

GOD'S WILL IS DONE IN EARTH. ALLELUIA!

THE WORD MADE FLESH

Jesus: Dear Ones, Beloved in Light, I bid you good evening and may you know that all evenings are good in the true Light of the SOLAR LOGOS. We are about to undertake a new adventure together. We have chosen the Greek term LOGOS which means WORD to be the central idea of this department of our work for God.

Be it known unto you that the WORD by which the Earth was created exists on all levels of Being. THE HIGHEST OF THE HIGH, beyond my attainment or comprehension, sounds forth continually the Great Word of Existence throughout the Cosmos. It pervades the Cosmos as Cosmic Consciousness.

This WORD establishes Itself as Being in the place where- unto it is sent. On the universal level it takes its stand as the Central Sun of the Universe. On the Solar level It becomes the Sun of the System. Thus the WORD becomes flesh on the various astronomical levels. When you speak of the Christ Within, you accept the scientific fact of the WORD as the Central Sun or the true identity of your own being.

Dwal Khul (The Tibetan): SOLOGA, dedicated to THE WORD expressed in this Solar System, is to point the way to larger concepts for the New Age of the Air. God is not a God afar off, but is all there is of any man. The Solar System is the body of the Heavenly Being occupying this locale of space. This Solar System is but one vortex of the great Cosmic Force of Life-Being-Substance in a greater Heavenly Being. Of each, the central Star, or Sun, is the center of Force, Life, or Intelligence of the whole Being. The Planetary Logos or Word ensouls the planet. THE SOLAR LOGOS, or WORD, ensouls the whole system but maintains the central vortex of its Life Power in the Sun.

God spoke the WORD and Creation was manifested, or the WORD was made flesh. All flesh is light held steady in a certain vibrational rate or pattern. On the Earth plane, flesh is one particular vibrational rate and pattern but on higher planes that which is flesh to the inhabitant would be invisible to you. When you are sensitized to the point of interplane perception you see this flesh as pure light "seen through a glass darkly."

The Cosmic All-Consciousness expressed its thought of Being in the WORD or THE IDEAL PATTERN. This thought so expressed became the matrix through which flows the Light, the Power of the Cosmos, the Life Force of its Livingness, to bring the pattern of its Word into manifestation on each level of consciousness.

Hilarion, Mary, Theresa, and Morya: Man, then, is THE WORD expressed in flesh. Jesus, the Wayshower, was the most perfect expression of the IDEAL PATTERN for his Piscean Age. John, who best understood what he taught, received the introduction to his Gospel directly from Jesus, even as you are now receiving this message for men of Earth. Jesus dictated: In the beginning was the WORD, and the WORD was with God, and the Word was God. -- All things were made by Him and without Him was not anything made that was made. -- The Word was made flesh and dwelt among us.

At the time of John's writing it was not possible for most men to become conscious of their true identity. They were so material in their thinking and in their interpretation of the Word that the actual scientific facts of a spiritual universe were beyond their conception. Yet because the WORD went forth IT became all flesh on all levels of manifestation. The first step needed now by man of the Aquarian Age is full realization that he is the WORD of God made flesh. So also is every other living thing. So also is all the manifestation of existence about him. The very dust under your feet is but another way of saying God.

The New Age is to be one of expansion of man's thinking which will bring to him fulfillment and dominion in his living. Man will grow to understand and use the spiritual laws of the Cosmos even more fruitfully than he now uses the material laws of his scientific learning.

The holocaust which prophets have glimpsed seems to them in their adjustment to lower vibrations to be a great Earth-wide catastrophe; but to us in the higher planes it is the marvelous spiritual revelation of the Prince of Light. His example and teaching are lifting the whole Earth, yes the whole Solar System, into such great light that to darkness the world seems on fire.

Spiritual Light destroys the old solidified errors by shaking man's thinking in great earthquakes, setting fire to the mental debris by the lightning of illumination, and washing away the ashes in tidal waves of fresh understanding. Thus man brings first his thinking and then his living into better alignment with the original matrix, better focus in the true pattern of the WORD and the New Age is born.

ONCE SAID IS ENOUGH

From childhood I have consciously talked with God. I am not unique in this. I know that you too have enjoyed the same privilege either consciously or unconsciously. I was raised in the home of a dedicated Christian minister. The Bible has been my textbook of life. I accept Jesus' statement, "Except ye become as a little child, ye cannot enter the kingdom of heaven." As a humble child I accept the inner Voices of Good-Speaking and transmit to you their message of Light.

Of myself I am nothing but a pen in the Hand of God. "He

doeth the works." Those Invisible Friends who name themselves to me are individuations in the Cosmic All-Consciousness whose voices reach me at my level of expression to transmit the Thought of God for this time and place. Through years of practice I have been led to techniques of recognition and reception which would build into my understanding the fact of the Oneness of all in God. These Messengers of Light act as One in the great Unity of Cosmic Mind, so that several may combine to give authority or sponsorship to a message flowing through to the Earth plane of vibration.

The message, THE WORD MADE FLESH, came in three parts at three separate times and yet is one discourse. Jesus of Nazareth began it; Dwal Khul, the Tibetan, continued it later and the same evening; Hilarion, the Mother Mary, Theresa, the Little Flower, and Morya identified themselves as contributing channels for the last part. I have been taught that Advanced Beings of Light whose vortex of identity may be operating in what to man would seem to be widely separated locales of space often unite as one mentally for the projection of telepathic impulses to receptive Earth minds. They identify themselves to lend the authority of their names, to bolster the inadequate faith of the receiver in the truth of the message, and to "strengthen the weak hands" in the execution of their commissions.

Jesus as acknowledged leader spoke first emphasizing an unrecognized facet of his nature, the scientist. His concept of true leadership is expressed in his handing the discourse over to Dwal Khul, an eminent scholar of the White Brotherhood. Jesus then further underlines his example of a leader's sharing by asking four others, Hilarion, Mary, Theresa, and Morya to co-operate in completing the explanation. Thus Jesus revealed himself to be joining our company as one of us, leading yet stepping shoulder to shoulder with us and encouraging us to work together in the closest cooperation.

Together we say, "To God alone the glory, Alleluia to that Highest of the High, the All-Consciousness, the Great Spirit of All Life, the One Cosmic Life Force which we choose to call God, which you may know by many names or no name at all, but which we all actually live in every experience of our eternal expression." (Confirmed by Morya 1/10/62)

HELPFUL INFORMATION CONCERNING CHANNELING

Mary: I have come to help you recall the end of the message from Jesus. The fact that the telephone rang when it did was used to illustrate and explain how messages from invisible beings are often given. They may come as a flash of illumination and yet seem to the channel to flow over a period of time. The whole message may enter the mind at one instant but the channel's mechanism delivers it at a pace the conscious mind can handle. It is as though in a flash a whole tape could receive a complete

message which could then be played back slowly at the listener's convenience.

This also explains the possibility that the human mind may misunderstand the playback and distort it with a personal interpretation. The whole message remains correct in the memory of the receiver. The problem is to see that it is delivered accurately. This too is a matter of self-development through much honest dedicated practice.

May I add that each of us, while on Earth, lived a certain limited personality for a certain purpose. In our freer spiritual expression on the levels invisible to Earth senses, we are completely developed in every phase of expression. We have specialized in all branches before Masterhood has been attained. We may still select certain specialties to emphasize to you for your present needs, but please do not limit us to these services only, or to one tone of voice, one vibration, or one way of speaking. From this moment on, do not say of a communication, "That does not sound like Mary," for Mary has a great variety of sounds. To all who may read this I say, I love you. I pour out God's richest blessings upon you through my great desire that you may receive them.

In great humility I transmit the above message, realizing that I myself have been guilty of passing judgement on other channels from the viewpoint of my own limited understanding. Let us determine to seek only the truth which calls to us from a message and give to the channel the same respect and appreciation which we desire for our own work and which the Invisible Radiant Ones who speak through us must give to their chosen instruments. Let us keep our minds open for such new revelations in the science of channeling. Furthermore, let us not be guilty of desiring to be known as the best channel or a better channel than someone else; let us not even think that we may be better. Let us be so busy learning to perfect our own service to God that we have time only to accept and appreciate others who serve. "TO GOD ALONE THE GLORY!"

TRAVOL SPEAKS FOR THE LORD OF THE SUN

Travol (in Space Craft #1260): Many are in this ship tonight who would like to greet you. Plutana stands at my right. However, it is our great privilege to bring you a message which has been relayed to us from a Higher Source. It is with reverence that I speak the words, THE LORD OF THE SUN. His is a Name no one may speak, for were you to know the Name and speak it, such power is in this Name that it would shatter you. This is The One About Whom Nothing May be Said other than that we are all parts of His Great Being.

This Message of blessing and love has been relayed to us to send on to you and I wish you could feel the thrill of joy that runs through all of us as we hear Him say to you,

"Well done, My children! Courage and strength be yours for you have come now to the crucial time, to the true manifestation of your mission and you are prepared. Soon - soon, My children, you will come to me and to the rest and the joy you have earned. Some of you are aware of your home in the Sun; others of you who are not yet aware of it will be awakened to this relationship. A few more struggles, a few more efforts, a few more holdings-steady to the highest that you know, and then your work will be done and you may come home."

We in this space ship look down upon you and see the happy colors of encouragement, joy and expectation which are radiating from you and we say: Bless you! Bless every corner of you, your expression and your habitation, for the work which you will do will be so great that you will not be able to assess it while you are on the Earth plane.

MY FATHER AND I ARE ONE

Meister Eckhart: When I came to Earth in this personality, my mission was to recall to man's mind the tremendous importance of the words of Jesus: My Father and I are one. This was the burden of my teaching and my life - that when man knew his Father and carried this knowledge into every moment of his life he would reach the heights to which Jesus came to show the way. It was my dream to teach my students and all who have read my writings since that, as they went about their day, they should constantly remember the presence of God with them. You and I - we together as one - live in God and God lives in us. We are one together in Him and He is One including all Universes, Solar Systems, and expressions from the miniscule to the most tremendous concept beyond the mind of man.

Any moment of any day you may pause for one second from any activity and think: My Father and I are One: I live in Him at this moment. Soon you will come so close into His Presence that you will have mounted into the Golden Era of which you speak. Some of you call this practicing the Presence. Much more is said about it than is done about it. If you could carry the thought of the Presence-with-you every waking moment, you would suddenly burst into such a glorious realization of your Sonship that you at present cannot conceive what you would do, and what you would be.

A MESSAGE FROM THE SOLAR LOGOS

I, THE LORD OF THE SUN, address you, My children. Some of you call Me the Solar Logos. Some of you call Me The Christ or The Christ-Consciousness. I Am that Being ensouled in your life-giving Sun. I have earned the right to be here through aeons and aeons of service to other Lords of other Suns higher and more advanced than I, of which I Am but a tiny cell - even as you, My children. I Am that Presence which overshadowed My expression in

the man, Jesus.

You, My children, I address in the ancient name. You are members of My Golden Legion. For some of you this is a key word and will awaken, within you subconscious memories that have lain dormant for thousands and thousands of years. Each one of you within the sound of this speaking voice has come out from the Sun. Some of you are aware of other experiences, but before you could manifest as My servants and members of My Golden Legion you spent some time in My aura, in My physical expression, the Sun of this Solar System.

I say unto you, My children: Arise and shine in the glory of the New Day for My Light is upon you. You will see My gold in the sunrise. You will see My gold in the auras of those about you. You will feel my emanations more and more strongly. If you wish to cultivate your old remembrance of Me, of your coming out to work as I have sent you in this harvest field to help man in his upward evolution, if you would awaken those old memories and remember that you are truly one of My Golden Legion, then I say to you: let yourself feel, let yourself listen, let yourself move. Do not doubt. Give forth that which I put into your hearts and minds.

The one whom you call Yolanda, who was my priestess in Atlantis, has given for you at My inspiration part of the story of your coming and your mission (referring to the hand signals previously given by Yolanda of Mark-Age), for you did come out from the Sun, My children of the Golden Legion, and you will all come back to Me when this period is finished. The key to understanding and coming into knowledge of Me is that which was just given to you through this mouth and the thought of the man, Eckhart: Oneness - Oneness - all of you one together - your Oneness with all from the most minute particle in your manifestation to the most Highly Evolved Being in the Highest. You are all one - parts of Me, My manifestations, vehicles of My Life even as I Am part, manifestation and vehicle of Still Higher Life beyond any that I myself can know.

So I say to you: I shall call and you will answer. I shall recall in your mind the old songs, the old rituals, the old ceremonies, the old key words, the old movements and dances that you may prepare to bring forth my harvest upon the Earth; and then when it is garnered and your mission is done to come back golden and ready in My Golden Light. Yes, this is the time for the Golden Shining of THE LORD OF THE SUN. I bless each one of you. I send My Light, My Life-blood, into each body and I say again: Awake! Arise in the brightness of your shining for you are part of My Golden Legion. I - THE LORD OF THE SUN. 11/22/1961

HELP EASE THE DANGEROUS TENSIONS

Morya: Much must be done in a hurry for these are the days

of many crises. We must always be watchful. You understand the fact that it was tremors in the mountains of Peru which caused the avalanche and buried all those people - "4000 shall fall at thy side." Work, as you have, in quiet and in peace and be not frightened by the events which are inevitable.

Enlist as many as you can in the work of sending out the Word of Light, Love, and Peace into the Earth itself and into the hearts of the people that these strains may be relieved with as little damage as possible. The prophecies given you are for this purpose only that you may know where to direct your thought in time to help ease the tensions. The right kind of prayer by enough people will greatly allay if not wholly prevent the sufferings of the inhabitants of troubled areas.

Ask each one to cooperate in sending out the power of the Cosmic Life Force to strengthen and steady the structure of the Earth that the necessary changes may be made slowly and the shock waves be drawn off in some uninhabited area. Speak to the Earth as Jesus spoke to the sea saying "Peace; be still." Direct your word of peace and steadfastness not only to the troubled areas where men are suffering but also to their antipodes. (The parts of the globe directly opposite on the other side.)

Send love, the real power of gravity, to hold the mountains steady in their place, the floor of the sea quiet and at rest, and the waves calm and gentle. There is great danger at this time from earthquakes, tidal waves and accidents in transportation. Keep the thought of peace flowing out into every kingdom. (Mineral, vegetable, animal, elemental and human.) Be alert to find the trouble spots and get help there when it is needed. The legions of angels, of which Elisha and Jesus spoke, work with and through you, but so much more can be done when you assist consciously.

GALACTIC SCIENTISTS AID US

Ixutel: Ixutel calling all members of the Golden Legion and all who wish to assist at this time of your own great need! I served upon your Earth on a continent named Urania which preceded Lemuria. I was leader of a group who studied the structure of this planet and learned to work with the forces holding it in pattern and balance. There are rocks now in your northwestern Coast Range which were soil in my palace gardens. I now head an etheric band who serve as trouble shooters. We go from planet to planet in time of crisis to help control the disruptive forces that might cause great cataclysms or total destructions. We use the actual bodies of prepared individuals as broadcasting stations for universal power to equalize the stresses brought on (1) by the necessary readjustment to the new arc of space which this Solar System is now entering, and (2) by the fears, greed, hatred, and aggressions of the inhabitants.

My band and I have come from across the Galaxy to your aid.

We wish to enlist your conscious cooperation in being willing to let this power flow through you and in consciously helping us to direct it, adding the power of your own thinking to ours. Pray, visualize, and project. In times of critical alert please join us in the rhythm of projection for the first minutes of every hour, as much as your personal circumstances will permit. Together we can accomplish more than you can possibly know. Together let us work in the Faith of God, knowing that God never fails and His will is done.

1/11/1962

Will all those groups or separate individuals who wish immediate notice at the special times of these critical alerts for the purpose of participating in this work please notify us that we may prepare this selected mailing list. Ask only if you really intend to work hard at it.

Such an alert was given us on Jan. 3, 1962. We were told that there was danger of an earthquake in the Andes Mountains of Colombia, Peru and Ecuador on Sunday, Jan. 7. We worked conscientiously on the hour every hour from the 3rd through the 7th. As you know, the shock waves originating in Indonesia and traveling through the Earth to the opposite point or antipodes were bled off into the ocean floor of the Atlantic and through sharp quakes in barren uninhabited mountains of Santo Domingo, thus averting a very dangerous disturbance at the great bicontinental fault line. Tremors from that crisis shook the Andes enough to cause the great avalanche mentioned by Morya.

When you do this work, be careful to establish firmly in your own mind that you are not sending your own strength. Know that God's power, His light and love are pouring through you, blessing and replenishing you in the process. Say to yourself: Let go and let God flow. Know that the etheric specialists who are directing this work are as anxious to keep your body serviceable as you are and they will see that you are maintained. Remember that at all times we work under the will of God. God is raising the consciousness of every unit of His consciousness in or on this planet from the most minute chemical or mineral entity to the Solar Logos Himself.

TWENTY FOUR HOUR PRAYER WATCH IN SPACE

Plutana: Your sister in Christ speaking from Space Craft 1260. Greetings from all your Space Brothers standing off some fifteen miles from your surface. We will have to retire much further until after the configuration (Feb. 4, 1962) and until after the turbulence set up by it in the magnetic currents of your space has subsided. Watch your space reporters and you will hear that sightings during this time will cease.

Daily prayer for the Earth should be undertaken in great sincerity and humility with a steadfast purpose in bringing the Earth consciousness into as close contact with God-thought as

possible. Know that we in the Space Craft have organized a twenty four hour prayer watch; furthermore, our technicians are standing by to beam the focus of energies at our disposal to help hold the Earth in balance.

Dr. Hannibal has requested me to convey to SOLOGA his commendation and to say that this arm of Program Jesus is developing on schedule with the rapidity foreseen and laid down before the incarnation of its members. He will himself address you but he has appointed me as special liaison officer for your group at the moment.

You will notice that the total of the number of our craft (#1260) is 9. If you care to study the implications of our number you will find a symbolism of our present mission in coordination with the beginning of your group effort and the rod of initiation which you saw in the hand of Melchizedek. Step forward firmly. God has assigned you this task and God will provide the means for its manifestation. Move ahead on the knowledge that God's limitless substance is yours to draw upon for all your needs both material and spiritual. We know that your commission is from God and God never fails. SOLOGA! 1/1962

GRAVITY IS LOVE'S POWER OF ATTRACTION

Gabriel, Angel to all Lords of Suns: The work of my Angelic Legions is the pouring forth of the energies of Love to hold the planets in their places. Love is the great force of attraction understood but dimly by your scientists as gravity. Love pouring forth from the heart of the Son of God expressed in the heart of your Solar System, the Sun, holds the planets each in his appointed pattern of revolution and orbit, compresses the Divine Energies into seeming solidity as substance, and gives the form of the surface of the planet temporary permanence in which to cradle the other forms of life upon it. When you send forth love, you are partaking in the stabilization of all around you in one harmonious whole.

The teeming millions of living expressions of the One upon the planet are but the circulation of the Life Blood of God in the outer skin of the planet. Deep within the earth are to be found the great flows of the electrical energy of thought which are the great veins and arteries of the globe. Outside in the atmosphere the magnetic currents reveal the aura of finer energies in which the planet is enveloped.

At present you are distressed by the conflicts among men and the convulsions of the Earth. These are but the natural growing pains as the Spirit of the Earth writhes in her attempts to break the encystment of old patterns and spread the glorious colors of new wings that she may soar in a new day of enlightenment and freedom. Join us in soothing and calming her by continually speaking words of peace and love that you may dwell in joy in your enlarged mansion of Light. SOLOGA! 1/30/1962

OH SWEET JESUS, COME TO US!

Jesus: I do not come to you for "Lo, I Am with you always." I come to you through the mouths of all My Brothers who are one with Me in the Word which I bring as the Christed One. I come to you through the Word spoken through your own mouth. I never leave you for we are One together in God. This is My Word to all of the Golden Legion under My guidance and My command. As Commander of this Legion I remain always in tune with the Father - The Solar Logos, our Supreme Commander for this Solar System. I send forth His Word and have sent it forth until I have Become IT.

Therefore again I say unto you SEND FORTH THE WORD. The trumpets of the Lord are sounding. The seals for this coming age are about to be broken and the vials emptied. Stand fast and to him that overcometh I will give the golden crown of Life Everlasting. They shall sing their Alleluias in perfect sight and harmony before the Golden Throne of the Lord of the Sun. SOLOGA!
The Word has gone forth! 1/28/1962

Kut Humi: Little Ruth of Miami, SOLOGA! I greet you in God. The time for great prayer approaches. Impress this upon the members of the Golden Legion. Let us not grow weary in our prayer watch. While you pray for us do not fail to pray also for yourselves.

Oh America, America, our hope is in thee! Child of the New Era, born to leadership in the world to come, awaken to your task for your planet which is now giving birth to a New Age of Higher Manifestation. Send out the Light of God. Send out His Word of Peace and Harmony. Give us of thy spiritual strength, oh Land of the Free, that all men may walk in the Light of Love and Brotherhood!

Turn to God in your consciousness and pray with us, meditate with us, project with us. Hold the planet and all upon it in the Divine Consciousness of Harmony and Peace. Let this be the foundation of all your thinking and the undercurrent of all your living. May God bless you as you rise to your own opportunity and your own salvation. SOLOGA! SOLOGA! We live in God! All is God!

LISTEN TO YOUR CHILDREN

Lu-El-La, Guardian Angel of the Lord: Angelic presences gain their growth and development by serving. We live for one purpose - to serve. Know ye that two Guardian Angels are assigned each individual before birth and accompany him all through life. As man enters the New Age it is his right and privilege to contact his Angels, see them and converse with them as did the Holy Men in the days of old.

Many young children are being born with these inner senses highly developed. If a child says he sees an angel, respect his word and learn from him for "a little child shall lead them!"

Peace be unto you and all ye upon whom the Great Light now shineth.

CONFIGURATION DISTURBING MAGNETIC CURRENTS

Plutana and Travol speaking from Craft #1260: As has been explained to man for several years through many sources, it is now becoming dangerous for us to land on the surface of your planet. Magnetic currents are changing their path of flow, are unsteady, and even disrupted in some places. This is due to the planetary adjustment being made as the Solar System enters the new arc of space which is Aquarius to you. The present configuration of planets reaching its climax in February brings strong pulls upon the structure of the Earth, just as the moon pulls the oceans to produce tides. Until the new paths of magnetic flow have established themselves and have been charted, our ships would be endangered by any attempt to land on your surface. However, we are standing by to join you in many ways in the projection of love and peace to the whole planet to help make this adjustment as easy as possible.

You are in the stress of a transmutation into a higher expression. Your own bodies are making this adjustment. Could you see the Earth from our viewpoint in space, it would appear to be in convulsions and on fire as the various rays, vibrations and emanations from the Central Sun and its Great Forces remold the electric and magnetic structure of your planet and everything upon it.

Have courage, Men of Earth, and face the coming days with peace in your hearts. Know that God's will is being done in Earth. Know that God's power flows through His will and learn to flow easily and peacefully with it.

REALIZATION

Nothing by myself I see;
Only God's eyes see through me.

Nothing by myself I hear;
Only God hears through my ear.

By myself I cannot be;
God is all there is of me.

His life and light are manifest
In this my flesh. Oh, I am blest!

May He experience through me
His love and creativity.

WE LOVE GOD ONLY AS WE LOVE ONE ANOTHER

HYMN TO THE SOLAR LOGOS

Lord of the Sun,
Thy golden image rearing
Out of the East
To which all faces turn,
Hallowed in Light
Thy golden heart uplifting,
Giving the Land
Thy warmth and flowing Love,
From Thee, oh Lord,
We came in love to serve Thee;
To Thee, oh Lord,
At last we all return.

Lord of the Sun,
Our home for generations,
Give us Thy Light
To use at Thy behest.
In Thee we live,
Thy Golden Legion, serving
What Thou hast wrought
In this Thy planet Earth.
Thy life we share,
Thy burgeoning creation.
Thee we adore;
To Thee our bodies bend.

Lord of the Sun,
Our work is almost ended;
Soon we return
In orbit sure to Thee.

Golden the Voice
That urges us to waken;
Thy golden islands
Rise in Thy violet sea.
Golden the Light
That guides our last returning,
Thy Golden Legion
Homing back to Thee.
Ruth of Miami S.L.A.

TRUE LEADERSHIP

Draws - does not compell.
Invites - does not demand.
Encourages - does not criticize.
Leads - does not dominate.
Shares - does not dictate.
Finds good - does not find fault.
Builds up - does not tear down.
Speaks little of self - speaks
much good of its Brothers.
Sees possibilities - does not see
personalities.

True leadership is comfortable to
live with and washes away irrita-
tions in a spontaneous flow of
love and joy.

Ruth of Miami S.L.A.

ORIGIN AND MEANING OF THE HYMN

On awakening one morning, I found myself high in the air looking down. Below me were little islands of pure gold gleaming in the sun. The sea about them was a soft yet vigorous lavender which rose in gentle swells and broke in pure white on the golden islands. After weeks of pondering I learned that the violet sea represents Christ-consciousness and the golden islands are those members of the Golden Legion who are now awakening.

On another morning just before Christmas, 1961, I awoke to a glorious golden sunrise. The bay in front of my home, the clouds,

the sky were all pure gold. Golden light gleamed from the little boats and from the fronds of the palm trees. The words of the Hymn came pouring into my mind. I transcribed them as rapidly as if I were copying them from a book. I was told that this Hymn has been hidden in the hearts of The Golden Legion for at least 300,000 years of service in the Planet Earth. The ideas expressed are the first to be introduced when the celestial language of hand and body signals begins to be recalled. Making themselves known as present in uniform thought at the time of the recall were Mary, St. John, Morya, The Little Flower, St. Francis and St. Anne.

LEGIONS OF ANGELS WILL HELP US

Prince Michael - Angel to His Majesty, THE LORD OF THE SUN, and in command of His Angelic Hosts even as Jesus is in command of The Golden Legion and humanity marching toward Christhood. I greet thee, oh Priestess of THE LORD OF THE SUN, with the ancient salutation: Sha mar ye toy ya! Sha mar ye toy ya! God bless and keep you in His Golden Light! Long have you served Him faithfully and He is fully cognizant of your sacrifices. He has come to you because you are most open, ready and worthy. Your dedication is complete, your understanding most clear, your channelship most filled with the true meaning of the message. You shall be His messenger. If His messages cannot be added to the publications of other groups you will publish them separately. Bear the fruit that it is rightfully yours to produce that all may know the true Christ Presence within you. I, Prince Michael, will help you with any project requiring the exercise of Angelic Powers under the First Ray. My Legions shall be used in your behalf even as for the Prophet of old. I, Prince Michael, so say it. Call upon me when you have need of great power. We are here for that purpose. When you call you open the door for our power to be more effective in the situation.

You and all other active workers in Program Jesus, Operation Deliverance, have come so far and yet are only on the threshold of your true Golden Legion powers. In other Solar Systems on many other planets you have risen step by step. This knowledge you have laid aside to be able to return and help those you have lived with and taught. Now is the time for you to shine forth. You bring in your hands the child of your creating, the spiritual fruit of your womb, in this mission - the Immaculate Conception from God the Father - all the kind words, the good deeds, the radiated Light of your sojourn in the Earth dimension. With the help of the Father, OUR LORD OF THE SUN, this babe shall grow to maturity in the work you shall yet do before returning home.

Courage, My Brother Ruth! Step forward. Try your strength. The power is within you and each of your coworkers to do all that Jesus did and more. Step forth and try. Greater works? Is not helping to calm a hurricane, an earthquake or a tidal wave a great

work indeed? Is not the lifting of mass mind to a higher level a great work? Rejoice and shout for joy that that which is born of you is a lusty manchild, great to perform the works of The Lord.

SPEAK FORTH MY WORD

A Great Voice Within commanded: Speak forth MY WORD! (Three times The Voice repeated this command in ever louder and more thunderous tones.) You were once told to speak to a vine. You have been told to speak to the water, to the Earth, to all My kingdoms and My peoples. SPEAK FORTH MY WORD! Speak My Word and I will take care of the sending it forth. Fear not. My faith and My power is in you. Only stand forth. Give out My Word as I have given it to you. Worry not about pleasing others. Some may desire clipped speech. Some may desire beautiful language. What the true heart desires is Truth in any language. However you speak, give forth My Word and there will be those who will receive it.

12/10/1961

With this command ringing in my ears, I hasten to obey. As guided by Spirit, I have stepped out upon the promises of God and set up an independent group which will provide the freedom necessary to LET GOD FLOW AS HE WILLS.

Great love and gratitude pours out from this group to all persons and groups who have helped us prepare for this moment (the sending forth of our first bulletin.) We wish to thank especially Mark-Age of Miami for without the sojourn under their wing none of this would have been possible. The training and contacts which we received there are invaluable. Our deepest thanks also go to Universarium Foundation of Portland, Oregon for introduction to this field and for the insight which foresaw an independent endeavor for us as early as June, 1961, and to Star Light Fellowship Unit 72 of New York City for its precious sustenance during our period of organization. We rejoice in being firmly and definitely coordinated with Program Jesus, Operation Deliverance, and all who serve therein on all levels.

Let us give thanks together that God is expanding His Manifestation in so many areas and types of endeavor. There can never be enough of us speaking forth God's Word. Let us hear each other since we also desire to be heard.

SOLOGA ACCEPTS JESUS' COMMAND TO HEAL

SOLOGA joyfully undertakes the Healing Work of the Christ. We know that of ourselves we can do nothing but God doeth the works. We advance in His Faith, not our own. We understand that the fullness of the Healing Power of the Christ is ours to use in your behalf. Much healing power emanates from our group meetings and from the healing thought and touch of our members. The Golden Legion develops healing power in groups and in individuals.

Instantaneous healings have occurred in our meetings. Word has come that the healing power of SOLOGA has been felt in countries across the ocean. We maintain a Healing Shrine. If you desire our help, please send us your requests. Your name and problem will be placed in our shrine and our Invisible Messengers of Light will come to your aid.

THE LAW OF MULTIPLICATION

The law of gratitude and thanks-giving is the law of multiplication, therefore we gratefully accept your donations to our work which is based financially on faith alone. May God from His infinite substance multiply the gift to the giver as He multiplied the loaves and fishes that His WORD may go forth.

TURBULENCE TO CONTINUE

Meister Eckhart: The following prophecies are given solely for the purpose of helping you to direct your prayers to possible trouble spots. It is understood that the great Forces of Light now at work for our planet in this time of crisis use our prayer power effectively to draw off the shock waves into some uninhabited area if possible. Therefore, it is extremely difficult to pinpoint place and time with accuracy.

There will be still much turbulence in magnetic currents through and around the Earth; hence there is great danger of accidents in all sorts of transportation or earth-moving activities. Great danger of earthquake in the Himalayas and mountains of China during the month.

WHAT IS SOLOGA?

SOLOGA is a unit of the Golden Legion of THE SOLAR LOGOS dedicated to speaking and living the WORD in this plane of vibration. Its name is a composite of SO from SOLAR, LOG from LOGOS, and A from Aleph or Alpha and Omega. The SOLOGA therefore means GOD expressed here and now. It is a prayer from the heart for at-onement with God and a declaration of man's existence in GOD. It means: We are keenly aware of GOD'S Presence at all times both within and without, of His Light, Love, and Truth pouring through us; we let the Light of GOD shine. SOLOGA means; Let the WORD of GOD be spoken in this place and this time. It means: The WORD of GOD has become flesh in us. SOLOGA is pronounced: sō-lō'-ga.

SOLOGA ACCEPTS

No limits to man's ability to receive instruction and guidance from more highly developed Beings both visible and invisible.

Every man's right to hear the WORD of GOD within himself and to speak it forth as he hears it.

The right of each individual to hear Jesus of Nazareth or any other expression of the Word and to give himself as instrument

or channel to any Higher Teacher for our instruction.

The right of each individual to choose the highest and best from all the instruction given according to his own careful discrimination.

The fact that what is truth to one man may seem an affront to another because of differences in personal background and experience.

GOD'S guidance of all men in finding that view of truth which for the moment is needed to balance his on-going development.

GOD'S speaking to man through all the great enlightenments of the past and each man's task to sort out the Truth of GOD from the distortions of man's misunderstandings and perversions.

GOD'S giving of truth to all times, ages, races, and individuals, and man's responsibility to see and hear this truth correctly and to build it into his being.

Complete individual freedom of thought and choice without domination or dictation from any Earth leader or organization.

God gave each individual dominion over himself but no individual dominion over any other.

Man's chief business of life to find his own Highest Good and live it to the best of his ability, thus expressing the WORD and fulfilling the Christ within.
