"The SECRET BASES Of The U.F.O." An Exclusive-Feature By Vanwalter.
 *It is a dark, lonely night at Sea. On board a tiny, manmade craft called a Freighter the Crew keeps a quiet vigil. Suddenly the Night is as Day! Rising from the Ocean Depths is a fantastic, luminous 'Wheel' of huge size and fearsome appearance! It spins over the ship, rotating on its axis, the Freighter-Crew is petrified with fear! A sulphurous odor drifts down and with a tremendous roar it plunges beneath the waves, steam issuing forth! No, this is NOT a new, Science-Fiction Movie! It actually happened- Not once- But many times in recorded Annals of the Sea! It is only now in Modern times that the meaning of this Phenomena is clear! Similar Sightings of "Things" rising from, or plunging into, the Sea! It is evident that such incidents have occurred since 1947! A search of old Records reveals that these strange "Wheels" have been seen in the Persian Gulf, Malacca Strait, China Sea, Mediterranean, Mid-Pacific, Off Japan, Newfoundland, The Carolinas, Mexico & California! Some are recorded as having STRUCK Ships! Charles Fort suggested they could be Super-Constructions! I think he was right! Examination of Undersea-Charts reveal excellent hiding places close to these appearances! There are Canyons over 4 miles in depth where these UFOs could Base under our Oceans! They are: The Mexican Basin, The Cayman Trench, Puerto Rico Trench, (all in the Atlantic Area) And the Phillipine Trench, Japan Trench, Ryu Kyu Trench, Bonin Trench, and best of all: The Marianna Trench (in the Pacific)! Isn't it strange that the "Wheels" are seen near these depths? I think the UFOs cross Space and then gather together at these Bases! Notice the recent interest of Deep-Sea Scientists in these same areas! More coincidence? I'll close this brief Article with reference to the fact that Compasses & Equipment on Planes & Ships fail to function properly off the Carolinas (and this is substantiated by a tremendous amount of Reports)! I believe the UFOs sometimes gather on the floor of the Ocean off there, too, and it would certainly pay to explore this area carefully! All those Unidentified-Underwater-Objects aren't Russian Subs! Especially the ones that leave the water!! How about it, Costeau? Have you or the Piccards considered investigating these areas? OR ARE YOU ALREADY???. DV
