UNIDENTIFIED FLYING OBJECTS PHENOMENA INVESTIGATION
AUSTRALIA .

Firstly let me thank everyone from the many corners of the globe who have continued to send me the very encouraging, and kindly words, which still come rolling in and have given the Editor such great heart in his determination to carry on. Ther results have been most gratifying and proved beyond doubt that although the few individuals who scorned and endeavoured to do such harm were indeed not worth notice. For from those who have been the recipients of this magazine. have come the true evaluation of the work and efforts of the Editor to place into the hands of the "saucerites" something which would be helpful and instructive. For from very highly cultured and educated people , and also a few in high places has come these words which have meant so much to him. and words not complimentray to those who were the cause of the grave crisis through which we have emerged.

It is not good to dwell any further on this. and so we look to the new PANORAMA of the Horizon ahead. with a new hope and faith imbedded in us. For we are well sure of Where we are going and of that which lies ahead. and more. of HIM WHO GUIDES US. and where we fit into the plan . God Bless You all. Meanwhile great assistance will be given to the Editor if you can recommend this little journal to your friends. for the new venture can only be maintained if the circulation can be increased to offset the loss of those previously supplied, and who were not loyal enough to stand by and assist to make the improvements necessary . Clubs and groups will be supplied at a discount. As this was being typed the mail arrived with yet more words of cheer. especially one from Germany in which the expression was made. " Whatever happens Don't give up, Your work is important. Saucerdom cannot afford to lose such men as you and the work of your magazine and its influence." Its good to know one has so many friends. and in such times one really finds out just how real their friends are .

=====

News comes to hand from Europe of the visit made by George Adamski there. and from the experience of those there. it did not ^{work} out to be a very helpful one to build up esteem for G.A. For as we predicted to them, he let them down and broke his promise to keep engagements. as he did here. in Australia. Many appointments made for him in which halls and advertising had been arranged for were not kept and his usual practice of leaving them to carry the exprnse after a great deal of hard work and outlay. caused no mean misgivings and loss of esteem for himself.

This and many other things which were mentioned only goes to prove what the Editor has insisted on for some time and warned his friends of. the fact is that George is a very human man and not to be placed on a pedestal, his unreliabilty to keep his obligations to those who have planned for him is surely

proof enough that this is so, and further hardly commends himself as a prophet with a heaven born message. despite his claim to have been to Saturn to bring back a message for Earth. and it can be noted here that he claims that that message was for the "heads" at Washington. Judging by the tie up with the administration there with those who control the world, and who are using every means to destroy our way of Christian Life. for a Man made Brotherhoos as against the Great Architects plan of a KINGDOM OF GOD upon Earth. headed by one who is truly able to administer Justice and Equity we can only say, that since G.A. has for years now urged us to get behind these powers which are seeking to go into Space and CONQUER. that we do not like the company he keeps. and we insist on judging a man by his company and his deeds. and not by pretty little platitudes, which flavour of the scriptures. but in reality have no bearing on the GREAT PLAN on which the Bible outlays for especially these times and the days ahead.

One of the greatest seductive things the old Devil himself was a master at was that of using scripture to mislead his dupes. or those whom he desired to ensnare. and it is also to be noted that the only ones who were capable of seeing through his wiles were those who were able to thwart his plan by a true understanding of what God's purpose was and His plan for man and the world. Personally I feel that the "brothers" have long ago stopped contacting George. despite his claims. of continuous contact. for no less a reason than that he fell a victim to his own ego. and proved an unprofitable servant. For as stated before this is not the only time in which a servant was called to do a job and failed in his mission. This does not alter the plan or stop it in its fulfillment. for God has always a way of raising up others to do His bidding. If any message today is needed it is to put your confidence in the DIVINE way. and not in man. Beware of Man made plans for world security and brotherhood. for behind it all lies a sinister master plan to undermine the race and to bring about world domination, not freedom.

Above all I would urge my readers to examine most carefully the people behind all of these plans. and what the record of their history reveals. and which purpose our brothers in space are here to help us gain deliverance from. And here I would ask you to note., that G.A. and others have said most emphatically that the brothers are NOT here to help us to gain deliverance. Then if that is so. then G.A. and others are teaching something which is contrary to not only the Christian Faith but the faith of many others. who believe that a Divine Deliverer is to come and that this coming is very near. Either the promise made by God to send a Deliverer is a lot of false lies. and the promise of His Son that it would be so. is also a lot of hooey. or the teachings of millions who have had their faith founded in such a belief is just wishful thinking. If so then George Adamski can be listened to and we have to look forward to a world of power crazed demigods, whose plan is to mongrelise the races, and to destroy the Christian FAITH.

If ever there were a day in which we have to choose right from wrong and to make a clear examination of ourselves and the causes which we serve is today. for the call goes out with and insistant warning. as to the outcome of our decision. "CHOOSE YE THIS DAY WHOM YE SHALL SERVE. WHETHER IT BE GOD OR MAN" It may appear on the surface that such man made plans are very humanitarian and that they are what God would have us to do. for even the Blind leaders of many churches back some of them. and in their blindness call us to overlook evil with Love. We cannot overlook evil. and we cannot alter the

Divine Universal Law. you cannot mix the negative with the positive. you cannot mix Light with Darkness, but you CAN convert the darkness into light by a process of Divine Law. But you first must know how that Law works and also be proficient in the art of how to use that Law.

Silly sloppy sentimental Love will only breed confusion. whether it be personal or racial. The Love of God is for ALL mankind, and will benefit ALL IF WE FIT INTO THE PLAN HE HAS LAID OUT FOR THAT BENEFICIENT LAW TO OPERATE if not the Law itself will turn itself to our own hurt. Hence the great necessity of an true understanding of the Law and the Plan for our world and the times in which we live.

THIS IS THE GREAT DAY OF GOD ALMIGHTY. and the forces of darkness have arrayed themselves with fury to stop it, and are using men wittingly or unwittingly in their plan to Stop it being brought into being.

WHOSE SIDE ARE YOU ON? We are now as a world in "The Valley of Decision" Do not think that these forces will have a chance no matter how great the array and immense their power. God has a Plan. and despite Adamski and his followers. THERE SHALL COME A DELIVERER. and He shall be accompanied by his angels(messengers(from heaven (outer space) who move in Chariots(aerial transportation) which move like whirlwinds. (Circular motion of the Flying saucers). Read the whole of the last Chapter of Issiah.

When ye see these things come to pass LIFT UP your heads for your Redemption (Deliverance) draweth nigh. I rather believe Gods word than a thousand George Adamski's. Dear reader In WHOM do you put y^{our} trust? .

THE KEELY MOTOR.

We have recieved a letter from our associate Mr Edgerton Sykes who edits the magazine "Ourancus" and also "Pendulum" bot very excellent magazines has asked for any information which our readers may have concerning this. We understand that the actual Keely motor is in England. and t at it is in the care of capable hands. This came as a surprise to us. and no doubt will also be to many of our readers.

Should any reader have any data whatsoever on this. The Editor would be glad if you would send same to him. or direct to Mr Sykes whose address is 14 Montpelier Villas Brighton England.

Mr Sykes is conductinga research on the motor, and hopes to take a series of photographs of it. We shall look forward with interest to his findings and the result of his investigations.

" THE TRUTH SHALL MAKE YOU FREE"
 AN ARTICLE IN REPLY TO "WESTERNER" "ARE WE KIDDING OURSELVES"
 Last Edition. No 4.

Dear Mr Stone.

I read with great interest the complex situation in which " West-erner" related his misgivings and doubts as to whether the Flying Saucer Folk now appearing to earth. were of hostile (evil) or peaceful (good) intentions. and felt he had his answer in the dream sequence which he was so fortunate have been given to aid him. He is indeed favoured to receive such a message. and this no doubt places him on the list as one of the sometimes despised " psy- chic " folk of the saucer world.

However it struck a cord of sympathy from me as I too was faced with this very problem early in my search for the Truth concerning these identities, and making an honest investigation I could not deny that there were certain cases and situations which could not be placed in the category of friendly peaceful visita- tion. and like him it worried me, until I determined to approach the matter and evaluate/ them" by their Fruits " etc , for it was certain to me that there must be an answer which clearly showed what apparently on the surface were contra- dictory evidence.

One of the first things which awakened me to such a conclusion was in the book by Gray Barker " They Knew Too Much About Flying Saucers" in his last chapter p 242 he quoted you and rather scoffed at your remarks. he says

" I will not go into the details of Stone's communication, one he feared I, be- ing a materialist . perhaps than he. would find too fantastic for belief.

Let me quote a part of his letter.

" To assist you now I will say there are two distinct forces and powers at work. One trying to assist us and the other to destroy. One of darkness, one of light, positive and negative . Until you can get to the stage where clear discrimina- tion between the two is possible any wierd or strange thing can happen and much harm can come to both yourself and those around you. Jarrold is a clear case of one who refused to take this warning I sent him when he related his case to me." Later on he adds. on the same page. " For I do not like to talk of " forces " and " powers " and "darkness " and " wierd or strange things " .

" I like to talk of things I can understand. Things I can photograph and weigh and measure and maybe put in cages. I like something I can shoot at . "

Well you certainly put it clear there and laid down a blunt statement, that there exists the two fields of force. Sad to say accordingly to folks over here (USA) Barker has now fallen a victim himself to this very set of forces and powers he so sneered at in his book. For if reports are correct he himself has closed his work and become a recluse full of fear and afraid to " yalk" to even his close associates. What a pity he didn't heed your words. Barker played up a lot to the Bender story . as instance his further book. but he did not attempt to answer the enigma of the others he referred to in his book. The Flatswoods Monster Elliot Rockmore. Jarrold . Stuart . and the many others. Perhaps they were not so payable as a story to him.

This brings us back to your own claims that there are two forces at work. it was this clue which gave me a little light to start on. This cleared the confusion which seemd to exist . There was no contradiction if they were viewed in that light and an honest attempt made to disseminate the two . and evaluating the in- cidents one began to see a very clear picture. On one side a force sinister and

foreboding, almost Satanic in its fashion and methods, certainly not that which could be associated with goodness and light and as belonging to God. The fruit of these were very clear to see once ones eyes were opened , to put into one word. FEAR. and so I saw and considered Fear is not of God. but FAITH hence if they of the other side likewise bore fruit the result would be that which instilled the opposite to Fear. FAITH . HOPE. LOVE. (The fruits of the Spirit spoken of in Corinthians) and on the contra, the other shown clearly in the Sacred Volume. The fruits of darkness . Fear,Hate,envy,Strife. Wars.

There was no mistaking as far as I was concerned . Judge the tree by its FRUIT. exactly as "Westerner" was told to do in his dream .

From now on investigations began to take on new light , now I held the key to examine the evidence which came to hand. and from it unmistakeably came the over whelming facts undeniable. and conclusive. There WERE to forces at work. Both in the material plane and the celestial. Each working up to some great drama. And aided by Knowledge and Wisdom. from the word of God. I soon found that these forces could be called to aid from the side of Light to thwart the attacks made by those of darkness. else like these who had fallen victims before me I too might have been so instilled with FEAR that I would also end up like them. One however came from celestial realms. the other from the dark caverns of Earth I began to wonder if that puzzling reference in Rev. speaking of the opening of the fifth seal. wherein Appollyon was given the keys to open the dark abyss. from which poured forth 'angels of darkness' which cause man to FEAR, was not literally being fulfilled before my eyes. Allied to them the men of earth who had allied themselves to their power to resist the Plan of God which was to be brought about with the assistance of the heavenly host . Piece after piece of the jig saw puzzle began to fit so exact that before long I had before me not meer bits but large parts of the picture which were sufficient to determine at least what the whole was about and the others would certainly fall into place given time and just as one having got that far with the jigsaw soon find the rest very rapidly falls into place,so I believe that the next few years will also see a very clear outline of the whole picture given to THOSE WHO PERCEIVE AND UNDERSTAND. Present National events here in the USA and overseas give no doubt as to what is happening. and the terrible climax to which this great country is fast approaching if it persists in its present programme. Thank God there are signs here of a mighty awakening and that the overthrow of the "forces" and Powers. which hold our rulers in their hands will be thrust out. Truly Paul said " For we wrestle not against flesh and blood, but principalities and powers of darkness in high places. To those who read these words I would say Do Not FEAR. or be afraid of the dark forces. but likewise do not fool yourself that all these strange visitors are benign and of God. Do not be gullible. TEST the FRUIT. To your dear Editor Thank you for first awakening me to all this long ago. and more for the open pages of your wonderful magazine so openminded enough to let your readers express themselves so freely. You are one of the means by which men shall be able to make known the difference of darkness from light . I hope more of your readers will come forward and express themselves as I have done. May God Bless you and your work. Sp Mote it Be.

Yours

NEWS ITEMS

In our last issue we dealt with the strange "holes in the ground" which were discovered by a farmer on Dorset England also on further reports some were discovered in Scotland at the moment no further details have been available as regards to these, but out of the blue in the press (Advertiser 3 comes a report that the Dorset hole was a hoax perpetrated by some one desiring to bring ridicule to Flying saucer fans.

The report states that a Mr John Southern, a television repair man, made a claim that he helped to dig a mystery hole as above.

The fact that a whole team of bomb disposal men from the British Army had spent over a week investigating it, at the public expense, and that he and his assistants carried such a hoax out also at the expense of the public who flocked to see this, in my mind suggests that a nice tidy term of prison would be more suitable for this fellow and his pals for making themselves such a public nuisance, and wasting the time and money of the government.

The second point is that the papers are only too willing to give headlines to such hoax cases, but place before them real information and data, and they either ignore it, or cover it up with a lot of misleading reporting which in most cases is often far from the truth, and in some outstanding cases there has been a complete falsification of the evidence. Making those who have come forward and told their honest story appear to be either idiots or liars.

No wonder folk do not appreciate coming out with their actual experiences when they get such treatment.

We are glad the papers have revealed the Dorset hole as a hoax. (not yet proven either way) Such fools who play such pranks can be treated like school boys but not when they put the Nation to the expense which in this case must have totalled into hundreds of pounds.

However because there are such hoaxes does not mean that ALL are such/ This reminds me of the story told at school of the boy who cried wolf. Just because no wolf appeared at first, and he played his hoax, did not alter the fact that eventually there WAS a wolf and a pretty real one at that. So with these hoax events, this does not disprove that for the one isolated case of a hoax being played now and then, that there are not many more in which the evidence is real and cannot be denied.

We still await news of the "Scottish" holes perhaps this prankster went up there too with his pals and dug them too. We await events regarding this with great interest, and as this is being done ahead of time to catch up, we will deal with any news of such as it comes to hand.

 A. PRANIC MOTOR INVENTED.

The following is reported in the English Magazine "ORBIT" one of our very reliable associate magazines.

A 39 year old Cheltenham inventor claims to have developed a machine which will propel an airborne craft at the speed of thought. The Machine—a "pranic motor" is of a type used in "flying saucers", claims Mr Keith Milner. The man who invented the machine, and who lives at Pendower, Fairmount Rd. Cheltenham Mr. Desmond Leslie, author of "Flying Saucers Have Landed", and one of the few people to have seen Mr Milner's machine, told a reporter, "I have seen numerous

machines claimed to be the motors of flying saucers, but they were all way off the track. Now, however, I think Mr Milner has got it at last".

The man who has built a version of Mr Milner's machine, designed to power a small prototype flying saucer, is Mr Norman Horan, an engineering inspector of 71, Naunton Rd. Cheltenham.

He told our reporter: "Like you I was very dubious about the machine when I first heard about it. But I agreed to work on it for Mr Milner. And as it progressed I became more convinced that there was some truth in it.

Now I am certain that this is the answer to the mysteries of the flying saucer" Mr. Milner gave details to our reporter of the motor, which is about 18 inches high and which is fitted with metal plates. These are coloured and revolve rapidly. They are drawing their energy said Mr Milner, from supersonic sound. This sound passes through slits, shaped in the form of an ancient swastika, on to a disc of varying colours. From this disc the sound is transformed into energy which under the "pilot's" will power, provides the motivating force by which the craft is propelled.

Mr. Milner and Mr Moran now plan to build a craft capable of testing the motor in flight.

GLOW IN THE SKY REPORTED.

OFFICIAL FINDING. A METEOR.

ADVERTISER . 7/9/63

A greenish glow observed in the sky from Oodnadatta and Alice Springs early last night is believed to have been caused by a meteor burning up in the earth's atmosphere. Several people at Alice Springs reported having seen a coloured light travelling from East to West at about 7.21 p.m.

The Bureau of Meteorology in Adelaide said a report from Oodnadatta referred to a greenish coloured glow, at about 7.10 p.m. apparently from an explosion. falling to the North East and dying out before reaching the ground.

The Bureau spokesman said the glow apparently had been caused by a meteor.

A WRE official said no high altitude research rockets were scheduled for firing from Woomera last night and this supported the meteor theory.

FIREBALL IN THE SKY MAY HAVE BEEN A METEORITE

A fireball in the sky and explosions and rumblings heard by residents of towns over a wide area of the south-west Cape at 10.30 last night were probably caused by a natural meteorite. Dr. W.J Cousins of the Royal Observatory said today.

Dr. Cousins said that an astronomer at the observatory happened to be making observations at the time and noticed the fireball.

"From all reports reaching me and the fact that the glow was so bright that the astronomer, who was looking in another direction, noticed it. makes me almost certain that it was a fireball.

Small meteorites usually burn out in the atmosphere and we refer to them as shooting stars. Larger meteorites are fireballs, which sometimes reach the earth's surface,

SOME INTERESTING ANSWERS.ON UFO.

BY HANS LAURITZEN.

The following are some twenty answers of Mr Lauritzens conceptions to queries made to him by Mr Ed. J. Babcock Jnr. of the New Jersey Assctn Aerial Phen. and has been sent to us for adaptation and publishing . These answers will no doubt be of great interest to many of our readers. coming from one of the best scientific minded writers among the UFO personel.

1. Regarding Foo Fighters . . .

You state that during the World War 11 and after, the "Foo fighters" were seen most of the time to disappear right before the eyes of the pilots. - even the eyes of Radar . A lot of explanations have been presented. If the " Foo Fighters are made of hard matters such as metals , it is very difficult to understand how they can disappear just on the spot . At any rate it is not known to us how it is done. If their surrounding energy fields are activated, they might not only be able to become invisible , but also to disappear into the world of energy fields, and thus they do not exist to us any more. .However it must be anticipated. that in order to pass over to pure energy fields, every single atom of the " Foo Fighter " have to achieve an energy greater than that of light, and time, and the only way known today, is to induce a velocity to the atoms higher than that of light . But maybe an alien science know how to do it just at the spot by giving the particles of matter a rotation velocity much higher than that of light . Unpolarized force -fields cannot be detected today by science, because they do not affect matter , they just pass through it. But maybe the " Foo Fighters" are not at all solid . It has been discovered that through the point like force fields surrounding all matters, messages can be transferred. Some researchers have proposed that the " Foo Fighters" were just so transmitting forcefield or " telediscs" created by a civilization on another planet and maybe in another solar system . The complicated technique in order to create such artificial forcefields , is not yet known to us. It is known that the human brain is creating some forcefields around it , and they extending to great distances . However these forcefields are weak . but the excited pilots' brains might be able to create stronger forcefields . so strong that they even effect the atoms in the air and make them glow with a certain frequency. The last mentioned explanation is not probable, but as long as we do not know exactly what they are, we have to calculate with all more or less probable possibilities. As to the following 19 questions I regret that I will not be able to expose my answers in this article. neither can I make any drawings.. I do not give just one explanation . I will give several more or less probable explanations .

1. RADAR TRACKINGS. BUT WHEN FIGHTERS ARE ESCORTED INTO THE AREA THEY REPORT NOTHING .. The UFOs might have moved away in the meantime. The forcefield around the UFOs might cause the electromagnetic waves to be issued with such frequencies that they can be detected on the radar , but not seen with the eyes or registered by the fighters instruments. I think of frequencies below or over those of visible light .

2. UFOs PICKED UP AFTER DEVELOPING FILM WHEN NOT SEEN PREVIOUSLY.

This has some connection with question 1. because of the forcefield the UFO makes the electromagnetic waves to be emitted with a frequency over that of

INTERESTING ANSWERS Cont . (2)

light, the waves will be registered on all films, even if they are invisible (ultra- violet rays, X Rays, Gamma Rays) . An infrared sensitive film will catch invisible rays with frequencies below those of the light .

3. LACK OF SOUND EXCEPT AT CLOSE QUARTERS... Since the propulsion of the UFOs might take place by means of forcefields , no sound will be produced.

4. COLOR CHANGES WITH SPEED CHANGES... If the UFOs move with very high speeds , a Doppler-effect can arise. When the UFOs move away , the distance between the light waves is greater, and the light is more red . When the UFO moves toward the observer , the distance between the light waves is lesser, and the light is more blue. Another explanation is, that when the forcefield of the UFO becomes stronger, the surrounding atoms receive more energy, which makes them vibrate more quickly, giving a more blue light .

It is supposed that when the UFO moves with high speed. the forcefield is stronger and the light more blue, and when the UFO moves slowly or hovers over the same spot, the forcefield is weaker and the light more red. This seems to be in accordance with many sightings .

5. RIGHT-ANGLE AND 480 deg TURNS WITHOUT LOSS OF SPEED... By the way, what is the difference between 180Deg turns and 360 deg turns. Such turns cannot be imagined, if we do not at the same time admit that a force field or something like that surrounds the UFO and gives it an artificial and individual gravitational centre.

6. . VERY HIGH ACCELERATIONS WITHOUT BURNING UP IN OUR ATMOSPHERE

It is well known that a magnetic forcefield is repelling heat. Strong magnets placed in the nosecones of our rockets give them a certain resistance to heat .

7. "FALLING LEAF" Manouvres. Not easy to explain . Maybe it has something to do with the forcefields. (Again those forcefields) !!!

8. CHANGES IN SHAPE. Today's technicians have produced machines which can change shape . Some parts can be folded out and taken in again. Other civilizations might have produced more technical wonders, and more complicated.

9. STALLING OF CAR ENGINES. Some defect arises in the electrical system probably caused by the magnetic influence.

10. HEAT RADIATION(INSIDE A CAR? PLANE COCKPITS ETC.) Many of your following questions have been answered by the theory of the forcefields. animating rotation and vibration of the atoms and thus causing heat- effects and also other effects.

11. ATOMIC RADIATION (BACKGROUND INCREASE) We do not know yet so much about the technique of creating very strong artificial forcefields. It is not probable that it is done by means of atom radiators such as we know them. If some piece of anti-matter (antiprotons or negative protons and positive electrons or positrons) are well isolated by magnetic fields , they might produce some strange fields when strong light rays (maybe laser-rays) are permitted to penetrate the magnetic field. Too little is known about

Interesting Answers Cont. 3.

the reactions of antimatter , but an intensive research is carried out both in the USA and the Soviet. It is not likely that the atomic radiations are due to a waste of radioactive matters from the UFO, but the radiation might be created by the forcefields.

12.. ANGEL HAIR....

Difficult to explain .
It seems to be airmolecules which have been bound together just like ice , but without any change in the temperature. One could imagine that the very strong fields inside the UFOs could be able to accelerate the rotation of the airmolecules so much that some of the kineticenergy is thrown out and used as artificial propulsion . When the airmolecules are given free . they could have lost so much of their kinetic energy that they cannot keep the distance between them , which they normally have, and they appear as ' angel hair'. The energy fields around human beings are rather strong, and when the angel hair is touched , it regains quickly kinetic energy and becomes ordinary air.

13. ANIMALS AFFECTED (SOMETIMES KILLED) All electromagnetic waves can kill living beings if they are emitted very intensely. Radar waves can kill, as also X-rays and gammarays. etc.

14. COLOUR CHANGES PRODUCED IN TERRESTRIAL OBJECTS. Energies originating from the UFOs might acclerate the vibration atoms and change the frequencies of electromagnetic waves.

15. TINGLING SENSATION PRODUCED ON HUMANS AT CLOSE QUARTERS.
Probably caused by the energy fields.

16. ELECTROMAGNETIC EFFECTS. See answer question 14.

17. PHYSIOLOGICAL EFFECTS (BURNS ETC). See answer question 13.

18. ICE FALLS. The water reservoirs of modern airplanes contain much water. If this water is given free in high altitudes, it might produce ice. Yet in some cases no airplane has been reported to have passed over the place.

19. SUDDEN DISAPPEARANCES. Look at page 1 of the article concerning Foo Fighters.

The Editor considers the above explanations as being most helpful to many students and certainly they do have a reasonable and logical. answer to many fo the problematic questions we all get stumped with at times. Lets have more like this Hans. and Thank you .

are much brighter". Dr. Cousins said.

IRONMONGERY

" I personally am inclined to believe that it was a natural meteorite, but nowadays there is so much ironmongery flying around the earth that one can never be sure .

In any event, if it is a natural meteorite, the museums will be most certainly interested in it. If it is an artificial one . The United Space Agency will also be interested. Anybody finding the meteorite or parts of it should report to the authorities immediately '.

D . Cousins said that when a meteorite passed through the upper atmosphere the air in the immediate vicinity of the meteor and the surface of the meteorite itself would glow brightly as a result of friction .

On its entry into the lower atmosphere , the glow would fade and it would lose speed but it would be travelling faster than the speed of sound and therefor cause supersonic bangs.

" The fact that the bangs were heard in the vicinity of Caledon as sharp cracks seem to indicate that the fireball might have fallen somewhere in that vicinity".

The Argus Correspondent at Caledon says the town was shaken by what sounded like a distant explosion at 10.30.p.m.

At Bregasdrorp, The Argus correspondent says many people saw a bright object in the sky. for about five seconds. No trace of meteor has been found.

Ed. Comment.... Actually so little is known about fireballs. and their behaviour so varied . that to class all meteorites as " fireballs " is in his opinion rather stretching it. The Editors own experience many years ago with a fireball which came into his home and danced around the room . scaring everybody could hardly be classed as a meteorite. which should have burned up. also meteorites DO NOT DANCE around. the follow a straight trajectory . Many other reports from around the world on fireballs behaving in all sorts of odd manners, rule out any statement that all fireballs are meteorites or vice versa. Willey Ley has written much on fireballs of which he has made a great study and I am sure that being an authority he would hardly subscribe to the above astronomers. theory , in toto.

However we must not confuse the issue in the above case for it could be a meteor. or some of the ironmongery. as Dr Cousins suggests. but we too must also remember that we have been warned by Gen . Chasson of Nato. (Germany) that we may well be led to confuse such " ironmongery" of our own for the real ships from space. so we feel we too have a claim that maybe it was a UFO. for until more information is recieved to PROVE it was a meteorite we feel our idea is just as good as Dr. Cousins. for after all his maybe is only his idea. and ours also. is a maybe. it was a UFO.

TWO ASTRONAUTS SEARCH FOR GOD.

In May 1962, at the Seattle's World Fair, Soviet Cosmonaut Major Gherman S. Titov, said, "Up to our first orbital flight by Yuri Gagarin, no God helped build our rocket; the rocket was made by our people. I don't believe in God. I believe in man, his strength, his possibilities and his reason. I SAW NO GOD OR ANGELS" (Caps ours).

Possible Titov could be classed as one referred to as "having eyes but see not".

In contra to this brazen athiostic statement made in a country which is supposed to have its motto "In God we Trust". this could have been taken by many as a brazen insult to their faith. However it is indeed pleasing to note the complete difference and attitude that came from the American Cosmonaut Major Gary Cooper, who it is reported offered the following prayer to HIS God. in the middle of the night, when 100 miles over the Indian Ocean Major Cooper was in his seventeenth orbit. Cooper thought he would like to say a prayer for everyone, including himself, who was involved in the launching operation of the space capsule.

So impressed was he by God's abiding presence in guiding the capsule through the enormity of space, that he pushed the "on" button of the tape recorder and recorded this little prayer.

"Father, thank You, especially for letting me fly this flight.

"Thank You for this privilege of being able to be in this position; to be up in this wondrous place. seeing all these many startling things that You have created.

"Help guide and direct all of us that we may shape our lives to be much better and to work with one another, rather than fighting and bickering. Help us to complete this mission successfully.

"Help us in our future space endeavours, that we may show the world that a democracy can really compete and still is able to do things in a big way. and is able to do research, development, and can conduct many scientific and very technical programmes.

"Be with all our families. Give them guidance and encouragement and let them know that everything will be okay.

"We ask in thy name. Amen"

The Major again offered prayer during an eight-minute address before Congress, again boldly acknowledging that God rode with him during the twenty-two orbits around the planet.

The above reminds the Editor of the quotation "Two men looked through prison bars. one saw mud the other saw STARS."

The above is a clear illustration of the deep concepts so far apart which are imbedded into the minds of two equally clever men. yet completely apart as the poles in their mental and spiritual makeup. One shows forth the boastful arrogance of man who does not only refuse to acknowledge God. but does not want Him in their affairs. The other a deep humility of a consciousness of how puny man is when placed against the greatness of the Great Creator and the vastness of His Creation.

It is just this attitude that our brothers from space try to show us that we must emulate if we are to gain qualification to be allowed into the outer regions of space. and yet we can hardly blame such men as Titov for after

all too many of our own scientists are so grossly material and in their outlook are of the opinion that MAN is sufficient without God, that one can hardly throw stones at another country, yet it cannot be overlooked that the Soviet has never nationally shown anything but a complete atheistic since its beginning.

It is this complete difference of attitude which will determine whether the nations striving to reach outer space will go in a peaceful mission or one of conquest. and one is certain that God will not allow men to interfere with is outer world and curse it with strife as it has on earth May He grant that all our men sent outward bound are such as Major Cooper. Major Cooper's prayer breathed of one seeking a Fathers aid. the other in effect was so puffed up with his own power and ego . and ability that He didn't even want a Father's assistance, or even had a Father . We would like to acknowledge that the above factual data was abridged from " The Voice of Prophecy News" . Sept. 1963. and he would also like to express his thanks to the unknown sender of this paper to him .

FLYING SAUCER REPORTS

" THE MAIL " sun. 15/9/63

Several sightings of UFO were recieved last night at a Flying Saucer meeting. Oneman said he had seen 11 glowing objects in the sky over Adelaide in Feb. The objects were about 100 ft. long, travelling silently north to south in a V formation .

He had seen th objects by the light of the moon .

Another man revealed that afew years ago he had seen an object at Port Gawler which he first thought was a whale or a submarine.

There was a white spray coming from underneath . Later the object went into the sea and then shot into the air where it joined a similar object .

After a few minutes both objects made off at " startling" pace, at right angles to each other.

A Check had revealed there were no aircraft in the area at the time of the sighting , just before dusk .

Another Farmer from the South East reported ahovering object near a gate in his paddock .

As he approached, it sped off at tremendous pace.

The object was described as oval shaped with three lights .

The same man later with his son reported that another similar object near the Cooring . It made a humming noise , and raced off as the men approached

We regret that due to due to lack of co-operation we have not been able to give more detailed information of these sightings. and hereby appeal to all our Australian readers in particular to send us any inromation or cuttings so that these may be made world wide known and not just hugged to ourselves.

THE BOOK OF URANTIA AND SIR HUBERT WILKINS.
=====

Because many of our readers are fortunate enough to have this rather costly tome in their possession and have found it a great help, and as it contains many references to and about Flying Saucers. the following facts which have been sent to the Editor. some time ago and by an unidentified subscriber . we would like to print the facts given here and add a few others and comments re this remarkable man . and his sudden demise, some years ago .

Extract from the Book " Sir Hubert Wilkins - Enigma of Exploration " by John Grierson.

George Hubert Wilkins was the son of a South Australian famer. Wilkins was largely self-taught in his education, and distinguished himself in a remarkable variety of ways.

He learnt electrical engineering officially, but in fact, became an expert as a photographer, aviator, submariner, war-correspondent, pioneer of exploration, as well as a religious thinker and writer.

In 1955 was published a tome of over 2000 pages called the " Urantia Bpok" the religious work of many authors of whom Hubert Wilkins was one.

"Urantia" means Our Universe. The publishers were the Urrantia Foundation and at the price of 12 dollars is unlikely to have achieved a wide circulation . Sir Hubert said that he had been working on this production for nearly twenty years, and wrote a letter of explanation to his secretary W. Ross, dated Nov. 1st. 1955 in the following terms .

" For many years I, Wilkins, have been associated with a group in Chicago which has been interested in publishing some papers of material revealed to us by visitors from the outer Universes. At last we have been able to print it, privately distributing it.

The texts of the papers were spoken by revelators through a reciever. A stenographer recorded the statements and soon it was possible for those concerned not only to listen and record, but also to talk with the revelators as you and I might talk. The information in the Book came to us piece by piece. The information as to the possibilities of survival after death and the experiences thereafter, is most inspiring and comforting ".

One of the "Urantia Book" statements is couched in the following terms;

" there is in the mind of God a plan which embraces every creature of ALL His vast domains, and this plan is an eternal promise of boundless opportunity , unlimited progress and endless life. and the infinite treasures of such a matchless career are yours for the striving .

" The goal of Eternity is ahead: The race for perfection is on: whoever will may enter , and certain victory will crown the efforts of every human being who will run the race of faith and trust, depending every step of the way on the leading of the indwelling Adjuster, and on the guidance of that good spirit of the Universe Son, which so freely has been poured out on all flesh ."

In an age when modern prophets tell us that visitors from other universes

Sir Hubert Wilkins Cont .

are already in our midst, the sceptics may hesitate to reject these ideas as absolutely as our forebears, would have done .
The Editor personally met Sir Hubert when he the Editor was only a young man in his teens and firmly remembers his benign face . his manly bearing and then a most unusual thing, beard which like his hair was auburn .
The occasion was when Sir Hubert was showing some films of his explorations and the Editor then was associated with the film Co, handling it. and had to do several errnds for Sir Hubert . little did he know then that he was to find that this man was to be one who believed in Flying Saucers , later in life. and to actually reveal messages recieved from them .

Sir Hubert Wilkins died under very strange circumstances in the U.S.A. some years ago and no real explanation was made concerning the suddenness of his demise.

An article was printed in local papers at the time . and the Editor loaned this to an associate but it was never returned. he regrets that he is unable to give further details of this. but would appreciate if any reader could supply him with any further details concerning Sir Huberts death or any other facts which may be of interest concerning this remarkable man .

WATCH OUT FOR THESE IN OUR NEXT
EDITION.

"SIPPING FROM A SAUCER !" by an unknown writer who sent it to the Editor and signed himself the " VENUSIAN " .

Also we will begin a series of articles written by the late M. Jessup for an Australian Paper some years ago. Mr Jessup was well known to the Flying Saucer world. and wrote many books, on the subject, his first article is entitled. "SNATCHED INTO SPACE" and was published in 1956. Few saucerites have read these articles and we feel they will be of great interest .

=====
Also. a most intriguing article to appear. " There were GIANTS in those days " / this covers some of the facts concerning. some of the strange reports of giant beings, which have been recived around the world including the Abominable Snowman . and gives the writers rather unusual theory of the relationship to them and other days. for it explains his theory of some of the strange incidents of "nasty" saucermen . and happenings.

SPECIAL NOTE.

AS the original magazine " AUSTRALIAN SAUCER RECORD " is now inco-operated with PANORAMA and only one copy was produced this year Vol (. No 1. it is suggested that this be placed into the Volume of Panorama for this year thus bringing us up to date with six copies for this year.

All subscriptions have been credited to bring this into effect so that each will be in line with Panoram~~a~~.

Your next issue will be out early in Jan. of next year, and will be issued as VOL . 3 No. 1. Those who bind their volumes are advised in time to allow for this.

" ANGEL'S HAIR " FALLS IN WESTERN AUSTRALIA.

=====

Sunday Times Sept. 8th 1963 " AIR SILK PUZZLES SCIENTISTS.

A "rain" of silk-like gossamer in the Murchison puzzled scientists in Perth this week. Thousands of silken strands hung from roof tops, trees, and wires from Mt. Magnet to Cue.

Three children and a woman reported seeing two balloons moving across the sky at the time of the fall.

Samples of the substance which covered the countryside, could not be identified in Perth by zoologists. But a public analyst, Mr P. Asotoff, did a chemical test of the substance. He says it is spiders silk.

People in cue still believe it is a man made substance which may have come from a disintegrated rocket cone or craft.

The reader in zoology at the W.A. University, Dr B. A. Main, an expert on spiders, said, "I have not seen anything like this substance in Perth." He said that the absence of spiders with the gossamer made the incident something of a mystery.

An eye witness to the silken fall was a Mr. A.N. Deas, of Cue, who said the material had the appearance of large cobwebs and could be seen drifting from the east on a slight breeze.

The fall began at 8 a.m. on Aug. 29 and lasted for two hours.

He said the lengths of the web varied in size up to 30 ft. and glistened in the sunlight. Bunches of the same material hung from the ends of the strands.

Children from the township gathered the strands from the high grass and weeds.

Mrs P. Thomas and her 3 children aged 7 to 12, saw what appeared to be two balloons floating across the sky about 8.30 a.m.

Reports of the gossamer falls came also from Mt Magnet, 50 miles south of Cue, Big Bell 18 miles west, and also the Cue aerodrome.

The gossamer was collected by two South Perth girls who spent an hour gathering the substance.

They said on handling it broke up and concentrated and felt like asbestos fibre to touch.

The Curator of entomology at the W.A. Museum, Mr. L.L. Koch said the material did not seem to have come from a spider.

Mr. Asotoff fully tested the substance in his laboratories in East Perth.

In his report he said the strands of material measured from $2\frac{1}{2}$ to 3 microns or .001 of a millimetre which was about one quarter the width of natural silk.

NOT MAN MADE

Mr. Asotoff found the material belonged to no man-made or organic groups such as synthetics, plastics or asbestos.

Further tests showed the presence of glutamic acid which was associated with silk substances.

"This combined with measurements brought me to the conclusion that the substance was spider's silk", he said.

Small spiders use their silk as a parachute to migrate. They eject the silk until the updraft is equal to the weight of the spider and it becomes airborne.

=====

Editorial Comment. While appreciating the tests made by Mr. Asotoff, compared with the other equally qualified statements made by the other men, it would be tantamount to saying considering the large area covered that there must have been a mighty SPIDER INVASION At that time. Millions of 'em in fact.
