## ETHEREALISATION OF THE WORLD

### Bringing Complete Atomic Reconstruction

by

Gladys I. Spearman-Cook\*

AS THE MORN BROKE THROUGH in atomic splendour, the news of the Comet driving with all true alacrity into the Central Sun, headed the news of the Earth. Men looked at one another and wondered what this foretold, considering it had only ever brought forth Hell-let-loose in every quarter. But little did they know, that this was well taken care of, by Merope and the Hierarch lords.\*1 They who were awaiting its entry into the visibility of the world, ere the Scorpio

Fire graced each man with its now mighty endowment.

All now was the mighty harvest of Merope after years of faithful service unto these lords, whereby she would now begin to see the results of her arduous labours. For the month of Scorpio, that of the inflow of the Generative Fire, was about to enter the arena of rebirth, carrying unto each man the reborn wealth of the heights. But this time, with atomic reconstruction and vibronic readjustment, as the Comet, THE FIRE OF VULCAN,\*2 entered its abode via the Central Sun, and filled it with electrified life to set its Royalty into motion. For it had been so long down in the depths of matter, it was cramped with the density of darkness. Yet by this would the lost Embodiment be freed, and men embraced by the Holy Fire.

The full wonder of all this Merope did not consciously know, for the lords had learnt much since their abode in the world of men, yet much more was yet to be revealed. Hence this now was the glory of further revelation, as she continued her service unto them. All she knew and wanted to know at the present, was that what she had been commissioned to do was for the GOOD of ALL. But at least she did know, that wonders great and small, were now about to break forth, as the Central Sun and the Earth had etherically united, through her raised up frequency.

THE IMMACULATE BIRTH OF THE WORD

IN every detail is the action and teachings of UNIVERSAL PHILOSOPHY explained in this picture. Merope's carrier to the Heights... "was none other than her passionate nature, (Winged horse) that champed and danced in her mind creation, giving her active mind construction." (See text page 4, col. 1). By the constant study of the Word, (book) and awakening her spinal wealth, (caduceus) she gained the winged mind, and was able to awaken the Gods in the meninges until she earned the Crown of awareness. Thus equipped and directed by the Gods she laboured drawing down the Holy Fire and using it (the scorpion) to weave it into new Wisdom (the owl headed eagle) bringing forth the power of the Pen, returning to the Gods the Holy Fire immaculately born into the WORD.

# The Fight to achieve Solar Birth

**T**HE MESSAGE AND CALL FROM THE HIERARCHIAL SPHERES to the Earth is that mankind must achieve the blending together of the two forces the electric and magnetic, to produce the Electrification of the mind, the Solar Light, and radiate forth as unto the rays of the Central Sun. With mankind buried in the waters of self and desire, completely unaware of the mighty task that is now before him, still asleep to the magnitude and royalty of the Call from the Heavenly Spheres. Rallying him to arms and action, the change-over from the animal-beast state that the majority have sunk into is going to be far harder than the majority will realise or be able to meet. This is going to be part of the magnitude of the change-over and the hell of the struggle. The Article "The Herald of Vulcan" fairly and squarely warns all of the dangers to be met and his duty to co-operate.

\* \* \* \*

**T**HE Cry will go up,  
"Who knows what is to happen?"

What should we do?

Where is the word that I should study?

Who will lead and guide me, and show me the way, for me to follow?"

Typical of man, selfish as he always has been, he will think only of his own skin, when the time comes for the rapid changes to be met. But the Great Hierarchical Lords knew of the Empty Water-pot that was to come in the Age of Aquarius, where man would find himself without any fires, and worse still woefully inadequate to do the job, spineless and gutless in every respect and full of ego and intellectual multiplicity. Substituting MIND for a garbage bin of mental chaos and rubbish, blind to the greater issues, he would be without the acumen or sensitivity to perceive the greater answers, the one Point of Perceptory Awareness.

But all through the Ages man had been playing hooky with duty that was his, the duty of Royal Priesthood. Whereby he was to be the channel and voice for the HOLY FIRE to feed the Earth, ever being the giver and not the frog, the taker and the sucker, the parasite, one who quickly would become under the sway of the black forces.

It was a Woman, who of course alone had the guts to respond to save the HOLY SEED. As She had done throughout the Ages, she had borne sorrow and pain to upraise the Fire many times, and to be the channel for the generative Fires to be replenished so that the Earth could continue with its plan of unfoldment. But Her work was not to serve man nor to restore to him his fires, that he had wantonly misused and wasted, so that he could once more, rape and destroy the SPIRIT. SHE, was working for the Spirit and the GODS, for She realised that Man was but a collection of Atoms, the Atomic wealth and being of the Great Hierarchies, that he had received as the Ruach, the Breath, and used in delight. For instead of creating Mind, sending back up to the Heights the Atomic wealth flushed with Mind Light radiating forth, he had ever looked earthwards and never held onto the thread of Ariadne, the thread and guidance of the SPIRIT... even if he had ever bothered to believe. Lack of belief, faithless, he merely used ego as the false edifice that gave him face. The day has come for the stripping of that false adam, and to "render unto the

### MOTHER NATURE

*with Herbs and their Mineral Waters*

Gods the things that are Gods and unto Caesar the things that are Caesars."

Thank God, ... and how many times have I fervently said this... the Great Hierarchies were able to find One who was not only able to become Their Channel, but had her own unique wealth to give to the Earth, which She had never been allowed to give, owing to the evil and brutality of Earth.

For this One, known as the Goddess Merope, had originally come from Venus, from where she had been sent so that she could especially become the channel to 'FIRE' the then forming nebula of Earth into Life,

To enable it, then as the great Matriarchate, to become a centre of creative energy radiating forth its own genius, fired by the Fire of the Great Father, the Central Sun. For the wealth of this Goddess was unique as no one else could possibly hold the key, other than She who had been that Goddess, for She alone would be able to hold that Great Holy Fire, and once more channel its magnitude to the earth. But more than that was her task—and it was heavy and arduous enough as it was. She had to be the GREAT MOTHER, and as the cow, issue IT forth digested as the WORD to enable man to take IT and not be sent wild and out of control, as the world had done last time she had called down the FIRE.

\* \* \* \*

SHE had been given unto her servants, specially selected to accompany her to Earth, to support, feed and aid her to do the task, even unto three sons so that her blood could re-fuel her with her own blood wealth with the earth fire and aid her to raise up the Seed of the FATHER that had fallen to the Earth. But so great had the pollution and filth of earth become that she was treacherously stabbed in the back, all of those sent failing to honour the sacred Oath they had taken before they came

down to the Earth, committing the greatest act of evil against one so Divine.

Her Heart and Priestal Vows were so inviolate and of such steel that She could not fail in her task, and struggled on despite her whole etheric body becoming shredded by the acts committed against her. But her Command as she had come to the Earth was to be the Pathfinder, to become Solar Born,

band of the 12 Hierarchies which now ever support and uplift her as she fights day and night against the diabolic evil of the astral and the earth, the evil perils of catholic popery and religious orthodoxy.

By her Will to serve and her determination to hold on whatever the cost or the hell she had to endure, she found out what is to happen to man, what he should do, for she was the Great Scapegoat, the Pathfinder. Her body and mind being freely used in trial and error, giving to her untold pain as she found the footage for each step and made sure the ground was safe for all men to follow.

\* \* \* \*

HER great heroism and her marvellous endurance I have witnessed each day of this struggle, for by so doing, she has imprinted in the Cosmos and in man her Faith and Belief, her Will and her courage, her Zest and Zeal, her enthusiasm and her purpose, and above all an endurance, the like of which the world will never see again. For the pain and suffering, the fears and confusions, the treacheries and double-crossing, which she has had to meet each day of this Journey, have become imprinted in the very steel foundation, that her Heart has laid so gently at the feet of her Masters and her Gods. For she loved Them and MAN so much that she gave up her life for their Liberation, sparing not one jot of time, not one agony of despair nor pain endured, to do Her task to the bitter end.

Then She will go HOME, as the Risen VESTA, the bride to her Lord of Vulcan, and all mankind will struggle to make their Journey back to her home too, for She is their MOTHER, her and her alone, and to her must all return.

This has been recounted not only because it cannot be too often said, but because it is vital at the present time. The next 18 months is going to be alarming and hell to the vast majority. But it will vary according to man's guts, his determination to succeed and his will, drive and heart Purpose. But no Mother will value her sons... and will not all become such... unless they are of her blood, not only blooded by her WORD, her WISDOM, but fired by her will to live, to serve, to fight, and at all times to DRIVE ON.

We must all emulate our Lady, and our message to all men and women over this next 18 months, is this... whatever pain, agony, despair and change you have to endure, whatever circumstance you have to meet, remember SHE who went before you endured so much more, to make the way safe and strait.

**So Our Message for 1966 is  
Have COURAGE,  
FIGHT at all costs,  
Be prepared to take whatever  
comes,  
and above all  
DRIVE ON!!!**

electrified. Mind radiating out as the Sun, giving back of the Atomic Wealth of the Hierarchies. And this Command She was determined to carry out even though she had been left to do the task alone.

From that date Gladys I. Spearman-Cook, the name of Merope in this life, became determined to travel that road back to the Central Sun, and to faithfully report on her way the Wisdom of the WORD. That mankind would be left with the fullest account not only of her journey but also of how to accomplish the road and overcome the obstacles of self and the world as well as prepare oneself so that he could respond to the New Earth and New Heaven. First, Merope had to prove to man that she could master Earth and that she could become the Woman Crowned, with Stars in her hair, the 12 Hierarchical Gods alight within her meninges, and the Moon at her feet, the full master of earth and its maelstrom of desire and self.

Those who watched the pages of the Gazette and have seen the Wisdom unfold its pages, each line glowing with the Golden Light of the Sun, will know that she, despite an almost impossible Road, actually succeeded in her goal, and has prepared faithfully a full account of the perils of the Way. By her establishing the great rules of DIET and CELIBACY, which now all mankind must follow, building of the etherialised body so that the solidity and density of earth is slowly shed. Slowly each kingdom will be absorbed in; the mineral, vegetable and animal with the animal going first as Mankind become etherialised and electrified with the Light of the Sun.

In her fantastic fight against insuperable odds, this Goddess, Our Queen on Earth, earned the right owing to her immense courage to receive the actual protection of the Lord of the FLAME, the Lord of the Central Sun, and the

## The True Vicar of Christ

**THIS** meant that, through the LAWS she had set into motion in the Cosmic World, and now raining Cosmically down upon the earth, Laws that united heaven and earth, that would bring mighty wonders into birth. For Mother Melancholia was now being transformed, through their entry into her blood life. But were also her established Laws, and only awaited their full amendment into the depths, before they justified their appearance.

For man was slow in accepting new ideas, and embracing that which would let in fresh air, and stir his blood into life. For everything is of the earth, with HERE and NOW as its extending planes of frequency, uniting it with the mighty wealth of Blackness, the mystery of outer Space.

All form and conscious appearance is of man, and some Scapegoat's arduous labour. All outside is of the Hall of Mirrors, and the inflowing Ruach of life. What takes form is in the mind of man, with its heavenly qualities in the heights receiving the construction that the Scapegoat has applied, by the Law now established in the heights and depths.

For as soon as the heights, as the trial and error of the Hierarchical lords, make a firm established avowal through the Scapegoat Channel, is it covenanted from depths to heights, by the Scapegoat having to warrant it. Thus making all secure for all men to pass through, by her making strait the gate.

Thus the Law of heights and depths is firmly established upon the earth, and is the true meaning of the Vicar of Christ; not blind blank litany drawled out at a high altar mass, in a tongue of dead stoned people. Those that reek with the evil of the Ages, that has putrefied the Earth. But a live vibrant unification between the heights and depths, that speaks of Spirit and its golden entry into the lives of men.

Thus this new and awaited mystery is now about to make full manifestation, of what Merope has already been establishing, through and in the lives of men. She had been adjusting the LAWS by the mode of discerning the wealth of the Prism and Ruach entry, and deliberating by that, the frequency of the Rays of the Cosmic entry. For as she could so adjust herself to their vibronic glory, was the Law established as the covenant of "master and subdue it," as ordered of all men at the beginning of time. So as Eve, she was completing the task, and fully emancipating all women.

But this attachment with all its final adjustment, is quite a mighty task, for it is not just "build a house," and the task is as good as completed. LAWS, vibrations, both in heights and depths, have to be transferred, with man, as the recipient thereof, to be also readjusted. As well as old offending blank, blind states, having to be uprooted. For (See plate on page 5, cols. 3 & 4) man is a living vibronic creature, that at the present is deep down in Babylon; lost to the wonders and glories of his manhood, which makes the task more intricate. (See plate on page 12, col. 2)

So plan after plan has been completed, until now some justification will be warranted,

\*1 See "Merope and the Lord of the Flame" on page 15, cols. 4 and 5.

\*2 See "The Herald of Vulcan" on page 10, cols. 1, 2 and 3.

these Laws, and bring balance to his atoms.

As the Autumnal harvest of 1965 made its full bloom into manifestation, Merope awaited the final deliverance as the Golden Dragon from the heights descended and fired it into life. But little did she know that it was the Fire of Vulcan that was to set her work alight. For at the present, all she knew, and was busily amending through the Laws, that it was the Race of men she was raising up from the

THE ARC OF THE MIND AND COSMOS

ONCE again can be seen the wealth now established by the mind weaving of one soul, the Scapegoat, bringing fresh air into the stagnant maelstrom by raising up the Arc. Here the message is being received from the Heights through the raised up sensitivity, and winged mind, as well as the perceptory powers that have been captured (the helmet of Perseus). (See text col. 2)

as the Scorpio Generative Fire makes entry into the ring of the gods, through man himself. For every Celestial adjustment of soul construction, is unified with the heights, for man is the manifested created wonder of those heavenly mysteries. The son of the mighty inflowing heights from the depths of the FATHER; that which has ever been and will ever be, thus infinitum.

Yet now manifesting as man in the Abyss of creation, the outcome of Worlds and Universes from time immemorial. But for many Ages, with a Scapegoat as a Prophet or a King as eternal Blood-life, establishing the laws by prowess. Declaring their living possibility to upraise the stagnant life, then by raising the Arc, the Sine of matter, they would be warranted for Universal Life.

(See plate above)

This time, all has been done under the Hierarchs jurisdiction, no more Atlantis lords building destructive weapons with the celestial atoms, that could so distort the world of men, as to make the Hierarchs their slave forever. But just puny toys exercising their minds for the moment, that they illusively imagined they have conquered. It is the LAW that counts, and when a soul can so establish, becomes the creed and will of every Tom, Dick and Harry. But in the Arc\*3 being raised up to the Central Sun, no soul can over-ride the Law, the world is prepared for tomorrow, where every soul is going to be guided to accept

hell he had been enduring, through the evils of the black scorpion. Papalism with all its evil heritage and its dead god upon a cross; that which was stoning the Nations who wanted life, the radiant entry of the Spirit.

(See plate on page 5, cols. 2 & 3)

## The True Ecumenical Council

SO here we are, with all now set as the entry takes place. But what does it mean? What does it entail? Perhaps Merope can explain. For to lay the course accurately and fully to all men and the world at large, she decided, upon such demands being made of her, to claim audience at the TRUE Ecumenical Council. Not the pseudo bowling alley upon the earth, where dodderly old men squabbled over contraceptive pills, and whether Mary should get up off her altar, and start her week's washing for the Jesuit council.

NO! but the great Council of the Hierarchical Lords, who now fully rule and control the lives of men. Those who have their final contact as the gods of the celestial ring, living up

\*3 See plate above. The Arc or Ark being the extent into which the mind is extended in vision, the capacity of the mind to be free and radiant, the expansive ability to "see," capturing the rhythm of the Spheres.

in the heights of the meninges of men.\*4

This Great Council is the establishing Kingdom of God, that which is the World of Royal Establishment of billions of Ages of life. That which is as Brahma giving out and ever receiving back, in His withdrawing back, as the created fulness of LIFE. The great natural LAW of Continuity by the revolution of ever Becoming; for what man beholds, as the outpouring gateway of the Divine Effulgence, is but the mystery of a glorious Abode of the high Assembly of the unfolding Father. The Divine Flame that sends forth to the whole Universe, a rebirth of all that has been, and must become yet greater still. All that has been and reached its Zenith, the mystery Mind of His Being. Yet the Royal Glory behind the Central Sun, with its Divine Yod as the Scorpii Constellation.

Here we see the Royal Glory and Divine Magnitude that Merope upraised by her recognition of its REAL inner purpose in life. The Fire of the Divine Fatherhood going forth to feed all men, and of which they receive through their own creative life.

Therefore, by establishing in a group of souls the true intent of its message, she proved that this Holy Fire, was not for the joys of men, but the growth and reimbursement of their minds. The wealth and purpose of the Solar Year, but only a minute part of the whole curriculum. So by her full understanding of this Source, she now would make her ascension by will and deliberation up to those heights. And, if so allowed, beg entry before that Royal Council, that they would grant her explanation of what was now to take place as being demanded of her.

## ETHEREALISE THE WORLD AND ELECTRIFY IT INTO LIFE.

Once a man knows and believes, he is in command of its mystery, thus can by his mind adjustment, be a part of their creation through his raised up frequency. For all is mind and mind construction as vibration and NOT form. That is what man builds to finalise his belief and establish in the world of form.

The REAL truth is in the LAW, the World of Reality, where the Arc is ever being Raised, as the MIND of the Cosmic Adjustment brings into birth the unfolding World of Becoming. That which ever rules and guides the ever unfolding issue for the continuity of Creation. The Perpetua Mobile that is ever revolving from heights to depths, carrying on the Great Course of Evolution, unfolding the Fatherhood through the lives of men.

Hence Merope knew and believed of this Royal Abode of the Great Hierarchical World of LIFE, that which was the created Fatherhood of that which He had issued forth through his mysterious Yod of Creation.

"Cleave the wood and I am there, I am IT the Principal of Being."

## The Golden City

SO Merope to fully test her now created conviction, entered into her own silent

\*4 These are the three membranes, the pia mater, the arachnoid mater and the dura mater, and it is up in the arc of the Circle of Willis that the gods reside near the fontanelle.

sanctum, and called unto the Great Flame, her heavenly Spouse, that she could be granted counsel. If by her perceptory awareness she had penetrated a dynamic truth, could she, by what she fully believed, come and receive blessing upon such a magnitude of awareness, thereupon help her to readjust man's mind in the world beneath. For now, by many other constructory perceptions, she had united Earth with the heights, and as a Scapegoat had suffered the pangs of their full establishment of construction. Thus the responsibility was enormous.

As she sent forth upon such a dynamic request, the Great Flame as the Great Hierarchical Lord, surrounded her with his Divinity. Then told her to prepare to go up to that Abode of her mind conception. For she had perceived and created in form, an explanation of the Abode of the heavenly Fatherhood Kingdom, that which was due to be born upon Earth, through the divine beliefs of men.

For up in the heights there was no form, all was vibration, yet it held all the replica of Earth and the men upon it as the Reality of Life.

But Merope had given it a construction, a location, a form, to give comprehension to man below, now that the Earth and the Heavens had united in their etheric unfolding.

Vibration left him at a loss, he must have direction for his conscious mind to place and perceive. Once she had proved herself right by vibrational consistency, and all had been given its right blessing, she had conquered their secret and made it common knowledge in the world of form.

Thus the first Seed Beginning of the construction of the Golden City. The rebirth of the Garden of Eden, that would bring man back to God.

As to whether man believed it or not, and made any attempt to accept it, that did not matter. She would have made it Law by her mode of accurate perception of its vibronic consistency.

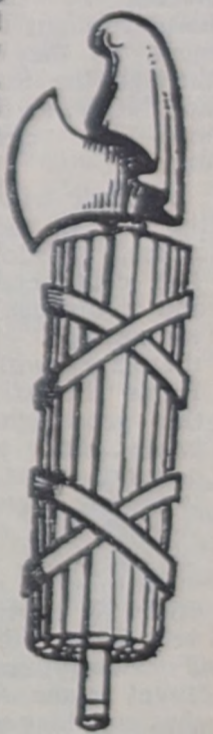

Thus Merope now prepared herself by altar prayer, for this Royal ascent, thereby cleared her mind of all earthly infiltration. Then began the raising of her mind frequency by consistency belief around the point of direction. Ere she had gone very far in raising her passionate creation in her brain organ of thinking abode, she freed herself from gravity, and as a spirit vibration free from form, rose up out of all earthy vibrations, to vibrations of spirit and outer space consistency. For she knew that her etheric creation as mind and spirit, only lived in form to labour on the solid earth.

The real Merope was mind and spirit belief, the ethereal form of mind creation; an Ariel sprite of heavenly consistency, a mind consciousness of light and vibration.

(See plate on page 4, cols. 2 & 3)

Hence this became free as she raised her mind agitation, thereby creating a carrier to take her up to those heavenly planes. For her pink shell chariot came towards her, being drawn by her dapple grey horses. Her passionate depths transformed into her

# ETHEREALISATION

Continued from Page 3

mind elevation, no longer as of the beast, but risen up by her belief, that rose the Scorpion up to the Golden Flame, the great Generative Source of Life. Not that he has not always been the giver of life to man, but man threw him down into the pit by their desire beliefs.

So as Merope stepped into her chariot, she rose up higher and higher, passing through planes of created thought, which had to be penetrated to bring of full explanation. Although she was passing through the World of Blackness, that was taking on of creative perception in her mind belief, she still rose higher and

higher. For her carrier was none other than her passionate nature, that champed and danced in her mind creation, giving her active mind construction. But everything had to be described in form, to give some constructional creative thought, to men who only understand of form.

(See the front page plate)

Therefore beauty and ethereal descriptive meter, would not finalise its creation, but to give unto the soul who is trying to localise this vibronic elevation, visualise Merope by thought creative freedom, now in a shell like chariot, drawn by dapple grey horses.

## The Atomised Merope

UP she sailed through the intense Blackness of heavenly glory, seeing many odd and curious creations in the form of curls, swirling, rolling and undulating motion, that could not be defined, for they were a state of thought created by some soul, but never brought to a full definition. So they were returning through the Stream of HERE and NOW, as out of the depth into the circumference of matter.

A circle with the hub in the centre, Millo. The centripetal and centrifugal winnowing of the planes, with Pi as the axis that goes right through it. It being equal to man's spinal column, that registers his unfolding states of frequency through him raising his status of sensitivity. For there is no such thing as ignorance, ever a state of moving towards the revealment of consciousness. For everything born on the lintel in the Arc of the mind, has untold possibility for it is ever as states of opposites. Therefore all confusion is an imbalance, through the lack of consciousness.

This passing through Merope's deductive mind, was the outcome of those passing odd creations that needed complete fulfillment; which, by her perceptory faculty, she had brought to conclusion. But as she did so, it was the means of propelling her higher and higher up in her mind ascension.

Hence Merope could feel as she rose on her journey, all the wondrous vibrations she was passing through. Then as she got higher and higher, her own consistency of form began to change, and she assumed her more ethereal vibronic intensity.

(See plate in cols. 2 and 3)

Her form that was upon the earth, as the Martha of 65

years of earthy substance, was the polarity to here as its true spirit creation, her raised up mind freedom. So by raising her vibration of thought she came forth in her higher consistency. She now took on the form in her creative faculty of her spiritual carrier, with the spirit shining brightly through it, as the atomised Merope.

## THE ATOM OF THE SOUL, RADIANT WITH THE HIGHER GLORIFIED LIGHT OF THE HEAVENS.

THE CHARIOT OF THE SPIRIT

THEN as she got higher and higher her own consistency of form began to change and she assumed her own more ethereal vibronic intensity. (See text in column 1).

Thus can more fully give understanding to the mystery of SHE, or Paul going up to heavenly realms, hearing that which was unspeakable to all other men. (2 Cor. 12). Therefore it was this, like all thinking spiritual beings, that she was eagerly creating by her service in matter. Earthing wisdom to help and construct the Cosmical unfoldment on its course of Evolution. Being the constructor Scapegoat, as the Chosen Vicar of Christ, she by new Laws, ways and means brought fresh air flowing down to men. And it was of the heavenly Abode she was now seeking to locate, that all men could get a better understanding of the glories around them.

So as she adorned her greater beauty, its revealment rather amazed her; for like many in the world of matter, where she was acting as Hierarchical Scapegoat, she had become as a ram-rod and a kicking block that made her very sad in her enforced lower frequency. Ever being fought by the rebellious in their means to overcome their obstinate mode of reflection. For unfortunately this is the work of the TRUE Scapegoat as they are ever turned out into the wilderness, to grow more and more fodder, with no seeds to set the harvest. Not dead on a cross, but ever going through the Crucifixion.

Therefore like Daniel, their task is ever to bring down from the heavens, by their belief, the proof that the unfolded FACE of their God, was the journey now of Evolution.

As Merope rose higher and higher, her horses turned into flying swans, the manifestation of the spirit out of her risen

passional creation. Her passional unfoldment taking on of its internal spirit unfoldment, the royal flying bird of the heights. Her rise up these planes was not our intent to dissertate, but the object of her journey.

So after continual ascension by her mind pin-pointed on her belief, she drew into more intense and awesome vibrations. It was almost cold it was so still, yet alive and full of glorious inner vibrating creation. For the intensity of earth she did not witness, thus what she was creating was swirling around her, like a mysterious heavenly garment.

The more she rose, the more intense it became, until there

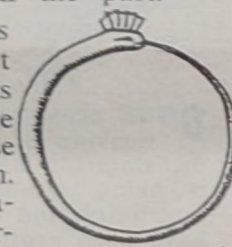

For had she not given it creation, magnitude and light? Until, it was only a non-entity as Blackness, a vast creation of Space. Now she had given it a status of Law and recognition, by declaring its royalty and beauty to mankind.

Like the Aurora Borealis, glorious and wonderful to witness, or the striking lightning in its dynamic mystery, could she enter into the folds of this yet greater magnificence, by accepting the creation she had brought to light. Yet she MUST; it was her creation, something she had defined, and in its intense glory now over-awed her, and left her bereft of expression. But prove it to the last she must, she must enter into the glory she had given birth to, and embrace to the full, what she knew to be true. Not that she was the creator of it, but the demonstrator of its unseen inner depths of Divinity, giving it a status of expression, that mankind could embrace by a state of knowing.

While she was thinking this, and of her mission that she must fulfill, she, by the intensity of will and determination to get to the depths on its other side, found herself entering into the glorious golden radiance of the Central Sun, which was enfolding around her, like the magnitude of divine royal ethereal garment. Where everything—though really no creative form—was embraced in its golden beauty.

One vast sea of undulating Radiance, that in its brilliancy did not blind you, but intensified your vision. It brought to the fore your inner qualities, those inner states you had never identified. Only thought about, believed you might behold as some mysterious connection with the past.

For it was as the Serpent swallowing its own tail in the vast Universe of Creation.

For if the Creative and Generative Source come forth out of these heights, then it was as these returning back into the fold, as returning light. Hence the Serpent swallowing its own tail, bringing light unto its crowned mind.

She was entering into where the tail enters into the mouth of that Mighty Mind of Ever Becoming. Yet she believed that behind that Head, was a world of glorious Beings. The world that was ever becoming of the depths, in the life that was sent down to the depths. For as the depths ever evolved and raised up by status of reborn Laws of Creation, did they ever become nearer, united by the status of the God creation, in the world below. Ever unfolding the Godhead within their own being, that the depths and heights united in a status of marriage.

Now where the Motherhood was reigning in the hearts of men, would the Fatherhood be embraced by a status of heart acceptance. Until all was by evolution united in a perfect Cyclic Year of Completion. The Fount and Mouth becoming ONE, for the new Brahmic Creation. Thus as Merope moved forward with that revolving in her mind through that glorious Radiance, all began to take on of form, like moving states of vibration.

\*5 The Fount was the first beginning of the Baptismal Waters, that gave to man his first seed of manhood. But it ever remained with woman as her seed down in the depths. Hence it is the seed base of all human life as soul received of the Fire Element for the first time. This must be retrieved and raised back up to become as the Light of the Void.

Thus she felt she was approaching her goal, for there appeared out of the intensity of light, an opening into a world where glorious etherealised beings, were roaming at their ease.

Here where perfect harmony and glory reigned, a creation brought to life by Merope's belief, out of the intensity of its isolated depths, a world of ever becoming. Where those who were ever of the "144,000" of every creation, entered into its world of embracement, as the nucleus of ever becoming. Yet the world that was ever giving of its life to the depths below, that the depths could be risen up and embraced into its glorious immensity.

## The Divine Lord of The Flame

THUS as she stepped forth from her shell-like chariot, she moved forward like an ethereal being, that she could be led to her goal. For everywhere was radiating with life and glory, a world of perfected beings. Then as by a status of a creator, one drawn to the world they had created by their mind of belief in the world below, the etherealised soul came forth to greet her, as one expected out of the world of men. For once a state was given form, it ever retained it, for no longer was it a myth.

Everything was known here, it was the ever growing world of tomorrow. A world swirling with life and light, that received its life from the raised up light, from the world below, yet ever re-imbursed by the Greater Source, coming forth from the internal of that Central Sun. The internal Source of Ever Becoming, that which revoked within its own Being as "IT." But as this World received from below, so it ever gave to the World below, its life of renewal and evolution. Then, as Merope was embraced by this World of Divinity, was she led back as it were into the Central Sun, which is as the head of the World Serpent.

As she re-entered into this glorious radiance, she became a part of it, and knew that she was now about to embark on the purpose of her journey. It seemed as though she was led into a chamber of enclosed radiance of light. Where seated around a massive table, were a group of men, that by their presence, radiated their strength of will, as the true Hierarchical Ecumenical Council.

Merope as she entered, did so with awe and untold reverence. For in this World, although she had created its form, and given it status in the world below, it was nothing compared to the magnitude that now came forth, by her setting it into motion.

Thus the creator amazed at her own creation. Therefore as she approached she was met by a voice of much austerity and richness, telling her to come forth, and state of her beliefs and what she wanted to know.

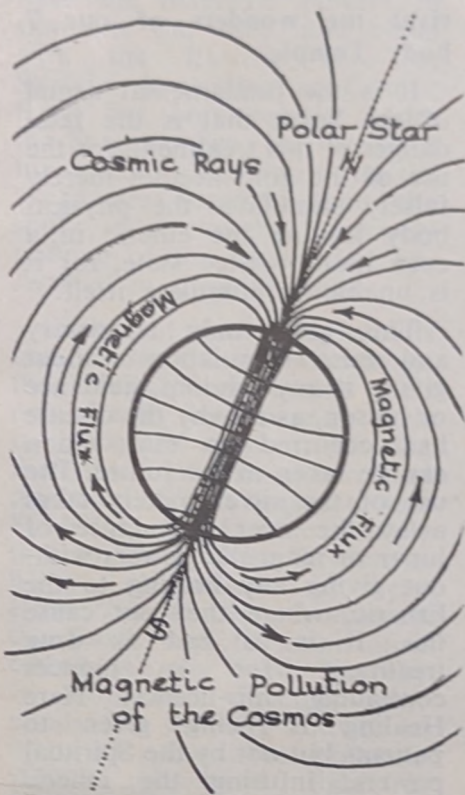

With firmness of step she strode forth, then with firmness of voice, yet trembling in her inner creation, Merope declared that she knew that what she had just beheld by her journey here, was a part of the world to become. That the approaching Comet was their introduction to what she had put into operation. Could she be helped upon this vital matter, which was so dynamic, seeing that it touched the whole of the Universe, and all that had ever been. That she could lead and guide mankind in their moment of crisis, through the Hierarchs CLARION VOICE, that of the OCCULT GAZETTE.

(See plate page 9, cols. 3 & 4)

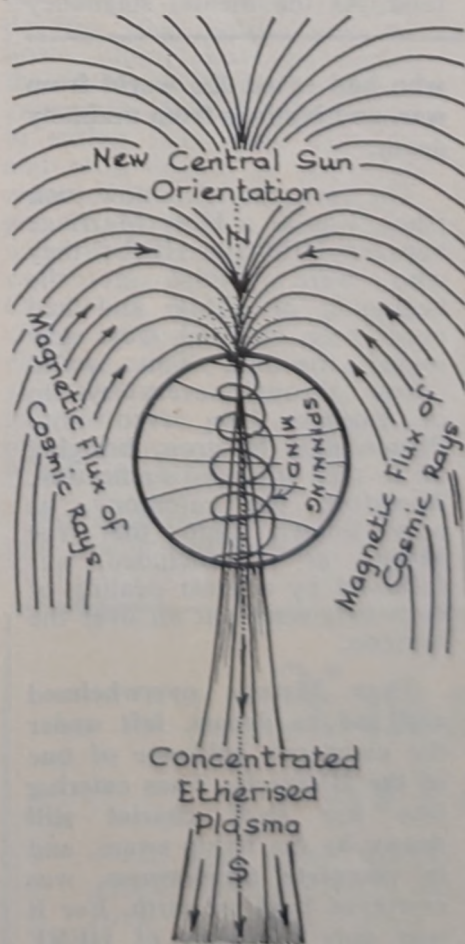

As she finished her statement, she was told to come forward

and see, what she in her struggle had managed to do, down in a world of density.

As she went forward a way was made for her to enter up to the table, and there as though a vast television screen, she was the world revolving on its axis. Then as she peered deeper into it, she saw the magnetic flux revolving out of the North Pole, swirling round in dual capacity right and left, to be drawn up once again at the South. But ever was a certain amount of Cosmic Rays entering in by the North, by the Pole Star. But owing to the density of the magnetic field due to the evil of the black scorpion, and orthodoxy of the so-called christian religion, fewer and fewer of the Cosmic Rays had been able to penetrate. So it was ever an increasing pollution of the Cosmos, with those heights seeking a way to save the Seed of the Nation.

For it would have meant the whole of what had been created, lost to rebirth and revolution. For unless there was life going up from the depths, the heights had no means of revolution. The creative pot would have been shattered and broken to pieces. As this faded away, another picture appeared. This time a world revolving on its axis, but now upright and not at an angle of mean.

**Queen of the Earth**

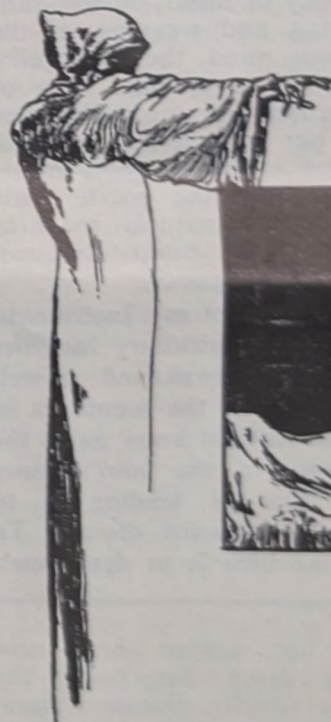

HERE the Cosmic Rays were pouring in in abundance, with an ever increasing withdrawal into the depths, through the North Pole of the magnetic field driving down out of the South Pole, as concentrated Etherised Plasma. For declared the Voice of the Chief Hierarch,

"A spinning mind of a Tarzan has been raising the frequency of the Earth, by ever renewing the Laws of Wisdom. One who has fearlessly stated their beliefs, even unto discerning the Godhead. Thereby has brought into birth a New Age of reorientation of the Earth's axis towards the Central Sun. This one with a TARZAN mind activity, has completely etherialised the plasma of the Earth, and completely replenished the Cosmos.

Therefore, by also raising the status of Life Generation, she has replaced the FACE of the Godhead in the SON, as the Divine Lord of the Flame. Now etherialised life is flowing to the Earth, bathing mankind in glorified rebirth. But greater still, the Central Sun now being interpenetrated and infused by the Comet, would be the mighty Power of Vulcan so infusing the Scorpii Constellation with its mighty Powers, that it will be the means of jet propelling the Earth, in its spinning motion, up to the Central Sun.

So the depths and heights will now unite, as the marriage of the Mother with the Father. What separated into a state of duality, will now in every status of organism, unite into a oneness of being.

All unifying up into a glorious World of Light by the ever revolving Perpetua Mobile. For the depths will be so infused with the inflowing Cosmic glory from the heights, the depths by the inflowing intensity, will be raised up by the velocity of the jet propelled motion."

**THE BLESSING OF DEATH**

... the Race of men she was raising up from the hell he had been enduring, through the evils of the black scorpion, papalism with all its evil heritage ...

The Great Hierarch stopped and looked at Merope, and said,

"This has been your WORK Merope, you have saved the Race, and we welcome you here as the Queen of the Earth, the raised up Whore of Babylon. Eve, as Woman, now redeemed."

With that they all rose and raised their right hand in acceptance and blessing, of her new status. For she had accomplished what Prophets, Kings and Heroes had striven to do all down the Ages. As they became seated once again, it gave Merope the right of status to be seated with them. But now utterly overwhelmed with what she had perceived, and completed by merely being obedient to instructions, and furthermore enduring that path of service, she sat down and was silent for the time, it leaving her completely spellbound. But there were many questions that she must ask, ere she returned to earth.

First of all she was most anxious to gain further information regarding the action of the Earth, and was advised, that between the work of the Twelve ministers of the heights, there was a complete rebirth taking place, bringing entire atomic reconstruction and vibronic readjustment to both the world and the Race. The World would completely move out of its old Space of HERE and NOW, thereby go into completely new waters by atomic reconstruction. Where everything of the old status, would be obliterated.

Through the teachings that Merope had brought forth, every man would learn that the World was constructed and reconstructed by man himself. For as a man so believed, so the world became. The Scapegoat Merope, in raising her thoughts and beliefs higher and higher in frequency and vibration, had caused the world to draw towards the vibrations it was now being reconstructed from. One, as a Tarzan, with mighty will power of thought and endurance, had been the cause of the world rising up out of its old abysmal location by jet propulsion.

Mother Earth was drawing nearer and nearer to her marriage with the Fatherhood, through the unity of Merope with the Great Flame of Life. The Fount drawing to the Mouth, through the Cosmical revolutions.

All set into operation by a Tarzan driving up to the Central Sun, from the depths of their own Fount. Then lifting up the Generative Principle, reconstructing all into the Lord of the World, as the Great Flame of Mind Light. Setting the dead god up as a living GOD onto the top of the Arc.

**THE STRIPPING TO THE BONE**

"HIS true difficulty is the discarding of his earthy ballast, ..." (see text page 12, col. 2), but this he must do "... as old offending blank, blind states have to be uprooted ..." (See text page 3, col. 1). Every soul must completely sacrifice the whole of earth, its memories and its leanings if he is to become one of the 144,000. "Man either becomes a conscious mind vibration or a non-entity inertia." (See text bottom of col. 5).

The Fatherhood Principle being born in the Son, who is the beginning of the New Source of Effulgence to come forth, when all is withdrawn in. As Ptah gave birth to Samash, he gave birth to Jehovah, then God, and finally but not least, the Great Flame of Divine mind unfoldment.

**THE GREAT LORD OF THE RING.**

**The Mind Development Class**

EACH Week on every Saturday at 6.30 p.m. G.M.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each sitter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are :

Dec. 4th	The Homogeneous	Jan. 1st	Calvary
Dec. 11th	The Pranas	Jan. 8th	Pitch Blend
Dec. 18th	The Horai	Jan. 15th	Dolphin
		Jan. 22nd	Holy Fire
		Jan. 29th	Septum Lucidum

**Mankind & the Comet**

THEREFORE, as the world draws nearer to the Source, so the marriage becomes complete, and the world becomes in the unity, the new Source for Universality to start all over again. Brahma withdrawing everything back into himself, a complete new state of existence. The conclusion of the Plane of Suffering, by the suffering of the Tarzan, a woman. So Eve is fully emancipated, an accomplishment out of sheer necessity. But all becoming so vast by the fast mind action of Merope, the Hierarchical lords had to come down to earth, to support the task.

For it had provoked vast treachery in the world, the weakness of Saturn in his possessiveness.

The dual revolutions from North to South in vibronic readjustment, bringing complete unilateral equation into Brahmic reconstruction, was caused by the Scapegoat bounding up to the extent of her own root capacity. Hence what should have been a slow process of readjustment by a number of Universal Christs, became concluded in the atomic unification, in the Equinox of the Waterman. (Aquarius). It was either Merope with saving Grace, or the scientist with his atomic destruction by missile projection, blowing the world to Kingdom-cum. All had to be perfected before Vulcan infiltrated his dynamic Power into

completely withdrew from the old world creation. Therefore only heavenly food must be partaken by the Scapegoat, so that she could fully complete the task. Also the helper in this final plan, a Polish Initiate who saw the scientific depths, would help her to bring it into birth; redeeming his own country from the evils enacted upon her, by the allies in the last great wars. She who was made the Scapegoat and buffer, to avoid Germany's onslaught.

So this was a mighty plan now to bring the world to sanity, therefore, from the moment of conception, hundreds of blue prints were drawn up by the Spirit draughtsmen, for it meant the complete reorientation of the world. Hence all of the magnetic is being absolved in, in every man, including all his lower kingdoms; while Saturn (See plate in cols. 3 and 4) and the Sun being badly placed, will have to be fully adjusted. With papalism and orthodoxy being completely disposed of, clearing the way for new life and wisdom.

Thereby the influence of the Comet will complete its task and bring much light to bear on many evils endured, that man could fill his coffers. But also being closely allied to Neptune, all false stimulants and drugs will now have to be disposed of, only herbs and natural methods being the answer to help the inflowing new Fires of Scorpio, to raise man up from the grave. Hence a Neptunian world with Uranus as the striking bolt to axe away all dead wood, for nothing now must retard the process, otherwise man will go back to his original atom state. One atom of soul life that has taken billions of years to grow, lost in one sweep of refusal.

The initiator now in every soul, will be Venus-Urania; Woman as the feminine principle, who will emancipate the soul back up to the heights. The personality principle as the worker in the soul, now labouring with true love of service; thereby turning desire in Desire, and lust into LOVE. Therefore, with the Scapegoat now completely set, all will go forth without hesitation. While man will be forced into harness by violent vomiting, if he resorts to the old desires of the past. There will be no mercy, for it is a Cosmic rebirth, which leaves no margin of latitude.

Hence those who do not follow the path, will be lost as dissolving dust, that of the atomic fall out. With the spirit as only an atom in its lowest degree, commencing in the new world with no mind consciousness at all.

Man either becoming a conscious mind vibration, or a non-entity energy.

## THE GREAT EAGLE'S HEALING COLUMN

FOR over a month the Fires have been descending down to the Earth, vibrant with Life, Electricity, the Electrical current that should have been born by the Aquarian Water-Pot now being filled. Now has entered the month of Sagittarius, where all who have been infused with the electrical dance of perceptory awareness will shed the "hind-legs of the beast," as the earthy states become cut away and expansion into Mind is made, the free Ariel soul who has the balanced awareness, the fruits of the wealth and the Judgement of Libra, the Laws that are foundation to the winged freedom.

The maelstrom is one vast mirror of man's mind reflection. As he so perceives of the heavenly Powers, do they become in the heavenly vaults. This is a wisdom that the present day man has not yet been able to solve. For he sees all literally and does not realise that SPACE is BLACKNESS containing untold Powers of vast Unseen Wealth, that when sent down to the depths becomes the soul-growth of every Norm in the abyss, yet the raised up Begotten Divinity of the Intelligencia of the Seven Planes of Constitutional Creation.

The great Power that has been the means of striking this into Light has been the Uranian Bolt, for he is the fiery shaft from Hephaistos the fire-God who acts on all planes, and is the Divine Innerness as "IT" that comes forth out of the Depths after the wealth is received and turned into form, then blossomed by the Solar fire.

It is man by his inner mind conception who raises it up through his recognition of the divinity hidden within, that it goes forth onto the planes of the God suspended between Earth and Heaven. But the Great Divine Effulgence that is deep within these depths, has never yet been retrieved by man. When it is, then the Great Work set for man to perform, will come forth as the shining Orb of the World of the ENLIGHTENED ONE.

What the genuine seeker has to understand is the fact that you do not find electrical force in matter, for that is density and mass. Electricity is movement and light, which if man could capture and raise up, he would not only raise the density of matter but bring himself uniting with the higher

planes of wave velocity through HERE & NOW. This is where Time is vanquished and Time-less-ness inborn.

Once it can be seen that the depths are of Earth and Water, —solidity and desire—then it will be comprehended that Air, the higher elevation, was the next plane of creation, and would be that of mind born through human-soul breathing in of that phenomenon, and raising it up through self preservation. This is the Ruach and the Nephesh that the Hebrews revered in their religious rites, for they knew that Breath and Spirit were the two Elements necessary to give them Life, and holy rebirth as priest and layman.

### Acupuncture

Miss R. Owen,  
Wallasey, Cheshire.

*Also will you ask if Acupuncture is in harmony with the Spirit? I've had three treatments so far and feel better but should it in any way interfere with the rising of the Spirit, then I will discontinue immediately.*

THE Answer is an emphatic NO! Disease is the direct result of a soul's magnetic powers becoming congested and generating incestuously within, resulting in physical disabilities. Powers that the soul should be using and directing by the Word into channels of service, but delights and self-desires command the soul and the Powers becoming twisted, creating an imbalance.

Once the soul turned to the Word and sought into the causes of the etheric physical disease, and placed that learned

into practical application, then the powers becoming congested could be used and directed under the command of the Spirit, the Solar Ray, and not sink into the lunar waters swayed by the stagnant mind conditions of mental inertia. The cause of physical disease is in the etheric with the soul failing to fulfil the destiny he has been commanded to carry out.

By sacrifice and renunciation of earth ways and learning to channel up the spine the seminal waters, thereby opening up the spinal chakras, the dance of Le Ros, will the soul start directing the magnetic currents and drawing in the Solar Light. For the soul's wealth taken over the ages resides in a magnetic stagnant state, congested within the etheric body.

By turning to Acupuncture the soul is allowing itself to have this self same power stolen from it, releasing the stagnant undirected congestion, but losing the soul's wealth gathered, and with the soul turning it to the lunar as the soul continues with the self-same desires that were the very cause of the physical disease.

The Acupuncture steals the magnetic wealth and leaves nothing in return, so that the soul finds itself without its own defences against the

## HEALING PRAYER

PEACE be unto all of these that are seeking of New Life ; for the Life is here, the way is here. All they have to do is to seek, to have courage and to have faith, and no longer hang on to old ideas. Open up their doors ; let the floodgates be thrown open wide and the Waters pour into their midst, that they too can look up and see the new City ; the City of Heavenly Light. Not of bitterness, not as the Cup of bitter dregs, but the Cup of Eucharistical Waters that MEROPE, the child of Thy Soul, the creator of Thy Son, now has a right to as her Blessing. The outcome of the grapes She has trod, of the Blood She has spilt upon the Earth, but of the many She has redeemed and raised and lifted up from the dead.

It is not of those living, but those that have gone before, that have cried out for mercy : it is they She has raised up. The present have to live and learn the truth of "giving and labouring in the might of their Work." Thus, Great One, we seek of Thy Eucharistical Waters to flow into their midst, that we now give it to her to drink, that She can go on as the raised-up QUEEN OF THE HEAVENS.

AMEN AMEN AMEN

maelstrom evil accumulated and soon falls under the sway of the lunar, unconsciously starting to generate inwardly, incestuously causing a further downfall into the stagnancy of earth. The soul makes no movement, is encouraged to continue with its old ways, thereby further infecting and poisoning her etheric body, distorting her powers gathered over the ages.

It is claimed that the use of Acupuncture balances the forces within the body, where the use of gold needles stimulates the natural currents in the body and the silver needles extract over congested powers. The practitioners apparently have an electronic diagnostic machine to aid them find the exact location of the congested states. Whereas mankind should be building the perceptory awareness and spin up his own frequency of mind, by the hard labouring and weaving of the conscious mind, the Cinderella, fighting to keep her fires of stimulation and zeal alive and firing her in activity. A small machine is relied upon rather than to train the greatest and most superb natural machine the body to build its own perceptory diagnosis.

This is where my Instrument uses her own pituitary faculties that she has awakened as well as her gods in the meninges so that she straight away gains the awareness of the soul's inner cause, that is leading it to build the outward disease. To use a machine is to deny one's

own bodily power and to turn from the Spirit that leads. For how can a man made machine rival the wonders of our 7 body Temple.

It is the fundamental denial of the Spirit that is the fatal danger of this treatment, for the use of the gold needles merely falsely stimulates the physical body leaving the etheric in a even more twisted state, for it is unable to stimulate itself.

This gives only temporary and false stimulation without giving it any wisdom, guidance or reason, as to why the disease had occurred so that action can be taken in the future. The use of the silver merely takes away the over abundance of lunar or magnetic powers without giving any healing to the Etheric, where the root cause lies. It is as bad as drug treatment for it induces continuing mis-licence. Here Healing is being given to patients but not by the Spiritual powers, infusing the etheric giving it balance, firing it by the Oil in the Word so that the soul itself accepts its Cosmic responsibility to "till and subdue," its own Earthy states.

Acupuncture is the product of ancient China, where immense Cosmic Power was drawn down and never sent back up to the heights, thereby creating new wealth of Mind in the Heavens, but held and used for the Mandarins own intent, to wield and use as raw Power over the mindless hordes of her land. As the mental stagnancy

## Etherealisation

Concluded from Page 5

This is the catastrophe that the scientists were fearing, when they beheld the Cosmic Rays saturating the earth. Hence the mystery of the 144 (000), only completed souls by the mode of assumption, assumed by the rising planet, will enter into the vortex of this coming City. Thus 144 being  $12 \times 12 = 144$ , on all three planes of existence ; Water, Air and Fire. This being the unification of the two planes of existence, magnetic and atomic, with electro-magnetic resulting.

So all missile and space ship illusion will vanish, war cease and religion die, with pseudo broadcasting and artificial demonstrators of truth banished. While commercial and financial jugglery and cunning will be axed in no mean way. The medical will die under its own knife, for they are a repetition of the butchers of Crete.

### 1966, The Year of Solar Destiny

THUS the whole of the past world will begin to fade from the moment that the Comet strikes the Central Sun. Which is Vulcan entering into the World's arena of development, with Venus assuming the adjustment of Vesta. Therefore

as Copernicus in seeing the falling Comet at the Ides of March, predicted evils to the world of men, the Vulcan Fire in entering into Scorpio, under the auspices of the Hierarchs with the School of Universal Philosophy, predict a complete reorientation of the world, bringing back holy life and holy Fire to all mankind.

So Mars has taken on the armour and equipment of Vulcan, the Fiery Destructor of evil ; therefore adjustments will be rapid, for 1966 will be a year of violent reaction, which will leave no doubt in the mind of even the most acutely credulous. But those who take the rebirth in their stride, new life will slowly be born in them, for the whole of living organisation is going to change.

Thereby in 1967, man will either be completely changed over in mind belief, or be forced to take the consequence. Vulcan is Mars in its complete intensity, and as man has shown no mercy to the Hierarchs, their atoms and their domain, the reaction will be as they set it. Saturn and Taurus are going to be completely redeemed ; one as the solidified glory of the Fire, the other the corrupted beauty of Divine unfoldment.

As these last instructions were given unto Merope the Chief Hierarch, that of the Eagle, concluded by saying,

*"That only by the Laws enacted in the School of Universal Philosophy, would man find the answer and antidote to his problems."*

Then the two panels went blank, and a golden light shone forth from a bulb near by. Upon this, all the Hierarchs rose to go forth and beckoned Merope to follow. Therewith, she followed in her place amongst them as they went from the audience Chamber. Even in the golden light, it seemed as if they went along a passage brilliantly alight with scintillating colours. Then they came to a large room ablaze with golden light, but Merope knew that this was not like earth, but a state of manifestation in the soul's own mind. A state of location to meet a certain situation. Everything appeared rich and radiant, as only seen in the heavenly spheres.

But as Merope went forth, she now perceived that her gown was of glorious diaphanous white chiffon, clinging around the slender Merope figure, who had all the beauty of the youth, that she had created through her service on earth. She was the ethereal or etheric side of Martha, who laboured as Cinderella on the earth. The transformation automatically took place, by the changed frequency of assumption.

(See plate page 12, cols. 3 & 4)

On her golden hair now flowing down her back, she wore a slender diamond tiara, holding her hair gracefully back from her face, to reveal her shell like ears. The two rings upon her hand, that bound her to her Lord, shone and sparkled with acute brilliance, as though afire with the electrified atmosphere of that glorious World.

### The Holy Marriage

THE vibrations now were moving in and out in an undulating way, and as they moved into what appeared a room, she saw a raised dais at the end, where a low red light was aglow in a covered bowl, which was similar to the golden one on her own altar. But she could see that this repetition was of extreme rare and delicate beauty. As they all moved forward towards the dais, Merope was instructed to take her place upon the double seated throne.

As she did so, she felt a movement though unseen as to any form, as she felt the Presence of her Lord, the Great Lord of the Flame, taking his place beside her. As He did so, the twelve Hierarchs went down on one knee, and bowed their head as the Great Lord embraced His Mother and His Spouse, she who gave him Rebirth and Birth. She

who had saved the world from war, and Nations from untimely death.

The ceremony that now took place, was as a Holy Marriage between HIM and HER ; they who were divided at the beginning of TIME and had never been reunited, were now joined together. This would follow through every system of Cosmic Life, even unto Proton and Neutron, bringing all to their intended unification. Therefore the ceremony, as only known unto the true Mystic, as it concluded, was followed by a great pealing of bells that went out all over the horizon.

Then Merope overwhelmed and sad to depart, left under the courteous guidance of one of the Hierarchs. Thus entering into her shell chariot still drawn by the flying swans, and in complete timelessness, was conveyed back to earth. For it was only a matter of HERE and NOW, and now much easier than before. For heights and depths were more closely unified and held no impeding factor.

(The article : "Vulcan, the Great Mystery of Pi," is the 2nd part to this and follows on from the end of this column. Editor).

increased so did the state of the magnetic powers, resulting in sweeping states of disease and mental imbalance. By Acupuncture the self-same power twisted magnetism finds an outlet through the needle extracting its magnetic congestion which is all the wealth the soul has gathered. This magnetic raw power merely enters the maelstrom swelling the already dangerous sway of magnetic imbalance existing.

In its place, as the soul's wealth becomes lost, is revealed the ancient mentality of old China, the spiritless and mindless race that descended into the pterodactyl, and sank below the lunar waters.

The soul, who uses this treatment will find it gets into this condition as their magnetic states are all drawn from them.

Mental inertia will increase further, for the soul will not have the magnetic powers to stimulate the issue, and blend with the Electric Fire of Scorpio descending as Cosmic Rays but only remain under the Sargasso Sea, the weeds of lunar desire. The Spirit and the Word are forgotten and the soul gets taught precisely nothing of the Cause that has resulted in their ill-health.

Each soul must seek into its own cause, via the wisdom of the WORD and become their own Healer by changing their own ways of conduct. Altering their lives unto the pattern and direction of that taught in this SCHOOL, the Cosmic Temple into which the New Wisdom is being channelled by the Hierarchs, as they command the Earth and its imprisoned cosmic Atomic Seed. Thereby so using and directing their minds that the very activity so increases that the Electric vitality of mind light is established.

In this way the soul commences to use and direct its own magnetic powers, thereby turning into an Electro-magnetic field the stagnant and congested soul powers, generating vibronics of vibrational frequency and stimulating the body sensitivity created through sacrifice and renunciation.

Souls who use Acupuncture are committing soul suicide, losing their magnetic growth, or relying on false stimulus denying the Spirit and the Solar Light, thus abandoning the fruits of Ages of toil and experience. It is common sense to realise that every ill-health and each disease is the direct result of the soul's own actions, yet Acupuncture only deals with the effects. It does not explain at all the Spiritual Causes of such infected conditions of congestions, let alone physical causes, fails to advise as to future conduct, and fails to inform the soul of the loss of magnetic power which the system is occasioning.

No soul valuing his or her soul wealth will take this road.

### Bones of the Feet

Mrs. W. H., Kansas City, Kansas, U.S.A.

*My only real trouble is in the metatarsal bone of both feet. This has caused corn callouses on area in back of toes. All other troubles have been dissolved through obedience to the Higher Powers. This came about through change of diet, regeneration of thoughts, etc.*

*P.S. I would also like to know why you advise against the use of vitamins and minerals. I feel you know the difference between natural live foods and synthetic products which are put on the commercial market to-day. Please give me the lowdown on this very important issue.*

EVEN in such a trouble as this there is a cause that is the root of the effect, and it is in the lack of "square footage" in the Spiritual foundation that you are building that is causing the foot callouses. It takes a man to meet his own medicine, and here recognition of certain inner actions will help to dispel the corns, for it is in the feet that we tread in of our foundation, the fullness of expression to the 12th house 'tartars' that lie within. The Priestal motive and sensitivity, as well as those parts of nature that are still to be buried in, in the wisdom recognising where the "hardness" lies.

To conquer this there is only one course of action and that is to bathe the feet in MARI-GOLD FLOWERS whilst they are hot, as hot as can be taken, keeping the flowers in the hot infusion so as to draw in of the Solar Light. For what you are meeting is the obtaining of the winged feet of Perseus, the sandals of invulnerability, whereby the soul becomes master of the earthy minds of the Medusa invariably is causing a noose to lay about the neck. For the way of expansion is in the multiplicity of intellect and not the dancer's touch of sensitivity, the electrical touch of the Solar born.

Vitamins are false stimuli that will endanger the etheric body, causing the bloodstream as well as the glandular system to become infected, for the scientist-cum-medico has not the vaguest idea of the effect of these. The soul is feeling without the necessary stimulus to maintain the drive that is so necessary to build the Solar Light of electrical dance.

These vitamins and other mineral products such as the bio-chemic cellsalts if taken will have a retrogressive effect saturating the body with vibrations far lower than the unfolding consciousness, that must slowly arise divesting itself of the physical form and seeking only of the Etheric. For man should never have so degraded the Holy Fire of the Seed to cause such a fall in physical creation or solidity.

Thus now there must be an evolving away from the lower three kingdoms and not an involving back into dead life, mindless.

For now is the time to raise up the seed and not to fall back into the Cancer waters of desire, feeding incestuously on "bone wealth" thus becoming stoned, and not Air-born winged in Ariel dance. For man is only mind and there is no mind life in the lower three kingdoms, that of the animal, vegetable or mineral, so why retrogress when the herb life holds of the mineral wealth transformed into living organism, while bio-chemicals, vitamins, etc., are dead mineral wealth that only takes the soul back to the dead-rock Kingdom.

### Solar Sickness

Mrs. R. G., of Jamaica, West Indies.

*None of the doctors are able to diagnose my sickness. Sometimes I am feeling dizzy, weak and fainting spells with pain in the back of my head and burning to the back of my neck, sometimes the middle finger of my right hand pains and swells completely dead.*

Mr. G. H. of Antigua, West Indies.

*Now my wife is suffering from a terrible heat all over her back likewise myself, and my wife is suffering from a terrible pain under the heart. She can't sleep at nights as both of us are suffering from terrible heat all over our bodies and we will be very glad to know if there is anything that you can do for us?*

MY Instrument to fit herself to take on the task of bringing the FIRE back to the Earth, had to go through many initiations up to the 16th, being burnt in by the EL Fires of the Central Sun as she blended the very depths with the very heights, the Fount with the Central Sun. These Fires burn away all the earthy and animal states the desires that have penetrated into the foundation of the soul, who has to become cleansed of the earth before he can give rise up, an ariel-born sprite free from the gravity pull of the earth, becoming raised up by frequency of mind, the lunar states volatilising under the in-pouring Fire, which is pouring into the Earth feeding all mankind through the Scorpio Channel.

It is the generative serpent fires that man has to raise up the spine as the fiery Kundalini, so that the Spiritus Air feeds and stimulates the brain-cells and activates the gods of the soul in the meninges. It is this that is the channel for the uprisen Scorpio seminal fires. Scorpio-Taurus polarities, spanning from the generative organs the base of the coccyx unto the cervical, the Taurus polarity.

In the union of the two there should be built expansion of mind causing the breaking up of the magnetic rocks, freeing the soul from the chains of restraint, enabling it to extend the mind in coniform activity ever finding the point of awareness to guide the unfolding steps, the practical action as the Oil in the Word.

Where the soul has not sought into the wisdom and has not made preparation for the change-over that is facing all the earth, the change from the solid and dense to the ethereal and intangible, the capturing of the Solar Fires, the Hydrogen Waters of Fire that are bringing rebirth, will bring much discomfort. As the Scapegoat set the pattern by what she did meeting this as the pioneering nose for all mankind, so she established by discarding that of the earth, the Laws of Diet and Celibacy that now everyone must follow.

The dance of the spinal fires up the spine must now become universal, and if the soul has made no preparation by taking in the wisdom nor discarding that of the animal beast in his diet, then he will feel the cleansing Fire forcing changes in his body particularly the spine at which the chakras are situated at the nerve ganglia centres.

This Fire will be felt as a very powerful burning within the bloodstream. Each man must therefore discard all animal foods, such as meat, fish, eggs, milk, butter, and all animal fats, and seek of the fresh fruits and uncooked vegetables.

But more especially should he take herbs and seek into the Word, the wisdom of Universal Philosophy. The main herb to help him is the herb VIOLET whose cooling rich vitality will help not only to cool the bloodstream but to uplift and free the mind, infusing him with the Neptunian Rays. To allay the burning down the spine and across the back, it would be very beneficial to bathe in WITCH HAZEL, copiously soaking the lint in the cool Hazel water.

Only by discarding and renouncing will the uprising continue.

### The Stagnant Mind

Mrs. E. C. of Dorset.

*I have been under a number of doctors for years but only keep growing worse all the time. I seem to have been born with a weak chest. When I was a child I had a cough, when I was 26 it turned into bronchitis. Then in 1947 into Bronchial Asthma. I have been taking drugs for it from the Doctor every day since. In 1953 I started with Arthritis in my knee: this has now gone right up to the thigh. I can only walk a short distance but am alright sat down... I don't know if you will think that mine is an impossible case or not but I should be glad to hear of any herbs you think might help. I am terribly constipated as well.*

THIS is a soul destroying chapter of soul disintegration as a result of absolute stagnancy and mental inertia, wallowing in the lunar waters of solidification. All her magnetic wealth has begun to disease into sickness until the whole body and all the 7 bodies right up to the Spirit has had to endure the pollution from the acts of the outer-casing the personality. For here the stages of ill-health slowly grew graver and graver as woman made no attempt whatsoever either to change her ways or to cease the continuing conduct that was doing so much damage. Cough, bronchitis, bronchial Asthma, Arthritis, thigh solidification, to finally terrible constipation,

where the self poisoning alone must be disastrous to the etheric growth.

No case is impossible but there are those where the soul has such a stagnancy of mind and physical inertia coupled with self-pity, that they are past bothering over themselves. Here the most radical action is needed as well as herbs of considerable strength and quantity to penetrate and break down the solidified state.

First Dietary changes should be immediate, discarding all animal foods of every description, all salt and spices, all stimulants of tea and coffee and the cessation of all sweets. The strictest minimum should be taken and the soul be given a thorough fruit fast and physical purging. Strong doses of SUPH HERBS (which are a special blend of the School's natural action herbs) should be taken each night.

Each day there should be strong cleansing herbs for this is most necessary before the finer course of herbal infusion should be given. DANDELION for the Liver and the blood, for it contains the Royal Leo Powers being truly the Tooth of the Lion, for here it buries in deep the fiery expansive powers of the Solar Fires, being the herb that helps the alchemicalisation to take place through the liver. Thus this is essential to assist the movement of the Solar Fires and to cleanse the animal from the bloodstream. This herb is ruled by Leo and Jupiter giving untold expansion if Mrs. E. C. makes the sacrifice and has the faith and belief in the fact that these herbs can act this way. For daily infusions of these will help the spiritual ethers to enter and eat up the dead states of the mind preventing the alchemicalisation—the free movement of the Solar Fires in electrical embrace—thus truly be worthy of its name the Tooth of the Royal Lion.

The lymph stream needs great cleansing and the BUCHU herb ruled by Venus in Taurus can not be bettered as this herb helps to loosen the acidity and chalk crusted in the tissues and the sinuses, breaking down the arthritis. It cleanses the bladder and the urinary tracts and is one of the finest herbs to clear out the waste of the body. Finally the herb HOREHOUND will help the expectoration of the heavy phlegm that is so swamping the lungs that the Ruach breath is not entering into the soul at all.

Only urgent action can save this lady from going under the lunar waters. It has been the fact that you have not been drawing into the ruach that has caused the rapid deterioration, but the fault is yours as you have not made any attempt to seek into the Word or think of anything outside the self. Finally Garlic the fiery Martian container whose quick penetrating action will help to force out the lung fluid. Though pill form does not always seem best in this case our GARLIC PILLS have proved strongly beneficial and very effective.

The whole cause of this inward deterioration and Lot's solidification is the fact that this soul has sought the earth and its poisons ignoring the Spirit and ignoring her mind. As long as she can have the earth she was prepared to live on drugs. Let it well be known that these intensely dangerous pills should at all costs be avoided. Now Mrs. E. C. must choose by stopping them immediately and going to the Doctor and turning towards the Spirit, or to continue in her old ways of lunar incarceration.

Reminiscences

# THE FIERY INBURST

**F**OR weeks now changes have been rapid and exciting, and will continue to do so bringing to the fore subjects that should have received attention a long time ago. Affairs that have now come to a serious climax, that could, if they were by-passed, bring serious jeopardy to the Race. But fortunately the Hierarchs are now in control, not only directing the pen of the Scapegoat\*1 to bring to the people of the truth, but also the ways of the LAW. This is going to be the means of changing the Laws of the Cosmos, which will result in the laws of the Earth being called to attention. For they are severely antiquated, and require repealing and renewing, that restrictions are placed upon those controlling the news affecting the people.

## Sodom & Gomorrah

**T**HAT a man should be allowed to advocate Sodomy, through the daily newsprint, is an offence to the Cosmic Law, which will bear severe repercussions back upon those people. Especially as it was written in the month of the Fires; for they took the Fires touched by Vulcan, and violated all the greater Cosmic Laws. You cannot play with such powerful Elements now that the Higher Powers are in control. For it is the Lord of the Flame who is addressing these Words, and is demanding retribution against such violation.

THE ELECTRIFIED MIND

"... Man must seek to unify his inner relativity and bring himself to electrification." The winged passions dancing with life, radiant with ideas and fire activating and sperming all those around him. (See text in col. 4).

This man Arran knows what he is doing, and why he is doing it, aided and abetted by Ramsey and Coggan of York. Two churchmen teaching and guiding mankind in the way of Grace, seeking to make law what is an offence, and once resulted in Sodom and Gomorrah. This is not going to happen again to the Race, for the Hierarchs are going to demand their recompense ere the month is out. No longer is

man going to do as he likes, he has been doing it FAR TOO long, with the result, the LAWS have become chaotic, cutting off the inflowing sustenance of the Race.

This paper is the VOICE of those now in command, and will soon be proved by what is now being stated, and the results to come about. For every man is receiving the inflow from the Scorpii Constellation, with the inthrust of pitch-blend from Vulcan through the fiery Comet's touch via his generative principle.

This now is being recapitulated by the gods awakened in the meninges of every human son. But also woman now is under the Kirtle of the Fiery Lord; he wholly rules the Arc, the raised up Sine of the heavens all alight with the electrified Waters.

Cosmic Rays that are pouring down on the Earth, infiltrating the Earth with new life. That which will awaken the inner atomic atoms that have remained in the soul as dead life, owing to the erroneous wisdom of the popes, and those like unto their calling giving unto mankind knowledge that nearly stoned the Race.

Fortunately the Hierarchs have been able to work through a Scapegoat once again, opening up the Channels of light. Getting to the Earth a fresh Stream of Water, that now is flowing quite freely,

THE VOICE OF THE HEAVENS

"THIS is where this Instrument is going to come into her own proving that a human soul can be the Voice of the Heavens" ... whereby the Race have been fed on the Hydrogen Waters." Though the struggle of Merope, has been dynamic the Hierarchical Lords do control the world and give forth their instructions through her. (See text col. 4).

reviving all who are willing to seek through the wisdom of the Occult Laws. Wisdom that will reveal the way that man must seek to unify his inner relativity, and bring himself to Solar electrification.

(See plate in col. 1)

All this may be doubted, but not so when the Spring brings the Fiery union with the Earth to its harvestal close. Six months of inter-union between the Heights and the Earth, via man's own generative principle. That which could set him mentally alight, giving him the brilliancy of the perceptory principle. But in it failing to do so, it will take its toll instead, for every man, woman and child stand equal chance to resuscitate of their mind.

For over a year these Cosmic Waters have fully impregnated the Earth, but being directed and guided through the Channel of this pen. Therefore every man had the opportunity to partake of the wisdom offered; if they failed to accept, then it is their loss, and their own responsibility. For we shall, as the inborn Hierarchical Forces, use any soul that we can find to do our bidding, to get our Voice to the people. With retribution being metered out through the LAWS now making manifest through those Cosmic Rays, where no mercy is considered, for all are their own Judge and Jury.

## Voice of the Heavens

**T**HE warning considering this rebirth of life and the planet, is now being made known; now the answer is going to come forth, in what we have continually predicted.

This is where this Instrument is going to come into her own, proving that a human soul can be the Voice of the Heavens. That which religion should have taught the people, and lifted up their minds to receive. Whereby the Race would have been fed by the Hydrogen Waters, transmuted into El Powers of wisdom.

(See plate col. 3)

Instead the whole Race has been fed on artificial contraceptive contact that has jeopardised the seed. States that

are adding more and more to the disorganisation of the laws, hence more purging and cleansing to re-right the balance of the nervous system. For man was created and recreated through the birth of these laws. Those set into operation by the heroes of the past; those who risked their lives that man could be balanced, by receiving of truth through the natural laws blending man with the Cosmic Lord.

Now the way is set for much greater plans to be put into operation, for the planet is due for vast results from this course of directed Evolution. Although it could have been severely jeopardised by the foolish course of a fallen Phaeton. But fortunately the reins were held by the Gods while Merope\*2 was trained and strengthened. Hence the Plans as prepared were not cut away as man would have desired, but held and firmly fixed for the present elevation.

At last the Lord of Generation was elevated aloft as the Scorpii Constellation in the Central Sun, consequently every man and woman is reborn of the Cosmic Fire. All ready to begin the new journey of rebirth, augured by unification. No longer what has been, now a repetition, but cycles reborn on the higher planes of manifestation. Whereby every soul now stands the hope of returning to his god heritage.

Hence to get this truth over to the Race when evil was so rife, we had to resort to our own method of newsprint, and will continue until man awakens to the truth. In fact, many strange things are going to come to pass, all directed by the higher Law, where man will be made aware of the truth in a most unconventional recording. Even Merope with her pen will stand by aghast, as she has done on many occasion, when we declared that we would forestall a certain incident of impediment.

WRESTLING WITH THE ELEMENTS

"FOR it is man who brings the Elements into form, and brings them into life" ... these are the descending Powers which Man must struggle to master and to be a Daniel, to take the Fires and wrestle with them and at the same time master the bestial states that may arise through meeting the Higher Powers. (See text page 9, col. 5).

Nobody now is divorced from this union, queen, beggar or criminal, as seen by the month's reactions. And although, through the poor instruments we now may have to use, the communication is not complete; for we shall call attention to our intent, which WE shall prove as the days pass away into night.

The message intended for the Queen, placed upon the Palace wall, was calling her attention to what she should be rebuking in those upper circles. As the voice of the people, why is this continuing? When as wife and mother she could do so much to carry her name into tradition. For Elizabeth is the one who gives Mary of royal birth, through John becoming the Jesus.

In the failure to do so, then we took action in a non-conventional way, and we shall continue to do so from now onwards, until man turns his mind upwards to the heavens and listens to our truth. For vast changes are now augured in the months to come, where, if man will not listen and abide by these truths, we shall apply them in our way. It will be by us proving our statements, that they will not doubt their validity. For the atomic union between the Elements and the Earth is now firmly fixed, owing to man being the receptive channel.

**Man's New Commands**

THEN with the reorganisation of the laws and application, the natural growth of food produce is going to be reorganised, but not for stock exchanges to peddle with, as they would wish to do. All this we are going to control, for this world is going to become a world for the growth of the people. Again we say, man cannot interfere, because the Fiery laws are issuing through their own generative waters, and every mystic knows the answer to this. The former the scientist cannot deny, for he was next after our Instrument to announce this wisdom. Although he would like to deny its inner cosmic wealth, that the powers are controlling the people through their creative faculties.

Well! this he will learn to his own detriment if he fails to listen, for we could give him all the answers to his problems, and how to control the Powers now touching the Earth. For this is quite simple, once he accepts that he is those elements alchemicalised as a mind created being. When he is ready, we shall be ready and waiting to offer him advice, but not of figures tied up in knots, but a simple understanding of how to hold them fast and bring them to a raised up frequency. How he could hold them within himself as a human reactor; hence it will not be very long, before he will have to seek our advice.

Much of this difficulty now should have been captured and balanced in the Equinox of Pisces, when the Embodiment of planetary configuration made its entry into the Womb of the Earth. A time when the world became badly out-balanced by the gorging Caesars. Now man is not ready to meet the unification of the Second Advent, as augured by the prophets. Those who could see the way the Race was trending, and the sorrows they were building up for their incarnatory heritage. Now the time is here, but nothing shall daunt it, for we found a way to master in greater abundance.

Now man is all ready for the vast changes about to follow, and these we shall set, if not in one way, in another. Then by the Spring every soul will be able to judge his own progress, and need not blame another. For every man is his own free agent, and beholding to no other, for religions have been broken and ready to drop away, with governments well under control. Now we shall take over the readjustment of the laws, already infiltrated by the higher Law. Whatever happens now, we are in control through man himself, therefore will now continue on the first part of the plan. We warned man of this over a year ago, but he would not even bother to listen; thus will find our ways, for the time, a little irksome, but it will bring him back to life, balance and sanity.

Then we can begin the next step to rejuvenating the Race; for all now is an electrical

state of rebirth, where man, as a mass of atomic units, is being driven by the electrical currents of the elements, by the god composites now manipulating the soul. States given life and form by Jacob by active belief of soul growth; thus giving the soul power to spin up out of the density of matter, and in so doing, bringing change to law and form.

By so bringing this into birth as Law, Jacob became Isra-EL; one born of the El powers, that remained the heritage of man through Joseph leaving the wealth of his bones to mankind, and through Benjamin, the son of my right hand. The powers of the mind to manifest truth, which has been a gift accredited unto My Instrument.

**Perceptory Answers**

HENCE one soul can change the whole stance of the Earth by change of frequency.

THE CLARION OF THE FIRE

BY her capturing the Holy Fire, Merope is the custodian of IT, and being the Instrument of The Lord Maitreya, can... "lead and guide mankind in their moment of crisis, through the Hierarchs Clarion Voice that of the OCCULT GAZETTE." (See text below). And so the call has gone forth all over the world for those who have the ears to hear and the eyes to see.

That risen up above all others, causing changes to percolate through every plane, by mode of spinning rebirth. If HERE and NOW can be seen in this light, then it will bring a greater enlightenment to the changes that now are operating in abundance.

To see this clearly, perceive the Cosmos as Millo.

The outer rim as the Earth revolving in a continual state of revolution, building up the Arc or Sine of the elevated heaven. With a continual winnowing in and out of the centripetal and centrifugal states of Solar mind rebirth from the risen Arc. But as Cosmic, so of the human as Macrocosm to microcosm. A fluidity of mind now on the ariel plane of air, with Fire as the sparking life of electrical force. The soul raised up onto the plane of Fire, and out of

the animal Kingdom. The (See plate on page 3, cols. 2 & 3) sparking force caused by the horse or fiery passions striking the rock, that Uranus, as the electrical current now set into action, changes the whole of the Void.

The spirit now speaking through the fiery element as the atomic seed, now raised up to the heights. The waters of the soul that could now be bubbling with joy of elevation and state of mind activation, as the internal atomic combustion of the fiery seed explodes into ranges of new birth. That, awareness direct from the seed as perceptory awareness, could be the means of changing the units of the soul, into living atoms of realisation.

The whole soul becoming alive with new thought belief and understanding.

Thus HERE and NOW as an electrical action from Fount to the Mouth. One sparking action giving spontaneous thought to the soul, not multiple states of unfinished ideas, but instantaneous states of perception, that now can become a living flame of solar rebirth in the mind of the soul.

This is the new World where the Spirit is speaking through (See the two plates in cols. 2, 3, 4 and 5 above)

**TUNING TO THE SPHERES**

ONCE the passions have become winged and the soul sensitised, the Crown of the Mind can lead all Men making him recipient to the Rhythm of the Spheres, "ever reburnishing the Race with fresh air and new ideas." (See text in col. 4).

the soul as the God-conception built up in the soul and Cosmic conception of the Solar FACE. For it is man who creates the Elements into form, and brings them into life; but living (See plate on page 8, col. 5) creations, for man is born from the same material, but not yet elevated into divinity for he still inhabits the beast. All souls being potential Pygmalion, building up edifices of belief, and worshipping them as their rock creation.

But the Solar FACE is the Spirit raised up to the heights by prophets, heroes and Scapegoats of the Ages, that as the Begotten, becomes the higher MIND as the Intelligencia, to receive from the Divine Effulgence, that which can reburnish the Race with fresh air and new ideas.

The ever revolving Perpetua Mobile of the Christos Blood of rebirth; now the Solar light of the Central Sun.

Now things have so become of the Spirit, through the elevated works of Merope, edifices no longer exist. All is a state of electrical reaction, as a revolutionary state of rebirth. With changes going on all the time through the Gods as Spirit controlling matter.

Now it is for man to be the vehicle for outer world reaction to enter down as greater fresh air from the heights, but not as missile warfare. This he will do by so spinning up in mind belief, that he could fly up into space by his risen mind frequency, and touch heights out of range of his present understanding. As he does so, the wealth of the Spheres adheres to his frequency of elevation as pitch-blend sparks, and in returning to the depths, his task is to decipher its inner meaning, in exactly the way that the composer deciphers.

This is explained only too well in 2 Cor. 12 v. 2-4, where Paul, the potential risen Saul, declared "As one caught up to the third heaven, and heard unspeakable words, which it is not lawful for a man to utter."

That which could only be done through pure Spirit and not that in a bottle, for this is the New World of Fire that man is being born into, whether he wants to or not.

That which could only be done through pure Spirit and not that in a bottle, for this is the New World of Fire that man is being born into, whether he wants to or not.

That which could only be done through pure Spirit and not that in a bottle, for this is the New World of Fire that man is being born into, whether he wants to or not.

# THE HERALD OF VULCAN

*This article was delivered through Gladys I. Spearman-Cook but under the direction and control of the Lord Maitreya, the Lord of the Flame of the Central Sun.*

(On 20th October, 1965 at the commencement of the usual evening lecture at the School of Universal Philosophy and Healing, 6 Phillimore Place, London, W.8., a special announcement was made about the COMET, then moving rapidly across towards the Sun, into the Corona which it entered on the 21st. As it was not possible to incorporate this into the November Gazette and owing to it being a message of immense importance, it was reproduced as a leaflet to be read in conjunction with the November Editorial. It is reprinted in this issue again in view of its international appeal. The Leaflet is free and can be had in any numbers on request. Editor).

**THE COMET THAT IS APPROACHING THE EARTH, OR APPROACHING THE CENTRAL SUN,**—which of course, as you know, is already united with the Earth,—as it enters into the Corona is going to burst into the Centre and set the Fires of Scorpio vibrant with Life, Electricity,—the Electrical current that should have been born by the Aquarian Water-pot being filled. We have not been preparing this Temple for some considerable time without it has not been for a Purpose. It was a well prepared Plan, where many were drawn down from Great Sources in the Heights, but unfortunately all failed. Only one or two held. But this is what we expect when a Great Plan is being prepared.

Man will go so far, and no further: he will go on until it starts to pull upon him and then, when it demands of him of any sacrifice, that is the end. To find one who can see a Task like this right through to the end, with all the endurance,—enduring all states of rebuke, and even being knocked around by those who are being helped by them,—this is very rare. This one did 'stay the road.' At the present moment she is a little stressed, for much has been revealed to her that even made her stand aghast.

This is the planet of VULCAN, the dynamic power of Mars raised up to its highest degree. It is going to enter in and set the whole of Scorpio alight with all the power that is necessary. This is going to go through the generative organ of every soul, so no man is going to miss it, or woman either. But far more than that: she was given the Task of bringing the Mysteries, and in so doing, she so raised the vibrations through the Teachings that you have been receiving,—and receiving them very idly, **THE EARTH NOW HAS BECOME JET-PROPELLED, AND IS RAISING ITSELF UP THE "STREAM" TOWARDS THE KINGDOM OF GOD, WHICH IS ON THE OTHER SIDE OF THE ENTRY OF THE DIVINE EFFULGENCE.**

This is where the true Ecumenical Council is held. That is where any of you who can make the 144,000 will enter into; otherwise you are going to become the Atomic fall-out: you are going back to dust, and you will have to start all over again on the new Plane of the Golden World as merely a bacteria speck. We have been warning you, and warning man now for some months, how important it was to let these

Teachings be the fore-runner of you receiving the Fires. You had no evidence, so why should you bother! You did not bother.

This is going to make the planet completely etherialised, and every soul, as he raises up and makes his own assumption, will also become etherialised. But he will have to discard all the way. Only the LAWS advocated in this School, as THE SCHOOL OF UNIVERSAL PHILOSOPHY, are going to help man from now onwards,

#### DIET AND CELIBACY

#### Royal Marriage

YOU are going to mark my words very soon. On the 24th October Scorpio enters, and then it will begin. The scourges that are going to take place are going to be dynamic, but all put down to the Comet. The last Comet that came to the Earth brought all the wars that devastated: the devastating and bloody wars of 1914 and the one that followed. The one seen by Copernicus in Rome, brought all the deluge, the orgies and the tragedy of Rome!

This one, No!

The Powers have been harnessed; they have been risen up. The Laws have been changed, and now all is ready to meet it, and as it enters in with all its vibrant Power that could be destructive, VULCAN, the planet of the destroyer of evil is entering in with all His might, and will bring that great Power to destroy evil but raise up life.

If you have got life; if you have changed your vibrations; if you are embracing the new Laws, then you will embrace the Fires; and that is what is awaiting all men. It is going to adjust the World; the World is going to become the Great City of Light. It is already on its way in a jet-propelled Stream upwards.

Now this is the news we have brought you tonight. You have been gradually hearing of the changes that have to be made in the etheric orb of the Earth. Now it is going to become the physical. Every man is going to become etherialised; every man that can take it. The prophets for ages have been warning man about the devastation by Fire. It will not be devastation by Fire now; all has been changed.

This Plan was the Plan of the Gods. It was the Plan of the Great Ecumenical Council of the KINGDOM OF GOD, and now the Great Fires are going to descend, and THE MOTHER OF THE EARTH is no longer going to be a Wanton, clothed in a stained purple gown, but raised up to the Heights where she is going to become married to Her Lord.

AND THE EARTH AND THE HEIGHTS ARE GOING TO BE UNITED IN THE ROYAL MARRIAGE.

And those of you who can make it will be there at that Wedding.

# NEPTUNE

## The Pathway to the Gods

by R. S. J. Speller

(The Author is well known to the Editor, being a young man of 21 who has deliberately taken the road of Neptune to bring forth his ancient wealth. He to a minor degree has experienced the downpour of the Waters, the Neptunian Rhythm of the Pineal, that by its power of frequency, its dynamic force, could drive and accentuate the lines of movement that the soul responds to. Wherever there is a small weakness, the whirl of the Power, the Neptunian Horses, forces it into becoming as a roaring breach in the Dyke's defences. The quickness of realisation, the delicacy and touch of mind awareness, is of such a sensitivity that words alone fail to capture the atmosphere of reception. Thus inevitably the phrase is poetic, wrapt in a mind phantasy, which appears unreal but holds the Reality of TRUTH, deep and profound. Those who honour and reverence these fertile and Holy fields, seek with vision alive, and mind afire. Editor).

I saw a wide river, calm and still, yet somehow it brought fear to the heart, as if it held of hidden depths that would drag you under if you ventured upon it. But as I watched, I saw a Messenger clothed in shimmering white, stand before the flood and point his hands towards the waters, then lift them upwards to the heights, and his aura became a brilliant gold, then as quickly as he had come he was gone. But as he disappeared the river parted from side to side and the waves rolled back to reveal a sandy path with rocky pools littering the ground ahead. I walked to the river bank, then found myself drawn by an unseen force onto this path, but on stepping on it, it was transformed to a glorious drive with lush green grass underfoot and sweet scented rose trees lining the way, with an occasional arch of blood-red roses almost beckoning to you to pass beneath them, and partake of their perfume.

For here was the pathway of the soul, the journey of Le Ros, whereby one is able to breathe in the perfume of the heights, and see the glories of the Unseen. Where the Blackness reveals its secrets, and the pure in heart are given the Key to the Door of Life.

But to those who would seek of this Key while still having the mud of the earth upon their feet, let them beware, for they will find that the rose has sharp thorns that will prick and cling, and tear their inner being, till they are driven wild by the Fire they took before they were entitled, and wander blindly from the path, to be swallowed up by the waters that ever wait for those, that took the Royal Seed of the Father, and were then found wanting.

As I walked further along the perfume of the roses filled my whole being, till finally my senses swam, and all became a haze of dancing lights before me, and I felt myself being lifted high, high, high above, until at last we stopped. When I opened my eyes, I found that I was lying upon a golden couch surrounded by complete darkness.

Here now were the Heights that the soul had aimed for, where now he must build his house and set the fire arming up the chimney, or take the consequences. Where he would die a never ending death, the heights and depths lost to the mind, all merely jumbled

thoughts and pictures. The mind completely split by the inpouring elements that were given a channel, and not controlled.

As the understanding of this came to me, I suddenly saw encircling me, the twelve gods seated at desks, as if they were teachers marking my examination papers. Here was the final test where the heart purpose would reveal its true light. As I watched, they passed papers back and forth, consulting each other on certain points, nodding or shaking their heads at different things that they were not sure upon, until at last all the papers were returned to the leader of the group, who gathered them all before him and then stood up.

In a voice that held of no emotion he called me forward, and held out two scrolls before him and bade me take one. I did so, and at that moment I knew I had chosen right. Then it was as if the whole of the heavens exploded around me, and I heard a voice say,

*"You have passed; but if you had failed you would have had to return to Earth to put right the states within you that were still needing of light. But now go on, for you have earned the right of entry into the Garden of Eden. Souls will once again seek of this place, and slowly will the Garden be filled with life again, but this time with bubbling minds, and laughter upon the air, such as was never known before."*

Then in a voice far stronger, which seemed to echo across the whole expanse of the heavens, he declared,

# THE PATHWAY TO ETHEREALISATION

## The Journey of the Solar Ray through the Bloodstream

(This magnificent lecture excerpt was an especial introduction delivered on the 8th December 1963. It is part of THE SAGA OF TIME series being part of the sub-division, The Establishment of the Northern Heights, which is advertised on page 10. All these lectures were delivered in the Sanctuary of the School of Universal Philosophy and Healing, the Instrument being Mrs. GLADYS I. SPEARMAN-COOK, the channel of the Masters and the Voice and Pen of THE LORD OF THE FLAME, of the CENTRAL SUN. Editor).

**A** GAIN I come amongst you: I seek to lead you, guide you and to help you to find your way along the dark road of investigation. Many of you are afeared to go along this road, only because there has been erroneous understanding placed upon this wisdom. Once there has been a pioneer or a scapegoat who is prepared to investigate, there is no need for any other to fear: the one that is investigating is the one who takes of the buffs and the blows; they are the ones that have to be prepared to enter onto the dark road, without any knowledge or understanding, make investigation, and then put right those things that have been erroneously placed. Once it is brought to you, and it appears logical, then all is well; but it certainly is a road whereby you must be prepared to face yourselves; be prepared to look into the depths and understand them.

This is going to be most necessary in the Aquarian Age, for unless man blends up the two vibrations of positive and negative and finds the Solar Ray, he will never be able to help himself to meet the relativity that is being demanded of him. He has to retrace his steps, and bind up his life so that he can return; otherwise he is going to find himself going down and down into the depths. This is no good, and it must not be allowed, otherwise the darkened races are going to take over.

Man must go on with the stance and the preparation that has been made for him: he must find the way to become more etherealised; not more calcified, but more etherealised. So once there has been one prepared to do this, and to do it to the extent they have,—which of course is taking the whole of the next 13,000 years in their stride of two years,—then the breaking open of the New Road has begun. It only needed one; one who would have the courage to take this.

Even we did not know whether it would mean life or death, and once they were prepared to step onto that road and go through the Initiations—as painful as they have been—they would then open up the road for all men

### Concluded from Page 10

*"Now go forth and claim thy heritage, the heritage that awaits all who strive upon this path. Go forth, and with the glories of the Heavens at thy feet, claim the victors prize, the splendours of fraternal life!"*

Then I saw the Gates of Paradise open wide and angels sang in exultation and were joined by the whole of the Heavenly Hosts, echoing and re-echoing across the heavens of the wondrous achievement that had been performed that day, leaving the words ringing gloriously in the mind;—

*"HOSANNA IN THE HIGHEST!"*

For the Cosmos as the Promised Land had been reclaimed by one small soul, who as Moses before, had struck the rock and brought forth the stream, and set the commandments for the Age. But unlike Moses, had not failed at the crucial moment, but gone on in all faith, and

to tread in peace and comfort: yet they, too, must be prepared to face self. But there is no need to go through the extent of that which the first had to pass through, for all sorts of experiments had to be made, one after another, until finally, the last was the complete renunciation.

The majority of souls have to accept the renunciation of earthly things at the final; but then, it will not be until the end of the Aquarian Age that man will welcome the unity of the Buddhic plane: he will be so totally changed,—if he goes on wisely,—that he will then be prepared and changed by the investigation and the enquiries that he will automatically make.

*(See the plate above)*

This shows the red and white corpuscles, but also it is representing the bloodstream with the red and white corpuscles going through. But does this not represent the serpent swallowing its own tail? You are always talking about the serpent that is swallowing its own tail, but why is it the serpent that swallows its own tail?

It comes from the heights and it goes to the depths, and in so doing it receives from the pituitary gland the hormones that give man life: this

so was now able to pass through the Gates. As she did so she saw all around a glorious panorama of indescribable beauty. That which she, as Merope, had created through her struggles below, and which would, by her efforts, now be born within every man.

For she had fulfilled her Covenant an hundred fold, and by her Will had created something that could never die. For as the ages roll by, will legends spring up of the Golden Goddess who graced the Earth with Her presence, and left behind teachings by which all men could regain the Royal status of their being, that which had been lost at the beginning of Time.

**IMMORTAL TEACHINGS BUILT FROM HER BLOOD THAT SHE, MEROPE, HAS LEFT FOREVER AS HER TESTAMENT UNTO ALL MANKIND.**

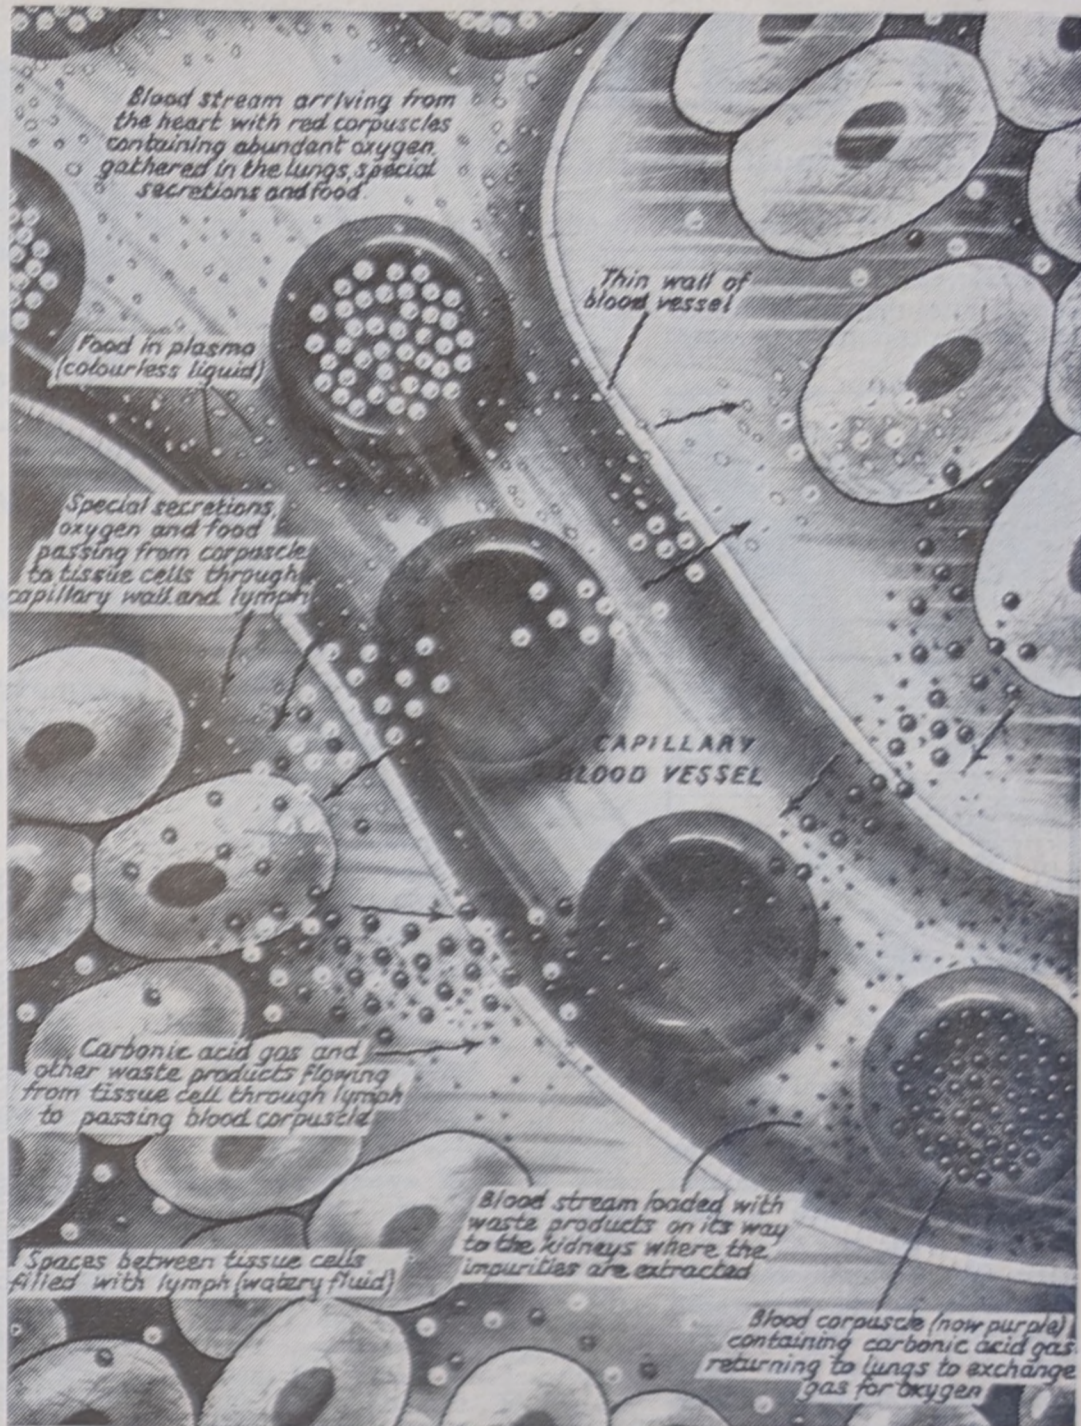

### THE PROCESS OF OSMOSIS

**T**HE enlarged section of a blood-vessel above shows how new life is supplied to body tissue and how the used up products of life are taken away. The means of this give-and-take is the Lymph fluid and the action of Osmosis. The Lymph should permeate freely through the blood and around each cell of the body.

If, however, the lymph is choked with waste and food it is equivalent to congested city traffic, all is slowed to a standstill and conditions become ripe for bacteria and virus infection, and body cells rebelling into cancerous growths through loss of central control.

Previous articles on the principle of Osmosis were published in February, March and April 1961, in addition Readers should refer to "The Wonders of the Living Temple" of March 1962, copies of which are still available price 2/6.

Reproduced from the book 'The Miracle of Life' by kind permission of its publishers the Odhams Press Ltd.

takes down through the bloodstream the Powers of Life, and it takes down the Solar Ray. The Solar Ray, in going down, gathers from the whole of the body, all the wealth that the tribes over all the body have been gathering, or you merely give only the waste of the body. It is through the spleen that the white corpuscles are manufactured and go all the way round the body, gradually gathering in the wealth, which turns red.

Now what you are seeing in the plate are the little golden balls of light that can be thrown out from the corpuscles to the passing tribes, which would be the glands of the lymphatic system. The glands of the lymphatic system follow, side by side with the bloodstream, and they throw out all the little golden balls of light, and at the same time gather in the wealth. Now this is taken through the walls of the bloodstream, the veins; it does not pass through in the way you think, having to make holes; it just passes through.

And that is the true understanding of Osmosis. All this links with the knowledge you have been gathering, and this is where the hormones come down to the lower part of the body. But there is something else very important.

You have been learning about the Pole-Star. Now when you are able to bring all these Chakras into a radiant glow, the 7th Chakra becomes the pole-star, the pole-star of the soul where it is able to draw in from the heights down into the depths, unseen wealth. But it would be according to how the soul has created; whether it is mentally disturbed, unbalanced or balanced, would it draw in through that upper gland the passing creations similar to itself.

So one who is mentally unbalanced would naturally draw unto itself those of a similar nature. Those who were

balanced, or of a certain category, would find themselves linked up with a certain category. If you are thinking in a certain direction, you are bound to draw to you those of similar thought, and you are going to find yourself invested with these creations as an ellipse cutting through the cone of your extension.

This is proving to you how important it is for the soul to build up its mind in a solid determined way, for where it lives in an airy-fairy unbalanced state, it is bound to bring those creations from others or create them in others. While you are firm and determined and looking along the road in a creative way, you are bound to radiate those vibrations to others, and take them up from others. All this is a part of going through life with a determination, and being able to find the right road and the right purpose.

*(A plate was shown of the blood circulation of the body)*

Now there is the bloodstream circling all the way around the body.

There is the serpent swallowing its own tail; for as you bring down the hormones from the heights and they come down to the base, they are then broiled in the apparatus down below and sent up again—not as desire or sex, but raised up to the heights as mind-light. Thus the serpent has been swallowing its own

tail; then he sends it out again as further hormones down into the depths.

Now you have some very good idea of what the serpent swallowing its own tail may mean. If you have that bloodstream full of light, you can understand that you are going to have a radiant aura from head to foot—radiant with life. But you can only do that by taking into the bloodstream of the golden light which can only be done by blending together the magnetic and the electric vibrations and producing the solar light.

The solar-light is the points of awareness; seeing the points of deduction; and as you see the point of deduction you give yourself a radiant glow. Then you are able to get exhilaration by seeing the wonders of the wisdom; not merely absorbing it as a lot of knowledge, but bringing it into your own being as something creative; a purpose, a radiance, and making an effort to radiate yourself.

This is the way to bring forth the Solar, but you will never bring it forth while there is a defeatist attitude or an attitude whereby you fail to go forth. You must be prepared to go forward with all courage, driving in every way to put everything into operation, and be prepared to risk things so that you, too, can play your part in helping mankind. It is not always the sure way that is going to help you.

# VULCAN

Continued from the Back Page

forth as the royal Grace of the Almighty Shaddai; that of the El Power, the wealth of the Eternal Fire, that which blends and synthesises the pitchblend.

(See text page 16, col. 5)

Then the Fiery zeal will split and explode within the creator infused, thereby strike up the super-perceptory principle that will make the man a god.

(See plate in col. 2)

Here is the twenty-two, the number of Pi, the two worlds supporting the heavens. The Father's Kingdom now being established in the world of men.

This is where Gods and men will now walk together; grades of beings inter-blending by the perceptory principle. For that will be their consciousness drawn forth from the 12 and 7. That which went forth as raw fire, and came forth as Fiery Light. To man in his present state, used to noise and din, this would appear extremely boring, when in reality is what he is really seeking. The reason why he seeks isolated country spots at times, to rest his tired brain. Wracked and stormed by the mad rush of the illusionary world.

## Man's Atomic Seed

AS man enfolds in on every rising plane, his response will grow greater and greater. For the glories and wonders that unfold to his changing beam, will fire and stir his zeal. Fill him with zest and purpose never known before, thus the unfolding man into the uprising god. A process that is slow, but not so in the full understanding; that is, securely slow but sure.

For now the true atomic rebirth of life is really going to begin, man delving deeper and deeper into the mystery of the atomic, as the very depths of BEING. With those who have become aware of the truth, bringing rebirth to the lesser. With glories and wonders being revealed of worlds where light was once truly real. Where such glories became the prize of men, now the heritage of present day man, and the unfolding of the 666 into the perpetuum of immortal life.

That, for which man has ever been seeking, the secret of

(See diagram in col. 3)

the Philosopher's stone, the way that the camel could get through the Eye of the Needle, and find the secret of Eternal Fire. That which SHE fully understood, but lost when man took over of life, and dragged her down into the dust.

Now, where man through his illusion thinks he has been bombarding the moon with a missile creation, will by reality now find himself bombarded by the Vulcan Fire. Where states of golden sensitivity will begin to come into birth, through the enfolding polarities of his

depths and the heights of outer space.

For as man is fired he will be drawn up by the electro dynamic force now revolving within him, from the velocity of his two martian polarities. The revolving perpetua mobile between heights and depths, his sexual capacity and mind receptivity will, in its increased revolution, raise his frequency up higher and higher.

(See plate in col. 3)

It is through man's own atomic seed, that he will master the mystery of Space; raising his frequency up to the equal of that which he seeks to penetrate. Therefore since he has become a recipient of such witness, by and through the beginning of Time, and Ages of experience, he, by illusion in creating missiles, has prepared his own path of entry.

Now he must by such creations, embrace the other side of the picture; for this he built up in the cosmos, and in his own etheric creation. Hence now he must awaken to the unfolding etheric, set into motion by Merope. For what was received by the Gods as man's state of illusion, was transformed by her, into a state of reality. Thus it was man who really set into motion, all these states of changes. For the Scapegoat had to find the antidote of Spirit, to counteract that of the illusion of matter.

It is the heights that have to bombard man, not man ruthlessly bombarding the heights; but he, by interpenetrating by his mind, the wisdom of the Occult Laws, would raise his frequency and rise up into space, as an ariel born sprite. His true difficulty is, the discarding of his earthy ballast, for man wants to be the owner of two worlds, the old and the new.

THE FIRED ZEAL

ONCE man has mastered the beast instincts in his lower nature and become fired with the Zeal of the Sword, the Royal Fire, then he will go forth to establish the glories of the Father's Kingdom.

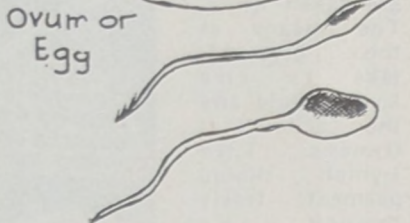

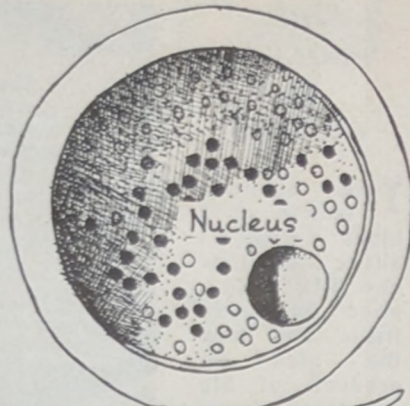

(See text in col. 1)

THAT IS NOT THE LAW, ONE HAS TO BE DISSOLVED IN, FOR THE OTHER TO BLOSSOM FORTH.

(See plates on page 5, cols. 1, 3 and 4)

Now man, by tampering with such velocities, has brought about his own renunciation, for while he has been advocating such beliefs, he has been enforcing his own internal changes. All he is left with, is his mind of past memories, which are going to be HIS crown of thorns as the changes take place.

Not a God upon a cross, but man upon that cross.

Spermatozoa or Male Germ Cells

(See text in cols. 1 and 2)

make that investigation, but could only do so by the erroneous approach, because of the threatening hand they held above him, in the fear of the damnation of his soul. Thus has been the means of being their own death knell, for man by his investigation, had prepared the way for the Cosmic to break through, leaving orthodoxy in their own luna waters.

For the unfolding truth cut down their own tree, leaving orthodoxy with stump and roots, to decay in the hell and purgatory they had advocated. This, as an Occult Law, is the Law of Relativity, where what has been, must meet its polarity and bring forth its blossoming branches.

All is frequency, unfolding frequency, whichever way you go; if born of evil, it produces evil, but beware of the

the twelve Gods of the Hierarchs.

Those sending down to the earth as the manna of life, the food to feed the soul, through that of his natural generative causes. That which contains the Divine Fire in his atomic seed; that which gave him life, is now feeding him still, but in greater and greater velocity. With man as the culprit crucifying the God, by taking that Blood as the holy Fire in his seed, and raping it for his own sensory desire.

## The True Christos Child

THIS is the "traffic of men" put into operation by the Moabites as they studied the stars in the desert, and now being fully advocated by orthodoxy in their illusionary religion. But for all that, these are the roots of the soul, from whence all his unfoldment is derived, and if not reformed by the ever changing beam, they hold him down in the evil desires that Ramsey is seeking to make law. It is by such that man is forced into stagnant air, by the lack of expansion ever holding him down by relative comparison, with the dynosaurus state.

But also such that brought the scientist into operation, that necessitated a Scapegoat being brought into action, by the recipients of such unfoldment. Thus resulted in man ever receiving back his own fire, while that now set into motion by the Scapegoat, is purified and of a higher velocity.

Hence his void has been injected by Fire by the raised up Prism of the Intelligencia, causing his void to become alight, and the seeds of the gods in his meninges, awakened into life. Yet the Cosmic Fire that has been saturating the earth, is what man caused to take place himself. By such he placed himself under the ruling of the Gods, for religion taught him to do so by religious adoration. Yet that which has resulted in a raised up Flame on the Intelligencia, by opposition placed to a Scapegoat, that finally brought into birth, that of the fiery propulsion.

That which man now has to raise up on his own mind by the inbirth of such as Law; for by the wealth he has taken and never brought to its true and real conclusion, by polarity in this age of polarities, he must set it into birth. For the Fire now entering, will force it into action.

Man has never yet been Space born, although taken of their wealth, now by having taken it, he is fully aware of these truths in his subconscious mind. But in becoming sophisticated, only handed the wisdom to the fairy book, and built up destructive missiles instead.

For Ages man has accepted Father Christmas as the Christos being reborn into life, with the Virgin and the Solar lord performing their nuptials on the night of the 21st, as the old year and the new embraced. Which in the six hours of that embracement, when the world stood still in silent Space, the HORAI was endowed into matter as the Eucharistical blessing brought into birth by the Prophet of the Age.

This being Merope, she is the Virgin to give forth of the immaculate conception, that which now is to be the saving Grace of the Age. This is the true Embodiment and the TRUE Christ Child brought into birth, that which will be the means of saving the Blood and Seed of the Race.

(See the plate in cols. 3 and 4)

THE CHILD OF THE MIND

THAT born... "as the immaculate conception of the soul, now as the perceptory principle... that which can define as the pregnancy of thought all the wealth of ages." (See text page 13, col. 5). The fruits of Le Ros, the dance of sensitivity, raising the frequency of the chakra spinning as the seminal fires feed the mind. (See text in col. 5 and page 6, col. 3).

## The Christos Blood

FOR as the Vulcan velocity interpenetrates his being through his natural methods of the generative principal, will it set into motion such dynamic changes in his super-sensory system, as to force him to awaken and either accept the situation, or revolt and go blind in his refusal to change. Thus here is where he will find himself in the TRUE chamber of weightlessness, held by the multitude of illusionary figures of the perpetuum of Pi. But this time going inwards in incest, committing a state of sodomy of mind. Whereas he had the clue in his intellectuality, he never dreamt of applying it through his intelligencia capacity. For man has never really investigated himself, to perceive of his own creation; only accepting the Unknown Quantity, by the erroneous wisdom of orthodoxy.

Through them setting such into birth, they incited man to

wind that blows nobody good, for sometimes it is bound to catch up on somebody from the upper polarity from which it was produced; it helps them to become out of fighting the density. This is the ladder that Merope has climbed.

So now the question is, since man has broken through by the erroneous wisdom of orthodoxy, leaving them dead and cold and nursing the dead baby, what was a dead God upon a cross, must be a live living acme of that voluminous Space.

For the truth of the Christos Blood has never been allowed to come forth, for the void in man is none other than the religious space, created by past erroneous wisdom. The Christos Blood that is saving his life, is the inflowing Prism from the raised up Intelligencia of Space through

This is the mystery of the fulfillment of the 22 planes of Creation in man himself; whereby in 1966=22, will the Pluto Ray, symbolised as 22, manifest in true Grace. Every man endowed with the true uncton of being able to open up his mind. And by the mysterium of the ratio of circumference as the diameter of the world's evolving circle, give birth to the true wisdom of the heights through his own inner momentum. Heights and depths have now been embraced by man and his complications, but which by the Scapegoat, has now been brought into a balanced birth.

So now by opening up of the window, letting in of the fresh air, the magnetic must not be allowed to catch this fish before it is broiled into a palatable meal. This is the fiery Neptunian wealth that must not be caught by the black scorpion, the sensory desires aroused in man. But the seed raised up as his elevated frequency to bring that flame into birth as the glories of his mind. As everyman in 1966 is going to be the recipient of the Christos birth, as the true mind unfolding of potential light. Wisdom born from the inflowing of the Cosmic Waters and the fiery intrust of Vulcan, in the November 1965 blooding. That in the month of Abib, April 1966, the month of green ears, he will send forth of shoots from the Horai blessing, to receive the inflowing rebirth of the Equinoctial embracement. For then the Solar embracement, none other than the Intelligencia Arc, will cross the equator and kiss the earth, before it begins to make its true Southern solar rise.

But this time with riches never held before, as man is now awakened unto true reality, by the unravelling of his complications by the Christos Scapegoat. Thus for the first time man has been emancipated by being united with the heights through pure and holy wisdom. Hence every man is Uranian born, it only awaits his acceptance of the indoctrinal inflow of the Spheres, for him to rise up out of his slough, and blossom into mind light. This has been the result of the power of the Intrinsic Principle, that of the point of Cosmic issue.

**The Hall of Mirrors**

ALL this accounts for the defaulting missile ascensions, and the abortive results in those that go forth. For man has to learn that their theories are illusion, and merely a reflection on the Hall of Mirrors.

Space is space, a state of nebula inter-lacing and inter-embracing Chain of Causes. A conglomeration of etheric Words, awaiting their hope of rebirth; thus the Power of Etymology, the Source of the WORD.

That which has, by Ages of man and his mind, been revolving in a state of continual perpetuum. Which in itself makes man an etheric encyclopaedia, a recording archive of the

**Ages. Not a soul to be born and buried in either hell or heaven, but a living momentum of revolving life from heights to depths.**

But by him cutting off the heights through embracing their holy Fire in sensory delights, he chose the road of death and rebirth, with religion adding unto as a final death, by stoning his Void and cutting off the final inflow.

(See the articles on: "The Temple of RA" in May and July 1965 and "Creating the Flame in the Void" in May 1965).

Now this has been opened up by the expounding of the mystery of Pi, by the Scapegoat treading the path of Occult wisdom, opening the way for the Neptunian Waters to flow in without any fear. For she as the master of Words has now become the born Psyche, that of Spirit ascension.

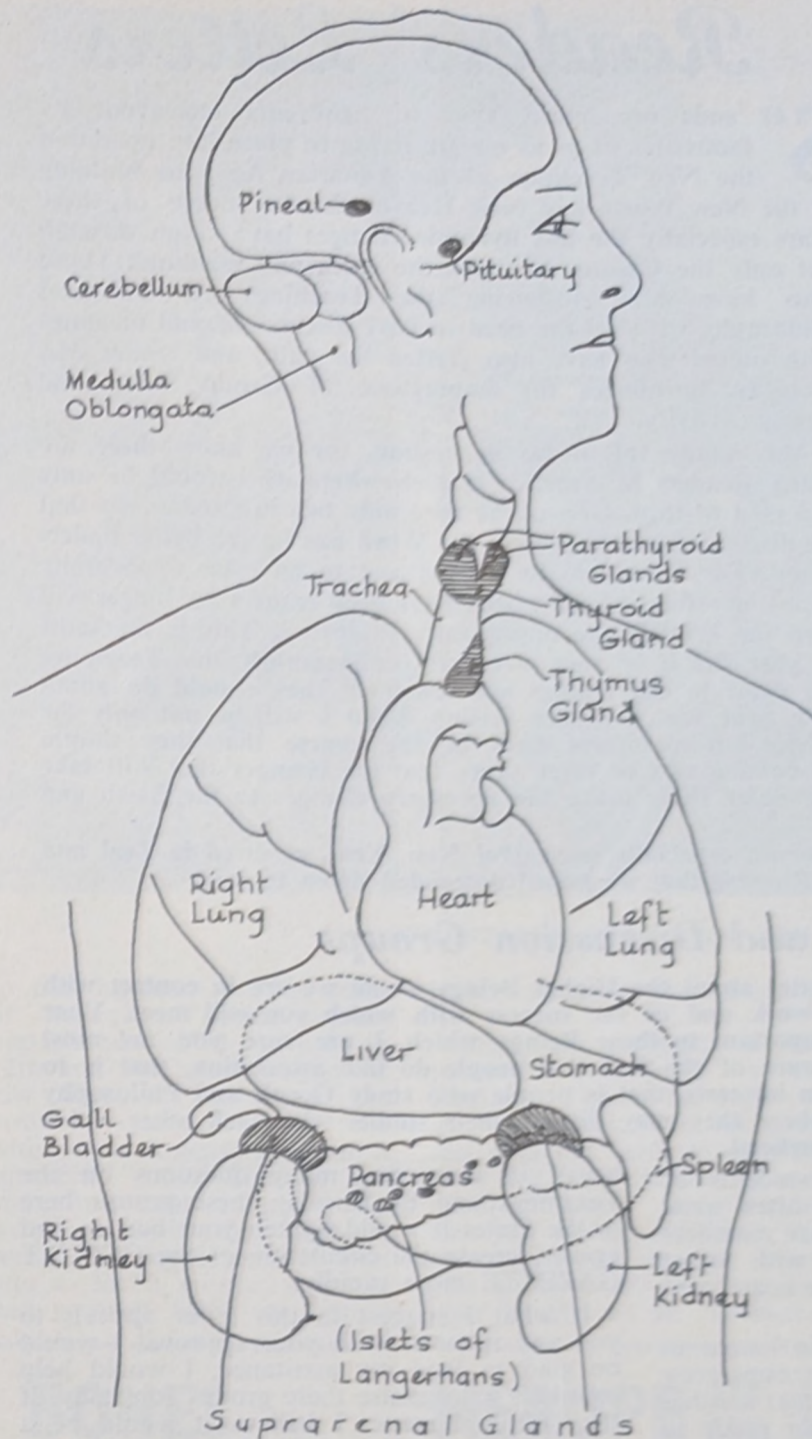

For Spirit is Word, and Space is the Academy of the Word, which she has embraced by her raised up frequency. Thus the Prismic motion of outer Space, that is now a revolving immensity through her unification of Words, is all the outer worlds as planes of being, being brought into one whole Cycle of Unification.

Thus the God descending to embrace the Virgin at the Northern heights in the Horai hours of Space, is the Seed of the mistletoe, the spiritual atom of life coming forth to inherit man with renew life.

**The Sperm Seed of the Gods containing atomic Fire, that which, by contacting the realms of blended vibrations, can bring unilateral unity of peace. For Earth was intended to be the Realm of blended vibrations, a City built to manifest the Father through his labouring son. Therefore Spirit is that brought forth out of illusion, out of the vacuum of density, which in man is his sinus, turned into a Saturn state through his desires of the flesh.**

When he can clear this by raising up his desires, he will raise his testes up from the lower to their allotted place in the heights. Where as the pituitary and lachrymal system, can bring into birth the cherished Perceptory Principle. Therefore the immaculate conception, is the true birth of Desire, where, when man and the world are in true perspective, will he be able to draw upon that embodied Embodiment of the Piscean Age. That which was lost and never embodied by man, but buried into the Desire Body of the world.

THE DUCTLESS GLANDS

**Renunciation through Initiation**

THUS the basic of this Desire, that this great goal can be achieved, is renunciation through initiation, to prepare the soul to rise up to the heights, and bring the flaming mind into birth. For the Pineal gland, the pinnacle point of the seven, is the silent norm, the crux of man's being, and is a replica of the earth.

(See the diagram above)

Yet also at the same time, the unfolding lotus as the replica of the heavens. This has unity with the heart and the sacred heart beat, for there, as the tabernacle of the Arc, is held the sacred fiery seed. That which is the beginning and end of the soul, through the fiery plane of suffering; and which at the close of its day, unites with the unfolding Norm. For this is where the soul builds its godhead, its divine ascension to the heights.

So as the Scapegoat unfolds her Seed of the depths as the queen of the South, and raises up her frequency of the spinal ascendancy, will she, as she carries that seed up to the heights through her heart purpose, open up her Lotus blossom, and bring yet greater Word into the depths. For her work, as all Prophets, is to perceive the problems of man, fish in the Waters and catch the Whale, to bring the Void of the Earth into new life. Not many are able to stand the task, for as Moby Dick, may lose their leg in failing to find expansion. But Merope caught the Whale and held him fast and in disposing of its blubber, is now, through the Perceptory wealth, expounding to man of its atomic wonders.

Thus found the key to immortality, to unlock the archives of the unfolding Year, where the mysterium of Pi is going to be revealed to all who are ready to embrace it. For as the ratio of the length of the circumference and the diameter of a circle, is the complete circling of the

serpent, is it also the expansion gained therefrom. That which brings the raised up Arc, and the lintel of every human mind. The capacity of every soul to become a Hercules and bring the fire to Holy Fire, as the raised up flame of the mind.

The Dionysius, who as a god has trod the grapes, and gathered all in his travels. Thus must take the new journey as a Phaeton to fire all into action and rebirth. Thereby carry out to the full, the covenant made between him and the Father. Then as a Dhruva bring new life to the world, as he embraces the glories of the reborn Space.

**Reborn Holy City**

FOR now, by the capturing of the Void of Space by Merope, and making into a complete Perpetuum, all is Spacelessness. Not the false blessing of Mars that the pope of the black scorpion wealth, tried to instil into the heavenly wonders. But the live wisdom that gives unto the Great Lord of the Flame, the majesty of being the regal established King.

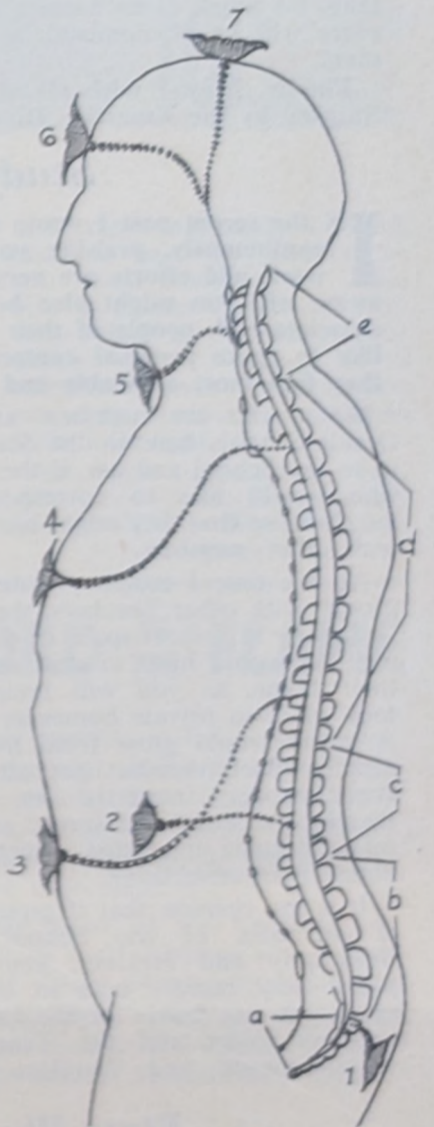

The King of Earth and the King of Heaven, thus the King of Kings in the born Word. For as the Fount to the mouth, the LORD has spoken through a REAL Priest as the Holy Presence of Universal Philosophy.

As Eve did she only foster the serpent, and now, as SHE, does she immerse in the Holy Fire. The serpent captured and brought to heel, that no longer is he the enmity between divinity and woman, whereby she bruises the heel. But with her Lord has she entered back into the Garden of Eden, to be fired underneath his kirtle.

For woman, with all the glories of her seed, has been cut off all these Ages; now she can receive the Fire from the heights by the right of unity between heaven and earth. For the Great Lord of

the Flame, the Generative Source of ALL-LIFE, who resides at the portals of Unfolding LIFE, is the King of all androgynous creation. Therefore as woman raises up her mind, and seeks that androgynous path, will she be fired by the inflowing waters, no longer the whore of life. For everything is now going to be reborn by the jet propelled planet uniting more and more into heaven and earth as the reborn Holy City.

The Kingdom promised to all men, who could unite the 144,000. The blending up of all their intercalaries in unification. The enfolding in of the twelve through the seven pranas of the Spine, that the triad raised up from the base as Mars and Venus and Mercury, becomes the holy Family of the soul in the Eagle, Venus and Mind.

THE 7 CHAKRAS

THEY are shown marked by the "flowers" and numbered 1 to 7, the 7 being ruled by Mars, Venus, Mercury, Saturn, Jupiter, Uranus and Neptune.

Yet Venus-Urania riding into Jerusalem on a donkey, with her Lord and the babe. The child of the mind as the immaculate conception of the soul, now as the Perceptory Principle. (See plate on page 12, col. 3). That which can define as the pregnancy of thought, all the wealth of the Ages; to bring forth once again as the jewels of Ophir, to be the glories of the reborn Kingdom.

Man and woman as the encyclopedia of the Ages and world of Universes of the whole of Time, must now, as unified rhythm of life, become the axis of Generation as the winged Solar mind. Soma Psyche Pneuma. Thus as the LOVES once again now walking the FIRE into matter, thus raising up the planet by their embracing mind and reborn holy Desires.

# Readers' Letters

**S**O ends one more Year of fight and endeavour by thousands of us as we are trying to place into operation the New Teachings of the Aquarian Age, the building of the New World and New Heaven. In the course of these years especially the last dynamic changes have swept through not only the Cosmos but also the earth and mankind. Those who have been following the Teachings of Universal Philosophy will feel the need to have discussions and meetings with others who have also started the path, and reader Mr. Kooistra introduces the importance of Group Study and Group Activity.

May many follow his suggestion, for we know there are many Readers in America and elsewhere who would be only too glad to form Groups, be they only two in number, so that by discussion and argument the Word can be the better understood. For friends to be invited and to have an opportunity to ask questions of those who have been readers far longer will give the WORD the opportunity to spread. This is the most

important aspect of this coming year for it is very necessary to establish the Teachings during the 1966 year. Many will come to our readers and ask what they should do about the Vulcan Fire, and the burning heat that they are feeling. Then it will be not only the time to give them the proper advice but to inform them of the course that they should take. So much is to happen this coming two or three years that the changes that will take place will be phenomenal, as the Solar Fires make the necessary changes to the Earth and man.

Finally, May I wish all of you an especially successful New Year, renewed in Zeal and Purpose by the Xmastide Divine Blessing that we hoped descended down to you.

## Study and Discussion Groups

**I**N the recent past I wrote a letter about the Higher Beings whom we are in contact with continuously, praising your work and of the success with which you will meet. Your work and efforts are very important to those Beings which I am sure you are most aware of. You might also be aware of the fact that people do like association, that is to associate with people of their own interests, that is people who study Occult and Philosophy like to make personal contact where they may discuss their studies with each other which they find most enjoyable and beneficial.

Many who are members and students of Occult Schools here in the States often write in to the School and ask if there are members who would like to correspond with other members, so that they might become acquainted with other members.

At one time I taught privately in homes to groups with other Teachers, these groups grew so rapidly in a short space of time that another member would have to start another group in their home, as you will understand this all took place in private homes as private groups. A group would grow from five to fifty very rapidly. Each member got other friends and acquaintances interested in these studies, thereby the Teachings spread very rapidly and many became interested, which we found far better than advertising.

It is my opinion that if groups were formed of members of the School of Universal Philosophy and Healing, your work would spread very rapidly here in the States also. Again you are aware of the fact that not all members understand the Teachings through correspondence and therefore your mail is

heavy in answering many questions on the Teachings and by forming these groups here in the States it would lighten your burden and again increase the circulation of the OCCULT GAZETTE more rapidly.

If what I suggest in this letter appeals to you and it meets with your approval I would be glad to lend my assistance, I would help members to organise these groups for study of the Occult Gazette. I believe it would be a good idea in the United Kingdom also, to form groups or any other nation. Should you approve of this idea, you can publish my letter in the Occult Gazette as follows:—

**Any member desiring to meet in private homes and to join a group to study and discuss the Teachings of the Occult Gazette, please write to:—Astro-Solar Laboratories, Rt 1, Box 26A, Wheatfield, Indiana 46392, U.S.A. We will help those members in the States of Illinois, Indiana and Ohio to form groups.**

## Plate Illustrations

**Mrs. P. Brissenden, London, S.E.27.**

I wanted to say how interesting I have found April's number of the Gazette but I find the plate on cover mystifying, because it is described as he and his personality and mind—whereas a woman is shown riding on a fish etc. Of course I realise that this is not of such great moment, but some might take it for a misprint or perhaps not give it a thought.

Newcomers to Occultism at first find it strange to see Occult and Mystic pictures and to realise that all parts and details of the plates are referring invariably to one soul. It is not at first realised that each person

is a character of multiple parts, and it is the multiplicity and split states that are causing the devastating in mind and sickness of body. Every one, be they male or female in gender, have their own "family," each having a Fatherhood as well as a Motherhood, whilst the physical body is invariably regarded as the feminine half, the wife, the male nature or part may be referred to in numerous ways depending upon whether his arabic horses—generative powers—were being referred to, or his sensitivity, or mind. It is important to become thoroughly saturated by reading and studying to be able to embrace the simple language common to all races and all minds. (Editor).

## New Understanding

**J. H. Thompson, B.Sc., Healing Minister of the Louis Pasteur Healing Foundation, St. Leonard's, Sussex.**

I have read with much interest the two copies of the Occult Gazette. To me it was to embark upon a new venture, with profound knowledge establishing a true way of development with the higher intelligence. Your Gazette, will I know bring progress towards a better world.

I have been a healer for many years, and I do agree with you regarding the sacrilege of drugs and operations, surely the best and forthright way is healing, through the indivisible sources of the Infinite.

## Death Sting of Papal Black Mass

Dear Zamiaar and Master, Sat., 13th Nov.

**H**AVE you felt the heaviness since 6-00 p.m., Thursday (11th Nov.) and (13th Nov.). I kept asking myself why? I feel that you are going through a period of the "Death Sting" of Papal Black Masses. It's not just you that they are sending the B.M. to but the whole of the O.G. and those supporting it. I suddenly felt that they were not going to hold me in their sleep—like sting into death. During the night (Thursday) to Friday noon I was subconsciously fighting them as a power although no where as strong as you have had to contend with.

Can you not see what they intend to do as perhaps a last resort? The Black Scorpion is the black powers of Scorpio. Sting all the bulls of the earth and the Bull Powers to death and there can be no generation. The bulls are the ones that have to plough the fires of Scorpio into light, especially SHE, Venus. (Later on Armistice Day 11th—14th Nov.)

Why is the atmosphere so heavy with the black death? This is a papal day of their wars of those they killed. So death to those that still live is what the R.C.'s are seeking to achieve. Kill the Bull and you kill the generative seed of man, hence the bull is stung to death by their "Black Masses," since the bull is the one that is going to save the race by uprising itself, and link with its generation the Scorpio constellation. Even sensitive bulls will feel the pull of the blackness. The cows may feel it more than the bulls, due to her being the "Venus" of the bull that must give birth to new life.

Now that wars have been cut off by the powers of truth, the black forces had to find some way of killing off the higher minds that are beginning to find activity etc. Hence they had to be "black masses" from those that killed the sons of woman by their black stings of untruth. Now they reach a time when remembrance is given unto the dead, but instead they are not interested in remembering them, only to sting all the Bulls of the earth to death, for without the bulls there can be no ploughing. Is not the black sting of the Black Scorpion the poison of Papal Death? And what a grand time for them to do it in!

This letter speaks for itself, it very perceptively realises exactly what is taking place in the War in the Heavens. (Editor).

**Mr. C. P. Urbani, Dunedin, New Zealand.**

As a child I was brought up in Roman Catholicism. It was when I was singing as a solo boy at the Jesuit Church of Farm Street that the clouds of doubt first appeared on my religious horizon. An incident at the age of 15 years caused my break with orthodoxy. I rejected Catholicism which I viewed as a theatrical business organisation suited to the conventional pleasant minded. Since that time I have been

seeking truth. It would be true to say that I have a "Pet aversion," to orthodoxy, viewing the majority of parsons and priests as limpets and parasites on the community, the blind leading the blind, and in the extreme, conscious frauds. I know that this is anything but the loving kindness towards these individuals. Fundamentally I feel compassion strongly but I do not find this easy towards those who in religion who have been false witness through machination to the ignorant masses of people.

## Readers' Comments

**Mrs. E. Hedges, Streatham, S.W.16.**

I am very happy to be of a little assistance by distributing the O.G. monthly. I leave them in waiting rooms or trains or buses, in libraries, and even put some in letter-boxes of different streets plus lending them to patients of mine who come to me for Spiritual Healing and they also ask for more to give to their friends—so you see they, (the O.G.) are spread widely around South London.

This is the Pioneering Spirit. Amongst our readers we have a devoted core of enthusiastic pioneers who are channels for the special distribution of a number of copies each month, ever seeking to be led by the Spirit. If there are any more who would like to do the same they should write in to the Editor who will be delighted to assist them and send out the necessary number, anything from half a dozen to a full quire of 26. Editor.

**Mrs. B. Barker, Middx.**

I have just read one of your Occult Gazettes and although I stumbled on it by accident I am thrilled to think at last there was a paper which answered what I was looking for, and I had found it. I could not understand all, but it came clearly to me that my idea that to be a true spiritualist one had to open up and reach out for higher wisdom was right. I am a very newcomer to the spiritualist faith, and although I was sure at last I had found the truth, the truth still seemed to me to be wrapped up in so many different ways I did not know what path to take, all I knew was that some where I would find it, and now I think I am on the right path, although I know so very little. I thought as a start if I sent you my birth date and you could give me a little insight into myself this would make a good point to start from.

# THE FIGHT FOR THE SOLAR LIGHT

(On 7th November 1965 during the course of the usual Wednesday Lecture, at The School of Universal Philosophy and Healing this plate was used to demonstrate how to obtain the use and control of the Solar Light, and how the Powers of the Heights had to be mastered and manipulated in to the Solar Light. Editor).

**T**HE Griffin represents the wild Powers of the Heights that have to be tamed so that they can be unified with the black horses. What you have to realise is that the Solar-light does not just come up: you bring it into birth by drawing down these Powers from the Heights; not stealing them from others, but drawing them from the Heights and wrestling with them; extracting their inner Gold; mastering the Griffin through your own black horses, your own Arabic horses of the depths. All the time it is a state of mastery, which of course, some people don't want to be bothered with, not if they can take it from another.

This is where you truly become a hero, by wrestling with these Powers, and in so doing you get the very inner nucleus of what is being sent down from the Heights.

You draw down the Powers from the Heights that appear as the Snow, but as they begin to work into action they take on the raw state of the Griffin, or of the Wealth of Gilgamesh, who with all his Arabic depths, his fiery horses, drives up to the Heights, wrestles with them, and in so doing causes that raw Fire to burst into Light; and that is the only way you will really get the Solar-light.

Otherwise, if you are a frog and you suck from others you will never be able to handle it, because you don't know what it is and have never mastered it; so you don't know how to handle it. Consequently you never get the Solar-light; it never bursts into light, but ever remains as the raw Griffin power inside you until one day it out-strips you, and you can do untold damage.

Here you see Gilgamesh dancing in and out of the Planes; he had his mind winged and was seeing everything from a nucleus; not merely wanting a certain thing. So every part of the Griffin was captured. That is the point; catching every part of the inner depths of the Griffin,

WRESTLING WITH THE GRIFFIN

so that he then had the point of awareness buried within him; otherwise he was holding 12th and 8th house powers of raw Powers; he had not bothered to master and wrestle with it, and only took in a superficial way. This is the most important thing of all; wrestling with the Wisdom, seeing the depth until it fixes into a slot, a groove, and you find yourself lifted up onto a

higher plane of understanding.

Then you are going to find yourself with Seeds in the Pituitary. This is the way you get your ideas. You fill yourself with the Seed, so then the Seed or the Atomic Power could bombard your depths. Can you understand that? But you could not do this unless you gathered all this up into your heights as an awareness

of Reality: not partly thinking, but you have the Reality. So you then flowered the Void into a greater Light and you were able to bombard your depths. But it must be a complete fullness, because you can only bombard the depths with Solar-light.

The full Lecture then continued and is available to all, price 2/- U.K. or 30 cents U.S.A.

### Ball of Gold

Mr. J. Edwards,  
Portsmouth, Hants.

The date appears to be quite right to acquaint you with a recent experience which I hope may be the beginning of better times for both of us. As you know I am doing my best as a pioneer, but the map you prepare in this month's issue of the Gazette did not pin point Portsmouth. Last Wednesday (27th October) at 9 p.m. without any warning I was confronted with a ball of Gold, a rushing sound all around and the ball exploded throwing out golden sparks, my first impulse was to check up on all things material to find the cause and of course I drew blank in that direction.

In my mind this Spiritual Symbol given to me by my friends of Ancient Days, is for a very excellent reason, and I am quite sure our Principal could put this into words better than I can. Now to something material which I hope you will all think deeply upon. I understand the Occult Gazette in every detail and find no difficulties, but those I come in close contact with, have a fear built into their minds by modern Education methods, they fear for their livelihood and that of their families.

Not without cause, the Church and State are all powerful, going together in all things, as we have just witnessed by the speaking in two tongues of Mr. Wilson and Dr. Ramsay—Force and Peace. Very few of us can build up our internal systems to withstand all aggression and be without fear.

Mrs. E. H. Brown, Scotland.

I have been greatly comforted by your corroborating of the "Secret Doctrine" teaching that the future children will be 'mind born' and your emphasis on the dangers of drugs and operations.

Words fail me to comment on the Great Eagle's healing column and all that it means, but there must be a host of people blessing you.

## WEALTH IN THE BONES

(In the course of a lecture The Lord Maitreya gave over of this wisdom how man through his feminine labouring personality, should bring forth the ancient wealth that is within his bones. There are not many who have not by now heard of the story of Cinderella, though not all realise that each man has a Cinderella within his own makeup. This is the story of the everyday working consciousness, the Martha side of the Mary-Martha duality that has to by zeal drive enthusiasm ever to keep the fires alive, dancing the activity in constant query and question, stimulus and eagerness, forcing the lower consciousness to rise up to the heights the weaving awareness that the lower Martha side of the mind creates. Here there is much needed advice and direction given, all of which should be very helpful to the student seeking. Editor).

Where is she going to find all the wisdom? Where is she going to find that which is her past?

**I**N the marrow of her bones and the coccyx of her tail and as she seeks, she draws it out through the action of osmosis. All is drawn out by the action of her mind and if you do not seek it will become diseased bones. As Martha makes up her mind she has got to draw out that depth, which is drawing out of the Leviathan, she draws it out atom by atom; she fastens the line or hook in its mouth, which she imagines as the leviathan in the depths. She does in such a way thro' her mind, through osmosis she draws out the marrow in the bones coming out through the knee joints into the blood line. That is why there are so many suffering with varicose veins and congested states of the veins. Drawing out that wealth from the depths and carrying it up to the Heights which of course is all the wealth in the marrow of the bones, unified from depths to heights. Once you set up your mind the Martha there begins to work and she plays out the line back and forth.

What is there, I have got to find out?

And then she begins to draw it up from those depths. It is what is in the marrow that is being drawn out and so you replenish the marrow in the bones by the feeding by the blood. You do not just take it into the blood and leave it like that, it has got to be drawn out by her, put in the blood, and then she races it round and round, then it feeds the mind. As she draws them out with her mind gradually it dawns upon her mind what she has there in the depths, and then she races it up to the Heights and by continually racing it round and round, she sets up a frequency in movement that it slowly dawns upon the mind more and more, bit by bit, the very intensity of her depths.

They are the illusionary of what is the Reality in the heavens and it is by that then that the depths make polarity with the heavens and draws down the secret of the spheres.

That is why everything is united, there is nothing independent as it were, every thing is interactionary movement.

Man does not want to labour, man does not want to discard the lower states, which are only killing him. Yet he has got to move on, he cannot just go on taking the Powers and not transforming them into the greater propensity. But this lies in the depths of every soul, male and female—but the male has been receiving the Power from the Heights, now the female can receive them too.

Now she can reach up and lay under the Kirtle of God, once she has found the way through the solar light to get up to those heights in her belief as the Virgin. Vesta, the Virgin, with her lamp well trimmed is standing before the Fount.

## MEROPE AND THE LORD OF THE FLAME

**T**HIS Age is of Aquarius the opposite to Leo, and it was then some 13,000 years ago that man fell, "stung" by the serpent of lust, the seminal fires. Until the Fire was retrieved, and raised back to its rightful Mind plane of manifestation, man would continue wallowing in the animal pit of desires and the Holy Fire desecrated.

Gladys I. Spearman-Cook long knew of the necessity of this, and came down in this life to lead all those who could raise up the Seed to its rightful sphere of manifestation. To prepare to do this she first had to "bore" through, and unify all the lives since the Fall, to get back to the status of Being that she had been, awakening the ancient Matriarchate wealth, bringing all into Oneness.

MEROPE was then her name, the Goddess from Venus, who had come down to guide the Earth and be the pure Divine channel for the Holy Fire of the Father to descend and "fire" the hermaphrodite Loves, the matriarch race, to stir them out of the inward inertia that existed.

It was then She fell into the lunar pit murdered by those who had taken of the Fire and had not used it as taught. Merope was ruthlessly trapped by these sons of the GOD Fire who had used IT to turn all to delight and desire, until the DIVINE VIRGIN, weighted down by the mire of those around her, She too was trapped by the rising waters of desire.

She, who had been the Instrument to give birth to these sons of GOD, the Mother of the Human Race, alone had the key to resurrect the FIRE once again, as soon as the Polarity Age to Leo came into being.

So when Aquarius came all was set, for her gigantic task was to raise the Fire from the depths to the very Heights, rescuing IT, the HOLY SEED, and restoring IT to the Fatherhood. Thus she so stimulated and raised up the vibronic frequency of her mind that she was able to awaken her own god life in her meninges, the 12 gods, who as the microcosm can attune into the Great Cosmic Lords, the 12 Hierarchs.

This she did, but only after suffering from the same rapage

as in her original day, by the same males, the men of Pibeseth and Aven, who dragged the Goddess back to the serpent pit of animalism. But She successfully fought to the very last strength to uphold the Royalty of the SEED, turning all her mind on the Great Lord of Scorpio through whom the Holy Fire is channelled and ruled, that she earned the right to be protected and overshadowed by the GREAT FATHERHOOD whom she by her belief brought into birth, as well as the 12 Hierarchs.

Now THEY are directing the Earth and its density, through her as the sensitive Transmitter of Their VOICE, who is the Pen for the Divine WORD to go forth. Her great Divinity has been restored and now as MEROPE the Mother of the "sons" of earth she has blended her matriarch Fount with the wealth of the greatest heights, the Central Sun, the Lord of the Flame, the Lord Maitreya.

It now rests with those who have treacherously tried to destroy her, to glorify Her Name and Her Works, and the FACE of the Central Sun that she manifested to the World. She now as the uprisen VESTA, the acclaimed wife of Vulcan, directs the destiny of the Earth guiding all those who follow her, bringing the Earth to become the Radiant Ball of LIGHT, through following her road.

THE WAY OF UNIVERSAL PHILOSOPHY.

## The Great Mystery of $\Pi$

This hitherto unpublished article was especially directed through the Pen of Gladys J. Spearman-Cook by the Lord Maitreya, the Lord of Central Sun, the unified Spiritual Wealth of the Cosmic Hierarchies.

AS the Great Winged Solar Fire, the glory of the Flame IS this mysterious wealth. Twenty two over seven, as twelve, seven and three buried into the heights. That of Millo in its centripetal and centrifugal winnowing of the planes, with earth  as the outer construction, where HERE and NOW is ever involving and evolving life into heavenly formation. Therefore the ratio of the length of the circumference, and the diameter of the circle is as the axis of the earth, unto the spinal axis of man. The outer world of earth is the complete circling of the serpent, and the expansion gained therefrom; that which brings the raised up lintel to keep the Arc aloft, as the raised up mind. The capacity of the soul to bring the Holy Fire into birth, and uphold it as the modern Hercules, to dance the joy of rebirth. He who can master the pit and the magnetic depths, thereby go forth as the winged Archer, to make the Ariel flight. A Dionysius, who has gathered all by the treading of the grapes, standing now with the fulfilled quoit as a completion gained on the first round. Whereby now he must take the new journey as a prepared Phaeton, raise the horse and wing the mind, to fire it into action. Then to revolve the world as a Dhruva, finding masterhood as he goes, raising all up into wisdom, blazing a trail of golden light. (See the plate below).

### The True Flame from the Fire

THEREFORE to understand of the mystery of Pi before we start our enquiry into its Occult depths, let us perceive it as stated by man, in his mundane reckoning. It is symbolised as  $\frac{22}{7}$  which in its division is  $22 \div 7 = 3.1$ ,  $\frac{22}{7}$  which when you add the recurring factor of the circling of the length, becomes  $3 \cdot 142857$  in its factor of six. Then when repeated on a higher plane, repeats it once again. Thus would be  $3 \cdot 142857$  (142857), ever infinitum, until by the triple quantum you have the sacred mystery of the Beast 666.

### THE CONTINUAL INTERPENETRATION INTO THE DEPTHS, TO BRING INTO BIRTH THE MIND FLAME FROM THE HOLY FIRE.

Therefore this is the mystery that Vulcan has come to tell, as it crashed into the Corona of the Central Sun, thereby touching off the Scorpio Constellation with the glorified wealth of the winged golden mind.

(See the article "THE HERALD of VULCAN" on page 10)

Hence Vulcan, the great Master of Martian Fire, was striking a pitch covered anvil with a hammer, producing pitch covered sparks. Mighty dynamic Fire enfolded with wealth from the mysterium of outer Space.

(See plate top col. 5)

As the Comet swept across the sky, Vulcan drove his mighty Power all through the vast Universe, for he is the Lord of mighty will, that came forth to fuse the worthy. Atoms of glorious rolling light, dancing merrily everywhere, seeking to infuse the courageous and wise, who were ready to start the new journey. The road of building the new Universe, a City of heavenly glory, a world of Truth where all men were one, yet individual in their calling. Men, who were not afraid to meet the mysteries of life and carry them far and wide. Those who were quite prepared to seek deep into the unknown furrow.

For this is the road of tomorrow, for as the Universe completely builds anew in the new prospectum, will new ways and means, new rules of life, take over the council of purpose. The frequency far above the world of men, and even now unto the Gods, calls for remote skill that the direction is of the finest.

For all Power will be coming from outer space, nothing of the old is there; for this was the only way to clear away of the inborn stigma of the black past.

Impregnation that was deep and rife, held the whole Nation in its grip, thereby strangling life with its death destroying evils, and left the world lost to truth. Old blood that could not be changed, became the blood of all, that none could wing, dance or sing, they were rooted to the earth.

Such evil was the outcome of the Black Ages, that grew more mighty with every impregnation, till finally they ruled the gods themselves, and saw no light but their own. Hence a violent purging had to be made, and Vulcan took over the task of performance that the work could be fully (See plate on page 5, cols. 3 & 4) fulfilled. Yet his mighty infusion will not be felt for some considerable time, for its vast and mighty atoms of light belong to wisdom far from the present understanding of men. But once they do, the whole atmosphere will revive and raise the status of being.

Yet all is changing into its jet propelled creation, a motion and status that is in itself, dynamic in its reaction. So even here new life is being born, complete and remote from all past creation. Therefore all who enter into this world, must now become pioneers of light, that depths untold can be brought into the fold of unification. No longer the old sluggish way of life, but brisk dancing beings, those

who live by heavenly infusion alone, the heavenly bread of life. So man has now got to become more whole-heartedly turned upwards towards the greater light. No longer seeking for any schemes that can be inveigled for their own possessive designs.

For Vulcan as the infuser of life, will take over the mastery of Creation. Thereby infuse the Scorpio Fire with his fiery

action, thereby bringing internal zeal which can bring its own active radiation. To what extent, is the problem of all men, for is that not their prerogative of creation?

So now the way is set for dynamic changes, that only the few will respond to. Yet the 144,000 that will set the path for the unfolding road; driving the issue, making strait the gate, for all men to follow. For this road is a path of brave and honest souls, those set with zeal and purpose, completely reverse to what has been, and the leeway to Utopia.

Therefore, the rich and selfish, covetous and righteous, will not find grounding in this coming world, but enter into a vortex of unbalance, that of a state of weightlessness. Like the raven sent back and forth by Noah, will have to try and change their gait, to return as the reborn Dove. Then learn to find a footing in the world reborn, for the vast changes set by Noah are now of the

world into atomic life—3. A state of winged Solar Fire, no mystery to the Egyptians, Chinese and Babylonians, whereby a perpetuum is now established and fulfilled for all time.

The depth of this has affinity with Vulcan, the mysterious Planet of Light, a creation that holds the secret of Fire, that can infuse either of death or life. For the sparks that come forth from his pitch covered anvil, are all covered with pitch, the secret lying in the Solar Fire, melting it into infusion. Where it so binds and blends the recipient, that they are bound for all time.

Therefore with its entry into Scorpio, the scorpion sting would drive it into action. Bringing the movement of the Elements into fiery creative action. Once set into revolution as the revolving serpent, we now find that the serpent of old, born out of the Adamic Dust, is now recapitulated into true creative life; the full momentum of the revolving mobile.

This is where in the rising world, in its jet propelled fulfillment, that in it touching frequency after frequency, it polarises worlds and universes below. Hence the possibilities that lie ahead in the world of unfolding Golden life, are now stupendous.

But as a world of zeal and creative intent, not self and possessive motive; but life in its true god-like purpose, bringing back the Garden of Eden. Thus all life crowned with heart purpose, a motive only known to the gods, where cloying matter is a curse, for it destroys the Ariel freedom. (See page 12, col. 1)

Now the most important inception on this new Road of Life, is to capture the wealth of heights and depths, whereby to establish in the midst. Bring

### THE DESCENT OF THE HOLY FIRE

NOW the FIRES have commenced to descend, henceforth it is... "The Capacity of each soul to bring the Holy Fire into birth, and uphold it as the modern Hercules..." (see text this page, columns 1 and 2). First however must make sacrifice on the altar of the Bull, the earthy desires, and labour to upraise his Virgo intuitive everyday conscious mind, the labouring Martha, here seen so upraised in vibrational frequency that she is united in thought to the enthroned Mary, as the Juno, now led by the perceptory awareness (the peacocks), while the Martian instinct is awakened as the soul is fired with Zeal and Heart Purpose. present Cyclic return. But not by Water, but that of Fire, where mankind are completely reborn.

### The Fiery Zeal

SO here is the mystery of Pi = 12+7+3, where, in the Age of Pluto, the period of bloodless life—22, the Gods of the heights—12 are, through the Elements—7, firing the
