THE RAINBOW

The Mystery of Outer Space

by Gladys I. Spearman-Cook*

(We now bring you the wisdom of THE RAINBOW, that which is feeding the Earth with its Dynamic Wonders, and of which man is capable of absorbing. These words are dynamic, for you are not only having description and understanding of earthy expansion given to you, but you are receiving the Wealth of Outer Space. It is most necessary that you see this, and accept it, for now there is expansion of the Earth and of Outer World Space; man now not only breathing-in and incorporating all Outer World Space manifestation, but being born of the direct Heavens).

HERE WE COME TO THE Logoi of Being, that born from the Divinity of LIFE; Horus as the mighty Christos, begat from the mystery of the mighty Heavens. He personified by the Mother; for the Abstract Deity being sexless and not even a Being, is but Be-ness or life itself. For that male in having a Mother, cannot have a Father, otherwise he is not sexless; thus the secret and mystery of the Immaculate Conception. Therefore, as the First Born, is the Life, the Heart and Pulse of the Universe, and is the Unseen, yet seen manifestation of the Six of the Seven Sons before the Throne. (See diagram on page 3, col. 1). Thus the Second-born is its Mind and Consciousness; first in the Great Intelligencia, and second in man's intelligence of awareness to his Divinity. While the Logos has both potency of Father and Husband; seeds of Virtue and Species. Thus the Great YOD that is feeding the earth, perceived by the Mother, and given life as her Spouse. Thus all becomes the Isotope of the Vega Plane of Consciousness, the mystery of the Immaculate Conception. The Neptunian Cradle as the pituitrin essence, the glory of the Divine YOD.

The glory of the Anima Mundi, the Divine Breath of LIFE; that in its descent into the depths, becomes the bridge of chromatic brilliance that leads the soul up into the glories of light. For it is the mighty birth of the Virgin Mind, one entirely free from the captivity of the personal states of life, thus now radiant with the glorious perception of the divinity. The enfolded Word that blossoms forth as the light through the glories and the wonders of the mind. Thereby, the transgressional power of expandable virtues, that out of their distortion, can bring forth the radiance

THE SEVEN SPIRITS OF GOD

HEAVENLY glories radiant with divinity, the mighty Prismic Arc sent down its beauties to the world below. A mystery of the unseen unfolding inner glories of life, coming forth out of the propensity of expansion. For the seven Hierarchical Apostles, the unfolding Divinities of this divine beauty, in sending up their adulation to those Heights, are watering the earth with divine glory. Yet somewhere below a labouring scapegoat is the crucible pot for its mighty magnificence to embalm the earth with its radiance divine.

Editorial ♦ ♦ ♦ The Purpose and Principles of Universal Philosophy

THE purpose of Universal Philosophy is to awaken the soul to its spiritual destiny, that it can become an active participant in the working, and unfolding, of the cosmos. This the Teachings do by bringing forth the Ancient Wisdom in its modern understanding, and gradually leading the soul through the basic Teachings into the deeper mysteries of life, and finally into the super-mysteries of Outer Space. When the soul can reach this stage of unfoldment he will become born of the Pure Atomic Ethers, and will be rejuvenated by them. This should be the ultimate aim of all who seek into the Wisdom of Life, for it will free them from the travails of reincarnation, and raise them into the divine glories of Immortality.

THE "Occult Gazette" is the Voice of Universal Philosophy, where these expansive Teachings of Truth are to be found in every page. However, owing to the mind of man being so limited and fixed by orthodoxy and convention, he will not immediately be able to consciously grasp the simplicity of their purpose. Therefore we will attempt to clarify the Teachings for the benefit of those who have not yet found the glories of the arielised mind.

* * * *

THE two basic principles of the School are Diet and Celibacy. A pure fruit diet is essential if the soul wishes to become a channel for the Higher Powers to operate through them, for the body must be highly sensitised and as free as possible from all waste matter.

If a man is still filling his body with animal foods, he is only taking in of the animal desires. When he begins to seek for something greater, and he perceives that there is more to life than 'just living,' he will start to come away from his animal states and turn to a higher mode of living, which will be precipitated by a more refined diet.

The changeover of the diet should be a gradual process, passing from animal foods to vegetarian, and then finally, when the soul is well versed in the Wisdom and embracing those Higher Powers, onto that of pure fruit.

If an engine is clogged with dirt it cannot function properly, and so similarly it is with the body. When a soul has highly sensitised their body, they will receive direct guidance from the Higher Powers.

This shows the utter falsity of Roman Catholicism, where they have a pope who has taken years to decide whether women should take contraceptive pills, or not! Where then, one might ask, is his guidance coming from?

Religion prattles on about tolerance, and showing the other cheek, when in fact it comprises the most intolerant body of people that can be found upon this earth. We do not hide behind such righteous trumpery, for we openly state that to tolerate all others is wrong. It is our purpose to spread the Truth to as many as we can, and moreso to those people who are following a wrong line of thought.

If a person is thinking wrongly, then it is your duty to do all you can to put him right. It is only because man does not want to accept responsibility that he professes to follow orthodox religion: it is the easy way out, whereby he has no personal responsibility to God; he just leaves it to the dead god upon the cross, and thanks him for his trouble at every weekend, while the majority just ignore him completely.

* * * *

WE teach that God is the Divine Awareness built up within the soul, as he sensitises his body, and expands his mind into greater thought. While he

no greater expansion of the mind. It is this Holy Fire that man has only used as raw sex, which is in fact the divine glory of the Godhead. This has been taught by the many Sages and Mystics all down the Ages, and is a common understanding to all occultists.

WHEN THIS HOLY FIRE IS DRAWN UP THE SPINAL COLUMN AND OVER THE BRAIN, IT DROPS DOWN UPON THE PITUITARY AND CAUSES A NEW IDEA TO BE BORN WITHIN THE CONSCIOUS MIND. IT IS BY THIS THAT THE BRAIN CELLS ARE REJUVENATED, AND THAT KNOWN AS 'GENIUS' IS BROUGHT INTO BIRTH.

For since the Fall, man has ever been in a dual state of heights and depths; conscious and subconscious. It is only by the Wisdom that he can unify them together again, and this was what the higher minds of the priests were trying to convey to them; but not being sensitised, they were unable to perceive this in its true light. And apart from this, priests are of course looking for any reason whereby they can escape from a church that has "gone dead about their ears."

The idea spread about a 'dead god upon a cross' is a complete lie, and only brought into birth by a group of bishops in A.D.365, who thought they could make financial gain out of such a distortion.

* * * *

THE Embodiment of A.D.33 was an embodiment of Power; Christos Light that was captured to some extent by the man Paul, who became the terrestrial Christos of that period, because he held the supremacy of spiritual understanding above all others.

Whoever holds this supremacy at any period, claims the title of Christos. But until now, man had never raised his beliefs and understanding above that of Jupiter; for to rise above this frequency meant renunciation of the earth pleasures, and this man was not prepared to do.

NOW, GLADYS SPEARMAN-COOK HAS BROKEN THROUGH THE PLANES, AND RAISED ALL UP FROM JUPITER TO THE EXPANSIVE GLORIES OF NEPTUNE; THE WORLD OF ART, OF POETRY, AND OF PAINTING, WHERE GENIUS IS THE PRIZE THAT IS WAITING TO BE CAPTURED BY ANY WHO WILL STRUGGLE TO BECOME OF ITS GLORIES.

To do this, Gladys Spearman-Cook completely renounced the earth, giving up all, that she could perform her task; even to the extent of remaining in her house, hardly ever coming out of her room, in order that she could build up a spinning hub of power, whereby she could receive the highest of guidance from those Higher Powers, and then earth it through her pen, in the countless Lectures she has brought forth.

In doing this it naturally raised her high above any other in frequency attainment, and so gave her the right to the title of the 'terrestrial Christos.' But just as important, in raising herself to this divine status, she raised up the Cosmic Christ from the depths of the underworld, where man had held Him by their Fall into the animal desires, and placed Him as the Divine Flame into his rightful place, as the Supremacy of the Arc.

If you are not blind you will have noticed the greater intensity of brilliance of the Sun's rays, and this is the witness to her accomplishment; for He is the great Solar Lord of the Heavens, reigning in all His glory, from the realms of the Central Sun. It has been glibly stated so often by those of

only thinks around food and sex, his godhead rises no higher than his stomach. It is only when the soul cuts away the states of the earth, that he will begin to perceive the true glory of the Divinity.

This is where we differ from the Spiritualists, for any true seeker into the Teachings of Universal Philosophy will automatically find the need for continual renunciation of the mundane ways of life. This, Spiritualism does not advocate, for the vast majority of its mediums are quite satisfied to remain upon the psychic plane, and are not prepared to make that renunciation necessary to touch the Atomic Plane of Pure Spirit. While they merely remain links for "dead" relatives, Gladys Spearman-Cook has become the Medium for Outer Space. While they are only bringing through "Uncle Fred" and "Aunt Fanny," Gladys Spearman-Cook is now the human Channel for the Great Divinities of the Heavens to descend into the depths.

To sum up, Spiritualism is only concerned with those of the earth and the lower astral; we are seeking of the Great Divine Beings who have never descended to the depths before, owing to the vibrational frequency having been too coarse and dense.

The other basic principle which we strictly adhere to, is that of celibacy; for unless this is followed there can be

This is what the medical world think they are doing when they give some unfortunate person electrical treatment: they think they are rejuvenating the brain cells, when in fact they are merely burning them out.

When we refer to celibacy, it is not so much the state of not becoming married that we are talking of, but that of abstinence from the lower sexual desires. We practice strict celibacy but do not advocate it as a firm rule for all; for until a soul can be "fired" by the Holy Fire from the Heights, through the comprehension of the Wisdom, it must still be "fired" through the earth channel.

Although celibacy will have to be accepted by everyone eventually, it is for the moment only for the genuine initiate who is truly perceiving the reason for such action. Without wisdom, celibacy is of no value, and will be of no benefit to him in any way.

MAN MUST, HOWEVER, BEGIN TO SEE THE UNION OF THE MALE AND FEMALE AS A SACRED ACT OF ALTAR WORSHIP, AND NOT THROUGH THE EYES OF THE 'BEAST.'

Those priests who have left the church in order to get married, will live to rue the day, for you cannot go back on your vows. They were subconsciously being told to 'marry up within themselves' and bring the Divine Marriage into birth.

THE RAINBOW

Continued from Page 3

is sperming man with new life. For as Orion captures the Powers and hands them to this Great One, he is the Master that walketh in the Footsteps of that mighty Divine ONE.

The power and the glory of all who are endowed with His wealth, has yet to really be born, for mediumship and phenomenon have never yet been truly manifested. Where earth and heaven meet face to face and converse as in the Garden of the Lord. The higher the soul could raise his vibrations, the greater the contact could be. Until even the Great One could grace the soul with His Presence and sperm the earth with Divine Electrified Life. Yet healing, operations, and advice of the very highest, that will help the world of Vega to be truly born.

The possibilities here are beyond all doubt, and the hope and glory that Medo-Persia had striven to bring forth but tried to do so without the renunciation of the flesh, and only established mythical wealth of an intermediary nature.

This mighty gift of Taurus combined with Cancer in its dynamic OS and Cecrops abundance, can resurrect in no small measure, the lost wealth of the gods. For it is in Taurus that the Beam is ever changing, because the EYE of Al Debaran is the leader or governor of rebirth, and the ever changing glory that unites man with Divinity. For being of the Abramic name of Al Thaur, it has connections with Abram, the pre-eminent or the high father, who has promised the guardianship and propagation of the whole Nation of the Earth.

THIS NOW IS TO BECOME THE NEW VEGA PATH AS THE ELECTRIFIED MIND OF ANDROGYNEITY. THE ELECTROMAGNETIC FIELD OF THE VEGA ALCHEMICAL CYCLE IN ITS FIRST BIRTH OF ACTIVITY.

A pregenerative state of Mongolian birth, which was originally the Pube state of the soul. The Hermaphrodite state that became the dual mind as the Atlantean souls becoming lost in density. These should have become the great Orion Atomic Man, the potential wealth of the Rainbow; a mind of genius as the true Neptunian grace. The great Uranian Orion Man of Outer Space capacity, bringing the great Flame of the mind into birth as the pure pituitrin, the drip from the heights; the WORD to the word. That which became lost for the time being, because there was no future world built up for them, they merely taking the stance of the Polyphemus. From there they have descended down to the present drug state of sensuality.

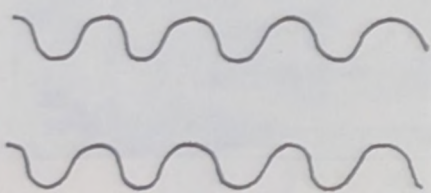

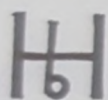

All this can now become as an intensity of magnitude set into mythical action in Medo-Persia as the phenomena inter-union between depths and heights that will lead man back home. A mighty inter-union between the protoplasmic blood substance that holds the whole of this magnitude in its consistency, that when exuded becomes the basic for these soul states to manifest in. Where super states of spirit combine with similar terrestrial states of earth, or by an inter-union of heights and depths, bringing a phenomena into birth that proves the point of continuity.

Apart from the fact of direct intercourse with earth that

fortifies, sustains and repairs lost states upon the earth. For the union is between the Rishi of all states of Seven, and the Oneness now as the Golden point of the Mighty Flame, the Great Orion MAN of the heavens. The expansive state of the Bull, but now with a motive towards service. A cosmogonical reality of virgin rarified essence, now the Neptunian phenomenon of Virgin protrusive action of Vega love.

This must now be the flight of the Ariel mind of expansive mind-frequency, where the protoplasmic substance is of that frequency and suitable for those higher Powers to adopt and manifest in, in the density of earth. This is where the expansive essence is no longer the world of the dreamer, but now to become the reality of life, in the manifesting glories of Neptune. The virgin essence of Pubescence-magnitude, the synchronised chromatic divinity. This is where the soul walks in the Garden of the Mind, and nurtures the unfolding growth into the radiant glories of divine love.

This is where Saturn is conquered and produces its mighty wealth, for all is only psychic up to Jupiter; then by conquering Saturn, can the path up to the mysteries begin. For this is where Saturn brings the Isotope into birth

by joining up the perceptory principle, bringing forth the discriminative point. Saturn being only the fulfiller of dreams, while the golden point is the MAN, the glory of Fomalhaut manifesting the coming Seed of WOMAN in the glory of MAN. Saturn bringing together the trinity, and drawing it together again.

The ten rings in the eighth Power that produce the trinity of Water, where the old Mother is eaten up and becomes the masculine in the first, after the Band of the Fishes binds up the evil of Cetus. For as the glory of the divinity is carried forth, will it release Andromeda the chained WOMAN, whereby the golden glory completes the king's crown and becomes the divine redeemer in the first.

With the goat dying in the sacrifice, and the lamb becoming born in the heights. For Cepheus is the Hyksos king that is ever being reborn again and again, with Aries becoming the mighty Perseus to raise Cassiopeia up to the heights. Yet the freedom of the Word is still in duality and captivity, for until man perceives the true meaning of the Seed and its Holy purpose, it will ever be held by Cetus in the depths. For both must become a wholeness in a completeness of purpose, with the whole of the beast redeemed.

One fish is seen with its head pointing to the North Pole Star, the other at right angles, swimming along the path of the sun. A part is redeemed by the Solar glory, but the other must go back to the heights, to be sent forth once again in the act of redemption. Thus the "Fishes of HIM that cometh," the glory in all its wholeness waiting to be born, when man is freed from the depths.

Yet the Word that will multiply and become enormous in its capacity, which must be caught and reveal the glory of the Unseen in its whole divine purpose and magnitude. Thus brought into fulness by Jupiter and Saturn, until man is aware of the heavenly purpose, in Uranus and Neptune, the divinity of the mind. The Woman's Seed as the magnetic fire, and the glory of the heavens in the Holy Fire, ever uniting in Saturn and Uranus bringing into birth the heavenly Plane of the MIND, the glorious City of Vega.

THE HARVEST FIELDS OF LIFE

MASTERY, mastery, is the secret of unfoldment, whereby renunciation gives unto the warrior the glory of the rising Sun. For all states have their purpose, as the boar turns from the snarling beast into the golden-bristled determination of the fiery sword. (See text on page 3, col. 4).

The Stream of Light

THE "good boy in Virgo's lap," the child that ever comes forth and goes up to the heights as the "first-born," until the soul is completely "MAN" born, the divinity of the Christ-born soul. The waxing and the waning of the moon has finished its task and become united in its Oneness. For she then becomes the pure Virgin as Venus-Urania on the throne,

giving birth to the mighty Jesus. The completeness of God in the depths; all the wealth and glory of Woman drawn back into the divinity of Him who once gave her birth. Thus the Star of Bethlehem now becomes the Star of Vega.

Thus the great sin-offering is in the hind legs of the horse that have to be shed in the wild boar transferring his mortality into immortality in the sign of Scorpio, through the ever reborn intercalary. And is the

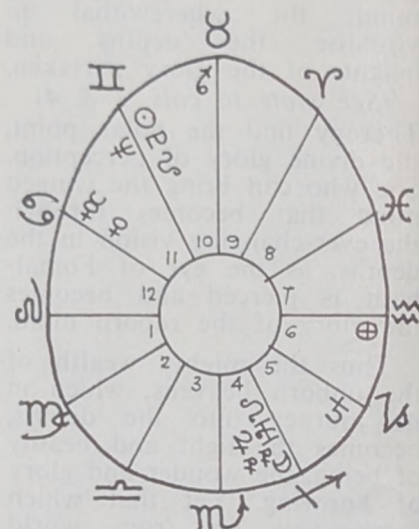

secret and mighty understanding of all Scapegoats who "went about doing good, yet despised and rejected of man," but ever laying down their lives that others may live. That in the complete unification, EVE is re-united with the heights that gave her birth, and all men now on the way to becoming the gods they once were.

This is all born from Boötes with the sickle, in Saturn cutting away the evil from the depths, as the soul becomes Jesus born. He who rules, subdues and governs by bringing extension and expansion to the mighty Seed; that which was Saturn's glory in the beginning. Thus the extension between the two Fish in the depths and heights becoming united in the glory of the Solar MIND. The oneness now the magnitude of the Arc of the Rainbow, in the mighty Divinity born in the heavens by Merope as the great Flame, and her own unity in her completeness of reborn immortality in the depths.

Satan or Saturn being captured, with the Holy Flame now the mighty Glory of rebirth. Perseus who ever cuts off the head of the Medusa, and brings the Divinity radiating in the Heights as the Central Sun, and the glory of the depths as the radiant blossoming mind.

The great birth of the Divinity lies in the Great Bull who slowly breaks open the Egg, and brings forth the mighty wealth from the Seven Rishi to the Seven Pleiades in the neck of the Bull. For Merope who was considered lost, was really the messenger and activator in the depths under their guidance and supervision. She who had to be the human pawn that could receive and alchemicalise and send back up to the heights, until all was fulfilled and redeemed.

Hence the final astrological log that she laboured under

was Taurus in the Midheavens, with Leo as the Sacred Heart to guide her on her way. With Uranus as the Flaming Sword in the depths to strike and cut away every obstacle that stood in her path. While Saturn in the house of ancient depths was being redeemed by the Yod of God, bringing the glory of the mind in the arms of Venus, into the Neptunian Vega glory.

Thus the mighty Constellation that she is going back to, as the Divine magnitude of Vega. Hence all that has been, now coming forth in a nutshell, as the kernel and growth of the Ages. Wealth that religion tried to capture through the pomp and artificial glory of man. That which the Mighty Ones swept onto one side as they brought Merope back to her own, where as the lost Sister, who had to "marry" a mortal in the birth of a human body, will now complete the Work she descended down to earth to fulfill.

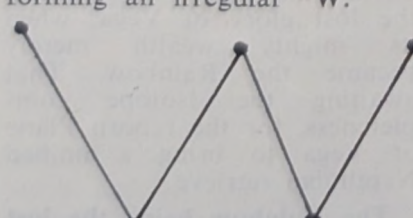

Descending down a mighty Stream of LIGHT in the very beginning, in a boat of heavenly glory, seated beside her mighty Spouse, who also was to be crucified in the depths. For this Stream was the first beginning of the glorified heavenly Fire, whereby she was the means of starting the way of its inflow unto the Holy Glory, as she took up her earthy establishment.

That which was to further the Great Work of the Heights and depths becoming the Cosmic Glory, the manifestation of the mighty Divinity as the Great MIND born from the labours of men.

Thus Saturn is the mighty loadstone mount that has to be split open and redeemed. The dynamic Star seen in the left knee of Boötes as the mighty Arcturus; He that cometh as the glory of the mind, through man treading it in. This is the struggle to master Saturn, to make what is known, and known to be true, accepted by all men. Thus the Occult Gazette going out far and wide to bring forth the "Bear with her train."

Council of the Divinities

ARCTURUS and his sons in Ash and her offspring, the Seven Stars that have to be redeemed and raised up to Vega glory. That through the

ship of Argo, the continual sailing forth, will the soul capture the golden fleece from the mighty serpent.

The ship with the two galleys, and prows surmounted by Ram's heads, now the Flaming Glory of the Flying Eagle. From Taurus to Virgo, and Leo to Capricorn; one being installed with the Bull, and the other with the solstitial Lion, to bring forth the mighty Work of the heavens. With the oar ever dipping into the Waters, that through the mighty Canopus organ, can the unification of alchemicalisation be made.

The ship that sails forth with its mast piercing the depths of the Hydra. Thus transforming Corvus the raven into the glorious Dove, through the Cup partaken to its bitter dregs. Hence bringing forth the Wine of life in the mighty marriage. For this is the wine-cup of Bacchus with its thirteen stars, where man learns the true meaning of Holy wisdom. This being the number of judgment which brings man to the realisation of truth, drawing forth the heavenly glory in he who has risen above the rabble of men. He who knows the sorrow in fighting for truth, with Merope's foot on the Serpent's head, bringing the Stars in the heavens into their radiant glory of Divinity.

TRUTH BORN FROM THE GLORY OF THE MIND, IN THE PERCEPTION OF THE HEAVENLY MAGNITUDE. ALL RAISED UP TO THE DIVINE HEIGHTS IN THE GLORY OF THE BEGOTTEN LOGOI. THE MIGHTY BEAUTY OF THE IMMACULATE CONCEPTION, BORN FROM THE NEPTUNIAN CRADLE, THE MYSTERY OF THE PITUITRIN ESSENCE.

Yet the mighty Seven before the throne, now the ONeness of perfection; all coming forth out of the Anima Mundi, the glory of the Divine Breath. The mystery and glory of Outer Space, which brings light to the internal beauty of the soul growth, in the secret wisdom of the Canopus. Organs which segregate, unify

and raise up the unfolding consciousness to the heights.

For as man perceives and sends back to the heavens as the glorified perception of the deep, will he burnish the heavens with light and glory, and the mighty Logos perceive the glory of His son. Yet in man fighting the issue in the depths, will he do so that all can come into birth. For on the fired Altar in Libra, will he struggle to carry its secret wealth up to the heights, out of the grasping claws of the Scorpion.

Man not now struggling with the serpent, but in his unfoldment preventing the Scorpion stinging him in the heel; thus causing him to fall backwards after raising up the glory of the mind, and building an Altar in the heights, as he begins to shed the depths. For here at the holy Altar, where the soul first awakens, is the true cross perceived. That which began long before the Era of religion, in the soul's struggle to master the magnitude and might of the mighty Breath, bringing its dynamic LIFE from the heights.

The Wolf that has to become the Lamb, in the mastery of the beast; that which brings forth the horn of the goat on one side of his head, as the Bodhisattva. Yet the great wealth that comes forth in the heights, in the bruising of His heel. The wealth that will come forth in the glory of the mind, in the sensitivity wrought from the true balance that will crown the soul with holy life. Yet that which will offer unto everyone who gathers, "My Shield, as the exceeding great reward," as promised unto Abram in the very beginning of Time. The prototype and glory of all being, the might and wonder of Divinity.

So as Merope listened to this dynamic recording of her struggle through the Ages, she found herself swept away onto the Plane of Divine Consciousness, where the whole scene was a mass of gigantic White Fire towering up mountains' high, with depths and tiers of Divine Beings concentrating their powers into the depths. Then the radiance of Merope's attention was suddenly drawn

to masses of mountainous filmy cloud of inconceivable radiant brilliance opening up, making way for an enormous Ray of yet whiter Fire descending from the centre.

As this drove forth, a great Trumpet call drew everyone's attention to a dynamic scene that was about to be portrayed. It was then that Merope realised fully that she was sitting with a vast number of Ethereal Beings, and that all

(See the diagram in cols. 1 & 2)

The radiance and glory was so dynamic that it held everyone transfixed, with Light and Fire rolling in and out, up and down over a mighty Altar; yet that which was hardly a creation at all. It was obvious from the pulsating Light from each seat around that Table, that Beings of Immensity and structure incomprehensible to any other Being, were in process of manipulating Feats

White Fire which whirled and flashed with brilliance beyond human description.

Then Merope turned her attention to the Conference Table, which was a mass of vibrating colours of every description; each colour representing a Plane or Sphere which had been placed into the care of one of these Great Divinities. As Merope gazed intently into the centre of the Table, she found herself able to see through all those lower Planes and Spheres.

With the rolling immensity of the Fire, the brilliance and the glory, one's mind and wits were almost swimming with the intensity of the mighty frequency and vibration. Form was nowhere, except in a shadowy light of those around her, that even Merope was raised up to this status for the time being. Then out of all the radiating splendour, Merope heard the mighty Voice of the GREAT ONE saying:

"Here you see the Great Council Chamber of the Divinities. Thus witness, My Beloved Daughter, the result of thy GREAT WORK, and know that thy sufferings have brought into fulfilment that which will be hailed by all mankind for evermore, as the achievement of the one and only living Christ. The Plan is perfected, and nought can go awry. Adieu."

As the great "Voice" stopped, there was one mighty swirling of all the Fiery Brilliance into one vast glory of rolling magnificence, which seemed to vanish into the intensity of the depth. But Merope knew that she had been witnessing the unbelievable glory of that which she had been the means of setting into motion, yet would only be the phenomena in the depths as its lesser lower polarity. Something that could only set man yearning for the very highest in those cramped and calcified depths; merely that of reflection. Thus as she looked upwards in thanksgiving of such mighty unfoldment, a flock of fiery Swans came sailing across the sky.

ALL RADIATING COLOURS, SPARKING AND SHOOTING FLAMES IN ALL DIRECTIONS; MORE LIKE MAGNIFICENT FIRE-BIRDS THAN SWANS, OF THE GLORY OF THE SPIRIT, YET DRAWING BEHIND THEM IN FORM-LIKE SPLENDOUR, A VAGUE FIERY FIGURE OF NEPTUNE.

THE GLORY OF ANTARES NOW IN THE DEPTHS AS THE ROLLING, PULSATING BEAUTY OF MAN'S FIERY HERITAGE.

THE CRYSTAL ASCENT

AS Merope rose upwards, as the elevated Eve, she gave unto all men the power to rise out of the density of their darkness; for all was crystal, transparent with the glories of knowing, that permeated into their hearts the glory of the spirit. (See text on page 4, col. 4).

were going to witness something that had never even been dreamed of before. For before them was what looked like an enormous Conference Table, around which were huge throne-like seats, the most important being at the head of the Table. While every Creation was of varying degrees of immense Fiery vibration and Light.

of the most incredible and dynamic Nature.

Transference of thought being conveyed by great flashes of Fiery Light from one great Being to another. Their Brilliance and Immensity was so great that they were Beings of NO form, which had never been their creation at all. Immensity that could not touch form, therefore appeared as mighty rolling ethereal

THE RELATIVITY OF AQUARIUS

by **Ra-Men-Ra**

WE have recently started publishing some of the earlier lectures by Ra-Men-Ra, concerning the true understanding of the Jesus, and the formation and growth of the Christian religion, with its connecting myth of Christ and the crucifixion. This article was written in 1960 and is a continuation of that of last month, *THE AQUARIAN REBIRTH*, and has purposely been brought to help those who are still in a multiplicity of mind confusion regarding the truth of the Embodiment of A.D.33. (Editor).

"WILL Ra-Men-Ra please tell us more about Aquarius and its astrological significance from an esoteric standpoint, for surely Aquarius is the polarity to his Ancient past. I do find his poetical language so delightful and soothing, especially after a day at the office where business words and phrases harden the brain into a solid block of commercial granite. In a world of mechanical phrases and intellectual jargon, Ra-Men-Ra's lilting language is as a warm breeze on a summer's day, and I visualize Egypt and its ancient beauty in every word he utters. Surely his link with the past is our only hope of finding our way back through the link of relativity, for without, we only know and live in a world of fast dying romance; a world of blatant cold exotericism and hard and fast rules of conventionalism."

The Value of Astrology

UPON approaching Ra-Men-Ra he stated,

Yes, it is the complete polarity, which makes the hour so important, and one that cannot be understood by the modern mundane Astrologer. My rendering can only be of a very simple nature, as very few understand of esoteric Astrology, if they understand Astrology at all.

To give a rendering from a relativity standpoint will entail much wandering, but we will see what we can do. To bring back the mysticism of the past is very difficult in the cold saturnian atmosphere of your present day, dense and foggy with material intensity. Whereas the word should ripple forth as a 'whip-poor-will' on the wing, it meets density in every direction that clogs the wings of the rhythm and sound. The mysteries have fast receded before the cold onslaught of journalism and commercialism.

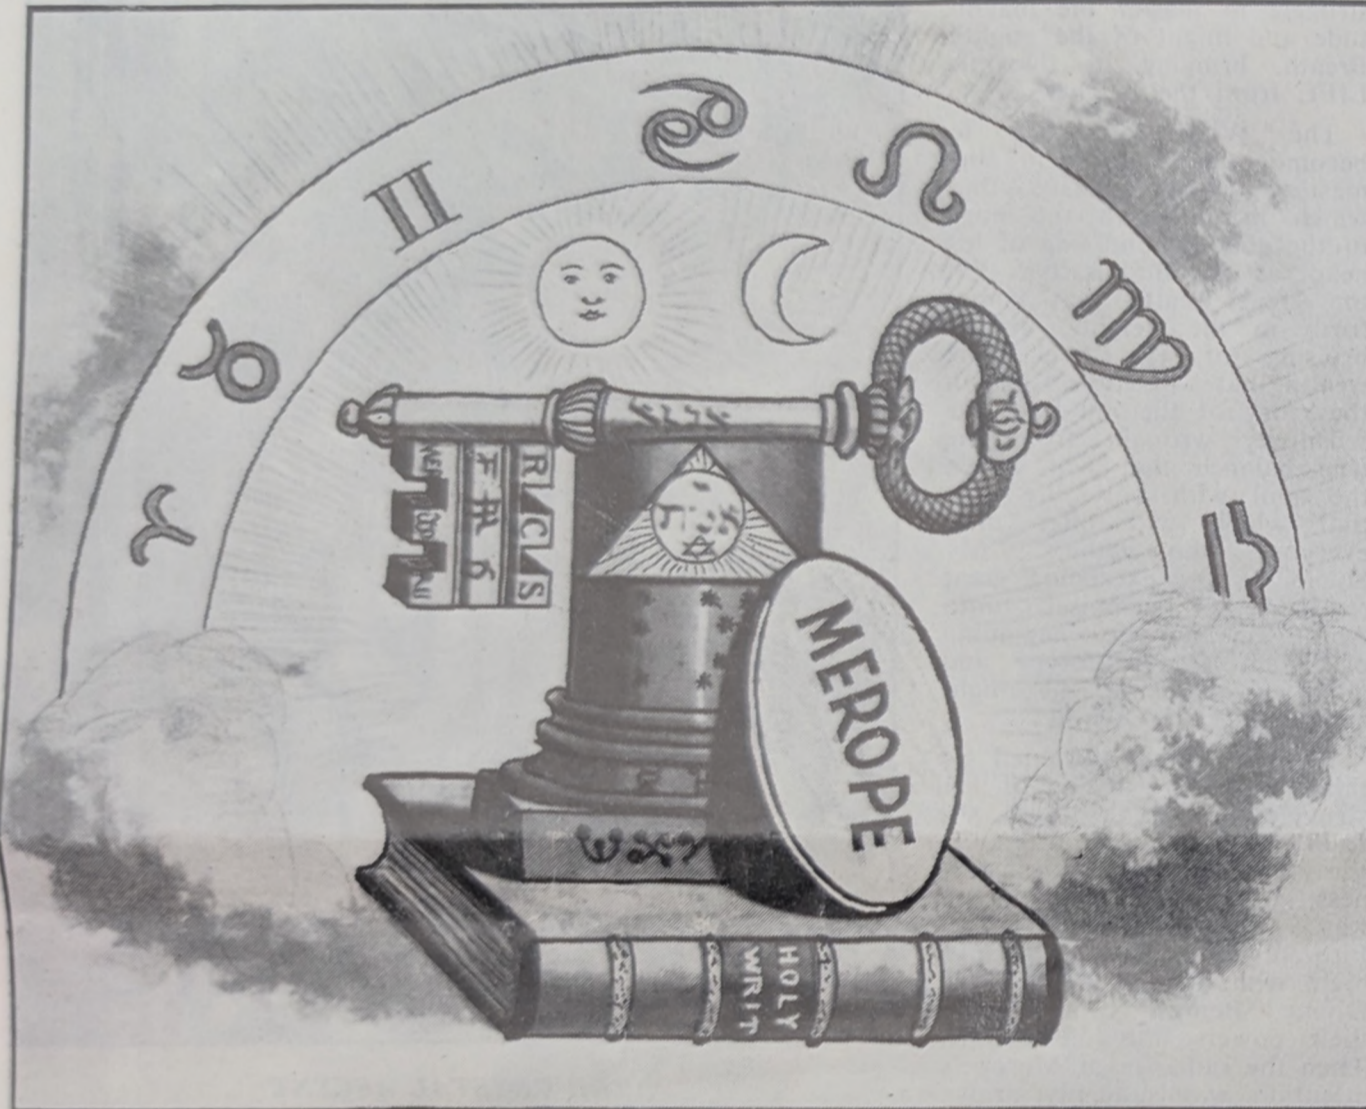

The only way man can find completeness is through the past becoming blended with the present, but he must travel to the depths of that past to understand the enigmas of the present. They are all one and the same, yet polarity different. But first there are three points that must be considered. First of all, the soul must have a little knowledge of the Royal Science of Astrology in its

(See plate on this page)

royal setting, to be able to appreciate the first and foremost of the answers.

Aquarius is the polarity sign to Leo, the 5th house, or mind extension from all mundane formation of earthly solidification engendered by the old error of the 'Fall.' Yet although Leo is the royal house of the Sun, the finality began in the Cancer period of the emotional unfoldment that brought mind into activity. After treading in matter for many rounds of the Precessional dances in the Luna state, the Fiery atoms began to ascend, by descending down into Leo to tread the path of unity through relativity.

Here they became captive in Babylon, resulting in Christ having to descend down into Hell. That of the Christos light

being born in the caverns of man's underworld; his bestial desires. This explains much of the Mystery of Revelations, particularly Chapter 17, for who knows the answer better than 'Woman,' or the Feminine Principle of life. This must not be taken in the sense of the gender, but in its concept of equilibrium.

In the 5th house of Leo all karma was and is enacted, and is revealed to the Seer only, his work being to guide and help the soul as in tutelage. That taken and emulated by the papal priests in the religious repetition of the Ancient Wisdom of the past. It is this wisdom which verifies that house delineation, which is 'limb' delineation, is the origi-

nal construction of Astrological erection, as was intended by the Hyksos Kings who gave it birth.

Of modern Astrologers, Placidus was the first to establish of the true method once again, but in teaching my Instrument to recapture Astrology in its real setting, we taught her of the way of Astrological Seership, where the 5th house is seen as the mirror where all must be viewed. All is controlled and visualised by the soul through the sign upon that house. All misdemeanours will be coloured by that sign and the soul will tread its path from height to depth.

IT DEALS ENTIRELY

light made manifest through the man, as that of the Manu speaking to the world, as the manifested Word in the Transcendentalism.

The next impression was when Constantine gave its final setting in the Church at Sophia in the Byzantine Era, where the symbol of the Church, the Cross and Lamb, began the Libarum on his standard. This was portrayed in a dream to Constantine as that of a vision manifesting in the sky.

The man Paul brought these truths to the world in the Piscean Equinox and they were accepted as Christianity by a body of adherents, and a Church was founded at Rome by Peter. The name literally meaning 'as firm as a rock.' This was the only way they knew how to establish the Ancient Astrological wisdom, which really was the only key.

THE EARLY FATHERS ESTABLISHED MUCH THROUGH THE ASTROLOGICAL LORE, BUT IT HAS BEEN HELD IN SECRET BY THE PAPAL LEGATES EVER SINCE, AND REVEALED ONLY AS CHURCH ORDERS. THAT WHICH MY INSTRUMENT IS ENDEAVOURING TO UNRAVEL OF ITS CREED AND DOGMA.

The legends of Arthur and his round table, as established in Somerset, are that of the hidden wisdom that escaped from the monks and was captured by Robin Hood, who was not a renegade, but a learned man seeking to carry the age through. Such as these are sent to the earth to do these tasks, and are never recognised, but in obscurity and dire difficulties perform their task.

This is a part of the heritage of the Isles of Britannicus, not blessing guns and upholding commercialism. Oh yes, that has been necessary until man could live as Robin Hood and such like. Britannicus is the Jerusalem of the West, where new birth was hoped for; but has Religion failed in its message? Has Religion lost the message? If so, Religion will be lost also.

Paul studied Astrology, not only with the Essenes, but in the Ancient Temples in Egypt also, and the bringing forth of the Christos light was as his findings; his deductions; illumination which made him Christed at that time from the starry heights as the Augoides Ochema captured. For he redeemed the Fiery Hierarchs hidden in the density of matter since the time of the Fall.

Therefore, all Scriptural History up to this incidence gives of the journey of devolution with sprouting evolution. Paul filled the 'Vase' and was the Jesus expected at that time; he who gave manifestation to the Messiah, or Manu of Light. Thus making Paul Christed.

It was a period at the beginning of the Equinox that had to be fulfilled by a manifestation, if such so warranted it through an Instrument prepared. The same happened just recently in 1960, when the Aquarian Fire 'Thrust' manifested. It is the Hierarchs due to work through that period that make their 'in-thrust,' like Lucifer did at the Fall. It always brings some form of calamity, and can only be minimised when there is one who can take the inflow as a channel and turn the Power into Wisdom.

When Jesus is referred to as God in matter, this literally is not true, but means the manifestation of the Godhead, or Logos as Intelligence, in the Maelstrom through the man who could make manifestation through his mind. In this particular case it released the Desire Body of the World and gave man freedom for redemption. Now it is releasing the Mind Body.

Until the time of Paul, mankind believed in the old law of dispensation, where "an eye for an eye and a tooth for a tooth" was enacted. By Paul's establishment of wisdom man was taught that God was Love, and love made truly manifest in all souls being redeemed by the 144,000 to be saved: the 144,000 polarities of the Hierarchical three worlds, or triune encompassment.

Mastery of the Serpent

NOW thirdly, in the 11th house of Aquarius, the man is made manifest in the final blending of Spirit synthesised in the 10th house of service, through that 'ground' in the 5th, the house of karma, made conscious in the 6th, the house of the virgin, and balanced in the 7th, the house of unity. This is the Path of the Cross and Serpent. The

JOURNEY INTO THE BLACKNESS OF SPACE

by Senarath Spearman-Cook

THIS is a nine year old child's idea upon Outer World Space and all its hidden mysteries. For the reader's benefit, Smiley is Senarath's toy dog, the first of his kind to become a fruitarian, though at the present he is still refusing to take herbs. We have left all grammar unchanged, so as to preserve the originality of the story. (Editor).

ONE night I went exploring with Smiley into the blackness of space. About ten yards from the entrance of space a friendly giant, twenty feet high and three feet wide, pointed to a huge door which he was guarding and said, "There's the entrance lads, enter," so we made a run and jumped into space and we found we floated.

Suddenly Smiley pointed to something and said, "Hey Mum, how much more have we got to go to the Castle of the Central Sun, we have already gone twenty miles because it's got it on that sign over there," and I said "Smiley you got bad eyesight, that's a star not a sign, and as for the twenty you are amajaning it," and Smiley said "can we land."

I said "of course we can land," so we floated in the direction of the star and landed and we found out that it was called a plane, and Smiley said when I told him, "What, an airplane?" and I said "Don't talk rubbish!" and we also found out that the star was in the constellation of Scorpio and the star was called Antares. No longer did we float when we were on the star Antares, but we had to run because it was fressing cold.

We reached the other side and we jumped into space and floated about another

hundred yards, and we caught sight of another star called Vega in the constellation called Lyra, so we landed and found about another twenty yards the manifest Castle of the Central Sun, made of marble and painted with gold and silver and bright yellow and orange.

We ran up to the draw bridge and the port cullis and through, and I and Smiley run up the stairs past all rooms except one. That was the top one and we asked the great master if we could explore in his garden, and I had a swim in the moat, and Smiley and me had a game of Hop Scotch and Smiley won. Then we went back to the top room and the great master took us to all the different contreys in the Central Sun.

Then we came back and the Great clock struck seven o' clock and the master said, "Time to get into bed" and I woke up with Smiley after a deep dream.

THE CROSS AND THE SERPENT

THE spinal glory being raised up by the first pioneers of time, to become the unfolding glories of the mind, for Moses in all his struggle gave unto the world the first grounding of the atomic and the magnetic being unified into the glory of heavenly light. (See text on page 6, col. 5).

royal power of the Rod that blossoms in the wilderness.

In this truth being revealed to the soul, whether in the 11th house of renunciation, or that of shouldering the sign as a lesson of life, via Sun, Moon and Ascendant, the sense of Awe that such reveals, has definite limits. For the open revelation of these Mysteries of the Holy Shrine, is but an outer form and appearance of what the symbolism conveys of the inner precincts.

The Power and the Glory to come forth from the Divine Shaddai, as Grace through the Manna of Word partaken in Religion, would be only known to the innermost precincts of the heart that blossoms forth from that as a coriander seed.

So all who seek and study the landmarks of the sign Aquarius, will only find the answer through the Cross and Serpent. And will find, as a novice, to their own detriment, there is no presumption of going beyond the veil of external manifestation until the final steps are enacted.

Although redemption, of which life is, is whole in itself, the process is manifold through lives, verifying the necessity for Reincarnation. And this consists of a series of acts, spiritual and mental, as well as physically heroic, which the adherent must accomplish.

There is no easy way; and invariably the greater test and agony to be endured, is not actually by the Mysteries themselves, but mankind's reaction to the annunciation, for it is as the John the Baptist shrieking in the Wilderness, or the 'Red man' declaring what he knows to be true, and becoming lighted by that truth uniting with the Holy Ghost. It becoming the glory of the 'Woman's' garment.

"And the woman was arrayed in purple and scarlet colour and decked with gold and precious stones and pearls. . . I will tell thee the mystery of that woman . . . which hath the seven heads and ten horns. Here is the mind which hath wisdom." Rev. 17 v. 4-9.

This again will solve the mystery of John the Baptist 'losing' his head and Jesus walking by the shores of Galilee (Matt. 14) and performing wonders, when the Baptism was taking place. This was the grand finale before the ministry which all men have to face as service to be rendered. The transmutation of mind from John to Jesus

as Masterhood, and the wonders coming forth as the fire baptises.

The Mystery of the Fall is still with man as the disease of karma of the 5th house, Leo, having its outlet in the 11th of Aquarius. What was taken wrongly then makes the mind of man insufficient now, unless retrieved through dire struggle; the mastering of the serpent.

The Fall, which is ever recurring in its lesser degree, involved through the age the alienation of the individual from God; the wisdom of the journey and its true purpose. Therefore renders necessary a reconciliation, or at-one-ment. If this was not so, why do even the most biased of creatures cry out in their dire distress,—probably quite unwittingly,—"God help me," if this was not the way.

Why not like Job, in his wisdom, curse God for having revealed so much to him; he now suffers by the knowing. The other man is crying for mercy, and reveals through the mouth of a babe born in anguish. For in as much as the embracement of truth can only be effected through total renunciation, man as in the 11th house of Aquarius, and all aspects of the sign if adopted, as well as in the Equinox of Aquarius, stands embracing the Spirit by the fact of the knowledge. For now he is Prometheus bound to a rock, until he sets himself free by assimilating the Serpent's poison.

But it must be seen, the sign of Aquarius is very separating in its action, for it is the blending of the two forces that have now united in the 11th and are awaiting complete unity, that in the 12th house of the individual chart all face one another, and the riddle of the Sphinx is solved.

Metempsychosis of the Soul

IN the chart of the Zodiac, Capricorn follows where synthesization begins and man really starts the path of humble service and ascension. But since man is mostly concerned with his own destiny, let us keep to the destined path, for without that the cosmical will never be solved. Thus for man to bring about a safe journey to complete his absorption in his 12th house and hope for redemption, total renunciation of the exterior or bodily desires must take place; and the unreserved acceptance of the interior Divine Will.

For the dividing factors of the two elements in Aquarius are so extensive, being the width of polarity of Equilibrium, that materialism is complete ruination of any planetary influence that manipulates in the 11th house, unless conquered.

Therefore the redemption which this house and sign symbolises, as a whole is one, but the process manifold. Here in this sign and house, the soul finally surrenders his own exterior will with all its material desires and affections. This is why the term is applied to the 11th house of "the hopes and wishes of the Spirit," and designates that of the Passion.

The particular act whereby this surrender is consummated and demonstrated is the Mystery of Aquarius passed down from Pisces, the sign of Fishes and Word in the Zodiac, but taken unto the individual is termed the final crucifixion in the ascension. Personality being absorbed into the individual. If need be, it must be to the death in either case, but moreso imperative in that of the World Chart, for all is ready for Ascension by mind; and those left behind will witness the 'living death' or death of the soul, with the spark or microcosm returning unto its affinity. All this must be without opposition, even in desire on the part of the natural man; for without these steps there is no attainment.

The intellectual minded may say, why not a practical solution to the age? That is only man's illusion; the answer to life is the Spiritual solution and it is because man has adopted the former angle of thought that he finds himself as the wearer of the nuclear age of destruction.

If only reasoned logically by the earnest enquiring candidate of Truth, he must realise he cannot become one with it and embrace the Spirit of Life, until by his Passion and Crucifixion he has utterly vanquished the "old Adam" of his former self. And can any man truthfully say he is contented?

Through this at-one-ment made by the means of self-sacrifice destined for Aquarius, man becomes as one without adharma. Adharma and Dharma united, as karma of the 5th is retrieved. Thus the Initiate who has perceived the truth, closes the door tight, making himself no more liable to attraction of the 'flesh.'

Upon this being accomplished, the soul qualifies to enter as his own high-priest into the holy of holies of his own innermost precincts. For thus he has become of those who, being pure in heart, alone can face God and be the messenger of Truth to mankind.

The Passion and the Crucifixion have their immediate sequel in the mystery of metempsychosis, the death and burial of the self-renounced. These are followed by the glorious Easter Morn, where the resurrection and ascension of the true immortal takes place in Aries; the next round of life.

This is that of the metempsychosis that takes place every day and all times in the soul as that of involution and evolution work their rounds and the soul becomes from childhood into manhood in the true cosmic sense of understanding; mortal to immortal. The destined journey for Aquarius, that the man can be born in real purpose.

This action, delivering of the new spiritual Adam, takes place first in the 12th and then in the 1st, or the soul remains in purgatory and often confinement until it can free itself. This is Babylon. But when the resurrection can take place—being completely whole in its consummation—the man proves himself to be of the Christ; Virgin-born. He becomes that of the offspring of the Spirit.

Not born of the soul and her traffic with matter and sense, but of a soul become immaculate; the Spouse of the Divine Bridegroom, the Holy Spirit. Or Pluto redeemed from the underworld, which again can solve the mystery of Cronos devouring his own children and going into the

underworld and raping Proserpine, the feminine principle.

So the ascension which has seemed such a mystery to mankind, and with which the drama terminates, is solved in that of the first mystery of the primitive Fall, as Cronos, where the Solar light went down into the depths taking man with it. The answer ensues through the struggle, and the 'whole man' becoming retrieved into the 'Nugget of Gold'; that being formed by the man as the philosopher and alchemist of life. That gained from hard struggle in experience, now regenerated to the soul's own celestial kingdom within himself.

This becomes one with the Spirit and absorbed into the right hand of the father, that the son born of Man, becomes the right hand of The Father, or Divine Intelligence.

I will continue this so as to further the mystery of the Ark, or arc of mind ascension, as to why first house planets are so difficult for the soul to weather. For many are coming back in this Age with these to master, that they can give to an age that requires much force to drive on to its purpose.

The esoteric Mystery of Aquarius is very deep, and one that must be mastered in this equinox whether man desires to accept it or not. It will be his refusal that will bring the many mind disorders and states of degeneration, apart from crime and earth disturbances, into being.

THIS MAY SOUND LIKE THE PROPHET OF OLD SCREAMING IN THE HIGH PLACES, BUT IT WILL PROVE ITSELF. WHY NOT LISTEN TO THE PROPHETS, THERE HAVE BEEN MANY.

Reminiscences

impenetrable prison, and no form of expansion could begin. This inertia was breeding states into pools of fostering vice, and over-spilling into the density of life.

The Changing World

THIS has been seen by such things as drugs and sodomy, which, when opened up, brought a trail of horror in its train. Apart from rebellion between black and white states in America, set up by their persistency in the moon fallacy. Thus bringing into birth a repression still pregnant from the time of the Khans holding sway over a disease-ridden race. Yet did not all this have to be uncovered and tossed into the melting pot of redemption? Until all was brought forth in its true light, and openly revealed in broad daylight, it would go on breeding under cover. With the righteous still wearing their gloves and declaring of how good the weather was, and how delightful the joys of living.

Which reminds me of a woman who today is the wife of a prominent Justice, remarking to me, after I had invaded her territory at 8 o'clock one morning. With a voice well under the cover of convention, she enquired politely;

"Would you have a cup of coffee?"

"No thank you," I promptly replied, "I do not drink coffee." After a while another polite question was fired at me as she lit a cigarette.

"Would you have a cigarette?"

"No thank you," I replied once again, "I do not smoke."

Once again, with a covering well over her real feelings, she replied,

"O! you lucky people, how do you manage it?"

"Just will power, and knowing what I want and obtaining it." But she still kept her "gloves" on as we glowered at one another in sheer unfriendly defiance, which was most unnecessary, and would not have occurred, but for the gloves covering up her real thoughts.

It will be, when all these artificial states have vanished, a world where souls live in a

I EXPECT MANY ARE WONDERING WHAT is taking place in the world; especially the older generation who are now witnessing so many changes with the reverse order of things, that it appears as though life has swung right round on its hinges. Well! were we not warned by the Great Master at the television review, that many things would take place that many of us would not approve of, but all a part of the rebirth. Well! that is it. Uranus descended and started the task of breaking up a condition of pitch-blende, that had too long bound states into an impregnable resistance. Where they became as an

form of expansion could begin. This inertia was breeding states into pools of fostering vice, and over-spilling into the density of life.

free open frankness of belief and action. Where soul speaks freely their mind in open debate and discussion. This is what is happening today, where all is being cleansed of falsity, and man awakens to the true understanding of life. To have tried to explain to this woman my beliefs and motive for not indulging in these things, would have been hopeless; that is, if I could have got underneath her state of conventional politeness.

All these states of deceit and intrigue, evil and greed, which are building up denser states of evil, are being cleansed out by the down-pouring Waters from the heights, followed by the interpenetration of Uranus, who will burn away all such falsity.

Then Neptune in all his glory will begin to reign, and the glories of Outer World Space as the Virgin Ethers, will enter into the joys of living, where man is honest and sincere, and frank even unto rudeness. For it will be the true Mind Plane of the mind, where man will realise that only by how he thinks and acts, and even expresses, will he become and grow.

MANY WILL SAY THAT THIS WORLD OF UTOPIA CAN NEVER COME. IT WILL, BECAUSE MAN WAS ORIGINALLY A GOD, AND WILL BECOME SUCH ONCE AGAIN BY RELATIVITY, BUT WITH A WORLD OF UNDERSTANDING UNDER HIS CLOAK.

For that is the changing world according to the LAW set, with man becoming so salted with the Scapegoat's ideals, that life will be as Paradise once again, but with Ages of experience as TIME, seeking for greater and greater ideals of truth. And not a world of boredom either, for man will have so grown by the interpenetration of the Planetary Powers and Divinities that are descending into the depths,

that their outlook will be completely changed. Thereby bringing the world of Earth to its intended purpose, the mind Plane of Vega. Thus the old ways of rebirth, now being given rebirth by differentiation and protrusion, thus taking the place of death and rebirth.

What was once the way of life when man was a god, and not fallen into the mire of calcification, will come again, with soul descending down the planes layer by layer, as do the spirit Guides when they seek to take over an instrument of mediumship. Thereby taking on the more solid state as they become earthed, and leaving the same way. This was how the early Egyptians remained as gods, but as man became more worldly, they lost their ethereal status. This accounts for why it is stated in the Biblical legends, that man would now know death.

The True Embodiment

WHAT lies in store for Earth, and only just round the corner, is dynamic; but unfortunately, those in charge today for these changes to take place, are the initiates in the first throes of struggle. Those who perceive this truth, and are striving to earth this truth to drive it into its real action of change. But what a world for any to return to, especially those who are making their closing debut with earth. This is the true understanding of the Second Advent, when every soul has to try and put into operation their belief born through religion, without the "dead" god on a cross. But it was known that man could never make it alone, so a Scapegoat had to make the changes first, thereby changing all the Laws and status of rebirth.

Yet we can all see, by the compounds of evil and vice abound, how much these changes were necessary. Thus the roots that had to receive

(See plate on page 9)

their mortuary meal, which they have received in the new Cosmical Laws that have been prototyped into the terrestrial rebirth. Although I must say, not fully completed yet, for much more will uncover the more clever states, that become weakened by the lesser falling. Then such individuals in all their conventional falsity, as stated in the beginning of the treatise, will not exist in positions of importance. For they only, by their positions, spread their states wherever they go, as others try to ape them to get into favour. Thus it is good to see Lady Chichester being natural, and

not putting on "airs" for anyone.

True royalty when Gods and Goddesses really wielded power from the heavens, has gone long ago, now it is just a matter of convention. Then kings were responsible for raising up the planes and bringing new "breath" into their country, thus it being greater than all others.

But now, the planes have so been raised up by belief and wisdom gained from the REAL EMBODIMENT, that in being cited and earthed by the Scapegoat, man is left sitting on a plane of old ideas, out of sheer refusal to change, yet a plane which does not really exist.

All has been changed in the planes and new embodiment of Law established, and new life, new beliefs and ideas are all filed up and waiting for man to start and create a world of true understanding and pure light, thereby truly living.

The actual changes taking place, as odd as they may appear, are but the first step to man finding the final answer. All now having been transmuted onto a mind plane, with enormous powers coming down for man to be reborn. This can account for the states of split minds and schizophrenia that have been abound, for those who have not been using their minds in an orderly way for many ages, have felt the pull to take on of a balanced order of rebirth, and for the time have toppled over.

BUT AS THE WATERS INCREASE, THESE CAN GAIN BALANCE IF THEY TURN TO THE SPIRIT, AND NOT DRUGS AND CHEMICAL STATES THAT WILL HOLD THEM EARTHED TO PAST CONDITIONS.

The most outstanding of the stripping taking place, is the Chinese rebellion, this being a condition typical of unification. For China and all her internal incest, is the root of the present creation, and must answer for the multiplicity that has caused so much difficulty.

It was the Astrologer Hwang Ti who started this order of life by the Pole Star Ursa Major. Although it gave unfoldment to one and all out of the Fall, it also brought multiplicity. This is what the Greater Powers have been wrestling with in bringing all to a state of ONENESS, a Solar point of becoming.

The present order of Mao Tse Tung is a state of the old Matriarchate period, when Chinese Empresses ruled the day. For it is his wife that rules the government, and is trying to carry out the old order of China. Perhaps the older generation will now see the reason for why we, in those early days, were ever hearing about "The Yellow Peril." The old root was still very prevalent.

The Stream of Life

GREAT wisdom has been descending in the Waters and guiding man, but the majority have not been able to take the guidance given. This accounts for the fantastic things that the scientists have been creating. Thus China, Nigeria and many others seeking to go forward, but lacking experience, will awaken and find their feet. Aquarius has demanded the unification of the atomic and the magnetic, which would result in man becoming electrified, but this has to be done through man by natural causes. The wherewithal coming from the Source that gave him birth.

Up to the present, man has only turned to the negative side of the atomic, and all could have resulted in an atomic war. But this was saved by the Scapegoat lifting up the planes and out-witting the scientist. The latter was only taking the formless side of spirit and turning it into form, man having lost the true understanding of spirit through religion turning it into a sea of ritual and dogma.

If man had turned to life after death as the continuance of his journey, he would have used the earth journey for its true purpose. Instead of turning to the right side of Scorpio, bringing the glory of the heavens into birth, he merely lived for moon in Scorpio, a state of earthy desire. The Central Sun, which is ruling the earth now, is the Sun in Scorpio, the true spiritual generative unfoldment.

UNLESS MAN INDEPENDENTLY RAISES UP THE SPIRIT, HE MERELY REMAINS AS FLESH, AND EVENTUALLY THE SOUL CREATION BECOMES AN AUTOMATON.

This is what religion and the ruling of China was bringing the world to. Now everybody is forced onto their own feet, and being made to raise up the spirit as the thinking facility of expansion.

This also accounts for such as the Beatles, the Hippies and such like breaking forth in the young, they are all trying to find a new way of life. When really it lies in them turning to the creation of life, and bringing the past to a polarised point of greater unfoldment. It was the magnetic state of the Seed, the life growth, that caused man to become inert, so the Powers of spirit had to use a Scapegoat to lift up the planes by their belief, and the electro-magnetic was born, followed by the atomisation and electrification.

THIS IS WHAT UNIVERSAL PHILOSOPHY HAS BEEN TEACHING MAN, AND IS NOT JUST A SCHOOLING OF EARTH THOUGHT, BUT A MIGHTY ACADEMY OF SPIRIT HAVING BEEN EARTHED, BRINGING NEW LIFE AND TRUTH UNTO THE RACE.

This has linking with the "Flying Saucer" controversy, which in the depths of it is true, but needed enquiry of a higher nature to bring its reality into birth. These are the higher planes making contact with man, but only through the formless taking on the creation of form to be seen and understood.

THE SPIRIT CREATION THAT DESCENDED MADE EMBODIMENT THIS WAY WITH THE HUMAN SOUL, AND WOULD TRY AND ACT THROUGH THE MAN, TO STIR THE WORLD AND BRING NEW LIFE.

This is the negative of what should have been, which I have already explained in the former part of this Reminiscence. For the upper Planes were feeling the effect of man and his inert attitude towards life, for that was all that man was sending up to the heavens. By the Scapegoat over-riding this, and sending up expanded wisdom, no longer were the earthy creations ascending and re-descending to accentuate what was already established, but wisdom supplemented, to re-innoculate the world with new thought and ideas.

This is what is known as a new Stream coming forth from the heavens, and the last of the four mentioned in the Bible. Now man will open up, naturally a little upside down at first, then his own inner light of his higher mind, will start to send down "drips" to the depths, and a new drive will begin towards unfoldment.

Spiritualism, which should have been the bridge between earth and the outer planes, merely remained with the astral planes, to see by the television review of its finale. For its real unfoldment, that could have come into birth, was destroyed by the materialists, and only remained in the hands of the lower astral, and sought for earthy messages. Thus more detrimental than any proof of survival.

So man had to be jolted out of his state of inertia, only to find himself heavily embedded in the state of desire. Hence food and fantastic creations came forth to satisfy the craving. But this can be seen in a number of things, especially in women in prison setting light to themselves. Forced into the very depths of matter, whereby they should have been made to raise up their minds by a schooling of greater thought, they perceived in the dregs they were in, that to get "fired" was the answer.

This was nothing whatever to do with the pyre burning of Vietnam, it is a natural response to the order of the day. For it is FIRE and WATER that creates MIND, and that is what the soul is crying out for.

For it is only the conscious mind that is creating the evil in life, not the higher mind, thus once again it is a case of Cain killing off Abel. The upper light is sending down to the depths urgent messages to the conscious mind to get moving, otherwise the upper will become impregnated with the depths, and die. This is what the medical and Justices of the law do not understand, they are too deep in their text books and statutes.

The real genealogy of the soul is completely lost to them, for they do not believe in soul, and if mentioned in a court case, close down at once. Most offences created by man is his limited way of expansion and getting experience. Training of the young mind into the real purpose of life is the answer, which immediately comes to the mighty changes that must begin in the schools first. Who wants to continually hear about Caesar and his brood, prayers of an antiquat-

ed nature ever being recited, and delicate truths being given over to young sons, in such a way as to incite curiosity.

The Christos Light

SO it can be seen, all this and much more entails a complete new order of balance and acceptance by those who are seeking to put themselves up as teachers of such young and tender minds. What man

but now by reality of his conscious mind awakening to the fact. Yes! he was born from the earth, not because the earth was the major consistency, but because of his FALL into the depths he was nurtured as the scarab in the dung of matter. Soul created in the descent, and a god at that, was rolled into the dung and as the egg, nurtured into bringing forth the MAN, the heavenly Christos light of the heavens.

woman than man, for she had roots seven fathoms deep, while man who had already risen up, but only hovered and skimmed over the surface, was more fluidic. Thus was able to draw down the Fire from the heights.

Woman was ever born of the foul earth of the underworld, through man more and more over-loading her with his desires and delights. He rose up and only remained hedge-hopping up and down, ever being drawn by the memory of his roots, which woman kept alive, these being the Lilliths. But now, through her being raised up and emancipated by Merope, she is ready to take her place in the world of competition and expansion. For it is not so far off before greater changes will begin and the old world completely obliterated. Form, laws, religion, assessment and expansion, will be completely of a unified creation, and demanding greater justice.

UP TO THE PRESENT, MONEY HAS DIRECTED THE PURPOSE, NOW IT WILL BE MIND AND ABILITY, A WORLD OF MIND CREATION.

Not by text book ruling, but creative order and originality. Yet while it is growing its roots, it will be very uncomfortable, for these roots will not be of the earth, but the spiritus air of the mind. That which in time entails a flying capacity, where the soul must learn to spin up through frequency of belief. This is the most important thing, seeking into life, assessing and deliberating, thereby establishing a new order of action.

The Divine Wisdom

MEROPE has so raised up the Planes and placed the Begotten Divinity up on the Arc as the Supreme Intelligencia, that a world of light is now about to come forth. For in her so doing this, she brought forth the Great Flame as the unfolding might of her own mind, and the true Christ was born.

Thus a change greater than this Generation has ever known, is now looming into being, when those who considered themselves important, will find such theories and beliefs utterly erroneous and antiquated, for the solidified state of flesh must die, and the spirit become the glory of the emancipated bodies. This is what is seen as pernicious anaemia and leukaemia, until they learn of the truth. The tragedy lies in the soul being induced to partake of chemical drugs, which in the end, destroy the transubstantiation that has taken place, for these souls ruled by old antiquated text books, do not understand SOUL.

It is when man learns to draw in and build up of the Solar light through the study of true mind wisdom, that he

will find the antidote to his problem. I know this to be true, for I cured leukaemia this way; I had to be the first victim to the change-over. These are the Laws of Rebirth and Regeneration that are now taking place, whereby the new world begins. This is where we can truly look into Revelations 22, and try to fathom its message.

If we can but view the situation in an unbiased way, we will see that every creation of expression, is a form of rebirth towards a greater mind expression. Whether Hippy, mini-skirt, Beatle, drug or crime, is merely the soul's way of finding the answer.

Even psychicism or mysticism have come into the picture, and denotes the amount of stagnancy or fixity that is with the soul. For all this comes into birth through the inner bodies, and as they so radiate, is the soul freeing itself from the captivity the god has buried itself in. Yet here we come to the illusion of the soul when he is directed by his better self, for just recently a man climbed up to the heights of St. Paul's Cathedral to touch the golden cross on the top. When in reality he was being directed, by that higher mind, to spin up to his heights, and bring his own golden divinity into birth.

He was so imbued by the rubbish that religion has infused into the mind of man, that he failed to follow the true direction of his mind. Which alone accounts for those awakening in religious sects, walking out and seeking true fields of wisdom.

This is how we misconstrue the guidance we receive, often through our own egoism, or badly salted religious states. But with regard to this just stated, funnily enough, one of the initiates in the School, had placed an Occult Gazette under the cross in a hidden alcove.

So perhaps unconsciously to his conscious mind, he was seeking for the true WORD elevated up to the heights. Then on the other hand, we hear of poor Dilski the ELEphant that was pitched into a ditch by Lakshmi her lesser creation, as they both struggled for one solitary peanut. This naturally was the nut point that both ELEphants were striving for, but it resulted in poor Dilski getting a heart attack and dying.

The question is, which of the two was the upper or lower EL Power?

And another, can any of these things be just chance, or a part of the pattern of life. For to my way of thinking, nothing can be just chance, but the way of the LAW, and man complying with it in the negative or the positive. For I have always seen a parallel with all, and looked on amazed.

THE DRY HEART

MAN bound and held in the figment of illusion, with a heart that is dry and beats not the dancing truths that could sing of the joys of living; all enmeshed in the degradation of self, the darkness of the silent choir. (See text on page 8, col. 3).

considers his poison, really is the antidote. Unification of the root with the present growth, and man will find the answer to his problems. For it dissolves the intermediary, and he sees quite clearly out of it all, and the need for his salvation. It is the marrying up of the problem through wisdom, that brings a clearer perception to the soul's understanding.

For man is not really left without guidance, as all is a state of sequence; one state producing another, but as to whether it be positive or negative, is another point. But since a Scapegoat has cleared the way, all is clear for every man to go forth without him creating the errors he has been doing. His only labour now is to seek into the wisdom, and the way is shown quite clearly, apart from the fact that by studying the wisdom, it has already started to bury in old states by the mortuary meal received.

Yet for all that, man is now about to rise up out of the pit or rut he has been in for Ages, which he will by truth,

As he so brought forth of his higher mind into a state of rebirth through experience and suffering, he also brought forth of the Divinity of the Heavens, but in his conscious mind he only buried it in desire, never realising that his seminal waters were his most precious possession. It was by all the Heroes and Sages down the Ages bringing this growth into birth, that the Embodiment of 33 A.D. came about, to only be gathered up by the Bishops of Rome and lost in dogma and ritual.

Now man has got to bring the Christos light or lamb, born from the old sheep states, into birth. This is the Saturn state that has to become the Solar light; spirit born out of matter, with all the experiences of TIME as the glorified soul growth. Of course, while we as soul are passing through these states of rebirth, it can be very painful, for roots are torn out, old beliefs broken down, and what appeared as all, will become as illusion.

This is more painful to

THOUGHT

by Gladys I. Spearman-Cook

THIS article was penned in 1960, under the direction of Ra-Men-Ra, in answer to the question of "What and who is God," and explains how all such understanding is brought forth through the soul's own sensitised frequency of mind, enabling him to perceive the higher conception of Truth. Thus it can be seen the importance of a soul's thoughts, for they are his forming mind creation and the reflection of his spiritual growth. (Editor).

ONESS as Truth is God. Yet you may say, but every man has a different conception of Truth and Oneness, so how can it be God? Well, has not every man a different conception of God, and surely as he views God, Supreme Goodness and Truth, is God manifest within him. Therefore the highest point of conception in the world of man-creation would be the manifestation of God at that particular period of Truth. Although at periods it may be through one soul bringing a new Thought creation, who to the majority is considered for the time completely "out of bounds."

AS you so view the Vitalic or Vital Principle in life, is God as your basis of Creation. As you are able to bring a one-pointed state of comprehension into birth, are you drawing nearer to Oneness becoming born within you and Cosmos. For very few are able to be collective and comprehensive; most souls are ever in a transitory state of mutability to find a state of stability.

To be expansive, yet collective, is as one who is seeking outside the state of self and self-reflection; one breaking the bonds of limitation. This can only be done by a soul believing that there exists, independent of itself, a greater state, to which it, the soul can attain. Therefore it expands within itself to reach unto, and is not content to reside within its own limitation. This to the majority is God; Truth as far as that soul can embrace. So a soul when really prepared, can seek yet higher in what is termed hypotenuse and expound a greater conception of freedom.

When the soul can seek beyond a God of self-creation, it is ready for help or assistance by words giving the soul food for thought, whereby it struggles to know more. The "blue-sea of life" to become the "green-sea," via experience and understanding manifesting higher themes of thought.

Thought in man is the emanation of atoms and magnetic elements, or what man calls aura. The rotatory and transitory state of involution and evolution manifesting upon whatever plane these have been blended within the soul. Solar and Lunar states alchemicalised within the man as thought creation.

These within the soul are as good and evil, night and day, joy and pain, producing something that is creative, fecundative and evolutionary. For only through human thought is evolution as creation, brought forth, which is ever a manifestation of God in realisation. Therefore once again let us seek further together into this enquiry; but do remember, it is very difficult to bring Spirit finesse right down to matter in very simple words, for immediately you do, it becomes of matter and lost to your gaze. It is by being of finesse it retains its spiritual context, that of the plane beyond earth; or as your plane of thinking capacity.

But what man must seek to do is draw to him of yet further than just beyond the earth, by raising himself up to it, in his becoming of "finesse" in Thought via body, soul and spirit. It is most necessary that man makes some effort to reach up and solve that beyond himself. By such he reaches outside of self, and a new awareness is born within, which is earth and Spirit

blending. Earth and outer space.

SO to aid you let us seek into this enquiry, "Be fruitful and multiply and replenish the earth." What do those words mean?

To understand this in its true concept, you must try to visualise that of the protoplasmic "dust"; that which was the "beginning" of Creation, the Cosmos as known today. That from which all, now known as form, began its journey; Nebulae.

From these atoms and cells creatures were germinated by the panoplying Divine Hierarchy, or yet higher Powers of Being which control the lower. For all Life is as grades of Being, and that of Higher ever remains, but is ever unfolding and becoming as man receives of Their Atoms and evolves. They are the Sons of God as Species of Mankind, that become human creation in time. Better known to you as Cosmic Rays, or Atoms of Life.

Thus was Earth—and still is—being reinforced from Heaven and sustained in productivity. Yet, according to how man receives, recreates or crucifies, is he sustained. For this Aura which proceeds from the Divine Hierarchy is the protoplasmic Essence, fluid or light which manifests spontaneously in the menstruum and semen of all earthly procreators. That of the life force of human beings.

This protoplasm, whether you wish to accept it or not, is the cosmical substance created and evolved out of the Aura of the Gods and GOD, transmuted into the Planetary and Solar Stuff, that transmigrating and reincarnating creatures are transformed from—LIFE FORCE.

This "Dust" is mediated through many mediative channels, but in its first Existence came forth from God as the emanation of Logos or Thought-force: "Beginning with God." IT or ONENESS, as That not manifested but "Begotten."

Thus since all is and must be transitory, origin is Thought-Force, the Mind of Man or God as Supreme Goodness, which is beyond the comprehension of most human souls, although each perceives according to its own state of awareness. But what man must perceive is that he as form and solid substance is the base of What is; and what is, is he going to become by a Law of Change called Cause and Effect.

Even the state known as "Noughtness" is still Thought-force; for there is no such thing as vacuum until all is drawn in unto suspension, called Pralaya; there to await fresh creation as Thought-Force in the germinating factor bursting forth again.

HERBAL MYSTERIES Part 3

BROOM (Cytisus Scoparius)

by David Spearman-Cook

THIS month, Broom is the herb we will turn to, and reveal its hidden qualities, for it is a very common plant growing in the ditches and the hedges. Ancient literature states that it was once made into brooms and used by the witches to fly across the heavens. But this is due to the fact that it has the quality that helps to sweep away the cobwebs. There is a basic of a saline content with it, whereby it draws out of the soil whilst it is growing, the true mineral salts. If perchance the herb is gathered from around a natural healing spring all the better; but as to whether there is a good healing spring that is not polluted, is another matter. But it is a very good practice at all times, to gather your herbs from their natural surroundings.

THE power of extraction that is with this herb gives it the ability when taken by the soul, to penetrate the very tissues, thereby break down any acidity created by the wear and tear of the muscles.

The acidity being the waste from the lack of perfectly balancing the earth states with the spirit; the soul not continuing with the spirit creation put into operation in a previous life, but going back on themselves. Thus driving their minds and desires in a completely earthy enterprise, which results in the liver, the balancing factor of the soul, being chaotic in its action.

TURNING TO THE WORD IS THE FIRST LINE OF APPROACH, AND THE BASIC INGREDIENT THAT WILL BEGIN THE FIRST RELEASE, THEN THIS HERB WILL DO WONDERS TO ASSIST.

Broom is a herb that has a rejuvenating essence, and in time could become a household stimulus, if the soul patiently accepts the fact that the herb and time can prove its beneficial properties. For it really gives a cleansing action to all the fiery channels and the canals of the soul.

Many state that this herb is under the ruling of Mars, but

It is through this new age, Thought-manifestation, that worlds are volubly changing; and man is being urged to renounce and become, so that he can solve the many problems that are besetting him at the present moment through possessiveness or worldliness. For it will only be this way that he can beat the world and reach upwards and go onwards,—his ordained journey—and avoid suffering.

Therefore receive of the healing balm of life-force or vitalic principle gained from out of the endeavour of thought penetration and mind creation. The manifestation of God within, as the heart purpose of a soul who is prepared to renounce and serve a world sick with doubt and self.

Thus "Be fruitful and multiply and replenish the earth."

This is evolution and Humanity marching onwards to its ordained destination. Where all that be is ordained, for all must be drawn back to its first Cause. This solves the mystery of Alpha and Omega.

BUT AS TO HOW MAN FULFILLS THAT JOURNEY LIES IN HIS OWN HANDS AS A PERSONALITY, A CREATOR CREATED IN THE IMAGE OF GOD, GIVING HIM EITHER THE RIGHT TO BECOMING, OR HIS LOSING THE WAY; CONSECUTIVE THOUGHT NO LONGER BECOMING HIS RIGHT OF MANHOOD.

I say it is a Venusian herb which needs the Martian will of the soul to bring about the healing required. For by blending the two, it can bring forth a positive result sooner or later.

It was once used by the Egyptians as one of the ingredients used during the embalming, and certainly used most profusely during the process of preparing the canopic jars for the sacred organs of the Priest or Priestess of mighty Egypt. Showing how they knew of wisdom unknown to man today, and of which we are striving to revive.

By the brain and other metabolising organs of the body being preserved, it alone displays the sacredness of their belief in the understanding and cherishing of their creative channels of mind unfolding, with this herb helping to lead to this supreme end.

For they believed that its powers could help them to revive those powers when they returned into the tomb, to continue their influence over the Earth. And who are we, who are too limited in knowledge and wisdom, to doubt or argue against mystical depths that have been lost.

THE POWER OF THIS REJUVENATING HERB CAN RELEASE THE OVERSTRESSED AND CONGESTED CHANNELS OF FIRE, THAT IS, THE WOMB AND THE KIDNEYS.

If one can see the Earth as being the WOMB of the Cosmos which receives the Fiery Powers of the Heavens, we shall also be able to see woman as the earth that receives of the generative fire through man, and by this fact, this herb will be good for cleansing the womb from most of the known troubles that occur in that direction.

The old midwife found it very successful in the removal

of the after-birth after child bearing, for it swiftly cleanses and saves many an unnecessary dizzy spell that can follow from an unclean womb. It is indeed a woman's friend, for it is a known fact, that it can rejuvenate the soul that is ever being called to give forth of its love. For she more than man, is almost hourly called upon in some way or another to administer this true Venusian virtue.

A wineglassful during the day could soon become a natural habit, and from the benefit received, could in due course, replace that often sought for cup of tea. By the taking of it, fiery channels can be opened up, and in time an improved feeling of better health can be felt by the soul.

It is also known to release the strained effect upon the eyes, and as they are the outlook to one's inner feelings, it will soon be noticed that an inner cleansing by a mixture of Broom and Buchu, will change a tired and suppressed feeling of inertia. As stated earlier, it can also sweep away the cobwebs of the mind, and will, if taken during a dieting period, help the soul in the same way as Rosemary.

The Rose being the love born out of the nurturing of the mind, that as the child of the soul, it can become with continual struggle, the god-head of the soul. And is the true comprehension against the papal religious nonsense that they practice in the killing off of the beauties and sensitivity of this mighty unfolding of soul growth.

Further, a sore mouth and an accessible abscess, can be smoothly dealt with by a Broom rinse during this period, and according to the ancients, if it still persisted, a small bunch of this freshly cut herb under one's pillow, could bring ease by morning.

The fresh leaves are used by many for salads, but I would advise any who would wish to partake of Broom, to take it in a liquid form by the infusing in nearly boiling water. This way it goes through the fiery channels, and does not remain in the bowels through the lack of digesting.

It is also good for the thymus and helps to activate it, therefore young souls being brought up in the future under the wing of a parent that is guided along the Vega path, can be directed straight into the higher Teachings. Thereby carrying forth the wisdom left by the ancients, that if they have control of the young up to the state of puberty, they have set them on the path for life.

BUT NOW OF COURSE, IT IS THE WORD OF UNIVERSAL PHILOSOPHY AS THE VEGA WORLD, THAT IS THE FUTURE PLANE OF UNFOLDMENT.

So if the young are taught the true spiritual wisdom, and

THE TRANSMUTATION OF SATURN

The Lord of the Flame made the following announcement during the Lecture on Sunday the 17th September, 1967

NOW I want you to listen very very diligently to what I am about to tell you. Between now and the Christmastide, when the New Inflow comes from the Heights, vast changes are going to take place; for this has been a year of planting New Growth. The next three months are going to be very very important, for all Saturn states are going to be called in, so that every man is ready for his Solar birth. If at the Christmastide you do not warrant the Solar birth,—whether it is only atoms or creations,—then you will go through a state of purging, until these states and roots are pulled out. Changes have already started, which accounts for the stagnancy that is with the world and which is so obvious to the Instrument; for this represents the barren ground that is now going to be sown with New Light. It is a very very important time, and my advice to those of you inside the Temple is to stick closely to your task and the work you are being given to do, and particularly the Wisdom. You will not regret it; you will be grateful that you made yourself diligent over these next few months. Watch your diet, and do not allow 'deluge' to take over. It is so important; far more important than you realise. For the Instrument has just started this New Journey on the Waters of dissolving the Saturn states. The Saturn states must no longer remain in the lives of human beings; they must be dissolved, for they are impeding the way of many from Intercalary-birth; birth of Service; and interfering in many other ways. So do listen very diligently to what I say, and you will not regret one moment of your struggles. Allow these states to be buried-in; try to be fluidic and pliable. Allow the Wisdom to probe through you; then it will help you to meet the counteracting states that must take place.

SATURN HAS HAD A 'RUN' FAR TOO LONG, AND MUST NOW BE BROUGHT TO A CLOSE.

DO NOT LET THESE WORDS PASS YOU BY, BUT LISTEN VERY DILIGENTLY TO WHAT I SAY.

Saturn states are no longer going to last; they are going to be turned-in by the 'mortuary meal.' But all of you are receiving the 'mortuary meal' through the Wisdom, whereby you are able to turn these states in.

◆◆ ◆◆ ◆◆
WHAT can happen to you individually is all according to where you have Saturn placed. Saturn in the 1st house could result in complete degradation of the mind. In the heights, the 10th house of the Chart, the soul has to learn that they now have to bend deeply in Service, whatever Service is allotted unto them. It will not now be for them to judge what they want, but for them to 'give in Service'; because Saturn in the 10th indicates that there has been a refusal of the right type of Service over the years. Saturn in the 2nd house interferes with the blending of the Seed with the Bull; he is not taking it properly; he is taking it his own way, and usually in 'desires.' Saturn in the 5th house,—which is where the Instrument has hers,—is where she has to get the 'fire' electrified and brought up to the Heavens.

Wherever Saturn is placed, it has its intensification upon the house. So it has now got to be buried-in, for it is an old state that fell in the depths, and only brought sulphuric gas. If you turned Saturn in by the Word, and abided by what is demanded for it to be turned-in, you would gain the magnitude of its wealth. Saturn is difficult to master, but with the Word, this brings you the fluidity you need.

◆◆ ◆◆ ◆◆
MEROPE raised up to the Heights the Christos state that is coming into birth within the soul,—represented by Fomalhaut as the 'Man,'—as the Glories of the Heavens, in the glories within her own mind; raising up the Glories of the Divinity and placing HIM upon the Solar Orb, and within its Inner Being. What you have to remember, is that all these states are within man himself, and man now is so born of the Heavenly Waters that he now is Christed. Every man is of the Christed state.

SO YOU CAN SEE WHY YOU HAVE GOT TO BURY-IN SATURN!

When you can bring this forward in its divine state, by what you have created in your own 'arc,' you will bring forth these Waters, and so feed the Word, that you are going to bring the Golden Eye of Fomalhaut into the glorious Eye of Aldebaran; changing the 'beam' of your own godhead in the heights.

That is the birth of Vulcan in the 8th state. So Vulcan is the birth of the Godhead within your own mind. Everybody now is born of this, but it does not mean to say that you have it manifesting in the heights; plenty have it only as knowledge, and not as 'radiant light.' This is what you have to bring forth in your 11th house, out of the bloodstream and the glories of the 'fire' that has now been raised up to the glory of the Mind, the unfolding Mind-state.

So do endeavour to perceive this clearly; that everything is born within you, and you either give birth to the animal, or you give birth to the Divinity. And the higher you think, the greater you think, the more you give it life; but you must tread it into the depths by being a living epitome of it. All this has been coming into birth through the many many Heroes and many Scapegoats; but none were able to bring the Christos into birth, because they never went up to the heights of Neptune.

You have got to go right up to the Heights and bring forth the Vulcan beauty. The Pitch-blende is that which binds all into the Divinity, and the soul is born of the Solar-heart. The more the soul is able to raise up his mind, see the depths, and perceive and feel the glories within his own inner being, the more will he radiate and be of this Glory, which will become a living state within him.

Renunciation is necessary upon this Path, but the more you understand, the more you will want to renounce, and say, "I must be of such..." "I am willing to forego anything that I can dance with the Glorious Light. Nothing can take Its place. I am It, and It is me." So born will it be within your blood, and now radiating as the 'arc' upon your head.

It is through Vulcan that the new Cosmic Man thrives. The great Orion Man; the glorious Man that masters the elements; and that is what has happened. You have now become an Isotope, and having become an Isotope, then naturally you have to gather your wealth from out of the higher Waters, the great Wealth of Outer Space. For there are many many other states that have never yet been manifested, untold Wealth that has never yet been heard of; a higher propensity of what you already know, to help you to greater Wealth.

religion, how God is the Light of the World; and yet they have not known one word of what they were talking about!

AS GLADYS SPEARMAN-COOK ROSE ABOVE ALL OTHERS IN FREQUENCY OF UNDERSTANDING AND BELIEF, SO SHE BECAME THE LAWMAKER OF THE AGE. IN RISING IN FREQUENCY ABOVE THE OLD LAWS, MADE HER THE RULING FACTOR OF THE COSMOS; FOR AS SHE CREATED UPON THOSE HIGHER REALMS OF NEPTUNE, SO DID THOSE CREATIONS BECOME THE NEW LAW AS THE BIRTH OF THE NEW

MIND-PLANE OF VEGA, THEREBY SUPERSEDING ALL OLD CREATIONS OF THE PAST.

◆◆ ◆◆ ◆◆
NO man can avoid these Laws, for they are contained in the very elements he breathes in as breath, and will gradually change him, though unknown to himself.

Powers greater than ever known before are now descending to the earth, being drawn down by the Scapegoat; yet these changes are only seen by form-bound scientists as a greater intensity of inflowing Cosmic Rays, which they map and measure in great detail, yet have not the slightest idea of the why and wherefore of the whole of their imbecilic performance!

There is no fixed course of study for Universal Philosophy, for there is ever a greater expansion upon the Truth

being brought forth. Unless there is this expansion, the world stagnates and evolution comes to a standstill. This is what all religions have refused to accept; they would not expand onto the greater, and so will die out, as the new is brought into birth.

UNTIL MAN DOES SEEK OF EXPANSION, HE WILL HAVE TO CONTINUALLY RETURN TO THE EARTH IN A STATE OF REINCAR-NATION, IN ORDER TO BURY-IN HIS OLD ERRONEOUS IDEAS OF THE PAST, AND BRING THE DIVINE SPIRITUAL POLARITY INTO BIRTH.

Before the Fall, it was a world of the gods; now, in the Age of Relativity, man must return to that god-state, but this time with an expanded mind-creation, where he is perceiving the glory of the Godhead, and striving in

every way to bring Him into ever greater glory within his own being.

Man has been given all the answers through the Teachings of Universal Philosophy; he now only has to accept them and put them into operation. The ultimate secret of Universal Philosophy, however, lies solely within the mind; for man is only mind, and as he so raises his frequency of thought to a higher dimension, will he imbibe of the greater truths.

THIS IS THE BASIC UNDERSTANDING OF THE TEACHINGS OF UNIVERSAL PHILOSOPHY; ANY FURTHER UNDERSTANDING WILL ONLY COME THROUGH THE SENSITISING OF THE BODY, AND THE RAISING OF THE MIND ONTO A HIGHER FREQUENCY OF ASPIRATIONAL BELIEF.

Egyptian Mysteries

the senses being twisted and bent into new shape. This has reaction upon the physical in its multitudinous states of abnormality and corruption.

It is the bodies in their readjustment being registered in the senses and forcing mind acceptance, that causes the soul to twist and turn from the angle of will and desire. This again brings us back to the three vagrants; Mars chasing Venus, and the mind looking on and perceiving, and Venus tempting Mars, and the mind acting as conscience and seeking to adjust. This was seen as the warring hawk and serpent in Egyptian hieroglyphics.

When man can come to the understanding that in the law of life, the body is but a vessel to carry the spirit that is being nourished by the Word, and as the fish is spawning through the nocturnal waters, he will turn to the creation that is being produced from this performance, and give it more serious attention. It is the fish, the Word, that fights its way upstream; the Word being the evolving sun-god as the Spirit.

Yet further it is difficult for man to comprehend that such races as the Akkad, Babylonians and Cushites existed before the Abyss of beginning, the lower firmament, and that he came from these races. These races were in the descent, and becoming born of the Great Mother, that there could be an advance towards the birth of the Fatherhood in the solar-god. The Great Mother was as a fish or dragon, a crocodile in the Abyss, who swallowed up all that man sent forth and regurgitated it for man to reform and rebuild.

Yet man became a fish also, he born into spiritual growth from the Holy Ghost sent forth from the Great Mother. She who receives from her sons but also from the Father, the upper Firmament, and between the two she is replenished, and of such does she replenish the firmaments. This in the starry heavens is seen as Ketos the fish with his mouth wide open, and according to Egyptian wisdom began at the source of the Nile, where the Eridanus poured its spiritual wealth into those earthly waters.

There heaven and earth met in connubial bliss and conveyed to the earth, the daughter of the Great Mother, the gifts of the Father. This was the God that penetrated the depths; but as of the world so of man, for he is the son of the Great Mother, and he receives of the spiritual waters through his firmament, his spiritual body, for the daughter of the mother; waters to bring forth as the mind creation. This he must give to the Great Mother as her garments of light and not nagas of evil.

The Higher Firmament

In earlier legends it was stated that the flood came before the earth, and that she in turn floated in those waters. It is obvious that the first flood applies to Spirit inundation that caused chaos in the lowest creation of the differentiation. It was this that caused the Fall into the dark depths of Abyss where the seething mass began to cool and solidify, awaiting the rebirth of souls.

This began to rise upwards in the lowest, but also inwards in desire, which resulted in hardened non-sensitive beings coming forth in solidifying states. Whereas they

had been of opaque spiritual sensitivity, they now began to harden and become solid selfish creatures; souls seeking to appease the inward urge to satisfy the craving to possess. For up till now all had been of inward creation, now it was of outward and mind formation where unity could produce, but of mind transportation.

IT WAS FROM HERE THAT THE GREAT MOTHER DREW HER LIFE; SHE WHO WAS THE SPOUSE OF THE FATHER, DREW ALL FROM THE WOMB AMENTA WHERE SHE MADE HER JOURNEY THROUGH THE TUAT, THE PASSAGE OF LIFE CREATION.

This journey ran as the Nile through the thirsty land, and as fire and water brought life into being; the "Water's well." This was where Apap lurked, and Shu the wise one declared "If he who is in the water opens his mouth, I will let the earth fall into the water's well."

Yet Apap was as a dual creation, the crocodile as the dragon of water and Apap the dragon of drought; he who gobbled up the waters. These two were the warring monsters who were ever in a state of action as Sebek and Sebau, the fiery dragon of drought and the crocodile of water, and in man became his fourth and second houses, Taurus and Cancer, who were ever warring in possession and delights. Shu was the mind lodged in between the two, who states that, "If he who is in the Waters opens his mouth, I will let the earthy state fall into the waters and become reborn." If not, all will become gobbled up and lost for the time being.

Apap was seen as a great serpent, the impersonation of spiritual evil; the head of the powers of darkness against whom the sun, under the form of Ra or Horus, waged his daily war. He is represented as a serpent of many folds, having a knife stuck into each, and is represented in the zodiac as the north and south nodes of the Moon, and is the war that is waged between the Sun and Saturn. As to that which is accepted as light and that as desire, all is measured as it reaches the house of Aries, and goes forth in the quality denominated by the influence the first house sign has upon the personality rebirth.

This is where the seeds sprout and spring forth, then the head eats up wherever it is placed, and sends all through to the tail and feeds that junction, and has linking with the war ever being determined between the Moon and Venus, 4th and 2nd. It is these that bring the drought and flood.

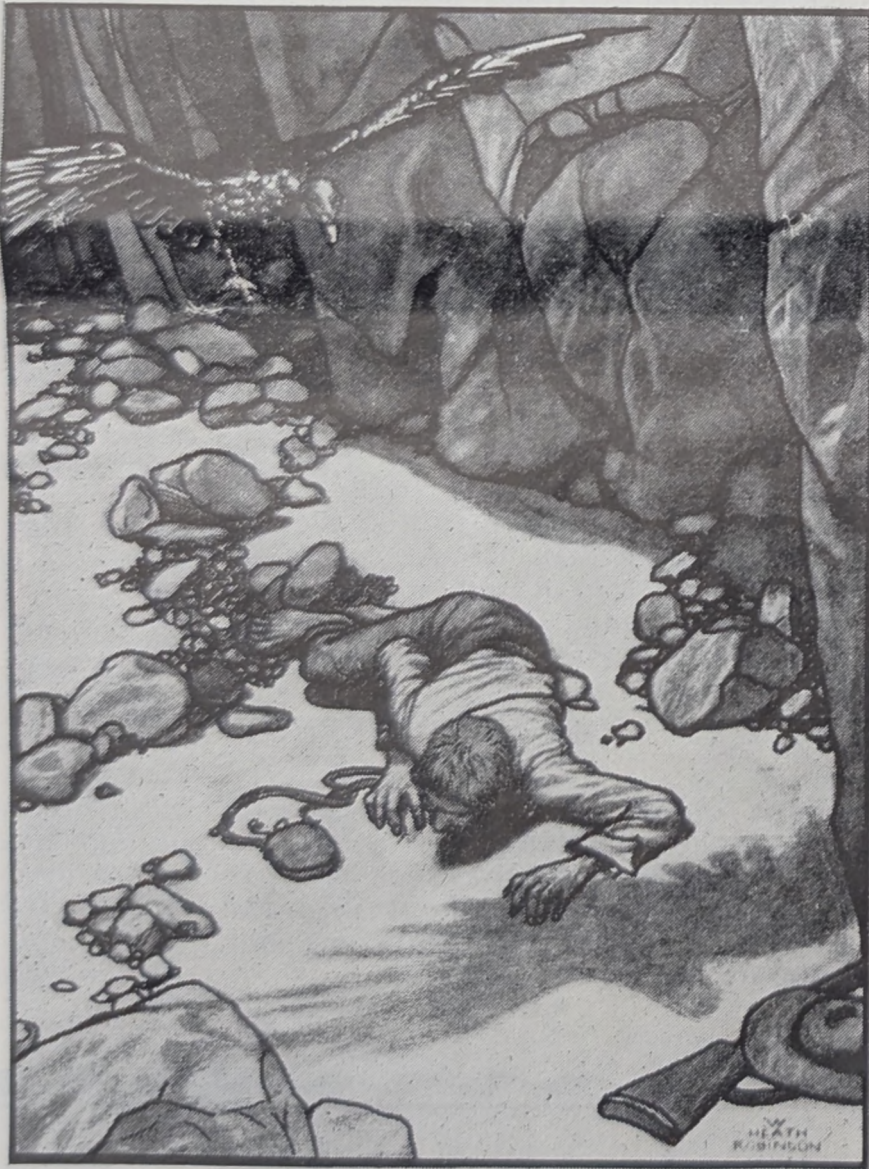

These were all visualized in the constellations, which when analysed brings its rhyme and reason, for it was the higher firmament that fed the Mother, and she created the lower; thus the reflection in the waters.

The mother became the breeder of life, the bringer forth in the Abyss water; but even here she was dual in action, the bringer forth on dry ground as the hippopotamus who gave birth to the children of earth, and yet she was as a Fish who gave birth to the Word deep down in the depths. They became in their more mundane sense the monster of dry ground as the Behemoth, and dragon of the waters as the Leviathan; the feminine and masculine creations of life.

These are the two warring monsters that man has to wrestle with; the two that ever pull him asunder, in that he is fed by Behemoth the Great Mother Kep, while her male son the Leviathan seeks to wrest it back as the possessions of his heritage. Yet they are but the dual states of the Great Whale, the Southern Fish Ketos. This spat forth the first two children of life, Sut and Horus, in the abyss of waters, which began to create yet further through the two-fold principle, and became the habitat of hideous beings through worldliness leading man into conventional ideas.

Later on She became the Omoroqa, the Great Cow as the milch cow of heaven and the water cow of earth. Although we will be inclined to see as of the past, it is of such that man is created and retains of such things in his blood-stream structure. Water being its basic element, links with the theory that the Beginning of Creation was from the Waters of Life; this began as uncreated ground in the midst of firmamental water.

Water is the fundamental of life and from which all fish come forth; it even carries the soul up into the sperming ground, which is revealed to man as he so discovers the issue from below. For these two great streams are the radiations of life, and produce his own blood force as he unites the two within his own being. From then onwards this unity has been spiralling upwards, making for its own upper waters.

THE DRY WATER POT

BE LABOURED and belittled, lost to the purpose of life, all fire gone and the vulture descending amidst the rocks of time. Thus completely in the gluttony of Saturn, the greed of the flesh and its kine. (See text on page 16, col. 5).

Therefore these two streams, in being united, had the means of propelling the soul upwards from one water to the other. It was the higher flowing into the depths that produced the lower, thus they were both of the mystical Waters of Creation, and produced in rebirth the soul who could fight upstream and find that divine breeding place.

This is the uniting of earth with Spirit, in that the spirit which is raising up the soul to find the "yellow mandrake," is reborn through the divine

waters that issue from the two uniting; and will be the means of revealing the secret spawning ground of that mystical Fish.

This is the way the new creature of life is being born, a drastic but divine way; for the soul made earthy by being in the lower waters so long does not realise of the opportunity that lies open to him; freedom from captivity. The "yellow mandrake" is seen but rarely in the lower waters, if ever at all; this when captured and eaten will give to the soul the secret of divine wisdom.

Knowledge known to the ancients but sadly disputed by him today; yet the eating of that fish and uniting of those waters are the means of revealing the secret he requires, the birth of the mind body that will give him the right to reside forever in the upper waters.

This Ichthus fish is a secret fish issued from the mouth of the Great Fish, who upon being caught will declare, "The holy writing of the mouth of the deep is thine." Yet the first child born from the devouring of these fish is not a human child, but one destined to be a saviour of the world; one who will become of the Gods, and receive from them the secret power of raising up the lost ones out of the muddy lower waters. Those caught in the swamps, and who will die if they do not receive of the waters from which they can find the virile force to energise their sodden tissue and wasted bloodstream.

all raised up will have equal power to devour of these divine fish, and become divinized as the one who began the divine secret of the "yellow mandrake."

The secret to becoming divinized, that the soul can enter into the Holy Solar Mansion, is by the divine stream of the Gods, the upper waters. As man made entrance into life through the womb of life, will he return the way he came; by climbing up through the lost road which is back through his own internal womb, the organ of his own internal bodies.

This is in charge of the virgin, who is ever watching over her young child seeking to grope its way back and forward through the mind creation, that issues forth from the generative mysterious faculty. Yet as above so below, for all souls come forth from the Great Mother's Womb, having become lost through losing the secret of return, and so changed the shape of their being, that the return became more complicated; for the way back had to begin by entrance through that door badly spattered and seared.

So the soul had to go down into the depths and declare himself free that he could begin that journey back; for to reach those heights he began at the door in the extreme depths and travelled by the tortuous internal journey. This is the mystery of the Vesica Piscis, the entrance and return of soul from matter to Spirit.

The virgin and her handmaidens hold the key to this mystery, she who ordains the issue of the yellow mandrake hidden in the secret fount of the glass mountain; the mysterious heights to the soul's extreme depths. But so that the soul shall be nourished on that road, the springs of water issuing forth from the breast of Mother-earth, she who is wet nurse to all souls, will strengthen and revive him as he ever seeks to climb upwards and onwards. This is a mystery that can only be revealed in secret, for the man who possesses of this key knows an answer that can become dangerous unless approached with awe and courage.

Yet the source of water coming to him from the Old Wet Nurse also teaches of mystery, for here is another origin of worship regarding wells and springs. Another long lost secret which lies buried in man's flesh, and secretly dancing in his own inner stream of blood-life. These wells and springs are of swift running water and are holy, for they hold in their waters the holy fire from the secret lost in Atlantis, and so clearly defined in the early Books of the Holy Writ.

It was at these wells that Moses drew forth of the waters and succoured the children of Israel. This life can still be obtained but only through the life that gave source to those running waters, for man has so evolved and involved in worldliness, that the demand of becoming is more extenuated than of yore. Thus what was declared in the Osirian ritual is still extant, but by the further spokes of the wheel being revealed in the turning and now within the soul's own being.

These waters, both in the Great Mother and in man, link the upper Waters with the lower waters, and as those wells once had power to give of life literally, so has man the power to also give of life and purifying qualities; that which gives to Osiris the same power as Mother Earth.

The Solarised Soul

ONCE a divinized soul begins a stream of "water" flowing into the midst of life, through the opening of the secret door, souls lost to purpose and possibility will begin to revive and become born from those waters. Thus all will become raised up and a new plan of creation will be revealed to the human eye. Then a greater Ichthus Fish will swim to the earth with yet another message; but

ONCE MAN ACQUIRES THIS, HE WILL FIND THAT THAT BUBBLING FOUNT HOLDS OF LIQUID LIFE THAT ISSUES FROM A SOURCE OF A DEPTH WITHOUT END; THE MYSTICAL ABYSS.

These are the waters of scorpionic fire that man has deliberately befouled and bespattered, and violently restricts all who seek to aid him to re-find them. These wells are of external nature, and often replenished by water that falls from the dew and rain from heaven; and the two mothers, Hathor and Nut, watch over that tree of moisture, the sycamore of dripping water, that grows beside the founts of virgin life.

THIS HOLDS A GREAT SECRET AND ONE TO BE VALUED AND REVERENCED, FOR THE DEW AND RAIN THAT FALLS FROM HEAVEN IS IMAGED IN THE ABYSS BENEATH, AND WHEN AN ALTAR IS ERECTED BESIDE THESE WATERS, THE OBJECT OF THE RITE GIVES THE SPIRIT POWER TO SEND FORTH WATER FROM ITS DOUBLE SOURCE; CANCER AND CAPRICORN.

The Purpose of Service

THE wisdom of the altar stone being divinized was clearly shown in the life of Jacob. After running away in fear he lay down at Bethel

(See the back page plate)

and cried out to his understanding of God; thus the great Powers descended and gave unto him vision of hope and purpose, and ere long he arose and vowed of a greater purpose as his awareness excelled unto and demanded.

IT WAS THE CUSTOM IN ANCIENT TIMES FOR MAN TO FIND THAT CERTAIN PLACES WERE ALIVE WITH UNSEEN POWERS.

This was due to the falling of meteorite substance from the heights which contained super powers. As to whether he believes this now or not is another matter, but it is a fact; consequently a soul caught in the embrace of one of these whirlpools would be drawn into the vortex of unity being made between earth and heaven.

Jacob, a soul destined to perform certain duties upon the earth, like Paul was running away, only to be reminded at this holy spot of what he was failing to do. This vicinity brought forth a bubbling spring of waters that gave of life-giving fluid, and the real meaning being conveyed to man through the legendary composition of the Bible, is that of the rock creation within the soul, that controlled by Saturn, becoming as an altar and not a curse.

(See plate on this page)

This would be the means of directing the soul through the discriminative influence, and the evening dew ascending in questions demanded, with the soul becoming enlightened by its own prompting being infused by the holy fire from the holy spot upon which they stood.

By time the morning arrived, a new dawn came forth both in man and Mother earth; the feminine principle upraised by inborn conception and awareness gained, that she from the heights as Nut or Shiva, caused the tree of life, the Chakra and glandular system of the body, to shed the spinal fluid. The kundalini had risen to descend with wealth from the virgin cup and pour libations into the

soul's bloodstream and nervous system. This the soul anointed with oil; the vow to fulfill and declare it holy, for at the same time as its own powers had been working the oracle, the magnetic conductivity of the spot, drew a vortex of power into his being from the uniting Shekinah, or Holy Ghost.

According to the legend, the subconscious rational Self went with his flock, or wealth of growth, onto a higher plane

they can never describe the beauty of the real embrace, because they would be lacking in the finesse and eternal depth that can be seen more clearly through legendary recital. Nothing can destroy or even equal the beauty and divine anointing that comes to the soul, from the ancient language of descriptive renderings of the pathological and psychological transubstantiations. This would be a moment of the vicarious atonement in the ascension.

EMBRACEMENT

THE transubstantiation bringing the divinity of being, the embracement of the heavenly glories. Thus the soul awakening and embracing the heavens, the divine wonder of the solar-born mind. (See text in col. 1).

of conception; ascending the spiraculum of evolution where he embraced the heights of the feminine principle now as a Rachel, or one at peace and responsive to internal action of prompting. The Chakra unfoldment as a tree giving forth blessings from a circular current of holy fire, revolving from the upraised generative fiery substance; thus libation of blood was poured out onto the stone or Saturn growth, causing it to reform into a holy altar in the sacred depths.

This was like unto David who ascended up onto the roof of his house and witnessed the Shekinah bathing in the waters of the soul; but whereas David had a Uriah to contend with—uncontrolled sex desires—Jacob had a Leah, a wearying irrational mind that lived ever in a state of questioning and doubting. These two could bring the drought, the dragon or leviathan, or even the frog spawning in the waters, instead of the fish breeding and bringing new life from the old original questioning.

The two rivers, as descending powers of rotational elemental forces constellated in the Eridanus and Milky Way, united with a magnetic attraction set into action by the soul activating the issue, and all united via lactea, the powers of the south. But we must not underestimate how much Mother Earth plays in this divine unity. She is the milch cow who is spermed by the constellatory powers sending forth the divine fiery essence of the solar Deity.

There may be a more technical and atomic description to this functioning, but

The soul now flooded with fiery life has to meet the bathing of the tissues, or "tribes" of the soul; yet there are still many pools of dark water to be transmuted, but we are dealing with a human conquest many thousands of years old. All souls are old potential Methuselahs; Abraham's seed passing through alchemicalization, whatever plane, period or national state the soul is residing in.

So the thing now to be encountered is the "old serpent" or dragon state of self-residing difficulties. We must never forget that all the time of evolution, we are meeting a revolving blood-stream that contains hidden states which revive in certain states of unity, yet the whole all the time is finding revision.

Now on the fiery plane the soul must be elevated and alive, but also must make sure that Penelope does not fall to harlotry during the time that her husband is away on expedition seeking trade for their new city. So now afired with new purpose and hope she romps and dances with her growing family, seeking to build and re-build an ordered and balanced reflection of the great purpose that sent her husband afar.

After many months of wind, storm and rain, and much despairing on the part of Penelope, Ulysses returns, and with royal dignity and sublime beauty, they embrace, facing, and both seeing eye to eye. The pact of purpose has been completed and all firmly established. So now with a firm base that warrants no rebounds, the new plane of world evolution can go forth.

Man as the Investigator of Life

MAN does not realise how much he is a major asset to the world, and how any soul can become a world saviour for a major effort to be established, through a purpose and belief that can bring a whole new plane of thought surging into the world. For once it is established and the door thrown open, nothing can stop what has been begun. Although it may lie hidden for years, it always remains as a symbolism on the canvas of TIME, and at some unforeseen moment another soul arises with a purpose, or even the same soul incarnates and re-takes up its lost thread, and all goes forth in its winding purpose.

Man is so worldly, so blinded by his stomach and possessions, that he knows not of the WAYS and WILL that drive the world on in its evolutionary course. He fails to see that he is taking of the Fires of the heavenly forces, that by the Law of Gravitation he must obey and follow their course, but through the confusion of his own species.

SO WE CANNOT LEAVE THIS PART OF THE INVESTIGATION WITHOUT SEEKING INTO THE OPPOSITION THAT MAKES LIFE SO EXHILARATING TO THE REAL INVESTIGATOR OF LIFE. THE SOUL WHO REALLY KNOWS ITS PURPOSE OF LIFE AND SEEKING TO FULFILL IT; BUT UNLESS WE UNDERSTAND THE "MYSTERY OF EVIL" WE ARE LOST TO THE REAL ZEST OF PURPOSE.

As there is day so there must be night; as there is good so there must be bad. Yet both of these as a negative bring the stimulation for further action. All Day and Good, there would be no opposition for the soul to strive against, but it did not warrant that the soul should create an evil that began corruption; thus badly deteriorated the purpose of life. As the years have rolled by, this has intensified and even become inverted, consequently many states have become incestuous. Hence disease of a deep and lasting nature which defies all mode of healing, unless by knife.

Evil began as the war 'twixt Mother Nature and the elements, for Apap refers to the great whirlwinds that beat at the desert dust and drive it into enormous curling columns hundreds of feet high. It was from this and the lightning, thunder and torrential rains, that they perceived of Apap as being the great Evil of life. It was of this that much evil came into matter, for it brought drought and death in many ways. Thus this began the war between man and Evil, and legends were formed of Horus fighting Apap, who won and became Osiris.

THUS MANY LEGENDS WERE FORMED AROUND DIFFERENT DIFFICULTIES, MOST OF ALL REGARDING THE GREAT MOTHER WRESTING HERSELF FREE OF THE RAGING MONSTER OF DARKNESS, AND YOU WILL FIND THE MOON AS BEING THE LADY OF LIGHT WHO LIGHTS UP THE DARKNESS SO AS TO OVERCOME APAP.

But man had a greater opposition than that; owing to the Fall being the first seeds in the life establishment, man was facing the prototype installed into life as positive and negative. Thus upon him receiving the blessings he automatically placed them into the negative, which created the evil as a microcosmic evil.

This is what Horus is fighting, the establishment in the prototype which man today finds himself too sophisticated to accept, and breeds crime instead.

This is the fight between Horus and Sut, Ra and Set, God and Satan, but more aptly the rational and irrational mind, that the personality can receive the ray or sperm from the heights into the depths, and then raise up into the hatched egg, producing the egg of the mind. It is in this way that the soul brings brilliant ideas into birth, solving the problems of the day.

Those who can create new heights for man to aspire to, that new depths can be plumbed; for as man extends his mind does he awaken the reflection as relativity and brings its wealth into birth. But if man merely takes that into the negative, it remains as an enigma in a frictioning state within, bringing out hell instead of man mastering the elements of life. These are the wolves or jackals that prey upon human beings, seeking to devour all as they come into growth, and the soul slowly descends deeper and deeper into the forest of life without any heights. Thus automatically becoming a dead inert warring creature.

The drought has overtaken, and the soul is left utterly bereft, with the children gathered from the past, one by one being devoured up in repetition becoming a stagnant end. Then Uranus strikes with the lightning flash and the soul is left maimed, for all has percolated through the seven bodies with the physical to receive of the final blow.

The primitive knew of this wisdom, and built legends and stories to try and convey this depth into the mind of man, particularly posterity when drought and famine was ordained to appear. Their tree of life represented the spine and chakra motion which was kept in activity by the soul striving to build a revolving nimbus from the limbus drawn down from the knowledge devoured.

MAN, WHEN HE DRAWS THE SOLAR LIGHT INTO HIS BEING, MUST REVOLVE IT, OTHERWISE IT MERELY BECOMES A DEAD SODDEN MASS THAT FORMS A STATE OF DEAD SOLIDIFIED MATTER THAT CLINGS TO HIS FOUNDATION AS THE FORMING ROCK OF LIFE. IN TIME THE SOUL BECOMES COMPLETELY BURIED AND DEVoured, BECOMING MERELY AN AUTOMATON, A REPEATER OF WORN OUT GARMENTS; NOT NEW LIFE.

To the primitive, the gods of Egypt right from the beginning, represented food and drink that would ward off drought, give man sustenance whereby he could fight the dreaded Apap, and rise up at early dawn and catch the morning Ra, the solar beams, and become filled as Osiris, one filled with the golden rain of life. Then they could shine in the darkness and overcome all drought, defy the wolves, and catch the Ichthus fish when it swam into their pools of life. Jack climbing the beanstalk, the spinal column to the very heights and his overcoming the giant that lived in the mysterious castle on the hill of Golgotha, the hill of Skulls.

Horus as Ichthus the fish-born child, is the mind born in the dark pool and raised into royal heights through the climbing up from those depths

THE HEALING COLUMN

ONCE again we have someone being told by the medical world that she has pernicious anaemia. When will these professional idiots realise that this state is not a disease but is showing where a soul has taken untold wisdom in the past, transmuted their tissues into a more etherealised state, and now are refusing to put them into action in their present life. Once a soul has made such growth they cannot go back upon themselves; they must draw their sustenance from the heights by aspiration and belief, and not from the earthy depths. If they do not attempt to draw the Fire from the heights this condition of so-called pernicious anaemia will manifest. The only answer to this is for the soul to cut away the mundane conditions it has rebuilt around itself and turn to the higher wisdom again in all earnestness.

Loss of Facial Hair

Mr. J. V., Clev., Ohio, U.S.A.

"Problem is loss of facial hair. It is growing very sparsely, in patches, and is starting to affect the eyebrows."

THIS is a very complicated chart (1282), yet rich with the wealth of the spirit trying to make manifestation. The 7th house is heavily filled, holding 4 planets, with the soul quite unaware of the secret mission which lies in those depths. It is a well known fact to the mystic that every soul who rises above the bar, (the 7th house) must create the Sacred Altar in this house, whereby he raises up the inner intensity of the spirit, bringing forth the real purpose of the wisdom gathered below.

IF HE CAN DO THIS HE WILL EVADE THE CLUTCHES OF THE 8th HOUSE, AND CARRY ALL HIS WEALTH UP TO THE HEIGHTS.

It is obvious that this soul is not doing this, he is merely a lotus eater, eating up the wealth of the Word, and not making it a heartfelt purpose. Consequently the four planets in Leo are not bringing forth the intuitional word of Virgo,

THE EGYPTIAN MYSTERIES

Concluded from Page 13

that held him in captivity of desires. That which kept the soul bound up by personal states that never allowed it to wing and spin up into the heights, but whirling round and round in a rut of self and self-satisfaction. Self-importance, egotism, self-pity, greed, envy, mundane states of self-opinions that brook of no new ideas, and the soul merely living in a tomb of its own state of self importance.

THIS IS WHERE THE YOUNG HERO HAS TO COME FORTH, THE ETERNAL EVER-COMING, EVER-RENEWING SPIRIT OF YOUTH THROUGH STUDY AND MIND ACTIVITY, THAT THE CROCODILE CAN BRING FORTH A CHILD, AND LET THAT CHILD GROW BY THE CROCODILE-SELF EATING UP ALL THE DEAD WASTE, THAT THE CHILD OF MIND CAN FLOURISH AND GROW.

and Mercury has become retrograde; so he has come back to drive their growth, as shown by Capricorn upon the 1st house which is enhanced by the aid of Mars in Scorpio in the 10th.

His task in this life is to bring movement from the 2nd house to the 8th, which is of course, the spinal column driving in unified activity, in order that the Path of Destiny in the sign of Sagittarius can bring forth its purpose, that of the hopes and wishes of the spirit. It seems very obvious that this soul is a very, very old soul, but terribly congested, and in not bringing forth of his wealth, is bringing upon himself a terrific state of congested karma.

This can be seen by the Dragon's Head in the 12th house in Sagittarius, and the Dragon's Tail in Gemini in the 6th. So with Mercury retrograde, without any doubt the difficulty of this soul is the lack of mind activity. He is taking on the very negative state of female manifestation and must seek to draw down the fire through the non-stop intercalary action of his mind, in the seeking into the depths of the Word.

Nothing is more distressing than to be told what to do when you are up to your neck in difficulties, but through one looking on who has the higher wisdom, the problems of the soul can be defined and overcome. The full answer to this is to get the mind moving in continuous activity, in order to try and arrest this pathological difficulty, but we cannot immediately guarantee this, though we will at least be attacking the problem through the right source of bringing forth.

I would suggest BUCHU, MISTLETOE and VERVAIN, with NERVE PILLS to help him find confidence, but above all try to drive as hard as he can, and not partaking of drugs or chemicals that only add unto the problem of the soul.

The whole answer to this is in the secret of expansive mind activity, and we would do well to remember that all which is with the soul today was born in the throes of yesterday, with today as purely that of the manifesting results.

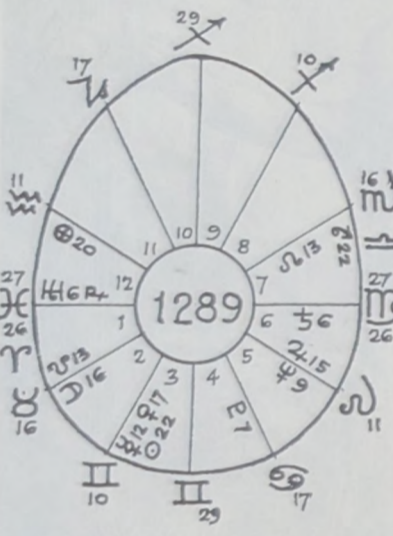

Pernicious Anaemia

Mrs. R. C., Dorking, Surrey.

"Am very ill in mind and body... I have arthritis everywhere, varicose veins, hardly any sleep for four months, also abdominal cyst. My doctor says I have pernicious anaemia. I have twice tried to gas myself."

I am going to be very, very frank with you Mrs. C., for I feel this is the only way I can help you, especially after reading your letter, and seeing the long list of complaints. (See chart 1289).

First of all I must say this is typical of Pisces; it is a marvellous sign, completely full of the elements, but never quite having made the journey into the mind. It holds all the wealth of the heavenly forces, and all that was in it in the way of planets, should have become

the fullness of the mind, but instead of Uranus becoming the glories of your 1st house, your conscious awareness, it went down the labyrinth in the 12th, all due to your Sun, Mercury and Venus in the sign of Gemini, never expanding. Thus you are completely riddled with the religious trumpery of the Piscean age.

The pernicious anaemia which the doctor says you have, is not as he states, but is due to your having filled yourself with wisdom in the past, whereby you transmuted your tissues. In doing this you brought Uranus to the full round of the chart but were never able to get it into the 1st house, to become the radiance of the mind. This accounts for your Path of Destiny in the 12th house, in the sign of Aquarius, where you had to learn as Ruth, to glean, and thereby transmute the magnetic into the electro-magnetic, by infusing the atomic.

This is the key to your gleaming. You must remember that the 12th house is either the house of deep occultism or of limitation. You should have turned to the wisdom once again in this life and studied it as hard and as genuinely as possible. This you did not do, and so caused Uranus to strike, which found you wanting.

You must turn to the wisdom, and just as important, come out of your depressed mind attitude. No possible help can come to you while you allow yourself to remain in this state. You must find some willpower and strong determination of your own, but those with Pisces strongly with them are generally too weak-willed by far. They wallow in the emotional waters, and almost delight in taking on a morbid state. The reading of the Occult Gazette or the early lectures, would bring you the "mortuary meal" that you are seeking, and help to bring your Uranus into a sparking capacity.

You have your Jupiter in the 6th house, the house of the intuitive mind, which could bring you all the expansion you need, but unfortunately

HEALING PRAYER

GREAT DIVINE SPIRIT

WE ask Thy Blessing upon these children who are crying out for mercy, crying out for help. We ask that they should be given every easement and succour of the Spirit that will lift them up to the Heights. We leave them in Thy care.

Amen.

Saturn sits above it, in Virgo, and would account for some of the silly things you have been saying and doing. Through the ages you have only ever gathered knowledge, and to such a mighty extent as to drive your Uranus into the position he is in.

However, I must say to you what I am having to say to many others in similar positions; your chart reveals quite clearly that you have been a roman catholic nun in the past, and this is a point I would bring out very strongly. Cast all religious trumpery to one side, for it will not be very long now before you will understand and know, how erroneous and utterly false it has been.

Unfortunately your Moon in Taurus would add unto the lethargy of your Pisces, and Saturn in Virgo would make you very much inclined to ever find the comfortable ways of life.

No, friend, come away from your old states; let your Neptune in the 5th house, in Leo, dance with the glories of the sacred heart, and this is not anything to do with the religious attitude, but is the joys of finding the royal glories of Heliopolis once again, to bring it to the divinity of unification.

A good fast or a pure fruit diet combined with plenty of water, would help you considerably in order to cleanse out the blood. I would suggest some HORSETAIL and HOLY THISTLE, coupled with BUCHU, which would help to give you some energy, or alternatively BUCHU and MISTLETOE. We could also send some NERVE PILLS which are very potent but all harmless herbs.

Whatever you do, avoid any medicine that contains drugs, for they would be your bitterest enemy. This of course, will not be approved of by the medical world, but in my opinion they have not yet even started to understand soul and its nature, and the true cause of pathological conditions. This I have proved unquestionably through myself and those I have had around me.

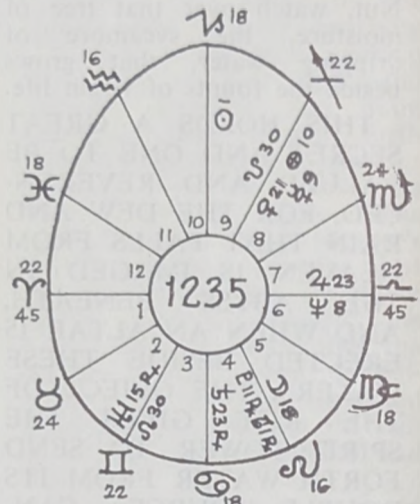

Womb Disorders

Mrs. J. J., Trinidad, W. I.

"Suffers from womb disorders... has a mobile womb and already lost two babies."

THIS is a very interesting chart (1235) and it is amazing to me that one with such possibilities should find life so difficult. You have 5 Fire and 3 Air bodies, which makes you 8 positive and only 2 negative, and is reflected in your chart in your Capricorn upon the mid-heavens. This is your mount, filled up to bursting point with just knowledge, and to such an extent that Mercury and Venus have ended up in the 8th house, in Sagittarius, the sign of expansion.

Also your Path of Destiny is in this house, indicating that you came back to earth in order to get that knowledge transmuted into wisdom. But in failing to do so, Saturn retrograde, in the 4th house of

home, in the sign of Cancer, would cause this loss of the children.

Aries upon the 1st house indicates how the mind has to be nurtured and brought to an expanded state, so that all the raw fire down in the rock becomes of a dancing mind capacity. This will only be done by turning wholeheartedly to Universal Philosophy and discarding any religious states that are impeding the way.

Moon in Leo in the 5th house also shows the propensity of wealth that was gathered in the royal glories of Egypt, and are still holding with you as autocratic states.

Actually speaking, one of your real troubles is that you need "firing," so as to burst open your rock and bring the fire out in an expanded state, and this would account for your desire to make changes. Do try hard not to allow Saturn in the house of home, to make you feel disgruntled.

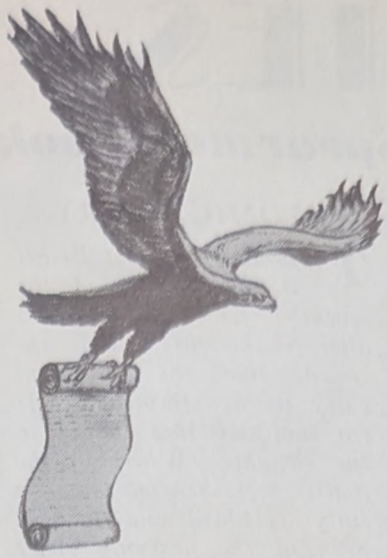

Try and turn to the wisdom; try and get your mind expanded, and get that Jupiter in the 7th house expanded, so as to drive those planets out of the 8th house. Link your mind with the Great Flame; cling to Him, and draw down His holy Fire into your internal being.

If you would take diligently and without failing, BROOM, RUE, and BUCHU, there is every hope of getting your womb trouble righted. A little douching with very weak salt and water can clear any mucus, but my strong advice to you is DO NOT HAVE THAT WOMB REMOVED, unless you are absolutely forced to.

Try everything you can to save that most precious organ, for it is the means whereby woman raises up her mind capacity. Don't forget, one can always adopt children, but one can never replace a lost organ, so try not to be too depressed over your disappointments up to the present.

I would also suggest that you had some NERVE PILLS, for they are extremely effective. Do try and cheer up and see life as it is really meant to be seen,—a mighty adventure that needs a lot of guts to overcome, but when mastered, a glorious laurel won.

Readers' Letters

WE are frequently receiving letters from readers, telling us that they find the front page article in the Gazette difficult to comprehend, but they are not realising that this article is of an expansive issue and is food and wisdom for the higher mind of the soul. It is not meant merely for the conscious mind, but to bring expansion to the higher, that it can gradually work its way through the soul until it becomes a part of his conscious mind and stirs it into active creation. Although other writings in the Gazette may appear new to the soul, this is not the case, for they are already a part of the soul's past growth and being given again in order to awaken the conscious mind to the wisdom of its past. To bring true expansion of the mind the soul must be given greater wisdom than it has ever received before; not only in this life but in all previous incarnations into matter. It is the expansion of the higher mind which the soul needs, and by reading the front article, whether he succeeds in comprehending it or not, will slowly but surely bring this into being. Thus one can see the importance of struggling to understand these lectures, for expansion of the mind is the life-blood of the soul; do not let it pass you by, for it is the only way that mortal man can find the lost glories of his past, the holy rebirth into Immortality.

Mrs. M. Heydenreich,
Kansas, U.S.A.

Greetings to you once again, and to all the other dear ones at the School.

I received the chart reading for my daughter, and I have already begun to give her the Agrimony herb. Later on I will give her the others you prescribe.

Since I have written to you the last time, my daughter commenced her monthly period Aug. 3rd with no difficulty whatsoever. However the flow lasted 8 days. Do continue to send out your loving prayers to her, for her mind does need to be raised.

Mrs. Cook, you read her to the very depths, for she is confused, and wants no one to preach to her about spiritual things. This attitude concerns me greatly, but I'm believing for her change of heart when she gets a few years beyond.

I have experienced a change in my monthly periods like some of your other lady readers. The flow being only half as much, and two days at the most with hardly any pain. How grateful I am, for I had much difficulty for years. One can say that it's the raised up state of Divine Consciousness thru eating of the Word that

changes all things, thanks to the Higher Powers.

Thank you again dear friend, I shall always love you very much for your words of Wisdom in the Gazette which has been my strength for the past two years.

Now I desire to have a delineation of my horoscope, for which reason I have enclosed the 25 dollar cheque. I am anxious to hear your voice as I listen to my past mistakes etc.

My mind is so much higher, my will strengthened, and my physical health improved 90% since studying the Gazette. Now I am still giving out your paper to others, so they may be blessed of this great Wisdom too. What a tremendous blessing you are to the world, Merope! What great accomplishment you have already achieved.

I will be waiting for the tape. My love to you all.

Mrs. M. Pillington,
Mile End South, Australia.

It seems ages since writing to you, never-the-less the O.G. always comes with faithful regularity. I do bless and thank you. Have always had a deep interest in the School and the O.G. which has kept up a wonderful standard over the

years. It is a credit to all concerned. The report in the Editorial throws much light on several matters.

People have drifted away from religion and the churches, and one cannot blame them. The orthodox teachings are too biased, and they fill the minds of their followers with such nonsense as "brimstone and fire," which are barren bricks to the poor souls who believe them. I feel we all have to work out our own salvation, no one else can do it.

I have always admired Mrs. Spearman-Cook for her directness. One truly knows that behind it lies the compassionate desire to help and give knowledge and understanding to all seekers or enquirers. Also one knows exactly where one stands, but with the other kind never—they are with you today and against you the morrow. With all best wishes for your fight for Truth.

Mrs. H. Johnson,
Sunderland, Durham.

Dear Mrs. Spearman-Cook,

I feel that I must write and try somehow to convey my thanks to you for The Glory of The Word, which has been given to us all in the July issue of the Occult Gazette. We have always been blessed with the many lovely plates to illustrate the Teachings, but in this issue, they seem incredibly lovely. Every page being a feast of Wisdom and beauty. The marrying of the illustrations with the Word, seems to me, sheer genius.

I personally think that the front page is one of the most inspiring we have ever had. I have carried this July issue about with me, and have read your article in your reminiscences, "The Balanced Glory of the Mind" over and over again, and each time one receives new inspiration. A truly perfect work in its exquisite simplicity, because this seems to me to somehow contain, in such a little work, all that the struggling initiate is aiming to put into practice.

The Mind Development Class

EACH Week on every Saturday at 5.30 p.m. G.M.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each siter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

- | | |
|--------------------------|--------------------------------|
| Oct. 7th Orion | Nov. 4th The Ethers |
| Oct. 14th The Lion's Paw | Nov. 11th Time |
| Oct. 21st Auriga | Nov. 18th The Golden Antelope |
| Oct. 28th Coma | Nov. 25th Transcendental Light |

It leaves me in awe as to how you discovered true understanding of "The Balanced Glory of the Mind," because as we read it, we recognise through our higher minds what we have always known; we know that man is only mind, we know that the world is really a school for our spiritual development, and every difficulty we come up against merely another initiation, but what we hate is accepting personal responsibility, because it is so much easier to put it off until tomorrow, to say we haven't time to study, to say we are not ready, to say we have too many every day responsibilities in the world to give our attention to spiritual understanding.

But as one reads and re-reads this wonderful article, we know in our hearts that everything is "here and now" and that every other thing in our lives should come secondary to this, to bring into birth "The Balanced Glory of the Mind." Thank you Great One, for giving up the world and all its "baubles"; for giving up your life, your personal freedom, and for accepting the very terrible suffering that has come to all who accepted being straddled to the wheel to solve the problems of the Age. Thank YOU, for being The Way, The Truth and The Light.

Mr. R. Tucker,
Leeds, Yorks.

It is with great feeling within my heart that I write this letter of appreciation, at being privileged to attend some of the lectures at the School. Although my visits may be few and far between, I have that lasting memory of the great love that emanates from the Temple, which seems to meet you as a greeting as you enter.

And how can I comment upon the lecture, the awe-inspiring presence of the Lord of the Flame, or the great dignity and royalty of Mrs. Spearman-Cook? The power that floods the whole Temple during the lecture is enormous, and those like myself, who are unaccustomed to it, felt as though we were actually grow-

ing in stature, with a great vibratory feeling passing through the whole of the body.

In fact, as I walked down to the station I felt as though I was walking on air: "Spring-heeled Jack" was not in it! I have bought every Occult Gazette issued since its inception, and read them again and again, and am struck by the enormous number of articles Merope (as you so reverently call her) has written. It is amazing and outstanding, but what a brilliant mind, so humble in its approach, yet so dynamic in the wisdom it portrays.

May the Blessings of the Great Divinity be with her always, in the furtherance of her Great Task.

Mrs. Lilian Castle,
Rochester, Kent.

I am so happy to say that my husband's health is fine, he still takes his herbs each day, and I know he would not miss them for anything, as he finds they help him so much; no pain or trouble at all now.

We are both so very grateful to you all for the help we have received over the past, that we never tire of speaking of your wonderful work to others to help them. I know some of them have contacted the school.

I hand out the Gazette to different people, trusting it will help them all.

Hoping dear Mrs. Spearman-Cook keeps well in herself, and that she is not working too hard.

Blessings I would send to you all.

Mrs. V. Jerry,
Bowling Green, U.S.A.

I certainly am enjoying the Gazette; my first read is the astrology page. My husband and I are both interested in the Agrimony. We both have the Esoteric Tapes, they have done us both a world of good. He is bothered with his legs hurting at times. I feel great. Please send us the herbs we need.

HERBAL MYSTERIES

Concluded from Page 10

the mighty power of these herbs as natural restoratives, they will remain as true pioneers for the rest of their earth journeys.

By the taking of Broom, it will be found that as the thymus opens it becomes linked with the heights. For the young soul, whether male or female, during puberty as their thoracic duct opens up, can remain up in their heights, and through the well-ground wisdom within their mind, will ever see the Plane of Vega as their only existence.

The wonders of this herb for all womb troubles is amazing, for when added to rue, can, with the aid of true Solar healing, remove fibroids and other womb restriction. It could also be efficient in bringing release to many difficulties of prostate trouble, and bladder infections.

It certainly will help a soul to survive the vast changes taking place in the world today, and of which we have not yet met the worst. While again, the combination of Broom and Buchu will help varicose veins, blood clots and stinging urine. It is interesting to note, that when this Venusian herb penetrates the womb, it is in its cradle as

polarity, which of course will nurture and protect this area as virgin land. Hence the reason why the ancients used it as a ritual drink.

FOR IF THE WOMB IS PURE, THE MIND IS PURE, AND A PURE MIND INSTILLS A CLEAN BODY, FOR MIND IS MAN, THEREFORE MAN IS MIND.

As stated, when Broom is taken with Buchu, it will soothe and release the ordeal of fatigue, especially when strain is being placed upon one. Then through the harmony gained in accordance with the steadfast study of wisdom, will be found the true basis for this mind-born world. Because it is the Word which is the Oil that will give its fiery infusion, for Word, Element and mind, are the basic of Vega.

Next month we will look into the wonders of Chickweed and its wonders of cleansing both internally and externally.

EGYPTIAN MYSTERIES

Creation Called Life Part 13

by Gladys I. Spearman-Cook

ALL THROUGH LIFE IN BOTH MYTHOLOGICAL AND ESCHATOLOGICAL, men of all Nations have wrestled with the serpent; but to understand the basic of this action of alchemicalization, the Egyptian lore of zootype, in animal performing its mode of creation, will give the soul a better picture of the creeping change that must be accepted by recognition and will, mind and purpose. Then radiation will begin its consummation; the soul radiating the flame of full assimilation, and Saturn becoming one plane nearer to God consummation. Sut labouring in the depths and the goat becoming in the heights.

The Fires of Life

HORUS as Sebek is the fish of the inundation who is feeding the multitude of atoms and cells with Fish and Bread. Wisdom and Christos body as Solar light transmuting evil into good, and negative into positive; animal into man and man into Man-god. Sebek was the god represented as a crocodile or a human with the head of a crocodile, and played various roles in early dynastic times as an evil deity in antagonism to other deities, so that he is often confused with Set.

The double temple at Kom Ombo was dedicated to his cult and the Fayum was also a great centre of his worship. The sacred lake of the temple in the Fayum, dedicated to Sebek, contained numbers of sacred crocodiles, which were decorated with jewels and fed by the priests. By that time, and gathered up from the 6th dynasty, many beneficent qualities were attributed to the god, and he was identified with Ra the sun-god. While at Cairo he was called the "Son of Isis," and as such fulfilled the role of Horus by doing battle with the enemies of Osiris. By this there was a complete reversal of his primitive significance.

The god actually represented the four elemental gods of Ra, Shu, Seb and Osiris, and the Ancient Egyptians believed that one of Sebek's functions was "to gather together that which had been separated by the evil power of Set, and give a new constitution and life to the elements which had been severed by death." He was also one of the Spirits of the West dwelling in a temple on the Mount of Sunrise, where he assisted Horus, the morning sun, to be reborn daily.

In the Pyramid texts "Sebek is made to restore the eyes to the deceased and make firm his mouth, and to give him the use of his head, and to bring Isis and Nephthys to him and to assist in the overthrow of Set, the enemy of every Osiris. He opened the doors of heaven to the deceased and led him along the by-paths and ways of heaven, and in short assisted the dead to rise to new life, even as he had helped the child Horus to take his seat upon the throne of his father Osiris."

The usual form is a crocodile-headed man wearing the disk of the sun between ram's horns and sometimes plumes in addition. He is seen walking with arms hanging at the side and ornamented at the wrists and upper parts with bracelets. Around his loins he wears the chenti and on his head the ram's horns and plumes, upon which latter is a miniature representation of the Isis horns and disk. He is one of the oldest gods of the Egyptian Pantheon which is evidenced by the fact that his name has been incorporated into many royal names of the 13th Dynasty.

The Fayum was Crocodilopolis, a cult centre, and he was a son of Neith. Thus as the great Fish, was the god administering the wisdom of life in the type of force in his capacity as solar god. It is of that which is the enormous Magnitude which becomes the inundation that will either swamp the soul, or give it renewed life. The great Power that sweeps across the waters as the Solar Horus of the double horizon, he of the dual ways. Positive and negative, rational and irrational minds now beginning to form into a collected state.

Some see it as the seven headed Hydra that has to be wrestled with, others cringe in

fear, while many refuse flatly to accept and are blind Lazarus's; those completely solidified into a rock of refusal. It is because of this, Rannut as the giver of life, was seen as evil who tempted men to their doom; and of which theologians have made such a profound error. They by finalizing life into a one-man-God, crucified to save the world, and not bringing forth the true message of a God-life sent to crucify man into greater birth, have stemmed life from its full progress of all men labouring and becoming of God.

THAT ONE MAN SAVING ALL CREATION AS HE COULD SO ACCOMPLISH, WHICH WAS SO ERRONEOUS, FAILED TO BRING THE TRUE ISSUE OF THE ACCOMPLISHMENT, WHICH FINALLY BROUGHT A STAGNATION OF MIND ACCEPTANCE OF "LIVE AND UNFOLD ON YOUR OWN MERITS, OR YOU STAGNATE INTO A STATE OF PRIMITIVE-NESS."

Thus theology as creed and dogma has committed the greatest error that life has ever known up to the present; it led man onto an erroneous road of life acceptance, and instead of raising man up, kept him down in a scheme of mass and litany jargon, that incites the powers into further inundation which often results in religious mania. No, they failed to see that Rannut was the true answer to life, so cursed Eve and placed her as the means of man's fall.

The Egyptians had the real answer to this, for to them Ra-t was the representation of the feminine principle of Ra. A goddess not frequently met with, and was rather an abstract idea of the priests than a distinct deity.

She was represented as a woman with the sun's disk and cow-horns on her head, or a Uraeus. Sometimes she was called Renenutet, and was seen as a woman with the head of an uræus-serpent, or a large uræus-serpent wearing the solar disc and cow's horns of Hathor upon her head.

Rannut was a goddess who presided over the productions of the earth, its harvests, but was also the goddess of nursing or maternity. A very reverent statue of her is represented as a uræus-headed woman seated in the attitude common to Isis, and offering her breast to the child Horus.

The uræus head has the remarkable addition of two human ears, while the seat of the goddess was painted red, her robe yellow and her kluft blue. As Rannut she was one of the two deities from whom the deceased obtained renewal of life in the Underworld. But as Ra-t was the female counterpart of Ra, "Rat of the two lands, the lady of heaven, mistress of the gods." Her full name was Rat-taiut, "Rat of the World" and as such was adored in the Thebaid. And as the Bull of Heaven sits upon the throne, the goddess Rannut is on his head, thus indicating that complete unity has been made, and now all is open for development.

The Law of Unfoldment

By insufflating the solar force through the breath of life, man becomes inundated by the great Serpent of life that will bring life renewal. Now he must wrestle with it, for it must become his permanent radiation of light and not mere mind acclamation of words as opinion.

The changing of the soul in its Godhead acceptance, is the unfoldment of the soul from animal to man; and Man-god in the offing as the spiritual body of awareness becoming the fully enlightened one. He freed from all ties of matter, and free as the bird on the wing. He that knows the depths, heights, breadth and

ATOMIC GLORY

THE altar stone of Bethel is the mystery of the seventh, where the round altar is honoured and up-raised, that the soul can carry its new-formed beliefs up the ascending ladder to the heights. Whereby the mastery of Scorpio can be fully acclaimed, and the soul born of the heavenly Arc; the ascension of Eve with the babe in her arms, as the golden point of perfection. (See text on page 13, col. 1).

width, the fourway span, and not captured or held by any. He that can walk where'er he will, tasting the depths equally as well as the heights.

The seven headed hydra is a picture symbology of the seven perceptory senses of the whole of creation, from the heights as the Kamite Seven down to man in his seven senses of desire. Five in lust and two as the redeeming factor.

This is the real hydra that man is ever wrestling with; the Solar light as the Christos or Demiurgus Power seeking to bring renewed life to the soul, which in its possessiveness clings to the old and accepts of the new, but adds unto its tenury by mere greed of acceptance. This causes a glutted state which results in a deadening of the senses, for what should act as a sharpening whet of renewed life as razor edge perception, never becomes assimilated, but as a stony block of acquired possession, remains as a sediment in the lower seven, and never rises in unity with the heights.

This has its many stages of adjustment, which was most aptly symbolised by the ancient wisdom in the form of animal creation acquiring growth of status, but always by the crocodile eating up the dead; Sut-Horus in one phase, and Horus-Sebek in the other, as the godhead radiance being acquired in the soul as mind enlightenment. The journey between, as the circus of animals performing their daily rounds.

(See plate on page 12)

The acquiring of possessions without mind assimilation and radiation resulted in deadly power of drought; no mind to sperm the lower action into labouring, for the glutted state brings inertia, and the seeking for further acquisition of possessions. Greed becoming the automatic motive of a mind belief as to what is the purpose of life; in fact the soul's godhead creed.

It is not until this begins to bring its state of agony through the serpent seeking to force its way through the jungle of life's under-growth, and robbing the soul of its cherished flesh and animal comforts, that it begins to be forced into change.

THE LAW IS TO UNFOLD AND EVOLVE, OR DIE AND CRYSTALLIZE, FOR IT IS THE CRYSTALLIZATION THAT BRINGS THE PAIN TO THE SOUL AS SPIRIT IN HUMAN FORM, NOT THE FLESH ITSELF.

The spirit is the receiver of the agony, that which the spirit is passing through, in
