THE BROTHERHOOD OF THE EARTH

We speak of the brotherhood of Man - yet what of the fundamental brotherhood which underlies not only our relationships and social life, but the very fabric of existence - the Brotherhood of the whole planet Earth? What of depletion and starvation and pollution? What of laboratory experiments on animals who depend on us for their protection and care? What of forests and the balance of soil? The delicate balance of air, water and earth is being threatened, disoriented and violated, and our Earth stands impoverished through greed and selfishness, war and hatred, while millions are dying of starvation.

We know what we have to do: Love, compassion, sense of responsibility and the cherishing of all life with reverence, with earth guarded as holy ground and husbanded as the vineyard not only of man, but of beast and plant, and for the blossoming of the spirit too.

We have been part of a wondrous unfoldment in the aeons that lie in the dark night of Time which produced man, which turned carbon into the diamond and the ooze into the rose, and has given us the cyclic glory of winter and spring.

Let us remember that we have only one Earth - a jewel floating in space - and let us treat it with reverence and care, restoring and perpetuating our life and creation in all the kingdoms of Nature - through recognition of the Brotherhood of Earth.

EARTH PEOPLE - AWAKE!

You came from every part of this mighty Universe to help revive this dying planet. You are those few selected ones who were given the rare privilege to assist this planet in giving birth to a new Being in the cosmic pantheon of gods: Gaia, the Immortal Child.

The Time is NOW! Awake from your sleepy state and carry out your Divine Mission on Earth.

The Time is NOW! Open your mind to the ideas poured into you through the sacred guidance of your soul.

The Time is NOW! Manifest the Vision of a New World through enlightened and courageous actions.

You have been given all the necessary skills and training up to now in your

life to accomplish your Cosmic Dity. Trust the Spirit that inspired these words through one of Its many channels. Be sure that the cohort of God's angels will always be at your side to protect you in fulfilling your Destiny. But above all, know that all the God's Qualities are embedded within you and are available at any time to assist you along the Path. You are One with God, as you have always been and shall be forever.

EARTH PEOPLE - AWAKE! AWAKE!

Awake from your dream state, beloved Sons and Daughters of Light. You have nothing to fear, for I am with you, I am within you, I AM YOU. Stand up and walk towards the bright future that I devised for you. Stand up and talk to everyone around you about this glorious Destiny awaiting Humanity. Stand up and raise the real issues of your time: Peace, Love and Harmony; Peace among nations, Peace among neighbors, Peace within you. Love towards God, Love towards others, Love towards yourself. Harmony with the Universe, Harmony with the Earth, Harmony within you.

You are the leaven in the bread. You can change things around. You can trigger a global shift of consciousness. You can make a difference. For you are not alone. You are millions scattered all around the Earth as seeds of Light. You must now shine as the true Sons and Daughters of Light that you are. You are the Earth People. Your mind encompasses the whole planet and feels it as a single Being now ready to be born anew,

EARTH PEOPLE - AWAKE! AWAKE! AWAKE!

You are the morning dew crystalline pearls of Light emerging from the sky and fixing in Humanity's Consciousness the message of God. "UNITY is bound to manifest again its immanent Reality on our beloved planet Earth. From every part of MY cosmic body I sent Messengers of Peace, Bearers of the most sacred Mission ever embodied in human flesh. You are those who can change the face of the world. Awaken yourselves now from the slumber of matter and let shine this immortal Flame of Love that is your true and only nature. Rejoice with the celestial hosts as you express in your life the wisdom and compassion I pour and will unremittingly pour into you.

Now is the Time. Command to all the Earth Forces of Life to renew and purify its lands and oceans so that the myriads of Life forms may blossom again as it was before Man attempted to destroy this magnificent blue sphere of Life, the cradle of Humanity, the Immortal Child. Command to all the invisible beings surrounding you and they will obey you, for you are My Sons and Daughters, for it is My Will that overshadows you and shall guide your steps on this eternal Path of Light that you are walking upon since the Beginning of Time."

I say "Open your heart, open your mind, open your soul to My Divine Guidance and all will be made anew on the face of the Earth and in the heart of Humanity".

And one day, not far from now, the Story of how the Earth People have awakened themselves and joined to transform the world shall be told at night around a fire by old wise sages to the children of our lineage, now latent in our loins.....

"Today there is a wide measure of agreement, which on the physical side of science approaches almost to unanimity, that the stream of knowledge is heading towards a nonmechanical reality; the universe begins to look more like a great thought than a great machine. Mind no longer appears as an accidental intruder into the realm of matter; we are beginning to suspect that we ought rather to hail it as the creator and governor of the realm of matter." Sir James Jeans (Physicist.)

On Christmas Day as I sat watching the cleansing of the Earth with the beautiful snow piling higher and higher my mind was given these thoughts:

IT'S NEVER TOO LATE FOR RENEWAL

Spirit had a plan for Earth
Of bold and daring range -
An 'emerald' set in the heavens
Where man could learn and change.

But man chose - became a laggard
And wantonly neglected Earth -
The air, the seas, the blue skies
Lost their intrinsic worth.

Instead of being careful workmen
Men plundered, raped and scarred.
No more the perfect "sky jewel";
Earth was neglected and marred.

The hour is late, we know,
But begin we can today
To assist this ailing Earth entity
As Nature's Laws we obey.

Shall we get to work, Light Brethren? mjs City of the Sun

AIR - THE LIFE FORCE

Naturama Healthcare #8

The great expense entailed in the placing of a human being temporarily upon the surface of the moon seems to have been compensated by the fact that human beings, as a whole, for the first time, were brought to an appreciation of the thin layer of air which encompasses the Earth, and by which human beings are enabled to breathe. Unlike the Earth, the moon has no layer of air surrounding it and the men, landing on the moon for the first time, were kept alive through the air which their space suits brought with them.

Few persons realize that this thin layer of air is constantly undergoing changes in composition. It is being polluted by dust particles and other natural phenomena and likewise is constantly being purified by the countless growths of vegetation which enable the air to be in a state that will support human and animal life.

I do not think anyone realizes that it takes approximately 75 trees of ordinary size to absorb the carbon dioxide that we exhale every 24 hours and to produce suitable oxygen to be inhaled. Also it takes approximately 20 trees to offset the effects of the average commuter who drives his car to work. Also it practically takes 75,000 trees to cancel the atmospheric pollution of one commercial jet liner making a round trip between New York and Los Angeles.

The Part Oxygen Plays

In the beginning of existence, there was little oxygen available on this Earth. However, as vegetation in the shape of green plants took over, the process of photosynthesis came into being. This modality utilized the energy from the sun to break up water into hydrogen and oxygen. The hydrogen converts carbon dioxide initially into carbohydrates and then into other organic parts of the living tissue.

In this way the oxygen is released into the atmosphere. As the green plants gradually covered the Earth, the atmosphere was slowly filled with this released oxygen which constitutes energy and enables us to breathe.

No matter how plentiful oxygen may be in the atmosphere we breathe, our health is dependent upon the amount of oxygen the hemoglobin in the blood may contain. If the hemoglobin in the blood is deficient, the body will not obtain sufficient oxygen from the air to function normally.

The importance of exercise, as far as breathing is concerned, is that it removes the stale air from the lungs and replaces it with an intake of fresh air from the outside. This renewing of the air in the lungs is essential for cells. Life is dependent upon change. Where there is stagnation, death follows. The effect of stagnation is best illustrated by a swamp where the water does not change. Excessive rotting of vegetation results. The same condition exists in the lungs. Where there is a lack of fresh air, the cells die and dangerous conditions develop. There are three sources from which the body obtains oxygen: (1) the air, (2) food that is eaten, and (3) water.

CONNECTING FACTORS

Question:

Can you describe the connecting factors that mankind provides for the Earth so the planet may come into balance? Todd, Wyoming.

Answer:

Mankind must provide much help for the planet to bring it into balance. The first and most important one is in cleaning up pollution of earth, fire, water, and air, the four signs of the zodiac and adding the fifth sign, that of Spirit.

In fact this would cover everything that man needs to provide and they are all inter-connecting. It is a large order. Mankind is awakening slowly to his responsibility to the planet, but needs to speed up the process and get more people involved.

It is hard to get people involved in this area because their own lives are so demanding on their energy. What they don't realize is that the cleaner and less polluted their home (the planet) becomes, the easier their own lives will become.

For a simple beginning, the breathing of polluted air makes the total body work harder just to accomplish simple tasks. The drinking of water filled with chemicals to purify it adds its own strain and stress to the functioning of the body, and also makes physical labor more difficult. The fire sign has two connotations. One is, of course, that anything consumed by fire on the Earth's surface rises up and contaminates the atmosphere and changes weather patterns much more than is realized. This in turn affects the food supply on the planet and increases prices, making people need to work longer hours to feed their families.

The second connotation of fire is in the purging and burning out of each psyche the old outdated thought forms that hold most people trapped in third dimension consciousness, which in itself makes every simple chore a difficult task to perform.

The addition of Spirit will bring an uplifting to all Humanity, raising them up out of third dimensional thought and opening up the higher planes of consciousness to them thereby making everything much easier to accomplish, bringing about new and effective ways of dealing with pollution, which will aid and abet everyone's chance of rising up in consciousness. Do you see the circular effect of the connections that humanity must provide to the planet? They will encircle dear Earth and help her rise to take her place proudly in the Creator's Universe.

AND LO! I STOOD UPON THE MOUNTAIN TOP AND LOOKED INTO THE VALLEY.
AND IN THE VALLEY LIE HIDDEN THE SHADOWS OF THAT WHICH WAS -
AND WAS TO BE! AND I WAS AFRAID FOR I COULD NOT SEE THROUGH THOSE
SHADOWS OF THAT WHICH WAS TO COME AND I TREMBLED. HOW COULD I, A
MERE HUMAN, WITHSTAND THAT WHICH WAS TO BE? AND THE CHILD IN ME
GREW STILL AND I COULD NO LONGER LEAD THE WAY. THEN A VOICE FROM
HEAVEN SPOKE AND SAID, "WHY DO YOU FEAR? DID I NOT GO BEFORE YOU TO
LIGHT THE WAY? HAVE I NOT SENT MY ANGELS TO WATCH OVER YOU? ARE
THERE NOT TEN THOUSAND MORE? DO YOU THINK YOU STAND ALONE ON THE
MOUNTAIN TOP? LOOK YE BEHIND THEE AND BY THE SIDE AND FEAR NO MORE."
AND I LOOKED AND THERE WERE TEN THOUSAND MORE. MY HEART DID FILL
WITH FAITH AND WITH A SHAFT OF LIGHT INTO THE VALLEY. THE SHADOWS
HAD DISAPPEARED FOREVER AND PEACE FILLED MY HEART. AMEN

LAW OF FORGIVENESS

With all the Power of the Beloved Presence of God "I AM", and the Ray of Eternal Love of Beloved Kwan Yin, Goddess of Mercy and Compassion.

I FORGIVE! I FORGIVE! I FORGIVE!

every person, place, condition or thing that may have wronged me in any way, at any time, for any reason whatsoever, and I now LOVE FREE all debts owed to me by Life everywhere.

I do now invoke the Law of Forgiveness for myself and all mankind, for all the misuse of God's Holy Energy and the Elemental Kingdom since the beginning of time.

FORGIVE ME! FORGIVE ME! FORGIVE ME!

and as I am forgiven, I send forth a gift of Love to balance all debts to Life I have ever created which yet remain unpaid.

"I AM" grateful for the Law of Forgiveness, to love Life free from the Wheel of Karma before it can act, manifest or longer be sustained.

It is done....as "I AM" God in action AS HIS MOST HOLY NAME "I AM".

Excerpts from "The Specials" a paper from University of Melchizedek:

The powerful energies now entering this Earth are uniting to form a new energy field of divine vibration overlaying the Earth's crust in a new and vital way. My children of the Holy Sphere, be careful this day and ever afterwards to receive what is given with Light and Love. For the very intensity of Being is permitted now.

Preserve your energies by living in the alignment of the Christ and serving the whole community. You must not think of yourselves. Please leave this energy field. For it has nothing to do with Truth. Nor shall it live upon this planet Earth. You are individuals in the Creator.

Christ recently spoke these words: "You must love. The contamination will be dissolved by love. It is through love that Jesus raised you. It is through love that this Earth is to be raised.

We have a part to play. We must love! Such a revelation cannot be taken lightly, for receiving it brings it into Be-ing. It is the presence of The Christ.

"All the Earth shall be filled with the glory of the Lord." Numbers 14:21

A PATH TO PERFECTION

There is a Plan unfolding now on planet Earth. We must be aware of this obvious Reality. Humanity is not left alone in its struggle to survive through this crucial stage of its evolution. We have been guided to this point in our History and it will continue to be so. Even if we can hardly - in fact quite impossibly - see the whole picture of Humanity's evolution, we can nevertheless observe a progression towards a more global understanding by everyone of our common situation.

For instance, the fate of the African people suffering a nameless hunger has triggered a chain reaction of positive actions from every part of the world to help them in coping with this difficulty. And in doing so, we have realized a little bit more the indissociable Unity of the Human Family. Nuclear disasters such as Chernobyl have also opened our eyes to the fact that we are all in the same boat in front of the all-pervading environmental threats. Now, with the increase in the level of CO₂ in the atmosphere and the resulting foreseeable upheavals in the climatic system, we will have even more than before to assess the global impact of our technological choices.

If we want to survive - and obviously we do want to survive - we will have to reach to a higher level of planetary awareness, of global consciousness, and collectively adjust our deeds accordingly. In doing so, we must continuously remember that there IS a Purpose to all this. We are called upon to progress toward what we can call the "Unity Consciousness" which is the constant awareness that we are not apart from the rest of the world, but in fact an intrinsic part of the Web of Life on Earth and the Universe. This new level of awareness is the only means and the only way to succeed in crossing the delicate Threshold we are going through right now.

And the only person that can bring about this new Unity Consciousness is YOU!!

For as we have seen with the now famous "Hundredth Monkey Phenomenon" and other similar scientific observations, the individual is the Key to global transformation. Each conscious act we choose to do in order to foster this emerging new awareness is the vital contribution we can and must make to the creation of a critical mass of the transformation momentum. It is up to us personally to take the responsibility for this very urgent and important endeavor.

When we decide to join our forces, our creativity, our imagination, and above all, our Love to the pool of the worldwide movement for a new harmonious way of life on this unique and beloved planet, we have to keep in mind as Marilyn Ferguson has coined, that we are part of the "Aquarian Conspiracy", this growing movement of people from every walk of life who have chosen to create the solutions to our problems for developing their inner potential and applying it where they live, instead of simply running away from the consequences of our acts through the Illusion of drugs, entertainment and money-seeking. This presence within our mind of all those brothers and sisters working with us for a better world must become a constant feature of our mindset. We are not alone! They are with us.

We are all together. And all together we will succeed.....

For there is a Plan subtly guiding us through our inner guidance and hundreds of little "chances" easing the way in front of us to help us further this pattern of evolution prepared a long time ago. So all we have to do is to trust our intuitions and follow what is gently suggested as a path of action - our Path to Perfection, and we shall certainly manifest what is being expected of us. We don't even have to be anxious about the material or financial aspects of our undertakings, for everything will appear just at the right time to realize them.

The essential condition to attain is a total faith, a deep confidence, and a profound commitment in following in the "here and now" what our soul prompts us to do, say or think. The ego shell has to dissolve itself in this continual attunement with the Spirit of Life growing within us and manifesting Its Presence and Love through us. Not only are we channels or tools for this Spirit, but.....

We are ONE with the Spirit, we are ONE with the World. We are all ONE.
Let us meditate and acknowledge in our own way the truth of these words.

FEELING IT IS DONE
IT IS DONE!

January, 1988

In last months lesson "Healing Our Finances" we expressed the idea of consciously employing our masculine and feminine natures in the creative process. It is suggested we define what we want for ourselves as a first step in the process. Next, we image forth (masculine nature) until we feel (feminine nature) ourselves to be and to have that which we formerly desired to be and to have. This is referred to as impregnation. Lastly, we are to walk through our daily activities in the knowledge that we are about to give birth to this new conception.

If we can accept that we are (I AM) both the Father and the Mother of our world of experience, then this kind of process can begin to have real value for us.

In this months lesson, we would like to delineate the role of the feminine nature in the creative process a bit more. Let us say we have accepted the fact that we are a Son or Daughter of God and that we are therefore creative. Also, we have decided to consciously select thoughts consistent with those things we wish to experience in our life. We may also have chosen one desire to work with in particular. Perhaps we have been projecting this idea in consciousness but do not FEEL yet that it is ours. This is a point that can stand more consideration.

It seems the proper emphasis is often not placed upon the necessity of FEELING. We must FEEL that we now are or have that which we desired to be or to have. This is the point at which impregnation occurs. The FEELING nature is the POWER.

Nothing changes, nothing moves until we FEEL it!

The instant we do FEEL something to be so, it is "done". And so, the following urgent notice:

Stay with your project in consciousness until you FEEL it is done. You could work for 87 lifetimes in the outer world, attempting to arrange it to suit your idea of how you want it to be. All you will be doing is breaking the law. "He but labors in vain who builds the house, unless the Lord builds it." The Lord (Law) is the creative process operating in, through, and as you. If you want eternal change for good in your world of experience, change your thoughts AND KEEP THEM CHANGED UNTIL YOU FEELIT IS DONE! This is what it means to assume dominion and authority as a Son or Daughter of the Living God.

You know this because you are that Son or Daughter.

And so it is.

THE POWER OF THE WORD: LANGUAGING SUCCESS!

Affirmations: My spoken and written words go out into the Universe to work through people, circumstances and events to open the way for my desired good to come to me.

Every word I speak now manifests for my highest good.

The first time I really thought about the power of words was perhaps ten years ago when I read "The Mysteries Unveiled" by Godfrey Ray King. Then I read all the Florence Scovel Shinn books which also emphasize the power of words. But it was only a year or so ago when I realized what a metaphysical book the Bible really is. The same points that these other books make were already written in the Bible many, many years before. For example:

"In the beginning was the Word, and the Word was with God, and the Word was God.....and the Word became flesh. (John 1:1,14)

"But I tell you that men will have to give account on the Day of Judgment for every careless word they have spoken. For by your words you will be acquitted, and by your words you will be condemned. (Matthew 12:36-37)

"As the rain and the snow come down from heaven, and do not return to it without watering the earth, making it bud and flourish, so that it yields seed for the sower and bread for the eater, so is My word that goes out from my mouth: it will not return to me empty, but will accomplish what I desire and achieve the purpose for which I sent it. (Isaiah 55:10-11)"

The tongue has been compared to the rudder of a ship. Although it is the smallest part of the ship, it directs the course of the whole vessel. Likewise, our tongues, or our words, direct our course.

Because of the power of words, whatever a person voices he begins to attract or manifest. The spoken word is so powerful that it begins to change external conditions to conform to what has been spoken.

We say many negative things in jest. Many of the jokes we hear every day have very negative content, deriding ourselves or someone else. "I have two kinds of luck - none and bad." "My body feels like a disaster area." "Oh sure, one of these days, my ship will come in, and with my luck, I'll probably be at the airport."..... Like that.

The thing is that the Universe doesn't recognize jokes. Those words went forth to recreate themselves into reality, just as if that were what we had intended. By the Law of Attraction, like attracts like. Positive words and thoughts attract positive circumstances, and negative words and thoughts attract negative circumstances. Whatever we think about and talk about most - our joys or our problems - we manifest more of. We reap the fruits of our words and our thoughts which we have sown.

Yes, even thoughts. Thoughts are things. They have energy - positive or negative. Even thoughts go forth from us out into the creative force of the Universe. But spoken, these thoughts have even more power.

The written word has more power still; it gains form and solidity. Definite written words dissolve all obstacles and barriers on the visible and invisible planes of life. Your written words go out into the Universe to work through people, circumstances and events, to open the way for your desired good to come to pass.

So you see we are always creating, or more accurately, co-creating with God the world we live in. The vibration of our words go out to mix with the vibrations of the Creative Life Force, and those vibrations modify what is there, one way or another, positively or negatively.

We either create deliberately something constructive, or we create by default whatever random thoughts run through our minds or whatever careless words fall from our lips.

"Put away from you crooked speech, and put devious talk from you. Let your eyes ever look directly forward, and your gaze be straight before you. Take heed to the path of your feet, then all your ways will be sure. (Proverbs 4:24-26)

The Bible also tells us much about praying and asking something of our Father in Heaven. Christ told us:

"Truly, truly, I say to you, if you ask anything of the Father, He will give it to you in My name. Hitherto, you have asked nothing in My name; ask, and you will receive, that your joy may be full. "(John 16: 23-24)

"Ask and it will be given you; seek and you will find; knock and the door will be opened to you. Foreveryone who asks receives, and he who seeks finds, and to him who knocks, the door will be opened. Which of you, if his son asks for bread, will give him a stone? Or if he asks for a fish will give him a snake? If you, then, who are evil (influenced by the earthy, physical plane) know how to give good gifts to your children, how much more will your Father in Heaven (who is totally spirit) give good gifts to those who ask him!" (Matthew 7:7-11)

"Have faith in God, " Jesus answered.

"I tell you the truth, anyone says to this mountain, 'Go, throw yourself into the sea,' and does not doubt in his heart, but believes what he says will happen, it will be done for him. Therefore, I tell you, whatever you ask in prayer, believe that you have received it, and it will be yours. And whenever you stand praying, if you hold anything against anyone, forgive him, so that your Father in Heaven may also forgive you your trespasses."(Mark 11:22-26)

The formula:

1. Say it or ask it.
2. Believe you have already received it.
3. Have no doubts, and
4. Ask it in the name of The Christ.

It sounds simple - and it is - but when you are really up against the wall, believing without doubt sometimes requires a lot of positive affirmation and conscious direction of your thoughts and words.

Several years ago I started writing letters to God and leaving them on my altar until my requests manifested. Whether the request is for others, my children, or myself, it has been the most effective form of manifestation I have ever found.

We must seek to be a responsible co-creator with God. By being conscious of what we say and think we can manifest what we would like to have in our lives, instead of the things we fear and would like to avoid. Whatever we think about and talk about most - success or failure, joy or pain, health or sickness, a world that is spiritually growing or a world that is destroying itself - these are the things we are contributing to creating in our lives and in the world.

Do you really want to create what you have been talking about this morning, or yesterday, or just ten minutes ago, or would you really choose to co-create something else? You are the one who decides!

ON SERVICE

Service to mankind - it is not some grand and glorious mission which faces you. It is the everyday life of struggling one day at a time and one step at a time to change that which must be changed. The service for now is to advance from where you are into that which will work more for the good of all.

I can not be what you wish me to be.
I can not do what you expect of me.

I can not fill the void within you.
I can not know the path that is you.

I can only be what I am
I can only do what I expect of me.

I can only fill the void within myself.
I can only walk the path that belongs to me.

I can not be you, you can not be me.
In love and harmony we both can be free.

WE NEED ONE ANOTHER

(The Book of True Life, Vol. I, Teaching 11:13-16,20,25,37,39)

13. In the world men need one another; none are needed more nor needed less. All lives are necessary one to another for the fulfillment and harmony of your existence.

14. The poor need from the rich and the rich from the poor. The sinful need from the righteous and these from the former. The ignorant need from the wise and those who have knowledge from the unlearned. Little ones need from adults and these in turn from children.

15. In this world, each one is situated in his place by the wisdom of God and near those with whom he should be. Each man is assigned the circle wherein he should dwell, in which are both incarnated and disincarnated spirits with whom he must coexist.

16. Thus, all of you, each in his own way, are encountering those who will teach you the love that will elevate you. From some you will receive sorrows which will purify you. While one causes you to suffer because you need it thus, another will give you love to balance your bitterness, but all have a message for you, a teaching which you should understand and from which you should profit.

20. Each human being is a lesson, an expectation of love or the absence of love, which will finally give you its sweet or bitter truth; in this way you will proceed from lesson to lesson sometimes learning and sometimes teaching, because you must also deliver to your fellowmen the message which you have brought to earth.

25. O humanity, your destiny is to harmonize with everything created. This harmony of which I speak is the greatest of all the laws, for in it you will find perfect communion with God and with his works.

37. Comfort those whom you see weeping; God has guided you to them for there is your mission.

39. Again I say to you, all of you are necessary for the fulfillment of the divine plan and for the end of the great spiritual misery among mankind.

AT THE CITY OF THE SUN:

Work parties have accomplished some fine things. Some of the men put in the water extension to the new West End Project. Many of the ladies did early spring cleaning of the community building.

The new library shelves are already being well used with some excellent new literature given by a number of people in Texas, California, India and New Mexico. We are so privileged to have this wonderful library here. Also, quite a number of books have recently been sent on our project "Shelves of Light" to a number of foreign Light Centers.

The Drs. Barton had a very good visit with their children, John and Cherie from Chad, Africa. Cherie was sent to Chad to re-establish the Peace Corp there, and remained as Peace Corp Director. John is working for Harvard University in the Health Dept. of Chad as a Technical Advisor on the use of Computers.

There were three February birthday honorees at a lovely Valentine Pot-luck dinner. They were: Gabe Rogers and William and Mary Jane Switzler. Afterwards a comprehensive video was shown of "The Lost Years of Jesus". The ancient, as well as newly found records, had all been studied to make the excellent presentation.

A number of the members of the Foundation took part in the world-wide prayer work called (among other names) "Earth Link" - Feb. 12-14.

We are looking forward to Feb. 25th when Kit Tremaine of Deming will come to visit and speak here. She is the author of "The Butterfly Rises" which tells of her spiritual explorations.

PRAYER FOR A UNITED WORLD

May the heads of all countries and races be guided to understand that men of all nations are physically and spiritually one: physically one because we are the descendents of common parents - the symbolic Adam and Eve; and spiritually one, because we are the immortal children of our Father, bound by eternal links of brotherhood.

Let us pray in our hearts for a League of Souls and a United World. Though we may seem divided by race, creed, color, class and political prejudices, still, as children of the one God we are able in our souls to feel brotherhood and world unity. May we work for the creation of a United World in which every nation will be a useful part, guided by God through man's enlightened conscience.

In our hearts we can all learn to be free from hate and selfishness. Let us pray for harmony among the nations, that they march hand in hand through the gate of a fair new civilization.
