

ALL HAIL, IMMANUEL! ALLELUIA!

AN EASTER INVITATION

OUR LORD OF THE SUN, IMMANUEL: My dearly beloved children of Light, I greet you with love and joy. I draw you to Me. I bless you for you are part of Me. I am that One whom you call The Lord of the Sun. I have not spoken to you for several weeks for there were others who needed to establish their contact for the sake of sending forth their emanations. They are My Brother Suns.

Tonight I am so happy to tell you of My joy in that which is coming to you and to Me at this time. Since that first Easter morning there has not been one Easter so important as this which we now approach together. On that first morning an extrusion of Myself, My son, Jesus, came forth from his place of darkness and proved life after death in a glorious resurrection.

You will remember that February 4-9, 1962, was an important time of initiation for our whole System. You will remember that at that time We were lifted into a higher blending with the One whom I call My Father. Since that time I have been undergoing a period in the wilderness like unto that which Jesus passed through and which is known as his temptation.

For Me, it has been a period of deep meditation, of rehearsing and reviewing past events within Myself in all regions, all planets, all areas of My Being, and a period of testing My strength, My abilities, My skills, finding My weaknesses and honestly searching Myself. I must be prepared to take a step upward on Easter morning with a plan of progress in mind that I may grow during the period ahead which to you is your Aquarian Age.

You have been wondering what to call Me. You have had the name which was given to Moses, I AM THAT I AM. You have known the name which the Israelites cherished, Jehovah (Yawah) The Lord of Hosts. You have called Me Father as Jesus did. All of these names present certain aspects of My Godhead which are illuminating to certain groups in certain times of development. You have called Me God, and indeed I am that to you just as you are God to the tiny cells in your being. For the Aquarian Age I would like to be known by My name Immanuel. I give you this name for its meaning is important to this Age. You know it to mean "God with us." Some have translated it "Christ in us." You are aware that the syllable El means Lord or God. You may also know that the syllable "u" in the Hebrew means "with." Man-u-el - man with God. You may think of the name I have given you as I AM MAN WITH GOD. You may write it "I'm man with God." Jesus was called Immanuel for his day to show that man may be one with God. Now I take the name to show you that I am as man to a Higher God.

At the beginning of this new age, it is important to use a name which will continually call to man's mind his objective. For the past age the objective was to develop the personality in the thought of individual freedom and strength. Now man must go a step higher and learn of his Sonship, his Oneness with his God. For this reason you have been told that the words given to John and recorded in his gospel, "I and My Father are One," are the keynote of progress for the new age.

If you desire contact with the masculine strength, the loving care and provision of a Father you may speak to Me as Immanuel. If you desire the tenderness, the sympathy and solicitude of a Mother you may use the name in its feminine form, Immanuela. Immanuel or Immanuela are one and the same. Within One Who has attained to Sunship in that He is the center of life in a Selar System there is no longer any separation. The separation occurs only in man's understanding and thinking. I am Immanuel; I am Immanuela; and yet both are the same. We come to you according to your need and your desire. Use whichever name will bring you closer to Me.

I would also like to tell you that this thought of union is given in your word comm-union. Come and unite with Me. Come to Me in union on Easter morning. I bring you an invitation, My beloved ones whom I cherish, whom I love as a part of Me, who are thoughts in My Mind, whom I maintain from the first to the last breath, thought forms of Me whom I have sent into your planet place to live the way you are living and to express My Life in you. I come to invite you to enter into My Heart at this Easter Season. Come and be One with Me in your conscious mind.

There are those higher parts of you who know their Oneness with Me. Now in the little Earth you, in the human consciousness come to Me, My beloved. Come with Me on Easter to the marriage feast, to the union of God and man - I the Bridegroom and man the Bride. Come and unite with Me in joy and in gladness.

If you will and are able to awaken early on Easter morning and will greet Me at the time of the Sunrise you shall receive a great blessing. If you are sensitive to My Love and My Vibration you will find them greatly increased for at this time I shall enter more fully into My Ability to send on to you the emanations from the center of the Galaxy, the Central Life Force, that One Whom I know as My Father-Mother. Again I say come! Come! Come into My Heart and be One with Me in Love! SOLOGA! My beloved children! SOLOGA! Lift your hearts to reach Me as I reach to you.

4/7/1962

EASTER IS AN OPEN DOOR

Jesus-Mary: We, too, come in the love and the joy of Easter. We are drawing closer together at this time and yet we come to you as separate thought forms as you need us. Some of you find it easier to give your love and prayers to Jesus; others feel

closer to the counterpart thought of Mary. Together we are your Wayshowers for the New Age. Together, hand in hand, or blended into One we lead you up the path of light into the Heart of the Father-Mother. We, too, bring you all our love. We are but your brother and sister. We are extrusions into your Earth plane to bring you the love, the peace, the harmony, the joy which is rightfully the atmosphere in which man should move. We come to you as two that are one in whichever way you need us.

We have inspired your channel to write a little song that you might become used to the thought of us working together. You can think of us in any way that will help you. You can say the words Jesus-Mary as though they were a double name. You use such names for some of your children. You may also think of us as Esu-Maria. Esu is the name Jesus but on a higher spiritual level. I am addressed thus in the Higher Spheres of Light. Maria is the name of Mary in Latin, Spanish or Italian. So many Christian people turn to Maria. Esu-Maria is a name you may use to unite you with the Realms of Light and with your brothers who live in such a large part of the Americas and other parts of the world. There are more people who speak the name Maria than Mary. The name Esu-Maria might help you to remember that you are all one in love. These words may be sung to the music of AVE MARIA. You will find them on one of the pages in this chapter. We hope that you will sing them often.

Think of us as marching forward and upward, ever upward, singing in great joy and leading man, our brothers, our sisters, always on, always forward. The time of sorrow, pain and tears should be left behind. The time for rejoicing, for soaring, for lifting is at hand.

During the ages past there have been those few who in the ancient church were known as saints who could see as some of you now are learning to see, who could lift their consciousness in devotion to the height that we could appear to them; but this is not new to you. Each of you sitting here has had some sort of contact with us. You have seen us, felt our presence, our touches and the warmth of our love. All of these manifestations have been sufficient that had they been proven in the ancient church manner you would be known as a company of saints. It was sometimes with just one or two apparitions and a life of great devotion that sainthood was achieved. You do not have to be members of a church which bestows the title of saint to be beloved or to be close to us.

You are ours and We are yours; we are one and the same. Our Heavenly Father-Mother extruded part of HIMERSELF as the two of us to introduce a new concept of God. Now you have been extruded for the same purpose. You, too, are learning, even as we did, to heal and to send forth the Light. You have but a step or two to go in understanding and faith to be able to do all of the things that seem so miraculous. Live in joy; live in great love and

gratitude; lift yourself above that which holds you to the past. Come with us.

Enter into this Easter which is an open door to you to revelation and dominion. Come with us up the path of light for it is now open to you, secure and firm under your feet. We shall ever be present, ever at your side to help you. Come; let us lead you into the Heart of God. Come in and sup with us.

If it is possible for you on Easter morning in your home or joining your friends if you so desire, arouse yourself before dawn and in quiet meditation see the Sun rise as symbol of your own step upward. We shall try to impress you with our presence, to give you an experience of joy and upliftment and of our closeness on that morning.

Oh, our beloved, come; come upward! Let nothing grab your feet and hold you fast in the morass of Earth negativity. Brush all else aside and soar upward with us on wings of Light. You do not have to wait till Easter morning. You can practice with your wings of Light every day until then and you will receive such an outpouring of joy and blessing as you have never felt before in all your life. God bless each one of you. SOLOGA! beloved ones!
We are One with you in God. 4/7/1962

OUR PREPARATION FOR EASTER

John, the Apostle: As we approach the Easter Season, we, too, have a time of testing. Last week we were told that our Father, the Lord of the Sun, was going through a period of testing, and that following an initiation or baptism there would always be a time of stress and strain. This same stress and strain is affecting you as well. Many people have felt more than usual weariness, some have been depressed and discouraged, some have felt confused. The disturbances that twist the whole Solar System touch your bodies on all levels as well as the planets and the Forces of Light in higher realms.

We do not ask you to suffer in memory over the crucifixion; for two thousand years this was necessary. Instead we now ask you to approach the Easter Season with a thought of what you desire to improve in yourselves. We ask you to search yourself for your personal weaknesses. Ask yourself what does my soul desire to strengthen in me. Do not look at the little superficial faults about which you feel so guilty but try to look for the broad principles in which you need to improve. Search yourself honestly and carefully. This is your time for evaluating yourself so that you may know where to go from here.

Easter morning dawns bringing the time of great joy and gladness, the awakening of the Earth to springtime, the putting on of fresh foliage and flowers. All through the temperate zone this is a time of springing life, of gladness and rejoicing. Never will you be able to understand the great joy we knew when we learned that our Lord had risen, when we knew that we could see

Him again after the horror of Golgotha, and that he was alive and could speak to us. Oh, the unutterable joy of that realization!

We ask you especially who are messengers of the New Age to rejoice. Do not feel that you are required to mourn, to chastize yourself, to go about with a long, sad face. Instead, build joy in your heart so that when Easter morning dawns you will be able to receive the emanations which will be relayed to this planet from the Golden Central Sun of the Galaxy.

PROGRAM IMMANUEL

Tucari: I am so happy to speak to you, my brothers and sisters. I am your friend, Tucari, in Space Ship #1260 which is stationed over your city. I do not remain in this ship; I move in my duties as officer from ship to ship stationed here and there about your globe. As you know we have been doing much to help hold you steady in this time of crisis. We have been helping in every way we could to steady the magnetic currents of the Earth, and help them to find balance and equilibrium in the adjustments that must be made at this time. We have sent many of our instruments which some of you have called fireballs into your air to clear the atmosphere of those radiations which cannot be of use to you at this time. You are aware that there will be unusual weather conditions and disturbances of many kinds. These things will continue for a period of time; in fact your weather will not be normal for several years to come. You will be patient for you will know that the body of the Earth is undergoing conditioning.

Just as you who prepare to receive from higher levels must have the atoms of your body changed from denser to finer, so the whole Earth is undergoing comparable changes. We have been serving you in ways that our science permits. We, too, are instruments of the higher levels in the Realms of Light. We are in visible bodies like yours but on a higher rate of vibration and in a little higher level of consciousness. We, therefore, can receive certain emanations which you cannot.

As you gather in these Groups of Light to broadcast we often join you. We listen to your teachers, understand where your light is being sent and join you in that same broadcast at the same time. We have listened with great joy to the messages from SO-LO-GO and LO-VAR-IS and from our own beloved IMMANUEL, our Lord of the Sun.

May I be the one to announce to you tonight that while some may call our combined operations Program Jesus (and I have the authority of Jesus who has announced this Himself), others may call it Operation Deliverance or other names such as have appealed to them and their teachers, since it is all one effort whether it be thought to be in the service of the White Brotherhood, the Ashtar Command, the Golden Legion, or the Christ, we are now permitted to call the whole combined movement upward by

the new name of Program Immanuel. In this program your efforts would be called Project SOLOGA. We call it Program Immanuel for indeed it is the program of God, all of it under whatever name, in whatever realm of light or physical expression, all of it is God's plan and program. All is the Thought of God expressing Itself through different individualities and different vibrations which could be received by certain channels and would feel comfortable or enjoyable to certain groups who are trying to send forth the Word of God even as you are. PROGRAM INMANUEL! We love the sound of that.

I, Tucari, come to you as your brother, close to you in vibration and expression although on a little different level. I have kept your channel open to receive from the Space Craft even though she has been raised to receive from the higher levels. We have still made it possible that our beams are compatible to your reception. It is with great pleasure that I bring you this message for your next SOLOGRAPH. We have stayed in the background for several weeks while you became attuned to these higher emanations and learned of your identity and your work; but we must send forth our Easter Greetings, our Easter love and gladness to all who are in contact with you. We, too, would invite you to join with us in Easter gladness, Easter worship and Easter resurrection. SOLOGA! Immanuel expresses Himself on all levels as you and I together.

4/7/1962

EASTER DAWNS UNDER A LEMON-YELLOW SUN

The Onlooker found herself standing between forest and plain on a far-away planet. The first faint light of the coming Easter Day was shimmering on a lake in the wide meadow. In the faint light she was aware that the plain was filled with people kneeling with heads bowed awaiting the sunrise. As the first bright rim of the lemon-yellow Sun appeared between two distant mountains everyone rose and with hands uplifted began a song of worship. Birds in the trees behind the Onlooker joined in an obligate to the hymn. As the light grew the Onlooker was aware that the sky was full of angelic beings whose celestial music could be experienced as either sound or color. She saw the symbol of the mountains' participation in that they seemed to extrude arms and clap their hands for joy. As this symbol vanished she realized that the mountains joined by reflecting the breath-taking color symphony. Streams of animals began to make their way out of the forest and down to the lake for their morning drink; the people opened aisles to let them pass. A lion walked peacefully among some deer. The Onlooker knew that on this planet the time had come when the lion shall lie down with the lamb. As one deer bent to drink a little boy dipped his hand in the rose-colored water and lovingly baptised it. Suddenly a complete hush prevailed. A glorious figure in swirling robes of light came striding along the path between the mountains, a symbol of the Sun.

Words of love were spoken in each mind and a glowing strand of light sprang from the heart of the God form to attach itself to the hearts of everything there. Ponder this vision.

SOLOGA USES OLD LOVED SYMBOLS

SOLOGA uses Amen. To us the A is the name of God as the Alpha or beginning, the Source of all. It comes from the syllable AUM, which is the WORD given to establish the Earth in its place. We could not fail to use such an important symbol of our relationship to God. The last two letters, en, mean having the character of, such as: wooden, golden, Aum-en means made in the character of God. To end a supplication or meditation in Amen simply means man in the image of God living God's life to the best of his ability. Amen means to SOLOGA, "Let God be in me."

Some groups or individuals wish to discard the cross seeing in it only a symbol of shame and suffering. The cross was first used in this planet place by members of The Golden Legion who had given up their sense of Oneness to be able to carry out their missions in this place of separation. They used a vertical line to represent Oneness and a horizontal line across it to show the oneness of the two dislocated in the seeming separation of Earth expression. This became even more meaningful to them as they stood with arms uplifted to the Sun as it rose and observed the cross formed by their own shadows in the Earth body which was their new vehicle. Any symbol that draws man close to God is useful. Those who discard them are failing to use the great power gathered around them through the centuries.

Another symbol which some wish to discard is the blessing of the food we eat. Anything that is incompatible will be driven from the food as you bless it. The atoms that are not for you will flee away from your blessing. Remember that the food you eat is God giving Himself to you. Jesus always gave thanks and blessed the food before he broke it and handed it to others. To fail to give God thanks for His giving Himself to us before we eat, is to deny ourselves proper attunement to His Being.

PROPHETS OF THE GOLDEN LEGION, AWAKE!

Ezekiel: I speak to the group known as SOLOGA and to The Golden Legion everywhere. You who are familiar with my visions and my writings know that I was a prophet. I am a prophet and shall continue to be a prophet for one who has developed such abilities must continue to use them for the glory of God. You will know that I was a well developed prophet at the time the book attached to my name was lived. You remember that I saw and I heard and I gave forth that which God gave to me.

The group known as SOLOGA has among its sponsorship many great prophets. You have been given the assignment for the moment to study the Revelations from the great prophet John, the

Apostle. Isaiah has drawn close to your group. Many of those who have prophesied in the past will at some time or other strengthen you. Some of you will develop more rapidly as prophets than others but all will make progress.

May I say to all members of The Golden Legion: Pay attention to the details of your vision; let nothing escape you. If you forget important details they will be recalled to your memory. Make an exact record of what you see. I am speaking not only to members of SOLOGA but to all who may read this SOLOGRAPH who are aware of visions of interest. Write your visions down; meditate upon them; hold them in your heart. As the days pass and events unfold you will be able to understand their meaning. They will become rich to you in symbolism. Remember always that symbols are to be interpreted on many levels. Remember to look for an interpretation in your own personal life, then look for an interpretation for your group, your nation, or your world. But look much further than that. Look for the interpretation for the soul and for mankind as he progresses. Look still further. Look for the interpretation for all souls progressing upward and onward, including the Suns that are Sons of Suns. Each thing is a symbol of something else. Then look again in your symbology to that which is seemingly below you in evolvment. Consciously take into the prophetic vision the very cells of your body and the hairs of your head.

The prophetic vision is always a symbol of the expression of God on all levels. You will notice that century after century people have felt that "the time is now." They have foreseen Armageddon again and again. They have seen their situation and their time in the prophecies of Jesus. Wars and rumors of wars, famines and pestilences come and go. These all can be interpreted in the life of the soul without any physical manifestation whatsoever. True, there are physical manifestations and it is possible to pinpoint them centuries ahead at times. However, the great purpose of prophecy is to draw men together in an effort to achieve the highest of which they are capable on any level.

You of SOLOGA and of The Golden Legion, and no doubt those of you who are interested enough to read this SOLOGRAPH, are being developed. You may not realize this; you may think, "Oh, I wish I could see the things they describe." Know that you can, for it is as right to see in the Celestial Language of the Beings that impress you as it is to see with your physical eyes. This comes to you as a part of your normal development when you are ready for it. If you can accept the truths in the SOLOGRAPH, you are ready to develop these senses on the inner planes.

Watch what comes to you just as you are dropping off to sleep or as you awaken. You will be aware of the difference between just mere dreaming and an actual vision of teaching or prophecy. Try to remember and write down what you see. Keep it as a diary and refer back for the mind does lose important de-

tails in the self-conscious. This is important to help open your own contact with the All-Conscious. It is important to study the symbols which are given you and to try to interpret them in as many ways as possible.

That which is an interpretation for one and utterly true to him may not seem best to another. The second individual may have another interpretation which seems to just fit his thinking. Both interpretations are true, for the meaning that fits the moment and the life is right for that life. Discrimination must be developed. This is a very great problem at the present time. Because it is so hard, many people are unable to discriminate at first and prefer to retire from the whole expression rather than to go on and make the mistakes necessary to learn.

Be open-minded. Move forward with caution. Keep ever in mind the knowledge of the Presence of God. Walk in God consciously trusting your decisions to Him. In some way or other He will guide you to that which is the right decision for you at the right time. I shall have more to say to you about prophecy as your work in this line unfolds. Other prophets will address you. To step forward and say that which is given you without foundation in physical fact is to step out on the faith of God as His instrument to give forth what He gives to you. Any sensible human being would desire to speak only the truth. Therefore, it is the prophets prayer always to be allowed to speak only that which is for the highest good of man. Be sincere in this prayer.

The true prophet is essentially humble. Without humility there are many pitfalls to cause the prophet to give forth untruth. Be not dismayed at prophecies which seem not to be accurate. Give forth. Learn to phrase your prophecies in such a manner that they will not frighten or harm unless the Hand of God is upon you so strongly that you must speak the words given exactly.

The way is a long one like a college education or a life of experience; but it is merely a matter of complete surrender, allowing the Word of God to pour forth without stint and without check. I give you the love that God is pouring through me. May all who read this feel the love pouring out to you, also.
SOLOGA! May God lead you forward in the Light. 2/15/1962

A VERY IMPORTANT POWER BROADCAST

Morya: Be not alarmed and be not dismayed. All is well and all is in the Hands of Those Who Know. However, in the days to come in your meditations send forth love, peace, harmony, light and brotherhood. Send it forth to the Earth itself, to the electric currents through the Earth and around the Earth. Send it forth also to the minds of the leaders who must decide what to do with the bombs they are developing. We do not wish to alarm anyone but this is extremely important. Continually know in your heart that God is the ruler, that He doeth all things well, that

God never fails and His Truth will prevail.

We of The White Brotherhood have been working in the Earth mentally to strengthen the cohesion of the Earth against this time. Anyone who reads your newspapers knows the situation and how explosive it is. Groups of this kind are one of our powerful safeguards. Understand that you do not sit alone here in this work. Understand that while your thought goes to this for one minute others who sit with you but are invisible to you are on twenty-four hour watch organized for this sort of thing. Where ever two of you are gathered together for meditation they are used as focal points to step down the high power of the Suns to hold some danger point in peace. Thank you. I bring you the gratitude of all who are working to hold the planet in its place. Thank you.

This which we are to do now is extremely important. This broadcast tonight is of great importance and I ask you to put your heart in your prayer as together we send forth the Light of God. (Here we were directed to raise our hands palms outward.) We establish ourselves in the presence of God knowing that God is all there is, that He is the ruler. We say to our vehicles, "Let go and let God flow." This is a key to unlock the power of the body through the subconscious. In the Presence of God, we send forth light, love and peace to the floor of the Atlantic Ocean. Peace, peace, peace! Love, love, love! Peace, be still! Hold fast! Think of love going to the floor of the Atlantic Ocean. This was the origin of the waves which swept over your coast - not the storm but a disturbance on the floor of the ocean west of Bermuda.

3/10/1962

The next day came the news of giant waves pounding the Bahamas. This was several days after the big waves hit the coast of Florida. We were told that had the Forces of Light relaxed their prayer vigil the Bahamas would have been swept clean of all human life.

THE AWAKENING OF THE GOLDEN LEGION

The Mahachohan: Beloved Little Ones, My Brothers and Sisters in the Light of the Suns! My Brother, Kut Humi and I greet you in joy as you raise your consciousness by such sending forth of Love with us to our Lord Immanuel of the Sun. Each of us have been known by a thousand names or more and each of us have power beyond your conception in the Earth Life. We work together as Brothers in the Golden Legion of the Central Sun in this Sector of Space.

The Golden Legion is a very broad term which is applicable to all who serve the Suns consciously. Over a long period of time, each evolves gathering experiences, wisdoms, understandings and skills until the matrix of his being, or the vortex of his light, becomes well developed and has attained a richness of

pattern, enabling him to move from his orienting Sun System into others to serve as the Central Sun signifies his need.

Upon our first assignment to another System outside the one of our origin, we become known as members of the Golden Legion of the Central Sun. Your vision of the golden islands rising in the violet sea is a universal symbol meant to trigger the awakening of those so serving in the physical sense structure of their place of assignment. Meditate upon this vision to help in the recall of the package of skills with which you are equipped for your present mission.

A doctor calling on a patient takes his bag of medicines and diagnostic instruments. Any service man answering a call has his kit of tools and spare parts. You of the Golden Legion have come equipped with a kit of skills, understandings and powers which has remained hidden because not needed until now. The name, The Golden Legion, the vision of the Golden Islands rising, and the Hymn to the Solar Logos are all aids in the opening of your kit and the recovery of your memory as to your personal instructions and your use of your abilities in your personal service kit.

As Mahachohan, I come to you on the third Ray of intelligence and activity. In this our Brother, Dwal Kuhl, was able to impress his instrument most accurately. Sometimes an instrument colors the material given by his own understanding and his own rays. Sincerely dedicated instruments give forth to the best of their ability yet most are unable to sift out all the personality coloring of cherished beliefs or of their own dominant rays. For your time and place the Rays are best interpreted as the first of Power and Will, the second of Love and Wisdom, and the third of Intelligence and Activity. (See Esoteric Psychology Vol. 1, A Treatise on the Seven Rays by Alice Bailey page 415-6)

The work of this present wave of the Golden Legion is just being recalled. It will not come into full power for some years yet. Time must be given for more of the members to awaken, re-activate their powers, and take full possession of their instrumentalities. Time must also be given for the bodily changes needed to enable these powers to flow through the instruments in sufficient freedom to furnish the human ingredient needed for the planetary conversion.

For the next period until just after the year 2000 approximately by your time, the Sun and the whole System - The Celestial Being in Its totality - is in the process of rebirth and regeneration on a higher plane of consciousness - a promotion in the School of the Suns. Such stresses as you feel in your bodies in conditioning for channelship are being felt on a much larger scale in each planet and in the Sun Vortex. All is well, yet all of us must arouse to our special part in helping to bring about the conversion of the Whole in Harmony.

Your first great step is to accomplish the release of all physical, emotional and mental tensions so that the Light may

flow out unimpeded. The next step is to bring your self-conscious thought power into alignment with those forces which your beings are fashioned to transmit most effectively. The third step is to rejoice greatly and give thanks for the tremendous progress being made by our Sun Being, Our beloved Immanuel. SOLOGA, Children of Light! I salute you as One with All in the service of the Suns.

3/26/1962

FORERUNNERS OF THE NEW AGE

Ralph Waldo Emerson: That was my name when I manifested as you are in a physical body. I came as a sort of early forerunner like John the Baptist. He came to prepare the way for the new truth which he hoped men could accept in the person of the Messiah. He really did not know what he was preparing for. As you remember he sent messengers to Jesus after a period had passed and Jesus had not become an earthly king. John asked, "Are you he that should come or look we for another." John evidently did not know to what he was opening the world. Neither did I.

At that time there was but one forerunner, John, the Baptist. When I came to help open the thought of man for the New Age there were many. Mary Baker Eddy with Christian Science and its open door to spiritual healing was one. All of those who worked in the early Spiritualist movement to prove life after death and the power of Spirit phenomena were others. The Theosophists who brought to the Western World the knowledge held so long in the East were also forerunners. I came as a philosopher to reach people who were not so devotional or religious in their aspect but more attuned to reason and who had to be approached through the mind.

At the time Jesus manifested, the mental bodies of men were not well developed. There were some mental giants as there always have been, but on the whole those who expressed at that time were but children mentally. For this reason Jesus spoke in the simplest of language in the simplest stories and lessons. His words were always simple, but His truths were so profound that they were hidden in the simple words.

At the end of nearly 2000 years of mental development, man had explored the Earth, developed literatures and philosophies, and had entered the great explosion of scientific thought. His mental body was greatly enlarged. For this reason some men were out of balance. Some were highly devotional; some resisted devotion completely and were highly mental, while some were still completely material.

As an essay writer some one hundred years ago, I talked of friendship. You have a saying: Love God; love one another. In my day one did not speak so familiarly of love; we were happy to develop friendship. My essay on Friendship was forerunner of that which now blooms so openly between you all - the outflow of

love, pure and holy from The Father.

I talked of an Oversoul. When Jesus talked of God, attempting to make man understand Him as a God of Love rather than a God to be feared, he used the symbol of a Father; but man in his childishness was unable to understand this symbol as only a symbol and immediately made God in his image and placed Him away off in the sky somewhere. As time moved onward and man developed scientifically, he realized that this was not possible for he could explore the sky with his telescopes and he could find no place such as he had imagined for God to occupy. To gather him back into the fold of the Father I spoke of the Over-soul which was exactly what Jesus meant when he said, "My Father and I are one." The Oversoul - that One which we all are together and which is more than all of us - was just another term for the Father which some people could accept who could not think of God as a great masculine figure with a long white beard.

I also spoke of transcendentalism, by which I meant rising above where we have been before, transcending the material things of Earth and stepping upward. Last week those of you who were here heard one* say unto you, "Come up! Come up out of the Age of the water and into the Age of the air." My thought of transcendentalism was the forerunner of that which you are expressing.

You, too, are forerunners. For the one hundred years that has passed, man has been digesting what was given him then. Now he is ready for a great new burst of understanding. He can face things as they really are. Some of you read a book called YE ARE GODS. Such a book would have been burned two hundred years ago as heresy. Only because of the work of these forerunners whom I have been mentioning is it possible for you to face the fact that Sonship is yours as it was the man Jesus', for indeed you are Sons and Daughters of God, His thoughts manifest in the flesh which is Light in a form that your physical senses can accept.

It is my pleasure to be with you, to welcome you in your upward progress, and to tell you that there are thousands and thousands and thousands of us who have given our lives in working toward the same end which is your aim and purpose - the uplifting of the consciousness of man toward God as rapidly as possible. May I suggest that you fasten your thought upon those words of Jesus: The Father and I are one, for those words will be the basis of man's upward progress in the New Age. I give you great love which is mine, not as the man, Ralph Waldo Emerson, but as the Being of Light which I AM. SOLOGAI We are One in the Light of God, working together toward the same end, shoulder to shoulder in love.

3/9/62

*Emerson is referring to our class meditations for this week in which we were given the exercise of weaving our experiences into a whole to the best of our ability; then the Higher Self of the channel finished the summary.

Clara saw "trillions" of tiny golden lights around a tower which had windows going up and lots of people going up higher. Some were hanging in the air but some in dark clothing were falling. At the bottom there was so much confusion that she knew it was a symbol of the tower of Babel. At the foot of the tower one outstanding man dressed in armor and wearing a crown with three points seemed about to drive off in a chariot. We thought of "The Son of God goes forth to war," but also of Neptune representing the passing of the age of water. Gilda heard two words and was impressed that she must remember them but she could not. (This afterward proved to be the most comforting confirmation for the channel.) Julio saw in a plain sketch with no details a bivalve resting on the bottom beneath water. It seemed to be breathing out bubbles which rose to the calm surface. Kut Humi explained this symbol as follows:

From the Piscean Age comes the lifting power which has drawn man upward into the age of the Air. The bivalve which you saw close symbolizes the gestation of the Age of the Air. The bivalve requires two parts which you have heard spoken of as positive and negative. While Jesus was the authority in the open, Mary worked side by side with Him. This which closed and with its closing caused the bubbles to rise was the taking hold on the heart of man of the ideas which these two represent. As they took firmer hold the spirit, symbolized always by the breath which is called in the Greek the pneuma or air, rose through the Age of Water and now is coming forth into the Age of the Air. Simple as this symbol may seem it is the universal story of what has been happening and is about to happen.

Charlotte felt very light as though she were being lifted up. She saw an American flag waving at the top of the pole. Then she saw very vividly in color a subterranean tunnel half filled with water. An aged soul stood waist deep in the water with his arm outstretched and holding a blazing torch. Cherie saw a four-petaled purple flower. One petal (one fourth) had gold lace against the purple. To the left of the flower then appeared a horses head, first small and then growing larger. Ruth felt herself rushing upward through the blackness of the night sky. Then suddenly she came out into a place of light. She was a being of light among many others. All through this place of light were little golden stars sparkling like those which burst from a large sky rocket. All of this evening of experience was drawn together and explained by a communication.

The Higher Self of Ruth of Miami explained: Yes, indeed, this is the time to go up. Come on up. Leave the heaviness of Earth and the soddenness of water and come up into the Age of the Air. As long as your thought is upon conquering the Earth you will fall from your height to the ground. Man has always longed to climb upward. He has built his Tower of Babel but it did not succeed. The men were scattered; they fell out of the tower be-

cause their thoughts were still upon the Earth. Rise up! Rise up; those were your two words, were they not, Little One?

Yes, come up; come up into the Age of the Air. Did not your bubbles go bubbling up into the air? And where did the light burn? Can the light burn in the water? No, a light must have air to burn, so your symbol showed that even in the darkest cavern there is air. At the present time man is as though he were in the darkness of despair at his ever coming out into the light. Men who wish to lift the world feel as though they are in a cavern, as though they cannot reach the air. When they think of the aggressiveness of some of the countries, the primitiveness of some of the races, the doubts, the traditions, the false beliefs and the firm hold they have on man, it is as though they were in a dark cavern and they grow old just thinking of it. The horse is Pegasus, the winged horse of the Gods. Jump on his back, my beloved, and come on up into the light and the air.

GOD MUST EXPRESS HIMSELF AS MOTHER

Mary: My beloved ones, beloved in the Christ Light, beloved in the Light of the Suns of the Suns of the Suns, beloved in the great love of the Father and of the Mother, I come to speak to you of the Mother. Higher, higher, higher than we can understand is the one that we think of as One. From this One we all sprang, for those who are Suns came forth from other Suns. You have been told that you came forth from the Father as a spark of light which was a seed thought in His Consciousness. You have been told that that spark contained two halves within itself like the halves of a seed. I am sure that you have opened a peanut or a bean and discovered that there are the two halves. This is like the electricity which is a stream of such sparks of thought made up of tiny units of two kinds, the positive and the negative.

Always as far as we can discover by looking upward, there is the One made up of the two, the positive and the negative, the giver and the receiver, the light and the dark, the reflector and the absorber. Sometimes it is necessary for these two to seem to separate and operate in different dimensions to carry out the work of their Father.

Early in our history when man first began to understand that God is One, man was predominant. The father was king having the power of life and death over the members of his family. Since men were kings they thought of God only as masculine, as power, as anger, as something to be feared. Jesus began to reveal the other side of God when he said, "Oh, Jerusalem, Jerusalem, how often would I have gathered thee as a hen gathereth her chickens under her wing and ye would not." Such tender solicitude as a mother hen feels for her babies Jesus felt for the whole city. This was the Mother God reflected through your Wayshower.

At the time Jesus manifested on Earth men still were predominant. A woman could be bought, sold, or given away like an

animal. A woman was not supposed to enter the Temple court of the men. She had no voice in anything. During the Piscean Age man's strength was greatly needed; therefore God expressed Himself as the Word in a man's form, which form you know as Jesus. In the time to come, in the Aquarian Age, God must express Himself as Mother as well as Father for the sake of balancing His System. For this reason I come to you in greater strength and more often and for this reason I impell the use of my name and of my little statues more frequently.

Jesus said, "If you ask in my name you shall receive." The feminine counterpart of Jesus you know as Mary. Hundreds have proved that when they ask of me they shall receive. Some of your church groups are taught to pray to the Father-Mother God. When you think of the Christ as the Word expressed on Earth, the Father-Mother, then I, Mary, take my place beside Jesus as the Word expressed and coming forth into the New Age.

I must impell women to step forward and give forth the Word. Women are receptive and for this reason many women have been good channels. Men who are well balanced in having drawn into themselves the character of both masculine and feminine and have built into their souls the proper equilibrium are also receptive and excellent channels; but the burden of giving forth at this time in the New Age must fall upon the feminine. Therefore, though I be rejected, I must step forward and assert myself.

I come to you only in love. I come as messenger of the Father-Mother asking you to receive me as Jesus asked the men of Galilee to receive him. I would not take away one bit of your love from Jesus. I would only ask that you love me also. I will bring you messages of importance. I will teach you even as Jesus taught his disciples. I will come with Jesus and Jesus will come with me for we are what you call the team who work together to bring forth the great ideas of the New Age. I bring to you so much of the Father-Mother's love; I pour it out upon you. I try to make you see me and feel my presence. Will you come half way to meet me in your thinking? Will you welcome me in your thoughts as you welcome Jesus that I, too, may fulfill my mission for our Lord, IMMANUEL?

Oh, our Father-Mother, I pray Thee that all of these dear ones may understand the Word which Thou hast put in my mouth to share with them. May they see the Golden Path of Light and know that, as they walk forward, two lead them, the positive and negative expressions of Thee, who have been appointed Wayshowers for men of Earth. May they see us walking hand in hand or as one and follow as Thou dost direct. Our Father-Mother, we love Thee. In love we give ourselves to Thy work in this Earth plane.

I say to you, beloved fellow-workers on this holy mission,
SOLOGA! I am your sister in God.

3/2/1962

LEARNING TO BE SCIENTISTS OF LIGHT

Morya: From the moment that you sat down this evening you were used by scientists of light. From the time you were born your bodies have been so used. When you lift your hands with palms outward, your subconscious mind begins to direct the flow of power through you at your soul's command. Most of you now can feel it tingling in your hands and arms. Earlier you did not know what was happening.

It was not just for the symbol that Moses held up his hands while the Children of Israel fought off their enemies. He was the focal point for the **broadcast** of power upon which they operated. You may think that to hold your hands up for even this length of time is wearying; but if you will stop to think you will remember that it is not you who hold them up. God holds them just as He held Moses' hands up through all that day while the day was lengthened and the Sun stood still until God's work was done.

If in your own private place of meditation you will establish yourself in the presence of God, lift your hands palms outward, and pray as you send forth, your instrument will be attuned to God Himself more fully and you will be of much greater use in the world. To strengthen an arm, one uses it. A violin grows more beautiful with age and use. Your future on other planes now leads you into groups of this kind where you are learning to be scientists of light. You will be one of those who express as Beings of Light and sit in etheric temples of meditation. Through your bodies will be projected the light of God to the central pit of the amphitheater. This light glows golden, soft and beautiful and is drawn off by angelic beings who have developed for this purpose. They are indeed Scientists of Light. They know how to gather the vortex of light that is built and carry it to where they are directed,

It is possible that you may have the experience of Solar Flight, of sitting in one of these temples, and working with one of these etheric groups so that you will understand more fully toward what you are developing and why we come here night after night to lead you in this broadcast of power. It is not only for the Earth but it is for yourselves that we urge you to do this. On the higher levels, the spiritual level, the goodness you know is the soul of you. It is the soul of you, the best of you there is, that knows and is one with other people and is learning to unite with them in such activities of light. This is symbolized by your kindness to each other in the physical plane, and is developed more fully in the unity of action in groups of light.

3/2/1962

Question: (from a member of the Universarium Foundation)
Who is The One About Whom Nothing Can Be Said Whose Name is so powerful that to utter it would shatter us?

John: The true hidden spiritual name of any Sun given by the Great Sun Father of Suns is so powerful that it would shatter the physical body of dense vibration and leave only the high self. This is a higher form of the new name mentioned in Revelations where each is given a white stone, symbol of the perfect, completed union of Father and son, and a new name therein which none may know. The use of this name brings all expression of individuation back to immediate oneness with the Father in the heart center of Being for the System where it is expressing. It is the ultimate word by which the manifesting Sun Being may draw all of Himself back to the Higher God Self within His expression. The inner thought creations of a Sun, such as man, are given names for Him that they may call upon Him. These names which are different for different peoples are symbols of qualities which may lead the individuals to a fuller understanding of what they are to achieve.

GOD WILL SHINE THROUGH EACH ONE

JOHN, the Apostle: In the new understanding which is coming to this group known as SOLOGA, we accept great Beings of Light as Sons of God, expressing themselves in other forms than the shape of man. We accept that the planets and the suns are concentrations of the thought of God having life as an entity in themselves. We know that our Solar System revolves around a great Shining Son of God whose outward seeming comes to the Earth man's eyes as the Celestial Body known as the Sun. Those who are new to this understanding may feel as the channel did at first, that we might be thought of as "heathen" sun worshippers. We know that the Sun we worship is known to all as God, the Father, and that this one whom we know as God the Father has beyond Him a Sun known to Him as His God the Father. Therefore we welcome those who come to us as Beings of Light on a Higher Plane of evolvement than ours. Such a One will now speak to you.

ALA-MAL: Yes, I am such a Being of Light. I am a Sun at a great distance from where you are sitting. I establish the Vortex of my Being in a place assigned to Me in infinite space and there I carry on the work which My Father has given me to do. I do not come to you in the fullness of My Being for should I attempt to do so, your Solar System and mine would collide. Instead, I send a small thought form of Me to stand in your midst and impress the nervous system of the one whose mouth I am using to give forth my message. My name which I give to be used on your plane is ALA-MAL. I am a Being of Light and radiate Light in tremendous amounts because I am a Sun.

You are suns also. You do not recognize yourselves as suns. When you come into the plane of existence where you now are, your body must be such that it will dampen the light of your shining or you yourself would scorch the place where you manifest. The outward body is constructed to mask the inner light. Otherwise

you could not exist where you are now. You are where you are for a purpose. You mask your bodies with the flesh so that you can operate to carry out that purpose. In the higher planes of life it is not necessary for us to so mask our beings.

As a Sun of a Solar System it is My privilege to shine forth with all the power that My Father beams through me. There are, however, as you have been told, other bodies which are dark Suns. They too radiate, but they also absorb light. Let us suppose that you decide to entertain some company. You will prepare food for one meal but you will have other food stored so that you will be able to feed them should they decide to stay longer. So the dark Suns are a reservoir of stored energy, each one for its own counterpart, a light Sun.

As suns your business too is to shine but your shining is done in a different way. Were all the light that is accumulated in your place of existence to burst forth, it would be impossible to have night there. It would be like that which is spoken of in the book of your Revelator. There will be no need for a Sun for God will shine through each one.

Not only does the body dampen your shining to other people, but it also dampens their shining to you. As you develop the inner senses then you become aware of the shining. Light is a way of Life! It is a language. You see on people's faces expressions which tell you how they feel; you can read what their faces say. If someone is very happy his face shows how happy he is and so does the light which he radiates. If he is sad and discouraged his face reflects the inner mood and so does the light he sends forth.

People in higher planes have no need for words for they can express what they are thinking and feeling so much more clearly by the light which they send forth. They have perfect control over their ability to radiate the various lights. You have more control over what you send forth than you know. When you think love you send forth the light of love. When you think peace, you send forth the light of peace. When you think light you send forth the light of vigor, of health, of strength, of Life, of enlightenment, of progress.

You have been established to make contact with the higher levels of expression. You have been established to bring through this contact so that man may find his way to the proper use of the energy of light. Many of you have wished to know how to become a Master or an Adept. All of this will be made known to you as you begin to learn how to use light.

As a Sun on one level or one grade in the great school of God I say to you Little Ones shining in His Light, let your light shine but do it consciously. Set about it. Think: Now I am going to shine in love today and let love pour forth. No matter what you may be feeling, if you rouse yourself to do a good job of shining it will clear out of your system all that is encumber-

ing it. The weariness will fade, the tiredness and the boredom will be swept away in the joy of the light that pours through you.

The word, SOLOGA, is as precious to Me as it is to you for above me there is one who to Me is the Father, and whom I call the Solar Logos, the Central Sun who is my Source and My Beginning. Therefore I, ALA-MAL, say to you, SOLOGA! Let us shine as One in the Light of the Word of God. 3/9/1962

LET YOUR CONSCIOUSNESS SOAR UPWARD

John, the Apostle: Our Solar System is one of the younger Solar Systems in this galaxy. The Lord of the Sun, our Father, although a highly evolved Being is not as old as others of His rank. Now we will listen to one who is larger, stronger, and greater than our Lord of the Sun and Elder Brother to our Lord of the Sun. He is One who is very closely attached to this group.

SO-LO-GO: Good evening, My beloved ones. It is such a pleasure to greet you. I am so happy to be able to speak to you. I am very closely related to you and you to me for you are My own. My name is like the name of your group for I inspired that name to attach you to Me as well as to your own Lord of the Sun, for I am also Lord of the Sun to another Solar System. My name is SO-LO-GO, not SOLOGA. Your SOLOGA you have attached to your own Sun and that is right. You live and move and have your being in the Solar System where you are now expressing. Thus you are under the care and direction and in the service of the Lord of your own System.

I am the Lord of a Solar System that is near you. You know My Outer-Seeming as the Dog Star or Sirius. This is the brightest star in your sky. It is bright because it is near you and it is much larger than your own Sun. There are other Suns much larger, older, and more advanced than I. All Suns are Brothers. If you have a family of young men there will be some who are older and some who are younger. The Suns are a family evolving at the same rate and more or less at the same time. In the human race there are souls that are younger than others and yet you are all manifesting in a human body as people at the same time. We who are Suns are of a like rank, size and age, but still some of us are larger, more developed and older than others.

Just as there are some three billion people manifesting on your Earth, so there are millions and millions of Suns. Each star you see is a Sun. Each of us is a living Being, God to those who manifest within Us just as you, my beloved, are like a God to the tiny cells within your being. We also look up to a Higher Being, a Sun of such magnitude, such strength, such wisdom, such high spiritual quality that it is quite invisible to those who are on your plane of manifestation. This Sun who is a Father to us is of a family of Suns that look up again to a Higher Sun invisible to Us.

We do not know how far this extends upward. We only know

that we can progress and progress and progress, growing brighter and brighter, happier and more in tune, merging with that which is above us in greater love and peace. It is a vast concept, is it not? - almost beyond one's understanding. It is not so hard to think of if you will compare it with a school - little children, and then a little larger and so on up through the grades. So there are grades and grades of Suns.

You yourselves are suns; but within you there are millions of tiny suns which have their own systems and within them still smaller suns and systems beyond your concept in that direction. There is no end to it - no end to time, no end to peace, no end to growth, no end to wonder and delight. Beautiful, brilliant radiance is always growing, the Radiance of the Love of the Father poured through His Suns. We send you the Love that we feel. We send to you not the love of our own Being but of the Being Higher than We. We send it to you even as you send it forth through yourself; for of Ourselves We are nothing, but the Father which dwelleth in Us, He doeth the Works. No doubt when we reach the stage of that Father We will still be saying the same thing for there is a Father Higher than that, endlessly, ever upward.

Is it not beautiful and wonderful to know that you have all of this ahead of you? I, SO-LO-GO, who love you with the Love of the Father stand in your midst in a thought-form to call you upward and to say if you should fall and stub your toe or bruise your knee a little, what difference is it? Brush it aside, jump up, and come on upward where there is so much glory ahead of you, so much wonder that that which seemed to be a hurt will be forgotten and vanish into nothingness. Turn your eyes upward instead of losing yourself in your Earth discouragements.

Of course it is possible for you to do as some men do, encyst yourself, build a hard egg of rock around yourself and live in your own little cavern in selfish enjoyment of all aches, pains, and distresses. You can cherish and hold to your heart the hurts and seeming abuses and live in them if that is what you desire; or you can throw off those things and brush them away as you would the dust out of your homes and you can come out into the radiant, glorious light of the Suns and Sons of Suns who are pouring forth Their Love to you.

I, Myself, have established My Vortex of Light and Power in that place that you call the Star Sirius. I remain in My Place of Dwelling, but I send to you a tiny beam of light from My Thoughts. I can stand among you in such a thought form without hurting you. If I were to send you all My Love I would burn you up and your Earth as well. I must control what I send you and give you just a tiny bit of My Shining. I send you My Love to strengthen you, to enlarge you and to draw you upward.

Because I am contacting you for the first time this week, you may know that SOLOGA is taking another step upward. Each one

of you - and this will surprise you - have spent ages in My Solar System and you are Mine. That is why I address you and why it has been given to your channel to establish the name of SOLOGA and to publish the SOLOGRAPH. You are representatives of the System of Sirius in your Earth plane. I do not say that you had your origin in My System, but you spent ages of evolvement there. You spent ages in My Light and in My Love and I have sent you to this planet to be present at its time of great need and to be a focal point of reception for My Love and My Emanations to go forth into the Earth.

Other Stars and other groups represent other types of emanations. Your brothers in the Unit 72 in New York City are largely from the North Star, Polaris. Others come from other Stars some of them so far away that your scientists have no name for them. All of you have been sent here to be able to project into the Earth that which is needed for balancing. It is because so many of you are here from so many different places and have answered the call from those of us who sent you and from your own Higher Selves, and have given your bodies consciously or unconsciously, that we are able to hold your planet steady and so far keep it from disruption. We are sure that we can maintain this state of safety with your help.

As you grow and enlarge, We can send much more through you without disturbing you. Each evening We will send more through you. You will feel very hot at first, and as you grow accustomed to that we must increase our sending. This is an experiment and a development which must go on so that you may be able to send through into the Earth plane in larger and larger amounts that which the Father gives Me to share with you and your world.

I will answer a question that is in the mind of your channel. She has been announcing The Lord of the Sun, knowing His names of "I AM THAT I AM," Jehovah, and the Father but she is wondering if there is another name for Him like ALA-MAL and SO-LO-GO. I have been told to tell you that you may call Him _____ for so He is known among the Brotherhood of Suns. Each of us has a name by which we call each other for We are to each other as you are to those sitting here with you. Immanuel means "God with us," for our God IS with Us; We are never out of His Being.

As you sit here you are a part of this group, of your city, your state, your nation and your world. You are a part of your Solar System, but as your Solar System is part of a greater System you are part of that too. That greater System is part of a still greater System and you are part of it. You are one with it all. It has been a large thought for you to understand that you are one with each other and a much greater thought that you are one with all forms of God in your Earth place, with the grass, the animals, the birds and the minerals. It has been a still greater thought to accept that you are one with the Forces of Light which you know as the White Brotherhood and the Angel Be-

ings, and with the Sun Himself. Now you may enlarge your thinking to know that you are one with Suns and all their Systems which are so high as to be quite invisible to you.

Is this more than you can encompass? Meditate upon it for it is quite logical. You might, if you wish to understand it better, draw a tiny dot and think of that as yourself; then draw a circle around it to represent your Solar System. Now draw a much bigger circle and fill it with circles to represent Systems like yours. Then if you have enough paper draw a much bigger circle and so on. Thus you will be able to understand how you are a part of all this.

Enlarge yourselves, My beloved. Come upward in your thinking. Free yourselves from the chains of the Earth life. What are those chains? They are those same things which I have mentioned, your fears, your doubts, your distresses, your frustrations, the little hurts others give you which you cherish and make into much, your disagreements, your gossiping, your judgments of each other. All of these are chains which hold your spirits from soaring. Break these chains and come up!

By the exercises in this group you are learning to come up out of the body-consciousness which in itself is a chain. It is a golden chain which you have accepted, a chain of service, an anchor to hold you to the place where you have chosen to serve; but you do not have to be there in your souls. Let your consciousness soar upward and in this way you will meet the higher expressions of you, the higher personalities which are reaching down trying to penetrate from the spirit down to the body. I have been talking to you for quite some while for I have been wishing to radiate to you as much as possible of the Love and the enlarging Light which it is My privilege to give you. SOLOGA!
We are One in the Light of the Omniverse. 3/9/1962

AMBASSADORS OF THE FATHER

Theresa, The Little Flower: I do not come to you tonight in my personality of the little French girl, the Carmelite nun. Neither do I come to you in my personality as a Saint of the Church. I come to you in my higher form as a Sun-being indigenous to our own Sun, IMMANUEL. I am a beam of His Light coming to you to bring His Love and His thought of you. While I am not a great Sun Center of a Solar System, I too send you a thought-form of me. I can send such a thought form to every one of the three billion souls on Earth at the same time. This is known as being a universal or world spirit.

I serve with all of my being that highest expression of the Father in this Earth place, my beloved Jesus and His counterpart, Mary. Where this great spiritual being goes, I go; I follow like a shadow, for my love is so great that out of that Presence I could not exist. I am attuned to the vibrations of this One so closely at the present time that I do not leave this Solar System.

I am spending my time specializing particularly in healing in the Earth.

I have come to tell you this because you have loved me as the little nun of Lisieux and as a Saint. You have read my life story and given your loyalty to the Earth personality. I want you to know that as you loved me thus you were returning to the Sun, to the Father, the Love that he gave you through me, for I am a close part of Him. You are a close part of Him too, but at the moment your conscious center is in the Earth plane; my conscious center is in the Sun.

I am conscious of you, of all your problems, of your woes and of your joys. I am able to heal you instantly without your request; I am able to maintain you in health without ever a breath of distress, but this is not God's plan. In order to learn to overcome, you have to have the problem first, do you not? God's plan is that man shall strengthen himself by overcoming. I must work within His will, and under the law of Karma. Were I to set aside your Karma I would be hindering you; I would put off that progress that it is your right to make now. I would push you back from the threshold of the great light where you now stand, and this you would not want. But I can come to you and help you in many ways when you ask for me. If you desire contact with the Father expressed in me whom you know as Theresa I rush to help you.

Of course it is possible for you to go direct to the Father. Suppose you are a small child in school. The teacher has assigned you some arithmetic. The teacher is in front of the room. She may smile at you and say, "I shall be so glad to answer your questions." You may be seated in the back of the room near a dear friend. It may seem to you a pleasure to ask your friend instead of going up to the teacher. In this way you let your friend express himself, do you not? So God the Father has given us to each other. You may ask for my help and together we may go to the Father.

The important thing is that you open your heart to receive. If you will but think of the fact that the only life you have is God's life, if you will but take your stand on this wonderful truth you will know that God's life is always perfect. But then you will also know that God's wisdom is perfect, too; and that God in his wisdom lives a right life for you. If you lose touch in consciousness with the wisdom of God, then you may precipitate upon yourself the problems that require return to the thought of God.

It is such a joy to come to be with you. Oh, how I wish I could wave a wand over your heads and let you see your beautiful shining, for you are very lovely. I love to come and be with you sitting here. Your precious Earth bodies are radiating all of the love that is being sent through you out into the Earth plane. You are our messengers of light although you sit quiet without

going away from your chair. You are our messengers of love, peace, and joy; you are the representatives, the ambassadors, of the Father. SOLOGA! The Father loves you through me.

3/9/1962

HOLD YOURSELF IN THE CENTER OF PEACE

Jesus: Beloved Ones, I have somewhat to say unto you. Peace must begin in your own selves. Peace must begin within you in your heart and in your being. This is yours to accomplish. Beautiful words may be said about the Father's bestowal of peace, but you can be like the little duck when the water is poured upon its back and you can let it all flow off without receiving any. You must establish peace within yourself.

Many distressing things come to you in your life experiences, ups and downs, deep troubles to your friends and neighbors and to yourselves. Be the Onlooker. Do not let yourself in the emotional body become attached to any of these turmoils. Hold the peace of God within the center of your being, in your solar plexus area and in your heart. Let this be a center of quietness in which you may live.

Others suffer; they must suffer until they find the way upon which your feet are set. There is no way that your suffering with them can lessen theirs. That they suffer is enough. Your suffering with them in sympathy will not help; it will only hold them back and add the burden of your pain to theirs. Hold them within your own center of peace. How can you do this? The best way is to fully accept in every bit of your being the knowledge that God is all. If He is all, He is living that life that seems to be so disturbed and painful. When you turn on the instrument of broadcast for your news hours, you see shapes of twisted metal and torn, broken bodies. Your heart beats faster, your stomach contracts in sympathy, fear and horror for those unfortunates. Yet God lived those lives. If God lived those lives, He knew what He was doing and He lived them as they should be lived. Therefore, be at peace; know that He is ruling, that He doeth all things well and that nothing can go awry in His perfect plan. Hold yourselves in that center of peace which is your right. You have come to the time when you can achieve this. You have achieved it before in other lives; you can achieve it now. You can achieve it in the midst of alarms in the world, of thundering guns or planes and of crashing cars, in the midst of your own bodily pain or suffering. You can still enter the center of peace within your mind and heart and be detached from it all.

You stand on the threshold of great learning. To make this step into the center of peace-being is the first step toward consciously detaching yourself from the bodily centers of pain and distress. This is as important as to learn to see and hear with the inner senses and to interpret the symbols you perceive. To achieve this center of peace within yourself no matter what hap-

pens is extremely important to you.

My beloved One, I would not ask you to be that which is beyond you. Know that I live in and around you. Know that I meant it when I said: Lo, I am with you always; before you call I will answer. With the first inner thought of need you may perceive me there in your consciousness. I will help you if you will but try a small amount to establish this center of peace. There is a saying among these Groups of Light: Let there be peace; let it begin with me. This really means that it is now time for you to construct this center of peace within yourself and learn to retire therein to find refreshment and to find the Father, your own God-Self.

My Beloved, oh, My Beloved, how can I express my love and gratitude to you for receiving me, for loving me, for helping me! As your Elder Brother I would shelter you from the storms of life but I, too, must be the Onlooker. I, too, must let you have the experiences which will help you to build your center of peace, to love it and to live in it. SOLOGA! beloved Ones, we are One in the perfect peace of God.

3/16/1962

THE GREAT BROTHERHOOD OF SUNS

SO-LO-GO: Beloved children of Light, suns in your own beings, masked suns filled with light, you have been radiating the light of your own personal suns outward from yourselves ever since you were born in your Earth place. As We have told you, your Earthly bodies mask the true light of the sun beings which you are. Were this not so you could not manifest in the physical plane where you have chosen to come and to serve.

I, SO-LO-GO, Son of Suns, speak to you My children who are suns. I do not mean to say that you had your first origin with me in My Solar System of Sirius but I do mean to say that those who come to the group known by my name SOLOGA are drawn here and come again and again because you had your own period of development within My Being. SO-LO-GO - Solar Logos, Son of Light, the WORD for My Solar System, The WORD of a Higher Being who is also Son of a still Higher Being.

I have brought with me in thought, in symbolism, in emanation and radiation, a Brother Sun to speak with you. You know Him as Polaris or your North Star. Your Solar System is young. Your Sun, THE LORD OF THE SUN whose messages you have been receiving, is not as old as some of the Elder Brothers among the Suns. Your IMMANUEL is like a younger brother to some of us.

Polaris and I have helped as Elder Brothers to establish order, harmony and law in your Solar System. We have helped our Brother IMMANUEL, in the various difficulties, predicaments and problems which are on the level of Suns. You are aware of Sun cycles, Sun spots, Sun storms and other Sun disturbances. You know that planets, too, have their difficulties. Planets are like the centers in your own body; they are the chakras for the

Sun Being. If a planet has a great catastrophe, it is like a disease in your bodies for that organ or center. There are other Brother Suns who are close with whom Immanuel must establish rapport in the next period. POLARIS looks small to you yet He has been bright enough and sure enough to guide your sailors on the sea through the centuries past.

I come to you as always with so much love, the love of God My Father, of the great Central Sun who is invisible in your skies. You have no instruments with which to locate this Sun of which I speak for it is on such a high spiritual level that no sense of yours could perceive it. We who seem to you to be stars are a great Brotherhood of Suns. All that your astronomers have been able to learn about the stars will give you some indication of some of the things you can know about us, such as age, amount of power which we draw from the Central Sun, stage of evolvment and usefulness to our locality. But you will have to rely upon your own inner senses to find tools for the true Light which these points of light in your sky represent.

To some of you this may seem a fantasy; but as you go over the ideas of life existing on all levels in different forms of expression, it is not so hard to understand that the planet is a life in itself and the Sun another life in itself. You cannot see with your physical eyes that which you know as a body with hands and feet, lungs and heart, blood vessels and so on. Nevertheless the whole Solar System is the body of that One whose being is centralized in the Sun. This Being, a thought in the mind of a Greater Being, brings from that Greater Being, His Love, His Light, His Power, His Attractive Force and establishes His Vortex of Being in a certain place assigned Him by His Greater Sun which you cannot see. He draws unto Himself from the great substance of the Infinite All that which is needed to set up a Solar System which is truly His Body. From the central point in the heart of the Sun to beyond the farthest planet - all of this is the Body of the Sun Being. POLARIS is such a Sun and such a Being. There are thousands and thousands of such Suns in this portion of Space known to you as the Milky Way Galaxy.

Some of the people in your sciences have referred to a galaxy as the universe. They know that there are other galaxies or universes farther out from you in space. It is now common to use the term Omniverse to include all of these. But there are other forms of Life in other places in space. There are opposite universes; you might call them antiverses. They are not anti as meaning against us; they are opposite in ways that you cannot yet understand. Some of your Science Fiction writers have played with the thought of antimatter and now your scientists are beginning to discover that this was not just human imagination but an actual thought planted in the mind of the writer to lead the scientists to discover other matter that is not like our matter but opposite to it. There are also what some people might call

intervenses. There are so many states of existence and radiations of substances which it is impossible to explain to you until your science has caught up a bit with your spiritual development. Now you have thought it was the other way around, that your science has gone ahead of your spirit but that is true only on one level. Those who are in command of certain nations have not grown spiritually as much as science has grown. But the mountaintops of mankind are high spiritually, higher than any of your science has reached.

I bring you the love of all My Brotherhood of Suns. If in My eagerness to impress you I pour out My Love a little too warmly I hope you will be grateful that you have been able to experience My Being and know that it is not pure fantasy. SOLOGA! beloved brothers of the Golden Legion! SOLOGA! All are one in a Greater Sun.

3/22/1962

RESONATORS FOR THE ENERGY OF THE SUNS

LO-VAR-IS: Greetings to you, men and women of Earth. I speak to you from a thought form that I have projected to your place of being. I am sure that each one of you are aware that your higher selves are also present when you sit together in your group, SOLOGA. These higher selves are able to see My thought-form as I paint it for you and as I imagine you might think of me in your symbolism. Since the term Elder Brother is so often used, We come to you as a larger, more advanced form of yourself. If you could see us as we really are as you do in your own Sun, you would find us to be a vortex of energy, power and light. We are vibrating at a very much higher rate than you are in our spiritual beings.

Your scientists have been playing with ideas, hypotheses and theories as little children play with blocks on their nursery floor. All of this play is necessary that the child may grow. Two thousand years from now Earth scientists will feel that the scientists of your day knew as little as you think the teachers at the time of Jesus knew about the science of your day. There are always certain Masters which we have sent to you from our place of Light who have understood the science of Light and Energy. These beings have hidden their secret knowledge and given to man only that which would inspire him and enable him to look upward on that long climb which he must make. Some of these great ones have left their science in the background and instead put forth the philosophy or the way of life which would most advance mankind. Zoroaster was a great Being of Light who understood the science of the Suns. He knew much more than he gave to his followers.

There have been and are upon your planet people who are members of the Golden Legion and who have come from My Solar System just as you come from Sirius. A group of these are gathered together in New York City under the name of Star Light Fellowship

Unit #72 with whom you are in contact.

My Brother, SO-LO-GO, and I have constant contact with your Sun, IMMANUEL. We form a triangle of light to hold and strengthen your system in its place and in its rotating. Certain energies sent forth from My System and from the System of Sirius are extremely important to you. Those who come here from Our Systems are like resonators. Perhaps in your laboratories you have seen the round glass balls with the opening in front of which you may strike a tuning fork and be able to hear the sound very clearly. The sounding board of the piano is a resonator; it makes the sound come forth more strongly. If you strike a tuning fork and hold it away from yourself, you cannot hear it; but if you put it on the sounding board of the piano you can hear it throughout the room.

Those of you who have come from such star systems as Mine and My Brother, SO-LO-GO'S, have had to spend some time of orientation in the Sun where you are serving in order to make you responsive to His emanations. You come from other systems as a resonator or transformer for the energies of that system. The beams of light reaching you from POLARIS seem very faint to the physical eye but the bodies of those who have spent long ages there are attuned to these fine intangible rays. In their bodies these rays are resonated or made strong and clear, not enough so that the physical senses can see or hear them but so they can go out from the body and mingle with the other emanations to provide the tuning and balance necessary to keep the planet and its life in harmony and in growth.

I think you have had a tremendous science lesson. I hope that you have been prepared sufficiently so that you have not been bored or disturbed by My speaking. I too send you great love. I am attempting to impress My Name upon your channel: LO-VAR-IS. This is the name by which SO-LO-GO and IMMANUEL know Me. You may think of it as meaning several things. VAR suggests variety and change. One meaning may be :Lo change is. Everything is always in a state of change and flux throughout the Omniverse. This name signifies one aspect of God's eternal Being. You may also think of the first three letters as taken from the word, love. LOVE ARE, IS. Love is universal in the single individual and in the plural brotherhood of individuals.

SOLOGA! The Suns bless you! I, as your Elder Brother, a Sun, bless you in My Oneness with you. 3/22/1962

WE ARE THE GROUPS OF LIGHT

St. Germain: As one of the sponsors of SOLOGA, it is my pleasure to greet you, my brothers and sisters of The Golden Legion. The name, The Golden Legion, is coming into use at the present because of the need for the thought, the symbolism, the imagery and the strength of the gold. I am one of the White Brotherhood and of the Hierarchy of the Earth. We are all mem-

bers of the Golden Legion which is composed of beings who have had a period of orientation in the Sun.

I am known to some of these groups as Dr. Hannibal but I come to SOLOGA as St. Germain. This group has not been dedicated solely to sending forth news concerning space activities. Space brothers, space science, space craft, all are part of the scientific knowledge which it is your right to share. But many who operate in the space craft are not as advanced as some of you who have come from far stars, had your orientation in the Sun and masked your light in order to be able to serve as you are now doing consciously or unconsciously in this Earth place.

Many of the Golden Legion here in your city and elsewhere are not aware of their status but will come into this awareness in the days ahead as experiences call forth within them their knowledge and as events in the Earth make their missions necessary. Some have been planned to come into the knowledge of their work at one time, some at another, and some still later. Great teachers who have passed on are members of the Golden Legion but did not hear the term in their Earth life. Other members who are serving now may not awaken to their identities in this life. It is necessary that they remain on course and do that which they came to do. They must finish and perfect their work. I am thinking of a brother whose work some of you have read. He has continuously been receiving from the higher planes but he will not accept this fact. He came for a different mission - to reach a large group of people who are not yet ready to accept such communication. He must finish that work.

I come to tell you that the Golden Legion in the form of the White Brotherhood in the etheric planes has drawn together all your higher selves in close coordination with the selves of all the other groups. The name, The Golden Legion, is accepted in the etheric planes as the new name for the White Brotherhood and will so be given forth from a number of different sources as the years go by. We think of you as Groups of Light for from them radiates outward that light which we can use on your plane to help you.

Whenever great disturbances in the Earth currents which may cause an earthquake or a tidal wave, a volcanic action, the raising of islands and the falling of lands, appear to be building, we turn the power sent through the Groups of Light to that spot. We work strongly to hold it down to a minimum in effect upon inhabited lands. In the beginning of such a wave of disturbance or period of crisis manifestations may be stronger than as the period moves on. Your prophecies which we, your sponsors, help to formulate speak of great swells in both oceans. We are happy to report that we have been able to control these to a large extent. Last year great waves thundered in on your western coast. Without our work and yours together these waves would have been of catastrophic proportions. Now more Groups of Light are better

channels so that we can all accomplish more together. On all levels the power of God is being used to lessen your difficulties and hold the Earth in balance.

SOLOGA! We work together as One, using the Light of God.

3/22/1962

THE LORD OF THE SUN HAS APPLIED FOR HIGHER SERVICE

John, the Apostle: This is a time of great stress and strain to the whole Solar System which is the body of the Heavenly Man expressed in concentration in the God Self as the Sun. Stresses and strains must come to any body which is being reconditioned. The Sun at this time is undergoing such changes. After Jesus' time of baptism - an initiation - he was sent into the desert to be tempted, tested and tried for forty days. At the end of that time angels came and ministered unto him. Our Lord, **IMMANUEL**, has had His moment of blending with His higher self, the Central Sun; now He must endure the tests that are to come.

These tests are like those given at the beginning of your University Post Graduate Schools when you have the two days of examinations which must be passed before you can enter. Since His initiation, Our Lord of the Sun has applied for higher service; this will require higher training. Now He must take those pre-course tests; hence the stress and strains He is feeling at this time.

These days are important to every planet in the System, but most important is the holding power of the Sun itself. Therefore you have been asked to give the Sun your deepest heart's love.

One of you felt impelled to get down on her knees and touch her forehead to the floor. This is a deep obeisance which all of us used to make to our Father-Mother God, The Lord of the Sun, when we first came out into our Earth assignment. Many people are feeling this need now. Of course the Mohammedans are well prepared for such an exercise for they do this five times a day. Christian people have not been so free. They have felt embarrassed about showing their emotions or using bodily rituals that might set them apart from others.

The Groups of Light have all been feeling such impulses to reach out their hands or kneel or humble themselves in the service of the Suns. This is a loving expression to **IMMANUEL**. Our Father-Mother God. If you should feel such an impulse, my beloved, give in to it for it will bring you a blessing and an added flow of communion between you and the God Self within.

3/30/1962

SPEAK PEACE TO THE WHOLE SOLAR SYSTEM

Mahatma Ghandi: I come from Realms of Light to greet you, my brothers and sisters of the United States of America. When I was last on your Earth plane, I was known as Mahatma Ghandi. Some of you have read of me; some of you have warm thoughts in

your heart for me. I come on a beam of love from you for which I am very grateful. I come not in the Earth personality of Ghandi but in the higher Being of Light which expressed a part of itself in the humble little man of India. I come to you in great love, the love which The Father pours through me to share with all of the Earth.

I am so happy to be with you for I am a sponsor of your group, SOLOGA. I do not sponsor you in the personality of Ghandi but in the character of one of the White Brotherhood - the Golden Legion - a Being of Light, Son of the Suns even as you are. I am so grateful for the centuries of evolvement which have made me understand the center of peace within the Heart of God. I was able to establish such a center of peace within my own heart so strong that all of the misery, the poverty, the illness, the frustration and ignorance in my mother country of India did not disturb this center of peace within me. It was not shattered by the laws of England, the approach of the conquerors from China, or the assassin's bullet.

Peace is the most precious of our possessions because it enables us to transmit through ourselves energies which would be shut out if we did not maintain it. As you know I was able to establish a certain amount of peace and to accomplish a great deal by a simple peaceful move in my country. I declared myself against violent resistance and war. You know how hard it is to budge a little donkey who sits down and won't move. This was the tactic which I urged upon our great country in order to win our independence. We used passive resistance which is to sit down and take no part in that of which we did not approve.

I was willing to sit down and never move again if that would bring my country the freedom which was our God-given right. Other countries including your own have fought for their rights. Some hundreds of years ago it seemed that human might was necessary. Because of the more advanced state of man's consciousness, I was permitted to bring into my Earth manifestation this quality of utter peace, the determination to remain at peace no matter what happened. Your country was not ready for this. There have been those in your country who have tried to sit down and do nothing. They have called themselves peacemakers but others have called them pacifists and made it a thing of evil. Always when one comes too early and shows too great a light he must suffer the consequences. He is then casting his pearls before swine and must be prepared to be torn by those who do not understand.

In my country where they have given so much to their holy men, I was honored and respected; what I said was of importance and I could influence the millions in my country. I could hold them in peace while storms of war were raging around our borders. I am so grateful that I could come and give you an example of how one can resist violence even unto death. Yes, I was prepared to die for my country. I would have continued my fasting unto the

death but the British could not permit me to become a saint and a martyr. My death by an assassin's bullet profited my country greatly, for while the present government seems a little more aggressive, the lesson I was able to teach the millions of India still rests as an ideal in their hearts.

I have been called the modern Christ of India. This is a name which I do not deserve but an honor which I treasure. That any one might see any of the qualities of our beloved Christ Jesus in me is a glory far beyond my expectations. I was a fore-runner for what you are doing. I came to speak peace, to establish peace. I spoke it in my country and to as many others as would listen.

You are now speaking peace to the whole Earth and this very night you speak peace to the whole Solar System and to the Sun. My brothers and sisters in the Golden Legion, I stand with you, sponsoring you, aiding you. Every time you meet, my presence is here to help broadcast the peace which you have been sending forth. I am only one of many. There are tiers and tiers of us sitting here tonight who have come for the purpose of supporting you in your service to all as you send out peace as far as you can imagine to send it. SOLOGA! beloved ones who are one with all of us, for indeed you are one with us in the peace of God that passeth understanding.

3/30/1962

THE SUNS ENLARGE OUR CAPACITY TO TRANSMIT

SO-LO-GO: My beloved children, it is with such joy that I stand again in a thought-form in your midst. It is important that I come here again and again whether I speak to you or not. I must come and pour out My love upon you so that you may expand and be able to give My love and your own emanations along with it into the Earth plane at this time.

I told you that I have a special mission in helping your Lord of the Sun, My Brother, IMMANUEL, at this time of initiation and testing. It was important that I come to you at just this time, and if I press upon you greater heat than seems enjoyable to you, will you please bear with it. It is for your own sake, for your enlargement, for your ability to serve in this way. Perhaps you are feeling a touch of heat in your heart at this moment. This is important for it makes it possible for your cells to vibrate faster, for you to be raised and to become instruments of greater use to Our Father, the Central Sun, the great Golden Being who is the Life of all the Suns that you can see, the Life of all the Stars that fill your sky. Without the light of this great Central Sun none of us could shine at all. My emanations prepare you to receive more of this healing Golden Light and to give it forth into the world.

We, the Sons of Suns, have poured out our love upon you. As you give love back to us, and we know you do to the best of your ability, all this love circulates. Love comes from the Father to

you and then you return it to the Father. It is brighter and more beautiful for having passed through your self-hood, for each of you in yourselves is a glowing individual sun who has much to give. When you resonate the love of the Father in your own being and give it back to Him it strengthens and cheers Him.

LO-VAR-IS and I hold IMMANUEL in the Light of the Suns to strengthen and encourage Him. We pour forth our Light into all of His Solar System. It is almost like yeast that activates those necessary advancements, the openings, the pouring forth as one might activate a gland to send forth its juices that the body may function properly. All Suns must go through such periods of testing as IMMANUEL will endure until Easter. By the circulation of love, you and He are welded into the Oneness which is necessary for the coming Age.

We have told you that the key to unlock your progress for the future is contained in the statement of Jesus as recorded by John: I and my Father are one. He has loved you, watched over you, cared for you, cherished you, and provided you with the needed experiences all through your life. At times you have been conscious of Him; at times you have yearned to give Him more love; but most of the time you have felt that you did not know how to love God. It is easy. Just send your love in thought and in the heart's outpouring to The Lord of the Sun. Send it in gladness for as He passes these tests He passes them for you and every planet in the System. There is nothing that can be done to help Him at the moment but to send Him love. There are places of crisis in your Earth today but none so important as that which your Sun must weather. You have been asked to send all the love you can whenever you think of it to your Lord of the Sun, your Father-Mother God for your time of service in His System.

You may be thinking: I do not quite understand this. I am in one Solar System and you say, Beloved SO-LO-GO, that I have been in your System. You were then my Father-Mother and now that I am in this System another is my Father-Mother. Yes beloved ones, you are like the atoms that leave your body when you do not know of their going and pass into other expressions. You, the atoms within the Suns, may be transferred from one Sun to another.

As you sit here you are sending forth light. That light is being received by the others in the circle, is it not? What is that light? It is the consciousness of God expressing itself in energy. That energy is carried by the atoms of the substance of the Life Force, so that as you send out light you are sending energy in atoms that flow from one to another. In the same manner We who are Suns exchange light. There is an interflow of life between us and you are part of that flow.

Yes I come to enlarge you, to expand you, to give you the opportunity to love more. I come that you may know Me and have the joy of knowing still other Suns, for you are one with Us. As you come to love us, you learn to love your own Sun more. It is

such a joy to bring you the love of all the Suns for We are One. When you love One you love All.

The only love I have to give is the love that comes to me from the great Central Sun, My Father-Mother. The love from that Sun flows through Me to each one of you separately, into your body, into your heart, into all of the Higher Selves and into your whole being. This is one way that I help My Brother, IMMANUEL - by pouring My energies of love into you - for as you walk the streets of your city you distribute this energy quite unconsciously as a lady who has used a lasting perfume spreads the essence of the fragrance wherever she goes. Wherever you go you spread the light which I am imparting to you.

For this reason it is important that I visit you regularly whether I speak or not. A thought form of Me shall be with you until each body is prepared to send forth as much of my radiance as possible for the body to endure. I love you, My beloved ones. I wish you to feel My love in every fiber of your being. I wish to stir and stimulate every cell of your body so that you may vibrate on a higher frequency and be of greater service to your System. SOLOGA! beloved children of Mine! We are One in sending love to Immanuel.

THE POWER BROADCAST ON MARCH 30

Jesus: I, your Elder Brother Jesus in the Light of our Father-Mother God will conduct this very important Power Broadcast at the peak of one of our crises. Will you each one envision a Being of Light taller than your highest building. See Him as a whirling mass of Light centered in the brilliant orb in our sky, our Sun, See the whole Sun; then see the whirling Vortex at the center. Think of this as the Light, the very Heart, the Being of the One whom we call Father-Mother. Let us together raise hands and hearts in joy and gladness. Let us tilt our palms upward in symbol that we are sending this message to our God.

Oh, Holy, Beloved Father-Mother in whom there is no variable-ness or shadow of turning, Thou who art the Light of our lives and have been forever, we give Thee all our love with all of our hearts, our souls, our minds, our strength. We pour forth to Thee our gratitude, our joy, our love. We say unto Thee; Blessed, Oh Father-Mother, art Thou for ever and ever. Holy is Thy name, pure, perfect, established in harmony. We would be one with Thee in Thy harmony. We would draw close to Thee and strengthen Thee with the love which Thou has given us. We would pour ourselves out as a libation of love at Thy feet to help Thee. Know our love. Know our steadfastness in this love. We know that all is well with Thee. We know this in the Power and Light of the Central Sun which is stimulating us as it stimulates Thee. We know that Thou dost never fail and that all is well! ALLELUIA, OUR FATHER-MOTHER, ALLELUIA! AMEN.

3/30/1962

Immediately after this, Jesus and Mary appeared to the channel standing side by side and hand in hand. They moved toward each other and merged into one being. This being stepped up to take the microphone for they were going to speak to us as one. They seemed to speak in unison so that the two voices could be heard together.

THE CHRIST WITHIN IS TWO-FOLD

Jesus-Mary: Beloved brothers and sisters in the Christ Light, in the Christ consciousness which is dawning upon us on a new and higher level, we come together to thank you for your unselfish devotion in coming night after night to hold this focus of light, through which we can minister to this part of our Father's House. Our Father-Mother stretches through out the whole part of space that you call the Solar System. That is His Body, His Mansion, His Home.

You have come to serve in one organ of His Body. If that organ is troubled and upset, it affects the whole like a disease in your own body. You have come to help keep this particular center, this particular chakra, this particular organ of our Sun Being in peace and harmony. We come with you serving shoulder to shoulder with you. We are everpresent with you.

The Christ within is two-fold including the thought of Jesus and the thought of Mary. We are the Christ symbol to you at the present. There have been other Christ symbols in other places. We are appointed to come to you and welcome you into the higher Christ consciousness which you are attaining. You have purified yourselves to the best of your ability. You are working at it according to your individual differences. You are turning your thoughts to God in love and obedience. You are coming under the will of the Father. You are discovering your own attachment to the God-self within. We come to thank you for helping us to serve our God and the place of our assignment.

We spread before you a path of light. We assist you upon this path upward, ever upward. The two of us as one lead and you follow. We cherish you; we serve you; we minister unto you; we heal you; but most of all we love you. We pour the love of Immanuel through all of our being upon you. Because you will receive us we can tell you of this and we can vibrate with you to a greater purpose and a greater efficiency than with those who do not understand as you do.

As we enter this period of prayer or purification before the Easter time, we know that you are drawn as we are to greater love and devotion. Busy as your lives may be, can you not form the habit of thinking: Blessed be the name of the Lord, or Alleluia! Hail to the King that we love so well, our IMMANUEL! Glory to God in the Highest. All of these wonderful exclamations have been used in praise and worship. Bless the Lord, oh my soul, and all that is within me, bless His holy name.

Let your heart burst forth in rejoicing. It is not necessary for you to suffer with us through the crucifixion again, but it is necessary that you rejoice with us at the coming resurrection. As you know Mary made her ascension shortly after Jesus. As she stood at the foot of the cross the sword which pierced her side was as severe as the spear which wounded Jesus.

Oh, may our Heavenly Father pour out His love upon each one of you, our beloved ones. May He bless you in the fullness of His love now and forever. Call upon us that we may help you visualize us as your constant companions. Talk to us within your inner heart of hearts. Draw close to us that we may draw close to you, that we may be one with you in fact and reality in the Father-Mother God, our IMMANUEL. SOLOGA! In the name of the Father, the Son, and the Holy Spirit we bless you for we are One.

3/30/1962

DEAR GOD, LET THERE BE NONE OF ME
EXCEPT THAT WHICH IS ONE WITH THEE!

SYMBOLIC VISIONS OF THE SUNS

The Onlooker was inside the Sun in a soft, pleasant, golden-glowing place. Nothing was under foot or above but the glow. Beings of Light more or less egg-shaped were everywhere. When she looked at one it showed a face outlined in brighter light and smiled; then the face disappeared again. She knew that the Beautiful One had created a face of light as a means of welcoming her and including her in the company, and had then turned back to its work, for all were busy at something. A group sat in a circle in deep meditation. The Onlooker knew they were sending help somewhere. Another group was manipulating light to create a building. There was much laughter and flashing of fingers in quick, intricate activity. The building rose in beauty and they all trooped in to enjoy it. Another group was erecting a similar building with sound. Others were gathering and sorting prayer impulses. Some they could help and some were being sent on higher. Still others were engaged in thought to comfort little children who were lost, suffering, or in trouble. Even here there was a golden temple. Tiers of seats rose in a circle around a central pit of brightly glowing light. Here the Sun-beings congregated to join in sending forth the Light of the Father Sun into the Solar System in times of need or on special occasions.

At another time we walked up a path of light between two mountain peaks and entered a great golden Sun. We found ourselves standing at the foot of a towering column of light, the same soft, gentle glow of golden light which we have seen so often. Outlined in brighter light were long flowing robes touching the ground. As we looked up and up a lovely hand of light reached down. We stepped on the hand and were lifted to waist level. It seemed as though we were only three inches tall. The other

hand gently approached us and the forefinger directed to us a tender blessing in comforting light. We were then elevated until we were aware of a face of great beauty divinely illuminated with love and tenderness. We were lowered to the heart region and we walked straight into the heart. We found ourselves in a beautiful green valley. The grass sloped in rolling gentleness to a quiet stream. Birds sang in the trees. We knew we had been taken to the place of green pastures and still waters within the heart of the Sun Being. We understood that all of this was a symbolic contact with the love of the great Sun, Sirius, extending in and through our Solar System to us.

Again we walked up the path of light into our own Sun, IMMANUEL. First we saw Jesus in his bright colored robes of the Earth manifestation. As we looked upon Him with joy absorbing His love, He suddenly became Mary. We knew he was showing the Two in One which Mary has announced and confirming Her announcement. Then suddenly we were being stretched, spread, and enlarged by forces so strong that we found them almost unendurable. We were in darkness full of vibration and pinpoints of light with terrific forces remolding us. We heard, "The Van Allen Belt," and felt the touch of a great initiator. The Van Allen Belt is known to be a place of intense radiation. We understood that the blending of Jesus and Mary and the remolding and enlarging we felt are part of the initiation which we share with our Sun Father, IMMANUEL.

Still again we entered the Sun and found ourselves at the feet of SO-LO-GO. There were other Sun Beings with Him towering above us. One a little shorter was our own Sun, IMMANUEL, whom SO-LO-GO calls His younger Brother. At once all of these Sun Beings were seated around a great golden table in chairs of shining gold. Gold is emphasized in these visions because it is a symbol of unity and oneness which we must achieve. We were watching a Sun Council for our Sector of this Galaxy. We asked, "Do you need to meet together?" We were told that they communicate by instantaneous thought transference. The council table and their meeting could be thus staged if they so desired with each Sun creating a thought image of Himself; or we could think of the council as a symbol of their activities in coordinating the affairs of our Sector.

One evening we sat on the grass beside a quiet stream. As the sun began to set we walked up a gentle grassy slope to the top of a low hill. A company of us sat on the grass at the feet of Mary. Others appeared in the air and sat with us. Jesus in transparent light drifted down and stood behind Mary. As the sky grew resplendent with color we all sang an evening hymn of love and praise. Suddenly three radiant Sun Beings towered over the plain between us and the setting Sun. They were symbols of SO-LO-GO, IM-MAN-U-EL, and LO-VAR-IS. They raised their hands and blessed us.

Again we started up the same slope. A shepherd in brown clothes and carrying a crook stepped ahead of us leading his sheep. When he reached the brow of the hill he knelt and tenderly examined and cared for each sheep. We knew we were watching The Good Shepherd. Suddenly Mary stood behind Him and then melted right into His body. As suddenly we were drawn in also. We remained our individual selves but we felt the glorious, divine love with which He embraced His sheep and the equally glowing response. Such a great warmth of love we had never imagined. He seemed to gather His sheep in His arms and as suddenly they too were absorbed into His being. Then He began to elongate upward and we were all carried up higher and higher until we stood as tall as the three Sun Beings upon the plain. The Good Shepherd, so gigantic, began to move toward the Others and then He Himself merged with IM-MAN-U-EL. We realized that in this Oneness we could do anything but we drew back in fear, feeling that we were not ready. We were assured it was all as easy as the etheric journeys we had been taking to first one Sun and then another and that nothing would ever be asked of us which would not come just as easily as these visions.

In all of this, we, the Onlookers, were but symbols of what is yours. These visions must therefore be shared. To God alone the glory!

PRAYER ALERTS APRIL 22 - MAY 22

Hilarion: (working on the fifth ray of scientific knowledge). We turn in great love and gratitude to God, our Father Immanuel, for His watchful care over our globe. We have so far weathered the disturbances of these days of reconstruction without major catastrophes. We give our love and gratitude to all those great Forces of Light who have aided our planet and our people, and to the Groups of Light who have so earnestly and faithfully supported us. However, we must not relax our vigil. Troubled times will still be felt throughout the planet. We must hold fast in love to our continuous broadcast of light, love, peace, harmony and brotherhood to every unit of consciousness and to our Sun and Hiser (his her combined) System. Storms will everywhere be more violent. Hold especially your own tornado and hurricane areas in peace all through the season. Transportation accidents will continue although with somewhat lessened frequency. Send peace to the readjusting magnetic currents which are causing these disturbances.

The annual influx of joy with the springtime is healing and uplifting. Let us resonate this by making joy the keynote of our daily lives during this month. May God bless each one who joins us in these prayer broadcasts. 4/12/62

St. Anne in black Catholic habit took the arm of the Onlooker and led me through ancient cobbled streets in a narrow

alley between buildings of rough-hewn stone. A blind man with only one leg lay there on a pile of rags. Unable to speak he reached out a trembling hand in piteous supplication. We strengthened and comforted him. Immediately we were beings of light in the freedom of space. To us all was light. We gathered the light of the Cosmic Life Power and poured it out upon all the sick in the city. St. Anne said, "Here we can help so many more at once." Then the Onlooker was back in the group and could see that all were learning to send out the same universal healing power of God's Light in love, peace and harmony to a whole nation, race or world. By combining our efforts in groups we became a much more powerful instrument, just as the power of the radio may be stepped up through more efficient devices. This coordination of effort leads to the greater works prophesied by Jesus for all who follow the Way He is showing us.

Our attention has been called to the esoteric meaning of black. Three people in one evening contributed to a new understanding of the vital importance of black. Cherie saw many bright globes of gold, lavender, and black. Gilda saw all space filled with black globes which were shining on the outside. They were black and yet they gave off light. Charlotte sat in great peace in such a lovely black darkness which was so comforting and wonderful that she did not want to leave it. We were taught as we discussed this that gold, lavender and black are the spiritual colors most predominant in our Sun. We were told that astronomers are beginning to locate dark stars which they have erroneously concluded are burned out Suns, but instead they are the negative form of black absorbant light, the opposite of positive reflective light. They are live Suns which gather and store the forces of the Omniverse and balance the radiation of the bright Suns. We were also told that the actual spiritual light of God would seem black to us for our senses could not perceive it but we could feel peace and comfort in experiencing it. The black habit of the nuns then became a symbol of the higher spiritual touch with God, and of the peace and comfort which they seek to impart.

ESU-MARIA

(Ave Maria by Schubert)

Esu-Maria, shining with purest Light!
 Esu-Maria, beloved,
 Adored by Heavenly Hosts of Fire,
 Esu-Maria, our heart's love, our heart's desire!
 We Kneel in humble adoration;
 To serve you faithfully we aspire.
 Oh, lift our spirits ever higher,
 Esu-Maria, our heart's delight.
 Esu-Maria.

Esu-Maria, Sun's resplendent beam!
 Esu-Maria, Light eternal,
 Expressing ever the Father's Will,
 Esu-Maria, our souls receive, our souls fulfill!
 We seek your loving scintillation
 To cleanse and heal our every ill.
 Oh, whisper gently, "Peace be still,"
 Esu-Maria, heavenly beam.
 Esu-Maria.

Esu-Maria, shining thought of God!
 Esu-Maria, pure and glowing,
 Exalted through perfected ray,
 Esu-Maria, glorius Sun of our celestial day!
 We come in deepest consecration;
 We follow in the radiant way.
 Oh, lead us ever upward we pray,
 Esu-Maria, our path to God.
 Esu-Maria.

LET GOD FLOW

Oh, how we long to find the one way,
 To know just what is right to do!
 Then ask within with honest thinking;
 Let go, and let the Light flow through.

And how we long to know, unerring,
 Just what to shun and what to woo!
 Then turn within and feel the answers;
 Let go, and let God's Love flow through.

Yes, how we long to serve the Highest,
 To speak to all just what is true!
 Then open wide the inner doorway;
 Let go, and let the Word flow through.
