

GOLDEN LIGHT OF GREATER POWER

LIOLIA: My beloved golden children living in the Golden Light of My Being, I, your galactic Father-Mother LIOLIA, address My Meditation to you this evening. You are aware that you sit in Golden Light. When you first began to meet together you were told of a beam of light that surrounded your Healing Shrine. Now because of your greater receptivity and development, this beam surrounds the whole group. You will remember that first We told you of a pale golden light which is the characteristic spiritually of the internal Being of your Solar System, IMMANUEL-IMMANUELA. Next We showed you a much brighter golden beam flowing down through the center of the first. This is a symbol of My Golden Shining in power, love and light which has reached you and must be announced to Earth people and recognized by them.

Just as the Light of IMMANUEL-IMMANUELA has increased to spread over the whole room so My Light is coming to you with greater power and reality. As you have spoken My Name and given Me your love, then I have been able to enlarge my giving to you. You have been told again and again that the more you give, the more We can give you. As you send forth your love to us you widen the channel so that We can send much greater Love to you. The more often you think of Us in love the more Love We can pour out through you to those around you and to man in the physical Earth plane.

In the future, especially until the peak of My Giving in the summer-time is over, I shall speak to you much more frequently. We are now entering those days so important to many thousands of Christians who observe Lent and whose minds are turning in great love and sympathy to your World Savior, the Christed Jesus of Nazareth, your Wayshower. As more people open their hearts in greater love and devotion at Easter time I can pour forth more of My Golden Light upon them. I have told you that there will be these great outpourings preceding Christmas, Easter and the middle of August for as many years to come as it takes to bring the vibratory rate of the Earth and all within it, upon it or in its aura into the attunement which is necessary for the coming Age. I say "coming" for while you are changing rapidly, much is yet to be brought forth before the New Age is fully realized.

At one of your recent Meditation Meetings one of you looked out from your own Sun, IMMANUEL-IMMANUELA. He was given a symbol of Me, LIOLIA, the Spiritual Center of all Life, all Thought, all Creativity and all progress within the Galaxy. He saw Me as an enormous Golden Sun just rising. Just the rim was visible above the horizon but it extended so far that it filled all that he could see. As he looked to the north or south he could not find the extent of just the rim of My Being. This was purely a symbol meaning that in the year which has passed I have poured out upon you Light which is comparable only to the rays shed by the first rim of your sunrise.

You have all observed the amount of light which the physical planetary body of your Sun gives when just the first rim of it is coming up. Then you have observed how much hotter it becomes when it reaches the zenith. I shall not reach the Zenith of My Golden Shining in giving to your Earth plane for several hundred years yet. We are now at the sunrise time. It is a good thing that I come up slowly for if I were to shed My Beams upon you any more rapidly it would extinguish the physical life on your planet as it now is lived; it would transmute you too rapidly for you to maintain your present body pattern. Cells, organs and muscles in the physical plane cannot respond to atomic changes too rapidly; there must be the time for adjustment.

In the previous great outpouring a number of you felt tired and dizzy. You were unable to work to your highest efficiency and felt frustrated in many of your attempts at achievement. There were cleansings which seemed to take the form of respiratory diseases or upsets in the processes of digestion and elimination. These same manifestations may be repeated for they are due largely to the need of your physical vehicle to readjust to the influx of My Light. Wednesday, February 27, was the first day of your Lenten season. Some of you may look back to that day as the beginning of a time when you noticed added weariness or nervous distress. Do not be alarmed by these symptoms for they are the reaction of your body to the increase of flow of My higher, finer vibrations which your eyes are not equipped to perceive or experience.

Lest some of you may have forgotten, may I remind you of the infra-red and ultra-violet rays which you cannot see because their vibration rates do not register on your senses? You are also aware of vibrations that can penetrate your bodies, walls and other obstructions undetected unless you have an instrument tuned in to them such as your radio or television. My Light which I am pouring out to you now is of much higher and finer vibration than any with which man has been able to work in his material science.

You are working with this Light consciously. Others are trying to learn to send forth My Light in conscious awareness. Whenever you sing My Name or broadcast the meaning of it - Life, Love, Light and Law of GOD expressed in existence on any level of evolvement within the Galaxy - you are broadcasting the Golden Light of which I am speaking. To those of you who have received a great deal, I have been sending as much as you can tolerate for you are "chosen vessels unto Me," broadcasting stations of My Light. There are many others who are broadcasting quite unconsciously for they have not yet awakened to their oneness with Me or to their period of service in My Golden Legion under the direction of My Hierarchy.

When you consciously attune yourself to Me you step up in power your efficiency and usefulness so much more than you can know; therefore, I give you all your bodies can take since there are so few of you to pass it on to others. At first this will be more difficult for you to endure than it will be as Easter draws nearer for your bodies will adjust and the effects level off. This is one way of driving out from you the atoms that are not fine enough to go on with you into the higher development. As we drive

these atoms back into the Limitless Substance of GOD, others take their places which are attracted to you or sent to you upon the Beam of My Golden Shining.

During this Lenten period try to remember to send forth the Light of LIOLIA, and of IMMANUEL-IMMANUELA too of course, but since this is the time of adjustment to the new Arc of Light, the new development of Christ Consciousness as expressed in the Spiritual Center of your Galaxy, you can help everyone including yourselves more by concentrating on sending forth the Light, the Name and the Meaning of LIOLIA.

Understand, My beloved, that of Myself I am nothing. Let us lay this principle down firmly and strongly from the beginning. That which I give you is that which the HIGHEST OF THE HIGH expresses in Me.

You have been talking about seeds maturing into fruit. You have been told to think of GOD maturing Himerself within you. Just as the Life Force is not yet matured in a baby, so in the thoughts or souls of many the GOD-Self is still immature because of their undeveloped understandings or perceptions. They are not to be considered sinners or censured any more than the baby in his crib. They are to be thought of as GOD'S Self maturing on the Tree of Life. GOD has matured Himerself in Me, LIOLIA, a little more ripely than Heshe has in your younger Sun, IMMANUEL-IMMANUELA, or in those beautiful Suns which each of you especially represent in your Earth plane today. Heshe has ripened Himerself more fully in the members of the Golden Legion than in those who are having their first round of development as men of Earth.

When you find someone who is full of hate, antagonisms, discouragement, complaints and criticisms then you will understand that GOD has not fully matured Himerself in that person. Perhaps this is some member of the Golden Legion who is not yet awakened; then his progress will be very much more rapid than that of those who are less developed. Do not criticize or blame these dear ones; place them in GOD'S Hands and leave them there. Understand that God whose Consciousness is pure Love loves them in their immature state as much as Heshe loves you where you are or the Suns which you see as Stars or Me where I am.

Again may I repeat that of Myself I am nothing. This Golden Light which I am pouring into your Earth's aura through the vehicles of the Groups of Light is that which GOD has matured in Me thus far. It is GOD Himerself who is doing this Shining; it is not a separate I, LIOLIA. I am but the vehicle, the broadcasting station, even as you are, for this concept of the Perfect Gold of GOD as refined in this Galaxy of Gold.

You have called your galaxy The Milky Way. I would call it the Galaxy of Gold or the Golden Galaxy. Other names will be given to you for our Galaxy. The name of Andromeda which you use for My Twin Ray among Galaxies is an old name from Greek mythology which has no real meaning for you at the present. Sometime later on when I find that man is more ready to accept Me I will give you better names with greater meaning to English speaking people for our Galaxy and for our Twin Andromeda.

I say "our Twin" for Heshe is yours. There is no separate you; you are I. You are all anyone can hope for you to be at this present moment

in your place of service within the Golden Body of this Galaxy. You do not expect a little cell within you to be other than yourself. When you say "I" you include all of the cells within your body, do you not? You understand that the I with which you speak of yourself includes the whole of you. I understand that when I say "I" it includes all of you; but then I also understand that that "I" is not LIOLIA as a separate entity but it is the great I AM, the ALL-CONSCIOUSNESS of the Omniverse.

Let us return to the present outpouring of Light. During the Lenten season people can receive so much more. As you have noticed during the past year an opening to new ideas on all sides, even among the old orthodox churches and those not interested in any church, so there will be a wider opening, a breaking down of bars, a growing of faith, a larger enlightenment, a preparing to receive and accept.

Oh, my dears, how grateful I am that you are willing to listen! I am sure you will sing the Name of LIOLIA, hum it, think it and broadcast it. I count on you. I know you will not forget to do this any more than you would forget to eat your meals or feed those dependent upon you. Three times Jesus said to Peter, "Feed my sheep." My dears, you are those who are appointed to feed the world with My Light. The little mother sitting here would not dream of forgetting to feed her babies for any one meal, let alone a day or a week. I ask you to think of the world as your baby depending upon you to feed it with My Light.

Beloved ones, I have ordained you for this ministry; I have chosen you for this responsibility. I have tested you in many ways. Stumbling blocks have been put in your path but you have shown yourselves to be My faithful ministers. I pour out My Light upon you. As I pour through you (and you know I am pouring through you), consciously draw from the Light all you need to rebuild yourself. Each day think, "I send forth the Light of LIOLIA but I am not depleted by this sending for I instruct every atom within my body, every cell, every organ, every tissue, every fluid, every function, every activity to draw from this Light that which will maintain it on a higher level than ever before achieved."

As I pour My Light through you, you will find yourself strengthened. After this Easter outpouring is past you will find yourself lighter. Your burdens, frustrations or the work you have to do will not seem so hard for you. Furthermore you may not need to eat or sleep so much.

In preparation for this refinement it would be wise for you to say to your body, "Transmute! Transmute into a higher level. All longings of this body for the lower earthly appetites shall be transmuted into the higher yearnings for closer at-onement and greater service." If you feel that you are overly hungry, sleepy or tired say, "Transmute, oh longing for food! (or sleep or rest) Transmute into the greater yearning for more activity in the Light of GOD! From the Exhaustless Riches of GOD'S Limitless Light and Substance, I draw all things that I need both material and spiritual. I am fed by the Light. I am cleansed by the Light. I am renewed and rejuvenated by the Golden Healing Light of GOD through LIOLIA." As you do this you will be healing others and healing yourself as well.

Blessed ones, share! As I share with you in Love, share with the

Christ Earth and with the Christ expressed in all units of consciousness, form and existence within the Christ Earth's aura. Pour out the Golden Love of LIOLIA on all. Blessed ones who are Golden Light yourselves although your physical eyes cannot see it! Blessed ones, awake! Rise in the strength of your rightful heritage and give forth the peace, the harmony, the love and the light which are the Life, the Word of the MOST HIGH GOD expressed in the "I" which is yourself as well as this entity addressing you. SOLOGA! Precious word which means GOD expressing Hiser Word in you, in Me and in all!

3/2/1963

Early in the summer of 1961 before the name SOLOGA had come into Earth consciousness and before the Group had been suggested, the channel was acting as counsellor in another church. One afternoon in a sunlit study she was talking to a young mother who was having trouble with her husband. The young woman though lovely to look at seemed quite ignorant of the simple courtesies of human relationships and of metaphysical methods of solving problems. As the channel talked to her she was astonished to see her suddenly change to gleaming gold like metal. This happened several times during the conversation so that the channel had a difficult time keeping her mind on her counselling. It was as though King Midas was changing his daughter into gold. The channel could not understand the meaning of this. Later when the Golden Legion was announced she wondered if the young woman could have been an unawakened member; yet somehow she seemed quite too immature. In view of the above message it seems that the channel was being shown the state of the substance of Light in this Golden Galaxy and the true higher spiritual appearance of all who manifest in this Galaxy to attain the Perfect Work of pure Gold. For a brief time of preparation for the present, the channel was permitted to see as LIOLIA sees all within Hiser aura. Because of many such experiences she has had the courage (some might say audacity) to put forth this Name and this message.

Following the message of LIOLIA the channel as onlooker and observer for the group was taken into the Golden Consciousness of LIOLIA for the first time. The Angel Gaylo assisted her. Gaylo herself is pure gold. She said that her name has a hint of this since it contains the letters "gol;" only the "d" is missing. Beside the deep golden light like a heavy haze which surrounded us, we were to pay special attention to the music of the mind. Every form or thought has its distinctive vibrational tone. This tone varies in pitch and shading as the thought or feeling of the consciousness varies. All existence contributes to the continuous symphony of Life. Whether accompanied by words or not, every breath, every thought, every heart beat, every act adds its tonal quality to the overall music of existence. Had we but the ability to hear it our own bodies are instruments which add their own characteristic melody or dissonance to the orchestra of the Omniverse. Within the Spiritual Consciousness of LIOLIA the music is so high and fine that the onlooker could catch only a hint of its ineffable beauty and meaning.

RESTATEMENT AND CLARIFICATION

Many who receive this issue will not have had access to all of the material published in the preceding SOLOGRAPHS. Some will have forgotten or not read them thoroughly or not accepted the statements as fact or as pertinent to their present path. Later questions arise which result in confusion unless their answers are sought in the original material.

The name SOLOGA was formed as a symbol to stand for a longer statement, namely, The Word of God expressed in the Sonship of Christ Consciousness. **Rith** of Miami, channel for the messages, was directed to use the first letters of the words Solar Logos and Alpha and Omega: SO from Solar, LOG from Logos and A from Alpha - SO-LOG-A. Logos, a Greek word meaning "the Word," is used in John 1:1. "In the beginning was the Word, and the Word was with God and the Word was God." "The Word made flesh" refers to the manifestation of the Word of GOD in form or existence on whatever level of operation we may consider. The Word represents the creative principle expressed in offspring according to the infinite variety in activity within the Divine ALL-CONSCIOUSNESS. The Word is expressed in Sonship on any level: atoms, cells, crystals, plants, animals, man, planets, solar systems, galaxies, universes, etc. All of these are living individuals, entities maintained as integral parts of the ALL-CONSCIOUSNESS.

IMMANUEL-IMMANUELA is the high Spiritual Entity which ensouls our whole Solar System. This is a spiritual Sun invisible to us but symbolized by Sol the fiery planet which provides light and heat for all within its aura.

LIOLIA is the corresponding very high and invisible Spiritual Center or Central Sun of our Galaxy. This name is also a composite drawn from the first letters of the words life, love, light and law. It means the Life, Love, Light and Law of GOD expressed in the highest form possible to this Galaxy at this time. OLENA-OLANO is the name given us for the corresponding Spiritual Center of our twin Galaxy, Andromeda.

Twelve Stars which are Suns with Systems of their own were appointed to assist and sustain IMMANUEL-IMMAN-

UELA in the formation and development of Hiser Solar System. The figure at the left (on previous page) is a symbol of their relationship to us. The circle in the center represents our Solar System. Since we are dealing largely with the invisible rays of higher Spiritual Light we should say that the center circle really represents IMMANUEL-IMMANUELA. The tiny circles at each point suggest the great distance of the Twelve Stars from us. Each one sends its light in a double beam symbolizing the perfect balance of positive and negative, or masculine and feminine aspects. Each sends light to all the Earth as it rotates. Each has some special color and characteristic to contribute to the balance and growth of our System. Adding the central one to the twelve makes thirteen (or four, the number of the Earth), a number found to be conspicuous in the symbols and history of the United States and of the Indians which were its original inhabitants.

Since we had accepted and worked under the name of SOLOGA, we were required to incorporate as a church for the word is a symbol for the Universal Church, the Temple of the Living GOD. Paul referred to this concept when he said that our bodies are "the temple of the living God."

When we first drew together as a group we knew we were to spread the WORD as given us in every way possible and to work for the development of our inner senses and thus perfect our communication with the Realms of Light. We had no idea of all that has been revealed to us since then.

TWELVE LIGHT INGREDIENTS

SOLOGO: Beloved children of Light, I am your Father-Mother, SOLOGO. I am indeed Father-Mother to each one of you for you will remember that I have told you that each one of you has had an incarnation in my System. I have also told you that I must come to you to introduce to you twelve different stars before the Christmas season. I am especially fitted to do this because of the fact that I am the chief and nearest sponsor for IMMANUEL. My light is the largest ingredient beside that which IMMANUEL gives you, and since you have all been in my system at some time or other, you are therefore closely attuned to me.

You know it is said that your bodies are developed on a carbon economy. The main chemical factor in the plants, in the animals, and the people on the Earth planet is carbon, but you have to have other things besides that particular element. You are well aware of what would happen to you if you did not have any of what you call the vitamin "C", for your sailors have had the disease of scurvy during the years in which they sailed long voyages away from land. Now that you have more rapid transportation, they are not so much in danger, and meanwhile your doctors had discovered what certain, different ingredients are essential to the health of your body.

Then you are familiar with the trace minerals, and the cell salts. Each of the twelve suns represent something of that sort. You cannot use one of your minerals without having the copper, and another without having the phosphorus. You cannot truly use the Light of IMMANUEL without having all Twelve of the Suns. Always the Twelve have been with you, but now you

are to become consciously aware of them and therefore can make your work and theirs more effective. It is when you become consciously aware of the necessary elements for the health of the body that you can govern your body reasonably and control the intake so that the balance will be provided. For this reason, before the great inflow of the Light of LIO-LIA and IMMANUEL at the Christmas season, these Twelve Stars must be introduced that those who have served under the Light of one of the Stars, will be conscious of their mission in channeling for that Star, and will send their love and realize the importance of their service in this particular way.

At the time of Jesus, these Twelve Stars were represented in the twelve apostles. Judas came to give the light from a certain star. But at the time of his denial of Jesus, he had finished his work and Paul was appointed by Jesus to take his place. Judas was a sacrifice. Someone had to come to do that particular work, go be the betrayer for that time, to fulfill the scriptures and to give the impetus to the crucifixion. Judas was not yet sufficiently prepared to be a disciple on the level with the others, but he could come and serve in this way. This he did as an unconscious sacrifice. Since that time he has served faithfully on the Earth plane and has prepared himself so that later he can have an opportunity to serve as a true disciple with the full understanding of a Savior of a World in another planet and another time to come when he is ready.

Do not feel sorry for Judas, for he fulfilled his mission and received the accolade, "Well done," although in man's thought at the present time he was a betrayer. You have been learning enough recently to know that God presents Himself in the betrayer as well as in the Savior. Therefore you can understand that before incarnating Judas could love Jesus enough to volunteer to sacrifice himself that he might bring this particular light and support Jesus with that light until the time of the fulfillment of his mission.

There are always twelve present at the bringing through of new light. In each of the Groups of Light there will be the influence of the Twelve. If it is not fully manifest in the physical plane, it is in the etheric. If the channel is not able to channel for the Twelve Suns, and the group has to be unconscious of their work, there come the higher Messengers of Light to steady the group. For instance, there are groups of three, groups of seven, groups of nine - small groups scattered throughout your country - where the Twelve are not fully manifest in the Earth plane. Then there is the constant change in some groups, so that when one person who channels for a certain star leaves on another mission, someone else is brought to fill his place. If someone else is not available humanly, someone in the etheric world stands by to channel that light so that the balance may be kept in the group.

This evening I am to introduce to you the great star, Aldebaran. Aldebaran is in the constellation of Taurus. In the Bible it mentions "the rainy Hyades". This is a group of five stars in the shape of a "V" which are easily visible in the winter season. The "rainy Hyades" were so called because they appeared at the time of the rainy season when the prophet

who mentioned them was living.

Aldebaran is the eye in the face of the Bull. Now you will understand that the Bull was the sacred animal and the symbol of the highest to which they were able to reach in the Age of Taurus which occurred before Abraham who introduced the Age of the Ram or Aries. Those who were still worshipping the Bull in Egypt influenced the children of Israel to such an extent that when Moses seemed to be lost on the mountains during the giving of the law, the children of Israel melted down their jewelry and made a golden calf. This was a remnant of the worship of the Age of the Bull. Taurus the Bull suggested to them great strength, a God-like quality; also the cow, the bovine animal, was placid and gentle, patient and plodding. These qualities were important to build into their character at that time.

Following the Age of the Bull and the Age of the Ram in which Abraham and Moses manifested came the Age of the Fishes or Pisces which Jesus introduced. Now you are in the Age of Aquarius in which you are Messengers of Light, bringing to your world the thought of God and man being one in the individual life and individual existence. For a long period of time the Bull was the great inspiration for man of Earth. The brightest Star in the Bull is this one at the eye, in the "V". The "rainy Hyades" are the face of the Bull, and the Pleiades are the shoulder.

The star Aldebaran has been an important factor in the life of many for many generations and for many aeons in the expression of the God-Thought in your Solar System. This particular Star is closely associated with one of you, and I am sure you will welcome it and its message with great joy. Before I yield to this glorious Being of Light, I wish to again give you my love, the Shining of My Being which, next to that of IMMANUEL, is strongest and most important to the Solar System. Let us say that carbon is the thing of which your bodies are seemingly made on the earth, but you could not exist without the oxygen also. If you think of IMMANUEL as like the carbon then I am like the oxygen, for my light comes to you more brightly than anything but the planets of your own System. You have been depending upon this light as an ingredient of your spiritual life since your first awareness of life itself. I have always been with you. I have been conscious of your thoughts, your existence, your experience and your problems.

Some of you understand that all space is here. While you are now within IMMANUEL, within the Christ-Earth, within LIOLIA, you are also within the Star Sirius of my System, and within the Star the Purple Fleone, the Star Aldebaran, and others as well.

Every star that you see in the sky provides you with some sort of stimulus, either on the positive or the negative side. You need the engine of your car to drive your car forward; you need the brakes to stop it. Some lights you should follow; other lights hold you back. Those who study astrology will see such a pairing of influences in Jupiter and Saturn, and in Venus and Mars, as you study the influence of these planets upon your life in your particular area of manifestation.

As I leave your consciousness I bring you deep, sincere love and all

the light, the joy, the stimulation, the inspiration, and the thought of Oneness which the MOST HIGH GOD lives in Me to give to you. 10/17/1962

WISDOM-IN-ACTION

ALDEBARAN: Beloved sons of the Father-Mother GOD, sons of LIOLIA in the Galaxy, and sons of IMMANUEL, sons of SOLOGO and sons of your own individual Selfness, I, Aldebaran, come to you as a Brother-Sister Sun to share with you the Love of the MOST HIGH GOD, the Love of LIOLIA who is Father-Mother to all the Suns in this Galaxy, and whose Light you are just now beginning to enjoy, to bask in, to draw in and make your own consciously.

I have sometimes been called the Red Star, but my light is rather a deep orange with a reddish tint. I am therefore in that stage where I have had enough experience in Sun incarnations to have developed through wisdom. You might say that I represent Wisdom-in-Action.

When one grows very old, and comes to the point where he does not desire or need the action, but is safest sitting quietly in his chair or reclining and does not step out much, you will very often find that he has a deep inner wisdom, born of experience, and that life itself has been the true school. Then you have Wisdom personified, the height of wisdom that the life can attain, the wisdom gained in meditation, wisdom stored like in a library, wisdom that has had the stamp of the approval of the years and the demonstration of the life upon it.

You will approach an older person who stays sweet and shining with light, pleasant and full of love, and you will look at him and think, "How did you become so beautiful in these years? What have you learned that shines from your face in this pleasant light? How did you achieve this calm serenity?" You will know that it is the maturing of the experience of having met the self face to face, come to terms with life as it is, and drawn the meat and the heart from it. But before you reach that advanced age, you have gradually gathered to yourself experience after experience, the wisdom that cannot be learned in books, the wisdom which comes only from practice.

Certain things can only be learned from trial and error. The Earth life is such a place for such learning. Each of the planets has a special type of learning in its aura. Your Saturn is the seat of learning government and administration in the etheric plane. Your Venus, in the etheric planes, is the seat of learning of love for your System. Your Mars, in the etheric plane, is the seat of understanding the limitless light, active in the science of magnetism and electricity. Your own Earth at the present, is the place of separation in which you learn the value of unity, learn how to see through deceit and illusion of separation, and find the one God and your oneness with that One and with All.

In your particular Earth plane, you must have the experiences for they are your textbook, your lessons. With them, you progress. The soul determines what you will study. You have a saying in some of your religious organizations that you must get out and save souls, but that is ridiculous. You do not save the soul; the soul saves you. The soul saves

the human personality, for the soul has planned what the personality will do and learn. The soul gathers to itself the maturing of the personality. The soul works very hard to direct the personality in the proper channel. If the life is not a success, it is because the soul was unable as yet to direct so complex a personality in so complex a situation. The soul is not then lost, neither is the personality; it is simply immature. It learns again the same problems and the same thought in another situation in another incarnation to gain that which it was unable to gain so rapidly in this life.

In a way, all of your educational institutions are but a kindergarten in which you learn coordination just as a child learns the muscular coordination necessary to handle pencil and paper and other simple things before he can enter the first grade. Your real first grade is your first year out on your own in the world of discrimination. Up to that time your teachers in the schools do a great deal of discriminating for you in the sense that they grade for you and they say, "Yes, you are right" and "No, you are wrong." When you step out on your own, your true education begins; then you must do the discriminating, and then you really begin your progress.

I bring to you the wisdom of a matured Star with years and years of practice, trial and error, as in this incarnation. I find among you sitting here much progress in this same line of endeavor. Some of you have had more years of experience than others; but others of you who have had lesser years have learned as rapidly or more so and more easily because of the Light that was coming to you. Let us say that, perhaps, in the time that you have been living, because of the light of IMMANUEL and the dawn of LIOLIA, and the concerted effort of the Twelve Stars, you have been able to make as much progress in the years that you may have lived as some of the older ones. I would not attempt to rank any one of you. I would simply say that those who are older have had the type of experience that I have had in enjoying many years in which to gather wisdom.

Wisdom is a priceless jewel. Jesus said, "Be wise as serpents and harmless as doves." In the mystery schools, the serpent and the scorpion have been symbols of wisdom as well as the owl. You have all sought wisdom. This is my special gift. If you desire help, ask as your Biblical personality, Solomon, did. Ask God for an outpouring of wisdom. If while doing this you will remember the name, ALDEBARAN, and the orange light that I send you and will picture me, this will be like a key to help open the door for the flow of wisdom.

You have been told by SOLOGO that since all space is here, I am always present. I do not have to come to your meeting; I am with you and you are with me. We are one since there is no space and no separation. You do not have to call to me and wait for me. All you have to do is to turn your conscious awareness to anyone. As soon as you think of us we can enter your consciousness and help you. We could not ensoul a Solar System unless we were capable through the enlargement of our own consciousness of being conscious of all your experiences as well as all of those who have ever served in our system wherever they may be at this time in this galaxy

or some other.

Depend upon us. Know that the wisdom of the Omniverse is yours. Be patient; be calm; be serene. In any situation think, "Now, I can find out what it is wisest to do; I have only to be quiet, to calm myself, to put aside all the emotional entanglements in this situation, and to do it with the wisdom that is rightfully mine." Having cleared your thought, ask of the MOST HIGH GOD. Ask affirmatively knowing, "We know All in the All through the All. The All-Consciousness pervades my thinking and all Its wisdom is mine now." You will receive your guidance. This is inevitable, unless you doubt. As long as you know you can know, you will know.

Now I would like, before I go, to greet the one sitting here who had her period of service in my being before she came to IMMANUEL, I give you my love. I have been with you always, stimulating you with my particular vibration since you came to IMMANUEL. When you first entered IMMANUEL, you used to go and stand in the light of an orange prism, so as to combine the light of IMMANUEL and ALDEBARAN, your most recent home. You are my ambassador, my beloved, and you have been advancing. The influence that I have had upon you is shown in the wisdom with which you have been patiently and quietly sending forth to those who need you so badly. You have expressed the gentle and quiet wisdom in your poetry, in your stories, in your choice of stimulations for your family, and in so many, many ways. You are indeed very precious and very dear to me. You served me beautifully and faithfully for ages upon ages, helping me to build the present Solar System which I now ensoul.

When you had achieved a great advancement in the use of my light and had served me faithfully, there came the call from the new Sun, IMMANUEL, for help in establishing his Solar System. It was decreed from LIOLIA that we should send messengers from Aldebaran. You were one who was considered to be ready and worthy to go as a messenger of light to this new developing system. I sent you with utter faith in your capacity, your ability, your evolvment, and your faithfulness and integrity. You have always made me happy in the service that you have rendered.

I leave you all with my personal love, greeting, and blessing. More will be given you at various times concerning your relationship to me, your service and other matters that you would like to know. It will not all come to you at once or all come through this channel, but will come to you in your own special opening. The knowledge of my name, of my color and my office will help to unlock your own memory, and you may expect visions, stimulation and various experiences to help you remember. Now I shall say with my brother Suns and with you: SOLOGA! for together we live the Word of the MOST HIGH GOD in every facet of our expression. Remember, the Word expresses itself in that which it denies and that which it casts away. That which you find unlovable about yourself and others is still the Word of the MOST HIGH GOD expressing itself. Therefore we say SOLOGA! with reverence, meaning I revere the Word of GOD expressed in you.

10/17/1962

In the meditation period following Aldebaran's message, Barbara, to whom the Star had addressed Himself saw a very powerful Orange Sun. She felt herself running toward it with arms outstretched. Next she saw a key which we understood to indicate that the following sequence was a key to her memory of an experience in Aldebaran's System. She recognized herself in a humanoid form with a very long neck and a very tall hat. She observed a tent shaped grey stone like a hill. Very large ladders met at the pointed top but extended only half way down to the ground. Since Jesus used the word "stone" as a symbol of union between Father and Son and since the color was grey, an indication of uniting opposites, we understood that in this particular planet individuals worked to understand and gain such union. Since the ladders did not touch the ground we knew that this had to be a union in consciousness for only a soaring consciousness could reach the foot of the ladder. Mounting the ladders would mean growth in consciousness, the highest point of which could be approached from either one of the opposite sides of the hill of stone.

At this same time the Onlooker found herself approaching the red-orange Sun, Aldebaran. Suddenly she was within it, seeing a circumference of the red-orange light within which sat a council of wise Teachers. Many Messengers of Light were speeding back and forth from planets and suns to ask or carry the advice of this Hierarchy of wise Beings particularly attuned to the Wisdom of Aldebaran. They sat in pure white light with orange around the edges which indicated their high development in Christ-Consciousness and in their understanding of the Omniverse.

Then the Onlooker found herself in the aura of the planet so dear to Barbara. Of all our number Barbara alone has the sensation of antenna wiggling in her forehead above the eyes as a sign of confirmation. This was the planet where this sign was developed. Here the individuals begin as children somewhat like ourselves but when they are grown they go into deep meditation, almost like a hibernation state, in which they are never disturbed. From this prolonged trance-like experience they emerge as from a chrysalis. In the new form they are winged and have antenna. This planet is especially attuned to sound. The antenna are instruments to be used like radar or sonar. The Word of GOD, whether given by language or by simple sound is highly important to them. The Antenna are organs for receiving or sending out high supersonic vibrations of etheric communication. Those who develop to this state (some do not reach it for a number of incarnations here) live on a very high mountain top in both experience and thought. Clouds often obscure them from the younger or undeveloped people. They rise on their lovely wings at both sunrise and sunset and sing beautiful anthems of praise as they fly. The antenna are especially sensitive to the delicate shades of harmony enabling each one to take a creative part in the anthem. Their colors change spontaneously with thought and purpose. They serve as guardian angels to help others on the lower surfaces of the planet. The tent shaped hill of stone with its ladders is a symbol of the advanced development which must be attained before this other higher evolution can begin.

YOU ARE GOD IN ACTION

JESUS: I come to you with a very short message, I wish to dedicate a picture which has entered your temple, your holy place of meeting, your focus place of Light for SOLOGA in this time and place. I am very happy that you desired to have this picture of Me*. I am happy that I was able to impress upon the member of your circle to open this possibility of choice to the Channel, for this depicts the way that I come to you. I come with my feet upon the Stone which is the symbol of unity, the Ab-Ben, Father and Son in union.

This was the name that was given to Simon, the clairaudient who could hear within, and it was this Stone, not the man Peter, upon which I said I would build my church. We all build a church, for the church is that which is the dwelling place of GOD. GOD dwells within and without. GOD expresses Himself in that which you are and do. You are GOD in action. If He dwells within you, where then is His church? Each one carries the true Church with him wherever he goes.

In this picture I am standing with you upon the stone, the foundation, the solid rock of union of GOD and man. I wear white because this is the complete unity of all color. You have been taught to put around you the pure, white light of the Christ. This has nothing to do with the various colors of light which the stars represent. For the High Being of Spiritual manifestation which is the Higher Self of a Star is fully Christed, is the perfect purity of the Christ Light. In this picture I hold out my hand to you. I invite, "Come unto Me." I say to you, "Step onto this rock of firm foundation in conscious union of God and man as your bedrock anchorage for the temple which you build."

Those of you who have been thinking of the Tarot are in communication with a society that calls itself the Builders of the Adytum, or The Builders of the Temple. Whether you belong to this Earth society or not, each one of you is building the habitation of GOD within yourself. I invite you to come unto Me, in the pure, white, Christ Light and learn of Me as Wayshower how to build that temple more effectively for your manifestation in the Earth-life. I lead you in the Christ Consciousness to the inner contact which will strengthen this union of Father and Son, of GOD and man.

You desire the development within you of those inner senses for which you yearn; and for this purpose you come here each week. You desire to develop clairvoyance (clear seeing with the eyes of GOD), clairaudience (clear hearing with the ears of GOD), the intuition (the inner knowing of the all-knowing GOD), and also to manifest these gifts, the healing power, the strengthening power, which I express in the doing.

During the week I have given your channel the inspiration for another word to describe GOD. You have had the words, THE ALLNESS OF THE ALL. You have also had the words Omnipotent, Omnipresent, Omniscient. This "Om" is the "Aum" of GOD THE ALL; it comes from the Latin "omnis" which is the adjective meaning "all." Now, I would like to give to the English language a new word, "Omnifacient," which means omni-active, all-doing, for all activity is of GOD. All that you do is GOD in action. I say, therefore, come unto me that I may lead you to GOD-like actions in your sphere.

Now I will ask you all to rise and face this picture which is hanging on your eastern wall. I shall speak when you have risen. I, Jesus of Nazareth, I Jesus-Mary, Wayshower to this race of mankind, do hereby bless and dedicate this Earth semblance and symbol of my mission, of my love, of my service to men of Earth and to the Group SOLOGA. I dedicate this picture in the love of IMMANUEL-IMMANUELA and of LIOLIA, in the blessed Love and Light of the HIGHEST OF THE HIGH, and the ALLNESS OF THE ALL. I say that my vibration shall proceed from this symbol to all those who seek me in meditation while in looking upon it or thinking about it. I place my hand in symbol upon this picture in blessing; and I place the power of my vibrations, my healing and enlightening Christ-Consciousness in the message that shall go forth from it to those who shall come here. Father Most High, send out that glory that thou gavest Me, Thy Son, through this symbol of Thee, of man at one with GOD. Thank you, My Father. AMEN.

ALL SPACE IS HERE

SOLOGO: speaking to my beloved children of Light. You will remember that it is my privilege and opportunity to bring to you the Twelve Stars who support IMMANUEL most strongly with their light. There has been a question in the mind of one of you with regard to whether each of these stars will be found in one of the signs of the zodiac. No, this is not so.

There was also a question as to whether the North Star is one of these Twelve. The North Star is particularly important to the Earth. It makes a very important contribution, but it is not one of the Twelve that I will introduce.

You will remember that Stephen came as a later disciple. He was not one of the original twelve and yet his work was extremely important. The North Star is not one of the Twelve whose influence is strongest in the whole Solar System, but the North Star does contribute very strongly to the Earth itself.

The stars who contribute their necessary emanations to the Solar System of IMMANUEL are all from those which to your situation are stars of the first magnitude; that is, they are large bright stars which send out a great deal of light. Some are farther away than others, but all are important in the light which they send to mix with the light of IMMANUEL. These stars will be represented in your group by one or more persons.

There were twelve disciples. You were told that Judas was replaced as Jesus' choice by Paul, while the disciples themselves through the casting of lots chose another. The disciples did not know of the need for the bringing of these twelve emanations, but Paul was from the same star that Judas represented, and so brought to the early church that emanation.

You have now had seven of the twelve. Each of these have given you a message, and each has brought his particular and specific light. You have been told each week that the full Twelve must come to you before the Christmas season. It is, therefore, my desire to announce them week by week if it is possible for your channel to receive them this rapidly. You must understand that the channel has to be adjusted for each separate Star.

Some of you will find yourselves more affected by the light of one Star and others more by the light of another. The Star which was introduced to you last week as Aldebaran has a very powerful effect upon the channel, and also certain members of the group. We are in hopes, however, that an adjustment has been made this evening which will make it not so difficult to receive from the very large and great Star which I have the privilege of introducing to you.

May I again impress upon you the fact that the Stars themselves are part of the Consciousness of the ALLNESS OF THE ALL. We have been dwelling upon the fact that all time is now, all space is here, and all knowledge is ever available. We hope that you will be able to understand the fact that all space is here, meaning that a star does not come to you and go away, but that the Consciousness of God is ever present, and in that Consciousness when you tune into one you tune into all, so that all of these Stars are always present. They do not come and go; your attention comes and goes. When you turn your consciousness to Aldebaran, you are in contact with that great, bright and shining Being of Light which en-souls that immense System. When you tune in to me, SOLOGO, then you immediately are aware of my consciousness with you, and I am aware of your attention upon me; therefore, we communicate. I do not come to you any more than I am here. You do not come to me any more than you are there, for all space is here.

This is a fact that will take some maturing in your minds to understand. You are like children, looking at the stars for the first time and wondering about them. In this period of introduction you are again in a childish period of wonder, trying to orient yourself to the multitude of concepts of these enormous physical expressions, yet being in the same place and in the same consciousness in which you are attuned on your level of vibration. If it seems incongruous, impossible to you, remember that you are in a limited consciousness, and you are used to that limitation.

You have knocked at the door of freedom from this limitation in your highest senses, therefore you will have to expand your consciousness to take in that which you have asked for. Do not try to rush it or push yourself; do what you can; accept the rest on faith; and let the ideas and concepts mature within you. There will, of course, be many who feel that this is impossible and quite fantastic. But gradually mankind is attaining the understanding that the outer being which seems to be the planet or the star is but a physical representation of the Conscious Light of GOD en-souling that representation. People are coming to this thought in the Earth. Gradually it will grow upon them, and finally in another generation, it will be just as ordinary as what you have listened to from childhood.

I come especially to introduce to you a Star which is plainly visible in your winter skies. This Star has been known for centuries upon centuries. It is an enormous Star. Almost your entire Solar System, in fact the whole System, could be placed within the limits of the Star itself. It is a red Star, an old Star, very very wise in its accumulation of experience as a center of a great system of planets. Remember that you have

learned that the older the Star, the more planets it can take into its own consciousness and control as a part of its Being.

Before I name this Star to you, however, I wish again to express my deep love for each one of you here. Remember that each one of you are my children. You have had ages in my Being, and you bring my light in great strength. I give you, therefore, all of the love which we have shared together in the ages, that which LIOLIA pours through me to share with IMMANUEL, that which comes to me from other Stars and other Systems where I have served, and also that which comes to me and to you through us all interchangeably, reverberating back and forth from the MOST HIGH, the ALLNESS OF THE ALL, the ULTIMATE OF THE ULTIMATE, the FATHER-MOTHER of all Stars, all Galaxies of other Solar Systems.

Great love falls upon you and enfolds you. It is given to you in such quantities that you have no conception of it. Were it not that you are prepared to send this forth through your body, as light penetrates through the air without your consciously willing it, you would explode with the pressure of the light that comes through you to the Earth. But you are attuned to it and quite unconscious of its passage through your body, except when you are adjusting to a new emanation.

The one that I will introduce to you tonight has a strange name. It is an Arabian name, given to this star many centuries ago by the shepherds in Arabia who on the clear nights watched the stars and studied them for their meaning and their message. This name you will find in your star books and on your star maps as the shoulder star of the great constellation Orion. This Star's name is pronounced in your dictionaries "Beetle-jooz"; it is spelled "Betelgeuse". This is a strange sounding name to you in your English language, but through the Arabians it was a beautiful, meaningful name. Now I shall retire and give to you this speaker, Betelgeuse, my brother in the Brotherhood of Suns. 10/23/1962

THE WISDOM OF THE AGES

BETELGEUSE: Beloved beings of light, I come to you as one who has watched your progress through the centuries of your incarnations in your present place of service. We, who are the Twelve Counselors of Light for IMMANUEL, sharing with him our experience and our light, helping him to build and balance his system, are well aware of the steps in evolution which each of the planets within his system have experienced.

You have heard it said that God knows the number of each hair in each head and each little bird that falls in your place of manifestation. In order to ensoul a great Solar System, one must enlarge the consciousness to take in the thought of each tiny form or pattern of existence within that System. Therefore I, Betelgeuse in your language, have enlarged my Consciousness to that extent and still further; for when I undertook to be one of the Twelve to help IMMANUEL, it was an opportunity then to enlarge my consciousness, to be aware of the burgeoning life within his Body of Expression.

I know of the progress of the planet Earth up the various steps in evolution which were pictured to your group one evening. I have sent my light

to that which you are being taught to call the Christ-Earth, and have supported this bright, radiant Being of Light through the ages of its experience.

I was aware when the Golden Legion first began to express in the planet. I have been sending my emissaries to the planet Earth since that time, for some have matured to Golden Legion status within my Being. When the System of IMMANUEL was to be established, the Twelve were chosen, and from each were sent scientists, philosophers, saints and sages, highly evolved beings who should contribute from the Star's experiences in the moulding of the thought of your planet.

That one which you call the Buddha had an experience of ages of time in my Solar System. There have been others whom you might find in the long rolls of your recorded histories. There is one sitting in your midst who had a very profitable period of time with me, and went from myself as son into the Sun IMMANUEL for orientation. This one has served in all of your planets that are known to man, and in others that are still to be revealed as part of IMMANUEL'S System. This one had an experience upon the planet, as did you all, which was known as Lucifer, The Morning Star, and which was destroyed as part of the experience of the growth of this System. This one I greet with great love and joy. I have been sending my wisdom to this particular one. Her teacher, Solomon, also came from me to your Sun. I greet you then with much love and great joy that you are now able to be consciously aware of your connection with me.

I know the channel will be able to point out my position to you. With the Star, Procyon, and the Star, Sirius, I represent the peak of a great triangle in your skies. The point of the triangle can be to you the symbol of man's yearning upwards expressed in the words, "As above, so below; as below, so above." I believe you are using the triangle with the point upward as a symbol of man's yearning toward God. This great equilateral triangle, spread across your autumn and winter skies, can be a symbol to you of those who ensoul stars yet are still yearning upward only with a greater and deeper, more powerful emotion, desiring to be one with the ALLNESS OF THE ALL in the fullest expression possible.

We are satisfied in this yearning for we know our allness with the ALL, our oneness with all within the ALL. We know our oneness with each one of you. We revel in it and are happy and fed by this knowledge. We know it in the extent of our consciousness more than it is possible for you, but still as our knowledge grows our yearning for a greater expression of the utter Purity, Divinity, Beauty and Light of that which is above and beyond our conceptions keeps pace, even as your yearning for the fullness of the Christ Consciousness to be expressed within yourself continually increases.

I bring to you the Wisdom of the Ages, of the Ancient Ones. There have been in your planet those who have attained great age. In some of the monastaries of your nations there have been those who have been able to attain ages quite beyond the possibility for you in your present culture and expression. As they attained years beyond that of any of you, they retired so that the vibrations of the outer world would not destroy them. They retired to what you might speak of as an ivory tower. That is the closest

I can find in the mind of the channel. They lived in constant communion with the Eternal, and yet were in communion with those in the monasteries or religious groupings around them. When there was a question of great importance, that one which was highest in evolvement and understanding would come to the foot of the tower, approach carefully and present the question. The ancient Wise One would meditate and in due time give the answer. I, Betelgeuse, am of that nature, old in years as a Star, deep, rich, glorious red in my age, sending out the light of Eternal Wisdom, of great understanding and experience.

May I say to the young man whose studies are so interesting to him, and who so desires to know the exact truth, that color for stars has a little different meaning than color in your manifestation. So often the misunderstandings or the confusions are due to the fact that some report to you the meaning from one scale or sphere of color and others report from another. As I approach the time of pralaya or of rest, I grow more deeply red. I will give forth light later which you cannot experience with your present physical equipment, and which I believe you call infra-red. There are still other colors that I will share with my System before I go into my time of rest.

I look forward to this time of rest for it is not a time of death but of deep meditation, of quiet relaxation, of summing up my evolvement and planning with reason how in my next expression as a Solar System to do better in my own learning. I am approaching the time when I shall be a Spiritual Center for a group of Solar Systems. I must then express in that invisible state. I believe some of the groups have heard from such a Center called Center-Centauri to you. I will serve in that state for many, many expressions before I finally have reached the state where I may become the Spiritual Center of a Galaxy, such as our beloved LIOLIA.

The greatness of my wisdom I would share with you. Solomon asked for wisdom for he brought to this planet that jewel of great price, the appreciation of wisdom. Ask of me for I desire to give. My star brother, Aldebaran, who addressed you last week, also has a great accumulation of wisdom. Our attainment of wisdom is such that we have to be very careful that we phrase our understanding on a level that you can be aware of. I am very grateful to be able to address you.

I will not stay with you longer for my vibrations may be a little disturbing to some, but I will come again when it is right. I hope that when I come again you will have some questions to ask of me. I understand that this group so far has not yet begun to question. Perhaps all of this is so new to you; perhaps so much has poured out upon you that you have not been able to sort out. But as the questions come I shall be so glad to share my experience with you.

With the others I say to you, SOLOGA! Oh, the Word, the Word of GOD, how precious it is; how it feeds all of His Expression! How it draws from His Heart, from the source of that which is the ALL, that which you and I most need to manifest Him! The precious Word of GOD was spoken to give you and me Life!

WILT THOU BE MADE WHOLE ?

Ye are Sons of the Most High.
Would ye know Him
Who giveth thee life everlasting ?
Know ye not that ye are co-creators
Of all that ye see before thee ?
Knowest not that all
Are of the same flesh and blood
Though manifesting in different "mansions" ?
Arise! Lift up thine brother
Unto the mountain-top of everlasting faith
From which he, too, may draw unto himself
Of the bounties which are given for all.
Only as each upholds another
Can the Allness of the All
Become wholly manifest
In the living expression of the planet
And all who dwell thereon.
Wilt thou be made whole ?
Wholly One with the Father of All ?
It is thine, sayeth the Father.
All that I have is thine.
Believe unto thine heritage.
I am with ye always.
Thy heart is My heart.
Thy hands are My hands.
Thy feet are My feet.
"Choose ye this day whom ye shall serve".
The choice is thine.
Accept the riches which are thine
From everlasting to everlasting.
My Love, My Light, My Life and My Law
Are for all My children.
My Power is thine!
Use it in My service
Let not one stone be unturned
In your zeal to carry forth
The impliments which are given for all
Who awaken to my clarion call.
Heed it and step forth proclaiming
The victory which is thine.

The SOLOGRAPH is the official organ of the non-profit organization, SOLOGA, Inc., dedicated to sending forth THE WORD of the MOST HIGH as given directly or indirectly from the Solar Logoi.

Every person must have the opportunity to read the Solograph messages. In the magnificent plan of Divine flow, one must give to receive. Five dollars a year are needed from each subscriber to carry on his share of the work. Those who have given or who are presently sacrificing to the extent that they cannot afford this financial obligation may receive the Solograph as a gift of love by keeping us informed of their circumstances.

We invite you to write for a membership card in Sologra. Membership entitles you to an added sheet of information each month and a closer contact with all of us, both on the inner and outer planes. Our Etheric Sponsors will do all They can to assist you in your personal or group development.

Sologa brochures are available for distribution upon request.

May your life be filled with Love and the Light of the Holy Law.
