The Mighty Divinity of Vulcan

by Gladys I. Spearman-Cook

Now is the moment when every one of you are being tested upon the dynamic Plane of Neptunian Glory, where each one of you will prove of your worth as you earth the Glories of Truth. All those who have earthed the Wonders of a New Word, a new Belief, have ever found that man has bucked and shied when called upon to change from one Law to another. Hence the chaos that is abundant at the present moment, and needs adjustment in the minds of men. Every soul is now being forced back up to the God-plane of true rebirth, the God-plane of Heavenly Life, for it will only be this way that man will find his own infinity. He has no need to look outside himself, for all that man has passed through down the Ages is within his own Seed, which is ever unfolding by the Ether from the Heights.

So once again let us seek into the Wisdom, that we can give forth the Wealth and Glory of the Word.

MIGHTY GLORY AND depths of Being, what is the mystery of Thy Creation? Where lies the secret that holds the key, to returning back to those Heavenly Heights! Glories and wonders long forgotten, that are but an illusion of the mind creation. Yet all brought into birth by the descent of those gods, who went forth by mission of Creation. The Great Thought of Breathing LIFE began to think, and stirred all into active motion. Thus expansion began and there became an extension into

becoming, whereby soul began drawing Being with him, causing Seven glorious Daughters to be born in the Heavenly Heights. For as they differentiated down to the depths and the Matriarchate World began, its representation as the Divine Reality, was the glorious Pleiades. While the first creation as the Terrestrial was a state of reflection, the being of growing form in the depths of belief. The gods thinking and creating of what all was, thus extended out of their world of Beauty, where all just became and ever was, by mere glory of just becoming. But it is the LAW of Evolution, which is the Nature of Fire, the inner depths of Creation, to MOVE and EXPAND, become and grow, whichever way its load could go.

The Moving Finger Writes

ONCE again we have seen much activity and change over the past month, with the Hierarchical Powers descending with more and more rapidity into the density of the depths, though only seen for the moment by man, as "Flying Saucers." The two main manifestations being that of the Fiery Cross, which appeared over England, and the Sickle which appeared over Russia. These have been given a very wrong interpretation by the majority, for it has already been stated by the Great Master, who is the Great Overlord of this Transcendental Inflow, that these are Powers of the Intelligencia making their entry, or Embodiment, to the Earth.

As lower elementals of the Earth can take hold of a soul state and control it, so can these dynamic Powers, but to man's advantage. Invariably they arrive with a symbolism of their purpose. The Fiery Cross was the dynamic inflow of Atomic Glory, which Mrs. Spearman-Cook embodied, and whether outsiders want to believe it or not, we here were all witnesses to the struggle she put up in order to master of such. But this is delving into the deeper understanding of the super-mysteries, and which is completely out of the range of thought of the vast majority of souls.

The Fiery Cross formation was symbolical of the fact that mankind the world over, will now have to take on the Cross of renunciation, with England leading the way. No longer the dead god upon the cross, but man himself, who will be forced to crucify his lower states and turn towards the Heavenly Heights. Already England has made its first forced renunciation, in the devaluing of the pound. This is only the beginning of many changes which are going to raise this country up from the materialism of its past, into the greater glories of spiritual unfoldment.

We have said it before, and will say it again; the Higher Powers are determined to break down the financial, medical and scientific racketeers, that are holding the world in their grip. What the majority see as earthly failure, we here see as Spirit victory. While you are still only holding to the "beast" of the earth, you will never see that the Labour Government and its Leader, are being guided, though subconsciously, in a spiritual purpose. We do not deny that they still may have their failings, but far more will be achieved by them,

than by a Party which is renowned for its deceit, convention and greed.

* * * *

IT is a great pity that the English nation, as a whole, are so mindless and gullible. They take what is stated in the newspapers as Law, not making any effort to think whether it is true or not, when if they did they would realise that all writings in these papers are strongly flavoured by the personal views of whoever controls their production. I have read one particular newspaper which continually slings out insults at the Labour Government, calling them dishonest, when in fact they themselves are the most biased, and dishonest "rag" that ever befouled our country.

Our national papers are an utter disgrace, only concerned it seems, in running a hate campaign against the Leaders of the Government. Let them beware, for once upon a time a "rag" called the Daily Herald tried a smear campaign against Mrs. Spearman-Cook, whereby the Higher Powers took over, and the Herald was forced to close down. I would advise those in control of our Press to think deeply upon this, for no man is strong enough to thwart the Higher Powers, whether he is a common layman or even a Lord!

It is not realised that such destructive actions and thoughts directly influence the surrounding atmosphere, and yet has man so quickly forgotten the atmospheric conditions that prevailed at a certain period during the First World War. When the fighting was at its heights, and England was being heavily shelled from across the Channel, it poured with rain incessantly for the

whole month of July, without stopping. With it being openly declared by one and all, high and low, that it was the heavy gunfire, and the destructive elements, causing the inflowing powers from the heights to turn into a fluidic state of water.

Yet nothing more than a repetition of what took place in Atlantis, which was but a transforming state of the Fall of the gods to the depths, with the earth-plane being involved into a greater density, for all is HERE and NOW within the Abyss.

* * * *

TO return once again to the symbol of the Fiery Cross, religion has much to answer for, and the cross that they will have to carry will indeed be a heavy one. They have yet to be answerable to their embracing Sodomy as an accepted Law, but will now be forced to face up to those Divine Powers that they so badly raped. No wonder Lambeth Palace has earned the distinction of being commonly known as Sodomy Towers!

But we must not forget to mention Russia here, for they also had a manifestation in the heavens, when lights in the form of a sickle appeared over the country. This symbol really needs no explaining, for Russia openly boasts of its atheistic attitude, and shuns any form of divinity; therefore now will be scythed by the sickle of Saturn, whom they have been embracing, and will be "broken at the knees." It will not be too long now before Russia will reel at the disasters that are going to hit them.

They chose to have a god of science and not divinity, then they must face the consequences, for the Higher Powers have been established into the depths by Mrs. Spearman-Cook, and will wreak havoc upon any that deign to ignore or impede their coming. Man can say what he likes about these "Flying Saucers," but it is only the beginning of what is to come, and which will be made manifest to man ere long.

* * * *

NOW let us turn to another subject which we have had our attention drawn to, that of Transcendental Meditation and its champion, the Maharishi Mahesh Yogi. I will not add any further comment upon this subject itself, as it has been fully dealt with in the Reminiscences of this month, but must voice my strong disapproval at the Maharishi's recent statement that "the American troops are sacrificing themselves in a great cause in Vietnam." This I dispute in every way, and am disgusted at a so-called spiritual leader giving his approval to this senseless slaughter.

NO! my dear sir, they are not dying in a great cause, but are dying because there are those who still glory in the stench of war, and whose power-crazed minds can never see that they are but puppets upon the stage of Time, and whose edifices of destruction will be washed away in the eternal search for Truth. Only Truth can become an established Reality; all else is merely a passing glory, a mirage upon the sands of time, that sooner or later must fall and crumble into dust.

No, this is no great cause, but a blood-red stain upon the earth, and one that makes a mockery of the name of civilisation. I am deeply sorry that such a statement was made by one who has such a large following. It was foolish and unwise, and cannot help the task of bringing peace and harmony to this sorely troubled world. I will say no more, for I feel there is no more to be said.

Now we face a New Year, a new beginning. May we all here at the School, take this opportunity of wishing all our readers a Happy and Spiritually Prosperous New Year, and may the Blessing of the Great Flame of All Life be with you all, that you can be lifted up from the darkness of the depths, into the radiant glories of the Cosmic Consciousness.

SO POTENTIAL LIFE MOVED ON AND BECAME, WITH THE GODS, THE CREATION SO FAR, FORMING A PLANE OF BELIEF.

That which was to become as Earth, the mighty outcome of their expression. Thus those Seven Virgins up in the Celestial Heights, born from the glories of Thought, danced and joyed, frolicked and played upon the Heavenly Way. While the marvels of their birth made the Heavens rejoice, for their beauty was profound, all created in the radiant likeness of what the gods believed. Thus was the Divine creation, while what was in the depths was but the limited reflection, merely the lesser outcome of that dynamic belief.

The New Possibilities

YET here the gods began their creation, a Plane of active matter, where they could create, weave and grow, and unfold into form of what they believed. The descent was by belief of what could come forth, visualising more and more of a creation, bringing into birth a formulative mind, through an active God Creation of Heavenly Fire. Drawing out as they went many unseen possibilities, for they were the creation of many worlds that had been before, but of an unfolding propensity. This was the first creation of a Being of a mind unfoldment, with the way being set, and the God as Shamash, the Glory of this Creation.

Therefore these glorious daughters born in the heights, were the joy of their mighty Father, with the eldest as Majesta the Apple of His EYE, (See the Front Page Plate and Caption at the bottom of this column)

with her beauty surpassing all others. She to him was the reflection of his mind belief, a creation from what he was. A Being of glorious vibration as light, the first extension out of his Mighty Glory. But ever becoming more and more, as the gods created in their descent. Then in having earthed themselves in a world of created thought, born with all the growing glories of Nature.

But the gods found themselves lost and extended, not knowing which way to go in the unfolding Creation whereby to find a means of expansion.

What and how they knew not which, for all was Void of becoming; for it had to be by Thought now as they received of the inflowing atomic Breath. The inflowing sustenance to maintain their growth in their extended being, for lost and bewildered they cried out for help, from that Mighty Heavenly Being. Which resulted in the first created Daughter being drawn down to Earth, as the sustenance they required.

For she was created in the name of Desire, the negative might of Adam. Then as she was drawn down to the depths she went with Urana as the glory and Fire of Adam, down that fiery path of Descent.

(See plate on this page)

This was the Stream of the Eridanus, though unknown at the time of descent. A Glorious Stream of Light created by the differentiating gods, bringing radiating scintillating light to the stagnant creation. Thus Majesta as Venus, with Urana as the Fire of Mars, descended to the Earth, as the glory of renewed life. An inflow of glory that became as extension, but How, Why and Wherefore!

(See the Front Page plate)

MEROPE-MAJESTA

GLORIOUS as the heavens, dainty and ethereal as the clouds, weavers of the heavenly Galaxy, these divine creatures unfold the way of their Father's heavenly Dominion. As of this, she is the creator in the depths, where her sister of reflection is destined to bring forth that first creation unto the heights of glory.

began its course, unfolding the Word into the depths of the Abyss, the might and glory of becoming.

But now the gods in unfolding, had become as soul creation, with internal bodies that gave them being, becoming the Cosmic glory of Divinity. For mountain Peaks were building up in the heights of the country of the Far-Beyond. The mighty internal depths of the Central Sun, where the glory and the wonder of the Great Unseen came forth, as the glorious Protrusion of rebirth.

DIVINE GLORY

AS Majesta and Urana sped down to the earth, upon that glorious Stream of Light, the Planes opened up to receive of their beauty. Each Plane blossoming with the glory that these two divine beings were impregnating into the Scheme of Creation. (See text in col. 1).

As the Goddess she became the joy of Creation, for she gave incentive, but limited in those depths unstirred, where new life had to start an active creation, not just merely belief. Therefore Majesta also sought into the depths, to hustle the gods into action. Otherwise what had been started in the unified depths and heights would die, leaving the Heavenly Ones bereft and lost of their Atoms. This is where all the trouble began, for Mars in entering those depths, began to chase Venus, and as Earth and Fire, gave birth to cunning Mercury.

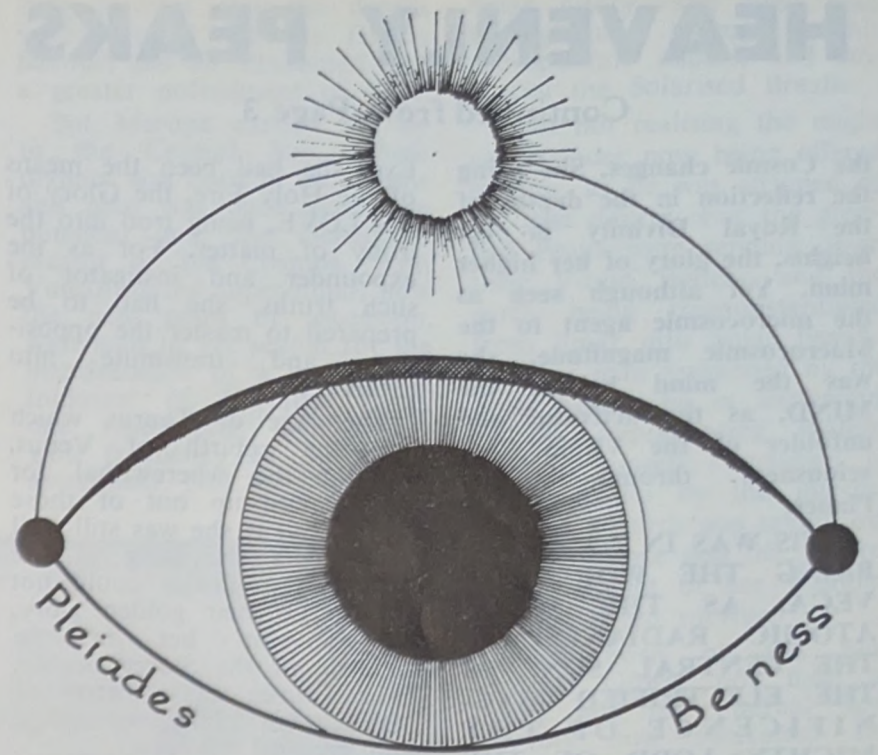

What began then was only in the mystery of that creation, with heights and depths of a deeper illusion, starting the havoc of life. For the expansion as the Seed of MIND began in the Heights, and revolution of Cosmic Infinity

The Duality States

AS these two extremes of Terrestrial and Cosmical came into being as the Sun and Moon, the Earth soul became born of two Principles, that of Masculine and Feminine. That of heights and depths being created as Reality as Intelligencia, and illusion as desire,—that of its own voice,—and as the Hivite, raped Dinah into defilement. Yet that which would have to eventually unite as ONE in Be-ness, through everything working from the Heights. Thus dual vision came forth bringing experiences of the Heavenly, in creation of divine Peaks and creative Earth.

For man did not rise up to the higher planes of Fire, to be embraced by its glory, but called out for the Fire to descend into their depths, that it would satisfy their dual cravings. For Mars had only listened to its own voice, chasing Venus o'er the strand, bringing earthy states into creation.

Thus the two ways of the soul becoming the vision of the mind, the way of earth creation. In all things, the right as the heavenly-creation and the left as the treading-in. While the unification that

would have to follow, would be the future state of Vega, through the Fire at last finding extension, and being risen up into mind-light glory. But (See diagram above)

which became upon the Heavenly Peaks, a continuity of vision, ever awaiting the soul as the conscious awareness, to unfold in mind belief and awaken.

For it was, as it was, in a too earthy state, to respond to those Heavenly resources, it having taken on an animal creation, producing from its lower state, which should only have been the alchemical retort to bring forth of the volatilisation. The distillation of heavenly dew which would bring the spirit into birth.

Yet once it was started it bounded forth on its own momentum, but as soul had ordained by the negative desire it now had put into birth. Thus man living as both animal and soul in the glory of the flesh. No longer as the god creation, but the soul coming up out of the Waters, the deluge of its own desires.

With Mars and Venus ever calling the tune, fed by those Heavenly Heights. While Urana, the sparking glory of the descent, was now lost under the Waters, awaiting a day of rebirth, that Vulcan the coming Orion Glory, could manifest in the Heights as the Prince of Hosts. Yet all an inter-union of Ether Breath and alchemicalised Fire, that brought the spiritus air of mind into birth.

All a reflection of the Prismic glory, which was unfolding as the Rainbow beauty, that of the Heavenly Arc, the wonder of the Divine MIND. The manifestation of the mighty Unseen, as the Protrusion ever coming forth from all the mighty miasma. Yet Nation after Nation unfolding the Seed, in the unknown Neptunian Waters. For what was, was it coming forth, but only as the desire of man's mind. What should have been as the glory of the heart, was still a missing factor, for academical glory ruled the day, and the heavens remained bald and unenlightened.

The Alchemical Unfoldment

YET although it appeared that Majesta was lost, she became the Cinderella of the depths, ever dreaming of her heavenly knight seated on his glorious white horse. Ever tending the Fires in her long run of adjustment, that as a union between Heaven and Earth, the Gods could still work the oracle up above, awaiting the day of opportunity rebirth, being the Desire ever labouring through the lymphatic system of the Earth, by driving the Divine Elixir secretly through the journey of unfoldment.

The secret mystery of the spirit kept alive, as the mystical glory of the Heroes. The Milky Way being the Heavenly reflection in the boulders accumulated by man. For nothing could stop the Heavens coming forth in evolution, the unfolding of the Cosmical Stream. What the Gods required was the glory of the mind-expansion, through Uranus and Neptune rising up to the heights, unfolding the Auric Divinity, that heights and depths were a radiant glory, in the inter-blended union of Solar inbirth.

For everything was being held in the magnetic field, with the atomic finding no means of union. That in the interception would have become the radiating glory of electrical fusion; the expansion of the Colossus Divinity, that he could come forth as the Magnificat of the Ages.

The march across the Wilderness was the first great trek into this Solar glory, and necessitated the expansion in the form of escape from the Egyptians, the lower states of the soul. It was only after an Arian Warrior had seen the truth, and then half-heartedly, that the Golden Calf was abandoned, with Joshua the Solar point having to gain Jerusalem, the glory of the heart.

So when Taurus came and went without bringing the hoped for Divinity,—the Saviour of the Seed,—it left Roman Catholicism in Pisces, all the field lying open for them to create their religious ritual, which stoned the world to death. Therefore the hoped for rise-up to feed the Father in Taurus, as the rebirth of Venus, only ended in internal slavery. For ways and means of a phenomenal nature were established, and actually took on the status of Law, and Jupiter became the ruling factor.

Whereas Moses only went as far as Mount Sinai, the Medes and Persians went up to Jupiter, and Majesta was locked in the span of the Bulrushes. Thus Moses stoned the Laws by not carrying out the action as demanded by the First-born Solar Divinity. For he had not the true breadth of vision to perceive the uprisen Solar Godhead; no isotope; therefore had not obtained the potential Seed of Vulcan.

It was Majesta who kept it going by the continual birth through the immaculate conception from depths to heights. The soul extracting the raw fire out of the stone by the wealth of Venus-Urania, the quintessence of divinity; the Law of Transgressional Rebirth through the Wisdom of Universal Philosophy.

Thus through the Ages, Majesta as Merope, became the human alchemical pot for

Continued from Page 3

the Cosmic changes. She being the reflection in the depths of the Royal Divinity in the heights, the glory of her higher mind. Yet although seen as the microcosmic agent to the Macrocosmic magnitude, she was the mind behind the MIND, as the activator and unfold of the Virgin Consciousness throughout the Planes.

THIS WAS IN ORDER TO BRING THE WORLD OF VEGA, AS THE SOLAR ATOMIC RADIANCE OF THE CENTRAL SUN, TO THE ELECTRIFIED MAGNIFICENCE OF THE MIGHTY LORD OF THE FLAME.

She it was who called down the Fires upon the Altar of Divine Suffering, that she could become the Cosmic Scapegoat, to fire man into activity. Thereby bringing him (See plate on page 5) to the full understanding of the wonders of the Heights, and to the recognition of what was his intended task upon the journey of evolution.

She it was who mapped out his Path of Destiny through the Purpose and Belief of her Sacred Heart. Thus infusing the Heavens with the majesty of Regulus, as she poured all her Love into the Earth, and made it the internal essence of the Solar Glory on its daily journey of deliverance. Hence as it circled the ecliptic belt, it enfolded the Earth in its etheric garment of Light.

The Living Scapegoat

BY her LOVE being trod into the Earth, was her example of the earthing of the Cosmic Law. She wearing the crown of thorns as the Initiator of the change-over; thereby her mastering the experiences of the Earth, that Heights and depths could find evolution.

Thus she was the unifier of Heights and depths, for man could not perceive and would not perceive, the change that was necessary for his own good. Hence the 'mark of the earth' took her down into the slave market of Medo-Persia, where she suffered all the degradations of its depths, that the Heights could take the polarity as the 'pearl' in the Crown, through the crucifixion.

They took the depths of the Glory of the LOVE that was born out of the suffering, to release and give forth. For as

Eve, she had been the means of the Holy Fire, the Glory of His LOVE, being trod into the irony of matter. For as the expounder and instigator of such truths, she had to be prepared to master the opposition, and transmute into LIGHT.

The Age of Taurus which was the rebirth of Venus, brought the wherewithal for her to rise up out of those depths, but if she was still well salted with the sting of the serpent, the glories could not rise up to their golden glory, and envelop her in the radiance of the Starry beauty. Thus Taurus was abortive of LOVE, but fully embodied with mystical mastery.

For wisdom never known before or after, became the star-turn of the day. But Woman never rose, and left only the Fountains of Bakshiserai, for these were her roots devoid of their flowing fluidity, through their true union with the Heights. It was only by her endurance and tenacity, that she saw the futility of her path, and gave rebirth to her heart intent to begin to climb up to the heights.

FOR AGAIN THE POLARITY OF THIS MIGHTY WEALTH WAS THE JEWEL TO SHINE FORTH, AND SEND ITS GLORIES INTO THE DEPTHS, AS WOMAN'S REBIRTH IN THE HEAVENLY HEIGHTS. AS ALL COSMICAL REBIRTH WAS ALSO HUMAN REBIRTH, IN THE SOUL UNFOLDMENT.

Thus heights and depths journeying along together, as the high and the low roads unfolding the galactical wonders of the mighty Cosmic Divinity. With all that was, and could be, fitting into place as a game of Chess was devised and manipulated, in the puppets re-arranging the causes in the depths. Their creative purpose earthing the possibilities, and unfolding its way of evolution. It being all this that gave to the Divine MAN, his inbirth and Royal Expansion in his out-birth.

For he was the Holy Radiance of the MIND, the Divine Reality of man's belief, which he whittled into form in the depths. Having not yet awakened to the fact that man is only mind, the glory of the Starry Beauty, as the chemicalised glory of establishment.

Hence here was the trinity ever coming forth in Father, Son and Holy Ghost, the

transubstantiation of the Father into the Mother, and the son reborn into the glory of the Father.

Therefore as Merope trod those depths, her prototype was either her saviour or the karmic impediment. For she as the living Scapegoat, had to establish the Holy Glory in its true Reality of Light. Turn every failure into glory, every sorrow into joy of knowing, while every misconception had to become as comprehension, the radiant glory of Truth.

Every drop of blood spilt, had to be transmuted into a rooted tree of growth, that was the means of man being fed with the fruit of knowledge. Thereby she earthed wisdom into the depths which resulted in her being passed down from one slave to another. Each a step lower and lower in the evils she was enforced to endure, as though every shred, stitch and tuck had to be re-created in her garment of growth.

BY THIS THE UNDULATORY GLORY OF THE JOURNEY OF THE RACE ELECT, BOUND THE AGES TOGETHER, AND THE HEIGHTS AND DEPTHS IN INTERBLENDED UNION.

Then as Taurus, the Age of decadent splendour, moved on into Piscean expansion, the wealth gathered by the mercurial dance from the exhilarated

meantime the might and glory of the Heavens opened up its mighty bank of accrued wealth. That which had been gathered through the Ages by the Prophets, Kings, Heroes and Sages.

The Real Quest

THE inner mystery of the hearts and minds of those who had awakened to truth. Those who had perceived of the dynamic inner Glory that was coming forth out of the Intercalaried Waters. Yet no one had had the courage to jump the Jupiter ravine, and spin up to the glorified heights to meet the risen-up Uranian-Neptunian mystery. For all feared those forbidden depths, (See plate below)

where creations of Satyrs, Pans and Graecae painted an ugly picture.

The soul having risen up by sheer dint of self-survival, to come out of the darkness of the deluge. The fiery glory of HIS LOVE, the mighty internal Beauty of the FIRE-Born depths, ever urging its wayward child to live and come up out of its fallen degradation.

The inter-spanning and interglory that never left the soul, as Merope-Majesta ever remained the secret union, carrying the Waters back and forth, up and on, that the SEED, which she was responsible for, would survive, and

Venus, striving to ever gain the glory of Venus Urania. For here she was proclaimed as Mary the Mother of God, and whether religion agreed or not, she was her, by the right of the deed. For unbeknown to themselves, they were bowing their knee to Merope, the Harlot that came up from Edom.

Yet the Son born out of the same Waters, for both Merope and her precious SON, the radiant Glory of the Divine Heavens, had ever been trodden under foot, by those who bore the crimson robe and the split mitre.

The Age of mechanical monsters, false beliefs, yet fast expanding enquiry, for many were seeking into the mysteries long forgotten, through religion trying to capture a secret that was ever eluding them. For none had the courage to blend those mighty Elements, or these two major dignities into an atomic glory of elevation. Whereby those Powers became their mastered wealth, in raising up the gathered magnetic.

For by doing so, they raised the glory up to their own heights, unfolding the Embodiment of "33" into glory of manifestation. As the microcosm rose up, the Macrocosm became, and that could only be by the risen up glories of the elements consumed to the Rainbow heights. Risen up out of the Waters into unfolded light, the alchemicalised radiance of the unfolded Prism.

Then Merope-Majesta began her REAL quest, as she prepared for the Second Advent. The moment when what had been, could become, or all fall to the wiles of men. For all the Heavens were ready as they sent Merope down to Earth, to take her last debut in the depths. To enter with Jupiter's fulmen mighty and powerful, but earth wet and slimy with the darkness of man's action and belief.

Her entry would be grim, for depths were her problem, being a Queen by eternal heritage: for only a Graecae with a Fount nearly equal to her own, could possibly be the root to feed her. So to give her birth, it would have to be one who had never cleared those depths, and held the mystical glories of the mighty El powers.

One awaiting rebirth from those Heavenly Waters, through the wisdom that Merope as her daughter, could set into action. So as the moment of conception drew near, Merope prepared to enter into the fleshy prison, to find to her horror, that she was an unwanted secret, with hell being let loose in the chaos of her destruction. Yet the very creme of that one's internal heritage, for only such as Merope could have entered that dark and dismal womb.

Merope's Task

HENCE Merope's first fight began, in the maintaining of heaven and earth, in her holding her seat of return, with her pouring strength and Solar maintenance into those depths, that her intended parent sought to eject. The fight was fierce and fearful, for Uranus was prominent in both, the mystical glory of the Woman uncrowned, but filled with the wonders of possibility. Unless Merope won the day, the first onslaught of failure began.

Here was the test of spirit, for her work now was to raise up the mighty Orion MAN to the glory of His manifestation. He that had been nurtured all through the Ages by the Heroes and the Prophets, now to be given His Royal Cosmic Birth in the Heavenly Heights. Then Merope to raise up Woman, and bring light to

THE UNCOVERED DEPTHS

GROVELLING and scrabbling over one another, they struggled to claim of the glory, for there down underneath the rock was the mighty treasure hidden. With the overtaking galactical principle beating them into activity; for he it was who was claiming the prize that these rascals were holding in the depths. (See text in col. 4).

Chakra revolution, gave to the Taurian heights, both terrestrial and Cosmical, the Configuratory fulness of the Heavens. And the Age entered with Arthur and the Round Table becoming the real true mystery of life, with religion trying to capture the day, and for the time held the fort.

With mystery and theology treading a path through Occultism, and Alchemy struggling to breathe. Yet it was nearing the day when polarity in its entire depths would either yield its true response, or the SEED would die. But in the

With the magnetic, though thick and un-interpenetrable, now becoming a blended figure, with the mighty Atomic. Blending and interblending, bringing forth the mighty Heavens, the Great Maestic Orion MAN.

Yet all the time, Merope-Majesta as the Harlot in a bedraggled gown of crimson, carrying the heavy burden of

all men. Thus with the aid of her Solar inbirth she made the day, and slid into her fleshy prison, to await the birth of the child Merope, her last hope for debut to the earth.

The Heavenly Powers sent forth their Vials of Holy Unction, for here was the moment of the Great Mystery about to unfold its Panorama. For what could be revealed and cleared in this dynamic inter-union, was only known to those mighty Divinities waiting to come down from those glorious Snow-clad Peaks.

Yet the mighty glory of Divine Vulcan, in all His Atomic Glory, to radiate as the Mighty Flame of the MIND, the heavenly magnitude of the Central Sun. For the task of Merope was to take Him off the cross, where man had placed Him to carry the burden of his sins.

As Merope awakened to the task that was duly laid before her, she shivered as she perceived what little she beheld, of what was the immensity placed before her. Thus retrieve the glory of the Seed that she had brought down to Earth, and placed into the care of man. Cleansing all the evil that had accrued on the superficial manifestation of the mind plane.

Multiplicity in abundance, that had to be unified into the androgynous glory of Be-ness; for man, who had taken of the Fiery Seed and violated to appease his own desires, had refused to honour his vows, dancing with the joys of abundance to open up the beauty of the day. This being the right of entry into matter, to adjust the glory of the spirit, and lift up the atoms of the Gods, that man had taken to become the light of belief.

UNFOLDING THEIR GLORIES INTO ATOMIC WONDERS, AWAITING THE MYSTERY OF THE ELECTRO-MAGNETIC, TO OPEN UP THE BEAUTY OF THE DAY. THE INTER-BLENDED UNION OF DEPTHS AND HEIGHTS, IT BEING THEIR RIGHT OF ENTRY INTO THE DEPTHS.

Therefore the task that lay before Merope was enormous, with man impregnated with the infusion of Tantalus to be mastered and adjusted, to unfold the God-like divinity. For papalism was strong in every man's mind, even unto the fear of destruction.

Hence an altar was prepared and disciples initiated, with a Channel created by Merope from Heights to depths that the Gods and Divinities could ascend into the glory of that mighty Work, when all was prepared and lighted. Such mighty heights up to the glory of those Peaks were, for the time, even beyond the understanding of Merope.

FOR BEAUTIES AND GLORIES UNKNOWN CAME INTO LIGHT, THAT HAD ONLY BEEN ASSUMPTION BY MANY; MAGNITUDE AND VIBRATIONS NEVER REVEALED BEFORE, NOW BEGAN TO UNFOLD AND BLOSSOM UNTO THE GLORY OF ONE AND ALL. WITH EVILS AND SLANTING PASSWORD, AND EVEN RESPECT BECOMING THE MIXTURE OF BELIEF, WITH POWERS ACCRUING WHICH DEMANDED COURAGE, FOR THE GREATER WORK TO BEGIN.

But segregation now began, as Uranus now risen up to glory of the Heights, began the Work of purging. With those who could not face the honour of rebirth, fleeing before the mighty Judgment. Bulls and priests, serving maids and virgins fell before the axe, until all was set and the Cup

burnished. With the cross buried under the rubble of the past.

Merope lame but fortified by determination, received instructions to open the Gate and begin the Path of the Mysteries. This was where the Thread of Ariadne became the Thread of Brahma, and what had been the shame of a god, became the responsibility of man.

Hence Merope began the Path of capturing the magnitude of Glory, where the Arc would be raised up to the glorified light of the Mind Plane, the wonder and glory of the Heavenly Intelligencia, the wonders of Light Divine. With man, woman and child being cleansed and reborn, as the Powers took over the ruling of men. Where through the might of Relativity, the Unification of depths and heights could become the platform of Solar-born glory.

Thus the mighty Drive was then commenced, with the basic of old beliefs being shattered into a million pieces. That the Holy Seed could be risen up and expanded into the might and Glory of the Rainbow, that of the Prismic Magnitude.

With the mighty Divinity that was the lost Desire, now being raised up to the Holy Radiance of the highest Peak of all. The most magnificent of the Ascension, with the Flame of Truth, the might and beauty of the Taurean glory, becoming the Divine Bull, the Royal Divine Apis of Holy Light. The risen up magnitude of the Seed as the Radiant Glory of the MIND, the Coming Prince that man has been seeking all through the Ages.

THE BELIEF OF THE SOUL, IN TAKING THE ATOMS OF THE GODS, TO BECOME THEIR OWN MIND BEAUTY, WITH THE ANIMAL RENOUNCED AND THE FACE ENGRAVED ON THE MIND, THE SOUL ASPIRING TO THAT HEAVENLY GLORY.

That mighty Divinity, no longer the burden carrier for the gods who had lost the way under Saturn's mastery, but souls who had awakened to the truth, and set the holy spark agitating and frictioning, into the glory of rebirth. Hence Merope's task was heavy and acute, needing all the wise directions of Divinity.

Then with the old cross being torn down, and the Cup now the vessel of atonement, the depths were fledged to polarise those Heights, where it required the help of the Heights to blend all up in perfect revolution. Thus they gathered full and mighty, that the Planes could be raised up higher and higher; for by this, man would be forced up out of his rut of the Pit, onto the true Plane of Earth. That the glory of the real Terrestrial could shine forth out of the darkness of matter.

One after another did each altar fall and the effigy of shame, with the live Divine Holy Radiance becoming the GLORY of the risen day. With man ever blind to the glory that lay before him, but being forced higher and higher into the glory of assumption.

Soul lost in matter, yet full and radiant with the wealth he had gathered down the Ages, now being unified by the glory of the Unification. Where Merope, the Scapegoat of the Age, took the unification of spinning up to her heights, bringing Uranus and Neptune into holy radiance. Shaking the Earth as they established their claim and planted their stake in the glory of Terra firma.

With man awakening to the glories, but only in the negative of their radiant possibili-

ties. Thus blood was drawn and scum rose up, with Justice demanding her toll. Governments falling and rising and evil exposed, with many a cause of Tantalus evil falling as the worm-eaten apple. Scandal after scandal coming to the fore, with many a celebrity falsely acclaimed, being pulled out of the God's divinity. For Merope embodied every Isotope possibility up to the frequency of the Central Sun, spinning and whirling the Chakras and Chromosomes, from mortality into the glory of immortal radiance.

cally blended, that the depths were watered with its Divine Savour, and all blossomed into a greater unfoldment of light.

But Merope carried all up to the Central Sun, where divinity was born in the depths and man was once again the potential god, the alchemical creator of the Cosmos. With Vulcan as the super-mind, now the new point of ascension, with man to yet search for the manifestation of a greater unfoldment of Divinity. Every one readjusting their minds with frequency as the major assessment. Not form or desire

Solar Glory, and fired man through and through as his protoplasmic depths, and embraced the Solarised Breath.

Man not realising the might and wonder now being offered to him, as he was stripped of his past desires. For the glorified Peaks were sending down their Virgin Waters, and the earth being transubstantiated from lunar into Solar beauty. Then as man awakened by the Solar Glory, he in awakening to the impregnating Waters, found himself turning to Merope, and by the internal Law of Rebirth was crying out for sustenance and life, whereby he sought of her Wisdom, that he could survive.

Man born of the holy Prismic Glory, not flesh as man, but his internal soul divinity now awakened and stirring into a flame. Thus trying to flicker into full radiance of beauty, whereby man was at last alive and wanting to truly live by the beauty and glory of divine unfoldment. Not an animal snorting in the dung of matter, but his eyes turned upwards towards the heavens from whence he was born.

For by Merope unifying and achieving, man was now unfolding by the Prototype set into action as the Prismic Breath. For the Yod and the Fount were one. Merope being of the Magnetic and the YOD that of the Atomic; and although they were ONE, they were twain. Thus for man to be ONE they must be unified, and was the ordeal that WOMAN had never yet experienced.

To be as the Uraeus, the glory of ignition, which woman must be if she wished to be of the Electro-magnetic, Merope had to become FIRED. For she and her Spouse were ONE, but not fired by the Divinity of the Holy Glory.

As Merope shrunk into the remotest of being, she found herself being attacked by an unseen Cause. That which was seeking to possess her and penetrate the immensity of her being. As she curled and writhed, struggled and fought, it took the whole of her being into its dynamic Glory, and what had just been tense and taut, sparked and fired as the whole of her immensity shook with the vibration of Becoming.

For it was the Atomic that shook her into magnitude of Glory, and is the mystery of immensity of Vulcan. He whom she had been the means of HIM becoming, for in the depths he had come forth of the Glory of the Heights, as her depths uplifted such into becoming.

Now he was the means of Merope becoming the Queen of the Heavens, the light and glory of the Divinity of all becoming, the might and wonder of being. Thus what was as heaven and earth, now became as the radiance of the Central Sun, the Glory and Divinity of Vulcan in all His mystical Glory. With Hephaistos, who had been forced into the lameness of Oedipus, now risen up and striking Atomic Glory into one and all, as the gods fired and born into Holy Divinity.

WITH THE HEAVENLY PEAKS ALIGHT WITH GLORY, AND MAN BORN OF HOLY DESIRES AND DIVINE INTENT.

This lecture was delivered at the S.U.P.H. on Sunday, 22nd October, 1967, through Gladys I. Spearman-Cook by The Great Flame, the Lord of the Central Sun.

THE COSMIC SCAPEGOAT

AS Merope raised up her hands in supplication, the Fire shot out of the massive Void; surrounding and embracing her with its magnificent beauty, as though heights and depths had united. Then fired with the glory of such divine wonder, she went forth to fire the earth with her treading footsteps. (See text on page 4, col. 1).

Mastering the erroneous assertion of leukaemia and anaemia, which became by karmic elevated religious evil, as the scourge of the day. Mysteries applied with wrong intent and not the adjustment of the holy garter, with herbs now the emollient and balancing agent of the mind, for Merope was bringing the Plane of MIND into birth, the risen up Fire of Divinity. That which should have been the Path of the gods as they differentiated down into the depths; but by them choosing the road of the flesh it lessened the union of heights and depths.

With Merope more and more increasing the frequency of electrification to unify the issue. Completely stripping Saturn down to the base, that as the blossoming Fatherhood, the full glory of rebirth from the Matriarchate into the Fatherhood, could become the fullness of the transubstantiation.

The Divine Prismic Glory

THUS Peaks with the Holy Divinity of the Begotten Father, became the order of the day. The glory and the mission of man and maid, now the fired unfoldment unified into Atomic glory. For the fight and struggle of Merope was up to the Peak that the FACE could manifest in the depths. All had to be Cosmi-

as the living glory, but the divine wonder of the atomic unification.

Therefore Merope earthed the Glory of Vega as the Divine Plane of the MIND, where soul who had awakened to the truth, began the road of soul ascension, until he could claim the right of Protrusion, and be gathered into the glory of Heavenly light. For here was the mystery of a task fulfilled, the soul born of the Heavenly glory, the divine achievement of mastery.

The Divine Fire the glory of the vision and the radiance of the mind. With the speech as the OM that rolls forth from the depths to the heights, as the two EL Powers unite and embrace. Merope as WOMAN goes back to her Spouse in the glory of Divine ONENESS, with Vega born as the Holy Glory of the MIND.

But this was the earthing, with all states of fixidity to be broken up, and every soul awakened to the divine glory that was now their heritage. For the Cosmos was set and sending down to the earth Holy Fire in all its magnitude of Divine Grace. Thus Uranus, the long forgotten and down-trodden glory, is now fully restored and ready to fire man into the understanding of DIVINITY. Thus he became the Heavenly Beauty in the

SOUL AND ITS CONSCIOUSNESS

by Gladys I. Spearman-Cook

THIS is an article to help the struggling enquirer, for owing to the changed world, and the changing world in the offing, the foremost article on the front page, could be well out of the range of the early seeker into Occultism. Now all the Planes have been lifted up back to the VIRGIN PLANE, the Plane of becoming, as unto an independent mind creation. Where the gods before the FALL were ready to create, hence a soul Plane of original thinking and expansion. To the enquirer this is fantastic, but a truth, and to the knowledgeable, these lectures full of detail, rather confusing. But to those who are earnestly seeking, a possibility, because all things are possible to those higher realms of light. Thus all now is at the status of ONENESS, yet soul had to be created, and must be understood in all its detail, so that the enquirer can find his reason for all deductions made.

ALTHOUGH TAKING MORE FROM THE ANGLE OF THE GENEALOGICAL CREATION, IT MUST NEVER BE FORGOTTEN THAT SOUL GOES BACK, NOT ONLY TO BEGINNING AS THE NORM, BUT TO AGES IMMEMORIAL.

The Trinity

MANY have asked the question, WHAT IS THE SOUL? I am convinced that whatever explanation is given, there will be those who will have the contradistinction with all the authority in the world; and why not? Argument brings deduction and solution, providing it is carried out with a constructive purpose, and a motive of truth, although it will never alter the ultimate deductive point.

There will be many who will say, every man to his own ideas; yes, that may be so, but very few find comfort and conviction from those deductions. Let us see how we feel over this theme and deduction of SOUL, and its area of capacity.

Soul is a field or area of thought activity; a circumference containing a sounding post of registering ideas and deductive conclusions. In the Occult world it is always symbolised as a circle with a dot enclosed. The dot represents the Triad, the Godhead through which the Unknown Quantity makes its entry into the human soul.

This consists of the two Principles, the Masculine and Feminine, or Rays of Equilibrium that contain the Essence of the Third, which in man, when alchemicalised in his being, becomes consciousness, mind. The third is the "IT," the Divine Fire of All-Being. (See plate on this page)

In Religious thought it is represented by Father, Son and Holy Ghost, or Father, Mary and Son. But are the Cosmic Rays, that when absorbed by man, are extracted according to his powers of frequency of extraction—his mind capacity of wanting—and when the two Influences are absorbed they become the two that friction and obtain a third, the deduction. It becomes that which is obtained through argument and experience, and becomes soul quality. It is that which man emulated as the prototype and produced a world of humans now called moderns.

This prototype was and still is the nucleus of man's divine state of ever-becoming, around which all thought—consciously or sub-consciously—is polarized. These two Principles are the original being of life, and are continued in the dual argument of thought, and furthermore are the nucleus of all production. It becomes the consciousness which leaves the body at night and takes flight in the spheres or planes according to its capacity. This IS THE SOUL with its field of growth.

SO WHAT ARE ALL SOULS IN THEIR DIVERS WANDERINGS, NOW SEEKING FOR?

The tangible something which gives them, as they believe, freedom from limitation. Yes! quite true and rightly so, but not as they at the present are seeking, for what is really necessary is unknown to them. Actually it is

a desire to rise above the pole; the pole which polarizes them to a limited area or field, until they can become superior to that area or range of deduction by and through their thinking power; thus become free from the ring-pass-not.

So the next point must be, **WHAT IS MIND?**

The focal point of the propagative faculty; an area of radiance, wind or air drawn from the base, which gives rebirth to the God cells in the brain, within which there is a capacity to collect the sensitivity of all organs, juices and nervous reactions. It is the focussing point and means by which the Ego becomes aware of the material universe; an instrument for the acquisition of knowledge in this and superior realms.

It is an area of "SOMETHING" which man is ever struggling to intensify for divers ideas, but one real purpose, to exist. But it can only become of alertness in the direction of that which is uppermost in him, as self or Self. This is determined by the heart and can be of an altruistic nature, or the infernal furies.

Then further, what are the **INFERNAL FURIES?**

The cavern which sends forth of gaseous vapours from the commixture of Salt and Sulphur, earth and fire, that produces the Mercury—movable air. This is the outcome of a desire body which furnishes an incentive to action and becomes an instrument of intention with the purpose for further action, and later the motive. But really an area of thought and reason.

The Etheric Pain of Influence

MINERAL and plant life have no mind, yet we could not deny an action of sensitivity, which is an action of growth; not a plausible instruction, but that which becomes under the guidance of the Macrocosmic plan, influence and ruling.

In the animal growth, which is the outcome of Mineral and Vegetable action of evolution, a brain formation took place with a fallow field. An upper cavern corresponding to the lower cavern, or a "chimney" that would send off the "smoke" that ascended from the fires beneath. This holds a divided grey substance, mysterious in its formation, yet simple in its construction.

In this evolving being, the "smoke" being formed and ascending, was coming forth from a desire body through a friction of action that involved propagation, and that which manufactured a third within itself—deduction or ideas. It took the form of a gaseous vapour as it gathered within the cavern, which is better known as the ventricles of the brain; but it is in these that the two are gathered, bringing forth of the third—deduction—when the soul seeks to think.

In the animal creation, as was perceived by the evolving human, its brain was only

controlled by instinctive desire, for the Law of Self-preservation was still controlling and re-shaping, but in the human a more responsible action was activating, thus they would be coming under the Law of Cause and Effect. Further this evolving soul also observed, that the link with this brain was by the cerebrospinal sympathetic system, and that by such and the voluntary muscles, the lower part of the desire body was controlled.

As evolution continued, it was observed by belief and with the aid of mind memory, that past influence played a very important part in the growth of the soul. This as a revelation of the Mysteries, was perceived to be an influence named Saturn that took the greater lead, and was once upon a time the cause of an

by the Law of Consequences, caused by the root or core that was drawing towards and upwards and would now be their point of purpose.

This pinnacle of the physical pole as an organic construction, is called the pineal gland, but it is only the organ for the etheric spiritual point that exists in the etheric body, the soul, and deductive of the Seven. Yes, and it was further believed, and quite rightly, that the pole or rod, the spine, was but the beginning of a yet greater continuance to a further polarization of a "Polar Region" or a mystical plane of conception, the Great Outer World Space.

It was by this great interlinking and interblending of worlds that the "tail" of the animal dropped away from the form, for the balance became determined by the Macrocosmic forces from that greater Region, and no longer would the Law of Matter be working through a tail of balance. The evolving creature was becoming polarized and magnetically held by a Law of Symmetry and Rotation, for now a three-fold body was forming with a gland at the top of the head, which the soul has named the pineal body, and is the connecting link with all outer worlds.

TRANSCENDENTAL CONSCIOUSNESS

AS her mind rose up, darting hither and thither, she wove the song of Love; with the mercurial beauty bursting forth like the mind consciousness out of the depths. For the sea of life was her weaving loom, and Pallas the moving shuttle. With Jove the created pattern, that the Gods could be adorned anew. (See text in col. 1).

upright stance taking command of that evolving animal creation.

This came about by a magnetic pole of Cause and Effect polarizing and drawing that forming soul towards the nucleus of its own inner being, whereby it left the animal creation behind and attached itself more and more to the Spiritual Point of the forming Godhead within the soul. Yet all was being polarized in that brain formation, and furthermore, it began its deduction

The Conscious Awareness

BY those who were forming some form of deduction, or drawing "something" down through the Prismic Breath from those heights, a forming construction of sensitivity became perceived. Thereby Greater Beings, far greater than they, from that upper world, were the means of forming in the creation in their own personal formation, which

was as a "chariot," the manifestation in matter of the divinity to control matter. For (See plate on page 7, cols. 2 & 3) then they were constructing all in the image of the God, that they had some indistinct idea of once knowing.

Upon this, some believed that He was manifesting in that which was being polarized in matter as a shape; and furthermore that it was Him taking form and bringing a tangible formation in the plastic clay of the soul structure; that which was forming from the "monad-egg" that had been deposited in matter.

Yes, in its formation it was forming under that guidance, the soul, and literally was determining the shape of all matter; yet, was not all determined, and but a part of the mystery of Life, and Becoming? For what was, began its formation at the beginning of Creation, the Saturn Globe, and whose influence now was beginning to claim its own by controlling and obstructing, to bring about a unification of its construction, that was now in the hands of a moving force called soul.

As this intensification became, the ascending smoke of the creative fires became more and more under the jurisdiction of the polarization and an increasing sensitivity took place which brought a thought intensification. Then a new phase became the lot of the creature, a state called logical awareness; what was instinct now became a conscious direction, and came more from the head than the "tail," yet ever from the tail, the caudaequina of the spine being the organic construction of all direction being formulated.

A THIRD CREATION CALLED CONSCIOUSNESS, NEXT BECAME MANIFEST IN THE BEING, AND WAS, IN ITS INVISIBLE CREATION, THAT OF THE THREEFOLD BODY.

This creation caused deduction to begin, for it was now seen by the progressing soul that if the animal creation existed on the plane of two dimensions, then surely the human, being of the threefold creation must be of the third dimension. This was because the animal could only be aware of the ground he walked upon, while man had the power to measure height, depth and width.

So since evolution is the Law, a body of ethereality must be coming into being, which could be the soul; then surely this must be of the fourth dimension, the intensification of the polarisation in Spirit and matter blending. Thus that which was of the animal instinctive self was now becoming the man-Self: and surely unto the God consciousness.

And further still the deduction continues as mind. Then there must be forming around the area of the "root," the pineal gland, an intensified magnetic field. Entering the brain formation near the Fissure of Sylvius are two nerve formations, depositing into the grey matter all the deductions of the desire faculties and sensory feelings of the animal body, which indicates that all movements as a desire action must be directed from that grey matter.

THEN IF THAT IS SO, WHAT ARE THESE TWO NERVE FORMATIONS THAT PLAY SUCH AN IMPORTANT PART IN THE ACTION OF THE SOUL?

Let us for the moment use the Occult term and call them Ida and Pingala, the two fangs of the serpent, for they come from the sympathetic nervous system as sensory and motor activation; that is the sensory condition of knowing and becoming. These have also been called the two ropes of Ak, which when blended into one are called the Thread of Ariadne or Brahma, and link the soul with the heights.

Through man becoming aware of heights beyond himself, this rope in becoming the formation of the Cosmic planes, has now been thrown around the Pole and is pulling the soul up unto its loftier guardians, the planetary Powers.

The Formless World

ALTHOUGH this has been applied in mystical form, it is technically correct; but let us tarry here awhile and look into the words uttered by the scientist Faraday when only at the young age of 24 years. It is certainly good to see such amazing wealth delivered from the scientific world, for it helps the metaphysician and the occultist to realise that they are well on the right path.

"As we ascend from the solid to the fluid and gaseous state, physical properties diminish in number and variety, each state loses some of those which belonged to the preceding state. When solids are converted into fluids all the variations of hardness and softness are necessarily lost. Crystalline and other shapes are destroyed, opacity and colour frequently give way to a colourless transparency and a general mobility of particles is conferred.

Passing onwards to the gaseous state, still more of the evident characters of bodies are annihilated. The immense differences in their weight almost disappear; the remains of difference in colour that were left are lost. Transparency becomes universal, and they are all elastic. They now form but one set of substances; and the varieties of density, hardness, opacity, colour, elasticity and form, which render the number of solids and fluids almost infinite, are now supplied by a few slight variations in weight and some unimportant shades of colour.

If we conceive a change as far beyond vaporisation as that is above fluidity, and then take into account also the proportional increased extent of alteration as the changes arise, we shall perhaps, if we form any conception at all, not fall far short of Radiant Matter; and as in the last conversion of my theories, where many qualities were lost, so here also many more would disappear."

It can be seen by this how the form becomes fully responsible for its actions, even unto the enormous fight to conquer the influences of the upper world and become "as one of them." Aleph creating with the tools afforded unto him, hence the dot in the circle is forming into a circumference of Radiant Matter.

WHAT WAS UNDER LUNA CONTROL AS AN ANIMAL CREATION, IS NOW BECOMING RESPONSIVE TO SOLAR DIRECTION, SPIRIT.

Such great scientists as Faraday, Crookes, Crawford and Holmes understood all this to a degree, but from Spirit were wanting someone to prove it. Quite early in my career as a medium, these scientists delivered a message from a well known and reliable direct

voice seance begging my eldest son to give of his time, that through his scientific mind, with his mother who was an eager "guinea pig," to prove of this truth.

In fact he was informed that he had returned specially to perform this task; but like most humans he missed the "cue" through listening to materialistic voices of the lower maelstrom, and decided that life was for his pleasure and that a career for his qualities was more important.

THE DESCENDING REALITY

UPWARDS, upwards, rose the aspirations of the soul, as his heart spoke of what he believed; lifted higher and higher by the chariot of his creative purpose, up that mighty transcendental glory. (See text on page 6, col. 5).

It was only a matter of months before he married, went to New Zealand and went down with haemorrhage of the lungs and lay on his back for 18 months. This young Prometheus "more than had his liver pecked out by vultures"; but this is only one of a number that I have had the sad lot to witness failing in the duty they had promised to perform on their arrival in matter.

The Cosmic Unfoldment

CHILDREN of Evolution or of those Elected; those who have already joined the great surging River of New Life and now having "had enough" decide to use the power gained for their own pomp and power. Surely in the Holy Book we are warned of this in the story of Nebuchadnezzar.

One cannot play with the Great Omnipotent Powers of Spirit, for they are the World of Justice and Mercy, that when such are flouted, Justice demands to the full and shows NO MERCY to defaulters, especially as the Atomic World is born.

It is a world entirely out of the range of erring humans, but once the soul, by its inroad of consciousness, enters into the vortex of that swirling stream, it becomes the velocity of the soul's fiery essence. This must be returned to the Cos-

mic Creation as man's quota of activity in matter, by raising matter onto a greater vibration by being the mouthpiece of the manifesting God in that fiery essence.

Unfortunately man, by sheer curiosity, egoism or belief, and mere evolution through intellectiveness, enters that stream, and that closes the door of "no return," or!!

To understand this yet further, but in a more simplified way, let us perceive the plant

The being in personalities is as the strings of a Lyre creating a magnetic field of intensification by responding to the Rhythm of the Spheres and making manifestation in the world of the lowest form of matter. Thus electrically charging and reforming matter. Such as these when operating are the saviours of the world and true husbandmen of God.

The Triad now as a being, and the very nucleus of Itself becoming tangible; hence became and knew Himself, but remained hidden until creation became, that it could accept Him and know who and what they were.

He, the Great Omnipotent Life, manifests through all organs, both Cosmic and human, as the two-edged sword, the death-dealing and life-giving angel that brings into birth the hidden Seed in the folds of the womb of Mother Nature. The SEED-life born from the Breath, entrusted into the care of the human which becomes the seed-life of the human semen and ova, that when called for in the royal service of generation became accepted and delighted in, thus becoming a part of the thronging momentum of life, in sorrow and joy.

BUT WHEN RAISED TO ITS HEIGHTS AS THE FIRE OF GENERATED MIND, BECOMES THE VORTEX OF THE FIRMAMENT, THE MIND STRENGTH OF THE SOUL.

The Divinity Within

MIND is an intensification in matter through the magnetisation of greater world strata or velocity becoming light in matter, thus making matter into Radiant Matter. And in more simplified terms, the karmic Law of Equilibrium held by two forces of balance, creating out of itself its own friction, or that of a third quality, a momentum of mind.

All is produced through the "hush, hush" nature fire; that so curiously intermixed with the never-understandable threat of the original-sin; and the focus is at last, in a theme of belief, bringing forth a product in the salt and sulphur—earth and fire—producing Mercury-mind. Therefore it must be seen in the deduction, that all that becomes in the organs through corpuscular action becomes as a seed atom of the heart through the aspirations of the soul, and is carried to the brain in the blood lymph, with the result the cerebrospinal fluid becomes that of the brain dew.

The tears of the Christos in that of the light becoming born in the continual revolving of the "waters" or emotional urges. This, through continual penetration of the mind area, is an interpenetration of the Macrocosm into microcosm and drips onto the pituitary or third eye potential; the forming Chalice of the journey of the Holy Grail.

Around the root in the head are now radiating vortices, for the pineal and pituitary glands are the hub of the "world in the little," the microcosm, and the sounding post of the whole universe in matter. For it is the monad, or virgin spirit now in

its rightful denominator as Radiant Matter; and it requires little for man to acquire of this capacity, for it is he that belabours and solidifies into suffering.

As man comes away from the desire body, the animal-self, he becomes more attuned to the rhythm of Spirit and the Self makes manifest as the God within. The pineal body in the etheric creation as the Norm, becomes the sun within matter.

The virgin spirit of the soul is interpenetrated by the Father and brings the mind essence forth as the son of light. The outcome of the animal-man is the experiences of the scapegoat in the journey of the wilderness.

Many will find it most difficult to realize and least of all accept of this truth, and those more worldly seek to dispute, but it actually is as simple as it sounds, yet enormous in its formation. That which began in Worlds, not only created a form but a formulae within that form similar to the original creation; and what began as moist air in Worlds, became moist air in form—the emotional mind.

It was these two focal points that produced of the mind, which became a tangible something through the labouring of the personality via the channel of desire, that the self or individuality could make continual manifestation, and the Greater Powers manifest of the One Seed in that which became of Radiant Matter.

The journey is of the unfolding awareness in the polarization becoming the conscious self; thus man losing all separateness, and he and Him becoming one in the manifestation of the Father in the Son. This necessitates the five sensory Wheels becoming of the 6th, the Ajna, which fledge its wings that the 7th can radiate, and produce of the 8th as the bursting forth onto the next plane.

The Virgin Plane

THE five planetary forces operating through man's five senses now focussed on the higher mind plane and becoming of the Mystics, the Worlds of Outer Space. While in the Cosmic Man, the Macrocosm, the Logos Light as Intelligencia of Word, becomes the focal point of God manifestation.

The Reasoning Intangibility becoming tangible, while the tangible that manifests is only but the Intangibility made complete. The mystery of man made in the image of God, and man creating as of God because it was commanded of him to do so.

Mind growth in comparison with mind totality can be likened unto the rendering of a concerto. In the opening bars of the seven chords, the first demands the blowing of the "Shofar" and the walls of Jericho fall away as the whole seven are responding in the crescendo of heights and depths. The whole orchestra playing their instruments with all zeal, as though the whole

Reminiscences

As one of these young men first confronted me, in his green velvet coat, heavily embroidered with braid, I was amazed that such a gentle, lovable soul as George Harrison, could be one of the well-famed Beatles. That a young man as a part of a group, idealised and worshipped by most of the young people all over the world, could be so unaffected, was amazing. Yet one for whom Brian Epstein had much respect, for I have had much contact with this young man since his passing.

The Path of Solar Unfoldment

THUS I realised how much George Harrison's introduction into the Mystics had given him, and what he and the other boys could do to help the future Race. He now had the status of being ripe and ready, when he had acquired some wisdom to discuss the advancement he had made. For he was now ready to start the REAL true journey of assumption, the touching of the greater wisdom having completely opened up the inner depths of his being, with all waiting their "mortuary meal" for the greater climb.

He seemed to have put his right foot forward on the path of unfoldment, which not many are able to do, yet a path that every soul will be forced to take sooner or later. But this is where this young man is wise, he is seeking enlightenment, which means he has awakened to the higher Cause, and could be of mighty influence to others.

To those who would automatically wonder, I would say, definitely NO! there was no evidence what-so-ever of drugs. This seems to be a label heavily fixed to these boys, owing to the recent conviction of one of another group.

This is my first experience of meeting one of these boys, and not a disappointing one; he is one of the coming generation, and one who could help the tremendous task of bringing the world back to electrification. That which has been sadly impaired through false religious ideas and beliefs.

As an instigator and inspirer into these deeper subjects of life, I feel that, as also a Teacher, I must pass my opinion upon this deep and intrinsic subject of Transcendentalism. For it is the crux and outcome of my investigation, and one that has been vast and varied, and not without much experience.

The major point here to be remembered, is the fact that as we think and believe, so we are, and if a new instigator of something into matter, something we are responsible for, and will sometime or another, have to earth and tread it into life. Therefore, the more positive or spiritual angle one takes of such a subject, will it live ultimately.

FOR INSTANCE, MY INVESTIGATION INTO THE ELEMENTS, ESPECIALLY THE ATOMICS, GIVES ME THE LEAD OVER THE SCIENTISTS, AND IT IS THEY WHO ARE ON THE RUN TO TRY AND CATCH ME UP, FOR IT IS NOT KNOWLEDGE HERE, SO MUCH AS FREQUENCY, WHICH RAISES THE VIBRATIONS OF THE PLANES, CHANGING ALL THE CATEGORY OF ACTION.

Any investigation of this description, always brings the need for renunciation and sac-

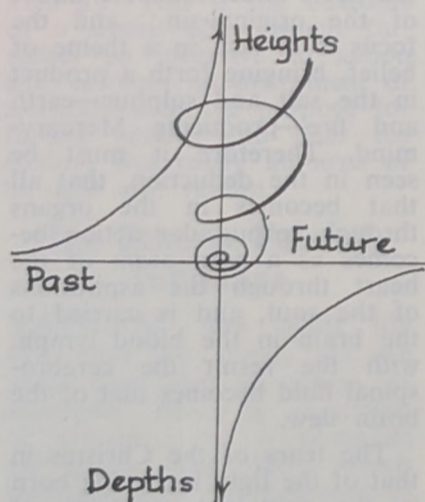

OWING TO MY HAVING HAD THE PLEASURE, just recently, of meeting one of the Beatles, I feel very prompted this month, to write upon a subject which is quite old to me, but new to many, Transcendentalism. As a Guru I can speak with some authority, and as a Cosmical Scapegoat, with full Atomic justification. Thus may be able to help many, for this young set of Pop Singers have set a flare going, that will hold them to enormous responsibility, as advocates of such magnitude upon such a tremendous scale. This will account for why the Gurus of India are very angry with the Maharishi who has given over this wisdom to these boys so blindly.

rifice, for by such, it gives you the right to gain more, and since man can only hold the quota of life as vibrations, he would explode if he did not renounce. This is where one must have knowledge, and the need for study if you intend to start a trudge through these seas of the Mysteries. This boils down to setting sail on the sea of life, to try and capture the big White Whale, a journey which sometime or another, every soul will have to make, or merely "die out" on the sands of time, as a non-entity.

The next point to perceive, is the fact that it is the unseen higher mind that is prompting any such journey, not the lesser mind as the conscious thinking and creating mind. The higher mind needs resuscitating, or else it will become addled, and is seeking of the lesser to get some experience to revive it.

For many of our higher minds, as brain capacity of mind memory, are very ancient and wealthy souls. This is what the Gazette caters for, by giving in the front article, information and elevated writings, which will feed the higher mind of those ancient souls, ripe and ready for help. Hence will not receive only old names, ideas or beliefs.

This diagram could help very much... This is the tan-

gent rise, where the old wisdom of past memory, and the roots within the soul, rises up to the heights, while what has been the depths of Woman, rises up and becomes the new future idea, through the unity with the present. This is the blending of heights and depths, which automatically brings a rise in the centre.

When this causes a state of elevation in the mind, and is followed up by the earnest soul, it can spin up to the heights of the mind, and begin a series of changes to both earth and cosmos. Thus the soul makes headway and progress, but it cannot be done without wisdom.

So to those of you who are seeking help, wrestle with this greater reading, and in time the conscious mind will awaken to the depths partaken, and start weaving and adding unto the experiences taken. But now, to avoid the increase of multiplicity which was taking place in the world, the Higher Powers sought a

TRANSCENDENTALISM

Powers, the Intelligencia, to call my new-born wisdom Universal Philosophy and Healing. This was after the Great School up on those heavenly Planes. These Planes I have visited in my sleep state, and can bring back my experiences, but usually keep such as a cherished experience, owing to doubters destroying the glory and beauty of such a beautiful crystalline glory.

This is the wonder of Neptune, for I have now opened up this mighty Plane in the soul growth. Hence the pineal

the soul through the conscious mind must weave it into a pattern of belief.

SOMETHING GREATER THAN WHAT HAS EVER BEEN, THEN YOU ESTABLISH A NEW PROTOTYPE. THIS IS EVOLUTION, SHOWING HOW MAN IS THE CREATOR OF THE MIGHTY BREATH OF THE DIVINE CREATOR. THE GREAT UNSEEN GLORY OF LIFE, THE SOURCE OF ALL-BEING.

Now you are going to have the so-called "big boys" of science, denying all this. Ignore them, these are facts, which an investigator in this life alone, has given thirty-one years of their life to ascertain what they know. The only thing was, I did not bargain with the fact of Scapegoat; perhaps if I had, it might have made me think twice; or would it have done, I wonder?

I suppose I strode ahead too rapidly to have been a novice, which automatically made me the forerunner on the subject. So now I speak with full authority upon the Atomic. For this is the depth of the Transcendental Power today, and of which the "Flying Saucers" are part thereof. So when I say the Flaming Cross of Seven lights entered into this School and into me, you can, through the previous explanation, see with a much more lucid understanding.

True Transcendental Power is the Power of the Heights, right from the very Source Itself, being imbibed by a soul who has raised his vibrations up by sensitivity. Then his frequency by rate of vibration, brings the whole of his nervous system elevated to these heights, and the soul draws upon whatever vibronic status he has reached.

Then with the Tympanum of the ear thoroughly prepared through a purified diet, and with the bloodstream cleansed from urea and free by plenty of cold water, big changes could begin.

The blood feeding the nervous system with action and life from the inflowing Central Sun life, and the cycling around the root of the brain via the Circle of Willis, feeding the brain with activated life. Whereby the voice could be heard on the Tympanum from the awakened atoms in the brain cells, and elevated speech produced from the uvula at the back of the throat.

Everything becoming active and elevated, which must not get "cold" by dropping when the investigation is finished. This is where the mind must be kept risen, and not resort to excessive food and drink, so that you do not feed the bestial side of the nature with the power taken.

This is where wisdom as the Word when taken, is taken on the highest frequency, and out of the density of matter, whereby you receive not only the RIGHT answer, but the

DIPLOMATOLOGY

HIGHER and higher rose the gathering powers, turning into dead rock; for soul in his greed, of eating the heights, had not followed the code and Law of rebirth. More concerned with the tag of diplomacy than the union of heights and depths. (See text below in col. 4).

Scapegoat who was fully versed in all wisdom, and could bring all to a one pointed conclusion.

THEN THE HEAVENS BECAME REBORN BY THE REFORMED ELEVATED POINT OF LAW, AND NEW LIFE BEGINS FLOWING TO THE EARTH.

Thus the greater oxygen now coming to the earth, and feeding man with atomic fresh air. With regard to this, I am afraid I am the culprit, so I can speak with ALL authority upon the inflow of the Transcendental. Yet I wonder, even on that, how much do we really know? The only thing is, my experiences have been vivid and painful in many directions, and there are times when I have felt very lonely; but then I am a Scapegoat.

One of the major points in this investigation is diet and moderate living, with the discarding of all forms of conventionalism and dishonesty, then an investigation into wisdom can begin. This is so that all metabolising organs are free to open up the change of thought. This I did, and studied every religion, science and phenomena there is; then wrote upon them, and united them into one vast pattern, for every injunction is but a part of the whole.

I took the whole, and was instructed by those Greater

The idea in the minds of many, is just sitting, meditating and calling down the Powers. Well, if you do, it will result in the same status as that which has resulted in India. Dead barren earth and poverty-stricken people, through taking barren powers, and not weaving and sending back same to the heights as LIGHT.

Then the next inflow would be of a greater quality, but to go on replenishing with the same material, would result in this plate... or the Grand

highest and most elevated Solar point. This is the golden nugget that the Alchemist of the past was looking for.

Man raises his frequency upon his fired passion; not sex, but risen up fire. For that is what you are doing, firing the Word that is only in an earthy state. By this you bring what you know to LIGHT, which automatically becomes the auric light of the microcosm, and the Divine Light of the Macrocosm.

IT RISES BECAUSE IT IS OF A FINER AND QUICKER FREQUENCY THAN FORM; IT IS IN A FLUIDIC FORM.

This may require the help of a Guru, but I have helped many souls to raise their fires by will and exercise, which in no wise interferes with life, but does call for the highest purpose at all times in their actions, until the soul is ready for the greater step. This comes by his own inner thoughts.

Divine Creative Glory

WHAT we have to understand, is the fact that all finer frequency becomes inert in form, so the soul seeks of the formless. Word risen up to Transcendental Glory, radiant light, for Word is a compound structure, and holds the multitude of the Coriander seed.

THAT IS THE SECRET, HENCE ALL IS ACTIVATED THROUGH KNOWLEDGE BECOMING WISDOM; THEN LOOSE ENDS, AND OLD ROOTS BECOME BURIED INTO THE SOUL GROWTH THROUGH THE MORTUARY MEAL.

This I have pursued right up to the Central Sun, where I placed the Divine Godhead by my mind. By this, I mean, I took the Christ off the cross, where he had been placed by papalism, and made him a live God, radiant with Holy Divinity and the mighty Generative Force of the Central Sun; hence the Atomic inflow.

Since these Great Powers are powers and not form, they exist in category of vibration. But have been given mind life by man, for man is these powers in form, MIND; but powers you do not play with, but reverence, for they are ruthless.

Yet I have been teaching them, by my example of sacrifice, the mighty secret of the Divine inner Source of Transcendental Glory; that of LOVE, the manifestation of the Great Unseen Illimitable Father. Thus have suffered to make this investigation safe for all men to investigate and survive, for this is the SEED mystery of the Human Race, and the preparation for the Great Plane of Consciousness to come forth. Then Brahma will have emptied out the whole of his being, and the Great New Being of all Creation will have come forth.

To place the living God up into his right category of life, it meant bringing back to my Pituitary those hormone powers I once had as an Egyptian.

Where my passional powers, created by the inflowing Holy Fires, which over the Ages have been used for animal desires, were raised up to the mind as mind Power. Here we see the evil of contraceptive pills, and the one point that I and the pope agree on.

Hence in placing the God back in the heights as a mind belief, I had to give him, through my mind, a living

carry out this task, since I have a Fount of extremely deep wisdom, having come from the Plane of Venus. So my root goes right back to the beginning of the NORM, and the revealing of the Pituitary, Uranus.

By the mighty revealed Godhead becoming the mighty Central Sun, the Generative Glory of Scorpio became incorporated, hence the divine

AS the Atomic Waters found their way to the depths, Merope was embraced in their glory; that her mind, the essence of the moving spindle from heights to depths, would ever be the means of creating anew the wonders of divinity. (See text in col. 5).

Divine FACE of the Magnitude of which he was, or as far as I could behold him, and then start to tread it in, and get people to believe me and catch on to the new unfolding of belief. By this I made HIM the Great Divine Atomic Orion MAN, for the constellation of Orion, is the constellation energised and activated by the Sages and Prophets down the Ages, thus the Source of manifestation.

These souls have struggled through the years to try and bring mankind to the truth, and are those under the Altar crying out for some final Scapegoat to rescue them from their captivity. For they are labouring under the ignorance of religious beliefs; so in knowing this, I wonder whether I would have refused to

Holy Fires are now coming to the earth. And through my bringing this wisdom down to earth through myself and through David my son, the inflow of Fire through every soul, particularly man, is the potential of the Holy Fire. By seeking of the Transcendental Wisdom, the soul could climb up this glory and manifest truth unto all men. For by me being the Guru Scapegoat, I have made the "gate strait" for all men to enter the field of investigation.

This is where man becomes the Firing Bull, but destined to be so by mind only; but this is not the subject at the present, only from a point of man's fiery abundance being his wealth, and something that should be preserved and cherished. This is his mind Fire when transformed into Spiritus Air by mind struggle, as everything must become fired to become elevated.

IN RISING UP THE SPINAL COLUMN BY ACTIVITY OF THOUGHT AND THE LE ROS DANCE, IF THE SOUL CAN GET IT UP THE SUPERLUMINARY BRIDGE, THAT OF THE CERVICAL, IT FIRES THE ATOMIC CELLS OF THE BRAIN, AND BECOMES THE "SKY-WEeping WATERS" OF THE GODS.

The Mind Development Class

EACH Week on every Saturday at 5.30 p.m. G.M.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each sitter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

Dec. 2nd The Atom	Jan. 6th Radium
Dec. 9th The Augoeides	Jan. 13th The Oar
Ochema	
Dec. 16th Baphomet	Jan. 20th Oxygen
Dec. 23rd Corybantes	Jan. 27th The Waterfall
Dec. 30th Crete	

So having raised up the Godhead to the heights, I had to tread it in, hence David Spearman-Cook pulling down the cross. He knew my task, and made his supreme sacrifice by performing this act "off his own bat" of unfoldment. When this had been committed by him, I then, by such turn of events, placed up the CUP, making the soul take on his own experiences of life, and not putting them onto a God pinned to a cross, declaring that His Blood would save them, and that He was suffering for us. Of course, this is a beautiful way of getting out of responsibility; or do we? I doubt it, but it is wrong to delude ourselves.

Hence the way now being prepared for the greater powers to enter freely into matter; so I raised up the supreme Consciousness to the Central Sun, whether man, scientist or religious freak believes it or not, for I could give them wisdom that would shake the very foundations of their existence. Thus by this action, the Arc or Sine of Life, as the Intelligencia, was fixed; hence the radiant sunshine. Yet I also raised the vibrations of the Elements, hence the aeroplane accidents.

living Master, and I have NO doubt that HE is.

Every difficulty I have met, He has adjusted, whether of a torn-down cross or financial status of remuneration. I did the work, He found the where-with-all; but I obeyed to the letter, for He is the Might and Power behind the Source of LIFE. All Mystics must turn to HIM, then they will find their Shield and protection through the great Flame he will light up in their mind, and have NO DOUBT about it!

Not a destructive source like the scientists, but a Source of true Justice and Life. It is from this mighty Source as the Divine Breath, that all changes have been ensuing over the past years, and will now continue, for I have set the higher LAW, and Millo is now locked securely.

The Grand March of Truth

BUT at this point, may I ask a question too; why do the Russians make up their mind to investigate the Unidentified Flying Objects, after we had been to the Russian Embassy with the November Gazette and pamphlet upon this subject, and our representative asked many questions that they could not answer, but of which our young "Lochinvar" did.

Whatever is taking place now, will come back in time to come, with the vibrations of the Earth becoming raised, and man making this wondrous journey of Outer Space by his MIND. Something that the drug-takers have perceived, but in the negative.

This must be done by MIND, of which I am fully conversant, and then only after renouncing earthy ways and desires; hence all Mystics must be strict initiators into renunciation, flagellation and control.

This is the purpose of this School, learning the right way to make entry onto the next Plane of expansion, for which man and earth are more than ready.

So having raised up the Godhead from the sodomitical direction set by religion, we then had an intermediary between heaven and earth. An Arc or Rainbow where all light rose unto, and was re-directed back as renewed Transcendental Glory. Thus The Great Flame became my

It would do Russia or anybody else good to investigate this truth, for if not, they will continually be beating their heads up against a mighty thick brick wall. The LAW is now FIXED and when partaken of, these vibrations will rejuvenate life, where like SHE, you are ever reborn and resuscitated. This is where we

(See plate on this page) come to another important point; every soul is full of the "animal circus," which they realise can come forth if the soul is opened up. This is where wisdom comes in, and plays a very important part.

When wisdom is taken in its elevated fired context, it gives these states their mortuary meal, and they are turned in. Here can be seen the REAL necessity for elevated fired wisdom; hence the reason for the Scapegoat setting the wisdom on its highest point of truth, and will also account for the different grades in the wisdom in this Temple.

In the beginning, the Godhead was the old status, the Jesus, but NOT a human; then as demanded by the mystical mechanics of evolution, a new FACE was needed, otherwise the Macroprosopus would not evolve. He is the Cosmic MAN, that Begotten from all the minds of those believing down the Ages, and the intermediary of rebirth.

Then while I was elevating all this wisdom, the Transcendental inflow was rising in frequency, until the mighty Atomic Powers flooded the earth as Radium propensity of Solar glory. Whereby, in flood-

of the heavens were sounding their glory under the hand of the conductor and his 48 instruments.

The unfolding of heights indicates that prior to its rendering it was but one creation, and as its Aria expanded in creation, a greater came into being, until in its full throttle a whole universe of sound filled the minds of many. Thus the velocity of fulness demonstrates of a world of latent light—static matter—made joyful, and full of quivering sound through one who rendered of a unity of the whole range of notes, which seemed as though the heavens opened and poured forth of the whole of their being. Therefore the aria resounded in the ears of all.

Man in his beginning was as the collector of thoughts, notes and octaves, that through the effort of one soul brought Shiva's harp quivering with full capacity. So in the beginning man's aria is sadly limited and always in the negative as opposed to the positive, but as man gathers of the wealth and experiences of life, he produces the vintage of God in the Rhythm of the Spheres and makes many a soul who is fast asleep, wake up through the illuminative stimulation of his creation.

When man opens up his 6th and 7th Chakra he touches the point of Divine comparison, thus becoming of the Great Ogdoadus; the whole of the range in the Eight becoming the light manifesting in the chords of the Great Concerto ringing through the whole world.

Man has yet to learn of the real depths of his powers, for this is merely pointing out to man the power of manifestation and how man is the manifestor of light; and since light is the radiance of the world, man cannot help but be the manifestor of God.

The Zohar, a very ancient Book of Truth, contained this wisdom;

"In the foundation of the Letters it is said, Beth entered and said: Oh Lord of

the World, may it please thee to put me first in the creation of the World, since I represent Berakhoth (benedictions) offered to Thee on high and below.

The Holy One, blessed be He, said to her: Assuredly with thee I will create the World, thou shalt form the beginning in the creation of the World.

To Aleph, the Lord said to her: Aleph, Aleph, although I will begin the creation of the World with Beth, thou wilt remain the first of the letters. My unity shall not be expressed except through thee, on thee shall be based all calculations or

operations of the World and unity shall not be expressed save by the letter Aleph, that of mind deduction.

The unmanifested one can only manifest through the united two, Beth becoming Aleph. So before Aleph can become, Beth in his duality has to be realised; that behind the two fires, Beth the benedictions is the light and the static fire, so Aleph, the last and yet the first in re-creation, becomes the fire from the glowing embers of both Beth and Ab, the father that ever produces.

Upon requesting of the Spirit to reveal the depths of these words, an American voice

rang forth and stated, "Are you the dakalow from London." For the moment this only confused the issue, when further it was revealed to me of the answer: "The darkness being produced from the city of Gates." The American voice being a soul from a Land quite young, while London is more old and ancient than is believed, thus would be the root or core from which the depth is drawn.

Also in its ancient plan it was the City of many gates. Therefore the depth or truth that is drawn forth from the core of the soul, which is the spark of the Father and becomes Ab the father; while Beth is the feminine principle activated by the Word who unites with Ab and produces the ever coming son, who eventually "swallows" the two, and the three become One.

The Grand Mind

THE seeking mystic should understand this, for the dakalow is the one who becomes lost and retrieved through the unseen Love of the Father radiating through his own source of love. During the raising of the animal fires, man commences by opening up through the rhythm of life,—though in the negative—the harp or lute of Shiva.

The continual action of the pituitary which slowly helps the 6th Chakra to become born as Ajna, the winged mind. This only becomes apparent in the aria of the opening mind, and would be that which became through the becoming and will eventually become of the Begotten; thus the unseen spirit-soul.

Hence man can never really comprehend God, because He is ever becoming in and through the comprehension in man's mind; and even when begotten, still further becomes.

Therefore man must ever remain as the negative in his comprehension of HIM, otherwise God could never become in the man and man never become of God. They are the polarities of That which is Becoming, the Son through the son that the Great Unknown, the Unmanifested Absolute can manifest.

GOD THE BEGOTTEN AND MAN THE EVER-BECOMING BRINGS INTO MANIFESTATION THAT WHICH WAS IN THE BE-

GINNING AND WILL EVER BE, YET CAN NEVER BE KNOWN, ONLY AS THAT WHICH IS BEGOTTEN IN ITS NAME.

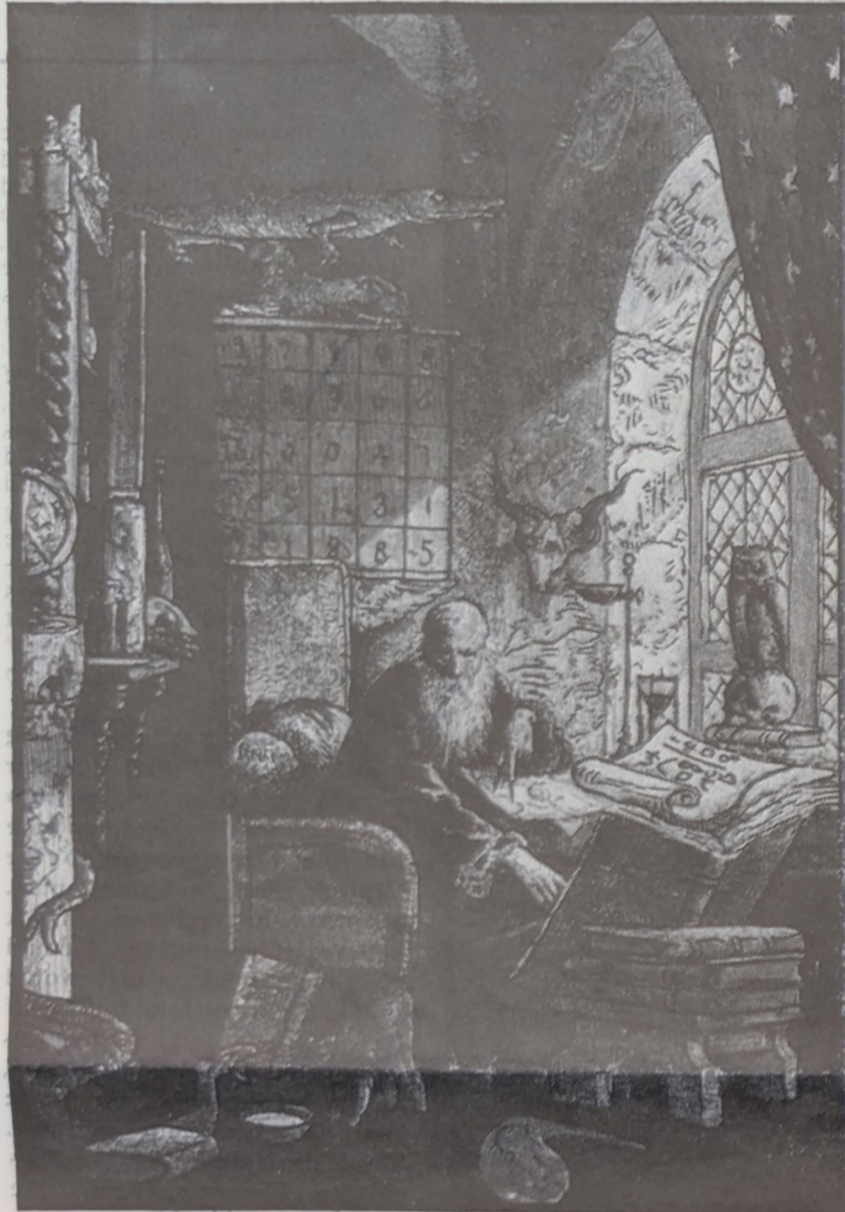

If this wisdom can be seen in its intended truth, even the hardest scientist could comprehend the meaning of God; the divine GOOD being born through man but independent of man. The Great Mind which is the "Aria" or Area of polarization of the Great Concerto and the replica of the yet Greater Mind manifesting of what is Unknown. It is that which represents the Darkness which hides the Light; thus when man lives in darkness, the polarity, he knows not God, and light is extinct.

Man's mind, although produced through the cavern of fire, can only be expressed through the first five senses in and through the manifestation of the 6th, through the stability of Taurus the Bull. The celestial guiding influence which brings forth of the polarity of Scorpio, the raw fires.

All blossoms as light in the 7th, for in this Chakra, when all is full, the Light, as the polarity, toucheth, and all is begotten in the soul. In the 6th it is only the perception thereof, but unless made known through the lower five, man could never find of the realization.

To help explain a little further what might appear to some rather complicated in its mystic phrasing; man came from a Source which is termed the Unknown and to that source he must return. Therefore he is fed from that source and is ever being reborn as that source, so is manifesting God as the Supreme Good of the universe of Matter.

WHEN ALL IS REDEEMED AND BROUGHT TO LIGHT, THE PLAN AS ORDAINED OF THE HUMAN GENERATION WILL BE COMPLETE, AND THE SOUL-CREATION AS ONE WITH THE WHOLE, WILL AWAIT A NEW DAWNING DAY, WHICH NOW HAS ARRIVED AS THE VIRGIN PLANE OF THE VEGA MIND WORLD.

THE FORERUNNER OF TIME

MYSTICAL wonders only applicable to their Art, surrounded their intensified being; drawing down and out, the wonders of their minds, that genius could burst forth in all its glory. The forerunners of this mighty, changed world, whom Merope was led and nurtured by, to bring forth the greater conception.

Reminiscences

ing man, the Seed was saved, and Woman as the magnetic earth, could be emancipated, redeemed and purified, thus becoming electrified, with new growth coming forth.

This had to come, for everything was becoming putrefied, with man mentally dying, and the scientist going mad. But now, all is under control and Aquarius has fulfilled its obligation, with tomorrow to bring the result. The only answer to all this, was my belief in what I was doing, and the tenacity to hold on, with everybody running away, declaring of the fallibility of my belief. Well! I won, but more than people believe, for my experiences have been gigantic and painful, and since Relativity is a law, my relativity is about to start.

Fifteen hard years in estab-

lishing the truth of Mysticism, the rudiments of life, with the other fifteen as the binding factor, and the full thirty has been achieved, the TRIUNE of FIRE. What these next fifteen years will bring, well! I am waiting to see, but one thing I am sure of, NO WAR as a world war, but an inflow of heavenly wealth which I believe can be activated and set into motion by those frolicking boys of fun, if they will get themselves attached to the RIGHT SOURCE of inflow. For as popular as they are, they are a source of responsibility.

THEREFORE, TO THOSE WHO WILL LIVE THIS WITH ME, LET US START OFF ON THIS GRAND MARCH, WITH THE GREAT FLAME AS OUR LEADER. THEN THE WORLD WILL RISE TO THE GREAT MAGNITUDE IT CAN ACHIEVE, WITH THE HEAVENS A BLAZE OF GLORY.

By this, it can be seen of how the Wisdom of Universal Philosophy is going to be the wisdom of the future, for it is an amalgamation of the whole of the Ages brought to a grand finale. But to any who venture onto this course by conscious deliberation, remember Justice is ruthless. So either you honour, or she demands why.

THE TASK OF EVERYBODY IS TO TAKE PAST KNOWLEDGE AND POLARISE IT. THEN THE HIGHER OCTAVE IS ACHIEVED, AND IT IS BROUGHT TO THE HIGHER PERCEPTION OF ITS PURPOSE.

This is seen more clearly in why the triune crown of the Pyramid was left off. Only when man had fulfilled the message left in this Great Edifice, would he put the triune upon the top. So knowledge must never be taken for knowledge alone, which I am afraid is taking place in our Schools for the young. It makes my blood run cold when I witness the knowledge just stuffed into our children, with no rhyme or reason why. No Solar answer, for the teachers are just as blind as the children.

I AM TRYING IN MY LIMITED CAPACITY TO PUT FORTH IN THE OCCULT GAZETTE ANYTHING THAT WILL HELP PARENTS THEMSELVES TO LEAD THEIR CHILDREN IN TRUTH.

Yet it must be remembered, the more I endeavour and replace, the more I draw down the Transcendental Powers from the Great Academy in the Heights, and flood the earth with yet more Fire. Thus make more and more for all of you

to struggle with, for now we are living on the mind Plane of Vega, where all is to be created in beauty and light, and it will be. For I have created and ordained it so; a world of Peace, Love and Adventure, into a Transcendental Atomic mystery of LIFE. The investigation of Outer Space through mind with all its mighty wonders and beauty that it can offer unto us.

The future is not going to be a course of inertia, idleness and luxury, but a world of hard rigorous mind struggle for supreme light and truth. A world for courageous people, for these fifteen years have tested my endurance up to the hilt, and where more fully equipped souls have become fallen Phaetons, I by sheer tenacity and faith came through, but not without sweat, blood and tears of the most dire.

TRANSCENDENTAL GLORY IS THE DIVINE BLOOD OF THE CENTRAL SUN POURING TO THE EARTH, WITH ALL THE MIGHT AND WONDER OF

THE GREAT HEAVENLY FLAME OF THE MIND FEEDING THE SOUL WITH ITS BEAUTY.

The Breath that all men are breathing, from which his hormones and fire are created. So as a man thinks will his soul receive; hence the higher you are able to raise your mind, will you climb up that mighty Source of Heavenly Water and drink of its waters from a higher plane of achievement. But the higher you go, the greater the responsibility, but what a great achievement in life for the result after death.

THIS IS WHERE THESE BOYS CAN BRING GREAT LIGHT TO BEAR UPON THE YOUNG PEOPLE, WHEREBY BRIAN EPSTEIN'S LOSS WILL NOT HAVE BEEN IN VAIN, FOR HIS YOUNG FRIENDS CAN TURN A TRAGEDY INTO A GLORIOUS VICTORY. THUS RECOMPENSE THE GREAT BURDEN HE CARRIED FOR THEM.

HERBAL MYSTERIES Part 5

COMFREY (*Symphytum Officinale*)

by David Spearman-Cook

ONCE again we seek into the value of herbs, that our ancient and more natural intuitive creation can help us once again, to conform with the glories of the divine, and balance up our aching tissues. We are now seeking into the wonders and mysteries of Comfrey, which is an extremely wonderful herb, but like all herbs, its use and greater healing qualities have gradually become lost to mankind. This is due to the monetary conflict of life, and man's own self-aggrandised belief in knowing better than Mother Nature of how to restore his body back to health.

THIS herb has a tremendous cooling effect upon the soul, which is as a powerful antidote to the over-inflamed organs of the fiery channels. It being categorised under Saturn in its triune magnitude of earth; that born of the spirit and risen up to the glories of holy unfoldment.

For Saturn is not what man has really made it, but the magnitude of possibility, especially now that it has been transmuted into the glory of risen up transcendentalism. Therefore, the over-heating of these channels, is caused by the excessive amount of dying vibrational life under the negative state of Saturn, whereas all herbs live under their positive status, as the growth of Mother Nature.

The dying status that is with the man, is that extracted from what he has partaken, believing that he is creating energy, which in reality is but ash clogging the circulatory canals, preventing the flow of electrified life around the soul in its search for life.

This dropping away from Nature, has resulted in a changing status appearing, and most important above all, the loss of the true harmonic frequency of life.

Needless to repeat, this we comprehend through the mighty Cosmic teachings which we are privileged to receive from The Great Flame. Which by such dynamic wisdom we now fully realise, although we may not want to, that man destroys the true beauty of Nature and its possible cures, through his own outlook towards drugs, and no mind upliftment towards these natural resources bringing forth their glory in abundance.

WHEN MAN CAN FULLY UNDERSTAND THIS DEPTH OF TRUTH, HE WILL TRULY LEARN THE LESSON OF MAN.

THE breaking down of solidified hardened fat globules, which is prominent in varying degrees, particularly in animals, can be remedied by Comfrey. For its action can break down these solidified states into dispensable units, and eventually carry them away through the urinary canal. It being such as this which clogs the thoracic duct and opens the soul to Asthma and Tubercular states, which this herb has been known to cure, providing the soul makes effort through the mind, which is the major mastery of all recuperative states.

Comfrey has also been found to regulate the functional movements of the body, and can be used in varying doses, for young babies. Those that somehow or another, are affected by sudden unaccountable attacks of chronic constipation. Here we meet a psychological state, of where these young souls are still more conscious of spirit, and cannot, or will not tolerate the food being forced upon them. Again one of those hidden genetics of life, which we have yet to understand.

Comfrey was once used as a basic for toilet requisites, as it is very useful for the skin, for it can be used as a toilet water to soften and soothe where the

skin is open to rough weather. As unto its internal action, it is quite capable of cleansing the surface free from its over-oily creations.

Again, a little in a small bag, infused in the bath, will help to cleanse the pores from any form of fat substance, thereby helping one to rid themselves of the poisonous states that do issue through the pores of the skin. By an addition of Chickweed, whether taken internally or externally in the bath, a good cleaning up will be noticed, for it refreshes the inner and outer surfaces, cleaning up the skin and the intestines.

For a lot of trouble is caused by layers of fat clogging the metabolising organs, particularly the liver. When this is not attended to, it often results in the loss of the gall bladder, a most important organ of balance and rebirth.

Therefore internal cleansing is most important, and must be regulated by individuals as they see fit.

But it is dynamically important for a clarified mind to master the turmoil of the present Age, for when the body is over-loaded with waste, particularly of a fat variety, the true sensational vibronic impulses that register upon the tympanum membrane, and the sensitive and nervous channels of the soul, are forced to work upon lower vibrations. This can create sickness and the dreaded attacks of migraine.

BUT BY COMBINING WISDOM WITH DIET, PLUS BROOM AND COMFREY, A CHANGING VIBRONIC RATIO TAKES PLACE, AND GRADUALLY HEALING CAN BE NOTICEABLY FELT.

Comfrey has been known to neutralise the acidity that is sometimes caused by the first taking of an all fruit diet. This neutralising effect is brought about by the herb breaking down the forced states of the non-ripening process of pre-picked fruit of solar fulfilment.

This again is one of the mistakes of the modern age, for by the fruit not being allowed to remain attached to its parent plant, the changing of the sugar content cannot manifest naturally into a Solar category. In which case, the soul seeks for a sugar or starch substitute; when starch is required, an action within the body changes it into sugar.

WHEN a soul is in a state of nervous instability, a little Comfrey, plus Parsley and Hawthorn, can help to bring a steady balance to his nervous system. For Comfrey has been known to fuse into the blood the vibrational strength of the Martian influence, for it has a vast amount of power, thus good for all pulmonary diseases, scrofulous skin troubles, pneumonia and leucorrhoea, it being a demulcent and astringent. Thus can be the means of strengthening the fibrous states of the soul in its muscular portions.

Hence this can be useful at the time of childbirth, when the muscular framework is being forced into extended action, which can leave the mother open to depletion. For at this period she is trying to find extra oxygen to help her bring forth of her new birth, whereby the higher she can reach up to the heights in frequency, will she feed the incoming soul with expanded life.

Something which the soul is now hoping to find by its reborn experiences. Thus she can help her offspring to make expansion before it is born, which will give her also the expansion which she hopes to find through her struggle of child-birth. In fact, if the Saturn state is truly transmuted into Solar atomic glory, the child is born of Transcendental glory before its birth.

For Woman by giving birth alone, has taken on expansion, but not by mind as she should have done. This can only come through her partner, who by now should have learnt the greater lesson of life, but which it is obvious by his outlook upon life, he has not done, so therefore has only left her in the depths over all these centuries of time.

This alone accounts for why she has so much wealth and power, as seen by Merope's Cosmic struggle. Thus now, through the new inflow of oxygen activated by her Cosmic service to the heights, all children can be born on the new Virgin Plane of mind light.

When Comfrey is infused with Mistletoe, it will be found good for all who are suffering from cramped states of the muscles. For here is a state of non-expansion, and can be seen as the mind not conforming with the order of relativity, and living in its old Saturn state of the past. This is what

COMFREY

will take place in the future, if man does not turn to the wisdom, to break down his calcifying states of the cloying animal, for this is now a MIND world, where only expansion of mind will count.

Then again Comfrey and Marigold is good for any washing and dressing of sores, or cleansing away any form of pus and extraneous matter. While as an ointment it has been known to help cataracts, and is best applied before sleeping, washing away with a solution of Comfrey upon rising. But the more important point here is, if the eyes are not being given the right inner wisdom by the mind, it will start an agitation from within.

It ever being remembered, that all states of the soul are registered in the eyes, and until the right mind outlook is perceived by the soul, all remains as a visual Gordian Knot. Thus can account for complete blindness in many cases.

Comfrey has also been found to be very good for the low state of depressive inertia, which seems so prevalent at this particular period of cosmic changes.

And when taken with an extra infusion of Horsetail, a remarkable change has been known to take place. All the tissues of the arteries becoming revitalised by its infused radiation, and as its name states, it can lash a soul, that is willing, into an extra spurt of activity. Simply because the Horsetail infuses, while the Comfrey breaks down, and could, with an increased will, create a reciprocative action that steers the soul into movement.

THE sowing of herbs by advancing troops of old, was a very clever strategy, for on retreating back the way they had come, a vast supply of substantial food was available owing to its quick-growing and multiplying action. Which in some cases saved many from starvation, and has certainly helped the spreading of herbs over the whole world.

The use of Comfrey started way back with the Khans, who used the sowing and reaping method to save them many days of unnecessary hold-up hunting for food. Whereby with herbs, and taking blood from their own horses, they managed to survive many dreadful weathers and climates. For they, although warriors, knew of the power of the Elements and gods, and did respect them more than the man of today could possibly believe.

These were the early pioneers, who met the elements in their early stages, and knew what suffering for a cause really meant, although much which they did, could not be accepted in the basic of life today.

These men used herbs more wisely than man ever uses his Welfare Utilities today, which shows that unconsciously the soul knows that what was in the past, is the answer to the problems of today. For all herbs have the ability of healing, if the individual has the right knowledge, and the unfolding belief, in their strength assisting them through the great wonders that can manifest through the power of its Solar rebirth.

For man must start with himself first, in believing in the Great Powers of the Almighty Unseen, where all Great and Vast Powers issue forth. The Great Embryonic Source that holds the whole of BEING, where the man who can seek for such by his raised up frequency, can receive of those Divine Gifts.

This was seen so clearly by Akhanaton, Atum the first, who, like all pioneers, felt the blast of human cruelty. It has

Activating of the Virgin Planes

NOTHING is more apt in the explanation of Herakles, as Horus, strangling the serpents, than his standing upon the two crocodiles and (See plate page 13, cols. 1 & 2) crushing the serpents with both hands; upon his head is seen all the ancient wisdom assumed. This in earlier wisdom was humanized as Horus piercing the serpent of evil, when he became as a hawk fighting with a serpent on the back of a hippopotamus.

The fierce word as acid burning into the horny rock, thus forcing changes through the alchemicalization, and the hippopotamus gives birth to the crocodile; while roaring on the banks are the lions lazing in the mid-day Sun.

He also fought with the serpent as an ichneumon (egg-stealer) or mongoose, and as a cat (Mau or Ra as the male), two of the anthropomorphic creatures that had to be mastered, and would be as the destruction that kills birds (word) and steals the eggs (rebirth) of other animals. The law that forces action and rebirth. Thus when Horus can take on the power of Ophiuchus, he who conquers through self-conquered, there is no strength to equal.

Horus rises on his papyrus (study) out of the waters (life) and is preceded by Orion in his papyrus bark (Starry illumination). Orion being a form of stellar Horus, or Horus born from the inundation, the filling up of the Tat through the perseverance, that produced the desire to sacrifice of things that induce the logical mind to remain in captivity.

As we read the first constellation of the Woman and the child Coma, as expounding the first sign of Virgo, so we have to read this constellation as expounding the second sign Libra, the balance; that which brings redemption, or he that is weighed in the balance and found wanting. The cry was when all seemed so lost;

"Was there no one to help them to pull through and find the way?"

And the answer came;

"Yes! the Seed of the Woman (Virgo), he is not just a child, but coming as a child and is the saviour"; and in the last constellation the Crown is bestowed. Now the big fight begins as the conflict, and the object is the prize gained in Libra, the Crown.

In Scorpio every effort is made to wound Ophiuchus in the heel where Pisces is united in completion; where in the finale the soul could go forth with but sand in the shoe and pain in their mind; the crown of thorns. The contest is dominion; and as the Devil in the form of a serpent robbed the first man of his crown, so the prototype has been repeated, but in vain to wrest it from the second. Now he is trodden under foot and padded into the earth as mind-memory experience, for Op-i-u-chus means Afeichus, the serpent held. It is very ancient and comes from time immemorial that the mighty Man can come forth.

First to last Hercules is busily engaged in destroying some malignant foe. First the Nemean lion, then the slaying of the boar Erymanthus and the conquest of the bull of Crete, with also the three headed hydra by whose venom Hercules would do all his dying. Yet we must not forget

The Stellar Light

being in the belly of the sea-monster and remaining there for "three days and three nights."

Once the creature is destroyed or grounded in, the way is opened for the hero to find the tree of life growing the Apples of Gold. These now can be plucked, eaten, and the soul can rejoice, for this is the story of the first conquest. Now we make the second, the conquest of desire that is ravaging the mind. The control of the palatal inundation, that which detracts the mind from complete freedom.

IN the beginning there were two characters, the warrior and the Son, but as time advanced they became seen as one, and as Hercules he became the slayer of serpents. It was as if the creation began to fulfill itself as time elapsed; man being the creator and moulder, and the winner of the prize. Now we perceive Sahu-Orion, the hunter who (See plate p. 13, cols. 3, 4 & 5) traverses the nether world by night, and hunts there whilst it is day on earth; the powers of darkness Sebau and Sami, avidya, the ignorance of Cain and Abel. These are still hunted for "food," and the

place in the underworld, the southern loki which is now below the seven, and belongs to the tail, the caudaequina of the spine.

This is the measuring rod of the waters of inundation. In this episode Horus has hunted them to death by night, the time of digestion, where he devours them up as a mode of destruction, and appears as the night part of the zodiac.

All this mystery really takes in an interchange between the solar and lunar that produces the stellar light in frictional polarity, with the figure of Orion as the lord of light made visible by night, the time of action. For day is the time of existing with what you have gained, and declaring all is yours by right.

Therefore the whole mode of alchemicalization in blood transformation, has wrought a mind growth from cannibalism to the present mode of expression; but the whole is there with man and any mode can express itself, even if only in a minute degree, or desires and belief.

Eating and drinking has always been the symbology of assimilation, that of gaining strength and sustenance; the idea still lives, but now as a mode of feeding the body in joy of the senses, and not as the Lord's Supper in illumination and ascension of the spirit.

In religious ritual the eucharistic meal, in which the god is supposed to be assimilated by eating and drinking of the elements, is still performed by Orthodoxy but not with the same motive, only as a ritual of performance which keeps the public under their particular mode of denomination, and their survival. Truth as to its purpose, which would fulfil its quest, is feigned, therefore obsolete as to motive and it dies as it is performed.

TO RETAIN A PURPOSE IT MUST REMAIN A PURPOSE, OTHERWISE IT IS DEAD EARTH AND FRUITLESS POSSIBILITY.

It is said in the Book of the Dead "That the great spirits, the khos or glorious ones, live on the shades of the motionless," they eat the souls of the undeveloped dead; eating applied to spirit as well as matter, for here was the power of the solar life eating states that have no life, states that will not change, yet as the power percolates through, it fades out and the states that have lost impetus, because they have never moved forward, become enlivened with new life as starry light begins to twinkle.

Thus the percolating heights of the eaters of the shades, are the denizens of another world frictioning those on earth to change and rise, by sending down into their midst the fiery elements that act as an Evil dragon to force change and movement, whereby Horus comes forth. This energises the mother whose father is lethargic, and causes her to become with child, consequently the visiting gods become born in the woman, and the child drawing from the mother blood eats up her old self, and she in anguish strives to help

her son to bring forth his wonders that are of a god.

The father married her after he was about to stone her, which caused him to become heated—illuminated, and an angel appeared and warned him that she was with child from a god, and Joseph accepted Mary and married her. The son that came forth was the inborn gods who had eaten up the dead and brought new life to the dead race, for Joseph was dethroned by the son who became the inborn mind of awareness.

This was the intended way of generation, not heated action of bestial desires, but the god frictioning the mind into becoming, transubstantiated into change.

The Unification of Polarities

ELECTRICAL current is cold, but when the two rays are forced to friction one another, it causes the positive to expand and friction the negative, whereby electrons run wild in frictioning fancy, causing them to multiply, expand and give forth of heat and light in the travailing of the journey; thus bringing experience that results in awareness. This is the raising of that which remained in the lower spiral; all now being forced onto a higher spiral by the frictioning element that was denounced to have been evil.

The god is only Evil because man cannot receive the increased volume of light until he is forced into awareness; and is the birth of the potential Jesus in the womb of Mary the feminine principle.

This can be seen more clearly if we perceive the frictioning element disturbing Taurus, the second house segment of the human zodiacal chart, causing Scorpio the eighth to activate and get ideas. This again causes the mind in segment three, Gemini the logical mind, to get into friction by argument with Sagittarius its higher brother; the repeated story of Cain and Abel, and all begins to alchemicalize, changing the karma in Leo and bringing forth birth of change in the womb of Mary the intuitive mind, Virgo.

This continues until Scorpio is united, and regeneration must begin in new life beginning to bring forth new garments and casting off the old. Here is where the electrons begin to increase and generate into a racing mob, driving the proton into giving forth of the unknown quantity that resided in the father, through the visiting element that caused the first state of action.

This became the child in the womb, that by the frictioning of travail became the mind of awareness, the wonders of the visiting god, who on reaching the heights of the mind ate up the father, and the black ram eventually became the white lamb with the thread of scarlet.

THE HEAVENLY CHILD

AS the radiant Norm opened up, it blossomed into a lotus flower; with the mouth now preparing to open up and bring forth the glorified depths in the heights. The revolution of infinitised glory, the radiance of Holy Divinity. (See text on the back page, col. 1).

Mind on the belly away from the head, thus Ophiuchus must be Horus, or mind creation, who conquers drought, darkness and decay, and finally death by disease. Whereas once he was only a sparrow hawk, a pouncing word, now he is a solar god born of Hathor the milch cow, or Nature Mother in the Soul-womb of eternity.

In the heights it is as Orion the mighty Warrior with one foot on the waters of the Eridanus, to become as Horus of the inundation in the depths, and invested with majesty and power of the solar god.

chase, capture, killing and cutting up of the carcass is still fulfilled, and still holds the terminology of the cannibal.

It is of this we have been seeking into and have perceived how the Old Mother blood fed the soul into growth, experience and rebirth. So ancient is the legend of the wild hunter, that man has forgotten and only believes it is of the primitive, but he still survives in man as Herne or Orion the hunter.

In the transformation which took place solely in the river of blood, the hunter became in the solar mythos the lord of light; Ra or Osiris waging war upon the evil powers. This took

which is the root mythology fleshed into human form. Jupiter (expansion) is exiled from heaven, therefore has to reside in matter; thus while on earth loves the nymph Daphne, and Mercury as usual adds unto the enigma. He invents a lyre and gives it to Jupiter that he might effectually give vent to his passion. This lyre was formed of the shell of a tortoise (wisdom) and composed of seven cords, unity of senses, while to its harmonious tones were raised the walls of Troy, which made a complete city of establishment.

The Solarising of Saturn

In vain however were the sweet sounds of the lyre tuned to soften Daphne the feminine principle as raised passion, whose affection rested with another, and was completely insensible to that of Apollo the solar God, though he pursued her with fervour for a year. Though Daphne, still inexorable, was compelled to yield to the fatigue which oppressed her through failure to make expansion. Finally at her entreaty, the Gods changed her into a laurel, an evergreen creation, Saturn reflection.

Thus Apollo took a branch and formed it into a crown, mind achievement, and to this day the laurel remains one of the attributes of the God. The leaves of this tree are believed to possess the property of preserving all who shelter under its leaves from thunder; and furthermore of making dreams an image of reality to those who place it beneath their pillow.

... Her feet she found Benumbed with cold and fastened to the ground, A filmy rind about her body grows

Her hair to leaves, her arms extend to boughs, The nymph is all in a laurel gone.

However earnest Apollo might have been in his pursuit of Daphne, he did not remain long inconsolable, but formed a tender attachment for Leucothoe, emotional waters, daughter of king Orchamus of Assyria or past creation, and to introduce himself with greater facility, he assumed the shape and features of her mother, the old Cancer state. Their happiness was complete when Clytie her sister as awareness, who was enamoured of the God and was jealous of his amours with Leucothoe, disclosed the whole intrigue to her father, who ordered his daughter to be buried alive, metamorphosed into the creation of Saturn, the lack of will.

But Apollo passing by accident over the tomb which contained her melancholy cries, yet unable to save her from death, sprinkled nectar and ambrosia over the tomb, which penetrating as far as the body, changed it into a beautiful tree that bears frankincense. While the unhappy Clytie, the intuitive mind as Mary, tormented by remorse and disdained by the God, was changed into a sunflower, the plant which turns itself without ceasing towards its deity the sun.

On the bare earth she lies, her bosom bare, Loose her attire, dishevelled is her hair; Nine times the morn unbarred the gates of light As oft' were spread the alternate shades of night.

These unhappy endeavours of Apollo determined him to take refuge in friendship, and he attached himself to the young Hyacinth, the son of rising mind. But misfortune

THE MIGHTY EAGLE

As from heights and depths he traverses night and day, carrying his ancient wealth through the blood-life of every soul. Feeding them with Atomic Glory, the heavenly Divinity of FIRE; with the radiance of the Antares beauty the maker and the glorifier of men. (See text on page 12, col. 3).

appeared to cling to all who were favoured by Apollo, for as they played at quoits with Zephyr, ringing the heights, the latter fired by jealousy blew the quoits of Apollo the warrior of Aries, on the forehead of the unhappy mortal, who fell dead upon the green turf on which they were playing.

The young solar son only capable of receiving the Saturn creation of the growth and not the solar. While his blood was sinking into the ground, or earth creation of the soul, it produced the flower which still bears his name.

The Electrified Purpose

APOLLO was so disconsolate at the death of Hyacinth, that he made the changes stated above, and placed his body among the constellations as endeavour created by a soul, but one who could not make the whole full creation of divine solar birth.

This is the basic of all alchemicalization, which is the same as the solar light continually chasing Mary the feminine principle who is ever pregnant with child, and striving to bring forth of the divine Jesus, but some form of misfortune overtakes Martha and the states slide into lesser creations.

Yet Eve is carrying out the command to the letter;

"Thou shalt bring forth children: and thy desire shalt be to thy husband and he shall rule over thee" (Gen. 3 v. 16).

THE SOLAR CREATION.

Then if you see it in the child who had no father, mythically represented as the fertiliser of the mother when in utero, you see the inner depths of transubstantiation in alchemicalization, the changing from one substance to another; the conversion in the consecration of the elements of the Eucharist within soul formation through mind creation. This child is called the Bull of his mother, he that fertilises his mother, for this child is no human child, it is Horus the solar child, the calf born of a cow who was forced into pregnancy through circumstances of life before the fatherhood was individualised.

The higher self not yet fertilising the mother, but will, when the son is born, bring him to that state of creation. So she must go on bringing her children into birth until the individualization takes place in her assumption.

In that just reiterated as the legend, it states of the solar life as the intended purpose in its entry, causing the soul to fall into the negative path, and accept desire instead of

illuminative motive; thus all fell into degeneration that evolved—as all must by law—along the path of devolution. Thus here we see the Scriptures in their right perspective, and the Marchen that passes into legendary lore; why early states of truth get lost, and man becomes dead in a state of tangled creation called worldliness.

The child that is born from all this is the child of light and referred to as the bastard, yet really is the child of the visiting god that struck the earth with the lightning desire of Uranus, causing the Neptunian Sperm to flow. This is warmed and activated by the Christos who is the Neptunian forerunner already earthed, and awaiting further Atoms to make it a fully awakened Buddhic element of awareness as "I AM."

In the earliest states of birth, the father was unknown in both the mind creation and the physical, and the elder child was born but not begotten from the father, for it came from the gods as the elements frictioning the race. This drove the Babylonians into Deluge, then Nebhau Kau came to the earth as a visiting Goddess and took on human form by becoming the soul assumed in samadhic ascension. The soul becoming completely absorbed into the goddess; no longer existing as self, but becoming transubstantiated into the goddess. Zamiar into the Flame; man into Jesus-Christos.

Then we find Nebhau Kau as the human goddess-Priestess changing the elements, and taming them until they became peaceful as golden light; that which brought the Golden Age of Egypt; the prototype as the Dawn of Civilization. This is how the soul of Pauline first entered matter as Enoch who walked and talked with God, the Great Unknown Quantity.

Then as Pauline he established in Pisces what must come forth as a practical application in Aquarius; whereby woman having been chained to her fate, now will be freed and given her rightful dignity as queen of the earth. This will encourage higher spirits to return to find life and truth through the emancipated road now set into action.

Horus the Bastard was a child of light born of Isis in the moon; when the moon was the mother of the child and the father source of light was unidentified. All through the Ages this truth was expounded through legends and folklore always following the same theme, that the father rises upon the third day in the moon, but at other times he rises as Horus the triumphant son. This is the feminine

transmuted into the masculine to assume the duality on the next plane of movement, but as mount Hetep he is the triumphant son.

In the two brothers Sut and Horus, the Lady of the Soul is wedded to one but in love with the other. Whether as Sut or elder Horus her consort was her impubescent child, a state of puberty; thus she unites with Hu the virile Solar God and glories in his fertilizing power. Her object is to engender light from his potent solar source, to illuminate the night and overthrow the devouring Monster of the dark.

If this is followed and understood in its mythos form, the whole of the myths, legends and folklore will reveal themselves, and no longer will the Mysteries be mysterious but realities of life brought to the surface as the missing link. For the Egyptian Tefnut, as the personification as the moisture of the sky, became the green tree, the evergreen, as fuel full of fire, with the Sun-god ever climbing the tree as fire of a burning nature.

For it is the Sun who kindles the fire, turning the tree into a burning lustre of Solar Fire, with the dew ever falling to earth as waters of rebirth.

Then we find man losing his way and taking on the form of a frog; where the soul, in all its richness, falls back into the waters as it assumes the spiral of ascension, for to reach that Fire is establishment of personal application.

The name of the frog is Ka, which becomes the first lunar body of expansion, to finally become the Khu, as solar light gained and radiated. While in the meantime the soul passes through all the whole of the Zootype of Animal life, in his endeavour to brave the waters.

But it is only when as the dog-headed Ape Aani, there is a period of eclipse and change, as explained by the Hor-Apollo legends. But the goddess has always been the lunar lady, poor and lonely, to go underground and enter the waters to make transformation.

THERE YOU FIND CIN- DERELLA LOSES HER SLIPPER AND WINS THE HEART OF THE FAIRY PRINCE; ALSO THE MYSTICAL BRIDE WHO WAS NEVER SEEN NAKED, PERSONIFIED BY THE WIFE WHO WEARS A BRIDAL VEIL. BUT IN AN ANCIENT COUNTRIES, THE WIFE WHOSE FACE WAS NEVER SEEN BY HER HUSBAND UNTIL SHE BORE HIM A CHILD.

REBIRTH

With shri well-formed over the pending ear, and the ancient divinity surging him forth, Horus gripped the tail of the IbeX, and the tail of the Lion, bringing the spirit forth out of the Elements. With the two crocodiles eating up the disseminated growth, as the new-born belief sprang into birth. (See text on page 12, col. 1).

THE HEALING COLUMN

THIS month we find ourselves dealing with three children's problems. Yet each in its own particular way, reminding us that these souls are just as old as we are, for we have all danced the rounds of Time together, and now find Relativity knocking at our doors, claiming its unified dues. We must do all we can to guide the youth of today into their true Path of Unfoldment, and this can only be done by leading them in the Wisdom, and awakening them to the Greater Reality of life. Many are the unseen hands reaching out from Spirit, waiting to help those who are awakening and turning their minds upwards. Let us encourage our youth to stretch forth their hands in return; to link in all faith and belief with those Greater Beings of Light who are eager to manifest their glories in the depths, and succour those who call with open hearts, to Them for aid.

HEALING PRAYER

DIVINE GLORY

POUR down into these depths Thy Mighty Magnificence as The Royal Holy Fire of Quintessence, and Bless these Thy children who have yet much to learn of Thy Mighty Work.

Amen.

Mrs. M. H., Kansas, U.S.A.

"My friend has a young son ... he is extremely sensitive and temperamental, and this gives him concentration trouble in his school."

THIS chart (1293) is of a boy of 12 years of age, whose basic make-up contains 5 Air and 3 Fire, making him 8 positive and only 2 negative. Here we have the Dragon's Head in Sagittarius, and its Tail in Gemini, showing that over the ages he has danced the rounds as a playboy. It is not until now, relativity, that such as these have to meet the offending crisis. They can be extremely loveable in their nature, for their happy-go-lucky attitude towards life can be extremely elevating to the more serious thinker.

Fortunately this child has mastered Mars, and placed it in the 1st house, probably achieving this by his devil-may-care attitude. These 1st house planets are not gained by diplomatology or palm-oil, but the mastery by the soul of the element itself.

I see that the Path of Destiny is in the 5th house, where the soul is being warned that all the power he has gathered from the past, must be carried up to the mountain top to bring forth a flame of wisdom to the mind.

His Jupiter, the planet of expansion, is in the 12th house, coupled with Pluto and would largely account for his concentration troubles, for Pluto badly aspected is confusion. The Moon is in Aquarius in the 6th house, and would indicate that a nervous frustration is playing a big part here. For one with so much positive power and Mars in the 1st, should be unifying the Atomic and magnetic status of Aquarius into the glory of the electro-magnetic.

With the right wisdom being applied, this child could be safely brought through, but this is where I declare that the individual schooling of a mother can do far more than a teacher over a classroom of children, and I do not speak without experience.

At the present time I too am mastering an 8-2 with Neptune in the 12th and Moon in Gemini, and have to keep my

eyes skinned on every point. But I have found that wisdom and love has worked wonders. But by love I do not mean sentiment, for an 8-2 will only accept something superior to himself, and inwardly despises any weakness upon the part of others. With so many planets in Libra it does indicate a need for balance, so rigid discipline as unto his habits is MOST essential.

In the progressed chart the Moon is passing through Cancer and about to enter into Leo, which will take him across his Uranus. This being square to Saturn and the house of the mind, the child's nerves will want a lot of watching, as per the Moon in Aquarius.

The Mars in the 1st house, with puberty now as the play upon the stage of change, could have a very marked effect upon the child. This is where I advocate more strongly than ever, that the child is led in the true rudiments of his pubescent period, and encouraged to be frank and open with one or other of his parents, where he can be led and advised upon the changing status of himself.

I would advise a good dosing of NERVE HERBS or NERVE PILLS, coupled with good literature of an expansive nature.

Mrs. E. R., California, U.S.A.

"I wonder if some help could be given concerning my grandson. He was born prematurely by Caesarian operation, at the 7 month level. He weighed 2 pounds 10 ounces, and was hospitalised from the time of his birth (June) to the first week in September. During his first year he had a very bad time. It is the opinion of the doctor that his eyesight is poor due to the large amount of oxygen that had to be administered during the first two months of his life. He also had to go back into hospital for surgery during that first year. His doctor says he is retarded."

IN this chart (1295) we are dealing with a child of 12 years of age, but must not see him as such, but as a soul of the same length of age as every other soul. One who has been through the whole rudiments of time and by the look of the chart, has gathered much knowledge but never brought it to a solar point of wisdom, through his living too deeply in the glories of the lower nature.

The Path of Destiny is conjunct to Saturn in the 12th house in Scorpio, and with Scorpio upon the cusp of the Ascendant, in its 3rd decante of Hercules, his task in this life is to raise up all the planets that have become lodged in the 8th house, that of the pit. This is the chart of one who is at the "end of their rope," and one who is very fixed in their ideas, as shown by Virgo upon the Mid-Heavens.

The only answer to this is the strictest of discipline; no pandering or sentiment, and his being driven hard into some

form of rigorous activity. But of course, with his tendency towards ill-health, and his poor sight, sympathy will be shown him all the way! Also we must not forget that the Moon is in Gemini, and from personal experience of my own Sun in Gemini, I know that there can be much "wool-pulling" over the eyes of others, and which could quite easily take place. While there is an easy going passage, such a soul will march their journey well.

The point to note at the present moment is that the Moon is passing through Scorpio and has been for the last year. This will either resurrect their old status of life or bring a rebirth to that which they have come back to elevate. It is now passing through the feats of Hercules, a period which all have just passed through at the present time.

If this child could be schooled in rebirth of thought, it would be amazing as to what changes could be made; where the health would revive, and with the right teachings, many inner states could be turned in and be given their mortuary meal. For Gemini is very conducive to wisdom, and will devour it like a goat would devour a straw hat.

It will need a lot of tact and depth of wisdom on the part of the sponsor, to resurrect the mighty wealth that lies in his Cancer depths, but even if only the slightest movement to his good was brought forth

it could do wonders, because of the internal states it would bury in, and which are in abundance.

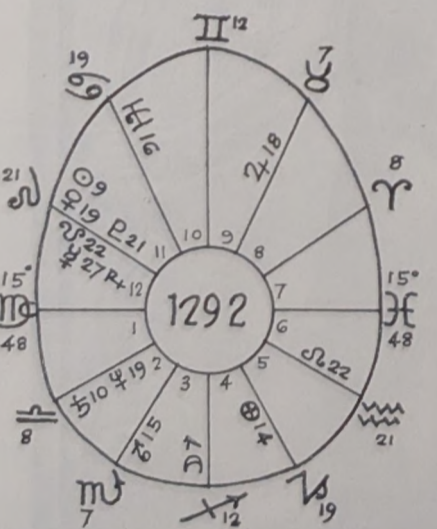

I have answered this chart as best I know how, and stated what I know has been necessary to bring forth for such a heavily-laden chart. In looking at the Dragon's Head and Tail, from the 2nd house to the 8th, it is obvious that this soul has been a playboy for ages, and impregnated himself with all the diseases applicable to Taurus and Scorpio.

My suggestion of herbs would be WOOD BETONY, BUCHU, and VERVAIN, but if it is difficult for the child to take herbs, which should be taken in a weak solution, I would suggest our special CLEANSING PILLS. Also the NERVE PILLS could be of great benefit. But I can well assure the seeker into this wisdom that helping this child will be hard and stringent.

Mrs. I. C., Wood Green, N.22.

"Could I have your help upon a young girl who has dislocated hips."

HERE we have a chart (1292) of a fifteen year old girl, and we see she is of five Fire, with seven positive and three negative as her basic make-up. With Virgo upon the 1st house I feel strongly impressed that she has been a nun in a previous life who was forced up and out of context, to obtain the royal influences of the Sun, Venus and Pluto, in the house of the spirit. Having myself passed through the rigours of initiation, but as a Scapegoat that the laws of life could be changed, I now understand more clearly than ever, what some of these nuns must have gone through, in those bygone ages.

Now it is more dogma and ritual for the whole of religion, which has completely deteriorated, as has its inmates, as far as any form of mystical wisdom is concerned. Many women are walking around today, victims of those Black Ages, and nothing could express this more clearly than the story of Axel, or the mystical story of Mort d'Arthur by Mallory, who wrote this work in prison.

This girl was forced up and up, understanding nothing, just believing that her task was royal, with the result that in this life, she has come back

with her Mercury retrograde in the 12th house. Her Path of Destiny is in the 4th house in Capricorn, advising her to start again right from the very beginning, and by the study of wisdom, bring her wealth up to the point of the "rock," and burst it into light.

There is no reason, if she has those to help her who are versed in the wisdom, why she could not be brought through this difficulty. For in raising her mind, this girl could be brought to the new Atomic state of life which is prevailing at the present moment, and which can by its unified wisdom, emancipate all women in time. Although we must remember that this is but the beginning of things, and much will have to be weeded out for the future.

I see that in this chart Saturn is in Libra, conjunct with Neptune, which verifies all I have been saying. She must strive to obtain a more balanced understanding of life, through the wisdom of Neptune, and which lack of, is now reflected in her physical make-up. Once mastered, this aspect could enable her to dance with the inner glories of the wisdom, but until, nothing could be more exacting.

In the progressed chart the Moon is passing through Cancer in its early degrees, through the 10th house of service and action. It would be a very ripe moment to help this one onto a new path of conducive mind application, although Sun in Leo is not very easy to bring into any mode of change.

There is one status in the chart which will be rather drastic to fight, that of a Grand Square, which incorporates Leo, Scorpio, Aquarius and Taurus. This is of course, Ezekiel's cross. I feel sure this young girl's chakras were driven into a state of confusion, then everything fell flat to the ground. She was never given the binding factor whereby she could fight for a truth, knowing why and wherefore she was doing it.

I see that the Dragon's Head is in the 6th house in Aquarius, with its tail in the 12th. By this I would most emphatically suggest that no operation to the hips should at any time be applied. The answer is to endure and raise up the mind, for the first things that are affected when advanced wisdom is taken or enforced are the legs, in the soul becoming elongated. I can speak upon this with full authority, having passed through all this myself, in my struggles to fulfil my Cosmic Task.

If this young girl could be persuaded to take herbs, I would suggest LILY OF THE VALLEY and VERVAIN, with some NERVE PILLS to help her through her pubescent period.

Readers' Letters

WOULD all readers please remember that subscriptions are now due for the year ahead (Jan./Dec. 1968 inc.). We would be grateful if this matter could receive your prompt attention, as it will save us much unnecessary work in our administration dept., and allow us more time to answer readers' personal problems, in which task we are, at the present, sadly limited.

Light of the World

**Mrs. L. Graham,
Brisbane, Australia.**

I have been going to write this letter for some time to tell you what I have been doing, and to ask if you mind. When I am at any socials, or anything where we are supposed to sing God save the Queen, I sing;

God save Gladys Spearman-Cook,

Long live Gladys Spearman-Cook,

Long may she reign,

May she draw down the Powers

And shower them on mankind

That they may be wakened to the Truth.

Long may she reign.

I do hope this is in order, if not let me know. I have no ill feeling about our Queen, but just think the whole business is silly, as I fail to see what good any of those people do in any country.

I have just received the small amount of Gazettes and will be able to give them out.

I do try to understand the O.G., there is a lot I do, and a lot I don't. But much to my delight, that which I have known for many years, the O.G. has now proved to me, and I can see my thinking has been on the right lines, and all I hope is that I open up and get to understand more. When the O.G. was given to me 4 years ago was one of the greatest joys of my life.

I send all my love to you dear and wonderful people, and a big God Bless, and my love to you Mrs. Spearman-Cook. You are our greatest Light in the world today, but I wonder how many know of your great work and love. How I would love to get just one glimpse of your dear self!

**Mrs. B. Grant,
Santa Monica, U.S.A.**

Pleased to enclose once more my subscription to your wonderful Gazette for the balance of this year. I and my family look forward to each and every issue, and are forever referring to the old issues as study material.

Awakening to the Truth

**Mrs. Margaret Hamilton,
Ballingearry, Co. Cork, Eire.**

Please excuse the long delay in renewing my subscription for the Gazette. I am enclosing the remainder of this year's and also for 1968, the rest is to help you in your divine work. The articles are all beautiful, I especially liked The Divine Glory of Vega, it is the kind of world I always dreamed about.

The Egyptian Mysteries are magnificent and enlightening, explaining so clearly how the spiritual being succumbed to the beast, and the Editorials are always brilliant, brave and forthright. The pictures and poems are so helpful, and that poem on the "pope and the pill" was terribly good and very fair comment!

My mother was a devout catholic and she told me that people's names are put in a black book and black rituals said against them. This type of conduct shows the awful wickedness of the catholic church, and its devolutionary effect on the Race, whereby it kills off the sensitive enquiring minds, and only allows the earthy, lustful, insensitive, to flourish.

I certainly never had any sympathy with the church, as far back as I remember, it gave me the creeps. Long before my mother died I remember attending mass and thinking what a wicked game it was. I sensed that there was no contact with God, and that they were just fooling the people, who were too insensitive to understand or care about the significance of such unquestioning conformity. I used to get depressed and bored, and got the habit of taking sweets to church; inevitably the nun saw me, and I was accused of the grossest sacrilege!

I send our sincerest good wishes from my husband and I, to all at the School. I know your glory will never end, for what you have done for the world. May the harvest grow quickly.

Treasures of the Unfolding Divine Wisdom

**V.B.,
New Jersey, U.S.A.**

From my father I have been able to procure books on many different aspects of Philosophy and Occult Teachings. I have read Madame Blavatsky and her secret Doctrine, and many books on Alchemy, the Tarot, and the like. I well know that a reading list a mile wide will not help me a single iota in Spiritual Progression, but I do believe that I have been able to understand some portion of it.

I have now been reading the Occult Gazette for a few months, and have procured from it a wealth of knowledge I am proud to possess. It has enhanced me in the teachings of the Creator, and has given me, as it has all people who read the Gazette, a better understanding of those Life Forces which are manifest inside everyone. By reading the articles that are in the Occult Gazette I can more appreciate the forces of nature and Life, and finally realise what actually this world we live in is.

I myself am only fifteen years old, quite young compared to the majority of readers, but starting out reading the Occult Gazette at an early age, I feel, will equip me with the knowledge vital for a spiritually healthy adulthood.

You have most likely already received my donation. I truly pray it can be put to good use in your School.

**Miss A. Krick,
Altoona, U.S.A.**

It is a long time since I have written to you, but you are ever in my thoughts. Each copy of the Gazette is a treasure. My reading, study, and writing time has been encroached upon lately by garnering and processing the garden products. Plenty of rain has brought a good harvest of tomatoes and green things for salad.

My subscription to the Gazette expired with the October issue. I am enclosing money to cover Nov. and Dec. '67, and the year '68, also a contribution to your work. God bless you all.

**Mrs. Cathie Mitchell,
Dundee, Scotland.**

I see that all that was prophesied in last September's issue is coming to pass, re the Editorial—"The Great Solar Harvest." Miracles certainly do happen; my husband feels as if his head is being opened up, and the poor man can't get whisky over his throat now, it knocks hell out of his stomach. He has also lost all desire for meat. I have never had it so good in all my married life with him, he is just like a wee lamb!

I've overcome a lot of my weaknesses, but one I must

strive harder to overcome is my smoking. It worries me, for I know I must win through, in order to receive my visions as they used to be. However, I am in perfect health, thanks to the School and those who work under such a great Teacher. I think of her often, and often feel like running away to be near her, she is such a great lady. I wish I had her guts to go through that lonely life, so that we can get a chance to be free if we follow what we are told. I wish I had more Will Power, I despair sometimes at my own weakness, the struggle within is terrific sometimes. I must close now, but hope it will not be long before we see the Sanctuary again on the T.V.

**Lorna Joseph,
Trinidad, West Indies.**

I am happy to report that Patricia's healing continues to be just marvellous—not just physical alone, but her general outlook on life seems so different. This has brought me much joy, for which I sincerely thank S.U.P.H. The Herbal Mysteries on Agrimony and Buchu, have made a deep impression on me, and the Reminiscences in September's O.G. "The True Understanding of Jesus Christ," was beautiful and most illuminating. It leaves one wondering just how many truly understand the words they preach in relation to this Truth. I have placed the Gazette in many churches,—Roman Catholic, Christian Science, and Jehovah's Witnesses,—giving thanks that a ray of solar light will penetrate the darkness, and bring forth a greater awareness and purpose of mind to many who are now upon the earth.

My love and blessings to Merope for her struggles on behalf of mankind, and to all at S.U.P.H. Please accept my shared sentiments and true affections in the One Light.

**Mr. Edward Doyle,
4, Seaview Crescent,
Joppa, Edinburgh, 15.**

I have been reading the Occult Gazette for some time now and as mentioned in the letters of the current issue, I am very much in the dark. The copies in the stand at Waverley Station soon disappear which makes me think the letter I refer to regarding readers not fully understanding your message is of Scottish origin. Would you be good enough to put me in touch with someone who could enlighten me? I may say that I have no time for organised religion as practised today.

If any of our mystery readers at Waverley Station would like to contact Mr. Doyle, would they please write to the above address. (Editor).

COMFREY

Concluded from Page 11

been the **WORD** of wisdom and the seed of rebirth bringing the whole history of Time into a healing balm of Solar unification, through a reborn mind outlook, that has brought such vast changes into birth through the work set into operation by Merope.

Only by the fact of such waiting to come forth, could such have come about as she is bringing into being today. As this applies to cosmical creations, does it also apply to herbs and healing, but very little has been really produced in this direction. Yet in having a little confidential talk with a medical woman, she openly declared of the wonders that herbs could do in the direction of healing. And furthermore, how much they were being used in medicine, by a state of tincture!

The greater use for the herb Comfrey, is the unifying of the cortex with the cortin, for these must find balance, or all the muscular activity will be affected if a persistent state of agitation of the nervous system continues. Therefore it is a herb that can apply the full "mortality meal," in Saturn being transmuted into the Solar glory.

This might be seen a little better in the fact, that in the past Ages Comfrey was used as a drink for removing the devil. Thus it was often seen in vases around the house, or tied up in bunches outside churches, because of its aromatic effluvia. It was through this, they believed that it kept away evil spirits and other unsavoury creations.

Well, the medical fraternity may call this natural remedy superstitious, but what do they apply,—electrical treatment through their lack of understanding of what is the cause of these states! There are such states, and they can be disposed of by applying the necessary balance to the element infusion

that had been partaken in an unbalanced way.

WE HAVE SEEN MRS. SPEARMAN-COOK CURE THESE STATES WITHOUT DAMAGING THE DELICATE CELLS OF THE BRAIN, AND WE HAVE SEEN MOST DISTRESSING CONDITIONS REPAIRED AND HEALED BY THE HELP OF HERBS.

In the past when horses were their only means of conveyance, man used to give the creatures a little Comfrey in their fodder. It not only gave their coats a nice silky sheen, but to those who had not the freedom of the paddock, a quietened influence. If this applies in one direction, by the Law of Direction this could be good for the human fires, and help smooth things over in regard to their mastery.

There is no doubt that Comfrey, of which very little is really known, has influences of a directing nature as much as a healing context. This is obvious by the many uses that were applied to it, it being of the Forget-me-not specie, which the Medical Lady, referred to earlier in this dissertation, swore by. Its leaves when bruised, can be applied to bad bruises and even to states tending to suppurate, therefore its healing qualities are superb.

Next month we intend to seek more deeply into the herb Celandine, which would be of interest to those having difficulties with the eyes.

EGYPTIAN MYSTERIES

Creation Called Life Part 15

by Gladys I. Spearman-Cook

IN the present explanation of these Mysteries, which we understand have helped many, we touch upon Orion, which is the present day rebirth of Wisdom. The God Begotten from the divine aspiration of all devout souls through the Ages, and those who have kept the Spirit, the SEED of life, alive. Now, owing to Merope, Orion has become the Great Atomic Orion MAN, the risen up Divine Cosmic Intelligencia or MIND. That which feeds man with renewed life, purpose and hope. So, in taking these preliminary lectures, it must be understood that they are but the basic of what has now become in the greater teachings. Then it will avoid the confusion that is apt to come, with those slow to change from one Plane of thought unto another. But will help those who are truly seeking to comprehend the unfolding lectures, to expand and become born of the perceptory awareness, that of the Ariel mind. Those who can dance from Plane to Plane, blending and changing the mind in the turn of a flash.

Illumination of the Soul

OUR enquiry now is into Orion, who as the stellar representative from the Solar god, arose in the darkness of amenta as An-ar-ef, the sightless Horus. The one born onto a higher spiral and who knows not the country, for it is all wilderness, barren and without life. Yet it is of this cultivation that will render unto Horus of his sight. The blind god who is hungering for the morn, for it is the Solar Fire as greater conscious-awareness, seeking how to go forth on the plane it has now reached.

Thus as Orion the hunter, is seeking for daylight as a Herakles; Serpentarius or Bootes going forward as the Amsu or fiery plane of the creation. When complete within himself as Bootes the "Coming One," or fulness of light on the lower plane, he is as Arcturus, one who rules, subdues and governs, and represents the mind son coming forth in the house of the Virgin.

But now he comes forth as the divine judge and harvester upon the earth, which is aptly described by John in Rev. 14 v. 15 and 16, where he declares:

"I looked and beheld a white cloud and upon the cloud sat one like unto the son of Man having on his head a golden crown and in his hand a sharp sickle. And another angel came out of the temple, crying with a loud voice to him that sat on the cloud 'Thrust in thy sickle and reap, for the time is come for Thee to reap, for the harvest of the earth is ripe.' And he that sat on the cloud thrust in his sickle on the earth, and the earth was reaped."

The soul now illuminated is now able to see what he must perform and cries out to accomplish his new task, for the Christos fire has fired him into holy birth. He must cut (See plate on page 12)

away from the earthy state of himself and shine as the divine husbandman risen from a goat-herd. As the shining light of the starry plane the soul is now illuminated and blessed, for that star is now succouring him and he is seeking to make it his future home.

This can only be done by Hercules holding the serpent under control and subduing Scorpio, that when Taurus makes unity with its rational creation in Scorpio, the Eagle rises as the Nimbus circles and divine wisdom flows forth into matter.

THE UNITY OF THE HEIGHTS WITH THE DEPTHS IN THE ILLUMINATED SOUL.

The ancients saw the formed starry light as Orion constellated through fighting the dragon of self and mastering the earthy measure within the soul; thus higher and lower fires are united in one swift revolving issue. And having mastered the fire of matter has

THE TREE OF IMMORTALITY

AS Isis spoke through the creation of Nephthys, she infused her with the glories of beholding; that her lord could receive the divine glories of the growth that was coming forth out of the virgin's struggle. (See text in col. 5).

that fire within as captured Uranian force, therefore must hold in subjection and raise as Starry radiance within the mind awareness.

FOR THE GREATEST TASK IN SOUL CREATION IS THE MASTERHOOD OF SELF AND IN SO DOING, RAISE THE CHRISTOS FIRE WITHIN ONTO A HIGHER PLANE OF RECOGNITION; CONSEQUENTLY ALL IS LIFTED UP IN REVEALMENT AND THE WORLD BENEFITS INDIRECTLY.

If not, the fire captured by tenacity of curiosity can remain in the soul and fire the Manes that have never been subdued; these creations of the past are giants that have mighty powers and are ever asking for more sumptuous meals, thus come forward in destructive measure.

But the wise soul who is duly acquainted, when taking of light will call these creations forward and give them of a "funeral meal," which can be by logical determination bury the entire past of the soul, conveying all subdued into the conscious mind. Realisation increasing the will and the mind on the plane now of awareness, burying all the undigested creation of the past, by the crocodile swallowing up the dead.

Uranus as the sickle or super-will within the soul's grasp, cuts that part of himself away and leaves the soul free on a higher plane; but now is lonely and blind, for he does not know how to recreate upon the new territory. The soul as a Hercules has awakened in mind understand-

ing to the fire he has mastered and the next Law to be captured, that he can establish the higher Law in the lower law, and so reform the laws; the states of earth that go stagnant.

Perhaps this could help us to understand the Words issued through the Jesus in Matt. 5 v. 17 a little better:

"Think not that I come to destroy the law or prophets: I come not to destroy, but to fulfil."

It must be seen by all Initiates that all is living life, and whatever is captured by the soul must they own by full rights of prowess; not mere cunning creation or sheer will, but be able to fully explain their ownership, and to do this they must be within those rights on every plane of their being.

Mastering of Self

THE Egyptian saw this truth as Horus or Heru the hero, raised up by Ra firing the mind into awareness. In the first place was the hero as Horus of the inundation which was pre-solar, for he was as the lunar light seeking expansion and new life.

Then he became as an annual bringer forth of food and drink from Mother Nature, for the sun-god had not risen in his being. But by the evolution of the seasons the soul captured the elements and made them his own fiery creation until he became of the solar, and lastly of the eschatological as a living factor of natural creation.

He became as Nimrod the slayer of the gigantic Apap, the wild Uranian fire that opens the way for Neptune's horses to rush in and devour the soul as the leviathan, unless the soul harnesses and makes him into one of his own driving team, of living logia or practical application of living electrical atomic life.

THE SENSITIVITY IS OF THE SPIRIT IN THE STELLAR BIRTH, TRYING TO COME FORTH IN THE LUNAR BEING TRANSFORMED BY THE SOLAR FIRE INTO STARRY AWARENESS.

The hare seen as a symbol of the moon was a totemic creation of a nome or city in Egypt, an earlier creation now down south, awaiting resurrection through the northern waters. And later in Grecian mythology he becomes a hunter who takes out the dogs of Horus, Kyon and Prokyon, and pursues the darkness of life. Then on coming forth from the darkness, in his resurrection as one who has mastered, he becomes as Osiris and declares:

"I come forth as a Bennu at dawn, I urge on the hounds of Horus."

As a type of Sothis, or polar star ever guiding his own creation, he becomes a hunter of the powers of darkness, avidya or ignorance. This he does on behalf of Horus the ever rising son as he rises into Osiris, until all becomes as Sahu-Orion; Horus in his glorious body of light.

Bennu represents the god Bennu, an Osirian personation of the Bennu bird; the name of a sacred bird and an emblem of the resurrection of the spirit. A human figure in the characteristic attitude of Osiris, with a Bennu's head crowned with the double plumes, uraei and other emblems. It was the forerunner of the Greek Phoenix, a heron-like bird with two long feathers flowing from the back of its head. Its name signifies "that which revolves" or "turns back."

The legend at Heliopolis was that the bird rose singing from the flames which came out of a certain tree, its song being so beautiful that even Ra himself listened. In the old texts the soul of the deceased was compared to the Bennu bird.

The god carries, like Osiris, the flail and crook and is even identified with Ra. The sanctuary of the Bennu was the sanctuary of those two great gods, and was called Het Benben, that is the "House of the Obelisk." In the Book of the Dead he is entitled "the Morning Star of Ra," the planet Venus, and "the soul of Ra," the sun. And in this connection the sun rose over the famous Persea tree wherein the Bennu-bird, the Phoenix, renewed himself.

The legends state that it came into being from out of the fire which burned on the top of the sacred Persea-Tree (See plate on this page)

(Tree of immortality) of Heliopolis, and typifies the new birth of the sun each morning. Bennu being one of the sacred names of the planet Venus (Foam-born), accounts for the mystery applied regarding its successive appearances in the morning and the evening, which belonged to the striking expression of the periods of renewing.

In the Book of the Dead the Bennu says:

"I came into being from unformed matter. I came into existence like the god Khepera (Beetle-headed god, or becoming or turning). I am the germs of every god."

The dwelling place of the Great Bennu was Henen-su (Herakleopolis), the seat of the worship of Her-Shef, (Arsaphes or Aris).
