EDITORIAL

" FIREBALLS . " .

The report given immediately following this editorial of a fatal consequence of a fireball, caused the Editor to ponder again on these strange space objects which have baffled not only the ordinary man in the street, but even great scientific men have never been able to completely explain them or even predict their odd behaviour from time to time.

From time of historical records of such things to this day. these strange bolts from the blue have been hurling themselves toward earth , and it does appear that they are more terrestrial than actual objects from outer space, in that they by the general accompanying weather conditions , seem to be an effect of such disturbed weather condition. hence we cannot claim that they are a direct relation to the UFO, yet in the broad sense of that term they are often very much UFO. except that we have been able to give them a name.

The thing which has struck the editor is the unpredictable behaviour of their performance. for in some cases they do actually as in the case which follows indicate that they can cause fire and ignite objects with which they come in contact. or badly burn such. yet on the other hand some clear cases have been known in which they caused no effect of damage in any way to varied materials in which they contacted or passed through.

The Editor himself in 1936. long before he ever thought of UFO, had a rather frightening incident which was also experienced by the whole of his family. As this was written up in a very early edition of The Australian Saucer Record he feels it will bear repetition in view of the many new readers etc. who have since subscribed to its pages .

The city of Adelaide and the suburbs was hit by a very bad storm in which trees were uprooted and houses deroofed etc, and it was during this very storm in 1936, that the incident occurred to the Editor.

He was asleep in bed with his wife , the children were in a room opposite both doors were open. but due to the storm the windows were well closed, as were all the outer doors. My wife and I were awakened by screams from the children , and before I could get out of bed , to see what had caused their fear, the fireball came dancing from the childrens room in the air. into the passage way between the two rooms, My wife and I had sat up in bed about to go to the children and then it entered our room still dancing around about 3 ft. from the ceiling, and spitting out blue spark like jets and mingled with fiery red. There was definitely no appearance of flames from it. just more like

electrical sparks , which the editor believes was exactly what it was. Quite scared, my wife and I just gazed at it as it continued to dance around the room lowering itself in its performance about ten inches and bobbing up and down. it moved around the room several times. and then with a sudden rush it made for the window. We both expected it to set fire to the curtains and drapes. or worse to shatter the glass window. but to our amazement it just went through the lot , curtains window and out into the street in front . to be followed by a very loud explosion which we still feel to this day was the thing exploding as it reached the outer colder air or came into contact with other electrical energy. such as the electric wiring in the street or may be the lightning. As the noise was terrific it naturally was heard by every one living in the area.

After we had calmed down the children and ourselves : we examined the curtains and window for damage , but there was not even a scorch on the fabric and the window was completely undamaged in any way . In fact we could not find any form of damage anywhere in the house.

The children related that they had been awaked by the hissing noise which the thing made and continued throughout its eerie dance.

One thing which puzzled us was how it got INTO the house, and the only conclusion that seemed to be logical was that it came down the chimney of the children's room. although it did appear that if it could go out the way it did without effecting the glass window etc. it could just have easily come in the same way as it left .

The size of the object would have been approximately ten inches in diameter and the duration of the incident about three minutes at the most .

At a later year a similar storm broke over the city. and again a fireball came and entered a policeman's house. but this did cause damage to his home and seered some of his furniture. quite and opposite effect to that of the editors. The Policeman was well known to the editor and he was able to get first hand information from him , and found that the behaviour of the fire ball was almost identical , but the effect completely opposite. the only other factor was that this was in the late afternoon , whilst the incident of the editor's was in the early hours of the morning .

Many UFO writers and others have expounded on these objects and some have suggested that there is some relationship to the " foo" discs, but the editor feels there is too little evidence to prove this assumption either way. However the following account brings a more tragic note into the records of the history of these fireballs. and we give it in its entirety as quoted in the Daily press of the "Advertiser " of the 20th Sept 1963.

GIRL KILLED BY FIREBALL.

Canberra. Sept. 29. 1963.

A 19- year-old girl hockey player who was struck by a fireball here yesterday died in hospital early today.

The girl was one of 22 players who were hurled to the ground when the fireball shot into the hockey field during a violent hailstorm .

The dead girl was Miss Judy Larkins, 19, telephonist, of Reid House , Canberra.

Four other players , who were slightly injured, are still in the Canberra Community Hospital . Doctors expect that they will be discharged tomorrow,

Ploice said that Miss Lrkins was closest to where the fireball, about 18 inches in Dia. , hit the Southwell hockey ground at Lyneham, a Canberra suburb .

Witnesses said that as the fireball struck with a roar at about 4.p.m. a sheet of flame seemed to envelope the field.

One of the players, Mrs. G.A. Bennett, who is an official of the hockey association , said, " There was this terrific streak of lightning which hit the field with a tremendous noise.

" All of us were stunned as though we had been hit on the head.

" Most of the girls got up from the ground but several were lying unconscious.

I rushed across to them and saw one was badly hurt.

" Spectators also rushed on to the field to help and then most of the girls started to come to."

Mouth- to- mouth resuscitation was applied to Miss Larkins by a spectator, and ambulance officers continued to apply resuscitation during a four mile trip to hospital.

On arrival doctors found that her heart had stopped beating. They applied cardiac massage and the heart responded .

Much of Miss Larkins clothing was burned from her body when the fireball struck.

Ambulance men said that the girls had been wearing rubber-soled shoes. This probably prevented more serious injury in several cases.

Ambulance and private cars took all the players to hospital for treatment.

Here then is a case in which clothing was actually burned from the contact a complete reverse to the incident of 1936.

The effect of the stunning of the players seemed to indicate an electric shock. which regretablely caused the death of one.

However as this incident was like most others accompanied by an electrical storm, it further indicates that the fireballs are definately a meteorological phenomena. and not anthing which goes further out that our own earth's atmospheric condition .

To those who feel otherwise and that there is some relationship to outer space craft, even if in an indirect way, it would be helpful for an airing of such views for the edification of all UFO students.

These pages are open for any such views on either side.

SUNSPOTS CUT RADIO LINKS.

Daily News Tues Sept 17th 1963 (A week previous to the above)

Unseasonal sunspot activity has cut Australia's radio-telephone communications with the rest of the world .

Both the Perth and Sydney overseas radio communications centres report a bank-up of overseas calls.

And the Mundaring Geophysical Observatory can foresee no respite.

P.M.G. Director of Posts and Telegraphs . said today the G.P.O. had 10 calls waiting for London . and one each for U.S. and Japan .

A spokesman for the Geophysical Observatory said the disruption in radio services had begun with a three -hour fadeout on Sunday morning. This had been followed by a series of fade-outs caused by severe magnetic disturbances in the ionosphere.

" The magnetic storms in the ionosphere which cause these breaks in radio-communication occur with the solar flares," he said.

" It is most unusual for these storms to occur at this time of the year, as it is a time of minimum sunspot activity ."

He added that the ionospheric disturbance could last for some days.

=====

INSECTS SWARM AT 7000 ft.

Advertiser 30.9. 63

Melbourne Sept. 29th 1963.

An Adelaide pilot flew for about 100 miles yesterday through hundreds of locust-type insects at an altitude of 7,000ft.

The Pilot, Mr Bruce Tunbridge, a flying instructor at the Royal Aero Club of S.A. , said he could not identify the insects but he believed they were something like locusts.

" About 10.30 a.m. when we were flying over the Mallee country south-west of Loxton, we first sighted the insects," he said.

" A few of the insects hit the perspex windscreen with a loud crack, suggesting the insects had a hard shell like a locust.

" I have been flying for nearly 30 years and I have never encountered locusts, grasshoppers or any other insect at 7,000 ft. " he said.

Big insects encountered at 7,000 ft by light aircraft over the S.A. and Victorian Mallee country on Saturday could be grasshoppers, the Professor of Zoology at the University of Adelaide , =(Professor H.G. Andrewartha) said last night .

He said it was not unusual for big insects to be at this altitude , but a thermal current as far north as Queensland or the N.T. could have lifted them up. and winds swept them along at this height .

If the insects were grasshoppers and came down in the settled areas of SA. there would be " quite substantial grounds for concern."

If they came from the N.T. or Queensland they could have reached the adult age and have time to produce another generation. causing much damage.

=====

SIPPING FROM A SAUCER.
BY " THE VENUSIAN "

THE Following was sent to the Editor anonymously and he presents it to his readers. for their own evaluation.

A holy man is a whol-e man , a complete. an integrated man functioning harmoniously on the three levels of being; the physical , the psychical and the spiritual, as signified by the symbol of the triangle.

There are other symbols , and they are all related to the universal Law. The Cross, a symbol familiar to millions is the most important signifying the action of Universal Law. But it is not looked upon as a cosmic symbol but as something having an entirely different meaning. By and large it is regarded with reverence and awe as some sort of talisman. handy to have around to ward off the effect of evil influences etc:

Now if when reading the Bible man read the word LAW everytime the word Lord appeared, it would clear up a lot of misunderstanding people have regarding the teachings therein, for the Bible is a text book , as it were, dealing with Universal Law. But again , the Bible also is toted around as a sort of " good luck charm " . and if it is read, it is often under sufference or with distortion of interpretation as to set man against man resulting in the existance of sects. societies and groups, all with different sorts of beliefs and rituals, and all proclaiming that THEY are the sole possessors of truth. In fact the Christian religious caste system is much in evidence and just as bigoted, nonsensical, as observed in India, for example. Now, it can be seen by those with eyes to see that no matter how " religious" man might be , he is continually conducting himself against the Law, in spite of his " love"for and efforts to please, the Lord.

There are many instances of this, and some are plain to see, and many attempt to rectify this within the limits of their religions. But when we come to education and the various sciences, we can see how blindly man tries to set himself at variance with and to the LAW. We see this in medical science.

For example, a person is sick, ill at ease, not at ease, not whol-E, he is said to be suffering from A DIS-ease, caused by, in days gone by, by an evil spirit, today agerm, for which poisons are administered in an effort to kill the germ. Being totally ignorant of the Law or natural law as we might call it , medical science fails to see how this natural Law , or force, exerts itself through the human organism endeavouring to heal the body and bring it back into harmony, back to the Law (or the Lord) so that it can reside fully within the Law (Lord) .

The parable of the prodigal son fits in here. The poisons (wonder drugs) used to kill the so-called germ being anti-biotic ,that is anti-life, if taken in prescribed doses, allays the working of the natural healing force it seemingly stops it for a while, and a person thinks he is cured of A disease . But the Law(Lord) is not to be mocked, and later another ? disease " strikes" or it is a reoccurrence of the " old trouble". It is never recognised that natural law is doing its best to right a wrong, and moreover never given a chance , for stronger drugs are used, or more of the ones used before in larger quantities. A sympton, a manifestation, an effect is given a name , usually a highly technical sounding name , of which the

(2)

PANORAMA PAGE 6 V 3 1

patient is oft times proud, suppressed temporarily only for that symptom to re-appear at alater date usually in an aggravated form as the life force makes agreater effort to eject from the body not only the accumulated body toxins , but also the ingested poisonous drugs. When we understand this functioning of the life force or Law (Lord), it is easy to see how medical science or the doctor no matter how dedicated or religious is in actual fact working against the Law(Lord) . " The blind leading the blind, and they all fall into the ditch " But this particular science is so conceited it willnever admit it's mistakes, its left for the undertaker to bury them. In cartoons and films relating to beings from " outer space " the vanity of man is much in evidence for they always depict these beings as monsters. grotesque and repulsive, or ridiculous. Take a look at the unfortunates being born on earth today. the results of educated science, creatures who are caricatures of human beings. They have flippers or stumps for arms and legs. enormous heads, mis-shapen bodies, some have no eyes. no mouth etc. Why doesn't man portray these in his cartoons and films ?. Is he not proud of his wonderful education and science before which all must bow? No he hides them with shame to cover up his blindness , his sins against the Law (Lord) If this thing continues, what name should man be known by throughout the Cosmos?. The Thalidomidian, The Fall -out wonder, or the Deviationist ?.

We now examine man's "battle against nature" as he calls it , in the growing of his food . We will ignore the processing and the manufacturing methods where hundreds of poisonous chemicals are used which cause cancer, diabetes and other ailments. All used in serving " Mammon - Greed. We will deal only with the growing of food for the mistakes made here are similar to those made in treating the human body. In his desire for bigger profits , man, ignoring the age old and tried methods of crop raising as being too slow for his liking, tries to speed up things with the aid of various chemical boosters . For a time all seems well, crops grow faster and even bigger, and the monetary rewards appear to justify the use of these boosters. It matters not or very little to him that quality has been sacrificed for quantity, The cash returns are good, and that is all that matters.

Another thing that matters is that the growing areas are very rarely rested (A Divine Law laid down for man's health), the accent being on greater production per acreage in the shortest possible time. If this continues for any length of time , deterioration of crops is increased until they too become sick as well as the soil. which begins to start eroding , and hence huge tracts of natural fertile soil is made aste(sick) .

Yes, Sick, . They have become dis-eased, unbalanced. out of harmony with natural law. Man in his ignorance of seeing his crops "attacked" by a disease, sets about attacking that specific disease by spraying the crops with a highly toxic spray, so toxic in fact, that he must be extremely careful when using it, not to let it touch his skin, and of course he must not whatever he does inhale any of it. So we see the same pattern of events as in human drugging, the position worsens, and science has invented some fanciful names for all the different "diseases" that are said to be " attacking" crops today. "Diseases" which were unheard of a few years ago. another thing that happens is that a sick plant attracts certain types of insects to assist it in it's rehabilitation, and again man attacks the insects with

more toxic sprays . And so we see man today caught in a vicious circle of spraying . It's odd how it never occurs to him why "diseases" and "insect pests" attack man grown crops and plants and not those growing wild or in a natural state. Hundreds of new drugs and chemical sprays are brought out every year to " assist " man in his never ending war against so-called "diseases " which are supposed to be attacking man and his crops.

When we look at the raising of live stock again , the same pattern exists. Live stock like humans receive their quota of drugs , inoculations, hormone treatments etc: Here as elsewhere the unceasing battle against natural law prevails. It may be observed that man will succeed only in poisoning himself into extinction . It seems as though he really hates life. On one hand he is poisoning his environment and himself, and on the other there are nuclear " devices " at hand to enable him to end very quickly a life that has become so hostile to him. So it would seem. Alas for man has become too educated , too scientific for his own good. What is wanted is a little less education and a little more WISDOM. The latter cannot be given out along with diplomas. If man has failed to learn anything regarding the Law as it operates on his own planet, what can he hope to learn by visiting another planet ? The same Law exists everywhere. " as above so below "

Being ignorant of the Law what is the point of reaching for the moon?. To go higher or deeper or faster ? . It only strengthens his conceit, and he has more than enough of that already. Without the knowledge of, and being unable to use the Law which could make him a super-man , man has though his ignorance and inadequacy been forced to use money to maintain himself in the struggle for existence and to give him a feeling of power and dominance .

For anyone cunning and ruthless enough to amass large amounts of money, is in a position of being able to make others bend the knee, for every one crawls to money, everyone has his price. Man is servile to money, it is without doubt his very god. and he is now enslaved by those who manipulate it on earth in every phase of his life.

But how foolish for man to spend all his energy, devote his whole life to nothing but making money only to go into obscurity of the grave leaving thousands , perhaps millions of pounds or dollars for others to fight over . Is it not strange that man is nothing without money in present society, he must have it or he starves , yet the rest of creation lives and enjoys life without it, and it is all provided for by the Law (the Lord).

The Law (Lord) works everywhere in the same manner , through all the planets , all systems of planets and worlds, through all animals . all men and all plant life . It is life, the all and everything, the only power, the high and mighty Law (Lord). over all, in all, is ALL power because IT IS. It does not need man's help to do it's work , all he can do is help himself by adapting himself to the Law. Neither does it need man's flattery, his praises , his hymn singing. his offerings, his sacrifices, nor his bribery. It's favours extend to those who abide in the Law (The Lord) , for man to whine " O Lord abide with me " in his times of trouble brought about by his disregard for, and misuse of the Law is the height of imbecility. And it is futile to set up churches, altars, and religions in order to please the Law. It is no respecter of persons no matter who they might be, whether Pope , King, politician, millionaire or roadsweeper. For man is made by the Law.

"Sipping from a saucer" (4.)

He is made by the Law for the expression of the Law, the sole use of the Law, and if he tries to resist the Law, he hurts only himself, not the Law, for it cannot be hurt.

It creates everything, sustains everything, and destroys everything when that creation has fulfilled its purpose.

Man with his free will is able to lengthen or shorten his sojourn on his planet. But in looking at man and his science it seems apparent that he desires, in some perverse way or manner, to reach the state of death and OBLIVION - repeat. OBLIVION total and complete, before his time.

To try and find if there is perhaps a possibility of escape from oblivion is the least of his worries, making a quick pound is all that matters. and he seems quite content to let himself be spoonfed with pious platitudes, sentimental nonsense and perverted truths to comfort him alive and in the throes of death. " To be, or not to be, ah that is indeed a question "

REST ye in the Law (The Lord) for your days to be long upon the Land which the Law (Lord) thy God giveth thee.

THE VENUSIAN .

Editorial comment... The thought expressed in the above may arouse some peoples criticism. but when sincerely pondered upon it is boiled down to the instruction given to God's children of old. " I place before you a way of life and death. " If ye abide in the Law, the Law shall make you free. "

The Editor would very much like to know who the writer is, and would welcome more such articles from him. The screed itself was posted in Australia. and was recieved by him when he was lecturing in Perth. this year.

Thank you " VENUSIAN" whoever you are .

oooo0000oooo

ADAMSKI VISITS POPE JOHN.

The N.Z. " SPACE REVIEW" Reports in their Jul-Aug 1963 Journal the following

During his European tour George Adamski visited Denmark, Belgium. Switzerland, Italy and England. In Denmark, where he appeared on radio and T.V. and had generous write ups in the papers, his stay was particularly successful. While there, he talked to thousands of people, and addressed 700 people during a Congress organised by the Sacndinavian UFO Investigation under the leadership of Major Hans Petersen. In Belgium he met with European co-workers and conducted private lectures. In Switzerland he relaxed before going to Rome on May 30th, where his assignment to call on the late Pope John was carried out. Only a few days prior to the Pope's death, Adamski was recieved in audience for a short while and remained in the Vatican for the better part of two hours.-

" THERE WERE GIANTS IN THOSE DAYS "

Every now and then among the varied records of the UFO books , magazines etc. there bobs up some wild account of some " monster" , which in some cases have been associated with the sighting simultaneously of a "saucer" object or UFO.

True , and we are to be thankful for it. they are few and rare as compared to the many which apparently show no signs of relationship to such objects as one generally only reads of in fairy stories. of Jack the Giant Killer and the like. all of which however may have some legendary value if investigated by those sufficiently interested to do so. for it has often been found that some of these " fairy stories" have a background of folk lore which in itself must have some foundation even if passed on and became distorted with time.

Of course the usual thing is to pass it off as not worth worrying about although the evidence in most cases has been strongly supported by reliable witnesses and investigators. and it seems as though most saucer fans prefer to act just that way and completely ignore evidence which may be of great value to their cause in assessing just who and what the saucer people are and their purpose.

Couple this with the number of cases in which actual UFO reports have been given by pilots etc . and others in which the lives of their passengers have been imperilled by near crashes with the objects and all the other unfriendly approaches of saucers etc. one cannot if honestly investigating come to any other conclusion than that there are two types of saucers or forces at work.

When one honestly and without prejudice approaches it this way, then things do fall into a logical pattern , and the enigmatical cases become more easy to understand.

The writer set out long ago to establish sort of records of both these sides and he soon found himself digging into the Dero and other earth cavern forms that are supposed to exist. remembering that one of the first books written on the subject was one which covered this very well but the evidence when presented for magazine form was forced to be altered to that of science fiction grade.

Were we dependant on such evidence as Scully records in his book and on this alone of earth cavernous forms of life. then one could be not blamed for considering it as too fantastic to be worthy of consideration , but when accredited scientists give evidence of such monsters being seen in India Europe , Mexico, as well as the South Americas, all in our modern times then surely it is only wise to give some credence to these reports and ask ourselves. just how much truth was behind all the story that Scully was telling us, that such life did exist and there was some association with the flying saucer visits? and let us sort out the evidence and find if it does confirm what so many have been trying to tell us, that there ARE two types some of peaceful intention and to assist us. and others belligerent and whose actions and appearance spell of antagonism to mankind.

Gaints in those days. cont 2.

tracing the path through with the evidence available the writer soon found that all it soon began to fit into a wonderful pattern and that giants have been reported by quite a few people in many places and quite a few of them in our own USA and right here in California bringing it even closer. Investigations made, proved the witnesses in each case most reliable as well as the official records of the police and sheriffs etc. all support the claim that these folk certainly met up with something extraordinary, footprints and other evidence confirming their reports given by witnesses some in cases being of several who have seen the " thing " at the same time. One does not have to speak of the " abominable Snowman" of the Everest data it is too well known .

Digging further back one finds that history records also that such " giants" did exist and as one goes back even further into the antiquity of time there pervades every where the records of giants some who ruled lands and peoples. and whose statues have been left on record carved as memorials for all men to see.

Being an avid reader of the Bible I too also delved into the sacred pages and soon found that here too was evidence beyond doubt that such abnormal men did exist. for from the earliest pages which speak of giants who came and married the daughters of men , known correctly as the nephilim, and identified as the fallen angelic remnants of Lucifer.

Coming down through the pages again we find them recorded in the record of the conquest of the land of Canaan by the Israelites. under Joshua . whose spies came back and reported that there were giants in the land. and this is confirmed by archeological scientists whose evidence lies in the British Museum . identifying such giants as existing at that time and whose heads were severed at death by their followers and preserved in large stone jars some measuring 24 to 26 inches across.

Further down we find that this race of monsters, for that is what they were, purely mutated monstrosities due to the bad interbreeding of these creatures with human kind. David kills a giant, Goliath . whose stature on record tallies with that of many of those seen today .

Riley Crabb on the Borderland Science journal gives much evidence from time to time of the caverns discovered in which such people have existed.

Wilkins in his record of his discoveries in South America. states that the Indians tell of such giants coming from caverns at certain times.

and whilst it could be taken as purely wild indian fables evidence found has proved that there is a very strong basis for the stories told by the South American natives.

Tying this up again with the Bible. one finds that Christ predicted that at the end of the stage of our world history, that again we would have days likened to those of Noah. in whose day these monsters lived and dwelt. and whose evil power and control over human affairs so caused the necessity of the flood lest the whole human race should be contaminated by these mutations.

In Revelations is recorded the fact that too at this time the opening of the bottomless pit. (the inner earth) from which would come such monstrous beings again to wage war on the chosen of God.

Could it be that these modern reappearances of these hideous things be a fulfilment of this very writing.?

Giants in those days. cont 3.

Is it not time we took stock of our facts we have before us of the saucer evidence and find out a more intelligent way of evaluating them. . . . By admitting that there are two sides to our case and having found this. assess just which side is which. ?.

In Vol. 2 No 4. of Panorama the Editor published an article by "Westerner." " Are we kidding ourselves ?" which set me thinking along these lines and caused me to pen the above. personally I feel he has hit the nail on the head in regard to many of the saucerites. who love to think that they are all friendly and go around telling every body . that they are so, and that we should openly welcome them. True we should if we find them to be friendly and are satisfied that they come from the realms of space which fits into a plan of Divine administration , but what if they do not,? and the come from the caverns of earth or some other dominion?and whose government is one which is contra to the plan God has for mankind.?Shall we ignore them with our heads in the sand like and ostrich?or shall we determine just who and what and from whence they come. before accepting them as friendly allies.?. One thing is certain we will not have to wait long for the answer, for t here is every sign that things ar working up to a very big climax soon. and the sudden appearance of these monstrosities , evidence of some of which has never been made public,vill make itself felt as the days go by.

This is not writton to scare folk , rather written in the belief that the TRUTH will make us free. for it is the unknown enemy that has the greatest power to hurt us. the known enemy can be estimated and assessed and met with KNOWLEDGE. and the power to overcome his wiles can be found. once we know who and what he is. It's a job that lies before us to stop kidding purselves as " Westerner " says and face the truth and approach the result unafraid. Meanwhile I for one am convinced that not only were there giants I" those days, but the hideous offspring are making themselves again known to man What the result of all this will be lies in the hands of our great Maker.

===== BEVERLY HILL

R.A.A.F. KEEPS SILENT.

NO REPORT ON FLYING SAUCERS.

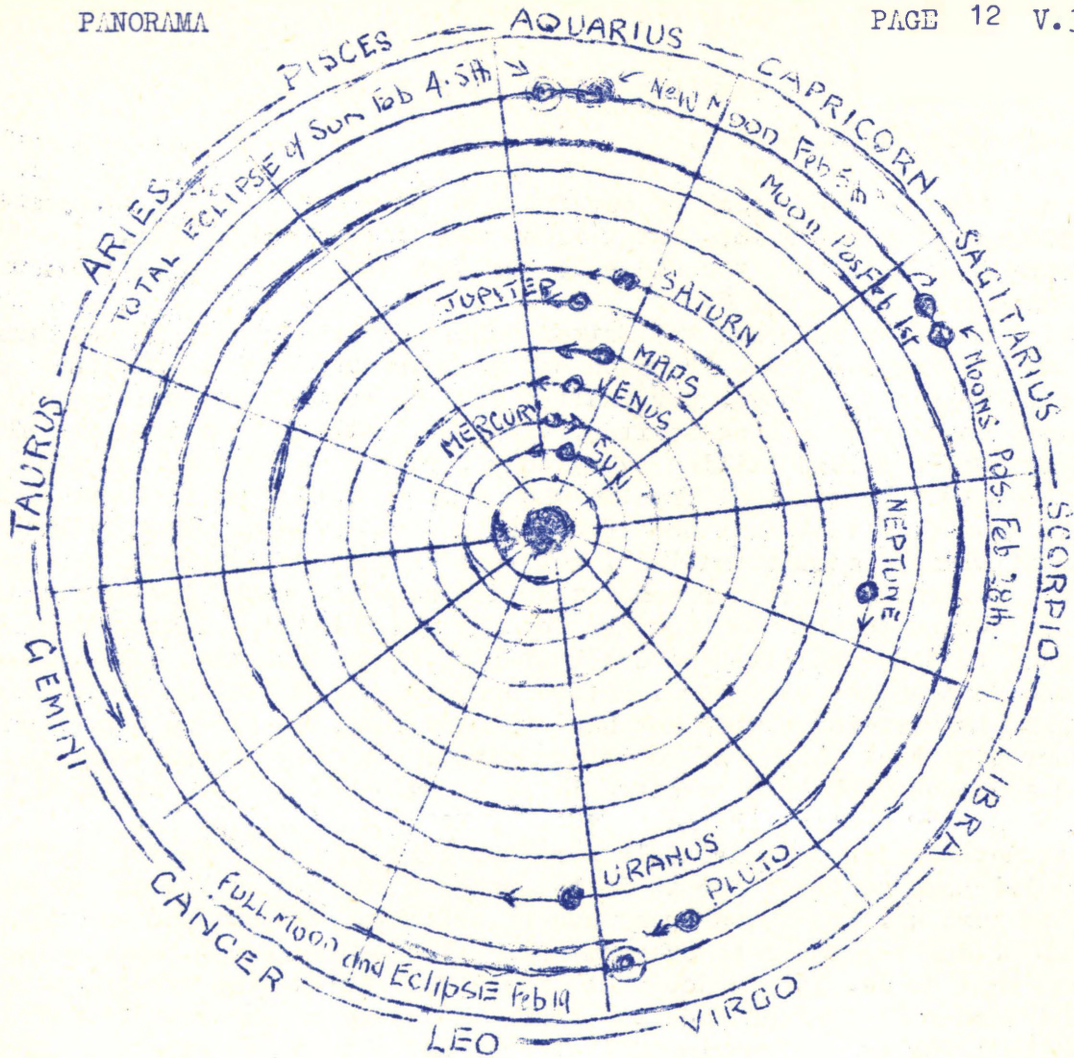

News 10/10/63

The Air Minister Mr Fairbairn has refused a request by the Australian Flyi ng Saucer Re. search Committee to make available a dossier compiled by the R.A.A.F on Unidentified Flying Objects. The Request was made for the committee by Senator Cavanagh . Mr Fairbairn confirmed t at the RA.A.F. maintains a dossier , but he said there was no single document suitable for distributing as a publication containing the material on the subject .

He said that each reported case of UFOs was recorded in his department. All "well reported " cases were investigated and the results conveyed to the originators of the reports. He said that various sightings had been identified as stars, weather balloons, aircraft, and even the moon . However 3 to 4 p.c. of reports remained unexplained .

Compiling miscellaneous material into a form suitable for publication would involve a task of some magnitude which he felt would not be justified.

(Earth in Centre). PATHS of PLANETS Feb 1962

THE AQUARIAN AGE ..

An interesting letter from a reader.

Dear Mr Stone.

I was deeply stirred by your Editorial in your last issue and the challenging note which it contained, for it certainly caused me a lot of thought provoking moments.

As a Christian who has studied prophetic writings for many years , and also believing that the present influx of the so called Flying Saucers are a manifestation of some of those prophetic writings depicting our times became an ardent "saucer fan" and like so many others have pinned a great deal of faith and confidence to the story of Mr Adamski and his statements from time to time as well as those expressed in his books.

Your editorial brought me up with a jolt for I realised that I was being influenced very much by the "opinions" of this man and that such opinions were beginning to cut across my beliefs , hence the challenge came , did I believe more in what Adamski said, or did I have greater confidence in the writings of a book which has stood the test of time and still has not been

been proven unreliable as a guide to humanity in every age.

Naturally the good old book won hands down . and it was the key point in your editorial which gave the turning point . i.e Either we believe Adamski, that the space brothers are NOT here to assist us, or usher in the New Age, The Aquarian Age. The Kingdom of God on Earth, call it whatever you will, or there IS to be a DELIVERER arise to bring about this new era of renewed life for man . and whose coming will be ushered in by signs and portents in the sky , and that he shall be accompanied by thousands of his "angels" (messengers) from Heaven (outer space) all of which is perfectly described in the many prophetic writings.

Like you I believe Adamski had been given a message but that he has been sidetracked somewhere. I have my own ideas on how and why. and one does not have to dig deep to find the cause.

Thousands of UFO students tie up the coming of these space men with the dawn of the Aquarian Age. which was ushered in last Feb 1962 when the signs foretold in sacred writ were given to man in the sky. the conjunction of these 7 major planets and the total eclipse of the moon and the new moon all coinciding at the same time , which could only occur every 25,000 years or more were indicative enough to portray the emergence of the Piscean Age into the Aquarian , and thus the dawn after the midnight hour had begun .

It is true that darkness still envelopes the Earth, as it will until the SUN arises with healing in its wings. but nevertheless the midnight hour has struck, and here I would like to pass onto you some writings of a remarkable Bible student written in 1946 (17 years ago) that of Mr Basil Stewart " The Aquarian Age. What it connotes and the phenomena that will usher it in." This is abridged from The KINGDOM VOICE Vol. 25 No 7 July 1963.

(Copies of the above are obtainable from the Editor for Australian readers) price 8d. or from Monomark House London W.C. 1 Eng. Rev Reg A. Bradbury)

Mr Stewart says " The Aquarian Age , about to dawn , is the age of reason and intellect , co-operation and enlightenment . This is why we hear so much today of new world orders and schemes of reconstruction , because man is beginning to realize that, at last, through forces of circumstances, that our so-called Christian civilization has been proved anything but Christian, but has been based upon wrong thinking and wrong doing , The Aquarian Age, in fact is that of DELIVERANCE from bondage, and runs parallel with the 1,000 years of the Millennium of the Scripture prophecy. The picture set before us is the Coming of the Great Physician who will DELIVER mankind from the bondage of Satan that today has the world in his power. and inaugurate the Era of Restitution foretold (Acts 3. 20-21) wherein the path of humanity will be ever forwards and upwards "-----

Later on Mr Stewart says.. " A few years hence atmospheric conditions on this planet will be such that only those who have forsaken the husks will be able to stand up to the changed conditions of life."Such will be life under the beneficent rule of Aquarius, the Water Bearer, for is not water a purifier?-- the age of deliverance from bondage. the rule of the Kingdom of God on Earth. " Unti this end . let all things prosper"

And finally I quote from the Aquarian Gospel, chapt. 157 and suggest you compare it with Math 24. 27-30. and Luke 21. 25-28.

" And then the man who bears the pitcher will walk across an arc of heaven; The Sign and Signet of the Son of Man will stand forth in the eastern sky"

The Man with the pitcher is not hard to identify for it is none other than

Aquarius of the Zodiac passing from the arc of the heavens . the Sign and Signet of the Son of Man is harder to identify. perhaps some of your readers can help here. but it is certain that the planetary conjunction of Feb. 1962 was a primary sign concerning this very prophetic statement. Considering the Basil Stewart wrote this 17 years ago it is also very significant that his words being based of the Bible are a far more reliable guide than the sayings of Adamski. who after all in his religious upbringing could have hardly been schooled well in the prophetic writings of the Bible, and thus this alone explains why he is not able to foresee that which is given to others. for without the prophetic chapters of the Bible as a text book. world events today can give man only one hope , and that is as Adamski has predicted that man's only hope lies within himself for DELIVERANCE. and hence his fevered attempt to do so. but he does not count on the great celestial disturbances which are about to take place and their effect on earth. of which man had no control or ability to handle, or predict without the resort to the writings of the inspired men of old.

Man has his part to play. , mainly that of Obedience to the Divine command to CLEANSE himself of his ways. which can only be accomplished by humbling himself and submitting himself to the Divine Plan for Deliverance and the Restitution of his pristine state of walking with God.

Plans for the Brotherhood of man , with out the help of God is purely and nothing more than a plan of opposition to the Divine Plan. hence it is tantamount to saying "We do not need God ". for MAN can do this without Him"

Analysed therefor very carefully Adamski says he has been given these instructions to aid man to bring about his own deliverance, and to impart this information to the world. even claiming he has been to Washington to confer with those in authority. yet giving no proofs that he did just that .

Not once has he suggested that we fit ourselves into the Divine PLAN, nor has he inferred that such a plan for man's deliverance exists within the plan he has claimed to put to mankind, he talks a lot about the Silence Group etc and their sinister power, which no well informed person on earth cannot admit is in operation, but the amazing part is that all which he suggest to man as the WAY OUT is exactly what the Silence Group plans for world dominion, and like him they do not envisage any fitting into a Plan for man's deliverance coming from anywhere but himself, and any thought that a Divine Plan is at work is strongly discouraged the same as Adamski suggests. but what a shock awaits all these folk. , and they have not long to wait, e'er the heavens themselves will show forth the prelude of the great drama to be unfolded.

Thank you for your stand. for as you have stated " It is time we stood forth and declared whose side we are on.

I am not deluded by the fact that Adamski has been granted audiences by those high in authority, some secretly, for even they have to make their choice, and have a right to listen to his side, and decide and evaluate his claims.

Pray God they may also give heed to the Divine claims.

We have been warned enough to watch out for those who would say " Behold He is here " etc etc. " This is the way " etc etc. and are strongly enjoined to give no heed to their cry. Thank God for men who will take their stand as you, and it is to be hoped that many more will arise and stand beside you.

The Aquarian Age has begun. The forty years of the cleansing wilderness experience must take place to fit us to enter into the setting up of the New Age The Kingdom of God upon Earth... Yours. "VERONICA"

MORMONS BUILD HUGE TUNNELS FOR RECORDS.

"SPACECRAFTER" July . Dec. 1962

The Mormons have built four huge deep tunnels into the mountain range of Little Cottonwood Canyon which abounds in granite formation for the purpose of preserving their geneological records.

It was from this same place that the material was taken to build their magnific buildings and edifices in Salt Lake City .

This impregnable bomb shelter is not for self preservation of the population but for the purpose of preservation for all time of the above records which are highly valued by these people, and forms a part of their religious belief. The tunneling which will be completed by December . will cost about \$1,700,000 and dig into the mountain side high above the winding mountain road. to a depth of more than 600 ft .

A church official said " Even if an atom bomb exploded outside , the records would be safe , " " These tunnels have been made to last forever . "

There are four tunnels in all and they are sealed off by huge gigantic bank vault doors, each more than a foot thick and the heaviest weighing 14 tons. Humidity inside the vaults can be controlled at a constant 50 p.c. so the records can be stored " through the millenium" according to the Mormons.

It even has its own water supply that would remain unbluted by an outside nuclear blast .

One point that puzzled your Editor was that he always understood the Millenium was to be years of perfect Peace on Earth. and therefor he could well understand the care for such preservation prior to the Millenium. but why this care for such DURING the Millenium. perhaps one of our Mormon subscribers will explain this. ?

This small but very excellent magazine is well recommended by your Editor. and this particular edition contains some very excellent items one which we hope to have space to reprint at a later date which is the prophecy of Joseph Smith the Mormon founder known as the Great White Horse Prophecy. It must be understood that the Editor is NOT a Mormon. and therefor in common with the policy of this paper quotes freely from any source information which may be of interest to our readers.

SCIENCE SUPPORTS OLD SUPERSTITION .

"ADVERTISER " 7/10/63

Science has come to support the superstition of farmers who for centuries have insisted on planting their crops during a new moon .

The assistant -director of the National Foundation of Science, Dr G. Keller has told a Congressional appropriations subcommittee that reserach at the New York University indicates that farmers may be right in believing that crops grow better if planted during a new moon .

Researchers after studying weather conditions records going back 91 years, discovered that the chances for a heavy rainfall during a week after the new moon and full moon were up to three times greater than for the week preceding the new moon .

Dr. Keller added that studies in Australia and N.Z. revealed the same effect in the Southern Hemisphere.

A BLASTS REPORTED ON MARS.

MUSHROOM CLOUDS FOLLOW LIGHT. "NEWS" 24/10/63.

Washington. Today mushroom clouds of the kind associated on earth with atomic explosions, have been observed on Mars, according to scientific magazines in Russia and the U.S.A.

The Moscow magazine Smena said recently that bright flares had often been observed on the surface of Mars and, after some of them, mushroom-shaped clouds had been seen.

The magazine suggested that a space-craft flying within 600 miles of Mars would be able to take telescopic photographs which might reveal details of the phenomena. Smena added: "Attention should be given to those details whose real nature would be disclosed by the photographs—details which observed from the earth are so ill-defined that sceptics are inclined to deny their existence."

This was not the first reference to the Martian flares and cloud formations. Dr. Frank Salisbury, of Colorado State University, alluded to them in an article in the U.S. magazine Science last year.

"On several occasions" Dr. Salisbury wrote, "observers of Mars have noticed a bright spot of light lasting about five minutes."

"Sometimes this has been followed by a rather distinctive white cloud, which grew in size and faded after about an hour."

Dr. Salisbury reported many reasons for believing that some sort of life exists on Mars. Many Russians share this belief.

Russian scientists reported recently the discovery of minute primitive insects among the lichens and stone moss in the Antarctic.

They said the discovery was of interest to astro-botanists.

"The fact that living organisms can exist for a prolonged length of time under extreme subzero temperatures," the Russian report said, "may change views as to the possibility of the existence on life on other planets".

MT STROMLO ASTRONOMERS SEE STRANGE OBJECT.

In May this year two astronomers from Mt Stromlo Observatory became mystified by an object which flashed across the sky on 29th May. They are Prof. Bart Bok, director of the observatory, and Dr Gollnow, both who strongly discount the possibility of it being a meteor. for they said "It was far too slow" and Dr Gollnow added "if it was it would have left a trail"

It was also observed by one of their assistants.

Checks made later with Civil Aviation revealed that there was no aircraft in the vicinity at the time. Although later the RAAF. said that a Vampire jet flew about Canberra at the time. although this was not seriously considered by the scientists, since they apparently feel that they are still in a position to distinguish between the orange-red self-luminous glow of an object and the bright recognition lights of a Vampire jet.

In an announcement made later by the A.B.C. Radio. in great detail the announcer who covered the report for 5 min. stated how convinced they all were that "there must be something in the existence of unidentified flying objects"
