

SOLOGRAPH 3

March, 1962

WE ARE ONE IN GOD. ALLELUIA!

E PLURIBUS UNUM - OUT OF MANY ONE

THE LORD OF THE SUN: speaking through Ruth of Miami words to be transmitted to all who will read and accept them. I AM THE LORD THY GOD WHO HEALETH THEE. By the power of My thinking I have established thee within My Consciousness. The Life Power of My Being gives thee life. The Consciousness of My Thinking is to thee thy mind in all of its levels of expression. I have established thee to fit in perfection and harmony into the Pattern of My Being.

My Love flowing through the matrix of My Thought of you holds you in manifestation and draws from the Infinite Substance of the Eternal Light those constituents needed to build the whole of you on all levels. My dream for Myself includes you. Even as you carry your heart within yourself with you everywhere you go, so I carry you within me as I progress over upward and expand ever outward in Spirit.

I, The Lord of this Solar System, whose Vortex of Being is centered in your life-giving Sun, am now advancing into the arc of space known to you as Aquarius. During the next Great Day of the Central Sun, We shall develop in you the powers of Spirit and Its dominion in My Realm of Light.

I call upon you to awaken to conscious at-onement with Me. I pervade you. I AM all of you. You are a treasured part of me contributing your manifestation to the whole. All are one in Me as I AM ONE. Be at peace in Me. Love Me in all of yourself and in all that you know.

I call upon you to discard all barriers to Oneness with Me and My Creation. Be not a thorn in My Side which I must pluck out or an abscess which I must drain. Love one another that ye may love Me. I AM ALL-IN-ALL AND THROUGH ALL. In spite of human thinking or appearances, behold Me in all men regardless of color, caste or condition. Behold Me alive and conscious, although at a different rate and pattern of expression than man, in every unit of existence from the most minute electrical particle to the greatest celestial body of this System. I live in what you call the mineral, vegetable, animal, elemental, astral or etheric kingdoms. All are in Me and of Me.

That power which holds all in pattern and place is My Love projected with the power of MY THINKING through the Light Pattern of My WORD to you. Be at peace and accept your place in My

Eternal Harmony. Thus on this day of My Initiation into a higher Golden Order of THE SONS OF SUNS I draw you with Me into a higher spiritual vibration which makes consciousness of Me and communication with Me easier to you. I carry you in My heart into the great Golden Temple of The Suns where I kneel for the touch of the Rod of Higher Illumination.

We shall go forward as One. Let us rejoice together as we step onward in the Path of Light toward THE ONE who is as incomprehensible to Me as I am to you. Since I AM ONE, in reality there is no you; there is only I since we are all I together.

I draw you more tenderly in My Love and maintain you in greater clarity and brilliance in My Eternal Thought of you. I cherish you as a mother does her new born babe; for on this day We are new born together into a richer experience in the Great Life of the ALL. I tenderly invite you to draw closer to My Heart, to attune yourselves consciously to Me that together We may say I AM THAT I AM in the Perfect Harmony of the WORD, the Christ Consciousness for this time and place. E PLURIBUS UNUM - OUT OF MANY ONE. SOLOGA! (I AM ONE)

Received just after noon on Feb. 9, 1962

At the close of the preceding message, I saw a man striding forward with face uplifted and holding the hand of a child who skipped happily beside him. I asked if this were not the impression of an anthropomorphic God but was told, "No, this is only a symbol for an inexpressible love and care."

THE VISION OF THE SOLAR INITIATION

On the evening of Feb. 9, 1962 at meditation meeting I found myself as Onlooker poised above the jagged edge of a crater. Outside, the rough serrated rock fell precipitately into darkness. Inside, a soft golden glow filled a bowl-like amphitheater. All details ceased to exist in this sea of radiance. As I looked longer I perceived a great assemblage of Beings of Light filling the bowl, their forms faintly outlined in a brighter light. All were leaning forward and concentrating intently on a Tall Pillar of Light in the center. I knew that they were helping in some way. Nothing of form was distinguishable in this central column of Light which began slowly to rise in height until IT towered ever farther upward. At last Arms of Light seemed to be lifted in intense yearning. Then I was aware of a Cloud overhead which parted but still concealed the Being above. Arms of Light reached down eagerly to clasp those upraised Arms in a merging of greater brilliance and ecstasy. I realized that I was witnessing a symbol such as I could understand of what our Solar Logos experienced in His Initiation on that day. I knew that as Onlooker I was symbol for all of you and must share this vision with you.

I asked of the One I sensed beside me how these Beings all seemed to suggest the form of men of Earth. The answer was plain,

his experience is good and of God while that which brings pain, distress or poverty is an opposing force of evil. This must be so long as man keeps himself separate from God. When he comes into at-onement he knows that that which seems to be the worst evil is for the Highest Good in the Mind of God as He maintains the whole or it could not happen. God's Will IS done in Earth; but man applies the standard of his own immature thinking and limited sight to God's Will, and imagines an opposing force which must be overcoming the Will of God. Thus the blind lead the blind and they both fall into the ditch.

Blessed are they who can place such faith in God that they concentrate the force of their lives in coming into alignment with God's Will for them. They shall behold with the eyes of the Onlooker applying their power to help where it is most needed. They shall not dissipate their strength in bemoaning the evil in God's plan for man's evolvement which decrees that each lesson be thoroughly learned before promotion is granted. Man must learn by his mistakes if he cannot learn by accepting the word of the All-Teacher. Ultimately all will learn by some method and will advance to other expressions.

Because man's understanding is limited to so narrow a segment of God-Life he is incapable of correct judgement. Therefore I repeat: Judge not that ye be not judged, for on the level of understanding which you use in your judgement you must also be judged. Put aside adverse judgement for God's purpose must be fulfilled. The one who seems to do you the greatest harm may really be God's Angel to help you into the position where you can best learn what your soul has chosen for you to learn in this experience.

Again I repeat: Love one another for each of you is a thought of God working out His purpose for you at the moment. Love those who seem to be your enemies for God is using them to provide you with the necessary problems to develop your right response that you may fit perfectly into His pattern for a Son of God on your level.

Marvel not that I speak at length. Those who reported my teachings in Gallilee were limited by time and materials and their busy lives as my missionaries to the barest report of the most fundamental or striking portions. Remember I talked to a great multitude for three whole days when none of us paused for food. (Matt. 15:32)

Let my word flow through you unchecked. All of it is needed to feed the multitudes. Each individual must receive what he needs. That which you may hold back may be the very morsel that some one of My Beloved Ones needs most sorely at the moment. Again I say unto all my channels: Let go and let God's Word flow. May the Love of the Father pouring through me minister to your every need. SOLOGA! God's Will is done. 2/12/1962

"If a being from some other planet whose form would seem utterly alien to you were watching, he would see all of these Beings in his shape even as you see them in yours."

THE ALL-THINKER IS INFINITE GOOD

Jesus: Little Ones, my Brothers in Christ, Christ is a term applying to Son-Consciousness. The Christ is the Son of God. When man comes into full and complete expression of Sonship on his level of manifestation, he becomes a Christ or Christed One. Christ is a title meaning having come into full awareness of oneness with God. Each step upward opens to being new goals of attunement. As each goal is reached and being is Christed for that level, initiation takes place and Being moves upward to a higher level, even as a child is promoted in school. Thus the ALL-FATHER draws His Creation ever more fully into attunement with the whole and ever higher in development toward perfect Spiritual likeness to Him.

We say being instead of men for there are many forms given to the expression of God's Being which are evolving as rapidly - some more rapidly than you are. There are thoughts of God in being in forms so different from you, some quite intangible to you, that you could not recognize them as alive or intelligent, yet they are parts of God even as you are. Until man can fully understand the fact of timelessness, it is impossible for him to accept life and intelligence, knowing pain and joy and capable of intercommunication, in life systems expressing in lower rates of vibration. Hence he has not recognized the God-life in such expressions as stone or wood.

All that exists is alive in some rate of vibration or it would cease to exist. The seeming universe is pure thought expressing itself in the energy of light in an infinite number of complexities of vibration and pattern temporarily held in stasis until the higher forms which it serves no longer need it. Then the ALL-THINKER transmutes that energy into other forms of use to Him for other purposes.

The ALL-THINKER is INFINITE GOOD. His thoughts of Higher Good lead him to transmute His energies into other forms by processes which to man seem to be destructive. To a cell of certain types manifesting in an abscess, the cleaning of that abscess seems to be the destruction of its very life; and yet nothing is ever destroyed. It is only transmuted to a better form for better use than it knew before. The abscess is the place of incarnation for those forms of consciousness that on their plane are struggling upward even as you are. They live, make their transition and re-incarnate so rapidly that when the abscess is drained and healed they are able to express on a little higher plane, having extracted from their experience all that was to be gained by it.

Man has set up his own arbitrary standards of what is good. He thinks that that which brings greater health and comfort into

AN IMPORTANT NEW AGE ANNOUNCEMENT

Mary: This is the week that I have chosen to make an important announcement. Last week was the birth week of this group known as SOLOGA. It is my great pleasure to come to you this second week and make this fundamental statement. Any of us who address you from the Higher Planes have been many people; we have had many different expressions in many planets and places of the life of God. Always the One must separate Itself into the Two that the interplay between the Two may produce creativity. The Two are the Father Principle, the positive, the masculine, and the Mother Principle, the negative, the feminine receptivity. From their cooperation and their coordination, their blending and their giving springs forth the son, the child, the product.

Then the Two, the negative and the positive, must be drawn together again into the One. Thus the rhythm of life is established, the one separating into two for productivity, reuniting, separating and reuniting again and again. Each thought of God has its feminine aspect and its masculine aspect. In the Earth plane these aspects appear as separate personalities. On higher planes they often are united as one personality. As they separate again to go about God's purposes, they think of each other as the other half of love and the other half of understanding. They reunite again in the perfect oneness of God which created them. Again they separate and again they unite. This is the rhythm of God-Life expressed in His thoughts which manifest themselves as the beings of the universe - widely different beings all through the Omniverse and all forms of God's life.

On Earth the One is separated into the two. The masculine aspect at the beginning of the Piscean Age was most important. It was the time for the strong positive masculine influence to make itself felt in the race of men, to develop itself more highly. Therefore at the time of Jesus the women were kept in the background. The feminine aspect has always been as important and as necessary as the masculine; but at certain times in the rhythmic cycles of man's development the feminine must be subordinated to the masculine. Then again it comes to the fore taking its rightful place as partner. Once in awhile when the masculine has completely overbalanced itself, there must be a swing to the feminine even to the extent of matriarchal government.

The Aquarian Age is to be a time of balancing. During the Piscean Age the masculine, the positive, was most important. Courage, strength and the aggressiveness of the positive side of being were emphasized. In the New Age of Aquarius there must be the bringing forth of the gentler aspects of receptivity. Therefore, one of the marks of this Age is the coming to the fore of those who receive and give forth, those who are called channels and speak through that which they receive. The negative on Earth is receiving from the positive of God and giving it forth.

In the One which manifested itself as masculine in Jesus -

in that one united thought of God I, Mary, am the feminine. This is an announcement which has been understood by many before but never given forth so definitely. Some have talked of twin rays or twin souls. This was to enable man to understand the closeness of the masculine and the feminine in the One.

Earth is a place of separation. Jesus expressed at a time when a husband was expected to care for a family and to be the king in his home. When a man took on the responsibility of being a husband, he would be expected to care for his wife and children to the best of his ability as long as God gave him life. Jesus knew that he must leave the Earth early, and that his work was such that he could not care for a family. He sacrificed earthly ties to his mission and did not allow himself an earthly marriage. This was not because Earth marriage is not pure and clean or that love for a feminine mate would debase. It was that his life was given completely to the one aspect of service to God and could not be shared.

As the feminine aspect of the one, I was allowed to manifest as mother and thus to minister unto the masculine aspect with that interchange of radiation on an intangible plane which would make possible the bringing through the works of the Christ for Earth. Now it is my privilege, my delight, and my joy to announce this relationship between that one you know as Jesus and the one you know as Mary the Mother - that we are One blended in the thought of the Father, one spark coming out from the Father, developing through ages upon ages, sometimes separated, sometimes operating as one but always one in the thought of God.

For these reasons the Aquarian Age has sometimes been called the age of woman, for woman is to assume in all respects equality with man. Woman is to come forth into spiritual grandeur as proper spiritual companion for the other half of love and the other half of understanding. In the New Age many will be incarnating, though separate, to find their oneness and work together as a team to bring forth that which God has sent them here to accomplish. Do not ask how this can be or why it is so. Do not think of the problem of sex and your ancient laws, customs, and prejudices. Think of clear light, the light which is the energy of the thought of the Father. As gold and rose blend, so see the masculine and the feminine blended in a pure ray of light to serve God. Even as a white beam may be separated into many colors and each color be blended with another color, so masculine and feminine blend as one or separate as needed.

Open your thinking to the higher levels. Jesus explained that in heaven there is no marrying and giving in marriage. What he meant by that was that there are no problems of divorce, of possession, of jealousy or of lust, for on the higher planes all is light. Light blends with that which is like itself in purity, in clarity, in love and attraction for the good and the beauty of the expression of God. This announcement I am making at this

time for the purpose of opening the understanding of those who can receive it to this relationship of light. As the masculine and feminine on the Earth plane symbolize the union of productivity in love and in the holiness of the marriage ceremony, so Jesus has been spoken of as the bridegroom and the church as his bride. So God announced himself through the ancient prophet by saying, "Ye shall call Me Husband." So in light as light, each being blends with other beings at higher or at lower levels for the purpose of service in the plan of the Father.

In immaculate conception the spirit of God moves in the soul continuously to bring about the blending of soul with God or soul with soul that that which is for the highest good may be produced. Blessed are they that have ears to hear this word and not be offended in it. SOLOGA! I give you the blessing of the Mother Aspect of God.

2/15/1962

SHINE FORTH FOR YOU ARE SUNS

THE LORD OF THE SUN: My children, again I greet you in the Still Small Voice, expressed both in the heart and in the mouth. There are those who hear these words within themselves before they come from the mouth. This is an experience of Me that is often given but seldom understood. Some listen only with the outer ear. Some are able to listen with the inner and the outer ear at the same time. When I give forth My Word it touches all to whom I send it. Never is My Word given forth without effect. If the self-conscious is not willing to receive My Word, I bestow it upon the subconscious and there it lies as a seed thought to come forth into the conscious mind again and again until in its maturity it guides the human personality in that way which is most fruitful and rewarding.

My children, listen to My Word within your hearts. Find My Word in all about you. How will you know what is My Word? The Still Small Voice Within is your guide. Some will be able to receive My Word on one level of understanding, and others will receive it on another level. To one who is not ready, that which is truth to you would seem a sin. There are still others for whom a higher level of truth is possible who might think your truth very elementary.

Do not look at each other with the eye of evaluation or judgement. Be so busy working out your own salvation that you have no time to do anything more for your fellows than to give them love and a helping hand. That which may seem sin to you may be to the other the highest truth of which he is capable. That which might horrify you may be the balancing of a life necessary to its highest good; or it may be a sacrifice on the highest level for the sake of some one else. Therefore, leave evaluation between persons to God. Even I, the One ensouled in your Sun, must leave evaluation to One Higher than I.

For yourself, seek the highest good of which you are capable.

If a thing does not appeal to you at that moment do not force it. Take what does appeal to you for that is what is needed to round out your experience. Later you may find that that which you rejected at one time is of the utmost value to you. The stone that the builders rejected finally becomes the head of the corner. This occurs again and again in every life.

Be not dismayed if others reject that which is dear to you. Follow the light of the Sun within yourself for you are Suns. You are vortices of light, shining, giving forth rays of light important to the place where you express. Let the light of the Sun within you shine forth, and as it shines more light will be possible to you. In the added light you will be able to understand truths as light which before seemed darkness to you.

At various stages in man's development certain laws and boundaries were set by his guardians to protect him from doing too great harm to himself. The Age of Aquarius is an age of greater freedom. Man is awakening from his long babyhood and is able to handle some of the forces of the universe without destroying himself. Therefore man may learn that some of the prohibitions of the past are no longer in effect. This does not mean an overthrow of the fundamental laws of good. It simply means that many man-made interpretations of God's laws will be superseded by that which is closer to the man of the future and which will give him the freedom for his development.

My beloved children, the way upward for you is love and understanding. Until you have lived the life of your brother you could not pass an evaluation upon him. Had you yourself gone through all that he has experienced in times past, you yourself would act as he is acting at the moment. Therefore, live in love. Seek to insinuate your sympathy, your thinking, your feeling into the personality of the other and understand him.

Work from the premise that God is living that other life as it should be lived for the highest good of all. No matter what the outward seeming give love, for love is what is due to God in whatever expression He presents himself to you. Do not fear to love; fear not to love. Not to love that which is God is the disaster. Love with the love of God and there will be nothing but beauty, joy and light.

My Peace I bestow upon you. My Peace I place in your heart. Into the center of peace within you I project My Love. In Peace and Love go forth to reflect My Light with joy. SOLOGA! The light of God shines in you and through you. 2/15/1962

We wish to renew our expressions of gratitude to Star Light Fellowship Unit 72 of New York City who have so generously encouraged and supported us. They have served as coordinators for us to keep us in touch with so much and so many. Ganta of Gold Sector has given us such wonderful love and light to urge us on. We will always be grateful to all of you who have received our

efforts so kindly and have sent us your love and encouragement. God bless and keep you all.

SOLOGA INVITES YOUR HEALING REQUESTS

SOLOGA is very happy to receive your requests for healing. We work diligently in the faith and power of God. Of ourselves we are nothing but we have proved that God never fails. We all feel great power at our meditation meetings when healing is sent forth. Complete healings have been reported during the meetings by those present. Absent treatments have been equally effective. We also offer a healing tape, a message to you from Jesus. Materials and postage for this tape cost us 94¢. We gratefully accept your gifts of love that we may continue to send out our material.

ETHERIC TEMPLES ABOVE OUR CITIES

JUNE of Venus: It is my office to construct bonds of light between the groups that are growing up in our various anchor points. I have spoken to groups like this in four great areas, in Southern California, in Portland, in New York City and now I make contact with SOLOGA in Miami. Over each center of great population a beautiful golden temple of Light is being erected. In this etheric edifice etheric Beings gather, just as you have gathered this evening, to pour through themselves from the Father, the Solar Logos, from the Suns and Sons of Suns, those energies and beams of light which are needed by the city on the Earth's surface.

Above your city a beautiful temple is now being built with the thoughts of the beings both in the Space Ships and the Etheric Realms. The great Beings expressing themselves as Suns play their light above your city to help construct this place of help and healing. I am personally in charge of seeing that the light is properly blended and properly woven back and forth between all the groups.

At the present time much rose light is being beamed into your city because you have the problem of the dear ones who are absent from their precious homeland and are what you call refugees. Their burden of sorrow and anxiety for their loved ones and their country needs a great deal of love. We ask that as you send out love you try to visualize it going on a beam of rose light. Also at this time of your bus strike many people are disgruntled and unhappy, not only those who desire more money but also those who cannot get to their work on time. All of this creates confusion which needs the healing light of love to balance it.

This is not the only light we are sending to Miami at the moment. Upon your hospitals play great translucent invigorating beams of green. For such concentrations of sickness and despair, much adjustment is needed and the green is the color that brings that adjustment. On the Sabbath Day much blue and lavender is

added that those who go to church may find their hearts open, their consciousness lifted to the God-consciousness and that all may be drawn upward in thought. Over all however there is such a wonderful beaming of golden light that I am sure if you look you can see it with your physical eyes. This is true for all localities. Such a golden shining glimmers from the leaves of the trees and the little wavelets, from the glass of the car windows and the telephone wires. Anything that reflects light will often throw a pale golden cast if you will look with eyes that see. This is because of our movement into the golden light of the Central Sun in that arc of space you call Aquarius. The golden light is the light of self development and psychic skills of communication on a higher plane and of dominion over all the forces that enter your body.

I am very happy to serve you. If you will look I think you can see in your mind the four points on the map of the United States which I have mentioned. Beams of light tie the four corners which have been called anchor points together in every direction. Strong beams of light make a rectangle and others make diagonals. From the central point where they cross there is a beginning of rotation like from the center in the hands of a clock. These beams of light are not limited by your boundaries but sweep out over the oceans and the neighboring countries. These are cleansing beams of great strength making all one and bringing all into attunement and harmony. More than you could realize, the consciousness of man in North America is being lifted by these beams of light.

Perhaps if you will meditate on this you may be able to see these beams and the temple over your locality. You may know just what colors are being sent to you and for what purposes. Now I will say to you SOLOGA! It is my great joy to serve you in the Word of the Solar Logos. 2/15/1962

A WARNING FROM LEMURIA

Lemoran of Lemuria: During my years of service in the continent of Lemuria I attained Masterhood. As an adept I found my dominion over the forces of the universe and learned how to use them. I learned how to manipulate the forces of light so that I was fed by them, strengthened and renewed without other material aid. I could heal. I could do many things which today would be called magic or a miracle. Many in Lemuria had great powers but they used them for great harm to others. Just as your scientists are experimenting with great forces of destruction before your race has grown spiritually to the point where man could not from the heart of him destroy anything, so our race attained dominion before it was ready spiritually. Some of us used our power as God would have it done, but others used their dominion selfishly to oppress those who had not reached their state of development. The oppressor must always become the oppressed. The oppressed in

Lemuria decided that their life as slaves was not worth living. With the psychic power of their great unhappiness and despair they destroyed their whole continent.

As prophet of that time, I foresaw what was coming. I gave forth the warning. Some of those who believed left and took up residence in districts known to you now as Japan, the South Sea Islands, and your own West Coast. I myself remained to do what I could to alleviate suffering through the last moments.

I come to you therefore to say that as you approach your own dominion (which seems to you now so very far away but is much closer than you think) you must purify yourselves spiritually. Sweep out of your hearts and out of your thinking all that would gather into a vortex of power to destroy you. That which you send out will come back to you. If you send out good you will receive good. If you send out evil you will be destroyed by that evil. I caution you very seriously - and this is extremely important - to weed out of your thinking all antagonisms, for those who send out antagonism must receive antagonism in return. Cleanse yourself of all hatreds. Be sure that that which you send out is pure love.

The storms of human fears, anxieties, cruelties, criticisms, and frustrations gather in great vortices that become cyclonic in their electrical disturbances. Such psychic storms sweep through a whole race. Such a storm is now in progress in Algeria and is the cause of the danger to that locality, to the mountainous regions of central Africa and the Balkans, and to their antipodes, New Zealand and the ocean floor eastward.

He that deceives must be deceived. He that denies must be denied. He that rejects must be rejected. Many who stand in the pulpits of churches or in the places of leadership today are determined that everyone shall believe as they believe or be labeled a heretic, a heathen, a stupid fool, or a traitor. Everyone must believe as they believe or be swept out. Thus you will find groups that seemed to have great promise apparently folding because as they swept people out of their way people in return swept them out of their lives.

You who stand on the threshold of great development must purify yourself in your thinking to be worthy of the advancement which is rightfully yours. It is but a step into deeper faith, into the knowledge that by thinking a thing is done. When you fully know this and it becomes yourself, you will know how to renew your strength from the great life force of the Cosmos, how to feed yourself from Solar Energy and how to use the law of multiplication of substance. But lest you should misuse these powers, may I caution you daily to put yourself fully in the Christ Light, to love as widely as you can, and to give yourself into the Will of God.

I speak from the deadly experience of a whole continent and sixty million human beings who drowned in one night. I bring you

this message which may seem dire yet is full of great hope, for you can profit by their mistakes. You who read this have but a short way to go to purify your thinking of all criticisms of others and criticisms of yourself. See God in everyone as He is in you. Thank you for letting me speak to you. It is a great pleasure to number myself among those who serve your group.
SOLOGA!

2/15/1962

DON'T JUST TALK IT ---- LIVE IT!

DON'T JUST THINK IT -- BE IT!

WE PROCEED TOGETHER UP THE PATH OF LIGHT

THE LORD OF THE SUN: Peace be unto you. I, THE LORD OF THE SUN, speak to you of My Golden Legion gathered under the name SOLOGA. This name is very special to Me for it calls upon Me three times whenever it is pronounced: Solar for the Sun, Logos for the WORD, and Alpha for the Beginning, the Source, for in Me all things manifested in your place of being had their beginning. I think and in My Thoughts pronounce the WORD; then that which I think comes into existence.

Long, long ago the Great HIGHEST OF THE HIGH, who is the Father to Me, sent forth the WORD and I became. For aeons of time I have served here and there through the Omniverse until I earned the right to establish Myself in this place in space and serve My Father even as the One who walked the surface of your planet and said, "I do always those things which please Him."

This day was a step upward for Me, your Solar Logos. This day I entered the great Temple of the Suns, of the Sons of the Suns and knelt before the Initiator, not as you would kneel, not as you would carry your body into your material house of worship, but in the Spirit and in pure Light in the Temple of Light. Again I gave Myself with all of My Being more fully into the service of THAT WHICH IS. I come to tell you in Spirit that you are one with Me in this step upward.

I know that it is almost unbelievable to you that I should speak thus to you through a human mouth. Yet why can you expect to hear THE STILL, SMALL VOICE within your heart and yet deny Me the privilege of speaking to you face to face, heart to heart, and mouth to mouth. Always I have spoken to you through the mouths of those about you. Always when there comes the word of love, the word of encouragement, the kind word of guidance, I am speaking through someone's mouth to you. Therefore accept Me, My beloved ones. Accept Me in this new relationship. Call upon Me and I will speak with you even as I am speaking now. I will teach you through your own mouth. Your mouth shall be My mouth and My Word your Word, when you are able to break down the barriers of your own fear thinking. There is no separation between you and Me for We are One except as you imagine a separation.

I have been speaking through many for thousands of years. Ministers in the pulpit speak from inspiration which is the touch of My Thought in their minds. Statesmen give forth the great words of wisdom from My Thoughts expressed through their mouths. At the present time I am accepted and am speaking consciously through more channels of this kind than you have heard of. Each is a little afraid. Each fears to step out and repeat the words, "I AM THE LORD THY GOD WHO HEALETH THEE." Some there be who will surely say, "Oh oh - this one is certainly out of his mind;" and yet I say unto you to be willing to let Me use your mouth consciously brings you into My Mind. Instead of losing, you gain all. Therefore I speak through the mouths of those who fear not.

I speak to you in great love and devotion for you are as dear to Me as the finger on your hand is to you. I need you even as you need Me. Let us come together in great harmony and work the works of Him that established Us in unity. Let us proceed together up the great Path of Light which knows no ending as far as I am able to see.

Remember that when you say "I" you are speaking of being one with Me for I AM. Whenever you use that word "I" you are aligning yourself with that Being who is referred to in your Bible as The Father, The WORD in your time and space, the SOLAR WORD for your Solar System. Accept Me as I have accepted you. I maintain you in My thinking. I promise you that this shall be throughout eternity. I shall serve you loyally and faithfully and I call you into the same devotion.

May I say unto you that there is but one true way to love Me and that is by fully loving each other. You cannot think in your heart, "I love God," and then reject the poorly formed stone at your feet, for when you reject the stone you reject Me. Therefore enlarge your loving; expand your consciousness of who and what you are. Come into My Presence with great joy for I love you; I rejoice in you. Rejoice in yourselves and rejoice in Me. I say unto you that which has become the benediction for your group working together in love and in peace for I value each one of you as I value My own Heart. I say unto you SOLOGA; Peace! My Peace I give unto you; not as the world giveth give I unto you. SOLOGA!

2/9/1962

GA-BRI-EL ANNOUNCES A BIRTH

Ga-Bri-El, an Angelic Messenger of the Sons of Suns; I bring from the region of the Sun a message of love and an announcement of joy. I came to announce to Zacharius the birth of his son, John the Baptist. I came to Mary to announce the birth of her son, Jesus. Now I come to make an announcement to you.

First I must explain that in your Revelations seven spirits before the throne are mentioned. These seven spirits are simply words used to explain the divisions of light. You know that your white light is divided into seven major colors in your rainbow.

The seven spirits before the throne are seven rays of light. I operate on the second ray which is the emanator of love from God operating in wisdom - Love loving through wisdom.

How frequently you have thought that a wise mother loves her child quite differently than an unwise mother. When we think of the second ray upon which I, Ga-Bri-El, operate we think of wisdom along with the love. You have heard from my brother, Mi-Cha-El, who operates on the first ray of will and power. Before one is allowed to do that he must become one with the Love of God and know how to pour it forth. He must become one with God in love and give to God the fullness of Love from every bit of his being.

This is what Jesus meant when he said, "Thou shalt love the Lord, thy God, with all thy heart, and with all thy soul, and with all thy mind." When you have come to this point of complete and perfect love for that One who is your Source in the fullness of all your being - that One who has given you the very existence of your individuality and let you be what you are - then you gladly embrace His Will, gladly give yourself fully into His Desire for you. Then you know that since He is living your life, He must live it rightly and wisely; therefore His Will is the right will for you.

When you have loved sufficiently to give yourself fully into His Will then you become one with His Power and it flows through you to create conditions of harmony and perfection in all your affairs and in the world around you. Therefore I come to you to say: Beloved Ones, love one another. Let God live His Love through you. I come to announce to you the rebirth in yourself of the love of God.

At the beginning of the Piscean Age, one woman brought forth one man who was said to be the Savior of the Earth. He was the Savior, not because of any mystery which you cannot understand, but because he knew how you could come into the understanding of God and save yourself from all of the distress of the Earth life. He came to show you this Way and by so doing He was the Savior. He showed you the complete and perfect love of God by being willing to die a death of shame that you might know that God gives His Life in love to you.

Later churchmen twisted the meaning because they could not understand this concept. They developed the thought of the blood paying for sin. The blood is a very sacred thought but it stands for the glorious crimson radiance of the vigor of life - the red ray of power upon which Jesus operated in the masculine form during the Piscean Age.

Now I come to announce that all men and all women are visited by the Holy Spirit that there may come forth from them the New Born Babe of the Christ Consciousness. Through the love of the Father for you and your love for the Father there shall be born of you, men and women of the New Age and all those who come

after through the full round of the Age, the growth of the Christ Consciousness in every heart. This is the rebirth of the Christ on Earth at this time. This is my announcement as the Angel Ga-Bri-El, messenger of the Suns and Sons of Suns, speaking the WORD as given me by the Father. I would say unto you that word which is so grand and so sacred since it says the name of God three times. I would say unto you SOLOGA! May the Christ Love be born in you. 2/24/62

GROUPS ARE THE INSTRUMENT OF THE FUTURE

Mary, St. Francis, Hilarion and Others: We come as a group for groups have great power, Groups are the instrument of the future. Let no man think that one in a group is more important than another. The humblest or most timid member of a group, yes even the newest, unconsciously may contribute the final ingredient to produce the Perfect Work. The leader, whose thought must be absorbed to some extent with the details of leadership, may miss the fleeting nuances of the Higher Impression which will become the seed thoughts of the future. Let all leaders come down from any self-built pedestals and let all members step forward in their God-given birthright to contribute that which is given them to share. Let all move forward together in loving consideration for each other and let the WORD of God flow in Clear Shining to illumine the coming Age.

All points in a circle are equal. All members in a group are needed to complete the circle of the One. God is always the central point, the aegis of rotation, "the beginning of whirlings" which establishes the vortex. His Thought begins the activity and directs the identity thus produced. He maintains it for His purposes as long as it is useful to Him. He is always the Source, the Thinker, the Teacher, the Leader. Let all group leaders step down into their groups and give over the leadership to the Central Sun of the group around which all must rotate.

When you sit or stand in a circle, the closer to the center you are, the stronger the impact of the power upon your physical senses. The farther from the center the finer and softer is the flow of vibrations around the group so that some may not be aware of it. For this reason etheric meditation temples are built with a central circular pit. As the group begins to meditate the center fills with the glow of the One. We take seats in the type of vibration which we need or where we can serve most efficiently. We open ourselves to the flow of Divine Light. The central point is the focus for sharing. Each makes his contribution to it. Each receives from it. The residue is sent forth according to the will of the Father who knows where it is most needed.

The Golden Legion in small groups - no matter under what name they gather - is being awakened and trained in such group participation. It is easier to become One in a small congenial group. It is easier for the Forces of Light attending such

groups to help each one attain attunement in smaller groups of compatible auras. If the group grows too large it will be divided into smaller units. If some disturb with doubts, fears or other negative thinking and do not synchronize with the common vibration, they will be restrained from attendance until they can become harmonious and helpful.

Each must find the place and level where he can grow. The cogs of a mill wheel cannot mesh with the cogs of the wheels in a watch. Each must work where he can take hold and become a part. Let not the watch be disturbed because he is not a mill wheel, or the mill wheel regret that he is not a watch. The Father has use for each one just as he is. In His time each form transmutes into another. As man matures, neither watch or mill wheel will be needed any longer. The energy of the One in them will then be changed into another form more useful to the expression in the New Day. SOLOGA! All are One in God. 2/22/1962

QUESTION: Why did Jesus whose love was boundless cause the fig tree to die? (Mark 11:12-14, 20, 21.)

Eckhart: The fig tree is a pattern or symbol of an unfruitful life. From him that hath not shall be taken that which he hath. Jesus knew this tree. It was unfruitful and had no right to encumber the ground. Since it had never produced figs he used it to teach two lessons: (1) of faith that his disciples might find the key to mastery, and (2) of fruitfulness. If the life does not bear fruit then that which it has - life - must be forfeited. The purpose of life is to bear fruit in greater and more expanded life. The tree existed for that lesson and gave itself to the Father in its dying, thus fulfilling itself.

GALACTIC SCIENTISTS OF THE HIGHEST ORDER HELP US

Plutana: Very important! Very important! Send holding power to sea floor, to Cuba and environs. Time to work hard now for your own territory! Our Craft is specialized for this purpose and contains sufficient resonators that if we were to use it for such a purpose we could level your whole city at one blast. Instead we use it to hold the great forces contained which would disrupt the sector of the planet's surface which we patrol.

We have been stationed over your city for six months and shall be here for at least six more. We have means of taking pictures of the atomic flow and the build up of pressures in the strata of the Earth clear to the center as you might x-ray a body. We can see by our means of measurement just how great these pressures are. If we can, we lead them, as you might change a water-course, to empty where they will do the least harm.

At this time New Zealand and the ocean bottom east of it are in great danger. Several of our great ships are standing by to serve that point as we are serving you. Remember that the planet is a Force of Light held in stasis but still continually in flux.

As the surface rotates, rolling always from west to east, so the atoms within the Earth are in ceaseless circulation in the same direction.

We cannot emphasize strongly enough that the mental and emotional states of the people are of prime importance to the order of this flow. A point of emotional stress, such as Algeria or Cuba is like a cyclonic center causing disturbances in the path of the electronic flow. We must therefore treat the people to stabilize the electronic structure. We must ease the emotional stress to equalize the shock waves in the Earth. We watch the emotional pressures as an engineer watches his pressure gauges. We work even more closely under the Solar Hierarchy than you do under your planetary guardians.

We are all one, working as one, following the guidance of the Central Council of Suns who are Galactic Scientists of the highest order and who carry the whole Galactic structure and performance into their planning and government. This council can see just what will be needed in each sector in time to provide it. Great energies beyond the concept of man have steadied the Earth at this time. Our hearts sing paeans of praise that so far all great catastrophes have been averted. All in this great ship send you love and blessing. SOLOGA! May the Solar Logos support you as you cooperate with us in love and brotherhood.

2/8/1962

OUR SPACE BROTHERS CONTINUE TO HELP US

Mykar: speaking from Space Craft #1260 stationed above your city. This is an enormous craft according to your measurements with many, many scientists and technicians operating all of the equipment at our command to beam to your locality those energies which will keep it in balance. You are in a dangerous situation on the edge of the Caribbean close to the water at a place where in God's time land that is now under the sea must rise. We are attempting with all the knowledge at our command to help you hold that change to a slow rate that no catastrophe may result. Complicating the situation is the distress in Cuba for fear, greed and hatred cause extra shock waves which disturb the Earth.

We work with you as your Brothers and Sisters. We love you. Very eagerly we would come to greet you but at the moment we are not so permitted. We are living in a higher dimension such that you could not see us if we stood in your midst unless we came down to your dimension, which we can do. At present this would be merely a circus stunt to interest you and would do more harm than good. Just now we need all the energies available to hold the surface of the Earth steady until sufficient changes have been made in the bodies of men and the structure of the Earth that those changes which God has ordained may come in peace.

We work together in love and brotherhood. We do not just talk about it, we live it. Some of you who are enlightened - I

am speaking to all groups of this kind - knowing the difference between the power of love and the power of oppression have sent forth from their being thoughts that were not helpful. We wish to ask you to watch your thinking. You have a saying, "Love God. Love one another." Yet those who are leaders are sometimes great oppressors instead of great lovers. May we ask you to watch every thought which you send forth. Correct your thought and keep it in line with the peace and love which must flow forth to hold this planet in its place. Another beside me wishes to speak with you also.

Plutana: Travol and I are Co-captains in this Craft. We have much to do with the welfare of people in your vicinity. We often send a healing beam to situations which are in our control. Many times we play our beams over congregations of people in churches, theaters, political gatherings, lectures or concerts. We send the colors of light that are needed to balance and aid in the reconstruction of the bodies. You know that a child growing does not realize his growth. From day to day he is not aware of any changes in his body. Then one day he realizes that he is a full grown man.

The same thing is occurring in your bodies at the present time. It is not only occurring in your bodies; it is occurring in every atom of the Solar System. However, the Earth itself has more rebuilding to do than the rest of us. That is why we are concentrated in such great force outside your atmosphere and using all our power to help you.

I too wish to express my deep love for you. I hope that some day I may greet you in person, my beloved Brothers and Sisters of Earth. SOLOGA! God is good. God is very good!

Plutana in the Higher Self: I am speaking not from the Space Craft by beam but as the Higher Self of Plutana from the etheric world just as the Angel Gabriel has spoken to you this evening. I believe that this is the first time that one from a Space Craft should speak to man from the Higher Self. You have heard from the Higher Selves of your channels such as Yolanda of the Sun. Now I, Plutana in the Higher Self, speaks to you. I stand in the Light of God and overshadow the Space Ship, I send down into my physical counterpart, the Space Captain, all the love and wisdom which I can transmit. Thus I too help in this power broadcast. We are using every device possible to send through the energies which have been transformed to our level and are needed just as those energies which you transform on your level are needed.

It is such a tremendous concept, is it not, that beings on so many different levels are all sending their forces, their contribution of the Light of God passed through their Beings to cooperate with you in holding peace and harmony in expression on your Earth plane. We are all so happy and grateful that we have passed through the time of greatest stress and strain with what

you would call the flying colors. Oh, there are still difficult places and great stresses and strains yet to be endured; but if we could weather the difficulties of the past months we have great hopes that we can still weather all that is to come.

I bring you the love of the Higher Selves of all in the Space Craft and the assurance of our devotion to your common cause of developing the thought of love and brotherhood, of Oneness together in God. I say to you as do all the others: SOLOGA! On all levels we are One in God!

2/24/1962

During the Lord's Prayer on this same evening, Clara saw a beautiful feminine figure, a Being of pure white Light, using the hand signals all the way through the prayer. Her black hair was swept up from her forehead. Her arms were like narrow feathered wings and looked soft as down. Upon her breast shone a Sun with eight rays suggesting identification with the escutcheon of Lemuria or the rotating wheel of the Tarot. At the "Amen" she folded her arms upon her breast as we are so often impelled to do. Then she thrust them high and straight above her head with wing tips tall and sharp and said, SOLOGA! We thought this might be a symbolic representation of Plutana in the High Self.

WHAT WE SPEAK FORTH WE BRING INTO BEING FOR OURSELVES

ACCEPT THE CONCEPT OF A GIVER

Judas: I am that one, that sad one, who betrayed my Beloved. I do not come to bring my sadness upon you. I have had nearly 2000 years in which to expiate my mistake. I would like to tell you that I did not understand. I thought that Jesus was supposed to be an earthly king. I thought that if He were put in a place where he faced death or shame, He would be crowded into asserting Himself and taking over the throne of the Earth. I know now that God used my mistake to fulfill the prophecies. I am grateful to have been of service in my suffering. You know I paid severely for my shortsightedness, my material thinking. I am a symbol of the horror to which material thinking can lead the race of men.

When I knew what I had done, my pain was too great to bear. I have suffered much in incarnations since. I have served and served and served; and now I come to you to serve again. I come to ask you for your own dear sakes to forgive me. I do not need your forgiveness for my Beloved Master, my Jesus, forgave me before I had betrayed Him. But you need to forgive me, and the world needs to wipe out of its thinking the negative thought of betrayal.

I am the symbol of betrayal. In the churches I am spoken of as the betrayer. As long as man holds a thought of a betrayer, he makes betrayal real in his own experience; therefore I come begging you to release your thought of betrayal. Know that God

uses every man that the best may come for the whole race. There had to be someone to make possible the cross: There were many as materialistic as I but none so close to Jesus who still could not catch the spiritual Light. It was said of them that God had made their hearts gross. Now God is making the hearts of men light and fine so that they no longer need the concept of a betrayer and can accept the concept of a giver.

Let us know that those who have died in shame have given. They have given their experience to the world that others might avoid that pit into which they fell. I come to you in love, in the love of my Jesus, in the love of God, the Father, the Solar Logos, whose Sun of Love shines in me as it shines in you. I ask that this word be given to those who can receive it that they reverse the thought of a betrayer and see in its place one whom God used; for you know God gave Himself as me to serve the world in my life. SOLOGA! God gives Himself through us. 3/2/1962

EACH MUST FOLLOW HIS OWN WAY

Eckhart: All we of the White Brotherhood are also members of the Golden Legion. We are using the term Golden Legion because we are now coming into a different arc of space where the rays coming from the Central Sun are imparting the actual gold of Sun Consciousness. They are imparting to you new advances in life and new reconstruction of your bodies. This is happening to man in general. Many men are not aware that anything at all is going on and yet they find themselves greatly desiring peace, eager to bring freedom to all the world, anxious to welcome each other as brothers, more eager to help the underdog or the oppressed, sending out more understanding to animals and plant life, understanding the development of crystals.

So much is coming to man that it is almost impossible for him to avoid a state of confusion. All at once the mysteries of Egypt, the wisdom of Atlantis and Lemuria, the knowledge hidden in the Temples of India and Tibet, many new manuscripts, many new ways are pouring into the Earth mind of man. Then add to this the numbers of developed channels, some saying one thing and some saying another and you do not know which to believe. It is no wonder that you are confused. Perhaps something which I, Eckhart, will say will contradict completely something which someone else has said - someone whom you have respected and admired and something which you have thought was utter truth.

THERE ARE AS MANY WAYS TO TRUTH AS THERE ARE INDIVIDUALS. What is truth to you one day and usable, tomorrow may suddenly be left behind as something you have outgrown. Each man must follow his own way. God speaks in the heart of every man. God speaks firmly and clearly; we have to learn how to hear Him.

Perhaps some have heard one way at one time for one reason and some have heard another way at another time for another reason. Pork was denied to the Jews and Mohammedans because there

was danger of the pork worm killing them. Later the Christian Church desired to teach its followers what it thought was the one road to heaven - complete self-sacrifice. It tried to prepare them by asking them to fast certain days or to eat only fish.

Now what I am about to say may seem utter heresy to some but I must recall to you that Jesus ate what was set before him. Jesus was not a vegetarian. Some have said that meat is of a lower vibration than vegetables but I wish you to consider this with me. The densest of all the slowest and lowest in vibration is the mineral kingdom. Can you watch a crystal growing? Does it not take many more years to produce natural changes, such as coal or diamonds, in the mineral kingdom than it does in the vegetable kingdom? The vegetable kingdom is a little higher and more rapid in vibration than the mineral.

If you have studied the thought of that group known as Theosophists, you understand that some groups think that man has come from the mineral up into the vegetable, from the vegetable up into the animal, and from the animal up into the human. Then where are the finer and higher vibrations? First the mineral, then the vegetable, but still higher and more compatible with your own being is the flesh of animals. I am not insisting that you accept this; I am only giving it for you to think about.

Think of Peter who saw a sheet lowered from heaven with all kinds of animals in it. God said, "Peter, kill and eat." Peter said, "Not so, Lord, for never have I eaten that which was forbidden by the law of Moses." But God said, "That which I have cleansed call not thou unclean." This has been interpreted that Peter was to welcome into Christianity all who wish to come whether they are Jew or Gentile. That was the spiritual meaning of the vision, however, the material meaning is valid also - that all of God's universe is for man's use.

There are those who say that killing animals is taking life, and that the fear vibration in the meat disturbs the human body. May I explain to you that minerals and vegetables experience fear as well for they have consciousness although at a different speed of vibration than ours. They are God's life manifested and He is living them just as He is living you. GOD GIVES HIMSELF TO HIMSELF. GOD MAINTAINS HIMSELF THROUGH HIMSELF.

When you sit down to eat think, "Our Father, this which is before me is Yourself given in this form to sustain me, another aspect of Yourself. As we, the two aspects of You, unite we ask that You will bless us, raise us in consciousness and use us to Thy Glory." As the material which you eat becomes a part of your body it experiences incarnation at a higher level. The atoms of that material uniting with your body develop rapidly. When they pass from your body they know relatively the transition which you experience in your graduation from the Earth school into a higher freer life on planes now invisible to you.

Jesus said that it is not that which goeth into the mouth

which defiles a man, but that which is within the thought, within the heart, and is spoken out from the mouth or sent out upon the waves of the ether. Nothing which you eat can defile you. Instead, Jesus said very plainly that what you think about your neighbor, your friend, your associate, the one who is speaking to you, the teacher whose opinion is different from yours, the one in your group who disagrees with you, or the one who is overbearing, domineering, jealous, or tactless - your reactions to all these things - these are what defile a man and not the vibratory Light of God expressed in that which you put in your mouth as food.

I have discussed this at length because it is one of the important subjects which must be thrashed out in the meeting of East and West. Certain people in the East found certain ways of developing more satisfactory to them. One great teacher sat and gazed at a wall year after year. It worked for him; that was his path. You of the western world cannot do that for yours is a more active life. No one brings you food if you decide to become a holy man and live in a cave. You still have to hunt your own food. In India seven-eighths of the population support the one eighth who become holy men. Therefore, examine all things that are presented to you in the light of that which you have already proven to be the truth for you.

The best which you know is that which is best for you now. Build upon that. Go on from there. Make that your own yardstick. In the past one hundred years, while learning that communication with other planes is possible, many strange phenomena have been emphasized. This has resulted in a group of people who lean too much on certain other people for advice, guidance and direction. The time has now come for man to learn to get his own guidance from within himself. This is possible to every man and woman on the face of the Earth.

No matter what road you take to achieve the development of your rightful powers and dominion, keep at it. Keep trying. If one group or one way seems incompatible, Spirit will lead you to another until you have gathered from each what is of service to you. You who are praying or meditating people have been developing unconsciously in this manner for many years. It is but a step for any one who has been habitually talking with God to find the way to talk to those whom God has assigned to him as his teachers and helpers in this life. May God bless you each one and direct you to the path that is right for you.

GLEANINGS FROM THE MEDITATION GROUPS

SOLOGA meditation groups have developed rapidly as centers for the broadcast of healing and constructive power and for bringing through the WORD by voice channelship, clairaudience, and the symbolisms of instructive and prophetic vision. We work together as one. Each experience is examined, discussed, and accepted as

the new religion would be centered in gratitude and praise since Alleluia means, "Praise the Lord."

GROUP WORK ON THE ETHERIC PLANES

As symbolic Onlooker I was lifted to a golden etheric temple in the higher planes above Miami. I stood on an upper balcony and looked down upon forms seated all around an amphitheater and bending forward toward a glowing center of soft but bright light. I was then taken to an outside balcony where I could look down upon Miami with its many small lights in the dark. A beautiful rose colored beam, perhaps a block in thickness but spreading at the base to the farthest outskirts of the city, was sweeping the ground clockwise. It lingered over the spots where Cuban refugees or colored people are congregated. Following the rose came another green beam of healing and adjustment which played more intensely over hospitals and places of illness. It was explained that because there was an accumulation of sorrow and despair over the Cuban situation and a feeling of frustration and rejection among the negroes much of the rose light of love was needed here at present.

Again I was taken to the same sort of temple over China. Such a vibration of misery struck me and I suffered so with them that I was immediately back in my chair at home. I heard, "Think yourself back." This time I resisted the call of human sympathy and kept to the task. I was led down into the amphitheater to a seat with the others. I knew all were thinking help to the starving people beneath them. I realized that all must think as one and wondered how they did it. It seemed that they needed the same thought and yet no word was spoken. My companion said, "Listen within." I tuned in to the Father's Voice which was leading the thoughts of all in a broadcast of love and power that was keeping many below alive who must otherwise have died.

OLD RELIGIONS WILL BE CLEANSED

Clara saw three heads on a white linen sheet being thoroughly cleansed. Water was being poured through ears, eyes, nose, and mouth in a complete flushing. Next she saw a bald headed man wearing glasses pouring over sheets of paper piled all around him. He seemed to be using a pencil to edit or correct them. Finally she was in a temple where many people were gathered and she heard a voice saying, "After five years they will come of their own free will."

A week later she found a picture in a Miami Newspaper almost identical with the bald headed man. It was a Rabbi copying the Torah. Someone else told us that there is a movement afoot to bring Hebrew, Protestant and Catholic scholars together to re-examine the Bible and select passages acceptable to all three. They would hope to form a sacred Scripture which would be a common meeting ground. These then were the three heads being

Then he suddenly shot up as a towering column of Light reaching into the sky way above the Being and he said, "As Spirit I am this high." I knew that during this experience I was but a symbol of man in his present initiation experience and that I had witnessed a symbol of what would take place for man during the period of Feb. 4-9, 1962.

A NEW RELIGION FOR THE AQUARIAN AGE

On the eve of the configuration (2/3/1962) each group member experienced the personal touch of the Father in a different way. Gilda felt a strong pressure on her hand lifting her whole being. She felt so very happy in the knowledge of the presence and loving care of The Teacher of All. Hortense felt a tremendous surge of power, greater than she had ever before experienced - the touch of the Almighty. Charlotte was centered in such deep wonderful peace that she had no desire ever to leave it. She was in complete darkness yet it was so comfortable and harmonious. We knew she had experienced an at-onement with the perfect peace of God. Julio was given prophetic symbols of a new, as yet unformed religion. First he saw the front of a church without door or decoration. An apple floated by, a fish, a crab, and some soft dough being shaped into a still unfinished face. The group understood that these symbolized the elements of the new religion. Into its composition must go the discrimination between truth and error which man has struggled to acquire (the apple) and the WORD presented by Jesus whose sign was the fish for the Piscean Age. The crab representing Cancer prophesies that this religion is to be of the inner man and his relationship to the Divine Parent rather than of the material outward rituals. The soft dough being moulded is the Bread of Heaven, the Christ Truth which will shape and feed the man of the future.

At this same time the group leader, Ruth of Miami, as a symbol of man knelt in Solar Vision with Jesus on the sand of the seashore. A great golden Sun was rising, burnishing the sea, the clouds and the sky with its radiance. Jesus and his companion bowed foreheads until they touched the sand and then, sitting back on their heels, lifted arms and faces in prayer to the Father, the Solar Logos of which the Sun is but a symbol. Since Jesus is the Way-Shower, this seems to suggest that the new religion will establish in scientific clarity the Light Nature of God Consciousness which is the Life of all. Perhaps too the man of the future will seek God alone in a closer touch with His world.

In another vision, Ruth was one of a semicircle of people in white robes seated behind the cais of Melchizedek already described. All were swaying with hands lifted, palms outward, and singing Alleluias. The rod of Melchizedek swayed to direct the rhythm but each one let the tune flow as it would, achieving a lovely harmony so satisfying to all. From this we gathered that

a teaching to be shared with the group and with all who will receive its import. In the awakening of the Golden Legion, some of you who read these notes may find a meaning from your remembered experiences which we have not discovered. We hope you will share with us when this happens. Each of us as Onlooker is aware that we are symbols for man as he reaches the level of consciousness peculiar to the Aquarian Age. Therefore we know that what we receive must be shared with all of you.

THE MEANING OF THE CONFIGURATION

On Feb. 2, 1962, the group in meditation were given visions to explain the nature of the effect of the configuration of planets on Feb. 4th. Edna saw a body of water over which a bridge extended without ending into the distance. There was also a boat on the water. Barbara saw a body of water and a boat in which a person of oriental features was smiling in great joy. We agreed that the water might symbolize danger but that the bridge and the boat were symbols of safety in the midst of danger. Since the bridge did not end and the person was so happy, we felt that man would receive only good from the great conjunction of stellar bodies. June saw a waterfall like Niagara and knew that it meant that the Earth was undergoing a great cleansing. As she watched the water turned to blood. The association of the water and the blood caused us to remember the water and the blood which flowed from Jesus' side and the washing in the blood of the Lamb mentioned in Revelations 7:14. We understood that the configuration is a time when Earth would be cleansed in safety and the way would be opened for us to proceed over any deep water into a higher consciousness of greater spirituality.

On this same evening Jesus seemed to take me (Ruth of Miami) up and up, breathlessly higher and higher. As we ascended ever higher he placed his hands under my arms to help me up and I became aware of an angelic presence at my back also assisting in my flight. We approached a great Being seated on a dais which was raised a number of steps. His headdress was a band over which towered wings of pleated cloth on either side with a v-shaped opening in the middle. I said, "I cannot see you clearly." A deep voice answered, "Come closer, my child." I stepped forward and became aware of a huge masculine figure in robes of many colored stripes. In his hand was a tall slender iron rod with the lower end resting on the dais. I was aware of John, the Apostle, on my right who said, "I bring this one before you." I knew he continued to speak but I could not hear what he said. He constrained me to kneel. From my left an Initiator known only to me as the Master L also made an unheard speech of presentation. The Being lifted his rod and touched me lightly on the head. I heard the word, Melchizedek. Impressed by his great size I thought is he bigger than Jesus? I saw Jesus dwindle to a doll about three inches high and he said, "As man I am this size."

cleansed. In five years, 1967, many will of their own choice accept some new interpretation of religion.

Clara saw a Great Sun with rays burning clear down to the ground and scorching it. A mountain appeared in the Sun (perhaps a Sun spot) and she saw the words August 2 3 on its darkness. She thought this meant August 23 but heard a correction, August three. Will August 2 and 3 be extremely hot? We have been told that this summer will be a scorcher. After thinking it over for some time we were told that THE LORD OF THE SUN is preparing to send forth His Love with great power. Perhaps this will begin in full force on this date.

Mary Ann saw all our heads being drawn together as we stood around our shrine in healing prayer. As we blended, our heads turned into forms something like snowflakes. On second thought she said they were more like the color forms and patterns in a kaleidoscope, another new language we will use sometime.

PRAYER ALERTS FOR MARCH 14 - APRIL 16

Ixutel: Great danger in all lines of transportation still continues. Man is appalled at his own destructive thinking and reacts in a desperate attempt to find a peaceful way out of his difficulties. Much love should be sent to all centers of disturbances, both to the land and the people. Use the words Jesus used in calming the sea, "Peace, be still," and speak them with love but with power and authority. Continue to know that the Highest Good for all must prevail.

"Naughty Boy" tactics of Russia in the Berlin corridor are recognized as pure bluff. Man holds fast to the best he knows and finds a firmer basis for moving ahead. France is absorbed in settling her own internal problems. Tensions will continue in Algeria during March and early April.

May God bless you in your giving of self in prayer with us on these issues. SOLOGA! Our God is marching on! 3/15/1962

These prophecies are given solely to guide the prayers of those who serve in projecting the Light of God to trouble spots. Any release from things spoken of may be counted as a victory for the Forces of Light. Time lags are due to prayer action working as a brake to decrease the size of the disturbance. Do not picture these things as happening. Help us picture them as not happening. Ixutel.

In meditation I was taken as Onlooker to a large auditorium in which Ixutel was explaining the stresses and strains in the Earth. He was using a large transparent globe in which the flow of atoms, fault lines, and the internal structure could be seen clear down to the core. I understood that his lecture was to guide his listeners to more efficient application of thought power to help the Earth make its necessary changes in peace and harmony.

RECENT PRAYER ALERT EXPLAINED

On March 3, Kut Humi dictated a telegram to be sent and a list of names to receive it. The telegram: Prayer Alert Russians may explode superbomb Danger Himalayas China. Signed Kut Humi - SOLOGA. This was sent within the next half hour.

Kut Humi: The Russians in their previous series of tests exploded a small bomb of a different type. It was so dangerous that it frightened them greatly. During the rest of their series they developed greater power in the one you already know. The fifty megaton bomb was of the old type. They have not yet exploded a large one of the new type. Should they do this it would indeed be very dangerous. They are holding this threat over the other nations in a type of blackmail to stop the progress which your country wishes to make in combating missiles. Should they be so foolhardy as to explode this larger bomb it will take all we can muster to control the reaction. Other forces from other stars are being called in to increase our power.

It is for this reason that your channel has been slowed down for her body has been used in this broadcast day and night. Others of you may have felt very tired or sleepy. We thank you that you are allowing yourselves to be used. I wish to describe some alert signals. Should you feel yourself flowing backward and know the direction in which you are flowing you will know this as a signal of the disruption of the atomic flow.

Your Earth spins from west to east and within it the atoms move in the same direction. They move under your very feet but you cannot sense their flow. If their direction were changed to from north to south instead of from west to east, the poles of the Earth would be changed also. There would then be that tilt which has been feared and prophesied.

All of us turn our thought to holding the atom flow steady. It was with thought that the forces of the Earth were produced, constructed and are controlled. At the time this other bomb was exploded, because of the direction in which the force extended downward, it caused a flow of atoms southward under the Himalayas. They were in danger of sudden collapse. Had they collapsed then the sunken lands of the ocean would have sprung forth. With our thinking we were able to turn this flow. If you have an impulse to use your hands and turn something as you might start a wheel to whirling, that will also be a symbol that it is time for you to help as much as you can.

The human body is not able to stand the continuous output mentally that we in the freer bodies of the spiritual life can endure. Therefore it is not wise for you to attempt this for too long a time consciously. We suggest that in a time of emergency you go on an hourly basis giving just one minute out of the hour to think to yourself, "Let go and let God flow." Send forth easily and quietly, without fear or disturbance, Love, Peace, Light, Harmony and Brotherhood. Love is the force of gravity;

Love is the cohesive and attracting power of the universe. Love holds the ocean floor steady where it should be and the mountains in their places.

Understand we are not disturbed for we know that God is the Ruler. We come to you for two reasons. First, we need your conscious help for you are much more help than you know; and second in learning to work in this fashion you become one with us and with all who work thus. Enlarge yourselves. Open yourselves to the light of all that is being sent your way. I give you the love and gratitude of all who are engaged in this work for the Father. SOLOGA! We are one as we work together as one.

3/10/1962

GOD NEVER FAILS

He was so weary of living.
 Emptiness cut like a knife.
 God touched him gently with laughter,
 Showed him the glory of life.

She was so ill and so frightened.
 Doctors had done all, so they say.
 God gave her love as He healed her,
 Showed in herself the one way.

They were oppressed beyond bearing,
 Could not continue the fight.
 God undertook their lost battle,
 Showed them the soul's inner might.

God never fails! Alleluia!
 Majesty moves to fulfill.
 We walk in splendor before Him,
 Tuned to Beneficent Will.

Ruth of Miami S.L.A.
