"LET THERE BE PEACE ON EARTH"

"Let There Be Peace on Earth, and Let It Begin With Me." We joyfully sing these words ...yet how many of us stop to consider the request we are making - "Let It Begin with Me"? And if we do stop to consider - what can an individual do to help bring about world peace?

Understanding the universal laws of energy is a major step. Being a peacemaker involves our most intimate thoughts and feelings as well as the focus of our attention as we work for world peace.

This is the case because we live in a world of energy. With our thoughts and feelings, we are continually qualifying this universal energy. The tools of creation are our thoughts, feelings and words. We become what we think, feel and say. The more we focus our attention on a particular quality, the larger the amount of energy we charge with that quality. As we focus increasingly on a specific quality, we create a thought-form. This thought-form is a field of electromagnetic energy. Like attracts like in the field of energy. Therefore, each time we focus on a particular quality, we energize that thought-form, causing it to increase in strength.

Let's take an example - of anger. Think back to the last time an angry or hateful thought came to mind. Did this thought not immediately bring forth the feelings of anger? Was not this thought fed and enlarged by the feelings it elicited, until the energy you expanded far exceeded the original thought energy? We often express this fact as "the more I thought about it, the madder I got."

In the world of energy, anger is anger, love is love, peace is peace. Whether we are angry at our spouse or angry at the world super-powers, the universal energy is qualified simply as anger. Likewise, working for peace involves qualifying the universal energy with peace at home, at work, and in our thoughts/actions toward world peace.

Because like attracts like, individual thoughts/feelings/actions have a ripple effect. Individual qualifications of energy thus become mass qualifications. Energy qualified with thoughts of war attracts those same thoughts from people all over the world. Our atmosphere becomes filled with energy qualified as war.

Think back to a time when you walked into a room where you met a very angry or depressed person. Did you not soon become disgruntled or lose a little of the joy you previously felt? Recall an acquaintance who seems always to be in good spirits, meets you with a happy smile, and speaks cheerfully to you. Do you not immediately feel a surge of joy? Herein is where we as individuals can accomplish the most for world peace.

Most often our thoughts/feelings work for war instead of peace - because we wrongly qualify the universal energy. Anytime we become angry over and hate war, we increase the thought-form of anger/hate - the very factors that cause war.

WE MUST MAKE THE ENERGY-QUALIFICATION SHIFT FROM HATING WAR TO LOVING PEACE.

By loving peace, we build the thought-form of love-- a major factor in preventing war. The more we focus our thoughts/feelings upon peace and brotherly love, the more we build the potential for world peace.

THIS ENERGY-QUALIFICATION SHIFT CAN BE EXTREMELY SUBTLE. As we work for peace, we must constantly ask ourselves: How does this activity qualify the universal energy? For example - the more we fight against military build-up, the more energy we focus on weapons and war. Just listen to the words used: fight - against - military - all warring words which we energize by our activity. The shift involves becoming active in constructive efforts toward peace. Again note the words: constructive - peacepositive words energized by our activity. The more energy we expend in constructive activity for peace, the larger the thought-form for peace will become. But remember, it must be "constructive activity FOR peace.", not "speaking or demonstrating AGAINST war or military build-up." By our focus, we qualify the energy and build one or the other thought-form. We defeat our goal if we form a group entitled "Movement for Peace", then proceed to focus the group activity on weapons - war - fighting - against - all negative, warring energy qualification. Praying for "an end to all bloodshed" qualifies the energy for war. Immediately a scene of bloodshed appears before our eyes and we energize it. Praying for peace and brotherly love conjures up a tranquil scene of peace and love to be energized.

The true worker for peace learns control of the thoughts/feelings - learns to focus on and build the positive regardless of the overwhelming negatively qualified energy surrounding him/her. THE TRUE WORKER FOR PEACE LOVES PEACE INSTEAD OF HATING WAR.

By giving the thought-forms of war no thought/feeling/activity energy, that electromagnetic energy field will diminish and eventually disappear from sheer starvation or lack of energizing. We can work for world peace by - individually and collectively - concentrating our thought/feelings/actions on building the electromagnetic energy field of peace and brotherly love. The ways to do so are limited only by our ability to creatively think, act and construct in the positive.

"Let there be peace on earth, and let it begin with me!" May we each live these words.

WHAT IS AN ANGEL?

Angels are very special kind of people. They can be found almost anywhere. Rushing to help you in an emergency - doing your shopping, cleaning your house, or doing your gardening.

You can find them by hospital beds looking very concerned and rushing out to buy you socks because your feet are cold.

Angels try to figure out what will make you happy and bring you a teddy bear to hug when you hurt, or huge bouquets of flowers to cheer you up.

Angels hear your cry for help and drop everything to be by your side and do whatever they can to make you feel better. They have so much love and concern for you that you know they are heaven sent to help see you through some trial.

Angels always know when you need them and show up at the oddest times to take you out to dinner or cheer you up with something you need at that very moment.

Angels come in various sizes. Some are big and some are small. But all have invisible wings that sparkle with their goodness and make you feel loved inside.

Angels are sent by God to remind us that He never forsakes us and puts sparks of Love in special people's hearts - people we call "Our Angels".

(By Arun Gandhi, a research scholar at the Center for the Study of Southern Culture, University of Mississippi.)

"Hate" my grandfather (Mahatma) Mohandas Gandhi told me, "will only make you miserable. It is a word you must try to omit from your vocabulary." This was in 1946 when I was 12, and had just fought with a close friend over a soccer match. My grandfather pulled me to his side, put his arms around me, and in a very soft, tender voice, said: "Don't get into the habit of blaming others for everything. Always first take a good look at yourself and your contribution before blaming others." It was much later that I understood the importance of this message.....

If I was able to overcome my hate for the whites and blacks in South Africa, both of whom made me the butt of racial violence when I had barely entered my teens, it was because my grandfather and parents taught me to forgive. "They must have some reason for behaving as they do." I was told. "Your attempt should be to try and find out what it is and help remedy it."

In India, I witnessed hate and violence on the basis of caste. With friends, I helped form an organization that brought about an amazing change in one village through economic development and understanding.

When the "untouchables" of the village wanted to avenge wrongs done to them, our chairman convinced them to forget and forgive. "Look to the future," he said. "Hate will only consume your energies and get you nowhere..." Today, more than 60 villages have adopted self-help as their economic program, and benevolence as their social creed.

Encouraged by this experiment and a renewed faith in the goodness of man, I decided to come to the United States and do research to compare discrimination here with that in India and South Africa.....

Racial attitudes in America are hard. Legally, much has been achieved, but in human relations America still has a long way to go...

The attitudes are the same in India and South Africa and everywhere else where man has not yet come to terms with his own species. There is not a country in the world, however, advanced, where human relations are exemplary.

Is it not ironical that we risk our lives for God and religion, and yet flout with impunity the fundamental tenet of God's message to love thy neighbor.... Are we going to let ourselves, and our world, be consumed by senseless hatred and anger, or do we have the will and desire to retreat from such negative attitudes?

If people understand each other a little better, it will be a step toward peace for mankind and a partial realization of Mahatma's dream of a fraternal society....

We have in the past printed quite a bit of the Dr. J.J. Hurtak material. Many of you will be interested in this updated letter.

Dear Friend of The Academy:

In the Divine Names of Names, Yahweh Shalom - and in all its glorious unfoldments of joy throughout the world, we wish you Peace and Blessings. The distances that separate the West from distant countries of the East - particularly those of the ancient areas of Western China, Gobi-Mongolia, Takla Makan and Tibet, have now been crossed. For the first time in many centuries the ancient sounds of the Divine Names in Hebrew, Aramaic and Chinese have risen from the desert floor of Gobi and have been sung while walking on "the walls" of the ancient cities surrounding the Takla Makan which means "he who enters does not return".

We have seen sights and have returned from this tremendous "time vault" that now has been opened. This year we were privileged to be invited to speak before scientists and engineers of the Academia Sinica (Chinese Academy of Science) in Canton and Tsinghua University (the Harvard of China) on the advances in superconductivity and the promise of almost unlimited energy transport (to any distant point on the planet), and the Meissner effect or "levitation" using magnetic fields. (See Keys of Enoch, Key 315) The land of China, a country of over a billion people, is teeming with millions of young people eager for "the free market system" giving them a new future. Most want to come to "the West" and set up a business and push as hard as possible to catch the Americans.

In June of 1988 over the Borhai Sea of China a very large city "of light" was seen for some 45 minutes by thousands of Chinese. Official government film (Hsinhua) confirms details that do not reflect any coastal city. It is interesting that this city falls within a "triangulation of cities" mentioned in (Key 115) - as a sign of supernatural manifestation. It is a clear and official signal of things to come - when the brilliance of the Hosts on High shall stand upon the earth.

This year we had also the unique privilege of speaking before members of the Soviet Academy of Science on "space futures" and to visit the historic churches and foundations of Byzantium-Greek Christianity near the Caspian Sea. There, as well as, before the magnificent Russian Orthodox churches that surround the Kremlin, we used the sacred Names and visualizations for revitalization of the gifts of "the Ruach-Holy Spirit" - to open the minds of the Soviet Officials to the issues of Freedom and hearts of the people of Russia to spiritual democratization.

From the most remote region in northeast Mongolia to the highest mountain tops in southwest Tibet, and into the heart of Russia, the Divine Language was used with the prayers to hasten the coming of the Host and the return of "the Christ forces" on the planet. Yet, in the midst of the opening of these sacred grids and pronouncements being made, we are now well into the time of 1988-1989 which also marks the beginning of the crucial period. People are being exposed to sophisticated levels of "extraterrestrial" involvement. However, this involvement reflects the blueprint of events that have been shared with you in the teachings, namely, the coming of the lesser intelligences who will precede the coming of the Christ. Many of these intelligences are not working within the greater Plan and exemplify the "great temptation" for those who follow the "lower space gods" who offer great technical and scientific advancements at the expense of the direct violation of the human free-will.

Our work is to emphasize the trinitized Godhead and the image of the "Adam Kadmon". Here each of you must make a practical witness, since the American film media has chosen to glorify the extraterrestrials - overlooking the medical and scientific experiments of what has been "happening behind the scenes" to hundreds of thousands of people who are victims of these lesser gods.

These are times when many new disclosures of government documents like the MJ12 group, and public statements by key scientists will cause confusion due to their broadcasting of only a simplistic knowledge of the many levels of universal intelligence. We are all partakers of God's co-creation and information must be released to explain the many types of extraterrestrials working on this planet.

What can you do? Use your greater Wisdom, discernment, Spiritual Gifts and the Sacred Language, along with scientific proof, to discern each event - to determine who are our "brothers or sisters of Light." Let us expand upon the Divine work, sharing Love with one another each day, so that our whole being becomes intuitively receptive to the greater Spirit that strengthens our human vehicle. Let us truly be prepared to use the "blueprint of the House of Many Mansions" given in the Keys of Enoch for the quickening of the people of God. For at this same time the powers of the indwelling Spirit Shekinah are being given to this planet.

In intensive prayer, visualize the coming of the hierarchies of the angelic powers of Michael. Do not go back. Take time for meditation and prayer as never before. Affirm the Light and share your Love. Realize the Christ life that is holisti-

Each year becomes more crucial. This past year we have finalized the typesetting of The Scroll Of Adam and Eve which will be available in February, and The Book Of The 72 Sacred Names that will be available in the summer. We still continually need your help to reach out across the world through your generous donations towards the printing of the Sacred Name Book and other publications that will follow - allowing the message to grow and to add to our books that are now available in many countries and many languages throughout the world. Spread the real song of the Shekinah yourself by the way you live, sing and share unity of the Tree of Life.

May the Words of "Revelation" be a cosmic catalyst for all whom you touch. In the hidden meaning of Ephesians 6:17 for this generation, may the work of the Divine Name go out to the nations.

EACH OF US AFFECTS THE EARTH

In the Golden Dawn we often mention that we affect our Earth by our very thoughts, and this is true. However, the materials we use in our daily living ALSO affect Mother Earth. A list of hazardous materials came into our hands this new year and we print it here, as well as some of the suggestions made. Are these in your house?

- | | | |
|--------------------|-----------------------|--------------------|
| Pet flea collars | Toilet bowl cleaners | Paint thinner |
| Slug bait | Laundry soap | Weed killers |
| Oil | Antifreeze | Brake fluid |
| Latex paint | Room deodorizers | Oven cleaners |
| Batteries | Floor polish | Roach spray |
| Glass cleaner | Mildew proofing | Lacquer thinner |
| Wood preservatives | Rat poison | No-pest strips |
| Mothballs | Disinfectant cleaners | Powered bleaches |
| Scouring powder | Drain openers | Stains & Varnishes |
| Enamel paints | Furniture polish | Paint strippers |
| Aerosol cans | | |

"RECYCLING IS THE SINGLE MOST IMPORTANT AND CONSTRUCTIVE THING WE CAN DO DAILY TO HELP THE EARTH".

It's pretty easy to trash everything in a garbage can bound for some distant landfill. But landfills are increasingly the source of water and air pollution. Our ground waters are becoming polluted by landfill leaching and the air is becoming polluted by gases escaping from the decomposing garbage we buried. What we trash today may be what we drink and breath tomorrow.

Use paper plates instead of plastic, and better yet, reduce use of paper too. Use cloth instead of paper napkins, kitchen towels and hankies instead of tissues. Be conservative. Don't buy unnecessary image-making paper products. As often as possible bring your own cloth shopping bags or baskets to the market. Reduce your use of plastic. Refuse plastic carry-all sacks - use your own, or request paper.

Never use styrofoam. It is one of the worst environmental degraders. Styrofoam wrecks ozone. Try to educate "fast food chains" not to use it. There is no safe way to dispose of it.

Use biodegradable detergents and natural cleaning agents (like vinegar) for laundry stains, window cleaning, household deodorizing or oven cleaning. The disposable dispers create a formidable problem!

MY PRAYER

My Father, I send my prayers out
On shiny, pulsating paths of Light,
Asking that they may reach afar
And bring comfort and strengthening this night.

If children feel cold and neglected
May these prayers give them ease
From their life's harsh realities -
Severing fear thoughts which constantly tease.

For those engulfed in traumas
Which Nature has joltingly released,
May God give a quiet inner calmness
When life as known before has ceased.

I would not forget the beds where illness
Has gathered her wakeful hours.
May nerves and muscles quietly relax
Feeling Thy Spirit's gentle healing power.

Nor would I forget the lonely,
Those who feel life has passed them by.
Assuage their hearts with tenderness
Through prayer comfort, e'en as they cry.

Oh Father, so much I want to happen
As I send forth these prayers of mine
Which Light Angels help to spread.
Truly, I thank You, Heavenly Father, divine.

SELF CONTROL VERSUS LOVE

You do not want to "control" a situation. Control symbolizes a shutting down - the idea of wanting to be able to shut something off like a faucet - saying, "this I will not do." What you want is Pure Love going thru you because Pure Love does not need to be controlled. It is a positive, harmonious emotion that acts. It is when you try to control the emotions that are less than Love that you get into trouble. Cancel them out instead by making Love your attitude. Become Love instead.

Decree: "I cannot imagine or express any other emotion that is less than Love, because that is what I really am. All my emotions are based on Love." When you are letting the Father - the unmanifest - thru, the Father comes forth as Pure Love. He knows nothing about the type of emotions that you would have to control. Control paralyzes you, because you are trying to hold something back - hold something in. Instead let Love flow. We have talked about emotional control - we read about emotional control, but it is not control that we want or need - it is just Love. That is all we need. Love fulfills the law - it cancels out anything unlike itself. That is why the Violet flame is Love-in-action and it erases all the past emotional imperfections. You can't control imperfection because it will build up inside you. But if you let go and let Love wash it away - let the Violet Flame of Love consume it, then there is no need to think of controlling anything.

ANGEL CELIA SPEAKING

Hello, this is your Angel Celia speaking: Do you know who you are? You are all "Fallen Angels," and each lifetime is an opportunity to RECLAIM your inheritance as a Child of God. If you could only realize the unseen help all around you from the Spiritual World and how we all long to help you and make your lives on Earth easier,

I wish with all my heart I could project to you how beautiful are the worlds here, for there are worlds within worlds, and someday you will all have a claim to spend sometime in some of them. By "claim" I mean how you decided to spend your life on Earth will decide the mansion or hovel you have already built here when you come over.

Your deciding how you spend your life on Earth means, HOW you used your opportunities, lessons, and experiences while on Earth. It means how you are using your "choices" and "free will" for good or evil.

If you could catch even a glimpse of the Higher Realms here, you would do a 'turn around' about what is important and not important in your lives today. Yes, Master "G" and his helpers are so right because "thoughts are things" and all must do a playback of the life's computer when you come over here. Will your life reflect what you really thought of God? Yes, and more.

Beloved Children of God, stop in the hurly burly of your life and take the long view of how you want to spend eons of time over here. Make it easy for yourself by getting "your house in order NOW." Tomorrow may be too late.

There is nothing on Earth that can be more important than the integrity of your Soul. All of us, here and there are part of the ONE - INDIVISIBLE!

We are not reading out of book the information we share with you. Most of us have run the gamut of Earth. We too walked with bloody footsteps. We know the ropes, so to speak. The school bell for this era on Earth is going to ring, and those found wanting will find it's too late to do it over again.

Your Earth is in a most crucial time - the end of an Age. Do you realize what an opportunity to make real progress, to shed that world of ILLUSION forever and go onto Higher Spheres. Your free will does not stop when you lay the physical body aside for another sojourn here in Spirit.

This is not a prison - your free will is in affect here too. You will have untold opportunities to learn, help others and progress.

But sadly, some sleeping Souls who have been misinformed on Earth as to the reality of this realm will SLEEP THROUGH THIS OPPORTUNITY TOO. But no one is ever "given up". Angels try to awaken them to the Reality - sometimes we succeed - sometimes not.

It is the ignorant teachings on Earth about TRANSITION that makes it very difficult for us here when we attempt to acclimate the newly arrived Souls. There is so much fear imbued teaching that takes away from what should be lighted stepping into another dimension. So instead of the Souls knowing the Truth and blessing the experience of getting out of the Earth's so-called vale of tears, it takes some a long time to accept what's happening.

We look forward to the New Age, for much of the sting of ignorance will be passe, and the Truth will be taught to every child so that there will be no more "bewildered" so-called 'dead'.

Beloveds, overcome every shade of FEAR while you are still on Earth. It will make it so much easier when you are called "home." You are, in Truth, SPIRIT. You are a citizen of ETERNITY. You are a living cell out of the Mind of God, and NOTHING IN HEAVEN OR EARTH will ever change that. God lives within you as His eternal child, and only He could ever change that!

Please accept our unbounded blessings and praise God that life on Earth is a tiny fraction of your life eternal.

Love, CELIA

THERE IS NO DEATH

My Dear Ones:

I know for certain there is no death!
There is just a parting along the way.
I breath just one last breath,
And draw my Soul from out Earth's clay,
There is no death! How can there be?
When from the body I am free,
But still I'm just the same old me!
Wearing a less dense body now,
In harmony with my present plane,
The clay, once mine, shall return
To the substance of the Earth again.
Shed no tears at all for me!
Rejoice! Rejoice! For I am free!
It is I with tears glistening in my eye feel
Weighted yet to Earth 'till thy tears are dry.
So, dry thy tears, and with a blessing,
Send my Soul along its way,
That I may create a pleasant welcome
When we meet some future day,
For we shall meet again
If our Souls are in harmony,
And we'll laugh at our childish fears,
When bound to Earth were we,
So, smile, and bid me fond farewell.
Say, "Bon Voyage!" "Adieu!"
Then there'll be happiness and joy
When I meet again with you.

THE HEALING OF THE PLANET EARTH

Children of Light, the time of the great awakening is come. You who have chosen to lift your eyes from the darkness to the light are blessed to see the advent of a new day on the Planet Earth. Because your heart has yearned to see real peace where war has reigned, to show mercy where cruelty has dominated, and to know love where fear has frozen hearts, you are privileged to usher real healing to your world.

The Planet Earth is a blessing to you. She is your friend and your mother. Always remember and honor your relationship with her. She is a living, loving, breathing being, like unto yourself. She feels the love that you give as you walk upon her soil with a happy heart.

The Christ has chosen your hands to reach the lonely, your eyes to see innocence in the guilty, and your lips to utter words of comfort to the wounded. Let pain be no more! You have wandered in dark dreams for too long; now you must step into the light and stand for what you know is true. The world has suffered not from evil, but from fear of the acknowledgement of good. That fear must be ended now, forever, and it is within your power to do so.

No one can find yourself but you. All of your answers are within. You must now teach the lessons you have learned. Your understanding has been given not only

for yourself, but to guide a sore and tired world to a place of rest in a new consciousness.

Here before you is your vision come true. Here is your answer given you, a song to soothe a weary soul and make it new again. Here is the bridge that joins you to your brothers and sisters. Here is your Self. Look gently upon your Self, and allow yourself to be filled by the Light you have been seeking. True love comes from your Self, and with such a power your every thought is a blessing to the entire universe.

All areas of your life will be healed. You will shine with a golden splendor that speaks of the One Who created you in wisdom and glory. The past will dissolve like a dark dream, and your joy will be so brilliant that you will have no recollection of the night.

Go forth, then, and be a messenger of hope. Point the way to healing by walking in gratefulness. Your brothers and sisters will follow, and as you pass beyond the portal of limitation you will be united and reunited with all who seem to be lost. There is no loss in God. Choose the path of forgiveness, and you will weep tears of joy for the goodness you find in all.

Go forth and live the life of the radiant soul that you are. Glorify God in your every deed. You are important, you are needed, and you are worthy. Never allow the dark cloak of fear to hide the light from your view. You were not born to fail; you are destined to succeed. The hope of the world has been planted in your breast, and you are assured of success as you stand for the One who sent you.

This, then, is the healing of the Planet Earth. All of your doubts and fears can be set aside as you know that the healing will come through the love in your heart.

All blessings are with you. Go in Peace. All is well.

CHRIST AND CHRISTIANITY

by A. Christian

Everything on earth is moving forward at such a rapid pace man himself has been left far behind. New ideas, new facts, new power, new knowledge is flooding upon the world faster than man can use it - and unless he begins to grow, in some degree, to measure up to his surroundings he will be annihilated.

Of all things on the earth Christianity alone has stood still. Oh, it may be true that each church is making a few more converts, that there are children reaching an age in which they may become members - but what are the creeds and doctrines of the Master doing for these millions of individuals? "Have they become free?" Have they lost their burdens, their fears, their prejudices, their darkness and confusion? Have they found that contact whereby they can prove that they believe in Jesus Christ by being able to do the works that He did, even the greater works? If they do not have this power, if they are not free from all earthly miseries, if they cannot heal the sick, the blind, the lame, the halt, then Christianity is a dead and useless thing in the lives of its followers. At best it is only a rather impotent sedative.

True Christianity, and by that I mean the applied teachings of the Son of the Living God, in every phase, in every "jot" and in every "tittle," is the most dynamic power ever placed in man's hands. It is the perfect way of life. It contains power unspeakable; It is life in its complete fullness. It is joy and glory and happiness complete. It is an obedience that is not a burden, but a devotion of sublime glory leading one to the highest exaltation of existence - a life right here on this earth of supreme peace and abiding power. It is majesty that will lead to divinity, and give man the power to move mountains, not figuratively, but literally. It alone can save the world - not as it is being taught and lived today - but as Christ lived it.

2. MORE ON THE WEST END PROJECT:

An Experimental House was completed last spring at the West End of the City of the Sun. The aim was to build by hand a small, attractive, circular, energy efficient, low energy, inexpensive home adequate to provide comfortable year round shelter for 2 people by making maximum use of low or no cost indigenous materials and resources in its construction and operation.

It is an earth-sheltered dwelling made of pressed earth blocks and incorporating passive solar energy for all heating and air conditioning needs. The construction required 500 man hours of labour at a materials cost of approximately \$500.00. After 4 months of occupancy this winter, the project has thus far fulfilled its promise.

SUNBURST

How did it take so long to know we could regain
Our youth and strength while living on the Earth?
As long as Reason took to abdicate his reign,
As long as Soul took coming into birth.

Man's future cannot be similitude of past:
Once Soul awakes, God's secret lies revealed.
Negation is dissolved by inner light at last,
The cave of evil is for ever sealed.

O Soul, cast off the shade that dims your peerless light!
Reclaim that World whose joyful heir you are!
Upon this precious land bestow your naked gaze:
This risen Earth has ever been your Star!

AT THE CITY OF THE SUN:

It is different living in the community, City of the Sun, than it is to live in the usual town or village. When things need doing - we must do them, or get others to. So our "busy-i-ness" covers many types of work projects. We must maintain our own sewer and water system. In January we had quite a "learning" experience when on sunny - but COLD - days a water leak occurred in one of the pipelines. As day followed day with much digging and exchanging of valves, trips for parts, etc. etc. it was taken care of. It was found that materials act and react differently in COLD weather. The men felt, however, that a large sized step had been taken in community cooperation. Also, should it occur again we are more properly educated as to how to handle it.

We had two lengthy, involved, detailed meetings studying some of the aspects and directives in our Corporation By-Laws. Constance Arnot was Chairman, and Paula Double was secretary for these two important meetings. They capably led us through the complicated process of Amending By-Laws. (Even small changes take much time.)

A large-sized project for the office has been having the wonderful opportunity to computerize the Golden Dawn mailing list. Our new members, Paula and Terry Double, brought our labels up-to-date with their computer, and at last we have entered the "computer world". (Believe me, there is one appreciative Foundation Secretary.)

On January 23, 1989 the City of the Sun Foundation held their Annual Meeting. It is always a special time for yearly reports and election of new officers. Dr. Verlie Barton conducted the meeting. Reports were given: Dr. Jim Barton spoke for Trustees, Mary Jane Switzler gave information on the Golden Dawn ministry, William Switzler reported for Pyramid Committee. Dr. Verlie gave her hostess report, as well as the Kitchen Report for Alta Campbell who is in Alaska. It was necessary to elect five Trustees, and they are: Terry Double, Chairman; Constance Arnot, Vice-Chairman and Secretary; Wayne Taylor; Faun Homman and Sarah Leonard. Faun Homman was re-elected as Treasurer, and Mary Jane Switzler also as Foundation Secretary. Paula Double became Chairman of the Members' meeting; Maurice Hastings, Vice-Chairman and Mark Pope, Secretary of the Members' Meeting. (Later it was necessary for Dr. Verlie Barton to become such Secretary.) Dr. Verlie was again chosen as Hostess.

THE FESTIVAL OF SECOND COMING

During the Spring of 1989 there are seven sacred dates that mark the critical moments in the return of the Christ Energy on Earth. These seven dates are being celebrated as the Festival of Second Coming - our opportunity to continue the spiritual growth instigated by Harmonic Convergence and Earth Link '88, as well as the Planetary Prayers for Peace on Dec. 31st of each year, etc. etc. etc.

Perhaps you will wish to join with the millions of people worldwide as collectively they attune to a new wave of high frequency energy that will pour through the consciousness of Earth and Humanity. Participation will assist in the grounding of this Christ Energy on Earth. If possible, meditate one-half hour before and one-half hour after each designated time. Sunday, June 19th, 1989 is the focal point. A call is going out for as many people as possible to enter into this entire Festival, and particularly plan gatherings to radiate this loving energy upon June 19th, 1989.
