THE ROAD AHEAD.

" Forgetting those things which are behind. I press forward " Paul
Life is full of its high and low periods. The dark clouds which come with
the storm. the sun which follows shining clear. like an orchestral performance
the sweet soft passages of the flute, the oboe. the violins. as against the
mighty forte passages of the Brass. yet each without the other could not
give a true interpretation of the real sense of the great value of the orch-
estra as a whole. for it appears that life in its true reality cannot be
assessed correctly. without the negative being played against the positive.
and from the ages of times past there has ever been the age old story of the
warfare of evil against good. and yet somehow right eventually triumphs.
If one were to look always on the clouds. or to listen to the sombre melody
they would never get the real meaning of what was intended for them Hence as
one has aptly said. "It is the road ahead that counts "and so as a magazine,
although we have past through many stages of ups and downs. Periods when it
seemed as though we would have to give up. yet somehow out of the crisis has
always come the notes of triumph from the brass. crowding out the discordant
notes which seemed to spell out a melody of defeat.
A few years back. in the minds of many of the research students of the UFO
the query of the strange sinister forces of the three men in black was often
raised for much discussion. and although the release of Barkers book of th
Bender story has apparently cleared the air somewhat. in showing that these
forces were the result of Benders own former way of life and his thinking
yet it does clearly show that such forces can be brought into play. and that
such powers do exist. and that they use the weak links in a the chain of events
of the armour of the individual or organisation to bring about the downfall
permanently or otherwise. of the individual or group. according to their
power of resistance. to overcome the opposing forces.
In an Editorial written a few years back the Editor suggested then that the
forces which attacked Bender. although in his case brought about by his own
way of life. would not necessarily attack all and sundry by the same means
Benders dabbling into the macabre was his weak part of his armour. hence he
was attacked from that angle. however others can be attacked from their persona l
ego. or from enemies from within themselves or without.

The Editor then, stated clearly his opinion that what Flying Saucer groups would have to watch mainly, was the attacks from within. for if such negative forces desired to attack, and found that the individual was strong enough to resist by a clear understanding of who and what he was up against. and the wisdom and knowledge to know HOW to resist. then the attack would come from those around him, If you cant defeat the leader then attack his followers cause them to doubt. instill into them lack of confidence in him etc etc. and thus many an army has lost its power.

How often has history recorded the cases of some great leader who has had placed at his side or near to him those who have smiled in his face and called him their friend. yet all the while planned behind his back. some campaign to gain the leadership. themselves.

This is the case with many and Saucer Groups need to be warned of such. a form of attack from the powers which have been given many names. from "the three men in black" to the "Silence Group". for whatever you do, do not fool your self that such forces do not exist. even the enigmatical Adamski. admits they exist and as far as the Editor is concerned it is his opinion that he too has fallen a victim to the very powers which he is conscious of. yet underestimated by what way they would get at him.

If by now leaders and workers of the UFO groups are not aware of the great drama that is being played out and coming very fast toward its climax and the great part the Saucers are to play in it. and the almost seemingly undefeatable powers which array themselves against the Powers of Light. These negative forces of DARKNESS which have been planning since the destruction of Maldek. and who now have reached the climactic period in which it would appear they have at last gained control of the whole earth and are now ready to play out the final stage. and whose great defeat will be brought about by the Great Architect at their hour of seeming triumph by these "Powers from heaven". at His Command. Then if they are so illinformed and unaware I would issue this warning. "Take care you do not fall into the hands of these forces and wittingly or unwittingly become victims or tools of them, lest you be onem they use to fight against the great forces of the LIGHT" How many today even among the leaders of Christendom or of political groups who claim to teach Christianity. or to have the antidote for human International strife are being used as very pawns in this great drama, and blinded by their own egos or lust for power are really being used or made to fulfill the very works of darkness. What a rude awakening awaits many world leaders today. Many have been awakend to this trend of events. but few have had the courage to STAND against it. or have felt powerless to do so even when they desired. to add so. put it into the words of one great leader of a country (since dead) when asked why he did not stand up against these forces, and admitting that he was fully aware of them and their plans. and in what way they were using him and his office. said " They are too big for me, I am powerless " How many more in high places like him know what is going on and feel like him powerless against it. Thr road haed would be indeed dark and the sombre music almost like the Wagnerian opers. almost depressing. if one felt that this was th end and that the world had reached an impasse. or a cul-de-sac. as depicted in the Great Pyramids story in the path of the Children of Light. upon reaching the wall at the end of the King's Chamber. Extermination of their race. the triumph of Evil over Good appears to be the

come , but in such an hour. and for such a time as this there has been
 a for such a race and people . DELIVERANCE from Outer Space. and the
 s of darkness will fall into the bottomless pit or th abyss.

. Wells saw this and said in his estimation of mans future . that there
 y ahead the abyss. But Wells did not have a faith or confidence in the
 reat Jehovah. He was a materialist . and his views could well be considered
 as true. if all our hopes were based on a material world and a physical
 dominion.of matter alone. but man is NOT merely Physical. and from the seers of
 old to the present day prophets have come the Divine clear call of Hope for
 the road ahead. There IS a way out of the impasse to which we speedily drift
 today as a world. and the coming clash of Light and Darkness. and that way
 is the way for which all men of GOD will have hoped . that there shall come
 a Deliverer. One who shall Rule with Righteousness. and with Equity.
 and no longer shall man be ruled by despots and power seeking lawdispensers
 but that THE LAW shall be that which is the true BALANCE of Justice.

The road aher is not all sunshine , many clouds ahead. seem to cause us to
 despair if we are without hope. but if your eyes are alone on the path ahead
 you will see only the darkness. but if you raise your eyes therein the space
 above is the great light of the SUN of Righteousness. whose instructions to
 His disciples when asked concerning these times. "When ye see these things
 come to pass, THEN LIFT UP YOUR HEADS. FOR YOUR REDEMPTION DRAWETH NIGH"
 IT ALL DEPENDS ON WHERE YOUR EYES ARE FIXED. AS TO WHAT LIES IN THE ROAD AHEAD
 FOR YOU .

The Editor makes no apologies for his views above. he merely expresses his
 opinion knowing that a large number of His readers feel as he does. that such
 is the answer. If there are those who disagree . they are too entitled to
 their opinion. and time will prove very shortly as to whose opinion is the
 correct. one. in the meantime His eyes are on the SUN. which gives him LIGHT to
 tread the ROAD AHEAD. He only hopes that those who disagree with his views
 had as clear a light for their path as he.

THE EDITOR.

 THE DANGERS OF WATCHING T.V. A TIMELY WARNING.

The following is from Dan Fyr's " Understanding July 1963.

The Lectorium Rosicrucianum, a Gnostic Scholl of the Golden Rosy Cross with
 H.Q. in Haarlem, Holland. has found it necessary to warn its pupils "as to
 the dangers of looking at T.V. Because it causes an internal combustion which,
 in turn , causes absolute inaccessibleness to the working of the Gnosis.
 As a mttter of fact, it concerns an all-out, world wide attempt, in these
 days of the end, to render the whole of mankind inaccessible to the Gnostic
 Light "

Quoting further ; " We know a homeopathic doctör in the Hague Holland who
 gives children who have an allergy to advice to abstain from T.V. Shows.
 To every sick child that comes to him for treatment his first question is;
 Have you been looking at T.V. ? If the answer is in the affirmative, and the
 child is not willing to give up TV , he recommends not to look at at from a
 short distance , in view of the disruptive character of the ultr- violet
 radiations which pass through everything including the walls . The intensity

ANOTHER ARTICLE BY HANS LAURITZEN
=====

We are indebted to our regular writer of science articles for yet another of his very informative letters, and to our science students we ask them to express their opinions and also if they desire more of these valuable talks.

In my last letter I told you something about the experiment made by Dr. Marcel Pages, and you are quite right that there is a certain resemblance between Dr. Pages arrangements and the Tesla coil. In fact the same phenomena is produced in both cases viz.. a light metal plate is pushed away by a free magnetic force field.. As you mention, Tesla had a coil of wire charged with electricity, and his plate was made of aluminium.

Dr. Page's arrangement is more complicated and the effect greater; and his plate is made of mica. Several researchers claim that official science pays too little attention to these experiments. This has been true.

There are two main reasons why scientists have not worked with these phenomena. Firstly it could not be explained what force caused the action. The only explanation given is that light metal is pushed away by free magnetic force fields, but this is more a description than an explanation. Secondly they said that the phenomenon was a curiosity, but that it had no practical possibilities, So the state of things has remained so until recently.

The military or civilian race or competition of today has changed the situation, and we cannot afford not to use a phenomenon, because we cannot explain it thoroughly. Both in the USA and the Soviet Union, scientists are working with this program and related programs.. In order to use the phenomenon for propulsion. we have to make the following improvements; the aluminium plate has to be connected with the foundation on which the coil of wire is placed. The upward drift of the aluminium plate has to be so great. that it can take with it both the coil and the source of electricity.

The problem is how to make a very impressive but very light battery, so that the whole apparatus can rise in the air. Do you remember that the famous Herman Oberth has said, that he is working with an electric method of propulsion for space crafts.

You want more information about the experiment carried out by Dr Marcel Page's. However, I have not any details here. The experiment together with other experiments have been described in the papers issued by CERG. These papers are not for sale. but only distributed to members of CERG. Dr. Umberto. Bonfiglioli. Via Borhesano Luchese. 24 Rome Italy. Or to Mr Shneiderov. who is head of the delgation in USA. I reccomend that you write to these Dr. Bonfiglioli is the General Secretary of Cerg.

The Indian man who told you to learn as many things about as many things as you could, is certainly right. The total knowledge of mankind today is so immense. that it is impossible to learn everything about just one single subject. In order to get an impression of where mankind stands today. we have to get information from all activities.

I reccomend the following plan to be followed. One has to seek for the most recent reports in all respects and reports containing information. which was quite unknown before. The most important is to find the frontiers between what mankind knows and what mankind does not yet know. From time to time you will gain the experience to find out, whether information placed before you is some-

thing quite new. In whatever field you are going to be specializing in. The all round knowledge of where mankind stands today will be of help to you when you are going to make decisions.

HANS LAURITZEN .

The above article is culled from a letter written to an associate and of which Mr Lauritzen kindly sent THE Editor a copy with many other similar ones sent to associates. We will endeavour to print as many as possible in this paper from time to time. however we would appraiate comments from our readers to assess interest value to them . The Editor.

=====

ANTARTICAS CLIMATE is changing .

The Australian Expedition from Antartica which arrived in late March 1963 Tas. reported that the Antartica seems to be getting warmer .

On Heard Island for instance. Dr.G.M. Budd of Sydney University found that the Glaciers have been receding rapidly and that fur seals and King penguins are beginning to form breeding colonies.

These inhabitants of Antartica had not been found there between 1950 and 1955 .

They also said that great masses of rock are visible on the mountains which formerly had been only ice. Where before there had been huge ice-cliffs which fell into the sea forming ice bergs. have now been replaced by shingle beaches , and one definate case of a glacier front. has now been measured and recorded to have receded a quarter of a mile.

This is truly more evidence of the fastly Changing World.

=====

HUGE FOOTPRINTS (Credit "FATE" magazine Aug.

Near Baxter Springs , Kansas, two boys have discovered a footprint in sandstone that looks exactly like a human footprint.

Only trouble is, it measures 44x 21 inches.

=====

NURSE SEEKS LARGE FOOTPRINTS IN AUST.

The following is culled from a Newspaper announcemnt Sunday Mail 27/7/63 and the lady in question is a well known and beloved Nursing Sister and a keen Flying Saucer Investigator. She holds the Order of the O.B.E.

Darwin. A nursing Sister R. Heathcock and her companion are seeking for huge footprints deep in the Arnhem Land . found years ago by this Sister . The lady belives that they may be the footprints of giant humans who once roamed the North . The natives of that area have legends of "tall people" She found footprints during her work as a nursing Sister in the remote back She added that the footprints have been perfectly preserved in a basalt area and look like giant kangaroo and emu .

Her companion stated that what looked like the human footprints described by Sister Heathcock had six toes but there were a number of aborigines in the Arnhem land and Darwin with six toes. If the prints were from humans their owners would have been 12 to 15. ft tall.

The Editor wou'd like to add that the above companion of Sister Heathcock is not a regular recognised authority on such matters . but that any state ment made by Sister Heathcock could well be relied upon .

NEWS REPORTS .

=====

MYSTERY OBJECT EXPLODES IN THE SEA.

" 25/7/63 NEWS"

GIANT BALL GLOWED LIKE THE SUN .

A giant object which glowed like the sun , and travelling at tremendous speed exploded in the sea with a terrifying roar off Mt. Drummond, on lower Eyre Peninsula yesterday evening.

About five minutes later, the previously quiet surf was heard 12 miles away roaring and pounding on the shore.

This was the story told to the "News" by Mr K. Ashman by telephone from his farm at Kappinnie. who said his house was shaken by the blast as percussion waves reached the inland. He said he saw the object glowing like the sun and streaking across his property from N.E. to S.W. trailing a brilliant white light one or two minutes after sundown yesterday .

" It was difficult to estimate the height at which the object passed , because it was travelling at times through clouds". he said .

" It was also hard to estimate its size because of its bright light . "

He said it was difficult to estimate just how loud the explosion was because of the shock waves to his ears which had badly effected them .

" We can hear the sea when it is rough from the house" " It was a calm sea yesterday and we could hear it. , but after the explosion we could hear it roaring and this lasted for about 30 seconds "

However it may be some time before any dead fish are washed ashore.

Thinking the whole thing over I think the object could have been a meteor

" It appeared to be slowing down before it went into the sea. . I formed this opinion because of the brilliant trail following it.

" If it was a guided missile from Woomera I feel it would not have been fired in this direction . "

Mr Barry Morton of Bridge Road Para Hills (Near Adelaide) said he had seen a strange U.F.O. in the sky about 9 p.m. yesterday. He said it was red and appeared to be going across the direction of Parafiled towards the sea. (west and rising up and gaining altitude. 0

It object appeared to be 4 times the size of a street light emitting a red light .

Also on Monday two people reported a strange object in the sky with square windows with bright lights issuing from . Both these people were from different places.

=====

FURTHER REPORTS NEXT DAY TO THE ABOVE .

"ADVERTISER 26/7/63

METEORITE THEORY .

The object which was reported to have exploded in the sea off Mt Drummond last evening was probably a meteorite . the leader of the Adelaide Moonwatch team (Mr R. Marcus) said yesterday .

Also a man and his wife said they had seen a bright object streak across the western sky at about 4/50 p.m. on Wednesday .

Another young school teacher reported. he had seen an orange -pink object about 40 ft long and 10 ft wide moving over Pt Adelaide towards the city at about 9.45. p.m.

NEWS REPORTS CONT.

FURTHER REPORTS OF EFFECTS OF METEOR LATER.

59 WHALES KILLED BY METEOR.

NEWS . 6th. Aug. 1963

Fifty- nine whales found on a beach near the S. East . and West East border and showing no signs of external injury probably died as a result of a meteor falling into the Great Australian Bight . (see details last page.)

Mr Harvey Gurney said he had found the whales on a lonely stretch of beach near his homestead.

He said the biggest one was about 18 ft. long They weighed an average of $1\frac{1}{2}$ tons each and were spread over three miles of beach .

" There were no signs of cuts or gashes on any of them . and they were all in a good state of preservation . It is a fantastic sight .

they appeared to be killer whales

The report tallies with the previous ones received by farmers who reported a meteor like object falling into the sea.

Mr Gurney added that if the impact of this above explosion was great. the whales could have been killed with the impact . and have died from concussion.

=====

THREE SAW AN OBJECT .

NEWS. Aug 5th 1963 ...

Three young men have given police statements about an UFO sighted on the Sturt Highway between Glossop and Barmera on July 25th .

They reported driving west about 9. p.m. that day and observing a bright orange crescent in the sky ahead . for 7 to 10 minutes.

It was described variously as " shaped like a football cut in two. and like a banana, and that it made no noise. "

=====

WAS IT A FLYING SAUCER ?.

VICTOR HARBOUR NEWS .9/8/63

A dair farmer returning home at 9.45 p.m. on July 25th (see above report' believed he may have seen a flying saucer .

He is Mr Arnold Maslin of Hindmarsh Tiers. and the object was also seen by his family the following night .

Mrs Maslin speaking for her husband who is deaf said he had described the object as about 30 ft. long slightly resembling a new moon on its back with an orange glow at the centre. It was pointed at one end.

With his 11 year old son Mr Maslin climbed out of the car and watched the object for about ten minutes. before it disappeared.

The next night with his wife . their eldest daughter and two other young children saw an orange light lay low in the western sky when they were travelling home from a drive in theatre

It was visible for about a minute then disappeared in the direction of Green Hills . Mr Maslin said " It was a terrific size and too big to be a moving light . " have never seen anything like it before "

NEWS REPORTS CONTINUED 3.

STRANGE BLAST IN THE NORTH .

"ADVERTISER 21/8/63

Darwin . Aug 20th . A tremendous atmospheric explosion which shook buildings in the Kimberleys last night was reported in Darwin today Its origin is unknown . The explosion occurred high in the atmosphere above the Ord River and Turner River Stations. not far from the Northern Territory and West Aust. Border.

Two witnesses have reported the buildings at the Turner River Station being badly shaken .

Observers reported a trail of smoke followed by an explosion and a ball of brilliant orange flame .

A Weather Office spokesman said tonight " It could have been anything " Satellites sometimes burn themselves out and explode and that could have happened , however the report that the explosion occurred in the atmosphere did not tally with the buildings being shaken . "

=====

The editor would like to ask a question . In view of the great amount of tracking being done by our official authorities on all satellites and objects which are now moving above . and an account for their appearance time etc etc is possible to be obtained by them How as it not possible for them to determine what and what satellite it was that exploded. ? That is if it was such an object .

MYSTERY CRATERS IN ENGLAND AND SCOTLAND.

ADVERTISER. 20/7/ 63

U.K. FARM CRATER PUZZLES. JULY 19TH

A mystery crater in a Dorset Farm field had British Army disposal experts baffled last night .

Some local villagers were suggesting it was made by an object from space. What happened to the potatoe field and barley growing where the 8 ft wide crater was found yesterday ? .

They had not simply been crushed . They had disappeared together with all stalks and roots.

What happened to the cow found today in a nearby field with its hide peeling in scales as though it had been scorched?.

The crater is a foot deep except at the centre where there is a 3 ft deep hole about 1 ft wide.

Radiating from the hole are four slot marks 4 ft long and about a foot wide.

Mr Roy Blanchard who owns the farm said " I am certain something fell with a thump and then took off again . It must have " .

=====

A further report which was received from Reuter by the above paper but not printed was made available to the Editor.

London July 23rd.

An Australian physicist , Doctor Albert Randall , suggests a Flying Saucer

NEWS ITEMS CONT. 4.

has caused the mystery crater discovered in a Dorset field in England. He suggested that the Saucer was 500 ft. across and weighed about 600 tons and had a crew of 50 .

It had possibly come from somewhere near the planet Uranus.

According to his theory , it made a forced landing and bounced across 3 fields before righting itself and flying off. again .

He led Army men across fields near the village of Charlton , and pointed out a series of markings . these led to the original crater . where a bomb disposal unit had been probing for nearly a week.

He thinks the saucer batteries failed , it then made a forced landing to rectify a fault. but its Commander misjudged the height , and made a bumpy touch down in a series of hops. He led the troops to another crater and to series of markings and depressions . these led to the original crater where the bomb disposal had been working .

He said also that if the Saucers were following a line of magnetic flux it would lead to Britain . Dr Randall said he formerly worked at the Woomera Rocket Range in Australia. He said he had come to Britain because he expected something like this to happen .

He said that the incident linked with evidence of other " landings " in Australia and France in the last few years .

Coming from Uranus , the craft would take several years to make the return. journey, and they would be due now after the last one in France.

Ed/ Comment. It appears from the remarks above that Dr. Randall. had been either in communication with these space folk. or in some other way had been able to possibly by calculation. able to determine such an event. in that he said he " expected " something like this to happen . We would also like to know to what " landings " here referred to as happening in Australia and France during the last few years.

Further item of the above.

In a statement the British Army Southern Command said.

" There is some misunderstanding of the Army visit to the " hole in the ground " The bomb disposal unit is treating it simply as a normal job. because of something indicating metallic substance in the Earth. "

" We understand the hole may have been caused by a meteorite, but do not feel qualified to support any other theories. "

LATER EVENTS. "ADVERTISER " 30/7/63

LONDON . Wed. British Army disposal Units are investigating two more mystery craters, this time in SCOTLAND.

Army sappers are trying to find the cause of a crater in a potatoe field in England (Dorset) which has given rise to theories of a " flying saucer" visit.

The Scottish craters were found on a hillside about 21 miles south of Dunbar in East Lothian .

They are irregular in shape . having a mean diameter of about 16 ft. and a depth of about 3 ft .

They are 12 ft . apart and 12 channels varying in length up to 40 ft radiate from them . Pieces of turf up to 3 ft. wide are scattered to 40 yards from the craters . About 35 ft. from the craters are a series of square holes measuring 1 ft wide and 2 ft deep. Lothian police are also investigating

=====

DANGERS OF T.V. Cont from Page 3

of the rays is in inverse ratio to the square distance . The technical formula of the ray is 20k .hertz, a dangerous atomic radiation indeed. Our pupils are being emphatically warned against this modern scourge of mankind. The following clipping was printed in the above Societies publication Aquarius- Nieuws for Feb/ 1963.

TELEVISION WATCHING AND FITS

" The Childrens Hospital in Birmingham has lately admitted 14 children (ages 8 to 14 years) because of sudden occurrence of a fit while watching television .

The image , shown on the television screen , consists of rapidly successive light impulses. These cause an effect in the brains of nervous children comparable to epilepsy .

" Advise: Do not allow the children to sit too close to the screen : The fits do not occur when watching at a suitable distance ."

Some months before the above information came to my attention, a friend informed me that her granddaughter , a schoolgirl of 8, and an avid addict of TV. had gone into convulsions several times recently. We supposed that worms were the cause of the convulsions. Could it be that TV , rather, was the inciting cause of the seizures. ?.

The same issue stated that " There are many hospitals in many countries where large number of victims of Television have been admitted. " Why is it that in America no hospital has connected TV viewing with cases that came through its doors? For an extra fee some hospitals even provide TV sets for patients. In the same publication for March 1963. it pursues the subject further by reprinting these clippings.

" Of all TV viewers some 54% fall asleep in front of the screen; nearly every fifth viewer agrees that this happens to him or her quite often . These voluntary confessions were noted by interviewers of the Institute of Demoscropy of Allensbach. (Lake Constanz. Germany) in connection with a recently concluded enquiry amongst TV viewers.

T.V DANGER CONT.

" TV viewers who fall asleep quite often on the course of a broadcast agree practically unanimously, that it is the same with the other members of the family . It does not seem strange therefor , that whole families fall asleep in front of the TV screen "

" The 42 year old British Dr. G.A. Rose , draws the attention of his fellow countrymen to a new danger of TV: the so called 'TV -angina '.

According to Dr. Rose, more and more cases of this type of illness are admitted into his clinic. The heart specialist even stated that TV viewing is one of the most frequent causes of heart attacks" .

In America we need more Dr. Ann. Wiggams to warn against the dangers of TV and to explain how to counteract the dangerous radiations by growing wheat grass in front of the screen , if we cannot keep viewing of it from a safe distance . at least nine feet away and off to one side , never directly in front of it . My own set has been in storage for many, many months. When I get round to dusting it off and offering it for sale to some poor victim. I shall feel inwardly guilty and apologetic. No doubt I shall warn him, but if he disbelieves. the consequences shall be upon his shoulders .

Grace Hess
La Jolla Calif.

In refernce to the above mention of the wheatgrass. and for our listening and viewing readers of TV. we would like to give some directions re this if they wish to have them . The wheat grass can be grown. in a small container approximately. 10 to 12 inches long by 4 in. by 3 to 4 inches deep. and placed in front of the T.V. Screen whilst in use and then placed out daily in the sunshine to keep fresh. and brought back each evening etc.

However to some women this has found to be less in keeping with the general furnishing and many have because of their aestnetical tastes qualms either preferred to " take a chance" or in some cases have found that by using indoor green leaf plants either side of the screen (mainly large leaf varieties) that this has by tests be n found to act in the same capacity of foltering the deadly rays which eminate from the cathode tube and are the cause of the aboe conditions .

In any case When ones health and especially that of their children are at stake. one should not take chances merely because of some fashionable taste The Editor has always had a rule he feels is so necessary. to abide by and that is " Human beings are of more value than things" Some feminine tastes at times finds this very hard to rigidly adhere to . but nevertheless it is a matter of either Possessing your possessions or that your possessing YOU . There have been many articles written on this great TV problem and health. and for some time the Editor has felt conscious bound to write it into his magazine. so although not directly UFO information it is he feels a timely warning for all. and he leaves it to his readers to evaluate as always for themselves.

You have the three A's of the Universe.. and the O for Omniverse try it some time when you are so inclined , and see what feelings and impressions you get from it . then let me know . For I am curious . .. know what I feel when I do it. ..

Would like to see how your reactions compare with mine. ..

Well folks I did and got quite a surprise. and feel I would like others to try this to as a pure interesting experiment. Try and let the Editor know

ARE WE KIDDING OURSELVES ?
BY THE
" WESTERNER "

For years I have been a keen Flying Saucer fan or addict which ever way you may view it. and have read every book available to me on the subject including many of the magazines which range from the high falutin scientific to the just plain hooey. Religion and metaphysics have not escaped myscrutiny. in fact I have done a fair bit of sorting out the wheat from the chaff, and considered that I had reached a fairly good estimation of the why and wherefor of Saucers, the Brothers from Space and. all that goes with them. UNTIL I got tangled up with a friend of mine who frankly admitting the reality of the saucers yet would not consider them as of a friendly nature in fact his view was the opposite.

Knowing full well his ability to obtain much information not generally accessible to the ordinary investigator I was some shaken. in that he took this view all this lead to a lively yet friendly discussion which found me a little unable to consider myself as the winner. in fact it left me with a few very puzzling questions in my mind. all rolled up into the above thought.

" Are we kidding ourselves ?"

His argument was that no one yet has proved that they are friendly, he cited even George Adamski as saying that they all were not so, and at every turn of attack by me as I quoted this and that. his reply was "not proven!" For he said. " Yes, this contactee says they told him they were friendly etc etc "

But what proof did they give that contactee they were. ? " He illustrated his point and said " If I wanted to fool you would I come direct at you and admit I was a n enemy ? rather would I not be smiling and or guile like our grinning ape of a Russain so called pal Krushev.?"

I gave him a thrust back by saying " But if they wanted to be hostile they could have wiped us off the map long ago ". Again he floored me by saying

" Perhaps it suits their purpose to wait until we do that for ourselves and the take over with less trouble to themselves " I parried this by saying

" But what good would the Earth be to them if most of it were wiped out by a Nuclear War . ?". " What was left of it and the people would be perhaps

all they want for the time " he said. " After all would not the remnant left of the population be to dazed to care. and probably welcome them as Saviours

to help them re-establish themselves. ? . This really floored me and before I could come back at him he said. " After all this is not the first invasion

from space we have had, if ancient records are true, it looks as though at least one race came to earth long ago and have been leaving their impression

on it ever since. why not another such race ? " I really felt I was losing all the way . I didn't have nuch to stand up against

him with .and then I thought of the religious views which had been expressed from time to time re the coming new world or the other many terms it recieves.

and started quoting these views to him. " he looked at me rather queerly and smiled. and very slowly said " Brother, I f I could only bolive that I would

begin to feel real good. in fact. as far as I am concerned if their is an answer to our being able to come out of all this muck which our so called

emlightened age has led us into then it appears to be to me the only one the sad part is I have no religious faith. I only wish I did. "

After a cup of coffee together we parted, but if he got any sleep I didn't in fact I really felt mad at him for I tried to sleep but again and again his thrusts would come at me . and I would say How can I prove him wrong. and that they ARE friendly. ?.

I went over each pint of the avrious phazes I had studied of the Saucers. Factual data. as w have to hand does not give any proof that they are ALL friendly in fact some of the most staggering cases indicate very much otherwise, the records of those which have just been around and done no harm still do not PROVE beyond doubt that their attitude is entirely harmless to us on earth. It certainly APPEARS to be so , but again Are we kidding ourselves ? rightin the eye this would hit me again .

Reviewing the contactee cases. all these have said that they are friendly but. Were they being led up the golden path of delusion ? .

This brought to my mind some religious pamphlet which had been sent to me by somebody , probably considering I had to be saved. , this was entitled " The Great Delusion " and considered the Flying Saucers as fitting this statement made in the Bible of a great delusion which would fool many at the last days. I had read it and thrust it from me and punk. Several of my asso ciates had recieved this too, including the Editor . and we had all felt when we had corresponded about it that it was not worthy of worrying about .

I then considered many of the telepathic and metaphysical experiences of so many of the saucerites. some very reliable and who had given clear proof of timely warnings being recived by them of various personal and international events. but none of these could be definately described as fool proof evidence of the ultimate friendly intention of the sender. perhaps after all this could have been a few sugar coated pills. or to put it into the words of the Great Master / wolves dressed up in sheeps clothing .

Finally after hours of annoying sleeplessness. I dozed off. Only to dream of two trees growing side by side. One was a beautiful apple tree. the other some sort of citrus. quite unlike any such I was aware of. in fact it did not appear to be of earth. I in my dream reached out and took one of each. The apple I placed to my mouth and took a bite. It was delightful. in fact I had never tasted any such like it . not even from Tasmania where apples are really the best. I looked at the citrus form of fruit in my other hand. I was a little wary fo tasting it. after all it could be some ppisonous thing. yet it LOOKED good. I squeezed it abit and smelt the oil of the skin as one would an orange. I smelt good. in fact it had a somewhat scented smell quite different to any normal citrus fruit. yet very appealing. I carefully laid apart some of the skin. Its form was excatly like any other citrus. with the pithy layer of white laying under the outer shell. It had segmenst the same. but its colour was more nearer to apricot than orange or yellow as most of them are .

I tore on piece away from the rest . squeezed it ang agaon smelt it. It smelt good. putting my tongue out I just tipped the juice I had squeezed from it and tasted warily , So far so good I put the whole in my mouth and started to consume it. It was real good. then it happened It turned my whole mouth : an awful bitter taste. as though I had swallowed awhole large spoonful of alum I tried to spit it out but it was to late my mouth had dried up. and then a fire most intolerable began to take place in my innards and tongue. Hot chillies were cool spring water to this I felt I would die. and tears welled up into ,y eyes and I tried to reach and vomit . but to no avail. I had taken poison

If only I knew of some antidote. I was alarmed for I did not know what to take . nor would I know what to tell a physician what I had taken . How would he be able to determine what remedy to apply . when I couldn't tell him the true cause. that is if I could talk. for by now my tongue had swollen and I began to realize that I was going to choke unless I could stop this hell fire which now was spreading all over me. I began to sweat. and felt myself growing faint and as though I was going into a coma. I thought this is the end, I began to pray. as I fell into a deep form of sleep. and everything grew faint and then a breeze seemed to flow around me. like a sweet zephyr. I felt as though cool water had been placed into my mouth and I began to see clearer I had somehow unconsciously. began to eat the apple again . Soon I was back to normal. and all of a sudden I was awake but found myself trembling. for as consciousness. began to reclaim me. I heard the words repeated three time " By their fruits ye shall know them "

Refused I lay awake not the least tired although I had slept barely an hour yet I was conscious that somehow this was the answer to all my concern. What was the fruit of all this Flying Saucer study. Did it tend to make men more evil . ?. Did it make them more than ever hate each other and tear each other in their attempts to crawl over one another to gain power and position? Or did it produce a more brotherly spirit among each other? Did it indicate a day when the Right shall triumph over wrong?. Did it vindicate the great Truths taught in the Bible. of which I believed. of a Kingdom of God being established on Earth. ? I began to look around me of the associations and comrades I had been led to, through my search. What could I say of them ? Was the influence on them of the Belief in the Flying Saucers and the Brothers from Space. one which brought forth a practical form of Christianity. of Love Thy Neighbour, ? Or was it one which produced the opposite. I saw as in a Panorama many of the lives of folk I had moved with. or met and got to know. or even those whom I had only got to know through letters and tapes. Did they breathe a spirit of Love for me and mankind in their actions. or was it one of sham friendliness only a veneer. but raging envy. and enmity within. ??? All these I saw and I found the answer for myself. I saw what I had wanted to know, that the fruits this Saucer relationship had born told the true picture of what the Saucers had done. to them. The FRUIT was there It had proved itself by the eating thereof. I found my answer. "ARE WE KIDDING OURSELVES? Take a good look my good friends and fellow students and say WHAT IS YOUR ANSWER ?..

The Editor was so intrigued by this article that he felt it was a MUST for the magazine. He admits he was a little frustrated by the anti climax of the writer. but after all is it not something we each have to answer for ourselves One thing however we must be careful of in coming to the answer is that we must not let singular cases cloud the issue but have a wide general view. If he the Editor were to judge by some even very noted persons. in the field he would be likely to be prejudiced . especially by recent events. but this would not be true and just . to judge the whole by one piece of unsavoury fruit. lets look at the whole number of cases of fruit before we finally say it indicates this or that . for we cannot deny that evil ever dwells by the side of that which is good. It is our job to see the good and partake of it and thrust aside the bad. as unworthy of us and the Brothers from Space.

A CORRECTION (THE GREAT PYRAMID)

In our April issue we related a piece of information which had been given to the Editor from what had been in the past a very reliable source. This was in regard to excavations at the Great Pyramid in which we had been told that these excavations were for the purpose of discovering a Temple beneath. Through the good efforts of our worthy Associate in England FastrReg. Bradbury of " Kingdom Voice " who got in touch with the noted Pyramidologist Dr Adam Rutherford, at that time lecturing in the USA. The result was that Dr. Rutherford who is in close touch with all the latest data concerning the great edifice stated that this information was totally incorrect.

We apologise for misleading our readers in this regard. but we based it on the reliability of the informant. events here concerning the Editor and his connections with many others, have proved so completely revolutionary in its outcome that many of those who considered as most reliable have proved to be very much otherwise. In fact he uncovered an almost despicable plot to undermine his influence and also his character .

It indicated that much of this had been going on for some considerable time and whilst pretending to be on the most friendly terms and calling upon him for help and co-operation from time to time, which was most willingly given yet behind were plans to gain all and give nothing in return and even to use what had been given or confided to his hurt . Thank God, He never leaves His children without defence. and such we leave to His hands.

We cannot say how we regret that such information should have been given by us which was so misleading , but we believe our readers will understand that such was given in all good faith and that they will understand the great shock and the repercussions on his faith in his fellows, this whole experience has been It is not a pleasant thing to find that those in whom you felt the greatest confidence, prove to be unworthy of that which you have in honour given them. I would be pleased where possible that this incorrect information given, can be rectified with full explanation and apologies from myself.

THE EDITOR.

=====

ACTIVE VOLCANOES.

Did you know? The " Ring of Fire" is aflame again : Over three HUNDRED presently active volcanoes hiss and steam in a smoking, belligerent watch on the circle of the Pacific Ocean . Other fire belching giants around the earth bring the present total of ACTIVE volcanoes to a frightening 400 PLUS::: April 26th 1963 Mt Irazy, in Costa Rica Cent. America. Height 11,200 Ft. sent up ten-thousand foot clouds in seven eruptions that day. One day there were 25 eruptions . San Jose is the city of Coast Rica and is literally buried under tons of ash . The National Guard cleaned up hundred tons of ash from the streets But the sidewalks are completely buried. the ash is seriously affecting the peoples health . In areas near the volcano almost everyone is ill. In the San Jose area there have been serious cases of Brinchiil and skin affections. Practically everybody is suffering from headaches , sores, coughs etc. The eruptions started at the beginning of March and falling ash and sulphur fells , the eyes and nose and mouth .

This is taken from the PLIAN TRUTH. A Magazine we can recommend. P.O. Box 345 Nth. Sydney. NSW.

In view of the indication that UFO are concerned with earths crust the above is very indicative that something is soon to bust .
