TESTIMONIAL.

"In reply to your enquiry we have pleasure in stating that, having covered our Boiler, Steam Pipes, and Engine Cylinder with your TANNIC CEMENT, we are quite satisfied with the result. The work has been finished in a very neat manner, and the loss of heat is now very trifling.

"After the covering was all on, our Engineman was alarmed to see nothing but steam coming from the Escape Cock on the Cylinder end, instead of water and steam as before. He sent for the Engineer to take the end off the Cylinder to see what was retaining the water. This afforded the Engineer a good laugh, and us all conclusive evidence of the advantage of having all Boilers, and especially Steam Pipes, covered with your Composition.

"We can strongly recommend all Owners of Steam Engines to have their Boilers covered with your excellent Composition."

Composition."
