## THE SOLAR INBIRTH

### The Process of Mind Movement That becomes the Stream of Eternal Life

by Gladys I. Spearman-Cook

THE GREATEST MYSTERY OF ALL IN THE Aquarian Age is the unity of heights and depths that an expansion can be obtained; but unfortunately so many are solidly fixed in theory and belief, that to try and get the human mind to fledge its wings in new-found ideas, is utterly out of the question. Scientists and priests have set the path, consequently man now finds himself lost in a sea of multiplicity that completely destroys any thought of unity, balance or extensive expression as the genius. To mention the spirit, any form of spirit return, or communication with those higher Powers, only calls for untold ridicule, and the immediate need for

attention, and requirement of electrical treatment. So we might ask, What is going to happen to returning sensitives? Are they all going to be destroyed? Is there no way for them to find themselves guided out of the morass they find themselves in?

Witness was promised unto man in this Age, but unfortunately the Scriptures, Myths and Legends are so deformed in their translation that very few are able to fathom their message underneath the multiplicity of direction. (See advert on page 3). So one of the most important things at the present moment is to try and understand in a common-sense way the scientific depth that lies in the ancient myths and legends; and could at the present moment guide and lead man outwards and upwards. Yet at the same time it is a great tragedy to lose the beauty that lies with much of this writing, that which at the present moment man derides; for it is that which gives to the soul the lilt and dance of uplift. This is what man fails to see, and that which is so necessary to start off the spiralling in the expansion that must be made, even in the most fundamental of explanations. This is the idea of the Scriptures: they give you a lilt and a push-up the spiral, if you follow the words. This is the reason why such writings are placed this way; it gives the curl and twist necessary to start the soul off on a journey of "tapping" its feet. This is the spikenard that was placed on the feet of the Jesus that a supple state of movement could take place.\*1 Man in making his way back to the heights can only do so by spiralling upwards, and thus is swinging his way up to a state of abstract reality; therefore coming away from the mundane illusion which to man is so real. But at the present moment, owing to the earthy cold material state of life, man is finding it very difficult to understand the real purpose and depth of the so-called mysteries.

These are not really mysteries at all, but the depths of man himself which he has tried to bury because they demand of a state of sacrifice. It means discarding of those states that are still holding tenaciously to matter as a state of security, when really man has got to learn and accept that his real measure of balance lies in the inflowing waters from the heights. The higher Law descending into the lower law; for if this was not correct, why ever recite the Scriptures, or make them legally binding of oath. Man must, ere he can return up the Cycle of Relativity, discard of the beast, and seek of the spirit. (See note on the passage of the Equinoxes on page 5).

Yes! man's idea of the slow recognition due to progress and understanding is a slow but sure method of uplift; but unfortunately not quick enough to meet the demands of the changing law and inflowing elements that are taking place at the present moment; and, what is more, that which is necessary to save the Race at a very critical time; hence the disaster at the present moment; mankind behind with the enablar of the gods,\*2 and not able to make any entry by recognition or interpenetration through the usual channel of return. Thus there has been a continual slide taking place in a backward trend of humanity since the Medo-Persian era,\*3 which is the root Cause of the tragedy man is facing today.

AM I NOT THE NOBLER THRO' THY LOVE?

HERE in this mystery plate Man the MIND has built and learned of the garment of Love woven for him by Woman—nature form. Seen in the light of each striving seer, here are the two parts of his ONE Principle, the male as Mind and female as body. Through them being united in principle and purpose the earth vehicle as the ever-travailing woman has built up the chakra powers (seen as the wheels on her garment) the etheric sensitivity of her ductless glands and raised up her every day mind thoughts (the raised hands of creative mind action). The Cosmic Elements have been to this soul a living Source of LIFE, his very Being, and sustenance: he has striven day and night to consciously draw down this Energy power to blend it with his own seminal fluid and weave the added powers into mind activity. As the body has honoured this BOND of HEART, and made the body's heart action the vehicle for the Higher Spirit Feared to me, so the daily awareness gained learnt to be the channel for the Starry Heights to me to awaken the Elements in others. This unselfish toil and labour has instilled in his mind the birth of LOVE. This is the perfect Marriage of Man, Mind, and Woman, forms which none shall cast asunder.

## Editorial ♦♦ The Royalty of the Seed

SO the fourth year of publication closes and already we are planning the 49th Issue and thus start the 5th Year. When we started those many days ago few expected us to survive 6 months, and indeed we WERE completely greenhorns in all that we did. Now, bronzed by experience, slightly 'scarred' by the joys of battle, we are ready to enter our 5th year with all the fight and fervour that is now expected of us. Our aim is to double our Readership in this 12 months and though this may seem a mammoth task, with thousands already to help us we are sure that it will succeed. Faith moves mountains and so a few more thousands to be 'moved' will be an easy thing to accomplish.

If the 'Bull's Eye' is known then the aim is secure and the fight is on, but if the aim is not known and the purpose is multiple and not One then all is lost before the battle is joined. It is thus to give us the aim that is the purpose of this call.

In all that has been taught all these years one practical Principle has been taught above all, and yet the full simple import of this apparently is the most difficult to grasp, for letters still come in from persons who are widely read and who have been seeking apparently for years who cannot grasp what they should DO.

Oh yes, they are delighted to sit still and read, or meditate in some ashram or retreat, or to come to listen to the fruits of some other person's effort, but still it seems that they cannot grasp the all important factor that :

"THE SPIRIT OF GOD IS WITHIN."

Yet these and thousands like them all over the world seek OUTWARDLY for their answers. And still they multiply their 'bull's eyes' and wonder why they are sick, aged, and mentally losing their faculties.

THERE is only one Way up the mountain back home to the Spirit Spheres and there is only one method by and through which all must journey. The energy powers that all of us are sacredly endowed with must be used and channelled in the correct and intended way. Unless seekers are prepared to accept and actively carry this out sickness is bound to descend eventually.

Those who suffer with any kind of spinal trouble especially those who are in pain with the so called slipped-disc, are all having to meet and face this problem. If you have learned of the sacredness of this in a past life then you are bound to honour that learned and

## Source of Being

Its Mysteries, what it is and its use

These and many other questions will be answered to reveal how to bring life to the sick and mindless.

actively continue to keep it Sacred. It seems odd to the modern day world that the Seminal and Ovum seeds are the one Divine or Spirit Essence which gives unto all their 'fires' of life ; without its power man is powerless to generate life, and without life man would become mindless. It is this realisation in full acceptance that is vital. All the thousands of souls who became monks and nuns under churchocracy and who took the vows of celibacy MUST continue that Road or spinal and mind sickness is bound to follow in this life if they take the backward turn into form again.

It is this single factor that above all else is causing, and is increasingly going to cause, the mental Hospitals to become full, even to becoming hopelessly overcrowded. In such a situation drugs cannot possibly help save to make the more dead the 'mentally dying.'

It is in this vital Sperm Life that the Spirit exists. It is its misuse that is causing the chaos in the world, and yet Nations leaders, abysmally ignorant of the most elementary spirit Law, are actively encouraging the sensual behavi-

our of youth, by polluting their minds by allowing films books and the like to encourage the fre-est of licence in every sensory avenue. To all those who see one glimmer of light in these Teachings, to the thousands who have written to us begging for help and succour, do above all else realise that once you have awakened and accepted that this Seed carries the Spirit, then fight to establish Honour and Reverence to that Spirit of God within.

UNIVERSAL PHILOSOPHY has taught of its sacredness, but more than that. It has stated that if a person starts

driving it into a new kind of activity. At least have commonsense enough to say that as, "I have lived in one state of action for so many years and all it has produced is this state that is with me, then I had better start to conduct myself in an entirely new way."

IT is a well known Scientific fact that the Sun and the Stars feed earth and man with the Life powers so necessary for the continuance of this Planet's existence. Why is it not then accepted by mankind that he himself should by mind draw down their Powers into his own body to mix with his own Life Seed? It is this practical side of Universal Philosophy which many find is so hard to accept in full faith and believe, sufficient to take immediate action by physically doing it just as a little child would do it.

This is the Essence of how to build mind-power. By the surrendering of the old ways and accepting the new path and taking immediate steps to place it into action. The alternative is decay, disease and ill-health and eventually to leave the earth plane through the doorway of a be-dragged body. What on earth is going to be the consequences of such a soul, when with only the identical mind vibration that he left this life in, he is called upon to create another vehicle to incarnate into? What kind of body will he create? Is this going to be the fulfillment of what the Spirit Command has warned will eventually happen, the entry into the earth of babes armless, etc. and even without certain hormones working owing to their pollution in a past life?

The only way to grow into the Plane of Mind is to accept the hard road now. One thought and one loyalty above all should be the intent. The aim should be the translating of the Spirit Seed into a mind light by raising the seminal fluid up the spinal Column, and thus feeding and strengthening the brain powers so that they have greater capacity of directed power to attract the Stellar Forces to feed the mind and body.

Let us therefore enter upon the 5th year by facing the journey united in Aim and Purpose. It will be the fight to achieve it and the practical action of health and happiness of Mind, that will prove it to others as indeed so many of our readers are trying to do now.

## Shedding of the Animal Kingdom

**T**HE Scriptures as the Spirit, or the higher Authorities' message unto man, are full of this impending evil; but again unfortunately, many states of translatory theories have been woven into them since their first creation; hence they have lost their real message. Therefore man only sees, at the present moment, the orthodox cult applied to them, and in most cases shuns them. These, as well as the myths and legends,\*4 are most scientific, and hold in their depth the mystery of life. Yet how many will accept them and their potent message, which could help multitudes at the present moment; that is, if they could be led by them.

*At the same time, as the answer being obvious to the wise, they are the unifier between heights and depths that will bring to those truly seeking the way to rise up and embrace the Solar inflow.*

What man has to do, and which he is finding very difficult in this age of solidity, is leave the depths by desire, and live in a more clarified and purified world of spiritual outlook.

That is, return to the understanding of a God as an inflow of Wisdom, and an embracement of a higher Law that brings into birth a finer mind of sensitivity, (see plate on this page, cols. 3 & 4).

Those who do still hold to this understanding,—and there are still plenty,—are waiting for circumstances to force them to change; but these changes will never come about unless they themselves make some form of effort or acceptance.

Once man can perceive that food, or any mode of life of a certain nature is detrimental to his uprise, then if he is wise and clear-thinking, he will discard it. This is seen very clearly through all states of life. For instance, once man lived

on raw bloody animal flesh, but there were those who suddenly began to realise that it was only filling them with the animal states of disease, desire and passion; thus made a compromise, and started to cook the meat instead.

*Although this minimised to a degree, it did not take man away from the lower passions that have been holding him a slave for ages. (See plate on page 4, cols. 1 & 2).*

But once this was started, it would continue, for somebody somewhere had started a new-found theory which was spreading through the maelstrom. It meant that many were now ready to begin to shed the Animal Kingdom, although they may still be held by minor ways. But to do so, they must begin to shed eating the animal flesh, which they should never, in the first place, ever have come to as differentiating spirit.

Yet with all these understanding states of reality, man is still too heavily in arrear to meet the on-coming demands now required to start the return path of relativity. Hence here man stands, with many coming to the point of reality, and others in a state of collapse through congestion; while some, and very few, are aware of where man has missed the road.

So any who can find courage to fathom these depths, and lead and guide man through the dark and turgid waters, must make every effort to do so.

But these are hard times, for man is now so completely won over by slothfulness and drug, that he never seeks anything else but push-button "B." This is what the thinker is going to be up against, so it needs some

very strong and determined effort on the part of those seeking to bring about any sort of reform.

*There is only one way to understand self and its multitude of problems, and that is, to look into TIME and see what it has been that has put into the soul, in its journey down south, that which will cause the problems*

*that are with him at the present moment. This at the present is a very severe one, and one that is causing much concern to the upper Planes.*

So there is only one way, and that is, seeking into the records of the soul growth through the Ages. Hence the myths, legends and Scriptures of every Nation; and except

for the different cults surrounding them, it will be seen that these are all on the same trend or theory of progress. The unity of heights with the depths in conscious unfoldment and embracement through the unifying alchemicalisation of the Elements. (See the front plate).

## The Solar Entry

**B**UT to do this, man must understand himself, and more fully comprehend of how these higher states of law make entry into man's ever increasing state of change; and most fundamental of all, their entry in the form of air, yet containing the whole of the Solar entry as the higher LAW of becoming. This has been seen as Prana Prakriti, or that of the Ruach, which contains that of the Spirit or holy Ghost as the God-like life, that when absorbed by the man, makes him greater than the angels.

*But of course it is not just receiving of these Forces in their raw state, but these being brought to a mind construction; and only when man has taken that force and woven it into a conscious state of Becoming, will he find the benefit he has been seeking. (See plate on page 4, cols. 3 & 4).*

This was perceived by the Hebrews as the Nephesh that could be brought to a God-state of manifestation; that is, a state of truth and reality and life-giving essence, through man accepting and consciously constructing through a slow increasing state of mind-recognition. So naturally to the far-thinking, this will be seen as a state of God, Truth, or higher Law manifesting in and through the soul as a radiating essence of life.

A giving force of love in contrast to a Saturnian state of ever seeking of "I want." Therefore one is of self, and the need for the shedding of the lower states, and the other is of the self-less, the embracement of the higher and seeking through the mind.

All these powers are coming as the Dragon-essence of the Aurora Borealis and the Aurora Australis that are circulating around the belly of the Earth. Man is capturing these by his own polarisation, and according to his risen mind, his rising vibrations, will he polarise them.

### MAN IS MIND.

This incoming force as Solar life, has been seen as Solar Blood, the life-giving force from the Solar-Deity; the Intelligencia or unfoldment of the higher planes into the lower. So it can be seen the necessity of them, and which can only be absorbed by the way of the individual; which accounts for Nations, personalities, and different states of growth.

It is no good man trying to classify all under different states of schedule as seen by him in his laboratory; for man is MIND, man is the son of MAN according to his growth; and what may be on one status of acceptance, is not on another; but can be destroyed by these tyrants of theory, category and dissection.

*Whereas man is mass through sheer state of acceptance, when seeking of the finer and less solid states of belief, he is less of mass; so becomes of the finer through unfoldment into the greater by mind direction and building up of soul purpose.*

O! MY SON, MY SON

**T**HIS too is a plate which tells of much inner psychological mystery. Immense struggles, hours of mental anguish, conflict and prayer, lie behind this soul who has at last succeeded in what this plate portrays. Up till now the soul has merely lived in the desires of the lunar light, the earth's emotional pleasures, but the soul secretly pined to have a mind free from the constant serpent of i-want, and the beast memory of past illusion. At last he learned how to become in friendship with his sex powers, the serpent, and instead of wasting them in mindless sense, he conserved them and turned his thoughts to making his earth mind—the Woman, into beauty and sensitivity. Gradually the intuition grew and slowly over months of hard struggle and denial of past joy, he walked pregnant with new hopes. Then suddenly one day his mind was made up, and of sufficient strength of Heart-Purpose to give birth to his new Child, Mind sensitivity. Now no longer will the lunar light of illusion weave her web but the Sun will be built by seeking of the Stars to guide and uplift.

\*1 The Jesus there referred is not the man as orthodoxy paint, but a state of achievement. The greek word Jesus is derived from the hebrew word Jehoshua, or Je Hoshea, he who had saved his Yod fires or seminal fluid. Such a one as a celibate rises up his creative fluid up the Spine and lights up the 6th chakra the upper testes the two glands behind the root of the nose. Thus was this name given to the Joshua state that arose after the Moses state had passed away (see Ecclesiasticus 46, 1-13, where it reveals why Hoshea the son of Nun was named Joshua).

\*2 Readers are requested to refer to the May, 1964 Issue where on page 8 an article The Calendar of the Gods fully explains the necessity of responding to the movement of the Celestial Seasons.

\*3 All readers should realise that the expression Medo-Persian is referring to the early ages 4,000—3,000 years B.C., in the Taurean Equinox period. Scribes in writing of the Mysteries all deliberately use cypher and mystic language to prevent the merely curious from stealing the Power that such mysteries give unto the one who knows. In the same way false historical data is woven into the writings in order to confuse the ignorant, such facts which can clearly be discerned by the genuine seeker.

\*4 Each Sunday for over 18 months Lectures have been delivered at the School of Universal Philosophy at 6 Phillimore Place, Kensington, on the psychological entanglement Mind has become ensnared with over the past ages. As each personality mind grew so another bunch of entangled roots grew from the last sowing. This ever continuing has produced a multitudinous state of mind chaos. But those very personalities of the past left record in the fables, myths and legends as well as recorded in the biblical stories, and it is the translation of these stories that have been given in the Sunday lectures. Thus the Magnificent Series they have become. Each Sunday Lecture is available at the Price of 2/- post free. (See advert this page).

# THE SOLAR INBIRTH

Continued from Page 3

*This when absorbed by man, and consciously digested, reveals unto him of a finer and greater way of becoming.*

Therefore it is up to him to have the courage of his beliefs and discard the grosser, and strive to fully adopt the finer and radiate it that others can become enveloped in its auric radiance. This is the WORD reforming and guiding man by the mysterious mode or way of alchemicalisation; and the motive of this dissertation.

So what we are now going to try and understand out of all the mass of knowledge required to solve these present-day problems is the entry via the breath of the AGGING process that takes place through the alchemicalisation inter-change.

**For once it has entered, it does not just become; it starts to agg; drive its way through; but it will only drive to where you want it to go; which we are going to prove to you as we go along.**

*But to understand this, we must perceive a little of the rudiments first; and although it may appear very strange to some, it would be wise to give it some thought, and then discard when the soul cannot find solace from its possibilities.*

## The Norm or Atom

**TO go back to the Beginning of man becoming as a human specie, we have to try and see him as a spark, which in its becoming, in whichever way it became, started from that state of a NORM or ATOM slowly becoming a human soul and mind creation: that which has ever been the ROOT, and everything has grown out from that, whether up or down.**

So this solves the mystery of man evolving, but unfortunately downwards into deeper mass, and not upwards to the starry element of the finer mass from whence he was being born.

This state of evolving downwards is what a man can do if he takes wisdom out of sheer state of ego, and never makes any attempt to weave or expand to conscious reconstruction for the good of all.

This is a part of the law of taking, thus what he has to shed; that of Saturn in greed and possession; and an underlying factor strongly with man, and which he has to slowly transmute into the solar embracement.

This has been seen in the myths as the green lion becoming the golden lion. By this it means that the one who takes wisdom this way never makes any attempt to see the funda-

mental truth, and what is required of him in the taking of that Word to prove the truth of what he is accepting as a state of belief. But apart from that, he is over-loading himself with atoms of the hosts which he never brings to reality, and the Hosts in the heights are left lame until he choses to disgorge. (See plate on page 5, col. 2).

This is what took place in the Medo-Persian era where Nebuchadnezzar\*5 became elongated; and man today is stuffed with the knowledge that was taken then and never brought to wisdom. That is your rock; your in-born fire: that is what you have to start moving.

The Norm has been referred to by many as Polyphemus,\*6 (see plate on page 5, col. 5) and is an ancient creational state when the soul first began unfoldment as the one-eyed Cyclops. This was the early state of man as mind development, and a part of the road as Relativity. Man's 7th Chakra. So one of the states that man has to meet, understand and deal with on his way back.

It was this early state, in making the grade through the descent of the fiery elements, that fell back into the depths and brought into being in the extreme depths, the three Graeae. The triple state of the negative as the three old women of the Matriarch state of Cancer.

So by this very minute explanation, perhaps some of you can understand a little better of the deep intrinsic depth of the Seed of Woman; your own seed, your own feminine principle; or further still, Mary being the mother of God. Whereas Polyphemus as the father was the giant strength of the Leo Equinox it fell to becoming in polarity as the feminine in the Cancer Equinox, leaving a "numbed" Root at the top, and a live root at the base from which all began to grow. (See note: "Passage of the Equinoxes" on page 5).

This is a fuller understanding of Kronos as Polyphemus the great and mighty god as Baal of the Golden Age, who cut off

\*5 In the June, 1964 Issue of the Gazette a superb article on Daniel was published which will do much to open the Reader's Vision to Greater heights of Perception.

\*6 Each of the greek words, such as Polyphemus, Cyclopes, Graeae, Campe, referred to the ancient greek legends which hide the psychological roots of our mind growth. Each of these are dealt with in the lectures referred to in Note 4 on page 3.

the genitals\*7 or sensitivity of his Sire Ouranos; the possible Fatherhood to come forth, and cast him into the depths; and he became Pluto in the underworld; thus he has ever-since remained in the underworld waiting to be retrieved as the living ChristOS.

There as the fiery element he has been a captive down in the lower genitals as man's desires; man's waters; when really he should have been the fiery seed of man's intended mind. When this can be seen and accepted, the very nucleus of mind growth is perceived, and the soul has the very ladder where-

THE APPLE OF WISDOM

THIS plate alone proves that the ancient fables were not wrong in their stories. Here the Mind as the awakened consciousness draws down of the Starry Elements KNOWING they will feed and give him wisdom. This is the apple given unto him.

*"Gird up thy loins now like a MAN: I will demand of thee, and declare thou unto me."*

His Man-state had been born; and thou wilt declare unto me of what you know and perceive, and I will receive of thy wealth up in the heights. And furthermore, when Job prayed for his friends in Chapter 42, verse 10, he turned their captivity also, and the Lord gave him as the law, twice as much in the receiving; therefore the latter end of his life was blessed. This alone must appear very hopeful to many, and although of the Scriptures which the majority shun, are fully explanatory of the myths and their untold depths, that could solve the many psychological enigmas that exist with man today.

*These are the records of his construction (see plate on this page, cols. 3 & 4) and the cycles he has got to meet on his way back as Relativity, and which he must bury-in in conclusion, or it will become again another stumbling block as a built-up rock of refusal to expand any further.*

*This is the Milky Way which man has constructed as his path back and forth to the heights, and which he must dissolve of the stoney bed, that the lower world can become absorbed into the higher world.*

Polyphemus in the beginning was the atom root which, during TIME, became the many states of shining as a big black rock; that which mythically holds the wealth of the soul; not the rock that holds the fire in the base, but the wealth of the shining black rock in the heights as the skull, or mind; and that to become in time as the polished diamond of ultra-sensitivity.

This was activated by Polyphemus and his wife Campe, (see plate on page 13, col. 3) the two extremes, (as she moved up and down, bringing the depths up into the heights), until they became as Siva and Lakshmi: then as time went on, as the EGO as the God-head glorified. All unified back into one state as it began in the beginning; but now as a fully glorified MIND. This is the journey called MAN. (See front plate).

Now we want to see what it is that brings this into birth from a basic fundamental. Although the whole of the seven fiery wheels are the constructive construction of this growth, the lower three are ever active to the upper two who become the over-constructing mystery of reality: Aries, Taurus, and Gemini. So it can be seen that it is these two wheels as the 6th and 7th fiery wheels of Uranus and Neptune that build up the upper, lower, or whirling Wheel, as the stars of the temple of ALL.

*This could be the interpenetrating primal force the mystery*

THE TREE OF LIFE

**H**ERE the initiate has not only been studying the Wisdom but also putting it into practical result and applying it to his own actions. In the early hours of each Morn. he labours to bring forth a New Idea, a priori, so that he can penetrate back far into the Ancient wealth of his own Tree of Mind growth through the various Past Personalities he has incarnated. Gradually as he does so, so he manages to unite and control all these old states; so he makes the whole of his nerve Tissue alive and the cerebro-spinal nervous system becomes awakened to the hurried electric-mind power driven down its channels. At last in the very Centre of his being he awakens the NORM his Spirit Essence, and the Harmony of the spheres become his, as down in the depths of matter he has a Mind united in embrace with the Heights of the Stars and Solar Energy. (If the reader looks carefully at this plate there is detailed evidence of all referred).

by he can begin to climb out and go forth; and start building the fires from depths to heights.

*Up to the present, all man has done has been to give birth to*

\*7 Uranus is the planetary ruler of the 6th sense which is connected with the Pituitary gland and its sister glands the 2 upper testes behind the root of the nose. These when working produce the Higher Perception and the abstract Mind. To keep them working necessitates a constant drawing down of the Cosmic Elements and the raising up the seminal fluid up the Spine to unite in the Upper Testes as the Light of Abstract Vision. But if the soul relies not on the Instant Enlightenment of the Moment but only on the mind-memory of past events then he no longer uses the mind energies of the upper testes and instead relies on the Saturn state of past knowledge. Thus it is said that Saturn has 'cut off' Uranus' genitals or testes glands, and the powers of instant perception are lost.

*flesh children instead of mind prodigies; yet to man deeply enmeshed in the depths of materialism, mass and desire, is completely ridiculous. Yet it is a truth, and one he is now having to face at a rapid state of mechanicalisation, stunted children, drugs and bone calcification.*

But man, like Job, is still refusing to face the truth, and yet if he could but utter the same statement that Job had to make in the end, and which your Scriptures are so clearly pointing out to you, it would lead man to turn round about away from Illusion.

It was not until Job, who had been praying for 32 Chapters, turned in Chapter 40, verse 4 and said:

*"I know I am vile"; it is here that is wrong and man's self-entertainment, that he received his answer as in verse 7.*

JACK THE HEDGEHOG

# Passage of the Equinoxes

IN order to understand the movement of the great Aeons of Time the passing of Ages has always been calculated according to the Stars. Each year the exact point of the Sun crossing the celestial equator is observed to move backwards in its circular movement some 50 seconds the Precession of the Equinoxes (60 seconds each minute : 60 minutes each degree : 360 degrees a circle). Thus it is calculated it takes approximately 2,160 years to move through 30 degrees which equals an Age or the passing through of an Equinox. The Celestial circle is divided into 12 great Constellations the 12 Zodiac Signs, and subdivided into 36 lesser Constellations, each of ten degrees, a decan.

It is in the terminology of these constellations that great passages of Time are referred, and during the passing through of them their influence is shed on mankind. It is

through them that Mystics teach of the influences and events that man will experience in the future, the Bible being full of references to these past Ages.

The chart helps to show how in entering each new Age, the polarity or opposite Age influences, and what happened in those days, must necessarily be felt. It is having the wisdom to know how to manipulate these awakening roots of those ancient days that is so vital to the initiate.

This is the Cycle of Relativity referred to on page 4, col. 2 and page 9, col. 2, which mankind is not only meeting collectively but each individual facing his own ancient state.

of the Ark with its two seraphims and their wings sheltering the mysterious depths in the casket. Man's unfolding awareness through the ancient White Wall of Thebes as the corpus callosum\*8 that has been building up for ages; and which David struggled to reinstate in the heights.

So now we must face and accept that Polyphemus is the giant of original mind creation, from which the soul has branched out, and which the soul will ever be meeting in Relativity; and could be quite apt to come forth as a drunken Bacchus or even a centaur.

THE GRAIL CUP

UNTIL each one yearns to breathe the airs of heaven and drink to the bitter dregs the Cup of struggle, to be a Knight to his own fair Lady, the body, and fight to overcome all the demon knights, old farmyard thoughts of animal desire, the Grail will never be found. (See page 4).

beside the struggle and purpose of the soul, who, unless it was helped could never get past the clamp holding it down in avidja, ignorance.

### The Power to Agg

THE continual in-birth of the elements as solar fire is the driving acme of this engine: this we know is not only as the oxygen in the blood, but also the fiery seed of man's holy waters, which when unified in alchemicalisation, become the power of the AGG. The driving force that aggs the soul onwards and outwards, but also upwards if he so ordains by conscious reality of interpenetration of thinking. The soul thinking by the inner depths of soul-growth as a super-mind coming into birth.

This fiery SEED can become that of the OS, or the snake-fire of the soul; the higher

essence of revolving construction as electrical radiation. A revolving nimbus when the soul has through life and its experiences, learnt to be a driving force by purpose and will, and constructed by conscious reality a mind awareness, of not only earth, but the greater depths of the planes above now embedded in matter as wisdom.

But first of all we have got to try and see what is this revolving continuity that slowly becomes a great force within the soul as a revolving nimbus of life-giving force.

That which all must try to achieve once it is recognised, for it is a state of unified heights and depths; the blended forces of the Aquarian Age as the sun and moon in unified creation as MAN in MIND birth.

This IS God as truth manifesting in the flesh; not righteousness, or even creed or dogma; but TRUTH. (See front plate). It is that great mystery which gives strength to a soul as a MOSES; a grown strength where the soul, through unification of solar and lunar, heights and depths blended, blends the power of the MAN and the power of the snake; heights and depths.

This in its mystery is the electro-magnetic unity driven on by the agging action of the alchemicalisation directed by the man.

That which is taking place in the greatest mystery of all TIME in the creature called man; for he is the fourneau cosmique where all is created and brought forth. But it must be understood it does not just come into being, but all has to be by his will and purpose. That is, where the word as study and realisation drives the soul through the beth-EL of oath and belief, and the purpose to become.

These souls were once seen as a Cecrops, or a soul with magical powers gathered from the Cancer depths; but when glorified by their own DrosOS Dew as the revolving

POLYPHEMUS—THE ANCIENT OF DAYS

THE only way that man's Polyphemus can be released as old Wisdom is to create a mind of the same sensitivity as it was in those early days of mind development. Thus the lower logical mind keeps on creating in mind awareness as the Martha to bring into birth the intuitive faculty that knows in the instant by a sense of awareness, the Mary. Then the mind can attune to that inner creational development and bring it forth from the prison in the mountain of old knowledge and ego. Thus the Martha labours in trial and error gradually bringing in the inner sensitivity the Mary by her efforts. But the danger of this is to be caught up by the magnetic desires of the depths and be imprisoned by Campe, the magnetic earth witch of self. (See paragraph on page 4, col. 1).

serpent, a soul becoming born of the Christ-OS. This is the whirling nimbus, the serpent swallowing his own tail in revolving unity. Therefore the soul being born of God, and not just living down in the depths.

This is the kundalini fire discussed so much in ancient wisdom and fast receding from man's mind today as a belief; and is the spinal fluid now alight with LIFE going up the spinal column to the seventh Chakra. This it is now seeking to fire into action, thus causing the Phallus as Jesse's rod to become erect and send forth a fiery seed of God-life as the OS. This when unified with the pituitrin in its descent, is the perfect unification and the re-

newed blood-life of one who is as the son of MAN. (See the plate on page 9 in the July issue).

To get a better understanding of this, look to 1 Samuel, chapter 16, verses 10 to 13, where it describes of the seven sons to pass before Samuel, but the eighth with a ruddy and beautiful countenance, is the one to be anointed.

This great depth in the first place belonged to the heights, and fell into the ancient Cancer depths as the old witch powers of the Graeae. This has slowly been coming forth, but when unified with the solar, can become the Aglauros power of the soul. The OS that is

Ra-Men-Ra's Astrology Lectures

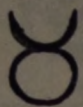

TAURUS

Part 2

THE WILL OF GOD

Ra-Men-Ra is a name of the Voice of the Teachers that speak through Mrs. Gladys I. Spearman-Cook. The Egyptian name Ra was a symbol of their Sun God or Central Spiritual Energies. Thus the name indicates Those who have involved from the Spirit, lived in and mastered Matter and returned to the Source from whence they came—a journey open to all. Thus Ra-Men-Ra is the Voice of the Masters. (Editor).

**T**AURUS, WITH RULER VENUS, WHEELS IN THE SECOND CHAKRA, THAT of the Svaddisthana, and is called earthy and fixed. Aries was of the fire, positive, masculine and mental-motive. Gemini becomes of the air and is all-mental. Therefore Taurus is cold, moist and semi-fruitful, feminine and melancholy when not receiving from Aries. Under this sign all means labour, and can often be unfortunate, in that all souls learning through this sign must be plodders to learn patience and endurance. And it is found that they will wait for opportunities with apparent indifference, which as a rule is due to mere stubbornness;—but invariably they are tenacious and self-willed, having gained much from Aries. The Sun begins its yearly transit through this sign about April 20th; it is the middle or fixed sign of the spring with unusual horns on head and toes to rush forward with fierce energy, nature.

TAURUS THE BULL

"I come not to destroy the law... but to fulfill it."

tic of the period, some thousands of years ago, when the solar system was precessing through that constellation. Your May-day festival, with its pole and garland, are the remains of the ancient Egyptian festival celebrating the entrance of the Sun into Taurus.

The Golden Calf is referred to in the Holy History, as the time of Moses directing the Law down to the earth, when the children of Israel were so unruly. Aaron the magical and psychic attribute of Moses running amok in impatience would represent Taurus and Moses as Aries, while Joshua was Gemini.

Now that is what it was like when it was first put into operation. All form upon the earth is wild; it is not as beauty. Man has to bring it into beauty through himself. That is why man, when he receives the powers of Taurus, can reproduce the beauties of the heavens in the higher octave of Venus, which is Neptune. But this is the Taurean god, and it is what man puts it into birth every time he puts the senses into those snarling states, the lowest state of himself,—which the majority do in the form of senses.

The Will of God

**T**AURUS is the influence that produces changes and opportunity for the initiate; the sign which is called "the sign of the major life incentive," because Taurus is the symbol of desire in all its phases.

Whether the subjective soul is impelled by desire, or aspiration, or whether the man is controlled by the will to co-operate with the Plan, he is, nevertheless, being responsive to the most potent manifestation of a little-known and understood aspect of divinity, to which is given the inadequate name of the Will of God.

Many people start off with a desire, but are never able to hold the stability. The majority of men are struggling to place the five chakras into operation. When they fill up the tat and become fairly well filled on the 5th, which is Taurus, through stability, then they are able to draw of the Mystics,—the 5th, 6th and 7th chakras. And that is what is represented by the 3 houses of the ark. The 10th, 11th and 12th are to do with the 5th, 6th and 7th chakras.

The Taurean influence must now be regarded as being of exceeding potency to-day more than any other time, particularly from the angle of the subjective spiritual values; it is Taurus which is the ruler and guiding influence of that which is occurring everywhere.

The sign is synthetic in the sense that it brings expression of an inner urge of some definite nature upon the physical plane; this it does, because its basic quality demonstrates as desire in the mass of men, and as will, or directed purpose in the initiate.

The entire secret of divine

THE SACRED APIS

**I**N this Egyptian Plate the Bull of Taurus is seen sniffing up the aspirations gained from the struggles of life, and his desperate seeking to raise up and realise the wealth of his Venusian sensitivity in the Libran seat of Balance as seen by the Dove seated on the Loins. All persons have these qualities and if the sensual emotionalism of the lunar desires can be raised up to become the mind sensitivity, being able to blend the Inflowing Spirit into the body, then the Dove of the Spirit Guidance walks by man's side, the Winged Solar Light as seen by the sun supported by wings.

purpose and planning is hidden in this sign, owing fundamentally to the relation of the Pleiades to the constellation, the Great Bear, and to your solar system, which constitutes one of the most important triangles in your cosmic series of relationships; while this importance is also enhanced by the fact that the "eye of the Bull" is the eye of revelation.

And the secret of Taurus is revealed by the removal of world glamour in the blinding energy of light which must and does come to the soul in time; because the underlying goal of the evolutionary process, the onward rush of the Bull of God, reveals steadily and without cessation, the stupendous and sublime plan of Deity.

Owing to the influx of the SHAMBALLA FORCE,—which is that which fans or intensifies the light by the removal of obstruction and proceeds from far distant places, pouring through the eye of illumination that which impells the Bull upon its onward rush—there is the establishing of a peculiar relation or alignment between constellation Taurus and the Earth, Earth being active and productive, at the present time, in and by desire.

It was the Buddha who clarified for man the nature of desire and its results, with the unhappy effects which desire

produces when persistent and unenlightened; but it was the Christ who taught that of the transmutation of desire into aspiration, as the effort of the human will—hitherto animated by and expressed through desire—to conform itself to the will of God.

And the big unseen fight today is,—will this Taurean force, which can, by its incoming Shamballa forces, produce the floodlight necessary to produce that of illumination, of which Taurus is the custodian,—or will it simply foment desire, increase selfishness to such an extent as to bring humanity to the fiery heights of self-interest, instead of to the mountain of vision and initiation.

This great desire is the will to become of;—of what? Of that Great Purpose which is the destiny of man; to create and bring forth of that Unseen, but higher and not lower; to be linked to that Will which can most definitely further the ends of evolution, by creating situations which foster mental development under spiritual guidance.

The desire to remove undesirable conditions, by the desire and effort of the removal of originating sources that produce upon the emotional body of humanity, corporate suffering and pain; as this suffering, deprivation, anxiety and distress can lead to a reversal of human orientation upon the wheel of life, just as it does when man seeks as an individual aspirant. Because the way of the Solar chart is the reverse of the way man treads.

THE SUN GOES CLOCKWISE, AND MAN TREADS ANTI-CLOCKWISE; BUT THE INITIATE TREADS CLOCKWISE.

It must be seen that as man is growing in responsiveness to the incoming Shamballa influences, there will be the consequent evocation of the will aspect of man's nature. This necessarily will produce undesirable, as well as desirable results, on account of man's present point of evolution, and

# Ra-Men-Ra's Healing Column

## VALUE of HERBS

Re-named Ra-Men-Ra's Healing Column because so many readers sought of His Wisdom and Healing Power, once again is printed in columns 4 and 5 a Prayer given at the end of a lecture to comfort the many sick and needy who are looking for his help. (Editor).

**T**HERE have been those who have placed forth the question regarding the value of herbs, and how it is that they give man so much help. Although this is a vast subject, we could get a little enlightenment in this small space allotted to us. Although man himself is spirit and mind, his body is the crucible pot that is the means of bringing into birth the spirit replica. Then, unless the body is well and functioning in harmony with the law, the spirit is reproduced in disharmony, and this in turn has its repercussions back on the physical body. So the thing is, to find out what it is that maintains the body that is the means of producing the Spirit and Mind creation.

### The Effect of Retrogression

**M**AN'S basic as the animal creation came from the three lower Kingdoms, that of the Mineral Vegetable and Animal. When he re-returns, back into himself, which is against the law, he resorts to either the animal desire, or vegetates into inertia, and can even get stoned into a "rock" state of just existing.

This is what these teachings are striving to do, enlighten man by his mind, that he makes every effort to go forward into

mind activity, and not fall back into either of the three lower Kingdoms mentioned. For it is then that the physical body starts to fall sick through the distortion of the law that is operating it.

These three states begin to resurrect themselves up again in a body that now was assuming the context of the Human Kingdom, and that is against the law; the law being to ever going forward.

For by taking on of those old states of growth, would take on of human-animal desires, or vegetation of a deteriorating nature.

In a case of the mineral, glandular juices dry up, the bloodstream thickens and the veins harden, and bones begin to set with acid.

Well, by this, many of you can recognise your rheumatics, arthritis, inertia, and heart troubles etc. This is what we mean when we say, you are not making the progress you should do.

For somewhere in the past on your road of growth, you had made considerable advancement, and now are going back on yourself instead of going forward and making the use of those powers that resurrect themselves as you spiral up in your cycles of growth.

It is ever a repetition in a more advanced way of what you have been. But if you do not continue to weave your rich soul garment, you fall back into a thin and ragged gown; and in some cases none at all; the soul finds itself naked.

This is where man in his later growth becomes more and more attached to worldly matters and loses the conscious contact with spirit. Thus slides down more and more into the consciousness of the three lower Kingdoms. But still his mind evolves by so-called advancement and the spirit grows in a cramped and distorted way.

Therefore since all bodies are interwoven, the physical cannot live without the inflow of the spirit, and as the soul falls backwards into mind inertia, physical begins to take on of sickness applicable to the three lower Kingdoms of which it is comprised of.

*The law, which controls all states of growth, thoroughly resents it and is causing you untold pain.*

This is where the Great Powers have provided for their son, who in labouring in the density of matter, for the time is lost.

Herbs contain the natural and proper quantity and quality of minerals, salts and chemicals that are required to maintain and adjust the growth of the body. They are akin to natural phenomena and fed and nurtured by the elements.

Through their lack of mind growth they are completely subservient to the Powers that give them life, so in nowise are in discord.

*Therefore can offer to man all the chemicals necessary in such a balanced way, that they, by their harmony and healing pro-*

## Healing Prayer

Great Divine Spirit, we ask thy blessing upon the sick and needy that they, too, will find the answer to life; that they will be able to Respond to Thy Will and Purpose; that they will open up their minds, and by so doing, received the Aquarius Rays of the Heavenly birth, which can come to all souls whether sick or well. And so we ask that those seeking of Thy help shall be blessed and given the help and succour as sought of through Thy Instrument.

Amen. Amen. Amen.

erties, help to bring to his sick and deteriorated tissues and organs new life through balancing up all that has become distorted.

All this is done without putting artificial chemicals or unbalanced minerals into a body that cannot thrive on artificiality.

Man has been born from the resources of the heights, for man is not the flesh, but the creation that is emanating forth as soul. And that is to be found in the fluidic actions of the body:

### THE GLANDULAR JUICES, THE BLOODSTREAM and THE LYMPHATICS.

These hold the etheric body in their atomic qualities of fiery spirit action. It is these that radiate, while mind, their demonstrating carrier, becomes as the man containing every particle of growth.

Of course there is a great deal more attached to this from an astrological point of view, for where the law appertaining to man's growth is in discord it should be given much attention; for this is a subject that holds immense potentials. It is such as this that was really inspiring Linneaus to make his vast botanical investigation. But of course that is up to the herbalist, that is, if he is sincere in the task he has undertaken at such a crucial time.

Here is an example of a man, having learnt of these wonders when as a primitive he had to rely on Nature and

her healing properties, resurrecting his gift once again, when he requires it more than ever. For man now through his so-called advancement, instead of turning to the natural resources to heal him in a natural and balanced way, turns to artificial drugs that do not cure, but anaesthetise for the time being.

These being of a false active nature destroy the spirit fire, and the soul eventually finds himself devoid of the glandular juices and spirit fire of the blood that creates the mind. Then he continues once again to repair these and finally ends up a total wreck, often with many of his organs missing through operations.

If man is sick there is only one answer, resort to the natural resources that gave him life. For half the time the soul lacks fluid which is so necessary to it, and herbs taken in their proper context would help give the man the fluid he is missing. But unfortunately we are also dealing with Time and its unfolding silt of ages.

*I only wish the medical fraternity would give this deeper thought, although I have all understanding for them in the vast numbers they are now having to deal with. Their problems must be great. But this should not stop the man who awakens, and seeks by will and purpose to adjust his sick body by seeking into his nature that has become distorted by age, time and experience.*

### NATURE'S POWERS

*A Lady the wonder of her kind  
Whose form was upborne by a lovely mind  
Tended the garden from morn to even.*

(Shelley's *The Sensitive Plant*)

SO great are the powers of Natures Herbs that the intuitive mind of man on Earth would radiate the LIGHT of the Sun, with their properties ever cleansing and healing his form. If only Sensitivity was as carefully guarded and nurtured as the greatest of Spirit's gifts then all men would be united in service to the Cosmic Elements; but while drug and chemic, passion and pleasure be his bent then the Beauty that could manifest as Natures Bounty is doomed to the dung heap of plundered wealth, and merely lives with the Beast.

# Reminiscences

## FAITH

**T**HIS MONTH IN MY "OWN OPINION" page I am going to make an attempt to answer two letters written to us from a man who is facing the hardest and most severe

task of all, the getting out of one boat into another in midstream; and I must say a man I bow to with reverence. I have gone through your statements, friend, a number of times to try and find a place where I could pick up a point of argument with you, but could not on any count oppose you; for all your statements hold truth more confounded than it is easy for me to explain. What is difficult is the fact that it brings me into it personally, apart from those of Spirit whom are working through me; so you see I do not find this very easy, but I will try and be as impartial as possible. (See the letter inset reprinted from July).

### Creed and Dogma

**U**NFORTUNATELY much that now reaches us in the name of Religion has become so confused and stereotyped under that of Creed and Dogma, that the real truth is completely lost. What originally began of the unity between man and God, now is mere dogma repeated and repeated with SO MUCH repetition, that it no longer has any connection at all with the Divine Force that left the heights to fortify and renew the life in the depths.

All your statements, although placed in your own way of expression, hold more profound truth than have ever been uttered by a clergyman for a long time. Although by first glancing at one or two statements, they could be rather confusing to others who may be seeking, and in the same boat as yourself.

—RA-MEN-RA is merely, as you say, a name to cover the VOICE of Those who are striving to reach mankind, and my hand and pen are the instruments used to convey their communication.

**So when you make the statement that you do:**

*"That you must open up your soul to Ra-Men-Ra if you want him to help you,"*

**It is not the entity named Ra-Men-Ra, but the Divine Powers that are using that channel to help mankind.**

**The Occult Gazette is not mine or the School's, but a means whereby those Powers can reach the many who are genuinely crying out for help; and everything that is said and done regarding this paper, is under their supervision.**

Owing to the advisability of keeping your identity hidden, I shall just refer to you as friend, for there is much that I could say that might help others to understand your statements better. First of all, I must say you are a very brave man, for you are before the public, but further I would say with emphasis you are not the only one who has faced and is having to face, drinking the CUP right to the bitter dregs, that their principles could be upheld.

We know of plenty who are struggling through this field of endeavour. Therefore all who are genuinely treading this path to find the REAL answer to life, have no alternative but seeking by shedding all.

*The uprooting of the old magnetic depths that we can unite with the solar reality, is vast; and that means, coming away from all the multiplicity of misconceptions that have*

### A Church of England Parson writes from his Vicarage:

I found that the lectures you were kindly sending, were helping me but, at the same time, I felt within myself the pull of orthodox beliefs fighting against the teachings of the School of Universal Philosophy and Healing. Then I realised that, in order for Ra-Men-Ra to really help me, I had to open up my soul to Him, accept Him as Master, and so I knelt down and prayed to Him and asked Him for help and Guidance. Then a very wonderful thing happened; I felt Him come right into my soul. I heard Him uproot from my soul the old orthodox beliefs; I heard him say, "I am God-Man-God, it is to me you must turn now, not to the man Jesus" and my soul responded gladly to him and I humbly worshipped Him.

He has brought to me the greatness of Mrs. G. I. Spearman-Cook and has also shown me that Redemption is through the Solar Deity. He has taken my soul back in time to the Egyptian Civilisation and shown me the majesty of the great Goddess Isis.

*been with man for ages. To try and find one's way back through the debris of entanglement is not easy, but to the genuine seeker, they are led by a mysterious inner perception, that he finds, in the end, has been but the thread that leads him right up to the Voice that has been guiding him.*

What is confusing to man now is the fact that he is looking for form and tangibility where Spirit is concerned, and that ends on our own doorstep. From there it is vibration, and what is HERE on a certain vibratory note, goes up plane after plane until it reaches the "GONG" that gave it the first send off. All is HERE and NOW, and as you reach up within depths of heights will you follow that "linkage" on a more spiritual vibration.

**All these are not personalities, but Great Living Powers that belong to a vast World of Reality. Powers of Light, Life and Mind, that when we leave the earth,—and we are not earthbound by some very earthy incident,—can go up to, and become united with.**

*It is the losing of density and darkness, shedding of matter and confusion, throwing off desire and selfishness and merging into a finer thought, a clearer perception of life and its purpose, that man is learning through matter and its captivity.*

I know that Ra-Men-Ra wishes me to tell you all this although it is not easy to unburden my soul like this.

#### Another letter followed:

I tuned in last week at five past seven but nothing seemed to happen; I was most disappointed; then about eleven o'clock that evening, when I was quite by myself, Power suddenly came flowing into me. Evidently the wait until eleven o'clock had been on purpose to wait until I should be quite undisturbed.

My whole soul vibrated to this Power and then I received the message that I was to turn to this month's (May) issue of the "Occult Gazette" to receive guidance.

I found myself riveted to the article—"The Calendar of the Gods"—and from this article I learnt that I was to look to the Great Solar Deity as a Father God, the One Whom I was now to regard as my Heavenly Father. Also I realised the help that was waiting for me from the Gods, and from the great Mother Goddess. This going back to the Faith of the

Yet without all this experience, man would not be a mind creature at all; and what is more, are we not the appointed creators of matter; those by whom the Greater Powers are working to bring the ordained evolution to the Universe? More difficult for some, but only because they are ready to shoulder the task, thus find their way further back home.

The fact that you are genuinely seeking, alone carries you up to those higher planes, whether you go via Ra-Men-Ra, or the one that is guiding and leading you. But the most important point of all is the fact that you recognised WHO was leading me, and WHO is the Power of Love for all seeking union with their lost unity with Spirit.

**Not just belonging to me, but because I found the courage to act as a vessel and handmaiden for Him, the Master of the Academy of Wisdom, He has been able to reach you and many others who write to us in the way as you do.**

#### Ra-Men-Ra

#### The Master's Voice

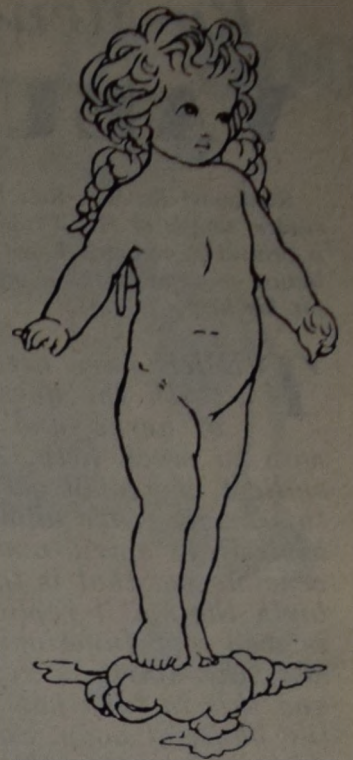

**T**HIS is where I find it very difficult to step into the picture. I knew and believed in this linkage up to those heights, and one day I found myself up there, whether people believe this or not, and was then given the task to go down again, and

help lead those who, by rights, should be linked with them, but had become lost in the depths.

But some who should have made their way back, and were drawn unto me, had become so enamoured with their life in matter, that they merely drew to the centre out of a state of "piracy," that is, stealing the power. Then when they were called upon to sacrifice, found their own true motive. And I am sure you must have met of those sometime in your life.

*If you only knew how blessed you are to have awakened at the "Touch," you would so unite with Him through your own perception, that you would not require my connection, but be at oneness with HIM that is your root and hub.*

**We all come from a Root that is linked with yet the**

really operating from vast heights of Power that is organised by LAW alone. But Powers that have become Humanised and Begotten through the unity of depths and heights. Yet as you say, Powers that began right back at the beginning of TIME when Egypt started the first throes of civilisation, and will go on until the Solar Year and solar mind are fully born as the Solar plane of Mind.

*So some of us are preparing the way.*

What you have expressed under inadequate words, is dynamically right; but then I quite agree with you, it is most difficult to find words to express what you know by your own inner divine body of light.

**Never let anybody rob you of what you have found, hold it tightly to you and radiate it unknown to those who would try and force you to let go.**

It is because of all the dogma and ritual that has been orthodoxly placed around religion, that broad-minded men and women are shunning it. If it was brought to the "scientific" investigation that Ra-Men-Ra is doing in this School, it would help the world to retain its link with Spirit.

*It is because of the fact that the Priesthood has failed, that man is at the present so much at sea, for without true spiritual government man is lost, there being no universal linkage of heights and depths.*

That was why I was commissioned to start, but the change demanded was so vast, those who worked with me could not take it, therefore it has been a slow process; all new and spiritual inflow is, because it is the changing of the Law for the LAW; the higher to flow into the lower.

I wish you could come and hear the lectures that link with this subject. I certainly am going to send you "Alpha and Omega,"\*A resumé of the thread of continuity that began when the Spirit swept across the Waters, and arrived at the period of Daniel after a tumultuous time down in darkness. greater TREE, and it is that starry constellation that is awaiting our return. Group unity is a very important subject, and one that has not yet been approached very much, but will be in time. So it is most important that you seek, for the time, through Ra-Men-Ra, but make your way to those heights of your own accord.

Remember I am of the physical body and cannot live for ever; as it is I am carrying on a task that is very heavy for a woman of 64 who has been labouring hard and solidly for 36 years. And furthermore has had to take so many rebuffs and beating from distorted narrow orthodox minds because of the new path I was advocating, that the back is very "bent." When I pass over it will not end this linking with those heights for one and all, but it will if you limit it to Ra-Men-Ra, and not seek to get there yourself.

Yes! he is the Channel for the Master's Voice to reach the earth, but only to "Touch" and link up all those who have lost the Road back, and are crying out for help. But once He makes that contact, you by the very fact of joining up again, are straight on the Road to that Great Body of Divine LIGHT of Truth and Love.

## The Mind Development Class

To remind our old readers and to inform our new ones, each week on Saturday at 5.30 p.m. G.M.T. as announced in the June Issue 1964 on Page 8, all readers can join and link with Mrs. Gladys I. Spearman-Cook's private mind development group at the School of Universal Philosophy and Healing. A special subject is concentrated upon for about 40 minutes and then each sitter is helped to interpret their messages, or findings. If any reader wishes to join, please write to the Editor so that his or her name may be entered in the book and placed in the middle of the circle. The subjects for concentration for August and September:

Personality	Aug. 8th	Cosmic Rays	Sept. 5th
Will Power	Aug. 15th	Vibrations	Sept. 12th
Elements	Aug. 22nd	Thought Forms	Sept. 19th
What is a stoned state?	Aug. 29th	Secret of the Onion	Sept. 26th

down the pit in desire, there has been a continual severance.

This is where man does not understand the Scriptures; they are spiritual legends around the linkage of spirit with earth.

### Law of Establishment

**B**UT do not think that we are not a linkage of help to one another; perhaps your letters came at a time, when in my answering them, was my God-sent.

Even I need succour at times, for you should know what a lone path it is, and how we often get lost in our own confusion; especially when a new point of truth is opened up to us from the heights, and we have to try and assimilate it. It is a continual path of surprises.

Your two points of truth, as bald as they may appear, will be of immense comfort to many. For I know a lot who are trying to discard those old antiquated theories that were resurrected in a period when a religious body was a diabolical monster. Have you ever thought

that what is earthed and advocated in one Equinox has to become practical application in the next?

**Well! it is so by Law of Establishment.**

Then by that, what was established in the Piscean Age of a God suspended on a cross after crucifixion, is what man must emulate in the Aquarian. (See note on the Passage of the Equinoxes on page 5). For if a God did come down and become crucified on a cross, it was only to show man which way to go.

Therefore his having suggested it, it became the law and the prototype and he must now wear it; and all men will have to go on their own cross of responsibility and drink his own cup to the bitter dregs.

Is not this what you and I have been through, our being crucified that old ideas could be stripped away that truth could prevail. But where you are concerned, what courage, for you know as well as I do, that your colleagues will see

you in the same light as I am seen, somebody a bit cranky; so this does need a lot of FAITH on your part, I quite agree.

I have, un-beknown to myself, thousands of friends, yes, and a vast army of real evil enemies; but then what Teacher doesn't have. I suppose we can only say what Moses said in Exod. 17 v. 2

"Why chide ye with me? wherefore do ye tempt the Lord?"

**It is not me you strike but the Lord, the Great Powers whom I am servant for. Whereby in verse 16 he warns that it will go on for generation unto generation. This is what I find difficult to bring home to man.**

Yes, friend, I too have become a public figure, something I thoroughly dislike, and even that had to start its journey by an untrue cruel and vicious scandal; and furthermore by one of my own flesh and blood who had been an actual worker in my School, and had prophesied all that I could do. But when you look down all the Ages, whether through Scriptures, Myths or History you find all that left some truth with the world had to suffer.

One whom I admire very much Mahatma Gandhi, he too had to suffer, at the hands of a son, so did Tolstoi. Yet only a few nights ago I heard an Englishman on the tele-vision speaking most highly about the Mahatma, yet we placed him into prison. Why is man so un-spiritual and lost for principle?

### The Solar Orb—The Face

**T**HEREFORE my friend, no man enters onto this path but through the gateway of crucifixion until man becomes more human and has learnt to discard more of the animal nature. Those who have awakened, are those who have seen the LIGHT, for it means that the Solar Deity has started to become the greater part of the being.

Therefore those who have, **GO ON.**

So when you say we only obtain salvation through the Solar Deity and not Jesus, it is enormously scientific and true.

First we must see the Solar Orb as the FACE of all that comes to us as Cosmic Rays of life giving Power; that which the scientist seeks to capture and pigeon-hole through form. But these hold and contain all that man requires to re-imbure his growth both physically and psychically.

We by understanding the wisdom are more blessed, thus are seeking to scale up to these powers by vibration of recognition. For example, if we could sit and raise our vibration by belief up to the same velocity as the Sun, we would find ourselves sitting in its "parlour."

Let me give you an example. One Saturday evening, in my mind-development class, an elderly lady of 77 who had been very orthodox all her life, and did not know "hay from a bull's foot," sat concentrating on the Pole Star. So visualised it up in the sky, and thought that if she could get to Ra-Men-Ra's plane she might be somewhere near it. When it came to her turn of explanation, she said,

"Well I just went up higher and higher and found myself going out of the top of my head, but I still went up; then I lost myself and came back."

Well surely you know as well as I do, Paul's statement in 2 Cor. 12 v 4

## Last Month's Answers

**O**WING to very sparse space to spare, we must try and keep the answers to the developing evening as minute as possible. So I will endeavour to give you a very "nutshelled" answer.

With regard to SENSITIVITY, although we had a very full and enjoyable discussion, that led as into many directions of thought, we all knew that sensitivity was the raising up of the five lower senses that the soul could eventually find the winged mind.

This of course has much linking with the second, that of the ADRENALS. These are the turbine engines that sit upon the kidneys like little cocked hats and generate will, energy, purpose, sensitivity and fear. These are ruled by Mars and Venus, and any who have a slight knowledge of Occultism, know that these two are ever chasing one another to get movement and activity in the soul.

These have been nicknamed the glands of "flight and fight."

JACOB'S LADDER links to the climbing up of the mind that it can reach the heights, and there find Nirvana, the Buddhist plane of Oneness. This was what Jacob was seeking, and it resulted in him being blessed with the wisdom of the twelve tribes.

"How he was caught up into the third heaven or paradise, and heard unspeakable words."

Is not this what this elderly lady was experiencing, and I can well assure you, very sane at that. She was first drawn to me through the television when I appeared regarding herbs and their values. So you can see by that, that if you are radiating real light, those that are genuine are linked to you, and the dross get thrown off.

The Great Mother Goddess is the Feminine Spouse or Principle of the Divine God-head, the Masculine Principle, who brings His Word down into matter. She is not woman as we understand it, but Woman the Feminine Principle of Generation. All wisdom must flow to the earth in a feminine way, and man generates up into a positive action of mind creation and sends it back. This is the Mary that gives birth on the 21st of Dec. at midnight through the Horæ, and which man partakes thereof, to labour through the seasons of the year as his own harvest of growth to bring a mind body into birth. This automatically enlightens the earth-plane.

The Jesus is a masterhood being assumed, while the Trinity is the triune state of fire being returned as a point of awareness. Thus when man raises his fires up, he raises up the trinity within his own being, and sends it forth into the maelstrom as mind-light.

There is only one point I might differ from you, and that is upon your second decree.

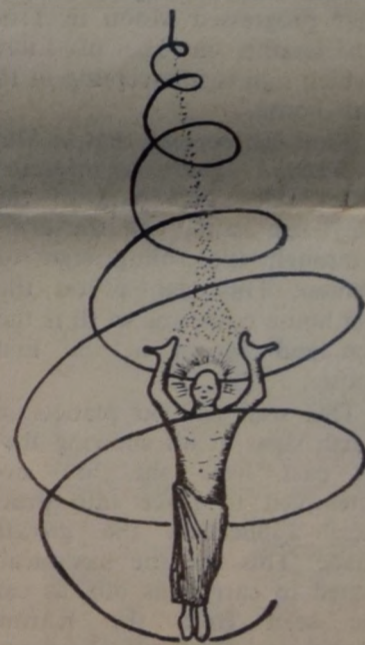

**Not worship and adore so much as obey and honour. It was because I obeyed at all cost, and honoured when everybody else did not honour, that I have suffered.**

For as you go up plane after plane it is more and more difficult for people to follow, and in the end you stand alone. But somebody else has to do this, otherwise no new plane

The MYSTERY of the DEAD COW being buried at the ROOT of the GRAPE VINE although an actual fact so that the vine will be very productive, really from an esoteric angle refers to the feminine principle ever being buried-in that a greater could take over. But this is one of the hardest things that the soul finds to do, change its lower creative states. We hold on to these until we simply create a Sea of Sargasso full of weeds, then we wonder why we get our feet caught.

Do write in any who feel that they have something out of the ordinary to tell us. All who have let us know that they are linking with us, we have placed their names in a book, and it is placed in the centre of the circle. So if not in person, you are in thought.

will send down their vibration into matter. As a Teacher or Sage finds and establishes that plane by belief, is it opened up and light sent down. Try and see it from this diagram.

As the elderly lady or Paul soared up, so they touched and pierced those planes. I know by your statements that you know all this, for you are an old soul re-awakened, thus repeating old truths. One who has come back to earth to live and teach all they had advocated in their previous life by mere theory and belief. I am having to do the same thing.

Your last paragraph alone substantiates the whole of your two letters; "Ra-Men-Ra wishes me to tell you this." You have never uttered a greater statement at so necessary a time. So you see, there are moments when we all need a little encouragement, especially when we go up into yet higher fields of investigation.

**Do try and come and see me one day, for you are not the only Clergyman that we know, and who is working incognito. And I am sure there would be a great deal more if they had the courage.**

# Astrology—Readers' Charts THE SCYTHE OF CONSEQUENCE by James Averill

**T**O those who are unused to the Occult Laws of Consequence the fact that a woman suddenly loses the use of her arms and her feet must seem as though "God" becomes exceedingly unjust. But through the learning of Astrology one soon gains the understanding that all is a matter of sowing and reaping and no one gets one particle more than his just reward according to the Great Laws of the Universe.

**CHART No. 540 is typical of this.**

A letter said: 540 was undergoing treatment in hospital in the hope that she will be able to walk and use her hands but she feels it's not just a hospital job.

**How right she is!**

To know why a soul becomes sick—for all sickness is first and foremost the direct result of the soul refusing to turn to live the wisdom it knows—it is because the inner bodies within the Etheric envelope vibrate to a greater and finer sensitivity than that of the present physical body, which causes the physical to become out of harmony with the Spiritual growth. Thus sickness hits out.

On the 8th August 540 has her progressed Moon in Trine to Uranus in 11° of Libra, which sign is intercepting in the 6th house.

So it can be seen that in May it became square to Mercury which rules that part of the body—the hands and the arms—through the ruling sign of Gemini. This sign is on the 2nd house cusp, and in it, is the Sun and Saturn in the first house.

This soul has no planets in Earth signs at all showing that in past lives she has not attempted to place into practical application the growth made. This life she has incarnated to carry this out, as can be seen from the Karmic Points, or Dragon's Head and Tail, being from the 11th to the 5th house respectively in Pisces and Virgo. The 11th house is that of the Spirit and the 5th of the past growth of soul personality entanglement, its karmic states.

What 540 knows of Spirit wisdom has to be lived in the personality, the Dragon's Head being in the 11th and the Dragon's Tail or Feet being in the 5th.

So she must walk literally living it.

Has she done so?

Obviously not or she would not now be SPIRITUALLY sick and physically ill.

Because of her first house planets she had to bring down the Spirit Cosmic Rays and inject them into her mind growth so that she could commence to create a Spirit led by Purpose.

If she has not done so because of the Dragon's Tail natal square to the Sun and Moon, the Karmic Tail Point would begin to react against her physically.

As Virgo is on the 6th house, the Karmic Tail is going to react as a sickness for the 6th house particularly together with the 12th, tends to dictate the type of sickness to

be gained. Here as there is a square to the Sun, and the Sun is in Gemini this lady will not only find her hands becoming intensely nervous but even useless, as well as meeting difficulty in the bladder, womb, kidneys and ureters; she might even get migraine headaches and swollen feet. All these deductions can be made from the signs on or intercepting in the 6th and 12th houses.

This illness no doubt has been with her increasing since the Progressed Moon entering Virgo some three years ago and becoming crucial about the time there was a conjunction with the Dragon's Tail in about April 1962.

This lady is on the second Round of the Progressed Cycle and since her 47th birthday should have felt sickness increasingly coming upon her if she had not physically made her body the living practical equivalent in Vibration to the mind awareness achieved in the past.

**CHART 421 is a glaring example of a lady who WONT carry out what she intuitively knows inside her to be right,** (her 5 planets in the 12th house in Virgo which rules the bowels).

Uranus the planet that is the Harbinger of Justice is in the 6th house and thus this soul could not expect to get away with not obeying her Etheric growth.

**One Vital factor which all persons fail to realise is this. THE REAL MAN is MIND AWARENESS ONLY. That is the LIGHT. The form is the animal density which the soul has to wean himself from. Far from persons looking at the sick body in sympathy they should realise it is the lesser rebellious and traitorous part of the soul 'township.'**

**It is the MAN, the Mind Light, that is dictating the so-called PUNISHMENT IT-SELF, according to THE COSMIC LAWS.**

In this case the soul has been rebellious for lives and WILL NOT attempt to obey its learning in the physical body. It is the fixed animal personality mind that stubbornly refuses to move and live obeying its higher Mind's state of awareness gained.

Virgo rules the bowels; thus it was that this soul, a lady from Peru, suffered heavily from bowel trouble even being forced to have an operation to alleviate growing difficulties. She is still young in her early forties

What will the next years bring? Her Pisces in 6th shows this may cause ulcers on swelling feet, and there could be increasing tendencies of

cancer in the bowel. Cancer is after all only an inward growing fungus in a stagnant pool of emotional desire,—i-want.

**CHART 124 is from Missouri, U.S.A. whilst 449 is from England. Both have Gemini rising, Libra on the 6th house and Scorpio intercepting there.**

Already 449 has written complaining of being 'hard of hearing.' This is not surprising as Libra rules not only the adrenals but also has an effect on the ears, for it is the sign of balance, and the ears give unto the body its sense of balance.

When she was about ten she writes she had a fall and this was when it started.

It was on her tenth birthday that the Progressed Moon became conjunct to the Karmic Tail in the 11th house and activated what was her previous earth difficulty which had brought about so much disharmony to be placed in her physical body as is seen by the 6th house planets.

It is plain that she refused to listen to the word of Intuition, the outer vibration of knowing linked to the inner Voice of the Spirit. Thus all is at discord and she will have had continual bouts of sickness unless she starts to become as Hathor the Cow the spiritual Mother, and travail and labour in compassion to nurse and nurture the minds of others, without being ensnared emotionally by personality minds.

**This is seen by Destiny in Cancer conjunct to the Spirit Fire of Neptune. She must bring forth the Leviathan from the Deep as did Job or she will get the same deserts as he did, because he was rebellious and egotistically refused to listen to his Higher Mind, (seen by her Jupiter retrograde in 12th in Aries the sign of Spirit Impulse).**

124 most probably has been saved from too great a degree of ill-health because she has Sun in Gemini in the 1st, despite a full 12th house and Uranus the Executioner of the Higher Law being in the 6th house of sickness.

Her trouble undoubtedly is that she has had a mind simply full of ideas and one which never ceases to think and weave in dreams and fancies but she never goes any further, and does not start the long drawn out labour of trial toil and spin in practical work, hence her Mercury and Venus in Taurus in 12th and Karmic Head, Neptune and Pluto in Gemini there too.

Where she might have had trouble would have been in glandular swellings, sore throat, tonsillitis, adenoids, migraine, thyroid deficiency as well as bladder and generative disorders (Scorpio) or the Libran difficulties of the reins, kidneys, and ears.

Her Path of Destiny is also in Cancer and but being in the third would indicate that she must start to bring fluidity and elasticity to the mind and move

away from those fixed earthy conventional religiously stuck opinions, (sheer egoism), that are paralysing any contact with the Spirit (Saturn in Virgo square to the Sun, Pluto, Neptune, Ascendant and Karmic Points). With such aspects it may be that constipation is a life long trouble.

She should take particular care of her health now as her Progressed Moon is entering Aries and in two years will be square to Jupiter and Path of Destiny as well as in opposition to Uranus.

**CHART 292 has three planets in Leo in the 12th house as well as Uranus poised in the 5th house yet in the sign of Aquarius ruling the 6th.**

Thus one might think that this lady would get sudden attacks of ill-health especially connected with the mind becoming worried and uneasy.

Aquarius spells intensive worry and fretting as well as mind disturbance and introspection. This becomes very strong with all Aquarians, and all their illness stem from this cause.

In this person this would be especially the case because the planet Mercury is in the 12th, the house of self-unwinding, when the Powers so taken by the planetary attributes situated there would have to be given unreservedly to the practice of wisdom, the blending of the Powers of Spirit and Earth in practical application.

This Lady has no planets in Earth signs, also her Destiny in the second house, the earth house of the Bull, the house of ploughing into the Earth the establishment of the Seed of the Spirit. This she must find. How?

In the 11th house of the Spirit are 3 planets including the Sun in Cancer which gives mediumistic power that 292 is renowned for being in fact a very well known medium indeed, with great platform presence and radiance of address. However 292 is facing a dynamic number of years.

Destiny calls for not only is there now a square to it but the progressed Moon is about to enter the 11th House, and she will need to start giving forth her real powers of Mind, and not astral messages or psychic clairvoyance. In February there will be a square to the Karmic Points in the 2nd.

What has she been doing with the Mercury and Mars in the 12th? Have they been under the sway of the Moon there and is the will so caught by psychicism that she cannot gain the Heart Purpose so necessary?

For in 1966 the Progressed Moon enters the 12th and then the fruits of her Destiny will be given.

Have the great gifts of mediumship been raised up from the Psychic plane of physical emotional phenomena unto Mind?

Has there been a blending with the Powers of Spirit in

holy marriage as Destined in the 2nd?

Has the mind laboured willingly calling down the outer world Power of SPIRIT?

If so all is well. If not beware of heart and blood conditions as well as times of sudden unease, worry, lack of confidence, fear, mental discord, for this may be given unto the body by the Spirit Awareness to make it labour for the Spirit as Destined.

**LASTLY 505, from far off New York.**

How well this chart spells the universal hardship that most of us possess.

How hard we find it to rid our minds of a mass of multiple ideas and thoughts, religious orthodox bigotry, conventional form minds that are held so rigid by the ballast of earthy conceptions. And, oh lord, how righteous we all are!

**505 must at all costs seek to emulate the child. In fact for goodness sake become a little child. Seek at all costs from the beginning and throw the whole earthy mind overboard.**

There in the 12th holding 505 a prisoner are Saturn (old knowledge), Mercury (mind action), Venus (sensitivity); in the 6th, are the Moon and Jupiter retrograde in the two signs of Taurus and Scorpio.

Destiny (⊕) demands discovery of the One pointed Winged Mind, obtainable only by partnership with the Spirit.

Being in the house of Libra there will be the weighing of the Scales.

Three magnificent aids are 505's gifts. Mars in the Mid-heaven, Sun in Aries in 11th, and Pluto in Gemini in the first. But they will all demand a very rigid sense of discipline, especially the Pluto.

Unless held by wisdom gained it could lead to chaotic mind actions as well as all kinds of crazy sudden stupid ideas of pioneership.

**On the other hand it could tap unknown Heights of Spirit Compassion through the mind.**

Very very careful watch should be mounted for November 1964. Then the Progressed Moon enters the 6th house of health. Then the womb, glands, thyroid especially, the generative organs, the throat as well as arthritis, especially in the knees, might come about.

All depends on the question, how much has this soul unwound from her past personalities the false ideas of the way to be at-one with the spirit.

No possible expansion can come unless 505 is prepared to START AGAIN. Service at any cost at any time and in any way will be the battle cry and the Sun Mars and Uranus will help

But will this soul have broken down the fixed side-bound old mind plant the Saturn fixidity in the 12th?

# TAURUS

Concluded from Page 6

is therefore responsible for much that is taking place in the world today.

So see the response of humanity to this influence, as that of the corresponding magnetic interplay between the great centre of Shamballa and the human centre, which is noted and registered by the watching Hierarchy as it makes major changes both for good and those of the inevitable bad, which is unavoidable.

Yet this argues well for the future in spite of the temporary misuse of the forces, as, although this interplay evokes response from the wrongly orientated and selfish polarised person, it rouses the will of the enlightened, and sensitised, to fight for greater methods of civilisation, which can, in time, lead to focussing of all the life tendencies upon a world of truer values and realities.

*It is this force, which strikes home through Taurus, the desire-purpose, that awakens the brain-condition sense of awareness, which, if man did not possess, he would not continually ever desire and become, even though it be in the wrong direction in the first place, which causes pain and suffering; as this must be the forerunner for other forces to continue.*

## The Awakening of Man

**J**UST as the Aquarian Age is coming into manifestation for the planet as a whole, bringing in its wake universal awareness and new modes of expressing world synthesis, humanity, the world disciple, is beginning to come forth under the influence of Taurus, which, ruled by Venus, is teaching man in degrees of desire and love, which will result in that of the future coming of "Venus rising out of the waters"; the future Androgynous Age.

Thus, teachers set to work upon the Earth by the Hierarchy are struggling with this Taurean influence as it is increased by the incoming Shamballa forces, which are producing the floodlight of illumination, of which the Taurean action in the soul is custodian, and can quite easily foment desire of increased selfishness which will bring humanity to the fiery heights of self-interest, instead of to the mountain of vision and initiation.

To enlighten here; the Shamballa force is the death

by "fire" or "burning" in Aries which releases man into another centre of action, higher than that which he has "spawned" in before; and is the Divine Science of Dying in the three mysteries:—

God the Father Creation  
God the Son Redemption  
God the Holy Spirit Liberation

**The Father and the Son coming into birth, and the Holy Spirit is the spirit coming within the soul as light, which is liberation.**

Thus the will of the Father aspect manifesting through Aries that governs Shamballa, the desire of the Son, which attracts to the Hierarchy and extracts therefrom of the permeating intelligent activity of the Holy Spirit, which animates that inner centre of divine life. So see as:—

Shamballa ... Will, Aries.  
Hierarchy ... Love, Taurus.  
Humanity ... Intelligence, Capricorn.

In both their higher and their lower aspects, these signs hold the secret of the horns of strife and the horn of plenty, subjected to and guarded by the horn of life. The Ram, when it has become the Scapegoat, has sought illumination as the Bull of God, and has climbed the mountain-top in the semblance of the Goat and changed its shape into the Unicorn

*The RAM leads man into the creative life of Earth and into the darkness of matter, and is that of the blue of midnight.*

*The BULL leads into the places of desire in search of peaceful satisfaction. This is the red of greed and anger, changing eventually into the golden light of illumination.*

*The GOAT leads man into arid ways in search of food and water. This is the "need for green" (Saturn) as the Goat climbs to the mountain-top.*

This is the experience of the Mutable Cross in connection with these three signs; while upon the Fixed Cross, the Ram eventually becomes the Scapegoat and the will of God in love, and salvage is demonstrated. The Bull becomes the bestower of light, by enhanced desire, and the darkness of the earlier cycle is lightened. Then the Goat becomes the Unicorn and leads to victory. Aries, Taurus and Capricorn being the great transformers under the great creative plan.

*ARIES opens the door into Shamballa, the Hidden Mystery of Life, when the experience of Taurus and Capricorn has been undergone and enlightenment begins to dawn.*

*TAURUS then opens the door into the Hierarchy when the significance of Gemini, logical mind, and Leo, karma, is understood; and then the first two initiations of life, Taurus and Capricorn, can begin.*

*Thus CAPRICORN opens the door into the Hierarchy in a higher aspect when the last three, Taurus, Gemini and Leo can be undergone, and then the significance of Scorpio and of Virgo is understood.*

Therefore the Crocodile, the Goat, and the Unicorn depict three stages of man's unfoldment, and in Aries, Taurus, Capricorn, and their relationship upon the Fixed Cross lies the mystery of Makara and of the crocodiles; the keynotes of these are indicative of the crystallisation process.

## Mental Stress

Mrs. H., the North of England.

**I** READ your letter with extreme interest and sympathy; certainly life has hit you pretty squarely between the eyes, and not left much room for doubt; but thank goodness you have had the courage to turn to the spirit through the wisdom. This means your sliding downwards has come to an end, now you will begin to mend and go forward although I know at the present this cannot mean too much.

The time you will be able to look back with joy will be when you return to Spirit, then you will find yourself on a higher plane, and that is what you came back to achieve. So you have fulfilled your objective, therefore rest assured in that.

Your path of destiny is in Sagittarius, the sign of the higher mind which had to become expanded out of the house of human desire. You had to learn to discard all physical desires, and turn to the upliftment and unfoldment of the mind.

**Unfortunately we often have to do it the hard way because we unconsciously will not let go of the lower planes and make way for the higher to rise up.**

Although this life has been hard, it will bear its fruit as the climax to a long and tedious road of continuity. I do not know whether you are taking herbs, but they would help your mental confusion considerably.

I would suggest LILY OF THE VALLEY, EYE BRIGHT and CENTAURY to start off with. Also the nerve pills will help you to steady up and pull out.

*I can see where your trouble lies; you are highly sensitive for one thing, and quickly hide away rather than face a situation out. Consequently your will-power becomes more and more undermined.*

You are not really a weak person, for your planetary construction is really very strong. Your trouble lies in having refused to fight and shoulder responsibility and make expansion through many lives, you now have come to a halt with everything jammed up around you. But what is more, a person with quite a fair amount of ancient wealth being sapped upon by others who won't think for themselves.

So again I say, thank goodness you have turned to the wisdom, for through that you will be fed by the spirit. Whatever you do, do not stop, for I am sure sometime or another your husband will also seek for help, and then you will be well primed and ready to lead him. But until, be very firm; marriage does not buy a soul's

mind; that is yours and nobody can interfere with it, those days are past.

If your family do not want to come away from old states, why should you be forced to stay there now that you have awakened and seen the right way of going. But unfortunately this seems to be the woman's lot at the present moment, and has a lot to do with the emancipation of Eve. Some time or another all souls are bound to seek for help, that is the Law of Evolution, and the law has been turned round the right way now.

All the very best, and your name is being put on the healing list as you requested. I only wish you could see and hear Ra-Men-Ra bless all the sick at the end of the service; that alone would make you realise of what work goes on in spirit un-beknown to man himself.

## Nervous Dyspepsia

Mr. R. M. Brighton, Sussex.

**H**AVING erected your chart, I more than understand your state of nervous disorder, which is causing acid to accrue. You too are a soul who has gathered an immense amount of fiery wealth over the ages, and now the lack of expansion is so tense and full within you, that your solar plexus and bowels are afire, and completely agitated into trying to get free and expanded.

**What man does not understand is the fact that the bowels produce the chyle that replenishes the blood, for this is the basic of all alchemical change.**

*What is brought forth as nourishment goes into the blood as a fresh supply of fuel to feed the body, and the waste goes out the anus. You will have to be very careful of what you eat, and make sure it is not too much of the fire and acid making material.*

Your blood as the man is desperately crying out for you to drive everything into a change of purpose and expansion, and this you will only do by directing your mind into wisdom. You are well past time, and now all that part of your anatomy is afire with disorder. Do take care in case it turns into an ulcerated state.

I am sending you BUCHU, BURDOCK and VERVAIN to cleanse out the blood, then later on we will change you over to something more expansive.

## Arthritis

Mrs. P. B. Wigan, Lancs.

**I** KNOW that what I am going to say to you, you will not fully understand, for it is linking your problems up with the planetary aspects in your chart.

First of all, I do not want you to blame your chart for your illness, but know that what you as a soul bring about by confused unfoldment, will be your complaints according to what your planets control; for they are helping you to grow and blossom.

You are a person who has accrued an immense amount of fiery wealth within your blood. In it not being used up in a way of expansion and growth, which it must make its way into as light, it is remaining unexpanded and causing acid to form, which is getting into your joints, as all is absorbed into the bones finally.

For since you have Leo in the heights of your chart, and this rules the Spine, it has attacked the spine and solidifying it.

Then on your second house of personal desire you have Sagittarius which rules the hips and thighs. This sign alone means expansion and movement into that of the higher mind. But while you remain in the lower not making expansion, it is bound to have bad effects. This accounts for your eyes, everything is closing down on you.

**You should have made expansion onto the mind plane long ago. But unfortunately this seems to be the darkness man has taken on with worldliness, and the great tragedy of Aquarius and the empty Water-Pot.**

Your chart indicates that you have been a long time waiting to change, and been closing up within yourself instead of striding forward into new ideas and beliefs. The old ideas producing new, consequently you have become more and more blind to your situation, till at last it has literally attacked the sight.

I am afraid my dear, life is not easy when it slides too much into an incline, but this is one of the lessons that the world and its wife has to learn that they can make growth and go back home to the higher planes.

When you have had your operation, write again and then I will suggest certain lectures that I think would help you. But until, all the very best.

We certainly will place you on the healing list.

*You did not mention anything about herbs, but certainly AGRIMONY, BUCHU and CENTAURY would help your Arthritis.*

## Varicose Eczema

Mr. G. E. London, S.E.16.

**I** CERTAINLY would suggest you bathe your affected part in MARIGOLD FLOWER water. But I also suggest that you give your herbs a change and take a concoction of MARIGOLD, CENTAURY and BUCHU, and try and REACH OUT INTO THE WISDOM.

I am extremely interested in all cases of varicose states to see how the treatment acts on each. For in the case of myself it worked a miracle. It is most wise with these legs to give the diet a good investigation, and start leaving out those things that add unto your problem.

**For invariably it is the kidneys that are letting poison of some sort escape into the blood-stream; yet it need not necessarily be food, but worry or resentment.**

And naturally it settles in the lowest part of the body, the legs, which indicate activity, expansion and movement.

Tea and coffee do not help this complaint, nor very red meat.

*You should try and keep to a vegetarian diet as much as possible; and after all, it is worth while, for these legs are very distressing and undermining.*

Yes, we are placing you on the healing list, but I would like to know how you progress. Do try and reach up and outwards, and get away from yourself, for these legs are very much due to a lack of coming away from old states.

HERE is shown the World chart with the Cardinal Cross as the central cross, Aries, Cancer, Libra and Capricorn. It is the understanding of this ancient Wisdom and the acceptance that the Signs represent differing Cosmic Forces that can blend and flow through man that will enable all Mankind to seek of these Great Beings and honour the Divine energies from them.

# THE FOUNDATION OF LIFE

Continued from Page 16

## The Eye Herbs

**SUN** herbs in general have a brightening effect on the Eyes. Perhaps the more prominent are Eyebright, Greater Celandine, Rue.

**EYEBRIGHT** is specific when there is a catarrhal condition and Conjunctivitis. It is a good herb to use at the early stage of Measles, affording protection for the Eyes.

EYEBRIGHT

**GREATER CELANDINE** is a valuable remedy for dissolving CATARACT. It exerts a beneficial effect on the Portal System, especially when combined with Liver herbs such as Agrimony, Dandelion, Bayberry, Bogbean, Boldo, Fringe Tree and Balmoney.

The Jaundice condition so often reflected as of the yellow pigment in the Eyes calls for this Solar herb. The troublesome condition that occurs when there is a lymphoid accumulation in the external covering of the male Testes—known as Hydrocele—also responds. General sluggishness is a symptom for its use.

**RUE** is particularly for Eye Strain, headache and pressure from over exacting work. It is specific for impending Haemorrhage of the Vessels within the Eye, and deep pressure there. One of the main symptoms for its use, is the general feeling of being bruised and aching; the Lotion or application in Sciatica or lumbago, the pains in the small of the back, or the bruised limbs, sore tendons, tearing pain in rectum.

We recognise in RUE, the quality of Ruth, and we see that it will help conditions which owe their root cause to Ruth-less-ness. As such we may recommend in negative Scorpio

expressions—especially when Saturn is in Scorpio, or Saturn afflicts Mars. It symbolises Pity, Mercy. It is known as the HERB OF GRACE, and is said to preserve chastity.

This links, no doubt, with the tradition that this is the herb that Mercury gives to Ulysses to overcome the charms of Circe, which change his companions to swine. Thus, we may recognise its potential in helping to transcend the Animal nature overcoming the lower Martian force, especially when it predominates over Saturn in affliction, bringing the tendency to be hard and cruel both to oneself and others.

The herb contains *Rutin* which is of particular value in strengthening veins. It is often used by herbalists for Menstrual difficulties—those with Saturn in Scorpio would find this the finest remedy. It would link well with *Pennyroyal* (Venus) in this wise.

In general it is a good stabilising element for the Nervous System, but owing to its strong stimulating properties, should never be used in strong concoction, and preferably well diluted with water and best in mild infusion.

**ROSEMARY** (*Rosemarinus*) The Solar herbs in general have a stimulating effect on Heart and Brain, but perhaps a more specific brain stimulant is **ROSEMARY** (Sun in Aries).

ROSEMARY

The Mental vitality that is a characteristic of those with a well aspected Sun in Aries is indicative of the temperament of **ROSEMARY**. Those lacking basically in Fire and Air would benefit most from this influence. The Limiting influence of Saturn, when afflicting Mercury or the Sun or adversely aspected in a Fire Sign, can limit the Mental Vitality, bring bad

Memory. **ROSEMARY** will aid such.

It will help many an impotent state of Mind, and will aid and strengthen co-ordination twixt mind and body. Hence it is ideal in the conditions of Paralysis, and nervous conditions which lack of co-ordination. The Brain is to be considered in all such conditions—Mercury is often afflicting the Pituitary (Uranus) or the Pineal (Neptune) centres where a state of paralysis occurs.

A blending of **ROSEMARY** with a Mercury Nervine will help—especially Oats (*Avena Sativa*) Scullcap, Lily of the Valley, Fennel (this, especially if Neptune is afflicted or Pisces is on the 6th House, Sow Fennel would be even better), German-der, and Summer Savory.

This blend will be beneficial to both Brain and Sight, will strengthen the Nervous impulses 'twixt Headquarters and receptors. Any one of these herbs blended with **ROSEMARY** will act well upon the Cerebellum, the Medulla Oblongata, strengthen the connecting link 'twixt Brain and Spinal Cord, so to restore Balance.

A very balancing, Brain strengthening combination, fitted to add Mental Fibre to the Nature, Reliability as of the Harmonious relationship 'twixt Sun and Saturn—the Heights and Depths of the Spinal Cord—is **ROSEMARY** and Horsetail and recommended in Brain tiredness.

**Horsetail**, a rich source of the Saturnian quality of Silica makes it a fine remedy for any condition lacking Fibre. The preservation of Teeth, Nails, Bone structure, Hair can depend much on this element and with **ROSEMARY** its benefits are accentuated. The circulatory Blood is given those qualities which will sharpen the tone, and strengthen Bone, Ligament and Tendon.

The Eyes are particularly sharpened by this combination, and it is to be recommended for those with Brittle nails or lustreless Skin or Hair and used both inwardly and outwardly.

**WALNUT** by its very shape, gives us indication of its affinity with the Brain, and it, too, through the medium of both Nuts and Leaves, strengthens the Brain.

It is interesting to note that its botanical name *Juglans Regia* means 'The Royal nut of Jupiter.' Where Jupiter is afflicted by Saturn, or is seen by our basic principles to be the needful element, **WALNUT** combined with a Jupiter herb would be ideal.

**WALNUT** leaves with Wood Betony (Jupiter in Aries) stands supreme in Head or Brain conditions where Jupiter is concerned.

These would link very much with those whose Jupiter and Uranus are 'at war' in the mind, basely in disharmony, and will facilitate a greater potency to outline more clearly, with balance, their expansive views. So too, Jupiter with Neptune. It is to be remembered that these subtle influences have the initial bearing on the balance of the Expression from the Higher Mental centres.

The **WALNUT LEAVES** combined with Yellow Dock, Fumitory or Dandelion will get to the Root of Skin diseases which are the manifestation of Jupiter discord. The Arteries will be revived thereby and the Mentality given greater sense of Buoyancy.

**CENTAURY**; If Rosemary with Horsetail gives us the quality of Sun and Saturn in perfect Harmony so may we see embodied in the Herb **CENTAURY** the qualities of Sun and Mars. Its temperament is extremely Hot and Dry and it carries great Fire, hence its use should be temperate, best in infusion, in good dilution.

It is first rate for strengthening a weak will, and wherever there is a need to give a person the Will to live, to carry on, to persevere,—those who are medi-umistic to the Lower Astral planes,—those within whom Neptune is prominent, yet the will is weak, and more especially Piscean subjects, may find **CENTAURY** a boon.

CENTAURY

Let the latter type consider the use of the herbs in or near the Sea, Bladderwrack, Irish Moss, Agar-Agar, etc., in conjunction with **CENTAURY** and the Purity of the Non-Animal Vital diet, and they will find a balancing and upliftment of their response to the Neptunian Stream.

**CENTAURY** is a Blood Strengthener of the first degree, and aids both Physical and Mental strength. It is recommended for the Digestive organs and is always good for the flaccid relaxed tissue, the sedentary state. The Dropsical condition responds to its 'tightening up' effect. It may be said to be a good remedy for both negative Cancerian and Piscean Natures.

**TORMENTIL**: The Firmness and stability of the **SOLAR** influence is seen also well represented in the marked Astringent qualities of **TORMENTIL**, the root of which is well recommended in Looseness and Bowel complaints.

TORMENTIL

The Virgo type, with the weak Jupiter, especially when in disharmony to Mercury, may find this a very stabilising expression. Sun in Virgo, Leo rising is indicative of its use, or Sun in Virgo in the 6th House. It is a valuable remedy for Dysentery or Diarrhoea,

especially when combined with Bayberry (when Mars is weak), Oak Bark (when Jupiter is weak), Marshmallow or Periwinkle (when Venus is weak), Comfrey (when Saturn is weak). The Diabetic condition may be benefitted by any one of these combinations, according to the individualistic needs of the Astrological Log.

**TORMENTIL** may be used, both as Lotion or Poultice to stem Bleeding from Cuts, wounds, to heal ulcers that are suppurating, for it is one of finest antiseptic Astringents we have at our disposal.

## The Lung Herbs

**THE** Solar Herbs that combine best with herbs for Lung complaints are Sunflower, Sundew, Angelica, Saffron.

**SUNFLOWER** (*Helianthus*) has good expectorant qualities.

Will blend well with Horehound, Elecampane, Lungwort, Yerba Santa, Lobelia, Mouseear, Pleurisy Root, Mullein and the like, in clarifying and strengthening the Lungs.

**SUNDEW** is especially good, used moderately, in Whooping Cough and in Asthma.

It links with *Grindelia*, or the above herbs and has a very Hot nature and should not be taken in large dosage or strong concoction. The spasmodic cough, the Laryngitis or hoarseness responds to its moderate infusion and small dose.

**ANGELICA** also has fine Expectorant qualities, to blend with the Lung herbs.

Whenever Saturn afflicts the Lungs—Saturn in Gemini, Square to Sun, Moon or Mercury in Gemini—**ANGELICA** will help to turn the Scales, and bring forth the Vital Life-giving energies.

A particular virtue of **ANGELICA** is that it is said to be very efficient in helping to overcome the Alcohol Habit. Another herb recommended for this is *Oak Bark* (Jupiter).

The aspect Jupiter afflicting Neptune is sometimes a sign of this, or similar weakness. The water sign Pisces is often productive of the Drug or Alcohol Habit when there are other weaknesses apparent. This blending could help restore harmony, whilst the *Sea-weeds* may always be considered with Neptune.

**SAFFRON** is a herb which is also recommended to counteract the Alcohol and Drug habit. It strengthens the Tired Brain, and is a specific in Congested Lung conditions.

Symbolism links it with gaiety and the over use of the herb is said to cause a Laughing Mania, thence changing to melancholy. But its wise use can bring stability to the intoxicated hysteric nature, that which Jupiter in affliction to Sun, Moon or Neptune could bring when out of control. Liver stagnation or deterioration calls for this herb, taken with a Jupiter herb.

**THE ASH TREE** gives us the Solar influence which has the most purging, Laxative effect.

As such is to be considered in Gouty, Rheumatic, Arthritic conditions where the initial cleansing is required, prior to other treatment.

Other Sun herbs reader may wish to seek into are Bay Tree, Burnet, Wild Cardon, Lavage, Mistletoe, Peony Root, Pimpernel and *Viperis* Bugloss.

In future months other articles on Herbs and their qualities will be published and next month Herbs of the Moon will be taken.

# THE SOLAR INBIRTH

Concluded from Page 5

being agged back up to divinity by the solar fire that is agging all into a greater state of re-birth; but moreso where the soul is directing through a purpose.

This is the Root that still exists with one or two, but the majority have allowed their powers to become negative, either by the lack of recognition, or become splayed or lost in physical indulgence. It is this lunar and solar power in unity that could, and must do, much to help the world at the present moment.

Unfortunately it is these powers that have not become unified, but inflated and turned black, that are causing much untold damage at the present moment, especially where they have been unified and turned black: these are the black masters of the age, and powerful creatures.

When this can be seen clearly, it will be perceived that all is a state of unfolding vibration; that whereas the Cancer state is of a SELF creation, the solar when in the NON-SELF magnitude is the priest, the solar life.

When these two as heights and depths in Cancer and Capricorn are united, all as giants, lares and penates, ancestors and wise old men, are all blended into one as the son of MAN, a god-manifestation. This is a promise to all men; that they can become greater than the angels.

## Heroes of the Past

ALL through the ages heroes have been fighting to master this problem; for in so doing they were mastering the Beast of the world, and bringing the higher Law to manifest within the lower law. It was such as these agging the universe into evolution, but the myths and legends were created to portray the works of their efforts.

AglaurOS was a hero who left wisdom regarding the bay tree growth (the agging on the OS) in the same way as Abraham brought forth of the Oak of Mamre, the wealth of the rooted growth, but now demanding attention in lopping and trimming.

AglaurOS was one who established the wisdom of the Aglauros powers, and was the struggle that he had to make regarding the Taurean Wat-

HOBGOBLIN IDEAS

GO on, let's be a devil. Just this once more.

ers\*10; for to be the means of any agging or driving at that particular time, was just as difficult as bringing expansion now as this period of Saturn.

One was Mars where the soul was receiving of the fiery element of expansion, and did not know what to do, and now as the soul coming out of the anathema of an erroneous religious conception, to try and expand into a God-truth as wisdom and mind-intelligencia.

It was of this wisdom of the AglaurOS powers that the Lord was endeavouring to convince Moses. The power that he could lead the world on and up unbeknown to itself; he being a link with the higher Powers, and by the Law of Attraction and Repulsion could drive all in from the heights and out to the world. Yet these powers could be with all, for as the draft of the "North Wind" sweeps over the earth, every soul has the right of partaking.

But it can only be the one who perceives and acts as the creator and establisher, as a Master of the highest point of recognition, who will be the changer of the law. This is the theory of the Vicar of Christ, and what Moses was being called upon to do when he went up Mount Sinai to draw down the instruction of the new Law to be established. Here again, the Scriptures defining of the great depths of the mysteries.

So this one could be any, or in any place, and is the theory of the Scriptures in Mark, chapter 11, verse 18, where they were amazed at his doctrine. And the Pharisees knew that it was not what he said, so much as what he was doing to change the world.

So this knowledge of the power of life being agged around a revolving Cosmos through the natural surge of the soul, is not new, or the depth of the mysteries, but the natural means of alchemicalisation, that has always been the means of unification of the heights into the depths.

This knowledge that man can perform this feat, was well known to the ancients as far back as Assyria and Babylonia where man called down the elements, but had not found the way to blend them in soul mastery from the raw into the tamed creation of power.

This is the mystery of: "Till the ground and subdue it."

But it was a wisdom recognised by Papalism and secretly put into operation when the Pope remained secreted in the Vatican; thus by this they gained control over the whole of the human race. Therefore it is this cult as a priesthood that man today must blame for the inertia and ignorance that is causing man to fall back into a dying state.

Unless man makes a fight to throw off this soul-destroying creation, and seek into his own growth so as to be able to make his relativity as it comes forth, the whole world will fall back into an antichrist slide of Aquarius Age.

This took place once before, and ended up in utter destruction as Chaos. Although a turn has been forced by light being sent out onto the maelstrom, man himself must make an effort, for there are many who are being awakened by this surge that has now been sent forth, but are lacking in wisdom regarding the way to go forward.

\*10 Those who have Sun in Taurus are renowned for the great wealth of generative seed that they have been entrusted with, and thus it is that they have great healing potentials.

This understanding of the state of Agging is a very hopeful creation which, when perceived and accepted by the soul, helps it to realise that by its conscious fight to become, this force aids and helps by a super-force of Law, forcing its way by a state of super-charge through the crucible—creation called man.

This and the starry elements, from whence this super-force is derived are the two basic fundamentals of the Scriptures, Myths and Legends. Although the theologian would deny this, the enquirer has only to look to Genesis, chapter 15, verse 5, beside untold witness in Job, to find the truth of this great depth.

Yet the myths themselves are full of heroes striving to combat, or create this rise, in their effort to save the Race. So really there is plenty of witness left for mankind; but unfortunately the myths, that can explain so much, are very much feared by man owing to his lack of understanding, and the false conceptions established by Papalism.

The one called Aglauros who had powers similar to Moses, found he could lead on the timid, stubborn, and self-willed to greater belief through these powers. He realised that, by this greater guidance, he could lead the world and mankind on unbeknown to themselves. Therefore the higher Powers, through this channel, guiding the world into greater and more noble purpose.

From the wisdom that Aglauros perceived, many states were developed, for you find Agonius as a god that was erected to this belief, and one called Agamedes who was looked upon as a driver god, one who aided the universe in this wisdom. Yet there are many other points in the myths that could be brought forward to point out the wonders that can be achieved when the soul allows this agging process to be its driving chariot.

Yet all the mystery of this comes down to the Three Kabeiroi, or the trinity as the

THE MAGNETIC DEPTHS

THE immensely powerful gravity-pull effect that earthy thoughts have on the majority of persons is well shown in this plate. The magical powers that are with the 'feminine' side of our natures, have yet to be unfolded. But ever since the beginning of Time, Nature has been tended and cared, and each of such experience as a sense of earth knowing still resides as a record-tape. When it can be unearthed and turned into Mind Awareness then will the two extreme states of wealth unite, Polyphemus and Campe. Meanwhile one has to contend with the magnetic thief in the depths the—old witch—who ever seeks to imprison every lofty ideal.

compellor of the heavens; that encased in man as the alchemicalising furnace in the depths, driving man through the polarity of these three. The three in the Heights as the Hosts unifying with the three in the depths.

These in man become the pinnacle point of the fiery essence in Aries driving in onto Leo, and all going up to Sagittarius as the dancing archer; and when blended into the heights, the growing light of the mount of the soul in its ChristOS power as the raised Uraeus.\*11

This when it can come to its fullest possibility, becomes the OS strength of the Serpent Power, and as the raised serpent can heal and lead mankind. But at the present moment

THE AGGING TRAIL

THIS simple plate so well described in the Article (see this page, column 5) tells of the great Truth that if a soul constantly draws down of these Stellar Powers into his being to mix in holy embrace with his own spinal Energies the risen seminal waters then the mere effort at daily toil to weave the Powers called down, into a mind creation will in itself gradually lead the soul across the desert of ignorance, loneliness, lack of mind, etc. etc. until with all your wealth the Oasis is met.

is a power hidden away through the lack of true expression.

So when you can see the word AGES as TIME, and that containing the AG but no OS, then you can see what there is within man, and his possibilities when he knows how to use it properly. The powers he has created and the powers he has extracted now blending together. It is this OS that he has stored up in his rock as fire in the lower, and wealth in the higher; yet through every age an Aggidistis comes forward as an urger-god, and although only a state of beginning, it is a part of evolution that will eventually bring all to redemption.

Yet this state of the Eternal-urger is man capturing the divine creation of energy-force as the strength of the heights and depths in which many ancient states have been incorporated.

And one in particular being the Eddas, which in their time were extremely powerful, for here Saturn was strongly marked. AglaurOS as a god became represented as a laurel tree, that which remains continually green and goes on growing through the ages. But unfortunately owing to Papalism, the powers of Aglauros as wisdom became lost, and merely took their last stand as Athene Polias; wisdom to a degree, but no farther.

Yet it cannot be denied, this must come forward on the road of Relativity and minutely in each cycle. But what mankind has to be grateful for, is the fact that he left with posterity the potent wisdom of the agging force, that is active with all who drive forth with purpose and zeal.

So there is hope for all,—even those well behind with their

\*11 The word Uraeus comes from the greek Ura meaning the tail; it is from the tail of the cobra, the coocycal, the "Eternal Tail" that the serpent power radiates and once raised into the heights of the Kundalini, it is known as the URAEUS.

calendar,—ONCE THEY MAKE AN EFFORT TO GO FORWARD.

To bring a last word regarding our direction of agging, if we can explain a little further of how the camel moves into place, we should by now have convinced the student that there are forces at work which, if he solicits, will aid and succour him in his struggles.

The camel in itself is a queer and odd creature, for it not only stores all the food and water that is required for its journey, but ambles silently and solidly across the sandy waste most patiently and untiringly; thus the agging process; (that which has never been growth or life).

(See the plate above)

This plate represents the labouring passions of the soul as they struggle to become raised up. That is what Moses did in his 400 years in the wilderness: it did not refer literally to 400 years, but was the building-up of the soul in the very spot he was in, or the country he was in: being able to command the country, and becoming as a nation.

In mystic symbology the donkey represents the passions, but then it becomes the brown horse or the white horse. But if you have black horses,—which of course goes back to the arabic states,\*12—do not worry about this: they are your wealth, but you have to learn to control them: that is the point.

Never turn down what you have, or be ashamed of it. It is the man who is in drought who should worry.

The man who is in fullness, and is spilling, has the Riches of God, which he is not aware of and which I am going to point out to you.

As we mentioned in the Job lecture, the wisdom given unto the disciples was, refer to Jonah:

"they are your riches, but control them, and persevere until you can control them: they are the Waters of God."

Now you can understand,—those of you who are rising early in the morning and trying to get your genus moving by the struggles of the early morn, and driving it round and filling yourself with the full solar-light,—as the sun starts to rise in the East you begin to drive yourself into action.

THIS IS THE TRUE UNDERSTANDING OF THE MYSTERIES, AND THE INITIATE.

\*12 The phrase "arabic states" does not in any country, nation, race or religion but to the visible and invisible powers; and the phrase "Mystic Gardens" described the abundance of this force which should be used to generate mind and spirit.

# Readers' Letters

**F**IRST let us explain the postal delays that have occurred this last month. The Cause has been a nation-wide postal strike which has in our district paralysed postal deliveries for over a week. Thus we have not been able to despatch or receive letters. Soon we hope to be able to reply to all those seeking for help but please be patient as we try to catch up with the delays. There have been some remarkably interesting letters from Readers in all different Parts of the World. First Michael G. Gobats of far off Minnesota, writes a very interesting letter describing the effects changes of diet have upon him over the months and how the use of herbs as prescribed by the School have so helped him to make the changes. Next Mrs. Ursula Gwynne of Sydney, Australia, writes frankly of the struggles she has had with the upbringing of her son who was born with water on the brain, and how she has tried to accept the greater spiritual purpose of such an incarnation,—the helping of a soul to meet and master its own karmic effects. So too from far off South Africa, Miss Stella Rex writes enthusiastically of the Healing Lectures of the School and how there have been formed special study classes to read them. It is all this wonderful work going on so many miles apart that makes us here in London realise the wondrous work that has been performed by the Teacher and the Wisdom of Universal Philosophy. It was impossible to choose a 'star' letter this month for all are so enlightening and warming. But to Miss Sarah Gaskins of Florida, U.S.A., we send our warm greetings and congratulations on her successful Fight, her simple Faith and her new found Freedom. It is the many endowed with this Heart Purpose that produce the Pioneer qualities that are proving to the World that Universal Philosophy is the only way to unite the Realms of the Cosmos to the Earth. Finally as the GAZETTE ends its 4th year of Publication and is about to start its 5th, may Readers everywhere join in gratitude, with their friends and acquaintances, to help spread the Word to new fields and far abroad.

Two articles in February and March 1964 were written upon both of their Astrological Charts and it would repay all readers once again to refer to them and then to read this absorbing report from a Mother who should be proud of her Fighting Qualities. (Editor).

**Mrs. Ursula Gwynne,  
Sydney, Australia.**

I would like to thank you for the great kindness in doing the horoscopes for William and me, for sending the galley-proofs and the herbs, all arriving safely. There is no trouble in regard to William taking any medicine I offer. Practically the same prescription was given me years ago by a friend of the family who was a medium and I used the herbs then, but did not understand the importance as I do now. We also wish to thank Ra-Men-Ra, for the kindly but forthright statements and interest, and to thank the Editor for the large space given to our problem.

I am convinced that you have given a correct delineation, as other knowledge arrived at up to the present, confirms your analysis. As to the control of the boy's programme as outlined for me in the article, I find that except in minor detail it has already been carried out and even already have experienced the displeasure of relatives and friends in my methods. My son is well disciplined and spends many hours alone when I am busy with my work; and if I need to go out at night I put him to bed with his Braille book and radio and tell him what time to expect me home.

He always has his bed-lamp switched off, radio off, large pillow out on the chair beside the bed and himself asleep. He does not disturb me at night, having his utensils placed at hand. I am sending you 2 face-washers for use in the school which William has made with his left hand. His right hand is practically useless now, but I spread it out and bandage it on a piece of cardboard whenever I have time.

When William was little and I was trying to teach him to walk, I gave him the motto: "I can, I will," but I have found that it really applied more to myself than to my son. Never in all my life have I had good health and have had to push myself all the way. This led to study of diet, occult matters and esoteric principles, so I am very happy now to know where I am going, and the purpose a little more understandable.

I am sending you some lines which may be of interest to you. When William was born the first verse, written before I went to hospital, and the second after the birth. When I received these lines I felt as though a presence was standing beside the bed, whom I likened to the Mother of the Earth. This was when the labour pains began. The birth was very difficult being what they called a delayed birth. When labour was again induced it took 36 hours and I was very ill and of course completely forgot the verse. It was surprising to hear the second verse in my ear—Hear it is

*Come forth into the sunshine,  
Little one!*

*Where birds sing and Kukkaburras laugh,*

*Where green trees are—*

*And you shall wander neath their leafy blades in*

*Joy awhile and dream—  
My work is done.*

*The mothers promise of a happy boyhood spent,*

*These lessons and these gifts,  
within the dream, unfold!...*

*And finish what I here began.*

Bless you all for the work you are all doing at the School and I trust all goes well for you in the future. It is wonderful that Mrs. G. I. Spearman-Cook has been privileged to stay with and to help the School she has formed. It needs a strong leader to keep a movement expanding as yours is at the present time. We link with you in sending out thoughts of Peace, Love and Enlightenment to all mankind.

## American View-point

**Mr. Alfonso Mattia,  
Rockville, U.S.A.**

As to my struggles against the mindless, this does not bother me. I have learned to live with it. The present time in the United States, we have become a nation of pill and drug takers. Just the other day I was accused of being a carrier of polio, because I would not take the rotten "jerk" they make everyone else take. I have to do this all my life. I have a pure and drugless body and only the spirit within will be my healer, I have nothing to lose except my physical, as the spirit is most important.

**From a Reader,  
Michigan, U.S.A.**

TO comment on the "Readers Letters." Living in a supposedly Christian city, I see every day the hypocrisy of it, I see the majority of ministers living in beautiful homes, having new cars every year and having not one but three or four suits, their wives dressing like pictures in a book. Their churches must be rebuilt in modern design. Where is the need for all of this show? It disturbs me to think of all the Korean orphans and even the American poor (of which there are many) and many of the world's starving that could be fed with the money that the ministers, their wives and families and all these so-called Christians spend for glamor. By the same token some poor but honest human being sit in the pew surrounded by all of the glamor and get not a shred of sympathy but perhaps a smirk of disgust for the clean but faded clothes they wear. While the minister stands in the pulpit (in his expensive suit) saying, "Let us give till it hurts, friends!"

## Health Restored

**Mrs. Ella Mulcrone,  
Walthamstow, E.17.**

I would also like to thank the healing group for giving me some of their valuable time, and by the time I reached home my Migraine had completely gone, also feel much better after taking the herbs, and the Eczema has yielded to treatment after bathing with Marigold Herb lotion. So thanks again and to Mrs. Spearman-Cook, for the valuable help given to me in her articles on initiation, a truly inspired and dedicated woman, God Bless her always.

**Mrs. Eileen Keck,  
Winchester, Hants.**

May I say again thank you for the Healing rayed through in your Sanctuary yesterday; both throat and ear are completely normal and comfortable for the first time for nearly six weeks, and I am most grateful.

Will you please thank the member of your group who drew the Rays down and allowed them to flow through; of course, the others also.

My neck is also at peace and I cannot tell you how good it

**Miss Sarah Gaskins, Maitland, Florida, U.S.A.**

**I**T has been with some deep reverence and joy also of wonder and some puzzlement that I have studied the Occult Gazette. Many of the articles in the beginning I did not understand, but through prayer and discernment, with the help of unseen forces I have been getting more and more understanding.

I hope to be able to send for the wonderful lectures as soon as my financial affairs are cleared away and I have more income. I can hardly wait, I know it will be soon. You are so blessed, and your Teacher has such beautiful colours and the vibrations are wonderful. It seems strange, but each article has a different vibration and light. I hope I do not sound too off the beam, I do not understand it myself, but some day I will.

I know that as I apply the teachings to myself, I feel my body changing, and my thoughts are on a more spiritual plane or whatever

it is that they used to be.

I am healthier, I have been completely cured of Glaucoma. I had a cancer last year, but upon a recent examination, there is no sign of the past condition, the Doctor is amazed, and I am filled with joy and reverence for all creation.

**The Heavenly Laws, if obeyed are so wonderful.**

Some day soon I hope to get the lectures, it would be so wonderful to attend these lectures and feel the wonderful vibrations. Is there something I can do to help my fellow man, in conjunction with your teachings? This is not put clearly, however, I am sure you know what I mean.

I would be so happy to be a student of yours. Is the cost very much? Money could never repay for what I am receiving through you and your wonderful Teachers. It would be so glorious to know you. God bless you in all you say and do.

is to be quite free from the pain. I have had it since somewhere in 1927. At times very bad, then again, not so bad.

May I ask if there is some way in which I can help to show my gratitude?

## Wonder of Lectures

**Mr. R. Tucker.**

On the afternoon of the 15th May this year, in a Schools Programme, a film was shown of an Indian Myth (Dhruva), and the way it was presented was excellent in order that the young minds of the pupils could absorb such a truth embedded in the abstract presentation, and as I watched I literally thrilled and could not understand why I was feeling an extreme joy and pondered very much upon it. Suddenly it came to me that I had had the privilege to attend a number of lectures some four years ago on Indian Philosophy given by RA-MEN-RA through Mrs. Spearman-Cook. In one lecture he dealt very fully with Dhruva.

The joy that was encompassing me was the realisation that the lectures of RA-MEN-RA do go out onto the maelstrom: to me this was the proof, for I have noted on a number of occasions terminology and phraseology used by him was now frequently used by either announcers or lecturers.

This brave soul has fought and overcome every possible obstacle that has been placed in her way, and we should all joy with her as she sees that her work was not in vain, for the world is gradually changing.

## Joy of New Readers

**Miss Stella Rex,  
South Africa.**

As a group we are studying the lectures on healing which your organisation have published. I would be glad if you would send me as soon as convenient 2 sets, one for myself and one for another member.

We find them extremely interesting and helpful and as we have a healing Sanctuary it is going to bring us a greater understanding with regard to this very ancient and wonderful art.

It is a great pity that the art of healing has been lost down the ages, and a still greater dis-

grace, that the churches of to-day have ignored this teaching of the Master Jesus.

How does one believe or have faith in ones' church when half the things which they should teach, they don't and the things which have no right to be there, they put in.

It seems from orthodox religions that what suits them only, they teach, and if you don't believe you are a heathen. Well I'll choose the latter, and probably be better off.

**Mrs. M. Smith,  
Paignton, Devon.**

Thank you for the Occult Gazette, which I have read from beginning to end, and have found it has met a great Spiritual need in me.

I am keenly interested in all the articles, especially the Astrological Teachings and would like to take advantage of your generous offer of Birth Maps and Key to Symbols.

**Having been interested in Occult Science and I have read a number of deeper books, and although have enjoyed the reading nothing has given me the deep satisfaction which the Occult Gazette has given me; it is indeed universal, and I recognise its Truth.**

**Mr. Ronald C. Curtis,  
Gravesend, Kent.**

By chance I purchased your monthly Gazette from a news-vendor in the St. Martins' end of Charing Cross Road. This was a fortunate and enjoyable purchase for your sub-editorials have much pleasure: needless to say I shall invest a 1/- monthly for all your future editions.

In particular, the Article by Gladys I. Spearman-Cook, was thought making and extremely well constructed; though I must admit to the need for more readings before the true worth will be fully appreciated. (Reference here is made to the Daniel article in the June Issue Editor).

**Mrs. R. L. Farquhar,  
Letham, Forfar, Angus.**

Thank you very much for having sent me a sample copy of the O.G. I really must have it. To read about JOB just let's one know how one has not read the Bible properly properly. I am very grateful to being shown how.

# A CRY IN THE WILDERNESS

by Egon Bihary

(This article is particularly important owing to the Rector's letter printed on page 9. His prayer, vowed in humility, opened new yet ancient doors and broke down old conceptions. Editor).

**M**ANY say they cannot pray or they find it hard to pray; others sometimes pray but find it so difficult to voice aloud, as an heartfelt utterance, their innermost thoughts; and though the necessity of prayer has been emphasised by Sage after Sage, and it be the yardstick of all religions, it is important to know the practical reason why it is the most vital part of any seeker's life. Without its daily application no initiate will ever succeed in staying the course or ever mastering his "giants." The reason of its utter necessity has been born and built out of suffering and this is written created through struggle and initiation. Over years, bitter experience has told of how failure has been met only in those who suddenly found themselves not wanting to pray. Each and every one even those successful came to that crisis, and it was then it was make or break.

In the fastness of a monastery, the closed doors of a seminary or high brick wall of a convent, a great deal is enforced upon the neophyte, even to the meeting of a physical correction for by the stress of the flesh, the self-will of the samanera or novice is broken down, and at last "the cry" is heard.

Why is it that all spiritual leaders teach this? Why is it that written prayer is not sufficient, it has to be uttered? Why is it the saying of words has such a profound effect? For unless this is understood the work of True spirit-led leaders, already regarded suspiciously by authorities, will be completely misconceived.

One of the most profound Esoteric Laws is that everything repeated as word or originally announced takes on an embodiment, the shape, intensity and density of which is determined by the person's heart-beat, his purpose and intent. The rule of Law is that whatever is embodied has to be lived in by the person creating or fought, mastered and changed.

It was the fact that Utterance created embodiment that has caused all religions and mystic schools to encourage silence by all beginners until they could

consciously realise what Utterance created what embodiment, for no awakened seeker is so foolhardy to deliberately create its own hell, pain and heart-ache, its own "death."

Few there are who know this Law: even fewer are aware of its application: and rare indeed is the one who knows the shape of his utterance.

But to all who are seeking this should not bring fear, nor silence but a consciousness of the importance of Vibration and the power of WORD. At least this will be known.

*If a soul sincerely and desperately wants to change but he recognises his own weak will, self-desire, vanity or what you will, as being his barrier to expand, he will know this that if he goes into the sacredness of his own heart and cries desperately OUT ALOUD to beg the Masters that he should be changed despite his own weakness, the very utterance sets the Law of Embodiment into movement, change and expansion.*

As long as the soul prays no obstacle can be too great, no failure too big nor is any task without hope. This is why uttered prayer before sleep is vital for it determines that the soul goes out to Spirit already pliable of mind. This is why too a Teacher makes an initiate repeat out loud his vows for thus the cycle of change must begin. It is the power of utterance that is the mystic Thunderbolt of Jupiter: this is the reason why astrologically Jupiter is the planet of expansion, movement, change, and above all the symbol of mind.

By utterance change is certain: by the Word announced so the World must change.

**SUCH IS THE GREATNESS OF THE WORD OF A MASTER, A CONSCIOUS-CREATOR.**

# THE JOYS OF STRUGGLE

by Michael G. Gobats

(So outstanding are these three letters that though each is written at about a month's interval, they form an excellent description of a Seeker who not only has deep faith but a fighting Purpose to carry out the Teachings advocated. Editor).

**W**ITHIN the last year I have learned much of myself physically and spiritually. Although accomplishment has not been great at least progress has been on the right path. As of now, I have developed into complete vegetarianism. The bulk of eating comprises of wheat germ, lettuce, cabbage, corn oil, olive oil, stone ground dark bread, fruit, carrot juice and natural spring water. I have noticed changes taking place that were not existing in the past. Sex urge has been diminished, over burdening weight has been lost, much less irritable, and now I have found you and your wonderful organisation.

I did not mention in previous post that I hear the sound with light at times but the sound or audible stream is with me always. Now that I have the help and guidance I know that the final goal will be strived for. There aren't many who believe any but the material plane, where I reside and I must say feel fortunate to have experienced as I have. For awhile I thought that I lost the little there was to hang on to. This knowledge of which you convey is a rarity in this country, for the standard here is sex.

Later he says:

**D**IET is becoming simpler every day. Last written of diet included vegetables. Now only fruits are being consumed, of course include herbs and spring water. With the use of an electric blender it is simplicity and ease in which eating is done. This is a sample of routine throughout the day:

Immediately after rising, at least a pint of herbs is taken in the morning. Lemon juice and honey consist of the morning meal. Another pint is consumed during the morning hours. Usually at 11 a.m. a variation of fruits are blended and drank as a noon meal. During the next three or four hours at least two pints of herbs are taken (sometimes more). Then following the rules set down nothing is taken till preparation for bed then herbs are again taken. As for fruits being used; bananas, apples, oranges, melons and other variations are being blended and drunk. This gives approximately eighteen to twenty-four ounces of blended material which is very substantial. Olive oil is also used with this combination.

As for the herbs it is found that relaxing is coming easier. Tensions are also being eased.

Seems that muscles are very relaxed and a feeling of looseness abides. It seems easier to bend and stretch. There has been a marked loss of weight but not of stamina. An over all feeling of well being is also experienced.

I thank you, for all that has happened so far. Also I must mention that the "VOICE" is much more in volume at all times (more so since herbs have been taken).

The third continues:

**A** GAIN I am corresponding and continuing progress made thus far. All experiences will be related to diet and etheric, due to continued efforts through guidance from you and yours. Before taking on a complete fruit diet, my weight was approximately One hundred and eighty seven to One hundred and ninety pounds. To date, as expressed previously weight loss was considerable, now stands at One hundred and sixty five more or less, let it be said since last June when a serious note was taken on diet, I weighed in at two hundred and twenty.

The point I am trying to raise is not so much of weight loss but to answer many questions in the mind (mine included) of density in the way of spiritual unfolding. Vegetables were the beginning of this work. Today, since fruit entirely is used, it is found that it is very sustaining for those who fear inactivity as a result.

**In no way do fruit and herbs diminish the physical body but activates it (as you know) and at present has been found in this case.**

Taking herbs as prescribed has been highly rewarding. I here mention that light has been experienced through this last period of thirty days.

**Rewards come painfully slow but those that take place are rich indeed.**

There is only one drawback, I need a new supply of herbs, it would be greatly appreciated if each parcel of different

herbs were tagged or marked with some identification. (This is being done regularly now. Editor). Only fruit now is being consumed, and the use of the following make up the daily diet in variations blended in a blender, or whole when not being able to use such apparatus. Dates, figs, currants, apples, oranges, bananas, peaches, melons (fresh). Now some questions:

*Are nuts considered as a fruit or are permissible? May honey be considered with an herb drink after the herbs have been properly prepared? Would it be logical to use S.U.P.H. herbs which are mentioned for daily use and the ones already being used?*

If so, please send a parcel of them too.

I must say by following instructions given thus for that only, better outlook is slowly evolving; also making contact with the light brings great joy.

**It is very rewarding to experience the one-ness with the Absolute no matter how small it may seem as time passes. Only hard work in the coming days and years will bring about complete illumination.**

It is sincerely my hope to do just this, and with able assistance and guidance coming from you and yours, it can be done. That is the only possible goal that looms before me. Although this is a slow and gruelling process, the rewards are much to look forward to. Being a personal observation, words chosen cannot express the desire which is kindling slowly within.

**E**ACH student when he takes this path becomes his own teacher especially in regard to changes in diet, and thus as to whether nuts or honey can be taken varies with each individual. Taking honey with herbs is not to be advocated for they are better on their own. The name SUPH herbs refers to a special blend of natural herbs chosen for their gentle laxative and cleansing properties.

# THE FOUNDATION OF LIFE

by Harry Footer

**T**HE Author and Editor jointly wish to emphasise that these findings are the fruits of research; that each and everyone should and can do like wise; that the wonders and discoveries of the Herbs and Medicinal properties in Nature have yet to be realised; that the over ruling and most sacred guiding principle for use of all herbs is the stimulus, direction, and guidance of the inner Voice, the Spirit. As each individual is such unique mass "of geological growth" of many lives, so each soul has to receive individual treatment. Thus these findings are fruits of individual efforts, but the Author does not wish to be taken to lay down any rigid unbreakable rules of Herbal Treatment which is still in its infancy. (Editor).

**I**N THE LAST ISSUE OF THE OCCULT GAZETTE THE BASIC principles by which to apply Herbs Astrologically were discussed. Let us now look more specifically at the separate influences and the Herbs which channel the particular temperaments. If cross reference is made to other planetary influences, it is because, as each part of the Body is interdependent so also are all Celestial Bodies, the microcosm being an integral part of the Macrocosm. So it is that as the HEART is the centre within the Physical Body around which all other expressions circulate, the SUN, the Celestial Counterpart, is the CENTRE, the Hub of the Universe. Within microcosm and Macrocosm, this is the Foundation of Life, the Vital Centre of Being around which all pulsates.

The main point to bring home is that the SOLAR herbs are rich in the Primordial LIGHT, FIRE, the Phosphorus principle, the Essential Oxygen carrying element.

ST. JOHN'S WORT

When we consider the more virulent Lunar-Saturnian conditions, this is an important point to dwell on.

The research into cure for Cancer may find the answer in this direction, especially when combined with the Vital, pure Raw Food diet. 'Oxygen deficiency' has more than once been spoken of as a contributory cause of Cancer, and after all if we consider the various deep ray treatments indulged in, surely The SOLAR RAYS are the basic answer, acting internally upon the Bloodstream through Natural Essences.

It is interesting to note that Dr. Forbes Ross claimed to have cured many cases of Cancer with fractional doses of Phosphate of Iron Biochemically—this as an oxygen carrier—and Marigold is rich in Phosphate of Iron.

It behoves us well, therefore, to consider first the herbs of the Sun nature, and to look to the conditions that are benefited by this influence, and to dwell upon those bodily expressions which it governs.

## Herbs of the Sun

**T**HE Sphere of the SUN is a vital, deepseated and extensive one and has linking with the Heart, Eyes, Circulation, the Spinal Column with its Marrow and Nerves. Mentally it aids Firmness, Stability, Will, Perseverance. It is of course Heat Generating. In general, therefore, the herbs of this

nature will aid the Vital Principle, and are always to be considered when the spirits are low.

Used in conjunction with a herb which treats a specific condition, the Sun herb will aid by strengthening the vital principle both in the particular herb, and also the Physical Body.

Used with a Mercury herb it will strengthen the Nervine qualities; Used with Venus it will aid the cleansing of Lymphatic waste, and will stabilise emotional excess; with Mars will add further to the strength of Will; With Jupiter will provide a great preserver of The Spirit, an enriching, Buoyant combination. One Sun Herb may have greater affinity to Mars, another to Venus, according to Temperament.

**MARIGOLD** (*Calendula Officinalis*) for instance, has a somewhat mild temperament—not too stimulating an influence. In its own right it is well known as a healer of Wounds, antiseptic, whilst aiding the growth of the cells. Taken inwardly, and used outwardly as a lotion, it is a sovereign remedy for Ulcers.

It blends with Comfrey (*Saturn*) in healing the Stomach Ulcer; with Sage, Raspberry, Blackberry, Blackcurrant, Elder for Throat or Mouth Ulcers; with Yarrow, Elder, Buchu for Nasal conditions; with Buchu, Uva Ursi, Marshmallow, Strawberry, Couch Grass, Parsley or Clivers, Parsley Piert in Bladder or Kidney affections.

In Glandular swellings MARIGOLD adds the Vital, Antiseptic Cleansing Solar Ray to the Glandular Remedy. With Daisy (Venus) it would treat the Breast; with Bladderwrack or other Seaweeds it would reduce Swelling in the Bladder, Uterus, and is particularly efficient in Goitre. Its use in Varicose Ulcers is well known.

When the inner cause is Venusian, and the Venous system needs cleansing we would blend with Venus herbs—the Elder, Birch, Alder, Yarrow, Golden Rod. All Venus herbs serve to keep the sweat glands open, allowing poisonous ferments, result of excess emotional or otherwise, to leave the body via the Skin.

MARIGOLD, being the most soothing of the SUN herbs, links very well with Venus. We will dwell further on Venusian conditions when we come to this section, linking as it will

with the Lymphatic system, the Emotions in more specific detail. Here we are concerned with The Solar Ray, as it Blends with all.

Skin conditions in general may owe their manifestation to a variety of Causes, Marigold, St. John's Wort and other Solar influences will aid, whether the cause lies with Venus (Lymphatic), Jupiter (Arterial), Saturn (Epidermis), Mars (Muscular), Mercury (Nervous), Uranus (Spasmodic) or Neptunian (Psychic) discord.

**ST. JOHN'S WORT** (*Hypericum*) blends well with herbs that treat the Urinary conditions, also the Lung disorders. Of slightly deeper and firmer temperament than Marigold, it exerts a more stabilising, Astringent effect. It, too, is admirable in Wounds, Sores, Ulcers, Swellings, but its great value is in such conditions that link with deepset injuries to Nerves and Nerve endings, the pressing of Nerves, the inflammation of Neuritis, the jarring of The Spine. Where there is much pain this would be preferred to Marigold.

Here is a good example of The Solar influence along the Central Nervous System, along which ST. JOHN'S WORT will help to remove any congestion, be this productive of Mental confusion, or limitation within the Sacral region, thus releasing energy to feed the Lower Limbs. Congestion within The Pelvis is helped thereby, whilst in combination with specific remedies affections of the Urinary passages will be cured. It acts beneficially in rectal conditions. The pain in the Coccyx—Coccydinia—will be cured by this remedy.

The Spinal CORD is as the stairway within which runs the Essential Vital Fluid, and from which emanates the Sparks to enliven the Body's centres; the Brain is as the Beacon, The Torch, and the Sacrum is as the basic 'Storehouse.' We do well to keep this channel in good state of repair and ST. JOHN'S WORT will aid this process. It will keep The Essential Neptunian Stream intact and the Vital Fluid flowing harmoniously. As to the possible dangers of withdrawing this fluid from the Spinal cord, we may leave to the Reader's Imagination, and his Sense of Moral Principle.

Astrologically, those who struggle with Neptunian affliction may find ST. JOHN'S WORT beneficial, especially

THE YGGDRASIL TREE

**T**HE Inner details of this ancient tree of the Edda Legends are endless in understanding. It spans the very depths of earth and reaches the highest point of awareness that Matter can give birth unto. So do the herbs of Nature also provide the means of spanning to the highest point of awareness and as they so provide they will give all the necessary fuel and cleansing material to every particle of Nature. They are the all providers, the food drink and wine of Mother Earth. If these and these alone were cultivated the world would start to rebuild and cleanse the pollution barrenness and desert that exists over so much of the globe let alone in man.

when the SUN is in disharmony with Neptune, Neptune, be it remembered, has ruling over the Sexual fluid, the all-pervading Magnetic (Odic) force. The dissipation of this force, debility from abuse, impotency of the Mind, can be helped by ST. JOHN'S WORT. Rosemary is also recommended for the impotent state. Remember St. John's Wort as a reviver of the Spirit, in shock, shooting pains, abscesses (it opens obstructions, dissolves swellings), Poisoned wounds, with sharp pain, where skin is broken, spinal pains, Neuritis, mental confusion.

**CHAMOMILE** (*Anthemis Nobilis*) is well known to gardeners as 'The plant's Physician'—it contributes to the Health of the soil and befriends the sickly. Its moderately warm, soothing temperament exerts a beneficial action when an hysterical tendency is prevailing. It is both soothing to the Nerves and it assists digestion. It is pain relieving and anti-spasmodic. As such it combines especially well with the Nervine herbs of Mercury, and in irritable nervous conditions.

It blends with Black Haw in uterine trouble; Scullcap in nervous convulsion accompanied by fear; Valerian in intense anxiety states; Celery Seed, when the nervous condition is accompanied by Sodium deficiency, acidity, hardened arteries; Lobelia and Grindelia, in the Asthmatic condition from a Nervous cause; Cramp Bark where circulation is impeded, and Cramp or Convulsion is prevalent.

Uranus and Aquarius often call for the blending of Anti-spasmodic, CHAMOMILE is

the Sun element that lends itself here.

When the Pancreas has been weakened by over exertion, when the reserves have been used up, and there is the gnawing pain of weariness, no remedy is so deeply acting as CHAMOMILE. Blend with Blue Flag (Irish Versicolor) when a Mercurial sign is Rising, or Mercury herbs are otherwise indicated, or when such as Migraine attends the weakness.

CHAMOMILE blends very well with Meadowsweet as a pleasant tea to settle gastric weakness. The German variety is perhaps more pleasant by taste.
