GOODIES OR BADDIES.?.

So often when lecturing on this subject of the Flying Saucers, one is posed with this question in some form or other . Our attempt to answer it is of course very limited then as now, and we can only express a few views and call to hand some outstanding cases which indicate at least one way or the other .

Firstly let us understand what we mean by "Goodies and Baddies ." they can be used in somany differnt ways: as Postive and Negative forces, Light and Darkness , Good and Evil. all of which indicates the acceptance of the fact that there are two very distinguishing standards of views.

Naturally one accepts that if they are good, then the behaviour pattern will be in accordance of accepted standards of morality and ethics. not necessarily those of man made laws but principles which dominate throughout generally.

On the other hand if bad , then the actions or behaviour pattern or results would be those which would be of those dominated by lower standards of morals etc.

Most people are not prepared to accept a neutral position , and demand that it is one way or the other . , personally I am inclined to such an attitude. but am not so dogmatic as to demand that others may not be right .

Let us examine why some people have raised the question of good or evil. Naturally, basically most of it is fear of the unknown which prompts them to "make sure" what they are getting involved in . Others who have high religious standards naturally want to make sure it doesn't interfere with their belief. Others are prompted by the old self preservation instinct, which demands to know whether one is a friend or foe. and probes before trusting an unknown .

The modern history of Ufo is not without cause for some of the above, to be wary as to who and what are these people from outer space, some of the more recent cases have indeed caused much thought along the above lines of good or bad intent . Some earlier cases known to those who have been associated with Ufology for years have been quite as puzzling in this regard, but one never sees them mentioned. by the newcomers, possibly because of their ignorance of the cases, or because on some cases they have never been made fully public, but nevertheless. they cannot be ignored when evaluating the case as a whole.

One is often told that the Mantell case was one of evil intent, but when truly evaluated , this can hardly be so, for it was obvious that Mantell being unaware of the danger of being in too close to the motive forces of the saucer, was killed not by the intention of the saucer pilots but by his own

retable lack of knowledge of this force field and its power.

The cases of the disappearing Avengers and Bombers of the USA Navy, also are often used as evidence against the peaceful intent of the saucers, and here we have to admit that there is a slight lean in the favour of this point of view, but again let it be remembered that, as the Avengers and the Bombers were never traced and the evidence so slight as to what cause their disappearance, it is very flimsy evidence to completely condemn the UFO for being evil, or that their disappearance was the cause of UFO; that area indeed is very well known for many mysterious things to happen, and maybe it was a man made cause which could have been hushed up.

Mainly of course, the far greater issues of charges laid to evil intent or behaviour of the saucers are the cases in which all come under the contactee class, and to the high fallutin' pseudo-scientific minded Ufologists, these are not even given a consideration to be analysed, as even possibly genuine, and it remains for the wider open minded groups to dig into them, and at least form some conclusion as to their veracity or reliability.

One indeed would be foolish to accept all contactee claims as genuine; after 16 years of research, your Editor, still finds it hard to accept some of the claims and prefers to remain objective in those cases. Others of course being substantiated by facts, data, and evidence which has stood up to many investigations and probes by reliable workers, have a more just claim to being genuine and therefore, have a claim to our consideration.

One of the earliest cases which struck your Editor, but is not much heard of is the case of Enzo La Sarsa, or the Nickel Mine case; space demands brevity so we can't go into the full details. Briefly.. Sarsa was working at the mine a space ship descended, a 3 men 13 ft tall came from it. They had strange hypnotic eyes. One of the monsters "ordered" Enzo to do something which he claimed greatly shocked and repelled him, he refused and the demand was repeated. again Enzo in fear refused and records shock at their suggestion. They finally left him. Whether genuine or not, let us give a few thoughts to this. Most commentators at the time suggested that they wanted Enzo to blow up the mine, but I consider this suggestion as foolish for they could have done that themselves, it appears to me. I stated in my book which I wrote in 1954 and which still remains unpublished, that I considered what they asked of Enzo was something deeper than that, something very personal and which was totally against his religious codes, he being a Roman Catholic. Whatever it was it provoked his ideas of standards which he possessed. This case was then, if genuine, certainly one which could not be classed as those of good, for there is a very old saying which has proved a great testing gauge "By their fruits, ye shall know them etc" Good people of earth or space do not ask others to commit something which is contrary to their standard of rightness.

for to put it into Enzo own words "he said "I would rather die than do what they suggested to me" the nature of this act whatever it was, he refused to divulge to the police, when in fear, and after having fainted he was questioned, Had it been "blowing up the mine" he would hardly hide such a fact. No, whatever that request was, it was something deeply affecting Enzo's standards of ethics so deeply he could not bring himself to commit the act.

Other cases which have never reached publicity bear similar facts, of requests, some of them mentioned in the above unpublished book.

Let us because of space jump forward to more recent cases. The Barney Hill case, now well known by the publicity given it in the world wide press.

This case contains some most unusual facts of interference of the human rights of those concerned, for it is most apparent that neither Barney or his wife would have consented to being "operated on" in the manner related, had they not been "Hypnotised". Here again we see a force at work which goes right against the accepted Universal code, that of a person having the right, to decide yea or nay, freedom of choice is ours, if that freedom is taken from us by force, so that we do something we would not do otherwise, whether by space people or earth people being brainwashed or drugged, then the force asserting such a violation of our rights cannot be called good, in my terms of thinking.

To quote one other case again well known, although published in this magazine some 6 years ago and now recently only brought to light in the Flying Saucer Review of England. The case of the young Sth. American Farmer, No matter how we look at this case we cannot be exactly impressed by the standards of the saucer people involved, for to take a young farmer and force him into seduction, a matter which caused his religious principles after much concern, can hardly be expressed as being classified as those of the best moral standards.

All of this brings us back to our initial question. Are they goodies or baddies? Now let us be honest about it all. All these cases, even those known and those not publicised, must be admitted are very much in the minority, and the vast majority of cases of saucer visitants, whether contacts or not, so far have never displayed any form of real hostility or infringement of our human rights, in fact they seem to have preferred to greatly respect them.

Yet we dare not ignore the cases a few of which we have briefly outlined above as being completely different in behaviour to the greater majority which respect us and our rights, which brings us to no other conclusion than that which I stated to Gray Barker years ago when he first started to write up about the Bender Case, and published his well known book "They Knew Too Much About Flying Saucers" and in which he quotes me then as saying, there were TWO forces at work. I still insist that this is so. It is also logical to conclude that they are not ALL COMING FROM THE SAME SOURCE. Hence this difference, quite a few writers have tried to tell us that, most of them being scoffed at, but at last, many are being forced to reorientate their views regarding this possibility.

The sad part is that too many will hinge onto these strange cases to use them as an angle to prove ALL saucers are evil or bad. This is particularly so to many religious minded folk who themselves are the greatest teachers of the forces of good and evil at work, but when asked to extend that reasoning to things from other worlds they cannot enlarge their limited vision enough to realise that such is related in the very book they derive their teachings from.

Of course there are goodies and baddies. we have them on earth even as every day people we live and move amongst, even perhaps in our families, good and bad every where. But it does not mean that ALL men are evil, or so taken over by evil forces that the whole human race is evil. Likewise there are those from space who are higher in order than others. The main thing is to be able to recognise them or identify them, and its so easy. Again "By their fruits" which brings up the question of the fearful ones. How can I protect myself, if I was to come in contact with such: A most unlikely thing however. Let us take a look at the 3 cases quoted above.

The Case of Enzo. Despite the fact that he relates that they had hypnotic

eyes , and that the height must have terrifying in the least to him, he having never heard of Flying Saucers. Yet even taking all this into consideration their request he was able to deny, whatever it was and perhaps as it was to him. We do not know from the facts HOW he was able to resist them. It is recorded he was a devout Roman Catholic. Maybe he resorted as most would have done under the circumstances to some form of prayer or other .We admit we are assuming this. but apart from will power there seems to be no other reason why or how he was able to resist the dominant power and force of these wierd visitors. My guess is that he prayed.

Case 2. Betty and Barney Hill.... This case is one in which they admit they WERE put under some from of hypnotic spell, and despite all supposed laws relating to such, that no one will do anything against their moral code under such a spell, it means that either they were under such a spell that they could not resist. or that they willingly in the subconscious consented to what took place. Actually we will never probably know , for I do not think either party are sure of this to be exact . However this case also presents other factors which cannot be discussed here , nor would they be believable or acceptable to most of our readers, briefly it is one of racial complexity.

Case 3. The young man Boaz of Brazil. Here it cannot be entirely said he was FORCED to commit the act, we must remember he was a Latin,young,and naive all of which would help him to easily fall a prey to overwhelming forces which would appeal and excite his nature, and make him not altogether an unwilling party. He was very human , which mosy of us are not honest enough to admit if we were placed under the same circumstances , It must be said in his favour he deeply regretted the act after and made repentance accoring to his beliefs.

Many cases known to the Editor which cannot be given here all tell the same story, in which when confronted with powers of evil or the baddies, few as they are in comparison. that THOSE WHO USED PRAYER AND THE POWER OF THE HIGHER FORCES TO COMBAT THEIR EXPERIENCES. ALTHOUGH VERY SHAKEN AND UPSET ,CAME OUT VICTORIOUS. OTHERS WHO REFUSED SUCH ADVISE,OR IGNORED IT OR LACKED IT. FELL VICTIMS. To sum up to meet an opposing force one has to have a superior one since the Forces of LIGHT ARE SUPERIOR TO THOSE OF DARKNESS. and there is no need for fear . One of the greatest of religious writers said.

" We wrestle not against flesh and blood, but against principalities Powers of wickedness in high places. " St. Paul.

This is true of Earth as well as of Heaven (Ouranous--Outer Space)
So we add his further words.

" Therefor take unto yourself the whole armour of God, girding yourself against the wiles of the wicked one."

The Editor makes no apology for the religious strain of his advice for he KNOWS IT WORKS, maybe there are other ways of combating the baddies. but at least the tried and tested way is a safe one so he sticks to that .

ABOVE ALL BE NOT OVERCOME OF FEAR . FOR IT WILL AND CAN BE YOUR WORST ENEMY AND THE VERY CHINK IN YOUR ARMOUR TO BE YOUR DOWNFALL. CAST OUT ALL FEAR . H HAVE FAITH IN THE RIGHTNESS AND GOOD NESS OF GOD.

.....

THE HISTORIES OF THE WORLD ARE FULL OF RECORDS OF MEN AND WOMEN WHO HAD FAITH AND BY SUCH FAITH CONQUERED THE GREATEST ODDS AND FORCES OF EVIL. WITH SUCH AN ARMY OF WITNESSES WHY NOT FOLLOW THEIR EXAMPLE? FOR IF RIGHT IS ON YOUR SIDE YOU CANNOT LOSE THE BATTLE.

.....

BY. A.E. BRAN .

Five months to go. Or to be more explicit 9 months and 3 weeks , namely June 1968. the " Day of Reckoning" Or is it? .

Let us sit back and calmly meditate on the world about us. , relating it all to the information given us about our Universal " Sword of Damocles" , the planetoid Icarus, atill literally hanging over our heads.

If any of my readers are die-hard scientific purists, now is the time to skip this article and pass onto something more to their tastes , for I am going to delve into the realms of abstract; metaphysical, and para-physical research. interspersed with a few relevant facts.....

Have they gone? Good! Now shut the door, sit down in that easy chair, and concentrate on what I am about to tell you, absorb it fully, ponder on it, discuss it with your conscience, and see if your final conclusions tally with mine.

Certain information was given to various magazines and press agencies during 1966, regarding the possible danger to our planet when it passes through the solar orbit of the planetoid ICARUS during the mid 1968.

This information was deliberately played down by the agencies concerned, (on instructions ?) and to my mind the general public were not made fully aware of the potential dangers. If the intent was to minimise the possibility of universal panic, all well and good, but, as I have made clear in previous articles, the world population is NOT entirely composed of ignorant morons, and that the true facts should be made clear to all people capable of restraint and intelligent appraisal.

We have recieved information from various sources around the world , both scientific and otherwise, which informs us and confirms our belief that something serious could possibly happen on or about the date specified.

One of our correspondents, an aged American lady, well known in the fields of meta-physical research and a true " sensitive", who unfortunately is undergoing a bout of serious ill-health, at the present time.

She wrote to the Editor of this magazine some years ago regarding certain dangers to Earth. mentioning a comet or planetoid as being the cause and naming the year 1968 as the possible year of its coming. Remember. this was before any news item, in any form, had been publicised concerning this.

(Her news item was accompanied with numerous references, and in view of the fact that so often her forecasts had been so accurate. the Editor kept the data well filed for reference.). Ed.

Other information in our files from widely spaced sources tend to corroborate her statements and all point to the one un-escapable fact, that the Earth is facing an imminent shattering upheaval. Whether the upheaval will be physical in its impact, or social, or even a bit of both , we are not at this juncture perfectly sure.

Let us examine certain patterns in social behaviour and physical trends all over the world : perhaps it would be a little clearer if I enumerated the various items, as follows...

1. Racial and Religious strife. (U.S.A., Africa, India, England, Mid-East and Indonesia. and Now Hong Kong. etc.
2. The creeping anti - Christian tide of world Communism .

ICARUS COUNT DOWN 68 Cont (2)

- 3 Breakdown of family ties, and lack of respect of children for their elders.
4. The drift away from the old established tenets of Christian teachings, aggravated by certain so called "inspired" clerics, who interpret sections of the Bible to their own modern way of thinking, in which they have been carefully indoctrinated in their so called Religious Seminaries. (more like Cemeteries) all of which is diametrically opposed to all previous conceptions of our knowledge of the Sacred writings.
5. Increasing tolerance to the use of habit forming drugs, and pressures from irresponsible groups and individuals on their governments to legislate for the removal of Drug controls. Added to this the wide spread glorification of sex, pornography, violence via the media of various forms of literature , advertising, television. films , radio, with all the consequent breakdown of moral fibre and human dignity..
6. The current agitation for the legalisation of homo-sexuality between consenting parties. Now accomplished in England.
(Shades of Sodom and Gomorrah. Also the days of Noah)
7. Changes in Seasonal and weather patterns.
8. The appearance of strange mutants in animal , not leaving out the human; botanical and all types of form and life. especially which are activated by genes. of reproduction .
9. The increase of so called " natural" disturbances , volcanic eruptions. earthquakes , cyclonic winds and floods. etc.
(Although not widely publicised. the earthquake pattern alone in its increase has reached alarming proportions within the last decade.)

You will no doubt be reminded of the rise and fall of past great civilizations Atlantis, Lemurian , Mayan , Grecian. Roman . , to name a few.

All these great nations were brought to nothing through their own overwhelming decadence, corruption, sensuality, and brutality .; a large number of their people giving away to unbridled lusts, passion , and indulging in cruelties and carnalities too horrible to describe.

Ask yourselves, " Are we going the same way"? "Is it possible that we too, will be submerged under another Great Deluge or smothered by another vaster Vesuvius. "? " Could it possibly be Atomic Fire"?.

It has happened in the past, It could happen again , Why not?.

Maybe I am sounding like another Jonah or Jeremiah , but these are the thoughts that occur to me, and I feel sure that there are many individuals around the world like me , with similar misgivings.

There is a great beam of light showing through, lest we be overcome of pessimism and giveaway to fear. For amid all this darkness and ill-foreboding, there is one thing which those who have gone before us, under similar circumstances all found a true and tried **STONE, THAT IS FAITH** .

If we have faith in the Divine Creator of all matter, and faith in the sublime power of Light over darkness, we have no need to fear the possibility of a coming catastrophe.

For FAITH can accomplish great things, it can be an armour against adversity or a key to unlock the gate leading to the lush pastures of the New Golden Millenium . To you then I say, face the future with calm realization

SUNDAY MIRROR JULY 23rd 1967.
WELLINGTON N.Z.

A New Zealand airline Captain has produced a devastating new theory that flying saucers are establishing an intricate grid around the earth's surface.

He uses accurate mathematical calculations to support his theory and has written a book on the subject.

"His complicated maths have been proved correct," a representative of the book's publishers said this week.

"We have had his calculations checked by a mathematician at Victoria University-- the verdict is that the figures DO add up" the representative said.

The pilot is National Air Lines Corp. Capt. Bruce Cathie, of Auckland. His theory is so startling that the United States will send a Pentagon official to interview him.

New Zealand Security officers have already interviewed him.

Capt. Cathie told the Sunday Mirror he had no interest in speculation about "little green men" or the possible origin of the "saucers".

"All I'm interested in is the mathematical proof of my grid theory" he said. He said he realised his theory could be held in disrepute because he had begun his calculations after sighting an unidentifiable object himself.

"I flew over a cigar shaped stationary object above Kaipara Harbour north of Auckland, about three years ago," he said.

"I was able to fix its position exactly and accurately and that prompted me to collect other sightings which had been verified by more than one source, and which enabled the position of the objects to be fixed.

"From these all, I began to get some suspicion that a pattern was developing, for I found that verified sightings in a number of particular cases four years ago, for instance, indicated that they had been all sightings of the same object.

"Working on that assumption I fixed its line of travel and extended the line north.

"I found exactly, that it intersected the point where I had made my Kaipara Harbour observation a year later.

"Extending the line south gave an intersection over D'Urville Island area at the top of the South Island -- this time crossing the line of travel of an object which had been seen over the Wairarapa district near Wellington.

"Significantly, I found that other verified reports made at the same time as the Wairarapa sightings had placed an object exploding in mid-air over the same D'Urville Island area."

Capt. Cathie said that these intersections gave him the basis of his theory -- by matching up other verified sightings he found that a grid pattern of precise measurements emerged.

Capt. Cathie said he applied his New Zealand calculations to a grid covering the world and once again found verified sightings placed "saucers" over intersections.

"Then I stumbled on a chance mathematical discovery," he said.

"Several verified sightings did not match up with the grid pattern, and

"Grid Pattern (2)

I discovered that the distance between these exactly equated with my original figures.

" In turn, this gave me the pattern of a second identical grid, interlocking with the first in the same way that aircraft instrument-landing systems operate.

" this got me pretty excited, because it meant that anyone using the grid co-ordinates would get mathematical accurate fixes on any predetermined position "

Capt. Cathie. says he thinks the " saucers" could be placing a type of beacon on the intersections, giving the grids physical proportions.

" I believe the intersections are being covered systematically, " he said.

The above is most interesting and helpful, but not original. In theory, for the well known book " FLYING SAUCERS AND THE STRAIGHT LINE MYSTERY" already has explained such a grid which had been established at least in Europe. However the findings of Capt. Cathie are helpful in that they are verifying what has been claimed by saucerers for some time.

Aimie Michel made this claim quite a few years back and wrote the above book. but no notice was taken much of it by the official world. maybe now that this New Zealand pilot has drawn the attention of the " brass" to it we may get some better recognition of the attempts of Mr Michelle to explain this intriguing facet of the saucer mystery.

Icarus 1968 continued from previous page.

that if a great test is about to descend upon us, you can also be sure that GREAT FORCES will be working to succour those who will merit saving.

IN further editions of this magazine, I hope to extend this subject and explain its relationship to the primary one, which we devote these pages to; meanwhile keep your eyes on world events, and as a matter of interest jot down on paper the number of disturbing factors which have been enumerated above. You will be surprised how they all begin to tally up, and more, the increase of them, as we move slowly into this enigmatical year of 1968.

.....

MORE CONTACT REPORTS FROM THE U.S.A.

In a letter received from one of our readers from the U.S.A. he reports that many reports are being received of "contact" by space people with humans.

Some of these are very weird and certainly unusual in their behaviour and the effect on the contact, and certainly has many indications so reminiscent of pottergiests. Some of these are accompanied by "space noises" all of which leaves us still more bewildered.

The Editorial has already touched on this and we hope in the forthcoming editions to enumerate some of these cases which he asks for the moment to be held confidential until further investigations are made of these unusual cases.

We naturally approve of the request until these investigations are completed for we do not accept every claim of contact as genuine even if we lean to some of the major ones which have stood up to the test of rigid enquiry.

(continued page 17)

" THE SCORRITON MYSTERY "
BOOK REVIEW.

As indicated in our last edition we promised to give a full review to this book, and because of the serious trend of thought which is expressed in this book and more so the distortion of truth in a few instances of sightings, and particularly the Visit of George Adamski to Adelaide as repeated by the author, and given to her by a supposed authority we feel we cannot let this book pass without drawing the attention of the reading public to this, and many other facets concerning it.

Firstly, the Editor of this Magazine is noted for his open minded approach to the subject, and this magazine in particular has gone out on a limb often to express views which are " way out " at times, and sometimes caused bad friends, but we maintain this attitude, yet despite our open viewpoints, there comes a time when it can be stretched to far and one has to say so just as strongly against, as for.

The Author of the above book has every right to accept reports of events, which no doubt, she received in all good faith. But when she puts those reports into print for a world wide public to read she should make more certain of those facts and investigate them not from one mere source, but several, especially those near to the scene of events, or those concerned in the actual cases.

We leave this point for a moment, and begin by saying that we feel that the Author and her assistant approached the investigation of this fantastic case in all good honesty, to give an honest report of their findings.

The first accounts of their visits to Mr. Bryant, are ones which no one could find fault with in a open attempt to find the truth.

Let it be said that whatever truth lies behind the case, or falsehood, we feel that Mr Bryant did have an experience, and he reported it in all honesty.

It is not what Mr. Bryant said had occurred that has caused all the furor, it is what others made of the case. Remember he did not ever claim that the personage was Adamski, even if the name " Yanksi " sounded like it; this interpretation was made by others, and not only Miss Pickle, so that what ever charges can be made as to adding to the actual experience, are not ones that can be put onto Mr. Bryant. We feel sorry for him that he was so involved, and that so much has been added to his initial experience.

After the initial investigations were made, and the investigators tried to find an explanation, they received messages in various forms which they believed came from space people. some in morse code on a radio, some by psychometric reading, and by telepathy. We will not enter into the reliability of such messages. We have already expressed our views many times in our previous editions.

But the strange part is that though they accepted these messages as reliable. They did not take heed of all that was said and given. They were very happy to follow the leads which might give them some more clues or excitement, but strangely enough they took no notice, it seems of the warnings those very messages gave them of certain contacts they would meet and which would mean danger to them. If they did notice them they appear to have ignored them.

Let me quote a few pp. 179

" " Your book is in danger from yourself. Necessary for you both to clear your minds of deception "

This portion also contains an answer to the ladies fears of her being impregnated by the forces of evil from Epsilon. their answer is very definite in the negative to her and lets her know the impregnation is by an earth man.

" The Scorrison Mystery 2 REVIEW (2)

Does it not occur to her that the impregnation she was so afraid of was not a physical one, but a MENTAL one, which she had been warned of in this message Again on PP 182. She is given another warning . repeating the influence of other people as being adanger .

" Many things may now affect the writing of this book,
IGNORE OURSIDE INFLUENCES"

(The emphasis and capitals are ours.)

It is apparent from the time the investigators left off the genuine work of enquiry and research, that they began to be influenced by other forces. Vis. Tape messages etc etc, but there come also into the picture the talk of "dark forces", goodies and baddies", Epsilon forces", gins, evil spirits, and to cap it all the entrance into the book of one claiming to be an authority in psychic matters etc etc, one well known to many of us here in South Australia and whose company was not appreciated.

From this on, the book leaves the Scorrison Mystery and starts a series of all sorts of hotch potch reports etc etc, all mainly with the centre piece being the personage brought into it in this section of the book. We have a feeling that the author must have known him prior to this part of the book.

It did not occur to the author that the very warnings given should have made her and her partner extremely cautious" of other people as being the " outside influences", nor did it occur that some of the other contacts may have deliberately gone along with them until they found that what they might have revealed would not be treated as confidentially as they desired, hence the sudden dropping out of the case, and seeming failure and disappointment to the author.

From the moment the investigators delved into the metaphysical side and under the guidance of the psychic authority who on p. 205 suggest he get invited into the picture, things really get lost all round, and to obviously fill in a book which already had left the original purpose of the investigation and the title of the book way behind, we are then inflicted with various reports opinions etc etc. of this hypnotist. from Australia, most of which is grossly exaggerated, and were it not for incurring libel, could be proved to be unreliable. To which is added the outrageous report of the visit to Adelaide of George Adamski.

Let me here state, that at no time was George Adamski a prisoner of this society. Any one knowing George would know that statement to be ridiculous. Never were guards posted at either front or back doors to prevent anyone from visiting him, we had too much to do without that. The appointment made by George with Colin to visit his so called business-men, was well known to us, and although strongly disapproved by us, mainly because we had to cancel a country engagement at which he had been scheduled to speak, and had to return all the money on tickets sold, this all due to the kindly influence of the said Mr. C. Mc Carthy, and whose very meeting arranged for George, turned out to be one in which he was faced with ridicule and contempt, and not one helpful to him or our society and the cause of UFO.

To say he had to sneak him out the back door is typical of the cloak and dagger mind which he is inflicted with. The whole report is a gross distortion of the truth, and falls in line with so many other things. Honesty is not usual in those found dealing in the forces which talk of gins, evil spirits, and who seem to know such a lot about them and practice certain rituals which tend to black magic. And now, we would like to draw your attention to what we feel is the more serious implications made in this book

"The Scorrition" Mystery" REVIEW (3)

One thing which may not strike a reader of the book but nevertheless is boldly implied is the fantastic claim that George Adamski HAS RETURNED. Let us examine this idea, Remembering first, that the man who experienced the astounding visit, did not claim it was G.A. I repeat it was others who attached this idea to the experience. So no blame can be attached to him.

Secondly, it is certified and established that G.A. died the day before the experience in Washington D.C. and was buried in the Arlington cemetery, and notwithstanding the ideas suggested by even that reputable writer Desmond Leslie that G.A. said he would come back, we cannot deny that his death at least is undeniable, and his internment .

Now here is the crux of the whole insidious suggestion behind the whole story, It is none other than a claim that a man who died the day before took on another body and was virtually, RESURRECTED the NEXT DAY, making himself seen by a witness and accompanied by two other people in a craft. Holding conversation with a human being on the moors of England.

Has it not occurred to our readers what such a claim means and conveys? It is virtually, that G.A. was a greater Master than the GREATEST OF THEM ALL! The only known to have RESURRECTED HIS BODY . and that TOOK 3 DAYS. It also implies that this man was greater than Bhudda or Mohommed. even if one does not belong to the Christian Faith, at least these teachers were not able to accomplish such a feat . In other words dear readers you are being indoctrinated with an idea that G.A was greater than them all. What a colossal form of blasphemy , in my language at least , even if done by suggestion !

Of course one could get enough people to believe this, who knows what great ideas could be got across to the public, that G.A was resurrected within hours of his death and before he was buried. To build the suckers imagination up, the fact of his having a strange navel in the form of a sun is made to give a further build up to the implications, of his greatness . The Purple Cube from Saturn . (an experience which G.A told us was his . but afterwards admitted by Mr. C.A. Honey to be one of astral travel .)

One could go on pointing all the dangerous trends of the story. not given by the man who experienced it. but by people who built around his experience a fabricated claim that it WAS G.A. Aided and abetted by mysterious morse code messages on tape recorders, and investigators who were well known in Australia to dabble in metaphysics not of the best kind.

We feel we have said enough for our readers who have intelligence of their own to do a bit of thinking before they accept this fantastic story, and what it implies. Better that Miss Buckle had remained just a reporter of an incident than to try and make something out of proportion to what really took place.

Finally, we regret that this is the only time we have had to condemn and speak harshly about a flying saucer book , especially one published by so reputable a firm as Neville Spearman , and can only hope that this will be the last they will ever print of such , for we feel that it will do more harm than good to the cause of the U.F.O. and certainly not inspire serious investigators to read any further literature should this be the first book they ever get hold of. The only value in reading such a book is that one can see just how far some peoples imagination can run riot, but regretably by its influence, the book can " impregnate" other minds with the same sort of dangerous philosophies. Personally I would like to add some advice to Miss Buckle and reiterate the warnings given by those who sent the messages whether from space or Epsilon ? . " BEWARE OF THE COMPANY YOU KEEP AND WHO YOU CONFIDE IN. THEY MAY BRING DISASTER TO YOU . AND THOSE AROUND YOU"

Believe it or not - FLYING SAUCERS continue to make news. The most amazing of all aerial phenomena has been reported in every part of the world, including RUSSIA.

As a matter of fact, reports of unidentified flying objects in the Soviet Union have been the means of causing a religious revival and return to God. Russian peasants, unable to explain the strange phenomena, have reasoned this to be something supernatural - possibly a warning from God.

Paul Vorohaef, Russian-born but now living in America, reports on information he has received from behind the iron curtain. According to his report - "In Southeastern Siberia unidentified flying objects have been spotted, causing great alarm bordering on near panic. This was interpreted by the Russian peasants as some awesome warning of a Supernatural Being of some impending disaster, possibly the end of the world!"

The Soviet press has said practically nothing about this invasion from outer space. The reason, according to Vorohaef, is religious. Because of fear that more Russians may turn to God the Communists have tried to squelch these reports. Fear of the unknown, finds Soviet scientists hesitant about saying anything "official" about "flying saucers" invading Russia.

The Soviet newspaper did publish a story of flying saucers over Chile, South America. Dated September 10, 1965, the newspaper reported the appearance of 12 UFOs seen by hunters. One of the hunters directed an electric spotlight on the UFOs. Then he blinked the spotlight, turning it off and on, and to his amazement the saucers turned on their lights, blinking in response. Soviet scientist, Dr. Mitrofan Averev, agrees that unknown objects are moving around the earth. Another observatory professor has declared - "We are not alone in the universe."

Incidentally, the Soviets speaking of these UFOs call them 'BLUD ZA' which is "saucers" in Russian. Other reports of Soviet sightings of saucers come from Italy. A magazine published in Rome, and devoted to such technical matters as missiles and space research, relates the following information.

According to this article - "The Soviet Union, with all its war plants, atomic installations, air-fields, and missile bases, is under the UFO surveillance, and Russian military authorities are very unhappy about these 'sky saucers.' Thousands of people, including officials, are seeing these huge saucer-like aircraft, some immense cigar-shaped along with mysterious "fireballs" such as are also seen in the United States.

In 1961, at a Soviet factory making heavy tanks, there was a great explosion which almost precipitated an international crisis. Soviet authorities had wanted to place the blame on American sabotage agents. However, several witnesses testified that at daybreak, they had seen a fireball descending towards the factory. There followed an explosion, and for several minutes a cloud of dust and debris hid the site. When the cloud had settled all that remained was a rubble-filled crater. Incidentally, in this particular section of the factory, we are told, a special automatic device for use with atomic cannons was being manufactured. After the explosion a UFO was seen poised stationary overhead for some minutes, as though making certain the job had been done. In another report, just north of Moscow rocket batteries were being set up as part of the Soviet defense system. Suddenly, a huge disk-shaped object appeared, and with it a number of smaller "flying saucers." The UFOs took up positions and appeared as though they were studying the missile site.

Witnessing this unbelievable spectacle, a nervous battery commander panicked and gave unauthorised command to "open fire." Several missiles were

"Over Russia" (2)

fired at the giant disk but they exploded before they reached their target, creating a fantastic fireworks display in the sky. At this point the smaller "saucer" went into action and was apparently able to create a black-out over the area, thus stalling the electrical apparatus. Later, when the smaller saucer returned to the giant larger craft, the electrical apparatus was found to be in working order again.

Amazing, almost unbelievable, isn't it?

Scientists in Europe and America are of the opinion that these flying saucers are of extra-terrestrial origin - that is, they are not of this planet. They believe further that these space craft are capable of surrounding themselves with an intense electro-magnetic force-field which can be used by pilots of these space-ships to create "black-outs" such as was witnessed in New York and elsewhere. This also accounts for the tremendous speed of these saucers, indicating a technology far advanced and superior to any of our present day scientific knowledge. In fact, it is believed that these UFOs are capable of creating a kind of vacuum, enabling them to fly thru the atmosphere with the least of friction.

Even the so-called "fire-balls" which we are hearing about are almost amazing. Another report that spread alarm and near-panic inside Russia occurred in the spring of 1959. In the skies above Sverdlovsk, headquarters for a Tactical Missile Command, there appeared one of these unusual fireballs. Red Air-force pilots fired upon it, and one Soviet air-force pilot told under searching examination how he actually flew thru it. The fire-ball had simply expanded to let him thru and then took its normal shape again as if nothing had happened. While under fire from his machine guns it had zig-zagged and manoeuvred to avoid being hit, clearly showing it was under intelligent control.

Perhaps you are wondering about the significance of these flying saucers? What are they? And where are they from? Why are they here?

We believe they are a sign to the world that we are living in the End Time. The prophet Joel, writing concerning the "latter days", refers to "wonders" appearing in the heavens. Flying saucers are truly today's great wonder. Every nation on earth would like to know the secret of their mission, and for what purpose they exist.

The appearance of flying saucers in Russia has caused fear and consternation to grip the Soviet people. And there are reports of revival as a result of these strange heavenly objects.

Similarly, we hope that in all seriousness you accept our message today as a challenge. Believe with us that the coming of Jesus hastens, when with an armada of saints he is seen descending to this earth, and like a magnet all who are ready to meet him are seen ascending back to heaven with him. As Elijah similarly went to heaven by way of a fiery chariot, like a whirlwind, we have reason to suspect that flying saucers may be God's means of transportation in that day of rapture. At least, their presence in the sky may be an indication that our Lord's return is very close at hand.

Remember, the Bible says: "To those who look for him he shall appear the second time."

1947---- AND ALL THAT !!!!

Dear Editor. The following is a suggestion for a regular Bi-Monthly critique under the above heading which, I feel, has just enough provocativeness to be interesting.

" THE SURVEYOR"

We appreciate the interesting contribution to our pages and look forward to more each session. Thank you THE EDITOR.

First of all, let us examine the term " Flying Saucer." This erroneous and much publicised ~~terminology~~ ^{terminology}, is, to my way of thinking of the the reasons why many of the general public tend to regard " saucers" and the "Saucerians" with amused if not contemptuous disbelief.

The name " Flying Saucer" as most UFO students know, stems from the time when Kenneth Arnold, who in 1947; observed several silvery discs in the vicinity of Mt. Rainier, near Washington U.S.A.

The American press, well known for its sensational reporting, leapt at Lt. Kenneth Arnolds description, that they resembled " saucers flying through the air " and coined the appellation which we all know so well.

Since that time of course, many various shapes have been observed, most of which have also been labelled to their detriment. Such as cigars, vacuum - cleaners, dumb- bells, horseshoes, spinning-tops, to name a few.

Why done we just call them " space craft"?

Even the initials of the UFO are becoming obsolete, and I think the experienced researchers will agree with me, that far from being " unidentified", most alien space craft observed in our skies, are fast becoming known and catalogued.

Let us abandon our puerile, flippant descriptions, and accord our space visitors the dignity commensurate with their importance to us, in our future physical contact with other worlds, and their inhabitants.

I noted with pleasure, that the recent visit to Australia of the noted American, Prof. Mac Donald, has produced quite a number of new believers to the cause of " saucerdom". People, who, before, his visit accorded our statements with amused disbelief are now reluctantly admitting that " there could be something to it ". It is all rather amusing, when we realise that the semi-official visit of Prof. MacDonald to Australia to investigate the local aspect of Ufology was, to a lot of us, just another possible Government attempt to de-bunk the issue! If officialdom had realized the amount of interest that would be stirred up I feel that they would have had second thoughts about issuing permission for the Professors entry, and one cannot wonder if the professor will be allowed to pay another visit in an official capacity to Australia. , as he has expressed the desire so to do.

If only folks would realize that statements by eminent people such as Prof. Harry Messel, Dr Herman Oberth. Dr. Clyde Tombaugh, and Lord Dowding, to name but a few, are not statements made lightly without previous consideration, but are considered comments from men who are well qualified in their respective fields to know exactly what they are talking about.

We who are serious researchers, do not need the opinions and theories of eminent and learned people to convince us, about the seriousness of our chosen subject, we have the faith of our own convictions, and will continue to ex-

"1947 and all that" (2)

plore the realms of Ufology with its allied subjects, regardless of the public ridicule, indifference, or acclaim, because we know that we are on the right track.

.....
EDITORS COMMENTS.

We Thank "SURVEYOR" for his very good article and await further ones. He appears to have struck the right note, possibly not having stressed the fact that people who rush in and "Join em'" when its apopular thing are not always reliable. if adversity strikes, and public opinion is swayed by some great opposition propaganda splurge.

The Editor has pointed out before, that he has very little regard for people who want to belong to saucers so long as it is "respectable" and their position or pocket is not affected. The least persecution of any form soon shows them for what they are worth, and they run as is expected of such types.

Unfortunately there are those at the head of Ufo Groups who take the snobbish attitude that it must be kept "very scientific" and demand it, yet in practice are most unscientific; actually deep down this all stems from a fear of public ridicule, for they dare not take a stand in anything which might hurt their pride, pocket or station in life. So that the Professors visit may bring in a lot of folk who now feel they can "Join em" because now its safe. But we wonder what their stand would be if this Ufo work were not so respectable, and they were asked to identify themselves with it. Would they then be so willing?

Regarding the Professor and his visit. we are grateful indeed for his public declarations, and stand which he made, and also the results. however it must be pointed out here, that actually no one was able to "say" under whose authority the professor came.

It was hinted that the Navy. had something to do with it, others that he was working for the Colorado Univeristy Project, as an investigator on their behalf, but although the Professor was questioned on this "he wasn't saying" and preferred to keep silent about who was behind his visit. Maybe there were a couple of folk in his confidence who did know, and it is true that Paul Norman of the V.S.R.S. and more particularly NICAP and CAPIO fame, had a lot to do with his coming here, if he knew, he too "wasn't saying" either, "even to his CAPIO associates, which goes to show that beonging to CAPIO doesn't necessarily mean, you will be told all thereis to know, although its supposed to be a mutual concern for SHARING information. evidently they don't trust each other.

We leave it to our readers to work all this out, meanwhile, remember its not those who go with the crowd who are the most value and the sincerest.

" SPACE SYSTEM " MAY BE WATCHING US.

Seattle Washington . Per Advertiser 30/8/67.

Dr. James McDonald. A University of Arizona scientist-- said yesterday that the earth might be under observation from space.

Dr. McDonald said a 15- month study caused him to belive that it was highly likely that we were under some sort of surveillance.

U.F.O. might represent probes from another life system in space, of earth. They should be investigated more seriously than they are.

Dr. McDor was addressing the American Inst. of Aeronautics and Astronauts.

SIGHTINGS FROM HERE AND THERE...

DID YOU SEE THE U.F.O.?.

"SUNRAYSIA DAILY" MILDURA VIC. JULY 21 st. 1967.

Two Mildura carpenters will, from dawnbreak today scour country on Bidura Station homestead, in N.S.W. , 65 miles east of Mildura , to search for an Unidentified Flying Object .

The carpenters -- Mr. Bob Burke (32) of Hector St. , and Mr Sam.Hudson (2 4) of Cameron Ave-- do not know what they might find.

" Maybe a meteorite, a flying saucer, or nothing at all. "

The men saw the UFO in the eastern sky yesterday afternoon , between 4 and 4.30 when they were walking home from the homestead to the shearers quarters. Mr Burke said.

It flashed across the sky at a phenomenal speed , he said.It was bright green with a yellow tail, and losing altitude as it travelled eastward.

The UFO seem@d to vanish into the plain .

The men sped by car to where they thought it had vanished. They carried out a search until nightfall, They returned to the homestead, resolving to wake early today to continue the search .

Mr Burke said they could not make out the precise shape of the object because it was moving too fast. The object's head looked to be about 6 ft. across.

They raced after the object because they thought it must have crashed into the plain . They saw no indication of a crash .

A silvery green object was reported by a man and his wife in Sunraysia, They said it fell across the sky toward the southeast, at 4.05 p.m.

He said he dismissed the object as being a meteorite.

It divided into three, he said, then seemed to disintegrate before reaching the ground.

This is the Fourth UFO reported to be seen near Mildura in the past six months,

WEST AUSTRALIA

WEEK END NEWS. 12/8/67

A Tuart Hill couple believe they saw a flying saucer early today

Mr and Mrs, Robert . Kennedy were lying awake in bed aboyt 5.15 a.m. when Mrs Kennedy saw a brightly -lit object hovering in the sky.

Mr. Kennedy rushed outside and watched the object for five minutes until it disappeared in the north.

" It was very high up and there was a circle of light with four lights hanging underneath it."

.....
We regret we have no further information on the above kindly sent to us by Mrs. B. Perkins.

.....
SPECIAL NOTICE OF COMING EVENTS.

FROM OCTOBER THE 9th to the 14th. 1967.

Open daily from 9.a.m. to 9.p.m.

SPECIAL U.F.O. PUBLIC MEETING Oct. 17th STOWE HALL. FLINDERS ST.

SIGHTINGS HERE AND THERE CONTINUED (2)

SOUTH AFRICA.

FOUR PEOPLE SEE FLYING SAUCER OVER DURBAN.

"CAPE ARGUS" 5/7/67

An Unidentified Flying Object, more popularly known as Flying Saucer, was seen over Durban last night and studied through binoculars by four different people-- including a former U.S. Air Force Major with considerable experience in tracking missiles.

From the side the object appeared egg-shaped and glowed with a bright orange glow of light.

" Atfirst I thought it was a missile," Mr. Lawrence Bennett, the former air force major said, " But my experience soon told me this was not so. "

' I spotted it as a lone red light in the sky while walking back to my flat in Berea. It was moving in a straight line but suddenly stopped and hovered over the Pinetown area. This sent me running for my binoculars.

' With these I was able to identify it as a UFO. It glowed so brightly that I was unable to discern its exact outline. After hovering for a while it started moving again, but in a very erratic manner, forwards, backwards and sideways. All the time climbing and descending.

' It also seemed to flash on and off and disappeared for short periods at a time. My fiance watched it with me and so did some neighbours of ours."

Commenting on Mr. Bennett's experience Mr. John Elliot, chairman of International Sky Scouts (Sth Af.) said it seemed that Mr. Bennett had sighted a U.F.O. which is frequently seen over Durban.

" We get reports almost every week on an orange U.F.O. over Pinetown," he said.

U.F.O.s JOIN IN CELEBRATIONS

ASUNCION. (Paraguay) (The Natal Witness. June 1967.)

Six unidentified objects which flew over Asuncion at great speed on Saturday night, disrupted communications at the city's international airport for several minutes. , the director of the airport's control tower said yesterday.

Apparently in formation and travelling at great speed, the objects sped over Asuncion for 10 minutes, on the 20th anniversary of the first reported flying saucer sighting.

They gave off an orange glow, were silent and flew at an altitude of 2,500 feet.

Other sightings were reported in Britain on Saturday night.

Credit above Miss Ria Du Toit, Sth Africa.

.....

MORE CONTACT CLAIMS CONTINUED FROM PAGE 8

Some of the contacts mentioned are of the telepathic type, which of course makes them more hard to identify as being genuine space people or merely spirits, elementals etc. or even the subconscious minds of the receiver deceiving himself. all of which cannot be lightly overlooked as a possibility to any serious investigator.

However one of the reasons for the letter being sent was a request for the account of the telepathic contact and sighting which followed as a result here some years back. A tape recording has been sent of it to the reader.

SOUTH AUSTRALIAN SIGHTINGS ..

June 5th . Time 2.45 p.m.

young married man , residing at Glenelg, John Taylor. 29. whilst walking near his home , observed an elliptical shaped flying craft which crossed his line of vision , travelling from east to west .

Mr. Taylor tells us that the afternoon in particular was mild and sunny with only amoderate breeze blowing. The object appeared to be about the size ; of 10 cent coin when held at arms length . and a dark brown in colour, which made it stand out against a bright blue sky .

The craft seemed to proceed in a series of swoops across the sky , like a ship sailing up a wave and then down into the trough. No sound was heard throughout the performance, and exhaust smoke was conspicuous by its absence.

The sighting was terminated by the sudden, terrific acceleration of the craft which disappeared in a westerly direction within the fraction of a second.

Duration of sighting . 30 seconds.

June 12th 3.15.p.m.

An Enfield housewife, Mrs Ronda Tester. was spending an enjoyable day at the beach near Port Noarlunga with her husband and her two daughters, when to her chagrin , a huge black cloud came up and appeared to hang motionless in the sky , directly over the area in which they were. The air became distinctly chilly, so, they decided to make tracks for home.

Mrs. Tester is a little sensitive to atmosphere, and tells me that the sight of that black cloud" gave her the creeps " .

You may say " what's the matter with a black cloud, there's plenty of them around. " Yes, but have you ever seen a cloud, the only one in the sky, by the way, move from east to west, and hover , especially when there was no discernable breeze anywhere.?.

When the Testers arrived at the top of Tapleys Hill on their way home, just before descending to the Adelaide Plains, Mrs Tester was gazing out of the windscreen towards the north-west when to her amazement she perceived an elliptical shape object in the sky, which seemed to come from behind the self same black cloud.

The craft appeared to be approximately the size of a dinner plate held atv arms length, and glowed with a bright silvery colour.

Its height above sea level would have been about 1.500 ft. and would not have been visible to most people on the plains, because of the dense cloud beneath it.

The craft was hovering in the same position , gently oscillating, and pulsating with its bluish-silvery glow which seemed to create an ethereal effect.

After a few minutes the craft, as though conscious of being observed, abruptly disappeared behind the cloud cover, and was not seen again .

The cloud continued across the wind-less sky towards the west and disappeared over the horizon .

Duration of sighting approx 5 min .

Space will not permit me to give a commentary of other reports recieved during the month of June , but we mention those recieved from Mr.B. Skeates of

S.Aust. sightings. (3)

Evaluations of the above.

The sightings of 20th and 26th of July, appear to be possibly meteors burning up in the earth's atmosphere. However, U.F.O. researchers are not unfamiliar with the type of sighting, and previous accounts have raised the question as to the possibility of their being remote controlled "seeing eyes" projected from mother ships. Particularly as they have been observed at several other times, travelling along horizontally to the earth's surface and then shooting up into the sky again. Of course, no conventional meteor would do this type of thing, although the powers that be, would sometimes have us believe the contrary.

The Croydon Park gentleman's description of a sound "something like a jet plane" could ascribe, I think to the fact that he lives in a fair proximity to the Adelaide Airport, therefore I feel we can discount this particular aspect of his report.

The accolade for the "Sighting of the Month" should be awarded to Mr. Johnson. His description tallies perfectly with reports received from other parts of the world and appear to describe the classical type of U.F.O. which have been observed many times.

Many thanks to these people for their interest and sending in their reports

MR. A.E. BRAN .
