NOTICE TO READERS AND SUBSCRIBERS.

In our last edition we explained how that our issues had been increasing beyond the normal copies of 6 per year due to so much news of interest to hand, plus articles which we felt our readers should have. This meant that if this maintained it would be necessary to increase the number of issues per year and with it the subscriptions. We however have given the whole much consideration and feel that the subscriptions should remain as normal, with the proviso that if the number of issues are increased during any year the subscriptions will be adjusted accordingly.

We have therefor made th decision that PANORAMA will be 6 copies per year , but not more than eight.making normal subscriptions 12/- per year but where extra issues are made above normal it will be no more than 16/- oer year

In view that a number of other magazines issue only 4 issues per year and charge in some cases more than we do. we feel that this is reasonable.

For Full members of UFOPIA who pay One guinea per year which entitles them to in the past the 6 copies free as members. there will be no increaso. and they will recieve the 6 to 8 copies irrespective.

Will Full members of UFOPIA please note this and that in future their subscrip-tions will include all copies each year and will fall due at the endof the 12 months from joining as full members. this we hope will clear up any little mis-understanding which may have arisen re subscription notices which have been sent recently to quite a few.

In the case of normal subscribers to the magazine, there may be those who would like to assure themselves that they will recieve any extra copies issued above the contracted 6. in such cases they may prefer to subscribe the 16/- and in all such cases the credits will be adjusted according to the number of copies issued. if 6. then they will be credited with the 2 extra copies for the next volume , or if 8 then they will not be behind in subs as has occurred recently.

We feel that this will meet with the approval of readers as most prefer to have ALL the news they can get . hence any extra is generally considered worth while.

Due to the fact that the Editor has written a four page article dealing with the Bender experiences and others who like him passed through strange and weird experiences during 1954-56 he feels that this will cover the normal editorial as such. He would like to thank the many readers who have expressed their ap-preciation of his editorials from time to time and the encouraging words given such make the heavy work of producing this magazine single handed well worth while, and inspire him further to go on Thank You. THE EDITOR.

THE ALBERT BENDER MYSTERY ?.

Despite the publication of the book by Gray Barker concerning the close up of the work of Albert Bender and his story which it contains, the mystery seems somehow never to have been solved by his writings or of those who have tried to explain the even more stranger details which are related therein. The latest is given in Ray Palmers very fine magazine Flying Saucers a magazine we can well recommend to all readers. 35 c. 6 issues per year.

Write Flying Saucers Wisconsin. Amherst. P.O. Wis. USA.

The article referred to is by Jerome Clark who covers the matter very well except that like many he lacks the full information of the Jarrold affair as and as result can only judge by the evidence he has to hand.

To return to Bender. .. For some strange reason Barker when getting out his publicity of the book of Benders story. sent around reprints of the copies of Benders magazine Space Review Vols I No1 and Vols 2 Nos 1to 4. but despite the fact that Bender published two more after those Barker makes no mention of them, or even attempts to print them and as they came just prior to the Bender close up. it is only to be expected they may have held some clues. We mentioned this in a volume of Australian Sauser Record but no one seems to have queried why these last two letters of Space Review were never printed or mentioned. For the benefit of our readers we have scanned our copies and find that although they contain very little more than we know now of what Bender has said. these two copies Vol 3. Nos 1 and 2. came out after his final announcement in Vol 2 No 4. No 1 contains views regarding mans attempt to get to the moon. and is hardly worth reprinting if in search of clues but No 2 does on the front page contain some very good hints as to what was uppermost in his mind efer the final close down took place.

We reprint Page 1 of Vol 3 No2. for your own evaluation.

" ARE WE LIVING ON BORROWED TIME ?"

Many people wonder just how secure we are on this planet known as Earth. Writers through the years have expressed their opinions in this matter and many of their theories are discussed here.

The idea of the hydrogen bomb war in our present day, is foremost in the ways in which the Earth could be destroyed. Man could very likely bring about the destruction of Earth. The destruction and havoc from the hydrogen bombs would be vast, but the contamination of the atmosphere may be even greater. Yet man is still contemplating an even more powerful weapon than the hydrogen bomb, when they discuss the dreaded cobalt bomb. This could lead to the annihilation of all mankind. If the first cobalt bomb is dropped it may very likely be the last cobalt bomb.

The possibility of the sun exploding would destroy not only the Earth but the entire solar system.

The sun might burn itself out, and the Earth and the other planets will become balls of frozen matter.

The planets of the solar system keep their positions by a mutual pull of all for each other. If by chance this attraction was increased or decreased, some planets, if not all, could go hurtling out into space or fall into the sun.

Albert Bender Mystery (2)

What would happen if the Earth stopped suddenly rotating on its axis?. It would be either day or night on one side of the planet. The side facing the sun would boil beneath its rays and the opposite side would find temperatures below zero. It would be another ice age.

A comet or meteor could suddenly strike the Earth and not only cause tremendous destruction, but may also throw the planet out of its orbit and send it into space.

If our nearest planet, the moon, should lose its attraction it might very well fall to the Earth by the gravitation pull of our planet.

Some of the people of today do not know that the ice caps of the Earth in the polar regions are increasing in size and may suddenly engulf the Earth. The Earth is becoming topheavy and when it gets too heavy it will tip to balance itself.

Another possibility would be the sudden cessation of rain or moisture in our atmosphere. This would eventually result in a vast desert and everyone would die.

In summing up all of the above, we might add that some of the above may not happen for billions of years, some may not happen for millions of years, and others may happen THIS YEAR. (Copy Dated April 1954 . exactly a decade ago)

Now compare this with the book and the views of Antarctica. also remember Bender admits having been seriously dabbling in the macbre of Black Magic. Could it be that the foreboding thoughts were the outcome of such meddling in the powers of negative thought, or was he really trying to tell us something in the last epistle put out by him and as far as I know never been reprinted by anyone before. for after all this is the final Editorial he gave out despite Barkers claim that his reprint was the full reprint.

Although he gloomily foresees that it may happen " THIS YEAR" and the capitals are his. events did not prove him right. but it is not to say that he may have been out in his calculations, this can happen to even good scientists. Was it some ill portents such as this which was conveyed to him and Jarrold, that scared them? I think not. It is well established that the events which scared them all Bender. Jarrold. Fulton. Mitris. Stuart. Rockman: and myself were not so much as information relayed to them, as the effect or how it was relayed. For in every case they all had weird experiences, I should know, we exchanged experiences after it happened. each not knowing at the time that it was happening to the others. There sure were nasty forces at work. and as I advised them all at the time especially Jarrold. Stuart and Fulton. The only way to combat it successfully was to use the Power of the Christ in Jehovahs name. Fulton heeded my words and saved his wife further trouble. For Stuart it was too late as it was to Bender. Jarrold however never even replied to my advice and when later I saw him personally. he was one of the most scared men I had ever seen. for he looked and talked like a man who had come through hell. He HAD. but not as a conqueror. Many of the stories which have been printed about Jarrolds experiences are grossly exaggerated. for book selling purposes I presume. and others are contradictory to the facts as I have them. and remember It was given into my hands to clean up the mess of the

The Bender Mystery 3.

aftermath of bewildered people who were his followers here in Australia. and which led me to become the leader of them.

Everyone of these experiences including my own were all of Negative forces trying to create fear and so much scare us, that we would "get out" of it. but having been instructed in the powers of Light. I was able to come out of it by using those benign forces against those which played such a devilish work with us all.

As far as I know, and I say it most humbly, and not to my own credit of powers but to the Praise of the Great Architect. that of all and every one of those who so experienced those dark days of 1954 to 1955, I am the only one now still operating as a leader and not forced OUT YET.

I cannot but admit that there have been very subtle forces at work here in Australia to do this in a completely different way than that tried before. to which I nearly succumbed as all my readers know in the crisis which arose a few years back. but again I used the same powers given me and have so far prevailed. I said then and say again if they can't get you one way they will attack in another. WHY? What was it we all had they did not want us to make to public????? Why is it that all those leaders are no longer active. ?.

Am I wrong in presuming that the very thing which gave me victory is the answer? And the bigger mystery to me is Why were only a certain number so affected? For there were many more leaders besides us. Did we discover something they had not?.

Returning to Jarrold. The man he claims visited him was according to an associate in Sydney, very well known to us, and to all Saucer leaders in Australia and certainly not a man from space. or one who even wanted Jarrold closed up. On the other hand events which occurred over the years since have made me very "cautious" and I have seen what I feel is a clue to some of the Jarrold mystery and probably the Bender. In being able to recognise certain people around Jarrold at least who may have been tools of the Negative organisation. in fact I'm pretty sure now they were. so likewise some of Benders "visitors" may have likewise been also "agents" for them for there are everywhere. in all countries. and the only power they fear and cannot overcome is the Christ Power for they are agents of his arch enemy. whose plan of world conquest seems all most to be fulfilled. But the Great Architect has other plans for the structure of the Building of the Kingdom.

Frankly I do not profess to know the answers. I admit I have a few more clues than most because of my being a part of the plan as one of the selected "victim". I certainly would not like to go through it again. and feel I won't for if they attack me it will come in the unexpected way. not that which I am aware of. and able to foresee. The Master has taught me to be cautious and with HIS POWER I shall still be seeking for the TRUTH. and the mysteries of the Saucers and what it all means may be made known sooner than we dream.

To me the most puzzling thing is. the time period..For all these incidents happened to us, i.e. those mentioned above. (if there were others we were not aware of them as far as I know.) within 6 months or so during the year 1954 but it was not till 1955 when the exchange of experiences showed us only too well, that it was not some mere co-incidence or just a personal affair, that some great drama had been played on the lives of at least 7 of us.

The Bender Mystery 14.

It is true that little is known of some of the cases, as for instance Mitris of whom I had no knowledge, until I read of his case in other journals etc. also Rockmore. I had only just began a correspondence with him and our letters in exchange were few, when I received the note to say he had withdrawn from Saucer Research and requested no further connection. Just That . Barker filled in a few of the details later in his book .

However Bender . Fulton . Stuart. all along with Jarrold. suddenly ceased all communication. and then came my own experience, till then I had no knowledge of what was going on except I could get no answers. Fulton continued to write and was worried like me as to what was going on and why Jarrold wouldn't answer our letters of enquiry. Letters flowed in from all over the world to me asking what was wrong with Jarrold. Why didn't he answer letters.?. What had happened to their subscriptions to his magazine. Then "they" struck at me.

Finally in desperation the Sydney folk asked me to do something to at least settle matters and to set things in order at least. This I set out to do. only to find that Jarrold and Bender had " closed up" .

It was after I had visited Sydney and reformed the old Society and at the request of the Sydney leaders assumed control of the newly formed society that the news began to trickle in , and the Three Men in Black story began to get around. and with the exchange of information we found out that 7 of us had been going through the mill all with similar experiences, some more dramatic than others , according to what we were told by the victims, Fulton closed up quietly. and I was left out of the 7 , still in the running .

Now , does this mean that saucer work is evil and that good people should stay out of it? Hardly. Is that not just precisely what these sinister forces, whatever they were , were trying to make us do. and if they are sinister must we not resist them? Are we to give way to evil , and the suppression of TRUTH?. After all it seems that since then no one has complained of any of these odd happenings in their lives. and there are thousands of workers now in the field. none of whom even hint at such attempts to silence them .

Any silencing seems to be done on an official scale by governments.

No one seems to get any harm done to them. so why worry ? Maybe that year 1954 was some special year for the dark forces to have a go to see what they could do. and it seems they were pretty successful for they claimed six out of 7 a pretty good score I should say .May be I wasn't worth worrying about so they just left me feeling good with their record they had made.

One thing I wish to emphasize is , that NO ONE should be afraid in this work nor need they be AS LONG AS THEY BELONG TO THE RIGHT SIDE? if you don't then keep away from any participation in any groups which dabble in the negative occult. In fact I wouldn't even dabble in any occult work if I wasn't sure just what and who were the forces behind it. Keep to the factual side of saucers if you are not equipped to handle the deeper side and no harm can come your way . For it is still a good motto today and well worth consideration " Feels rush in where angels fear to tread " . Unless you are called to such and equipped with spiritual power. remain a factual student. and you cant become another Bender Mystery .

The EDITOR .

=====

A MOST UNUSUAL EXPERIENCE
WERE THEY SPACE MEN ?.

I am purposely writing this experience the next morning of the incident so that everything and each factor will be completely fresh in my mind , and that I may register it for I feel that I shall meet again these two men Someday . Today is July 15th 1962. Time 10.a.m. about 11 hours after the most unusual experience to be described.

I was on my way home after attending a lodge meeting, and was being driven home by a friend and brother of the lodge, who was witness to the actual incident, in fact as will be seen , he actually was the cause of my being brought into contact with these two most unusual men.

Just outside of Adelaide , one of the main tracks leading North from the city is a hill known as Montefiore Hill, a very well known land mark overlooking the city. My friend in his car was proceeding up this hill in the direction of my home some four miles away, and we were half way up this hill when he suddenly:turned to me and said. " There were some fellows fell off a motor bike there, Did you see them ? . " I replied " No" as I was on the opposite side and had not noticed them . He pulled to the side and stopped the car and said, " We had better go back and see if they are alright". We both got out, and went back a dozen yards or so to the opposite side of the road, to where the Scooter lay on the ground, and the two men stood up against the railing of the fence surrounding the track down the hill.

We naturally intended asking how they were, but our first question was somewhat taken aback by the appearance of these two men, for they were very oddly dressed, and what most surprised us was the fact of their long hair, their attire and general appearance at first made us think they were " beatniks" Their Long hair seemed to be very tidy however for such. The driver, or he who seemed to be such. and seemed a little older than the other had very fine red hair of a rather soft shade. with a beard . the hair reaching down

WERE THEY SPACEMEN ? (2)

to his shoulders , as also did the other young mans.

His beard was not very long just fuzzy and around the chin, the other however had very fair hair indeed and was very blonde in every way . his face was much paler, which we thought was due to shock .

Their faces were very pleasant and had a most calm expression . this fact disconcerted us because we could not fit the type of face into that of what we first thought them to be " beatniks" whose whole manner and faces are most strained and certainly not calmly controlled as were these men .

Their age could not have been more than 25 years by our standards and the fair one whom we termed th younger, seemed a few years younger than the other.

We both asked them if they were hurt in any way , and if we could do anything to help in any way , but on each occasion their answers were always in monosyllables of " yes" or " no". to this query the elder said " No".

It did appear to have a unusual sound but not exactly an accent. just more softer than our harsh Australian accent. but good English . This was very noticeable to me as being a musician , I have a keen ear for sounds and accents.

To return to the elder ones description . He was dressed in a short kind of overcoat , a jacket type, with a jumper underneath and obviously some sort of suit under that , this would not be unusual as the night was a little cold. He and his companion has neither of them any headwear. which seemd unusual for motor or scooter drivers who usually wear some form of helmets in these parts. it was this fact which made their hair so very noticeable. as had they had head cover it would have hid most of this. Their hair seemd to have been blown around a lot, in the wind. Below this jacket he wore a very tight-fitting pair of check pants of very thin material the colour tending to green check . He was rubbing his wrist, and I put out my hand and held it. his skin was soft to feel. I asked him if it was badly hurt, and he replied in the negative, and then he made a movement with his hand and arm , and in my concern for him I did not at the moment consider anything unusual or recognise a very well known and definite sign known to me, in fact it was not until I got into the car that I recalled it. My fellow driver would not have recognised the sign, because he is not taught along the same lines as I. and thus would not have given any consideration to it . He like I thought the man's arm had been hurt .

The man then lowered his arm and hand, and then as he did I followed the movement unconsciously and saw his pants had been torn at the knee, my friend drew his attention to it, and said, " You've torn your pants" " Is your leg alright?" He said "Yes" and then I noticed the inside of his pants at the knee , instead of underwear he had an undergarment of material dark-reddish in colour similar to what I had seen occasionally on airmen . I followed his legs down to his feet, and noticed he wore most unusual boots which seemed to fit into the ankles . the whole being drawn up around them . the leather if it was such appeared to be very soft type of material .

My attention at this point was drawn away by my friend, who began to speak to the other man , the younger , . He seemed very white and pale and he seemed much shyer than his companion . His face too was rather more effeminate in

WERE THEY SPACE MEN ? (3)

appearance than his fellow. so much so that my friend and I at first thought he was a girl or young woman , for it was a beautiful face for a man . However he was dressed as was his companion in the same form of attire. Their garments seemed dusty, but this could have been a deception due to the street lighting .

They still leaned against the wall of the fence and did not seem to want us to help them further . we bent down and picked up the scooter and stood it up from its fallen position on its side. and placed it closer to the fence away from the oncoming traffic which was fairly busy at the time . Reflecting afterwards I regretted I did not pay more attention to both of them . One thing I did recall was the formation of their faces which was not the usual cast as they both had very wide foreheads. certainly wider than most Australians . Nordic somewhat but unusually so. Their height I would say would be about 5 ft. 10. the younger appeared shorter but this was hard to determine as he stood against the rail all the while and the road was slanted which made it hard to assess. They were perfectly normal except for their unusual dress and their longish hair. and very effeminate faces.

Their shyness seemed to be embarrassing to us all as they seemed as though they did not want to continue the conversation or prolong the incident . They did not thank us in words but seemed grateful. and nodded at times in answer to our questions as to their welfare.

We both felt we had done all we could and after my friend gave them some friendly warning not to proceed until they were better . and safe to proceed.

We left them still standing at the side of the road and returned to the car and proceeded homewards, and it was after we had started my friend seemed perturbed and said to me " What do you make of them?" I replied " they were certainly very unusual chaps" His first remark then was , " But did you cop their long hair, Do you think they were Israelites"?. (Along haired sect that very few exist in this State). I said " they did appear like them , but Israelites wouldn't dress like that. they are most circumspect in their dress" He said. " Yes. that is what is so puzzling they could have been " beatniks? but seem far above that type." I said " No, they are not " beatniks" that's for sure" whatever they are they are a cut above that".

We continued discussing them mostly trying to fit them into a normal pattern with no success, until I reached home and said goodnight to my friend.

On going inside my wife greeted me by saying " Well you missed a good show tonight on T.V." " They had three chaps on the Art Linkletter show " People are Funny " all of them were flying saucer chaps you know about. " I was very interested , and she explained that. Geo Van Tassell, Gabriel Green and Calvin Girvin had been interviewed by Linkletter on his show , and remarked how interesting it was.

It was then that it struck me , and I found myself wondering about the two men of a few minutes before. I had my Lodge Regalia case in my hand, and like a bolt from the blue. I saw the young man making the gesture and movements with his hand and arm , and immediately recognised what I had failed to do before . that he had given me a defiant sign to which normally I should have replied. and had failed to do so in my own stupidity .

WERE THEY SPACE MEN ? (4)

I must add here that I had always felt should I meet a spaceman he would identify himself to me in some such way . Why I do not know. except that Adamski's man from Venus did make certain signs with his hands which G.A. did not seem to understand ,which was understandable to me. The Footprints too had revealed to me that they KNEW those signs too.

I was really annoyed with myself for I wondered was I deceiving myself, or was it a defiant effort on his part to make himself known to me. What a fool I had been if so. In this mood I retired. reproving myself for not being more alert .

Next morning I went to Church and when in meditation I seemed to see the men again and it was though he mentally projected himself in my mind and said "I had to do it that way to ALBERT you, being dressed that way was the only way we could appear among your people and not draw too much attention in the time allowed us, by this means we were able to let them think we were just some unusual type of fellows . but we will come again WAIT. We WILL CONTACT YOU AGAIN "

Was my reasoning running riot ,?. Was I deluding myself. ?.
On coming home I wrote the whole account down as above.

Later I made some further enquiries from my friend to establish one or two facts. which were not clear to me which were not given in the above. I asked him if he actually saw the men fall off the scooter and was it that. that aroused his attention ? . He quickly replied " NO" " I just saw the bike on the ground and the two standing up against the rails, and SOMETHING TOLD ME THERE HAD BEEN AN ACCIDENT " (Caps. mine) .

Actually then he saw no accident, he was unconsciously drawn in his attention to the men , and by the fact that he saw the bike lying on the road. . he could not explain why he thought there was an accident although the bike lying on its side instead of being propped up may have caused this.

When we approached the men the appearance was such as to cause such a presumption although it must be remembered THEY DID NOT SAY THEY H AD AN ACCIDENT. WE ASSUMED IT.

Another strange fact was that it was still in gear when we picked the bike up.

Three nights later my friend said to me " You know I can't get those chaps out of my mind. " . Not letting him know my thoughts or wild ideas. I said " Why what worries you. ? " He said, " Well they were not real foreigners. but it just seemed as though they did not belong here " .
" That's what I felt " I replied. and there it rested.

This is now April 1964 a year and a half has gone by and no further signs of such contact has ever been made. Perhaps after all it was sheer wishful thinking . on my part . Perhaps I conjured into the incident things that were not even intended. Who knows . but I still say those fellows were no ordinary guys, and my friend a hard boiled business man who has no yen whatever for "saucers" or any such hallucinations still thinks that they were not ordinary fellows. For when I have brought it to his memory a strange deep thoughtful look comes over him and he shrugs his shoulders and says " Heck, he can Tell".
I cant . Can you?. Perhaps some one may recognise them if so lots know.

LIFE ON OTHER WORLDS .

=====

By

The Rev. Guy.J. Cyr S.M.
 Sacred Heart Rectory. Lawrence Mass.

" LAWRENCE EAGLE TRIBUNE" Feb 8 1964

Your front page article about Ranger-6 on its way to the moon gave me the biggest thrill of my life, because I feel that those of us who have been proclaiming that there is life on other worlds , including the moon, will be vindicated at long last .

Our natural satellite has shown us through the years hundreds of signs of life. The latest ones were detected accidentally very recently by various space scientists , who have been analysing data furnished by various electromagnetic waves of frequencies from visible light to radio waves. The "echoes" carried by these radiations reveal more or less the composition and the structure of the object that produces them .

The experts here and abroad have simulated the lunar surface many times in various ways using all kinds of rocks , pebbles, powders, and combinations thereof. They have not yet found a satisfactory model that will stand up in view of all the established facts and principles. However, they generally agree that the material is lifeless , whatever it is. But on the other hand, as far as some of the " insignificant" points are concerned, we found plenty of disagreement.

IN MY JUDGEMENT YOU will never reconcile these differences, because you will never account for them , until you consider a vegetative model. Suppose, for instance , that the "terrains" which reflected the above -mentioned waves were, not dust, not rocks nor the like , but trees with stems and leaves covered with a dense, wooly growth. I suggest you have there a perfect model.

Note how well this theory matches the expressions today's scientists are using to describe the material on the lunar surface inasmuch as it reflects various electromagnetic waves. There are " deep holes, vertical walls , " and "sharp" edges" : Others : The powder has a cobweb -like structure." Another team: There are " deep layers of fluffy material," Still others : The surface of the moon is " fuzzy to a depth of about 1/2 inch, having mostly open spaces as in reindeer moss... its a skeletal fuzz."

How do these expressions match my hypothetical lunar forests, which I contend have been discovered by means of these electromagnetic waves ? . First consider the wooly. sheep like bushes and trees that grow here on earth. v.g. on the Santa Maria Mountains , north eastern Colombia. Through eons these species managed to survive and were " selected" by nature because they succeeded in adapting themselves to the opposite extremes: very hot and dry summers alternating with arctic winters .

On the moon the "deep holes" discovered by the experts would be spaces between trees; the "vertical walls" would be the sides of these trees. And the "sharp edges ?" Sheep and muskrats have sharp edges when seen from a sufficient distance . No these trees would be wooly -like sheep. The cobweb -like and skeletal

LIFE ON OTHER WORLDS Cont. (2)

structure discovered by others is fully explained by the wool-like growth that would be kinky and, or ramifying in all directions.

AND HOW ABOUT THE MAIN contradictions in the findings of two different teams of equally qualified experts?: "Deep layers of dust," versus "Thinlayers of dust about one inch thick." If it's really dust. I don't see how you can reconcile the two; if the "echoes" came from wooly trees such as I described, the two descriptions fit perfectly together in the same picture and there is absolutely no contradiction .

The scientists who "saw" the thick layers of dust . were "looking" down vertically at and through my soft, wooly trees. The other one apparently contradicting the first was using shorter wave lengths and getting more details : So, he probably got his "echoes" from the short, dense woolly filaments protecting the large, thick and rubbery leaves.

If the cameras of Ranger-6 had functioned to resolve objects as small as a card table , I would not have been surprised if they had proved what we of the " lunatic fringe" found out a long time ago: Man is not alone in the universe And by the way, we are as weird and frightening to some of them as they are to us. I know at least one earthling like that: I shave him every morning .

oooooooooooooooooooooooo
 " V A L E "

In it with deep regret we announce that news has reached us of the demise of our most sincere and great friend and helper both personal and as a fellow UFO worker in the person of Mrs. Galdys .K. Ryden of Arusha , Tanganyika.

Mrs Ryden will be well known to many as the one who related to remarkable account of " Queel" in the saucer sightings near her coffee plantation which is at the foot of her beloved Mt Kilimanjaro.

Her personal visit to South Australia, her wonderful friendly talk, and most charming and gracious character will never be forgotten by those of us who were so privileged to have the very good fortune to meet her.

The Editors closely related friendship with her in correspondence made it one of the most cherished that he had among his contacts around the world. He has indeed lost a very valuable friend and helper, and it is indeed a loss which has affected him most deeply for none can lose a good friend so kindly without feeling the severance.

To her loved we extend our very deepest sympathy in their grief, and the hope that her life shall continue to act as a great example as it is to us. Because we do not believe that Death is the end of all. we feel that we can truthfully say. Mrs Ryden has but gone to further places of service. and leave with all these very suitable words to express what we feel is so true in this loss as to so many others. " Those who have passed from this world die only when we, whom they loved forget them " "VALE" "DEAR FRIEND... .

"BIBLICAL INVASION FROM OUTER SPACE. "

By:

Commander. Donald . Mac Millan . R.N.R. F.R.I.C.S.

The following is reprinted from the "National Message " of March 20th 1954. with the kind permission of the Editor. J.R. Hulley D.F.C.

One of the strangest features of our day is the increasing spate of so-called science fiction that pours forth from the publishers of this material . Their themes seem to stem forth from previous speculative scientific forecasts of the seemingly impossible, by Nostradamus, Gray the poet, the apocryphal 'Mother Shipton', Edgar Allen Poe, Jules Verne , but notably those conceived in the fertile brain of H.G. Wells.

Wells, it seems, tried to bring his strange prophetic intuitions under the discipline of his scientific training, but could never thoroughly tame them , despite his valient show of religious agnosticism . Like many, he hitched his apocalyptic soul to the now obsolete chariot of materialistic Victorian science, to find out , alas, too late, that the 'telos' (end) was overtaking mankind with all the fury of a divine judgement , contrary to all his earliest expectations.

PITIFUL DISILLUSIONMENT.

' This is the end', he writes on his deathbed with pitiful disillusionment. ' There is no way out or round the impasse' Again, ' Our world of self-delusion... is like a convey lost in the darkness on an unknown rocky coast.' He records his disillusionment with a lucidity attributed in vain by some apologists to sheer senility. He has been deceived and he knows it at the last; but his pre-occupation with the 'telos ' or judgement, does not abate.

His earliest prophetic venture, " The Sleeper ' Awakes", published in the late 19th century, is a brilliant forecast of the prospects of an agnostic mechanical advance, including flying, radio, abd all the modern circus, with the inevitable regimentation of mankind and the darker scenes of 'enlightened man's' destruction by the spectres lying dormant in his hideous ancestral memories of original sin .

Many think that Wells actually gave a significant fillip and directive to the course along which scientific progress has in fact advanced, and that the combatants of two wars clung to Wellisian imagination in sheer horrific self-defence. Cynics may well lament the pathetic faith of Wells in his hey-day, that the social enlightenment of man and 'peace on earth' must ultimately walk together hand in hand with progress in the paboratory, and that man (as he taught, evolved through the ape from an inexplicable miracle in the slime) would at last become like a god. At the last he ridicules the conceit of Henley's poem about man being the ' captain of his soul '.

Many now follow him with strange and almost fanatical cries to humanity of 'Repent, or be burnt! These are not the wide-eyed fanatical ' Bethel' preachers of the novelists, but the agnostic scientists including Einstein . Earl Russell, Heuer, Hoyle and many others in their ranks.

The late C.L.M. Joad was at least logical in throwing off his agnostic training some time before his unfortunate death, and bringing his mature convictions into the context of the Hebrew- Christian revelation. He died a Christian and a member of the Church of England. For here indeed , in the subconscious mind of the West is the real origin of that brooding over the future events which

Biblical Invasion . etc Cont. (2.)

characterizes certain individuals in all centuries of the Christian age from Abbot Joachim de Flora in the 13th century to Professor Einstein, the latter a Hebrew.

' FLYING SAUCERS HAVE LANDED !

Jung, the famous psychologist, is convinced that one of our ancestral inheritances is a hidden memory of certain ruling subconscious ideas called ' archetypes' which out-crop in the conscious mind, and are all connected with earlier experiences of a race group. What then is the significance of the strange pre-occupation of many today with ideas involving interstellar travel, 'flying saucers', invasion from outer space, etc.?

Whatever may be thought of Adamski's recent book, " Flying Saucers Have Landed" the earlier historical part of the book gives ample evidence that such ideas have often ' out-cropped' into the conscious mind during the last three hundred years.

The Ancient Hebrew prophet, Daniel, once interpreted a dream for the Babylonian King Nebuchadnezzar, in which the human figure from 'head of gold' to 'feet of clay' symbolizes the destiny of human history in time. Is it possible that there also exists in the hidden soul of man - and thus in his subconscious mind- the outline pattern of his past, his present and his future destiny, and that external , cosmic and telepathic signals from higher spheres do in fact evoke, in some adaptive human beings, a conscious vision of human destiny and judgement .?.

The Hebrew and allied races evidence this tendency to a remarkable degree, and the Hebrew- Christian faith bases the identity and claims of its Founder- Jesus Christ- on nearly 300 predictive passages in the Old Testament, written long before He was born on earth . The time, place and circumstances of His Birth, Crucifixion and Resurrection are carefully defined beforehand, and authenticate all the necessary foundations.

But He also predicted the course of the Christian Age with wonderful precision and many are convinced that He has devoted much attention to the era in which we are now living, Jesus of Nazareth in about A.D. 33 foretold the following.

(1) The Jewish city and temple would be demolished in accordance with a particular Old Testament prophecy, because it would reject His message.

(2) The Jewish nation would undergo persecution and exile until what He termed ' the times of the Gentiles ' had expired. This time period in the Book of Daniel are precise astronomical soli-lunar cycles on the scale of a 'year for a day' , namely 1260, 1290 and 1335, and are connected with the last and Islamic ' desolation ' of the sacred sites. Actually these are datings on the Mohammedan Lunar Calendar commencing with the date of the Hegira (or flight of Mohammed in A.D. 622), and works out as follows;

- (a) 1260 A.H. = A.D. 1884. Year of the Hattı Majnun. or freedom of Christian converts from the death penalty of the Koran .
- (b) 1290 A.H. = A.D. 1917 , Year of the deliverance of Jerusalem by Allenby, The Balfour declaration on the return of the Jews to Palestine, and the Russian Revolution .

Biblical Invasion cont (3)

SCIENTISTS AND THE SIGNS OF THE TIMES..

If we regard the year A.D. 1917 as the beginning of the last era of fulfilment, referred to by Jesus of Nazareth, we can read for ourselves in Luke 21;25, in Weymouth's version, the course of events since that time.

' There will be signs in the sun, moon, and stars; and on earth anguish among the nations in their bewilderment at the roaring of the sea and its billows (also apocalyptic language for warring peoples and insurrections); while men's hearts are fainting for fear, and for anxious expectation of what is coming on the world; for the forces which control the heavens will be disordered and disturbed,'

Scientists and scholars like Einstein, Hoyle, Russell, Wells, Heuer, Joad and others have expressed their fear in exactly this manner, and atomic scientists are at one in declaring that nuclear fission is disturbing basic universal energy. It is a curious fact that the Greek word for ' heavens' in this passage is 'ouranous', from which the name of the element uranium was derived.

The scientists mentioned, excluding the late C.E.M. Joad (who as I have said died a Christian) are all agnostics, but they are preaching " Repent or be burnt" with a zeal and anxiety hardly exhibited by any modern theologian , but rather similar to the utterances of the ancient prophets and apostles whose messages they have spent their lives in rejecting or denying.

THE ONLY HOPE OF SURVIVAL .

It has now come to pass that the message of Jesus of Nazareth literally stands alone in offering survival to Homo Sapiens , for He declares that if the time of human tribulation is not terminated by a divine 'rescue' from outer space (or heaven) no human being can survive.

Here Einstein confirms the amazing forecast of the Founder of Christianity by telling us that the use of the Hydrogen Bomb would fill a great part of the atmosphere with deadly radio-active particles heralding grave consequences for all mankind and perhaps its entire obliteration .

Jesus of Nazareth again tells us that God the Creator will avert disaster for the sake of a faithful Christian remnant in the earth called the elect, or chosen ones, not necessarily because of their moral perfection. or sectarian attachment, but because of their loyalty to His message even after nearly 2,000 years, and their acceptance and proclamation of His Sacrificial Act on behalf of mankind- despite the Laodicean lukewarmness of the formal churches at the end of the Christian era, which He also foretold.

He plainly told the Jewish nation that they would see His return to earth in the divine rescue of true mankind when they had returned to their own land, and that a strange deliverance would befall His last generation of true followers. quite irrespective of their accidental connection with church sects and parties.

According to the Aramaic version He says; ' Then shall ye see the Son of man coming with a great army', in our versions He speaks frequently of coming in the clouds of heaven with power and great glory and this in plain language can mean nothing less than a literal invasion of our planet by rescue forces from outer space bent on saving fallen man from himself and Satan .

Further more, St. Paul tells us that the unveiling of the coming Heavenly Leader , Jesus Christ, will be, ' in flames of fire' , executing judgement on the

Biblical Invasion cont. (4)

godless, and those who do not obey the good news of redemption and declare it for the safety of mankind (2 Thes. 1: 8-10) Today this does not seem or sound strange as it might have done 20 years ago, and it looks as if mankind may be very glad to see its destiny wrested from the age-long Satanic bondage by the sure grasp of those nail pierced hands that were once racked on a Roman gibbet on the little hill of Calvary .

THE PATTERN OF DIVINE INTERVENTION .

Again , Jesus States that this divine intervention will follow 'exactly' (Luke 17:30) on the lines of the fiery overthrow of the ancient city of Sodom, that cesspool of vice and godlessness, on the plains of long ago, only recently alluded to by Lord Samuel when lamenting the hideous vices of our so-called Christian civilization . Briefly, the events preceding that cataclysm of judgement were as follows.

(1) Angelic ' space visitors' approach Abraham — father of the Christian faithful— and prepare for a new era by announcing the future birth of Isaac, ancestor of Jesus Christ .

(2) The ' space visitors ' then proceed to declare cosmic judgement on the vile city of Sodom because of the outcry of the faithful minority dwelling therein, including Lot and his family .

(3) Abraham — the chosen one of his day— intercedes for Sodom as he has his son-in-law, Lot, who is of the council of Sodom, and is much vexed at the evil prevailing. (2 Pet 2: 1-8)

(4) The ' space visitors' go to Sodom and declare that the city is so vile that it is to be destroyed utterly by disinfecting fire. Lot , his family and sons-in-law are warned, but the latter refuse to come with him . They leave the city in a bitumen storm and the wife of Lot lingering on the way to lament her losses is borne down and covered with salt clouds, remaining a monument to posterity .

(5) Sodom and Gomorrah are utterly destroyed by fire after Lot's party have left the city of Sodom .

RECONNAISSANCE FROM OUTER SPACE?

If this simple programme is to apply to our atomic times, as the words of Jesus of Nazareth seem to imply— even to warning us of the example of Lot's wife— what is the modern parallel?

Is it possible that a reconnaissance from outer space— or heaven— is now proceeding with the gathering of permanent evidence and data for the fatally suicidal and evil state of the mass of mankind, and the danger of allowing atomic power to be abused by Satanic or uncontrolled forces aiming at planetary destruction? Is this the real secret of the several inexplicable manifestations near or in the earth's atmosphere of what appear to be sealed-self-propelled vehicles from outer space ? (See Daily Mail, 10/2/54)

Are such strange missions embarked on in anticipation of future operations for the salutary invasion and rescue of mankind from their mental and spiritual chains , and the universal balance from our foolish actions?. Certainly over all the earth there is now rising from faithful men and women— followers of the faith of Abraham , as Christians— a chain of intercessory signals to God through His Son, which corresponds to the actions foretold of the 'elect who cry unto Him day and night' and who would avert a final annihilation of man.

If so, these have the promise of world-deliverance coming from OUTER SPACE, at the last challenge, in accordance with the words of Christ in Math 24:22 and Rev. 20: 1-3.

Is it significant the the Roman Europe, in the last book of the Bible , is called ' Sodom and Egypt'?. Even Moscow is the third Rome in history .

Shall Britain turn to God and become an island of lay priests , and so fulfil the promise given to the prophet Joel when he saw in a vision ' wonders in the heavens and in the earth, blood, and fire, and pillars of smoke'?. For this prophet declares , with the Christian apostles, Peter and Paul , that in the midst of such scenes it shall surely come to pass that ' whosoever shall(habitually) call on the name of the Lord shall be delivered'.

In the days of Elizabeth 1, our island , firm in Biblical lore, was saved though ravaged with flame. So it has been again and again in the days of Napoleon, Kaiser Wilhelm, and Hitler .

Is there time for us to turn back in real earnest to the vision of Jesus, the prophet of Nazareth, and in His Cross and Holy Name give back to humanity its chance to qualify for its true destiny in the days of Elizabeth 11?

Surely this the burden of the New Covenant which is made with a House of Israel that must ne manifest in the world, and has been redeemed by Jesus Christ our Lord for world service to all mankind. For the gift and promises of God are unalterable and cannot fail . Faith in the sacred Death and Resurrection of Jesus Christ, Who is Very God, is the only hope of mankind, and that hope is guaranteed by Heaven .

oooo00000000oooo

We indeed thank the Commander for his outspoken message and which has much in common with many students of the UFO and their own expressed veivs. Although written as far back as a decade ago it more than ever brings home the great truths spoken of.

Your Editor going through old papers found it and considered it to be so timely that he felt it worth while passing on to his readers.

He endorses all the views expressed by the Commander. with a very few minor exceptions. as to who Palestine really belongs to. but such minor points do not detract from the endorsement of this message as to what he has felt for many years is the answer to the Flying Saucers and also the worlds problems of today. For despite many who are sincere UFO leaders who scoff or belittle the spiritual views your Editor still insists as he has always done that the only answer to our world problems and that which will save us from a calamitpus annihilation is Divine Intervention, of which he believes the Saucer are part of the Celestial programme for the fulfilling of such dramatic sequences of events that will stagger the mind of man and make him realise that God alone is the final answer as to who shall rule this world. and control its Destiny The Satanic forces now living on earth have already set their programme and its apparent fulfillment is almost accomplished, and would appear that nothing can stop its final achievement , but they have not counted with the Hosts of the Mighty One of Israel. Hence unless we have such intervention they would have dominion completely as they think they have it now. and only await the few remaining years to enforce it on the deluded hordes of humanity who have fallen for their guile and insidious programme fed to them from stae and the false prophets of the modern Laodicean Church of today .

EVEN SO. LORD JESUS COME.

ODD LIGHT TERRIFIES NEW GUINEA COUPLE.

The following report was received too late for inclusion in our last edition but we feel it should be taken into account with the many listed in that, as it shows another one to be added to the list given of events around Australia and especially South Aust at the very time .

RIBAUL. Sat 7th March .

A young head master and his wife said they were terrified for 3½ hours earlier this month by a " ghostly light" which appeared mysteriously in their bedroom .

John Hoban , 21, and his wife Donna 19, said " a globe of light without any centre " shone at intervals between 1.a.m. and 4.30.a.m. on Feb 10th.

Three years ago a similar light was said to have terrified a native houseboy who ran into the bush and refused to return .

Mr. Hoban said in an interview that the house was too far from the road for car headlights to have shone through the window.

He had checked and found no way the light could have entered.

Mrs. Hoban said the light was featureless and she had an uncanny feeling it was watching her . " When I first awoke and saw it, I thought it was a head"

Two other people who were staying at the house, but sleeping outside on the verandah, saw nothing of the light and spent a perfect night .

Mr Hoban said he had been cynical about reports of ghosts and of the supernatural, but now he was not too sure.

Mrs Hoban said she and her husband with the other two in the house had returned from a party. They sat up over a cup of coffee, then went to bed about 1. a.m. Soon afterwards they fell asleep." When I awoke up" " I felt a strange presence in the room , I opened my eyes and there was a globe of light hovering just above my face.

I looked around and instead of one doorway from the room on to the verandah I saw what appeared to be three doors,"

Mrs Hoban said she screamed and jumped from the bed and woke her husband, who was sleeping in another bed a few feet away . Mr Hoban said he was startled when his wife woke him and told him she had seen a ghost .

" She was very upset and I calmed her down, I was pointing out to her that t there was no ghostly light in the room when it appeared again ."

" I was very frightened for a moment in the face of this thing. The fact that it was just there without any apparent explanation was frightening."

He said that after watching the light for a few minutes, fear gave way to curiosity. He used a torch to check the room to make sure there was no possible way the light could have entered. The ghostly light had disappeared , but it appeared again a short time later.

Mr Hoban said at one stage the light seemed to expand from a small globe until it filled the room with a soft glow.

"I asked it to go in the name of Christ" he said, " the Light went out but about q half hour later it appeared again ."

Mr. Hoban said his wife and he continued to watch until about 4.30 a .m. with the light appearing and disappearing at intervals.

About 4.30. a.m. roosters in a nearby fowlhouse began crowing as the first light of dawn appeared. the light went out and with daylight coming he and his wife fell asleep. . (continued next page.)

New Guinea Light cont . (2)

The house is built on a three acre block at Kahakada, about 10 miles outside Rabaul. The house is of recent structure although the land title dates back to 1880, when the Germans occupied the Bismark Archipelago and had their capital at Rabaul.

Cooments..... The actual date is not given of this account. but refers to earlier this month. and as the report was not given in local papers until the first week in March it is to be supposed that this meant earlier in Feb. if this was so then it is worthy of interest and comparison to note the experience of the lady of the Northern incident given in the last issue. who on Feb 19th saw the ring of light in her room but it had a face inside the ring or halo. We do not suggest there is any connection. but rather draw attention to our readers to the similarity of experience, to be added to the files of global lights or halos appearing in rooms. However it does indicate that at that period there was certainly much unusual activity of these strange phenomena which in some cases had some relation to saucer activity .

=====00000000=====

AN EARLY SAUCER SIGHTING 1911

The following incident was related to one of UFOPIAs investigators who is well acquainted with the man and vouches for his integrity . the man is keenly interested in Electronics . saucers, and the Bible.

His story is that as a young lad in 1911 he was working on his fathers farm at Gumeracha, a few miles from Adelaide. and had been milking cows and then took up two buckets of milk to place them on a stand.

It was whilst he was carrying them he suddenly felt a sharp pain in his head and placing the buckets down put his hand to his head where the pain was. It was then that he observed in front of him some distance away a disc shaped object. It was about 10 feet across. and was silvery and glowing like the moon. he watched it for some 15 seconds and then it rose into the air and disappeared at a very fast rate into the horizon .

He had no knowledge of what it could have been at the time and felt that to recall it might cause him embarrassment .

It was only after these many years when in the company of the investigator that he felt urged to tell the story for what it was worth.

Not more could be gained from the incident except that it confirms more than ever that these things have been around for some time. and is one of the very few we have on account of very early sightings in South Australia.

=====

FIRST UFF PHOTO

The following is taken from " Letters from the Readers" to the Italian Daily News " Il Tempo";

MATTEO POMPONI, MACERATA.

The first photo of a flying disc was taken in July 22, 1897, by James B. Sturges and Jacob Davidson. They were students in natural science in Zanesville Ohio U.S.A. As they developed pictures of flying birds, both young men noticed on the plate a remarkable apparatus in the form of a lens with a dome over it, which was luminous. The young men remembered seeing nothing while taking the pictures and therefore thought this to be a defect. The picture was not destroyed. It remains and can be seen to this day in the museum of natural science in Zanesville.

VIOLENT ELECTRICAL STORM HITS ADELAIDE

FIRE BALLS PLAY TAG

On the night and early morning following of April 20th 1964. Adelaide was hit by the fiercest electrical storm ever witnessed according to the opinion of the Editor and the many observers interviewed by him. some who gave evidence quite voluntary.

Thunder roared and rolled with deafening bursts for hours and lightening struck again and again with the most brilliant effect and quite blinding to the eyes even when not looking at and with backs turned to it.

In a near by main road adjacent to the Editors residence one woman testified with her family as to seeing on looking out the window. fireballs falling, some over 12 inches in diameter and rolling along the highway and tagging each other "almost as though they were in a procession " and another neighbour said he saw them rolling along the roof tops of the houses near him .

Strangely no mention was made of the fireballs in the local records of the paper accounts which dealt extensively with the storm . this may be due to the fact that such was not reported to the paper or that they were localised in the area near to the Editors home.

One thing was established and that was that the intensity of the storm was far beyond anyones recollection, and even some of these people had witnessed some in the Northern Territory of Australia and along the Nullabor Plains , and in every case they stated that never had they known such a fierce display of electrical energy. and to put it into the words of one "It was sure a bonanza"

Hail accompanied the storm with pieces as large as small plums some held in the hand and photographed having melted somewhat were about $1\frac{1}{2}$ inches in size. Glasses in houses of roofs were smashed and as also were roofs with iron penetrated. damage generally was estimated all round the State to run into thousands of pounds.

We report t is because of the fact that fireballs so far have never been fully explained and t e fact that they have had an indirect association with all UFO study from time to time.

====000000====

FLYING OBJECT REPORTED IN PERTH WEST AUST .

An Unidentified flying object, was reported in Perth Skies last night . Mr. and Mrs. J.E. Easter and their son of Doubleview, said they saw a bright object about 6.30. o'clock.

It travelled towards the east and then veered to the south west .

It appeared to be moving slowly and at the same level .

Government Astronomer B.J. Harris said that the description did not fit any of the three current satellites in orbit.

If it was Echo 1. it should reappear at 8. p.m. tonight .

SEE TEXT PAGE . FOR FURTHER WEST AUSTRALIAN REPORTS.

FURTHER STRANGE LIGHTS SEEN IN WEST AUST.

"DAILY NEWS" Mon. April 27 1964

Last Tuesday night a Main Roads supervisor reported seeing a strange light in the sky on the Eyre Highway , 148 Miles est of Norseman . Similar sightings have been made and a number reported. but how many are never recorded— for fear or ridicule. ?...

Our exclusive circle welcomes the anonymous Main Roads supervisor— not to mention his dog -- because life can be tough if you have the courage to say you have seen strange lights in the sky .

The hardy band that has had the dourage to report sightings includes witnesses from the Ord and Turner River Stations in the Kimberleys; Norseman residents , Jan Davidson, Mrs Doris Willoughby, Vilma Bottegal, The Rev Alexander Murray, Graham Cook , Harry Deering, John Lee, At Carnamah, Patrick Covell, Mingenews, Mrs Kathelæen Saggars and Mrs Shirley Looke.

If you know what they're like in the Kimberleys. those people from the Ord River and the Turner Stations. were really sticking their necks out when they reported the sightings.

Well they had the last laugh. They witnessed the final conflagration surrounding the last and re-entry into the latmosphere of the Russian Satellite the 1962 Iota-1 (Cosmos 2) launched by the Russians on April 6. 1962.

Like every one else who has seen strage things in the sky I have feelings, so let me tell you how photographer Maurie Hammond and I became members of the exclusive LIARS club. (LIGHTS IN THE AIR REPORTING SOCIETY)

In 1958, at night about 40 miles east of Derby, we stopped our vehicle to re-fuel. Maurie was going to pour in the petrol from a drum .

Suddenly there was a brilliant light , a flash of green that lit up the area as far as you could see. " Watch out for the static," Maurie yelled. He thought with the hot night and dust friction on the car it had become charged with static electifirity, and I had discharged it, butbit wasn't— and we had to tell somebody.

Then we got the treatment. We were laughed at in Derby(but others told us secretly they had seen the light). We were laughed at in Broome, (but others told us secretly they also had seen it).

I made a report of it in Perth . There I discovered that another man had also reported it— same time , same day . He had seen it at Anna Plains, 220 miles south west of Derby. He had also followed a strage light that moved around ahead of his vehicle and he reported it too.

So when the Kimberley sighting was made, I had a fellow feeling for those people that fate had chosen to be held up to ridicule. I wrote to the Smithsonian Astrophysical Observatory at Cambridge. Massachusetts. USA.

And the had no hesitation in getting the Kimberley observers off the Sky-hook so to speak. Those observers had the vital Iota of evedidence.

It's so easy to laugh. The R.A.A.F. doesn't laugh. It has established it's own UFO section. UFO?. Unidentified Flying Objects .

West Aust reports cont . (2)

Maybe you'll start telling me about the little green men. Don't waste your time on me . Tell the U.S. Government. After all they are in deadyearnest about this.

Theyvare monitoring space with a very powerful radio recieving machine, checking radio signals to see if we are not just a wee bit complacent in amagining we are the first beings in the universe to achieve space travel.

Waht about the Main Roads supervisor on the Lyre Highway?

His dog toc, not given to hallucinations " almost went berserk,".

He could have been barking at Walt Disney's Pluto way up there. but the LIARS CLUB do not think so.

As out inaugural canine meber we are thinking of striking him another medal for his collar .

=====

Starlike objects seen near to the Southern
Cross.

We have recieved a report from one of our observers. of two strange starlike objects being seen near to the Southern Cross on two occassions. Actually in ordinary circumstances they would not have given any call for comment except that these two objects moved around and finally disappeared into the south.

Our reporter says on the first occassion about 3 months ago she was looking into the Southern sky and noticed these objects a little lower than the Southern Cross, and what amazed her was the one which was brighter than the other become to circle and osscialte around the smaller on, the time was approximately 8.p.m. finally after watching the strange movements she saw them both disappear into the southern sky.

Strangely, the same thing occurred again during the last week in April. when the performance was repeated . this time at about 6. p.m. She is positive that they were not any stars, the movements alone confirm this, and as no staellite of any nation perfoms in this way . this ruled out any explanation from that angle.

Actually the size described , that of a star-like objects. one being a little bigger and brighter than the other . and this being lower than the smaller one, does not allow for much further speculation , but one thing is very certain, no known object, on the earthly plane. , osscillates like that around another. , and the general observation seems to discount any explanation of aeroplanes. or craft of that nature. as the lady was positive that they could not be such. in any case planes do not do aerobatics under general conditions

This is not the first occassion in which similar objects from over the years have been observed and reported acting in similar manner near the Southern Cross, and in all cases they have been such that they could on no way be asso-
ciated with normal natural phenomenon.

We thank the observer Miss E. Hoffman of Lobethal. S.A. for her kindly help in ringing us about her sighting.

HITLER, THE ANTARCTIC, AND SAUCERS.

by

PIPPA BRAYBROOK

Because from time to time we receive many questions and theories re the relationship of the Antarctic to Saucers, we here reprint a very fine article taken from the latest edition of the English "ORBIT". issued by the Tyneside UFO Society . price 2/- . a magazine we can recommend to our readers. The Editor.

The idea of a possible link between an Earth-based source of the UFO, such as the Antarctica, is not new. It must be some years since we read these theories. Shaver, Ogden and several anonymous writers have put forward such beliefs. In this article, Miss Pippa Braybrook of Stratford-on-Avon outlines the basis for some of these strange ideas.

Saucer fans have long sought a link between these phenomena and reality, The Book, " The Dawn of Magic" makes the fantastic claim that Hitler was influenced by Supermen from the Inner Earth, an ancient race which will emerge to take over our world , Hitler , it is thought, had the power to destroy ice and snow. How are these ideas concerning an inhabited inner world and the significance of ice linked to the saucer mystery and the book of Job, 38. V. 22 and 23 " Hast thou entered the treasuries of snow, or hast thou seen the treasuries of the hail, which I have reserved against the day of battle and war ? . "

Before the war, an explorer in the ice region of Alaska and North Canada, was shown the map of a certain field in which lay an entrance to a hidden world, by fur trappers at the Hudson Bay Company Headquarters. In 1939, he returned to Germany with this information and was given a secret mission, with a 1,000 ton new ~~type~~ long-range submarine in order to make a survey. In 1961, Australian Saucer Record(edited by Fred Stone) carried a description by an anonymous American of a visit by saucer to an oasis in Queen Maud Land. Eastern Antarctica populated with visitors from the planet Zuna in the twin star system , Alpha Centauri, and a German contingent visited by Hitler from his hide-out in Patagonia. Two details give one some faint confidence in this fantastic information. Marie Corelli describes such an Antarctic oasis in the "Sorrows of Satan"; and Field-Marshal Goering sent an expedition to this area as late as January 1939.

A certain Commander X does not refer to an oasis but locates a submarine entrance to a sub-ice-city, east of the Prince Harold Coast at Haysbotn. The Submarine proceeds to the Belgica Mountains and makes a right angle at Mount Victor and travels to the Lambert Glacier in the Prince Charles Mountains where it enters the Subterranean city, according to W. A. South a research worker.

An anonymous American said the warm water entrance was at Vahsel Bay on the edge of the Filchner Ice Shelf on the Weddell Sea, roughly the location of the channel that Edgar Allen Poe, in the " Narrative of Arthur Gordon Pym" and Jules Verne in " Sphinx of the Ice Fields", thought bisected the continent.

Saucers and the German Condor Flight exploration , " Golden Eagle Project" enter the Lambert Glacier by a lift in the mountain top in the shape of a First War gun couple, lifted by a hydraulic system , now raised by sound vibrations, and the platform is 120 feet in circumference.

Antarctica Cont. (2)

The Alpha Centaurians who so frightened Al Bender are here to extract a substance from our sea water, and Hitler is goading USA and Russia to war, so that he can take over and repeople the Earth .

All is not black in Antarctica, as the Hofferlin Manuscript describes a Plastic domed city called Rainbow City, probably in Wilkes Land. Here dwell the Ancient Three, who guide our destinies, Venusian Serpents in suspended animation and people like Admiral Horthy, who can travel from this terminal by trains all through the world. In 1919 , a Russian, Brivsov, described a similar city in " The Republic of the Southern Cross".

Another fact is uitable at this point. " The Dawn of Magic" mentions a Turkish Officer who, a hundred years ago, discovered a set of maps, one of which traced the contours of the Antarctica as accurately as if recorded by men flying high above the Earth. " Earth's Shifting Crust" by Charles Hapgood, (London Museum Press) includes a reference to this map, on p.52, and gives it a date of 5,000 years ago or more. It shows South America and part of the Antarctic Coast, including Queen Maude Land and the Palmer Peninsula ice free.

Sauzer fans may find the mystery solved by an Antarctic Expedition perhaps within the next year, but the which country will make the discovery?.

None can deny the anxieties in everyone's minds: so much is unknown. Can Antarctica contain the clue to the solution of some of our mysteries?.

We are apt to forget the significance of the great conjunction of planets of Feb. 5th, 1962. There was apparently no immediate effect, but some observers noted the birth of a boy to missionary parents working in India on that very day. He will be brought to Belgium for his education quite soon. We can expect great things from him .

Much can be learnt from the prophecies of the past. Merlin, for example appears to have known of the vril stick or something very like it and does he by any chance, foretell the birth of the boy of 1962 conjunction of planets?. Do any of these thoughts point to the mysteries of Antarctica?.

From Professor J.M. Butler's " The myth of the Magus", C.W.P. 1948, we quote Merlin's magical lines:-

The Sybyl foretells a tale that will come to pass-
 A golden rod of great value will, for bravery,
 Be given to glorious chiefs before the dragons;
 The Diffuser of grace will vanquish the profane man,
 Before the child, bold as the sun in his courses;
 Saxons shall be eradicated, and bards will flourish.

Editorial comments.

The above cannot be passed off without due consideration however I feel that I would like to express my own beliefs here as being a little opposed to any conception that the inner earth people are the same as those from outer space or that I confirm the idea that the same inner earth people under Hitler or any one else will take over the earth. in the finality of the great drama yet to be played out, and that very soon , for to me this cuts right across the DIVINE plan set out by the GREAT ARCHITECT for the future rule of this earth which

Antarctica cont (3)

will be given to " Him whose right it is" and who shall reign as King of Kings and Lord of Lords. for any plan whether it stems from the inner earth or from the U.N. or anyother organised force cannot succeed in that they all oppose and cut across the Divine plan so set out for the cleansing of this earth from ALL that offends.

As to the reference to the " boy" from India. as to others we have the full warni ing how to view all such claims. " If they say, Lo here is Christ. He is in the desert. , Go ye not out to meet him , for false Christs shall arise etc."

Again I assert that there are two forces at work, and the main thing for one to be sure of is WHAT SIDE ARE YOU ON .

Antarctica in my opinion has a great part to play in the near future of written history . and probably will be the source of great things which will astound the world and decieve even the very elect , which means more than ever the great need of spiritual equipment that Paul urges us to be armed with. " for we wrestle not against flesh and blood, but against principalities, powers of darkness, spiritual wickedness in hugh places. Therefor take unto yourself the whole armour of God."

To the spiritually equipped who have been enowed with the gifts of the Spirit there is nought to fear. neither will they lack the insight or discernment to understand the mancuers of the above forces so clearly outlined.

The sad part is that so many are deluded by leaders so called. in church and stato. that without the spiritual equipment . the fall as prey to the many false Christs and doctrines of devils. Thank God we have His promise that we shall be DELIVERED, even when these sama forces seem to be impregnable.

Let me requote the verse at the begiining of the above article.

" Hast thou enetered the treasuries of snow, or hast thou seen the treasuries of hail, WHICH I HAVE RESERVED AGAINST THE DAY OF BATTLE AND WAR."

War against whom. is it not the above forces of darkness. and are not our space brothers the angelic(messengers) from heaven (ouranous) which have at all times been the accompanying forces to DELIVER those whom God hath preserved and cleansed and made ready for His acts of Redemption . LOOK UP.

WE ARE ONE DAY NEARER THE GREAT MORNING.
