COSMOGONY AND COSMOLOGY

BY

DR. M. DOREAL

The Mystery of the Universe is contained in the Unwritten Kabbala; the Keys to the Understanding of the formation of the earth, the beginning of man and of his evolution to the consummation are veiled in its symbolism. In the old Kabbalistic Mystery Schools these keys were taught to the select few. Because they were never written, the Occult Wisdom of the Kabbala, the Sepher Yetzirah, the Book of Concealed Wisdom, and the rest of the Ancient Teachings have been lost to the world at large. The findings of modern Science have not as yet even scratched the surface of the Great Knowledge which the Ancient Races knew about the Laws of Creation and of the manner in which the Supreme Hidden One manifested in the material.

The Mysteries which Doreal has given in this book are much too great and all-encompassing to iterate in this review. May it suffice by saying that COSMOGONY AND COSMOLOGY is more than a history of Universal events, for he has shown the coming forth of the Laws of Creation while they were in the World of Formation even before the Cosmic Condensation became manifest.

BROTHERHOOD NEWSLETTER

Dear Students and Friends:

Summer has truly ascended upon us. The early mornings are comfortably cool, as are the evenings, but the noon day sun is hot. We can still enjoy the spring and winter snows by recalling their cooling temperatures. Others remember much cooler weather and are already gathering fire place wood.

The holiday week-end afforded us some extra leisurely time. However, most of the Shamballa residents appeared to be working on some project. Mr. and Mrs. Lyle Whitby celebrated their fourteenth wedding anniversary on the fourth. Congratulations to them!

Sunday morning the Firemen had their regularly scheduled meeting and then smoke was reported, the alarm was sounded and the firemen quickly located a brush fire at the new Temple site. There was Bill Miner on the scene making as much smoke as he could, patiently awaiting the Firemen. The whole plan was a preconceived idea to check fire equipment and Firemen and then clear and burn all the scrub-oak from the building site. A large parking area and the building site have now been cleared. Very soon the excavating for the basement and foundation will begin.

Mr. and Mrs. Thurman Sanford and their

three lovely daughters are vacationing and visiting with the Glen Evans. We are all enjoying their visit and hope they come again, soon.

July fourth ended with a game of softball and a beautiful fire works display. May we all contribute much towards keeping the priceless freedoms for all people on earth.

Mr. and Mrs. Joseph Shwed and Mike have just returned from a grand vacation in New York. It was Norma and Mike's first visit there.

Sunday Dr. Lyle Whitby gave an inspiring Avatar Service. We must often rededicate ourselves to the attainment of the Christ Consciousness so that we may become one with the great Infinite Light.

Saturday, July 9, we hope to see a lot of volunteers at 8:30 A.M. at the firehouse for the clean-up program.

In Brotherhood,

Iris Rawls.

CONFIRMATION

No man shall be thy God,
No tumult stuff thy ear;
Through Truth and Aaron's rod
Thy Savior shall draw near--

No dogma hold thy mind
In crystalized belief,
No dubious daily grind,
No hatched-out brood of grief:

No bondage seal thy soul,
Despairs, sap sacred zest,
No woe shall blurr the goal
To seek the right and best,

No dolelike status slake
Thy mettle, and defy
The conscience for the sake
Of merely 'getting by.'

Coercions swell no tide
To set a people free!
Shall ridicule then hide
The heights of truth from thee?

No spurious sympathies
Or threats shall stir up fear--
None share such liberties
As when Christ is, held dear!

-Paul Jans.

CONCENTRATION

(Part 2)

By
Rishi Avenda

By the study of Yoga philosophy you will enrich your knowledge and achieve results in accordance with your capacity to receive. Rouse your dormant energy by the study of philosophy and this philosophic flame will find its own fuel, and perpetuate itself into greatness, which will enlighten the world.

Arguments cease when harmony is attained. A still higher plane exists called the super-conscious, which is Samadhi. In this state everything is perfect, it is a unity of all that exists, there is no arguing or wrangling. In this serene silence, all differences have been subdued; all is perfect. This explains the ethical theory that we must not hate, but must love, because, just as in the case of electricity, or any other force, this modern theory is that the power which leaves the dynamo will complete the circuit and return to the dynamo; so with all forces in nature, they must come back to the source. Therefore, do not hate anyone, because that force, that hatred, which goes out from you, must come back to you.

If you love, that love will come back to you, and it is just as certain that every bit of hatred will come back to you in full force; nothing can stop it, every impulse, and every emotion, will return to the source from which it originated.

SPIRITUAL UNDERSTANDING

By

Virginia Seamonds

"There is spirit in man and the inspiration of the Almighty giveth him understanding."

It might be wise to have a thorough checking up on our beliefs regarding the most important of all subjects - Knowledge of God, of Christ and man. Bizarre ideologies and crystalized dogma tend to strangle truth and paralyze the power and wish to face it, but instead have set up monstrous and irreconcilable myths to self-justification. Injustice mutilates the human spirit. It has become a thing which passeth all understanding. "The most important thing is the admiration of noble deeds, noble words, and noble character." Our happiness and well-being depend upon the extent and quality of our beliefs. Believing in Good is believing in God.

No skilled physician is needed to

diagnose the malady of this troubled and chaotic world: The trouble lies quite plainly in the fact that our technical and material development has too far outstripped our mental, moral and spiritual development. The remedy does not lie in the need for shrewd statesmen, learned economist, or great wealth, but in more of the love that Jesus taught, and a greater appreciation of the simple things of life; because happiness is a sense of proportion which is realized when meeting life's problems with courage, determination, understanding and resourcefulness. Spiritual understanding is gained through divine revelation by sowing the seeds of truth, spiritual strength and the conviction that God is Spirit, Life, Truth and Love. Spiritual understanding then is the effect of intelligent reasoning, diligent application, and Christ-like consecration. By cultivating the noble purposes and higher ideals a right understanding is eventually achieved by the perception of the visible or probable agreement or disagreement of adequate ideas received into the intellect.

We feel in our hearts a profound sadness and pity for suffering humanity. Yet we realize we are responsible for our own sufferings and that we should cast aside our self-imposed limitations and boldly set our feet on the path leading to sanity, cooperation and general enlightenment. The groping mentalities of the youth of today is sorely

in need of right guidance and proper adjustment. With more harmony in human effort a greater efficiency will be acquired.

There is need for a deeper knowledge of ecology, the study of the relations of the human organism to environment. Let us use our intelligence to command not only our environment but ourselves in the purposeful organization of our own welfare; that we be the master not the slave of our destiny, yet retain a humility of soul, where we can talk tolerantly together and even our silences are knowing; because the standards by which we are ultimately known, and those that bring happiness are born of culture, courtesy, understanding, appreciation and love.

Our primary obligation to ourselves and to the world lies in building a better future for this country out of the magnificent materials we have in hand. Thus can America stand a beacon to the world in years to come. By the quickening human sympathies which have made us sensitive to the hurts of others - we can feel this unjust oppression and speak accordingly. By all these things - we hold the present opportunity for conscience-searching and constructive action to be an especial charge upon us - to retain the conception of the nurture of life, and its fulfillment by its conservation, without blocking our way toward the ascent of life.
