It means the following of high vision. It requires courageous living. It requires the speaking of Truth. We should never seek to preach but rather to teach constantly by precept and action, supplying the message of words when needed or apparently desired."

WHAT'S IN IT FOR YOU !!!

Last week we saw a picture of a little kitten looking into a crystal ball and the caption under it read, "What's in it for me?".

We, the officers, Trustees, the Dean and the staff have been looking into our crystal ball (and your correspondence) to see "what's in it for you." We did this because we are only the custodians of your Trust and because, truly and legally, The Prosperos organization belongs only to you, the students. Because of this trust placed with us, when it became evident that there was a lack of student support for the Aloha Assembly, we found it necessary to act in your behalf and cancel the function for Hawaii. It was a case of either taking this action or suffering a grave financial loss (which, as you know, The Prosperos is in no position to do).

However, as you know from the special mailing you received a few days ago, we are going to have a Prosperos Training School at the Miramar Hotel, in beautiful Santa Barbara, California. This will open on July 13th with registration all day and The Founders Birthday Banquet for Thane that evening. Classes begin at 10:00 A.M. Sunday, July 14 and continue everyday until noon on Saturday, July 20th.

SOMETHING NEW IS BORN !!! A NEW CLASS???

We really don't know, but what we have heard has thrilled and excited all of us on the staff. Thane has just advised us that he will present a completely NEW series of lessons for the first time at the 1963 Training School at Santa Barbara. The title: 'EARTH MAN! STAY HOME!

Thane did mention that this will be his first really NEW material since originating TRANSLATION and the subsequent RELEASING THE HIDDEN SPLENDOR classes. Continuing, he said that it should prove to be interesting and quite prophetic. This is probably the understatement of the year, if we know our Teacher.

Those attending Training School will have the opportunity to hear the premier presentation of this series of lessons. Tuition for this class will be by a separate special tuition envelope to Thane. There will not be an enrollment fee.

THE PROGRAM FOR TRAINING SCHOOL

In addition to Thane's special new series, the following material will be presented during the 6½ days of Training School (day and evening classes):

Six panel discussions and workshop sessions...three on RHS workshop and three on Translation Workshop. These will be presented by Norma Keller Dickey, W. Perry Dickey, Miriam S. Pope, Billye Talmadge and Tom Wood.

Thane teaching his timely course in Personal Enrichment, especially slanted to the sly man technique, for the layman, intern, etc.

2.

A thrilling opportunity to delve into the mysteries of the seldom given class in Planetary Cycles, presented by Thane.

A special event of great importance to laymen, semi- and professional counselors will be given by Prosperos Life Member, Harold Call. With a profound ability in the field of personal counseling, he has for years been a courageous fighter against prejudice, unfair laws and social discrimination. He will present a series of four lessons as outlined in the following headings:

The Hypocrisy of Sexual Morality: The "Double Standard" that doesn't work; clinging to ancient myth and superstition; neurosis, mental disturbance, stigma, sexual misery vs frigidity, impotence; venereal disease; Can we afford the luxury of repressing the impossible!

What Is A Crime Against Nature?: Sodomy, homosexuality, and the so-called "deviations"; what is normal?; sexual attitudes, practices; the "Circle of Sex" in personality makeup; guilt and repression; latent tendencies; recommended standards of behavior.

Crime As An Industry: Laws regulating the "vices" or "sins"; fascistic dictatorship of the "no-faces"; pseudo-science of sexual morality; disrespect for the law; fear and conformity; waste of human resources of man power; blackmail; corruption and politics; changing the Laws and social attitudes toward sex.

Censorship Vs Freedom To Read: What is obscene?; what is pornographic?; Crusaders for "Decent Literature"; freedom to read movements; who is making a buck on smut; trends in the courts; "Big Brother" in the police; Postoffice and Customs; Blue print for the future: Education, Enlightenment and Responsible Exercise of Freedom.

*****There will be no charge for this special event for those who enroll for the Training School. These four sessions will be open to the public at a special charge of \$1.25 per session or \$5.00 for the series.

WHAT WILL IT COST TO ATTEND TRAINING SCHOOL

The enrollment fee for this Training School is \$85.00 plus your tuition envelope for Thane. Note: there will also be a special tuition envelope for Thane handed out for the special NEW series of lessons. (Please note, life Members of The Prosperos must also pay this fee because it is a special event and not one of our regular classes). Budget plans are available for the enrollment fee only.

When you consider that the standard fee for the class in Planetary Cycles is \$200.00 and that for Personal Enrichment is \$265.00, add to this the special series by Harold Call, and the two Workshops staffed with our finest teachers, and finally and most important, Thane's NEW series, ALL FOR \$85.00, how can you possibly afford to miss it?

Sidelights
by The President

Now that you have seen my nakedness exposed (see picture of the President of The Prosperos as furnished by his mother, who else, in the last News Letter) the least I can do is write something and make the exposure complete! One thing I have to be grateful for: the large drop of drool on the chin which was very prominent in the original photo didn't come thru the printing process. Some dignity is saved.

I had an interesting conversation the other day. A member of the staff of the TV station where I work, had attended an open meeting when Thane was in San Antonio and was asking me about Thane. When I got through he said, "Sure, it's just as I thought. The guy is a genius. No wonder people pay attention to him. No wonder his advice and counsel are sought and heeded the world over. But if you think he can teach an ordinary slob like me to be a person people pay attention to, you're off your rocker. You're either a genius or you ain't."

Sure was happy to give him an answer that shocked him the way it did me when I first ran into it. Malcom Cowley in "The Literary Situation" put it this way: "...writers laugh more...talk excitedly about persons and places. Young and old, they are usually good talkers, which means they are good listeners; they get attention because they pay attention."

After quoting this I asked the friend, "You reckon you could be taught to pay attention?"

All he answered (after a long pause) was, "My God, I wonder!"

See you in the next News Letter. All my love to each of you.

MARTHA O'NEAL AND FAMILY REUNITED

We promised in the last News Letter to give you more details of the story about Martha O'Neal, Translator, who was recently released from prison in Cuba. Originally, our plan was to relate some of her experiences before that release as it would be both inspiring and helpful to all students. However, further Translations have brought continued unfolding of the understanding of "release" in Martha's experience. We know she will want to share this with you.

When Martha was released from prison, you will remember her dramatic flight to Miami with only one woman companion and the U.S. government attorney. One day later, Martha appeared in New York on NBC's Today Show and was also asked to be interviewed for a feature story to appear in the Saturday Evening Post. Her reluctance to relate details of her imprisonment is readily understood as she had a Cuban daughter, a Spanish son-in-law and a grandchild, still in Cuba and subject to Castro's disapproval of any story that might be given out by released prisoners of his government.

Once released, Martha began a relentless campaign to gain freedom for the rest of her family. Bringing her family to this country seemed to pose a far greater problem than Martha's journey. For even taking the papers through legal channels, it became a problem to insure admission for a Cuban citizen and one from Spain among the limited number of refugees being allowed to reach our shores.

Martha sent out a letter asking for Translations and began to file the papers necessary for legal entry.

Are you ahead of our story? Yes, it happened. On the last refugee ship arriving from Cuba, May 18, 1963, Martha's daughter, son-in-law and grandchild were standing at the rail, waving their greetings to a waiting family, a new life and a new freedom.

This is to extend greetings to our new friends and to establish a promise of freedom to all mankind wherever the yoke of bondage finds him "imprisoned".

"Because INFINITY cannot be expressed in finiteness nor confined in dimension, TRUTH IS SPIRITUAL, that is: unconfined, non-dimensional CONSCIOUSNESS."

from a Lesson In Translation

Credit Line: Last issue, the NL contained a quote, "In all the Universe, there is only Mind infinitely thinking itself." In case there were some of you who did not recognize this quote from Translation class, the editors wish to properly credit this "Alpha and Omega" of Ontology to our Teacher and Dean, Thane.

A NOTE OF THANKS AND GRATITUDE

We are happy to share excerpts from a letter from Martha O'Neal sent to the San Antonio Group with greetings to all Prosperos members, many of whom answered the call when Martha needed Translations.

"I think if I should sit down and write a letter to each and every one of our dear members individually, I should still consider it insufficient to express all my gratitude for their interest and concern over my well being and freedom from prison. Such interest makes me feel so magnificent but yet so humble. Also, I am proud to belong to such a wonderful organization as our Prosperos which claims so many wonderful and dear persons (or beings).

"I wish also to thank the San Antonio Group for adopting me. It is truly a privilege to know that 'I belong'. Even though not one single letter was allowed to be received by me, it really doesn't matter because I knew how hard you all were trying to get them through. I didn't receive them materially, but I did receive them in my mind and in my heart and was most comforting during my most despairing moments, so your efforts were not in vain.

I love all of you so much, my heart seems to burst with it. As the saying goes, 'All's well that ends well'. If I had to go through it all over again, I feel I would do so, as I feel that I must have concluded some mission or it had to be done for some reason. In prison, I told my prison mates that I accept this experience with humility, love and even gratitude because there is a purpose.

I do feel that inwardly I am a better person, wiser, healthier and richer. May God grant that this experience and knowledge be used for the good of humanity to save others right here in the good ole U.S.A. from having such an experience...or even worse.

Thank God that there does exist our beloved Prosperos and each does realize that $2 + 2 = 4$ and not...deliver us Lord from $2 + 2 = 5$.

Love and blessings and my thanks again to each and all."

Aloha,

Martha O'Neal

In 1958 a young man was, without benefit of a trial, confined to a New York State hospital for the criminally insane, on suspicion of murder, and because he insisted on his innocence based on a very bizarre story. He stuck to his story for 4 years of "mental" imprisonment, during which time he was examined by nine different psychiatrists on seventeen different occasions, and he would be imprisoned even now if a Long Island attorney had not become interested in the case. The attorney simply investigated the actual facts and found the young man's story to be true. He was released from mental prison; all charges were dropped; he is free. And so are the nine psychiatrists.

INCREASING THE CIRCLE OF AWARENESS

Thane has returned to the west coast after a tour of the Midwest with classes held in Cincinnati, Indianapolis and Denver. Not having been in Denver for several years, Thane commented about the remarkable change in his "old" students. Those who had assiduously translated and used associated tools, looked younger than when he last saw them, had financial successes and had, in general, gained much in life.

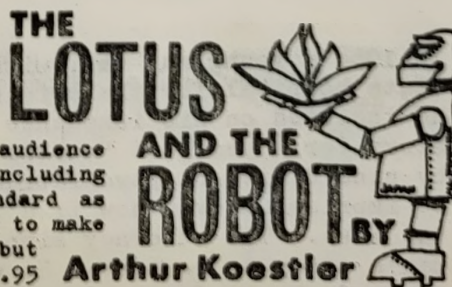

In the space-age setting of near-by Los Angeles airport, Releasing The Hidden Splendour was given at the Airport-Marina on May 25, 26th. Students not only enjoyed the unique setting, but as several students mentioned, RHS is better than ever! (It is wondered if some of the beautiful "Persian" hostesses in the Marina's cocktail lounge had anything to do with this).

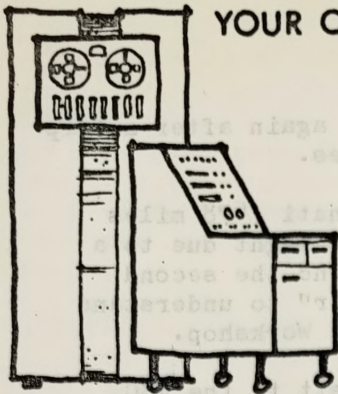

Next on the itinerary was Translation in the Bay City, San Francisco which was given at the Sir Francis Drake Hotel. Over the Memorial Day weekend, RUSS STERLING, Thane's secretary, journeyed forth from Newport Beach to join Thane for a little sightseeing and relaxation.

Continuing at break-neck speed, Thane just returned to southern California, opening on what is commonly known as "The Strip" on June 11. For a change of pace, the fabulous facilities of the Hotel Continental will be used for open lectures and seminar; closed class accommodations will be announced later. The Continental, Gene Autry's new hostelry which just opened, promises to be an exciting location.

The finale is reached when Thane returns to his beloved Hawaii, giving Translation at the Hawaiian Village Hotel which will really set the mood for the Aloha Assembly. If you are in the following areas, remember these dates:

What does a man do when he wants to know? He does something about finding out! In this case we have the author, Arthur Koestler, who wanted to know if Eastern Thought was the answer to the atomic threat and western jitters, so he consulted "The Lotus", the holy men of India, made some very interesting notes concerning his reaction to their teachings, and then he went for a personal and extended audience with "The Robot", the wisdom of ancient and modern Japan, including Zen Buddhist precepts. Of Japan, he relates a double standard as bad as any he's found in the West. If you've ever wanted to make just such a trip, make it now with this intelligent host, but honor him by coming to your own conclusions.....\$3.95

YOUR OWN COMPUTER?

Not really, but we think you'll have more enjoyment and get more answers to problems with Sydney Omarr's little innovation called the THOUGHT DIAL. So clever is this gadget that it is potentially able to show you how to tap all knowledge of any subject via the abstract world of principle, using only one moving part (a great big pointer) if you don't count the 172 pages in the book. With free access to the subconscious, man's mind is unlimited, and much more practical than buying out IBM. We think that after you use the Thought Dial for awhile, you will value it second only to Translation and the Give-For technique in enabling intrinsic knowing to replace "waking sleep" as your awareness.

INTERPRETER WANTED:

Your subconscious is trying to communicate with you in your dreams, but in a language of symbols. How do you understand this language? Now you can play Merlin, Joseph or Carl Jung thanks to Sydney Omarr who has devised the DREAM-SCOPE to find the symbolic meaning of your or anyone else's dreams. You do it by using subconscious number symbols similar to the Thought Dial. It is based on principle, and so it must always yield results - the value depends on you, the interpreter.

WILHELMINA CARLSON, of the Santa Barbara Group is home again after a trip to Hawaii last month to visit friends and relatives.

FLORENCE REISER, Brecksville, Ohio, traveled to Cincinnati (478 miles 'round trip) to attend workshop. Missed the first night due to a bad thunderstorm, but came in "full steam" to attend the second night. Me'thinks that Florence is an "eager beaver" to understand the teachings of RHS in the group participation in Workshop.

MR. & MRS JAMES HERTEL, formerly of Buellton paid a visit to the NSC, announcing that they have a new daughter, Katherine and that they are moving to Denver.

Our Lady of the Art (s), DIANE LONG is leaving for Phoenix on business. She tells us that there is a possibility that one of the major film studios will use her paintings for background for a science-fiction film.

PHIL & MAXINE JOHNSON, formerly of Seattle, Wash., and their young daughter, Tracey, are the latest Prosperos members to take up residence in Hawaii. At DOROTHY WALKER'S beach house on the windward side of the island, Kaawa, they've taken to living in Hawaii like kamaainas. And they're kept from feeling too remote by LESLIE FULLARD-LEO'S frequently passing by to his place, which lies beyond them. Maxine says Leslie always sounds a "toot" on the horn of his car, if he doesn't stop in and visit for a while. With a setup like this how could they keep from enjoying the pleasant way of life indigenous to Hawaii!

Former NSC'er JACK SHAY, popped into the NSC to say "hi" to the gang. Jack is on his way back home to Florida where he will probably enter college.

NEWS FROM WALTER LANYON

Walther recently wrote Thane "...I am sort of correcting most of my books--just a little, not much as I feel we're coming rapidly to the place of Cosmic Consciousness. So may metaphysicians seem to have gotten bogged down on the idea of demonstrating God. I know that has had its day.

"When we become One actually with Spirit and blend it completely, we begin to see a new manifestation. Former things are passing away very rapidly, a new expression is coming into being.

"It is wonderful! Having done all, stand and SEE the Salvation of the Lord, which he will show YOU this day."

TO CONFORM OR NOT TO CONFORM?

Apropos to the play Rhinoceros, a satire on the present tendency to conform, Matt Weinstock calls attention to the following story:

"Two bulls are talking before going into the ring. One say, 'Do you know what I'm going to do when I get in there? Nothing! If you let them, they make it miserable for you. They tease you until you're scared and nervous. Then these guys on horseback come up and tease you some more and stick knives into you and the madder you get, the more people cheer. Then this clown comes out with a sword and a cape and he makes a fool of you, too, then after he kills you, he cuts off one of your ears and people cheer some more. Well, that's not for me. I'm just going to stand there, looking stupid, and the worst they can do is chase me out of the ring.'

"The other bull shock its head and said, 'What are you--some kind of nut or something?'

IS THERE SIGNIFICANCE IN THE FOLLOWING?

Patsy Cline (Grand Ol' Opry star) who was killed in a plane a while back, was the victim of this sort of irony: the last big song hit she enjoyed was called, "I Fall To Pieces". The lad who wrote it, Hank Cochran, also composed the final ditty recorded by Johnny Horton, who met a similar fate a year ago. The title of that song: "I Can't Make It In This World." Now, songstress Timi who was to record Cochran's latest number for Liberty Records won't wax it although it is figured to be a smash success...the title?.."Make The World Go 'Way."

BOB ACHZEHNER, when Thane asked him if he'd seen the movie, "Freud", replied, "I'm waiting until it's shown on TV so I can watch it lying on a couch."

Apple on the Ground

Once while strolling,
I happened to see,
a juicy red apple,
lying under a tree.

Picking it up,
I gleefully cried,
"This juicy red apple,
cannot be denied."

While rubbing it gently,
the dust flew away.
I knew that my apple,
would never decay.

How lucky am I,
to have such a prize,
a juicy red apple,
of enormous size.

I laughed out loud,
I chuckled some more,
but he who laughed last,
was the worm in the core.

THE LAW OF ASSUMPTION

If a function or process always works - the same way and without fail --- it may be called a Law. Assumption is defined as; "To take up; to claim." In this sense, everything that you do, everything that you have become you have claimed, or taken up. Studied and practiced as a Law, you don't have to take up attributes or things that serve to separate you from your good, but rather you can claim ideals and freedom, hence, The Law of Assumption, a simple yet profound lesson in living.

LOOKING FOR MEANING?

One problem in communicating the true nature of God - the concept of One Mind being All and Absolute, is that the use of language is largely constructed of materialistic, dualistic expressions and limitations. There is a way to use words, the components of language and reasoning, so that you can penetrate the duality - into ontology. Look up the original root meaning in Webster's Seventh New Collegiate Dictionary. For instance, what can language reveal about "human?" The Latin root is humus; - earth, dirt; "clay". THE PROSPEROS

NEWS LETTER

THE PROSPEROS is a non-profit religio-educational institution devoted to research, study and education in the new frontiers of the heart, the mind and the spirit. It brings the spiritual heritage of the ages into a practical working hypothesis with the science of the Atomic-Space Age. Lectures, Closed Classes, Group Dynamics, counseling and youth guidance are available in the area of straight thinking in the abstract.

PURPOSE

- "To bear witness in an age of material greatness to the primacy of the spiritual; to interpret the importance of spiritual dimensions in practical affairs and common concerns, and to spell out what free man can do to act effectively in the present world crisis."
- "To give man a new identity (actually show him how to recognize his only true identity) and to develop and channel this concept beyond his presently cognized equipment and resources."
- The purpose of The Prosperos is to foster and develop spiritually-motivated action in social and civil life.

The international mailing address is Post Office Box 190, El Monte, California. The Mentation is published by the National Servers' Center, The Prosperos, at 410-32nd Street, Newport Beach, California. It is produced by the NSC Staff consisting of Billye Talmadge, Director, Miriam Pope, Earl Keller, Dianne Putman, Paul Lewis and Jack Shay, all volunteer servers. It is mailed third-class to all Active Members of The Prosperos.

The High Watch is made up of those students who have filled the extremely rigorous requirements of the Executive Council in the various educational studies, culminating in a written thesis and an oral dissertation before two or more Mentors.

MENTATION, published 4 times per year, is a publication originated and supported by the student participants of THE HIGH WATCH OF THE PROSPEROS. The contents consist of articles on the study of the system of thought or philosophy as taught in The Prosperos Movement. These papers are contributed by Dean, Thane, members of the High Watch, active students of The Prosperos and from such outside sources as deemed interesting to our students.
