## PLANE CRASHES MOUNTING

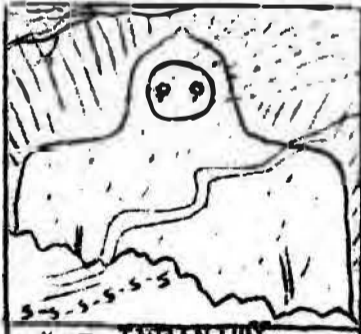

**MOST ALL MILITARY CRASHES NOW CLASSIFIED...ARE UFOs RESPONSIBLE?**  
(Exclusive to Infinity Newsletter)

The increasing air disasters has the Air Force worried, and justifiably so. The normal percentage of crashes is to be expected, but look at a few recent disasters: B26 crashes near Savannah, Georgia (Oct 29), A Jet crashes in the street in San Diego (Oct 29), B47 explodes @ Lake Charles, La. (Oct 26), B57 crashes east of Tokyo (Oct 26), Navy Jet crashes in residential area in Oakland, Calif. (Oct 25), Plane plunges in ocean off Los Angeles (Oct 23), AF Plane disappears in Spain (Oct 23), Minneapolis asks ban on Jets because of 6 crashes (Oct 19), Jet plunges in Gulf (Oct 18), C-54 in trouble in "Azore area" (Oct 16), C-118 disappears on flight to Azores, wheels found (Oct 11), Jet A-Bomber crashes in Calif. (Oct 5), Jet forced down off Virginia (Oct 4), Jet spins into Rockland, Mass. street (Oct 3), Britain's secret A-Bomber crashes (Oct 1), Bell X-2 crashes, our fastest Rocket-Plane (Sept 27), F86-D Jet crashes in Pittsburg (Sept 26), C-47 hits Mt. Yale, Intelligence Officer & Civilian Specialist aboard (Sept 25), Navy F-9F4 Jet catches fire in the air (Sept 20), All B52s grounded (Sept. 18), B52 catches fire in midair & crashes near Madera, Calif. (Sept. 17), & a B52 exploded in midair last Feb. (B52s are A-Bombers)...

Some of the World's best craft have been destroyed. Who's next?? Britain's 'Fairey-Delta 2'? Is it sabotage? Shortage of Mechanics? Inferior planes? Or, ARE THE UFOs DESTROYING THEM?? This article is not intended as a criticism of the Air Force, they're doing an excellent job of investigating. But the facts must be told - at least 3 plane crashes occur every day in the Year - 1,000 killed a Year...

Now, the question before us is - IS THERE A "PATTERN" TO THE CRASH FIGURES? Examination of many of them seems to indicate there IS...

## "SUTTON MONSTER" REVEALED?

EXCLUSIVE INTERVIEW WITH ON-THE-SPOT INVESTIGATOR REVEALS INTERESTING FACTS . . .

(On September 12th., 1952- Something happened in Sutton, West Virginia, that may be the answer to many questions. These people may have actually met and ran from a CREATURE from ANOTHER WORLD. I refer, of course, to the "Sutton Monster" Incident.) - (Taken from back-issues of INFINITY)

\*AN INFINITY Hall-of-Fame Adventure, from File.

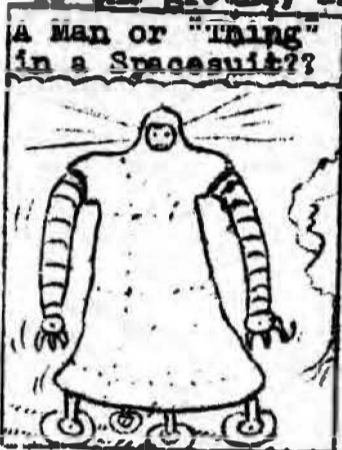

\*It all began when "Something" flew over West Virginia. It is said to have been a meteor, yet the reports vary from 7 green Fireballs to 1 red Object. Mrs. May, a National Guardsman and several children were the initial investigators. They thought it had landed on a hill nearby & went to investigate. Some saw a glowing, pulsing Object at rest on the hill. Some heard a thumping noise, and a hissing sound (of high-pitch). Everyone says there was a sickening odor, like sulphur. Then they saw something to their left and turned a flashlight on it... (Cont. OVER)-

INFINITY

SUTTON (CONT.) "IT" was partially obscured by brush, but "glowed" a dull green. The upper part of this thing, which was visible, looked like a giant, hooded figure- like our carefully-reconstructed illustration on pg. 1.. It was about 9-15ft. high, dull-green in color, with an opening in the hood- thru which a sweaty red face was observed. Two eyes, about a foot apart, sent forth their own light like a beam. The beam(s) of greenish-orange light cut thru the darkness and here like our foglites. There were folds around the body, and claws, according to Mrs. May. It began to move toward them (in a motion best described: as if on wheels) in an arc that would take it to the pulsing-object. All the witnesses fled in terror. Some said the Monster continued to "glow" even after their flashlight was dropped. Mrs. May's children became ill, their throats swollen. The Guardsman, Gene Lemon was seriously ill, almost in convulsions, his throat swollen & inflamed. A Doctor compared the effects to Mustard-Gas. Investigators later found a pungent odor close to the ground, and something like skidmarks in the tall grass, 10 feet

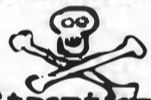

A Man or "Thing" in a Spacesuit??

apart. The marks are said to travel from the big tree where "It" stood to the spot where the glowing-object rested. Later-Investigators said the grass was so flattened by sightseers it was impossible to see anything. Noted NATURALIST-EXPLORER IVAN SANDERSON was one of the competent observers at the scene. I asked Ivan what he'd learned. He said that they had cross-examined each of the witnesses, even tried to 'trip them up' in their stories, to no avail. And there was no oily substance on the hill, he added. I asked Ivan if he went up on the hill.. "Did I," he laughed, "We went over it with a fine-tooth comb..." But the grass was so matted when he arrived, nothing in the way of "solid proof" (like a Martian's arm, for instance) could be

found to study. Toward the end of our interesting conversation I said to the famous Zoologist, "I thought it was significant that the Dog wouldn't venture up the hill." "But he DID go up, finally," said Ivan. "OH? - What happened?" I asked. "He got sick and DIED..." was the reply... (Fungus-Owl, Robot, Reptile or intelligent Insect?????????)

OUR POLLUTED WORLD

"The FALLOUT MENACE": The Radiation Hazards Committee of the Federation of American Scientists issued a report on "Strontium 90" that says: "It seems likely that the radiation hazard is MORE SERIOUS than is suggested by recent Official statements." It seems that some areas receive MORE of the Fallout than other areas. (Wales-) The Report further states: "It may well be true that in certain areas of the World, the Strontium 90 Hazard has ALREADY PASSED THE DANGER POINT, to say nothing of the additional production of this material in further tests..." (INS) Is Fluoridation of water a Danger? Why not look in the Dictionary under: Fluorine, Fluoride, or even Chlorine. The so-called "Pitted Windshields" (The cowab-of-cracks type) were concluded to be caused by Caustics & Fluorides in the air, settling in the tiny pits caused by road-dust... (BS) About 90 tons of radioactive debris was dumped in the Ocean off Boston, last July. The dumping area is kept secret... (UP) Modern Insecticides are causing HAVOC to our Wildlife, according to the Audubon Society... It now takes 2-3 Antibiotics to fight infections formerly defeated by one... (ANA)

The MARS COMMITTEE '56

\*As we went to press, Dr. E. C. Slipher, world-renowned Authority on MARS, and his "Mars Expedition" to Bloemfontein, South Africa was still taking photographs. Rumors have it they are getting some fine pictures. I saw ONE of the photographs recently and it was very good. June 28, a yellow cloud mass was reported high in the Martian atmosphere. He photographed it. In early July, an unusually bright spot (some 350 miles wide) was observed on the edge of the South Polar Icecap by Astronomers of the Lowell Observatory at Flagstaff, Arizona. They also report unusually opaque atmospheric conditions on the Red Planet. Dr. Slipher is making telescopic photos in 3 colors: Blue, red and yellow- in hopes of solving the Mystery of the "Blue Haze" that surrounds Mars most of the time. Fantastic new electronic equipment is being employed to obtain better photos. In 1954, 20,000 photos were taken- many in full-color... (HB)

## EXCLUSIVE-SCOOP: HAVE UFOs TRIED TO SEND US MESSAGES??

UFOs often appear in formation. These formations sometimes are actual letters as we know them. The following letters have been made: C U L N V I A O T L... Just for the heck of it, I decided to see what words were possible from these letters. The following are: NOV<sup>a</sup>, UN, NO, CIVILIZATION, AVIATION, UNIV<sup>a</sup>, CZZO<sup>a</sup>, A TOLL, ANT, CALL, CONTACT, ILL, VITAL & several like: in, to, at, on- etc. What possible sentences could be made from these words? Many, among them: "Vital U cut out A toll, Civilization ill, Total Nova, No Aviation, Can not contact U, Aviation no contact, UN vital, Contact on auto. unit" etc.. This is all pure conjecture, of course, but it is possible... and very interesting. Why would they spell 1 letter at a time? Well, that's the way Earthlings do it, isn't it? It might be rewarding to check into what ORDER these letters appeared in our skies. Also, IF the small-formations might be dot-&-dash (The 'cigars' or a string-of-dots) could be dashes. A good project for someone...

Interested in helping with the Earth-Satellite? Americans are needed to augment the tracking of our basketball-moons to be launched during the International-Geophysical-Year (JULY 1957-Dec. 1958). "Project Moonwatch" may see MORE than just OUR moons, too. and you don't have to leave your own backyard. If you're interested, contact: Dr. J. Allen Hyneck, IGY Satellite Optical Tracking Program, Smithsonian Astrophysical Observatory, Cambridge, Mass. Amateur Astronomers will find this highly rewarding, and the Scientists really NEED your help. They realize that they may succeed in launching the Satellite, then lose it. We will report further in future issues.. It's suggested that group-observation is BEST...

DON'T MISS THE MOTION-PICTURE: "U.F.O." when it plays your town. It contains the secret government films, just released: The "UTAH pictures" and the "MONTANA pictures"... The Documentary, it's thrilling... A MUST. Produced by Green & Rouse, Distributed by United-Artists...

The "Science-Fiction Theatre" on TV (NBC, (4) NY) is very good, and often has stories of UFOs and Space-visitors. Ivan Tors produces... (Cont. on pg. 5)

Hats-off to Tex Antoine for seeing the danger in Sumner, Miss...

The Temperature on MARS is estimated to range from 50° above to 80° below zero. That's not an 'impossible' temp. for LIFE....

Be sure and read "The Report on Unidentified Flying Objects" by Edward J. Ruppelt (Former head of Project Bluebook, the AF's UFO Investigation). A Fine Book available thru Barlow-Studio (See pg. 8, this issue)

Popular-Mechanics for May, 1956 had "The New French Revolution- In The Air" about sensational new flying-BELL, the COLEOPTER. It uses either an Astar 101-E Jet or a ducted dual-propeller turbine. A vertical take-off machine capable of over Mach 2 in level flight. Has no wings, uses circular-duct as wing, looks like a flying barrel...

Science-&Mechanics for June, 1956 has "Plane that does push-ups" about an even more-radical new air design: the AERODYNE craft. This looks like a Spaceship (or Fly-nig-Cigar) with no wings. Works on same principle as Navy's "Flying Platform" only it also employs jets for forward-thrust. Old Readers will remember that 'fantastic' plan for a flying-disk (working on this principle) that appeared in July-Sept. 1952 INFINITY. Now, once again, in our lifetime- Fantastic becomes Fact... It is the intention of INFINITY to STAY 'One or more jumps ahead' of Science, as that is the purpasa of any Research Organization...

It might be interesting to reprint some of those early 'fantastic' aircraft plans in a Special Issue some time. I imagine the other plans will be appearing shortly as fact, too... The same conclusions are reached by Intellectuals in all Countries, and I dare say, in all Universes.

The Piccards are making new descents in the Sea (near Capri) in their unique diving-craft... (ABC Radio)

The SAUCERLAN reports: Landings of silvery objects in Borneo, not confirmed as yet. (UFOs should be appearing around that area this time of year. See: "KEY to appearances" in our next issue... editor)

Another 'Explanation' making the rounds is: "Fireballs" could be caused by magnification of the Sun's rays thru a cloud-layer, causing combustion of elements (like magnesium) in the atmosphere. This won't explain UFOs of any duration, however... INFINITY IS GLAD TO REPORT ON BOTH SIDES OF THE UFO CONTROVERSY. Some 'closed-minds' can't understand this Policy... (Cont. on pg. 6)

## "Looking Back..."

Toward the end of 1942, I was looking up some facts (for a story I was writing) in the Public Library's dusty archives. I don't even remember what the story was now that stated me on the adventure of my life. It must have been a Science-Fiction plot to have led me into the Scientific section of that musty building on that dreary afternoon...

I wasn't half thru the endless shelves when my eyes fell upon a worn copy of Charles Fort. The Title startled me: The Book of the Damned. It deserved a look, I thought. It's funny how your life revolves on small incidents. I'd been interested in Science and the Supernatural since a child, but I believe it was this book that undid me...

I sat there in the dust and read and recorded until a clap of thunder reminded me that the startling world of Fort was THIS world. I glanced out the window and saw rain beating on the panes and running down in riverlets. It was closing-time at the Library. Reluctantly I closed the book and looked to see if there might be other books by this sobering author. There were. So I gathered them up and, pulling off the lightcord, made my way back to the clerk...

Needless to say, after finishing reading Fort, I continued into the other brave Researchers into the Unknown. Book after book passed my hungry eyes in the years that followed, and I still manage to read as many as I can...

1943-1945 found me working on a Daily Newspaper, thus giving me a chance to purvey all the News Services and Teletypes. The Public Library continued to satisfy my appetite for back-issues however as they had huge stacks of yellow, brittle papers and magazines and heavy scrap-books dating back to Vol.1-No.1 issues...

1944-"Foo-Fighters" seen pacing our planes in Europe. These reports read like Science-Fiction. Could the Germans be that far ahead of us? I reread the OLD reports again, they were so similar it was frightening. These "Foo-Fighters" had been seen for Centuries... Were they from -- another Planet??

1945-Atomic Bombs... Science-Fiction becomes FACT... I started a Newsletter, full of oddities (like the "Foo-Fighters", etc.), for my friends... Barlow Studio was established...

1946-As PEACE set-in, I stated to Free-lance write & sketch... My interest in unexplained phenomena amused my friends... I bought a Mobilehome-Studio...

1947-I moved my Studio to a Lake, where I could work better...

June 24, 1947-Gleaming, metallic disks sighted over the State of Washington by Ken Arnold, a Pilot-Businessman. (A SOLID "Foo-Fighter"). "Flying Disk" Sightings increased. The name "Flying Saucers" was coined. I took more of an interest in the "Saucers" than any other phenomena...

July, 1947-My Newsletter contacted serious, interested persons all around the World and we exchanged ideas and information. I had no more free time as one thing rapidly followed another. Now my FILE of Oddities, which I began in 1942, was invaluable. I started "UFO Center"... I believed the 'Saucers' were from another Planet, tho it seemed fantastic... I was not alone in my curiosity, and many were collecting Saucer files which were to prove priceless in the near future...

August, 1947-I was still writing a Column in a National Magazine & I wanted to give my Interplanetary Theory to the Public. This was against the Publisher's wishes, so I was blocked...

But, OTHERS were working. In TRUE Magazine, the theory did get national attention. This Editor assigned several men to the story, among them- Don Keyhoe, who broke it to the World (in Dec. 1949)...

1948-I resigned from the National Magazine over Policy...

In the 1947-1956 period-I was as busy as is humanly possible running UFO CENTER... And in 1956, INFINITY became a Public Newsletter by Popular Demand... H.B.

(In future issues, Haughton Barlow will reveal more thrills on the Trail of the UFOs, many have never appeared in print... Editor.)

\*MORE NEWS (Cont.): Tornadoes in 1955, compared to the previous high of 690 in 1954. Between 1916-1954: 8,776 Killed by Tornadoes...

They gave-up searching for "Azore" plane CREW, in spite of 'Flares'. (?) The "Fireball" of Feb. 12 could have been one of the Holpuch-Objects, reveals Science-&-Mechanics Mag, for June. A very good article...

(INFINITY Reviews the Holpuch-Objects, on pg. 8... Editor)

**The HOLPUCH - OBJECTS!**

There has been a lot of discussion lately concerning the possibility of Satellites already circling the Earth. And if so, whose are they? So we decided to review the Case of the Holpuch-Objects, discovered by Mary and Richard Holpuch on October 18, 1953. Possibly it is these very same objects that are being reported again, or possibly the Holpuch-Objects are something more than they at first appear to be...

According to reports, the Objects travel in an inclined orbit around Earth at a distance of 341 miles above the surface. The incline is said to be 35-45° from the Equator. There are more than a hundred of these glowing objects, dull red in color, speeding by in a defined orbit! The groupings were sporadic, say the Holpuchs, and the objects appeared thru the Scope to have a rough conformation. They apparently traveled at 17,000mph, from tests the Holpuchs were able to make. (Our Basketball-Satellites will be capable of this speed.) Most Meteors enter Earth's atmosphere @ 40,000-150,000mph. Many Scientists believe it is impossible for our gravitational-field to 'capture' a Meteor as a Satellite...

The Holpuch-Objects are believed to be of varying sizes, from 60-100 ft. in diameter, and traveling in an ever-contracting orbit, slowly descending towards the Earth, eventually to fall-out as "Fireballs". (See bottom of pg.7) The Objects were seen again Oct. 19, 1953; Feb. 8, 1954; Sept. 5 & 6, 1955; Dec. 18, 1955 and several unverified-sightings. Sad to report, most Professional Astronomers brushed-off their findings, even the hours of work went into their research. Amateur Astronomers were more open-minded however...

During the long search for the Objects, it was determined that some birds migrate at heights of 3 miles or more. And 1 report stated that insects were migrating at night, which Entomologists have thought impossible...

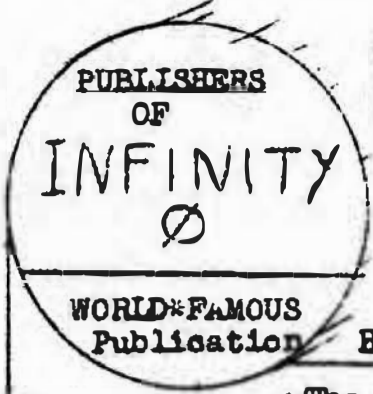

John Bagby, a tireless investigator of these Objects, has read papers to the Astronomical League of America stating his findings. He believes they are residue of a destroyed moon, or a swarm of meteors captured by Earth's gravitational-field... "Project Vanguard" is interested...

(Editor's Note: If enough Readers are Amateur Astronomers, and wish to hunt for these Objects- Drop us a line, and INFINITY will publish more info. on Telescope-settings used by successful Spotters!...)
