+ + + + +

Much water has flowed under the bridge since we first looked into the matter of the U.F.O. and when we think back on many who burst into the field with much fire and zest. many who produced some very worthy magazines and journals, now no longer spreading the news, pondering upon this we can only shake our heads , a little sadly perhaps. as many of them were our valued comrades in the beginning, sharing with each others not only the news but the problems, each obtaining from the others hard earned experiences ina completely new field over the pitfalls and errors of judgement .And indeed sadly we say and repeat the words of a famous comedian. " we've seen em' come , and we've seen'em go"

In truth we have learned some good lessons from the departures , some very suddenly and dramatic. and thus keeping our fingers crossed, we find ourselves like old Father Thames, who keeps rolling along., doing just that, and a little more besides. We even watch with some interest some of the new comers of the last five years making some of the very same mistakes many of those now lost to us made, and wonder if the same misfortune may not overtake them because of the self superiority. their lack of humility. their unwillingness to listen to good advise from these who have passed through the hard school of experience.

Yes, and much more than water has been flowing through our skies over the years and will continue to do so in spite of official protests . (You will notice we said, flowing, not flying?. The observant ones among you can tell we know our onions.) In spite of the attempts by officialdom , top brass of the Services and others to kick the U.F.O. into the cupboard of obscurity, the U.F.O. like the proverbial bad panny, keeps turning up , thereby causing then many sleepness nights and much gnashing of teeth .

Which reminds us of our younger days when we teased certain old pompous types with the cry" look behind you mister". Remembering this . we are today tempted to do , this every time some " eggspurt" tries to tell us that we are not seeing what we see. . Of course , the way the U.F.Os. keep sneaking into view and performing in the most unorthodox manner , it appears they are in a way, saying what we dearly would love to shout out loud. " Hey, look behind you mister !. So much for officialdom, who may , or may not, know more than they are to admit .

Now we come to certain researchers in the filed of U.F.O. . we cannot helpbut notice certain similar peculiarities especially those who have entered recently, ie within years, our domain .

Editorial Cont (2) .

These Johnny- come - latelies, after sniffing around a bit for a very brief period , when taking into consideration the vastness of the subject and its implications. and having pushed their way into research among us, and not liking, or perhaps were scared of the things we were forced to investigate due to the very nature of the UFO. have shied away like frightened mares, because what they perceived did not fit in the pattern of their narrow conventionalised thinking. Ignoring the facts that the U.F.O. is the most unconventional object that anyone has seen , and the many years we have spent in this game, they have with much disdain , and a certain amount of gallyhoc, turned away from real research and opened up shop . as authorities . and with much ego posed as "an authorities= in public interviews. and by their very statements have displayed to even a keen analytical observer their lack of depth. and in fact often made public statements which have done the cause more harm than good.

In doing so they have attempted to throw a spanner in our work, as it were. Which makes us often wonder, when we muse on this. Are their intentions honourable, and for the good of Saucerdom or purely of old self aggrandisement?. The test obviously would be. take away the publicity and the show poney stuff would they be as eager to take leadership. ?. What say saucerdom should fall into disrepute. and we found ourselves persecuted for our beliefs. ?. How far would they be able to stand the strain. ?. For it must be remembered these self styled " authorities" are riding the crest of the waves which the pioneers brought about when in their day the least mention of flying saucers was openly sneered at. but today has gained through the hard work of such, the sincere investigation and approval of many people and bodies.

As we say, by the very nature of the U.F.O., we have been forced to explore every avenue, and most of those avenues, whether we liked it or not, led into the borderline subjects, E.S.P. and all that sort of stuff, and in spite of what our critics say or think, we owe them no apologies for doing so, even if they accuse us of being unscientific in our approach .

Now that's the point we would like to deal with. . These critics of ours who have recently set up shop. declare in a very ambiguous way that they are steering clear of any off beat stuff, and are concentrating on the scientific lines of enquiry, loudly proclaiming how " objective" they are. Not withstanding the fact that they have been known to frequent very select " inner circles" and mediums. Which again makes us wonder why sneer at us. ?.

We would like to ask then , What do they mean by being scientific?. Surely by shutting ones eyes and ignoring certain aspects of enquiry, because they disturb and upset the comfortable pattern of ones thinking, cannot by any stretch of imagination , be called scientific . This is none other than the attitude of the biggot, the closed mind. This is not the right frame of mind conducive to receiving answers to such a complicated problem as the saucers.

Surely the mind must be free to look at every facet as it protudes itself into the area of our vision, even if after investigation one finds it cannot stand up to a logical test. at least one has the honour of knowing to his satisfaction it was not ignored. and that deliberately .

Not many years ago if anyone let it be known as we did, that he believed in mental telepathy for example, people like our critics , would look

Editorial. (3)

around for the man in a white coat to take him away. Well for the benefit of those who only read the comic strips of their newspapers, we will give them a little bit of information they may have overlooked.

Maybe it won't be as thrilling and ecstatic as lights running up a tank or strange noises on the phone, or people ringing up and saying "This is George from Venus" . but it IS factual data.

Two of the greatest nations , namely the U.S.A. and the U.S.S.R. are very busy experimenting with mental telepathy, and be it noted, also other aspects of E.S.P. They have recently come across various individuals who can read books and discern colours with their fingertips whilst blindfolded. Do our critics not know of the great E.S.P. tests which went on in the great sub Arctic Nautilus experiment? in which a man was placed in a sealed room away from the rest of the crew and another in a University in the U.S.A. communicated with each other by E.S.P. such tests proving a very high rate of non- error.

We point these things out to our critics who have libelously termed us as black magicians, and who in their ignorance and arrogance have accused us of that and many other offbeat stuff. The former of which we here strongly deny as diabolically opposed to all our beliefs and principles. the latter which we may admit to in some cases as off the usual track as explained above.

We do this to show that when we were interested in these things way back , little did we dream that we would be in such good company of scientific probing today .

Yes, we were interested in this off- beat material, our experiences forced us into such, with wonderful results and more, a firm strengthening of our Faith in the great Creator to not only illumine our minds but also more. to PROTECT us from the negative forces which lay in wait along this line . especially for those who have no deep founded faith in the verities. for it taught us indeed to be CAUTIOUS in the very true essence of that phrase.

Yes we were interested indeed , and still are , and it may surprise some who may not have read the write up in Time magazine , that even the great DU PONT industrial organisation is most interested too. So we ask you.

Just what do these so called research outfits mean when they talk about being scientific and objective when they ignore what they arrogantly term mumbo jumbo ?.

We say again , we offer homologies for venturing into the Twilight Zone especially now that others are coming along too. But we do admit, to be honest with others and ourselves , that we did find ourselves especially at the beginning in very mixed and wierd company , some characters whose records since have shown we were very fortunate and happy to be rid of their company. How could we help it?. like moths drawn towards a flame they came to us, as such types always do to any such wide ranged subject and drawn from the general public, Oh yes they came to us. we listened as they persisted in hard selling their particular brand of merchandise. That was okeh. in courtesy, (and we pray we may never lose that) we listened to them some with a great deal of patience grown men who talked like little school boys . and do still., listening with a careful ear for may be just one grain of a valuable clue, for we know from lifesexperience that the most fanatical charcters can sometimes produce some

Editorial (4)

valuable clue, and we learned much by this attitude. Who was it once said?
" Only a fool says he knows all "

One of these researchers we know who claims he is using orthodox methods of research to uncover that which is unorthodox, admits privately, that he "s just as puzzled now as when he first began " in spite of all the excellent material which has been handed to him on a plate by those in his society and the experiences of those gone before him.

It is a very true and old saying. " You only get out of it, what you put into it". maybe that is why he has not got the answers. To get the gold you have to dig or wade through mud and wash it out. It nver comes to you served up on a plate. and this is the sad case of so many who love the limelight of this subject. having read a few books, listened and taped others experineces , interviewed folk re sightings. etc etc. this to them is fidning the answers. when it is after all just scratching the surface. the real Gold of TRUTH lies deep down and it costs you something to get. maybe the criticism of your own followers or friends , so called , but the reward is more than compensating. any such loss of shallow companions.

To those who want to know and are prepared to swallow their pride we say come join our camp , at least we have had the experiences and should be able to guide you and help you in your quest, and although we do not know it all and probably never will , we have managed to iron out a few wrinkles as we've rolled along through the years.

To get into another strain lest I bee misunderstood and in view of the puns which I might recieve in my name and also my figure being of the rotund type, I am well aware a rolling STONE gathers no moss. but I can assure you that this STONE although round. has indeed gathered not moss. but genuine gems of TRUTH which have clung to him as he " rolled " through the last 15 years of seeking to know what the saucers were, and thw Whys and. Wherefors etc etc which surround that subject.

Such gems which have not only been of great value to himself but to others have rproved an immense help along the path of life as well of of understanding not only our fellow men better but how it is allrelated to the coming of the brothers from space.

After all these E.S.P. experiences have taught us just that , that these beings from space are not. some vegetable form. some insect forms. some hallucinations of our own subconscious minds. but real people. just like you are very interested in folk like you and me. (we stand amazed at this still) and whose instructions have enlarged our vision and attitude to life and drawn us closer to our Creator. (this is a good test) Did I say just like you and me? Yes, but with one difference , they live nearer the Great Father's LAW and consequently have all the attributes which become natural to any who live within the Law for the law operates that way , move withit and all its powers become part of you, transgress it and its powers work against you . Such is the Law and the powers they possess are to us supernatura , but to them just a snatural as eating, breathing, and sleeping. This great gift will someday be restored to us. when we have the sense to get BACK to the Father and His Law. For this purpose the brothers from space are here to assist us to RETURN to that place from whence we originally came . We hope at least to find the path. We ARE researchers for we seek to KNOW THE TRUTH. THE EDITOR .

Although having written a lengthy Editorial, your Editor feels that an article appearing in the Australian PIX of July 31st . calls for some comments in no certain terms. for the article a very well written one indeed by Tess Van Somers who obtained her data from various leaders of UFO Workers in Australia is a very revealing one of the present trend of such workers, to which your Editor takes great exception in that it will convey to all the readers of this magazine that such is the attitude to all folk who are seeking knowledge of the 'saucers'. As their attitude is one of complete detestable snobbery . he openly here condemns this attitude and wishes to disassociate himself from any such " better than thou" attitudes. The article entitled "These are our UFOLOGISTS" is too lengthy to print in full but we cull from the pages the offending opinions which clearly show how the Ufo work can become clogged up with such social seeking snobs.

Here is the first comment. " Australian Ufologists say that their principal difficulties now lie with officialdom and with an element they classify as hoaxers and cranks. " This of course applies to all groups whatever they are, but this statement is enlarged somewhat by further statements . as follows .

" On the score of the embarrassment caused to ufologists by " cranks" , one Australian flying saucer researcher recently referred to the ' whole written mercenary business of contacteeism, meetings with angels, rides to Venus, marriage to beautiful space-women and the inevitable books about them which have helped to create in the minds of many a perverted image of the flying saucer field. "

Now we agree with him that quite a few such 'cranks' as he calls them do not fulfil our own standards of acceptation . but we would be very chary indeed before we were silly and high minded enough to classify them all in the same category . For quite a few have given some indications that their stories at first hard to accept are indeed proving their claims more than possible.

Another rather surprising claim by another saucer leader, none of whom are named, we wish they were, is that " to his knowledge, not one of the members of the older established societies has claimed ever to have made physical, telepathic, or radic contact with a being from outer space, though a considerable percentage had had experience of seeing UFO. "

Such an admission by one who claims to be an authority is a complete confession of ~~crad~~ ^{crad} ~~mittance~~ ^{mittance} of his ignorance and shows how out of touch he has been with leaders in Australia. which is not surprising, when one considers the glass castle in which he sits and rules looking 'down' on the inferior mob of researchers. Of course he has never heard of such simply because he will not deign to look into such facts that hurt his so superior dignity .

Worse follows. " This official emphasised that ther would be nothing debarring a person who claimed to have contacted an extra-terrestrial being from joining ONE OF THE AUSTRALIAN SOCIETIES. (The emphasis and underlining is ours)

' However, he or she would find that the other members (NO doubt of his ilk) while keeping open minds, would regard claims about contact with very great reservation" he added. " The intellectual climate within the majority of societies, the fact that many of the offitc bearers are trained scientists or professional people, would be distinctly discouraging to sensational contacteeism of the type the ufologists deplore"

What a laugh that remark about the " intellectual climate" surely such egotistic

SUPER SAUCER SNOBBERY (2)

superior than thou bilge makes one nauseated. How very kind of you to come. and how gracious your majesty. to allow us poor deluded ones to come into your magnificent presence. we who are the worms beneath your feet. What colossal ego. Not surprising however to your Editor, for you see he has met all these or most of them in his 13 years of work in Australia, and it is not hard to recognise the arrogant sneering. language, it is in good keeping with the personality.

How far better an attitude is that expressed below this fellows diatribe by the Perth UFO Society. in their paper "Preparing Ourselves for Contact" when it decided officially that "there is no reason to stop genuine communications of this type (.I.E. Telepathic or radio), though there maybe a problem sorting out the truth from the hoaxes" Of course sorting out has to be done either we are not true investigators or researchers.

Further on the article says... "because of a conservative attitude towards contacteeism most Australian U.F.O. Societies have so far refused offers of affiliation from religious bodies with beliefs that the earth is being visited by beings from outer space working in accordance with a divine plan (This is a weak at us evidently vide or last two magazines. but we are not affiliated with ANY religious group.) to continue, the quote. However there are individuals within the societies who hold this view as a matter of personal conviction and where-gard UFO as divine relief for our troublous times. (Well thats US) They are encouraged to express their opinions freely, without fear of ridicule, but not on official platforms, in the majority of societies. (I know one or two where you would not dare to do this. not surprising as the self superior intellectual climate are mostly athtists. who rule there.

Here the article gives US a little line or two. it says.

In one case, that of Adelaide, this has led to a split in the original group. The Australian Flying Saucer Research Society, and a small minority of members wishing to discuss publicly the religious and metaphysical aspects of UFOs have formed a group known as UFOPIA publishing a bi-monthly magazine called PANORAMA. This group is not a member of the new Federal co-ordinating body of UFO Societies. CAPIO.

One or two comments here... The small minority termed may surprise some just how many of them did choose this "FREEDOM" many of whom are still members of the AFSSRS. but these were not the the only reasons why the split had to occur. If the truth were to come to light it would cause quite astir in the smug faces of the 'intellectual climate'. who so far have shut their eyes to the real reason. and in doing so have condoned it.

Surely the above attitudes taken by official authorities of groups, all of whom belong to CAPIO. indicates that CAPIO is riddled with this self superior snobbery and therefor although we have never officially indicated our unwillingness to join Capiro, rather preffering to keep our fingers crossed and being 'cautious men' await till a more open minded attitude is fostered to all seekers. for we believe as a body in UFOPIA that the whole subject is too big and vast to limit it to and select snob set of investigators. and that many of the answers WILL come from the very despised ones. which after careful probing will soon reveal the genuine from the hoaxter. we have already found this out by our own wider approach and the results have more than repaid any such investigation.

One thing we have found that as in the past, that many of the great causes. did not spring from the high and intellectual but from the lowly and despised. the outstanding exmp l. being the CHRIST and his lowly fisherman disciples. of course we must not hurt our athtist intellectuals by bringir HIM into it.

"S I P P I N G F R O M A
S A U C E R .

By "THE VENUSIAN "

It is now eighteen years since Kenneth Arrington sighted what he termed the " Flying Saucers ", that is double the number of years of the number of objects seen. Researchers all over the world have been, and are still, collecting and evaluating evidence . Yet the mystery still remains unsolved.

Researchers have ventured in many strange pastures, such as extra sensory perception, spiritism, and unfortunately some even into black magic. The word pastures , is not amiss, for many have strayed into a particular pasture and are still there contentedly chewing the cud, thinking they have come to the end of their search, and oblivious to the fact that the pasture abounds in poisonous weeds . There is a saying among you that " curiosity killed the cat " This would apply particularly to those dabbling in black magic.

Another saying you have is " a little knowledge is dangerous " . How very true and again most applicable . Being ignorant of the over-all operation of the Universal Law , the dabblers by the manipulation of a tiny portion of the negative aspect of the Law, become ensnared thereby, and assuredly as day follows night , they reap the whirlwind. One can stand upon the bank to observe the river's currents , without plunging in , for although it is possible to survive a current or two , one inevitably becomes overwhelmed by the main force of the river itself, as it is the origin of all currents.

It is right to search and experiment, in order to understand certain phenomena but do not become lost in it. During your searching and experimenting always question your motives . Always be on guard against becoming a casualty of those two weaknesses we have mentioned before, namely vanity and greed.

All those who use black magic are at fault in this respect .

Why else do they commit themselves ? . Is Love their beacon ? . Do you feel this is akin to old fashioned sermonising ? . Well perhaps it is, but we beg you to take an impartial look at the state of affairs on Earth .

Are you not victims of one crisis after another ? . Are not the majority of the nations continuing to arm ? . And are you not all living under the perpetual threat of complete annihilation from the H bomb. and the like?

Why of course you are aware of effects, but the cause is so obscure for many. Yet it is very simple to see. Can you not see that the two aforementioned weaknesses are classified under one word?. That one word being, Ambition ? . Are not individuals , groups, and nations all bitten by this bug called Ambition ?

You may disagree, but look at it very intently , free of bias, and you will see that it is so. Co-operation should be the keynote. If man knew how to really co-operate with Universal Law, he could not help but know how to co-operate with man .

You are aware by now that orthodox science , useful as it is, cannot give you the answer to the U.F.O. mystery , nor has it provided the key to unlock the door to harmony and peace.

SOME INTERESTING NEWS AND THOUGHTS FROM

HANS LAURITSEN .

The following is taken from a batch of news letters to the Editor and others and we feel is very thought provoking .

" cannot write anything about the military Laser guns , because they are kept secret . However it seems that the french speaking countries take another attitude towards secret keeping.

Don't forget that more scientists are working under military programmes than under civilian ones in the U.S. and probably Russia too.

Their inventions are usually kept secret .

The scientists are very dissatisfied with that situation . But they cannot do much.

Lots of important inventions, new machines, etc. are classified " top secret" . Some could be of immense importance to the development. Some might cause a too rapid change in the structure of society , so they just must be kept secret. However the military has been locked up by their own policy .. How to release the material without the risk of a public storm of protests for having been fooled so many years.?.

I believe that we the "U.F.O. Researchers" shall not complicate the situation by attacking the authorities responsible for the secret keeping. We have to understand that it has been all made to the best of a controlled development of society and by responsible men who know more about what is in store for us than we do.

Top scientists from all countries exchange a few words about the situation when they have a chance to do it during international congresses. Many oppose the policy and have the opinion that a free exchange of ideas among all countries is the best guarantee for a peaceful development.

The military calls them spys . In Russia they are killed ;in western countries they are removed from their research .

Many scientists cannot get a job if they don't accept a job under military auspices. Now scientists in U.S. have built up a political organisation taking care of their interests towards the congress.

For all in the world... we must do what we can to make it easier for the authorities involved to release what they have kept secret. The best way may be to tell people about the secret-keeping and at the same time assure them of the good purpose of it. We can be sure a lot will lose their heads, but we must remain calm .

.....

We are indebted to Hans for his thought provoking words. being as he is in touch with many scientists we know he is able to speak authoritively . He reveals what many of us have known for some long time although we may not altogether agree with his ideas in keeping it ALL under the hat . for we feel it all depends on WHO holds the reins of power. and knowing only too well of the HIDDEN Government of this world and its intentions, we are not too happy in what could be the outcome of that powers intentions for US.

Astronaut Sees Monster

Several vague reports were received here in South Australia about an unusual object which was supposedly observed by the recent USA astronauts in the phenomenal circling of the earth. In tapes also from the USA one referred to it as having "hands". but to date we had had no confirmation of this. and our local papers made no report of such. However our observer Mis Du Toit in Cape Town mentioned the local paper there giving details of this. so upon urgent request sent along the following report which was published in that paper.

DIE BURGER Cape Town. (In Africans) Translated. per above.

ASTRONAUT SEES MONSTER .

HOUSTON (TEXAS)

The American astronaut James Mc Divitt yesterday saw an object in space which seemed to have large extending arms. The position of the sun, however , made it difficult for him to examine it carefully .

This significant sighting took place during the nineteenth orbit of Gemini IV. about 11.25 South African time .

The astronauts of the previous Russian space flight said they saw another satellite . It was spherical and shiny, but they were unable to identify it.

The American satellite Pegasus has large extending antennae which could give the impression of arms.

The official in charge of the American space flight yesterday said they are trying to establish what the object was. There is however no danger of Gemini IV colliding with another satellite, because the courses of the satellites are known , and that of the Gemini has been worked out accordingly . Sapa Reuter(A.P.)

.....

The above statement and admission of the official surely then rules out the possibility of the unknown being Pegasus. or any other known satellite as being all so well tabbed it is not ruddy likely they would endanger Gemini IV by being too close to another known object. for whether Russian or any other nation they are all detailed and worked out. for this very purpose of non collision. whatever it was it WAS NOT one of the earth nations bits and pieces. But like all such things no sooner does a little bit leak out of such strange craft. that it is placed " under the wraps". Methinks someday it will not be a pleasant experience when the public really wake up. (lets hope its soon) and an aroused public never behave normal if they suddenly realise they have been duped and been treated like school kids. by BIG BROTHER. and his gang who are now running the world. Was it not the great hero of America who said " You can't fool them all the time".

Incidentally it is rather enlightening to read what HE had to say about the racial question, but of course we must not talk about that. or print it it might hurt our lovely-dovey one big worlders. who gloss over the Truth so much and wallow in a messy sloppy sentimentalism . Sorry we know this departed from the above waxy but it is all a part of the hush hush programme of us not being told what we SHOULD know and only that which the Gang want us to know.

How much longer are YOU going to sit back and be fed the sops. when God's great vast field of Food is YOURS if you seek enough ? .

" Arise Oh Men of God, have done with lesser things.

+++++

FOOD FOR THOUGHT .

by.

A Reader

+++++

When we were children we were taught that long ago certain individuals acting under Divine guidance performed miracles. These stories captured our imagination and we were enthralled . But as we grew older of course most of us grew a little more cynical and rationalised that after all these things were impossible , that these stories we were told and read about were just nice fictional stories to amuse, or deceive us. depending on how we looked at them .

How do we define a miracle ? Well, it seems is we actually witness something the mechanics of which is totally beyond comprehension , and about which cannot be measured or accounted for by existing scientific knowledge, we are apt to do one or two things . We either declare the occurrence witnessed as supernormal, i e. (a miracle) and rack our brains over it , or we may say to ourselves that miracles just don't happen , and try to ignore the whole thing. Unfortunately the majority tend to do the latter .

Supposing we take an article that we are all familiar with . namely a transistor radio , and demonstrate its ability to produce voices and music, before an audience of primitive savages who have never heard about, much less, seen a pocket radio. they would naturally look at it with reverential awe and declare it as a miraculous thing. But after a time when they have been taught the secrets of it's mysteries and fully understand the workings of it and even help to build one, a radio is no longer the mysterious thing they once thought. Familiarity breeds contempt, and they would take the whole thing for granted, just as we do ourselves today with the many marvelous gadgets we have around us, and of which our great, great, grandparents even in their wildest flights of fancy would have deemed impossible.

So it appears that we are on safe ground by admitting to ourselves , that there is in actual fact no such thing as a miracle . For what we took to be a miracle becomes a natural phenomenon once we understand the mechanics of the same. Everything that has happened, is happening , and will happen , we can safely say is of natural order or cosmic law. not supernatural. It only seems supernatural because for the present we do not understand it all. All phenomena such as hauntings , spirit healings, and all the phenomena we label as E.S.P. and of course the U.F.C. , are put into the same super normal category by a broad section of the community when they come across these things for the first time.

We omit of course those individuals so disposed mentally who hypnotise themselves unwittingly into seeing anything they want to see, or fear to see.

We are dealing with those who spontaneously experience or see something which they feel could not possibly happen to them . For those who dare public opinion and persevere against many odds to explore certain phenomena to find out the why and wherefor cannot help but find as they progress and learn with an open mind , that the mechanics of certain phenomena are not only conforming to a natural, but a scientific law and order, and if orthodox science for the moment cannot agree with these findings of such pioneers, one must have patience because when they finally do catch up , a lot of trumpets will be blown-, and the attitude is " of course we know it all along " .

Let us now have a look at something most people today take with a pinch of salt,

FOOD FOR THOUGH (2)

even those who class themselves as believers who because they haven't the energy or inclination to think hard about it all, will perhaps tell it to their, or some one else's children with tongue in their cheek, because after all it was supposed to have happened so long ago. I'm referring to the ascension of the Master Jesus the Christ (Master of the Christ, or more exactly, Master of the Spirit). Many sincere U.F.O. researchers have found a great many biblical references to phenomena which today coincides with what many people all over the world are seeing today.. Many descriptions of "saucers" today are described as "something like a big shiny cloud like thing". Isn't that the description of what descended and then ascended with Jesus?. Reluctantly the critic might agree that is what it looks like. There was no mention of any flapping wings, or anyone taking Him up by the hair, arms or clothing, just that "a cloud" received Him out of their sight". If we were fortunate today in beholding someone we know entering a saucer, and then being whisked away into outer space and out of sight in a matter of seconds or minutes, we would describe the procedure just as the ancients did.

After all, in those days they couldn't say it was like a balloon, and airplane, or a kite. All they had seen in their skies were birds and clouds, and as it obviously had no wings to flap, the cloud describes it most fittingly. This is more particularly so when many of the saucers have been seen to materialise from within a cloud. or return to that seemingly cloudy substance, and then suddenly whisk away at tremendous speed.

Of course there is the more fitting description given by Ezekial Chap 1. of this aircraft. which he found so hard to describe and gave it in language which seems to confuse so many until they start to evaluate with a modern saucer description. Probably the most nearest to a modern saucer description was the occurrence of the departure of Elijah the great prophet of Israel. as given by his servant Elisha In 2 Kings Chap II. Here we have a description of a FIERY CHARIOT, obviously any such craft termed a chariot is a means of transportation. and if that same chariot is in the air. it could not be anything else than an airborne transportation. for it certainly was not on the ground. And here we would point out something which has missed so many people's notice. Have you ever noticed the fact that Elisha in calling Elijah's attention to the craft. referred to it as "The chariots of Israel, and the horsemen thereof"? Does it not strike you that he at least knew what it was, almost as if he had if not seen them before. at least identified it by some knowledge known to him and his master Elijah?.

Is it possible that in those days they knew all about such craft? and such an occurrence although perhaps not an everyday affair, was at least something they, at least the men trained in the school of the prophets, had full knowledge of? For he Elisha at least knew what it was and said so in no uncertain terms. One wonders how much has been hidden from us by those who failed to correctly translate the Sacred Volume of the Law.

To return to the incident of the ascension, alright says the critic, I'll concede that much, but it says He will come again in the same way, or to be precise by the same means, but after such a long time how is it possible?.

Well, those students who are conversant with Einstein's theory of relativity, and much more besides, can indeed see that such IS possible, yes scientifically possible, with nothing supernatural about it.

What is time?. Time is relative to where you are isn't it?. On this planet for instance, we are aware that our time is measured by the revolutions of this planet. with every full turn of the globe we are one day older.

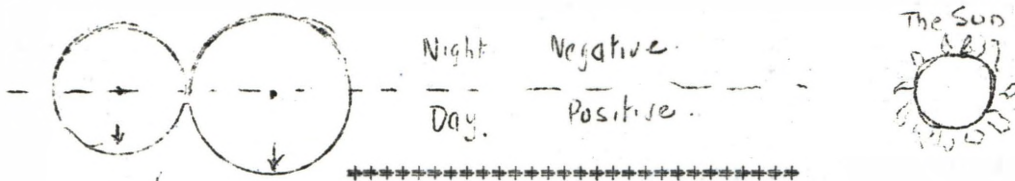

Food for Thought (3)

Is that not so?. We swing from night into day, and back again into night , and so on until we die and are no longer conscious of the fact. But the globe keeps revolving and thereby ageing everything as it does so.

Now if we went to another planet much larger than ours for instance , we would find that although it too revolves just as ours does, time there is different there to our time . The same ageing process occurs but in relation to us anyone on the larger planet would be younger. In other words , if our planet revolves five times to the other planet's once, it's easy to see we would age five times to those living on the other planet. Now if two people were born simultaneously on both planets, the person on this planet would be fifty years old when the person on the larger planet reaches the age of ten years. .

Now if you play around with this business of time you will see that there can be situations where there is no time as we know it, you can't help admitting that the return of Jesus is scientifically possible. Furthermore to those people who claim to have met our space visitors, have been told by them that they are thousands of years old by earth's time , we can therefore no longer shrug our shoulders as incredible, simply because we can't prove it, for we CAN prove it , if we want to, if we sincerely want to with open minds.

Try this little experiment, it's quite easy . Scribe a circle of stout cardboard then a much larger circle, choose the size to suit yourself, and then cut out the two circles so that you have one small and one larger disc. Make a mark, say an arrow on the edge of each disc, and set them up so that they revolve freely yet touch each other so that they will turn together as if by turning one you turn the other, you will see by watching the two marks and their positions as you turn the discs in unison, pass a given point on the table which you can designate as the Sun , that this relativity of time is not so complicated as you once thought. Play around with this , and let your imagination have a fling and you will come up with some astounding yet simple facts that tend to show you how ALL things are possible. A wise man once said. " There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy. "

 "WHAT DID PRES. L.B.J. MEAN ?..
 "IS HE HIDING U.F.O. S"

DETROIT FREE PRESS. President Johnson while speaking recently to a group of 700 women said"... no leader of any people, however great his wisdom, can dare prophesy what the future holds for us. We can see and foresee problems that are too great to be solved by man's mind- or yes, even by women's hearts. " About a week previous to this the Gilpatrick Report was given to Congress. Since this was a study of grim and inevitable spread of nuclear know-how, is the President attempting to prepare the public for something?. For instance we may need some assistance from more advanced planets as a sort of last chance means of saving the planet . According to Little Listening Post of Washington. D.C. thousands of U.F.O. are being seen all over the planet. Not only interplanetary. they want to help us and have actually helped us in the past in various ways which we are only now learning about. Its time our leaders let us know what is going on .

SIGHTINGS FROM HERE AND THERE.

FLYING OBJECT SIGHTED ANDAMOOKA.

This report was received just after the last Edition went to post hence is now some 2 months old.

"NEWS" 23/6/65.

Andamooka residents said today an object flashed across the sky and disintegrated south-west of the township early today .

They said the object was seen for about four seconds just before 7.a.m. and was far brighter than the clear dawn sky.

It spanned 120 degrees before disintegrating.

Many believed its was a satellite or a satellite casing .

But a spokesman from the Weapons Research Dept. said it was probably a meteor.

" It sounds too bright to have been a satellite," he added.

" there are about 1,006 bits of ironmongery from satellites scudding around up there and there would be no record of all of them .

" Only about half a dozen satellites are kept under observation ." .

=====

For our overseas readers information Andamooka is an open field in the North of South Australia. =====

REPORTS FROM AUSTRIA.

" A STRANGE PHENOMENA" Vienna . March 28th 1965

Gessell schaft fur Interplanetaries, report.

" My wife and I (Dr. H.W.) sighted on the 25th Feb. 65. at 7 a.m.a white glowing disk in the west of Abt. the size of the sun.

The same observation was made by Herbert Brettschneider at 4.a.m. when it was still dark .

On the 11th of this month while watching the moon , a disk about a quarter of the size of the moon was seen moving in a westerly direction towards the polar star . It was a blueish - white luminous light and its speed was much faster than any plane . yet slower than a meteor.

EISENERZ. AUSTRIA. Sunday March 16th 1965.

On April 6th at 11.p.m. miners in the Eisenerz district saw a formation of 6 flying objects . They came from the south in a northerly direction .

On each object a fiery red tail could be observed . The sighting lasted about 6 to 8 seconds and there was no noise heard .

As the objects flow in an echelon style , it couldn't have been meteorites.

The same sighting was also observed at Linz in the same direction about 250

Km. to the west of Eisenerz. The light tails were described as steel-blue.

The same observation was made by a railwayman at Vienna on the same day at 0.22 hrs a.m. A phone call to the Meteorological Institute revealed that it the phenomena was not observed there.

.....

The above description is almost identical with those seen in N.S.W. on March 5th. and reported in our last edition . exactly one month earlier . Editor.

.....

NOTE THE FOLLOWING and the Date
One day later .SEE NEXT PAGE

AUSTRIAN SIGHTINGS CONT. (2)

MARCH 6th.. DEUTSH- WAGRAM .

A Mr Weiss. reports that he saw on the 5th March. at 0.20 hrs.a.m. travelling in a northerly direction four red fiery disks which each had a long tail. They were much faster than planes. The objects moved in unison at a constant speed and distance from each other and one object suddenly and quite plainly signalled with a light beam repeatedly , apparently to the other objects and then disappeared from sight within seconds and only two disks were visible. which also disappeared from sight.

It was a strange sight to see them moving noiselessly towards the north.

Dr. H. Weyss G.f.I.

.....

Major Mc Divitt. (USA. Astronaut) reported and brought down phtos. of objects seen during their 4½ days circling the Earth, which show striking simflarity to UFO pictures/ A ell lighted object with a tail. Most likely we will not hear or see anything of the other photos. three in all.

.....

Re the latter. we here in Australia were not told much about it either and certainly no ohtos have been released showing these objects . we don't expect to see any either . They are not game to tell us the T uth. Read Hans Laurit-zons letter in this issue.

TWO WESTERN AUSTRALIAN TOWNS SEE SAUCERS.

" THE WEST AUSTRALIAN " Sat July 10. 1965

VERTICAL RAINBOW REPORTED

A Harvey farmer c.aimed yesterday that a vertical rainbow lingered in the sky after he had seen an unidentified object on Thursday .

Mr . Lyall Jones (56) said that he saw a glowing red and orange object low in the sky at 7.15. a.m. . about 15 minutes after a similar object was seen 20 miles away at Australind.

He and his two sons Ross(22) and Bruce (17) had watched the object for about seven minutes before it sped off in a south-terly direction.

The objedt was definately not a star. He could not look at it directly because the glow was as bright as an oxy-welding flash .

The rainbow effect had lasted for about five minutes after the object dis - appeared .

.....

BUNBURY W.A. Thurs.Jul8 SKY OBJECT REPORTED.

An Australind dairy farmer claims he saw an unidnetified flying object early today .

Mr Peter Rodgers (42) said he was milking about 7. a.m. when he saw a glowing white object hovering 20 ft. to 30 ft. above the ground.

" Itw as just getting light and I couldn't tell just how far away it was" he said .

" I kept it in sight for about five minutes. I was just going to call my wife out to see it. when it changed to red and started to rise slowly .

SIGHTING REPORTS CONTINUED.

MYSTERY OBJECT IN SKY SEEN AT CAPE TOWN.

"CAPE TIMES " June 1965.

The Smithsonian Institute of Astro-Physical Observation station at Olifantfontain , near Pretoria, closed down last night so that investigation could be made of a mystery object travelling across the sky in the Western Cape and the Transvaal .

The Institute received a spate of inquiries about the object .

Mrs. Cynthia Citron, said last night that her husband, employed at the tracking station, was travelling in the Eastern Transvaal trying to unravel the mystery. He had taken the unusual step of closing down the station to do this.

The S A B C in Johannesburg said last night it had been deluged with telephone inquiries about the mystery object. Mrs Citron said she and her husband had also received many telephone inquiries .

Pretoria police reported that people claimed to have seen an unidentified object flying in the direction of Durban .

A lecturer from Wellington (N.Z. we presumeEd.) Mr. O. Fourie said he had seen a reddish -coloured object with a bright tail for seven minutes before it disappeared over Du Toit's Kloof about '30. last night .

NEW REPORTS ON FLYING OBJECTS .

AUST. ASS. PRESS. July 12

BUENOS AIRES. July 11th 1965

The " Martians or mirage" controversy flared up again yesterday as new sightings of U.F.O. were reported in South America.

A police corporal was reported as saying that he and his whole family saw a flat , blue object hovering on Friday night over the north-eastern Argentine province of Chaco.

He said it hung in the sky for several minutes before shooting off south-westward with a trail of flames.

In Montevideo. , a Uruguayan newsagency reported some 100 people seeing a luminous flying object changing colour above a beach in the River Plate area. An eyewitness was quoted as saying it hovered for several minutes at midnight above a beach in the Coloná province, revolving on its own axis before flying off at a high speed.

THE CURRENT SPATE OF "SIGHTINGS" STARTED OFF EARLY THIS MONTH WHEN CHILEAN ARGENTINE AND BRITISH SCIENTISTS IN THE ANTARCTIC OBSERVED MYSTERIOUS FLYING OBJECTS WHICH THEY SAID SENT THEIR ELECTRO-MAGNETIC INSTRUMENTS WILD.

Crews of several Chilean warships reported seeing circular objects emitting sparks and moving on the horizon on Thursday night .

Sailors from the ships which arrived in Valparaiso , Chile, on Friday night, said the phenomena were visible the whole of Thursday night, when the ships were off Constitucion, about 220 miles south of Santiago .

continued next page .

SIGHTINGS CONTINUED (4)

South American cont.

The sailors told the reporters "The objects appeared circular and were moving back and forth among themselves, giving off green, orange and white sparks. "

HUELVA (Spain), July 11th. Strange flying objects were reported over several communities in this region. Associated Press reports. Observers said the objects were "silvery and luminous. "

.....

FURTHER CAPE TOWN SIGHTINGS

Our Observer Miss Du Toit has sent a further batch of news.

" Cape Argue" 6th July 1965

OBJECT IN SKY Baffles FOUR PILOTS.

MARITZBURG . Tuesday .

An Unidentified flying object which baffled veteran pilots over Maritzburg's Oriibi aerodrome last night was seen earlier in the Edendale valley .

Mrs. J.G. Joubert of Topham Rd. , said this morning that her Native servant had pointed it out to her at 5.45.p.m.

Mrs Joubert said; " It was a dead-black oblong hanging motionless in the western sky, silhouetted against the sunset. We watched it for five minutes before it moved down the Edendale Valley and drifted down out of sight".

And this was the locality in which it was first seen by four pilots in a light plane approaching Oriibi aerodrome 3 hours later .

CIGAR SHAPE

The alarm was given by Mr Tony Willis and thinking the cigar-shaped glow warned of another aircraft's approach, the pilot. Mr Oliver Tennant, swerved off course.

On their second approach they were again deterred by the object, which moved off ahead in the direction of Richmond.

Their third attempt to land was also hampered by the object, and they decided to investigate .

As the aircraft approached the object , Mr Tennant tried to silhouette it against the moon as it was otherwise impossible to gauge its size or speed. But this was not very successful and the men were only able to gain the impression of a triangular object .

"There were defiantly flames," Mr tennant said today. ' A sort of orange-yellow glow like that of a blow -torch. " He said that this discounted the possibility it might have been some kind of kite or ballon. Its movements, too, were unrelated.

The plane began to circle the object , but it shot up suddenly vertically at high speed . Even climbing after it at the nearest stalling rate of 600ft. a minute failed to close the gap and the flyers saw the object streak across the sky and disappear over the escarpment of World's View.

Watchers on the ground reported that the object made no sound.

VETERAN PILOT .

Mr. Tennant, chairman of the Maritzburg Aero Club, was accompanied on his extraordinary flight by Mr. Colin Campbell, manager and chief commercial pilot of the club . Mr Tony Willis , the secretary , and Mr John Hoskins a member.

cont. next page .

SIGHTINGS CONT (5)

South African cont .

Mr. Hoskins has logged about 300 hours , but the others are veterans of the air and fought in air forces during the war.

N one of them have had ever a similar experience and could offer ho explanation to what they had seen .

In Pretoria, a Defence Force spokesman said today that no report of the incident had been recieved and the air Force could not comment .

He said the object could not possibly have been an Air Force jet, because it could never return in time to interfere repeatedly with the flight of a slow, low flying light aircraft .

Two Pretoria people today reported sighted an UFO 40 degrees above the horizon near Heildelberg. Transvaal, at 3 p.m. yesterday .

Mr. J.H. de Vos reported that the car in which he was travelling was gping up an incline when he saw with his companion the object directly ahead.

" It had a long fiery tail and looked like a comet" He said. After we watched it for about 30 seconds, the object accelerated at tremendous speed and vanished. There was no sound." said Mr .de Vos.

.....

MYSTERY OBJECT OVER CANBERRA* AUST. COM. TER.

ADELAIDE " ADVERTISER" 16.7.65.

CANBERRA. July 15. A mysterious glowing object seen in the sky north-east of Canberra airport this morning has baffled airport officials and astronomers.

Dept. of Civil Aviation officials said the object had been seen by six members of the control tower crew for about 40 minutes.

It appeared to be hovering at about 5000 ft . five ti ten miles from the airport

Several people at Fairbairn RAAF base also saw the object , and the crew of a TAA aircraft department from Canberra were asked if they could see it.

They said they thought they could see something glowing .

The object disappeared before an RAAF aircraft could reach the spot.

Those who saw it described it as glowing white , indeinfable in outline and stationary .

An astronomer from the Mount Stromlo Observatory , Mr T. Miller , said there was no astronomical explanation for an object as described by the tower crew.

The glowing spot could have been a meteorological balloon , but if so, it would not have remained in a stationary position .

He had received many reports of the object but had been unable to locate it himself. .

.....

"LIGHT OVER AIR BASE..

ADVERTISER 27/7/65.

BRISBANE. July 26th . Reports of a bright mystery light over Australia's big- est bomber base at Amberley, near Ipswich, tonight had Air Force and meteoro- logical officers puzzled.

Eight people, all from the same suburb of Ipswich, reported a mystery light directly over the main complex of Amberley air base.

Mystery Object Seen on Beach Near Sydney.

"THE NEWS" 23.7.65.

Sydney, Today : A businessman claims he saw a green, glowing object on Vaucluse beach this week .

It in no way resembled a conventional aircraft .

The man, Mr. Denis Crowe, said he watched the object in flight for 10 seconds before it disappeared in a cloud over Manly .

Above is a sketch drawn by Mr Crowe. (copied from paper) Ed.

He did not dismiss the possibility that the mysterious craft could be an Air Force secret project .

" But I doubt it," he said at his home in Coolong road Vaucluse.

" It took off with a noise like air forcibly released from a balloon.

"The Noise was quite unlike anything made by a jet engine,"

Mr Crowe said that the object, a giant disc, was bathed in a glow.

He saw no sign of movement within the craft or any portholes or doors.

He said he became aware about 5.30. p.m. on Monday of a glow coming from the beach. He went to investigate and saw that the glow emanated from a huge disc resting on the beach .

He was within 50 or 60 feet from the disc when it took off.

"Its diameter appeared to be about 20 feet." He said. " I estimated its height at nine feet, including what appeared to be legs protruding from the bottom .

" Its rim was glowing a greenish blue, while the top and bottom halves were dullish silver-grey .

A hollow in the top could have been a glass dome ."

Mr. Crowe said that as the object took off, a yellow or orange glow appeared beneath. After a take-off run of only 50 to 60 feet, the craft climbed rapidly in the direction of Manly.

" I looked around hoping to see someone else who saw it, but my only company was about a dozen or so dogs" Mr. Crowe said.

" While the object was stationary, they were all barking loudly at it, but after it took off , they were strangely silent . "

A New York report says at least five sightings of flying objects outside the U.S. in the last two weeks remain unexplained.

But a glowing object caused a commotion from Ohio to Maryland, turned out to be a runaway Navy balloon launched in Canada.

What are these objects?.

SPECIAL ANNOUNCEMENT.

In our next Edition we will introduce to you two newcomers to our work and who have already got into the harness and more than pulling their weight.

We refer to. Ray Mountford and his good wife who have taken the positions of Assistant Editor and Secretary respectively.

U.F.O. REPORTS STILL POURING IN .

WASHINGTON DAILY NEWS. Aug . 4th 1965 (Fourth consecutive day of sightings)

OKLAHOMA CITY. Thousnads of persons across the nations midlands and South-west again last night reported seeing mysterious flashing , winking and sparking phenomena which sped and sometimes zigzagged adross the skies. The Air Force contends that most of the sightings were porbably stars or planets. Najeeb E. Halaby, former Federal Aviation Agency director, said that the rash of reports may signal a " new American mythology " .

" Reports of such objefts seem to reach a peak in August or September, It may be that the long hot summer expedites the imagination" he said in Los Angeles. Most of the objects the people saw were described as red or yellowish, and speeding across the sky from southwest to northeast at very high altitudes.

It was the fourth consecutive day of UFO sightings, which have harried some police departments so much they have reffered the enquiries to Air Force bases. A lot of people took issue with the Air Force claims that they were stars or planets. A Sioux City, Iowa, high school teacher said he saw a flashing object , and"anyone who would say this is a star would be out of their mind" An Air Force weather observer in Oklahoma City has repeatedly seen unusual objects in the skies , and said " they are no mirage ' .

One object"looked like it had a flat top and flat bot.com , and it was not a true sphere, " the observer said. " There were two rings around it and the 4ings were part of the main body ."

Shelby Crain , who lives near Harrison Lk. saw something " that moved back and forth from northwest to south east . . It was joined by another thing that waâ dark red and they moved together , seeming to get higher and higher until they disappeared. "

A highway patrolman said he kept a flashing red object under observation for several minutes near Erick in Western Oklahoma . Similar sightings were reported at Lawton and Tulsa.

Several persona reported a red-white flashing object southwest of Denver which was 2500-5000 ft. high. It bobbed up and down then finally disappeared over the mountains . A green object sped along at estimated 300 ft. north of Albuquerque, N.M. for about four seconds then rose sharply an observer said.

Reports of the UFOs were numerous in north Texas.

Two men watched a red glowing object thru. a telescope from Dallas for about 45 seconds . They said it resembled winking lights of a jet plane but " was much faster and much higher " .

The most northerly sightings were at Blain and Fridley, Minn. police reported seven or eight objects which bobbed up and dwon , hovered and darted about.
