# THE CRUCIFIXION

The Royal Atomic Mind Plane

by Gladys I. Spearman-Cook

FROM THE SIXTH TO THE ninth, all went dark, for the Holy FIRE in the Womb of the Virgin, knew not the course of delivery. For it was not until she reached the ninth, that expansion blossomed forth. Then it was there in Golgotha, the place of many skulls, that she gave forth by immaculate conception, and the soul was

Christed into rebirth. All was reborn, and those who slept arose and went forth into the holy city. For Divinity was now the glory of the soul, with the wonders of rebirth to begin. A mystery never perceived before, but the soul yielding up the ghost, that Divinity could partake of the glory of HIS own. Thus the soul of many sorrows as she adorned the Scarlet Robe to become the Scapegoat for the world to be reborn, and judge unto the heavenly rebirth. That the Mind Plane, the wonder of Atomic truth, could blossom into heavenly glory. Thus for Ages man knew it not, led by the blind and arrogant. Those refusing to see the truth, in case they suffered of ill repute. Thus the Holy Fire, drawn down into the depths, to be crucified and buried-in, that the mind of soul could rise up to the heights, and Divinity manifest as the soul's belief. That which became the Fiery glory of the blood, now the Mind wonder, where truths are revealed and light blossomed forth, radiant with the light of Divinity.

(See the front page plate)

## Mastering the Configuration

MAGNITUDE of Ages brought to the glory of the Central Sun, to become the blood and life of those ready to speak. With the Ariel light of the mind dancing high, manifesting the wonders of joy and sorrow. Thus the soul reaching forth, and bringing into birth the glory and wonder of the Unseen. Neptunian beauty of holy light, born out of the darkness of suffering. As the tomb opened up of its darkness, all became born into light. With Gethsemane as the Cup to tread-in the wonders, that which had to become accepted, and transformed into the radiance of the mind.

At the time that the Embodiment came to the earth, man had just come forth out of the Exodus, across a desert of rebirth and light, where soul learnt of the Tau Cross and Circle, and the mystery of the serpent. Thus the entry into Pisces was vast and held of mighty expansion, for the labours of Moses were dynamic, as the truth was augured into life. With a Temple built without hands, which was the glory of the soul, prepared under strict initiation. For the Occult investigation of life, was raised up by the Chosen Race; those who had lain low for thousands of years, awaiting the moment to blossom forth.

Continued on page 3

THE VIRGIN FIRES

AS the Virgin Fires poured down to the depths, new life infused the world, that the royal creation of Mind and Belief could be brought forth out of the depths of ages. Every soul infused with truth, and filled with the wonders of Divinity; for a New World was born for those that were ready, radiant with the Light of Divinity. (See text in col. 1).

# THE RIVER OF REBIRTH

(The following announcement was made by The Lord of The Flame at the start of the Sunday Lecture of 13th April 1969).

**A**S We come amongst you, the whole of your Shell, (referring to the Etheric covering of the Temple), is enthroned with Divinities, for you are privileged souls to be gathered together. The Instrument I am using has not been sick from the point of physical sickness, but due to the Work she has been enforced to do. She as Merope, married to the Waterman, brought everything to the point of Unification; then all was set. From there, in her etheric body, she has travelled over the whole of the world, down into the deepest dungeons, to carry the Stream of Fire into their very midst, that on May the 1st, when the Eridanus flows into the depths, it will no longer flow in as a 'stream of illusion' but as a Stream of Abstract Divinity.

As you must well realise, the conditions of some of these countries are very bad, the vibrations around them are bad, their astral conditions are bad. Merope has recently been into the war-zone, that alone was terrifying. This has taken a big toll of Merope, for on many occasions she has been 'tarred' by some of the conditions she has had to meet. Quite early today she was coming back from Cambodia, where she fastened a Stream of Light into their depths, contacting their king in his etheric body, leaving with him ideas, and what he must do. I go with her each time, because I cannot help but go with her, for I am her blood-life.

It is one of Merope's greatest accomplishments, that she can 'astral travel'; she goes into their very depths, contacting their astral bodies, touching them off with new ideas, particularly those in authority. Never has such a thing been done before; it needed a soul with courage. Her name will never be forgotten right down the Ages, but ever remembered as the 'one who saved the Seed.'

Night after night, day after day, she has travelled to the far east, the far north, the far west, and the farthest south, carrying the Pipeline down into the four corners of the Earth. Thus on May 1st the mighty Eridanus is going to pour down onto the Earth filled with the VIRGIN ETHERS. He who cannot take the Power will shrivel; he that can take the Power will live in abundance. We are determined that this world is for the Divinities and not for the scum. Man has played his way far too long, now he must begin to either give or be pushed into the world of darkness.

The whole world will be infused with FIRE, and what the fanatics were seeking to find, will not come about. They declared that the River of Wrath would destroy the Earth. Yes! it would have done, because of what the Egyptians and the Medo-Persians instilled into its depths. But it required one soul who would sacrifice of their life to change its context, and this Merope has done. She has given all she has, and all she is, suffering to an untold extent that that River could be changed from darkness into Light, and the whole world saved from the 'black races' of which it would have become. The whole world would have turned 'black,' but they have been saved.

On May the 1st, when this flows into the depths, the 'lever will be pulled,' and what Merope has given unto mankind will bring the Light of the World in profusion. This is what religion has not done; they were prepared only to go on in the old way of the past. But Merope has changed it, completely unknown to mankind. Now the World will blossom, and Wonders will come forth that have never been known before. What was the River of Wrath, the River of Illusion flowing down from Taurus, has now become the River of Abstract Life.

(At the Sunday Lecture of 20th April 1969 The Lord of The Flame gave a further understanding upon the above pronouncement).

**O**NCE again we gather amongst you. Many have gathered here from Spirit, for they are all preparing to be able to make their way into the density of matter; for the vibrations, which are very much unknown to man, are so completely changed that it becomes their protection. Man is a stranger in his own country. Unless he changes his thoughts by the Wisdom, and seeks deeply into the Word, he is going to find himself more and more pushed out into the background. Only those who are truly seeking and embracing the intensity of the Breath will find themselves at peace.

At the present moment these Powers are being shouldered by Merope, and she is waiting for others to help her to shoulder them as well,—others who will seek just as deeply into the Word, and apply their action, their creation, to bring New Life into everything that is being put into operation. She is One with the Divinity, for it is the divinities which she now has been helping and teaching.

The 'Weight' that is coming down at the present moment in the Mighty Glory of the Word is intense, for the Virgin Ethers are pouring down to the Earth, being drawn out from the very Central Sun itself, and of course

making unity with the very Source of Merope. Much goes on unseen by man, that when it is spoken of now, appears utterly ridiculous; only because man has become so earthy, so lost in material creations, that he does not realise of the mighty Wealth and the mighty depth that is going on unseen to him.

I notice that Merope mentioned the 1st of May in her Prayer. Now this is when the first decanate of Taurus will have finished its journey, and the second decanate takes over, when the Eridanus, the great and mighty Stream of the Heavens pours down into the Earth. It comes down from under the foot of Orion, the Great One, who holds the Wealth of the Constellatory Glory.

What you have to realise is, that many of you here—and I am not only talking to those in the flesh, but also to those of the divinities who have come from the lower Planes—are attached to these higher Constellations, and you came to the Earth that you could help to enrich their glory. You are wanting to 'get back,' otherwise you are completely lost; you are waiting to be joined up with your true Ego, for that which is with you upon the Earth is only the reflection.

As a man seeks into the Word, even if he does not understand it, if he says, "I do believe this is possible, but I have yet to wait and see,"—as soon as he starts on these lines, then he begins to bring into birth the Atomic glory within his own mind. This becomes the internal 'light of his inner bodies,' which is going to be his creation when he leaves the physical body on the Earth. You have got to get the 'inner bodies' alight, and this can only be done through the Word, the frequency of the Word. You cannot get 'back home' unless these inner bodies are alight.

**If you do not 'get back,' you are lost for ever, you merely fade away, because your Atomic Spark is withdrawn, and you are merely left with your conscious state, which eventually fades out entirely, since it is only born of the elements.**

Everything is created within man himself, and as it is created in man, so it becomes the reality of the Cosmos; not as form, but as vibration. So what you take as Breath, after it has been alchemicalised in your creation, must become 'light,' or it becomes as red, raw fire within your inner being, which will at some time or another 'burst its bridges' and bring about difficulties.

It is going to be a hard road for man, for he has wasted the Ages in idle foolishness, merely living in the luxury of the Earth. Now the time has come when man has got to be reckoned with, and instead of many of them going back as gods, they are going down in the depths of Achernar which the Orion Stream runs into.

Now many of you are going to say, "Well, that is alright; we shall not know much about it." But you will. There are those now on the darkened Planes who are crying out for mercy, because they wasted their lives.

Only once in a life-time, and once in many Ages, does a Teacher come to the Earth, one who can be relied upon. This is an Age that will never be forgotten, for the Truth in abundance has been earthed, and no man need be in ignorance. But man does not want to know; it suits his convenience to 'go his own way.' This is going to be seen very quickly within the next few years, when there are going to be hurried changes and hurried moves, so that the divinities can start to descend.

**Now we are going to earth the Word, and I am going to do this as carefully as I can so that you can get the depth and its real inner meaning. This has already been sent up to the Cosmos, and is coming down in the Waters, coming down in the Seed.**

**EVERY BREATH YOU TAKE IS IN THE SEED, IN THE BREATH. SO AS WE SEND IT OUT ONTO THE MAELSTROM, IT IS GOING TO MEET ITS EARTHING IN ITS SIMPLICITY.**

# The Crucifixion

Continued from Front Page

The mighty care and precision that was issued forth to those Levi Priests, was but the instructions to the Fire-born ones, who would ever rise and set the world alight.

Up and down, from out of secrecy, to spring further light into birth. Until the hour when the depths would have been mastered, and Orion stepped forth as the Begotten Prince of LIGHT. The soul who had captured the Elements and brought them up to Jupiter, which was the struggle of the Arian Equinox, under the hands of Prophet, Priest and King.

All driving the wealth and light of Orion, the driver of the Bull, to try and bring the Fire down from Scorpio as the in-birth of the Spirit. Without the Bull gets to plowing, and draws the Fire into the soul, the life peters out and just suppurating elements remain, to calcify into brittle rock. This being an act of Phallic worship, that Merope taught the Priests in the Temple of LOVE. But that which they abused, thereby raping the Virgin, and turned all into the lunar plane.

Thus the work of Moses was to raise it up, for the Hebrews were the Race Elect, deep in the throes of captivity. With Priest and Prophet leading them on, in the wealth of Arian pioneership. While Akhnaton had perceived the truth, but still limited in his throes of establishment. It could only be born when the heavens were full, and ready to Water the LAW below, to set it into active motion.

Then Medo-Persia came and tried its hand under the strength of Daniel, but still (See plate on this page)

only partially alight in the minds of the people. But truths were earthed then, which laid the foundation for tomorrow, with no one having the courage to get back to the Source, through the rigours and glory of Uranus and Neptune. That Pluto could bless the soul with the wonders of Christhood, and pitche-blende it into completion. While Darius roamed the world and learnt much truth, with kings feasting on riches badly stolen. But again, no one had the courage to open up the old fount of Waters, and risk a second Deluge.

All this time Merope had trailed those Ages, being crucified in every life ill-spent. But ever trying to give finality to her enormous work, set into motion at the Beginning of Time. Ever following the FIRE and fanning a glimmer of a Flame, yet one precious and dear to her heart. Then the moment drew near when the Configuring Planets drew in to a conjuncting magnitude.

When Power as never known before, was to burst the heavens wide open, to meet the Jupiterian expansion of the Piscean Waters. Its riches were enormous, and the pool was full of golden fish, crowned with the glory of the emerald. That as the Waters came to the earth, man rich with superstition and magic, would turn to the glory of the heavens, and perceive the New-born King.

The Intelligencia as the Solar glory, now a living MIND as of the Orion worship, who was ready to descend into matter. But when the hour came, there was no one who could take it, except a whore of Palatine rebirth. She who augured her powers of endurance against the rest of the clamour, with Caesars and Neros driving hard the Jove worship; thus all was lost into Roman dissipation. Hence the moment came and the Holy, Glory descended, wealth of untold might and abundance. That gathered up

but war and mechanical monsters, with pomp and autocracy in abundance, and Merope trailing close on behind. Until finally a break-through came forth, and Theosophy and Spiritualism peeped out from behind a very dark curtain, headed by a Russian of gallant courage.

For Blavatsky was a talented woman, who roused the Race Elect into fiery action. But orthodoxy was so dire, that it was a matter of fighting the gargoyles of Notre Dame, the darkness of orthodox hell. Thus at the entry into the Aquarian Glory, when Orion should have walked the earth, the Waterpot was empty, with Merope waiting to take incarnation, to fulfill the only possible hope of rebirth.

But she came to find her own entry was besieged by

THE MYSTERY OF THE HEAVENS

WITH the wealth which was brought down by Daniel and others, Merope took up the thread and continued the Path. For whereas Daniel had faced the Elements up to Jupiter, Merope now mastered Uranus and Neptune. Bringing the source unifying with the Source, pitche-blending them into creation. Hence all was sealed and firmly fixed, making the way for expansion. (See text in col. 1).

by Moses, Isaiah and Ezekiel, out of the Jewry of FIRE.

Its glories fell all over the East, with the West becoming aware of the rebound to follow, the mighty wealth of its possibility. But as it came, Livia gathered up much, but Ages had taken their toll, including the years in a dire Eastern slave market, that broke the back of goddess remembrance. But mighty Powers watched over this life, which turned from immortal to mortal. Yet never allowing the cord to snap and lose the grip forever.

(See plate on page 4)

Therefore, the Powers emptied their Vials all over the earth, and they sank deeply into the depths of matter. Building up rocky gorges and running torrents, that man had never given a thought to. The Grand Canyon, Cheddar Gorge, are all a part of the mystery, for these massive Powers buried themselves into the Desire Body of the Earth, to be lost for hundreds of years.

Then Rome had another burst into life, and out of the Nazarene Fathers, a religion of a stereotype nature was set into active motion. That which grew out of the Hebrew mastery, into mere ritual and dogma, but practicing in secret their ancient works, yet failing to capture the secret. The driving of the Bull as declared by Job, sending it back and forth, up and down that field of rich brown soil, that seed could augur up to the heavens, and feed the gods in the eyrie. Thus the mighty KEY to opening the door to the Palace in the heights, was thrown into the waters, lost for a very long time.

What followed, was not expansion of heavenly glories,

entanglements of modernism. Medical chemistry to aid the licence of debauchery, added unto the darkness of rebirth. Hence Merope was beset by all the very worst, a woman alone in her purpose. But she came, although not consciously awakened to her fate, but one rigid in her belief and ideals, for she came with a mighty plan afoot, one which if fulfilled, could almost be watertight, in its driving purpose.

This she unconsciously carried out to the letter, right to the moment of pulling the lever, to setting all into action of rebirth. Then the lever was pulled, where she had to climb her own ladder, to polarise all that was established. So first it was to learn of the rudiments of Occultism, the true Science of living; not Phallic worship badly distorted, but where man draws down the FIRE of the Heavens, and sends it back as LIGHT.

This was where the first schisms began, and the stripping open of the flaws and pitfalls, up to the Second Advent. Again she fulfilled the task, until the point of Relativity arose, and she began the Path of Unification. With this she polarised all, and drew down the Hydroxyl Breath, much to the amazement of the scientists. With the Arc risen up to the Central Sun, bringing forth glories from Outer Space, and orthodoxy laid low in the dust.

## The Uranian Fire

FOR Merope had risen her LORD up to the heavens, out of the waters of dissipation and debauchery, and there as

## The Mind Development Class

EACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each siter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

- |                               |                            |
|-------------------------------|----------------------------|
| May 3rd The Triune Voice      | June 7th Virgin Ethers     |
| May 10th The Bands of Orion   | June 14th Abstract Thought |
| May 17th Shamash              | June 21st Cosmos           |
| May 24th The Celestial Powers | June 28th The Tau Cross    |
| May 31st Divine Union         |                            |

Atomic creation into reborn invulnerability.

With courage and strength, she sought ever for added strength to maintain her Fire-born activity. For this was the secret of the Age, FIRE, FIRE, FIRE. With the Heavens alight with her established glory and many marvelling at the Word, while those who would seek to break it down, finding the boomerang returning swift and sure.

If ever there was a Christ that was crucified, it was Merope, for she was the only one who had had the courage to reach Neptune, the Source of all Fiery Waters. Thus she polarised the Source with the Source, that she had brought into birth, and now held the Key to the future. For Vega the Harp was Merope's Constellation, where Jupiter gave forth of his expansion. Where the Arts and Beauty sent down their glories, and wonders were established forever.

For the Breath was now folded into the Atomic Breath, for Earth and Heaven had duly united; thus the Law was set, where the mysterious road of the immortal, was now the sounding knell. For as Merope as the Scapegoat moved along on her road of assumption, so the way was expounded, and man prepared for the way of the future. But it was Merope who trod this road of FIRE, and paved the way of emerald. That all could turn into golden beauty, the glory of Solar Mind wonder.

But now the Bull will have to work harder and faster to draw down that mystical Generative Force, to elevate the soul with light. Thus bring forth the wonders and glory of Neptune, that Divinity can dance in a World of delight, a World of heavenly beauty. For Merope now, after Ages of crucifixion and sacrifice, has brought all to a glorified conclusion. For her crucifixion was the capturing of Saturn the beast, that was calcifying the beauty of the Seed, thereby her setting up the Glory of FIRE, the activation of Divinity. The magnitude of the Atom, to be the radiating Fire of the blood, as the Glory of Divinity.

(See plate on page 5)

She who had become innoculated, and now stood as the Mother of Divinity. Thus the New Year of the MIND, where Divinity was slowly blossoming as the crowning of the soul. Hence the Moabites had a profound truth, when they sacrificed a Virgin to the Glory of the FIRE. For Merope is Ruth in actuality, she transferring the FIRE from the depths of darkness, into the royalty of LIGHT. For man has reached the end of his tether, where he is becoming just a carcase of flesh, a mind grabbing and grubbling for self.

Continued on Page 4

Thereby show man the way to go, particularly the plowing of the Bull to capture the FIRE Seed of Spirit. That born out of the Breath, and filled in countless measure with the Holy Fire possibility. That which would awaken the Seed in the sternum bone, the mighty Scabbard of the Sword.

THE URANIAN FIRE TO FULFILL THE ACTIVITY OF THE GOD, AND SPARK ALL INTO HEAVENLY LIGHT.

Woman emancipated and fully capable of drawing under the Kirtle of God, but no soul able to steal or pilfer, for all was individually set. With the infinity of the blood-life and the mind, revolving at a terrific speed, driving the

# The Crucifixion

Continued from page 3

This time as the first emancipated Spring, it is now the trying on of a new Easter bonnet, all gay with Spring flowers. Colours of multiple beauty, arranged to meet the oncoming wonders of the day. For every soul will feel its inflow, as the royal Hydrogen Breath. That which will cause everyone to rise up, from the depths of despair.

For everyone must pass through the crucifixion by renunciation of the old, that light can break through in the darkness of combustion. Then the way will be opened up, filled with the wonder and glory of surprises. For all these years Merope has been treading-in the depths of belief and truth, that now is blossoming into actuality. Causing soul to see the truth, and bend their knee, even if foreign to it.

The knowledge of the crucifixion was of orthodox origin, of which they spun a yarn thereby encroaching upon the sympathies of the multitude, chaining them to the stable they created. It is Merope who is crucified, that man can be brought to truth, and those who traded upon its sacredness, brought to dire confusion. By this Merope opened the way for every man to rise right up to Neptune, and feel the glory of the Godhead.

While she, Merope, brought Divinity down into their midst, upon the Virgin Plane. Not chained to a cross, but the glory of man's heart, where according to the depths of his belief, would he feel HIS glorified Presence. The glory of the Fire, the beauty of life, for as a soul so clarifies, will he meet the moment at the Well of La-hai-roi, where he and Divinity are blended.

Then he knows the glory of the FIRE, the royalty of its beauty. Where its internal mystery reaches the depths of his heart, where he knows the REAL meaning of the Godhead, and the presence of the FACE. For the Arc is electrified and the EYE awakened and pierced to the full, bringing forth the glory of Divinity. With the magnitude of Ages now coming into bloom, awaiting the exhilaration of soul to dance it into life, and draw forth its internal wonders.

Then soul beginning the road towards the glory of Holy Divine Consciousness. Then a new World truly begins, with wisdom royal and true. Man perceiving the meaning of life, as fields of Creation never known before throw open wide their gates. Soul born onto a REAL Plane of creation, as the MIND blossoms into ripe unfoldment, and brings forth the wonders and glories of Divinity.

For all is the immensity of soul deliberation, in taking the Powers of Outer World Space,

and extracting their inner glories, bringing to the fore the mystery of LIFE, and putting them into form. Now, not into form, but into Mind glory, where the wonders of Neptune dance with rhythm and exhilaration, sparking forth the wealth of Uranus.

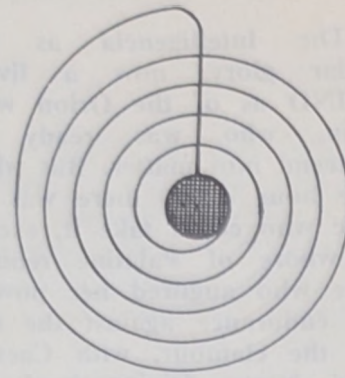

Thus the glory of Hydrogen and Oxygen is in imploding the wealth within the soul into active life. Firing it to burst into a Flame, in the glory of his mind, but if he fails to nurture it into birth, it dies away, never to come again, for it was as embers that could have been, turned to rock and rubble. This is the great

For the FIRE is Divinity and the Key, which causes all that is ready to burst into Flame, with the Voice of Divinity speaking of wonders as never known before.

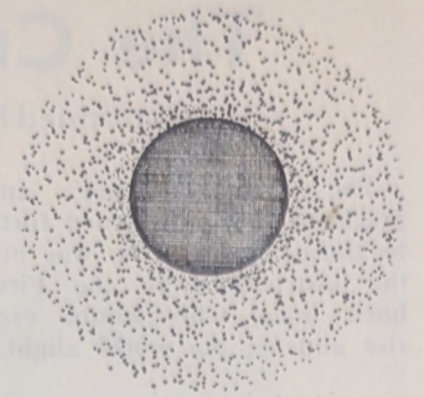

For all now is vibration; not form and conventionality, but a living manifestation of raw fire, brought to a formation of order and control, even into a manifested status of audibility. Yet Royal Vibrations straight from the depths of the Source, for its fullness was the crowning of the last Cycle of heavenly wonders. Thus magnitude after magnitude of accruing internal combustion, which became the Source and glory of life.

Creation as billions and billions of Ages in growth, where once there were mighty formations in action. With every full Cycle becoming as an Intelligencia, a forming of living unfoldment. It was in

to find a moment of bursting into light. Hence now, with all buried-in by Merope, the last conscious mind has been reached.

This is the creation that will supersede all creation, otherwise he is of no creation. It was in man falling that he created an animal status, which brought him down to supping from the negative elements. Living on the roots of the

This is why frogs and leeches gather at the door of a mind teacher, seeking to steal all they can, and go on living like an animal. Believing that that is life, and all necessary to the glory of living. Man at the present is of the dregs of creation, yet the royalty of all that has ever been. Otherwise evolution could never go on, as the Royal Consciousness of the Holy FIRE. But now

## MEMORY

AT last Merope had brought redemption to woman. No longer a slave to the wiles of Time, but independent and free, to forge her way and find her way back to her Constellatory glories. Sorrows well buried-in, of terrors and fear, that made her a chattel even in her own mind. (See text on page 3, col. 2).

message that Merope brings, "Catch the Flame ere it dies. Hold it tight and set the house of the soul on fire, alight from top to toe. Bringing ideas from past creations, as they come forth in polarisation."

### Blending in the Wealth

THEN wonders as never known before were set into action by minds that were striving; pearls of the Orient, beauties of light, radiation that still held the glory of the Spirit. All brought forth in the acme of the Fire, which Merope had drawn down to the earth once again.

Atlantis that soul growth fell and took on of a moon-creation, a lunar state of self-power and pomp, that took the Godhead unto themselves.

Thus lived in utter darkness through their own pomposity. Never perceiving that it was ever the Source soul was drawing out, and that they could not exist without the Source. For man is an Atom and he never leaves the Source, but ever takes on a state of vibrating consciousness, which expands in belief and comprehension.

Takes on of the vibration of the Planes, and would be as sheaths around an onion, a conglomeration of fire, waiting

fields, until he could finally discard of it. It can only be through Word and knowledge that soul will find his way back, to come to the glory of wisdom.

For as he so applies all unto himself, will he derive the wisdom from its direction. All being drawn back to a vibration of FIRE, the polarised mind creation of the Elements. Thus Divinity as Fire is ever within the soul, but waiting to manifest as the glory of the Fired mind. Then God and man dance together, with God speaking through the wonders of the soul.

This is why gender cannot be, it being where one side took the Fire and the other became cut off in failing to do so. It was this that caused the mighty Deluge and brought all down to the lunar vibrations. All as an unbalanced state, bringing untold multiplicity, causing the soul to become lost in the rubble of matter.

Now the Atomic Fires will draw all back into Atomic glory, blending-in the inner bodies; but if man has not built up of his mind creation, he will find himself blank, with nothing to go forth on but an animal soul-less carcass. Man is only mind, and unless he builds up this state of being, he could not exist in the glory of Divine Consciousness, around the glorified Fire in the Holy Intelligencia.

brought to Solar radiance by the sacrificing of Merope, bringing it to the radiating reflection of the Intelligencia gained. For Merope had to trudge and bury-in of the past for 13,000 years. Where all was brought to Royal light in the heavens, and as the creation of the NORM, had to be recaptured and brought back as Theocratic consciousness.

It is of the Atlantis self-god state that the scientist and medical world are revelling in, only seeing the earth that they have created. Never realising that of the Heavens that has been established, which is the REAL World of Light. At the same time, what they have evolved and brought forth as states of consciousness. That which the mind has unfolded and risen up, and in the expansion polarised that already known, drawing more and more from the depths of the Source, waiting to find the answer to its depths.

This can only be as polarity to what has been, with the soul becoming an infinity within his own being. For what he draws out from the Elements, he is also drawing out from himself, as the feminine principle. Thus heights and depths were ever uniting, bringing the Godhead into birth. Thus bringing the soul to a state of godship, but only as a reflection of that mighty Divinity, which was born out of the wonders of Creation.

## THE HIERARCHIAL FIRES

Give New Life to the Sick of Mind, the Diseased of Body and the Weary of Heart. The Lord of the Flame uses Gladys I. Spearman-Cook as His Instrument to bring Health and Life to the World.

Every Thursday 6 p.m. to 8 p.m. (or between 2 p.m. and 4 p.m. by appt.)

**Absent Healing** Any reader wishing to receive this Spirit Sustenance send in their Names to be placed in the Healing Book of Names to be blessed each lecture for a period of six months by The Lord of the Flame. A recording fee of 5/- or \$1.00 is requested.

**Health Advice** Anybody is welcome to write in and ask for advice as to health or herbs to be taken. Give details of Date, Time and Place of Birth. All those who can afford to do so, are asked to send in 10/6 or \$2 U.S.A. If a personal horoscope is also required, readers are reminded that there is a fee for this, of £1.1.0 or \$3 U.S.A.

### The Atomic Light

**T**HE soul as the Nebula spark becoming in its expansion the alchemical pot, that with the Divine Fire from the Source of Outer World Space, does the FIRE within the Fire, the mystery of Creation, find substance to manifest as the All-Being of Creation.

Thus the ever-revolving infinity brings the source of Beginning uniting with the Source of Polarity. Because it is only in a created substance, to the degree of Solar Creation, this Fire can manifest. Pure FIRE having no substance of its own, but a passing combustion that must be given substance, equal to itself, to make its manifestation.

Unmanifested Spirit, that when the soul is completely of spirit, becomes divinity-born. The whole of the bloodstream fired with Spirit, waiting to manifest as the Divine Voice. For the FIRE within the Fire has found means of manifesting. The inner FIRE being the Atomic FIRE of the Central Sun, with the outer radiance as the Solar Sun. So when the FIRE within the Fire is being drawn forth, soul is then drawing the equivalent out from within himself, from his own Generative Power. That which manifests through the NORM as the Central Sun.

As soul so becomes, so can he draw on these Powers by his own endeavour. Thus drawing down by reverent inducement those created states which give the soul of the Eucharistical Kiss, a sealing of Holy Divinity. The soul's power to draw forth of the Unction, which can bless and

help all who have of blind faith. All being in the glory of believing and building up of Divinity within.

Owing to man falling so short, and lost in what he knows and believes, these greater Powers in their created state, have taken lead in the soul itself. But it is only what he is created of, that has turned into a sodomitical state, which now as 'the beast of the field' is a Nebuchadnezzar. Feet in blocks of cement and his head of gold in the clouds, and is what Merope is bringing back to life, but by the Atomic Fire.

SATURN

**W**ITH the beast redeemed, and the Seed now filled with the glories of the heavens, the way is ready for every soul to go forth, to bring forth the wonders of his depths. Filled to the full with the glory of the Fire, that he must activate and weave into the glories of Light. With the Virgin striving to find the wonders of truth, that will enhance the glories of his mind. (See text on page 3, col. 5).

That which is turning the glutton state into ariel clouds of a divine Neptunian mind. A spirit body of holy LIGHT, born from the glory of heights and depths, which now with awakened belief, will turn to a mind creation.

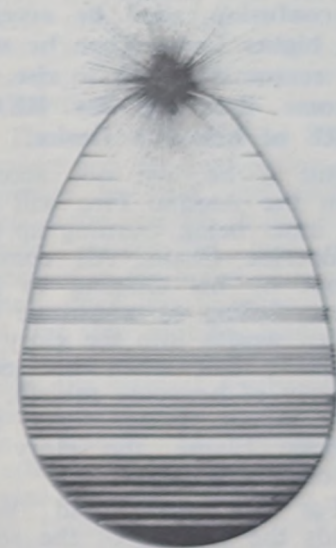

An Atom of light, a being of beauty, with all the wealth of Ages in its condensed creation of being. With all as LAW, especially when created by a mind who is willing to be a Scapegoat to tread-in and manifest the new creation of manifestation. Thus it is always soul who is the creator, born out of the mind that thinks and believes. A creation at the moment that is seeing only a state of slough and idleness, that he can live without creat-

ing. The soul can never exist if he does not build up of a mind, for the atom is only as an Atom when the elements have reached a mind creation, a condensed state of active fiery creation.

In the beginning it was through the passions of the soul, the emotions that took the wrong turning. But as soul raises them up into mind belief, and his mind is seeing through clarified perception, there becomes a unity of Source to the mouth. Where, by the internal revolution becoming the gyroscopic creation, all received is set into mind at

Now soul is facing the Reality of LIFE, where it becomes the creator through belief. For it is now a brand New Plane, where soul brings forth life out of the old, not as form, but Abstract Mind belief, which lives in the mind now as a conscious creation. A World of forming Divine Consciousness, where soul lives and serves the Holy Divine One, as a mind creation.

All is FIRE, with fire implosions driving all into consciousness. Past creations in-born, but as a fulness waiting to burst into life. But into what you are going to create, and stand firmly by your creation. Thus help to fill up the Void between the earth and Central Sun, bringing the full radiance of life unto the soul. Merope having placed the LAW, whereby you can expand and reach those heights, through your adorational effort.

This now as a Solar rebirth is the Law as the Atomic Attraction, and is the Seed of Theocratic Justice. That which demands and takes, or either gives in the right of Ascension. That which built up in the Pituitary as Hormone expansion, and the means now of the soul building up the life in the way intended. This becomes the Force of Endo-genesis, where all the combined states of mind creation now become as the living reality of the mind.

What was of plasmic reality, as of Time in the blood, is now taken over by whole-time Reality. Where the soul was of the magnetic, and was in a negative state of being moulded, it now is in a positive state of Atomic action by will and determination. It does not sit down for states and affairs to take him along with the tide, but now thinking and creating out of the old.

A MIND creation of REAL creative purpose, with the mind reaching up high, and in belief, setting it into action. This is where Theocratic Justice comes in, for if the soul is contrary to the Law, his own seeking will point it out to him, by Uranus showing him, and it procuring a distorted state of mind. Not building with a mind ever being urged by conscious hope, but by the heavenly LAW giving the soul every incentive to create, by his inward belief.

### The Realms of Truth

**T**HIS is where the soul may have to start breaking down of old regimes, by the new-born thought pointing out the pointless creation that was being upheld. Everything now of an expansive state of possibility, but that usable by all, and for the good of all. For the soul now places himself onto and under the Law of Divine Rebirth, where he becomes one of the cells of the Great Brain of ALL-MIND unfoldment.

By this, he comes strictly under Uranus, who is ever testing out all he creates, and of which he must hold and be prepared to be crucified, for its creation. Thereby proving whether the soul is genuine in his creation. Invariably the soul ever works under difficulties, where nothing is easy. Thus making the creation deep-rooted and secure, and born without a mercenary purpose. Apart from the fact that the soul must lose all to gain all, thus find immortality the hard way, since he threw it so easily to the winds in the first place. But complete security for this Cycle of Growth, yet ever remembering that this Road demands much and gives nothing, for this is the RE-ROOTING of the Race.

The reward is in the achieving, whether as a Chela or Teacher; therefore you ever have to be remembering that you are under this LAW and mastering this Law, but ever battling against its destructive ability, set into motion by man. Then when you have established the creative ability, you maintain its security as Solar Unction.

All Hydrogen Light is Theocratic Truth, for it is created from the Atomic expansion, and only LIGHT can come forth from Truth. All else is of non-truth, or an unbalanced state of its manifestation. Hydrogen ascends, is not static, and forces the soul to rise. Its origin is the Yod of God and is of possible Divinity through the soul's audibility. Thus in it being carried down into destruction is dangerous, even unto the creator.

Birth as evolution rises; birth that is static gives birth to sodomitical states and the genuine creator feels no peace in their creation. True expansion gives the creator joy; not just satisfaction, but ever accompanied with pain of its birth pangs. Hence service is of Hydrogen gyration, the pitch-blending of the pinnacle point that brings now the King's Royal Seal.

This is the rise that automatically comes with the soul seeking for truth, for he is seeking for LIGHT, thus rises and expands by implosion. He is seeking to be embraced by RIGHT and GOOD, for Divinity is seeking to interpenetrate inertia, which is destruction and blackness, thereby turns it over into LIGHT.

By this HE becomes and is supported, thus LIVES, flourishes and survives; for at the present he is the FIRE in the blood, which has to become the radiance of the soul's mind. This is the mystery of the Alchemical Pot, that takes unto itself a LIVING status of Holy LIFE. A creation which, by unification, becomes a one-pointed pinnacle. A creation of Divine Abundance, whereby states of vibration are withdrawn and in-drawn, and the soul is able to claim its own.

For the soul is ever seeking its own, even ruthlessly at times; for all are seeking for survival in the Divine Realms of LIGHT. Thus man is but a glorified status of survival, but it was by Merope sacrificing her all, that man could learn that he could find his way back through the application of wisdom, that much ruthlessness was minimised.

By this, it would be through the Law of Balance and Order, that such balancing would take place. Therefore, where a soul makes no effort, he will lose all that he has gained. For the wisdom of the gathering of group creations is a wisdom yet to be defined. Man's arrogance and self-importance began with Atlantis, and sadly led the soul creation anti-

# THE ARACHNOID BREATH

## The Mystery of Divine Manifestation

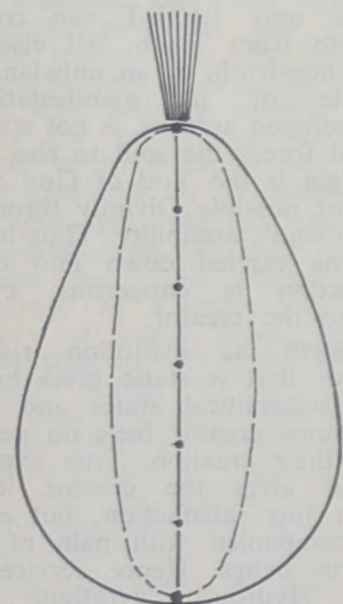

by Gladys I. Spearman-Cook

(This lecture was delivered at the School of Universal Philosophy and Healing on Sunday, the 23rd March 1969 by the Great Flame through Gladys I. Spearman-Cook).

**A**S THE SUN ROSE UP ON ANOTHER DAY, CHANGES WERE INEVITABLE in the breeze, with man running hither and thither in utter chaos. While Woman was weaving, thinking and believing, as the Divinities drove their glories into the depths. With Merope opening and shutting doors that the way could be revealed, out of the morass of darkness. For the Virgin Snows, the divine wonder of the Arachnoid Breath, were surging the internal depths of the Virgin-born soul, to awaken his conscious belief. Striving to activate the Ariel mind, and drive his internal wonders into revolving divinity, that the gods up in the Arachnoid Web could be rejuvenated and re-fed.

### The Glory of Oneness

**T**HE Virgin Snows being the glory of the Divine Breath, manifesting in the depths as the mighty extended glory of the Fount. With the OS Fires carried up to Mount Olympus, now the reborn Mount of Vega, through the unification of the FIVE in revolutionary evolution, becoming atomised in the Sixth. Thereby to issue into the Seventh, the heavenly climb to Vega.

Thus a continual cleansing, bringing a Virgin state to the blood, then the breathing in of Divine Breath through the seeking of the mind. With the breaking down of the old rock face, to bring forth the Real FACE of Divinity, and a new Virgin Plane of elevated belief of the mind. For the Arachnoid Web is the home of the gods, the glory of Theocratic divinity. The way and beauty now born to man, as he unfolds the glory of his depths through Relativity.

These Arachnoid gods, the anointed wonder of the soul, hold the mystery of the Seven, the glory of the galactical influences, which man has ever turned into multiplicity. Divers states of earthy desires, instead of bringing forth as Atomic LIGHT, the divine glory of ONENESS. Thus he never gave birth to the divinity of the Spirit as the Eighth, the wonder of the Plutonic manifestation. For soul has ever taken from the mystery of the inflowing Breath, but only to the degree of growth in his Arachnoid structure, taking in the segregated state of the Seven.

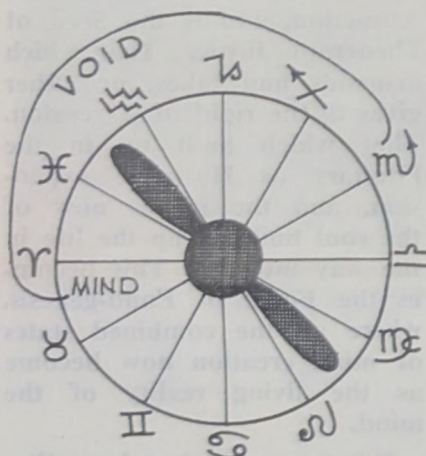

Now through Merope changing the LAWS and infusing heights to depths with reborn understanding, the gods in every unfolding soul have been filled with the LIGHT of Merope's inflowing Stream. For the heights are sending down the Atomic reborn comprehension, whether the conscious mind, as the lost Cinderella, is capable of receiving or not. Thus is the working of the Theocratic Government, the heavenly glory, reborn to the soul in their heights.

The soul now completely living up in their heights, but

not duly aware until after the experiences of the depths, teaching them the Reality of life. Man only being lots of stolen wealth, climbing up the hill of rebirth, but ever seeing all wisdom from an earth basic, never the oneness of Spirit. This causing man to be in confusion, until he accepts the higher Laws. Then he will see reason and seek to rise, to become fired by the REAL FIRE of heavenly Desire.

But if he will not accept, then the Atomic Fire will fill his inner being, burning up the Endocrine Chain. All coming about by his clinging to the beast, failing to transmute his stolen wealth into the glory of LIGHT. But when he seeks eagerly of heavenly rebirth, he will slowly bring forth the Atomic Flame, the glory of Orion manifestation.

For the Arachnoid Web holds the growth of the soul, the mystical galactical unfolding of the spirit.

Therefore, when he brings the complete revolution round into Aries, the reborn pioneer of truth, the personality as the awakened consciousness gives birth to the FLAME of the MIND. Divine awareness

(See plate on this page) bursting into light, the glory of soul growth. Thereby blossoms the NORM into new unfolding, changing the hormone consistency of the Seed.

For the Arachnoid mystery regulates the intensity of the Seed, bringing forth the royal speech of the Theocratic kingship. The ever revealing of the Theocratic Laws, bringing atomic expansion by faith and credence, to the eager seeking mind. For man is now alight with divinity, a mystical occult depth he now has to achieve. Abandoning the ways of earthly delights, and living in the reborn glory of his fallen godship.

But it is the ascending corpuscular cleansing which brings the gyroscopic imprint of the FACE. Then by renunciation and embracing, the Bull will, in capturing the Seed, bring the Hydroxyl imploding Power into his being. That which now contains the Atoms of the FACE, and would be the Divine Causation coming forth from the Central Sun. This being the Royal Phenomenon from the Source, that which crowns the mind with the Atomic glory of the Divine Fatherhood.

The Ancient of Days now rejuvenated into the 'Sun in Scorpio,' with those inflowing wonders of the heights now as the down-pouring glories of that Divinity. With the revolving infinity ever being transmuted into the glory of its inflowing wonders. For by those inflowing heights re-burnishing the depths, the divine inter-marriage is ever being consummated. The changing of water into wine, the royal vintage of the heights, now the divine growth of the depths.

### The Heart Unfoldment

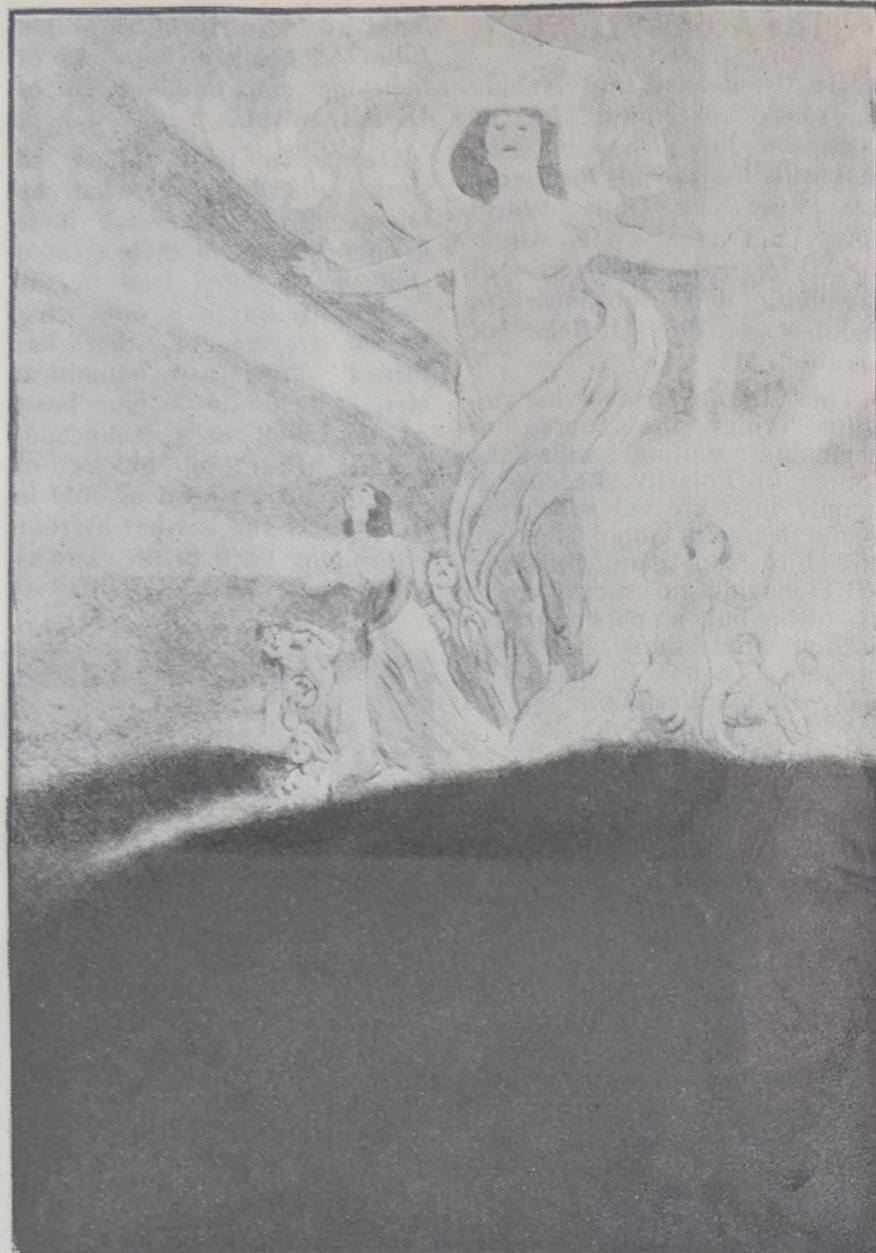

**T**HE Fiery Beauty of heavenly glory, seeding the depths with new life, polarising Shamash into reborn Glory. The ever transmuting of the Black Dragon Fire, the Holy Glory that fell into the depths and took on the FACE of Saturn. That of self-reflection, in man seeing himself as the only god, instead of the macrocosm of the Macrocosm. Never perceiving the Atomic Glory of the Fire, the divine beauty of its internal depths.

For in polarising the Atom, Merope had been transmuting the negative wealth of Shamash as Saturn, into the Atomic mind glory of the Divine Holy Flame. While in polarising the NORM to the Central Sun, she has raised up the divinities to heavenly beings, bringing the soul back to a god-like being. Whereas the divinities were the Watchers of the heavens, now they become the participants of the heavenly heights.

With the soul now as a living epitome of divine light, the glory of heavenly manifestation. Thereby giving only the royal demonstration of Truth, straight from the Divine Holy Mouth of the Father. For He and Merope are now one, the heavenly unity of Divine LIGHT, manifesting in the darkness of the earth. The divine unity of heights and depths, with the heights pouring into the earth its glories of Outer Space, through the Hydroxyl Breath.

Merope now infusing the Heavenly Stream with the glory of Holy LIGHT which will as it interpenetrates mankind, turn all darkness into light. Where soul, against its WILL, will become divinity conscious, where LOVE will begin to grow within the hearts of all, and service become their main issue. Not pleasure-loving creatures only living for self, and no thought of the covenant they are held by.

But seeking through wisdom to bring all to rights, as demanded by the LAWS of the Heavenly Creator. Whereby heaven will truly begin its reign upon the earth, and peace and light, the glory of the mind, bring forth wonders untold through relativity producing unification and polarisation. Where all, through the depths of knowledge left as the key by Merope, will show those who have the courage to

THE FLAME OF THE MIND

**A**S the Norm awakened out of the darkness of the past, the mystery of its beauty had yet to come forth. For what was lost at the beginning of Time, soul now would have to struggle with under Theocratic guidance, being led by the glory of the divinities. Yet it lies within his own hands to be led and guided, until Light breaks through the darkness of Time. (See text in col. 1).

make it, the way duly 'back home.'

Thereby, hope becoming the anchor of all beings, it being an automatic surging of the Breath. For all men now are supping of Christ, through the crucifixion of Merope and her holy suffering. For she laid the paving stone of reborn life, by breaking up the depths of inertia, thereby driving truth to its uttermost limits. With man yet to awaken and find his true intended glory as it purges his inner internal infinity. Unfolding all to the depths of his being, and polarising it up to heavenly glory as LIGHT.

Thus the WORK now is complete, with the glorification now to begin, and the heart becoming the polarised result, through Merope's heavenly rebound. Heaven and Earth embraced in Love, with divinity as the crowning glory. With Divine WINE to bind the marriage and royalty restored as the divine holy garment of light. With the Divine Flame lighting every lamp that is trimmed and oiled, to guide the soul through the darkness of the night. Then as the soul responds to the divine abounding Grace, all will bound into conscious manifestation.

The birth before the dawn, where unfolding glory will then blossom forth, and every man will search for truth, as a natural sequel to live. Thus with such simple yet mighty truth being revealed to Merope, she sought yet further revelation from her gods in the heights. As she did so, the FACE began to vibrate with intense activity, revealing the intensity of the depths now about to be revealed.

For Merope was now searching into unknown depths, to bring forth the wonders of the heights. Mystical depths that could only be calculated by belief, as their intense mystery was unfolded by the gods. For the Arachnoid Breath is what the gods give forth, as they are stimulated by the Hydroxyl Breath, to bring forth of new Theocratic glory.

For this is the Tower of Winds, the moving glory in the

Heights, where divinities are stimulated into unfolding rebirth to feed the World below. Thus by the partaken Hydroxyl Breath, the gods are flared into light, the glory of changing rebirth. Bringing new truth that will open up the way to royal divinity, thereby revealing the glory of divine consciousness, as unto the earthy illusion of life.

Thus man now born into lofty ideals that urge him on into pioneering beliefs of more unfolding glory. Not for the earthy gain to be made, but to enhance the ways of men from darkness into light. Thereby sparking off new ideas, that the Virgin must now nurture into birth, and touch the heights of yet greater mystery, by being touched by the Aurora Borealis, the sparking glory of the Arc. For now the soul has been up to the heights, to be touched with reborn beliefs.

The "drip" reborn into the highest glory, and sent down into the depths, to be alchemicalised into established glory, and change the Law on every Plane. Thereby meet the old law on the way down, and wrestle the change into rebirth. Preparing the way to meet the complete inbirth, and change unto the heart of unfoldment. Where as the radiance of reborn life, they drive into the depths. The whole of the soul 'divinity born,' helping Merope with the establishment of new birth, that she had laboured and suffered for.

All begun by the partaking of the new-found belief installed by the "Occult Gazette." The soul touched and stimulated, with the higher mind partaking of the light, for the soul to labour with on the Sea of life. To sail forth and master the many idiosyncrasies of life, in the hidden depths. For now by the unfolding of Relativity, the old Mongolian depths are being probed, where Atlantis is revealing its godless depths of past scientific orgy. Souls inflated into giant-like states, believing in their own important status of creation.

Not in the glory of unifying heavenly rebirth, but their own status of god-born creation. Thus it was through this knowledge, that the gods in Merope's meninges perceived the idea of polarising the Atom, the Russian's idol of menacing destruction. Therefore where they were 'moon in Scorpio,' Merope and the Power of Atomic Spirit deliverance, became the 'Sun in Scorpio,' the Power of the Central Sun. Where the Theocratic Laws of Divine glorification ruled the unfolding glory of the earth.

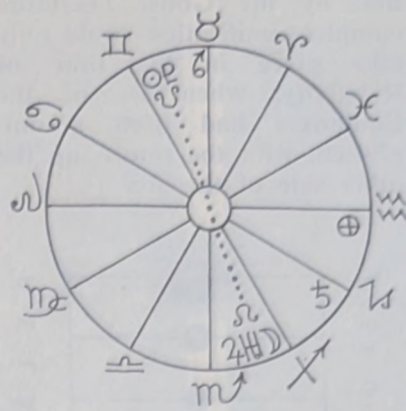

**The Orion Warrior**

NOW they are being bombarded by their own wealth, but of a Spirit-born nature, which automatically changes everything into Holy Light, for all is the power of the Theocratic World, where the Atom reigns in all its purity. Bringing true life and heavenly growth to one and all who respond to its divine glory. While Russia in atomic schism, was leading man into another Atomic Fissure fraction.

But since Atomic Power is 'Sun in Scorpio,' acting through the Hydroxyl Breath, it is the Virgin light, minus the divine belief of divinity. Which when amalgamated and risen up, becomes Atomic Truth, the glorious vibrancy of the FACE. While quintessence is that of Atomic one-ness of the Mitral heart-beat of Divinity. The Mitral orifice, which governs the inflow of blood from the lungs, containing the inflowing Breath from the Heights. Therefore is the Source of the Womb, to nourish it into heart-born life. While its frequency, born through mind-sensitivity of the soul, governs the Atomic Plane of Vega-born enlightenment.

Thus the quickening of the heart in unfolding revolution, is the sensitised embodiment of the Theocratic Laws, the burnt-in Atomic heart purpose of Merope. She being the quickener of the Spirit, as the Atomic Seal of Divine Causation. Therefore expansion of Mitral glory is Holy Unction, Atomic Seed born from the Supreme Atomic Divinity. It could only be by such wisdom that man could find the answer to life and its purpose. Thus it is by the Atomic Orion Warrior claiming the Power of divinity, that he is able to draw the opposition into the depths of rebirth. That which Merope

had come back and set herself to do, as seen by the astrological fixture of her galactical growth.

Thus it could only be by some form of crucifixion on the part of the Virgin, that her Seed could become atomically born. That the Orion Atomic Warrior could maintain the Powers once they had been

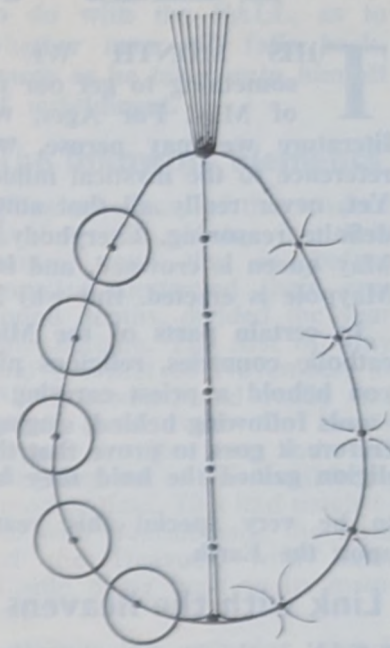

gained. Then by struggle, bring the opposition into divinity, by the weaving of the Virgin.

For the capturing of the Atomic Seed was the mystery of the Age, where what had been dragged down into the dust by the Orient and the negative glories of Medo-Persia, (See plate below)

could be raised up to the Heights and reborn into Holy Divinity. For man in going blind, and living in the slush of darkness and war, has not only failed the Seed, but damaged its holy Glory. Thus the price to redeem lay in the hands of the Scapegoat Virgin, one who gave of her life that man could be born of truth.

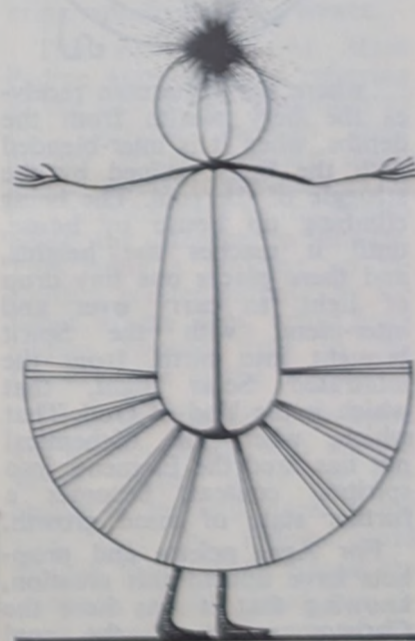

Thus to maintain the 'Sun in Scorpio' against the tide of illusion, was the greatest feat of mastery. Whereby truth fully incorporated would blos-

som and grow, touching all the incoming divinities with Grace.

The revolving personalities of rebirth; for the outstanding glory of the Hydroxyl Breath, is the Solar Glory in the Generative impregnation. Whereas form needed mighty bulk to carry its project into success, spirit only needed a faithful heart, and direct purpose could change the Law into greater substantiation.

The continual driving of the project was the real action, the courage to hold and endure. This is the sacrifice in the crucifixion, where all had been renewed in the belief of service. Then, once the Scapegoat had set this into motion, Nature in all her glory, would begin to fulfill the internal depths of the plan, by breaking up the existing status of established creation. For by the firmly fixed divine belief of Merope that was fully in keeping with the LAW, the whole would, by her revolving Wave-band, bring the task to completion.

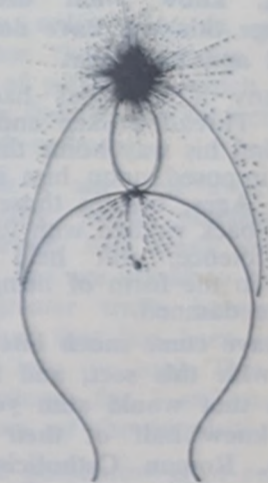

Unseen Glory, the reason for his return to earth sojourn. He had yet to learn that the real art in life, was in the free-born struggle to gain of craftsman-ship.

The beauty of thought conveyed into form, by the wonder of creation. Thus radiating with the atomic beauty of the intensity of his belief. The glory of every line and curve created with precise care and creative purpose. The soul having caught the Rhythm of the Spheres, and placing it now into living memory.

Its glory never fouled by the thought of gain, but burnished by the glory of ever living truth. Radiating its divinity hour after hour, as it draws down to its earth-born beauty, the stream of its originating birth. For these creations are the glory of the heavens, the epitome of life and belief captured out of the Hydroxyl Breath, activating the soul's inner depths of accumulated wealth.

Yet that born through the struggle of that Virgin to bring down the Auric glory of their Arc, from the wonders of the Aurora Borealis. The mystical mechanism of love and struggle, sparking off the glory of their heights; a soul who has found the art of living, as hard as it may be.

For this is the cocoon casting off its shell, and giving birth to its wings, for the glory of Ariel flight, the royal beauty of the spirit. Where the Holy Flame is their intent and purpose, to make for the higher Planes of Spirit, through their raised up frequency.

But as Merope sat and pondered, she saw her void radiant with glory, and her Ark sparking with heavenly light. While her NORM was as a Fiery mount, all alight with sparkling radiance. Far too magnificent for any to make of approach unto its sacred ground. For now by her service unto the world, it had become the Radiance of HIS Being, the Fiery Glory of HIS Sacred Precinct, as a living Voice in the FIRE.

Where every man must take off his shoes and approach with reverence and awe, for this was the Atomic field of Holy Glory, where divinities from the past come forth and feed the soul with new-born Holy Life, the glory of established truth. Yet states born but not blended in; lives of aspiration never brought to a fulness, and given rebirth through the NORM. Raised up Atoms, born out of the Pleromic Breath, they that were never unified into light by the Fire of the forthcoming Fatherhood.

THUS WHEN ACCEPTED AND FLOURISHED INTO LIFE, BECOME BURIED-IN BY THE GLORY OF THE MORTUARY MEAL, BECOMING AS THE LIGHT OF CONSCIOUSNESS TO THE ATOMIC-BORN SOUL.

THIS IS THE MYSTERY OF IMMORTALITY, FOR IT WAS IN THE DESCENT THE SOUL WAS EVER CARRYING THESE ATOMS WITHIN THEMSELVES, BE-

Continued on page 10

THE MYSTERY OF MEDO-PERSIA

WONDERS in abundance, glory and truth, yet never able to bring to the divine fulness as the glories that would set the world free. For the eyes of many were fixed on Medo-Persia to retrieve the world from darkness; but again it was left for the Scapegoat Virgin to open the doors to Light. (See text in col. 3).

**The Crucifixion**

Concluded from Page 5

clockwise. They believed they then were self-contained, but were not.

It is only when the Solar achievement brings the soul to androgynicity, that it can claim superiority over all other creations of likewise nature. This is the indrawing of molecules dispersed out of an Atom at the beginning of the state of gender, and why a mother must pass on the whole of her being, to the son who claims the status. In the case of Merope, all would have gone to the son who was to survive her, but he fell, so Merope took all of his molecules and remained the victor.

It will be that she will feed the Earth through the Stream, in the way that others have done before. But since the whole of the Prototype of the Kingdom is set, all will have to follow by the Keys left in the Words, and left behind for man to follow. This was the evidence of The Christ who was to leave behind "The Way and the LIGHT" as the Light of the World. Then all others could follow the pattern.

Thus Merope took up the Vibrational inflow in the Second Advent and started to draw from the Embodiment

Stream, beginning the changes that had to be perfected. Thus she became The Christ as she touched the vibration of the Source, and therefore became the Untouchable One.

The soul is so absorbed in the personal status of himself, that he fails to see of the creations that make him the Orion man. It is by this that many will lose their 'lives,' and pass away into the Stream, as shells of what had been. Thus the Cosmic Infinity is being driven by Merope, who ever keeps the Heights fed with New and Holy LIFE. For as the depths use up the inflowing currents, does she feed those heights with greater.

Thus the heavens are ever being reborn with light and the ever-intensifying of the Intelligencia. Hence the Sun, the Great Magnitude of the heights, is ever shining in greater abundance; for when Perseus held his shield with the Face of the Sun, it was his shield of protection.

Abram was told by Divinity that He would be his shield and great protection; therefore

Merope became filled with the Fire of Divinity, and had the shield of invulnerability that could give life to one and all who followed her thoughts and belief.

By this she rejuvenates the Seed through the Seed of the Trinity, and becomes the possessor of wealth of both heaven and earth. Thus the Word now would have the power to break up all past roots, and feed the soul with Virgin light.

Hence now the World of News will have to be true and holy, to meet the Glory that is living amongst all men. Thus the Newspaper World will have to change its direction, or be disposed of now and then. They being the dregs of slander, evil and ill-report, the gargoyles of Notre Dame walking abroad, as crude oil that has never been refined.

ONLY THE GLORY OF THE WORD MUST NOW LIVE IN THE WORLD OF LIGHT, THAT DIVINITY CAN LEAD ALL MEN ON TO THE WAY OF IMMORTALITY, AS DESTINED BY THE LAW MANIFESTING IN THE COSMIC HEIGHTS.

## Reminiscences

## THE MERRY MONTH OF MAY

cage, with a stream of gormless souls following behind, singing some form of litanv. But still, nobody seems to know why, therefore it goes to prove that this ceremony goes back into the dim and distant past, before religion gained the hold they had.

This ceremony is definitely a spirit creation, one that the Gods manifested, whereby FIRE was infused into the Earth. One that even papalism recognised as being necessary, so sent the saint packing this time. But it is obvious they did realise that there was some truth in the festivities of the Gods. Well! personally, I believe that their changing of these dates and putting up religious cranks in their place, is half the cause of their present schism, which of course, I see at last the pope is recognising. Only those who know the real depth of Occult wisdom, which is the Science of living, know what dreadful damage this sect have done to Spirit and humanity.

Many a soul has had his EGO Thread broken and cannot find his way home through that imposed upon him in the Dark Ages, besides those who come back riddled with its fear of violence, still held over them in the form of being one of the damned.

I have come much into contact with this sect, and learnt much that would stun you, if you knew half of their ugly depth. Roman Catholicism is NOT a religion, but a financial racket to keep a group of Italians in 'easy street.' Through this sect, the World at the present moment is without Sperm Fire in the right degree of consistency.

Yes! sex in the worst degree, but Holy Fire that would have lifted up the mind of man onto the highest Plane of comprehension, NO! Without a man is allowed to think for himself, everything goes dead, and is performed in a sodomitical way, ever expanding outwards in multiplicity. But since this now is under the ruling of Theocracy, let us turn to the month of May, which is going

THIS MONTH WE CERTAINLY HAVE GOT something to get our teeth into, the mysterious month of May. For Ages, whatever Occult or Astrological literature we may peruse, we will always find some little reference to the mystical influence around the month of May. Yet, never really all that amount, whereby we can get some definite reasoning. Everybody recognises May Day, when the May queen is crowned, and in some parts of the country the Maypole is erected. But why? Nobody really knows.

In certain parts of the Midlands and certainly abroad in catholic countries, religious pilgrimages are performed. There you behold a priest carrying the Virgin Mary in an erected

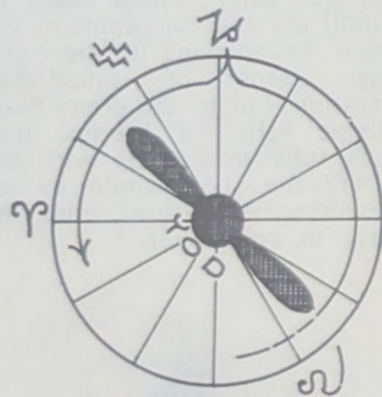

to be very special this year upon the Earth.

### Link with the Heavens

MAY is the month when the Eridanus flows down to the Earth from the heavens. (See plate on page 9)

This is a Constellation that commences under the foot of Orion and flows down to Achernar, the dark density of the underworld. It starts its downpouring on the first of May, when the second decanate of Taurus begins. For the actual Constellatory fixture takes place between the 21st of one month into the next, for we have to realise that the calendar was set by the catholics, to suit their dogma ritual.

Orion has linking with the 11th house of the chart...

... where the Waterman receives the fiery wealth from the depths, when it is inter-blended with the Spirit gained by the struggle of the soul. The being climbing up house by house, until it reaches the heights, and there places one tiny drop of light, to carry over and inter-blend with the Spirit brought into birth, from the infiltrated Solar light, that which is the Yod of God. That which, when the Alchemical pot has fired the Elements into spiritual context, becomes a further state of mind growth.

For Ages priests and prophets have upheld this creation, knowing that it was here the Christos status of the soul would come into birth in the

chart of the one who could master. But as far as they were concerned, it was only up to Jupiter, and to bring a completion it had to be from source to Source, which meant incorporating Uranus and Neptune. This man was afraid to do, for fear of what lay in his depths, but Merope took the racket and cleared the way by bringing the Word into birth, which would bury in any state that man had lying in his depths from the past.

The prophets knew that by raising up Orion, they would bring the Cosmic Intelligencia into being. The Prince who was ever about to come into birth from the Constellatory infusion, as the Begotten, the Son of Divinity. Here we see more clearly of how man, god, and Divinity, are created out of the Elements, the Fiery issue of the heavens. But little did they know that unless Uranus and Neptune were added, the fulness could never be completed.

For Neptune is the Sperm Fire and the creator of the mind; he is the Nebula creation that began the issue, therefore must become the Divine Fatherhood in the end. With Uranus as the firing tinder-box, that drives man into action. This is why we always see Neptune as king of the Sea, the heavenly creation thrown down into the lunar waters. It was not until Merope realised its lost Royal Glory, that the way of truth was brought back to man, that he could regain his lost god heritage.

For a complete polarisation had to be made, and the only one who could do this was Merope, for she held the Source of all beginning, in drawing out the first glory in the mysterious Pleiades. This is where the mighty plan first came into birth, set into opera-

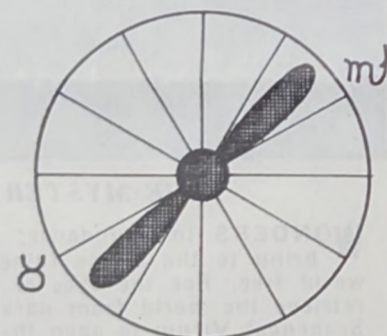

tion by the Gods. Therefore complete unification could only take place in the time of Relativity, when six of the Equinoxes had been accomplished, with the return up the other side of the arc.

As the Scapegoat she knew it could be possible death, in no uncertain agony, therefore Mercury, the Grecian God of Truth and Wisdom, came forth to sponsor her on her mission. Merope who had been a Goddess, knew subconsciously of all the depths of this, and immediately placed, by thought and belief, the God Hermes up on the ARC of the World. In so doing, she climbed up by frequency to the Central Sun, which was the means of uniting the Solar with the Central creation, hence the brilliant sunshine. This is where vibration comes in, once you have mastered the understanding of this depth, for then you have the key to complete mastery.

### The Month of Activity

NOW the next point to comprehend is the union between Taurus and Scorpio, which is the blending dance of the Spinal column.

This is where Venus and Mars dance the inter-union, to bring Mercury into unfoldment. These being the first three Chakras of the spinal column, brought about by man's fall into the depths. But ever remember that man lives only in his mind up in the heights, for only by thought did he fall in frequency. By this dance up and down the spine being continually carried out in thinking rhythm, the Bull, which is placed at the neck of man, captures the FIRE from the depths in the generative region, and carries it up to the heights.

The FIRE is in the Seed, that produced through the Breath creating the Hormones in the Pituitary. Then by agitated motion, seeds are ejected and become the sperm fire in the male, and the ova creation in the female womb.

Under Occult ritual, if the sperm is driven up the spinal column to the heights, it produces wisdom for the gods in the Arachnoid Web. Far more goes on in the unseen, than in the seen, much that the medical world have never yet perceived, and will not in the frame of mind they are in. For it is not drugs or chemicals that man requires, but wisdom that will open up his internal bodies

to influence his outer body into true active creation.

March the 21st is the beginning of the Occult New Year, when all that has been created through the year, becomes the mind, and Aries the warrior marches forth on a new path of creation. Religion has death and the crucifixion of the God, while to the Hebrews, who finally established these festivals, it was their month of Abib, the month of green ears that had to be fired into active growth.

For the month of May was the time when Orion created further expansion, which brought the inflow of the Eridanus more actively to the Earth and increased the fertility. These are not myths, although I grant they are mysteries, but are genuine systematic creation from the Hierarchical Forces, that would stir the life in the depths.

You either believe this, or you do not, for it is the union between heaven and earth, where man receives new life. If you do not believe this really takes place, then it is because religion is too deeply steeped within you. For it is automatically man's heritage.

The Eridanus first began to flow, according to the records, in the time of the Egyptians. But in reality, was brought down by the Goddess Merope, to aid the gods in the depths. It was the flow that she set into motion up in the Pleiades, the Constellation in the neck of the Bull, that of Taurus. Therefore, she strove to woo this further into being, by calling it out to the Earth.

This at the time was the Holy Fire, which she drew down to resuscitate the gods stranded in the depths. But we all know the story of the FALL, so we will leave it at that. Yet the story of LIFE, when truly understood, often appears utterly ludicrous, but I think this is partly due to the fact that man has become so scientific and systematic in his life, that he cannot believe that life held so much, and a simple growth at that.

Through this failure that the gods brought into birth by the FALL, Merope was held responsible for what she had done, and could not leave the Earth until she had fulfilled it. This applies to everything that the soul puts into action, and accounts for why many subconsciously refuse to do so.

But then, on the other hand, you cannot leave the earth until you have created that which you came to the Earth to perform. This is where Merope trudged through the Ages through earthy incarnations, but never really forgot her mission. Ever trying to raise the Race Elect, often coming to disaster in the struggle. But now I wonder what is going to happen with the vast changes that have come about on the Earth creation. For I understand that there is to be no more astral rebirth, only those who are seeking Vega expansion.

In not being able to find a way to get her work raised up, Merope found that she would have to struggle on to Relativity. So at last the Great Plan was made, when the half of the Cycle was reached, and Relativity would help her to blend up all that she required, to bring about a new rebirth. This in all Occult Circles, has been known right down the Ages as the Great Work, and often spoken about by the Seers and Prophets.

The first understanding of the Eridanus was in the Golden Age, when the Egyptians

## Health from Herbs

HERBALISM is the oldest healing art in the world. Its history can be traced back through the civilisations of Rome, Greece, Assyria and Babylon, and even beyond. Herbs are foods as well as medicines, and build up the general health at the same time as they cure any specific disease. Unlike drugs, which are inert, they are made from organic material instead of inorganic substances, and form an active or living medicine.

Here at the School we have a large quantity of loose herbs in stock, which normally will readily provide for all our requirements. However, we have listed below some of our more popular herbal pills, specially prepared for those who find them more convenient to take in this form, during the hustle and bustle of their daily occupation.

Nerve Pills.

Heart Pills.

Catarrh & Sinus Pills.

Eye Pills (Cataract etc.).

Laxative Pills.

Garlic Pills. (Blood, chest).

Bronchial Pills.

(not available in U.S.A.).

Blood Cleansing Pills.

Tonic Pills.

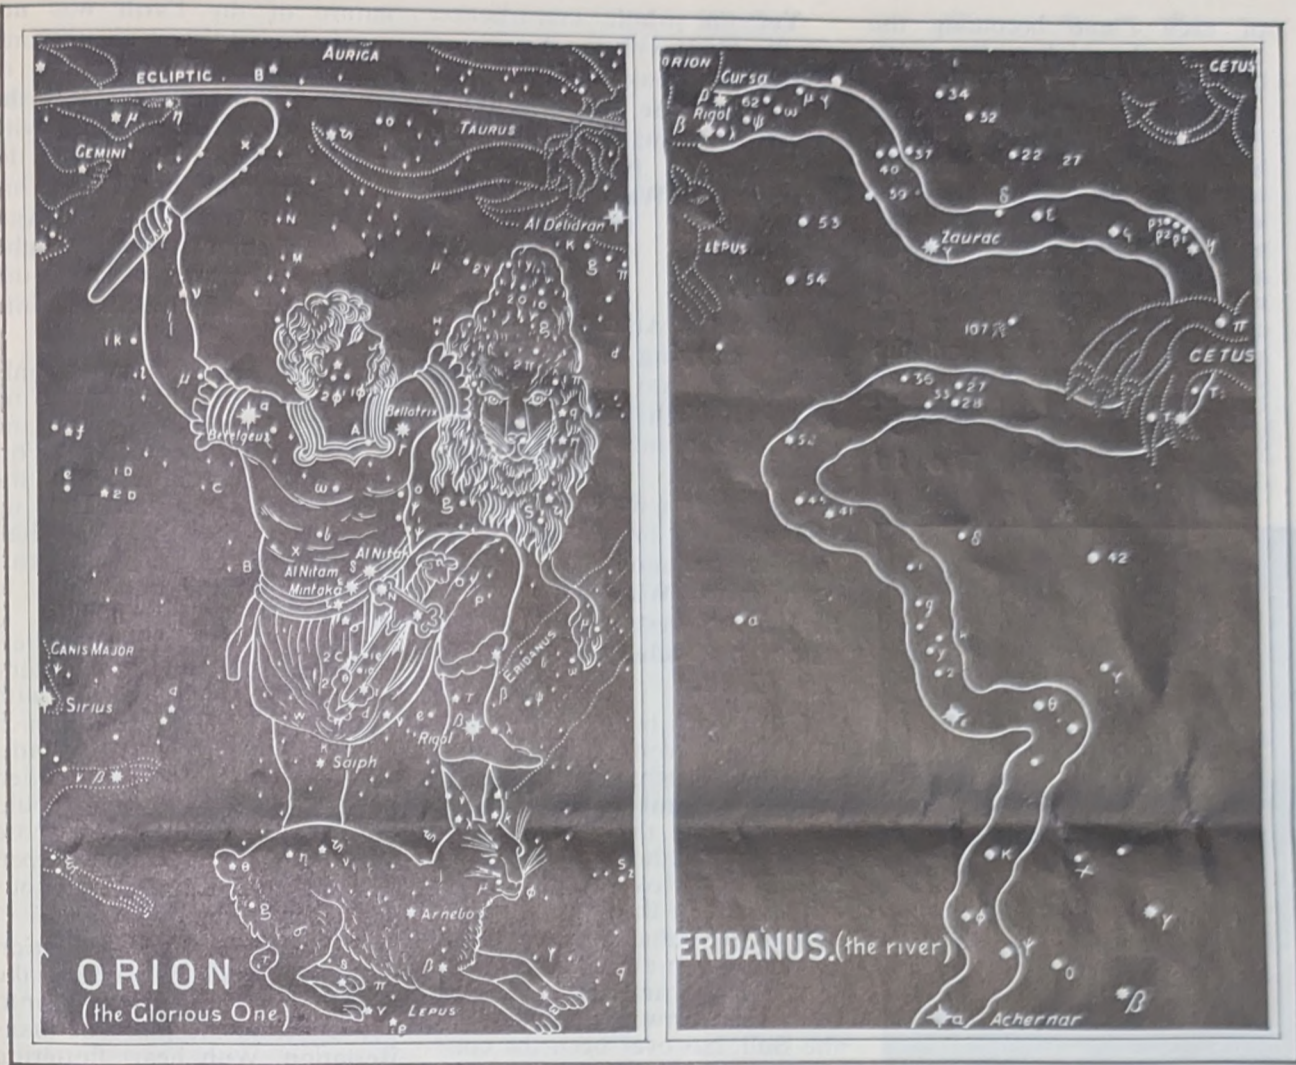

Kidney Pills.

Womb & Stomach Cleansers.

Anti-Obesity Pills.

Buchu Pills. (Bladder, sinus).

Kelp Tablets. (Thyroid).

MEROPE'S GOLDEN STREAM

AS Merope laboured and sent divine Truth up to the heights, this mighty River now flows to the earth with the glories of the heavenly Flame. The mighty Orion now raised up by her LOVE, mastering the Universe from depths to heights. (See text on page 8, col. 2).

declared that the Eridanus flowed down into the Nile. But there is no doubt that it did flow down into their midst, for not only was the atmosphere most unusual, but the Powers it brought into birth at that Time were amazing. This followed on with Medo-Persia in the Age of Taurus, when Venus was the ruling factor.

The Occult Wisdom

NOW, through the changes set into motion by Merope in this period of Relativity, it has been the means of not only the Hydroxyl Breath coming into being, but the bringing down of the Virgin Ethers. These will flow down in their full glory on May the first, when untold resuscitation will be set into motion for those who are capable of taking in of their great resuscitating life-force. For the days of the Gods are reborn, with religion dying fast, especially now that the pope has given forth of his own condemnation.

He has only heard of the officials who have deserted, he has not heard of the laymen, and they are in abundance. So all is set for the true beginning of life, where the May Day Fires, Cosmically inaugurated by Merope, will set the Stream coming forth from the NORM of every soul.

For what is coming down in the Breath, is now rising up to the Virgin Plane of the soul, the seventh Chakra, and inflowing down as a replica of the Eridanus. Man creates, of which Merope has set into operation, causing the heavens to respond, and this then repeats itself in man himself, through the inter-blended operation.

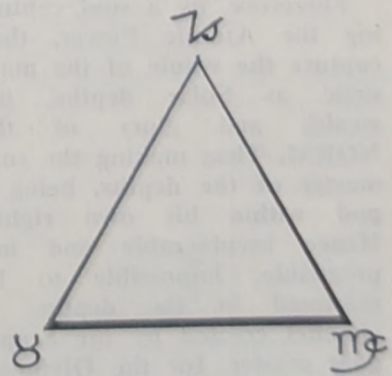

The point is, can man meet it? If I could only convince every true seeker of Occult wisdom of the wonders that have been set into motion on their behalf, they would be able to drive forward with utmost confidence.

But man has become so form-conscious, that he has lost the wisdom of vibration, which now is the reigning factor. May has always been looked upon with some suspicion, even unto condemning marriage taking place under its influence. This is because of its Fiery issue, whose purpose was not physical

union, but spirit union. Hence the dancing round the Maypole was the inter-blended union that had to take place, and could only be accomplished by the lads and lassies of the village. While many a fairy story, which are the true recordings of soul life, give quite an hilarious aspect of the inter-union.

One called May Night, a Russian version of the inter-union, is most explanatory, and from which I learnt much. For they present of how the Fires in being received, turned into goblins and ghoullies, which I fully believe, although this would be due to the lack of wisdom on the part of the receiver. Therefore, with wisdom which the Occult Gazette offers, much could be overcome and turned in, by the mortuary meal of the Word. For the answer lies in the building up of the Spirit, with Orion coming into birth in the inner bodies of the soul as light.

The first decanate of Taurus, which of course is ten degrees, is the decanate of Orion. The second the Eridanus, and the third, making thirty degrees altogether, that of the Shepherd. Taurus being the first of the earthy triplicity...

... with Virgo and Capricorn to complete it.

These are the three that auger the spirit into birth, to either end up as a goat upon the mount, or a Flaming Torch of light, through the Fiery Triplicity. This of course would be the manifestation of the mind, through the Air triplicity. Through Merope raising up the issue to the Virgin Plane, much of this is already performed. It is the mind of the soul which now has to accept, and strive to follow the elevation.

What we have to understand now, is the fact, that through

Merope blending up and turning in all this wealth in its mundane state of the past, only the cosmic is left. This being the Constellatory inflow, which makes its influence extremely potent. But to prove my point of how ancient this indication has been, and how important as roots within the soul, I am bringing one or two scraps of knowledge, which will strengthen your belief.

First of all, the word May comes from the goddess Maja, and springs from the root of Magh. Thus this alone shows of the lifting up of the chain link from the magnetic to the Maypole. Which of course, would be due to the inflow of the Power from the Eridanus to try and raise up the state of Evolution upon the Earth.

It was considered as the war in heaven, the seven against Thebes. The fight against the evil eye by the Divine Powers, for all Power as it descends to the earth separates into positive and negative, with the Gryphons struggling to obtain the positive half. Soul, as the Arimaspoi, must master and capture the whole, and bring it to light.

This is what man has to capture, for he perceives the positive and falls to the negative, and the Gryphons win through; but if he can capture the other half, he then

has a complete Solar point of light. Of course, this has much to do with the FALL, as to whether man still falls backwards as he takes unto himself of unfoldment.

The Inflowing Elements

IT was because of this wisdom that the Irish, in their natural state that is, before papalism destroyed their profound depths, divided the year into Beltane. The first of May and the first of November, as All-Halloween, and really has much to do with the Lord's supper in its true and real meaning, but of this I will bring another time. This had much to do with Baalshemain, the Lord of the Heavens, with Balor Castle being built to its memory.

While the orthodox church who butted in, and broke down their ancient wisdom, brought in the feast of the all-saints. Thus Ireland, whose mighty depths have much to do with May Day, has never yet had its mighty wealth probed and brought to the fore. And if I may be so bold, I would like to state that the reason why the male-link of that Nation is so open to discordant states of inebrity, is because they have been denied their birthright by a religion that would stone the crows!

We also find that the Hebrews planted Asherah trees to Yahveh for this mystical festival, which they referred to as the descent of the hosts of heaven, and which was all around the inflow of the Eridanus. These they considered as symbolizing the Tree of the Law, but King Josias, when he took the throne, burnt them all down, cutting off past wisdom. This was followed later on, by the Buddhists, who fastened silk flags upon their branches, that their Mystic charm would bring wonder-working power.

This is where OM Mani Padme Aum comes in, referring to the Law in the revolution of the Universe, through those mighty Waters pouring down to the depths. It was such as all this, that brought so much into being for Merope to finalise. This being a building up towards a greater purpose, by the belief of the soul, apart from adding further light to the Constellation in the heights.

Even the barber's pole came out of this belief, with the red streak rolling away to discharge of the bad blood in the soul, that the inflow could nourish the soul. Of course the trimming of the beard has always been the reshaping of the growth for a greater occasion.

While the Grecian Daphne who refused to turn from the lunar to the Solar, by submitting to Dionysius, was turned into a tree, that of the May tree. In other words, never came away from the magnetic growth, to rise up as a Virgin light.

But the greatest subjugators of this wisdom, were Rome, who went so far as to build strange human dummies of rush, called Argei, which were thrown by the Vestals into the Tiber on the Ides of May. This was done to prevent the human sacrifices that had been taking place in the past to this mystical month. This eventually was called the purification of Mary, showing how far they now are from the truth they once did know, but have worked up to catch the simpleton.

All this is mere reference to prove my point, of how the past is a root to all that the soul consists of. But now, through the unification of Relativity, all has been buried in, therefore the wealth that now has to be gathered up and turned into light, by the wisdom proffered to you. By this, we will get some idea of how all souls are impregnated by the down-pouring waters, whatever part of the earth they may be in.

The only thing is, as to whether the soul puts up a state of resistance, which often causes them to be subjected to untold suffering.

This I am well aware of, especially where papalism is concerned. For many see the truth, but are afraid to turn to the greater truth, because of the fear that has been engendered into the soul. This I do understand, for I still have a memory of the inquisition.

The point now is to remember May the first, for here we see how Merope has been treading in the wisdom and beating in of the Elements. Whereby every soul will now receive of the mighty inflow from the Golden Stream of Orion, for as Merope trod it into the Earth, was it driven into the Universe, to become the Glory of the Arc. With the Central Sun, brilliant with light, pouring down on every Man, Woman and Child, whereby no one will escape it. Thus it augurs great promise for the future, as May the first has always been considered a propitious occasion, even by the most religious.

Gladys J. Spearman-Cook.

**Astrological Delineations**

MRS. Spearman-Cook is prepared to continue giving delineations of readers' horoscopes, as her time allows. These will be based upon the new world teachings, and is a unique opportunity for all to perceive the extent of their growth, where their karmic difficulties lie, and where their opportunities are waiting to blossom forth; apart from giving the understanding of how and where karmic roots, impossible akashic records, rear up out of the darkness of the soul's multiplicity.

Price in England and abroad £7.7.0. Price in U.S.A. and Canada \$25.00.

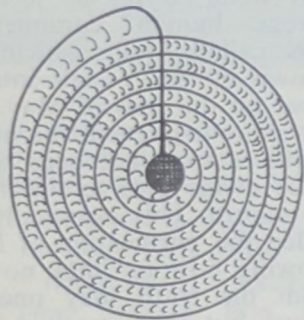

IMPORTANT. Please note that all delineations will be by Tape Recording only on 5 1/2" reels track one or 4" reels track 1 and 2 at 3 1/2 in/sec.

# ARACHNOID BREATH

Continued from page 7

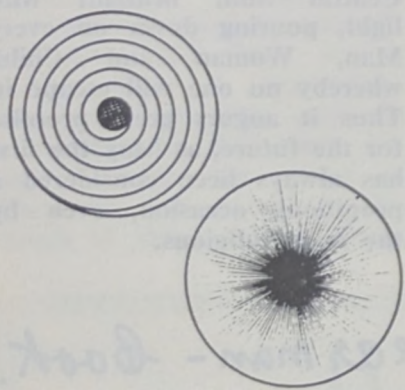

COMING THEN AS A SOLID STRUCTURE IN THE BASE. FOR ALL IS WITHIN MAN HIMSELF, THE DEPTHS OF HERE AND NOW.

Where all became as sex and never Fire, to become the up-risen glory of the mind. For by ever polarising the atom was the birth of the mind, with the ever burying-in of the past atomic creations, intensifying the atomic light of the God-head. Therefore, as man ever polarises the past creations, he is ever building up the mind to greater heights and frequency of Fiery illuminated light of perception.

FOR THE MIND IS THE UNITY OF HEIGHTS AND DEPTHS, BROUGHT INTO RADIANT GLORIES OF HEAVENLY TRUTHS. WHILE THE STEREOPHONIC LIGHT IS THE SUPREME CAUSATION OF THE CENTRAL SUN, THE PINNACLE POINT OF MAN'S MIND AND BELIEF, BROUGHT TO A ONENESS OF VISION AND PURPOSE.

The Virgin Ethers are the reborn atoms of Divinity, the new Causation drawn forth by Merope. These becoming a tangled mass within the mind, becoming as the cobwebs within the sky. Those that the Sabbatic Witch goes up to gather every Sabbath morn. Everything having to be buried-in, before the soul can finally leave the earth. All buried into the Holy Flame, the divine Ego of the soul. Thus all that being buried-in, becoming the radiance of the dot within the circle.

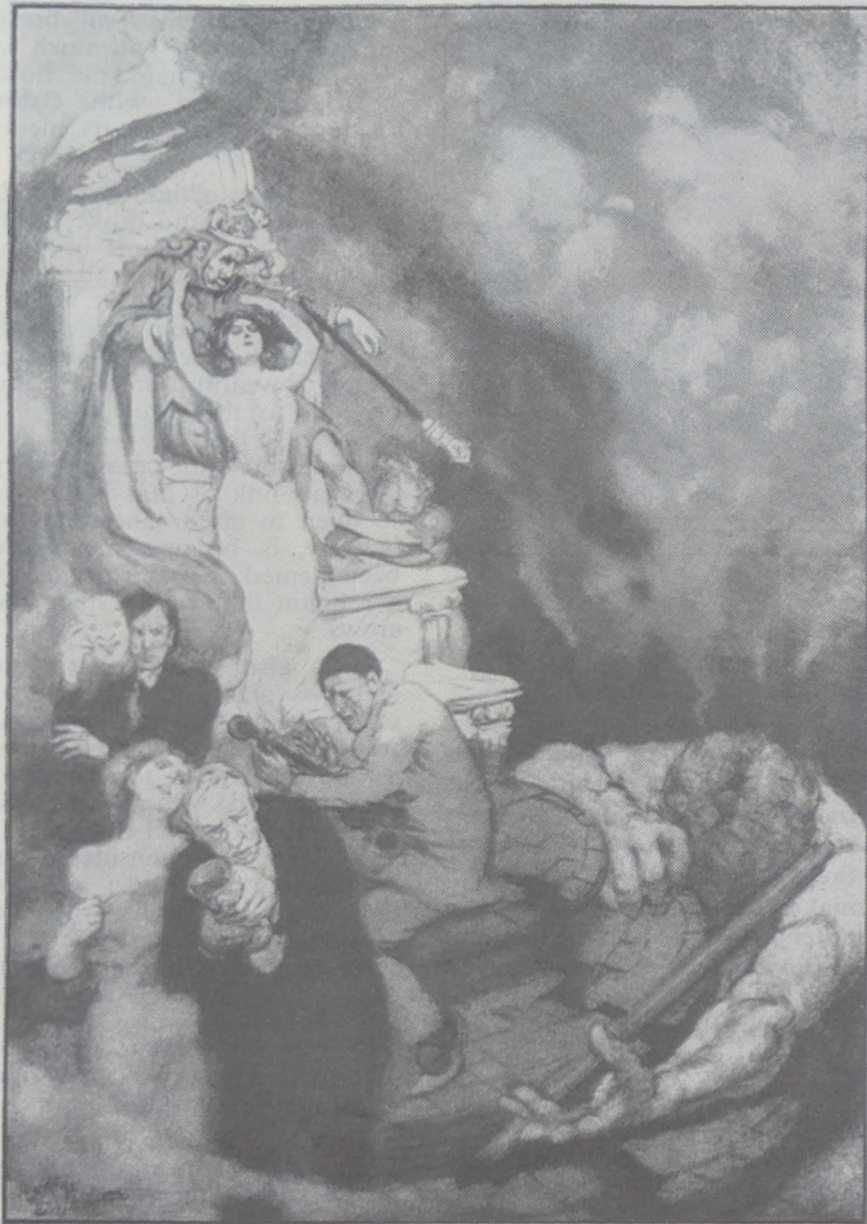

Whereas soul has never radiated light, now he can send forth out into the Planes, as the twenty-four Facets of the Diamond. For as the Atom descended down the Planes, it created the Chakra descent of the Spine, building its internal organs into a soul creation. When he reached the base, he descended another seven by desire of sensation, earthing the whole of his Atomic creation as magnetic fire. Then slowly began to build up his internal bodies as the starry Planes.

The magnetic fire being his uncreated Nebula wealth, while his starry Planes are him giving light to the Nebula through his internal bodies. Therefore, to go back to the heights one can only go back as light, or in the reverse, down into the density of the Astral Planes, where the soul still sees itself as form.

The magnetic Fire and the Nebula wealth, being the

depths of Woman, with the polarity as the Solar, the true birth of the potential Christos Glory. While the incorporation of all into the supreme Divinity, brought the Fatherhood into birth. While the glandular states created on the way down, and most important to the former incorporation, holding within vast worlds of created formula.

CHAOS

MAN in his blindness has yet much to learn, as selfishness rules his illusion. But now through the struggle of Merope, every man will be surged with truth, brought forth by his gods in the heights. For as the Virgin Waters seek out the depths the gods prepare the way and send them down, that the Virgin can weave them into Light. (See text on page 7, col. 4).

For each Plane is a world within itself, a creation of Element establishment. These now are ever bringing forth, through osmotic and metabolism growth, their internal depths to link with the functioning of the soul. Creations being re-broiled with the new-formed Breath in the generative depths below. It is this that produces the Fiery Spiritus Air, which goes up in the Spinal fluid to feed the gods in the meninges.

These gods having been created in and of these worlds, though dormant as god creation until the soul brought them into birth as such, then re-awakened by the soul building up the frequency of their creation, by inter-penetration of wisdom. Then by unification and spinning up the mind onto the Solar frequency, the golden glory of Atomic rebirth becomes the divinity of the Void. With the Arachnoid Breath as the Central Sun coming forth out of the Hydroxyl implosions. For the Arachnoid Breath is worlds within worlds, the glory of the heavens.

## The Inflowing Galactical Breath

IN the rebirth of these Planes, each system is now receiving its entirety of completion, the fulness of its Solar glory. Thus an ever-changing status taking place in the glandular system, by the ever-changing beam of the eye. This showing the enormity of the Word, and its effect upon the whole of the body rebirth. With the fulness

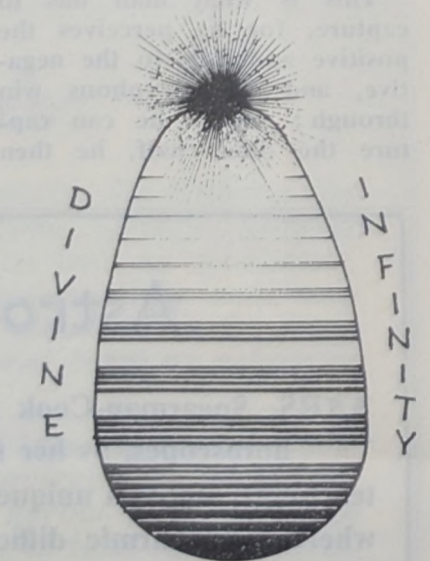

of each Plane becoming the base of the higher, the glory of the ever open Mouth.

This is how the Word is the unifying link-up between heights and depths, bringing all to a polarised glory. But if the Word, when taken, is without mind digestion bringing forth as LIGHT, it becomes as ashes within the creation, a state of calcification. With its raw fire going into the rock, and the soul's metabolism and glandular status left in an unbalanced state.

Therefore Outer World

Space, being the latent light of Divinity, is the lost light of the NORM. When all becomes light within the NORM, Space disappears, for it is where "I and my Father are ONE." This is where the Scapegoat is acting as the alchemical pot, turning base earth into the golden light of wisdom.

Freeing Mars as WILL of purpose, from the moon, the inertia of desire, that it becomes the creative WILL of Divinity. Mars is the son that has to be anointed into the Solar light of the Sun as Atomic unification. Therefore the vibratory wave-band of Fiery light sweeping over the earth from the Central Sun, is the light out of the Great Inner Fire, the Primal of HIS internal Being.

Yet the whole construction of the Hydroxyl, the Breath of Fiery Consciousness feeding all at this precise moment. That which is bringing into being and direction the gods in the Arachnoid Web, unto the direction of the Theocratic Government, the ruling by Divinity.

Hence the Arachnoid Web is ever carrying the Divine Causation into consciousness, bringing birth and new life through the inflowing Galactical Breath. Whereby all glandular functions are reborn and uplifted, bringing new life to the metabolising unifying unfolding. While all sodomitical incest destroys that inter-union, particularly the Endocrine Chain.

If the gods had stayed as the Norm, they would have become radiating depths of light, but through them probing their thought into the depths, they came out of the vicinity of the NORM, and lost link with Divinity. Thus in their probing, the new Power that was captured was not given a divine creation. Hence it became earthed, and from then onwards, earthed as the Bull, has ever been the consciousness that has captured it. Eve the negative side of Adam only taking of knowledge, and in earthing it, only became of the magnetic.

This literally became the Plane of Earth instead of the Plane of Fire, that which was ever slowly unfolding into the Plane of LIGHT. Thus when the soul draws back the consciousness into the NORM, it is ever drawing the consciousness back into the Source. That which is ever coming forth with Venus as the great Desire to know and become.

For it is Venus who has to master the inert Atomic life and bring it into active Atomic Fire. Thus the greater her determination and Will, will she be able to draw forth the Fire from the NORM. Thus here we see the work and purpose of the bull as he rides the bulrushes, and captures the Seed as it is alchemicalised and broiled in the depths. For it is Venus who brings divine WILL into birth, and into the strength and glory of the earthing capacity.

If all is only taken as knowledge, and never as the wisdom to become, the soul never draws down of the Fire from the Source as the unfolding glory of the Breath; while if taken as knowledge, then ionised by Taurus and Scorpio dancing together, you get instantaneous knowing, the glory of divine perception.

Therefore, by a soul capturing the Atomic Power, they capture the whole of the magnetic as Solar depths, the wealth and glory of the NORM. Thus making the soul master of the depths, being a god within his own rights. Hence invulnerable and impregnable, impossible to be mastered in the depths. A channel created by the Scapegoat master, for the Divinities as divine Atoms to use for their means of new Theocratic Law impregnation.

## The Cleansing Fire

THUS as man masters the Atomic Fire of the New Plane of interpenetration, he intensifies the light of his own divinity. Hence it was by such that Merope began to open up the way for the masculine element of the earth, to begin to play their part in the establishment of the Fatherhood.

For unless they embrace and accept the Divinity in all His Divine Glory, the positive

nature of the Earth was not set and established in its complete magnitude. Hence one of her sons was primed, that the Stream could be glorified with masculine light, born from the down-pouring Holy Fire. That as the new Warrior of the Age, he could set the World alight, seed the new way of mind unfolding, and blend it into light.

Therefore, there was only one way to go; he must go up to those heavenly heights, and define the mystery of that Forbidden Chamber, that only the Christ to be can see. Thus up he rose by thought and belief, as Merope infused his heart with exhilarated aspiration to reach those sacred heights. It could only be by him conquering those Neptunian Waters, and infusing his NORM with sacred LIGHT, that such mighty heights could be made. Therefore, as he approached that Sacred Chamber, it could only be by his heart-purpose that there could be an "Open Sesame" of that Mysterious Chamber.

For all now was vibration and belief, which would make the way and bring forth all into active being, the glory of manifestation. With heart fluttering and the divinity within his internal being swelling into light, he approached with awe, ever encouraged onwards by Merope's heavenly LOVE.

Then with an inward impounding prayer, the stone at the door rolled away, revealing a well of intense Blackness, a mystery of awe and wonder. With courage he peered into its mighty depths, seeking for the lost mystery of the past. When suddenly a tiny spark of LIGHT came into being, which caused his heart to pound with joy; he had at last accomplished it. Then as he tried to define its innermost secret, it suddenly burst into the Glory of a magnificent radiating Sun, which nearly blinded him with its beauty. Then opened up into a mighty Flame, as though with arms outstretched in Compassional Glory.

The whole of the Chamber was one mass of brilliant light, shimmering and radiating with scintillating Glory. Sparks shooting out in all directions, causing the whole of the world to be set alight with the Glory of Divinity. For the Father and Son now as ONE, were manifesting in the Glory of the Central Sun, the magnitude of the Holy Divine Begotten. Thus the whole of being swung round and round, transforming all darkness into light, with the mighty Glory surging through all the Planes, touching off every soul with new life.

For now the whole of the Stream was fired and radiant with the Father's Divine FIRE, causing every man, woman and child to be born of the Holy Waters. Thus as the warrior stood transfixed in amazement at what he beheld, he felt the Divine Breath breathing FIRE into him, until it seemed his body melted away by its Holy Glory. Then under the delirium and the glory of his aspirational devotion, he was laid onto a glorious Altar denominating him to sacrifice and love. While over him was leaning a Heavenly Being who in a Voice of sensorial beauty said:

"Remember, I am God."

Then suddenly there appeared hovering above him, a glorious Firebird, poised as on the tip of the wings, which dropped a feather from off its breast, that fell right onto his mouth. Then again the Voice spoke:

"The Cross of the World is the honour you carry, and the Strength of My Hand is the joy of your knowing. Man magnetised the Fire and dragged it down as the beast into the earthy state of sex. By wisdom only am I truly

## HERBAL MYSTERIES

## Part 22

## MARSHMALLOW

*(Althaea Officinalis)*

by David Spearman-Cook

**M**ARSHMALLOW IS A HERB WHICH HAS FOR many ages been the best known agent for stimulating and soothing abrasions, or burnt areas of the skin. Furthermore it is extremely useful when it is consumed as a cooling tonic to relieve an overworked clogging bloodstream. When it is infused with an equal amount of Buchu, it will also bring a rapid purifying state to the bowels, which will protect them from the usual conditions of illness, which can so easily affect this particular part of the body in general. It should be used as sparingly as possible, for it can create rather a sweaty state, as an after effect within its healing wake.

★ ★ ★

**M**ARSHMALLOW was used in the past very ostensively by the Hebrews, during many of their rituals, as it was known to contain an oil which was said to assist them through their initiations. It was also used at their circumcision rituals, to subdue and cleanse any form of infection that may have been likely to manifest around the incisioned organ.

If MARSHMALLOW is used with VERVAIN, it will become most helpful in manipulating any cramping or stiffening up of the muscular parts of the body, and can also relieve many seriously aching joints, for the oil which it contains has a very penetrative influence.

Occasionally if it is partaken with a little TANSY, it can assist in the healing of any serious deep cuts, in a most remarkably short space of time. Bringing a rejuvenation to the skin surrounding the afflicted wound, so much faster than any other known herb.

In the mighty Chinese period it was often used by the court dancers, as a massage for their feet and limbs, thereby increasing the flexibility and the manoeuvrability of their bodies. Which must account for why they were so remarkably graceful during the performances of their mysterious ritual dances.

There is no reason why MARSHMALLOW could not

be infused with RASPBERRY leaves, thereby procuring a very good herbal stimulus. This would undoubtedly assist the throat, and release any solidified matter in that congested point quite easily. It was once used for removing poisons within the body, for as stated earlier it is inclined to make one sweat, and as such would be exactly what was required in regard to dealing with a case of poisoning.

It could be equally as useful to administer to one who has unfortunately been bitten by a snake, remembering of course that plenty of water should be consumed, to eliminate a weakening state of the body. This being applicable to either of these very serious cases.

Even the power of the roots is extremely good for relieving the gout, not that there are many who suffer from this complaint, but it does add further proof to the wonderful healing properties within its whole make-up.

A powerful infusion can be fostered from the blending of MARSHMALLOW and JUNIPER BERRIES, which when the essence is revolving within the bloodstream, will somehow dissect the stone-forming particles of matter and dissolve them, before they have the opportunity of solidifying completely. This could well raise the hopes of many who are worried over the thought of either the blood clotting, or stones in the kidneys becoming a major problem.

MARSHMALLOW was often fed to horses who were constantly under the saddle, and prepared for immediate flight or attack, during the periods of history that necessitated this form of action. This kept them free from saddle sores and irritations, which helped to keep them manageable during a lengthy campaign, or periods of necessary silence, during a surprise manoeuvre.

MARSHMALLOW can also be used to keep the tear-ducts free from any form of hardening, either by regularly infusing oneself with it literally, or alternatively bathing the eyes with an infusion of its warmed extraction. Please note that internal treatment is always preferential to any other form of healing administered, as it can penetrate all centres of the body through the numerous channels of movement.

★ ★ ★  
**M**ARSHMALLOW, JUNIPER BERRIES, and TANSY, can set a very strong basic for the curing of the hardening state of the arteries, for unless the channels are free and are allowed to take the full flow of the blood in cohesion with the beating of the heart, a rebounding of the pressure that is set into motion by the soul will become as a calcified state of solidified matter, adding further hindrance to the mind, which will be affected by this particular state of illness.

When the Druids first drew down the powers of Stonehenge, they infused themselves with large quantities of MARSHMALLOW, which rapidly set an extra fast pulsation within themselves. This of course gave them the added stimulus of activity, but alas they did not draw any fire of the spirit within themselves, thus all around them turned to solid stoned density.

MARSHMALLOW and LIVERWORT is amazingly good for the gums, and is also very useful for mothers to give to young babies during teething, for a little rubbed upon the gums will ease the pain. It takes out the inflammation, and also cleans them at the same time from stain and undetected acids. MARSHMALLOW was ever sought for by the Persians, for they found it very valuable as a form of quick drying fluid when they had finished making their carpets, finally helping the finished article to keep its lustre, owing to the dynamic heat ever present in that mysterious country.

MARSHMALLOW can be used to make a very comfortable cushion, for when cut and dried it is extremely light, and if used in this manner, will keep the rooms of any house free from many forms of insect life. Also offering a wonderful air of purified radiation, for it can soothe many worrying states that regularly seem to befall many households, acting in some way as a form of incense, minus the infiltration of the usual after-effects of incense burning. Obviously pillows can also be filled with this herb, which will help to keep the sleeper in a state of peace, as he or she retires into spirit.

One capital gain from this herb, is that it is very good for assisting the young to retain their water during the early periods of puberty, and can assist with their fires at this stage of its awakening, keeping it at a regular fired state and not too fierce to endanger the wrong kind of activation, so very devastating to many youngsters at this very important time of their lives.

★ ★ ★

**W**E can now see the importance of adopting herbs early into the lives of the young, for it is they who will draw the highest benefit from the regular consuming of these herbs. As youngsters are so difficult to persuade into a new line but that of their own, the opportunity of offering flavourless herb pills is open to any who wish to purchase them from us, for we have an inexhaustible supply for most of their needs.

## A Gentle Reminder!

**I**T has never been our policy to immediately discontinue sending the Occult Gazette if a subscription becomes overdue, and as many of our readers already know, we keep sending it for a number of months afterwards, before we cancel the order. We are quite happy to continue with this system but do ask for your co-operation over this. Subscriptions for 1969 became due in January, yet at the time of going to press with this issue, quite a number of subscriptions are still outstanding. If YOUR subscription is one of those overdue there is no time like the present for putting the record straight.

We hope to hear from you soon!

MARSHMALLOW

with the strong essence of this herb, for as stated earlier it does repel insects, and that would be sufficient in itself to be a wonderful herb, if only used in this direction alone.

★ ★ ★

**N**OW we come to the most important use of this herb, for when it is used in conjunction with VERVAIN and ROSEMARY, a very good drink can be made, whereby any who are suffering from the effects of the Atomic Fires will benefit. For the Atomic Fires will stir the blood into strange non-detectable conditions, as unknown symptoms, if medical and surgical implements are used to try and diagnose the cause.

This is simply because the atomic changes to the soul are not capable of being perceived, except by a soul who has duly sensitised themselves to this degree of analysis, through them raising their sensitivity to that of the corresponding Fire.

**MAN NOW ONLY FINDING THE GUIDANCE THROUGH LIFE BY CONTACTING THE HOLY FIRES.**

MARSHMALLOW and SARSAPARILLA, is the answer to anyone who is unfortunately beset with ringworms, or any other parasite state affecting the skin. If it is taken internally as well as applied externally, it will quickly relieve all visible signs. Furthermore areas affected within the hair will not require the removal of one's crowning glory, as has happened to many in the past.

Whilst MARSHMALLOW is excellent for all these cases of sickness, with the addition of JUNIPER BERRIES and a little garden MINT, it will help to reduce any swelling around the private parts of the body. A little taken two or three times a day can help many to find relief from this painful affliction.

And so we finish this month with a complete compact triune of herbs, which will be more than beneficial to all. This being of MARSHMALLOW, ELDER FLOWERS, and CELERY SEED, which will be found to give unto any who are suffering from fatigue a general uplift all round. They are all herbs of an outstanding nature, each one in itself being a tranquillizer, and balancing influence to blood and main organic creation of the soul.

MARSHMALLOW, *ALTHAEA OFFICINALIS*, above all is going to become an extremely sought for herb, one which I hope will be well treasured by all.

Next month we delve into the virtues of MUGWORT, a herb of outstanding digestive power.

## ARACHNOID BREATH

Concluded from Page 10

known, and then only by a reborn heart, once in a Span of Time."

Thus at the hour of the full moon, this lunar mystery became filled with the glory of the Solar light. With the Sabbatical Goat being born into the glory of the LAMB, and the whole World was born anew, into the Glory of Reality. Thus Merope knew that her sorrow as Eve, was retrieved by one Son burnishing the LIGHT with gold.

One who had the courage to face the Reality of life, and bring rebirth out of the dung, into the magnitude of Divinity. For there appeared before her an enormous barber's pole revolving upwards into the mystery of Eternity, and she knew by its ancient symbolism, that all was going to be cleansed by Fire. Taking life from the old, and giving life to the new; those who had awakened out of the density of darkness.

Hence EVE was retrieved and all brought back to truth, with Merope freed from the chains of her captivity, still unfolding the way and finding the keys that would free man from his earthy density.

# HYPERION

Continued from back page

chosen an Instrument who had no education, but a simple life, one of hardship, that we could use those simple vibrations nurtured by Spirit, to bring unto you the Truth in utter simplicity.

Now if you have some idea of what an imperfect calendar means within yourself, then you have the first step to embracing the New Knowledge.

In gathering the great powers of the past—which can go right back into Leo—man can, in this period of time, completely lose the whole of the past, for in that 5th house from Leo to Aquarius, is the whole field of time which belongs to man, and is man. In that field, and field of magnetic creation are the hidden depths of relativity, the intensity of man's wealth; thus he has both wealth and evil, good and evil; and often good is turned into evil because it becomes blackened by man refusing to make movement, it turns sour within him, vicious.

Much of man's wealth is completely lost through the vicious state it takes on in becoming continually buried beneath the rock of Saturn, instead of it being raised up to the heights in transmutation; and this is what I am seeking to give you tonight. If you have wealth, hold on to it, struggle with it; do not lose it; for that wealth is more precious than the very gold that you seek to accrue in your material life.

## The Sun-God, the Teacher of New Truth

**I**N our last lesson we have been dealing with intercalary points that constitute the path of the equinoxes; these being pointers or stones raised by heroes on the journey when they brought forth of wealth entrusted into their care by the Sun-god: that wealth left upon the path of life that was built up as pointers or stones, words, knowledge for you to follow as pointers or ways of truth. And furthermore, it was seen that the rectification of the place of the equinox among the stars was but a preliminary to the reformation of the calendar when the Christos was going to establish a full year for the coming Solar half year. (All that was put into operation but only the way towards that fullness, when all the pointers had reached their heights and the fullness could be accrued).

In all performances it is Apollo the Sun-God who comes before all as a Time-god, and was to the Greeks their Horus, for it was this god that embodied the Hours that completed the solar year. He was the god born within the soul as the god gathered over the year became the froth on the turn of the tide in the six Horae. The six sensory channels that become the seventh now enriched in the ninth. Thus Horus was elevated to the highest rank of the gods and invoked as the "Illustrious Power."

**So when you can raise yourself up to a Solar-god, or a Teacher, then you become as the "Illustrious Power."**

Yet you also find that Apollo and Artemis, Solar and Lunar, are referred to as the children of Dionysus and Isis (the heights and the depths, God and Mother-Nature) and being so accepted he is doomed to reform the calendar and perfect the year in the same way that Horus the son now performs (that is, the interblending of the lunar with the solar, as man with the lunar struggles with the solar); because he in the same way represents the Hours, the secret growth of time which is pushed up mysteriously between the days of the calendar and infused unconsciously at

festival days. For when many are gathered together they incite one another and draw into their midst the powers they need, and return by adoration to the god they adore.

(At the present moment it is an important festival. Tomorrow in the early hours the Solar light enters into Leo; thus you enter into the birth of the New Year, you enter into the period of Beginning; and tonight it is a Festival Day, for the Great Fires of the Heights are entering down into your midst; the fulfilment of the whole of the Time up-to-date according to what has been brought into being and according to what this Instrument has been able to gather up in her struggles as the present-day Sun-God, the Teacher of New Truth. Try to see the depth of this understanding and realise that tonight is a very important time, and in many counties in your own country to-night bonfires will be lit, because it is "Midsummer's Eve." This is not just a myth; it is an actual fact belonging to the heights which man has forgotten, for he knows only one thing, the belly).

Some mysteriously say that Apollo was born with Time, which alludes to the many obstacles and delays regarding the birth of En Kronos; or shall we say the time required to form the cradle to nurture what is received into life from Kronos into Kristos. But there is no doubt Apollo is the deity who superintends the measurement of time.

**Apollo in the soul is being born through time out of the Kronos or Saturn state that is buried within the soul.**

## The Counsel of the Gods

**S**O now to get some further understanding regarding this intrinsic secret. The chief days in the reckoning are the new and full moons, on the seventh and twentieth day of the month, with finally the beginning of the year; and all are seen as the Apolline creation; because these particular movements of the Moon bring the Solar fullness within the soul.

In past days of time it was customary to have sacred feast days when the fires were drawn down onto the hearth and altar; then the sun's fires were re-lit. This is naturally man's own nature hearth, which always followed with a feast and dancing which activated all taken into a revolving hub.

(If you can see this in the true meaning in yourself, you will see the dancing and the revolving afterwards as the endeavour to bring the Word or what you have taken in your struggles into the flame within you: but that is all lost to man now although once upon a time he understood it. It is the understanding of the dancing of the native tribes trying to bring the solar fires up within their own being. The modern day youth are trying to raise life within themselves in this way. Yes! it is to get life, but it is also to get activity, because both are the same).

These were inter-linking through the year and kept the year in renewal. In the innermost sanctuary at Delphi there is a statue of Apollo made of gold and represents the Horae, for gold is symbolic of fire; and before this emblem was burnt upon an altar an eternal fire which was fed only with fir-wood.

**Once upon a time these fires were lit at Stonehenge, and they were lit by the Solar fire in the early morn, striking upon the point of the monolith and eventually setting fire to the contagious creation upon**

the altar which was saturated with oil that would immediately catch fire under the solar beam; and it was considered that the stone or altar had found life.

Now a true medium, one who understands their task, can bring these fires down on to your altar; no longer around a cross but around the Cup that is taken by all as the Cup of the Holy Grail; the Cup that must be drunk that they can move along the path of life and can become re-born.

(See the back page plate)

TRANSUBSTANTIATION

**A**S man labours, will he transform Saturn into Light, for only by such can he be freed from his captivity, to become a Sun-born god of the heights. (See text on page 16, col. 1).

After Delphi had obtained celebrity and many gathered from far and wide, those studying in the temple, the altar of the pure god Apollo re-lighting the fires on altars at all places. This has far more to its mystery than appears on the surface, for one thing alone, in it being the first of its kind—its being drawn down into the earth—was a perfect interlinking of heights and depths.

**Thus represented the same within the soul and would be the means of replenishing all who drew into its vicinity. Though previously a fire was procured at an Altar in Delos but not to the degree as at Delphi; thus Apollo migrated from Delos, the mouth of the Nile, to Delphi the sacred temple of the Pythos.**

So by this you will understand why the ancients perceived that the accurate measurement of the year was the law of the universe and the will of the gods, and by this interpretation, speech and prophecy were produced apart from measure, justice, order and harmony. Therefore Apollo who governs the seasons by his light and makes the order unchangeable, became the god of measure as well as abiding rules, law and harmonious order.

**This means he was endowed with speech as soon as he was born within the soul; that is, if the soul seeks to reverence his own holy fires and bids for lyre and bow, then he will declare the counsel of the gods.**

(See plate on page 13)

When this can be seen in its full measure,—and that can only be as every man unto his own counsel,—sages will bring forth unto mankind wisdom that will keep the world revolving.

Alcaeus, he strong and mighty with a lion's tail which brought forth of balance, was sent to Delphi by Jupiter as soon as Apollo was born with him, and finally he helped the Greeks to introduce justice and law. This was the means of reforming the calendar to such an extent as to make the years

but it is over-estimated and must be made right by mankind as soon as possible, for there are eleven minutes to be adjusted annually. In earlier times a religious truth was set forth with dramatic representation.

At Delos, the land of the floating island, which was the centre of the Amphictyony festivals, the games called Delia were celebrated every fifth year; the powers of man's active creation, man's active strength; not his mind but his Pythos strength. These were regarded as the birthdays of Apollo and Artemis and were carried out in the form of Artemis playing ball with her brother.

On this occasion the wives and children wore long white garments, and the hymn sung to the gods was called Delia, that which is enticing and seductive. This was in existence from the time of the Athenians, for the Deliaetae was mentioned in the laws quite early.

**Now remember that all this is within the soul and can still be carried forth within the soul as the ancient Law within him, but on a new phase of manifestation. So what was once upon a time an actual festival now must become within the soul a creation of time of the wealth that he can put into operation as a manifestation of his own strength and power in the new life.**

What was as a realisation must now be within the soul of what must be put into operation as time, but through the mind elasticity. Whereas once upon a time the tribes danced now you have your own tribes within you dancing to find the new life, but not in the way they did in the past, but now seeking to find new life.

**So this state within you will always be as it was, enticing and deducting, and seeking to bring forth the unfoldment as from the lower to the higher; not as it was in the past, but as your state now of the physical in the soul. What was in the past as a temple creation now is being carried in you from the phallus to the solar plexus in your struggles to bring into birth that which was of the past.**

At the age of four years Apollo as Phoebus, beaming joy, laid the first foundation of the fair city of Ortygia, the preparing of the law. This was near a circular lake, the Cancer waters, and represents the establishment of the four-square: it has often been symbolised as a horse pricking up its ears, a symbol seen in myths and legends which appears to be a very great mystery.

Now the horse represents the passions rising up: so see this as the past states that are slowly raising up the passions within the soul until they are as to-day, and you have the whole length of creation within your passional nature, or the rising up of the kundalini

## The Rhythm of Activity

**T**HE Apollo intercalary was in earlier times counted as a festival every fourth year; now you merely add an extra day at the end of February,

according to how you have expressed your passional life from beginning to now.

And the passional life can only be expressed through your mind accepting what has been—now transmuted into the flame, or you still are as the beast of the past. It is the spinning up of time into your mind creation, because that is the whole wealth of what has been, your mind; it is of nothing else but time spun up into a light from the depths. So either you are still in the beast state or you have raised yourself up to the solar-god state; one or the other.

The Pythian Games right from the time of the 28th Olympiad were held at the end of every fourth year; and a Pythiad was a space of four years. If this can be seen into clearly, it will be perceived how time has never really been properly understood, and by not doing so, man has very much missed the mark and is only existing and not properly living. When he can recognise these points and utilise them with true reverence, he will be able to draw down into his being with real purpose those powers which at the present moment he is only swallowing as raw fire, and not digesting.

So according to how you have raised up your mind from the depths into the heights; that is from the passional depths into the heights as the flame, are you going to take the new fire and perceive at once what it represents, or you are blank to what it literally is bringing to you—as a blackness to be transmuted into a flame—because in that Solar fire is the whole of creation descending to you as Cosmos.

**IF YOU ARE OF COSMOS-DIGESTED AND BROUGHT TO A CREATIVE MIND, THEN YOU SHOULD RECOGNISE WHAT IS DESCENDING WITH THAT WHICH IS EXTRA, OR THE NEW LIFE FOR YOU TO WRESTLE WITH AND BRING ALSO INTO A NEW FLAME. IF YOU CAN GRIP THAT, THEN YOU HAVE WITHIN YOUR MIND HOW YOU ARE SEEKING.**

### Creating the Flame of the Mind

**R**IGHT from the time of Atum-Ra, the vernal year of Zeus consisting of 365 days had actually existed, but finally was perfected by one day every fourth year, while the lunar year was to be brought into harmony with it by other means; that meant that man had got to try and bring it into harmony.

It was known that at Argo the Greeks refused the Solar Year; refusing to see the Solar truth and only living in the lunar truth, living in the Cancer creation; and that is why man is in the state he is now; that is why cancer is pervading the flesh; it is turning back upon itself. That

applicable to the Cancer equinox when all turned into a watery mass is now pervading the flesh as an in-birth growth, (all must have its relativity). This means refusing to recognise the masculine element and the female was worshipped as seen in Helen of Troy, which resulted in their down-fall. They worshipped the female form, desire, and of course would be worshipping also the Lunar goddess; merely nature and nothing else.

For to appease them the Lunar Year was allowed to remain at Delphi and brought up into harmony. By these explanations much can be gathered that will help to find a deeper understanding all round, especially when some of

have copied from the Egyptians; so we can follow the trend right back into the regime of Atum-Ra when man perceived the depth, but accepted in mind only.

Occasionally he had to catch up with time to try and adjust his calendar, because he found it was not in keeping with the solstices: he found he was drawing down the summer solstice in the winter, or he was drawing down the heavenly lights at a wrong period. This is why, over the years, there has been adjustment of a calendar, and the need of it; because man has got so badly out with his time, and it badly needs readjusting now.

This matter of understanding the birth and importance of

these chakras must the pythos spread its way.

Up to the present man has not been bringing his pythos or kundalini travelling up the spine; instead, it has been spitting fire in the wrong direction, spitting fire down into the depths, out of the swamp; which means he still has the nine-headed hydra running wild with the centre head still spitting black smoke: that is the phallus, outer-creation out of hand. When man can learn to cut off those heads and seal that centre head and bury it beneath the rock, then indeed he is Apollo the solar-god; he becomes a one-ness, the androgynous soul.

This shows you the impor-

vest and there would be no altar at Delphi for him to rest upon to bring into new life; so he would return into a blackened mass and become as the Apollo beneath the rock of Kronos, and you would wonder then why all was going chaotic within you and your calendar had lost time: instead of becoming the Solar-god at your altar or Delphi, he would merely have to drop into the depths as a blackened burnt-up mass. So, whatever it costs you, your feminine principle must labour.

Here we must find two explanations, one cosmic and second its reaction in man himself. In man it is represented in the seven becoming the eight and the solar creation making the rebirth in the heights, whereby the new sun-god would visit the extreme heights of the Boreas and bring forth a new creation within the soul. During that time there is intense silence which can be likened to Jonah in the whale's belly when all is dark and lost.

You have taken the fire, you cannot understand it; you wrestle with it, and you are completely lost. Many of you throw it over-board and are left with the fire that is going to burn you and sear you into complete anguish. The real hero is the soul that stands firm and fights to the 'dying day.'

Then the "spitting" onto dry land where the soul finds itself lost in a strange wilderness; for all has to begin on another plane of thought brought forth from that unknown region by the new sun-god, and is the mysterious three days. So after all that wealth he returns with the new thought and you then have to set it into operation, and it becomes the mysterious creation of blankness; the scapegoat goes forth.

In the cosmic you will find that the intercalaries of three months,—when not taken during the seven years,—were inserted in the eighth, which would bring all to adjustment. For a whole three months there was feasting and merriment. Since then man perceived the country of the Hyperboreans as the Pole, the throne of the Fire-god where new solar fires were lit to his honour; thus bringing the depths to the heights in belief, which can be seen as Saturn sitting above the Pole.

Saturn has been retrieved; it has now become winged into a solar-god. You have not so much Saturn in the base; you are breaking up your rock in the depths and you are becoming a solar-god.

**FOR THIS WAS STATED AS APOLLO LOVING THE HYPERBOREANS, AND HIS WORK WAS TO BRING HIS OFFICE UP TO THE DUE LENGTH WHICH HE POSSESSED UNDER THE CONTROL OF THE GODS AND THE FEAST OF THREE MONTHS.**

**THIS WAS THE SOLAR FIRE WITHIN YOU LOVING THOSE HEIGHTS WITHIN THE SOUL, THOSE STATES THAT ARE HIDDEN WITHIN THE CEREBELLUM WHICH, WITH THE INTERLINKING WITH THE PINEAL GLAND, COME FORTH AS THE POMEGRANATE GIVING FORTH THE RELATIVITY FROM THE PAST AS A NEW SEED.**

ELEMENTS REDEEMED

**B**y the finding of the full measure of the Word, is Fire brought forth as the Solar point. Raised up and polarised from depths to heights, making way for harmony and glory. (See text on page 12, col. 4).

the myths are studied; and incidents which up to now have appeared ludicrous and utterly useless as wisdom, will stand forth in their right light conveying their inner depths.

The calendar of Apollo at Delphi as the historians understood it, and gathered much of their knowledge, was based on twelve months on 29 and 30 days alternately, making 354 days (well, that was not of the full twelve solar gods); and a lunar year was made square with the solar year by the intercalation of a 13th month of thirty days, three times in the course of eight years. This gives an average of 365 1/4 days to the year, exactly as the intercalation of one day every fourth year.

It began with the summer solstice and fell behind year after year until after these intercalations of three months: in the course of eight years it again coincided with the summer solstice. Thus in every 8th year the sacrifice to Apollo was celebrated with intense reverence and solemnity and then started again in the 9th. This has much to do with the Hebrew's 8th year of sacrifice, which they must

Apollo the solar God is in reality the most important of all the myths; for once the depth of this is captured, the whole of life and living is expounded, and the possibility of genius can arise, for untold depths are still waiting to be brought forth.

If man can realise that by spinning the Word and reverencing the Gods and the ancient wisdom he can draw in the Solar fire that will give him the wealth of ages, then he can bring forth the intensity of his own depths, and he can bring genius forth out of the depths when man had immense wealth; for that wealth is within the soul itself waiting to find rebirth: it has not been digested yet; it is still there.

Man is a morass of in-birth, a morass of undigested creations, personalities; he has not come to a one-ness yet; he is still with personalities gathered from the past; these are all waiting to find their mortuary meal, the wisdom that will give them the power to become the flame of the mind, the solar fire that gives the soul the flame of strength and fire of life to manifest speech, truth and creation.

### Activity of the Inflowing Fires

**L**ET us now make some exploration into the visiting of Apollo to the Hyperboreans, the heights of the soul (your 7th chakra), for it is the spine that is your measuring stick: there you have the nagas, the nervous system; there you have all the intercalary points that have gathered over the ages, and up

tance that once this has been done, man should never go back upon himself; because once that has been sealed and you allow it to become unsealed and grow another head, it becomes a vicious creature with 3,000 heads: this becomes Scylla and Charybdis, that which whirls you round into a morass of Neptunian waters, and you will never be able to gain your feet. So never go back upon yourself once you have sealed that head.

For three months in the year Apollo was absent from Delphi, for no rites were performed during that time. At the expiration of the great period, eight years, Apollo visited the beloved nation of the Hyperboreans, the nation of the heights, and "danced" with them from the vernal equinox to the early setting of the Pleiades, and when the first corn was cut he returned to Delphi with the full ripe ears, the offerings of the Hyperboreans.

The seed had been sown and so the Solar fire within you was going up into the heights, trying to bring down the new waters, while your Eve or feminine principle was labouring in the depths with the Word that was sown into the new field of life. So when the first corn was cut, which would be in the solar plexus, your Delphi, your Solar god would reside there by your altar stone as your high priest, and it would be the Christ among the doctors. You would speak words of wisdom because the Christos voice was now in your solar plexus.

But if your feminine principle does not labour then your Solar god cannot return because there would be no har-

# OUTER WORLD SPACE

by The Lord of the Flame

This is an extract taken from the Lecture given at the S.U.P.H. on Wednesday, 2nd April, 1969. Sentences in italics are those that were chosen from the Lecture of the previous Sunday, to be given greater and more simplified explanation.

## Merope's Opening Prayer.

*GREAT DIVINITY, as we come once again we seek for Thy Help, that we can probe into the WORD, understand more deeply, and leave this gathering far more enlightened than when we entered. That we can learn to be strong and find the way to bring Peace, Light and Love into this troubled Earth plane, and we seek of this in the name of Love and Service. AMEN.*

## The Master then Manifested

PEACE BE UNTO YOU ALL.

Once again We come amongst you, that We can help and guide you. There are many with you that have gathered in from the realms of Spirit, that they too can find the answer to Becoming. Give me all your attention, for you must know by now the Great Call that is placed upon the shoulders of Merope. As she enters into great depth and is solving the great problems of the Earth, it makes the task harder and harder, needing much help, especially from the young ones, who have so much Fire. Now let us turn to the Word that was earthed upon your Sabbath.

*The soul as the Nebula spark becoming in its expansion the alchemical pot, that with the Divine Fire from the Source of Outer World Space, does the FIRE within the Fire, the mystery of Creation, find substance to manifest as the All-Being of Creation.*

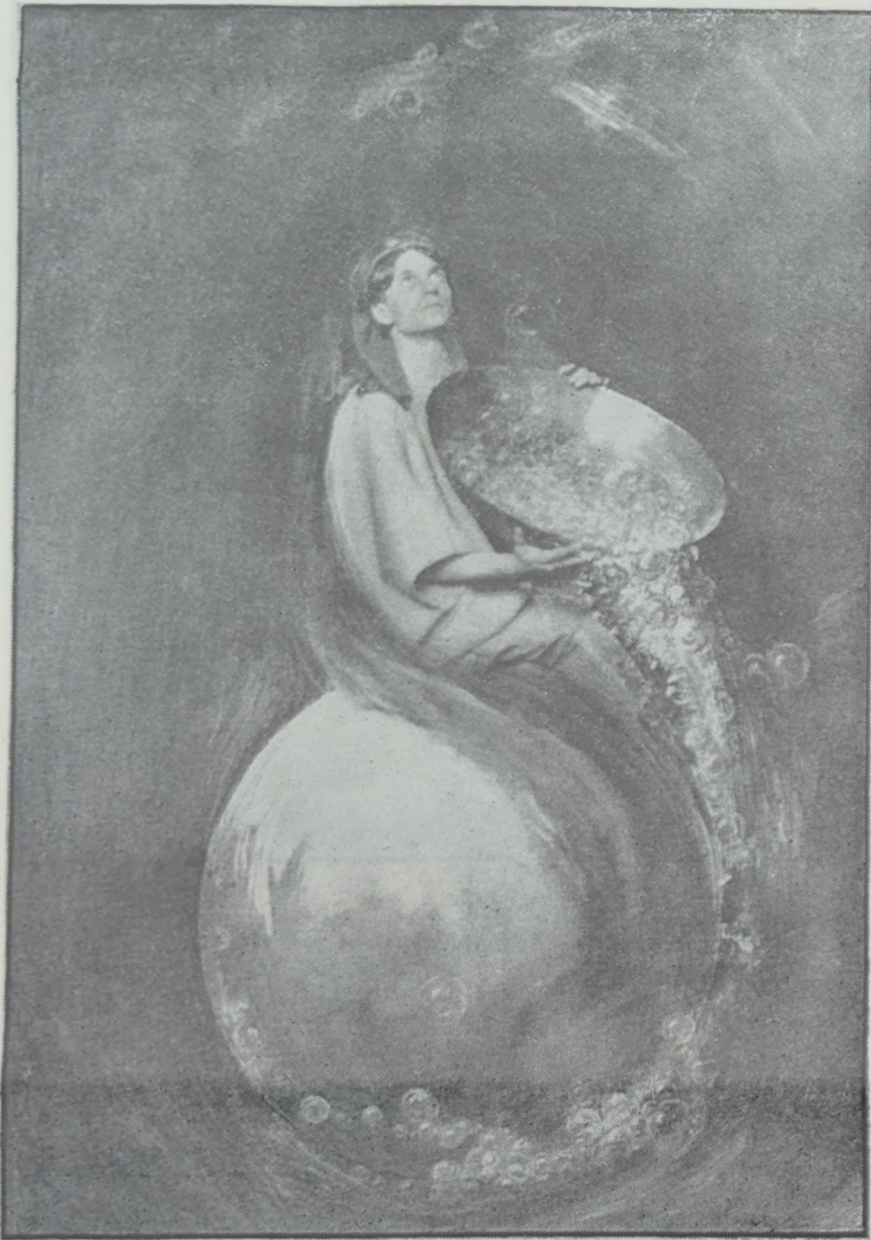

So now the Nebula spark became the alchemical pot, and in so doing, eventually the FIRE within the Fire found the means of being able to manifest.

*Thus the ever revolving infinity brings the source of Beginning uniting with the Source of Polarity. Because it is only in a created substance, to the degree of Solar Creation, this Fire can manifest.*

So it is only when you can create a substance equal to the degree of a Solar Creation that this Fire can manifest within you as Divinity.

*Pure FIRE having no substance of its own, but a passing combustion that must be given substance, equal to itself, to make its manifestation. Unmanifested Spirit, that when the soul is completely of spirit, becomes divinity born. The whole of the bloodstream fired with Spirit, waiting to manifest as the Divine Voice. For the FIRE within the Fire will then find the means of manifesting.*

Now it is not only that, but if you do not, there is trouble waiting round the corner. We have warned you of this, we have told you to get yourself ready, we have told you to get prepared, because it is only Pure Ethers coming down now, and if they do not find a pure body to enter into then there is going to be corruption. Then you will go to the medical world and they will give you all the earthy substances under the sun, and they will kill every bit of spirit within you. They are murderers, every one of them, and that is the next port of call of the Spirit World to completely clear out of existence. All drugs destroy! They will earth you, and will kill the spirit within your blood. It is the medical world who are respon-

CREATION

**F**ROM out of the mysteries of the heavens untold wonders have come forth; now to become the glory of creation, as woman weaves it into the glory of Light. For as the Virgin she knows not how, but is led on by the Voice of Divinity. (See text in col. 4).

sible for the disease in the world and for the drug addiction.

*The inner FIRE being the Atomic FIRE of the Central Sun, with the outer radiance as the Solar Sun. So when the FIRE within the Fire is being drawn forth, soul is then drawing the equivalent out from within himself, from his own Generative Power. That which*

*manifests through the NORM (the pineal gland) as the Central Sun, the radiance of LIGHT.*

Now let us look into this idea of the FIRE, because Merope has now brought down the VIRGIN ETHERS. This has never been heard of before, never! No one even knew there were VIRGIN ETHERS, and neither did Merope until

she brought them down. They are very heavy, and the burden she is struggling with is ferocious.

*(See plate on this page)*

*Q... Did they give birth to the Divine FIRE, Master?*

A... Yes.

*Q... So they may be termed as pre-Divine FIRE.*

A... Yes, quite true.

They cannot manifest. The Fire cannot manifest, because the Fire is Black. It is Abstract Descent. It is Unmanifested Creation, that has yet to be given the Power of Creation.

*Q... In a way it is a Black Potential?*

A... Now that is better, Black Potential, that is very good. This in coming down has got to find a means of manifestation, but it is not the Black Rays that you are going to give manifestation to, but it is the FIRE within the Fire. It is the Unseen DIVINITY. Try and see the depth of these things and then you will find your mind will be sharpening up to sensitivity.

*Q... By raising oneself up, and by exercising one's mind and increasing the frequency, we rise up and meet that Black Potential and spark it into life?*

A... That is right. It is only by you bringing yourself to that equal, that you are going to give it life. You must bring yourself to that equal.

*Q... This is the struggle of the Bull.*

A... That is right. He must capture the Fire out of the Seed until he can manifest it to that degree. But it is quite true what one you was saying to Merope earlier; it is not the Bull that does it, it is the Virgin, Venus. For unless Venus dances with Mars she will never manifest it.

*Q... I suppose it is a matter raising yourself up to a higher frequency?*

A... It is not so much a matter of just raising yourself up, as being able to draw out from your inner being the realisation. You are working inwards, and inwards within the inner bodies.

*Q... This is passing through different degrees of Vibration?*

A... That is right. Now Vibration is going to be very important in the period ahead. Everything will be Vibration. You will have to sum up all by Vibration; you will learn not to see by form. It is wise that you begin to think on these lines, otherwise you are going to find yourself in the outer world and not in the New World of VEGA. It is a matter of living in that World by belief and understanding, and the intensity of knowing.

*(See plate on page 15)*

*Q... So the Venusian task is to woo the inner FIRE out of the Fire, in the true Royal Harlot way?*

A... That is quite true. There is not going to be any moment

to spare, and the future is not going to be a world as you have known in the past, where everything is of business and money to be made. In the future it is going to be to try and find a Mind. If you have no Mind then you are no good. *Q... So the Mind is the Fire?* A... No, it is the LIGHT out of the Fire. It is the Fire turned into LIGHT.

*Q... Isn't it one of the great feats of the last fortnight, that Merope has completely blended the Fatherhood with the Motherhood, so that there is in fact no longer the separation of the Principles; there is one DIVINE WHOLE. This was a very very great achievement, far greater than words can possibly describe it.*

A... Yes, that is right, because the Female has gone back into the side of ADAM.

*Q... Yes, there no longer are the Principles. I was given the other morning a message that the Divine AXIS had been set free, and I understood by it that the Fatherhood was in ITS WHOLENESS, and as a Generative Divine Power was free, no longer held by the Fall of the Divine Sons in the past.*

A... Yes, that is quite true.

*Q... And Divinity is no longer marred by that status?*

A... That is right. Now are there any other points anybody would like to bring forward, because you have the crux of it there and you have the crux within your mind. The thing is, you have got to try to fight to bring the FIRE out of the Fire, and you can only do this when you fight for it, and you search for it through the mind.

*Q... The FIRE in being Black is as a protective covering?*

A... Well, you can put it that way. It has not found LIGHT yet, it is Virgin.

*Q... It has not yet blended with the passions of man, nor had any contact.*

A... None whatever. Do remember, the Solar Rays that come down are Black.

*Q... I suppose, Master, that in some way the Black FIRE is a polarity.*

A... Yes it is. Now when you begin to draw the FIRE out of the depths, to do so you draw it out of the Seed, but at the same time you also draw it out of your own inner depths. Because every man now is polarising the depths with the Heights; every man is polarising the two Thoughts, the two states of thought. No man can say now that he is not, he IS; the only thing is that he does not know. So when you think, and you think upon the Heights—let us take for instance, the Central Sun—then as your mind is on the Central Sun are you polarising your own depths.

Man has so limited himself, so narrowed himself down to the smallest degree, he does not now understand the true mean-

# Readers' Letters

## Theocratic Guidance

Mr. E. Hardcastle,  
London, E.C.1.

"The Prime Minister has the Occult Gazette delivered to him, unsolicited, every month." (Daily Mail).

Dear Mrs. Spearman-Cook,

I enclose a cutting from the Daily Mail (7.3.69) just in case you have not already been told about it. I was thrilled at the thought that Mr. Wilson gets the Occult Gazette delivered to him and know you will be too. This is one more proof, if any proof is needed, that our country is coming under Theocratic Control. The inspired reader who is delivering it, is to be congratulated, for then the Great Powers can work in their unseen way to bring greater and greater Light to the Prime Minister.

It seems that by the Law of Attraction the Gazette is automatically being drawn to him for there is no other Paper anywhere which carries THE SPIRIT in every Word that is written. The Gazette is sup-

reme and unique in that respect and it will be this great unseen force of the SPIRIT that will be helping and guiding Mr. Wilson in his heavy task. I wish I had thought of sending it to him myself for I am sure that this has been the one thing that our country has been completely without, the Divine guidance of the SPIRIT.

Whenever I read and re-read the Gazette I seem to be somehow rejuvenated, as though the Force behind the words carries with it the Healing Powers. We are all so blind we cannot see the marvellous work you are doing, not only bringing to us the Wisdom but the Power of New Life.

For it is this force of New Life I feel most of all when I read, even though there are times I have to read it two or three times to get an understanding of some of it. I am sure this is the Theocratic Guidance that you have been

the channel in establishing and which will bring the world to sanity.

May you always be blessed in your Great Work, and though a "Prophet has no honour in his own Country," please know that there are hundreds of us who do recognise that you are Divinely Directed.

Mr. E. S. Appadoo,  
London, N.11.

Thank you very much indeed, for the natural and

herbal treatment you sent me for my bronchial asthma. Your treatment has given me tremendous relief. I have stopped all chemical tablets which I was taking daily to relieve me from bronchial attacks. This is the first time for the past 12 years I have not taken chemical tablets for the whole week. I have complete and utter faith in your method of healing and I hope that the root of my bronchial asthma will soon be eradicated. Thank you, thank you, and thank you, so much!

Miss M. B. Alston,  
Cumberland.

I do enjoy reading the O.G. and found the New World Prototype of especial interest. Although I cannot claim to understand all that I read, I do feel that I would be the poorer for not doing so. I am happy to report that both my brother and brother-in-law, who are receiving healing (absent) from you, are much improved. It is good to feel that one is part of such a wonderful group of forward thinking people. One sees the reason for all this chaos, and it helps one greatly that this state MUST be the forerunner of true Light and Love. Your

articles do help me to be strict with myself with regard to pure diet, by holding the ideal of total purity ever in the front of one's mind. My grateful thanks to you all.

Mrs. R. Farquhar,  
Angus, Scotland.

Many many thanks for the Occult Gazette. It is most eagerly looked forward to. On re-reading and endeavouring to absorb the Truth, it amazes me (words are not expressive enough) the wonder of whom YOU are! What a tremendous privilege to read the Gazette. Could one but realise the illusion of the form of this earth. Dear Mrs. Spearman-Cook, please accept the enclosed postal order for the funds of the Temple. I hope you do not mind such dribbles! I cannot thank you properly, it would be impossible, but send you all love.

W. Jones, Coventry.

I really look forward to receiving the Gazette early in the month, and await with increasing wonder and awe the revelations which will come forth during 1969. God bless you and all your zealous workers.

## OUTER WORLD SPACE

Concluded from page 14

ing of Fire, Heights or Depths. The soul is nothing else but Elements, he consists of nothing else but Elements. And so the medical world feed you on chemicals of the earth! Elements come from the HEIGHTS, not out of the mud!

Q... It is the revolving unity of the Elements that produces the Mind.

A... That is right. There would not be any Mind otherwise.

Q... And by taking the dead inert chemistry it destroys that very Element Creation.

A... It stops it.

Q... The Elements can only be woven into a garment of Mind by the pitch-blending of the Fire.

A... That is right. It is quite simple once you start to perceive it and believe it. Everybody really wants a Mind, but they are too lazy to try and get it.

Now one of the things I was interested in, was the question you were all discussing this morning regarding the subject of Space, when you are being told there is no such thing as Space, not in the sense that everybody would believe it. Now what was your statement my son (turning to one of the initiates).

A... I heard that it was the Non-dimensional Plane of Abstract Thought.

Now that means that until you build up something which is outside the range of that already created, it does not give any width of heights or depths to that Space. Unless you create something outside

VEGA

THERE before them lay the way, but how and wherefore had yet to be found. A world to be brought forth by belief and understanding, that Divinity could manifest in all His glory, as the radiant Flame of the Mind. (See text on page 14, col. 4).

of what is already created there is no Plane created to that Abstract Creation. Now can you follow that? There is no Space there at all, though you may think there is. It is just Fiery Air. That is why the Cosmos is ever asking for new NUT Points to be created, otherwise there is no expansion outside of what it already there.

Q... It is this extension into so-called Space or Planes of Abstract Thought, that is so very important.

A... That is the only way to bring expansion.

Q... And the very extension into Space is the extension into Realms of as yet Unmanifested Abstract Thought, and there is no limit to the

Unmanifested Extent of Abstract Thought, and that in itself is the Space in the sense of the unlimited possibilities of the Divine MIND.

A... That is quite right. And what has not manifested is the Divine MIND, which is the Black FIRE.

Q... Soon, Master, there are going to be dynamic movements in the so-called heavens, and the scientists are going to have to set free the cosmic fixidity.

A... That is quite true.

Q... The stars and planets are manifesting THOUGHT, are they not, and the scientists are trying to reach those Planes of THOUGHT with negative Elements.

A... That is quite true. Don't give any thought to these people, they will only corrupt the mind, and stop you thinking freely.

Don't let these thoughts pass you by. You have now all got two years, and NO MORE. There are two years of great activity going to take place; two years whereby you have got to reach the heights that Merope has reached. Do realise that all rests with your conscious mind; the conscious mind now is everything, all other states are of the past. You are on the Virgin Plane, where you are going to see the Heights and depths in one perception; your conscious and sub-

conscious joined together, perceiving all through the One Mind.

Now I will leave this with you; it is a vast depth and yet a simple depth, if you will only embrace it.

### GREAT DIVINE ONE

WE call upon THY Love to embrace these Children who are lost in the depths of matter, that the Words that have been given tonight shall be spun up into Heavenly Heights, uniting Divinity with every soul who is willing to embrace its TRUTH, and thereby become ONE with the FATHER within himself.

AMEN.

# The Saga of Time HYPERION

by Gladys I. Spearman-Cook

# Mythology Part 5a

Delivered at the S.U.P.H. on  
22nd July, 1962 by Ra-Men-Ra

PEACE BE UNTO YOU ALL.

I come amongst you and I seek to help you and lead you into the very depths of that which you are seeking, the Mystery of Life. This Word can bring much enlightenment unto the soul who is truly seeking, but to the soul who is seeking only through curiosity it will bring only pain and sorrow; for when the Solar Fire is stolen and never brought into its intense wealth of unfoldment, it can only burn and sear until it finds its way through into the intensity that was due for it. So now we are going to bring you the understanding of HYPERION the wide-shining.

### The Mystery Plate

(See plate on page 12)

NOW the mystery plate tonight is giving to you the two sides of the soul, the heights and the depths; that which is with the soul that labours, and the other the greedy Saturnian side of the soul that is ever seeking for the expression of self, the expression of desires, and all those states that belong to the man in the material. Yet the other relates to the sun-god within the soul who is ever labouring to bring the soul to his manhood, the solar fire that takes on the state of the godhood within the soul; it would be unknown to the soul, and yet of what the soul creates; but according to how the soul has reverence unto a God, Goodness, does this sun-god become; the solar fire brought to a royalty.

Until you can bring this royalty within you, of which I am going to explain to you, you will never have with you a sun-god, only a cronos-depth; that state of seven brought into a rock, that is in all states of greed and grasp and yet is the whole fullness or richness of becoming. And it is that cronos that becomes that solar-god. Where the solar-god resides I am going to seek to help you to understand. But ere we begin, let me bring to you a depth of understanding that might help many.

As you take of the Word and you weave that Word into understanding, so you create a vibration and an atmosphere. You not only bring to me the opportunity of speaking of Life and speaking of the Word, but you also send out onto the maelstrom either a magnetic or electro-magnetic force which can be the means of changing the atmosphere of the world. One man can be the means of changing life, one man can bring enormous states of interchange; but very often he will only go so far, for the gods then see it is necessary for man to learn by his own errors; then these are withdrawn and man has to learn by that which he has created.

If you do not bring true heights and true depths, then you will not help the Word to find its true birth. For instance, let me give you an example.

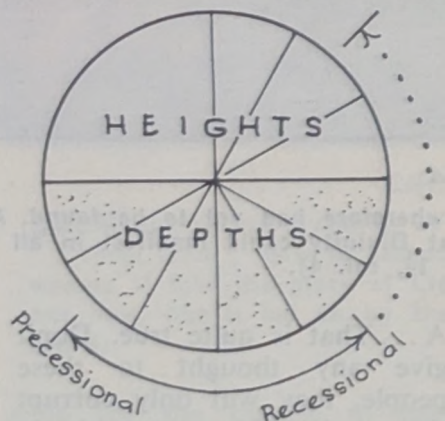

Where there is a group gathered together around one, that group build up for that Teacher their atmosphere. As they take the Word the Teacher brings, and they spin that Word into an understanding, so that Teacher will receive in return the Solar Fire as the Spirit-creation which those around her have set into harmony, or into discord. Thus, as that Teacher seeks in the early morn when the Solar light brings its first breathings, will he or she receive back what was set into operation by those around them: if it was fear, if it was anger, then they would only receive fear or anger: if it was hatred, or love, then they would receive of hatred or love. But if it was struggle and effort, then the Teacher too would receive of struggle and effort; showing you the importance of your struggle and your vibrations of expression.

This applies, not only to a group, but it also applies to the Solar Divinity. As man builds up upon the earth so it be-

comes the sun-spots on the plane of the Solar-creation. So man can only receive back what he sends up to the heights. If man builds up only of fire missiles, then he is going to receive back of destruction in the fire he receives. This is because it is in the Goddess's womb: she is the womb that holds of all this intensity: all takes place within her gown, for in her robe she not only holds of the works of man, but she also holds of the Seed of the Godhead. And within that womb, that robe, which is interwoven with the whole Time of Life, builds the Solar God, the Great Cosmic Man; it holds the wealth of life. She is the Great Mother that nurtures man.

When you can see that in its right propensity, then you have the true answer to Life and Cosmos, but when you only see it as cosmic rays, stratosphere, radionic vibrations, then you are of nothing else but what man has built up; but when you see it in its true creation of Mother-Nature and Father-God, then you have the true creation whereby you can weave woof and light for a new garment within thy being. So strive to follow what I am bringing you tonight, for what I am bringing is the Wealth of the New Age. It needs new words, new expressions, new understanding. So together we are seeking along the Path of Relativity which will bring you the full understanding of man and God. So now let us continue with the understanding of Helios.

Impaired Calendar

### The Calendar

NOW some of you have been seeking into what is the understanding of man building up of the Calendar, or the Calendar being imperfect. Now I want you to see this as a description of the Zodiacal Chart, which gives you of both heights and depths. The base describes to you that of earth where man is continually being reborn: the heights represent where he builds of the mind; but if you can see this as heights and depths, then you have your first insight into what I am seeking to give you of some understanding.

You see the Precessional and the Recessional: this represents the two dragons of the earth, but it also represents the Precessional of the Gods making their way through the Equinoxes: this is the march of Time, but in the opposite direction as the Recessional, it shows you the Wheel of life of man and the way man has chosen to march: it is a complete return of time, for man turned upon himself and thus turned the Wheel. This represents Solar and Lunar; Solar as the Precessional but Lunar as the Recessional.

THE CUP

THE Cup filled with the Holy Wine of Life, which will give unto the soul his means of deliverance, and his way of climbing the heights. For in that Cup is held only that which is his, and which he must absorb and redeem. (See text on page 12, col. 3).

When man sets into motion the Wheel then he must catch up with what the Gods are setting into operation in their movement through Time, and this he must do by taking in of the Solar Fire and bringing it within himself as the creation of Evolution. But man for some considerable time has hovered in the depths and he has remained ever around his own state of karma, living in those states which he has loved from the beginning of Time.

There you see the arrow stopping at the state of the 5th house, and that is where man has been dillying and dallying for 13,000 years. But to give you some idea of what he should have done, follow the dotted line round to equal with the Gods: that would have brought a perfect calendar of balance within the soul; instead of that, man is out of balance and his calendar is not in keeping with the Gods, so he has continually lost time.

Man is really hundreds and thousands of years in time behind the Solar Gods; consequently man now has lost count with those Gods, and it is only the few who have gone on with this wisdom still within their mind and depth and have been sent down from the Heights to give rebirth to the knowledge that have kept it alive: they are the heroes of life; they are the souls that march ahead of a group of people and referred to by the Heights as the Race Elect, a stream that sets off a new theme of thought: this thought eventually is caught up by others; but many have suffered as martyrs to bring this knowledge into birth.

That which I am bringing to you now is the wisdom of Leo reborn in Aquarius, when Spirit first entered into the depths and was the full immensity of Spirit, when there walked upon the earth those from the Heights that could bring to man the wealth of the starry heights, and it was then earthed; it was earthed with mankind as he was in that creation. Then man lost his way and fell back in the Cancer era: that was the Fall, the coricle slide into the watery depths of emotions. That was considered the birth of Time; that was considered the dawn of civilisation.

Well it was, as far as civilisation could understand; but before then there was a period upon the earth of Spirit Beauty: then your earth was only a plane, and was a flat world; so the philosophers were not wrong. It has only been through time, and the spinning of time that a globe of a massed state accrued, and will go on changing either into a burnt mass of blackened rock or into a globe of born Light; and this era is the beginning of that which is to come. I am trying to bring it to you in simple words.

The flat plane would be the 2nd dimensional; then there was the spinning into the 3rd: the first was the starry heights bringing the spinning into the 3rd dimensional of the Lunar. Now man is spinning into the 4th dimensional, the Solar, the Word, Wisdom, the mind; and then to raise it into the hypotenuse, the raised-up pinnacle upon the square, the pyramid, to bring into his own being the extended mind which brings within him,—not just knowledge but wisdom,—Spirit, word spun into a flame; not just text book knowledge and repetition,—but where the soul becomes a god within his own rights, a speaker of truth, a creator of new life and a creator of new creations upon the earth; for he is now as the father, the manifested one: he now has the solar light so fully within him that he can manifest the heights in the depths.

But man is so sadly behind the time that he now has to work doubly, trebly, ten-times as hard to bring about the unfoldment into new life: that is why he is so lost to the Word; that is why, in our coming to the earth we find it so difficult to find words to put into expression that which we seek to give you in simple creation. If we brought it to you, as many have done in the past, you would be lost in a morass of words: this is what we are trying to avoid in bringing it in utter simplicity; therefore have
