### " A MISPLACED ASSESSMENT"

In an article printed in "SAUCER SCOOP" Edited by Joan Whritenout. of 6464 34th Ave. St Petersburg. Florida. U.S.A. and also reprinted in the BUFORA Journal of England. John A. Keel the well known American UFO writer etc. gives forth a very fine analysis of world affairs and suggests that the whole is a great plan of a take over by space people in a " peaceful" way yet deluding us all the while of their intent .

Having read so much of Keels writings and heard his tapes and talks etc. I am somewhat amazed that his fine summing up of the whole world conditions has lead him to such a false premise. to blame the Saucer folk for all that has been going on. for this sinister plan has been known to many , long before "saucers" were ever thought of. but to put my readers completely in the picture, and in fairness to John Keel I print the whole of his text below with due acknowledgements to all concerned.

### " Techniques of Subversion and Conquest". "

By John. A. Keel .

For five thousand years or more power-mad men have played vicious game with the lives and destinies of their followers. Even Genghis Khan was familiar with the basic precepts of psychological warfare. He ordered his men to savagely destroy cities and kill everyone in sight, and then he made sure that a few people survived and escaped to spread the story of the plunder to other cities along his route. Those cities surrendered pitifully in the hopes that he would show them some mercy. Many centuries later Hitler employed the same techniques, with many modern embellishments, by sending his dive bombers against the helpless city of Rotterdam and wiping out whole villages in eastern Europe.

Yet we are wearily aware of how men have played this ugly chess game throughout history. But now let's extend this. How would you go about the capture and enslavement of an entire planet?

The rules have already been laid down. The game has already commenced. It is being played now on a global scale. Here's how it is being done.

Step 1. - The press must be controlled. Mussolini started out by taking over one newspaper. Today a large part of the world is in the hands of dictators who completely control and censor the newspapers within their

"Techniques of Subversion and Conquest - Contd.

countries. In the U.S. more and more independent newspapers are being swallowed up by powerful chains and syndicates.

Step 2. - The economic situation must be controlled. This means that currency and, more important, gold, must be manipulated. Now look at what is happening to the world's monetary market today. Currencies are being devalued, or devaluation is threatened. Gold is becoming scarce. The gold market is in a panic. Economic disaster could strike world-wide at any time. Inflation is running wild in every country.

Step 3. - Communications must be controlled. Radio, mail and telephone communications have been breaking down all over the world in the past two years. The national defense communications system in the U.S. was completely knocked out twice in 1968. The "hot line" between Washington and Moscow has been disrupted twice since 1966. Our general telephone system is now so overloaded that a complete breakdown is imminent!

Step 4. - Armed forces must be diverted and drained. Viet Nam.

Step 5. - Religious (moral) control must be usurped. "God is Dead." Look what's happening to the Catholic Church.

Step 6. - Anarchy must be introduced. Young people throughout the world are in open revolt against "the establishment." Colleges and universities in nearly every country are in an uproar. The "sexual revolution" has been accompanied by the widespread use of drugs. The young people are rejecting the present social order, the draft, the materialistic attitudes of their elders. There have now been hundreds of cases in which teenagers and young adults have been caught committing acts of sabotage against communications, power plants, military installations. "Underground" Hippie newspapers are filled with instructions on how to build bombs, but telephone cables, etc.

Step 7. - Suppress or assassinate those leaders who show potential ability to control this mess. If you can't buy them off, shoot them down.

Now add these steps up. What do you get? You have controlled press, disrupted communications (vital in any "war"), economic chaos, strained and depleted military forces on a distant battlefield, mobs of enraged anarchists at home wilfully trying to assault and undermine the established system, and that system is led by individuals who are not necessarily the men best equipped to handle the situation. Result: a complete breakdown on every level.

Back in 1933, Hitler had the German parliament building burned down. Then he howled that the communists had done the deed and Germany's only salvation was obviously to install him as head of the government so he head of the government so he could take a firm hand and deal with those communists. The present world situation did not come about overnight. It seems to have been carefully planned and that plan has been skilfully executed by someone hidden far behind the scenes for many years.

If you start following the data on these seven steps to hell in your daily newspapers you will soon realize that we are moving inexorably towards the

"Techniques of Subversion and Conquest" - Contd.

final denouement, almost as if we were being guided by some gigantic computer. The Negro militants, the raging college students, the army defectors, and even groups like the John Birchers and the Ku Klux Klan are merely being used as pawns in this game.

Now carry this to the final step. Suppose our planet is reduced finally to complete chaos economically, socially, morally? Then suppose great formations of strange objects descended in every country and strange beings of great splendor spoke to us suddenly over our radios, T.V.s and telephones, and told us that we were upsetting the balance of the universe. We had made a mess of things and the only solution was for them to take over and show us the way out of our dilemma. For years a small but noisy group of people had been telling us all that benevolent space men were coming to save us from ourselves. Now - the man-in-the-street would remember all those stories he had laughed at before. Things were in a terrible mess, he would admit, and maybe these splendid beings could salvage the situation. They promised an orderly world of love, brotherhood and peace.

Would we welcome them? If we did, then would you have the answer to my question. How do you take over an entire planet without firing a shot or losing a single life of one of your own?

John A. Keel.

- - - - -

Now having heard what John Keel says, let us examine his summary.

Firstly, no one can deny what he says has and is taking place before our very eyes and if we examine the events of our own century alone we will see it has been almost as though some great plan or blue print was being carried out, yet an insidious and evil one mainly because the whole has taken place by every form of propaganda and means of controlling the minds of mine being done in such a subtle way, that man himself has not been aware that he is a pawn in the game. When I say man I mean not only the man in the street, but those who control him, his leaders, his governments, his ruling powers have all come under the sway of this force whatever it is that is now so quickly moving towards a final settlement, a complete take-over of the world and its affairs just as John Keel suggests.

The Big Brother idea, in actual fulfilment before our eyes. As he states, control of every thing is now in the hands of the big powers, even down to what you grow and what you shall eat, almost, or will be, so within a year or two, if not sooner.

Press control, economic control, communications, armed forces, religion (and how) John Keel mentions the Roman Catholic Church that great bulwark of religious force in many countries. He does not mention the much greater break away which has occurred in the Non Conformist or Protestant Churches, where today rarely one finds their preachers teaching or believing in what their founder taught, in fact at times a complete reversal. One wonders what Wesley would think today if he could see and hear what is being taught in his churches and condoned.

Next, the Anarchy of the young people. The sex revolution.

"Techniques of Subversion and Conquest"- Contd.

Keel sums it all up so well and if one has the brains to admit it, they must know his summing up is RIGHT, or maybe they are so apathetic they hide their heads in the sand. (Poor deluded fools, what a wide awakening is theirs and they alone.?)

Now, it is apparent, that I agree with what Keel has said. I DO, up to the point in which he lays out the effect, but not the CAUSE.

Frankly, I feel that Keel, knows only too well the real cause but like so many others that have written saucer stories under the guise of science fiction, they have hidden the TRUTH within a fantasy.

Keel is too astute a man not to know who is behind what he has outlined, and I feel he should not mislead the public by letting them feel that the Saucer folk are those who have brought all these schemes about and with the full intent to take over the world. In fact, unless as I stated in my last Editorial for 1969, unless we do have some intervention, from somewhere the very thing that Keel outlines WILL TAKE PLACE.

Actually, of course, one could go back into time to show how the whole affair and events of our time are but a huge PLAN set out, for mankind, but who today will listen to you, I cannot strongly insist enough that the worst thing we can do is to believe that the space people are coming for a take-over of a sinister nature. If they do come in force they will come as deliverers.

Let us look at it the reverse to what Keel has suggested.

Would it not be their great advantage if to let the public think it was the space people who are about to take over, whilst they behind the scenes actually bring it all about, and let everyone think the space people are to blame?

What greater evil strategy than to lead folk to think someone else is the guilty person or persons and perform the very thing themselves.

Let us also ponder on the timing. "Flying Saucers" as we commonly call them, were not a public known thing until well after the last world war. Yet a careful study of this takeover plan is apparent long before this.

In fact, the French revolution itself was one of the major strategies of this plan. Many others followed. Each generation passing it on to the other, and always held in the hands of only a few.

Great men probed into the cause of this and in some cases it cost them their loves or a complete reversal of their livelihood. Others discovered it but knew the terrible power behind it all and were afraid to reveal what they knew. Others, fell victims to the bribes or the blackmail of those who held the reins.

Some well known men were daring enough and courageous enough to attempt to defy the power behind the scenes. Strange things happened to them, and this too was also in the U.F.O. world.

False leads have been laid so that should anything occur, they will not get the blame but always some scapegoat is found, and this is what is exactly they have

"Techniques of Subversion and conquest" - Contd.

used the event of the space people for. Men like Keel if they are not aware of the true menace and frankly I believe he is, fall for the trap and write as he has done blaming the whole scheme of things onto a well laid plan of the Space people as a take-over, when the real guilty folk are not space people but live blood and bone people here on this earth and dwellers of the earth and not from space.

I do not wish to infer I believe the space people are not also possessive of bodies similar to our own, all the facts of historical as well as modern records of the ir appearances prove otherwise, but this is not the place to discuss this issue. What I am insisting is that the faulty people are not those from extraterrestrial sources and are very much of THIS Earth.

Keels final question. "How do you take over an entire planet without firing a shot, or losing a single life of your own?" The answer is simple. Simply indoctrinate the people to believe you are the benefactors, pump this into them from childhood. Feed it to them in every form of education and mind control and within several generations or less, **THEY WILL BELIEVE YOU**, and accept you as their HOPE of a world dilemma already created by you and blamed onto someone else.

If perchance you find a few who do wake up to your little scheme of brain washing, all you have to do is find out something bad about him, expose him or threaten him of it. You will probably silence 99 out of 100 this way. If not well use the more dramatic measures. "Get rid of him". Or make such a fool of him that nobody will believe him anyway. Any don't kid yourself, that that very game has not been played for some time. Even in our own cause, we have had those mysterious MIB. as yet no one has been able to determine who they are, and whilst at first it appeared that the Government men could have been them, and it suited the MIB. to let us believe that, there have come definite denials from government sources that such was not the cause even when some of these "silencers" were seen and known to have worn official clothes. Actually such is not so hard to get. One only has to stage some great service play and can "loan" such if they can pull the strings.

This leaves us then with two courses to choose of what we believe, for either way we cannot deny that the plan outlaid by Keel has and is taking place before our very eyes, over a series of years beinging ti to an almost complete fulfilment in our day so that the time is short before its ultimate.

Do we blame the space people or do we realise that we have been the dupes and are now being moved to ward the final goal, as puppets.

If it is the space people that have set this plan in action and are getting ready for the "kill" or take-over, then we can only hope that they will dish out a better way of life and treatment than what our own brains trust have done.

It couldn't be much worse with wars every 10 years or so, starving millions in half the world, huge crops of grain and fruit destroyed less they lose the money, etc, etc. Moral decay everywhere and riots in very corner of the globe. Surely, we cannot be degraded much more than we are and will be as we begin to pay the price of our folly. Any space invasion may be a setting up of a better world, at least we have to take the chance, either way.

"Techniques of Subversion and Conquest" - Contd.

On the other hand, if it is a take-over by a world organisation of evil inspired men, who plan devilish and Satanic actions it could only be dreamed up in such minds, then God help us, and may be that's the real answer.

No one in his right mind can believe that evil can continue to conquer. True we have allowed ourselves to get into this position, but there must come a time when we WAKE UP, sad to say, may, when humanly speaking it is too late, but in the bottom depths of every sane heart there will rise the cry for aids and somehow when we turn to the higher forces for such, it comes, despite all our waywardness.

It is to such promises of aid that we have what St. Paul call "This hope", and that in such a time as we now are reaching that a deliverance is promised. Religious piffle some may say, well you have your choice and either way, you are being led to make a huge decision of the future of this world and your children who will follow you.

You have the right to your opinion, as I have to mine. Maybe you feel Keel is right maybe all the great men who discovered what I have said, long before saucers were a public byword, were all wrong, but this one thing is certain, we are headed for the greatest drama of our time, and one in which the space people are very much to take spart whether as invaders, peaceful, or hostile, or as I believe as DELIVERERS.

I would not leave you in this article with a tone of negative thought and pessimistic foreboding, for I believe as millions like me believe, that LIGHT WILL CONQUER DARKNESS, THE EAGLE WILL DESTROY THE SNAKE - RIGHTEOUSNESS WILL REIGN WHERE EVIL HELD SWAY, and I can only hope you catch a gleam of that TRUTH and believe it also.

In ending, I quote the words of a beautiful poem which was handed to me during the dark days of the last war and which I turned into a monologue in conjunction with the very popular song at that time, "IT'S A LOVELY DAY TOMORROW".

Over the radio it went, and cheered thousands who wrote me of its help. The author is unknown to me. I only wish I could discover who he is, so that my thanks could be given for their words.

"There is a Great Tomorrow, and its coming very fast,  
When all the world will lift its voice, and declare itself at last  
determined to be rid of force, yoked on its peoples' lands,  
Time holds that great Tomorrow in its bright alluring hands.

There is a Great Tomorrow when right once more will reign  
when the ghastly march of force will be hurled on defeats terrain  
When treachories and barborous creeds must fall like death spun dust  
When will that Great Tomorrow shine as all men know it must.

There is a Great Tomorrow and its coming to us all  
Tho' our lives may reek with tragedy, but behind the hellish wall  
of fear and suffering there lies a healing Peace.  
Peace for all nations who fight that their FAITH SHALL NEVER CEASE.

"Techniques of Subversion and Conquest" - Contd.

THERE is a Great Tomorrow, so don't lose heart my friends.  
 The grandest things of all are found round our lives darkest bend  
 The evil hours will run their course and our broken hearts and fears  
 Will all be gone, for GOD HIMSELF SHALL WIPE AWAY OUR TEARS".

-----  
 U.F.O.P.I.As. NEW COMMITTEE 1970.

At the Annual General Meeting held in January. at which the Election of Officers took place the following Officers were elected.

Before Commencing Mr Fred Stone the Out going President and whp had been the Founder and President since the formation of UFOPIA. announced his deisre not to stand as President but was willing to take a lesse position on the Committee.

With the now merging of the UPIA Group there were naturally many more open for nomination. the results were as follows.

PRESIDENT. Mr. John Rolfe.	General Committee. Mr. E. Johnson
Vice Pres. Mr Fred Stone	Mrs E. Johnson
Mr. A.E.Bran.	Librarians. Mr. Jan Verdonk
Treas. Mr.F. James.	Mrs E. Johnson.
S Ect. Mr. R. Chester.	News Files Mrs. P. James.
Sighting Files Mr A.E.Bran	Investigations. Mr. K. Sinclair.

.....  
 It was decided that the H.Q. address should remain for the time at the old address 22 Northcote St. Kilburn.

Mr. Stone who is the Editor of Panorama Magazine which he produces for the Society will continue in this position. and all matters pertaining to the magazine for personal subscriptions apt from membership of the Society and material for publication should continue to be addressed to him .

\*\*\*\*\*

SIGHTING REPORT FROM THE BOWEN F.S. RSCH. SCTY. QUEENS.

1-12-69. At 7.30 p.m. last night a Mr.r. Polshalk, while walking into a field at his farm saw a large red light descend into the next field.

The light came close to the ground. turned a brilliant orange and took off back into the air at a terrific speed.

We were called by Mr. Polshalk at about 8.p.m. last night. On arrival he took us to the spot where the object was sighted, there was a round burnt patch of earth approx. 30 ft. round. The earth on the spot. had been fused together as if it had undergone terrific heat and pressure. We believe the report is true.

Photographs were taken and as soon as they have been developed they will be sent.

SECOND REPORT ... came at 11.30. p.m. 1-12-69

Mr and Mrs G. Rowe sighted a bright yellow "Cigar" shaped object. It was stationary in the air for 10 min. then moved slowly across the sky. It vanished behind a cloud bank. The object was in sight for about 25 minutes.

To date we have not recieved the phto copies mentioned above but await same with eager anticipation. so much can be assessed by these but judgeing by the evidence above at least the object could hardly have been the usual gimmick of Venus. weather ballloon. mirage etc etc. none of these leave scorched areas or fused earth. and swamp gas does not fit this either I bet the " bright boys" will find some excuse. for however .

"FORCE X" & THE U.F.O. QUESTION.

By A.E. Bran.

Why is it, that ever since Societies were formed in the late '40's for the study of Flying Saucers, they, and the people who run them have been persistently dogged by ill luck, public scepticism, and Governmental ridicule? Also, since the formation of the groups, mysterious and sometimes fatal accidents have occurred to some of the movements leaders?

Members of groups the whole world over, will know of various incidents where documents have disappeared, seemingly without trace; photographs sent to laboratories for analysis have failed to be returned and when questioned the authority concerned has just shrugged its shoulders and denied any knowledge of their whereabouts. Also, for some unaccountable reason, tape recordings and magazines mostly containing just general sighting information consistently fail to arrive at their destination!

Who is behind this constant interference in the affairs of U.F.O. Societies? What is their reason? In my mind the answer is two-fold!

On one hand we have the world governments with their assorted Security Departments, and on the other we have a much more malign and mysterious element which we shall designate Force X!

In the years since Flying Saucers came into world wide prominence, it has generally become our accepted belief that alien craft and their occupants would eventually make contact with their earthly neighbours. It is the belief of many Ufologists that space people have been visiting this planet for many hundreds of years, perhaps since man first appeared on Earth! Some day we may know the complete answer.

Now, according to the expressed official view anyone who believes in visitations by space aliens are complete crack-pots, and that 90% of Flying Saucer sightings are by people who are either suffering from hallucinations, or who have mistakenly identified natural phenomena.

This is the general trend of the information released by Government Departments, and semi-governmental Commissions investigating the U.F.O. question. There are many noted scientists who do not abhere to the official view, and who stated their beliefs at a special hearing before the Committee of Science and Astronautics, in the United States House of Representatives, during the month of July, 1968. The scientists included J. Allen Hynek, Head of the Department of Astronomy, N.W. University; Dr. James E. McDonald, Senior Physicist, Institute of Atmospheric Physics, University of Arizona; Dr. Carl Sagan, Department of Astronomy, Cornell University; Dr. James A. Harder, Prof. of Engineering; Dr. Robert L. Hall, Head of Department of Sociology, University of Illinois; Dr. Robert N.L. Baker, Jun., Senior Scientist at Computer Sciences Corporation; Dr. Leo Sprinkle, University of Wyoming; Dr. Garry Henderson, Sen. Research Scientist, General Dynamics Corporation, and Dr. Stanton Friedman of Westinghouse Astro-Nuclear Laboratories.

Of course, the House thanked them for their testimony, but did not allocate any finance to a wide scale evaluation of the subject.

"Force X" & the U.F.O. Question - Contd.

However, just how many millions of dollars have been appropriated for Space defence and setting up of "so called" research stations in Australia and elsewhere, can only be speculated upon.

Also, the amounts which have subsidised the Intelligence Bureau of the Western Powers, in "under the cuff" investigation of the U.F.O. question during the past 20 years!

We are not complete fools; when I say we I mean the thinking public, although Governments tend to treat us as such! They tell us that the U.F.O. problem is not a problem after all; they feed propoganda and downright untruths to us, that Goebbels in his hey day would have envied for its depth and diversity!

All the time, they are burrowing underneath, investigating, plotting and conniving. Inexplainable things happen. Films are sent from U.F.O. investigators to be processed by reputable firms, and either do not arrive at their destination or disappear after printing. A classic case in point would be the "Tully Affair". (U.F.O.I.C. July, 1969, Newsletter.) where a small case of exposed film was sent to Kodak Ltd. in Melbourne, Victoria from the Queensland Flying Saucer Research Bureau containing visual evidence of several sightings. They were sent through the mail in the usual way, affixed with a 14 cent stamp, early in March, 1969. The container was received back two weeks later with a covering note, stating that it was empty on receipt by Kodak!

It was reported to the police, and after several weeks the C.F.S.R.B. were informed by a C.I.B. detective that the films were then in the possession of the Department of the Interior and the C.F.S.R.B. would not be able to claim them!

The mystery deepened when Mr. Colin Bennett N.L.A., a prominent barrister, asked Mr. Freeth, the Minister for Air, as to whether his Department were involved in the disappearance, and was told in no uncertain terms that "it was not", and furthermore, I quote, "as far as Governments are concerned, it has never been precisely determined where Science Fiction ends and where these objects begin to be related to reality", end of quote.

One wonders if perhaps, Mr. Freeth's name could not be substituted for "Governments" in the above quotation and be fairly certain of finding a true mark!

In all fairness we cannot say definitely that a bona-fide officer of Mr. Freeth's Department or an employee of Kodak Australia were implicated, but it certainly smells of collusion somewhere along the line, and we can in all honesty assume that another Government Department must have been primarily involved.

The previous description is but one item among many complaints of similar happenings over the years. Another passing reference is in regards to certain documents which disappeared during correspondence between the Rev. Gill of New Guinea and the Australian Government a few years ago, but I feel this item was covered fully in articles at that time, and it is not necessary for me to repeat it here.

"Force X" & the U.F.O. Question - Contd.

Mr. Fred Stone of U.F.O.P.I.A. informed me many months ago that several tape recordings consigned to him from U.F.O. sources in Canada and America had disappeared in route. A couple of times the Customs Department asked him to call and see them and pick up a tape, claiming that they had intercepted them in case they contained illegal material!

Just how juvenile can one get??

I wonder which Government office has the other illegal?? material locked away in its hot little cabinets?

The above items are not isolated cases, and are not confined to Australia. On the contrary, information from our friends in other countries suggest that this unwarranted intrusion into the internal affairs of U.F.O. Societies goes on all over the world. This by Governments who deride Ufology and fatuously state that no problem exists, that Flying Saucers are a figment of the imagination, and people who sight them or meet the crafts' occupants, are either deluded ignoramuses or downright liars!

Just who are the Governments trying to kid? There are several reasons why world Governments do not want their people to be fully conversant with the facts. Here are a few which come to mind.

1. PANIC. "They are afraid that people would panic if they knew that Flying Saucers were real and that aliens really were visiting Earth". Balderdash! When will they realise that the majority of the thinking population have their own ideas on the subject, and are basically commonsenseical, not a lot of hysterical morons!
2. ECONOMIC. "Governments are concerned that if alien space craft should land here and bring their sophisticated knowledge of propulsion with them, all our preconceived ideas would then "go down the drain", and most of our modern so called "conveniences" would be proved obsolete overnight! " What the Governments are really concerned about is the fact that the revenues that they and the powers which control them obtain from "oil, glorious oil", will no longer be an economic reality. Lets face it, the Oil Companies of the World must have an immense pull with the various Governments concerned and would be able to exert terridic political pressure.

It does not matter one iota about air pollution or the fact that many lofe saving drugs can and are produced from petrol-  
eum as long as black gold can be poured into national economies, and the Company shareholders can pocket their dividends.

3. POLITICAL. "What Government would like the thought of a benevolent space people coming to Earth with sophisticated ideas, far in advance of our own, taking over everything, and conducting the affairs of Earth in an atmosphere of peace, prosperity and loving brotherhood. Tut, tut, we can not have our politicians and war-mongers put out of work can we? Of course

"Force X" & the U.F.O. Question - Contd.

not! Blast the aliens out of the skies with everything at our disposal!!!

I am not trying to infer that all space visitors will, of course, be peace loving and benevolent. It is an established fact that everying has an opposite, therefore, we can safely assume that every space visitant will not necessarily be a kind and peace loving friend. But what we have to guard against is lumping all aliens in the same category. Be prepared, yes, but however, keeping our guns hidden until we are positive our visitors are belligerant in their intentions.

We come now to that part of my article, which I have designated "ForceX".

Let us first define the heading I have chosen for this extremely complex and mysterious element.

"Force", according to the dictionary means a body of troops; to co-erce; to contrain; or mental power. "X" stands for the unknown, the mysterious. Thus we have a mysterious unknown force, which is making itself felt behind the scenes by acts of violence both physical and mental.

Acts which are diametrically opposed to all concepts of benevolence, peace and human understanding. "Force X" is both physical and parapsychical, the weapon by which Dark and Negative elements are attacking our movement and endeavouring to nullify our efforts, towards a true and enlightened appraisal of the U.F.O. question.

It is the mysterious element which has been instrumental in forcing several of our eminent workers in the past, to leave the movement.

To name a few; Albert Bender, United States; Mr. and Mrs. Harold Fulton, of Wellington, New Zealand, a Mr. Stewart and his young female assistant also of New Zealand and Mr. Edgar Jarrold of Sydney, N.S.W.

Each one of these people left Flying Saucer work under peculiar and mysterious circumstances. You may have read Gray Barker's book "The Three Men in Black" in which he wrote of the tortured, hag-ridden young man Albert Bender and Bender's supposed contact with powerful alien forces personified by these mysterious men in black clothes.

At approximately the same time the above incident occurred, Harold Fulton and his wife, who conducted independant investigation of the Flying Saucer phenomena, also Edgar Jarrold ex R.A.A.F., and President of the Australian Flying Saucer Bureau, received almost an identical visitation.

These people were so thoroughly scared by the threats which were levelled at them, and by other peculiar happenings that they abandoned their research and retired into comparative obscurity.

Now, the forementioned people are not the only ones who have had threats levelled at them and have abandoned U.F.O. research as a direct result. There are many more whose names perhaps, are not so well known. However, for all those people who have been pressured out of the movement, there are

"Force X" & the U.F.O. Question - Contd.

others who step into their shoes and carry on regardless.

It has become apparent over the years, that the pressures applied by "Force X" are not necessarily purely physical in nature, but are also para physical. Which argues for the presence of negative energies utterly foreign to the average mans conception!

The reference to negative energy brings to mind the peculiar thing which happened to Edgar Jarrold on Wynyard Railway Station in Sydney, N.S.W. during the time of his persecution, and which could easily have proved fatal.

Jarrold was standing on the station platform fairly late at night, waiting for his train home to a Sydney suburb. He was unaccompanied and the platform was deserted, apart from one or two other people a fair distance away from him.

As his train was about to enter the station, Jarrold moved forward to his usual spot, knowing from past experience that the particular carriage he wanted would stop at that point. Then, without warning, he received a violent push in the back which propelled him over the edge of the platform onto the line! Fortunately the train was slowing down, and Jarrold being unhurt, was able to scramble back onto the platform before the train reached him! He swears that no other human being was within twenty feet of him when he was pushed, and in any case the station was brightly lit so that an act of deliberate violence would have been witnessed by one at least of the other commuters!

The accident which befell Edgar Jarrold seemed to set a pattern, in that many U.F.O. leaders in the following years were beset by strange and unexplicable happenings.

I am concerned at the moment with the things that happened only to Australians, but I have no doubts that many other people the world over would have a host of stories to corroborate my theories.

In 1965, I joined the executive of U.F.O.P.I.A. in South Australia, having been interested in the subject for quite a number of years. Six weeks after I began lecturing and taking a responsible position within the Society, I was taking my usual morning shower, when for no apparent reason I lost my balance and fell violently across the edge of the bath.

Now I am fairly agile on my feet, and having studied Judo know how to break my fall to prevent injury. But in this particular instance my limbs refused to co-operate, they seemed entangled in some irresistible force preventing me from saving myself. The sum result was that I suffered five fractured ribs.

Within an hour of my accident, Mr. Fred Stone the President of U.F.O.P.I.A. was travelling back to Adelaide by car from a country lecture, when he was involved in an accident wherein he received three fractured ribs!

A strange co-incidence, you may say, but wait, there is more to come!

In March, 1968, I was driving back from Sydney with my wife after visiting relatives, when 20 miles out of Hay, H .S.W. and 60 Miles from my next stop, Balranald, the big end of my 1954 Ford Consul decided to play up, causing me

'Force X' & the U.F.O. Question - Contd.

to cut speed and limp the remaining 60 miles at only 20 miles an hour; the knock in the engine developing to an alarming degree, so much so that we firmly expected to spend many desolate hours stranded on one of the barest stretches of road in N.S.W.

Fortunately we were able to reach Balramald in safety, and after a few days enforced stay procured a reconditioned engine which was fitted by a local mechanic.

The peculiar part about this circumstance was that Mr. Stone and Mr. V. Godic, my co-Vice President were travelling back to Adelaide after a lecture at Hawker, a South Australian mid north town, when Mr. Godic's car developed exactly the same trouble as mine! Again within an hour or so of my experience. An extremely unlikely occurrence in the normal way of things, because Mr. Godic's Holden was no more than two years old and still in almost new condition.

Still a co-incidence, you may say, but wait, there is still more to come.

But recently we learnt of the tragic death in a car accident of Dr. Miran Lindtner, well known and respected President of U.F.O.I.C., Sydney, N.S.W., whilst travelling in Germany. Dr. Lindtner, an eminent Veterinary Surgeon and U.F.O. research worker of many years experience was scheduled to take the chair and read a paper at the World Veterinary Congress in Yugoslavia. He also was attending various meetings of U.F.O. enthusiasts at numerous European centres.

This tragic accident occurred in July, 1969. On October, 3rd, 1969, Mr. F. Phillips the U.F.O.I.C. Vic-President who succeeded Dr. Lindtner, was struck by a car, near Australian Square, Sydney and has spent a considerable time in hospital since!!

Captain Bruce Cathie of New Zealand a well known lecturer and author of the current popular book "Harmonic 33" was approached through his publishers to give a lecture at Adelaide's U.F.O. Convention to be held over the Easter Holiday, 1970. He signified that he would be happy to come to Australia, and a very interesting series of lectures were anticipated.

However, after several letters had flowed to and from New Zealand, all of them quite amiable and full of discussion on accommodation, etc. a sudden restraint became apparent in their tenure. Then abruptly a bombshell was dropped, in that Capt. Cathie could not after all, attend the convention.

Information was sought from his publishers re his volte face, and brought to light the startling fact that Capt. Cathie has had his life threatened; furthermore the New Zealand Police have advised him not to come because of the danger involved!

You have just read of the physical duress under which many U.F.O. leaders have to work, the fear that your very own Sword of Damocles might fall at any time. But quite apart from the purely physical violence employed by "Force X", there is the other tenuous yet equally fearsome energy which attacks a person's sanity and peace of mind!

There are many U.F.O. Workers who have been assailed at one time or another

"Force X" & the U.F.O. Question - Contd.

with strange and fearsome nightmares, apparitions materializing to them in the small hours, and voices speaking to them when half asleep. Several people well known in U.F.O. Circles have spoken to me on this subject and told me of their experiences. I also have experienced several queer happenings but not to the extent of some other people.

How many marriages have been severely strained when psychic influences have been brought to bear on one or other of the marriage partners. I can vouch for this personally, because my own marriage has been severely strained, due to these same psychic pressures applied to my wife.

Fortunately I am psychically aware, and am able to take defensive measures to protect me and mine, but only to a certain degree of efficiency. I pray to the Lord that I am able to prevail.

There must be many workers however who are assailed from time to time by these psychic influences and are forced through fear and ignorance to abandon the work. I say to these people, have faith in your creator, and that Good must prevail over Evil. Believe in the power of prayer and utilize that power to the uttermost. Above all, do not deviate from your set course, but persevere in this research which will eventually bring all the inhabitants of the Cosmos to closely knit Brotherhood, under the benign love of the Universal Creator.

So much then for "Force X". I think that I have made my point. We not only have the ridicule, overbearing authority and down-right intrusion into our affairs by World Government, we also have to contend with ungodly influences on the psychic plane who wish to prevent us from attainment to ultimate union with our Cosmic Brothers.

Can the U.S. Government honestly swear that U.F.O.'s do not exist, with all the mass of evidence available to prove otherwise? I think not, for if they so do, how ridiculous they will look in the future, when the fact is finally presented in all its stark truth!

-----

If any reader has information regarding undue influence brought to bear on them, or people associated with U.F.O. leadership whether physical or psychical, would they please write the Editor or myself care of this magazine.

Such information will be used with discretion in a book I am considering for a later date.

A.E. Bran.

-----

INAUGURAL ADDRESS OF MR. JOHN ROLFE - INCOMING PRESIDENT U.F.O.P.I.A., 1970.Newer Concepts of U.F.O.'s.

An unbiased study of ancient myths and legends, together with the ancient stories of the creation, and the old fads and their doings may yet come up with the startling concept, that the universe is much larger than we have conceived. Man may yet have to acknowledge the existence and occasional local presence of superior entities in the cosmic scheme. For instance, man has written off the Scriptural Stories of angels and tossed aside the knowledge of this past history, referring to it as the childlike delusions of his ancestors; assuming, that these same ancestors were incapable of thinking in the same clear rational way as himself.

Before declaiming that the traditional remembrances of antiquity and the folklore of prehistory is pure nonsense, it would be wise to have a good look at what has been retained in this present day.

Scientific orthodoxy is coming up with proof that the world we live in, is not the solid, indestructible thing it would appear to be, to the range of our restricted senses. Out of scientific laboratories have come hints of other orders of matter; and substances alien to us are just beyond the reach of our present technological ability and instrumentation. It is worth pausing to consider the strides we have made in technology in the present century, and what's the next 50 years may bring forth.

The scientific dictum of experiment as proof, sets definite limits to the exploration of any concept. As our physicists insist on using machines to measure and evaluate any phenomena, then any phenomena not capable of being so evaluated is rejected as being impossible of proof. One instrument alone can beat a machine and that is the human being himself, but modern scientific man has been trained to rely on mechanical appliances for his perception, and either will not, or cannot use his own innate abilities. Therefore, a loss of perceptive ability must result in a loss of understanding.

With the probing into the constitution of chemical matter going on nowadays in the field of atomic and subatomic particles, the idea of another universe beyond the known chemical framework is not now as fantastic as it used to be only a few years ago.

Talk of other universes conjures up a feeling of unreality, but it is well-known that young children have the ability to perceive more than we adults can, with our normal five senses. This faculty appears to be lost to the adult mind, except in rare instances. Our training is such, that we are led to believe that anything which is not solid and tangible is a product of the imagination and to be rejected out of hand.

Recent laboratory research has shown that hallucinations can be produced by introducing electrodes into different areas in the brain and stimulating them with minute electrical charges. With this stimulation to the emotions a knowledge of the pathological reactions of the brain would be of great help to researchers, especially in the field of Extrasensory Perception.

To the serious researcher into the possibilities of other universes and the means of communicating with them, all human experiences not belonging to

Newer Concepts of U.F.O.'s - Contd.

the normal five senses becomes of great importance. Of course all human experiences from what ever source, are important.

Who can describe the effect, with any accuracy of a strong mental impulse on the human brain? The recipient would have to sort out his own reactions from the image conveyed by the sender, and lacking sufficient knowledge of his own physiology, how, for instance, would a contactee know exactly what was occurring, and how would he evaluate his experience. For that matter how would you?

It is then evident, that all U.F.O. reports should be received without bias, no matter how way out they may seem; and all reports should be carefully researched. There has been a tendency to completely discount any report which is at all off beat. Many researchers throw up their arms in horror at the thought of reported craft having been observed complete with crews; and most of us are inclined to reject the claims of alleged contactees and the reports of those who claim to have received a message. But, surely, hidden in the many contactee and message claims, there must be some truth to be found.

There should and must, be an open minded study of these cases, especially when the aura of cultisint mysticism is removed. It is highly probable that the appearance of crackpotism which is conveyed, is exactly what is intended, with the idea of masking the real issue, and so preventing any serious research into this facet of the phenomenon. So no aspect should be neglected, because every hypothesis may have a bearing on the final outcome.

Occult literature gives many instances, with documented accounts of strange distortions in space and time. Keel reports that numerous contactees are greeted with the question, "What is your time cycle?" He also states that questions about time were asked in some of the alleged contacts in 1957 and 1964.

As related by contactees, one of the notable characteristics of Ufonauts is their inability to understand and use our system of time measurement, as reports of such cases increase, it is becoming more and more apparent that some special time factor is involved. In some cases the phenomenon seems to be able to manipulate time and space, as far as the witnesses are concerned.

While this could be due to hypnosis, it could also provide an important clue to the overall nature of the phenomenon.

The two common time distortions reported are :-

- (1) Time compression, wherein the witness undergoes an experience of apparently long duration; but later discovers that only a short period of our time has passed. This is especially interesting, as the only way we know this could happen, is when travelling at speeds approaching light speed. The inference here is that any journey the contactee undertook, must have been at such a speed.

This could even be interpreted as confirmatory evidence that the contactee IS telling the truth; being backed up in his claims by

Newer Concepts of U.F.O.'s - Contd.

our own technical knowledge of light speed phenomena.

- (2) Time lapses - events in which the witness suffers from amnesia, complete or partial; being unable to recall how he passed specific periods of time. Usually this type of case happens to a car driver who saw an approaching object, and then suffered a memory lapse, even though there was no awareness of losing consciousness or undergoing an unusual experience. Such witness usually complains that it took 2 or 3 hours to drive only a few miles.

Both these distortions should be examined from both a psychiatric and a physical angle, for it is quite obvious that hypnosis could be an explanation of both types.

Very often the observed phenomena seems tailored to the individual pre-conceived beliefs of the witness. Both objects and occupants seem to adopt a multitude of forms, and the contactee is given information conforming either to his beliefs or his ability to understand.

U.F.O. researchers who concentrate on one particular facet, frequently find themselves being flooded with apparently reliable reports tending to substantiate their pet theory. Keel states that from his own experience with this factor that he was led to conduct some weird experiments, which confirmed that the reported data being received was being deliberately engineered, and was therefore false. The purpose of this false data is to create confusion, and to veil the real phenomena. Most important, it has convinced the U.S. air force and the scientific establishment that the phenomenon is non-physical and so non-real.

It is becoming increasingly obvious that the many science fiction type manifestations being reported, are of far more importance and deserving of more intensive study than the often ridiculous messages allegedly imparted. Also the abstract time factor becomes of more importance, than the detailed descriptions of the objects reportedly seen.

From contactee data, our first conclusion is that U.F.O.'s could originate from outside our time frame. They appear to enter our environment either at will or by accident and certain humans allegedly have somehow crossed this time bridge. This crossing must involve physical changes, which have been defined in occult and contactee literature as being of a vibratory or frequency nature. So far, we do not have sufficient knowledge to postulate a working hypothesis on this theory.

In the field of particle physics, there has been research into antimatter and negative universes, which gives an indication that orthodox science is now beginning to take an active interest into what is more or less the vibratory factor.

While the extra terrestrial theory has dominated the U.F.O. scene for years, the theory of time travel has rarely been postulated in U.F.O. literature. It is well to remember that if our remote descendants have mastered the technology of time travel, then they are already coming back in time.

Newer Concepts of U.F.O.'s - Contd.

It is, however, most disconcerting to find, uneducated, unsophisticated contactees discussing the reverse time cycle theory in lucid, knowledgeable terms. Apparently the ufonauts reason that these types are sufficiently open-minded or naive to accept such a concept. Contactee Derenberger allegedly encountered a U.F.O. on a highway outside Parkersburg, West Virginia on 2/11/66, and conversed with an occupant, who reportedly visited Derenberger many times later, and even took him for trips to the home planet, "Tanulos". Keel interviewed him at great length, many times and was unable to shake his story. Another contact in Adelphi, Maryland, produced details identical with Derenberger's, as yet unpublished story.

Derenberger is reported as saying the ufonauts were time travellers and could not stay here too long because they became younger.

It may be as well to have a look at present orthodox theories as to what happens to time, when travelling at or approaching the speed of light.

When an object moves anywhere at any velocity the atoms composing it slow down. On a Planet the slowing is too small to measure; but approaching the speed of light, the speed up becomes noticeable, until at light speed, particles (mainly electrons) stand still. If the atoms making up the human body slow down, so must the rate of living. Theoretically, at the speed of light you would not grow older; and at higher speeds the spin of particles is reversed and you could grow younger. As no-one, so far as we know, has yet travelled at these speeds and returned to tell the tale, this is all purely theoretical.

Air Marshall, Sir Victor Goddard postulated that U.F.O.'s may be the work of the departed, and that they return to display the wonders of their new environment. In other words U.F.O.'s could be a psychic phenomena. There can be no doubt that some are, but not the apparent physical types leaving marks on the ground and other tangible evidence of their presence.

As we know only too well, the whole U.F.O. field is very complicated, and it is highly probable, that they are of many types and from many sources. Mounting evidence points to certain types of U.F.O. phenomena and certain psychic phenomena as being one and the same thing, and it could be triggered off by a common cause.

While there may be little valid scientific evidence for the Extra-Terrestrial space ship theory, there is none against it, and it is still the most logical. These craft could also be reflections, as in a mirage, or projections similar to T.V., emanating from an unseen parallel world, or alternate reality. Who is to say, they are not craft occupied and controlled by beings of another unseen world, existing across our world, because their time runs in another way and that these presumed entities have found the means to pass at will through next, where their time stream and ours impinge.

The theory that much of what we see and hear of U.F.O.'s and their occupants, could be illusory or hallucinatory is gaining credence. Perhaps these hallucinations are broadcast by the seemingly real, solid artefacts, which, after all, are only seen on fairly rare occasions. These broadcasts could be achieved both by mechanical means or the thought processes of occupants

Newer Concepts of U.F.O.'s - Contd.

of such craft.

While the solid object allegedly seen at Valensole, and other remarkably similar sightings, left physical evidence of their stay with markings on the ground; were the little creatures seen at the same time solid entities, or were witnesses under mental control, which from their testimony seems quite possible. The same question arises with other bizarre sighting reports, such as Kelly, Hopinsville, Moth-man, and so on in the United States, and the too numerous to mention reports from South America.

If it is admitted that these are psychic phenomena, the question then arises are we up against manifestations of the age old conflict of the forces of good and evil. However, way out this may seem, it is a point which has to be considered. Have then, these forces been responsible, (when they or their materialisation as machines have NOT been visible), for much of the strange phenomena, which has been classified as poltergeist or psychic. There too, are striking features in some alleged contact cases in close range sightings, of the remarkable hypnotic effect on witnesses and the obsession apparently shown by U.F.O.'s focussing attention on one person.

Among the mass of U.F.O. data are many reports of the seeming ease which objects change in shape, size and color, in full view of observers. Keel states the ratio is 3 to 1 in overall reports. These reports have either been ignored or dismissed as natural phenomena. The question would now seem to be, are these lights in the sky and amoeba type sightings the real phenomena, and are the solid metallic appearing artefacts which definitely go out of their way to attract attention, playing a diversionary role, to distract attention from the other more numerous and less tangible phenomena; ufologists over the past 20 years have concentrated on the seeming hardware, but have made little actual progress, being no further advanced now, than they were originally.

While a group of witnesses in one area will describe a sighted object in the same details, others a mile or so away will give different details. Against this, many thousands of sightings of non solid objects give uniform details. For example, the groups of small lights, all under apparent intelligent control coalescing to form one big bright light, which then flies off; or the big bright light which breaks into smaller one, each of which then flies off on an independent controlled course. In U.F.O. literature, these are usually discounted in favor of the solid artefact, to build up the extra terrestrial case. Keel states that in a survey of over 2000 sightings from reliable sources over the past three years, 76% were non solid objects and 24% appeared solid. He postulated the theory that the seeming solid objects were manipulations of matter and energy and that rarely if ever are they seen in their time form. The lights in the sky usually appear as blue green in color, and shifting through the spectrum and their most stable color is a brilliant white.

The color range reported would seem to be definite evidence of a change in frequencies. They enter environment from the high frequencies beyond ultra violet color and there have been cases reported, where witnesses have suffered burns only to flesh but to the eyes, which definitely suggests ultra violet radiation. They depart by descending into the red frequencies, passing into

Newer Concepts of U.F.O.'s - Contd.

the infra red range and to support this, witnesses of a departing craft report the bright red light and also feeling waves of intense heat. Contactees have been holding forth for years about these frequency changes, and here we have data to support it. This too supports the postulate, that contactee's statements should be carefully investigated in a completely open minded manner, without bias.

Could these objects be composed of energy from the upper frequencies of the Electro-magnetic Spectrum and could they be able to manifest themselves into the very narrow band of visible light; and in the process be able to take on any desired shape, be it lenticular, rocket or any other of the multifarious U.F.O. shapes. Such transmutations while being mechanical and solid in appearance would not actually be so. They would also be capable of performing in the manner which we have come to expect U.F.O.'s to behave. Having adopted a shape we could accept, they would then perform their mission and having completed it, revert to their energy state and so disappear completely. This theory is not so far fetched when you consider present orthodox scientific theory into the states of matter and energy.

These U.F.O.'s from transmuted energy patterns would intermingle with all the other undetectable radiations which surround us all the time and of which we are completely unconscious. By day the radiation of sunlight renders them invisible, but at night, in the absence of this natural radiation, they become visible as various colored lights flitting about the sky.

Whatever theory you may espouse, some intelligence must be controlling them, what it is, and the purpose behind the phenomena is still beyond our understanding. We still await the answer to the \$64 question, where to the definite, metallic manufactured artefacts come from, how do they get here, and just why are they doing what they are doing?

It is very evident we are being led up the garden path, and perhaps Fort was right after all, and we are someone's property.

.....

The following is adapted from Riley Crabbs. "BORDERLAND SCIENCE " magazine Nov.-Dec 1969 .

We had received similar reports of this case prior to this printed account but as we had only the one claimant to its being genuine. preferred to wait for more. before we printed this although accepting the facts ourselves. For we still insist there was more went on on those Apollo missions than we have been told or was released.

Some of us caught certain facts ourselves on the actual T.V. transmissions which suddenly got cut short and silence reigned for some minutes before the continuance of the issue. This occurred on both the last two missions so that when " ham radio" folk pick up things which we ourselves are not being told " Officially " then its time we started at least listening to what these very alert boys around the world are hearing . and believe they hear plenty but most times never say anything .

It appears this is one time things have leaked out from the "ham" boys. and we can only hope more will come up as they relaise that both they and we are being taken for a glorious ride.

Before leaving my comments. maybe the above may explain we so many people who ordered the Apollo films, and there were thousands in our State alone have NOT YET RECIVED THEIR FILMS AND HAVE BEEN TOLD THEY CAN HAVE THEIR MONEY BACK IF THE PREFER. NOT TO WAIT ..

As reported in B.S.

The German- American scientist , Willy Ley, was a Flying Saucer skeptic, yet interestingly enough he died of a heart attack on the 22nd anniversary of Flying Saucers. June 24th 1969.

A year earlier ,Ley had made this prediction: " Sooner or later, American astronauts are going to run into astronauts from another planet outside our solar system". Too bad Mr. Ley didn't stick around for another month. or at least long enough to read the CENSORED TRANSMISSION from the Apollo 11 Command Service Module " Columbia" After Armstrong and Aldrin had safely lifted " Eagle" off the moon's surface and rendezvoused with Collins at 70 mile altitude. Ham radio operators on earth, tuned in to the Command Module's radio wavelength heard conversations which was not released by NASA to the radio and T.V. networks for re-broadcast .

We quote now from an article by Sam Pepper which appeared in the Sept. 29 1969 issue of the weekly "National Bulletin".

" What was it, what the hell was it? That's all I want to know .

" These (garbled) babies were huge. Sir. they were enormous."

" No, No, that's just field distortion. Oh God. you wouldn't believe it."

" What....what.. what the hell's going on ? Whatsa matter with you guys wha.."

" They're there, under the surface."

" What's there? ( garbled ) malfunction ... ion . Control calling Apollo 11"

" Roger, we're here, all three of us, but we've found some visitors.. Yeah. They've been here for quite a while judging by the installations."

" Mission Control. Repeat last message."

" I'm telling you there are other space craft out there! They are lined up in ranks on the far side if the crater edge. "

" THEY'R ON THE MOON (2)

" Repeat, Repeat" .

" Let's get that orbit scanned and head home "

" In 625 to the fifth, auto relays set. my hand are shaking so bad I can't.."

" Film? Hell yes, the damned cameras were clicking away from up here. Did you fellows get anything?"

" Had no film left by the time (garbled ) three shots of the Saucers, or whatever they were, may have fogged the film ."

" Mission Control, this is MissionControl, are you under way? Repeat are you under way. What's the uproar about UFOs? Over".

" They're set up down there. They're on the moon, watching us."

" The mirrors. the mirrors, Youset them up, didn't you ?"

" Yes, the mirrors are all in place. But whatever built those spacecraft will probably come over and pull 'em all out by the roots tomorrow."

End of transcript.

Is there any evidence to verify Sam Papper's article and the censored astronaut dialogue. ?. YES. We have heard from two different sources that ham radio operators heard the conversation. We have a recent letter from John. J. Locke. Director of World Wide Research Bureau. Lorain. Ohio.

" The article by Sam Pepper I have, also the color photo of the two Flying Saucers in the upper left hand corner of the photo of Aldrin staking the solar curtain. ( This photo appears on page 24 of LIFE Magazine Aug. 8 1969 In Lif(e Memeorial Edition of the Apollo trip the UFOs are cropped out of Aldrins picture taken by Armstrong) . Also a ham radio operator that lives one block from me. tip eme off on the Astronauts conversation .

Did Armstrong and Aldrin see physical UFOs and installations on and under the surface of the moon . ?. Or were these Etheric constructs, beyond the sensitivity range of normal eyesight . of T.V. cameras, and of the film in the motion picture ans still cameras?

If they were non-physical by our standard froames of reference, then the two moon pionee rs are lucky to have the Aldrin photo to back up their story, This puts them in the same catergy as thousands of other Earthians who have seen Flying Saucers and have little or nothing to prove it except their word. Why should the Astronauts see non- physical realities on the moon. ?

Because their psychic sensitivity had been increased by three days of weightlessnessand other sensory deprivations of deep space— but try to explain that to an academic flathead tp whom such " visions" are merely hallucinations— so the controversy over " reality" will rage on we suppose until the material-minded Pisceans are gone from the earth. Meanwhile we Flying Saucer believers can be thankful for the Christmas present of these few shreds of 3vidence from the Apollo 11 landing . July 20. 1969.

\*\*\*\*\*

Well there you have it folk. either you have to accept the official censored stuff dished out to you , or be prepared to keep your eyes and ears opento the scraps and bits of evidence which creep to the top occassionally. In fact you have to brand these " ham operators " as hoax mongers or worse along with all the other evidence which goes to rprove we're not being told the whole TRUTH .
