THE GOOD FRIDAY CONSCIOUSNESS THE PRELUDE TO PERSONAL RESURRECTION AND THE NEW LIFE

I, your Mentor, speak to those under the radiation of the continuous and concentrated activity of The Ascended Masters, wherever you may be. I say, you have been raised to a degree, out of the state of human sense-consciousness, into a state of transformation. You have been raised into a new sphere of consciousness within which the door against evil will soon be sealed. The consciousness has been raised through the determined endeavor of the ego itself, as it thrust itself upward toward the Ascended Master Consciousness and into the realm of spiritual understanding. Because of the activities of this Cosmic Moment, the initiation of Transformation has taken place within a majority of those who have offered their energies for the use of The Christ Self through The Ascended Master teachers, Their messengers, The Mentors and other illumined Ones under the direction of Hierarchal Beings with whom you are gradually becoming acquainted.

This Holy Season of Eastertide, you stand upon the periphery of New accomplishments. Your watchwords are FAITH, HOPE, and CONSTANCY IN LOVE and CHARITY.

Two thousand years ago, the Great Master Jesus, mindful of the experiences which would require Him to surrender his form, stood courageously at the mercy of mankind who, for the most part, reviled Him with hatred and every form of

evil which they could at that moment heap upon Him. Over the hundreds of years which have passed since that occurrence, Cosmic Time has sealed the memory of His Divine Image within the ethers of earth. You have now approached a moment in time when the door may be permanently closed against all evil and even death itself.

This does not mean that distressing conditions will never again touch upon your physical form. Man lives in the world, and he is physically still subject to the conditions within the world. The great Master Jesus, while He surrendered His form, was not subject in Spirit. There have been those whom we call saints and martyrs who, though they passed through the veil of human experience, also divorced themselves in Spirit from the evils perpetrated against them. But few there have been in comparison to the millions who inhabit this planet.

Out of the great mass of mankind, there have arisen a steady procession of souls who desire to sever that connection with the mortal self, or the human sense-consciousness. They desire to rise into the acceptance of the Christ consciousness which the great Master Jesus so magnificently demonstrated throughout His brief lifetime and even at the last hour of His trial. Out of the great throng of humanity which continually passes in and out of life upon this planet, there have arisen those who, walking in faith, under the direction of Exalted Beings, have arisen into a state of being wherein they too, even as the Great Master demonstrated, have closed the door against evil and death itself. This is to say that the spiritual consciousness has attained superiority over the mortal mind and mortal desires so that it is no longer ruled or dominated by them. That which takes place within the flesh form is subject to the flesh alone and cannot, does not touch the Holy Spirit.

In times past this was not always true. Mankind, passing through various trials, distressing circumstances and experiences in life, at the moment of passing bore the scars of those experiences within the etheric body. As each one returned again and again into physical embodiment, these unconscious memories, these unremembered scars influenced and often disturbed him and caused recurring circumstances, oftentimes of a similar nature in his worldly experiences. In *your* beings and worlds this can no longer take place. No matter what may occur to your physical form, or within your emotional world, or to your desire body, for those who follow the Master's pathway, there shall no longer remain or manifest such scars upon your etheric form, through the Grace of the Violet Fire. For you shall have arisen out of the consciousness of the mortal being and will stand in the state of transformation upon the periphery of a new world, a new age, and a new experience. You will be untouched by the scars of the past, having transmuted the memories of the past, with all the causes and effects set up by those disturbing and distressing circumstances and those which may yet occur

in your worldly affairs.

You, too, are standing as the great Master Jesus did 2000 years ago, at the mercy of the world, to which you still are attached by means of your physical form but, by the Grace of God, you shall be no longer chained to the mortal mind and the mortal feeling or desire bodies. No matter what occurs in the days to come, it is hoped that you will never again bear the scars of fear, of pain, of sorrow, or whatever other emotional or mental circumstances might ordinarily be attached to your life's experiences.

You cannot conceive of the Great Master Jesus dwelling upon the horrors of his crucifixion. The instant he withdrew from that physical form, He was completely free. He was free even during the experience. The Christian world commemorates and relives the imagined mortification and agony of body of the beloved Master Jesus, the Christos. For days and weeks, many find themselves reliving the supposed horror, dampening the earth with the tears of compassion. It is good that the heart of man may be so moved. This is a spiritual test for those who have not passed into the permanent state of transformation. It is a part of their soul growth. It denotes that such an individual feels a state of oneness with that one who suffers, and this is a part of his evolutionary progress. If the individual achieves a feeling of compassion or sorrow or grief, or even indignity for the suffering of the Beloved Master he has fixed his attention upon the Master--thus strengthening the lines of communication between them. This you have done again and again and again, strengthening the bonds between your souls and the risen spirit of the great Master Jesus-Sananda.

However, today you are not expected to kneel in the grief of remembering the experience of the Master which took place 2000 years ago. You are being drawn into a new spiritual consciousness. The Master Jesus is not grieving in the memory of his cross. He did not enter into grief nor experience fear at the moment the cross was placed upon His shoulders. True, the physical form labored under the weight of the experience and the necessity of the hour, *but the Spirit of the Master was not bowed down.* Think back on the story of the Master. While the physical was being taxed to the limit of its endurance in carrying the cross up the steep slopes of Golgotha, even when the body sagged and the cross fell, and the body was weary because of the torture at the hand of the enemy, he did not groan, he did not rend his hair, he did not direct oaths upon his cruel captors. He stood blessing those who mourned for Him. "Weep not for me," said the Master. His spirit was raised out of that physical state of being. It was not burdened. It was not terrified. It was not filled with hatred. It was not filled with revenge. The consciousness of the Great Master Jesus was entirely separated from the physical experience. Three days later, even the body was set free from its humiliations and distress.

On Good Friday, you are not expected to grieve, nor to mourn, nor to wear sackcloth and ashes, but rather to don new garments of Light, for you, too, are being raised into that state of consciousness wherein the activities of the outer world, no matter what they may be, shall no longer impress themselves upon you or affect the consciousness which is newly arisen into the Christ realm. For those whose understanding may yet be limited, let it be said that there are degrees of consciousness. Although you may have been drawn into a new experience, into a new life, or into a new Spiritual realm, this does not necessarily indicate that you have arrived at *the total awareness of the Christ*.

When you enter a building, you first step upon the threshold. There are many rooms into which you have not yet entered. As you enter into the Cathedral of Transformation you cross the threshold; and you stand within a vibratory frequency which is greater than that outside the Cathedral, but it is less than that which emanates from the altar itself. You may remain at the threshold of the cathedral. You may feel unqualified, or unprepared to approach the altar, to join with the illumined ones who gather there. You may feel more comfortable or you may accept your place as being in the lesser vibratory frequency. There are those who have qualified in the past to enter into the greater vibratory activity of the sphere of transformation. They will not draw back; they will not hesitate; they will not remain just inside the threshold. They will move forward to that place where the vibratory frequency, pouring forth from the Altar is commensurate with their own Light and thus they can abide within It. Only The High Priest and The Illumined Ones are comfortable within the full Power of The Flame as it emanates from The Altar of The Holy Place within.

You will understand that although you have entered into a new state of Consciousness, many of those who step forward with you will have only stepped over the threshold and they will continue for a time to remain there in the lesser vibrations, while many of you will be prepared to move forward slowly toward the goal. It depends upon you as an individual as to how rapidly you move forward toward the Spiritual goal. It will depend on you alone as to how rapidly you will progress through this realm of transformation. As you enter into TOTAL ACTION and as you become TOTALLY TRANSFORMED, YOU WILL AGAIN MOVE FORWARD INTO THE TRANSMUTATION TEMPLE toward the preparation for your Ascension.

There are many of you who at this time are preparing to enter into the TOTAL and permanent state of Transformation. This is the goal toward which you must all direct your endeavors at this time. You are experiencing a Cosmic Moment in which the door is closing against all human creation for those whose feet are set upon the Radiant Pathway of Light, and who are under the guidance and protection of The Ascended Hosts of Light.

Out of the old concepts of GOOD FRIDAY let there now emerge new concepts in the transformation of your thinking. You will now enter into a new and more glorious understanding of This Holy Day.

You may say, "Why should I be concerned with GOOD FRIDAY if the activities around which the day is remembered are to be forgotten?" My dear people, everything which occurred in the lifetime of The Great Master Jesus, was and continues to be, of Cosmic Importance. Every act of His Life was pre-arranged and took place in an orderly fashion for a specific purpose which was not always revealed to mortal mind at the moment of the occurrence, nor even for centuries after. There is a Divine Purpose in keeping Sacred This Holy Day. THE EASTER SEASON, INCLUDING GOOD FRIDAY, and all the preceding events as well as those which followed. They will continue to serve a spiritual purpose until the last soul who desires to follow in The Master's Footsteps toward Spiritual Illumination and freedom, will have found his way to that victorious accomplishment. There are moments designated in these recurring cycles of time, when the powerful radiation from Sananda's Temple, from His Individual Being, from the spheres in which He lives, moves and has His spiritual being, can be poured with great intensity and purpose into the minds of men who still seek "the way." Those who are bound by fears and doubts which do not allow them to move out of the mortal consciousness onto the highway of the Spirit, need assistance, love, courage, and faith. It is at these festival occasions that the great outpouring from the spiritual realms of Light fortify the weakened spirit of man. I say weakened, for when the spirit has been raised, especially during the experiences of the Easter cycle of the year, it is tested again and again and again in various ways, depending upon the spiritual achievements of the individual. Ofttimes, as that yearly cycle returns again, We find the spirit of the disciple weakened, sometimes distraught, sometimes beset by doubt or fear or hopelessness. Of the great masses who seek to follow upon the pathway, many turn away or linger by the wayside. Only a few pass through into the total awareness or of understanding of truth.

These festivals have a spiritual purpose and will continue to have a spiritual purpose for you and all mankind. If you are but newly entered into the realm of spiritual understanding, you will not understand all that will take place within your consciousness while you journey along the path of consciousness, seeking to find your place before the altar acceptable to the High Priest of the Transfiguration Flame. You require the continued outpouring, and the intensification of the outpouring of the Light from the risen Christos, even as those who have not yet entered this holy temple. Every man is moving forward slowly though mostly unaware of his evolving consciousness. He is drawn by the magnet of the living Christos within himself. This does not apply solely to those who

profess to be Christians. The Cosmic activities of Light affect *all men*.

In days long past, yet only a moment ago in cosmic time, there were upon the planet, groups of spiritualized individuals who worshipped the powers of the Sun. Of all the individuals who were in physical expression upon the earth at that time, these Sun worshippers were a minority group. But the sun, and the radiation of the sun, and the life-giving power of the sun, was not retained for only those who worshipped the sun. It poured its radiation upon the planet and all who evolved upon the planet to the same degree. But the fact that the Light was poured to the same degree upon every individual does not necessarily mean that every individual accepted that outpouring to the same degree.

An ascended Master, standing in your midst, may pour His radiation upon a group of individuals and no two will receive or accept the same intensity or degree of illumination from the Master. It depends upon the consciousness or the awareness or the understanding of the individual. So while there was a group of individuals who expressed their love for the sun and who acknowledged the life-giving essence poured from the sun, the Sun did not exclude those who had other gods nor did it exclude any man who cared to walk in the radiance of the life-giving energy flowing from itself. So it is with you. Though you acknowledge the outpouring of Light from beloved Sananda's Temple, and though it affects you in a very intense way, those around you, and the masses of mankind, are not excluded from the radiance flowing to them even though they may be unaware of it.

It has been explained to you how the radiance pouring to the earth and those evolving here, has become greatly intensified over the past thousands of years. The sun radiance itself has increased in intensity. The Illuminati have greater intensity. The outpouring from Their Temples has attained a greater intensity. If you place a heater in a room, and you never return there to turn off the heat; the intensity of the heat will continue to increase. The heat will build up. So it is with the intensity of the Light within your beings and worlds, and within the beings and worlds of all mankind. The intensity of Light which streamed out to the earth 2,000 years ago, heralding the coming of our beloved Jesus, was only of sufficient intensity to draw the attention of the Illumined ones of that era. Some few shepherds beheld the Light. They were illumined to a degree. All shepherds did not see the Light. Some wise men saw the star and journeyed where the magnetic pull of this Light drew them. Many people of an illumined consciousness beheld mysteries and wonders and many saw Angelic Beings, and listened to Celestial music. Many even perceived the great radiance emitted from the physical being of the Illumined Ones. But the intensity of the Light was not as great as the intensity of the Light of this present outpouring.

There are in your midst today but few who could see the intensity of the

Light which is being focused into your world, because the intensity has become so much greater, that it is far beyond visible or physical comprehension of most men.

Men have increased their ability to perceive, yet not to the degree that they perceive the intensity of The Light of The Illuminati or the planet itself, even as the average man failed in awareness two thousand years ago. Man has not progressed to the degree that was expected. Otherwise, at this Cosmic Moment in Time, all men would be completely prepared to enter into the new age in Their Christ Bodies and in Christ Consciousness. Man has not progressed to a degree commensurate with the intensification of Light from The Illumined Ones. Even now, only a few, such as yourselves, are responding consciously, to Their Presence and Their Illumination. The Masses will follow in time and it is for the purpose of speeding that moment that We are here today, urging you to arise and prepare your fellow man in what ever way possible to awaken and follow in The Light.

Upon GOOD FRIDAY you will have arrived at a Cosmic hour in time when an intensification of the Spiritual Radiance of The Cosmic Light will stream forth into, through and around the earth and all thereon. Centuries ago, as The Great Master Jesus surrendered His Body to His captors, His Spirit arose and departed from them. So day, at this time, your spirit may arise also and you will find new freedom from the ancient concepts and worn out dogmas of the past. Let those old concepts now be placed within the Chalice upon the altar of your Holy Of Holies and there be transformed into new understanding of New and greater Truths. There will remain only the white ash of your misconceptions to be scattered to the winds and dissipated by time, returning into the elements from which they were born, to be reborn as new and shining concepts of Christ Mind. There will remain also the golden nuggets of Truth which you will add to your treasure house of Spiritual Wisdom.

As the outpouring from the Temple of Sananda flows into your beings and worlds, I leave you to your contemplations. Enter into the quiet of that Holy Place within. See before you, a Radiant Golden Cross, without the crucified form. Instead you will see a garland of pink roses festooning the shining emblem of man. Mediate upon this symbol. Arise into The Christ Consciousness which cannot be impaled upon a cross, but rather becomes the Golden Symbol of immortality as God's Magnificent creation. Within this consciousness GOOD FRIDAY will become for you, a new and glorious opportunity to move forward in Light, toward Transfiguration and the Spiritual prelude for The Resurrection and The New Life to be.

I AM YOUR MENTOR.

A MENTOR FROM THE AMETHYSTINE TEMPLE OF LIGHT SPEAKS OF TRANSFORMATION AND TRANSMUTATION

Arise into your higher Spiritual Awareness now, and feel that you are entering swiftly into the consciousness of the Amethystine Temple which is a Violet Ray Temple. As you think of yourself, as you take command of the energies within your desire body and your mental body, you direct your attention and those energies into the conscious outpouring of an activity of Light from the Amethystine Temple. You are not asked to enter into that Temple as you have done in the past or expect to do some day, but merely that you contact the outpouring or the projection of a stream of Light which is being directed from the Amethystine Temple. You will recall that this Temple is situated within the Fifth sphere of consciousness as close as is possible to the human as it reaches into those spheres wherein the individual leaves the mortal sense consciousness and enters into the outer periphery--the Fifth Sphere wherein is found the pathway toward the Christos. The spheres blend one into the other. As you approach and enter into the fifth sphere you are already approaching the sphere of the Christos. Each sphere is divided into many parts. You are to enter into the periphery between the fourth and fifth sphere where these various Temples which have been drawn to your attention have been temporarily erected for the purpose of projecting energies to the earth and those individuals who are dedicated to the attainment of Christ Consciousness.

There are many thousands such individuals upon the planet at this time. These Temples are temporarily brought into action within these spheres, or some particular state of consciousness, for two purposes. First, the upturned consciousness of the Chela may aspire to this Temple. It is not beyond hope that the individual can enter into such a Temple. Secondly, the Hierarchy for your planet have projected foci of Light into those spheres as close to the earth consciousness of man as possible without becoming entangled with the astral realm or within the lower mental realm of mankind, for the purpose of providing a place where the various rays and activities of the Master intelligence can be stepped down and further projected into the consciousness of individuals. Up to a few years ago, there were great masses of mankind who had not the slightest conception of Christ Consciousness or of any point toward which their aspiration might rise beyond the rather hazy concepts of their religious teachings. There are still millions of people upon the planet who recognize no pattern upon which to base any concepts for their further evolution. They are good souls, they are beautiful souls, yet they need shepherding.

The purpose of projecting these foci of light into this sphere, so close to man's consciousness, is so that these minds might be reached which otherwise

would make no endeavor to understand their reason for being or their purpose in being, and would therefore miss a great opportunity at this time. It is not presumed that masses of mankind will recognize, in the outer mind, the outpouring of spiritual energy, or spiritual idealism, or the spiritual concepts which flood into the consciousness of millions of individuals.

The Master does not hope for gratitude or for acceptance from these individuals. It is only hoped that from the seeds that are sown into the consciousness of those who can be touched through the outpouring from these Temples, there will arise vast number of individuals who will be able to accept new concepts and truths which they might ordinarily have rejected as fantastic or as unbelievable. The Master utilizes any focus through which to project thought, healing rays, protective energy and other activities of God Power. There must at all times be a focus through which any activity will take place. You have physical bodies. These are mechanisms through which you achieve certain aspects of life. You have a lower human conscious mind which serves you in registering within the outer conscious mind, the concepts and precepts which have been flooded to you through your own Christ self. Previous to the preparation which you have received, your outer mind was like the minds of the masses who were seeking, yet had not become sufficiently aware of the Christ consciousness or your ability to identify yourself with it, so that communication and the acceptance of Its Light could be poured into and accepted by the lower mind. Yet such has now taken place for you. It is so also with the Desire body. Your desire body has gone through a great transformation in the activities of the past years. You have begun to understand the activities of transmutation. You have practiced the use of the Violet Fire of transmutation.

The Transmutation Activity, for you, has now become a Transformation Activity. You have, in your mind and in your desire or feeling world, entered into a Transformation flame from which you will enter into the Activity of Transfiguration. Herein are the three Activities of the Fire element: Transmutation, Transformation and Transfiguration. As you pass into Transfiguration you pass into the higher realms of the fifth sphere of consciousness and stand before the Heart Center of your Christ self under whose jurisdiction you have come. There you are aware of none of the human concepts such as dislike, hatred and fear, doubt and injustice and other human qualities. You are aware that these qualities cannot enter into, and do not exist within the full Transformation Activity which leads into transfiguration. I say that the majority of you are entering into a Spiritual transformation. You still, at times, entertain your doubts and your fears, yet for the most part the energy of your desire and feeling worlds and your mental body are at the point of separation from the lower senses, oftentimes dwelling for long periods of time in the higher state of transformation.

It is for you at this particular season of the year, to enter into a directed and concentrated action of the transmuting, transforming and transfiguring activity of the Sacred Fire and at this time particularly, the Violet Flame, in order that you may become *entirely and permanently TRANSFORMED*. No one can leap from the state of the transmutation of his energies into the transfiguration. The transformation must also take place. It is for each of you, to reach now for the goal of transfiguration . . . that state of being within which all of the substance and energy of your entire lifestream has become completely transformed. When you transmute the energy which has been qualified by you, you remove the qualifications from the energy. That energy has created the thoughtform within which it manifests. When you transmute the energy it follows as light follows the darkness of night, that you also begin the transformation of the thought form which was created by the concepts from which you transmute the energy. The transformation of the form is the second step. You transform the form out of something which is perhaps undesirable, ugly, or of the lower-sense consciousness and you transform that form into something beautiful and acceptable upon the altar of the Christos. With the transformation of the form and the transmutation of the energy, you are ready for transfiguration which follows as a normal activity. *The Christ Presence or Perfection revealed is in the TRANSFIGURATION.*

The Christ form expresses the qualities which you will take on when you have transmuted all of the lower sense-consciousness and the energy which is qualified by the human mind and have therefore transformed the thoughtforms within your lifestream so that you enter into the Christ Consciousness in a state of transfiguration. TRANSFIGURATION means to move from one form or figure into another. A figure is a form. TRANSFIGURE means to move from one form into another. So you move from the human sense-consciousness to the Christ Consciousness. The Master Jesus demonstrated this activity to his Disciples at one point in His life with which you are familiar as it is recorded in some detail in your gospels. You will pass through a similar experience, each one of you. You will not of necessity walk with a group of your friends, your relatives or your fellow students, up a mountain except in a symbolical way. You will ascend in consciousness either with your group or separate from your group as the case may be . . . perhaps with the group consciousness but not always demonstrating with the group.

The Disciples were a group of individuals who followed the Master Jesus. They hung upon His every word, His every feeling, His every desire and desired most earnestly to emulate Him in all their own activities. They were a group of men gathered around Their Master. You form a group, following with the director of your activities in the footsteps of your many Master-teachers but primarily, at this time, you follow the golden Pathway of the Christos--the SUN

Path of the Great Master Jesus Sananda, even as the Disciples followed Him in His physical form many hundreds of years ago. You are arising in consciousness to that state wherein you are becoming more aware of His presence and of the truths which He still projects to you individually and to you as a group. But do not discount the value of your group. You do not have one record in your scriptural literature which indicates that the Master ever took one or more of His disciples aside and gave them special instruction *until that individual merited it.* At the moment of His transfiguration He chose those who went into the garden with Him. The others followed and were as near by as the vibratory activity of their consciousness would permit. At the time, the Master's vibratory frequencies were so greatly increased that even those whom He chose could not bear the outpouring of His Light. They bore more of it than the rest of the group. Still, the group was nearby.

Group Activity

I say to you, as in Heaven, so NOW on earth. The group is of a greater importance to you and to the Master than you have any conception. If this were not so the Master Jesus would have instructed His Disciples each one individually. There were times when the great Master did give some individual attention to a Disciple privately, away from the group, but it was little in comparison to the group instruction. The Master desired a group of individuals bound together by a common desire and a determination to follow in His Light. One individual did not emit enough Light to follow the way of the Master. It required the combined Light of the Group to establish Christendom. Peter was not sufficient unto the cause. James was not sufficient unto the cause and so with the others. Yet the combined strength of these Disciples did set into action a Christian dispensation. You as a unit, you as a group, with the combined Light of your individual beings, can proceed into a state of being which as individuals you might not be able to attain. It is extremely difficult to explain a spiritual matter concerning vibratory frequency with which the individual has never had any experience and expect a total understanding.

I am speaking to you of states of being, of vibratory frequencies which you have not experienced and cannot fully comprehend, yet as a group, you will attain and sustain a Power of Light which individually you could not have attained. Words fail to convey a concept which you find beyond your comprehension, yet I bring to you tonight a concept into which I desire to draw the combined light of your group, and through that combined light I hope, by the magnetic Power of my Light, to anchor each one of you, not as an individual, but as a part of a group.

When a great cable is woven of hemp or of steel strands as the case may be,

no one strand of the fiber, be it of hemp or of steel has a greater strength than another. When three or more are twisted together there is strength which is amplified much more than three times. Then other strands are woven, and finally all the strands are woven together. They are all gathered together and twisted into a great cable which has extraordinary strength. By such cables your great bridges are suspended across your rivers. No one tiny thread of steel could support the weight or the vibration of moving traffic, yet the thousands of steel fibers twisted together make a strength of which you can scarcely imagine.

This strength is what the Master Teachers are presently endeavoring to accomplish through these various Temples which have been placed as foci within the spheres between the *lower atmosphere of the Heavenly Kingdom* and the *upper atmosphere of your human kingdom*. They are there in the periphery where the blending of the two takes place, there on the further side of the Great Abyss where man in his transfigured consciousness spans the abyss between the human and the divine. There the Masters have projected these various foci of Light which represent various vibratory activities, or rays as you are accustomed to calling them. Through these foci of Light, certain of the Illumined Beings who have volunteered and who are prepared for such a service, are magnetizing through the powers of these various forcefields, groups of individuals. It is as though each individual were emitting a strength like one of the tiny fibers out of which a cable is woven. Where three or more are gathered together in the Masters name there a strand is woven from the Etheric substance of their life-streams and it becomes a cable of light. As others in the group submit their energies, they too are drawn forth and the strands are twisted into cables. All these strands are twisted into an enormous cable of Light through the function of these various foci. One time it will be through a foci of Light called the Amethystine Temple. At some other time it will be a Sapphire Temple and at some other time it may be the Pink Beryl Temple. Each time The Masters reach down into your worlds and pluck the energies which correspond with those foci of Light, drawing them out and twisting into strong cables, *your light, your energy and your accomplishment*. These great strands of Light are fastened into these various foci temporarily. As these foci change so do the activities change. It is like putting steel through various furnaces and degrees of heat to temper, to strengthen, to shape it and to mold it for the purpose for which it is to be used. This takes place within your lifestream and within these cables of light which we choose to draw from your individual beings. You are drawn through certain foci of Light to be tempered, to be strengthened, to be shaped into a form which the illumined ones desire to utilize in some activity. I trust it is clear to you, the purpose of the group, the necessity of the group and the usefulness of a group.

The service which you render as a group is one thing *but the strength of*

your group is another thing. I would like you to have a picture in your mind of the great outpouring of light from your individual selves at this moment, scattered as you are, as though a Master weaver were drawing a strand of light out of the lifestream of each one of you and holding it within His hand. You have seen in pictures at least, the driver of a great team of horses, holding the reins of each of the horses in his hand. In one hand he holds the reins which go to each of these horses and thus controls each horse by the motion of one hand in which he holds the rein. Now if you will, think of the Illumined One drawing the Light from your lifestream which is representative of the strength and the qualities of your being. Feel the strength of your Light being drawn out. See a Great Illumined Being dipping into your lifestream and magnetizing a portion of your light which represents the strength of your individual lifestream.

You know that within one drop of your blood there is a complete record of your entire embodiment. In the same way, from this stream of light which the illumined one draws from you there is a complete and infallible sample of your strength of character and the extent of your evolution both spiritual and physical. You will see that the light from each individual represents the strength, the illumination, the courage, the faith, the power, the hopes, the intent and accomplishment of each individual. Visualize these threads of light arising from each one of you now and being gathered together in the Hand of the Illumined One. There they are twisted within His Hands until He has made of that energy a rope or a cable of Light. That cable with its toughness and its strength is a thousandfold more powerful than ANY ONE OF THE TINY THREADS from any one individual, yet is a composite of all of your strength. As this cable is woven in the Hands of the Illumined Being, it is held within the foci of Light where the Illumined Being is acting, which at this moment is the Amethystine Temple. Thus the beings and worlds of each one of you are being strengthened, are being held within the foci of the Amethystine Temple and receiving as a group, an outpouring, an activity of Light which no one of you could expect to receive separately. This is a visual concept which I am presenting to you. It is difficult to describe in words an activity which you have never before conceived of, though I perceive that you do understand something of the meaning which I desire to convey.

Again I draw to your attention the idea that, *in your strength lies the strength and power of your service*. What think you the Great Master meant when He said "When two or three are gathered together, there I am." Why did He not say, "Wherever you are I am?" He desired to gather the combined energy of the illumined ones into that strength which was greater than the strength of the individual alone. He did not elucidate upon this matter, or at least it is not recorded that He did so, in the scriptures that are at your present day disposal. "Where two or three are gathered together in My name, there I am." He might

have said, "There I can accomplish more."

We draw you together in groups over which an Illumined One from one of the Temples chosen by the great teacher presides. At this time, I stand as a messenger from the Amethystine Temple to bring to you this concept, this picture, this understanding. It should therefore follow in your minds that you are of great importance, one to the other, although as readers you are scattered, and that where your presence withdraws from the group, therein a weakness ensues. Suppose there are to be twenty strands of Light to be drawn into a cable of Light, but from the expected twenty there are several who will not join the group. The cable is lessened in its strength to the degree of the strength of the lifestreams that are not present with the group at the time that the Master draws the light. Therefore, each individual who does not join with the group has lost an opportunity for himself and has deprived the group of the additional strength which his lifestream might have provided.

Sometimes as individuals are drawn to earth teachers, they come seeking whatever they can get. Within each aura there exists an enormous void into which these individuals eagerly and greedily suck all that they can from the teacher and from their fellow students as well. They oftentimes pack this void full with knowledge, with healing and with whatever manifestations of light they choose and then they seek their homes and their moments of solitude to gloat over that which they have gained. Oftentimes they are dissatisfied with the reception they receive in a particular group and they rush from one teacher to another greedily packing away in the receptacle of the mind all that they can possibly absorb from every group that they attend, yet never once does there flicker from their lifestream a light which can be drawn to create the great cable of Light for service. Those who come in greed to gather and get, are not contributors of Light or anything else. You have all experienced belonging to groups of individuals gathered around a teacher where many came to greedily stuff themselves with all that they could garner, yet from the Light of the heart they allowed no beam to escape. These individuals are not seeking the *Light*. They are seeking *knowledge* but they are not seeking Light. Their greed will pass. They will, in time, satiate their desires and step forth on a pathway of service but oftentimes it takes many embodiments to fill the eager grasping desire of a man before he will wish to share.

I stand in your midst in joy, for in the hearts of most of you, there arises the great fountain of your Light from which I may draw the threads of your strength, your illumination and your faithful determination, to weave a vast cable of Power to pass from one Temple to another in accord with the directions of the Master teacher so that it may be tempered, so that it may be tested and that it may be shaped to the need of each soul. Each of you receive a blessing

which, even if I were to try, I could not describe to you, yet this is not the purpose of my coming. It is not your primary desire to get without giving. There is not amongst you one who has come greedily to receive. There are amongst you only those who desire to know and to give. In giving or serving you are strengthened, you are tempered, you are illumined, you are healed, you are blessed beyond your dreams dear ones, though your blessings may not be apparent to you now. I say that as surely as the sun follows the dark of the night you shall comprehend the strengthening of your ties for you are being tested, you are being tempered, you are being tried, you are being formed--TRANSFORMED, so that sooner than you know, you each one, shall step, gloriously, joyously into that state of TRANSFIGURATION.

Someone questions, "Is this a promise or a prophecy?" I have not come to prophesy nor have I come to make idle promises but as I must again repeat, it shall follow as the Sun at dawn follows the night that IT MUST BE IT SHALL BE IT IS SO. And so Be it! Call it a prophecy or a promise if you will, yet I have come to offer you neither--only to bring to you a concept, only to strengthen your hearts with courage, with love and to commend you, to bless you and to in some way give of my love to each of you that you may better comprehend the works of your fellow travelers.

You are bound together dear ones, as few upon this earth are bound. Your ties are not ties of blood but ties of Light without the peculiarities and the idiosyncrasies of the human, but rather the Light, the beauty, the perfection of the Christos. Better is it to be bound by the ties of Light than by the ties of blood. The ties of Light will never be broken through all eternity. You shall remember one another though your eyes are blinded now, though your memories of one another are as clouds within which you cannot perceive the past. I say, you are bound to one another in Light and in the moment of your TRANSFIGURATION YOU SHALL SEE FACE TO FACE CLEARLY. This is a PROMISE! It is with joy that I stand within your midst, viewing the beautiful cable of Light which is the energy and strength of your individualized outpouring into that greater group of readers and subscribers. Though it is held now within the focus called the Amethystine Temple, that cable of your Light shall shimmer with all the beauty of your individualized Light in all the glorious moving, vibrating, living, breathing manifestations of all the rays of creation which you have welded into your lifestream. It manifests as a shimmering beauty which I wish that your eyes might behold. It is like a great rainbow diffused by a wind and then twisted into a beautiful rope of Light. This is how I perceive your gift of Light.

My Beloved friends, you are rising on the spiral of your own Light . . . you are beautiful. I do not behold the physical form, nor do I listen to the human thoughts that beat upon your consciousness. They are as nothing and will be

dissipated into the clay of the earth and the winds that pass in time. What I see is the beauty of YOU, each one of YOU as you stand upon the pathway listening in wonderment to my words. You are standing near that great ravine across which you may soon be drawn into a Temple of TRANSFIGURATION. It is the season of the year when the thoughts of all mankind begin to turn to transfiguration, to resurrection, to the ascension. As disciples your attention is directed to the Light which streams from The Great Temple of Sananda, the Christos. You are being inexorably drawn as a group and as individuals also by this beautiful cable of your Light which will be held in the heart of your Great Master, your Beloved Teacher or a group of Teachers. Thus, as a group you shall move forward together though you remain as scattered individuals within that group.

I must pause to explain or to answer a question which I hear. The question comes from within the consciousness of a beloved one. "How can one then hope to progress if one is bound in this group with a cable of Light; how can one rise, being so bound to the group?" I would say to you dear one that you are only bound insofar as the Light within you emits a greater Light and greater strength. That greater Light and greater strength is added to the whole and you are not bound in the amount of Light or strength or love which you offer to your group. Like a great team of horses, the one in the harness which will not pull, is the one who will be whipped, yet he is forced forward. If he becomes rebellious he is discarded and replaced in the team and those who pull the hardest add the greatest strength to the team, and according to the strength of the team does the team move forward toward its destination more swiftly. No one is ever denied the opportunity of expansion to whatever degree he chooses. No one is thwarted or bound. Each one is free. As your strength becomes greater, your light becomes brighter and the more rapidly you ascend toward the Christ Consciousness which is your goal, and the more strength and Light you give to your group to draw them also towards that goal. As the hand does more, so does the arm. The fingers do not separate from the hand. Where there is a hand, there is the arm, and the whole body. So if the strength of your lifestream is greater, if it ascends more rapidly, if it expands with greater Light, it draws the group that much closer to the goal also, that much more rapidly, that much nearer the goal.

I leave you to ponder upon these thoughts. I shall remain amongst you for a time in order that I may temper and attune the energies of your individual beings and endeavor to project into your individual consciousnesses a true concept of this which I have endeavored to convey to you-- in brief, a feeling of your unity and the necessity of each one for the accomplishment of your group, for a group is important and in many cases, essential. If it were not so the Master

Jesus would not have drawn about him a group, nor would any of the other teachers whom we have known upon the earth. They have all drawn around themselves groups who, in turn, when the Master has withdrawn, have drawn others around them, and thus are fed and sustained, and expanded the dispensations of the Light and thus we are hoping for you that you, each one, become a star in the great firmament of Light and draw about yourself those attracted to your Light. From each of you there shall spring up a firmament. Upon each of you I shall project My personal blessing, to each one according to your personal needs. I thank you for your attention and your eager desire to comprehend my thoughts. I have tried to paint a picture within your minds so that you might more easily understand and remember my words to you today. I leave you now to meditate upon the seed thoughts which I have sown freely amongst you.

Your Mentor from The AMETHYSTINE TEMPLE

*MIGHTY SOLON SPEAKS FROM THE
ALABASTER TEMPLE OF PEACE*

As you enter into the service of this hour together, it is desired by your spiritual Mentor that you enjoy a sense of gratitude, for the privilege of coming together in a stimulating, inspiring activity of spiritual service and spiritual illumination. You are rendering a double activity. It is desired that you give your attention and raise your understanding to this new concept which your Mentor desires to explain.

The activity into which you presently will step requires that you enter as quickly as possible into your Christ Consciousness, which means that you enter into the spiritual consciousness of your own Divine being. You have been well prepared for stepping into this holy of holies. I might say, as I come through the consciousness of your preceptress, that I would like first of all to make a suggestion, and that is that each one of you take time during every twenty-four hour period to step into that spiritual consciousness. You have no concept of the necessity which will presently befall you wherein you will be required or at least you will desire to step quickly, severing all connection with outer-world consciousness, into a state of spiritual being. Let us call it a State of Grace.

A State of Grace is a condition of the consciousness which, having been raised to the apex of the sensibility of the individual being, it is further drawn into a higher spiritual stature through the magnetic powers of one of the Ascended Masters who has the power to attract and assist you. You have been

told that a State of Grace is a state of consciousness over and above or beyond that which would be normal to you. The state of consciousness of which I speak at present is not the outer-world normal consciousness, but the state of spiritual consciousness to which you, individually, have prepared and into which you can withdraw either because of your own personal desire, or, as in this instance, because of a group activity. You are well acquainted with that Holy of Holies within you, that secret place within. Your ability to step into it varies with the condition of your physical body, your physical feeling world or your human feeling world, and your human mental body. It is important that these inner bodies be held as nearly as possible in a consistent state of even quiescence or balance. With humans, it seems that at one moment, or during one hour, the mind will be at peace, and the feeling world will be at peace. Then something stirs the vibratory action of the feeling world, or the mental world, and it goes into a state of upheaval during which time it would be almost, if not entirely impossible, to step into a state of Grace.

I come tonight from a Temple of great peace, a wondrous, lustrous, beautiful, Alabaster Temple of Light, to bring to you the knowledge or the thought that it is important--nay, it is imperative that *each one of you maintain and sustain control of the mental and emotional bodies of the lower being*. If you are an individual easily thrown out of balance by some circumstance, or by some written or spoken word, or some action taking place in the being and world of those who surround you, or something taking place in your own world--if you are easily thrown out of balance, then you have a problem. I come tonight to bring to you an awareness of the necessity for holding and controlling the balance of energies of the lower mind and the lower feeling world because in a state of great agitation, be it an agitation of fear, an agitation of hatred, an agitation of envy or jealousy, or an agitation of resentment, whether it be an agitation of illness, or the illness of some other individual_ whatever it may be, if these vibrations from outside your own sense consciousness can throw you off balance, then you cannot enter into a state of Grace.

Let us presume that in the world in which you presently abide, there might arise an emergency. If you are to be thrown into a state of fear, then how can you expect to utilize the powers of your Christ Consciousness and your Christ desire and feeling body when the turmoil of the lower senses has completely unbalanced and closed the door against your state of Grace? When you are in an airplane traveling at a high altitude, the pressure of the altitude against the windows and doors of the cabin in which you are riding, is very great, and you would not be able to open the door of the airplane against the pressure pushing against it. Now a similar thing takes place in your mental and emotional world. When you become disturbed, there is a pressure which builds up, an un-

governed, intense pressure, against which you have not the power to push through into your spiritual body until you have gained control of the sense-consciousness, or the feeling, and the thought. The emergency will remain in your world, yet you must conquer the undisciplined, uncontrolled vibration which might very easily seize upon you and most certainly will seize upon other individuals in the same condition. You sense danger or distress, or whatever the case may be, but you will of necessity be required to be in control of your situation. You must prepare yourselves so that you will be able to control your emotional bodies and your mental bodies so that you can enter into the spiritual consciousness wherein you will each be spiritually directed or spiritually assisted, and by means of your control you may well be the instrument by which others around you may be comforted, controlled, guarded or directed in whatever way is deemed necessary and good.

All of you have experienced meeting individuals in the flesh form who, at the slightest provocation, become extremely nervous or jittery, and absolutely out of control of their minds, their good senses. Their thoughts and feelings dart from their inner bodies in flashes of uncontrolled light or lightning, yet bearing no good to them as an individual because of the *uncontrolled* activity. You, in your spiritual control, may well be directed to emit the forces of Light like lightning from your Christ body, under the conscious control of your will.

I come tonight to bring you this suggestion. Beginning with this hour, you must prepare yourselves to govern and control the sense consciousness with which you are so familiar as a mortal being. You have been trained, you have decreed, you have thought, felt and desired intensely to purify your beings and worlds. And yet, dear earthlings, when certain activities occur within or around your worlds, you are too often still, as human beings, thrown into a state of discord which is a state of uncontrolled energy, uncontrolled thought and uncontrolled feeling.

You are now requested, in the new state of being, into which you have entered, (you are not only requested but it is required of you) that you begin to maintain and *sustain consistently*, a balanced control of these forces in your natures. For some it will be easier than others. For some, the training has already taken place during many embodiments. For some it may be a new trial. Begin, therefore, this very hour, and make a vow with yourself--your own Christ Consciousness--that *you will not allow* any situation, any condition, any person or any thing in the outer world to disrupt the balance of your desire body (your emotional body) or your mental body. It may not be possible for you to always keep this vow. You may be disturbed tonight before the midnight hour. You may find that you have failed to hold the control that you have vowed to hold. However, it is required that you take this vow, not before

me, not before your Master, not before one another, but before your own Christ Self. Say to your Christ Self, "I, this hour, vow that to the *very best of my ability*, I will maintain and sustain Christ control of the lower mind and feeling world." If you, in some trying circumstance, fail to hold the control, then you have but to call on the Law of Forgiveness and with a contrite feeling, make your vow once more. However, do not feel that you can wilfully break your vow and then just make another. This must be an activity of *absolute sincerity*. Sincerity in this vow is all important, for lacking sincerity, there is no vow. A vow is made from the depth of the heart of an individual. If it is merely spoken words to please the teacher, or to find the easiest way with the least difficulty out of a situation, or to maintain and sustain your place amongst your fellow disciples, then think not of taking a vow. When a vow is taken, even though you only take it before your own Christ Self, you bear a responsibility, and failing in the responsibility, the soul record sustains that failure until you have made good. Therefore, do not feel that to take a vow is a thing to be done lightly. Vow now, if you so feel prepared, to so live, to so conduct your daily life, to be in such utter, absolute control of your mind and your desire body of the lower consciousness, that if your Master enters your apartment, or your home, unexpectedly, you would be prepared to stand in your innocence and in your purity before him. There are moments when the human, having lost the control of his thinking and his feeling, would not wish to have his Master look upon him, nor would the Master care to look upon him. From this hour, it is imperative that you begin a preparation of the mental and the emotional energies of your lower beings so that at any moment you may stand in dignity, without shame or fear, before your Master or His Messenger. To assume this control over your thinking and your feeling, will require considerable concentration. You may, upon awakening in the morning, with your first thought, address yourself to your own Christ Consciousness, and vow to remain harmonious during the day, so that you may receive messages from the Christ Self, so that you may receive the love, the comfort, the healing, or whatever you may desire or require, from the Christ world. You may begin the first hour of your day with high hopes and assurance and yet there will, perhaps, occur, some situation in your world to throw you completely out of balance, and you will have forgotten the Christ. You must stop and renew your vow then and there.

As you have entered into this new realm of consciousness, you are now in a position to be aware of the Christ-Mind and the human mind at the same time. Perchance you have not sensed this yet. This requirement, of which I come to inform you this night, can only be carried out by those who recognize their position of being in the divine Mind, or on the periphery of it, as well as still functioning in the lower mortal mind and the feeling world. If you are not yet

entered into or upon the threshold of the Christ Consciousness, you would find it nearly impossible to hold this spiritual control, but since you are operating upon the threshold of the Christ mind and the Christ desire body, you can continue in an awareness of the Christ mind and the Christ emotional or feeling body, at the same time that the awareness of your lower mind and your lower feeling world operates. Since you are functioning in physical bodies, the lower mind, and the lower feeling world, take precedence to a degree for they are the guarding, the directing forces of consciousness by which the physical body is maintained, is sustained, and goes about its daily activities. Yet I would have you know, as perhaps you have already realized, that there does exist in this state of your being, an awareness of the Divine Consciousness as well as the lower mind. Understanding this, you can more easily maintain and sustain the balanced action of spiritual radiation, of spiritual thought, and spiritual feeling. It will always be thus, speaking through to you in your mind and your feeling worlds, if you will hold the control so that the line of communication will not be blocked. This is one of the first exercises in your new state of being which is required of you. Much has been said in the past concerning the control of your thoughts and your feelings. Now *it is imperative*. There is no need for you to call upon your Ascended Master friends or your Archangel friends, or your Angel friends, or any Ascended Being, to assist you in this, for this is an activity with which your own consciousness or your own ego alone is involved. The Ascended Master cannot give you assistance at this point in your progress. It is for *you* to strengthen *your own will* and gain complete dominion over your own desire and feeling world. If it were possible to call upon the Great Master Jesus or the Beloved Master St. Germain, or Mighty Solaris, or whomsoever you might wish to call upon to aid and assist you in this, you would not be using the strength of your own lifestream which is the purpose of this requirement.

You may call upon your own Christ self to pour into your being and world its radiant energy with such power, force and action, that you are at all times completely cognizant of the Christ self and the Christ desire body and therefore less aware of the lower mind and its desires. This you can accomplish, for your Christ mind is a part of your own spiritual ego. It is your spiritual ego. The extension of the consciousness which operates in the flesh form is but a very small portion of your Divine ego. So you may call upon your own Christ self to make itself felt through you to such a degree that you can easily remain mindful of it, yet you cannot demand of your own Christ mind that it take complete command and control of you, for that is not one of its activities. Your Christ mind will never take complete command and control of you except by your consciously controlled attention. When an individualized ego takes upon himself the responsibility for form in this dense expression of life in a physical

body, he is on his own. He has absolute free will. Even the Christ mind cannot or will not assert itself against the pressure of the will of the externalized ego in the mortal form. This is a spiritual law. You cannot demand that your Christ self take complete command and dominion of you. Millions of prayers have been said, "Gracious Master Jesus, do this, do that, and do something else." It is not the prerogative of the Great Master Jesus. It is not the prerogative of even your own Christ mind to do this or do that or do something else. It is the prerogative of your own mortal mind and desire body--your own externalized ego in this form, to command and control the forces acting through you, and nothing, and no one, not even your own Christos and your own I AM Presence can assume that control. If this were so, there would have been no point to your externalization. The Christ mind would have always been in control of the forces of your being, and you would not have dropped into, or desired to express, in the physical form. As a human mortal being acting in the world of mortality, you are bound by your own free-will to take whatever action you desire, or believe upon, without any restriction from any other soul, or even your own Christ self. When you desire the activity of the Christ self, you must abandon the mortal-sense consciousness and ascend into the Christ Consciousness, then the Christ Consciousness takes precedence and is the commanding and controlling force.

You do not ascend into the Christ Consciousness in a state of uproar or confusion or imbalance or impurity. You can only ascend into the Christ mind in a state of control, and then by God's Grace. When you have passed completely into this stage of transformation you will enter into the state of transfiguration, and thence into resurrection, at which time you have utterly died to all desire and feeling in the human-sense consciousness, and have resurrected from that into the Christ Consciousness. Then the Christ mind has complete control since there is no other mind. You will then have ascended into the Christ mind, and there is no longer any lower mind, and no lower desire body. Then the Christ mind becomes the functioning, directing intelligence.

I would tonight that I could bring to you the complete understanding of this spiritual activity which is of supreme importance to you. To state it again, there now faces you the necessity of sublimating the mortal mind and the mortal desire-body, and ascending into the Christ mind and the Christ body in a state of purity, harmony and Grace. You will require the state of Grace for so long as you are yet bound by the physical body, for there is no way of determining when a mortal being will be drawn into the mortal thoughts, the mortal feelings, the mortal desires and the mortal activities of the human sense-consciousness. The mind and the feeling worlds may be drawn temporarily into the Christ Consciousness. They may be balanced and controlled and in complete and absolute

purity and be held by Grace in the Christ body. But there can possibly occur situations in the body or group of bodies by which you are surrounded which might draw you out of that state of Grace and back into a state of turmoil.

There is no way of knowing absolutely. There is no assurance until you have passed through the flame of transfiguration, and until you have passed through that initiation in which a state of complete severance of the lower mind and the lower feeling world takes place. Many of you have already approached this state. Many of you are rapidly approaching this state. It is therefore imperative to your progress, and to your victorious accomplishment, that you begin *now* to exert the firm control over your thoughts, your feeling, your desires, and all your activities.

I come to suggest to you that you begin to delimitate from your daily life all contact with the outer world *which is unnecessary*. I suggest to you that you begin to govern your speech, and speak only when your words are more golden than your silence. You have little concept of the amount of your precious energy which is expended and wasted in idle speech. There are mortals who talk from the moment they open their eyes until they close them again in sleep. If you were to put together all the speech they have rendered during a period of a waking day you would find nothing of consequence.

I come to say that for you in this particular period in your spiritual evolution that you begin to curtail your speech. What if you go for hours during the day without speaking? It does not mean that you are angry or sullen or unhappy or sick. You are in a state of peace at which time, at any moment of that time, your own Christ self has an open line to reach into your consciousness with Its Divine Concepts. If you are idly chattering or wasting your energies, you block the line. In your outer world you are accustomed to the use of the telephone. If you are speaking to someone over the telephone, no one else can reach you. The person who may wish to try to reach you may have something of great importance to tell you and yet cannot reach you because you are idly chattering with someone over small nothingnesses, or things which do not concern you. I say to you, as you speak with your fellow man, speak *not* of that which does not concern you. You will say this is a very difficult thing for a human being to do. I say, it is a matter of control and requires, in the beginning, your concentrated attention. I say to you, when you have the impulse to speak, stop first and weigh that which you desire to speak of, against the immortal words of your Master or your own Christ Presence. Is it important? Is it kind? Is it just? Is it harmonious? Is it constructive? Is it necessary?

If you will take seriously this recommendation and work strenuously to gain the control of the idle chatter which is oftentimes viscous chatter or gossip chatter. There is a desire which is a subtle one, existing within the breast of every mortal,

to exalt the self, to express opinion, to render judgment. Try to recognize these subtle desires within your own consciousness and take control of them. I say you will be blest indeed. It is not expected that this will be accomplished overnight. Ofttimes, a chela has endeavored to control these human qualities through many embodiments, but you, as you stand upon the periphery of your Christ mind and your Christ desire-body, have that in favor of your victorious accomplishment soon. How soon, depends upon your concentrated attention. If you will make your vow when you awaken in the morning, and at night before you sleep, if you will, for a few moments, recollect the uses of your energies during the waking period, balancing them, one against the other, admitting your subtle failures and vowing to do better on the morrow, you will begin to accomplish wonders with yourselves. You will soon come into a controlled activity in both the mind and the feeling world. Then, come what may, you will stand as a pillar of Light, untouched, without fear, and with a wide-open line of communication through which you may receive spiritual illumination, guidance, healing, direction or whatever you may require. It is only through the controlled consciousness that this can be possible. I bring to you this most important thought that you may begin *at once* to make a *concentrated* effort toward control in the feelings and in the mental body.

It is not for the purpose of bringing fear or dread upon you, but with the purpose of directing your thought, your consciousness, the vibratory activity of your world, into the sphere into which you have entered. As you stand upon the threshold of this new sphere into which you have entered you stand as a stranger in a strange land. I have come to point to you a pathway upon which you may travel. As you travel upon that pathway, you will enter many temples. You will find many wonderful activities. You will encounter many teachers, and perchance, Ascended Master friends, who, having gone before have, or are endeavoring to master the same qualities of their nature which you are now attempting to master.

This is your assignment. This is the pathway upon which you may now travel. You have entered upon the threshold. You stand as a stranger upon this threshold, knowing not what is next. I have come to direct you. Now you may move forward with joyful obedience and a desire for attainment. I have looked within your sincere hearts and I see only a spiritual longing to attain these recommendations as soon as possible. I commend you. I give to you the blessings of My Heart's Light. I pour upon you the strength, the energy, the courage and the wisdom of My Heart's Light for whatever good it may bring to you, to strengthen your purpose as you set your feet upon the new pathway. But remember, it is not the duty, or the obligation of any Master, messenger, teacher or friend to pour their Light into your light to assist you when you are.

striving for a victorious accomplishment. All stand at attention in love and in hope, and wait. Your strength, your soul, your courage, your wisdom is now having its freedom to express in accord with your nature, without the imposition of any other will upon your own. You are not alone. Your Masters, the Messengers of Light abide, as always, nearby. We live, We move, We have our being, many of us, on the same sphere of consciousness in which you are traveling. *You are not alone, but you are on your own.* This should please you, for what man has not desired to be wholly on his own, free from the suggestions and disciplines of parents, teachers, friends, or even governments. Now, beloved ones, *you have the keys to the kingdom, and you are truly and spiritually on your own.*

I have said you walk alone and you are on your own. But I wish to convey to you the idea that it is only for this one purpose that you are on your own and alone. Your Masters, your Teachers, the Messengers, will come to you as usual, from time to time, and expound on other laws and other necessities by which your new status will become more familiar to you. All your ascended Master friends have not withdrawn except that, concerning this particular activity which I have outlined to you tonight concerning control and mastery over the lower-sense consciousness. In that instance alone you are strictly on your own. We shall enjoy beholding the victorious accomplishment as you draw together and as we look upon you individually from time to time. We share with you the grief which you may well bear within your hearts as you encounter failure upon failure. Yet it is upon failure that victory is built. Your failures strengthen your desire to win. As you gain confidence, as you gain success in your endeavors, so you build upon your failures. Be therefore at peace. Be therefore at one with one another.

I want to add one note of caution. Do not allow your conscious mind or feeling world to become so tense in the determination to remain in a state of Grace, to remain ever pure, to remain ever humble, or to remain ever harmonious, that you become so strained, or so tense that there can be no accomplishment. One of the dangers of the chela upon the pathway is the intense desire to attain. Let me tell you what that tension is. Tension is fear, and therefore it is not harmonious and therefore it is not control or balance. Tension is sometimes envy, sometimes hate, and sometimes greed, to gain a precedence over one of your fellow men, by straining to get ahead, and by straining to hold your place, or straining to attain faster than someone else. You may say that this is not so, yet I say to you, meditate upon it. Think of your own daily activities. When you get into a state of tension everything begins to go wrong. Why were you tense in the beginning? There was perhaps, within you a fierce desire to attain more than was required, or to attain it faster, or to attain it better, or do more

than your obligation required of you. Study your own feeling truthfully, searching for the subtlety within you. When you find you are in a state of tension, let go, dear ones; change your thoughts; change your activities; release the mind and feeling world from strain, and do something which will relax your tension.

I say to you, do not endeavor to measure your own successes. I have said to you *recollect your successes* but I *have not said, measure them*. In endeavoring to *measure* your successes or your failures, the subtlety begins to build a tension, a feverish desire to overcome, sets in. I say recollect but I *do not say measure*. If you are measuring your success against someone else's success or seeming success or failure, you become tense.

I beg of you to remain harmonious, at peace, poised, and in complete command of what you desire to accomplish. Do not expect more of yourself than you are prepared to express, and do not try to measure your successes or failures. I have given you perhaps more than your mind can retain, and therefore, I desire to leave you with the complete memory or the consciousness which it has been my privilege to bring to you. I therefore withdraw so that you may begin to meditate upon the accomplishment which you desire to attain. I leave you to formulate those vows, those spiritual exercises, those spiritual disciplines which you yourself, will impose upon the mortal mind and upon the mortal desire body. If you impose your own disciplines, you cannot resent them whereby if I, or some other individual impose a discipline upon you, you might well resent it. You will not resent that which you do yourself. Again, I repeat to you, beloved earthlings, friends upon the pathway, *in this new commitment, you are on your own*.

As I take my leave, I shall remain within the aura, within the forcefields of your own blessed selves. I shall have drawn into my heart, the thoughts of each one of you as you enter into your individual meditation. I shall have viewed those thoughts as one views the passing of the celluloid tape through a motion picture machine. It is not that I desire to spy upon your thoughts and feelings, but that I desire to measure the impact of my thoughts upon your thoughts. For a few hours, I desire to abide within the worlds of certain ones amongst you to more firmly establish within your consciousness the true meaning and the essentials of this which I have brought to your attention at this time. Previously, in your activities under the radiation of the Ascended Masters, you have been privileged to listen to their entertaining discussions of spiritual facts, descriptions, and even of possibilities for your own advancement, but never in the past have you ever been challenged to take up your mortal mind and desire body and move forward as you now are. The days for the coddling of the spiritual neophytes *have closed*.

You have entered into a new spiral of activity, and whether you realize it or

not, *you now face responsibility* which perhaps will not be easy for you but which will give a greater purpose to your spiritual evolution and your desire for evolution than you have ever enjoyed before. Observing in the past, as I have had the ability to do, I find that beautiful, pure, sincere souls, have bobbed along like glass bubbles on the top of a sea where the waves have tossed them into the atmosphere. As they dropped back upon the waves they go down into the trough of the waves and rise again with the new inspiration and the impetus which is constantly being renewed. I see you as if you were bubbles moving upon a rather active surface of the sea. But now cast upon the sands of the shore, no longer bobbing on the surface of the great sea of substance, but now seized with the necessity to take up the Light which you have drawn unto yourselves and move forward with it. This is a challenge to your individual ego. I use the word "challenge" in a sense not of challenging you as one challenges a fellow in a competitive game but rather do I challenge you are ones to whom I bring the key to an attainment. I shall withdraw and wait to see whether you will move forward and try the key or whether you will drop it on the sands of time upon which you have been taught. Some of you may look longingly back to your days when you rode comfortably up and down in the glorious Light and radiance of the sea of time and energy.

Those of you who are no longer neophytes, will have passed into a state of consciousness beyond that of the neophyte. You are still neophytes in a sense, yet you are not beginners. You are still in the neophyte school of endeavor, yet you are not in the kindergarten.

As I measure the acceptance and the understanding of my thoughts as conveyed to you, I shall remain in the atmosphere of each of you individually for the next few hours in order that I may endeavor to implant deeply upon you these necessities of consciousness and the keys by which these necessities may be met. Then, truly, I will have attained my purpose and you truly will be definitely and strictly on your own.

The Beautiful Alabaster Temple from which I came is within the sphere of consciousness into which it is desired that you enter. It can be likened to the intensity of Its power to the other Temples from which Messengers have come forth to you previously. They bring the specific radiation from Their Temples, and oftentimes the direct message and blessings of the Hierarch of the Temple. I would that you could accept freely the radiation of the Hierarchal Being which is brought to you through or by the means of such a messenger as I am. A Hierarchal Being has many duties and activities within spheres to which His Status or His Being is accustomed. To communicate with a group of earthlings requires considerable time and energy, and therefore He oftentimes appoints a messenger to convey His message in his name. Many of the Illumined beings

have delegated their pupils, or those who serve in the temples, to receive the direct radiation from their consciousness and convey it into the consciousness of the mortal mind as I have done tonight through the medium of your preceptress.

The radiation from beloved Jesus-Sananda and the Divine Lady Mary is no less intense upon each of you, having been relayed to you through me, than it would have been had they subjected themselves to the stepped-down transformation required in order to enter into this particular sphere of being where you now stand. There is a divine law for each one of you which demands that the outpouring or radiation of illumination or healing power, or whatever may be radiated to you, can only reach the intensity for which you the individual student is prepared. So, if the great Lord Sananda, himself, stood in His Physical Presence in your midst, there could enter into your being and world, no more of His Radiation than is being conveyed through me. You may feel that it would be more desirable for the Mighty Sananda himself to stand in your midst and personally bless you, and I will agree that to a degree this is so, yet insofar as your progress is concerned, your understanding is concerned, your illumination is concerned, your blessing is concerned, at this particular point upon your pathway, there is no limitation imposed upon you because of the fact that I was delegated to bear His radiation to you. I have blessed you with my personal love, while I measured the intensity of your thoughts and feelings and desires, during your meditation. While I projected the thoughts that were conveyed through my consciousness from the Master, it was His consciousness which poured out to you. I desire that you understand that His consciousness, while it was channeled through myself, before it entered into the consciousness and the worded outpouring of the preceptress, or as it rayed out into your individual beings and worlds, was no less than the Master would have given to you Himself, were He physically and tangibly present. Dear souls of Light, abide in peace, and great should be your joy. Abide in a state of receptivity. Abide in a state of Grace. I commend you to His Radiant Light and Love. I salute you, and in the name of Sananda, I bless you. And so be it.

MEDITATION AND APPLICATION FOR THE MONTH OF MARCH

I am in the Father and The Father is in me.

The Father and I are one.

I AM THAT ONE. THAT ONE, "I AM."

I follow now the three-fold path and obey these commands in Beloved Jesus' Sacred Name.

- 1. Ask and it shall be revealed unto you.*
- 2. Seek and you shall find.*
- 3. Knock and it shall be opened unto you.*

For every one that asketh, receiveth.

He that seeketh, findeth.

And to him who knocks, the door opens.

I NOW ASK . . . I NOW SEEK . . . I NOW KNOCK

*I AM ANSWERED . . . I FIND THAT WHICH I SEEK . . . THE
DOOR IS OPEN AND I ENTER IN.*

I enter into the Kingdom

I serve in the Kingdom.

"I AM" The Kingdom, now made manifest.

"I AM" The Light that lighteth every soul who cometh into the world of form.

I AM IN THE FATHER.

THE FATHER IS IN ME.

THE FATHER AND "I AM" ARE ONE.
