THE NEW ATLANTIAN RESEARCH SOCIETY maintains extensive files of UNusual events, paranormal phenomena and Unidentified Flying Objects. We also mount field trips, research expeditions, and train our own UFO Investigators. We then distribute, through our Journal and our monthly meetings, this information to the general public. We maintain a complete photo-analysis lab in Haskell, N.J., Director, August C. Roberts.

IF you have the background or the experience to become a FIELD INVESTIGATOR for our Society in the areas OUTSIDE of the state of Florida, please contact us. This is a specialized job as you must be familiar with radiation techniques, photo-techniques, cast-molding, the taking of physical evidence, interviewing expertise, etc. Previous experience preferable. We cannot pay for your services, but we feel that in being able to inform the public of the events that do occur is payment for all of us! Please remember the following:

EDITORIAL COMMENTS

"NOTHING NEW UNDER THE SUN"

SCENE:

In the lonely, barren wasteland, of a western desert. TIME: Shortly after midnight. ACTION: One long black car slowly approaching a sleek space craft sitting amid the isolated sand dunes. The portal of the craft opens to reveal a complicated and well-lit interior peopled by very good-looking, long-haired individuals wearing tight fitting blue ski suits. A friendly smile is playing over his sensitive lips, as he invites you aboard to see the wonders of Outer-Galactic Society. You are escorted to a very comfortable couch, suddenly, a low humming noise is now heard. Then you are shown a wonderful thing -- a screen - in the floor! You are quickly transported to Washington, D.C. and see the Lincoln Memorial, the Capital Dome --- the scene changes -- you see the skyline of New York --- then the Golden Gate Bridge! Then you see how THEY live, how peaceful it is, no problems, no worries, no sickness, scenes of incredible beauty flash before your astonished eyes!

In the middle of a long dissertation from your host on how to stop wars - changing your politics- banning the bomb - how to live in a moneyless society where you do no work or put forth no effort -- a beautiful spacewoman serves you a delicious nectar. All too soon it is over -- an almost unnoticed change, and you are being escorted out of the sealed portal, to have to return to your mundane existence on our war-like planet, which now looks pretty shoddy to you now that you have seen the glories of Outer Space. BUT ---WERE YOU REALLY THERE? DID THE 'CRAFT' ACTUALLY LEAVE THE GROUND? YOU never left the craft. Your own eyes and ears can be deceiving. Could it possibly be a front', as on a movie set, where you only see the FRONT of the buildings or the ghost town -- built for EFFECTS. A landed craft so constructed that it gives the IMPRESSION of actuality. BUT - cannot fly? A TRIP - that was nothing in REALITY but a movie camera behind a convex lens set in the floor for a 'television' screen? SPACE PEOPLE who were really just PEOPLE? And - a carefully prepared speech just for you. IF SO -- WHY?

There are many reasons to believe that some of the early contacts were, in a sense, reality. That at that time we were being visited. In more recent UFO history, there are certain implications that have cropped up that have led many researchers to believe that not ALL contacts are 'extraterrestrial! That some contacts are very efficiently 'manufactured! Could this be a CONDITIONING process - on their part- to 'acquaint' us with the thought of an ACTUAL contact? Now - the whole question is: WHO ARE 'THEY?

NOTE: I first printed this article in 1967

What has changed? TECHNOLOGY, that's what! We now know from the analysis of recent abduction cases that MENTAL hanky-panky is going on. What the contactee THINKS he remembered and what actually occurred -- are two different things! In 1967 very little, if any, techniques were utilized in UFO investigation that would have given us this clue. Both - then - another clue for NEW UFO researchers - WHAT IS REALITY? WHAT ALTERS IT? HOW IS THIS DONE? WHAT IS PARANORMAL TO YOU -- may be perfectly NORMAL to someone else..... Think about it....

Dear Joan: Enclosed is my check to renew my subscription... I am especially interested and enjoyed reading the article of Sept. 5, 1975 issue, by Hans Laritzen. I have been trying to come up with a theory of telepathy based on magnetism and magnetic fields. Much of what I have researched by reading for my theory is in this article. I believe that telepathy is a form of energy that travels at a speed that is faster than the speed of light. That its speed completely nullifies both time and space so that the receiver gets the message simultaneously with the formation of the thought in the mind of the sender. Also that besides UFO contactees, there are telepathic contactees, so that minds on planets exchange messages not only between planets but between galaxies, without the mind leaving the planet or galaxy. Of this stuff geniuses are made. They can get any theory, scientific or other, from a mind which is at a higher level of development, because the receiver's mind being at the genius level can perceive and understand the telepathized abstractions they are receiving. If you wish to print my letter, I will be very pleased, but if you do, please omit my address. Thank you and keep the New Atlantean Journal coming to me. Oh yes, one other point which is self-edidant. The receiver is always completely alert when receiving the messages, or the information would be wasted. That is, the receiver is not in a trance... Mrs. Sylvia Berl.

Dear Joan: I'm later than usual in getting around to this, but I wanted to comment on the June, 1976 issue of the NAJ. I'm very pleased with your present open-minded presentation of the diversified views in contactee cases. I also enjoyed the Startalk page... Chris Morton, Attleboro Falls, Ma. Area Reporter...

Dear Doug! We are so happy that you took us at our word and re-printed the entire issue for the students! You are doing a fantastic job in opening new minds to new areas! It is not the new minds that we should fear -- but the closed ones! Your leadership at the university is a great trust, and one that you hold with honor... JOC.

MEDICAL MYSTERIES AND THE MONTH OF AUGUST! by Joan O'Connell

(NOTE: In our last issue we outlined many mysterious things which could occur perhaps in relation to, the current sunspot activity. Among the items discussed were medical ones... What follows is what happened in August.)

AUGUST 3 - "MORE WHALES FOUND DEAD OFF CAPE SABLE" -- Scientists said it would be difficult to determine if the cause of their death was the same as what caused the suicide-like beachings and deaths along the lower Florida Gulf coast in recent weeks.. The whales identified in a previous beaching were spinner dolphins, a breed that normally stays in 100 fathoms of water or more. This herd's stranding apparently was the first such action ever recorded. All the mammals reported dead in Florida.

AUGUST 5 - SCIENTIST DRAWS A BLANK IN BEACHED WHALE STUDY -- "As far as figuring out what made them come to shore in the first place, we're no further ahead..."

AUGUST 8 - I found a curious 'coincidence' in this date's newspaper... This is in reference to the infamous 'Legionnaires Disease', etc... "The National Center for Disease Control said there have been several such mysterious illnesses in the U.S. -- none however, so devastating in their impact as the Pennsylvania cases. ON JULY 27, 1965, an epidemic of acute pneumonia began in St. Elizabeth's Hospital in Wash., D.C... In the reading of another article on the Legion disease, I noticed that the first deaths from the illness occurred JULY 27, 1976. Another illness, the cause of which was never found, occurred in JULY and the first week in AUGUST 1968. The pneumonia-like illness, lasting three to four days, struck 90 percent of the employees of the Pontiac office of the Oakland County, MI. health department. A similar disease also was suffered by a high proportion of visitors to that building. The CDC said the disease was spread through the air and an investigation determined a defective air-conditioner was the source. But what it was that the air-conditioner spread was never found.

AUGUST 11 - "PARASITES DIDN'T KILL WHALES" - A necropsy on one of the four whales ... after a mass stranding... shows that the mammal had parasites, but not enough to cause death... Paper date, St. Pete Times...

AUGUST 13 - "BIRD-KILLING ORGANISM Baffles Scientists" - Clearwater, Fla. -- A mysterious organism is killing hundreds of birds near Ft. De Soto Park and is baffling scientists. The scientists say they know what is killing the birds, but they do not know how to treat the sick birds or prevent the disease from recurring. ... This is the fourth year that hundreds of birds have been killed by the mysterious disease... "At this time there appears to be no relationship between the organism that is killing the birds and the recent killings of porpoises and whales"...

RECENT MEDICAL HEADLINES: AUGUST 15 - "FDA RECALLS ANTIHISTAMINE THAT MAY BE LETHAL" A labeling mixup... "HOSPITAL ISSUES HEPATITIS WARNING" - Virginia Beach, Va. General Hospital... said Saturday it has notified 1,500 recent patients that they may have been exposed to infectious hepatitis... "HOUSTON ON ENCEPHALITIS ALERT" - Citizens of Houston have been warned to stay inside their homes at night to avoid mosquitos which health officials say bear encephalitis. First confirmed case reported Aug. 12.

SUNSPOTS??? MAN BREAKS NECK IN LEAP FROM BRIDGE -- Jupiter -- A Juno Beach man sustained a broken neck and was left paralyzed Tuesday, the latest victim of the Palm Beach County bridge-jumping fad, police said.... Last month a Riviera Beach fireman was killed in a leap into the river from the new Blue Heron bridge.

CARS AND WATER MOVE UPHILL - MYSTIFY EXPERTS! - Jerusalem - A curious phenomenon is puzzling Israeli scientists: What makes cars, water and footballs roll uphill? Recently motorists travelling down towards Jerusalem from the tiny village of Djabal Moukaber found that their cars would stop at one point on the road and start rolling backwards uphill if the gears were in "neutral". An Israeli television report also showed experiments involving a football and a liquid. Both stupefied bystanders by rolling up the slope instead of down. No logical explanation has been found. (Source: Arkansas Democrat -4/22/76)

ORIGIN OF CROSS IN DOUBT - Toronto - Several clergymen and a doctor are expressing doubts about the origin and meaning of a cross which has appeared on the forehead of a Toronto man. Paul Mohamed, 32, says St. Veronica, the woman who wiped sweat and blood from the face of Christ before His crucifixion, held a crucifix before him and in a blinding flash of light he was marked... Mr. Mohamed, an unemployed electronics technician, believes he is the reincarnation of a spiritual healer who was murdered 4,000 years ago... (Source: Hamilton Spectator 4/23/75)

SATAN LIVES, CATHOLICS REAFFIRM - Vatican City - The Roman Catholic Church has reaffirmed its conviction that Satan lives in fact, not fantasy, but warned against a "morbid fascination" with Devil... (Source: St. Pete Times 1/23/75) LINDA BLAIR WILL BE REPOSSESSED - Hollywood - In the wake of other critically and financially successful movie sequels... Warner Brothers announced Tuesday that the studio will film a sequel to "The Exorcist" which has earned more than \$100 million.

SKELETONS EXPLODE AGE THEORY - San Diego - A scientist says from "five to eight" more human skeletons dating back more than 40,000 years have been found in California... At a news conference Bada said the age was determined by the amino acid dating system used to determine a skull found north of Del Mar in 1974 was 48,000 years old... His system has been cross-checked with the carbon 14 dating system.

DOG-SIZED DWARF DEER DISCOVERED - Rome - Skeletons of four dog-sized deer, dwarf sized, with antlers and all, went on display in the Paleontology Museum of Rome University Saturday after 60,000 years in caves on the Greek island of Crete. Museum Curator Carmelo Petronio said the skeletons, 18 to 21 inches tall at the shoulder, were the first of their kind ever discovered. (Daily Breeze - 5/23/76)

CAVE SKULL INDICATES NEOLITHIC OPERATION - Belgrade - Archeologists discovered a skull on which an apparently successful operation was performed during the Neolithic Age, some 7,000 years ago... The newspaper said the skull was found in a hidden cave in the Dalmatian mountains... (Arkansas Gazette 12/21/75)

GHOST RIDER IN THE SKY! (Credit: PSYCHIC SPECTRUM - POB 3562, Anchorage, Alaska)

"(the following is fascinating and was given to Hal Banks by a young man serving in the U.S. Air Force. It appears here courtesy of "The MAC Flyer,"September '74.)

"The following story was excerpted from 'Flight Safety Facts and Analysis,' a publication of the Flight Safety Foundation. The incident was written up in the log book of the aircraft involved. Whether it is related to flight safety is something for our readers to decide.

"One of the flight attendants was in the lower galley of the jumbo when, in the course of her duties, she happened to glance into the glass window of one of the ovens or meal heating units. There, looking at her (or was it a reflection?) was the face of the flight engineer who had lost his life in the Everglades crash of one of the airline's trijets several months earlier. He had been below, checking the position of the jumbo's nose gear, when the big trijet slammed into the marsh.

"The mystified and not unstartled flight attendant went topside and asked another stewardess to go below. She did ... and verified what the first girl has seen. They then asked the flight engineer of their flight to go below. He did... and he not only saw but he talked to the vision, or ghost, if you will, who said, - "Watch out for a fire on this airplane."

"Shortly thereafter, a problem developed in one of its three engines after landing in Mexico City. The flight crew asked for and was given permission to make a two engine ferry flight to the airline's maintenance base for an engine change.

"On takeoff from Mexico City's airport, nearly a mile and a half above sea level, a fire developed in one of the big jumbo's two remaining engines. The engines had to be shut down. Only through the flight crews almost unbelievable expertise in handling the big jet were they able to come around at no higher than 400 feet AGL, and land safely on one engine."

VOICES OF THE SEA KILLED CREW. RUSSIAN SAYS - Moscow - In February 1948, the cargo ship Urang Medan was found adrift in the Malacca Strait, its entire crew dead - the captain on the bridge, officers in the chartroom and wheelhouse. Every face was contorted in horror but none of the bodies bore any trace of violence. A Kiev newspaper has suggested an explanation for the 27 year old mystery -- infrasonic oscillations, or what Professor Vasili Shulekin called "voices of the sea." They apparently are caused by ocean storms." "Every living organism performs its own low frequency oscillatory movements," Shulekin explained. "If the infrasonic period of these oscillations, resonances, coincide, resonance is induced. The amplitude of heart beats can expand so much that arteries rupture... the circulation becomes inhibited and the heart stops." The newspaper said scientists discovered infrasound led to increases in the number of road accidents in coastal areas and sick people often felt worse before a storm. The Urang Medan probably was the victim of an infrasonic wave caused by a storm hundreds of miles away...

EARTHCHANGES!!!

by Joan O'Connell

QUAKES KILL TENS OF THOUSANDS

WASHINGTON - Earthquakes have killed tens of thousands and wreaked devastation on three continents this year, making 1976 the deadliest year for quakes since 1970, U.S. experts say. The U.S. Geological Survey said yesterday the number of severe quakes doubled since June, indicating that 1976 may reverse the apparent worldwide earthquake activity lull reported since 1973. Survey scientists said 10 major earthquakes and three great quakes have occurred this year. The long-term average is for about 16 to 18 major and one great quake a year. (Source: St. Pete Times)

WARNING SIGNS: QUAKE INDICATORS

HONG KONG - One day in 1969, animal keepers at the Tientsin Zoo were startled when a panda bear suddenly seemed to "go crazy". The panda was holding his head and shrieking... The swans started acting strange, instead of cruising in the zoo's small lake, they were suddenly leaving the water... An earthquake was imminent and the animals could sense it, as Chinese peasant farmers have known for centuries... Among other ancient warning signs are an abrupt change in the water level of ponds and wells. Changes in the taste and temperature of well-water... Still another sign is mysterious light that seems to leap from the ground in a variety of patterns and colors... (Source: St. Pete Times - 7/3/76)

MENTAL HOSPITAL ADMISSIONS JUMP

Admissions to mental hospitals in Nicaragua were 27.2 percent greater in the year after the giant 1973 killer earthquake that devastated the country... Following the quake, the suicide rate increased steadily, reaching a three-fold peak six months after the disaster. Large increases in crime and alcoholism were also reported... DROUGHT IN CORNBELT SUTS CROP ESTIMATES

Drought is some joining major corn regions sliced 366 million bushels off the government's estimate of 1976 corn production... The corn crop was down 6 percent from July because of hot, dry July weather... (Source: St. Pete Times - 8/13/76)

OTHER CROP LOSSES

California is suffering through its worst drought since 1924. Crop losses in the state already have exceeded \$500-million and may reach \$1-billion if the dry conditions continue. Minnesota's commissioner of agriculture estimates his state has lost one-half of its small grains and hay crops. And in neighboring South Dakota where farmers are expected to lose half of their potential crop revenue, beef and dairy cattle have been slaughtered because of lack of pasture and hay... EARTHCHANGES!!!

SAN ANDREAS HAS WEST FORK

SACAMENTO - Scientists have just discovered a west fork of the San Andreas fault off the central California coast which could trigger much stronger earthquakes than previously thought possible. The six-week-old discovery which links a number of smaller faults into a 400 mile long fault zone was revealed Wednesday in connection with a Senate hearing on a bill to implement the California Coastal Plan.... The discovery doubles the 200 mile long length of the offshore fault... (Source: Daily Breeze, Ca. - 4/22/76)

BULGE LARGER THAN THOUGHT

MENLO PARK - A U.S. earthquake scientist said Friday that the bulge in the earth northeast of Los Angeles is larger than previously thought and more evidence has been found that the bulge is related to earthquakes. Dr. Wayne Thatcher, of the U.S. Geological Survey, said new studies indicate "the uplift we thought ended at a point near Barstow in the Mojave Desert now seems to extend further, perhaps 50 or 60 miles." ... He said the bulge is now known to extend over at least 4,500 square miles... "What the work really indicates," he said, "is that the bump really represents a buildup of stress leading to similar earthquakes in adjacent areas." (Source: Daily Breeze, Ca. - 5/29/76)

QUAKE NOTICES ORDERED

COUNTY SUPERVISORS, reacting to speculation about the "Palmdale bulge", have ordered earthquake safety procedure notices in key locations in county buildings. Supervisor James Hayes yesterday won approval of a motion ordering the notices drawn. The disaster-services division also was asked to report next Tuesday on the possibility of assigning an employee in each department or section to coordinate evacuation, account for all workers, and shut off machinery wherever practical in the event of a quake. (Source: Herald Examiner - L.A. 6/2/76)

EDITORIAL NOTE:

I read, as I am sure you did, with a cold chill in my heart, the accounts of some people who refused to 'leave for the high ground' when that wall of water was coming down on them out west a few weeks ago. Not only did they refuse to help themselves, but others as well were persuaded to stay -- to meet their death. When flooding hit the freeway in Chicago recently, and cars were stranded, did any good Samaritans come along -- you bet they did - to rob the people left stranded by the waters. And, in one instance, to kill. I am not writing this Earthchange article each issue just to fill space -- this problem of survival is NOT a figment of anyone's imagination. Crop losses mean higher prices -- at first -- then comes the REAL problem -- no food available, and the resultant confusion that leads to the desperate acts of hungry people. To be apathetic to this situation, means that you are not only apathetic to your fellowman - but to yourself as well... JOC...

SIGHTS AND SOUNDS FROM THE GREAT GAVEA STONE
(Reprinted from the PYRAMID GUIDE
POB 30305, Santa Barbara, Ca. 93105
Mr. Bill Cox, Editor)

The Gavea Stone has a long history of enigma and intrigue. Visitors to the crown of this mountain above Rio have from time to time, seen and heard strange sights and sounds. A few have claimed physical entry through one of the three known portals. Others who say they have astral travelled into the Gavea's inner sanctum find their experiences parallel. They generally agree, a large main chamber exists in the center of the great stone. From their point of view, two solid gold coffins contain dazzling, white wrapped mummies. They refer to them as the two brothers: the sacred twins, there resting in a deep sleep perhaps awaiting some significant event. Phoenician inscriptions adorn the main chamber. In the smaller, and adjoining room a very large goblet can be seen: It is believed to be the origin of the booming sounds emitting from the interior.

Occasionally, when least expected, one of the three portals mysteriously opens, an aperture only triggered by some astrological or cosmological moment upon signal from some intelligence controlling the Gavea Stone. All efforts to enter one of the three rock sealed doorways have inevitably ended in failure. All manner of techniques have been employed to pry or blast the Lapa Portal at the rear end of the sphinx-tomb: Stone wedged barriers will not budge one fraction. Yet, witnesses have reported seeing the Lapa Portal -- the most easily seen and accessible passageway of the three entrances -- standing wide open. After running down the mountainside to relate what they saw they found to their dismay upon returning with authorities that the entrance casements were again sealed as before.

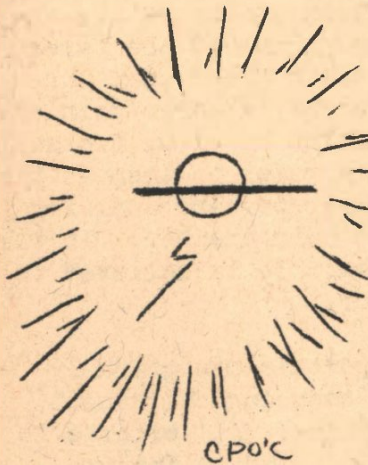

Unconfirmed reports and stories state no one has physically returned to the outside world once they entered the Gavea Stone. Who knows what horrors or delights await the unwary explorer? But two hikers camping near the Lapa Portal found it open one night and supposedly ventured far enough inside to see the large chamber. They too, ran down the mountain to share their find which again couldn't be proven by the sealed portal upon return. Brazilian archeologist, Durival Barrrios, believed the Lapa Portal will never be opened by conventional means.

The tail of the sphinx at some time in the dim past broke off and tumbled downhill. Today it can be observed as a huge boulder lying in the forest incline below. Another Brazilian archeologist, Barnado Guimaraes declared he had deciphered part of the Phoenician inscriptions with: "Here rest Badezir, son of Vet-Ball of Tiru-Fenice." ...One member of a group camping at nearby Praca das Bandeiras awakened one night in a dense fog to see three tall, regal appearing figures, strolling toward the woods in bright robes of red encrusted with gold symbols. "Investigation revealed," he said, "that the Lapa Portal was open." He believed the spectres were visitors from an underground civilization... Brazilians have frequently reported seeing strange lights and possible UFO phenomena above the Gavea Stone...

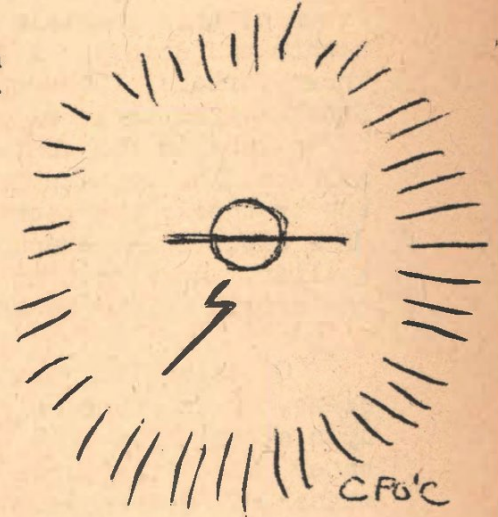

P K MAN: FLYING SAUCER SPOKESMAN

A PROFILE

by Joan O'Connell

"The Space Intelligences are pure energy and are invisible," says Owens. "Only the top members of the SIs can construct a form with their intelligence and pour themselves into it." Where do they come from? "The SIs are from a different world entirely. They are from another dimension. But they have discovered how to switch from their dimension into ours!" (Quoted from: THE INCREDIBLE TRUTH BEHIND THE UFOs MISSION TO EARTH - Gray Barker, Saucerian Books, Box 2228 - Clarksburg, W.Va. 26301 - and Gambi Publications, Inc. Copyright 1970.)

"According to the man who claims to be their one and only "contact" on Earth, the Space Intelligences are now hovering in four huge, invisible craft positioned around our globe and "are trying to put the world in balance by cancelling out wars, hate, killing... drought, famine, etc." This is just one of hundred pronouncements that have come from the Space Intelligences through Mr. Ted Owens, a most controversial figure in Ufology! Controversial BUT convincing!

Ted Owens is many things to many people -- but he is never dull! As a psychic he is one of the MOST provable of predictors. He goes way out of his way to inform the newspapers, radio and TV, and many scientists, of what he is doing or going to do. He documents his work to the nth degree. He is correct about 85 percent of the time, which is incredible!

The Big Blackout of the eastern U.S. on Nov. 9, 1965...Hurricane Inez in 1966 that turned the "wrong way"... Three hurricanes simultaneously hitting the U.S. in 1967... The ending of the northeast's drought in 1967... The mysterious "hex" that in 1968 made the Philadelphia Eagles football team lose 12 out of 14 games... The lightning bolt that struck the Apollo 12 mooncraft... These and 200 other headline events (SAGA, August, 1970) are claimed as PK (psychokinesis) feats performed by one man - Ted Owens - with the aid of the Space Intelligences.

Ted is now working on several world-shaking projects to include the breaking of the horrible drought that Great Britain is suffering, he is planning to go to South America, to the pyramids there, for further study into the mysterious pyramid energies that he worked with when he went to Egypt last year, and is now, at this writing, planning to go to England for a scientific congress on PK energy! A most remarkable man: The Spokesman for the SIs!

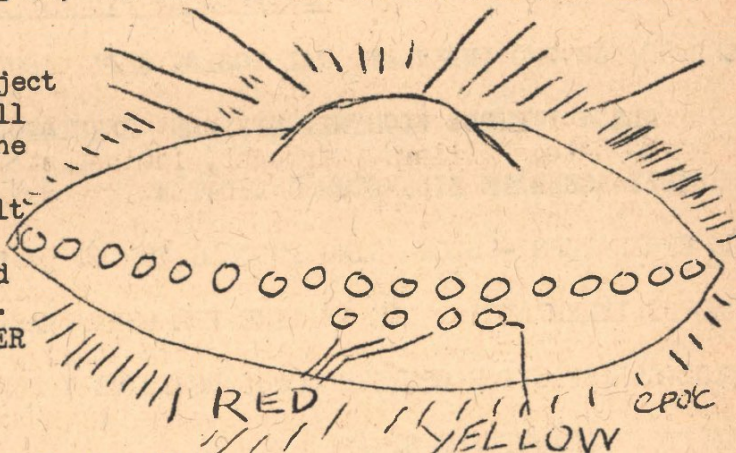

UFO CONTACT! A LONG TRIP HOME!

FROM THE WITNESS: "IT has a force we don't have. We have nothing to fight IT. God is the only one who could save us from IT. With IT's intense heat and light, IT can do whatever IT wants to."

When Mona Stafford tells you she and two other women saw and perhaps came under the power of, an unidentified flying object early last month, it's difficult not to believe her... That day that was to end in a night of horror for Mona and her two friends was January 6. It was Mrs. Stafford's birthday...

The trio of Casey Countians dined at the Redwood and left the restaurant at 11:15 that evening. They drove through Stanford past the city cemetery and then the drive in and into the open countryside. The three ladies were not too far out of Stanford when they saw something that appeared to be fire coming down from the sky... As they neared the area where they had seen the fire, Mona says an object as big as a house and shaped like a blimp or football, started coming down the road toward them. She said the object had red lights all the way around it, and the lights were rotating. "IT had a light on top that was bluish-white and more brilliant than anything I've ever seen," noted Mona. The object came across the road to the right side of the auto the ladies were riding in, and made a half circle and come in behind the car.

She said they turned to look at the object but the intensity of the lights gave all of them headaches. All of a sudden, the trio realized that they were no longer in control of the automobile. They felt like something was pulling back on the car. The speedometer on the car showed they were traveling at 85 mph... but... how could that be... SHE DIDN'T HAVE HER FOOT ON THE ACCELERATOR, Mrs. Stafford said.

"It felt like we were crossing those grooves they have in the road to slow you down when you're approaching a stop sign," Mona recalled. Then, all of a sudden, the women found themselves in Hustonville. However, they were shocked because none of them could remember traveling the area between the two towns. "It was like something had picked us up in Stanford and set us down in Hustonville,"...

Mrs. Stafford says that when they arrived back in Liberty at Louise Smith's house, they saw it was 1:25 am. It had taken the women more than two hours to travel to Liberty from Stanford, normally a 45 minute trip. Another strange thing the women noticed was that two of the, Louise and Elaine, had burns on the backs of their necks. "It resembled a real bad sunburn," Mona recalled.

CONTINUED NEXT PAGE

The woman got their neighbors out of ~~bed to see the~~ ~~burns~~ and to tell them about what they had seen. The neighbors advised them to separate and draw what they had seen. Mrs. Stafford's drawing showed a blimp-shaped object with the row of lights around it. In addition to many red lights, she said there was also one yellow light that was flashing. "I think that was a window because it was dimmer than all the other lights." The women reported their sighting to Kentucky state troopers and to the armed services, but for Mrs. Stafford the ordeal did not end with that.

"I did not feel like the same person," noted Mona. "This has just taken my mind over. I was worried about all kinds of other problems before, but this is something I just have to get a better understanding of." Mrs. Stafford, who says she can see the object now as plain as she did on the terror-filled night in Lincoln County, has been living with her parents since the incident occurred.... "My ears seemed to open up more after that night... and it seems like I can hear things ... a whirling sound I didn't hear before. It seems like I can almost hear it when it's around." ... "I look for it now, but I don't want to see it unless it's at a distance. I might have a heart attack if it came upon me again."

Many people claimed telepathic contact with UFO entities, and some claim their minds have actually been altered as a result of such contacts. Ted Owens and Uri Geller, well-known psychics, are such persons. Another, who wishes to remain anonymous, lives in Jackson's Point, Ontario. His story was told in the Sunday Sun, Feb. 23, 1975, and republished in Inner Life last September.

One day he saw a "man" with no facial features and wearing a red body suit approach his house. This being communicated with him, seemingly by telepathy, and subsequently he began to notice changes in himself. "I found I had reached a level of comprehension that was different from other people. I also found myself responding to strange orders." For example, he felt compelled at times to read difficult intellectual and philosophical books and could understand them. He claimed his wife was similarly affected. The foregoing remarks are by way of introduction to another remarkable item on the same theme. It is extracted from Anne Burton's VITALOGY NEWSLETTER, No. 5, July, 1975... The present piece relates auras to the subject of UFOs.

... I will try to describe the "Beings" I have seen in many areas of the world who certainly have a human form, act and dress like humans, but who do not have the auric emanations of humans. The emanations from and around humans are of many, constantly-moving color vibrations which appear to enter the body through the glandular areas in swirling, tornado-like funnels with a concentrated swirling mass of energy in the area of the solar plexus. This energy, I believe, is absorbed into the body or attracted to the human being from colored strand energy, visible to me, everywhere in space. Unlike the usual human, these "beings" show only a murky-red color vibration which emanates only in the head and neck area. They do not appear to use strand energy and the red vibration does not move in a swirling, tornado-like action, but is rather solid looking and fades away into a nothingness a short distance from the body. ... To add to the puzzle I would like to relate a personal experience I had some seven years ago:

I was visiting for the first time a young couple in Indiana, with whom I had corresponded for about a year. Neither knew anything about ESP, psychic phenomena or related subjects. During the evening the wife asked if I had ever seen a UFO... I noticed the husband becoming very upset and fidgety and was surprised to see his auric patterns change into a confused mass of color, swirling only around his head and neck area. He got out of his chair quite suddenly, said he was feeling unwell and went hurriedly to the bathroom. When he returned he looked a little more settled but his auric patterns were now a murky-red color and he appeared to be very frightened. He stated he didn't want any further conversation about UFOs or space beings. Incidentally, there had been very little conversation on the subject. Explaining he always felt very upset and ill whenever such topics were mentioned, although he had actually never seen a UFO. He then went on to relate the following weird happening:

Continued

As a young college freshman, about 5 years previous, he had been driving his car along a highway in Michigan, feeling quite content and happy. Some hours later he found himself off the highway, on a side road, with his car pulled over in a ditch. He was in the driver's seat, covered with dirt and mud, perspiring heavily as if he had been engaged in manual labour and with his hands looking as if he had been doing some heavy digging. He had no idea what he had been doing during that lapse of time (several hours) but since that time, if he reads an article or is around people who bring up the matter of UFOs or space beings, he becomes dis-oriented and terribly afraid. He told me he is positive he had been used by space people and that they still influence his mind so that he becomes too terrified to engage in discussion on the UFO or space being stories. Of course, I questioned why he was not afraid to be telling the story of his strange experience. His reply was that he never had related it before, not even to his wife, but he sensed that as long as he did not get into further discussions he would be safe.

Apropos of the above, I tend to the theory that the "beings" I see with the unusual emanations were once complete humans, making use of all their faculties to attract and use strand energy, but they have been taken over, as it were, and are now in the control of, or the puppets of a force for some purpose or work which they will be influenced to undertake at some time in the future.

Unknown to me are 3 other men who have had experiences somewhat similar to the one experienced by the Indiana resident. All 4 men are moral, up-standing people working at their chosen profession or work. Hence, it should not be assumed that they have been used or will be used by a negative force. It does, however, enforce my own beliefs that it is of vital importance we build strong auras, through sound nutrition of the physical, mental and spiritual bodies so that we are always in the complete control of our own actions and hence are able to accept full responsibility for our chosen freedoms.

ALIEN ABDUCTION CLAIMED

A Fargo, N.D. woman claims she and two others were abducted by an alien creature last August and "dissected like frogs," the director of the Center for UFO studies said. The woman's description of the creature and the spacecraft were translated into sketches by a TV weatherman, John Coleman, of WLS-TVN for a series on UFOs by the ABC affiliate. "She claims to have been abducted," said J. Allen Hynek, "I said claims." Mrs. Sandy Larson, 32, said she, her daughter Jackie, 15, and Jackie's boyfriend were taken aboard a UFO which landed near Fargo last Aug. 26 and were given a complete medical examination, Hynek said... Mrs. Larson said they were driving on a highway, 40 miles west of Fargo, when they heard a loud noise and saw "a glowing series of 8 to 10 round objects lined up in the sky, descending toward earth." Frightened, she stopped the car. After the objects disappeared, she drove to a nearby service station and discovered it was an hour later than she thought...(Source: Daily Breeze, Ca. - 2/13,76. THE WATER PUMP -- KEY TO UFO PROPULSION SYSTEMS? by Patrick O'Connell

The March 31, 1976 issue of the Daily Breeze (Torrance, Ca.) carried the AP news item which purportedly indicated the commercial feasibilities of extracting hydrogen from water. It was reported that M.J. Mirkin, chairman of MJM Hydrotech Co., claims that the tests "... showed the hydrogen generator can extract hydrogen from water, proving that water can substitute for gasoline, natural gas and nuclear power as an economical source for fuel." The two testing companies were Smith, Emery Co. and Approved Engineering Test Labs, both based in Los Angeles.

This highly controversial bit of news, however, is not unique! In the Dec. 1958 issue of FLYING SAUCERS, edited by Ray Palmer, there was an article by Gray Barker entitled "Hostile Spacecraft!" It related a number of facts concerning the use of water as fuel for a UFO. The article is a most interesting interview with Trevor James, concerning his book "THEY LIVE IN THE SKY". James contends that there are astral dwellers that live in the center of the earth. These entities, James claims, use hydrogen as a fuel. The fuel is purportedly obtained from water from the earth's surface and atmosphere. There have been numerous sightings of UFOs gathering water in tubes attached to the craft and -- also according to Barker, one incident recalls the UFO entity's using an "odd-looking bucket". Approximately two years ago, Patrick Thrush of Bradenton, Fla. witnessed a UFO projecting into the Braden River, a large tube-like device.

Trevor James' NEW book, "THE COSMIC PULSE" is a must reading to obtain updated, all new information on the UFO enigma. Another highly recommended book is Arthur Shuttlewood's "UFOs: KEY TO THE NEW AGE" (available from Regency Press, N.Y.). Shuttlewood claims that an engineering acquaintance witnessed the sighting of a UFO on Sept. 19, 1946. The friend claimed that the UFO was traveling 7,000 miles per hour at 10,000 feet. This sighting took place in Essex: the UFO was observed coming from London and was purportedly being driven by 5 million horsepower, and measured 6 Queen Mary's -- side by side!

That night, the engineer was mentally contacted by the UFO's communication officer. He was presented a complete schematic and comprehensive operating instructions with which to assemble a turbine similar to the one used by the UFO. The engineer claimed that the 'key' was a WATER PUMP and he supposedly constructed one in three days!

The pump allegedly provided power to turn 6,000 revolutions per minute. Shuttlewood's friend claims that "the working fluids are ammonia and water. Its fuel is the water vapor in the air." This device sounds very similar to the one which Trevor James discussed in his interview with Gray Barker -- in the Dec. 1958 issue of FLYING SAUCERS!

Many times, after the close sighting or landing of a UFO, one can smell the distinct odor of ammonia! It is claimed that this turbine will permit economical irrigation of the desert. Ships and planes supposedly could use the water pump device to take the place of conventional gas turbines (minus the noise and smell of gasoline). With the accelerating depletion of our known natural resources -- can we afford to wait long for development of such exotic energy power resources?

STARTALK! by Joan!

CRASH GO THE 'STARS' (not to mention the Chariots!) — One of the most highly publicized (and not widely believed) bits of 'togetherness' just fell apart with the reading of the NICAP publication for JUNE, 1976, which headlined the story of an apparent cover-up on the Walton abduction case -- with APRO doing the covering! It appears to be a very long and involved situation concerning a lie detector -- and the results from the test. I suggest that you obtain a copy of "UFO INVESTIGATOR", Suite 23, 3535 University Blvd W., Kensington, MD 20795 -- and read it for yourself! If these allegations are true, it is a very sad day for UFO investigators in general, as the general public tends to lump 'us' all together regardless of affiliations. In keeping with our Journal policy of open diversity, we would welcome the 'other side' of the story.

IF YOU STILL THINK THAT ALL UFO'S ARE HERE TO 'SAVE YOU' -- read on... A policeman in Wilmwood, Wis., suffered through an encounter with a craft described "as high as a two story house", with orange lights, which shot out a blue flash of light at his squad car, knocked him unconscious -- zotted out the car's lights and radio, it's spark plugs and points were burned out and others in the nearby vicinity also saw the object! The ENQUIRER has the full story! But, I want to point this type of report out to those of you who still think UFO investigation is just an excuse to stay out all night -- NO, the policeman did not inadvertently 'walk into a forcefield' (which has been overused for an excuse for injury) -- he was simply doing his job -- which is to protect the citizens of his area. How many times does a story of this sort have to be printed before the implications begin to sink in? NO! NOT ALL OF 'THEM' ARE HOSTILE --- but not all of 'Them' are friendly either! AND -- YOU do not know which type YOU will meet in the woods, or on the highway, while in your boat or airplane! Think about it, Please!

ATLANTEAN RESEARCH REPORT! -- "PROJECT REVEALS CONTINENT" -- The Deep Sea Drilling Project has found evidence of an ancient supercontinent that once stretched from what is now eastern Canada to present-day Portugal. "The North Atlantic was born from a narrow embryonic seaway that once linked the land masses of Europe to North America," said a statement prepared by scientists William Ryan and Jean-Claude Sibuet, co-chiefs of the drilling expedition." (Source: Daily Breeze, Ca. 6/10/76). ***** "UNDERWATER ROAD LINKED TO ATLANTIS" -- Miami - "A group of underwater explorers says a submerged rock formation off Bimini in the Bahamas is "the key that validates the myth of Atlantis." The International Explorers Society says it is prepared to prove the "Bimini Road" dates back for more than 6,000 years. As far as we are concerned, Atlantis is a myth, but our job in the International Explorers Society is to explore the various relationships," said Jim Woodman, the group's director." (Source: Daily Breeze, Ca. - 3/24/76) ***** We suggest that you try to obtain a copy of "PROCEEDINGS" - Apr.-May-June, 1976 - Volume 11, NO. 1 --- for a most fascinating map of an UNDERSEA PYRAMID! Apparently it was located by sonar, and shows the size and depth from the surface of the water! Quite!!! Where? East of Bermuda, of course! BOOK REVIEW: "THE EIGHTH TOWER" by John A. Keel.
Saturday Review Press/ E.P. Dutton & Co. Inc.
201 Park Avenue South, New York, N.Y. 10003 - \$8.95
Reviewed by Patrick O'Connell...

This is an excellent book which has combined many ~~seemingly~~ diverse and hitherto apparently unrelated phenomena, into one neat package. UFOs, Loch Ness-type monsters, Yetis, Sasquatch, gnomes, Venusians, Martians (all matter of Space People), the entire spectrum of humanities' gods, devils AND saints! All have been funneled into the same bizarre potpourri, which Keel purports explains such phenomena.

Whether or not you agree with Keel's assertions that we are all biochemical robots..."controlled by the powerful radiations being broadcast from the Eighth Tower..." is a moot point. The essential point, substantiated by numerous references and specific examples, is that there are many ways to perceive 'reality'. Moreover, Keel does a superlative job in demonstrating that because there are various levels from which 'reality' can be perceived, it is logical to observe that the unseen (invisible) world is no less 'real'than our 3-D, Euclidean, physical world, which we routinely categorize as being 'Reality'.

A throughly professional and convincing case is made concerning the reality of ALL aspects of paranormal experiences. Perhaps because our contemporary technology IS advancing to a point where today's so-called science fiction will, within a very short time, become tomorrow's science, it is appereat that many people will immediately relate to the validity and the logic of Keels reasonings for the nature of the mechanism behind paranormal manifestations and operations.

Keel methodically documents all significant milestones and provides readable, interesting insights into many historical personages. He takes the reader on an unforgettable trip into the past -- making the present seem leas real!! This forces one to reflect seriously on all the incredible implications that today's events imply concerning tomorrow's 'reality'.

In effect, Keel objectively defines, step-by-step, the "... exact nature of the energies that have manipulated our consciousness since pre-Biblical times..." The book's subtitle "THE COSMIC FORCE BEHIND ALL RELIGIOUS, OCCULT AND UFO PHENOMENA", tells it all. This is a MUST book for anyone who calls himself a serious student of the paranormal. Hopefully, the UNknown, the UNexplained, and the UNexplored will be always with us!

Also, MUST reading is Keel's "The Mothman Prophecies", published in 1875 by Saturday Review Press. Together, the two books provide a coherent, and truly comprehensive rationale in attempting a serious explanation of the nature of the cosmic forces behind paranormal events!

FANTASTIC FLORIDA!
A RESEARCH REPORT FROM THE NEW ATLANTIAN RESEARCH SOCIETY

We were among the featured speakers at the ATLANTIAN JUBILEE that was held in Miami this past May, and conducted four workshops there. This was a gathering of most of the groups that are centered in the Miami area -- and they are all just fantastic! After doing an hour-long radio interview for a local station, we were treated to an evening of fine food and finer conversation, by Dr. J. Manson Valentine and his lovely wife, Ann! Dr. Valentine is the foremost of the serious scientists who are engaged in Atlantean re-discovery, and his finding of the now famous 'temple' off the coast of Florida sparked the upsurge of research! Just prior to being with the Valentines, we were excited over hearing from Peter Tomkins, who also lives in the Miami area, and Charles Berlitz! Atlantis lives on!

On the 24th through the 26th of June we did three shows a day at Tyrone Square Mall in St. Petersburg! This was an exciting experience in really getting out and meeting the GP (general public) and to present to them a UFO program of FACTS, not fiction!

We received a call from the editor of the Tampa Newspaper, "The Neighbor" who told us of recent UFO reports that he had received, and we supplied him with additional data on them that we had gathered, and the paper gave us some very good coverage on their pages! The most interesting of the reports concerns two men who were driving down a country back road on June 30th, and saw a "black shape", in the form of a rectangle, "which disappeared right in front of my eyes"! The two eyewitnesses said there were no lights on the object, and no noise. It apparently was hovering over the roadway, not touching the ground. Both the witnesses are employed by State Senator Julian Lane on a dairy farm. There were also many reports of orange-red, glowing objects seen a week before in the same general areas. At the same time this happened, we were chasing down reports of objects over Tampa Bay, and over St. Petersburg!

ARGOSY UFO SPECIAL re-printed two articles that I did with Brad Steiger some years ago -- and the editor, Lou Sahadi, called me to offer me an article on my research alone! Look for this about Oct. or Nov. issues.

A new magazine, tabloid-type, has appeared here in St. Petersburg! SKYLIGHT! A locally produced and oriented zine and I am proud to say that I am a Contributing Editor! My monthly column on UFOs is but one of the exciting departments. Penny Biemiller and Suzanne Robison are the two leading 'Lights' and they put out a wealth of information on What is Happening Where on the SunCoast. There are many stars in SKYLIGHT! An inter-group service well done.

SOON TO BE PUBLISHED!!! -- A paper-back, for newstand distribution nationwide - a 'do-it-yourself-' handbook on UFO investigation! The New Atlanteans have been working on this project for three months now, and we are in the final countdown! Sections include: How to's on Investigation techniques, reports, photography, interviewing, actual cases and comments, how to get publicity for your local group, newspaper and magazine coverage, etc.! A MUST for the new UFO Expert! We are now negotiating with two national publishers for financing. Our thanks to all who have worked so hard!

People in northern Peru's Quiruvilca region claim to have seen the fat, silver-shiny monster come out of Los Angeles (The Angels) Lake, more than 12,000 feet above sea level. HAVE YOU SIGHTED ANY GOOD "YOWIES" LATELY? - National television and newspapers in Sydney and Orange last week carried stories of a "Yowie"-- a strange creature from the past -- that was supposed to be haunting an area around Mudgee. The existence of the creature was announced by well known and sometimes controversial Mt. Victoria anthropologist, Mr. Reg Gilroy, director of the Mt. York Natural History Museum... "It was about 9 o'clock in the evening and Gary had walked out the back door after supper. I was standing just behind him, and I heard him cry out. I rushed out the door and I saw this huge figure coming around the corner of the house. It was seven or eight feet tall and seemed to be all covered in hair. With great regularity he has been finding freshly picked carcasses of sheep, all registered Rambouillets. What is strange about the dead sheep is that they have been completely reduced to skeletons. No flesh is left and the bones have not been pulled apart. There is never any odor around the skeletons as there would be if the dead animal had lain for several days while buzzards cleaned the meat from the bones...
