SIMPKIN, MARSHALL & Co., STATIONERS' HALL COURT,
WHITTAKER & Co., AVE MARIA LANE.

PETERBOROUGH:

E. T. HAMBLIN, NARROW BRIDGE STREET.

AND MAY BE HAD AT ALL THE PRINCIPAL BOOKSELLERS IN THE
UNITED KINGDOM.

PRICE SIXPENCE.

ENTERED AT STATIONERS' HALL.

ORION'S ASTRO-BOTANIC COMPOUNDS !!

These COMPOUNDS are composed of the most rare and expensive preparation of *British Herbs*, gathered under the strong influence of the Planetary Orbs which rule them. Planetary Influence over Vegetation has Bible Authority, and the practice of the greatest Physician the World ever knew.

ORION'S SOLAR PILLS.

(FOR EITHER SEX.)

These Pills claim a pre-eminence over most other medicine which comes before the public, as forming a mild laxative, tonic remedy, and are a never failing cure for indigestion, bile, loss of appetite, windy stomach, dizziness, spasms, liver complaints, heartburn, languidness, and nervous affections. They give *regularity* to the Bowels, *strength* to the Nerves, *freshness* to the Countenance, and *vigour* to the whole Frame!

Post free for 14 Postage Stamps.

ORION'S LUNAR PILLS.

(FOR THE FEMALE SEX.)

The salutary effect exercised by these Lunar Pills, over all kinds of Female indisposition is astonishing. Their peculiar qualities well fit them for a domestic medicine for Females of all ages and periods of life. They quickly eject all impurities from the system, and regulate the secretions, dispelling lowness of spirits, and by their stimulant action brace and strengthen the nervous system in a most extraordinary manner.

Post free for 14 Postage Stamps.

ORION'S PULMONIC PILLS.

(FOR EITHER SEX.)

For coughs, colds, asthma, tightness in the chest, and difficulty in breathing. It is impossible to describe the good effects these Pills have produced; they allay the irritation which provokes coughing; and many who with difficulty could breathe at all in a recumbent position, have by taking one dose of them, been able to enjoy that sweet repose so requisite to human nature.

Post free for 14 Postage Stamps.

Address, Mr. J. HAMMERTON, Millfield, Peterborough.

*Sold by E. T. HAMBLIN, Narrow Street, Peterborough,
In Boxes at 1s. 1½d.*

ASTROLOGERS.

The following List of modern men of note in Science who have been well known as Astrologers may be useful to place in the hands of Sceptics, since it is now the custom to revile Astrology, as having no men of Authority in Science among its supporters.

Roger Bacon.
Philip Melanthon.
Cardan.
Lord Bacon.
Nostradamus.
Tycho Brahe.
Baron Napier, Inventor of the Logarithms.
Hobbs Kepler.
Sir H. Cornelius Agrippa.
James Usher, Archbishop of Armagh.
Valentine Naibod.
Bishop Robert Hall.
Sir Edward Kelly.
John Dryden.
Sir Matthew Hale.
Sir George Wharton.
Placidus de Titus.
Sir Christopher Heydon.

George Witchell, Astronomer Royal, Portsmouth.
Vincent Wing.
William Lilly.
Dr. William Salmon.
Mr. Flamstead, First Astronomer Royal.
Le Duc de Valney.
G. Digby, Earl of Bristol.
Elias Ashmole, Founder of the Museum.
Dr. Nicholas Culpeper.
John Milton.
Dr. John Dee.
Dr. George Starkey.
Dr. Partridge, Physician to James II.
Dr. Moore.
Sir Richard Steele.
Henry Coley, &c., &c.

This list might be extended greatly: but it is unnecessary. There is no man who really will *consider* the matter, but must acknowledge the extreme and wondrous *improbability* that all these great men, whose fame has come down untarnished to our day, should have been deceived and misled into a belief in Astral Doctrines, that is, that the Heavenly Bodies do really influence the *minds* and *bodies* of *mankind*, if no such thing could be proved by fair investigation. Yet every scribbler at a penny a-line will denounce these doctrines, without knowledge, without examination, and without natural ability to trace any one of the laws of nature, on the observation of which they have been founded.

Prognostic Astronomy.

NATIVITIES CALCULATED BY ORION.

"I know no spells, use no forbidden arts;
My trust is in the living God, who gave me
At my Nativity this strength.

In a NATIVITY, the disposition, traits of character, constitutional diseases, &c., are carefully delineated; also the pecuniary circumstances, and the employment or profession for which the Individual is adapted, are pointed out; marriage (if more than once), with a description of the wife or husband; children, journeys, friends and enemies described, and the general affairs of Life, a foreknowledge of which may prevent much misery, and promote health, happiness and prosperity.

Every respectable Son and Daughter should have this.

TERMS FOR NATIVITIES.

Several Correspondents having wished for a statement of TERMS, ORION begs leave to inform them that, for a NATIVITY, with "General Judgment" thereon (as above) his Terms are 5s., 7s. 6d., and 10s., according to the extent of the Calculation and Information given; payable in *advance*, by Post Stamps, or Post Office Order, to MR. JOHN HAMMERTON, *Millfield, Peterborough*.

Observe.—Give your year, day, hour, and place of birth; your sex; also whether married or single.

For a Map of a NATIVITY, with all the Important Transits of the Planets calculated for *five* years, with an Explanation of *Events*, 10s.; for *ten* years to come, *fee* 20s.

A NATIVITY, more complete by Planispheric Projection, with Arcs of Directions, Important Transits, and full particulars of all the *future* important *Events*, both *good* and *evil*, throughout *Life*, £2 2s. to £5 5s., payable in *advance* by *Post-office Order* to MR. JOHN HAMMERTON, *Millfield, Peterborough*.

 *The strictest secrecy and punctuality will be observed.*

HORARY QUESTIONS.

ORION may be consulted (by letter only) on any lawful and proper Question as to the result, issue, or success of any important undertaking or sincere inquiry according to the "Science of the Stars." A *Question* must be confined to *one* subject only, and the *same* Question must not be asked a *second* time.

In *Horary Questions* it is not indispensably necessary that the Querent should give the *hour* of birth, but the *day* and *year* should be given if possible, especially on questions of marriage. *Fee*, 32 Postage Stamps; payable in *advance* to

MR. JOHN HAMMERTON, *Millfield, Peterborough.*

REVOLUTIONARY FIGURES.

These Revolutionary Figures, are calculated from the Native's Birthday of every year, shewing the almost daily Events; what to avoid, and what to accept (very valuable), *fee* 2s. 6d., 3s. 6d., and 5s., according to the Information given, payable in advance to Mr. J. H. (as above.)

GOOD AND EVIL DAYS,

According to the Horoscope at Birth.

Persons desirous of this valuable Information for a *Whole year*, should send their year, and day of birth, and 13 Postage Stamps, Addressed to Mr. J. H. (as above.)

TO STUDENTS IN ASTROLOGY, &c.

The Longitudes of the Sun, Moon, and Planets, sent post free to any part of the United Kingdom, on receipt of time and date required, inclosing 13 Stamps; for a Chart of the Heavens 30 Stamps must be sent to Mr. J. H. (as above.)

ASTRO-BOTANICAL INFORMATION.

Those persons who are desirous of *gathering* the various herbs under *Planetary Influence*, may write to me; and the *time* and *date* when they possess their full virtues, will be forwarded to any Address, on receipt of 30 Postage Stamps, to

MR. JOHN HAMMERTON, *Millfield, Peterborough.*

JANUARY, 1867.

While bright ORION illumines the arch of Heaven,
Enters th' eventful year of Sixty-seven!
This month two Planets retrograde do run,
And Mars will oppose the glorious Sun.
Some sudden Storms may hurt, or chilling Frost,
Or violent Winds may blast or vex the Coast.

D. M.	SUN		MOON		's D. A.	PROPHETIC OBSERVATIONS.

As sure as clouds foreshew the coming rain,
 So sure Eclipses never pass in vain ;
 They happen as their Creator them directs,
 And we weak mortals feel their great effects ;
 Yet some will say they have no influence,
 But such we find are always void of sense.

APRIL, 1867.

At last from Aries rolls the bounteous Sun,
 And the bright Bull receives him; then no more
 Th' expansive atmosphere is cramp'd with cold;
 But, full of light and vivifying soul,
 Lift the light clouds sublime, and spreads them thin,
 Fleecy, and white, o'er all surrounding heaven.

D. M.	SUN		MOON		'S D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.	R. & S. h. m.	D.		
1	r 5 38	4 m. 8	26			This month opens with a benevolent
2	s 6 32	4 36	27			conjunction of Venus and Jupiter in
3	r 5 34	5 4	28			Aquarius. This happy token forebodes
4	s 6 35	5 32	N.			well for the city of London, and for
5	r 5 29	sets	1			the country generally. Some important
6	s 6 38	8af.41	2			changes of a benevolent character
7	r 5 25	9 57	3			now take place in the laws of Old
8	s 6 41	11 9	4			England, which, like a noble ship
9	r 5 20	morn.	5			once shattered by the violence of
10	s 6 45	0 13	6			the waves, lifts her head above the
11	r 5 16	1 10	7			billows and gallantly pursues her
12	s 6 48	1 59	8			peaceful course. But about the middle
13	r 5 12	2 38	9			of this month many countries will
14	s 6 52	3 13	10			be subject to much excitement. The
15	r 5 7	3 42	11			Hollanders are excited to some acts
16	s 6 55	4 9	12			of violence, and in Scotland a spirit
17	r 5 3	4 34	13			of turbulence appears; while in Con-
18	s 6 58	rises	14			stantinople there will be fires and
19	r 4 59	7af.42	15			destruction of mercantile property.
20	s 7 2	8 45	16			Even in some parts of Britain, there
21	r 4 54	9 47	17			may be tumults, fires, accidents, and
22	s 7 5	10 42	18			deeds of violence, as the Solar Orb
23	r 4 50	11 33	19			in his transit through Aries, is assailed
24	s 7 8	morn.	20			by a quartile ray of Mars from the
25	r 4 46	0 20	21			zodiacal sign Cancer. The presence
26	s 7 11	1 0	22			of Jupiter in the sign Pegasus pro-
27	r 4 42	1 35	23			mises more peace to Alexandria,
28	s 7 15	2 7	24			Calabria, Normandy, and Galicia in
29	r 4 38	2 36	25			Spain; and a more flourishing time
30	s 7 18	3 5	26			for Tiverton, and the West of England.

MAY, XXXI Days.

Moon's Changes.

NEW MOON ..	4th day, 7h. 40m. Morning,
FIRST QUARTER ..	10th day, 10h. 4m. Afternoon.
FULL MOON ..	18th day, 1h. 52m. Afternoon.
LAST QUARTER ..	26th day, 5h. 22m. Afternoon.

D.	D.	DIARY.	WEATHER PREDICTIONS.
M.	W.		
1	W	<i>St. Ph. & St. Jas.</i>	Changeable and gusty with showers on the 1st and 2nd days. The 3rd, fine intervals; but rain denoted.
2	T _u	Consult Lawyers	4th, showers or threatening; night cold. 5th, warmer, fine intervals.
3	F	<i>Inv. of the Cross</i>	6th, high tides; gusty, but chiefly fine. 7th, air disturbed; showers, and fine intervals. 8th and 9th, (doubtful) chiefly fine; signs of rain and thunder on the latter day and the 10th. The 11th and 12th have signs of hail, rain, and thunder; storms at sea, &c. 13th, gusty; fine intervals. 14th and 15th, gusty winds, destructive to the garden flowers. 16th, some fine intervals. 17th, electric excitement; thunder or wind; rain or hail. 18th, electric.
10	F	Day incr. 7. 32.	19th, some fine intervals of May weather. 20th, cooling wind; rain threatens. 21st, gusty and changeable.
11	S	Evil reigns	22nd, cool dark air; thunder or wind; rain or hail. 23rd and 24th, (doubtful) chiefly fine. 25th, some sunny intervals, but signs of showers and thunder. 26th and 27th, warm intervals; heavy wool-pack clouds and thunder. 28th, gusty and changes.
12	S	3 SUN. aft. EAST.	29th, fine warm intervals. The two last days denote rain or hail, and thunder or wind; meteors, &c.
13	M	<i>Old May Day</i>	
14	T _u	Electrified air	
15	W	Day 15. 31. long

19	S	4 SUN. aft. EAST.	
20	M	[<i>Dunstan</i>]	
21	T _u	Meadows lovely	
22	W	Rather evil	
23	T _u	Hawthorn blooms	
24	F	<i>Q. Vic. born 1819</i>	
25	S	Vernal beauty	
26	S	ROGA. SUNDAY	
27	M	<i>V. Bede [Angus</i>	
28	T _u	Low tides	
29	W	<i>K.C. II. res. 1660</i>	
30	T _u	<i>Ascen. Holy Th.</i>	
31	F	Court or wed	

MAY, 1867.

What's Property? dear Swift! you see it alter
 From you to me, from me to Peter Walter;
 Or in a mortgage prove a Lawyer's share;
 Or in a jointure vanish from the heir;
 Or in pure equity (the case not clear),
 The Chanc'r takes your rents for twenty year.

D. M.	SUN		MOON		's D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.	R. & S. h. m.	D.		
1	r 4 35		3m.32	27		Now comes the "Merry month of
2	s 7 21		3 58	28		May," the season of flowers; but it is
3	r 4 31		4 29	29		to be feared that the opposition of the
4	s 7 24		sets	N.		Sun and Saturn will seriously derange
5	r 4 27		8af.51	1		the equilibrium of our atmosphere,
6	s 7 28	10	1	2		and deprive us for a time of the anti-
7	r 4 24	11	3	3		cipated pleasures of the month of
8	s 7 31	11	56	4		merry-making in Old England. The
9	r 4 20	morn.		5		11th, 17th, and 22nd do not look very
10	s 7 34	0	40	6		good for excursionists, &c. Again the
11	r 4 17	1	17	7		Sun is afflicted by a halo of malignant
12	s 7 37	1	48	8		rays: woe to a mighty one, a fatal
13	r 4 14	2	14	9		dirge is rung, the last sad solemn knell
14	s 7 40	2	39	10		is heard. Storms and earthquakes
15	r 4 11	3	5	11		may be anticipated, as the Sun and
16	s 7 43	3	29	12		Mercury come to an opposition of
17	r 4 8	3	57	13		Saturn this month. A new struggle
18	s 7 46	rises	14			for dominion takes place in Syria, that
19	r 4 5	8af.35	15			unblessed land of the serpent, where
20	s 7 49	9	29	16		violence and angry passions grow and
21	r 4 2	10	17	17		have ever grown with indigenous
22	s 7 52	11	0	18		luxuriance, while Saturn traverses
23	r 4 0	11	36	19		Scorpio, for that sign rules all ancient
24	s 7 54	morn.		20		Judea, especially those parts possessed
25	r 3 58	0	8	21		by the Tribe of Dan, who bore the
26	s 7 57	0	37	22		symbol of that sign on their Standard.
27	r 3 55	1	5	23		Norway is under the rule of Scorpio,
28	s 7 59	1	31	24		and also the Northern Coasts of Africa,
29	r 3 53	1	57	25		about Morocco, where troublesome
30	s 8 2	2	26	26		events occur of a serious nature, espe-
31	r 3 52	2	59	27		cially on the 11th, 17th, and 22nd.

JUNE, XXX Days.

Moon's Changes.

NEW MOON 2nd day, 8h. 12m. Afternoon.
 FIRST QUARTER 9th day, 6h. 37m. Morning.
 FULL MOON 17th day, 4h. 55m. Morning.
 LAST QUARTER 25th day, 5h. 28m. Morning.

D. M.	D. W.	DIARY.	WEATHER PREDICTIONS.
1	S	Evil. <i>Nicomede</i>	Large masses of cumulus clouds with storms of rain, hail, and thunder. 3rd, unsettled; fine at intervals; but dangerous tides in some ports.
2	S	SUN. aft. ASCEN.	5th and 6th, electric indications, some showers, and growing weather.
3	M	Very high tide	7th and 8th, dashing showers; hail storms and thunder in divers of places.
4	T _u	Very high tide	9th, threatening and electric.
5	W	<i>Boniface</i>	10th, gusty and changeable, some rain.
6	T _h	Dog-rose flowers	11th and 12th, (doubtful) we hope fineness will predominate. 13th and 14th, unsettled, showers, thunder or wind.
7	F	Accidents occur	Storms in the Atlantic and elsewhere.
8	S	A deceptive day	15th, some fine intervals.
9	S	WHIT SUNDAY	16th and 17th, (doubtful) chiefly fine.
10	M	WHIT MONDAY	18th, gusty and changes; fine at intervals; from Lunar aspects.
11	T _u	<i>St. Barnabas</i>	19th and 20th, seasonable; fine growing weather; hot intervals.
12	W	<i>Ember Week</i>	21st, heat or electric action; lightning, &c.
13	T _h	Elder flowers	22nd, lively breezes.
14	F	Avoid wedlock	23rd and 24th, warm intervals, cumulus clouds, and tokens of thunder.
15	S	Roses abound	25th, gusty, and changeable from the moon's position.
16	S	TRINITY SUNDAY	26th (doubtful).
17	M	<i>St. Alban</i>	27th, hot intervals; probably thunder.
18	T _u	High tides	28th, threatening.
19	W	Plant and sow	29th, warm; heavy cumuli and thunder.
20	T _h	<i>Corpus Christi</i>	30th, sudden changes, thunder or wind.
21	F	<i>Q. V. proc. 1837</i>	
22	S	Storms threaten	
23	S	1 SUN. aft. TRIN.	
24	M	<i>St. J. Bap. New</i>	
25	T _u	[Mids. Day	
26	W	Low tides	
27	T _h	Fine intervals	
28	F	<i>Q. Vic. cr. 1838</i>	
29	S	<i>St. Peter</i>	
30	S	2 SUN. aft. TRIN.	

JUNE, 1867.

Jove and Mavors cloud the spangled sky,
 Hermes and Chronus raise both Winds and Show'rs,
 Many a Storm and Tempest from on high,
 Help'd on by Mars and Saturn's blust'ring Powers ;
 Nature's contraries rend the clouds asunder
 With Storms of Rain, Lightning, and Claps of Thunder.

D.	SUN R. & S. h. m.	Moon R. & S. h. m.	's D A.	PROPHETIC OBSERVATIONS.
1	r 3 51	3m.34	28	The eyes of the world are still drawn
2	s 8 5	4 16	N.	to France; for Mars is rushing through
3	r 3 49	sets.	1	Leo, and squared by Saturn, stirring
4	s 8 7	9 46	2	up our Gallic neighbours to every
5	r 3 48	10 37	3	kind of evil excitement, whose warlike
6	s 8 9	11 17	4	propensities are dominant under his
7	r 3 47	11 51	5	influence; fires and quarrels abound
8	s 8 11	morn.	6	there, also. In Rome, the people
9	r 3 46	0 19	7	oppose existing rulers: there are sad
10	s 8 13	0 47	8	doings in that land: revolutionary
11	r 3 45	1 12	9	movements prevail; and in Italy
12	s 8 14	1 34	10	violent scenes occur. The cities of
13	r 3 45	2 2	11	Bath and Bristol will not be free from
14	s 8 15	2 31	12	fires or other casualties. Among the
15	r 3 44	3 1	13	domestic incidents of the month are
16	s 8 16	3 35	14	the committal to prison of a Clergy-
17	r 3 44	rises.	15	man, and the elevation of a literary
18	s 8 17	8af.59	16	man. There will be some extensive
19	r 3 44	9 38	17	fires; and mischief by lightning, hail,
20	s 8 18	10 13	18	&c. The position of Mars in Leo in
21	r 3 44	10 43	19	sextile to the Sun denotes some vic-
22	s 8 19	11 10	20	tory or martial success to the French.
23	r 3 45	11 36	21	There will be grand fêtes and rejoicings
24	s 8 19	morn.	22	during this month. Passing to a more
25	r 3 45	0 1	23	melancholy theme, I notice with regret,
26	s 8 19	0 26	24	a baleful synod of the Sun and
27	r 3 46	0 55	25	Uranus, which influence strikes down
28	s 8 19	1 28	26	some potent character in Europe.
29	r 3 47	2 7	27	Accidents of a sudden nature occur,
30	s 8 18	2 52	28	especially on the 2nd, 14th, and 30th.

JULY, XXXI Days.

Moon's Changes.

NEW MOON 1st day, 9h. 48m. Afternoon.
 FIRST QUARTER .. 8th day, 5h. 31m. Afternoon.
 FULL MOON..... 16th day, 7h. 56m. Afternoon.
 LAST QUARTER .. 24th day, 2h. 32m. Afternoon.
 NEW MOON..... 31st day, 4h. 43m. Morning.

D. M.	D. W.	DIARY.	WEATHER PREDICTIONS.
1	M	Very high tides	Gusty and changeable; dangerous tides; some fine intervals. 3rd, gusty
2	T _u	<i>Visit. V. Mary</i>	and changes; showers denoted. 4th, electrical indications; signs of showers.
3	W	Dog days begin	5th, fine, hot intervals; much electric action; probably thunder
4	T _h	<i>Trans. St. Mark</i>	and hail. 7th, changes; showers, and electric. 8th and 9th, (doubtful)
5	F	Heat and thunder	we hope fineness will predominate.
6	S	<i>Old Mids. Day</i>	10th, fine intervals; signs of thunder.
7	S	3 SUN. aft. TRIN.	11th, showers; or overcast air. 12th,
8	M	<i>Thos. à Becket</i>	some fine intervals of summer weather.
9	T _u	Low tides	13th, warm; electric. 14th and
10	W	<i>Peterboro' Fair</i>	15th, fine warm intervals; heavy
11	T _h	<i>Peterboro' Fair</i>	cumulus clouds and tokens of thunder.
12	F	Seek wild flowers	16th, (doubtful) chiefly fine. 17th
13	S	Therm. 99° 1808	and 18th, fine warm intervals; cumuli; some thunder. 19th, rather
14	S	4 SUN. aft. TRIN.	wild appearances. 20th, fine warm
15	M	<i>St. Swithin</i>	intervals; signs of showers. 21st
16	T _u	Day 16. 4. long	and 22nd, electric; probably thunder
17	W	Court or wed	storms, followed by rapid changes
18	T _h	High tides	in the temperature. 24th to the
19	F	Behold the fields	26th, fine intervals; showers, and
20	S	<i>Margaret</i>	fertilizing breezes prevail in general.
21	S	5 SUN. aft. TRIN.	The 27th will bring some sudden
22	M	<i>Magdalene</i>	rains. 28th, warm; electric; pro-
23	T _u	Heavy storm 1856	bably some lightning. 29th and
24	W	Corn ripening	30th, warm intervals; cumulus clouds,
25	T _h	<i>St. James</i>	and signs of thunder. 31st, danger-
26	F	<i>St. Anne</i>	ous tides; gusty; some rain.
27	S	Day break 1. 8.	
28	S	6 SUN. aft. TRIN.	
29	M	Day 15. 32. long	
30	T _u	Very high tide	
31	W	Very high tide	

JULY, 1867.

Enthroned in majesty, o'erlooking all,
 Great Jove was placed above the rolling ball:
 Where from the polar hill and northern sky,
 The deeds of erring mortals met his eye.
 His feet trod Tartarus; his throne the pole,
 Round which his ministers would daily roll.

D. M.	SUN		MOON		'S D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.	R. & S. h. m.	D.		
1	r 3 49	3m.47	N.	Let the merchants of France beware		
2	s 8 18	sets	1	of bankruptcies. Many losses, and		
3	r 3 50	9af.11	2	much turbulence and dissatisfaction,		
4	s 8 17	10 0	3	will mark the passage of Mars through		
5	r 3 51	10 23	4	the ruling sign of the chief cities		
6	s 8 16	10 51	5	of France this month in opposition		
7	r 3 53	11 16	6	to Jupiter. Religious quarrels also		
8	s 8 15	11 42	7	run high in that land; some violent		
9	r 3 55	morn.	8	scenes occur in Paris and other		
10	s 8 14	0 8	9	great cities, in France, especially		
11	r 3 57	0 34	10	Lyons. I perceive that Switzerland		
12	s 8 12	1 5	11	and Portugal, as well as Turkey,		
13	r 3 59	1 38	12	will be very disturbed this month;		
14	s 8 10	2 17	13	tumults reign, fires, &c., abound. I		
15	r 4 2	3 2	14	fear the position of Mars in the		
16	s 8 8	rises	15	ruling sign of the West Indies denotes		
17	r 4 4	8af.16	16	some terrible hurricane or earth-		
18	s 8 6	8 47	17	quake therein, and we may hear of		
19	r 4 6	9 15	18	riots; military called out, &c. Saturn		
20	s 8 4	9 41	19	stationary in Scorpio denotes storms		
21	r 4 9	10 6	20	and earthquakes; some distant nations		
22	s 8 2	10 32	21	will feel the vibrations of the shocks.		
23	r 4 12	10 59	22	As some of the aspects this month		
24	s 7 59	11 29	23	are of a friendly nature inspire us		
25	r 4 15	morn.	24	with the hope that many useful plans		
26	s 7 57	0 2	25	will be devised, and brought into		
27	r 4 17	0 43	26	operation for the public good; by		
28	s 7 54	1 32	27	which means trade and commerce		
29	r 4 20	2 30	28	will flourish, and the working man		
30	s 7 51	3 38	29	and his family, amongst others, be		
31	r 4 23	sets	N.	benefited thereby. Note the times.		

AUGUST, XXXI Days.

Moon's Changes.

FIRST QUARTER 7th day, 7h. 9m. Morning.
 FULL MOON 15th day, 10h. 37m. Morning.
 LAST QUARTER 22nd day, 9h. 22m. Afternoon.
 NEW MOON 29th day, 1h. 5m. Afternoon.

D. M.	D. W.	DIARY.	WEATHER PREDICTIONS.
1	T _H	<i>Lammas Day</i>	The month opens with high tides.
2	F	Day decr. 1. 14.	2nd and 3rd, fine warm intervals;
3	S	Rather evil	but signs of thunder showers, and
4	S	7 SUN. aft. TRIN.	mischievous lightning, &c. 4th,
5	M	Fleabane blooms	gusty and changeable. 5th, (doubtful)
6	T _r	<i>Transfiguration</i>	chiefly fine. 6th, fine intervals;
7	W	<i>Name of Jesus</i>	showers denoted. 7th, showers or
8	T _H	Consult surgeons	threatening; signs of thunder. 8th
9	F	(Shooting stars)	(doubtful). 9th, fine intervals. 10th,
10	S	<i>St. Lawrence</i>	unsettled; signs of rain and thun-
11	S	8 SUN. aft. TRIN.	der. 11th, gusty; rain and drizzle;
12	M	[Dog days end	cool air. 12th and 13th, showers
13	T _r	<i>Old Lammas D.</i>	or threatening; signs of thunder.
14	W	Gardens fade	14th, threatening; yet we hope
15	T _H	<i>Assump. B. V. M.</i>	fineness will predominate. 15th,

AUGUST, 1867.

How great is thy beneficence, O Lord !
Which flows from Mercy's vast unbounded sea ;
Thy hands innumerable gifts afford,
Seed-time and harvest answer to thy word.
Worthy thou art to be by all ador'd
Author of goodness and felicity.

D. M.	SUN		MOON		's D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.				
1	r 4	25	8af.19	1		After the 12th day of this month
2	s 7	46	8	50	2	Venus in the sign Leo, will introduce a
3	r 4	28	9	18	3	more peaceful state of things in France,
4	s 7	43	9	45	4	but England comes in for her share
5	r 4	31	10	10	5	of troubles, as Mars has passed into
6	s 7	39	10	38	6	the opposite of her ruling sign.
7	r 4	34	11	7	7	Failures in trade and mercantile mis-
8	s 7	36	11	39	8	fortunes abound; and we may expect
9	r 4	37	morn.		9	fires and serious accidents in this
10	s 7	32	0	16	10	country in various shapes. This will
11	r 4	40	0	59	11	be still more rife at the end of the
12	s 7	28	1	46	12	month. The city of Lisbon is a prey
13	r 4	43	2	39	13	to acts of violence this month; and
14	s 7	24	3	36	14	in Antwerp also, and Frankfort,
15	r 4	46	rises		15	Vienna, Gaëta, and Charlestown, fires
16	s 7	20	7af.47		16	occur, and remarkable accidents by
17	r 4	49	8	12	17	storms, explosions, &c. The gay and
18	s 7	16	8	37	18	joyous orb of Venus is afflicted by
19	r 4	53	9	4	19	an evil square of Saturn, indicating
20	s 7	12	9	31	20	much suffering among females, and
21	r 4	56	10	3	21	no doubt either producing or bringing
22	s 7	8	10	40	22	to light some fearful cases of Poisoning
23	r 4	59	11	24	23	and Murder. Saturn in his stealthy
24	s 7	4	morn.		24	pace squares the Solar orb: one of
25	r 5	2	0	17	25	those who bear title and rule will
26	s 7	0	1	18	26	woefully rue this aspect. Saturn here
27	r 5	5	2	27	27	is the emblem of their death. The
28	s 6	55	3	41	28	Sun opposes Jupiter, woe to one high
29	r 5	9	4	57	N.	in the Church or the Law. Some
30	s 6	51	sets		1	religious movements are made, and
31	r 5	12	7af.45		2	changes effected in the Church.

SEPTEMBER, 1867.

The gusty winds the fruitful trees disturb,
 And clouds at times obscure the Sun's bright orb :
 When the full Moon illumines the southern sky,
 Her upper limb thro' Earth's dark shade shall fly :
 The sons of science will the Eclipse survey,
 Which will the wisdom of our God display.

OCTOBER, 1867.

See now the minute particles of dew,
 Present the spiders' curious webs to view ;
 Which with amazement strikes that person's eye,
 Who wisdom doth in ev'ry thing descry :
 Towards the end the air grows sharp and cold,
 And ice we in the ditches may behold.

D. M.	SUN		MOON		'S D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.				
1	r 6	2	sets	4		From the astronomical data I am
2	s 5	36	8af 10	5		now inspecting, I am led to infer that
3	r 6	5	8 49	6		some curious political and internal
4	s 5	31	9 82	7		changes, together with intrigue, and
5	r 6	8	10 22	8		perhaps commotions, will agitate
6	s 5	27	11 16	9		several Continental States. At home
7	r 6	12	morn.	10		there are signs of many scientific dis-
8	s 5	22	0 14	11		coveries ; and scientific or literary men
9	r 6	15	1 17	12		of fame appear under the beams of
10	s 5	18	2 22	13		good fortune. The square aspect of
11	r 6	18	3 28	14		the Sun and Uranus will affect one of
12	s 5	18	4 39	15		high power and authority. A Church-
13	r 6	22	rises	16		man or Lawyer gains considerable
14	s 5	9	6 af. 7	17		power and is promoted. Scandal
15	r 6	25	6 40	18		abounds ; the press is violent, and
16	s 5	5	7 21	19		even treasonable writings may appear,
17	r 6	29	8 8	20		but merely to be checked by the
18	s 5	0	9 3	21		heavy hand of the law. During the
19	r 6	32	10 5	22		latter part of this month we shall hear
20	s 4	56	11 12	23		of many storms and floods ; much
21	r 6	35	morn.	24		damage by sea will be experienced,
22	s 4	52	0 24	25		evil to seamen, and shipping ; violent
23	r 6	39	1 36	26		storms will visit many parts of Britain,
24	s 4	48	2 49	27		Liverpool, Ireland, Norway, and all
25	r 6	43	4 0	28		places ruled by the sign Scorpio.
26	s 4	44	5 11	29		Some sudden tumults and outbreaks
27	r 6	46	6 22	N.		occur in different countries. Probably
28	s 4	40	sets	1		turn-outs with Colliers and others
29	r 6	50	6 af. 7	2		connected with the bowels of the earth.
30	s 4	36	6 44	3		Fires and accidents abound. The
31	r 6	53	7 24	4		19th, 24th, and 31st, evil prevails

NOVEMBER, 1867.

The owl sits huddling by himself,
 The cold has pierced his body through ;
 The patient cattle hang their head,
 The deer are 'neath their winter shed,
 The ruddy squirrel's in his bed,
 And each small thing within its burrow.

D. M.	SUN		MOON		's D. A.	PROPHETIC OBSERVATIONS.
	R. & S. h. m.	R. & S. h. m.				
1	r 6	55	sets	5		This is a month of more than usual
2	s 4	31	9 af. 4	6		pernicious influences. The Catalogue
3	r 6	58	9 58	7		of celestial configurations exhibits
4	s 4	27	11 1	8		no less than four malignant squares ;
5	r 7	2	morn.	9		and five mischievous conjunctions
6	s 4	24	0 4	10		of the planets. Strange, unwonted
7	r 7	6	1 9	11		occurrences, even where all is mystery.
8	s 4	20	2 16	12		Norway, Bavaria, the kingdoms of
9	r 7	9	3 28	13		Fez and Morocco, Valentia in Spain,
10	s 4	17	4 38	14		Messina, Algiers, and other parts
11	r 7	13	5 52	15		ruled by Scorpio. There will be
12	s 4	14	rises	16		sickness, tumults, and accidents in
13	r 7	16	6 af. 0	17		those parts, as well as mischief by
14	s 4	11	6 53	18		storms, floods, &c., and these evils
15	r 7	20	7 54	19		will extend in a less degree to Liver-
16	s 4	8	9 3	20		pool, Ireland, Persia, and Asia Minor.
17	r 7	23	10 18	21		Troubles and dissensions of a dis-
18	s 4	6	11 27	22		astrous nature may take place in
19	r 7	27	morn.	23		Denmark and Sweden. It is an evil
20	s 4	3	0 39	24		month for those in authority, digni-
21	r 7	30	1 48	25		fied, and wealthy. A mighty one
22	s 4	1	3 0	26		of the earth bows to the mandates
23	r 7	33	4 10	27		of Fate. Let the people of Spain,
24	s 3	59	5 16	28		Italy, Arabia, Dalmatia, and part
25	r 7	36	6 23	29		of France prepare for evil. The month
26	s 3	57	sets	N.		is evil, especially to the fair sex ;
27	r 7	40	5af.21	1		murders, suicides, and cases of poison-
28	s 3	55	6 6	2		ing are rife. The electric derangement
29	r 7	42	6 57	3		will cause storms ; and abroad, shocks
30	s 3	44	7 50	4		of earthquake. Fires prevail.

DECEMBER, XXXI Days.

To Set a Clock or Watch by this Table—Example, Jan. 1st. It will be found by looking into the Table, that a Clock to be right must be 3 minutes 53 seconds faster than a sun-dial; therefore set it so much faster accordingly, and so of the rest. Correct the Watch when the Dial marks just an hour, as 9, 10, 11, 1, 2, 3, or 5 o'clock. Noon is not the best time for this purpose, nor near sun-rise or sun-set.

A plain and easy Table, shewing the time of High Water.

NOTE.—Opposite the Moon's Age in the first column you have nearly the time of High Water at the places specified in the several columns: * denotes a little before; + a little after.

+ Banf, * Calais, Chichester, + Cromartie, * Deal, Dunkirk, Graves-lines, + Greenock, Harwich, Kentish Knock, Liverpool, N. Foreland, Portsmouth Dockyard, + Ramsgate, Southampton, St. Helen's.

* Aberdeen, Bergen, Downs, * Flushing, Goodwin Sands, Gravesend, Half-tide, + Gore, + May Isle, + Montrose, Romney, * Nore Light, N. Cape before Coquit, + Tay Bar, Thanet.

+ Amsterdam, + Alne, Berwick, + Blythe, + Burnt Island, * Cuckold's Point, + Dunbar, Dundee, Drontheim, Eyemouth, Glasgow Bridge, + Hartlepool, Leith Pier, London Bridge, Rotterdam.

Antwerp, Barnstaple Bar, + Bolt Head, * Donegal, * Eddystone, * Falmouth, Fowey, + Lundy, Lynn, Half-tide, + Milford Haven, * Morlaix, Plymouth Dock-yard, + Saltées.

Achill H., Bridport, Cancale B., Carmarthen Bar, Dartmouth, + Exmouth, + Gurnsey Pier, Hull, Lewis I., Pembroke Dock-yard, + Portland Pier, St. Malo, Swansea Bay, Torbay, Weymouth.

+ Barmouth, Cherbourg, * Boston, * Bristol, Brehat Isle, Dudgeon Light, + Gironde Mouth, Sandy Hook, Sidmouth in the Channel, + Texel (S.P.), Wexford Harbour, Wisbech.

Aldboro' * Alnwick, + Beachy Offing, Calf of Man, Cowes, Douglas, * Dublin Bar, Dundalk, Dungeness, * Havre, * Pentland Firth, Rye, * Stromness, Yarmouth Sands.

+ Belfast, Cairstoun, Gantire (Mull), Carnarvon, * Christchurch Harbour, Donaghadee, Hague, + Lerwick, + Needles, Rathlin Island, + Spithead, Texel, Wicklow.

EXAMPLE.—At London the *magnetic needle* points to 24° 0' to the westward of the *true North*.

CHRONOLOGY FROM 1801.

1801 (January 1st) Ireland united to England. General peace. Severe thunder storm all night, October 10th.

1802 National Debt, £571,000,000. Remarkable hot and dry season during August, September, and October.

1803 War with France renewed after a peace of 14 months. A very hot July; honey dews, and awful thunder storms.

1804 Napoleon Bonaparte made Emperor of France. Sir Sydney Smith attempted to burn the Boulogne Flotilla. Mangold Wurtzel introduced by Dr. Lettsom. Unusual heat in Sept.

1805 Great snow (April 29th) in many parts of England. Battle of Trafalgar, and death of Nelson, October 21st.

1806 The changes in the season this year were remarkable: very winterly March. Hot and dry June. Wet July and warm Dec.

1807 Copenhagen bombarded and taken by the English. A fine and hot summer in England, with abundance of Wheat.

1807 The Portuguese Government emigrated to the Brazils. Gas first used in the streets of London.

1808 Louis Napoleon, Emperor of the French, born April 20th.

1808 The month of July was so hot, that many men and horses died; the thermometer on the 13th and 14th in many parts of England went up to 99°, the highest ever recorded.

1809 A very destructive gale at south-west on the 2nd of June, greatly detrimental to the fruit and foliage.

1810 Very cold Winter and Spring. The Summer hot with much thunder. Very warm September and October. Severe gale from the East and very high tide November 10th.

1810 (July 1st) Louis Bonaparte (father of Napoleon III) abdicated the Throne of Holland. Flooding rains in Nov. and Dec.

1811 A very warm season from March to the early part of November. A very fruitful year. Great comet seen all the autumn.

1812 The Prince Regent assumed his full powers. War between France and Russia; battle of Borodino; Moscow burnt.

1813 America declared War against Gt. Britain: Alliance of England, &c., against France; Revol. in Holland; Pr. of Orange recalled.

1814 Severe frost; Allied armies invaded France; Capitulation of Paris; Buonaparte abdicated, and conveyed to Elba; Emperor of Russia, King of Prussia, &c., visited London; Peace proclaimed. Centenary Jubilee, &c.

1815 Return of Buonaparte to France; BATTLE OF WATERLOO; Surrender of Paris to the Allies; Return of Louis XVIII; Buonaparte exiled to St. Helena, where on May 5th, 1821, he died.

1816 Princess Charlotte of Wales married Prince Leopold, May 2nd. A cold winter; bad harvest; and much corn spoiled.

1817 Waterloo Bridge opened. Nov. 6th, Princess Charlotte died.

1818 Awful gale (March 4th and 5th); flooding rains all the Spring; but from the end of May, a severe drought to Sept. 6th.

1819 Southwark Bridge opened on the 24th of March. A large and striking Comet appeared in July.

1820 George III. died Jan. 29th; Cato-street Conspiracy, Feb. 23rd. Very severe winter; but a most abundant and good harvest.

CHRONOLOGY FROM 1821.

1821 Great tumults in London at Q. Caroline's Funeral, Aug. 14th.

1822 Great famine in some parts of Ireland. Remarkably mild winter; Flowers bloomed throughout January. Fine Summer.

1823 South America independent. Mechanics' Institutions founded by Dr. Birkbeck and Lord Brougham.

1824 Lord Byron died at Missolonghi, Greece, April 19th. Destructive hail storm, July 14th; harvest late and not good.

1825 (June 15th) The first stone of London Bridge was laid. A very hot July and a tolerably good harvest, well secured.

1826 The Summer of this year was the hottest and driest on record. Harvest early and abundant, and well secured.

1827 Egyptian Fleet destroyed at Navarino. Severe and snowy Winter, fine summer, and an average harvest yield.

1828 Repeal of Test and Corporation Acts. Excessive falls of rain from July the 9th, to August the 15th, lowlands flooded.

1829 (April 13th) Roman Catholic Relief Bill passed. June the 19th, the Metropolitan Police Act passed. Stormy Summer.

1830 (June 26) George IV. died. Algiers taken by the French. July 27th, Revolution in France and Brussels.

1831 Reform Bill introduced March 1st. London Bridge opened August 1st. Bristol Riots, October the 29th.

1832 (March 21st) General Fast on account of the Cholera; died in London, 5,275. Reform of Parliament Act.

1833 Slave Emancipation Bill passed. Medium Harvest. Very severe Gale from N.W. with much rain, August 31st.

1834 (March) Dreadful Fire broke out at PETERBOROUGH, during a strong gale of wind from the West, the property destroyed was estimated at £10,000. Duty on Almanacs repealed.

1835 (September) Municipal Corporation Act. Reappearance of Halley's Comet in September, as predicted.

1836 Great Eclipse of the Sun on Sunday, the 15th of May. The Commutation Tithe Act passed.

1837 The latest Spring on record, and a mortal sickness prevailed. King William IV. died, June the 20th.

1838 (January 10th) Royal Exchange burnt. Abolishment of arrest for debt. June 28th, Queen Victoria crowned.

1839 Earthquake at Martinique; 700 persons killed, Jan. 12th. Awful gale, Jan. 7th; very cold spring, and stormy summer.

1840 (February 10th) Queen Victoria married her cousin Prince Albert of Saxe Coburg Gotha. Harvest good and well secured.

1841 (Aug. 12th) The Thames Tunnel completed. It was commenced in 1825, and cost £630,000.

1842 A most destructive fire at Hamburg, May 5th. Duke of Orleans, heir to the French Throne, killed, July 13th.

1843 (Sept. 24th) Alderman Sir M. Wood, a sincere friend to the ill-starred Queen Caroline, died.

1844 Severe drought from Lady-day to Midsummer; very hot June; very productive harvest, and well secured. Severe Winter all December, which continued.

1845 Severe frosts and deep snows till the 21st March.

CHRONOLOGY FROM 1845.

1845 First appearance of the Potato Blight, July 21st.

1846 Remarkably mild winter, early spring, and a very hot summer. Thermometer above 90° on several days. A very early harvest, and a great abundance of corn and fruits.

1847 The Quatern Loaf sold in London for 1s. 2d. in May. A dry year; hot summer, and a very abundant harvest.

1848 France again a Republic; Abdication of Louis Philippe. Louis Napoleon elected member of the National Assembly, June 12th; and President of the Republic, December 11th.

1849 The Cholera very prevalent as in the year 1832. In London alone the deaths from Cholera were 14,137.

1850 (July 2nd) Sir Robert Peel died by a fall from his horse, aged 62. Aug. 26th, Louis Philippe died aged 77.

1851 (May 1st) General Exhibition opened; closed Oct. 11th. Window Tax repealed, July 24th. A good harvest.

1852 (Sept. 14th) The Duke of Wellington died, aged 83. Nov. 17th, Louis Napoleon made Emperor by decree of the Senate.

1853 (Feb. 27th) Caffre War ended. October and November, War mutually declared between Turkey and Russia.

1854 (March 28th) England declared war against Russia. Battle of the Alma, Sept. 20th. Nov. 5th, battle of Inkerman.

1855 (March 2nd) Death of the Czar Nicholas. May 28th, death of Lord Raglan. Sept. 8th, Fall of SEASTOPOL.

1856 (July) English Navy consisted of 27 sailing vessels, carrying 9594 guns, and 258 steam vessels, carrying 6582 guns, also 155 gunboats, and 111 vessels on harbour service.

1857 (June 17th) Massacre at Cawnpore. Nov. 18th, Commercial Panic. Bank Charter Act suspended. Dec. 23rd, Cap. of Canton.

1858 (Jan. 25th) Marriage of Princess Royal of England. March 15th, Sir C. Campbell captured Lucknow. July 26th, Jews admitted into Parliament. Nov. 1st, Queen proclaimed in India.

1859 (April 29th) Austrians cross the Ticino: May 20th, Battle of Montebello; June 4th, Bat. of Magenta; 24th, Bat. of Solferino.

1860 (Jan 23rd) Commercial Treaty between England & France, signed at Paris. Vic. Emmanuel accepts sovereignty of the Two Sicilies.

1861 (Jan 2nd) Death of the King of Prussia. Oct. 1st, Paper duty repealed. Dec. 14th, Death of the Prince Consort.

1862 (July 1st) Marriage of the Princess Alice of England. Peaceful Revolution in Greece; King Otho quits the kingdom.

1863 (March 10th) Marriage of the Prince of Wales. June 6th, Prince George of Denmark accepts the Throne of Greece.

1864 (Jan.) War between Germany and Denmark. April 10th, the Archduke Maximilian of Austria, accepts the Crown of Mexico.

1865 (April 14th) Assass. of Pres. Lincoln. July 6th, dissolution of Parl. Oct. 18th, Ld. Palmerston died, aged 81. Fearful spread of the Cattle Plague. Dec. 9th, death of the K. of the Belgians.

1866 (Jan. 11th) Total loss of the steamer "London," and 220 lives! War between Austria, Prussia, and Italy. Renewed outbreak of the Cattle Plague; and fearful spread of the Cholera. July 23rd, Hyde Park Riots. August, Atlantic Cable laid.

Horticultural, Botanical, and Herbal Guide, FOR 1867.

JANUARY.—In open and dry weather, sow in mild exposure for a succession, a few early frame peas, common beans, short-topped radishes, lettuces, carrots, onions, spinach, and curled parsley, protecting them from the frost by mats or straw. Plant, prune, and train fruit trees and bushes. Form new flower gardens, and shelter from frost tender evergreens, tulips, &c. Plant snowdrops, crocuses, &c. *Herbs* to be gathered are groundsel, chickweed, archangel, and others which are in flower.

FEBRUARY.—Make ready all the ground intended for early crops; and when the weather is favourable, continue to sow every fortnight, peas, beans, onions, spinach, savoys, lettuces, celery, cauliflowers, carrots, parsnips, and radishes. Cut early kidney potatoes for seed, and put them in a stove or hot-bed in order to start them for planting out. Plant out evergreens and shrubs of all kinds, particularly roses, &c. Prune vine and fruit trees. *Herbs* to be gathered: foalfoot, lingwort, pilewort, speedwell, chickweed, shepherd's-purse, and broom.

MARCH.—The principal crops of vegetables should be put into the ground this month. Sow asparagus, celery, cauliflowers, broccoli, spinach, onions, carrots, peas, beans, savoys, parsnips, radishes, &c. Plant red cabbage and sea-kale: sow cucumbers and melons in hot-beds. Finish pruning, dress borders and strawberry beds. This is the best time for grafting fruit trees, perpetual and moss roses, &c. Pot dahlias and cuttings. Plant pinks, polyanthus, carnations, &c. *Herbs* to be gathered for medicinal purposes: coltsfoot, fumitory, pilewort, ladyfrocks, lesser celandine, violet and comfrey roots, and all kinds of herbal bark.

APRIL.—Continue to sow and plant rhubarb, artichokes, asparagus, sea-kale, Dutch turnips, German greens, and small salading. Earth up peas, tie up lettuces, and in very dry weather water seedling beds. Finish the grafting of fruit trees, and train and clean walks and edgings. Sow annuals, biennials, and perennials. Plant evergreens and propagate by cutting, jasmine, lavender, sage, rosemary, rue, &c. Sow early Dutch turnips. *Herbs* to be gathered: ground ivy, dandelions, avens, buttercup, and others which are in flower, as well as all kinds of bark.

MAY.—Sow peas, cucumber, red beet for pickling, and a full crop for kidney beans. Transplant cabbages, winter greens, cauliflowers, and celery. Hoe and stake peas, water newly-planted crops, and propagate aromatic plants by slips or cuttings. Plant dahlias, if there be no appearance of frost, and protect from wind and rain choice tulips, &c. Propagate herbaceous plants by dividing the roots. *Herbs* to be cut: celandine, milkwort, moonwort, wood sorrel, and adder's tongue.

JUNE.—Top beans and peas to assist the filling of the pods. Set kidney beans, and transplant cabbage, savoys, broccoli, and sow turnips. Thin out onions, leeks, carrots, parsnips, and early turnips. Gather and preserve kitchen herbs. Shade and air melon plants, &c. Bulbous roots that have done flowering should now be taken up, and the off-sets separated. *Herbs* to be cut: avens, brooklime, centuary, comfrey, woodbine, valerian, eyebright, pimpernel, speedwell, and elecampane.

Horticultural, Botanical, and Herbal Guide, For 1867.

JULY.—In this month prepare all unoccupied plots of ground for autumn and winter crops. Sow turnips, radishes, &c. Plant out broccoli, cauliflower, savoys, leeks, and winter cabbages, and earth up celery. Lift full grown winter onions, and prepare mushroom spawn. In fine weather, gather medicinal flowers and sweet herbs, when in bloom, dressing them first in the sun, & then in the shade for winter use. *Herbs* to be cut are all that are in flower, as lavender, tansey, vervain, bedstraw, agrimony, cinquefoil, mountain flax, foxglove, and meadow sweet.

AUGUST.—Sow early cabbages and parsley for the succeeding year; also spinach, broccoli, and cauliflower to stand the winter; earth celery; hoe and thin turnips; transplant broccoli, savoys, and cauliflower, and the principal crop of celery into the trenches for blanching. Make mushroom beds: propagate kitchen herbs by slips, and take up all onions, garlic, and shallots, that are withered in the stem. Sow the seed of bulbous flowers in pots. *Herbs* to be cut: all mints and sage, golden rod, pond weed, yellow gentian, tansy, mugwort, and loosestrife.

SEPTEMBER.—Plant savoys, broccoli, cauliflower, leeks, celery, and perennial aromatic, and pot herbs. Hoe winter spinach and turnips, earth up celery and cardoons, prick out cabbage plants, gather ripe seeds, &c. Pull onions if the tops appear dying. Plant cuttings of gooseberries, currants; raspberries, and strawberries, taking out the old stools which have twice produced fruit. *Herbs* to be gathered; angelica, field gentian, valerian, feverfew, southernwood, briony, and wild berries.

OCTOBER.—Plant home radishes, early cabbages, and other greens neglected last month, in sheltered situations; also cauliflower, mint, and tarragon, in frames for winter use. Earth up savoys and cabbages as high as the leaves. Take up carrots and parsnips, cut off their tops and bury them in dry sand. Crop the tops of parsley, to make fresh leaves for winter. Transplant fruit trees and shrubs, after the 10th day. Gather tree seeds: and sow for stocks. *Herbs* to be gathered: ivy, yarrow, wall rue, shepherd's purse, broom, rape, wall cress, and wild berries.

NOVEMBER.—Dig the ground where the crops are carried off, and which is not intended to plant again till spring: manure and prune fruit trees. Shallots are readily propagated by offsets. A stiffish soil, and open aspect should be preferred. These offsets, or "claws," should have their basis only pressed into the ground, without being covered. Tulip and hyacinth roots may be planted. *Herbs*: not many to be gathered this month for medicinal uses, except rose moss, rock fern, and polypody.

DECEMBER.—In this month forward the business of manuring, digging, or trenching vacant ground. Set all sorts of stones, kernels, &c. Complete tree planting, and forward all winter pruning. Continue planting various hardy roots, bulbs and shrubs. If frosty weather, be particular to protect all tender plants, trees, &c. Earth up celery. Sow small salad in warm borders, covered with mats. *Herbs* to be gathered: rose moss, rock fern, polypody, evergreens, and the mistletoe.

THE WEATHER AND ITS PROPHETS.

In a humorous paragraph, a London periodical, treating of "The Englishman and the Weather," says, "Why does Jones—why do I—and, if you come to that, why do you, dear Brown, though you won't admit it—why do we all attach so much importance to the Weather? Why, because it does of a truth really influence our Fate in Life, our chance in success, our health and tempers, in a wondrous way, on this right little, tight little island. Ask the Cornish fisherman, the underwriter at Lloyd's, the Station-master on a junction line, your London physician, tradesman, cabdriver, how far the weather concerns them, their cures and profits, and then remember the difference which a bright summer's morning and a dull November fog will make in your spirits. Yes, let us confess, that in our variable climate the height of the mercury is an important point."

SINGULAR ATMOSPHERIC PHENOMENON.

Shortly before sunrise on *Christmas* morning, 1865, the sky presented, for several minutes, one of the most beautiful, and at the same time extraordinary appearances we ever recollect to have witnessed. Not merely the east, but the whole horizon became tinged with a deep roseate hue, which appeared to diffuse itself through the entire atmosphere, in such a manner as to envelope every object in a garb of crimson. The phenomenon was seen by several persons in this locality (*Peterboro'*), and we also hear that the same atmospheric peculiarity was observed in towns many miles distant herefrom.

EARTHQUAKES, &c., IN ENGLAND.

February 8th, 1750, very severe shock over all London, creating much alarm. The winter was a very warm season. March 8th, another shock occurred, and did much damage in London; felt in Cambridgeshire, and at Northampton. April 2nd, again severely at Liverpool, Chester, and Manchester, and for 40 miles to the North and South. A very stormy and warm Spring at the time, and succeeded by most excessive heat in the Summer of this year. Several persons died from the heat about July 10th to the 16th. The thermometer in the shade was 96 degrees!

Eclipses of the Sun and Moon

IN 1867.

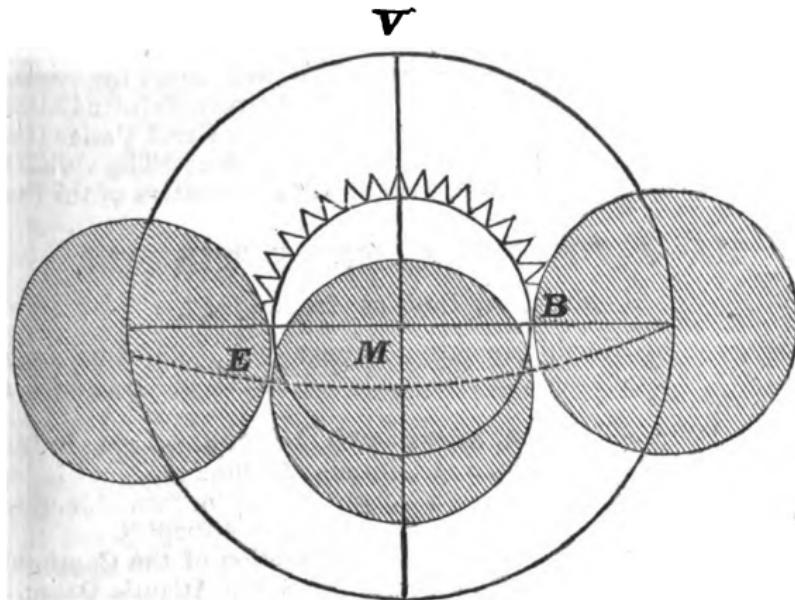

In the Year 1867 there will be *Two Eclipses of the Sun, and Two of the Moon.*

I.—A PARTIAL ECLIPSE OF THE SUN,

March the 6th, Visible in England.

The first and most interesting in the Northern Hemisphere is an **ANNULAR ECLIPSE** of the Sun, and happens on "Ash Wednesday," the 6th of *March*, in the *Morning*. Throughout Great Britain it will be a large Partial Eclipse, varying from 8½ to 9 digits, and it will, therefore, be looked forward to as an interesting phenomenon.

The following **TYPE** represents the Eclipse for *London*. Here we have **B**, the point where the dark body of the *Moon* makes the first visible impression on the *Sun's* periphery, and where the Eclipse begins, and **E** the same where it ends, the magnitude being 9 digits on the *Sun's* lower limb.

For the information of my numerous readers, the following Table is added, showing the Greenwich times at the beginning, middle, and ending for *six* important places in the United Kingdom.

Sun Eclipsed March 6th, A.M.	Beginning. h. m. s.	Middle. h. m. s.	End. h. m. s.	Magnitude. Sun's D=1.
LONDON	8 17 12	9 31 48	10 51 54	0.750
CAMBRIDGE	8 19 12	9 33 30	10 53 6	0.743
OXFORD	8 11 54	9 25 48	10 45 6	0.742
LIVERPOOL	8 7 12	9 19 36	10 37 12	0.718
EDINBURGH	8 11 42	9 22 54	10 38 42	0.695
DUBLIN	7 51 48	9 2 48	10 19 0	0.708
	Morning.	Morning.	Morning.	

The above Phases are given in Mean Time.

This Eclipse begins on the Earth generally, March 6th, 7h. 16m. 36s. A.M. Mean Time at Greenwich, in Longitude $14^{\circ} 59'$ W. of Greenwich, and Latitude $12^{\circ} 37'$ N.

Central Eclipse at Noon, March 6th, 10h. 12m. 54s. A.M., in Longitude $29^{\circ} 40'$ E. of Greenwich, and Latitude $48^{\circ} 21'$ N.

Ends on the Earth generally, March 6th, 0h. 16m. 24s. P.M., in Longitude $82^{\circ} 40'$ E. of Greenwich, and Latitude $46^{\circ} 45'$ N.

From the above data we find that this interesting Phenomenon will be visible to Europe, Northern and Central Africa, the Western part of Asia, and to the Coasts and Islands adjacent.

NOTE.—Those of my Readers who are not provided with Telescopes, having dark glasses for viewing the Sun, will find a piece of common window-glass, smoked over the flame of a candle or lamp, an excellent and safe medium through which to observe this Phenomenon.

II.—A PARTIAL ECLIPSE OF THE MOON,

March 20th, Invisible in England.

First contact with the Shadow...20d. 7h. 16m. 0s. A.M. } Mean Time
Middle of the Eclipse20d. 8h. 48m. 48s. A.M. } at
Last contact with the Shadow...20d. 10h. 21m. 36s. A.M. } Greenwich.

Magnitude of the Eclipse (Moon's diameter=1) 0.803.

At the *middle* of the Eclipse the Moon will be in the zenith, or directly over head, in Longitude $130^{\circ} 6'$ W. of Greenwich, and Latitude $0^{\circ} 48'$ N., which falls nearly in the middle of the Great Pacific Ocean, and about five-sixths of a degree N. of the Equator. The visibility of this Phenomenon will be chiefly confined to the waters of the Pacific Ocean.

III.—A TOTAL ECLIPSE OF THE SUN,

August 20th, Invisible in England.

Begins on the Earth generally, August 29th, 10h. 53m. 0s. A.M. Mean Time at Greenwich, in Longitude $70^{\circ} 29'$ W. of Greenwich, and Latitude $15^{\circ} 0'$ S.

Central Eclipse at Noon, August 29th, 1h. 37m. 6s. P.M., in Longitude $24^{\circ} 3'$ W. of Greenwich, and Latitude $46^{\circ} 39'$ S.

Ends on the Earth generally, August 29th, 3h. 32m. 54s. P.M., in Longitude $27^{\circ} 0'$ E. of Greenwich, and Latitude $46^{\circ} 26'$ S.

This Eclipse will be visible to a large section of the Continent of South America (including Cape Horn), the South Atlantic Ocean, and a portion of South Africa.

AT THE CAPE OF GOOD HOPE

A Partial Eclipse is visible, and

Begins August 29th, 3h. 1m. 6s. P.M. } Mean Time
Greatest Phase " " 3h. 51m. 0s. P.M. } at
Ends " " 4h. 37m. 24s. P.M. } the Cape.

Magnitude of the Eclipse (Sun's diameter=1) 0.272

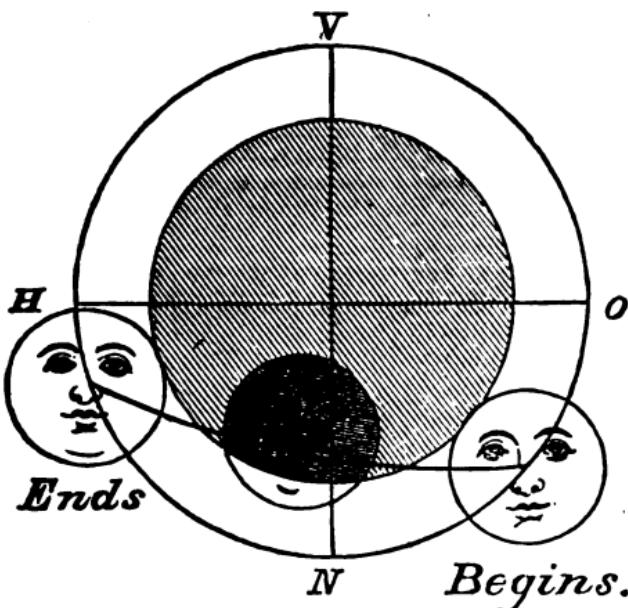

Angle of contact at *beginning*, from Vertix, 110° towards the E.
Angle of contact at *ending*, from Vertix, 32° towards the E.

IV.—A PARTIAL ECLIPSE OF THE MOON,

September 18th, 1867, Visible in England.

Eclipse begins	18d. 10h. 57m. 24s. P.M.	Mean Time at Greenwich.
Middle of the Eclipse	14d. 0h. 26m. 12s. A.M.	
Eclipse ends	14d. 1h. 55m. 0s. A.M.	

The annexed representation of the relative positions and path of the Moon, as she passes from right to left through the dark shadow of the Earth, has been sketched for *London*, and will serve, without sensible error, for the whole of Great Britain.

Magnitude of the Eclipse (Moon's diameter=1) 0.698

The first contact with the shadow occurs at 34° from the Northernmost point of the limb towards the East. The last contact at 69° towards the West.

At the *beginning* of the Eclipse the Moon will be vertically over a terrestrial point in Longitude $14^{\circ} 4' E.$ of Greenwich, and in Latitude $4^{\circ} 31' S.$

At the *middle* of the Eclipse the Moon will be in the zenith, in Longitude $7^{\circ} 26' W.$ of Greenwich, and Latitude $4^{\circ} 16' S.$

At the *end* of the Eclipse the Moon will be vertical, in Longitude $28^{\circ} 56' W.$ of Greenwich, and Latitude $4^{\circ} 2' S.$ From this and other data it is evident that this Eclipse will be visible to the whole of Europe, Africa, the Atlantic Ocean, North and South America, and Coasts and Islands adjacent.

OCCULTATIONS OF PLANETS, AND THE FINE STAR, ALDEBARAN.

Star's Name.	Disappearance.	Reappearance.
ALDEBARAN.....	Jan. 16th, 7h. 26m. aft.	Jan. 16th, 8h. 87m. aft.
ALDEBARAN.....	Apr. 8th, 2h. 9m. aft.	Apr. 8th, 8h. 9m. aft.
VENUS	May 1st, 1h. 15m. aft.	May 1st, 2h. 20m. aft.
MERCURY.....	May 2nd, 10h. 58m. mo.	May 2nd, 11h. 46m. mo.
MARS.....	Aug. 3rd, 10h. 84m. mo.	Aug. 3rd, 11h. 16m. mo.

ASTRONOMICAL PREDICTIONS,

Or the Planets and when to View them, in 1867.

MERCURY.—This little erratic body may be detected by the naked eye, near the eastern horizon, a short time before sunrise about April 23rd, August 21st, and December 9th. Again he may be seen in the evenings, glowing in the twilight about an hour after sunset about March 9th, July 6th, and October 31st.

VENUS.—This planet, which appears sometimes remarkably splendid in the mornings or evenings, will this year be unfavourably situated for the exhibition of her beauteous rays ; the best times for observing her will be in the mornings of January, February, and March, and in the evenings of December. In January, through a good telescope, she will appear a fine crescent, like the moon about two days before her change.

MARS.—This orb is an interesting object for observation for various reasons, and this year he comes to the solar opposition on the 10th of January, and as he will be in Cancer with great northern declination, his semi-arc above the earth will be great, hence he may be advantageously observed during December, 1866, and January and February, 1867. During the Spring and Summer, he will be a conspicuous object in the south and south-western skies. During the Autumn he may be observed descending in the West, after sunset. This planet is easily distinguishable from the other celestial bodies by his lurid appearance.

JUPITER.—This beautiful orb will be seen during the Spring ascending in the South-eastern skies every clear morning. He will be in opposition to the Sun on the 22nd of August, and may be advantageously observed on the meridian at midnight ; he will also be a source of interest during the remainder of the year, as he will be visible every clear night, between the midheaven and Western horizon, a few hours after sunset, from August until the end of the year.

SATURN.—This ponderous orb will be in opposition to the Sun on the 11th of May, and in conjunction on the 19th of November ; so that the most favourable times for telescopic observation will be during the months of April and May. The splendid rings are gradually opening to our view, and will continue a beautiful object for some time to come.

URANUS.—This distant planet will be in conjunction with the Sun on the 30th of June, and in opposition on the 2nd of January, 1868 ; so that the most favourable times for telescopic observation will be during the evenings of January, and the mornings and evenings of November and December.

NEPTUNE.—This very distant orb, which, with Uranus, is only a telescopic object, is in opposition to the Sun about the 7th of October, and will be best for observation about and after that time.

NOTE.—The following Table of the Planets' Southings will give the Reader a good idea of the Diurnal motion of those Celestial Bodies as viewed from our globe.

A Table of the Southings of the Planets for 1867.

The *Southings* of the *Planets* here exhibited are for every eighth day; those for the intermediate days are easily found by *mental* proportion.

MONTHS.	D.	MERCURY Souths.	VENUS Souths.	MARS Souths.	JUPITER Souths.	SATURN Souths.	URANUS Souths.

Corresponding Scales of the Magnitudes and Distances of the Earth, Sun, and Planets.

The following will convey an idea as to the relative sizes or diameters of the Sun and primary planets of the Solar System, and the proportionate average distances of those bodies from the Sun, which will probably be interesting.

The Earth being represented by a globe $1\frac{1}{2}$ inches in diameter, the proportionate diameters of the other planets would be

Mercury	$\frac{6}{10}$	of an inch.
Venus	$1\frac{1}{2}$	inches.
Mars.....	$\frac{3}{4}$	of an inch.
Jupiter	$10\frac{1}{2}$	inches.
Saturn	15	"
Uranus	$6\frac{1}{2}$	"
Neptune	8	"

And the Sun by a massive globe *fourteen feet* in diameter!

Using a corresponding scale to indicate the relative distance of each planet from the Sun.

Mercury would be	193	yards.
Venus "	380	"
Earth "	500	"
Mars "	780	"
Jupiter "	2600	"
Saturn "	4765	"
Uranus "	9590	"
Neptune "	15000	"

On perusing this attentively, the reader will notice the great disproportion between the distances of Mars and Jupiter. There appears to be a planet wanting. This void appears to be filled by a number of very small planets, termed Asteroids, all of which were undiscovered before the present century. Four of the principal of these Asteroids are named Ceres, Pallas, Juno, and Vesta. There are no less than seventy-nine others, which have been named by the discoverers after characters in Heathen Mythology.

THE MOON.

If the Moon is inhabited, those inhabitants who reside on the other side of the Moon, immediately opposite to us, have to journey one quarter of the circumference of the Moon, or near 1,500 miles, to see our globe, when we appear a most beautiful and gorgeous orb to them in their horizon. The Earth shines to the Moon with far greater brilliancy than the Moon does to the Earth, in consequence of the superiority of our magnitude. The bursting into view of this scene must be indeed truly magnificent.

Striking Illustration of the Effects of the Weather on the Public Health in England.

The first five weeks of the year 1795 were unusually cold; the corresponding weeks of the year following (1796) were unusually mild. Of the two winters the one was the coldest and the other the warmest of which any accurate account was extant. There was a difference between the one January and the other of quite 20 degrees. The mortality in the cold winter month was nearly double that of the mild one. In the first 5 weeks of 1795, there were 2,823 deaths; in the corresponding weeks of the year following (1796), the deaths numbered only 1,471.

What made the difference? Who were the people whom the cold weather killed and the mild weather spared? They were the very young and the very old. In January, '95, of persons above 60 years old there died in London 717; in January, '96, of persons above 60 years old there died only 153, or scarcely more than $\frac{1}{5}$ of the former number. In the cold January, '95, there died in London of consumption 825 persons; in the warm January, '96, the number of deaths from consumption was 342.

In the cold January, '95, of persons afflicted with asthma or shortness of breathing, there died 249; in the warm January, '96, there died of such persons 29. The number of deaths from palsies or apoplexies is also greatest in very cold weather, because the blood is driven from the surface, and, accumulating in internal parts, is liable to press with increased force upon the head. To healthy men this is a cause of increased vital energy; to some unhealthy men it is a cause of death. In January, '95, the deaths from appoplexy and palsy numbered 52; in the same month of the year following they were but 31. Severe cold kills some persons at once; in others it causes diseases which prove fatal in five or six weeks. Aged persons, infants, and persons who have any affection of the chest ought therefore in winter never to sleep in a room of which the temperature falls lower than within 8 degrees of freezing.

Very young children, and old people, who maintain their vital heat with difficulty, are liable to be destroyed by a succession of severe frosts.

A Table of Celestial Influences

FOR THE YEAR 1867.

A valuable Guide in the affairs of Human Life.

~~~~~  
There is "a time" even "to gather stones together."~~~~~

### DAYS INFLUENCED BY THE SUN.

|      |                   |      |                    |       |                    |
|------|-------------------|------|--------------------|-------|--------------------|
| JAN. | 1, 11, 24, 30.    | FEB. | 3, 9, 14, 23.      | MAR.  | 1, 11, 14, 22, 31. |
| APR. | 9, 13, 22, 29.    | MAY  | 8, 13, 16, 24, 29. | JUNE  | 6, 11, 21, 27, 29. |
| JULY | 6, 10, 22, 26.    | AUG. | 1, 16, 20, 25.     | SEPT. | 2, 10, 18, 23.     |
| OCT. | 2, 8, 18, 21, 27. | NOV. | 1, 8, 16, 28.      | DEC.  | 1, 7, 15, 20, 25.  |

The above days are good to manage affairs with superiors, or to meet with respectable acquaintances; to end disputes, ask favours, seek preferment, or enter on new employments.

—000—

### DAYS INFLUENCED BY MERCURY.

|      |                    |      |                   |       |                   |
|------|--------------------|------|-------------------|-------|-------------------|
| JAN. | 9, 14, 23, 29.     | FEB. | 4, 9, 14, 24, 28. | MAR.  | 1, 7, 12, 18, 25. |
| APR. | 8, 8, 12, 21, 27.  | MAY  | 2, 6, 14, 23, 28. | JUNE  | 7, 12, 24, 29.    |
| JULY | 3, 8, 13, 23, 27.  | AUG. | 4, 9, 19, 23.     | SEPT. | 2, 7, 19, 23, 28. |
| OCT. | 4, 10, 18, 23, 26. | NOV. | 3, 17, 21, 25.    | DEC.  | 5, 18, 24, 30.    |

The above days are good to commence with lawyers and secretaries, sign contracts, agreements, &c., or apprentice youths, travel, advertise, or deal with booksellers, editors, &c.

—000—

### DAYS INFLUENCED BY VENUS.

|      |                   |      |                    |       |                   |
|------|-------------------|------|--------------------|-------|-------------------|
| JAN. | 3, 8, 21, 26, 31. | FEB. | 5, 10, 19, 24, 27. | MAR.  | 2, 7, 12, 21, 26. |
| APR. | 1, 6, 10, 20, 26. | MAY  | 1, 6, 10, 20, 29.  | JUNE  | 4, 9, 20, 25, 29. |
| JULY | 4, 9, 20, 25, 30. | AUG. | 8, 19, 24, 27.     | SEPT. | 2, 8, 18, 23, 28. |
| OCT. | 3, 8, 18, 23, 28. | NOV. | 2, 8, 17, 22, 27.  | DEC.  | 3, 8, 17, 22, 28. |

The above days are fortunate in all feminine matters, *love* affairs, or buying and selling fancy articles, and ladies' ware, or engage female servants, visit, invite, or take medicine.

—000—

### DAYS INFLUENCED BY MARS.

|      |                    |      |                   |       |                |
|------|--------------------|------|-------------------|-------|----------------|
| JAN. | 1, 11, 15, 23, 29. | FEB. | 6, 11, 19, 24.    | MAR.  | 6, 10, 14, 23. |
| APR. | 3, 7, 16, 21, 30.  | MAY  | 1, 5, 14, 19, 30. | JUNE  | 3, 12, 17, 27. |
| JULY | 1, 10, 16, 26, 30. | AUG. | 8, 13, 23, 27.    | SEPT. | 6, 11, 21, 25. |
| OCT. | 4, 9, 19, 24, 30.  | NOV. | 3, 8, 17, 22.     | DEC.  | 2, 7, 20, 31.  |

The above days are good to end disputes, deal with or consult surgeons, dentists, and military men; or deal with cutlers, butchers, ironmongers, or horse dealers, and all Mars' men; or give medicine to cattle, &c.

## A Table of Celestial Influences

FOR THE YEAR 1867.

*A valuable Guide in the affairs of Human Life.*

*"There is a time to reap and a time to sow."* *Prov.*

### DAYs INFLUENCED BY JUPITER.

|                         |                         |                         |
|-------------------------|-------------------------|-------------------------|
| JAN. 2, 7, 12, 25, 30.  | FEB. 4, 9, 13, 22, 27.  | MAR. 4, 9, 18, 22, 27.  |
| APR. 1, 9, 19, 24, 29.  | MAY 3, 7, 16, 21, 31.   | JUNE 4, 13, 23, 27.     |
| JULY 1, 10, 20, 25, 29. | AUG. 6, 11, 16, 21, 25. | SEPT. 2, 7, 12, 21, 29. |
| OCT. 4, 9, 14, 18, 27.  | NOV. 6, 10, 14, 28.     | DEC. 3, 8, 20, 25.      |

The above days are good to trade, marry, or speculate, open new shops or places of worship; consult lawyers, or deal with professional men, bankers, merchants, &c., or seek employment.

—000—

### DAYs INFLUENCED BY SATURN.

|                        |                         |                      |
|------------------------|-------------------------|----------------------|
| JAN. 6, 11, 18, 23.    | FEB. 7, 16, 20, 28.     | MAR. 2, 15, 19, 29.  |
| APR. 3, 11, 16, 25.    | MAY 8, 13, 23, 27.      | JUNE 5, 9, 19, 24.   |
| JULY 2, 6, 16, 21, 29. | AUG. 2, 12, 17, 26, 30. | SEPT. 9, 14, 22, 28. |
| OCT. 2, 6, 11, 19, 26. | NOV. 3, 8, 16, 20, 30.  | DEC. 5, 14, 18, 28.  |

The above days are good to converse with magistrates, old persons, farmers, landlords, builders, and excavators, or plant and sow, buy cattle, take land or houses, &c.

—000—

### DAYs INFLUENCED BY URANUS.

|                      |                        |                          |
|----------------------|------------------------|--------------------------|
| JAN. 1, 18, 22, 27.  | FEB. 6, 10, 19, 23.    | MAR. 5, 10, 18, 23.      |
| APR. 6, 14, 19, 29.  | MAY 3, 12, 16, 26.     | JUNE 8, 13, 23, 27.      |
| JULY 6, 16, 20, 25.  | AUG. 2, 6, 16, 21, 30. | SEPT. 3, 13, 17, 26, 30. |
| OCT. 10, 15, 23, 28. | NOV. 7, 11, 15, 24.    | DEC. 4, 8, 17, 21, 31.   |

The above days are favourable for uncommon acts, apply to public bodies for favours; deal with eccentric persons, public characters, or gentlemen of the press.

—000—

### DAYs INFLUENCED BY EVIL ASPECTS.

|                         |                        |                         |
|-------------------------|------------------------|-------------------------|
| JAN. 6, 10, 13, 19, 28. | FEB. 2, 12, 15, 21.    | MAR. 1, 8, 16, 24, 28.  |
| APR. 5, 11, 15, 20.     | MAY 4, 11, 22, 25.     | JUNE 2, 7, 14, 22, 30.  |
| JULY 5, 11, 21, 28.     | AUG. 3, 7, 10, 15, 28. | SEPT. 1, 5, 19, 27, 30. |
| OCT. 6, 19, 24, 29, 31. | NOV. 4, 7, 12, 19, 23. | DEC. 3, 12, 14, 23, 31. |

 The above days are generally unfortunate. Avoid wedlock. Accidents will occur both by land and water, on or near these days. Reader take warning, and notice the Fulfilments.

## BIRTH-DAYS OF THE ROYAL FAMILY.

|                                            |     |     |     |     |     |                     |
|--------------------------------------------|-----|-----|-----|-----|-----|---------------------|
| QUEEN VICTORIA                             | ... | ... | ... | ... | ... | born 24th May, 1819 |
| PRINCE OF WALES                            | ... | ... | ... | ... | ... | 9th Nov., 1841      |

| Wurtemberg ...       | Charles ... ... ...   | Mar. 6 ... 1823  | June 25 ... 1864 |

## POETICAL PROPHECY,

In December, 1865.

"The brow of the Warrior lies shrouded in gloom,  
 And the sage has gone down to the depths of the tomb,  
 And the tongue of the poet lies silent and cold,  
 And the Statesman has pass'd 'like a tale that is told,'  
 Yet their deeds the proud record of memory saves,  
 And the radiance of glory shines bright on their graves."

Almanac, 1865, p. 27.

## FULFILMENT.

The Death of the King of the Belgians, and the demise of the Illustrious Statesman, Lord Palmerston respond to the Fulfilment of the above Prophecy.

## A TRUE PROPHETESS.

"At Moscow, one Countess Potocka, a Polish lady of rank, wealth, and beauty, has been *arrested* for having predicted some time ago that the Life of the Emperor of Russia would be attempted on the 16th of April, 1866."

"News of the World," May 19th, 1866.

## THE HIEROGLYPHIC FOR 1866.

The sinking vessel on the left hand corner, has been Fulfilled by the total loss of the "London," and 220 lives; and the "Monarch of the Seas," and 738 lives!—Opposite to this, is a scene of the destructive effects of violent Storms, &c. The violent gales, and destructive thunder storms, by which the *British Isles* have been assailed during these last 12 months, verifies the Fulfilment of this Illustration. The centre part of the Hieroglyphic, represents the War Spirit, which has prevailed in Europe, and in many parts abroad, during the year, 1866. Below this, in the left hand corner are represented the Sick and the Dying; amidst them is a person in the attitude of Prayer, imploring the protection of Heaven. The march of the fearful *Cholera*, and the public prayers offered up to Almighty God to check its destructive effects, Fulfils this pictorial illustration of the future. The Scene opposite to this has reference to the Affairs of Turkey; and at the time I write I perceive in the *Public Journals*, that a fearful Insurrection is raging in the Sultan's Dominions.

## ASTRONOMICAL SYMBOLS, &amp;c.

|             |            |                 |
|-------------|------------|-----------------|
| ○ The Sun.  | ♂ Mars.    | ☊ Ascen. Node.  |
| ☽ The Moon. | ♃ Jupiter. | ☋ Descen. Node. |
| ☿ Mercury   | ♄ Saturn.  | N. North.       |
| ♀ Venus     | ♂ Uranus.  | S. South.       |

## ZODIACAL ASPECTS.

|                                   |                                 |
|-----------------------------------|---------------------------------|
| ☌ Conjunction, or 'same degree.'  | □ Quartile, or 90 degrees.      |
| ☽ * Semi-sextile, or 30 degrees.  | △ Trine, or 120 degrees.        |
| ☽ □ Semi-quartile, or 45 degrees. | ⊖ □, Sesqui-square or 135°      |
| * Sextile, or 60 degrees.         | ⊖ ♀, Opposition, or 180 degrees |
| Qn. quintile, or 72 degrees.      | □ Parallel, or the same Decl.   |

## PREDICTIONS AND THEIR FULFILMENTS.

## THE SEVERE STORMS IN OCTOBER, 1865.

PREDICTION.—“From the 18th to the 21st, will be a period of much atmospheric disturbance; wind and rain, or thunder and hail. Ship masters beware the latter half of this month. Lo! I have warned you!” *Almanac, 1865, p. 22.*

*Fulfilment.*—“The Receiver of Wrecks furnishes a long list of losses at Sea during the recent gales: as it stands it is a very melancholy record, but unfortunately it is by no means a complete statement of the havoc done by the storms. It is estimated that 300 or 400 vessels have been destroyed.” *London Papers, Oct. 29th, 1865.*

## FEARFUL EXPLOSIONS, &amp;c., IN OCTOBER, 1865.

PREDICTION.—“Fires, explosions, &c., will abound; the results will be very rife.” *Almanac, 1865, p. 22.*

*Fulfilment.*—“On Tuesday afternoon, a terrible explosion occurred on the works of the London Gas Company, near the Nine Elms Pier, by which a large number of people were killed, and a large number seriously injured.” *London Papers, Oct. 28th, 1865.*

## MARCH OF THE CHOLERA AND CATTLE PLAGUE.

PREDICTION.—“Let the world arouse; for the worse is yet to come! There is too much reason to fear that those sad diseases (Cattle Plague and Cholera, caused by the Total Eclipse of the Sun in Taurus) will yet spread far and wide, and that the fall of 1865, and the year 1866, will tell a fearful tale of woe!” *Vide Almanac for 1866, p. 54.*

*Fulfilment.*—“According to the *Lancet*, the *Cholera* is reappearing on all sides.” “The *Cholera*, advancing from Luxemburg, has invaded the districts about Trevis.” “The *Cattle Plague* has spread from Limburgh and Belgium to the Prussian frontier.” “The *Cattle Plague* has broken out again in Ireland, with renewed violence.” “The *Cholera* is disappearing from Guadalupe, after killing nearly 11,000 of its inhabitants.” *London Papers.*

## ROYAL HOROSCOPE.

PREDICTION.—“The Emperor of Russia will have Saturn opposing his Sun's place at birth at the end of December, 1865, and again at the end of April, 1866. This Transit of the ponderous orb will greatly derange his affairs, and bring discredit on his name, &c.” *Almanac, 1866, p. 68.*

*Fulfilment.*—The Emperor was suffering from indisposition and national troubles, during *December, 1865*; and in *April, 1866*, an attempt was made to assassinate His Majesty!

## PREDICTIONS AND THEIR FULFILMENTS.

### *Fearful Accidents foretold in May to the very Days.*

PREDICTION.—“And let him (the Sceptic) note the 5th, 11th, 17th, and 25th days, when the Moon aspects Mars, and he will hear of violent accidents (more than usual) exciting political events, fires, crimes of note, &c.”

*Almanac, 1866, p. 18.*

*Fulfilment.*—“Fall of a Railway Bridge at Sutton (London) on the 5th, six men killed.” “On the same day a calamitous fire in the City of London, and loss of life.” “Eight miners were drowned on Saturday the 5th, in a mine near Tavistock.” “On the 11th a Colliery Explosion in the Wigan district, 8 lives lost.” “Great fire in Glasgow early in the morning of the 12th.” “The shocking calamity at Swansea occurred on the 17th, when 8 persons out of 10 were burned to death.” “The 25th and 26th were remarkable for numerous fires, and railway mishaps.”

*London Papers, May, 1866.*

### THE RECENT WARS AND TROUBLES IN EUROPE.

PREDICTION.—“The position of Mars and Saturn will be the cause of much contention, as well as affliction, of many European Nations, &c. Even *Italy* is much threatened with approaching calamities in matters of State and Religion; the infallible *Pontiff of Rome* (if living) is at his wits end how to act; he both fears and feels his impending *Fate*; his power over the minds of his people daily declines.”

*Almanac, 1866, p. 69.*

*Fulfilment.*—“The news from *Europe* generally is of a most painful character. In unhappy *Germany* men have been swept down by thousands, and heaps of slaughtered bodies bear silent testimony of the wickedness of war. The position of *Austria* is deplorable. The state of public feeling is very bad, and the people in the suburbs openly say they would rather belong to *Prussia*, than to *Austria*.”

*News of the World, July, 1866.*

### PROSPECTS OF THE POPE.

*Fulfilment.*—“The *Pope* (says Cardinal Cullen) was never more in want of the attachment of the *Irish* people than at the present moment. *Austria*, the best state capable of protecting him, was ruined, and the Emperor of the *French* was about to leave him to the mercy of the *Italian* revolutionist, who bore the deadliest hatred to the *Pope*, and would not hesitate to seize upon *Rome* and destroy his Authority.”

*London Papers.*

### *Violent Storm on the river Thames in August, 1866.*

PREDICTION.—“Indeed, I apprehend a very fatal calamity on the river, and would caution persons how they venture on crowded steam-boats, as there are tokens of sudden wreck, &c.” *Almanac, 1866, p. 19.*

*Fulfilment.*—“The losses were still more serious on the river (Thames) for the small craft were driven about in terrible confusion, large steamers were forced from their anchors, and some of them were injured to a serious extent, &c.” *London Papers, Aug. 12th, 1866.*

## THE MOON.

*The following Lines are Extracted from a Beautiful Poem by the Greek Poet, Aratus, and translated by Dr. Lamb.*

“Those, who the weather's various signs would trace,  
Must watch fair CYNTHIA's ever-changing face :  
Mark her, when rising from the eastern waves—  
Mark her, when in the west her limbs she laves.  
If three days' old her face be bright and clear,  
No rain or stormy gale the sailors fear ;  
But if she rise with bright and blushing cheek,  
The blustering winds the bending mast will shake.  
If dull her face and blunt her horns appear  
On the fourth day, a breeze or rain is near.  
If on the third she move with horns direct,  
Not pointing downward or to heaven erect,  
The western wind expect ; and drenching rain,  
If on the fourth her horns direct remain.  
If to the earth her upper horn she bend,  
Cold Boreas from the north his blast will send.  
If upward she extend it to the sky,  
Lond Notus with the blustering gale is nigh.  
When the fourth day around her orb is spread  
A circling ring of deep and murky red,  
Soon from his cave the god of storms will rise,  
Dashing with foamy wave the lowering skies.  
A HALO oft fair CYNTHIA's face surrounds  
With single, double, or with triple bounds.  
If with one ring, and broken it appear,  
Sailors, beware—the driving gale is near.  
Unbroken if it vanisheth away—  
Serene the air, and smooth the tranquil sea.  
The double halo boisterous weather brings,  
And furious tempests follow triple rings.  
These signs from CYNTHIA's varying orb arise—  
Forewarn the prudent, and direct the wise.”

Jupiter rules the diseases of this month posited in the 4th house of the Winter's Radix, denoting pains in the legs and feet, and also many complaints brought on by colds and wet feet; such as coughs, consumption, asthma, rheumatism, bowel complaints attended with cramps, &c.; whooping cough, fevers, and other complaints brought on by the variability of the temperature, and exposure to night miasma.

## Birthday Information,

*Applicable to Persons in all Parts of the World.*  
READER, if thou would'st receive aid from the stellar monitors in thy worldly affairs attend to these pages. Most persons who were born on the 7th, 12th, & 24th, experience some benefits in business, especially if the Native's occupation is governed by Saturn or Mars. Those born on the 10th of this month, in any year, will be liable to inflammatory attacks, especially in the chest, &c. Let them avoid the water, and guard against injuries by scalding liquids, fire, &c. Those born on the 13th or 20th will experience strange troubles and disappointments; losses in business matters, indisposition, &c.

## ATMOSPHERIC DISEASES, &amp;c.

In this month children will be attacked with coughs, pulmonary affections, pains and obstructions in the head, sore throats, scarlatina, &c. Many fatal attacks of gastric fever, and bowel complaints may be apprehended in weak constitutions. Still wear flannel next the skin.

## Birthday Information.

Again we look into the alphabet of Heaven, and read the character of this present month to be not very favourable for the general prosperity of Old England, or individual fate. Those persons born about the 3rd or 4th, 21st, 23rd, or 28th, by making proper efforts may benefit themselves. Those born about the 3rd of July in any year, must avoid taking cold in the chest. The 10th, 12th, & 15th are unfortunate as birthdays; and denote much adversity and perversity to persons who were born on those days. The 9th, 10th, 15th, and 16th days should be avoided for wedlock and nuptial ceremonies. Single females born on those days experience many disappointments.

For Coughs, Colds, Asthma, &c., try ORION'S PULMONIC PILLS. A Box sent Post-free for 14 Postage Stamps.

Address, Mr. JOHN HAMMERTON, Millfield, PETERBOROUGH.

The Moon's changes portend a fluctuating state of the atmosphere, producing coughs and pulmonary affections, which will afflict those who are weak on the chest, and prove fatal in very many cases. Those much exposed to cold must prepare against chillblains and eruptions on the skin. Mars in Cancer denotes asthma, cancer, dropsy, phthisic, coughs, and impurities in the blood.

## Birthday Information.

Saturn stationary on the 4th of this month creates much uncertainty and discomfort to persons who were born on or near Feb. 13th, May 15th, Aug. 17th, or Nov. 16th, in any year. Those persons who were born on Mar. 6th will do well to be prepared for the effects of the Solar Eclipse on that day, which will visit them ere long in the shape of family troubles, and probably suffering in health. Uranus stationary on the 12th will distil his evil influence on most persons who were born Mar. 25th, June 26th, Sep. 27th, and Dec. 28th. The 28th is an unfortunate day for love matters. The 31st is good for wedlock, and for persons who were born on the 16th of February.

The exhalations from the earth occasioned by the increase of temperature, render it necessary for all who are predisposed to disorders of an aguish character to shun the damp nights, & avoid the misty mornings of this month. Mars in Cancer will give affections of the chest & lungs, coughs amongst children, inflammations, pain in the head, dropsy, &c.

## Birthday Information.

The 1st of this month is good for courtship, marriage, &c.; for the benefics join with Luna, happy and benign. Persons who entered into this existence on the 1st or 22nd of this month will be healthful and happy. Speculations with them will succeed well, especially linen-drapers, jewelers, and fancy ware dealers. The 9th, 26th, & 30th are slightly beneficial for most persons who were born on either of those days. Persons who were born on the 15th day will feel the ill effects of the important square of the Sun and Mars, which will affect their domestic affairs, and cause bickerings, jealousy and other disagreeable influences; journeys, attended with danger.

The diseases denoted by the atmospheric fluctuations are those of the Sun in Taurus, afflicted by an opposition of Saturn in Scorpio, which configurations portend complaints caused from taking cold to be prevalent.

Persons of delicate constitutions should avoid the evening air. It is not advisable to cast off flannel during the warm days, for rheumatism and coughs may be the consequence.

## Birthday Information.

Persons born about the 11th of this month in any year feel the malign influence of Saturn's transit over the opposition of their Sun's place. Their solar or revolutionary figure is bad, especially such as fall out before the aspect is complete. The business man subjected to this influence, will be in danger of heavy losses, and probably insolvency; hence the great care and prudence should be observed in all matters connected with business, money matters, or speculation; and those who neglect to heed this warning will do so to their sorrow. Persons born on the 17th, 22nd, & 27th, will have disputation with enemies. The 29th is favourable for wedlock.

The planet Mars has chief rule over the diseases of this month; and at the New Moon on the 2nd we find in Leo, in exact square to Saturn, this will cause violent headaches, brain fever, affections of the heart, bilious attacks, & other disorders brought about by corrupted blood. Too free an use of unripe fruit and vegetable matter must be avoided. Much debility is felt, and fatal attacks of diarrhoea.

## Birthday Information.

It will be well for all persons born on the 2nd of this month to be on their guard against hurts, and accidents by fire, &c., & keep the system cool and regular, lest fever follow. Most persons who were born on the 5th, 21st, and 28th, will be rather fortunate in their engagements, and witness some gleams of prosperity, during the forthcoming 12 months. Unmarried females who were born on the 8th or 24th, must beware of false friends of the opposite sex. Those born on the 30th will find much perversity and adversity in their general affairs, and meet with numerous disappointments. Evil for wedlock and conjugal happiness.

| 1  | M  | ☽ in Perigee           | For the month we consult the figure for the Sun's entrance into Cancer. We find Mars in square to the Sun, and the Moon in square to Saturn & in opposition to Mars; which denote headaches, affections of the heart, & sudden deaths prevalent. On the 22nd Mars enters Virgo, which indicates bowel complaints in some parts, attended with cramp. Great complainings about tired legs, & much debility. |

## Birthday Information.

Most persons who were born on the 5th of July in any year must avoid disputations, especially with superiors, & religious characters. Middle-aged persons born on the 7th of this month may be benefitted by public bodies, and eccentric characters. Those born on the 10th will gain by old people, farmers, and those who deal in the products of the land. The 18th as a birthday is rather good for single females; but those born on the 20th of this month, the reverse. Aged gents who were born on the 27th, meet with unexpected smiles from the fair. Some domestic troubles in the families of those who were born on Feb. 6th, May 8th, August 10th, and Nov. 10th.

## ATMOSPHERIC DISEASES, &amp;c.

Should changes from dry and hot to wet & cool weather occur, we warn our readers to be mindful of the first attack of pain in the bowels; chest complaints prevalent from Uranus in Cancer. Mercury in Leo will give affections of the heart; & Mars in Libra will give pains in the reins and loins. Fruit should be eaten moderately, but only when ripe. Avoid exposure to damps or chill if overheated.

## Birthday Information.

Persons born about the 3rd of this month in any year must avoid changes, & hazardous speculations. Natives who were born on the 10th of Aug. must prepare for troubles & losses; they must also be careful how they trust old friends, for they will be liable to be deceived. Those born on the 15th must avoid disputations. The 21st is rather untoward for single females who were born on that day. Those born on the 26th must avoid disputations with superiors. Religious professors and religious teachers who were born on that day, will experience troubles and disappointments. The 28th and 29th are unfortunate for natives who were born on those days, in any year.

Mercury & Venus passing into the sign Virgo in opposition to Jupiter will cause bowel complaints, choleric diarrhoea, &c., which of course will be the care of the medical man. The nights of this month will be obnoxious from impurities which may be distilled by the dews & vapours. Mars in Libra will cause pains in the reins and loins to prevail, with intermittent fever. Much debility is felt.

## Birthday Information.

The influence at the opening of this month wears a deceitful smile, & warns all single females who were born on the first of this month to beware of their engagements during the forthcoming 12 months. Those born on the 4th must be careful what they say or do. The 9th, 13th, 11th and 12th, are slightly fortunate as birthdays. The Moon is eclipsed this month in the 21st degree of the sign Pegasus, and will therefore affect evilly most persons who were born about the 12th of March, or the 14th of Sept., in any year. The 15th slightly beneficial. Those born on the 24th or 25th may speculate, seek new introductions, and marry.

The majority of aspects this month are of a malignant nature producing swellings and distempers in the secret parts, rheumatic affections in the hands & feet. From the position of the planets at the Autumn Quarter we judge that there will be extremes of temperature and weather, producing sudden deaths in many districts ; fatal attacks of fever, &c.

## Birthday Information.

Persons who were born on the 6th of this month must be very careful in their speculations in all business transactions. The 16th is rather good for females who were born on that day ; they will be generally successful in their engagements. Persons born on the 9th of Nov., will be very liable to losses, crosses, & annoyances. Domestic unhappiness for those persons who were born about Jan. 3rd, April 3rd, July 5th, and Oct. 6th. The 21st is rather fortunate as a birthday. Persons born on the 24th of this month, or about the 20th of Nov., may suffer by law-suits or public foes. Persons born about the 16th Feb., prosper. Those born on the 31st of this month or Nov. 17th, must beware of accide-

The configurations during this month will produce much negative electricity in the atmosphere; & this deranges the system, & predisposes the body to disease, fostering choleric diarrhoea, influenza, rheumatism, coughs, fevers, and disease among the rising generation, & great mortality among the aged. Delicate persons should not expose themselves to the miasma of night fogs.

## Birthday Information.

Persons who were born on the 4th of this month in any year, may expect sudden and unlooked for disappointments. Those who were born on the 7th, especially females, experience many unhappy events of a conjugal nature. Those born on the 9th not very successful in their engagements. Single females who were born on the 14th must beware of Mars' men. Persons who were born on the 16th of this month will be liable to false accusations, or frauds, on their property. Those born on or near the 19th of this month will experience troubles, and domestic afflictions. The 21st, 22nd, & 23rd are unfortunate, & denote troublesome events.

## ATMOSPHERIC DISEASES, &amp;c.

Uranus is the ruler of this month's diseases, & posited in Cancer, causes pains in the bowels, cramp & rheumatic affections, cutaneous eruptions, pulmonary affections, measles in children, asthma, and other complaints brought about by cold and wet. These appear to be most under the atmospheric influence.

## Birthday Information.

Those natives who were born on the 5th of this month, will experience some happy events of a conjugal nature. Those born on the 12th or 21st of Dec. are under adverse influences, and may expect troubles, slander, and deception. The 14th is rather untoward as a birthday, especially for single females; & as much may be said of the 17th & 18th days. Those born on the 22nd of this month, may seek new introductions, &c. About the 25th of this month will be fortunate for the natives of that day; they may make overtures to superiors, and speculate in cash affairs, &c. Persons who were born on the last day of this month will find the Sun in conjunction with Mars; this bids those natives to be very careful to avoid accidents, &c.

## PROPHETIC OBSERVATIONS FOR 1867.

## THE WINTER QUARTER.

Now stationed ships are from their moorings drove  
O'er waves tempestuous, and unbounded rove ;  
While hope, and fear, and grief the crew engage,  
Who wildly pray, to soften Neptune's rage ;  
Till latent shoals their ship's vast motion check,  
Or pointed rocks complete the fatal wreck.  
Lo, too ! the land now feels the tempest sway,  
Which tears the plains, and bear whole trees away.

I shall now draw my general conclusion of the events of the coming Quarter from configurations of the heavenly messengers at the moment of the entrance of the Sun into Capricorn. This Ingress takes place at Oh. 49m. a.m., on the 22nd of December, 1866. At this time, there are 8 degrees 26 min. of the Equinoctial balance, Libra ascending in the East, and 11 degrees of Cancer lustrate the meridian line. The Sun, the general signification of men in power, is going to an opposition of the Moon and Uranus. The great must bow to these influences. They must also share their privileges with the less exalted. There are many of the mighty in London shall change places: the high shall bow the knee to those they despise in more than one northern land, and that right suddenly ! Despotism approaches its latter days. Europe, shall not be free from alarms, and may yet hear the tocsin of civil war, unless prevented by speedy concessions. The affairs of the low countries, Holland, Brabant, and Belgium, also Algiers, Constantinople, Venice, and part of the German States are much discussed, probably of a warlike nature: also strange circumstances occur connected with their government. The position of Mars and Uranus will stir up some exciting scenes in the American States; I look for popular tumults, and fierce party warfare. The sextile of the benefic Jupiter and the fleeting Mercury, will prevent much misery for a time, to the countries ruled by the sign Aquarius, which are Russia, Prussia, Poland, Sweden, Tartary, Westphalia, Circassia, &c. The Sun, the general signifier of nobles and of kings, is weak and afflicted; whence I judge that the great will still fall back in the grand struggle for dominion among the peoples, & which now divides the civilised world.

# Vox Stellarum, Vox Dei.

## THE HIEROGLYPHIC FOR 1867.

Herein the Aspect of the Heavens learn,  
And of the Times the mystic Signs discern.

# The Grand Solar Eclipse

Of March 6th, 1867.

*"Coming Events cast their Shadows before."*

Thus sang the poet: and the Astrologer re-echoes the poet's assertions. A year FULL OF FATE, and pregnant with soul-stirring interest, will be the thirty-first year of the reign of our well-beloved sovereign and most gracious and popular monarch, QUEEN VICTORIA, the first of her name. Jupiter is ruler of the Eclipse, and rather powerful by position, but unfortunately in malignant square to the ponderous orb of Saturn. Hence divisions and hatred will happen in clerical and religious matters; priestcraft and mitred tyranny will receive a check. The Pope (if living) may put his house in order, and prepare for troubles about the middle of April. The star of England is strong, but there will be some serious troubles in Ireland. The regions to which the celestial detonations more particularly extend, are Spain, Portugal, France, Egypt, Normandy, Turkey, the Russian dominions, &c.; although these are not the only parts that will succumb to its extraordinary influence, since the effects will extend themselves even across the mighty waters of the vast Atlantic. At the time of this phenomenon we observe a conjunction of Mars and Uranus in Cancer, the ruling sign of Scotland, Holland, Belgium, Georgia, all Africa, Constantinople, Algiers, Tunis, Amsterdam, Cadiz, Venice, Genoa, New York, Lubeck, Milan, and Manchester. Hence may arise rumours of strife and causes for warfare, sudden deaths, destructive fires, storms, and earthquakes; engenderings of hatred between nations and their rulers; shipwrecks, and accidents by water. Travelling is unusually unsafe; and I fear some sad mishaps to travellers, or excursionists of horrific import. The aspects presage direful storms, and distressing shipwrecks. On land, too, arises some cause for terror. Agriculture may suffer, and even the brute creation. The democracy will flourish, and the oppressors of Liberty will in vain strive to re-unite the links of that iron chain, which the liberal members of our late Parliament have torn asunder! Eventful times are coming!

## THE SPRING QUARTER.

Another year has passed away, and we begin again,  
Our course thro' life's uncertain sphere, of pleasure and of pain;  
Once more we launch our fragile bark on Life's tempestuous sea,  
Through dangers that we know not of, from which we cannot flee.  
We tread a path, where flowers and thorns, are scattered in our way,  
But flowers whose bloom is bright and fair, soon wither and decay:  
Awhile, and we may meet with nought but flowers of brightest hue,  
No thorns arrest us on our path, no danger meet our view.

In our Northern Hemisphere this Ingress may be properly called the birth of the year, and which will take place on March the 21st, at 1h. 46m., a.m.; the Sun's centre being then in the plane of the Equator, and at the same time vertical over the Indian Ocean, in Longitude 63 deg. 30 min. East. Another eventful quarter approaches, which will stand conspicuous in the page of history. Jupiter is in the house of wealth, and Saturn, who is in square to him, is retrograde in the 11th house of the figure. Mercantile men will feel the effect, the *Gazette* will teem with "whereas," &c. The public securities will falter, and probably a panic reign triumphant among the gamblers of the Stock Exchange. The 7th house represents the nation's enemies. In it we perceive the two evil planets, Mars and Uranus. Some demonstrations of WAR will be talked of: but the enemies of England are weak, the star of Britain strong. News of an exciting character arrives from Holland, Belgium, and Scotland. The square of Saturn and Jupiter seem to denote many deaths and much scandal, or disgrace, to persons high in the Church or Law. The affairs of such persons seem to be much canvassed, and I judge that important changes will be made in the nature and in the extent of Church Property! Changes are denoted in the cabinet of a powerful nation; a great clamour will be raised in consequence. But London's significator seems a star of some import in these all-important times, perhaps, more so than any other nation, seeing that the signs greatly affect London's constellation. March closes with a conjunction of Jupiter and Venus, which falls nearly on the degree of the zodiac, the Moon occupied in the Horoscope of the Emperor Napoleon, a good omen for that illustrious person; but Saturn in the centre of his 10th house will cause him much anxiety in State matters.

## THE SUMMER QUARTER.

The clouds pass away, and are leaving the sky,  
A region of azure unclouded and bright;  
And the star of the twilight, with tremulous eye,  
Comes forth like an angel that heralds the night.  
Not a zephyr is curling the breast of the stream;  
Not a zephyr is stirring the leaves on the tree;  
And low hollow sounds, like the hum of a dream,  
Steal over the vale from the volatile sea.

The Sun's Annual Ingress into the lucid sign Cancer, takes place on the 21st of June, at 10h. 19m., p.m. The Horoscope of the hour presents us with a remarkable position of the Heavens: the 7th degree of Aquarius arises on the house of life, and signicator of the community at large, while the 6th degree of Sagittary is meridional. Mars opposes the Moon, and afflicts the Sun with an evil quadrate ray: this tells of enmity and opposition, war and turmoil. A wary and watchful policy will be necessary with some foreign and neighbouring nations. Venus, ruler of the 8th house, or house of death, vibrates on the cusp of the dark angle of the 4th, in square to Jove, which I take to presage the death of females of rank, and of a princess, or one of Royal Blood. France is likely to be in an unsettled state; the ministry there are unhinged, some are for war, others for peace, and of course "divided against themselves cannot stand." Ireland appears to be somewhat agitated; the people are still harassed by their foes, and deserted by some of their friends. When will that unhappy country be allowed to enjoy peace and prosperity; and its fine spirited peasantry become, what it would shortly become, under right culture? The position of Mars and Mercury indicate a stir in the naval affairs, a demonstration of the FLEETS OF ENGLAND, if not their employment in supporting *right* wherever *wrong* uprears a hostile standard. Jupiter in the sign Pegasus, denotes more peace and prosperity to the countries governed by that sign, which are Portugal, Calabria, Normandy, Gallacia in Spain, Egypt, &c. The hostile rays of Mars and the stealthy Uranus will cause martial rumours and exploits both European and Transatlantic. The planetary positions denote a sickly time, and sudden deaths prevalent.

## THE AUTUMN QUARTER.

*Another Spring!* his heart exulting cries;  
*Another Year!* with promised blessings rise!  
 ETERNAL POWER! from whom those blessings flow,  
 Teach me still more to wonder, more to know;  
*Seed-time* and *Harvest* let me see again;  
 Wander the *leaf-strewn* wood, the *frozen* plain;  
 And let me ever, 'midst thy bounties, raise  
 A humble note of thankfulness and praise!

The Sun once more pours forth his mild effulgence from the Celestial Balance, which constellation he approaches and enters on the 23rd day of September, 1867, at Oh. 42m. P.M. As he enters among the first Stars of this sign, 25 degrees of Sagittary are *Eastern*, 29 degrees of Libra are *Southern*, 25 degrees of Gemini are *Western*, and 29 degrees of Aries are *Northern*, completing the celestial quadrants. In the celestial Horoscope for the moment of the solar entrance, the student in sidereal Philosophy will perceive indications demanding more than ordinary attention. Jupiter rules the ascendant, and signifies the community at large, or that portion thereof denominated "the people." Most unfortunate it is that this planet is retrograde, and squared by the evil Saturn, who rules the second house of Heaven, posited on the cusp of the eleventh, and Sol bears dominion in the mansion of death! The head of the Catholic Church (if living) is tormented by mental or bodily sufferings. I judge that he is drawing near the goal which Popes as well as minor mortals must one day attain; and in spite of the Anathemas which Popes have hurled against the doctrine of the Stars, he is about to undergo the effects of Saturn in opposition to his Sun's place at birth; though, as I have only the day, and not the hour of his birth, I do not feel certain as to his *terminus vitae*. The approaching conjunction of Saturn and Mars in the sign Scorpio will be powerfully felt for some months to come, in India, Barbary, Morocco, Valentia, Catalonia, Messina, and Ireland. Thither let none repair if they would avoid tumults, fires, and crimes of no ordinary character, as well as evils of a physical nature, such as sickness, storms, and earthquakes. In Europe, generally, strong excitement prevails, and rumour "with its thousand tongues" is busy. READER, FAREWELL!

THE END.
