THE BALLARAT ASTRONOMICAL: UFO. CONFERENCE.

As stated in our last edition under the auspices of the Ballarat Astronomical Society. representatives from all States of Australia were invited to attend when two days were set apart for a seminar on UFOs.

Every State was represented and delegates sent except from Queensland who sent a tape recording for playing at these sessions.

The Ballarat Society are to be commended on the great efforts shown and the undoubted success of the whole seminar. which drew great attention from outside interested people including a Jesuit Father who undoubtedly made a great impression on the whole of the folk by his open minded and very amiable personality. The opening night was given to seeing slides of astronomical views and agetting together of all the visitors.

Saturday was the big day when a paper was read by the Secretary of the Earth UFO Society Mr. Les Locke. which was very well put together and presented some thought provoking facts on the subject of "Preparing for Contact" Your Editor who had been asked to represent New Zealand Societies and with their consent spoke about the intense interest in that dominion. and also spoke briefly on his own society and activities.

The Queensland tape was then played the subject being "The Origin of The UFO" and again great interest was shown in the able manner it was presented.

After a luncheon recess very capably provided by the ladies of the Astronom-

ical Society a paper was read by Mr Ian Wannan of the A.F.S.R.S. on "The Mechanics of the UFO".

Then followed probably the "piece de resistance" of the afternoon in Mr. Peter Norris' paper on "The Occupants of the UFO". this well assembled paper and the able manner it was given aroused questions in many minds which regrettably time did not permit to have answered. This was for the Victorians Mr. Paul Norman also of the Victorian UFO society followed and he also represented NICAF of U.S.A. in a very capable paper on "Electric effect of the UFO". Then our old friend and associate Mr. Andrew Tomas of The Sydney Ufo Society of NSW. spoke on "The purpose of Coming of the UFO to earth." Whilst his paper was remarkably thought provoking, it certainly aroused a few differing opinions and alas questions again were not able for lack of time.

At 4.30 p.m. The Official opening was made by His Worship. Cr. J.A. Chisholm Mayor of the City of Ballarat. and he spoke in very interested terms in the UFO and the interrelated subjects concerning them.

Adjournment for tea was followed by a large gathering in the Ballarat Municipal Library. when Cr. W.E. Roff. C.B.E., and President of the Ballarat Astronomical Society chaired the meeting and introduced Mr. B.G. Roberts Senior Research Officer and Scientist. of the Dept. of Air from Canberra, who spoke on the official attitude to Flying Saucers and other unidentified objects.

Frankly although this young well qualified man did his best to let us know how well they approach and delve into this subject, it gave us no more information than that which we already knew and ended up with the usual now 1.50 per cent unexplainable. he hastened however to assure us that there were some which still remained beyond their answers.

No doubt he was influenced by the fact that present were the Church of England clerics in the person of Rev C. Crutwell and Father Gill both of Papuan fame as far as direct observance of Ufo. The Rev Crutwell followed the young officials talk by telling of the actual undeniable facts of the Papuan area and the remarkable sightings which took place there some years back.

The A.F.S.R.S. had given an exceptionally well presented slide lecture giving visual proof. to which later such facts were stated as being not sufficient evidence. as these were a coverage of world sighting one wonders how much more. and the audacity in indirectly calling all these photographers, including the Brazilian Navy folk as fakes. and all the other folk who have given to the world the visual proof of such.

Frankly had time permitted I would not have been in the shoes of the young official representative for I am sure he would have been torn to pieces in question by the ardent folk who were there. Sir J. Jones who was also there (Vice Air Marshall) came to the aid of his young associate by adroitly covering up in a few diplomatic words. and whilst discrediting the visual slides as "No proof" he too hastened to say that the evidence of the Papuan incident could not be "explained".

Again the whole evening was so full of information that questions could only be confined to a few. hence I feel the Air representative was lucky to get away so easily. especially after Mr Brew a dairy farmer told his experience of an actual landing on his farm and revealed how officials swarmed all over his place. much to the apparent discomfort of the air representative.

Sunday was given to forming of a Commonwealth body to represent all UFO ~~xxx~~

Societies who are properly Constituted. for united efforts in any Governmental approach or similar circumstance. each retaining the own autonomy.

These ~~jurists~~ ~~2000~~, The Victorian Flying Saucer Society. The NSW UFO Society Flying Saucer Research Society of South Australia. Our own Society U.F.O.F.I.C. and the Perth UFO Society. and on behalf of Queensland. their representative gave approval for membership.

Mr. Peter Morris of Vic. was elected unanimously as President. and Mr Andy Tomas and Mr Les Locke of NSW and Perth respectively as Vice Presidents. Mrs Sylvia Sutton of Vic. as Secretary. and committeemen to be elected.

The Name of the society was decided after deliberations to be C.A.P.I.O. Commonwealth Aerial Phenomena Investigation ~~Organization~~.

At last it appears Australia has got together and at least started some form of unification, and it speaks well when one considers that many of the societies represented having differing views and approaches. but if the open minded brotherly attitude continues which was so apparent at the seminar. it speaks well for the future of C.A.F.I.C.

One thing is certain that disunited we would have no hope of either approaching the government on matters. who I feel prefer us to be at logger heads with each other. but speaking in one voice we MAY be able to break the official silence but this as your Editor I doubt. for any one with common sense knows that any approach to the government is passed onto the Air Dept. who come up always with the usual now I and 1/2 per cent unexplained cover up. this passes back to the government who like wise pass it back to us as the official answer.

Further anyone who has delved deep into international politics knows that all governments are under the control of higher ups who dictate what shall be said or not. and if their intentional aim of uniting the world in one government reaches fruition then we will know less than we know now. this is certain. But I feel our space brothers under the direction of the Divine Plan have some thing to say and do about that when the critical period arrives.

In fact as one man today from a government dept. said to me in a private interview. "I hope your right Fred. for if we don't get some outside help. we are in for it." this brings me back to reassert what I said in my last Editorial that They, the brothers as emissaries of God will ASSIST us when we can no longer do our part to set things in order. But this does not oblove us from doing all we can to put things right as much as lieth in us.

I am well aware that there are many saucer folk and societies who do not agree with my views. but time will tell and that very shortly, all you have to do is to watch the moves on the great chess board of world affairs and already some of the major pieces are being placed into position for the final plunge into world enslavement of mankind and the overthrow of the Christian Faith and the white race with it. till we all become a lot of liquorice all sorts.

This is what is intended and every thing is set to bring it to pass. the various governmental pawns being put into place, and the strings being pulled on the puppets. But God and the Brothers from space have other plans.

So far and no further will be the command. and then the real purpose of WHY they are Here and what they Have Come for. will be put into operation.

Maybe you think it a wild dream of some raving crackpot. That's what Pharoah thought when he decides to thwart the Plan of God to deliv~~er~~ HIS PEOPLE. History records how wrong he was. as it will the modern despots who seek the enslavement of man. today. LOCK UP YOUR REDEMPTION BETTER HIGH.

+++++
"WHY ARE THEY COMING OR WHAT IS THEIR PURPOSE? "
+++++

BY. DON.ALFREDO. CALFE

To begin with we first presume that the fact of their reality and that they the saucer are extraterrestrial is an accepted belief of those who read the following, for otherwise to continue into this thesis would be a waste of time.

The prime factor which we end up with in all our investigations of these craft, after having studied the possibilities of where they come from? What is the means of their propulsion? or What type of beings are using the Saucers?, all lead back to a very important query, and to me it is the most important one of all. for it is the final answer in which we ourselves our very much affected and should be concerned about .

First let us examine some of the various ideas which have been expressed to answer it, some of which of course have little logical value when examined in the light of other evidence. but nevertheless we will look at them .

1. ARE THEY JUST SPACE TOURISTS HAVING A LOOK-SEE AT EARTH . ?.

This I feel is the weakest and most unfounded of any answer. for the abounding evidence of what they have done, where they have been seen, their obvious superiority of scientific knowledge in the space aeronautical field alone , sets aside any such almost silly suggestion . for it is too weak to stand any serious thought . so we pass that one up.

2. IS IT A SPACIAL INSPECTION OF OUR PLANET?.

This idea, indeed has more foundation for thought .

Firstly. It cannot be denied that the places and areas in which they have been mostly seen and records taken of such , have been areas in which it is very evident they ARE making inspection of. viz.

- (a) The many sightings seen around atomic bases and such like projects This could point to an earnest inspection of what we are doing in that field, and how far we have progressed or likely to go , this alone could be of serious importance to them .

(b) The now indisputable fact that they have been tracked along in 90 p.c. of mapped areas , the fault lines of this earth. and that they have often been seen near or close to such areas when , or just before or after any disturbance of these fault lines have been recorded by our scientists. This could well be an indication of such interest. but it also poses the query, Then Why are they so interested in these factors? . . Which of course brings us back to our original question .and surely suggests that it could not be just that alone but that such interests in these areas is tied up more closely with other reasons.

3. IS THEIR VISIT ONE OF NECESSITY ?.

This is tied up with the last question that of inspection : It has been suggested that they are coming here because their own planet or place of existance is in need of minerals or other commodities, which , they know earth has and which they wish to wrest from us unbeknowns to us. and in this case it is often quoted the instances where they have been seen

"Why are they coming ?." (2)

collecting , stones, earth, water, minerals, various grasses etc etc. this if the evidence of such observers is reliable cannot be denied. and certainly is a point which could not be overlooked. but it is hardly in fitting with so many other factors as being the prime reason .

The second one in this question is one suggested by some that.- They have come from a dying planet and are looking for another home. This is more in the field of science fiction than reality. although we do not despise many of the S.F. ideas presented over the years. many of which have proved more than true as written by our modern Jules Vernes.

But this could hardly be given the prime reason, when one considers that if such were the case. the urgency of their requirements would necessitate a more dramatic intervention of our earth and its ~~existence~~ and lead to another major question posed by some.

4. IS THEIR VISIT A PRELUDE TO A HOSTILE INVASION . ?.

Does this mean that they are here to take over earth, and conquer us?. Hardly, that is in the light of such a take over being a HOSTILE one. for had this been so they have well shown already their capabilities of doing so long ago and that within a very short period of time. almost so without our being able to cope with such a take over . and if any " take- over " is planned by them it is certainly not one of hostility such as we term it in our own modern warfare. for it appears any effort on their part would be more likely to be one of elder brethren watching younger and less mature brothers fighting and seeing we do not go to far beyond a cosmic law. in our own fights and wars among ourselves. and leads to another question which seems to hold more logic and reason in the light of the many fact which have presented themselves from the whole of the data available to us from all over the world.

5. IS IT A PEACEFUL INVASION FROM SPACE. ?.

This we feel is the right answer, for it is not only one which we arrive at by our own evaluations and conclusions from all known facts. but is one which is stated to be the purpose by those of them who have contacted earth people, visibly. physically, mentally (i.e. Telepathically) and many other ways. We admit that this side of it is not admitted as proven by many saucer students and groups. but it is one which cannot be overlooked in giving consideration to our subject .for at least it is indirect support to it. Surely is such a serious consideration of this worlds future and one in which the saucers must be connected with. we cannot afford to throw aside any of the jig-saw pieces which may throw light on a subject that contain many puzzling features.

From such sources then we have derived a great amount of evidence which all confirms this fact. that they are here to help us. or to assist us, in a period of great change and one which will be accompanied by many disturbing events, so much so that we will NEED their assistance and it is to such a cause and reason they have come.

Having given consideration to these points. surely we must admit that if any of them is true. then even the weakest of any of the reasons means that their visit has been a 'Plan' of importance to them and in the latter cases to us. and in such more reasonable and serious ones fitting into some GREAT

" Why are they coming " (3)

MASTER PLAN , and that such planning is one which must have been worked out by those who lead, or control, these people from space, for we cannot imagine such a scientific well equipped body of people without leadership and government which undoubtedly must also be superior to our own , of which even the best has many flaws, much to our sorrow.

Such a plan then must be one which has not just been thought up, but one which has been devised for a long period of time. and when such a time is ready for it to be put into action. the space people have taken their orders from their commanders and set into operation the first of the movements for the fulfillment of the GREAT PLAN.

Now let us digress a little to see what other factors corroborate such a postulation .

THE HISTORICAL EVIDENCE OF THE PAST.

Such a lot of evidence has now been presented and is still being unearthed from books , or actual physical formations such as. rock carvings. glyphs, aerial photographs. and many other proofs, that the saucers are not a modern day event of visitation to earth. but one which is merely repeating many of such to people of earth over many centuries and thousands of years.

The work of Professor Romet now is fully established to prove beyond doubt that at least there have been such visitants in the long ages of South America this was established without doubt also by Dr. Geo. Hunt Williamson. a man whom we owe much to, but who has been the victim of many slurs. One whose facts were presented to us early in the piece on the historical value of evidence . These with others have shown that the past contains prolific evidence of the visitation of space people to earth. and as we come to later times of the medieval period, and the eighteenth and nineteenth century . evidence is produced and correlated in the major portion of the well known book of Desmond Leslie and Adamski wherein Leslie gives the major portion to such evidence.

Sacred writings of the East. legends of the Indians. of America, and the Aborigines of Australia all clearly state that such visitants came to earth and in every case to HELP the people they visited. and in most cases , they were WHITE people , the descriptions given by many so spread apart all tally with such evidence . of their coming and the knowledge and upliftment they brought and gave to mankind.

Lastly and in the opinion of the writer the greatest of all recorded history is the Bible, that Volume of the Sacred Law, which tells of "angels" (messengers) coming to Earth from Heaven (ouranous- outer space) sent by God with a set PLAN for the upliftment and help of men of their time and period and the promise of a greater visitation at a set period of world history known as the last days before the entrance into the NEW Age .

Now tally all this against the various theories given above of WHY they have come to earth , and one can clearly see that it is only the latter ones which could possibly fit into the historical test .

Tourists, No. Inspection . No. Necessity No. Hostile Invasion No.

except that it will of natural course of Law be hostile to anything and any

"Why are they Coming ?" (4)

System or peoples who are not willing to have Cosmic Law of God put into action , or in other words are in complete opposition to the GREAT PLAN . For it cannot be imagined that all systems of this world will welcome such, their despotic plans of the subjugation of earth's peoples to themselves and the outlawing of that which is against DIVINE LAW, any such people will and are now already setting up their programme for the conquest of the world into a One world State, and the finality of the drama is almost upon us. The whole of the reason of their coming therefor MUST be in a Pattern or programme, and that plan is nothing more than the setting free of mankind from the darkness and thralldom of power combinations in finance. politics , and their use of every known form of propaganda from the manipulation of money. press , radio, T.V.scholastic education . religions.and any other known form by which man can be brought under their power and sway.for what and who they cannot destroy they will subjugate or vice versa, by warfare physical. mental and spiritual. Hence they will violently oppose any opposition.

Not a pretty picture ... but one which is upon us in the very near future. Hence mans position will be that perilous to maintain life and freedom, that without the aid of those sent to assist us, we cannot be delivered of ourselves. and brings to pass the saying " When MY PEOPLE which are called by MY NAME, call upon me, THEN will I come and DELIVER THEM."

May be you cannot accept this . but before you cast aside this claim.first ask yourself . What can deliver mankind from destruction in a third world war. if all that has been devised for such a combat is brought into play. and especially if all such powers are to fall into the hands of the wrong people who themselves are working to a PLAN (a Satanic one, for as the great Master said of them " Ye are the seed of Satan and the works of your Father ye will do. clearly outlining who they were and their origin)

This then is final action of the great Drama of Michael and his " angels" fighting against the powers of darkness. , literal men on earth . empowered by a negative spiritual force. to ~~over~~throw God and His Plan, and His people. Is it any wonder that having set themselves against God that from that realm of power and LIGHT now are coming the forces to overthrow that plan and assist men of earth to do their part to do likewise.

Further watch for the days ahead, maybe you will realise it when it is too late for you to do anything about it. maybe you will cry out with others for the aid of the "messengers from space " to assist.

Maybe you will be foolish enough to align yourself to satisfy your greed and your own evil desire for power, on the side of those who will oppose their coming. but which ever way you choose. you will not be able to deny that this PLAN of earth's redemption has been at least outlined to you and the reason for the coming of Space men to earth. is to take part in the great final drama of the fulfilling of the great PLAN OF GOD.

Maybe next time when you so casually say the Lord's prayer you will give a little more deeper thought to these words therein.

" THY KINGDOM COME ON EARTH.
AS IT IS IN HEAVEN "

.....

IT IS BETTER TO DRINK A WHOLSOME DRAUGHT OF TRUTH FROM A HUMBLE VESSEL
THAN POISON FROM A GOLDEN GOBLET. Ninnius. Abbot of Bangor 607 A.D.

" MOTHER SHIPS OF SPACE "

By The Late H.K. Jettup

It is my belief that UFO's , or Unidentified Flying Objects, are usually globular, sometimes disc-like , and that they are an indigenous part of earth- moon binary-planet system .

While I believe that they use both earth and moon for their own convenience I suggest that their most natural and permanent habitat is at the gravitational neutral of the earth-sun-moon system which is well within the orbit of the moon .

Throughout the series of the modern sightings of the UFO , there have been frequent references to " mother ships" and huge superconstructions . IT seems possible that these constructions are the domiciles of smaller discs spheres , or balls of light which are seen so frequently in proximity to the earth's surface and to our aircraft, rockets, airfields and cities.

It is my belief that these constructions are few in number and that they do not come from distant planets such as Venus, Mars , Jupiter or the more vastly distant stars.

The prescient Dean Swift said that Mars had two small satellites, one of which was close to Mars' surface and made revolutions twice daily.

It has been pointed out that this inner body is too close to Mars to be an adjustment with any known postulate of the natural distribution of satellites relative to their parent body.

This may be an indication that Mars' inner satellite is artificial.

We can think , I take it, as highly probable that there are many "zones of convenience" round the planets, as well as round the sun, which are at present unoccupied by planets or satellites of any considerable size and which may well be used for and by enlightened space dwellers.

Such zones would be additional to the demonstrable earth- sun- moon neutral and it may be that there is a complete series of them in concentric circles starting at the surface of a parent body such as the earth .

Their existence or true nature can hardly be known to us until we can in some way determine the nature of gravity itself.

Let us look for a moment at the masslessness of some UFOs.

Their ability to achieve enormous acceleration has been one of the greatest puzzles to scientists . Time after time we are told that the UFOs could not possibly contain living bodies of flesh and bone - that such bodies could not withstand the stresses imposed by the observed accelerations.

Yet such argument can well be based on entirely erroneous ideas of the propulsion forces used by the UFOs.

Acceleration is damaging only because the forces necessary to produce it are applied externally to the living body, or to the structural members of any flying machine.

Any forces which would simultaneously accelerate every molecule of either the living body or the mechanical structure would avoid all such stresses, and both the living and the mechanical could undergo any amount of acceler-

"Mother Ships of Space " Cont. 2

ation without the slightest damage or discomfort .

We can assume that whatever the force used for the UFOs violent propulsion may be, it must be of such a nature that all the fractions of the accelerated bodies are acted upon individually .

We have to stop thinking in terms of jet or rocket propulsion, or reactance with a magnetic field, any of which subject both flesh and metal to outside pressures. Instead, we must discover how space craft obtain reaction without gravity.

It should be obvious to all engineers and scientists that rocket propulsion will never solve the problems of space travel because of the impossibility of transporting the necessary fuel and carrying the heavy motors.

Atomic power is certainly not the answer, at least not as regards jet or reaction propulsion , for all atomic power in the world will not move a space craft, by reactive propulsion, unless there is an enormous mass to be ejected and lost .

If the money, thought, time and energy now being used and poured uselessly into the development of rocket propulsion were invested in a basic study of gravity, I think it would be likely that we could have effective and economic space travel. within the next ten years.

=====

The above article and those preceding it were written by the late Dr. M.K. Jessup before his sad demise well over ten years ago.

In view of the events and discoveries since especially that of the satellites of Mars, we can see how prophetic much of his findings were.

In our last issue we gave his article " Snatched into Space " just as we were about to type this out we received a clipping re another strange disappearance of an aircraft in the same region where so many others have disappeared, viz the Bermuda area. What is the strange power around this area which causes so many craft to have a fatal end.?. see account below.

=====

ANOTHER PLANE LOST .

ADVERTISER 8/2/ 65/ Adelaide .

New York. A US Air Force F 102 fighter disappeared yesterday after it had taken off to investigate an unidentified flying object off the Florida coast. The unidentified plane turned out to be a US C 47 aircraft.

.....

So they identified the unknown but do not say what happened to the F102 or how or why it disappeared looking for one of their own planes.

Could it be that the C47 was not the same unknown the fighter went to investigate? if so ,why go looking for one of their own craft . which should easily be identifiable. by both ground and air crew. and radar.

We still ask what happened to the F 102 ?.

+++++

THESE ICE-CRYSTALS ?..

+++++

By our Auckland Correspondent Norm Wardell.

Ice Crystal over the Tasman Sea. Concerning this possible sighting; while we know ice-crystals are listed as an alternative in the gamut of excuses for genuine U.F.O. sightings, there are times when they are genuine formations and do reflect radar.

Without laying claim to having investigated the observance referred to in the clips from the newspapers. (see last edition) to the last degree, some remarks connected with long distance aircraft may be worth absorbing. In this particular observance, it is stated that aircraft in this area, on the following day had icing occur, indicating that the conditions were right for the occurrence of ice-crystals formation in this reported case.

The phenomena of a strong light has been witnessed several times. at night, between Nandi and Samoa. The light flies near the water. It has never been explained. It has happened so often it is simply regarded as a phenomenon or as 'unidentified'. These words come from a known witness of a moving light incident; previously a skeptic, now at least a 'tolerant' observer, the interrogated declared this latest sighting, both visual and radar as of ice-crystals.

Reveiling the foregoing, pro-saucerers must bear in mind, the magnitude of the significance of the Unidentified Flying Objects subject, as viewed from the point of view of orthodox theology, finance and politics, remembering the POWER these organisations wield, and how it would appear to them.

Because of this, the importance of misrepresentation to the proletariat is evident to more than the superficial researcher. TRUTH WOULD BE LIKELY TO EMBARRASS ALL THREE POWERS.

Here lies the value of the increment of association with the voluntary amateur societies throughout the world, as training, if the mind is to remain at all open.

What does a few Satanic lies matter to POWERS likely to be toppled?

While there are ice-crystals, so also there are EXTRA TERRESTRIAL VEHICLES. Top Brass, sufficiently in the know, can't be expected to open the gate for, their "Golden Goose" by "splitting", and explanatory stories handed down to employees will stamp any issue, "signed, sealed and tested".

Without access to instrumental results, the amateur investigator of distant reports must truly remain with no choice but to accept authorities decision.

As if to complicate, endorse, or mystify broadcast investigators, the following piece of evidence comes to us from the Auckland Star N.Z. 15/1/65, two days after the Quantas pilot made his Tasman Sea report: 'FLYING OBJECTS AT TAURANGA' Friday. "Three unidentified flying objects were seen travelling north above the Tauranga Harbour at 2.30 a.m. today by Mr John Cresswell, a member of the Tauranga Harbour Boards watch office staff.

Mr. Cresswell said he saw three large circular lights, one slightly ahead of the other two. They were moving quite slowly and took about two minutes to disappear from view' N.B. Tauranga is approximately 100 miles from Auckland. The ice-crystal sighting, two days before, was 300 miles from Auckland.

When voluntary researchers do not themselves make the observations, the matter can be only listened to with skeptical, half-closed eyes.

" Ice -Crystals Cont (2)

When the Sapce Fals want us to be emphatic about their materialism , there will be no uncertainty .

Re the Tasman Sea, is that amount of HO2 laying between Australia and New Zealand ?.

It must be realised that data is being added to this case as the papers release it. this now being Monday Jan 18th.

We are having a marvelous display of just how little concrete thought there is by officialdom on this aerial subject .

Saturdays Herald looked like having the issue all sewn up, (15/1/65) or at least shelved , by emphatically declaring the sighting as ' Ice- Crystals '.

The convenient decision by Tpo Brass is always made by someone who DID NOT SEE the objects and all too often be-little experienced pilots by their fool declarations.

In Capt. D. Shannon , we apparently have a pilot who just won't take the official palliative, and has been the cause of more intensive and sensible study-- so todays Herald (18/1.65) re-opens the case and the Ice-Crystals are in danger of melting away .

It's nice to know our piloyos can be trusted with lives and know what they are looking at. Quote. ' The spokesman said Capt. D. Shannon in an Eledtra flying from Christchurch to Sydney, had seen condensation trails from what appeared to be seven aircraft flying in formation towards N.Z. ... A R.A.A.F Officer said:

" They were Not R.A.A.F aircraft and we do not know the country of their origin.

An RNZAF Spokesman said on Friday that the air force was satisfied the objects were ice-crystals... Neither ~~the~~ Air Force had any aircraft in the area at the time Preliminary investigations led the RAAF to believe a flock of birds was responsible . But. Capt. Shannon's adamant opinion forced it to investigate further . THEIR (Emphasis etc ours. Good on your Captain) Urgent top secret investigations are being carried out by the RAAF and RNZAF to try and establish the identity of the formation ... Top Air Officers said the aircraft were flying in formation and were believed to be service aircraft capable of high speeds and long range performance. .. "

All this brings to mind a similar episode over Darwin , Australia. some months ago . when it was though Indonesia had sent a flight of planes over.

The Australian Ufologists have records of it. Indonesia denied it. Next we will have the War-time Foo Flights back again . Nobody owned them either. Kilroy. of 'wus -here ' Fanc has only to revive and we have the whole circus alive again. Honestly , is it anything other than a political pantomime?

Gid God only make one spud?. How far can an egoist go before he busts?.

Hey ' Top Brass , give it a little thought. Do you really think the proletariat believes you when you try to ice our eyes over and tell us no one can be better than we are in all the Cosmos?.

The time is fast approaching when the cart will pull the horse, and the road ahead wont be visually cluttered with mirages, myths, flocks of imaginary birds, ice crystals , Dr. Menzels hanging onto Met. Balloons or anything of the kind.

1965 is a virile , persevering youngster in search of Truth and Knowledge, as never before . Let get with it.

Fortunately because of the advance in public education regarding Ufology, too much display however of knowledge from societies may tend to drive officialdom further into a ' Black-Out' underground, thus depriving us of these jewel- fragments that do drop off the table , for we are as yet regarded at the uncaught

Ice Crystals (3)

mouse in the larder-- knowing but not allowed to out with it.

So much for the clippings which tell their own story for all to deduct their own analysis from , according to their education and consciousness of the topic.

Editorial comment. We are indebted to our fellow investigator, and must commend him on his outspoken views which we concur. Lets have More Horn ..

+++++

FILM TAKEN OF S. AUST. SKY OBJECT . (Advertiser 5/4/65

A sky"object" with the characteristics usually attributed to "saucers" has been clearly photographed over S. Aust .

Astronomical experts in S.A. have been unable to positively identify the object , which took the form of a bright orange glow with a "dent" on top and a "knot" on the bottom .

A-1 have agreed , however, that the descriptions given could not be explained as a planet .

Photographs of the object were taken by Mr. Walter Jacobs, a steward in the freighter " Iron Duke" which berthed at Port Adelaide on Saturday .

The photographs show what appears to be a glowing object moving around the moon. Mr Jacobs who is an amateur photographer , said he saw the object shortly after 10.p.m. on March 17th . when he began to photograph a moon cloud effect while at sea on the way to Newcastle.

The ship was then approaching the Margaret Brock Lighthouse , between Adelaide and Melbourne.

" It was a bright yellow-orange glow , at first I thought it was a planet "

" As I started to photograph it , the light began to travel. It swung under the moon and up the other side "

He took one picture and by the time he took another , in tow seconds, the object had shot upwards vertically from the moon and " was high above it"

He then took more pictures .

I went below and it wasn't until I printed the photographs that I began to wonder " he said .

" You can see a knob on the bottom and a depression on top-- the usual description of a flying saucer ."

The Professor of Physics at the Uni. of Adelaide. Pro. J.H. Carver , said that the described behaviour of the object was consistent with that of an aircraft equipped with very strong spotlights.

An RAAF spokesman said , however, that to his knowledge there had not been any planes using powerful spotlights in the area at the time. .

The Astronomical Societys Senoir Vice Pres. said " The only planet near the moon at this time was Mars and that would have been stationary and not behaving in the manner described."

Another astronomer unnamed said he felt the object could have been a staellite.

But a WRE spokesman said the sharp upward trend described by Mr Jacobs did not coincide with the path which a satellite might take.

.....

Your Editor interviewed Mr Jacobs who added these further facts.

He had watched it for 7 minutes and it was still there when he went below

We cannot understand why he did not draw the attention of the rest of the crew to the unusual object . and especially the man on the bridge. above who did not see it. also another man who was on deck who said he did not see it.

Continued on Page NINETEEN .

The following reached us just too late for our last edition .

" AUCKLAND STAR" New Zealand. 5/2/65.

CHRISTCHURCH . Friday (P.A.) - There have been more reports of unidentified flying objects in Canterbury. Several of them apparently relate to the same object, and one corroborates the reported sighting of a large object at South Brighton on Wednesday night.

Yesterday, a man said he saw a large, bright object rise from the direction of South Brighton at 8.45 p.m. on Wednesday.
It moved fairly fast and went straight up into the sky .

The man who first reported the sighting said the object made an oscillating noise almost whistling, and this same noise was described by a girl and an American serviceman who reported seeing an object over their car at Harewood on January 15th.

There was no flying that night, but the couple reported the bright , large low-flying circular object hovered above their car and then rose into the sky.

Another man reported seeing an object on Wednesday at 9.30.p.m.
It was bigger and brighter than a satellite, he said, and travelled across the sky and descended at an angle.

.....

BURST OF SIGHTINGS IN ADELAIDE.

Although many of the sightings sent in were obviously those of Satellites or the bits and pieces. quite a few of the reports could not possibly be classified into this category . as seen below.

Saturday Feb 27th 1965.

Two families rang and reported that they had observed a large star like object at 8.10. p.m. for over three minutes. It approached from the North towards the " saucer " then turned due east.

When at the meridian of the sky it veered right and left in a swinging motion. " almost like dancing " said one witness.

Although satellites were expected that night at about 40 minutes later this could not be surely put into that classification for I have never heard of satellites changing course and dancing said the witness.

.....

Sunday Night 28th Feb . 1965

Seven people saw a large star-like object yellowish in colour appear from the west and travelling slowly to the East. again the witnesses tell the same story as that above of it "definitely stopping and wobbling directly over head wavering or dancing" then when half way between the zenith and the east horizon it stopped for about 30 seconds. Time 8.45. to 9 p.m.
The Editor who had just returned from the Ballarat conference on the Monday morning rang the Satellite Tracking Dept. who said there was not a satellite up at that particular time.

.....

SIGHTING REPORTS CONTINUED.

Another family rang and reported seeing the object mentioned above but gave time a little earlier this being at 7:45 p.m. lasting for about 30 minutes. (No real time factor may have been incorrect)
 The direction indicates that it was a different object.
 They said they called two other families out to observe it.
 It came in from the North West direction approached the "saucer" (note the same place as previous report at a later time the as in other case turned due east, veering to right and left as it went.
 It stopped for about 1 minute and finally disappeared.
 The manouvres are almost identical , but directions and time different
 Our investigator checked closely on this and witnesses were very clear that the time was right and also checked visually the direction as given to be correct . this appears then that there were two objects about both of which did not travel in a straight trajectory as that of a satellite.

=====

SPECTACULAR FLYING SAUCER REPORT LEADS TO TWO OTHERS.

Amid the many sighting reports recieved from people all around the area of Adelaide., one was quite out of the basket.

It had been reported first to a lady who rang the Editor, and whp gave us the facts as you knew them, however we were anxious to interview the people concerned in that the sig ting certainly was out of the ordinary run of them. Finally after negotiation we were able to visit the lady who actually had the experience at her hom at Morphetvale , a short run in a car from Adelaide. She related her story most willingly and told how that as she as returning from Adelaide in their car, with her son and daughter-in-law. the had nearly reached Morphetvale when suddenly overhead. there flew three very large objects, perfectly round and making no noise. but the size of which really scared them all, so muc so they stopped the car to watch them disappear into the south west, having crossed the sky from the north west .

The were so low that they could not have been more than 1000 ft . above the pine trees along the side of the road. Tehy were shiny white. and moved with terrific speed. Time 1.30 p/m/ in a clear day with almost no clouds and a very clear sky. Temperature warmish .

The objects crossed right over the Happy Valley Reservoir, one of the supply sections for Adelaide. After watching them disappear , the party then went home much disturbed at what they had seen .

They were all adamant that the objects were not any known craft. which are often seen flying over from the airport of Adelaide. They were too large to be any such cinventional machine. and were definately saucer-shaped.

" I always used to think people who said they had seen flying saucers were nuts" the lady said " I know now they are not. for nothing will convince me that what we saw was not such a craft ".

It was then that she told us, that she used to laugh and sneer at another lady who lived near by , who insisted she also had seen saucers some years back " Now"she said , I feel I owe her an apology, in fact I know now she was not as daffy as I thought"

Sightings cont . (3)

This news wetted our appetites, so we asked could we have the address of the other lady, this was gladly given, and after terminating the interview , went directly to the other lady's place.

Here we met a very strong personality and one with intellectual and artistic abilities. She gaily asked us in , and willingly told us of her experiences some three years back when she had been living in another area , and for three nights following had seen three craft go over her home and manouere around before disappearing .

When asked di she belive in them , she quickly replied. " Of course" , My father seen a large craft about nine years ago. since then I have never doubted their existance".. We ceratinly felt we were having a field day of reports. and asked where her father lived , to find out that it was close by.

Arrangements were made to visit him one evening. This took place a few days later and in a most pleasant interview we met her father an engineer, who had migrated from Holland to Austrlia some many years back.

He told us that he in settling down got a job on a farm at first. in the South East of the State and there he had been plowing out in the field, when he sensed something queer , and turned off the tractor motor. Looking up he saw right above him. a complete rounded object , defiantly saucer shaped. No noise , just " sitting there, as though it was watching him "

He was dumbfounded and amazed, and puzzled to know what it was. After about 3 minutes hovering , the craft took off at terrific speed and sped into the horizon, leaving him bewildered. for he know by his onw engineering knowledge that such a craft , with such dimensions. and speed of travel. was ceratinly not anything known to ardinary aeronautics.

One thing which he insisted telling us was that from there on he felt he HAD to lead a better life. or strive for helping his fellow humans more. Why he could not say. but " that was the effectit had on me " he said.

Quite a flurry of reports which made us very grateful we had been fortunate enough to meet the first lady . for truly one thing led to another .

SAUCER BUZZES PLANES NEAR TOKYO.

Tokyo. March 21st .

Two Japanese civilian pilots say that their planes have been buzzed by a flying saucer.

A spokesman for the Air Safety Office at Takamatsu, on Shikoku Island , said today that the planes were a Convair-240 airliner and a private Piper Apache.

The airliner pilot said an object about 15 yards in diameter and radiating a greenish glow approached the plane at 250 M.P.H. , wheeled abruptly and flew alongside for three minutes before flying away.

.....

Such a close up view by the pilot would certainly rule out any known objects by which officials could blame it onto. Ed .

STRANGE DISCOVERY 100 FEET DOWN .

ADILLAIDE ADVERTISER 23/2/65

DARWIN . Feb 23. A contractor boring for water at Killarney Station has re- covered what appears to be flesh, bones, hairs and hide from a depth of more than 100 ft.

Its origin is a complete mystery.

Samples of the material brought to Darwin today are to be analysed in an at- tempt to establish their identity.

Norman Jensen, 56, was boring for water 15 miles from Killarney homestead, about 350 miles south of Darwin.

The bore had gone through several stratas of limestone, clay, red soil and sandstone to 102 feet, when the bit of the drill struck something soft and dropped quickly to 111 feet.

Mr. Jensen thought that the drill had gone through and underground water- course. He lowered apump to make tests and in a few minutes brought to the surface a bucket full of what he believes to be. flesh, bone , hide and hairs.

Some of t e hairs brought to Darwin by constable Roy Harvey are 3/4 inches long.

Some of the matter was given to fowls at Killarney station and they ate it at once.

Although exposed to the air for several days it had no smell.

The big questions are: If it is flesh, why doesn't it smell?.

If it isn't edible, why do the fowls eat it?.

If it has been there for millions of years, why isn't it fossilised?.

=====

NEW ZEALAND BEACH MONSTER PUZZLES SCIENTISTS.

AUCKLAND. MARCH 23rd 1965.

Scientists are puzzled by a huge mass of shapeless flesh and hair which has appeared on the sand at Muriwai Beach here.

The " thing" was first sighted a week ago by a Marine Dept. officer.

Then the hairy blob of flesh was 30 ft. long and 8 ft. high .

It is now slowly being swallowed by the sand.

The head of the Zoology Dept. of Auckland University (Professor J.E. Morton) said today , " You can rule out wha as because of the hair, and you can rule out sea elephants and sea cows because of its size."

The object has a tough quarter-inch thick hide. Under this is a layer of what appears to be fat, then solid meat .

Sand matted hair four to six inches long covers its length .

.....

FURTHER REPORTS DENY THE ABOVE AND CLAIM IT IS A WHALE. WHO IS RIGHT ?.

see next page.

FORTEAN FILES Cont. (2)

" The hairy monster" washed up on the Muriwai Beach is a " very dead and smelly whale" Auckland lecturer of Zoology at the Auckland University said today

Mis Robb said tests had shown the blubber had been scoured or eaten off the flesh , leaving fibrous tissue which had been so uniformly shredded that it looked like hair.

.....

The above poses however a few questions in that taking into account the huge mass of this " thing ". the statement that the whole of its carcase was " Uniformly shredded " means that a huge shoal of marine life must have attacked the creature, to have so covered such a large area and " shredded" it so evenly all over making it appear hair-like.

We do not presume that it is anything but a mammoth if it WAS hair. as no deep sea life would require such. but of course IF Miss Robb's findings are correct and it is a whale. then hair is ruled out because of the statement of the learned Professor. J.L. Morton .

It is hardly feasible that such a huge mass would have been so covered with teeth shredded flesh leaving no part not attacked and showing at least some small portions of the original hide or covering of the creature. Surely to ask us to accept such a theory is stretching it a bit.

The photo shown in our local papers bears no resemblance at all to the shape of a whale , of course we admit that a large portion is covered by the sand and this may hide the true outline of the creatures proportions, but taking it all into account. we have our doubts about the correctness of the findings Miss Robb, who would rob us of our right to think for ourselves a little bit.

We have taken into consideration also in this account the very similar size and facts of the strange object washed up on the Tasmanian Beach about 12 months ago or more. This too had them all puzzled , but then Miss Robb was not there to declare what it was. Perhaps she will be able to answer the above queries we have raised of the way in which this hide was so evenly and completely shredded, to make it appear like hair.

.....

Since typing the above we have recieved from a good associate Dan Saunders further details and close up pictures of the object. which certainly makes the findings of the said Miss Robb a little far fetched. It is obvious from these close up pictures which we regret we cannot reproduce, that the hair so called shredded flesh by Miss Robb. would certainly take some explaining as such, frankly one look at a close up of the hair covered hide is quite sufficient for even a child to see it is sand matted hair about four to six inches long as recognised as such by the reporters. for they state that when cut from the hide and washed clean of the sand it has a soft wooly texture. Now whoever heard of a whale (Miss Robb's theory) having wooly hair or even a wooly hide.) and to put it into the words of the Forestry Officer.

" But where have you ever seen a whale with a fur coat ?".

One theory was that it was an unusual elephant which had died at sea. Well folks the Russian Circus now visiting Australia did lose one of their performing elephants. Maybe they threw it overboard and this is it. Being a Russina one maybe it needed a fur coat . Whatever it is. after seeing the close ups I could never be convinced our dear Miss Robb is on the right track. perhaps the smell made her misjudge it. as she could not get too close.

JAPANESE REPORTS cont.

Further to the brief report given we just received a copy of Japanese papers re this per courtesy of our very co-operative friends The Comic Brotherhoods Association. Ja an. Many Thanks.

Hiroshima continued statements as given in "Pacific Stars and Stripes" The first report was from Yoshiaki Inaba, pilot of the domestic Toa lines, as he was flying his plane, with 40 passengers aboard, over Himeji, near Osaka, at 7.p.m.

"A mysterious elliptical luminous object appeared just after passing Himeji I was flying at about 6000ft. The object followed for a while and then stopped for about three minutes and then followed along my left wing for about 55 miles until we reached Matsuyama in Shikoku, It then disappeared. He said the object emitted a greenish coloured light and violently affected his automatic direction finder and his radio. He said he tried to contact the Osaka communications tower but was unsuccessful.

His co-pilot, Tetsu. Umashima, tried to contact the Matsuyama tower to report on the strange object, while trying to do so, he heard frantic calls from the pilot of a Tokyo Lines Apache-- who said he was being caused by "a mysterious luminous object" along the northern edge of Matsuyama city.

Inaba, a veteran of 20 years with more than 8,600 hours flying, said it was the first time he had ever seen such an object. End of S'S quote.

Further from "Mainichi Daily News" March 22nd.

US EXPERTS COMING FOR INVESTIGATION OF FLYING SAUCER. Hiroshima March 21.

A group of aviation, astronomical, and defense experts left the United States for Japan today to investigate the reports of a flying saucer seen by Japanese pilots Thursday night. The Americans "flying saucer experts" ... want to talk to the two pilots.... Inaba, fearing collision turned the plane 60 degrees to the right, but the flying saucer made an abrupt turn and flew along with the plane for about 3 min.

The sky was clear and the moon almost full that night. There was not much possibility that the three pilots who witnessed this were deceived by a meteorological phenomena... A test made by Toa Airlines on Sat night ruled out the possibility that the pilots saw reflections of light from the planes.

The American mission is believed to be interested in the case because there have been several mysterious aviation accidents and "flying saucers" may have been involved.

Further Confirmation. Tues March 23rd. F.S. SIGHTED BY THREE PEOPLE.

The flying saucer which chased two planes on Thurs. was also sighted by people here all workers of the Chugoku Elec. Power Co.

They said. "It was shaped like a triangle whose top radiated brilliant light. It was in sight for about 10 seconds, and then disappeared leaving a mushroom cloud".

CBA Japan reports that they have sent a team to investigate this case. we hope to hear from our friends of their findings.

One thing is certain the Yanks have gone out of their way to "investigate" when they go afar afield as Japan to look up something that does not exist according to their official blurbs from time to time. WHY WASTE SUCH TIME THEN ON SUCH MATTERS AND THE USA TAXPAYERS MONEY ???? . Wditer.

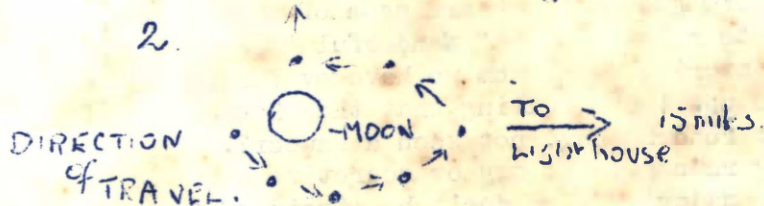

Saucer Photo over S.AUST. Cont . from page 12.

He said it was very large and he felt it would carry a crew of 40 to 50 people The camera which he took the object with was a Japanese Minoca and the shot was taken at F2 60. on a black and white 35 Mil film .

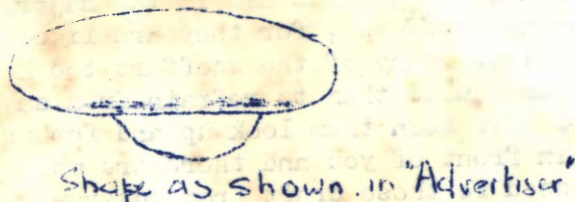

We sort to get copies of the photos from him and at first he consented but later after discussing the matter with other people he said he would first try and sell them to USA magazines but would later give us photos. which he did. We were not at all surprised at this. as he was interviewed by T.V. and shots were shown on the interview. also he was taken to see other people . after this event and it was from this he rang us up to withdraw his original offer. How ever next day he showed us the negatives and we examined them as best we could and he gave us some photos on condition that we did not reproduce them . We regret therefor we cannot reproduce anything now without his consent. and further feel that his desire to " cash in" on them unfortunately does lessen the authenticity of the films. in that people will naturally concur that it is a gimmick. However we feel ourselves at this moment that until we see the whole 7 shots at close range on reproduced photos . we accept his story with reservations , for until such a close examination of them is made it is hard to determine what the object really is. although it certainly has all the general characteristics of the saucers . We have drawn below the various drawings he gave us of the object and its movements. and also our own drawing of it as shown in the reproduced picture in the "Advertiser."

One thing this case brought forcibly to our notice was the fact , that despite the recent conference in Ballarat. and expressions of "UNITY" among the groups that in this instance at least such co-operation and unity was sadly lacking on the part of other bodies here in Adelaide to " share" and work together, in fact it was a case of intense competition and the exact opposite. This does not savour of much fruit from the outcome of the conference and is as was expected by your Editor. who feels that personalities still reign above the common good. of all.

MR JACOBS. Description 3.

The Moon is obscured by a glowing circle directly underneath the object →

A FEW THINGS ABOUT U.F.O.E.I.A.

First of all we do not try to "sell" Saucers. for they are an undisputed fact. regardless of the few diehards who insist in keeping their heads in the sand. and trying to persuade themselves they don't exist .

It seemed a few years ago that those people in most countries , who had seen saucers were in the minority , but today this is no longer the case. for we have more reasons than one for declaring that more people have seen them than those who haven't .

Apart from our tabulation of sightings from people in the normal channels we have had an undercover man , as it were, whose job is to prise sightings from those people who were reluctant to report what they had seen.

Some were very reluctant. that they refrained from telling even their closest friends or relatives. Now on the evaluation of his findings plus those of the Society and working on the same basis as the familiar Gallup Poll, it appears that 70 to 75 p.c. of the populace have seen UFOs and as time goes by and reports keep coming in that percentage is bound to rise.

A few years ago we could understand the authorities attitude of explaining away saucers to some extent for apart from the population consisting of peoples of different levels , the people who had witnessed Ufos were in the minority that today as stated this is no longer the case and we feel that it would be a wise course for the authorities to take , by admitting the fact of UFOs.. After all , if the greater part of the population have seen them they are not going to take it very kindly in the negative attitude of the authorities who insinuate that these people are fools, and do not know what they have seen , for there is nothing more irritating to a person who knows and is convinced of what he has seen , to be persuaded that his xperience was one of hallucination, or that he had seen a balloon, star, a bird or meteor, or some of the many other pseudo things given in explanation .

Anot er point, contrary to a popular gisc.ription of the past , is this, and we are pleased to note that almost all reports come from people who never expected to see them , and most of t em ridiculed the idea of waucers until they too saw them , so that it rules out any excuse that people who see them are longing to see them , so that they hypnotise themselves into seeing them.

This of course is the case with a certain type of individuals , but their kind of people are very much in the minority , and we as a Society do not place any value in a report from this type of person . for we always take well into consideration the type of person reporting a sighting, and we are happy to say that most people who give reports are the solid type with both feet on the ground. Even in the UFO groups there are some of the above types sad to say at the head. who love to relate their " Wonderful " experiences in the most astounding fantastic stories. and whom we have evaluated by their psychological background and make up. in evaluating what they have related.

I wonder how many today among our readers have not seen a saucer?. and those who have , there is no longer any reason to be shy or secretive about what you HAVE seen for you are in the majority , so don't be afraid of the few remaining scoffers , for they are like those who insist that the world is still flat. Many of the scoffers too have seen them but their pride or position causes them to refrain from saying so. IT MIGHT HURT THEIR POCKET If you have seen them look up and forward to new Horizons. The PANORAMA is vast in front of you and there are more and more joining you evryday who have witnessed to these craft from outerspace. YOU ARE IN GOOD COMPANY.
