us"

PEACE WITHIN THE STORM

Peace be unto you. My peace I give.

Know the motionless peace of the center - the Source where I AM - unmoving - at rest, from which all action springs.

In the center is stillness - Peace. KNOW the absolute tranquility of that peace in Me, when you are dissolved in My oneness - when you are lost in the heart of Me.

KNOW that you can cast away all worries - all burdens - all cares, and I will give you rest. And in that rest you will be renewed and free of your worries - your burdens - your cares, for they will be solved or dissolved in My Infinite power of Love.

REST and find PEACE - - REST in MY PEACE.

Learn the peace of a dragonfly as, in its cloak of iridescent blue, shimmering in its brilliance in the heat of the noon-day sun, it rests weightlessly on a lily pad in a quiet pool. Drifting peacefully along beneath the shade of the outstretched petals of the blossom, it is refreshed. It is buoyed up by the undergirding support of the leaves and protected and enfolded by the blossom, in all its beauty. No storm can touch it. It KNOWS its peace.

So, too, can you know your peace in Me. If in the storm, you find that still center in Me you will feel My undergirding strength - My uplifting pull - the buoyancy of My Love - the protection of My encircling arms. Your fears will be quieted - your soul will find rest. The waves of the storm will quiet. You will be filled with peace.

My peace I give you. Learn to rest in that peace and be calmed by My soothing

love. I am ever present - within, around, beneath, above. There is no place that I am not. How can you doubt when you know My Love?

Pierce through the storms of your life to the peace within - the peace that is in the center - the peace that is Me.

Remember that in the heart of the wildest cyclone there is always that center of absolute stillness, where the storm does not touch - the center of peace and calm. When darkness prevails in your outer life, the sun shines brightly behind the cloud.

So be not buffeted by the turmoil that APPEARS to be. Do not try to struggle and beat back the waves of the storm, but find your peace - and rest!

Rest as the dragonfly on the lily pad - in complete peace and tranquility.
Rest in the heart of Me - and be refreshed.

"Whisperings In The Silence" - Meditations by Zella Townsend.

Many of you Readers are aware of, and admire, the work of Dr. J.J. Hurtak, Academy For Future Science, P. O. Box FE, Los Gatos, CA 95030. We shared some of his material in the Golden Dawn. Here are excerpts from his challenging letter sent out at the end of 1986:

"Dear Co-Worker in the Light. This coming year should be seen as a year of action in the Light.

During this time of great material demands in many of our lives it is of utmost importance to realize that this is "a changing and limited reality." This is not the reality of the fuller Light - and that our Divine Call must remain our focus - so that we can daily pull ourselves up out of the dilemma of serving the lower world. The more time and dedication we give to the Father and the Shekinah, the more the Shekinah provides the power and the glory to activate the Eternal Spirit and the Eternal Love in this material dimension. A real transformation to work in the Light is necessary in each of our lives if we are to see the Christ Self at work beyond this material illusion of living for plastic reality - which will pass away. We must set in motion high energetic thought-forms each day if we are to get beyond these imperfect realities.

God does not work in a vacuum, neither should we. Actions of the Light speak louder than words. We must set our priorities to function with the spiritual work that must take place now. The time of "Peace and Preparation" is the time when the active spiritual work is to be accomplished. Realize how close we are to major changes throughout life, all of life, and how important it is for each of us to work now for the "Tavo Malkutayka" (Thy Kingdom Come) - day-by-day - in the Light, since we will be evaluated (judged) by our service to others and the Divine when we cross the ever present threshold of space-time with the coming of the Christed Host. If some claim the Keys are too advanced, use the tremendous teaching of the Scriptures (the Torah Or), and if the Scriptures are too demanding, stress the practical needs of working in the Peace Corps or social action to help humanity on the gut level - in "washing the feet of humanity."

I am convinced that in finding the Living God within our hearts, minds and souls, and using the strength - all the strength of our Christ self - we will accomplish the "greater things" that Christ referred to in helping the planet - and not the smaller things of the "psychikoi" who are involved with personal narcissism, not to the fuller glory of the Father and the Divine Family.

Recognize that we are to do the work of Peace and Preparation as the AMMI SHADDAI, the People of God. Feel the fullness of the Living Word and the refreshment of a Living Tree of Life at work in your lives by being the WORD in the great harvesting. Amen. Amen, Amen, Amen.

Dr. Jim and Desiree Hurtak"

AT THE CITY OF THE SUN:

The community of the City of the Sun held their annual business meeting Jan. 19, with Faun Homman presiding. Rev. Wayne Taylor gave an account of the founding of the project, followed by reports from the Trustees and other members on various aspects of the past year's work.

An important part of the occasion is always the election of officers. For the first time an all-male Trustee Board was elected: (The ladies are recovering!) Andrew Webber, Chairman; Dr. Jim Barton, Vice-Chairman; Maurice Hastings, Secretary; David Johnson, Kenneth Campbell, Marcus Rogers and Lester Jackson. Sarah G. Leonard was again chosen as Treasurer, and Mary Jane Switzler, Foundation Secretary; Marcus Rogers, Chairman of Member's Meeting; Helen Webber, Vice Chairman, and Ruth Rogers, Recording Secretary.

Numerous projects had been completed, including the digging of the new lagoon. Probably the most popular item of construction for 1986 was the installing of an outdoor bulletin board. (How did we ever function without it?) It is kept very busy with meeting dates and notes of items of interest to members.

The ladies were very busy with craft projects over the holidays, as well as making a most gorgeous comfort and pillows to sell. They also participated in the Flea Market Sales of the Village of Columbus. Helpful service projects were not forgotten either. They are working toward renovation of the community kitchen and extension of the craft building.

In January many took part in an excellent birthday dinner honoring Maurice Hastings. Feb, 7th saw an unusual birthday recognition with a sumptuous breakfast of french toast, strawberries and pineapple. Marcus Rogers, David Lebold, William Switzler and Mary Jane Switzler were honored.

We were glad to welcome into membership David Lebold who came from Gold Beach, Oregon.

It was a happy occasion when Ruth Rogers returned to the community after an absence of several years.

Numerous community residents have had visitors:

Mr. & Mrs. Willie Clements of Radisson, Wisconsin came to see Alta and Kenneth Campbell.

Mr. & Mrs. William Erickson of Parachute, Colorado spent five days with Faun Homman.

For several weeks Edward Renfrow, writer and lecturer, has been staying at Dorothy Rayburn's home. He has been readying his home in Deming, New Mexico. While here he has given several inspirational talks to the community.

Lillie Buckley, the sister of Dr. Verlie Barton, has come from Camden, Arkansas to visit.

A partial family reunion, a rare event, was enjoyed by William and Mary Jane Switzler. Their son, Richard, and a friend, Michael York, of Aups, France/ Amsterdam Holland, as well as son, Paul and wife Jonne-Marie of North Hollywood, California visited in early February.

Mr. & Mrs. R. M. Olson of Boulder, Colorado came by to visit for a short while.

The work of 1987 is well started with pipe lines being installed from our water well to a tank and then to the orchard and park area.

AT SAI BABA'S ASHRAM

"You're supposed to come to India with me, to see Sai Baba". My ears heard the words, but my mind was slow in registering them. My new friend, Pat Bradley, Director of a new age center, Living Light Ranch, in Hemet, California went on to tell me of a dream she had had the night before, where it was clearly shown to her that after I had participated in some necessary work at Living Light, that we would go to India together. Pat had been a Sai Baba devotee for 8 years, had made many trips to India and had a close inner contact with Sai Baba. She spoke with firmness and authority born of long experience. Who was I to argue? My mind quickly computed my finances. Several months previously I had unexpectedly sold an old RV that I no longer planned to use. I had wondered at the time why it had sold so quickly. Now I believed I knew.

I had been to Sai Baba's ashram 3 years earlier and knew that no one went there unless it was Sai Baba's will. Ever since my first visit I had had numerous experiences of his blessings in my life, and I tried as hard as I could to live up to his teachings, which are essentially the same as all great religious beliefs. He summed them up briefly himself "See Good, Do Good, Be Good - that is the way to God." Sounds simple, yet on a day to day basis, they are perhaps the hardest lessons we have come to learn.

Anyway, the wheels turned, we accomplished the objectives we had set and we proceeded to India. The ashram was quite full with about 5,000 when we arrived. One unforgettable scene that was repeated daily, showed the ornately carved, pastel colored temple outlined against a deep blue sky, with the colors of the clouds changing to pinks and lavenders as dusk fell, with gaily sari'd ladies on one side and white clad men on the other, softly chanting Om that reverberated through all of one's soul layers. The palm trees swayed in the breeze as the Om was followed by bhajans (Indian songs extolling God). Soon the graceful figure of Sai Baba in his usual plain orange robe, dark face surrounded by a halo of black hair emerges slowly from the temple, his feet gliding so serenely that he seems not to touch the ground. As many times a day that he emerges to give darshan, it never fails to bring a thrill to my heart. My surrender is complete, my prayer, "Help me purify my mind and heart so that I may be a more perfect instrument for your use..." runs through my mind. Suddenly I am electrified. One of the members of the group I was part of, had been called by Baba for an interview. That usually meant the whole group was invited! I couldn't believe it. The other members of the group slowly made their way to the temple and we all asked each other in disbelief - "Are we supposed to be here? Does he really mean all of us?"

Soon we were ushered into the inner waiting room, 8 Americans along with about 15 others. Sai Baba was charming, playful and above all, loving. He materialized vibhuti (holy ash) for all of us; then asked a 10 year old boy what he wanted. The boy promptly replied, "A medallion with your face on it." Baba waved his hand gracefully and produced the locket. We also saw him materialize a gold pen for a student, then 2 ink cartridges, still in their plastic packets. He changed the ring of one man in our group, from one with Baba's picture on it, to one with 9 precious stones, including diamonds, by merely blowing on it.

As an Avatar (incarnation of God) he is capable of accomplishing all manner of miracles, including instant healings and even raising people from the dead, the way Jesus did. He says, however, that miracles are simply his calling cards, intended to draw your attention so that he can then proceed to explain his teachings, which include Love, Peace & Bliss, through desirelessness. He reiterated once again for

our benefit, "Do not look here and there for your guru, your guru is inside you." Once, when asked if he were God, Sai Baba replied, "Certainly I am, and so are you - the only difference between us, is that I know it, and you do not."

It was an incredible experience and one which I will never forget as long as I live. For more information about this "God-man" see Howard Murphet's book, Sai Baba, Avatar, or any one of the many books being widely circulated as this Kali Yuga (age of darkness) draws to a close.

CITY OF THE SUN ADOBE BRICK YARD

In November, 1986, a modest adobe brick factory had its birth here. The immediate need was to provide materials for a proposed round adobe house, in addition to blocks for floor tiles, raised beds and fences.

A suitable mixture of adobe soil (Mixture of sand, clay and gravel) was readily available near mounds of earth from the newly excavated second sewage lagoon. This was the convenient site of operation.

A much used, but still functional, Cinva Block Press (manually operated) was purchased with necessary accessories including screens, hoe, shovel, wheelbarrow, water pipes and hoses, and materials to construct a 16' x 10' lean-to shelter - at a basic cost of less than \$500.00 to begin operation. The only significant operating cost is labour.

The raw material is passed through $\frac{1}{2}$ " screen to remove larger rocks and leave an homogenized mixture consisting of 35% clay, 50% sand and gravel, and 15% silt. This is dampened and loaded into the hopper of the Cinva Press. Using a long manually operated lever system about 3,000 lb/sq. in. is applied to each block. The blocks are a standard $11\frac{1}{2}$ " x $5\frac{1}{2}$ " x 4" and have several advantages over traditional puddled adobes. They require less moisture, can be handled immediately and are twice as strong. The blocks are placed individually in rows for exposure to air/sun. After several weeks of drying they are ready for storage and they are then stacked under shelter to await their ultimate destiny in construction.

The whole procedure may be operated by one person although two or three may coordinate efforts to increase efficiency.

The work itself is an enjoyable meditation aided by sunny days, clean air, and a panorama of desert beauty with mountains, sunsets.

The impact on the environment is negligable, or perhaps even beneficial, and there is a certain security in providing materials for one's own dwelling - a small step towards freedom and self-sufficiency.

So simple - so complete - so easy to be grateful.

PLANETARY PRAYERS AFTERMATH - FROM OUR MAIL AND CONTACTS

The statistics given by the Quartus Foundation are impressive. Seventy-seven countries participated on seven continents. Ten religious faiths/traditions were represented: American Indian, Baha'i, Buddhism, Christianity, Hindus, Islam, Judaism, Shintoists, Sikhs and Taoists. 524 organizations cooperated in the effort.

We were privileged to know of hundreds of people around the world who joined in the December 31st Peace Prayers. Some have shared their experiences of the time. A typical one was shared by B.E. Bassey of Cross River State, Nigeria: The day of 31st December was wonderful. Brothers from Etinan came down and we meditated together. We were blessed. I thank the I AM THAT I AM and the entire great White Brotherhood for Love and Their services. We meditated as the I AM directed."

One woman had a vision: "I saw a woman whose head was heavily wrapped in bandages. All of a sudden the power came upon her. She knew she was healed of whatever and quickly began to unwind the bandages. It seemed she couldn't get them off quickly enough. One interpretation was that the woman represented "Mother Earth" and she was being healed. The "veils of mankind's consciousness were being rent and she was throwing away the carnal. "

A healing as experienced: "As I sent forth Light I was suddenly overwhelmed at the separation I was causing by "judging" others in small ways (but it was a truth). I was frequently thinking of people in categories - 'That one often complains', or 'that one is sometimes selfish', et cetera. I was withholding my total, unconditional Love from them. So, in the midst of the Planetary Prayers great Love overwhelmingly encompassed me, and I sent each One total, unconditioned Love! Then the separateness which comes between nations entered my consciousness to be dealt with. So, again with Love, I erased this separation and felt total Love for ALL people everywhere. Then the Planet and all Elemental Life sought Love. Oh the blessedness of this healing I had with EVERYONE and EVERYTHING on Earth! "

As seen from the Higher Planes: " A rainbow of color was observed completely circling the Earth. At places it wasn't too thick, but it was complete. Pink was the furthest out, next a lovely azure blue and green near the Earth. The surprising part of the spectacle was the angelic type music pouring forth from the hearts of all who took part in the prayers. This music went out in glorious symphonic vibrations to the furthest reaches of space bringing the most healing possible. From the 29 Natural Vortices of North America (and also those of other parts of the Earth) were seen emanations as shooting stars of Light thrusting themselves from Earth to the heavens. (A reversal of the usual direction.)"

CONCERNING THE FUTURE PLANETARY PEACE COMMISSION PRAYERS:

The Quartus Foundation, P. O. Box 27230, Austin, Texas, 78755, did not close off the Planetary prayers but felt led to suggest a further 3 point program:

- 1- Make a dedicated effort to practice and express Peace on a daily basis.
- 2- Reserve one (convenient) hour on the last day of each month in 1987 to meditate on Peace.
- 3- At noon Greenwich time, Dec. 31st, 1987, meet again in spirit for the 2nd Annual Global Mind Link.

The next report of Quartus will be in the form of a book - 8 x 10 and will include photographs, newspaper clippings and on-the-spot reports from gatherings around the world. It will be sold at cost and will be sent to major news media as advertisement of the ongoing program. Anyone may order one from them.

I AM

I Am the stars
That show the way;
I Am the sun
That lights the day;
Wherever you're going,
Whatever you do,
In each thought and each whisper
I'm there with you.

I Am the trees
So green and fair
In each bouquet
You'll find me there;
I hold the mountains
In the palms of my hand
And each sparkling river
Is at my command.

I speak of love
The force of life;
I Am the voice
That comforts strife;
If you will listen
And heed my call
You'll find my presence
Will overcome all.
