FINAL ISSUE.

Double Issue
.....
SPECIAL NOTICE TO READERS:
PANORAMA CLOSES.

PUBLISHED
AT
22Northcote St.
KILBURN.SA.
5084.

The Editor desires to state that it is with deep regret but not without some very great thought and consideration he has at last felt it necessary to bring to a close his work as Editor and Publisher of this magazine which has been reaching UFO readers around the world for many years either under its present name or that previously known and which he initially started producing a magazine for his society and UFO students. Then known as The AUSTRALIAN SAUCER RECORD.

The latter magazine reached to Vol9. no 6 and were quarterly produced, and then it was felt necessary to change its name and enlarge the issues. and so PANORAMA came into existence and has been going up this these last two double issue copies Volume Ten Number 5 & 6.

Throughout the publication of both magazines except in the beginning. the whole of the work regrettable feel onto the shoulders of the Editor and despite many appeals for assistance very little help was forthcoming. Hence more and more he felt the burden as his age increased and his health deteriorated.

The greatest concern to him was the fact of the lack so often of an excellent typist to do the stencils as he himself is not even a good one as must be and has been very appargant to his readers over the years, and again and again this caused him great concern from the prestige side of the Magazine. but so many would say they appreciated the " meat" in the wrapping and not the folder or its makeup. that he was encouraged to go on again and agin,

However tow years ago he came to a definate decision that he would resign from the Presidency of the Organistaion which he headed and then slowly wind up the affairs of the Magazine as soonae possible after.

Unfortunately he aim was frustrated by the newly appointed President who took over only being able to last about three months or more and he had to resign. because of various difficulties. This throw the onus back on the Editor again. But at the end of 1970 he made a final stand in which he had to make an ultimatum to the society that he would have to resign and that if nor one was available then the Society would have to make some other form of running its affairs or close down. After much consideration the Society with a very small committed decided to carry on. and are still doing so. Memberships to them have been paid and they in turn have paid the Editor for magazines which members were entitled to as such viz. 6 per year.

This has left such members in some cases still credited with a number of magazines which will be paid back to them in value. pro rata. Others who have finished their subs will have to contact the Secretary of the Society re any further issues of magazines. Private subscribers will recieve notification with the issue of their credit state. WILL ALL TAKE NOTE OF THE TAB BELOW RE YOUR CREDIT A POSTAL NOTE WILL BE SENT TO YOU COVERING THE STATED AMOUNT OWING TO YOU.

SUBSCRIBERS NAME. CREDIT OWING. ...\$.. .

PANORAMA CLOSES DOWN (2)

The Editor wishes to make it quite clear that there is no coercion whatsoever in the matter of his closing down his magazine. Above all he makes it very clear **THERE IS NO SUGGESTION OF ANY THREE MEN IN BLACK BUSINESS IN THIS MATTER WHATSOEVER .**

He believes however that He has reached a certain stage of UFO investigation in which he can go no further and must reach out into a further stage, and feels that too many of us have become content to sit and talk and be thrilled about sightings and such like and arguments of the various phases of the types etc etc until we are like people who have learned all there is to know in a grade or school and should reach up into the next grade. This next grade one has to find for oneself. In other words we should have left the primary school long ago and gone ahead to the secondary stage, or even the High school, if we are courageous enough to step out into it.

I can only offer a little advice for I do not intend to enter into any correspondence in these matters so please do not write, but I do strongly suggest that you reread some of the earlier books of the UFO libraries some you skimmed over, some you thought you couldn't understand, maybe NOW with times passing you may understand them better, some you thought farfetched can contain great truth. Regretably one or two of them are very hard to get in fact I think they could be out of print. I am searching for copies for one or two friends myself as I will not even let my best pals have mine they are worth more than diamonds.

Some of the authors we do not hear about now I wonder WHY? One I know has had his life threatened several times. His character has been maligned. His books called rubbish. Another whose book contains some of the greatest gems, so very few have heard of it, in fact I dare to say hardly any UFO library has it, and yet he was one of the most well known writers with another in the early days, his book written with another as coauthor reached millions, but this little one mostly in science fiction style or most thought it so, was a gem.

Now if you keep let the wheels start working and you'll soon find out who I refer to, for strange enough both writers are closely allied to royalty.

Finally if you would find the Truth of the UFO, forget your stargazing, and come down to earth. Millions now of sightings have been recorded enough to make classification for any modern computer put it plane as to their shapes etc etc, behaviour patterns, color, anything you want to know can be now fed into the machine from that already collected over the number of years sent by the devoted pioneers and enthusiasts and also the general public, and after all that it a matter of SO WHAT, UNLESS you start digging deeper. Maybe you'll be like some miners who start a hole and find it is a dud, well you dig another until you find the pay lode, but dig you must. Get out of the kindergarten, for goodness sake and do some real investigating, and here's to the best for you, for I fully believe if you are really sincere and earnest you'll find what you seek which brings me to one of the original texts I had on my original headings "SEEK AND YE SHALL FIND".

To the thousands who have helped me all along the way, those who have encouraged those who have stood by me when others kicked and betrayed, and also they have been quite a few of them, a mere thank you is so unworthy to express what one endeavours to express, yet to add that it is meant from the deepest feelings of the heart, with the added reverent prayer May God Bless you and give you the reward which I am impossible to pay for such kindnesses shown, and in the dark days ahead may HE show you the way as you seek to know the TRUTH.

Your very grateful EDITOR

FRED STONE

TO ALL READERS AND SUBSCRIBERS OF " PANORAMA "
MAGAZINE
.....

Dear Friends All,

It is with deep regret that this brings me to a position where I am compelled by general circumstances to close the production of the magazine.

This was intended and had been put into motion as is explained in the last edition which you receive, and which had been already in preparation in stencilling and almost completed ready for printing when a further matter brought the whole matter to a complete standstill.

I have explained in the frontal pages of the last edition much about the magazine side of this. but on October. 4th I was taken ill and collapsed in one of the Adelaide Emporiums, and had to be taken to hospital for treatment of vascular troubles. .

At this stage of writing I am convalescent and doing all I can slowly to bring everything to an honorable conclusion .

As stated in last Magazine all paid up subscriptions will be met. although most are only paid up to the end of this year and this leaves about 1 copy due to the subscriber viz 20c. which will be enclosed with the magazine when posted if of course the occasional few there is more the additional will be added.

Some of you will be still be having credit due to you from UFCPIA who paid me for subs. up to the end of this year . in which case any extra credit and copies will be recoverable from them .

It is not easy to say Goodbye after so long and certainly not easy to lay the work of this Magazine down. but it has become a necessity. and further I want to devote whatever remaining days are left of life to the more higher studies of helping mankind toward the New World of the CHRIST KINGDOM.

Words are too inadequate to express thanks and appreciation for all the help over the years but a simple Thank You and God Bless you is perhaps better. and there are far too many to single any out. so GOD BLESS YOU ALL. You each know what you have done and deserve in return . May you be well rewarded.

A last word to EVERYONE. WHATEVER THE DAYS ARE AHEAD FOR US ALL DO NOT LET YOUR FAITH IN GOD AND THE VERITIES BE SWAYED. DO NOT PLACE TOO MUCH CONFIDENCE IN MANKIND OR THOSE WHO COME CLAIMING TO BE CHRIST OR HIS PROPHETS. JUDGE THEM BY THEIR FRUITS . WATCH THE GREAT NATIONAL TRENDS FOR THE COMING GREAT CRISIS. AND NEVER LET YOUR FAITH IN GOD BE SWAYED

Again thanking you all and hoping to meet you all someday and express it personally

I am

Yours Faithfully

FRED STONE

" ARE WE BEING TOO NAIVE?"

BY. DON ALFREDO CALFE

As I move amongst a large number of UFO believers, most who are members of various Groups and keen students, others who attend such groups but are not actual members but ardent students nevertheless, I am amazed at the great amount of trust most of these folk place in the fact that because a man or person is a scientist, his findings are more reliable than those discovered by some one who had some practical experience.

Now one does not have to rove through historical pages to quote the immense number of cases in which someone has discovered something by some practical experience or even accident, and been highly ridiculed by the scientific school of thought of his day, later many years perhaps after his death only to be credited by a later scientific school that he was right.

Any branch of science is only correct in so far as its text books are correct and when it is discovered that its text book need correcting and bringing up to date as the last century has shown especially in medicine and astronomy as well as many other branches, it has to be admitted that in all honesty Science is only the TRUTH as far as is known, but NOT INFALLIBILITY, and I think any honest scientist today in the face of the changing scene will admit that.

Now this brings me to the point of what I want to say, in that I received a notice as most of those here in Australia have done concerning the projected Science SYMPOSIUM to be held by ANZAAS. (THE AUSTRALIAN NEW ZEALAND ASSOCIATION ADVANCEMENT SCIENCE.) in which a number of scientists are holding the above " In the belief that the observations (of UFO) reported are sufficient to suggest the existence of presently inexplicable phenomena in the earth's atmosphere and to promote the investigation of these on a scientific basis unaffected by the attitudes already formed on the basis of insufficient evidence, ANZAAS has convened a Symposium related to " The Unidentified Flying Objects" Problem "

The Scientists heading this are

- Dr B.H. Horton as Chairman
- Dr. M.J. Duggin C.S.I.R.O. Uni. of Sydney
- Mr. L.R. Mitchell. Bureau of Meteorology Adelaide
- Dr. P.S. Delin Psychology Dept. UNI. of Adelaide.
- Dr. L. Mander Organic Chemistry Uni Adelaide
- DR. D.G. Mc Coy Physic Dept. Uni Adelaide.
- Dr.D. Herbison-Evans. School of Physics Uni . Sydney .

.....

Whilst it is seen the main number of these men are from the University of Adelaide, I believe that we must give credit that they are all sincere men and devoted to their various branches of science, and no doubt in their approach to the subject which the Symposium is called for.

But we must also remember that this is not the first time that men of science have met to discuss this very subject which we have ourselves devoted so much study to, and whilst not belittling the above men I would recall those great scientists who met in the U.S.A. as a Hearing Before the Committee of Science and Astronomy USA House of Representatives, on the 29 JULY 1968, namely J. Allen Hynek, Head of Dept Astronomy Nth West Uni, Chief Consultant U.S. Air Force. . Dr. James E. Mc Donald. (Recently deceased) Senr Physicist Inst Atmospherics UNI Arizona. , Dr. Carl Sagan Dept Astronomy Cornell Uni, Dr R. Hall Dept Sociology Uni Illinois. Dr James Harder Ass. Prof/ Civil Engin. Dr. R. M.L. Baker, Jun. Sen Scientist Computer Sciences Corp. Dr Leo Sprinkle

" Are We That Naive ?" (2)

Uni. Wyoming Dr. Garry .C. Henderson Sub Research Scientist Gen Dynamics Corp
Dr Staunton Friedman Westinghouse Astronuclear Lab. Dr. R.N. Shepard, Stan-
ford Uni. and Frank .B. Salisbury Of Utah Uni.

ALL these high ranking men from these exalted Universities of America the cream of the intellectual class to discuss such a subject met and came out with a clear decision on behalf of the fact that UFO not only existed and recommended a serious study be made of them .

So far aprt from the late Dr. Mc Donalds efforts very little has been heard from this grand symposium held almost NCW 4 YEARS AGO.

And this is what stirred me somewhat. in recieving a letter from a friend in Perth who states that the Perth Group are very happy about the Symposium and believe great things will come from it. Also from other states I am hearing all sorts of rejoicing and such claims as a " break though" and that "now we may get the Government to open up and talk"

Just how naive can you be ?

Do you honestly think that because some sincere scientists get their heads together and discuss UFO that this will make the governments of the world release all they know of the UFO? Do you really kid yourself that they will open all the classified documents and say " here have a look, " just because a few scientists have sided with the Ufologists.?? Really. If you do please don't ask me to follow your wild dreams.

We are grateful for ANY sincere approach by men of science toward the subject would there were more. But after all remember they are very much public servants all of them in the pay and dependant on the Governments for the positions and status. I have yet to see any man of science defy the powers above and remain and still maintain the status quo.

Further remember the above Symposium does not necessarily mean that all those gentlemen are going to be " on our side " we must wait and see. and the Editor has promised me to wait until it is over before this article is finished. in that light .

In the meantime It is time those people who do not realise that live in a insular minded existance realise that this world is not run by the powers that appear to run it. The whole world is run by a nefarious system of control to whom ALL countries large and small owe and give obedience to. There is not one country that is not under the control of the money system for they all owe millions more or less to it. hence what they dictate goes. from the top brass to the lowest . each one ruling the lesser. down the line. Great men have lost their lives trying to defy its power and anything that is likely to interfere with that system be it. something known it is controlled to suit the set order. If unknown and not fully understood , then the wraps have to be kept held tightly around it. it MUST NOT BE RELEASED. lest it destroy the power of the controllers. BIG BROTHER CONTROLS so whoever sets himself up to find out anything about ANYTHING concerning a subject which is under the wraps. must be kept under control or only allowed to know so much and NO MORE .

If he should perchance by some slip up or chance find out something he should N't then he has to be first of all discredited. or demerited or impoverished or if in a position that could really endanger. disposed of.

So you think we are going to find it all out. The boys up top are going to get suddenly benevolent of really kindhearted and open up. if so YOUR NUTS. NOT NAIVE. You live in a dream world and God help you when you wake up.

MAGNETIC MEANDERINGS IN THE OCCULT.

BY JOHN ROLFE.

Although there are many parallels of UFO and the occult phenomena, very little research has been made into these similarities. Why this should be so is a matter of conjecture.

Whether it is a confirmation of the theories put forward by Keel and others, that we are being misled, is anyone's guess.

It must be quite obvious that this particular field should be investigated ONLY by very experienced researchers into occult phenomena. To anyone with a smattering of the occult knowledge the reasons are obvious, because inexperienced investigators are wide open to psychological harm. **THIS CANNOT BE EMPHASIZED TOO MUCH!** If you are ever confronted with a report of this type, you would be well advised to do nothing about it yourself; but hand it on to an expert in occult research.

List some of the parallels; common to both fields.

1. UNPLEASANT ODORS. --- Encountered at UFO landing sites and contacts, and also met with in poltergeist phenomena.
2. DISLIKE OF LIGHT ----- Some UFOs take avoiding action when beams of light are directed at them. and seance rooms are notorious for their dimly lit rooms, as bright lights are anathema to seances.
3. PHYSICAL EFFECTS ON HUMANS ----- Prickling of the scalp and body, and inability to move are common to both phenomena.
4. PSYCHIC PHOTOS Show Globes of light and shadowing figures similar to many claimed UFO sightings.
5. BUZZING AND HUMMING NOISES -- -- In the occult are thought to be an indication of the presence of a higher intelligence. These sounds are very common also in reported UFO sightings.
6. E.S.P. PHENOMENA. --- Especially Telekinesis, Telepathy, Teleportation and Levitation. are also common in both fields.
- 7/ NOISES. = Loud bangs and knockings from no apparent source, are also common to both fields.

This list is merely an outline of phenomena common to both fields, but there are many others.

When involved with unusual phenomena, especially of an apparent occult nature, it is most important NOT TO PANIC. .. DO NOT continue the investigation seek expert help. Do NOT open your mind to the influences, it could be malign; and results could be very very dangerous, above all, if you find you cannot cope with events, get out very quickly and seek competent help.

From the foregoing it will be readily seen that many reported sightings are of a psychological nature, but still remaining is a hard core of reported visual and radar sightings of solid physical objects.

Visual sensation can be produced however, by using means other than light, but still a part of that big electro-magnetic spectrum; that is by means of exposure to strong magnetic fields. Man is an electro-magnetic organism, and therefore must show some effect of exposure to strong magnetic fields.

Russian experiments have shown that exposure of the human central nervous

(MAGNETIC MEANDERINGS 2)

system to the effects of alternating magnetic fields has had a direct action on the brain, at the same time efforts were made to effect thought processes by exposing the brain to magnetic fields of varying strengths.

The implantation of electrodes into the thalamus stimulates the production of serotonin in the brain. This complex amine controls that part of the brain concerned with wakefulness, the regulations of blood pressure, and temperature. Surely this must be very significant to all serious UFO researchers.

A similar effect could thus obviously be produced by exposure to magnetic fields which therefore would effect all functions of the human organism. From many reports, we know that UFOs demonstrated very strongly fluctuating magnetic fields and the effect that this has on the electrical systems of cars and planes. It is thought that these magnetic fields are concerned with UFOs method of propulsion, as magnetic fields are used by physicists to control a beam of electrons in a cyclotron, it has been postulated that UFOs could use this magnetic field concentrated into a beam similar to a laser, for use as a weapon.

It has been shown that these strong magnetic fields can effect the human central nervous system; and similarly the optic nerve can be stimulated without actual light effecting the eye.

There have been recorded cases where UFOs were sensed through walls and ceilings. This is not as far fetched as it may seem, because, there are numerous cases of people being able to detect radar waves. For example, I know of at least two people who are affected by electronic devices used in safeguard paintings in our own Art Gallery.

Also, I know of a person who experienced what could only be called a visitation, which combined several of the phenomena mentioned earlier. Before this experience the subject possessed telepathic ability to a minor degree. The subject is a stable normal person of above average intelligence.

The subject woke at 1 a.m. to find the bedroom brilliantly lit and saw a globe about a foot in diameter, of intensely bright light. It moved around the room emitting and buzzing sound and smell much like sulphurated hydrogen. The subject was literally scared stiff. When the subject screamed the light contracted and disappeared. For days afterward the subject experienced intense headaches in the frontal sinus area and the eyes felt as if an elephant had kicked them.

After considering the experience in the broad light of day, the subject had the impression that the globe was intelligent, it exuded a sense of power and while meaning no harm, was seeking someone. Since this experience, there has been a marked increase in the telepathic ability of the subject, ability to sum up character and become extremely sensitive to atmosphere and any house entered, that is, -- whether a happy one or not. The subject is of the opinion the phenomenon was of a defiant electro-magnetic nature.

Without breaking confidence, however I can state with certainty, that there is a definite UFO link with this experience, but I can say no more than that.

It is therefore obvious from the foregoing it must be reasonable an assumption that electro-magnetic fields are also common to both occult and UFO phenomena, and that if the UFO enigma is ever solved, it will come from research in the field of electro-magnetism.

J. ROLFE.

" IS CIVILISATION AT THE CROSSROADS ? "

By
A. E. BRAN .

" It is advisable that a man should know at least three things : first, Where he is, Secondly, Where he is going ; Thirdly , What he had best do under the circumstances."

John Ruskin.

Where is man at the present moment ? . Is he at the cross roads? Will he keep straight on down the hill to perdition, or turn right at the fingerpost and keep along the crest towards light and salvation . ?.

It is not my intention to bore you here with theosophical argument. after all, the readers of this magazine are first and foremost interested primarily in the subject of Ufology. However, I feel that the future of our civilization is at stake, and no matter how much unbelievers may decry the fact, we are inextricably involved in a Karmic pattern which has its roots in the remote past, and directly connected , with extraterrestrial origins.

It has become increasingly manifest in the past few years, that unless civilization as we know it , does not examine the whys and wherefors of its existence and make steps to drag itself out of the mire, it will decline and disappear like previous civilisations. !

One does not need a crystal ball to see where our civilisation , sick with its corruption , greed, selfishness, and moral turpitude will eventually lead us. We have only to look at past great societies, and nations to strike a close comparison;

The Atlantean , Egyptian. Grecian , and Roman Empires to name but a few of the great let alone the lesser ones.

What is the reason for this downward trend? Who, or What, is causing all the present " ills of manmind . " ?

Let us study a few of the basic problems which are bedeviling our lives at the present moment, viz:

1. POLLUTION . We are all cognisant if the importance , of controlling and reducing all types of pollution, knowing full well that failure to do so will result in the extinction of terrestrial life!

2. SEX. I am personally appalled at the glorification of sex and the general downward trend of morals. I am not a prude or a " mr. Grundy ", I enjoy an occasional risqué story and I am red-blooded enough to appreciate a beautiful female figure, but the current preoccupation with sex, to the exclusion of money items of more far reaching importance is having a deleterious effect on our society .

Do not get me wrong , sex is a very necessary thing and function , not only for the procreation of our species but also as a expression of physical love.

But when it is plastered over us at every angle morning , noon and night, from seemingly innocuous magazines to the media of films, television and even the daily press adding it little bit at times , it makes a thinking person wonder if it is not a direct and calculated and insidious effort to bring about the rapid decline of our civilisation. Or these sections of the world where it is mainly being centred upon .

Civilisation at the Cross Roads (2)

3. DRUGS . Allied of course with the morality issue is the sickness of the unfortunate people who are "hooked " on drugs. One of the only ways we can control this horrible social cancer is for world opinion to coalesce and condemn the trading in such a health sapping commodity. An optimistic view I realise, when one considers the amount of Money tied up in the " trip juice" by unscrupulous operators. and if latest news items are true. even high govern mental bodies of certain nations tied up in its production and sales. (Border land Science. Magazine July Aug 1971.) will shock you.

When compared with the poor mentally distressed die hard habits of the addicts. The only other way out as I see it, is for far harsher penalties to be imposed on the drug traffickers. and an all out "effort" by responsible Governments to eradicate this noxious social poison.

But one wonders how deep the roots go for to kill a noxious weed you must dig it out by the roots. , no top slicing will suffice.

3-PORNOGRAPHY: This evil, perverted industry is rapidly becoming " bi business " in fact IS . and bringing in countless millions of dollars to unscrupu lous manipulat ors . Whereas a few years ago porno-purveyors worked underground like the filthy rats they resemble, today unfortunately , there are many pres sure groups and individuals around the world who promulgate the specious argu ment that if we are swamped with filth we will eventually become inured to it. so everything will turn out alright in the end.

Balderdash ! Ever hear the old cliché, " throw enough mud, and some will be sure to stick" ? Whereas, no doubt many people would become blase' like cit izens of Denmark, and Sweden . to pornography. What about the thousnads of people , pure at the momentwho could become the deranged perverts of the future as a result of what first was handed to them by such a society .

4. NUDITY. Basically there is nothing wrong with nudity. Conducted in the correct setting. it has proved of ineffable value therapeutically. By correct setting , I mean in the open. where sunshine and fresh air have an immense value.

After all , if our Greater intended us to hav clothes we would have been born already dressed. This of course is in private.

But other forms of nudity such as strip tease. nude shows and films , are all blatantly sexual , and as such, should be classified separately. for they are deliberately to create an act of sexual exctement wherein lies the difference

So here we have four items; Pollution , Sex, drugs, pornography. and sexual nudism . what a horrible combination. UGH!

Now let us speculate just why or howall the filth seems to becoming so muchto the fore.

POLLUTION. is caused mainly by mans own stupidity, and lack of foresight but it must be remembered that the main cause is " Big business" and no one really seems to want to fight them and MAKE them toe the line.

The other itmes mentioned are however to my way of thinking , a deliberate assault on the moral and healthand complete well being of our civilisation. in Fact an attempt to do in a greater insidious way what the last twogreat wars failed to do," finish us off" as a group of peoples whose way of life stood in the way of those who desired otherwise. The rest of civilisation would be peanuts once the major nations were overpowered.

Something or somebody or some group is trying its hardest to reduce our society

CIVILISATION AT THE CROSSROADS " 3

to the level of animals or. to a type of slaves to " big brother " .

It has not gone beyond the scope of race or nations.

There are outside influences at work, and by outside I do not mean necessarily extraterrestrial , although there are some who claim that such are involved in this matter as a combination .

I mean that these influences or forces have , for the most part. have earthly or sub-earthly origins.

There is something at work which is diametrically opposed to any possibility of civilisation accepting as friends and brothers. visitors from other worlds.

If we assume the hypothesis that space visitors are generally benign. then egrot -the forces against must be malign !!

How many times in the past 25 years have prominent Ufologists been found dead under suspicious or confused circumstances?

How many deaths could be attributed to natural causes, and how many have been deliberately planned and executed by these malign forces.?

Three names spring to my mind, of prominent men who have died in only the past few years. Author- Investigator. M.K. Jessup. Professor J McDonald. the eminent U.S. Physicist and Ufologist and Dr Miran Lindtner. Veterinarian. author and Pres. and prominent Sydney UFO leader.

Each of these men died in what to my mind were suspicious unusual circumstances although the authorities did not carry out ostensibly any investigations.

If Jessup, Mc Donald and Lindtner had been ordinary private individuals I would say O.K. so their deaths were as they seemed . However, each deaths were experts in the field of Ufology, also lecturers and authors in their own right.

They has the ear of the people , and the people respected them and their words therefor they were a danger . Hence elimination .

How many other Ufo believers around the world in the past 20 years or more have either died in similar suspicious circumstances. or have met mysterious " accidents. or suffered forms of injury or strange sicknesses which doctors cannot always understand or fully explain . ?

How many others among leaders who know of some of these things and have kept silent and as diplomatic as possible. some of whom have had some of " The things happen to them " ? How many secrets lie behind some of those minds that feel it wiser not to say " too much" and only to say very close to them have been given clues and are wise enough to understand . ?

I have been told there are quite a large number who fit into that last list around the world.

How many UFOs around the world whose sighting by innocent intelligent people have been suppressed at source, by open threats from mysterious " men in black" or uniforms and spurious Air Force investigators.

Peculiar things have happened on the local scene also. leading Ufo workers have been subjected to pressures both physical and mental over the years. By physical I mean that peculiar incidents have happened whereby several people have suffered " accidents " (myself included) heaters have made calls over the phone and used electronic noise.

Documents have disappeared in unusual circumstances, photos have disappeared

Civilisation at the Cross Roads (4)

or have been disappearing en route to or from the processors, others sent for processing with UFO sightings on them returned with UFO erased. , tape recordings have either been held up for no reason or entirely "disappeared enroute customers have no explanation to give. Some amounting now to as much as about \$50 worth. Lost in transit is all we can get. from officialdom .

In the abstract field, and something which is very frightening to the recipients, people have been subjected to horrible dreams, and hallucinations. Families have split up. when these forces have got d on the unsuspecting partner who has been usually psychologically unaware that she or he is being alienated from the other partner by outside influences.

Houses have become so terribly infused with a power of evil that teenagers have felt it and told their parents of it. so much so that in one case known .the parent had to sell out and go to another. for he too was aware of it also.

What is the prime motive of the insidious assault on the moral and physical fibre of our civilisation? What is the ultimate objective to be obtained by this onslaught. ?

Is it a softening up process, designed to reduce us to the stage whereby we will eventually recognise our weakness and unable to do anything about it will then turn to " somebody" else to guide us out of the mess.?

If this is the case, who will that somebody be ?

Will it be the benign forces of extraterrestrial brotherhood. (a theory often postulated by enthusiastic ufologists and Theosophists).

Will it be as so many Christian faiths have decreed be The Second Coming of the Christ? .

OR. (As I personally believe) Are we being "conditioned. or softened up " by forces opposed to the Rule of Light and Goodness, who wish to control the World for their own nefarious and terrible ends.?

Could it be the Satanic forces making a stand to gain control of the world. Not Necessarily merely spiritual but also mentally and human controlled. beings the very offspring of Satan and his host . set up on EARTH HERE. .?

It is time for all men to realise the vortex into which we are being led , to rebel against the evil forces which are inexorably taking us over.

It is a hard task I know to reject the habits that have been instilled into us over the years . But reject them we must, and soon, if we wish to survive.

It is Now at this present stage , we must turn aside at that fingerpost and endeavour to fight our way back to a position of strength, to confound the evil forces that have enslaved us, and PREPARE for the day when we will be accepted God willing, into a wider, beneficent Cosmic Brotherhood.

It awaits us. and the choice is OURS .Already there is a stirring among the youth and younger set. Don't expect the lead to come from the establishment The Christian Faith itself was not established on those in high authority . but the common folk. the socially unacceptable. Maybe the New Christ Faith will be in the same way. Be prepared for surprises. Don' shun it because it is not orthodox. The disciples were not . but they upset the whole Roman Empire the ruling power of that day. and eventually the world. 12 simple untutored men over turned powers thought impossible but you see with the forces of LIGHT ALL THINGS ARE POSSIBLE. .

U . S . NAVY CLAPS SAUCER SIGHTER INTO 12
PSYCHIATRIC WARD.

.....
THE FOLLOWING IS TAKEN FROM "KOSMON" Publication of the Cosmic Centre Box 655 Whangarei New Zealand.

Join the Navy and see the world , but don't see Flying Saucers or you'll wind up in an insane asylum. We've had a lot of talk about Air Force secrecy, but the Navy tops the lot of them all. To secrecy it adds persecution (or is it stupidity?) One thing is certain - the Navy is violating the constitutional rights of American citizens unlucky enough to be serving on the sea.

The following is an extract from a letter written by the mother of one of these seamen so persecuted.

" I was just reading your Editorial in your June issue, and since my son has become a 'patient' in a Navy Hospital because of Flying Saucers, I am compelled to write to you. First of all, I want to point out to you that they are treating him for 'hallucinations' or something which they say doesn't exist! It's quite a dilemma. They haven't investigated the case enough to explain to us what they are treating him for.

We have known about flying saucers for several years. My husband was employed by Convair Aircraft Corporation at Palmdale, California, when he saw his first ones over the airport where they were doing test-flight work. They were clocked on radar, and watched all day, and by me and other residents of the trailer park where we lived also.

There were three UFOs. that hovered and darted around at tremendous speeds, making ninety degree angles. I have photos of the footprints made by the occupants (2) of the two saucers that landed last year. At that time we lived at Clearwater, Fla. and being interested in Flying Saucers we made several trips to the Brookville area.

Now getting back to my son's predicament - he was stationed aboard the U.S.S. Wasp as an airman apprentice in the newly formed space patrol. He had just joined the Navy last November and wasn't quite 18 years old. He has always been interested in the space program, so naturally he is interested in the Flying Saucers too, and wanted very much to learn all he could about space and space travel.

Well, as you know, there were a lot of sightings in the North-east in March, especially in the Michigan, New Hampshire, and Massachusetts areas. In between No 2 and No 3 Gemini launchings the U.S.S. Wasp had an experience with U.F.O.s. The Mother-ship hovered at about 10,000 feet, and four saucers flew in staircase formation in 'squares' around the carrier, and did ninety degree angles. There were eight witnesses, including the 'Officer of the day', three were on 'look out' on deck. O8 above flight deck. So the Chaplain calls my son, Gary into his office and tells him that it is all because he was 'talking' about the saucers!

Can you imagine that ? !

And a so-called friend of Gary's deceives Gary into going to see a 'friend' of his in the Chelsea Naval Hospital who turned out to be Dr. Sené, who put 'schizophrenic' on his hospital report. Naval Intelligence then questioned Gary (and put U.F.O.s? serious business .)

We called on our Congressman, who ordered a hold upon Gary's treatment until he could investigate, and then Dr. Sené overrode the Congressman's letter and sent him to Philadelphia Naval Hospital, where ^{they} will not listen to Gary's story

but are still 'treating' him with tranquilizers (and heaven knows what else), and so we are trying to get his release from the Navy .

It has been a mentally cruel thing to us his parents, because we know that Gary is all right. Gary was taken ' captive' as were some othe rswho saw UFOs. They're getting 'treatment' too.

We finally had to engage a lawyer to write a letter for us, and sent several telegrams via Red Cross, asking that they stop treatments . They have yet to explain to us just why they are treating him. They tell us that he will soon be taken before a medical board to determine if he will be discharged.

What worried me , is, are they trying to make him sick so that they will have grounds? I want him OUT for sure now! But I don't want him to be a nervous wreck from taking drugs. He was always normal , healthy boy. I would like him to be able to return to his education, because he wanted to study ' space engineering' or research. Also , he tells me that he hasn't seen any of his gear or personal belongings since he was on the Wasp.

I think it is a shame that our boys are treated in this way .

SINCERELY

MRS R.L.T.

THE DEATH OF DR. JAMES.E. McDONALD.

This great man who was Snr. Physicist at Inst. Atmospheric Physics, and Prof. in Dept. Meteorology . Uni. Of Arizona. Died this year. Late in his forties leaving a wife and five children .

He exposed when in Australia The C.I.A. had in 1953 given instructions that UFOs were to be " debunked " .

In the June issue of NICAP'S Newsletter, they gave this report on his death . "On June 13th 1971, Dr. James.E. Mc Donald. took his own life at Tucson, Arizona. His death followed a three month period of severe mental depression and and unsuccessful attempt at suicide on April 9th that left him blind in both eyes. The cause of his depression is not known , but it is belived to relate to personal problems, not to his professional or public life. Dr . McDonald was a physicist at the University of Arizona, a member of the National Academy of Sciences and a leading advocate of continued scientific investigation of UFOs. His studies of the UFO problem had earned him international recognition as an authority on the subject, and his writings had made a major contribution to serious UFO literature. Although his stand on the UFO question and on such other controversial issues as the S.S.T. (SUPER SONIC TRANSPORT) had brought him criticism from politicians , scientific colleagues, and the press, he was acknowledged even by his critics to be a highly competent scientist and a man of remarkable energy and determination. At the time of his death, he was recovering at the Tucson hospital from the initial suicide attempt. His body was discovered in a desert area outside the city with a .38 revolver beside it. "

BOOK REVIEW.

" UFOs— KEY TO THE NEW AGE. "

By

ARTHUR SHUTTLEWOOD.

I have just finished reading the above book which Arthur Shuttlewood tells us will be his last. At first I was a little disappointed to hear this. but on after thought and reading I realise why He has made this decision .

The book is somewhat different generally from his previous ones. but it is in no way disappointing , for no matter what you seek in UFO reading its got it.

It literally teems with sightings which of course mainly abound around that very fortunate place Warminster. and which makes us all envious we are unable to visit such an exciting place of abounding UFO evidence.

But it is not just sightings and incidents which really are the best " meat" in the book. For he covers so many facets of the UFO problem from the propulsion to the perplexing . metaphysical issues which bug so many .

Deep within its pages lie some great truths which in my opinion need very careful study and thought. for I believe he has hit on to some great vital truths which are the outcome of his own very deep experiences. mainly related in the previous books.

He carefully goes to much length in proving his claims and his explanations of what the establishment have tried to explain away. as in most cases only makes them appear more foolish than ever in their wilful cover ups.

Although I am not one scientifically schooled and found some of the thesis a little difficult to wade through . the fault is mine but to any who are trained in these laws these chapters and passages should be a joy to read.

No UFO student or library should be without this book. There are keys in it for everyone. especially for the days ahead. and in my opinion proves more than ever the reason WHY he was visited and made a contact and thus a messenger to people of earth. as a medium in this way. thus using his literary and capabilities for a direct purpose.

With so many trashy books being peddled around now many of which tend to scare people away from the truth and mostly out for making a coin for the authors here is a book that frankly and openly tells what happened in an exact way. and more endeavours to give logical and reasonable explanations so that even the hard headed unbeliever has to stop and think before he can answer .

MY best wishes to you Arthur we will miss your books. but then maybe you have greater work ahead to do. and this I feel is so. and May God bless you and guide you in it. and give you another channel for helping mankind. for the fourth arc of the circle is nearly closing. and the sun completed .

CAPT. BRUCE CATHIE'S NEW BOOK CO --AUTHOR P.N. TERRY

"HARMONIC COS"

I have just finished reading this new book by Capt. Bruce Cathie and I must say he has excelled himself in many ways. In fact at times it held me by his open fearlessness in making statements which so dramatically true yet which are so challenging to what he terms "The Establishment" that at times I almost became a little afraid of what they might do to him, but he has stated a fact in that whatever harm they do to him now will only go to prove more than ever the very fact of his being silenced would be proof indeed of what he claims.

He says he has been working in close relationship with the N.Z. Government from whom he has hidden nothing, and also at times makes reference to certain chats and information given to people in the American Embassy.

Of course he gives much better and further proof of his grid system and it seems he has tied his case up very well. For cases are quoted and facts given which got to show, he has been right on the dot in time, or place, and whilst he humbly claims he has nopsychic gifts methinks a little of his old Scotch canny gift does help him along at time unknown to him, or maybe greater forces than he is prepared to admit, for he openly will not take the credit for it, others maybe would, and others maybe give credit to the Great Creator, but Cathie remains very humble about it all. This I admire him for, very much.

Let me state from the start that the book is NOT full of mathematical calculations which to the ordinary man could be more than boring. There has to be some of course to prove certain scientific facts and these are simply done so that even the humblest student can work it out. But better still it is written in a very enjoyable style which is packed full of incidents of UFO ratifications coverings sightings which have connection with his data, further it has incidents for those of the UFO type wh like thrills and something to be puzzled by. It has mysterious men who appear and talk to him, and then appear to leave a building but the receptionist claims that "No one left the building" etc. Also two mysterious people who take his photo and leave him in a state of puzzlement as to why and how etc etc.

It throws further light on a lot of Ufo stories and facts we have had our doubts about in gives new clues of ways of approach of thinking. One especially is that one the troubles so many about the goodies and baddies, his explanation of the effects of the grid system in this matter sounds very illuminating and he insists that "They are here for our good".

There is not question in his mind that UFOs exist or that we are being visited by extraterrestrials, in fact this is taken as a complete fact from the start and he states that this has been known to certain select scientists for some time and that they have been in communication with those people. There is no mayhem about what Capt Bruce Cathie believes even if you do not concur with him.

The thing that does cause me a lot of thought is how he is in such complete confidential contact with his own government and in friendly alliance with the repa. of the USA, in giving them information when he knows that ANY government is on his own admission under the power sway of those determined to control the world and who are using the science so found that he speaks of to attain it. Knowing this. Is he not aiding them indirectly, for he cannot be that naive to believe that such information is not relayed through to those who will use any

Capt Bruce Catie HARMONIC 695

information which he discover and prove useful to them , will be avidly seized upon. by them .

Let me quote a portion from p. 90.

" Money rules the world ; the boat of vested interest cannot be readily berocked. The number of scientists who have dared to speak out of turn , in defiance of the monied establishment, is very small indeed ."

He has hit the nail right on the head , yet appears to be blind to it main source and power. and the immense extent of its control as though it is merely the scientists who are being harnessed. although earlier he admits that howas told by the Government official that they could not reveal the Truth because the economy wouldbe upset by those who control it . So much for this.

Personally I can only hope and believe that such knowledge will be given to others than those who seek to control the world now. in fact I still believe thatthe space people whoever they are are not here to let such a group take over the world for it would defeat all their own plans of setting it right , for once in the power of the wrong people " they" could repeat what happened before another destruction of the grid system they are now repairing. It would be against their own plans to aid such people. Hence Space men must and will be the opponents of any great power who seeks to control the world for evil gain and purposes.

To add a little bit more spice he covers further proof with facts of the grid system and the ancient huge stone buildings of the world as well as the more recent one built in Florida at the turn of the century . Edward Leedskalnin's Coral Castle. a modern miracle in stone.

I cannot recommend the book highly enough not only to UFO people but to any man for it is check full of interesti ng facts and reading.

THE MYSTERICIOUS NUMBERS.

1-1-2-3-5-8-13-21--34 IS THIS THE SEQUENCE AND KEY TO
THE UNIVERSE ? By. G.R. LANE

.....
From The "Argus " Sth. Africa. 9/10/71.
Credit/ Miss Ria Du Toit.
.....

Could our live, our planet, even the Universe, be ruled in some mysterious way by a mathematical formula.?

Before you dismiss the matter completely, count the number of spirals on a pine cone.. the number of segments a row on a pineapple... and look at the arrangement of branches on the tree in your garden ...

Invariably they will relate to a sequence of numbers which begins. thus
1-1-2-3-5-8-13-21-34....

The more you look around you, the more you will find which seem constructed on this sequence, first discovered in the 13th century by Italian Mathematician Leonardo Fibonacci.

Toady, after centuries of neglect . The Fibonacci numbers are being closely examined by mathematicians. and scientists who are beginning to wonder whether there could be any connection between the numbers and the working of the universe.

There is even an American Fibonacci Association which runs a quarterly magazine and organises lectures on Fibonacci's life and work. Ironically enough, the numbers which are causing so much excitement now were not considered by Fibonacci himself to be as very important .

He first mentioned the sequence in a book published in 1202 and, after that, they were largely forgotten by all but the most dedicated mathematicians . Fibonacci used the numbers in his book to solve a hypothetical problem about the multiplication of rabbits.

The problem was; a pair of rabbits produces another pair of rabbits every month After a month a new pair , the new pairs of rabbits do the same . How many pairs will there be at the end of the year . .?

To get the answer . Fibonacci used the sequence 1-1-2-3-5-13-21-34. ... and so on . Each number that follows the first 1 consists of the sum of the two previous numbers. There are of course many similar simple sequences. So what? makes this one so special ????

Research has shown that for some reason the Fibonacci numbers pervade almost everything in civilization and in nature . For instance , the metre of the world's classic poetry uses the sequence. Even the tiles which pattern the Greek and Roman ruins are laid out according to Fibonacci's system .

And studies carried out by mathematician Vernon Hoggatt, Editor of the Fibonacci magazine, have shown that the ratio between any of the two large numbers is 1,618. the same as the ratio between the sides of the Golden Rectangle used by architects to produce effects which are most pleasing to the eye.

Even the hard-headed world of finance . Fibonacci seems to rule. A study of the rise and fall of the stock markets showed that there was a recognisable Fibonacci sequence. Race-goers too . claim they have fibonacci to thank for several bumper wins-- they wait for a winner, note his number, and in future races

THE FIBONACCI NUMBERS. (2)

back horses whose numbers correspond to the rest of the sequence.

In science, the ratio of components of molecules has been found frequently to match up to Fibonacci numbers. And in space, clusters of stars in distant galaxies often appear to be grouped according to Fibonacci as well --- His influence is even felt in Music. The piano octave has eight white keys, five black keys and 13 keys altogether' says Hoggatt. " These are all Fibonacci numbers. But it is in Nature that the numbers seem to have most sway.

Brother Alfred Brouseau, a Catholic monk who is a founder-member of the Fibonacci Association, recently took 40 mathematics teachers on a nature walk looking at the construction of pine cones and noting the branch constructions of trees.

Eventually they had to agree with him that 'Fibonacci is everywhere' .. The ratio of male to female bees is pure Fibonacci, says Brother Brouseau. So is the number of spiral formations seen on many sunflowers.

He says. " The pattern of manybranching trees, the position of the leaves on the branches, and the petal formation of many flowers are also described by numbers in the Fibonacci series.

Brother Brouseau still has an open mind about the true significance of the numbers. Once they learn about the sequence people tend to find an aesthetic satisfaction in it.

Others think there's some kind of mystical connection between these numbers and the Universe. Some Fibonacci devotees urge that the numbers should be used in science and in teaching.

Already Fibonacci members of the Association are touring schools and colleges lecturing on the sequences, and there have been lengthy articles in many learned scientific journals.

Is there really any connection between a set of numbers and the meaning of life? Did Leonardo Fibonacci, living in obscurity in Pisa 700 years ago know something that modern man with his space craft and computers still has to learn?

By the way the answer to the rabbit problem is 377 pairs a year.

.....

The above story opens up again the great question of other men who know secrets which others did not know or understand. Tesla, and his many inventions and vast knowledge much of which was deliberately destroyed.

Also the Czechoslovakian Edward Leedskalnin, and how he built his Coral Castle moving huge stone of great tonnage with primitive equipment, or so it seems.

He claimed he had the knowledge used by those who built the Great Pyramid and at least he demonstrated he could do what they did, but how he never revealed. For a good brief summary of this be sure and read Capt Bruce Cathie's new book " Harmonic 695. but this proposes a new thought in that Cathie's mathematics use a different set of numbers. it will be interesting to find out what he thinks of the Fibonacci set of sequences.
