

LEGIONS OF ANGELS ASSIST US. ALLELUIA!

LIFT YOURSELF INTO THE REALMS OF LIGHT

LIOLIA: speaking to MY Beloved Children of Light, members of MY Golden Legion who have served in many places in this Galaxy, I greet you in the warmth of MY Golden Shining, giving your Life, Love, Light and the harmony of Law, pouring out upon you the joy of perfect order, perfect harmony, perfect understanding, perfect light and perfect love.

You have been absorbing more than you realize. There are the words that come to you which you can understand. As you re-read the messages which I have given your group to share, they will sink deeper into your understanding and will become a part of you. But you will be absorbing much more than these truths that have been spoken. You have been absorbing the actual vibrations, the Golden Light of MY Life, for Light is Life. The Consciousness of the ALL expresses Itself in the Energy which is the Life-Force of the Omniverse. Your lives are expressions of that Divine Energy. I cannot say this often enough and in sufficiently numerous ways that you may fully grasp and understand it.

If your life seems threatened by an illness, a pain, a fear, or a catastrophe, think: My life cannot be threatened, for I have no life but the Life of the ALL - the infinite, everpresent Life of the ALLNESS of the ALL - and Its Life can never die. It can be changed from one form to another but It can never die.

When you sit in your group in meditation, lifting your vibrations as high as possible so that you forget the physical you and soar into the Realms of Light in complete coordination with your Higher Self and leaving the physical body still sitting in your chair, you have, in a way and for the moment, made the transition into another form. Should this state continue permanently, your body would pass through the change called death. You do this, however, for only a short period of time; you come back quickly into the consciousness of the body. This does not frighten you; you know that all is well. You enjoy your little trips into the Realms of Light to another place, planet or star. You feel very grateful; you feel very happy that you have developed to the point where you can do this.

That which you call death - the leaving of the lower vibrations of the physical body - is the simple soaring in this manner on a more permanent basis so that you do not return to the body. If you have enjoyed the flight, the freedom, the light, the beauty of what you have seen in the Garden Within yourself or in the Higher Realms in the places you have visited, then you can know that when that which seems to be your life in the physical is no longer needed you will simply experience this same release into the freer world.

If pain seems to disturb you, have no fear; quietly ask those Invisible Forces of Light who love you for release. Immediately pour the Love and Light of the All-Consciousness into the places that seem to need it. That which is paining you needs Light; it needs to be thought of as being cleansed and healed by a vortex of light operating there - the healing Light which I pour out upon you abundantly.

Imagine a housewife cleaning a recepticle. She puts in water and some cleansing material, then she begins a circular motion. Round and round her hand goes to cleanse, to get rid of that which should not be there, and to restore perfect order. That is a simple symbol of what must be done in the case of any seeming discord. Think of the Light of LIOLIA centered in that place of seeming trouble; then see it whirling in a vortex. If it seems easier to you, think of the pure white light of the Christ whirling there. If you feel very weak, picture yourself filled with the red radiance, the crimson glory, of the First Ray of Power and Strength often pictured in the robe of Jesus. He came in the masculine form to represent the power which is personified in the red ray and in the red stone, the ruby.

If you need love, think of the love of LIOLIA reaching you through IMMANUEL-IMMANUELA and through the most loving Forces of Light which you have ever encountered. Think of them pouring their love into you and through you and rejoice in it. If you are confused and cannot see your way clear, if you are distressed because you cannot understand something, call upon the Light of LIOLIA to illumine your understanding. My Son, Jesus, your Wayshower, said, "Ask and ye shall receive." I come to strengthen and repeat that promise. Ask of ME that which will lift you and you will receive it. Ask for understanding and you shall be given it. Again and again this cry has come up from the Earth, and again and again man has been given that for which he asked.

If your circumstances seem discordant and disorderly, do what you can in the human way to take steps, but always ask to understand the Law of the Universe which seems to have been broken. When you have gotten out of order and out of rhythm and harmony with the Universe, ask to be enlightened as to the cause. But I must remind you that we have warned you that this is a distressing time for the bodies of people on the Earth plane. It is the hardest time of readjusting to the new Golden Shining spiritually mentally and physically.

Be of good courage; hold fast; do the best you can. Do not be alarmed by the little pains, the little sensations, the distresses, the weakness, the seeming inability to study or to think straight. Get out of doors as much as you can; get as much rest as you can. Drink plenty of water and juices; eat lightly; and keep yourself cheerful. Be joyous; do not be impateint. Sing, be glad, be grateful and give your mind, your spirit and your body the best climate possible in which to make these adjustments.

Remember that it is not only you who are going through these adjustments, but also all of those who are expressing in a physical body on your plane of vibration in the Earth's aura. Yes, not only you, but those in the etheric realms have their adjustments to make also. It is easier in a way for them, for they understand a little more clearly what is going on.

After all, My dears, this is a very simple, scientific matter. You have had one set of vibrations; you were born into that set, grew up in it, responded to it and became more or less definite in that pattern. Now that must be changed and it is a difficult thing to readjust the body. Each of those living on the Earth today is being raised in vibrations so that the new truths which you and other Groups of Light are able to give forth will fall as good seed in acceptable ground and bring forth much fruit in the coming century.

I wish to bring again to you the assurance of MY great Love for you and all mankind. I wish that you could understand that, just as you all love the dear babe in its basket, that little one that can do nothing more than eat and sleep, make little sounds and grasp your finger, as you love that one with infinite tenderness and compassion, seeing in it no evil whatsoever, so you are MY babes in the Word being reborn and feeding on the milk of Truth for the New Age. To ME each of you is MY lovely, precious babe whom I tenderly nourish and whom I draw unto MYSELF with the infinite Love of the Father-Mother, of Father-Mothers who are SUNS of Solar Systems - a love so great, so all-encompassing, so Divine that there are no words to describe it in your language. You can only feel it with your limited capacity for feeling, imagine it with your limited imagination.

I ask you to draw into your mind that you are so loved and so cherished. I also ask you to draw into your hearts everyone whom you meet regardless of religious understanding, of condition or state of being. Primitive or evolved, good or bad in your judgement, sick or well, rich or poor - they are all alike to ME, for the Earth plane now is a nursery for the newly born into MY Light, MY Golden Shining for your particular arc of consciousness and plane of polarization.

To you I send strongly my Light of readjustment, of strength, development, at-onement, and above all of Love and Healing. I bless you now with the blessing of MY Father, the INFINITE ALLNESS OF THE ALL, and I say unto you: Joy, peace and love be yours. Put all other thoughts aside and sing, revel, in the possession of these three: joy, love and peace, which are yours as MY Gift to all. Just as the Sun shines upon all of your planet and the rain falls upon all, so the Light of MY Golden Healing Love falls upon every unit of existence in your planet-place. For all I send forth the same love, the same harmony which you are trying to envision as your own.

With you I say SOLOGA! Remember when we say this word we say the name of God three times. When you say it you mean IMMANUEL-

IMMANEULA, LIOLIA, or THE HIGHEST OF THE HIGH. When I say it I mean the ULTIMATE OF THE ULTIMATE, the SOURCE, the EVERPRESENCE in your consciousness.

FEAST ON VIOLET

Violet: (an Angel of the Violet Ray) Beloved friends, beloved brothers and sisters in the Christ, I come to you as your Angel on the Violet Ray to tell you a little of the science of violet light. Your higher selves understand the uses of this light and the reasons for its coming to the Earth so forcefully at this time. The higher selves of all, the Inner Councils of the Golden Legion, the Forces of Light all have understood the importance of Violet Light in the present crisis.

You will remember that you have in your rainbow the visible colors of our Son divided into separate functions and separate powers. Man is just beginning to understand the value of color in many different applications, in treating diseases, in bringing harmony into the life, in commercial uses and in adding so many advantages to modern man.

One of your wise men once said, "Color is the suffering of Light." He was wiser than he knew; for just as you yearn to be one with each other - as each one of you who has loved a human being more than himself has yearned to be fully one with that being, or as some have yearned for God as did David when he said, "As the heart panteth after the waterbrook so my soul longs for Thee, oh God!" - so the rays of colored light yearn to unite and become one in the pure white completeness of perfect unity and adjustment.

Through the ages upon ages of development your planet has had the wonderful greens. For your adjustment and healing you have had before you in all the vegetation, the grass, the trees, the fields and the forest, even in the shore waters, the green which always kept before you the unconscious stimulation to adjustment. The Earth vibration is one of adaptability and fluidity, of change where the soul finds greater ease in adjustment.

Many experiences are given each human being who manifests on Earth for the purpose of developing adjustment. You have learned now to go from climate to climate, from city to city, from nation to nation, from thought to thought, from one ray of light to another, from one stimulation to another and adjust to each. At home you have one atmosphere or one vibration; on your streets is another; in your place of business still another. In one friend's home there is one vibration; in another place that you frequent there is a very different stimulation. You are constantly adjusting.

The green is the color of adjustment and the Earth is the place for learning how to adjust rapidly to many differing emanations. Many opportunities are given you for discrimination which is a type of adjustment in understanding. You find your own way, adjust to higher truths and attain adaptability to new and ever newer understandings. When the Light is broken up into colors there is that

thought of being torn apart, of separation, and yet only thus can one learn to discriminate between or use the component parts that make up the whole.

Our beloved Jesus spoke of the past age as one of saying, "I am not he," and thus putting the whole white light of the Christ apart; therefore it was an age of suffering, of discord, argument to the point of blows, cruelties, persecutions and wars. Now you are entering the return path to unity.

In your rainbow you have the various common color divisions of your Sun Light. The red is the short slow wave length of great power. Following the red each color vibrates faster and with a longer wave length proportionately growing in intensity of speed through yellow, green, blue and violet. The tints of purple are most rapid and have the longest wave length of all those which you can perceive. If you had thought of this you might perhaps have understood the implications of so much violet, for as you raise your vibrations to a greater speed you come into harmony with the highest color you can see, the violet.

There are available to you charts and pictures which make it clear that in the very long span of vibrations measurable by man the colors you see are very close together in vibration. Sound vibrations are much slower and far below any light that you can see. Infra-red is lower than the light which you see but the ultra-violet is above the range of your perception. As you develop and come into the higher manifestation, you will be able to see wave-lengths both longer and shorter and discriminate colors or mixtures of colors which you have never been able to see before. There will be many reds, many yellows, many of each color, many more than you now have and many combinations which will be most subtle and inspiring.

I would advise you to study any books available on the uses of color. The violet ray we have explained again and again is to bring you into a higher vibration, a higher form of oneness. Now this will seem very strange to you, I am sure, but if when you sit down to meditate and you are going to say, "I am one with the Allness of God. I am one in the One; I am all in the ALL," - if before you say this, before you chant or sing it, you will spend a moment feasting your eyes on some shade of violet that attracts you, then your inner self will open more quickly to the thought which you are trying to drive down into the subconscious. I suggest that you purchase some small thing, a little rug, a stone, a table cover, a scarf, a picture, a vase or something which has some of your particular choice of purples violets or lavendars; put it in your home where it catches the eye and where you see it so often that, as you become used to it, you hardly notice it. Even then it will fall through the eye upon the subconscious. This will help you in the lifting of your vibrations, and in your realization of Oneness, of Unity. It will help you to synthesize your thinking and come into the pure white Christ Light.

outward again in centrifugal action to the limits of what you might think of as your aura. This continues as long as you manifest as an individuation in the Thought of God. This is the spark of you which first came out from God. During all your manifestations in various expressions of Spirit, formed and formless, this same balance of rhythms of motion, inward-outward, has continued. This is the activating Power of your life.

Think of your self as such a point of light. Think of it as radiating out in all directions - beams pulsing outward in every direction from this center as a heart beats and sends out life blood. Now start all that whirling. I know that this is hard for you to conceive for so much of mankind thinks in two dimensions. You are visual minded. You think of what you can see drawn on a piece of paper. You think of a thing whirling as you would see it on a flat surface or perhaps somewhat three-dimensionally as a vortex.

Can you imagine a pinwheel as in fireworks sending sparks of fire in every direction; then can you start it whirling in your mind's eye until the light forms a sphere? This sort of action produces the spheres of the planets and the Suns. They express the Life Force of God in rotation with the centripetal motion drawing inward and the centrifugal throwing outward in the constant pulse of the Thought Energy of the ALL.

This is what you really are, MY beloved. You see yourself as a body of flesh with hands and feet, a manifestation in the physical. In reality you are a pulsation, a center of whirlings within the Mind of God.

The Limitless Light of the ONE or of the ALL, the HIGHEST OF THE HIGH, is the substance of the Omniverse. By thought THAT ONE who is beyond MY Conception even on MY level as the Spiritual Center of a Galaxy, THAT ONE who is truly the ALLNESS OF THE ALL, by directing His attention to the substance of Himself and by the strength of His thinking sets up all these various pulses of vibration which become the rhythmic expressions of His Creativity. This is a universal law of being. The whirling inward and the equal amount of whirling outward continues as long as the Thought of God centers itself in that individuation within itself.

This explains why man is the Bread of Life to the various kingdoms of the Earth, for man brings into the Earth a higher type of radiation than the other kingdoms can express. Minerals need the radiation of man for their highest possible evolution, for their development into simple plant expressions. Under the influence of man, his radiations and his culture, plants have developed their perfume which is their highest expression of God-Life. It is in the exchange between man and animals in the domesticated state, that animals prepare themselves to move upward into the human kingdom in the most primitive existence.

Thus when Jesus said He was the bread of life, He was again the Wayshower. Man at that time could not accept this truth. Jesus did not attempt to say to them: Just as I am the bread of life, so are

you also; for the thought of vibration was completely unknown to them and they could not understand the laws of light.

Now with the coming of the great Light of LIOLIA man is ready to progress upward in his consciousness, in his understanding of the simple laws of thought and of the preeminence of the creativity of thought. Man is now ready to understand and accept the spiritual explanation of that which is the life of all. The life of man is literally Light, although not quite in the form that you see in the various manifestations of fire and electricity which have lighted your homes.

If man were to burn with the fierceness or the voltage which you use in that which you call light, he would no longer be able to manifest in the physical plane as man. Nevertheless, he is light just as surely as the electric lamps which you have darkened for the purpose of reaching and perceiving your own inner light. Light is all of yourself; light is your food, your strength, your breath, your drink, your healing. It is then of great importance to you to understand these laws of light and to use the light as you have been doing.

We are grateful that you are willing for us to demonstrate these laws upon your bodies; this you learn to use them through personal experience and can share your learning with others. I, LIOLIA, give you all MY Love and MY Gratitude for the sacrifices which you have made in coming into the Earth plane with its error and illusions, its seeming pains and sufferings, that you might bring through to your less fortunate brothers the True Light which lighteth the world of men and the laws of the universe as man in the next age will learn to understand and use them. SOLOGA, MY beloved heartbeats of MY Heart, rhythmic pulses within MY Being, SOLOGA! Together we shall learn and apply the great Cosmic Laws which will give man dominion within the ALL. 7/21/1962

RHYTHM IN ATOMIC FUSION AND FISSION

Hilarion: I want to say just one short word. You will remember that I work in the Earth vibration under the Third Ray of Science and Intelligent Activity.

I wish it to be printed in your SOLOGRAPH that atomic fusion and atomic fission are the rhythm of the vortex. As light is compressed in the center to make a point of power, the process is like atomic fusion. Then as the reaction comes in the rhythm of the universe that same light springs outward and you have atomic fission as in the Sun.

There has been broadcast through the land a feeling among certain types of thinkers that atomic fission is wicked. If that were so, God would not have established the Suns for they exist by atomic fission. The great light, the heat, the radiation of our Sun is the simple process of atomic fission working through helium.

Atomic fission may be used advantageously by man for many peaceful purposes. Some things can be accomplished more readily by atomic

of high advancement have volunteered to incarnate among those you would call primitive in order that they may be channels of Light for their locality.

I would advise all Groups of Light to put aside personal comparisons or comparisons among Groups. I would ask that each one go forward as you are led, that each speak as much encouragement as possible to every other group and that no group be asked to be recognized first in anything. Remember that Jesus said, "Those who are first shall be last." Many who set themselves up to be first and claim to be first shall find out that others of whom they have never heard have been doing greater work than they. There are those in this group who have given out power and light all their lives quite unconsciously. One of you was given the symbol of her soul as a very ancient and wide-spreading tree; and yet she chose to incarnate humbly to stand in a busy flow of life and send forth the Highest Light into this area. She has stood at the same humble task in your city for years and years. Many are thus quite unconscious of what they have been doing. All who are working as power centers have been giving forth all their lives and in many previous incarnations or they would not now be attracted to such groups.

Beloved ones, may I again give you the gratitude of the Forces of Light surrounding you for your cooperation. The work you do is much greater than you know.

COSMIC LAWS OF RHYTHM

LIOLIA: My beloved children of Light, your heartbeat is the rhythm of the Cosmic Consciousness of the ALL. Your life expands and contracts in this same rhythm. This is one of the laws of the universe, the law of rhythm. You are aware of certain rhythms in your planet: the rhythm of rotation expressed in day and night, the rhythm of the seasons and the tides, the rhythms of music and many others.

Primitive people often feel rhythms before they understand music, poetry or story telling and express it in drum and dance. Rhythm is fundamental to all existence. The pendulum swings far to one side and then back to the other in such a definite rhythm that it can be used precisely to keep accurate time.

Rhythm exists through out the Consciousness of the ALL. As your heartbeat is a definite pulse sending your blood out and forcing it back again and again through the length of your physical lifetime, so from God there is a rhythm of sending forth and returning. These rhythms have an infinite variety of period and character. Some rhythms have to do with planetary orbits around the Suns. There are other rhythms into which the comets fall; there are others which govern the movements of Suns and their Systems, and still others directing the expansion and contraction of Galaxies.

Man has become aware of a great rhythm from the Mind of God which he calls involution and evolution. That which is sent forth

from God as pure light works itself downward into the various levels until it finally reaches the lowest possible vibrations; it then begins its upward climb in evolution. This is one of the most definite and far-reaching cycles of Cosmic Rhythm. You, MY beloved, are on the evolutionary path; you have come upward through all the steps from the tiniest microcosm through various forms of mineral, plant and animal life to your present state of development.

Just now you are serving in the human kingdom. However, that is not necessarily of your own evolution; for many have come to serve as volunteers in certain places and ways on a much lower outward manifestation than they have attained spiritually.

All moves outward from God in one type of rhythm or another. Since the Consciousness of God expresses itself in infinite variety it's needs must be developed in many forms of rhythm. I am sure you will be able to notice examples of this principle wherever you look. Watch for the rhythms expressed in your own life: the three meals a day, your habits of sleeping and rising, the various things you do at certain times during the day or week recurrently. Notice the rhythms of life in all around you, in the flowers, the birds and the little animals. Ponder growth and decay, giving and receiving, coming out from God and going back to God, coming into physical manifestation and returning to the Realms of Light.

You have been given a technique for healing in which you see a vortex of Light whirling about the spine as a sort of helix around a core such as you would find in a generator. Tonight I would have you see a vortex in a little different form of activity. When I speak of a vortex you think of light whirling like a tiny whirlwind, do you not? Often you have seen a little whirlwind in the dust with its point on the earth and the wider whirling at the top. The Point of Light within the Mind of God mentioned in The Great Invocation is the center of the Cosmic vortex of light and energy.

First Light, which is the true Being of the Cosmos, is compressed toward a center by a whirling motion. The whirling begins on a wide, open circle. It gradually whirls faster in smaller and smaller circles until finally it compresses all the power and light involved into one brilliant spot. Such action brings forth a reaction. That which has been compressed tends to unwind and spring back into its original state; thus the opposite form of circulation is set up and the power and light whirl outward. The action reaches the limit of its outward whirling, reverses itself and whirls inward again to the compressed point. This rhythm of action and reaction continues.

Think now of yourself as the point of Light which is the God or Christ Self within. Think of this as the Thought of God, His Life Force, His Energy which He Himself compressed into a powerful point of Light within you. He did this by establishing a vortex of power, a whirling in His Light. He whirled toward a center with what is known as a centripetal motion. By the compression of this whirling He established the Power of the Life Force which expresses itself as you. Having compressed itself into a point, it immediately whirled

outward again in centrifugal action to the limits of what you might think of as your aura. This continues as long as you manifest as an individuation in the Thought of God. This is the spark of you which first came out from God. During all your manifestations in various expressions of Spirit, formed and formless, this same balance of rhythms of motion, inward-outward, has continued. This is the activating Power of your life.

Think of your self as such a point of light. Think of it as radiating out in all directions - beams pulsing outward in every direction from this center as a heart beats and sends out life blood. This will be hard for some to accept because they have not yet understood the meaning of the fact that God is All. Let those who cannot accept this announcement of mine meditate upon the ALLNESS of God. Let them push this fact to its ultimate conclusion and they will see that man can produce nothing that God has not already produced. SOLOGA! In the light of the SUN, the LOGOS, the SOURCE, I would bring you only the Truth. 8/11/1962

MEDITATION ON THE LORD'S PRAYER

Ixutel: speaking to you who are my coworkers, my partners in the great work of Light within your planet. You perhaps have read of the fact that the Russians are now to initiate another set of tests. Do not let this disturb you. It is true that they are fearful and therefore are driven by their fears to the point of being a little too zealous and overbold, even dangerously so. But in their last series we found them responsive to the Light which all groups sent forth, and we are sure that with that opening and with your steady, faithful service we can again contain their experiments.

As I assured you from the beginning, not one bomb could be exploded without the permission of the higher echelons, the inner councils of the Golden Legion under the Mighty Guidance of the Spiritual Center of the Galaxy. This you can depend on. Have no fears, my beloved. Through your group I would send forth this word of reassurance to all who read your message, and to all whose subconsciousness is responsive to the word that I speak upon the Air of Earth. Be not afraid. God is the ruler. This planet and all upon it is the expression of the Thought of the Divine All-Consciousness. Within Hiser Thinking, all is done for the highest good of all.

You spoke a request together in your prayer: Thy will be done on Earth as it is in Heaven. May I assure you that God's will is done on Earth, and is done within you. Where is the kingdom of heaven? Did not Jesus say that the kingdom of heaven is within you? If the kingdom of heaven is within you and God's will is done there, is it not done in Earth? Is not Earth itself a great center of consciousness within the Being of the ALL? Is not the planet itself a growing expression in the plane of evolution, one fit in consciousness to provide a home for all life upon it and within it? Is not the Earth a great macrocosm having within it many microcosms, having within it also the kingdom of heaven? If therefore God's will is done in heaven it must be done in Earth.

I would like to take a moment to meditate upon that wonderful prayer which the Master, Jesus of Nazareth, gave to you. "Our Father": the source of all, the ultimate Source, the complete All-Consciousness; that which knows all, sees all, is omnipotent and everpresent; that which thinks us and maintains us. "Our Father who

art within us and within all, closer to us than our bodies, closer than our very life. Our Father who art in heaven: Our Father who lives in such perfect harmony of existence, perfect balance, perfect rhythm, perfect love, light, glory, peace, knowledge, completeness, all that is truly heaven. This wonderful perfection of Being lives Hiser heaven within us.

"Hollowed be Thy name." Holy art Thou! Oh, how we worship Thee, how we adore Thee, how we love Thee! "Thy kingdom come." We know Thy kingdom is come now for it is within us, and within every expression of existence, every I AM being. Thy will is done in Earth, in us, in the All, as much as man can conceive of it being done anywhere.

"Give us this day our daily bread." We know our Father feeds us with Hiser bread of life, gives us the substance of Himerself, the Limitless Light, for our food, gives us Hiser Spirit for our breath, gives us Hiser very Life-Blood in the pulsing rhythm of the heart beat of the Omniverse in the vibratory vortex of our beings. Oh, we know our God provides us with all we need materially and spiritually.

"Forgive us our debts as we forgive our debtors." In the ALL-NESS of the ALL we know that God is Good, that all is done for the highest good of all; therefore there are no debts and no trespasses. Teach us so that we may fully understnad that Thou art all and there are no trespasses of Thyself against Thee. Help us to accept this and give only love to others.

"Lead us not into temptation, but deliver us from evil." We know, our loving Father-Mother God, that you do lead us through temptation and beyond it, until we can see that in reality there is no sin, so sickness, no disease, no evil and no death. We know temptations are tests of our understanding and opportunities to practice our spiritual skills. Thus we see, attain and share in the wonderful glory that is Thine. We become a part of Thy Glory. We become an expression of Thy power. We become one in Thy kingdom. For all this we thank you, our wonderful Father-Mother God, now and with every breath, with every particle of our existence. Together we say to You: ALLELUIA! ALLELUIA!

My dearly beloved partners in the work of God in this plane, when one fully absorbs all the truth in that prayer, when one understands the Cosmic, Limitless Light, the great power, the wisdom, the omnipresence of God, no small thing like man's puny atomic explosions will disturb hiser thinking. Nevertheless, you will understand that you are part of God's governing of this place; and you will in the light of all that you know give yourself faithfully three times a day to just a moment of projecting light to the place where these tests will be held. Until you hear that they are finished, my dears, be faithful in this. Remember: To those who are faithful in a few things I will give to rule over many things.

CALL NO MAN BAD

Mary: I come in the love of the loving Heart of God. I come to give you the love of The ALL, to pour out the golden healing love of the Father-Mother God. I come to tell you that love is light and light is love. All of this which the great Father-Mother who is the Central Sun of our Galaxy has told you about light is true of love as well for love is a synonym for light and light is a synonym for love. Both of these are synonyms for life. Life expresses itself in light and love. Love expresses itself in life and light. Light expresses itself as life and love. All are one and the same.

My beloved, you cannot love enough; for always when you open yourself to loving you enlarge yourself so that you are capable of loving more. The only difference between the microcosm and the macrocosm is the amount of ability to send forth life, light and love according to the Cosmic Law of the Onniverse. The more you love, the more love will be given you with which to love.

Many times truths are told to you and you accept them in your heart. You say, "Oh, this is true! This sounds good. I know this is a fact." Then there comes a time of stress and strain and you forget to apply what you have accepted. In reality you have not fully accepted a truth until you apply it. You do not fully apply it until you use it so completely and unconsciously that you actually become it. Just as you learn that two and two are four until it slips out and you use it unconsciously, so you must learn these laws of love, of life and of light.

As long as there is in your thinking anything that is not great love, you are not accepting God's perfect love for yourself. When you have fully accepted the fact that God loves you, you must also accept the fact that God loves everyone even though to you they may seem to be very bad indeed. May I say for your sakes that those who seem to you to be bad men are still God expressing Himself on that level for a purpose. For this reason Jesus said: Judge not. Call no man bad, my dears, no matter what the outward appearances, no matter what your human law or you human viewpoint may say. True, according to what you know and according to outward appearances this may seem very evil; but you do not know what is written in the Akashic Records concerning him. Neither do you know how God has suffered in the life of this man, given Himself as this man so that the individuation thus expressed may learn and progress, or that someone else may learn through his act of supreme self-sacrifice. There have had to be Judases or there could not be the resurrections. People have had to be the destroyer as well as the builder. Man has had to experience before he could discriminate.

Sweep from your thinking any judgements concerning the one who seems bad to you. When you find yourself saying, "Oh, that's a bad man," place him and all of his affairs immediately in the hands of God and leave him there, and know that God loves that identity within

Himself as much as He loves you. This is what Jesus was explaining when he told of the shepherd who had lost one of his sheep. He left the ninety and nine safe in the fold to go back out into the dark and storm. He searched and searched until he found the lost one. How he rejoiced that it too was safe again with the others. This is also the meaning of the story of the prodigal son.

The Father loves all regardless of the outward seeming. The Father sees into the future, sees into the past, and knows what the sum total will be when all the ledgers are balanced. This no human person can know; therefore Jesus said: Judge not! Only love! Send forth love, my dears.

Jesus has come to each one of you in many and various ways. You have seen him; you have felt his presence; you have studied his words; you have seen his symbols. He has come to you as an expression of the Love of the Father, for God so loved the world that he gave Jesus unto you. Jesus came as a personification of loving and giving. He has come into your heart with Cosmic Divine Love. I, too, have touched each heart, and filled each life with the love of God. It is for you to understand that you have this love within you now, and that all you have to do is to live it.

Pour out God's Love on all around you and love doing so; rejoice in doing so. Find the greatest fun in life in loving others no matter who they are. Make a joyful game out of loving everything and everybody, every manifestation of existence. Again, again, and yet again as the Cosmic Divine Mother sends me, Her messenger of Love, I have touched you with the fullness of Her Love. I have blessed you with Her Love. I have told you of Her Love. I would have you realize that you have it, and having received it find your greatest satisfaction, your greatest growth in giving it forth.

This is your mission: to radiate the love that is light and the light that is love to the greatest possible amount of which you are capable. I declare unto you that the more you do this, the more you shall be capable of doing it.

SOLOGA! my dear, dear brothers and sisters in the Love of the Cosmic Father-Mother of All. I embrace you and draw you together as one, that as my heart beats with the rhythm of Cosmic Love, I may draw you into the same rhythm and that together we may radiate this Love which is the Spiritual Bread of Life for the Earth.

LOVE WITH WISDOM

Kut Humi: your brother in Light claiming the privilege of speaking to you. I could not stay away during the fine messages of love and light which have just come to you. You know that at this time I am spoken of as one who holds the post of World Teacher. You also know that I operate in this place of divided light particularly under the Ray of Love expressed in Wisdom.

Love without wisdom is not true love. Love without wisdom is usually self-gratification. The father or mother who unwisely

lavishes too much upon a child, gives to the very extent of giving, often finds that when the limit has been reached and there is no more, the child turns against the parent and is quite unappreciative in his failure to understand. The parent has given all of this because he, himself, got so much gratification out of the giving.

How many parents unthinkingly have chosen gifts which they wished that they had had in their childhood, without finding out what the child really wanted! How often in the process of loving we fail to understand the needs and desires of others! How often children have no idea of the true likes and dislikes of their parents! How often the parent fails to realize that the child is a separate individual with very definite tastes of his own! How often love is either "give-me-this or give-me-that," or "How much fun I will have watching his face when I give him this!" Thus we rob the child of his opportunity for growth through making his own choices and of the pleasure of earning or building things for himself.

Very often love is extremely selfish. A selfish love is not a wise love. Love with wisdom knows when to hold and when to release, when to give and when to permit the loved one to give, when to share and when to ask for sharing. Many times some in a family have borne the deepest of troubles without sharing when the rest of the family could have grown in the shared experience. Love with wisdom is what I would have you seek, teach and share. Sometimes frank words are the most loving. A doctor often has to hurt to be able to heal. This is very hard to accept and to demonstrate. All wise parents finally learn that love without wisdom can be as harmful as no love at all.

I would have you know that all knowledge, all understanding, all love, all wisdom is yours. You have been thrilled with the new concepts which are being given you. The riches of the Consciousness of the Universe are now yours to explore. When members of a meditation group can progress to the point of seeing the things you have seen, of going upward into the Realms of Light, of taking from the Cosmic Consciousness the lessons which you have learned - when you can move out into the actual body of God experiencing with the inner senses The Limitless Light which is the substance of the being of God and learn of the true Bread of Life - then, my beloved, the whole Omniverse is yours.

May I call to your minds the old statement of the Earth philosophers which You have heard again and again, "All space is here; all time is now." We like to add to it, "All knowledge and power are ever available." This is the truth for the God consciousness within. Your group has found its pathway in the developing of contact with the God center within you. As you enlarge this contact, become more fully aware that it is true and desirable, and grow in security in the use of it, then truly all the knowledge of the Omniverse is yours.

If that which is the center of your being is a point of light within the mind of God, then surely you have a direct contact with

the knowledge of the ALL and there are no limits to what you are now ready to learn. Perhaps I should say that that is so only relatively, for as long as you remain in a human body there are human limits. However when you move out, and as you do, into the higher consciousness, then the limitation is only that of your evolution in the higher consciousness.

Neither you nor I expect to be able to understand the laws of the Omniverse and all their intricacies, their mysteries of hidden being, with the power and fullness with which IMMANUEL or LIOLIA understands them for we have not yet become Suns in Solar Systems; and yet relatively we can bring into the Earth plane all the knowledge needed at this time to answer the questions in the mind of man.

Someone has said that when man can formulate a question he is ready for the answer; therefore all your questions may be answered, and furthermore the concepts, the basic principles, the fundamentals can be given you upon which the scientists of the future are to build. You should dwell upon this seed thought: All time is now; all space is here; all knowledge and power are ever available; yes, always available here and now.

I bring you the tremendous accumulations of love poured into your group and through your group by the literally thousands of Light Beings who use your group and your meetings to enlarge and drive through the power needed in times of crisis in your plane. Know that you are loved beyond your possible understanding. Know that so much love is poured out upon you that the riches of it are inconceivable. Be healed by this thought of love. No Earthly rejections, no Earthly confusions, disagreements or antagonisms can have any meaning when you understand the tremendous Cosmic Love which is yours now. Think how much you are loved; realize it; accept it. Take it within and then share it wisely with others.

Together we share the inexpressible Love of IMMANUEL and LIOLIA; but beyond that we share the almost inconceivable Love of the Wholeness of the Omniverse. If you can but give forth a little of this love, you will have made the place of Earth brighter and better for having lived in it. SOLOGA, dearly beloved sons of God! Together we shine forth, not with our own light, but with the ineffable Light of the Love of THE ALL.

7/21/1962

In the meditation following, Julio experienced a theophany which stirred us deeply. He expressed it very simply: I moved upward on a path of violet light on and on until I reached a place which I felt symbolized eternity. There were eight or ten paths branching off in all directions. I took one; I do not know which for I sensed that all would ultimately lead to the same place. Finally I reached a place where there was something so marvelous, so wonderful that I could not describe it. It was very large, without any color, without anything, and yet so very beautiful that I

knew it was the presence of God. I felt that it was He, Himself! I fell to my knees and with my conscious hands opened my chest and and begged Him to fill it with His Love. And He did.

THE PLANET EARTH SEEKS ATTUNEMENT

The Logos of the Earth: Dearly beloved thoughts of God who have come to serve in My physical manifestation, I greet you in the Love of the HIGHEST Whose Light and Law have established us in form and pattern according to the Primal Will to Good. I love and cherish you as you cherish the eyes, the ears, the hands and feet which serve you so faithfully. In deep meditation, I hold you in Thought to carry you upward with Me as I reach toward the enlightenment and adjustment for which I am striving. I seek the greater attunement with the MOST HIGH for which My Heart hungers.

You are part of Me, one with Me and one with each other in Me. Together we are one with all in the Omniverse. Together we are to the ALLNESS OF THE ALL as one small cell of your body is to you. Together we are climbing the stairs of evolvment from step to step as God matures Hiser Image in us. As I go upward, you are taken upward with Me. If I reach a plane too high for you because you are not willing to step upward with Me, your own being chooses to find a more compatible vibration where the Fire of Spirit is less hot in its maturity and where you may develop at a slower pace more compatible to your individuation.

Each being must seek its own best climate for development. Each being has the Eternal and Infinite Ages in which to express. No matter how it may seem to you in your present flash of physical incarnation, all is simply the All Consciousness of the ALL maturing Himerself in infinite variety of form and experience, in infinite combinations of pattern, rates of vibration and systems of order.

Through the Ages men have thought of Me as Mother because they understand that they are nourished from My Being. They have thought of Me as feminine because I receive from the Sun the radiations that make life possible on My surface. There is so much that they have not known. Except in the plane of seeming separation where you may learn that there is no separation, Being is androgynous like a magnet which has both a positive and a negative pole. In association with others, if one desires to give the other receives. The giver is the positive or masculine and the receiver is the negative or feminine. Thus it is possible to be cooperating with one entity in the feminine aspect and with another in the masculine according to need. At the Christmas time of giving gifts, in this larger sense you are both masculine and feminine for you both receive and give. A neuter would be one who does neither; but such a thing does not exist in the larger truth of Cosmic Law since existence can manifest only in the rhythm of giving and receiving.

Having assessed the needs of the soul seeking communion with Me, I present myself in the masculine or the feminine according to

the needs of the seeker. I touch the minds of all for all consciousness within My aura is attuned to Me consciously or unconsciously in the varying individualities. Just as a cell is attuned to the general mood or tone of your body, so you are attuned to Me.

I remain in deep meditation to maintain you to the extent of My power; and yet it is not I who do this but the Cosmic Consciousness of THE ALL Who meditates through My seeming separation into individuation and maintains Me as a maturing image of Hiser Wholeness.

You have now matured in this same manner to the point where you can conceive of Me as a Spiritual Entity of sufficiently evolved to ensoul a planet: and so I AM. You are now beginning to join consciously in My meditation of union and devotion in that you say with Me: We are ALL in The ALL, through The ALL, with The ALL and by The ALL. The understanding gained by building this Cosmic Fundamental into your present selfness will open to you the ability to receive and grasp the Light and Wisdom of Cosmic facts. These are pouring into My Consciousness from all the more advanced Entities ensouling Solar Systems, Galaxies, Universes and other expressions of Cosmic Consciousness. Each lower form is part of the body of a higher form. All give to all within themselves; thus all receive from all both lower or higher in evolution or vibration.

You are using the Greek term, Logos, to more fully tie your thinking to the sacred wisdom of the ages and its Spiritual Authority. Jesus was the Word, or Logos, expressed in man. The Word is a shorter term for Son-Consciousness which means being conscious as a true Son of God. With each age or development words change. Now you are seeking Christ-Consciousness hoping to attain the spiritual powers, gifts and understandings which Jesus came to exemplify. You Call him Christ Jesus. Such a title is also correct as applied to our Father-Mother, the Anointed One who has been established as the Spiritual Consciousness of our Solar System. It is correct to say Christ IMMANUEL and Christ LIOLIA; likewise it is proper to say Christ Earth meaning the higher spiritual Selfhood which ensouls this area of our Solar System.

Men have called Me many names in many languages. Let each one speak of Me and to Me as he wishes and as his own language and understanding dictate. To the ancient Romans I was Terra, a feminine name, because they were so predominantly masculine and needed the feminine for balance. It would seem sensible to use the name most meaningful in your own language since you have incarnated in this expression and desire to make your communications to this culture as meaningful as possible. Earth is a simple name without need for inflection to show gender and thus very suitable for the new concept of the balance of Holy Two-in-One. By whatever name or symbol you think of Me never doubt that the reality is much greater than the word used to express it and the living of the unity between us much more important than the word used.

Know that My Meditation concerning you is deep, lasting and holy. Know that I maintain you by My Thinking as harmoniously as you will permit and as our common growth through experience requires. Know that My love for you is full and strong and My Joy in you is of the Divine. Know that I join you in every prayer that is ever uttered by mankind. SOLOGA! Through the All-Encompassing Light of The ALL we unfold together in the Divine Image. 8/21/1962

Following this Julio saw a beautiful feminine figure robed in light climbing up a stairway of light. He knew this was a symbol of the Christ Earth.

As observer for all, the Onlooker followed the assignment given which was to seek the point of light which is the God-Self within. She found herself on a polished pavement encircling a large pit from which great, hot flames were soaring upward. Suddenly the flame caught her and tossed her upward into the Realm of Light. She saw a heavily robed figure of gigantic size seated in deep meditation in the posture of The Thinker. The figure was composed of the soft light, gold light of the Body of IMMANUEL with its contours clear in brighter, whiter light. As the observer knelt before this Higher Self of the Earth she seemed to be sucked into the Great One with a sudden snap. She shared thus some small part of the meditation. First she seemed to go down a passage into the Earth to where the Earth Spirits or Genii, great beings something like the fairy-tale representations, were working skillfully in precious stones and metals to keep a proper balance in their distribution within the structure of the Earth. In another place beings like dwarfs or trolls were laboring in the same service with the baser metals. One was producing a great vein of lead. Another ran his hand proudly through a bin of fine grained iron ore. Another time the observer participated in a meditation where Christ Earth was seeing the wall in Berlin removed, peace established between East and West, beauty and joyful cooperation replacing the present tension. The Earth was constructing a beautiful and ideal city in the etheric above Berlin and trying to place it down over the present site. The Earth was also painting the island of Cuba pure white and then painting in a free and happy people upon it.

TESTS IN DISCRIMINATION

John, the Apostle who called himself "that disciple whom loved." I thus identify myself to you so that there can be no mistake in view of what I am about to say.

I wish to state in very plain words that I am not in incarnation in a physical body anywhere at this time. There are those whom I am overshadowing whose lives I can influence. These are to be drawn close to the message of Jesus which I recorded through my overshadowing. Each of these is to be of use in bringing deeper understanding of the Christ message for the New Age.

Parents sometimes feel that their children are incarnations of me. I am sorry that there is this misunderstanding. I could name for you a dear one living in your city who has accepted the thought that each one of her grandchildren is one of the Apostles. This is the work of a mischief-maker I am sorry to say. Examine the light. One who is subject to alcoholic excesses and other difficulties of character equally great is not apt to provide a climate for the development of the highest New Age thought.

Those children who are to develop and apply what we are bringing through together are now coming into incarnation. Their babyhood and childhood will be overshadowed by those of us who have undertaken to guide them later on. Just as Jesus is not now in incarnation but is spiritually present with everyone who calls upon him and in the form of the Christ-Consciousness lives within the heart of all, so we, the Apostles who were close to him then, are in the same spiritual manifestation to do our work from a higher level. There is not now any one of the Twelve in incarnation at present and there will not be. We would come if Jesus came. If he does not come during this period we will not. Each of us has come in the past age some several times but each of us now will be working from the Higher Planes.

This will not be received gladly by those who cherish the thought that someone they know is one of the Apostles or that they have found a truth other than what I have stated; but you need not worry about that. All you have to do is to give forth without fear. Even though everyone reject or desert you, the truth will be spread. In the years to come that which is untrue will fall away and only the truth will remain.

Remember that the dear ones of the White Brotherhood speaking through channels and giving the thought of the East to the West have often been misquoted. Those of the West who entered wholeheartedly into accepting the wisdom of the East have felt that the Eastern Masters were to be placed above Jesus; but this is an error, for Jesus was the most advanced and oldest soul second only to IM-MANUAL who was sent to this planet to serve man. Jesus said: They will say, lo here and lo there; but go not after them. So it will be said of the disciples also. This is one of the tests that have been given to the new channels and leaders arising at this time. Will they accept the thought that they are some great one or will they hold fast to the integrity of their own selfhood. If they be deceived they are not worthy to go forward under the Word as expressed in LIOLIA.

Some have said that Jesus is in a Syrian body at this time as a militant soul, a fighter and a military man; but you would know that this could not be true of Jesus of Nazareth. This is another Jesus who led a rebellion in Judea before the coming of the Messiah. This veiled or confusing statement was first given by a Master Teacher as a test for training students in discrimination.

The problem is: Will man be able to weigh the truth with the false? Will he be able to see with the inner eye, judge by the fruits or by the fundamental basics of God; or will he be misled? Will he follow the error of someone he thinks knows more than he or will he learn to think for himself? In his pride will he accept a place and a name greater than he really is? These are the tests. Man, whether leader or follower, will have to face these same tests. May God bless you as you meet them and guide you into the true Light.

7/21/62

From the Gospel According To Thomas: Log. 51. His disciples said to Him: When will the repose of the dead come about and when will the new world come?

He said to them: What you expect has come but you know it not.

Log. 13. His disciples said unto Him: When will the Kingdom come? Jesus said: It will not come by expectation; they will not say: See here, or See there. But the Kingdom of the Father is spread upon the Earth and men do not see it.

FIND ALL THE WONDERS WITHIN

LIOLIA: coming in great love to you, MY children. The love of MY Heart is pouring out over you in golden light, penetrating every particle of your being on all levels, filling you with the Light of the New Age, coming in such love, such joy, such gladness of giving as I would have you reflect in all your days in all your affairs and to all whom you meet.

I have been coming regularly to your group. This must be done for some time yet, for I must pour forth into the Earth planes through you who are open to MY emanations that light of conscious awareness of ME as thought, as mind. Through the years gone by various organizations, various churches, have referred to the ALLNESS OF THE ALL, to the HIGHEST of the HIGH, as infinite Divine Mind. The Limitless Light of which you speak is the energy of this Divine Mind expressing itself to the higher inner senses with which all men are equipped but which have been allowed to atrophy or be hidden in the preceding age of material enlightenment.

From the time of John the Baptist until now, material science has gradually been revealed to man. This was necessary first for he had to know the laws of light of electricity, of atomic structure, of sight and hearing and of his own anatomy before he could understand the truth which is now to be given him. All of this was a preparation. John the Baptist said, "Prepare ye the way of the Lord." Many who are living on Earth today do not yet fully understand this. Many are still living back in the old middle-age thinking and doctrines. Some are living in thought that was new to men from three to five hundred years ago.

Do not be alarmed or dismayed if many cannot understand what I have been pouring forth to you. Many different voices must be heard. Many must find the way to reach the beam of the Limitless

Light, to contact that which is open to all men, to develop their inner senses for the sake of knowing ME as the reflection of God for this Galaxy. Many will find it hard to accept another name for God than those which are given in the Bible. Nowhere in that ancient and sacred book will you find the word LIOLIA as such. Immanuel is there and you will find the words Life, Love, Light and Law of which the name LIOLIA is built. You will find the words, "the Sun of righteousness" and indeed I, LIOLIA, am that for this whole Galaxy, for all the stars that you see, all the Solar Systems within this swirling Light, this vortex of power within the mind of the ALLNESS of the ALL, which you know as the Milky Way.

There are many who have not dreamed that there is a spiritual, invisible center around which this Galaxy rotates. There are many scientists who will say: Perhaps this may be so. Let us see if our astronomers can find it. My beloved, I cannot be found with instruments; I can only be found in the way you are working, through the pathway within yourself.

Each of you who sit here has learned to some extent to pay attention to those hidden senses. Many of the people on the street consider those who listen to the inner voice as bordering on insanity or moving over into the realm of fantasy without their feet on the ground. You who are members of the group of SOLOGA know how wonderfully your feet are grounded in the strong foundation of the Limitless Light, in the All-Consciousness of the Eternal Life of the ALL. Only those who have experienced as you are experiencing can know this wholly. Do not take the confusion of others, their uncertainty or their rejections personally as any sort of criticism or dimming of your light. You can rise above all this; you can soar into the actual Truth of Being, into the higher Realms of Light. You are in two worlds at once. You have one manifestation in the physical, but your higher self, that part of you that lives eternally in the Realms of Light, is strongly in touch with you.

May I call your attention to the explanation of Jesus when he said concerning the children: Their angels do always behold the face of my Father which is in Heaven. You have attained awareness of the touch of God upon you in visions, in vibrations, in thought, in experiences, in words heard within you. You are in close touch with your higher selves, and your higher selves living always in this Realm of Limitless Light are always aware of the true-state within the Being of God.

When you sit in meditation and raise yourself, leaving your body in the chair as you have done a number of times, and let your consciousness soar upward, you then have transferred the center of your consciousness into the higher self. Those of you who are regular and faithful have become quite adept in this. Some of you have had outstanding experiences which are conscious awareness of the HIGHEST of the HIGH, of that which is truly God to all everywhere. This experience is open to all. Just a little more yearning,

deep prayer, growing in giving yourself fully into the Will of God, and you will find yourselves springing upward in the soul manifestation, knowing that which before was hidden from you.

All of the Omniverse is just waiting for you, MY Beloved. You are on the verge of a great period of growth and enlightenment. I am so full of joy for the progress that all MY children in all the Groups of Light are demonstrating as they stand on their own inner leading and guidance, find their way into the secret gardens of their own hearts, and make contact with that heaven which is within our Father who dwells within the Heaven within.

My beloved, how can I make it plainer; how can I say it in words of fire, in words sweet as honey, in words that will attract you, that will draw you to ME? All you have to do is to let go of the old; throw it away; open yourself completely to all that is new, that is flowing through now, and give yourself fully. Play the game of finding all the wonders within. Do not hold back; do not say, "This is unbelievable," but say, "I know I can do this. Oh, I am so grateful that I have learned how easy it is." Open your imagination; open yourself to growth, to advancement, to the wakening of the God Self within. Just a little more effort is needed on your part. May I repeat the old words of your Holy Book, "Draw nigh unto God and He will draw nigh unto you." May I rephrase it even more positively, "God is drawing very near you! Will you not draw nearer to Himer?"

My beloved, I know you are still a little confused. It is so hard, is it not, to take the values of the great world that you cannot see. It is hard enough for the thought of a young person to evaluate those who are of higher culture and seemingly higher advancement in learning and abilities, or those who take part in ruling the nations. It is difficult for them to find their way and their place in such a world. Then suddenly you have spread before you the Inner World and your own dear teachers, those who first contact you and lead you in your opening. As you draw nearer to Jesus and the beloved ones whom you cherish, you discover that they are right here in your consciousness. Then suddenly you are told of that which is God to you, your Father-Mother, the Father-Mother of your being in this Solar System, IMMANUEL-IMMANUELA. You wonder, "Oh, have I now found God;" but before you can get fully into that thought, you are being told of one still higher, LIOLIA, the central Spiritual Life Force for the whole Galaxy. You think, "Oh, now I have found Himer; This is God," but you are told, "Go still farther, still higher until you reach the ALLNESS OF THE ALL, the ULTIMATE, for God is the Oneness of everything that is."

So long as your astronomers can find galaxies beyond this galaxy, then there must be a being who is larger than all the Galaxies put together. This being is perhaps part of a still larger Being. Let us go together, MY beloved children, into the Inner Temple of the Heart. Come with ME and let us kneel together and pray to that One which is The HIGHEST OF THE HIGH, The LIMITLESS LIGHT, The SOURCE of ALL.

SOLOGA! We shall walk onward in the Path of Light until your way becomes clear before you. Together we shall send forth the Truth of the Limitless Light into the centuries to follow, into the Age to come. Glorious is HISER NAME, our Father of Fathers and Mother of Mothers. Together we give all the glory, all the praise, all the honor to that ONE who is the ALLNESS OF THE ALL. 7/18/62

THE SCROLLS OF TIME ARE OPENED

The Karmic Angel, Lu-Ro: Beloved ones, my brothers in the Christ Light, each serving the Lord of Lords in this planet place and in Program IMMANUEL, opening the thoughts of man to the higher consciousness which you call Program Jesus, I would address you as teacher concerning your work.

Always at the beginning of a New Age, the Scrolls of Time are opened, the Book of the Future is unlocked and glimpses of the path that man must take are revealed to lie planted in the hearts and minds of man until they mature and bear fruit. From time to time such glimpses will be given you to share with others. They have already been given and already been rejected in many places. As your work attracts greater attention, as greater numbers become aware of the messages you are sending forth, there will be those who feel that you have the Light and others who say that you are teaching that which would deceive and mislead. This, my brothers and sisters, is a work of your free choice.

We are prepared to walk forward with you as far as you are willing to go. As long as one of you will try to progress and send forth the Light we will stand at your side. Be not alarmed, be not dismayed if that which you receive is different from that which others may receive. That which Jesus gave forth was different from what the Jews had already learned. Jesus brought forth the true Light not only for the age which is past but also for the age which is to come. The Light of the Future now gathers around the glorious form of Jesus - Mary, the Christed Wayshower, who will draw closer and closer to man in the New Age until Heshe becomes as familiar, as dear, as well-known, as any of your own human dear ones. This is the task in which I would assist you.

When we open the past as we are doing for some of you we bring you little Karmic pictures of your past lives. Although you have not known me I have been serving you in this way for some time. We help you to bring into your present physical manifestation the strength of the lessons which you have learned through the ages. Before you came into this incarnation there were certain pictures, agreed upon between the Lords of Karma and your own soul, as keys to open for you your inner abilities and skills. These Karmic pictures flit before your eyes. You wonder about them. Sometimes your teachers give you information about them. Again you are left to wonder because the mind explores the meaning of what you see. The doors that have been closed are opened; the locks that have been

rusty are oiled, and at last you are able to open the storehouse and use the gifts laid away there.

Some will say, "Well, I have been told that I knew this or I I could do that. Why can't I do it now?" My beloved, no civilization is like any preceding it. No experience of yours is exactly like any preceding experience. That which you learned in a preceding life was of value to you then in the way that you did it but to carry it through into this life might simply hinder you in your present task. Let me illustrate. Suppose some one with a long life of ages upon ages in many different places has learned to do one thing in a hundred different ways. When he comes into this life and attempts to do that one thing, each of those hundred ways will come pouring forth and he will not know which to use in the present. Each of the many ways will get in the way of the others. Can you not see that this might be more of a hindrance than a help?

Suppose that someone had learned all of the sciences and all of the arts and in times past has been proficient in anything you can think of, He may have been a great artist, a great musician, a great actor, writer, minister, poet, speaker, king, administrator, soldier, doctor, teacher - on and on we might list his achievements over the ages. Suppose that he manifests in this life with all those great skills and interests clamoring to be used. Do you not see that the plane in which you live is so limited that he would be continually stumbling over his own great skills? He might use one art for a short time and then another and another and never really accomplish his mission because he had not limited himself enough to find out what it was.

If you will meditate upon this you will understand the wisdom of your own soul. Your soul has chosen what you are to do in this life with the wise counsel of the Lords of Karma, of those it sought to be its invisible teachers and of those to whom it prayed for help. Each one of you have discussed what you would do in this life with that one who is so dear to each of you, your Master Jesus. Do not forget that when you speak of Jesus, you are also referring to his feminine counterpart, Mary, who is united as One with him in the perfect blending of one Being to serve in the masculine or feminine form as needed. We know that this is difficult for you for you have for so long called upon Jesus. You feel torn, for if you call upon Mary you may be neglecting Jesus. Remember: if you call upon one, you call upon all.

When you call upon Jesus you call upon Mary, upon IMMANUEL, upon LIOLIA, in fact upon the Father of Fathers and all the mighty Spirits before the Throne, upon the Golden Legion, the Angels and all the Lords of Light in whatever category you may name. When you love one, you love all; when you call upon one you call upon all.

To go back to the soul's plan for yourself, your work - no matter what else you may determine to do, no matter what your seeming occupation and position - is to broadcast the Light of the Suns at the beginning of this New Age. Each one of you comes to give

forth the light of a certain Sun as well as the Light of IMMANUEL and LIOLIA. Each of you is a delicate, finely-tuned instrument. As you go through life you are attuned again and again just as a piano must be continually retuned. You are tuned to send forth that emanation which is most important at the moment.

A certain high intunement is necessary to consciously receive from LIOLIA. There are some who have received the name and others who are unconsciously tuned to give forth the Light of LIOLIA. Those who have accepted the name, who have spoken it, sung it and prayed it are highly attuned to that particular vibration. In order not to disturb this tuning, others who have come to you before may not be in sufficient harmony with this high tuning to be able to address you for the present. Some who may be attracted to your group may not yet be ready for this attunement. Therefore, do not be unhappy about those who come and go; only be grateful that there are those who are able to be tuned to the whole so that the group can function in bringing forth this light.

This is what you have come into the physical to do. This is why you return again and again. This is why the messages, the vibration, the healing, the experiences, are so attractive to you. This is why you have been held such a length of time at each meeting so that this attunement could be made as rapidly as possible. Believe me, if this could have been done in an hour or so and a pleasant social time included afterwards, this would have been done for you; but it must be done just as it is. Whether your numbers are one or one hundred makes no difference, just so you meet as a group faithfully with whichever ones of you are able to endure these vibrations and can be attuned to them.

I am aware that there are those here who have not felt this vibration before. Do not be alarmed by what I have just said for you may be sure that no vibration will be sent to you more strongly than your body can endure. Your own forces of light are strong around you. They sift the emanations that come while you sit here and screen out through their own bodies of light all that are not right for you. If it is not possible to attune you as yet, if more work must be done to condition your body, you will know this and feel that you should wait until you are more ready. This is not a matter for you to feel concerned about. Please understand that it is because of your own choices, your endurance and your willingness to give yourself wholly to the channeling of the light.

That is your mission - to channel light. No matter what words you use, what activities you carry on, also no matter in what way the light comes through, whether in words or in invisible vibrations conveyed in the aura, the touch of the hand, the kind deed, the smile the social adjustments and associations, or in the quiet broadcast of power in your group or in your own meditations, the giving forth of Light is your mission.

I desire to underline for you the importance of several things. First, be not dismayed at those who cannot accept your truth as yet;

lift yourself above that and walk in peace and love in the Realms of Light. Second, be alert to your own Karmic flashes of memory. Each one of you have had them at various times, some more than others. Meditate upon them, dwell upon them; think of them before you go to sleep at night and when you awake in the morning. You may find yourself knowing the meaning or the interpretation in time. Then third I wish to underline your Karmic mission to give forth the Light of your own Sun, of IMMANUEL, and of LIOLIA.

I, the Angel Lu-Ro, promise you that I shall be by your side to give you strength. If you turn your thought to me, I shall appear in the inner vision. If you will seek for interpretations, I will give them to you as soon as can receive them. I am on call at any meeting any time. This I promise you. I count it a great privilege, a great joy to say to you and with you, SOLOGA! Together we serve the Spiritual Centers, the Suns, the Word of God, the Source of ALL. Together we live for this one purpose, you and I.

THROUGH THE AMETHYST TRUMPET

The Angel Violet: Beloved ones, picture me, your Angel on the Violet Ray, poised above you, sending forth these words through the amethyst trumpet which I create with my thinking. Think of my robes of violet light pouring down over each one of you and over this habitation, enclosing it. You sit in the power of the great golden beam which is always focused in the center of the room whether you think of it or not. As you sit in the power of that beam and partake of the violet light, picture these things, for they are sources of power to you.

The power which you broadcast you yourself do not pull up from the Earth, draw down from above or radiate outward. You simply open your body as a channel for the light of the planets and Suns whose emanations play through you into the Earth and all upon it. Each one of you is a channel for at least three Suns at the moment; The Spiritual Central Sun of the Galaxy, our Lord of the Sun, IMMANUEL, and that wonder Sun from which you came most recently, SOLOGO. These rays or emanations are being thrust or driven through you with great power as you open your thinking.

It is not yourself that you give; it is not the power of the group; it is not a power that we build or hold or command. It is the outflowing power of God to which you open and which you let flow. As you let it flow you are raised in vibration; your channelship is enlarged; your thinking is clarified; your body is healed; your vehicles are attuned.

All is well with each of you; but if you should feel some uncomfortable sensation across the back or through the chest where the power is flowing, do not be disturbed by it. You desire to serve and to be attuned. The seeming feeling of unease is merely the adjusting of your channel, the opening of the cells in the body that you may fulfill your mission more efficiently.

SPACE TECHNIQUES ARE LARGELY MENTAL

Tucari: I who address you am your brother in Light, known to all those who have at some times called themselves space groups, or who now think of themselves as groups of Light. I have come to you before on the beams of electronic devices from space ships and from centers of broadcasting on Mars and other planets, speaking under the name Tucari.

I have been permitted to come to you because I, too, have lifted my heart and my consciousness to receive from the great Central Sun who has named Hiserself to us, LIOLIA. All through this Solar System are serving, as you are, to bring through to their levels of expression the Light of the New Arc of Consciousness. Upon these new seed thoughts, new truths, basic fundamentals, all of us regardless of our planet homes, our mansions of Light or our place of service must build for the progress of the whole System in the New Age.

You think of yourselves as desiring to progress upward and reach the higher scientific levels which we, your space brothers have attained in order to construct and operate our space ships. We also think of progressing upward in mental sciences and in contact with Spirit so that our service to THE ALL may be greater.

This progress is on a Solar System level. Someone is saying, "Then we will never be able to catch up with you." My beloved brothers and sisters, together in the higher planes we meet, as your angel said, upon a cloud or in the Realm of Limitless Light and we are one. Whatever level of manifestation we have accepted for service, we all seek growth, evolvment, and higher understanding to share that all on that level may progress.

You have been told that our science is largely mental. You know that we do use some mechanical devices but mental dominion is easier on our plane of vibration. We have volunteered to incarnate in this plane for the same purpose that you have been told is yours - to bring through the emanations of the higher Beings of Light. We serve mechanically, mentally and spiritually.

Much understanding concerning our mechanical devices has been given to groups such as yours. In preparation for this evening, I looked upon one of the books offered you for study and saw there some diagrams which will give you hints as to our mechanical operations. Your men of science are very eager for this instruction. Some have been greatly disappointed or lost faith because we did not give you directions for the building of space ships such as ours, for other scientific advances and for healing techniques which would alleviate the suffering on the surface of your planet. Since our techniques are so largely mental we cannot do this until man has come to the point of accepting what Groups of Light are bringing through at present. There are those who always will be turning backward to the knowledge of which they are sure and which has the foundation of acceptance among peoples for some years of time.

I am sorry to tell you that we are more or less at a standstill

until the Earth and the men upon it have adjusted to this new Light. Until the Light has vibrated around and through the brain, the nerves: the spine and the chackras - all the equipment of man - and until he has adjusted to it he could not understand the next steps necessary. Men of science on your Earth will come forward with the most astounding new and intricate devices which at present they are unable to understand. By that time their equipment on the physical level - in the brain and in the body - will have adjusted to the Light (which is consciousness) which you are now receiving.

I wish to thank each one of you for giving yourselves in support of this very advanced expression of truth. I wish to thank you for your courage in accepting it, for allowing the self within to vibrate in harmony with your mission here. Without the channelship of your bodies this thought could not be given to men of Earth as quickly or as clearly. Fear not for the future of this Truth. Fear not it will be spread; it will be recognized; it will open the door for that which is to come.

I give you the love and thanks of all who are tuned in from the space ships located on duty around your planet. I give to all Groups of Light greetings, salutations of joy, expectations of great good, congratulations for the good work already done and for the crises past, and hope that all in the future will be as well performed.

Could you but hear it, there is a mental call coming out to you from all of the space ships saying: SOLOGA! SOLOGA! as a salute to men of Earth for their acceptance of the Light of our Solar Logus. Oh, we love you, our brothers and sisters. We pour out our love, our efforts and our thought into the work which we do together.

DO WE SHOVE JESUS OFF INTO THE SKY?

LIOLIA: speaking to MY dear ones, MY beloved children of Light sons of Suns, for you have become that which you must be at this time, sons and daughters who are Suns, MY sons and yet Suns, for each of you is both son of man and son of Sun. Even though you sit in the present time in the female expression, nevertheless you are the offspring of the HIGHEST OF THE HIGH in all Hiser expressions. You are My offspring because you are cells in the body of MY great Galaxy. You are the offspring of IMMANUEL-IMMANUELA for you are cells in the body of your Solar System, your Heavenly Man. You are indeed sons of Suns; and as you read in your Sacred Book, you have become whatever is necessary to be Sons of God, shining lights giving forth the Limitless Light of the Omniverse. That is what WE all do; WE give forth Light.

All is pure Light. Everything about is nothing but Light. It is very hard when you are so used to thinking of things as wood and stone, as flesh and blood, to think of them as pure Light instead. This is what is meant by taking off the outer clothing and revealing the real person underneath, revealing the Limitless Light, the True Image revealing Hiser Self in the Image. Light reveals itself in that which is Light.

It is necessary for thoughts like these to mature within the mind. The visions which you have been given you should all take into meditation. Do not just put them aside but think back over them. Each one of you should write down what you have seen, Keep a notebook in which you record all that you see and your best explanation or interpretation of it. Go back over it all again and again. Take it into your meditation periods and ask for enlightenment until you have gained every possible nuance of meaning.

Before you begin to read the sacred Word of the Bible of the past, or of the Bible of the future which you are helping to bring forth, pray for enlightenment. Think: Father-Mother, ALLNESS OF THE ALL, enlighten me. Open this door to my understanding; or claim affirmatively: I AM the All, therefore I know All because The ALL is the All-knowing. I know all I need to know now. Either method will open for you the door to understandings which have been yours in the past. It is your right and heritage to know and to understand.

You have accepted the Dear One, the Bright Spirit, sent you 2000 years ago. In the majority man in the Christian world has accepted Jesus to some extent. You have accepted Jesus as understanding the truth, as being a great Master and Adept who came into the world bringing greater knowledge and greater powers than those around him.

You have come into the world under limitations. This you did deliberately for it was necessary that man receive instruction and example from those who were utterly like himself. Jesus came in with such great advanced powers that no man thought it possible to be like him; therefore as the ages passed, man put Jesus farther and farther away until even in your day you know of many who shove him off into the sky and will not admit or permit his possible return without the pomp and heraldry of an earthly King who must descend from the sky with such convincing pagentry that they will be justified before all unbelievers. But Jesus is a Universal Spirit always present in the heart of all whether they are conscious of him or not.

You have accepted as proven that Jesus speaks the truth; therefore you can receive with joy these words of Jesus: I AM THE ALL. Now you are to send forth these words. You are to speak them to the world; but it is not desirable that the world should find anyone in this Age to put up in the clouds away off from them. The idea of the present is to be unity rather than separation. For this reason those who are to give the truth of the New Age have agreed to lay aside their various abilities which they have gathered to themselves through the ages past, and to come into the manifestation of the Earth life as common, ordinary people doing that which other people can attain unto, giving forth the truth in simple livable paths of evolvement.

Your lives are to be of the common people. I say this to all Groups of Light who are sending out the truth as revealed to them.

Jesus meant to be so, desired to be so, but the people saw in him something so much higher, so much finer, something so perfect, that always they have said, "Oh, Jesus - He was the Son of God. He was perfect. We can't do what he did."

For this reason, beloved ones, you have come into the world with many little faults and failings. Your imperfections are to be clearly seen by those around you so that they will not be looking at the adept or the master, but will see nothing but the Word which you give forth. Anything that you put forth of yourself for man to look at and thus detract from the Word is a hindrance. If you say: Look! We are doing all these wonderful things, then you are calling attention to yourself. Do not spend your energies in personal propaganda; spend them in sturdy construction. Think: I, myself, am of no value except as God uses me to send forth Hiser Light. Then let everything you do or say call attention to the light and not to the human individuation.

You are to hold forth before the eyes of men the radiance of the Sons of Suns and the Suns above Suns, of the ALLNESS OF THE ALL. You are to send through you so much love, so much light, that when people come into your presence they will not be thinking of you, but they will be thinking of the wonderful peace and love which they feel and of the good God so near and their oneness with Himer.

This is indeed a difficult assignment for human beings. Have no fear for the Word; just speak it forth. Let it flow from you physically, from you mentally, from your mouth, through your smile, through your life. Just give it forth; be it; live it. Do the best you can to offer it and let God take care of the increase and the harvest. An age is a long period of your time. The harvest of what the Groups of Light are now sowing is not to be fully reaped for hundreds of years.

Now is the sowing time. Now is the time of Great Shining, the time of Great Radiance, the sowing the seed of the Limitless Light. Send forth the Light; oh, send it forth, MY beloved! Join ME in consciously sending forth MY Light. MY dears, if they were to imprison you for the rest of your lives, if you sat in a miserable jail cell from now until the day of your passing, and you did nothing but send forth The Light, you would be glorious servants of the All for that is what your world needs.

Oh, may the ALLNESS OF THE ALL in Hiser perfection of beauty, granduer and radiance, bless you every moment of your expression as a sacrifice in the world where you now manifest. SOLOGA! In the three-fold Name, the Father, Mother, and Son, we manifest the Limitless Light.

ANGELS ARE GRATEFUL

The Angel Raphael: I, the Angel Raphael, come to you for the purpose of leading your power broadcast. We of the Angelic Forces are so grateful to you that you receive us without question and

that you do not doubt our coming and our messages, that you do not doubt the channeling of our power and our thoughts. The Angelic power has made itself felt in the Earth but man has not been ready to receive it in great amounts. Now we can come closer to you and for this reason I am here.

You are aware of the fact that there have been disturbances in the mountains of Mexico and South America. Because of the great concentration of Groups of Light along the West Coast, in the fault lines there have been strengthened; but in the Latin American countries there has not been the sending forth, and for this reason the Forces of Light have been pouring all they could there. The antipodes of these mountains if you will trace them on the globe are a line drawn through the trouble area in the far East, Laos, Viet Nam, and central China in the great basin of hunger, dissatisfaction, oppression and starvation. The people of China have hidden from the rest of the world those tragedies and catastrophes that have occurred within their borders. Little has leaked out of the earthquakes and famines which they have been undergoing. It is the difficulty there which has erupted in the earthquakes on the opposite side of the globe.

During the period of the Russian test explosions it is very important to contain that area in Light. You have been told again and again not to fear the explosions. A great deal of anxiety has been expressed over disturbing the belts of radiation. I think it expedient now to give forth (whether it is accepted by man at this time is of little importance) that the one test which your country has made in the higher realms had its advantages, for before the magnetic currents could be properly shifted into the new paths, there had to be the stirring of those various belts of radiation. You will observe now that this test has had no serious effect upon the Earth. The barrier of radiations it has set up will challenge man to create better shielding devices for the astronauts and protect them from harmful conditions in deep space.

Rest assured that no test will be permitted by the Inner Council of the Golden Legion, by the Hierarchy of the Solar System or of the Galaxy, which would be harmful to the Earth. If a test is permitted it is because good will result. Rest in this and be not disturbed by those who as yet can not accept our word in this. There are many who will read this who will realize that it is word from the higher realm and will accept it as in line with the over-all rulership of God. I, the Angel Raphael, have come to confirm it. Others may say, "That is not what we have been told," or that is not what I feel."

My dears, each one is given his own message to give forth. Let everyone speak his own message without fear and without doubt. Then leave the message in the lap of the future; for no message is given unless it is within the purpose of THE MOST HIGH. Rest in this and be at peace.

ANGELS ARE MOVING DOWNWARD IN LEGIONS

The Angel Gabriel: I have visited your group before and you have sent out my messages. It was my privilege to come to you and announce the birth of the Christ Consciousness in the hearts of men, the birth of the opening of the self consciousness to at-onement with the Father. Now it is my privilege to make another important announcement which it was impossible to make until this time when the Light of LIOLIA has reached such a glorious outpouring into the Earth. Angels are moving downward in Legions to pour out the Light through themselves, to assist man, to spread Light in all dark places, to bring to man the knowledge of his sonship with the Father. At certain times of great outpouring the vibrations are such that we of the angelic kingdom can come in great numbers on the beam of Holy Light from the Great Centers of Spiritual Being.

Now you are receiving a great flood of radiance from your own Sun, IMMANUEL-IMMANUELA, from the Spiritual Center of the Galaxy, LIOLIA, and from ONE without and yet within, seemingly more remote and yet still closer, THE ALLNESS OF THE ALL, THE HIGHEST OF THE HIGH. During such an outpouring, we, the angelic band, can move closer into this lower vibration and can manifest ourselves more readily.

When Jesus was born great hosts of us were seen and heard singing in your sky. When Jesus was asked if he would not save himself from the death which he knew was approaching and go into Greece where he would be accepted with such joy and honor, he answered, "Do you not know that I could now call upon my Father and He would give me legions of angels to fight for me." Now, my beloved ones there are Legions of Angels at your command. We are moving in by the thousands. Those who are clairvoyant will be seeing us. We will come closer and closer. You will have our fragrance, our music, our gentle touches, our strength, our light, our presence with you in your homes, in your groups, and in your churches. Be alert, for as sure as you are living in the physical you will be entertaining angels unawares.

This is the time when angels shall be seen ascending and descending upon man who are sons of God. That does not mean men who think they are so good that they might possibly be one of the elect. It means upon all men; for man is nothing but Light. He is both Son and Sun of the Father-Mother God, and he is now to see angels ascending and descending upon him. Look for angels in your sky and in your trees. Do not be surprised if you see angels with or without wings, as tiny or as towering forms, for they manifest in the form best suited to their assignment and your need and use for them.

Your part is to watch for us, to listen for us, to open the door to us, and to call upon us. Do not be afraid to ask for an angel for we live for no reason other than to serve. Never have we had to go through that which man must endure in learning. Never have we had to descend and work our way upward through the morass

of error that encumbers man. We were born of pure light and the Father's perfection to manifest to you. Call upon us, my beloved. If you do not what can we say? Call upon us for we live but to serve.

You will be hearing of angels of many names, many colors, many attributes, and many different expressions. Heretofore you have heard principally of the four, Michael, Gabriel, Raphael, and Uriel. You have added the Angel Violet in your recent experience, and the Karmic angel Lu-Ro, each being different in office. Many others will come to you. Do not be surprised if members of your Groups of Light find angels introducing themselves to them personally so that they may have the joy of bringing to their group the acquaintance of other angels. Do not reject anyone who brings to you the name of an angel for we wish to contact personally as many as possible. Of course it is hard for us to impress our presence upon those who draw back, doubt, and will not receive word of us from others or from their own higher senses. Yes, my beloved who read this message, it will be easier for you to see us if you can accept what you are now reading.

I bring you the blessings of the angelic expression of God, for when one speaks to you all speak through that one. I stand as the mouthpiece of all the angels who declare: Blessed are you, for you live at the time of the Great Shining of the Mighty Central Sun, our beloved Spiritual Father-Mother, LIOLIA. SOLOGA! from all the Angelic Band. Like the Sun, we shine; like the Word, we go forth; like the Source, we give. 8/7/1962

SPACEMEN SEND ROBOTS TO THE EARTH'S SURFACE

Travol: I am your brother Travol, co-captain in the space ship stationed above your area. You have heard this space ship spoken of frequently. My co-captain, Plutana has spoken to you often.

I come this evening to assure you that we are doing all we can for the Earth. We have not visited your group as frequently as we would have liked, for it was important that the body of the channel adjust to the vibrations of the Central Sun, the Sons of Suns, and Angelic Forces before we brought in any cross vibration to disturb the conditioning. We contact some of you with beams touching your bodies. Others do not need these beams; they have accepted us with sufficient faith in us, in God, and in themselves that we can communicate through thought transference. We can also communicate through the higher self and take a light cooperative command of both brain and nervous system so that we can deliver our messages.

All of you will sooner or later act as channels for us, in some function or capacity. You are our brothers and sisters in Light. You have volunteered to come into one vibration or accepted assignment there, while we were assigned to this. But when we leave our physical forms we meet as equals in the Realm of Light, knowing each other as equal in the Light of the ALL. It is true that

in the human manifestation, we in the space ships have advanced conscious mental science higher than yours. It is true that we have devices that your scientists have not yet discovered, but this knowledge will come to you in time. However, our science is not that of destroying the atom. It is creative rather than destructive. It is that of drawing from the Limitless Light, from the substance of the Omniverse, from the Live Force of the ALL, that which is needed and the creating through the power of the mind the devices which we need to operate in your level of manifestation.

We have told you that we work with the mind, that our directing of our devices is largely mental. We have told you that we have been sending devices into your atmosphere. Recently someone saw one of these devices and was startled to observe around it what appeared to be robots. I wish to confirm that this is so. At the present time it is not wise for us to come into your material plane in your material vibration. The electro-magnetic lines of your Earth are not yet sufficiently composed in the new paths; they are still confused. It would be like trying to take one of your little boats into a great rapids or whirlpool where the water was flying every which way among rocks and currents and sure destruction. Because we deal with these forces we manifest on your level by the use of them when they are more settled. Therefore we must come into the thought of the channels clairvoyantly.

Recently we gave the impression of our presence with a group in retreat. We were not there on the physical as you would see us physically. We were there on our physical level which you could only see clairvoyantly. We are with you often in the same state. I stand here in your midst. I am seven feet and two inches tall. My hair is black and so are my eyes. My skin is a little darker than yours as though I had been sunburned. I am slender. I wear this seemingly metallic garment which changes with the light as I move like your changeable silk.

We use light consciously to make materials. We use light to clean materials. In our great ships we do not have showers of water; we use light. If you were to visit us, you would step into a cabinet where light would completely cleanse your body and your clothing, and would attune your higher self to the body. You would be refreshed with this light.

You who are growing in understanding, are learning in the material level to reach upward and bring down what you can of the science of the future to use in your everyday life. You should begin to draw down light to use in this manner. Do you not sometimes take off a garment and hang it in the air? The next time you do this, sit a moment and see it cleansed with light. See light, pure white or with a little blue in it, glistening and gleaming as it pours through your garment. Then when you take it down test it, look at it, smell it and see. Practice this. It is something you will have to attain, an ability which you can manifest, and which the man of the

Future on Earth will develop.

I am saying this not only to your group but to all groups and to all individuals. This is a possibility open to man of today on the Earth's surface. But just as you need to accept LIOLIA to be aware of the Legions of Angels, and you have to accept yourself as One with All to open to your fullest, so these acceptances will help you to use light in cleansing yourself and your home.

Would it not be much more pleasant to be able to sit and see light cleansing your dishes and doing the work that you do in the laundry or with your vacuum cleaners and your scrubbing mops? Oh yes, the time will come when man will paint his house with Light. He will sit in his yard, look at his house and think it the color he wants it; it will become that color. Then if he wishes to change it tomorrow he can do so as easily. This is the path upward for man's science. He has first to explore this dead-end street of atomic fission before he can find that there is no way out. When he has come to the limit of that street he may then retrace his steps, or his children may take him by the hand and lead him out of that blind alley and show him the way upward through mind.

What a joy it is to us to be able to tell you these things. It was not possible to tell you many things until your acceptance of our Spiritual, Central, Invisible Sun, the Father-Mother of the Galaxy, our glorious, adored, LIOLIA. Now that you have so fully accepted the Golden Light from this, our Father-Mother, it is yours to give forth the advanced learning, and to show the way even though it be but a pointing finger to what man will accomplish in the future.

You have been told that when you speak to one you speak to all, and that when you hear one you hear all, when you receive from one you receive from ALL. Know then that you receive from all in this space ship the love which is so wonderfully ours to share with you. Remember we are stationed over all critical areas. A large gathering of forces are above the starvation area in China. Had we not been feeding them with the Light of the Life Force of the Omniverse, many more thousands of them would have passed away from the realm of physical manifestation.

Yes, we are on the job; we are faithful night and day all around your globe and you can count on us. All of us together say, SOLOGA, and to us that very word is like an Alleluia, for it is sending forth from the heart our glad shout of exaltation for the wonderful giving of the Greatest Giver, THE HIGHEST OF THE HIGH. SOLOGA! Together we give!

THE EXPLOSIVE SITUATION IN CUBA

The Archangel Michael: I stand among you, my brothers and sisters, as a Tower of Light serving under our Sun IMMANUEL. I lead the Angelic Forces under the thought of Will and Power. I have been with you often in your meetings and I have served with you in

your broadcasts of power many times when you were unaware of my presence.

I come to speak to you tonight because you are in such an important position in the battlefield of the present between good and evil, between love of God and denial of him. You who live in this area have the opportunity to send Light, Love and Healing with great power to that neighbor of yours, the island of Cuba. God loves all; all are his children.

You were discussing the problem of good and evil. Perhaps the best way to speak of evil is to say that evil is that which denies good. Error or a lie denies the truth. Sickness denies health; discord denies harmony. One of you had a vision of a third of the Northern Hemisphere as a great crater. This was because the people there have been forced by their governments to deny the presence of God, and since God is the only Life, the only Substance, the only Existence you were shown this part of the map as a place of nothingness. Unknowingly the people have denied the existence of any thing in that place. When they deny God they suppose that they are denying a fairytale; they think they are being very courageous and worldly-wise. But he who denies God denies his own existence.

You are here in great power in your city. You and your sister organization Mark-Age, all the churches of which there are a great number in Miami, and all of those praying people who, it may surprise you to know, much outnumber those who do not pray - all are sending forth prayers that God will work things out rightly in Cuba. You have been chosen to be here at this time for the purpose of giving special attention to sending out Light into this area.

Now the situation in Cuba is serious. It is as though it were all balanced on a fence. A little push one way could mean war; a little push the other may preserve peace. You are doing all you can to push toward peace and you are not alone, for the Legions of Angels and the Golden Legion of the Forces of Light, more than you have ever dreamed of, have gathered here from distant places in the Solar System, in the Galaxy and even from other Galaxies to help in this critical time in the development of the Earth.

We know how important this particular spot is at the moment. You will know from your news media and from your own common sense that the man who is at the head of the Cuban government, Castro, has suffered greatly. He has been forced between two fires, the push of the Communists and the sufferings of his own people. He has had to hold the power or be destroyed himself. He has gone from one evil deed to another so that his crimes have weighed heavily on his own conscience. His nightmares are terrible for he sees the faces of those for whose killing he is responsible. This has driven him close to the borderline of insanity. In fact there have been times when his own confederates have kept him locked in a room away so that he would not destroy them as well as himself.

It is of course to be feared that the dear young men who are

so eager and so patriotic, so anxious to free their motherland and the people who are undergoing so much suffering at present, may cause an explosion. It is to be understood that they would wish to fight. They have staged a token incident; they have shelled the city of Havana and escaped without harm. But this has resulted in the coming of many Russians.

Up to this time Castro and his Cuban people were not willing to admit any large number of Russians, but this shelling of Havana frightened them into accepting aid so that many Russians and their equipment have come supposedly as a defensive measure. It is a terrible measure filled with menace for the surrounding peoples and for the Cubans themselves. You may be sure that now that the Russians have firmly planted their foothold there they will not relinquish this island. They have a stranglehold on Castro and his confederates and they will not let go. Therefore in our prayers it is important that we send love, peace and caution to these patriotic young men who are so desirous of cleansing their homeland.

Now there is a danger which has been spoken of to other groups as well as this, that should the young men attack Cuba, the Cubans might shell Miami with the thought that Miami is the base of the Cuban attacker's supplies. There are many wealthy Cubans who have brought their money to Miami and are perhaps furnishing the purchasing power for the arms and small boats that may have been purchased here.

Castro does desire to wipe out Miami because it has received and sheltered so many who opposed him. They have deserted and taken away their wealth. He blames his weakness and his present situation on them. In his mental illness, he has felt that Miami and the Cuban people here are the cause of it all.

Castro's own people and the Russians themselves are anxious to keep him from doing anything rash. If bombs were to drop on Miami, there would be no time to decide where they came from. Instead the whole thing might blow up all over the world. This is the reason why it is so important that you, my dears, do what you can in the sending forth of Light.

You have done beautifully; you have grown more than you know. Your bodies have enlarged in their ability to send forth the electricity or Light (electricity to us and Light to you.) You are like those little devices, the fuses which you screw into your boxes, some fifteen and some twenty. If you want more electricity you put in the twenty; if you want less you put in the fifteen. Your bodies have increased in their ability to send the light through just as though you had been made over into a device to send through a greater amount of electricity. This is the best way I can explain it to you.

We have spent a great deal of time and effort in developing the power that you have. We ask you to use it as much as you can. Now we know that it is very tiring to you in the beginning. We know

that at first it seems to you that to send forth the power through your mind is one of the hardest jobs you can find in your day of work, and that to do it for a minute or two seems almost exhausting. We have asked you in previous times to send forth Light three times a day if you could. Now, knowing the crises and how difficult it is, and knowing that you are better equipped to send forth, perhaps you would be able and willing to let your mind send forth the Light more frequently as you go about the duties of your day. Even though your hands are busy, you can send forth the great strength of the Omniverse through your thoughts.

Remember it is not your own power you are sending through; it is the Omnipotent power of the All-Consciousness of the Most High God. This is the substance of Light; this is the only power there is. If you send forth any power at all, it is the Power of God, not your power or anyone else's power, not the power of some invisible etheric being, of some angel or some Master from the great Hierarchies, for their only power is the Power of God. All they do is what you are doing. If you feel great power coming from them, it is because they have a great capacity to send through the Power of the Almighty God. When you feel the great heat of the Sun Beings, that is their capacity to send out the Light and Love of the ever-present, the all-knowing, the all-powerful ALL.

As you send the Divine Power through, you should always say, "As I send this power through me I am refreshed and replenished." In this way you will direct your subconscious mind not to permit itself to give of the power of your own being which is the power of God necessary to hold you in your present pattern. Thus you will not be depleted by giving.

Now you have been told of the wall of light which you must hold between your area and Cuba. You have been told of my presence in helping to maintain this wall of Light. We have been contacting all Groups of Light telling them to see Cuba held in Light and in the Love of God; thus you are being given much help in this work. If you could see the map of the United States or the globe of the Earth from the etheric planes, you would see great streams of power and light pouring into Cuba, for now your government and people are being alerted to the danger. They want to help you just as you have wanted to help them.

Your president has known of this. He has been advised of the full situation. He is a wise man receiving intuitively his own directions from the etheric. He listens to his counsellors but he will make up his own mind; he will do what he thinks best. Both he and Krushchev know that a war would wipe out both countries. Neither of them want war; they want most of all to dampen this explosive situation.

The United States is now being put to the test to see how it will stand up under constant tension and fear. Has not the United States supported the Chinese Nationalists in the island of Quemoy

and thus generated fear in China? Has not the United States and its allies established strong bases almost as close to Moscow and thus put this tension of fear upon the Russians? Now things are perhaps in a better balance.

Cuba, too, is a sacrifice. Cuba enjoyed much tourist trade before the rest of South America became so accessible. Many people of Cuba began to grow rich, greedy and pleasure-loving. They catered to the tourists who came to Havana to throw aside the conventions of their home towns. Throughout the island the common people were left in poverty. The money was used for the pleasure of the rich and not for the building up of the general standard of living. Therefore, Cuba has this Karma to pay.

In the process of the coming of the Russians, Cuba will be an example of what can happen, which will cause the rest of the Spanish-speaking countries to watch more carefully and be much more anxious to stamp out the encroachments of Communism within their own borders. For this reason I say Cuba is a sacrifice. Let us therefore send Love and Light to help. Let us strengthen our faith knowing that God governs. If this island is a sore that must be cleansed, if this is a cup that Cuba must drink, then let us say, "Thy will be done but if this cup may pass from us, oh Father, let it be so."

Because of the saber-rattling from Cuba and Moscow, the strength of the United States and its courage and determination to act have been underlined. The bluff has been called and Krushchev and Castro know that they dare not provoke the United States to war unless they are willing to suffer oblivion themselves. This they do not want any more than you do.

Be assured that the Golden Legion, the Logos of the Earth, of the Sun, IMMANUEL, of the Galaxy, LIOLIA, and the Thought of the Most High God are holding this planet and this place steady. But you, my beloved, are like the missing piece of the puzzle. You have your own little niche, your own work to do and only you can do it. SOLOGA, blessed Suns of Light! I, Michael of the Angels stand with you in the Word of God to fight for the Truth.

9/18/1962

Following this message, in the vision of the OLlooker, the whole Group was taken to Cuba as One in the body of Jesus-Mary. From the etheric plane we observed conditions in the island. We saw light being poured in from the prayers of the Roman Catholic Churchmen, the Pope, the Cardinals, and other seats of Catholic power. Light was also coming in from all the churches and people who pray for the freedom of the Cuban people. From the Groups of Light, from the Hosts of Light, and from the Suns great beams darted down until the island was almost ready to glow; then a wave would wash over it cooling it off, and more Light would be sent. We felt very peaceful about it all for we knew that all was being done that was possible. We also understood that our faith that this was so would help.

Next we were taken down into the island. We saw Castro drinking a great deal. We were told that the soul of the man who fought for the independence of Cuba had left when under pressure the human self chose to deny God. Another entity had moved into the body. In the island there was weeping, hunger and a sense of people being in a daze. There was trouble in the hospitals for they lack good nurses and doctors. So many doctors fled when Castro began to oppress the people. So many children are unable to go to school and are confused. No matter how much light is sent those who are unwilling to receive can put a wall around themselves and shut it all out.

Everywhere we went Jesus-Mary gently touched, comforted and healed all who could respond. We felt the tears of compassion in Hiser eyes. The prisons were so full of suffering and fear. They have free choice and cannot be healed if they refuse the Light. Furthermore there is a Karmic debt to be paid.

SEND LIGHT STRONGLY TO ALL GOVERNMENTS

Ixutel: Again we bring good news. The Christ Earth, the Glorious Spiritual Entity ensouling the physical planet has taken a tighter grip on its own physical structure. The Light of LIOLIA has been accepted by the Christ Earth and all is well. There will still be the problems and the opportunities for growth expressed in weather and shifts in the electrical currents and in the outer layers of the planet. These must continue for they are the cleansings which throw out the denser atoms and make the planet able to respond with greater understanding to the Voice of Divinity speaking the Word to Hiser image in the form.

You will have noticed some lessening for the moment of the violence in storm activity. The aggressive thought of the anti-Christ has been turned in upon itself somewhat as the force of its thinking boomerangs against itself. Certain troublesome powers will be occupied with their home disturbances and the strain of fear will react unfavorably upon the health of certain leaders. There will be an urge to the settling of home problems throughout the world.

During the next few months Light should be sent strongly to all leaders and governments that God's Will and the healing Power of the Christ Earth may be manifest in them. As peoples prepare for elections, send out Light and Wisdom that the right individual be chosen according to the purposes of the Christ-Consciousness maturing in man. Watch your news media and be faithful in sending Peace, Love, Light and Harmony to all trouble spots. Listen to the voice of your own Higher Self and direct power as you are instructed from within.

Our science enables us to note the flow of electrical or psychic energy and to then predict certain trends and their general climactic points. Always send forth in utter calm and detachment letting the Light flow through you effortlessly and without emotion

or personal involvement. Be as emotionally and mentally detached as the nozzle of a hose releasing the power of a greater source to cleanse or to give drink to the thirsty lawns and gardens.

The great opening of men's hearts to the thought of Thanksgiving in your country will prepare for a renewed outpouring of the intense Golden Light of LIOLIA which will reach a peak during your Christmas season. Much occurs which does not reach you through your news. Many of the crises are psychic storms in certain areas and are not detectable by those whose thoughts are open only to the catastrophic conditions in the physical plane.

You must be faithful and know that your outpouring is rightly directed. Should the disturbance be controlled in the indicated area but break out in some other, the Light you are broadcasting will be deflected by those who know and will be used according to the cooperative thought of IMMANUEL and Christ Earth and transmitted to the new area through the scientists of the Golden Legion. Do your part faithfully but be at peace in the Omnipresence of the Divine God-Consciousness.

A N N O U N C E M E N T S

We wish to express our deep gratitude to all who have sent us such loving and appreciative messages and for the generous gifts of financial support. As our mailing list grows it takes more to supply all those who are eager for the Word which has been given us to share. We are so grateful to those who have responded to the call of Spirit and sent us their tithes and love offerings. We have no other source of supply for our activities except the gifts from God through you.

We have been asked to give permission for reprinting. May we state that our material is a gift from God to all and we are only too happy to have you use it in any way that will spread the Word.

* * * * *

When the Cuban situation began to come to our notice, several very dear friends sent us messages of concern over our safety. In the course of the ensuing meditation and prayer for guidance for the group, our channel received the following message which must be shared.

WHO, OH WHO CAN SEE THE LIGHT IN DARKNESS?

Little Sun of Mine, just hold the Light around you steady. When you hold it for one you hold it for all. Your Sun, IMMANUEL, has received great enlightenment. Now comes the application of that new insight in the conditions of Hiser Being. Now comes the time of seeming withdrawal and the eclipse of seeming darkness when you must act on your own, the seeming retreat of the Presence so that you may find and know yourself.

No cloud of illusion can hide the path when once it is found. No one who holds to the God within, who has found and become the

Way, shall lose the inner contact with the Presence.

Be not dismayed by the problems you find as you turn the pages of your textbook of experience. Hold fast to the knowledge that you have and send out your Light into the darkness.

Who, oh, who among you can see the Light in darkness? Who can perceive the Holy Revelation that there is no darkness? How could man learn to tear away the veil if there were no veil to tear?

Blessed children of Light, walk in your own Light. Light your own candles and keep them burning for the darkness of testing cometh to all and to each. Where can you prove the brilliance of your own Light except in the darkness?

Be of good cheer but give. Give! Shine forth in the glory of your own knowing that others may find their way through you. When I speak to one I speak to all and to each. Find me within you and within all else.

I AM ALL THAT EXISTS! Find ME within and without. To those who find ME thus there can be no darkness at all for their vision has enlarged to see the Life-Light in everything that exists. To those who know the Infinitude of Light then the seeming darkness itself is also Light.

Go in Peace, my child of Light, secure in the knowledge of Infinite Love and Goodness.

COSMIC RHYTHM

In endless rhythm and ceaseless flow,
Through Cosmic Light where atoms yearn,
From intricate patterns the ages show
Come whispers of infinite Love that turn
Out from God to the embryo
To live in the thoughts that seek and learn.

To live in the thoughts that seek and learn,
Goes Love, to weave - as sympathy spun -
The fabric of Brotherhood, to burn
The flaws of flesh. Its climb begun,
Thus to God does the mind return,
Who knows, "My Father and I are One."

Who knows, "My Father and I are one,"
Up the mountain of pain must go,
Submerging self in transfiguring Sun
Of service that only the summits know,
Offering Love 'til Life is won,
In endless rhythm and ceaseless flow.

SOLOGA HEALING TAPE (MESSAGE)

JESUS: My beloved child of GOD, rest in the Lord. The Lord thy GOD healeth thee. You are now in the presence of GOD. Rest in your seat and be at peace, knowing that GOD is with you now. GOD is all there is. You are a cell in His body. He is all of you and you are a small part of Him. You are His beloved child, a thought in His mind which He is maintaining.

GOD is ALL-CONSCIOUSNESS. He speaks the word of His thinking and we become. He maintains us with the depth of His thought. Not a hair of our heads but what he knows, for He is thinking every cell, every particle of all of our beings. He maintains us with His thought. Rest in the peace of understanding that GOD is thinking you.

GOD is Omnipotent; He is All Power. GOD is Omnipresent. You never can be absent from the presence of GOD, for He is ALL PRESENCE. He is your presence. He is the presence of every one else, and of every thing. He is Omniscient - All knowing. He knows every part of your body as you know your hand. He knows all of your affairs, all of your condition better than you can possibly know yourself. He understands your troubles. He understands your sickness, your frustrations, your unhappiness, your disappointment, your discouragement. All of these things are within GOD. He knows them. He knows what you desire for He knows the thought of your heart.

GOD heals you. He pours into your body the healing power of His own health. God is the only healer. GOD pours the fullness of His healing power through His Word, His Christ, and the Christ attends you. The Christ comes to you as the Comforter. What you must do is to self-consciously accept the Presence of GOD with you now, the Word of GOD healing you now. Be at peace. Be filled with joy for GOD is with you. Be filled with gladness for GOD is healing you. Know that all is well with you. All is well with you, with all of your affairs, all of your problems. GOD is moving through them to adjust them now and to bring about in His time the proper solution for your highest good.

You are GOD'S beloved child. He loves you with the greatness of His love. He is the very breath you draw into your body, the healing oxygen, the pure air. He is the very blood that flows in your veins. His is the heart-beat that keeps you alive. He manifests His warmth and love in the sun that provides life to the earth and gives you food, to maintain your earthly bodies. GOD alone is the healer. Others may be messengers, carrying His healing power, His healing faith and His healing word. But GOD'S power, GOD'S faith and GOD'S word are all there is. You do not have to depend upon the weakness of the physical voice that is speaking to you for you can depend on GOD. You depend on GOD'S faith which is a gift as free to you as the air you breathe.

GOD'S faith is the only faith there is. Use it. Say to yourself, "I am in the presence of GOD. I move forward into the center of His being. I step into His perfect health. I step into His perfect health by standing in His perfect faith that all is well with me. All must be well with me since I am the expression of GOD. GOD'S Life is the only life I have. I manifest all of GOD'S health now, at this moment. GOD'S Love is the only love I have ever known through any other human being or through myself.

"GOD'S Love is infinite, poured out upon all without measure, equally, given as the sunshine is given and as the rain is given, to heal and to bless. I rejoice in the love of GOD which surrounds me with every good thing. His mercy is boundless and I live in His mercy. His health is perfect; I move in His health. His Light is eternal, enlightening my day and my night. With His All-Knowledge I know. With His All-Power I operate. In His All-Presence I live and move and have my being. Therefore, knowing His love, knowing His wisdom, knowing that His will is done, I place my will within His will that He may work out in my body and in my life that which is for my highest good at this moment.

I rejoice in GOD, my Father, who healeth me now. I accept this healing with all my heart now. I move forward in the constant knowledge that this healing is never absent." His healing power is as permanent in your life as He is everlasting. You have but to stop and establish in your thinking His presence and His healing power ever with you to be able to draw the harmony, the peace, the perfect health into your manifestation.

In the faith of GOD accept this so fully that it drives the thought of health and the healing of GOD into your subconscious, that your whole body may receive and accept and rejoice in the Light of the ever-present healing Father. See the Light of GOD pouring through your veins and arteries in the place of your blood. See it cleansing, purifying, re-building, and harmonizing every little cell, every organ, every tissue of your being. See Light whirling in a vortex at the place that needs this healing. See it spinning round and round. Know that it is the light and the life-power of GOD cleansing, throwing out all that should not be there, re-building, putting perfect tissue in the place of that which has been damaged, bringing strength and vigor and alignment with the perfect pattern of GOD'S thinking for that part of you.

Whenever, during the day, the problem seems to present itself again, let yourself think of this Light whirling in the places where it is needed. Build within yourself the ability to imagine this Light and to see it, the Light of the ever-present healing GOD, operating to bring you back into perfect harmony with His perfect thought of you. GOD'S Light flows without anything to hinder it in your being now, for He is now present with you. GOD'S Light heals. GOD'S Life invigorates.

GOD'S Light, Life and Love flow through you to attune all of your being, to put you at perfect ease, to give you comfort, and to bring you into perfect harmony and health. Accept this Light with all of your being. Know yourself surrounded and permeated with the Light and the Love of GOD. Know that GOD'S Love is the warmth in your body. Know that GOD'S Love holds every particle of your body together in its attraction, and holds you in the Being of GOD. Know that the very fact that you are alive is proof that the Love of GOD is operating in you to manifest the thought of GOD for you as best as can be done with the difficulties you have in accepting perfection.

Cleanse yourself. Cleanse your own thinking. Ask yourself, "Is there someone who has hurt me?" Then send love to that person. "Is there someone I think is not quite right or good?" Then see all the good possible in that person. Enlarge it and let the rest of the manifestation go completely from your thinking. Wash it away in a flood of GOD'S love to this person. Let GOD'S Love manifest in great strength, pouring through you to all about you. As you do this, your own heart and mind will be cleansed, and you can receive the healing flow of GOD'S Love to every part of your being and your affairs.

Give Love. That is the true meaning of forgiveness. As we "forgive", we give "love for". Pour out the Love of GOD through your being to all about you in great gratitude that it is yours to use. Rejoice in the fact that GOD'S Love is yours to use. Rejoice that GOD'S Love is healing you now. Accept His perfection.

Accept His will for you, knowing that His will for the world is perfection, harmony, love, growth, expansion, moving forward, that it is freedom, freedom to achieve the highest good that is possible to you at present. Know that this is true for you now, and give thanks, be glad, rejoice in it. Say, "My Father whom I adore, I turn my whole being over to Thee. I give all of my affairs into thy keeping. Since Thou knowest that which is wise and best for me, I find my greatest freedom to move forward when I move forward according to Thy plans for me. Obstructions vanish when I come fully under Thy will, and the free-flowing power of GOD takes over and manifests in all outward affairs. In great gladness, in thanksgiving I come Under Thy will, accepting for all of my being Thy healing power now, accepting Thy faith as my right to use in all of my affairs, knowing that as I work in Thee I cannot fail because I work not for my own selfish pleasure but for the giving of Thy Love and the pouring it through myself into Thy creation.

As I work with Thee, all falls into place. I am blessed; I am healed; I am perfect: I am filled with Thy heavenly harmony in every aspect of my being, because I accept Thee in the fullness of Thy great love and Thy great healing power pouring into my life and into the lives of all about me. Because I accept all of this for me, I accept also its flow through me to

others. With all my heart I rejoice. Every cell in my body rejoices in Thy healing light, blessed Father. Every bit of me says, "Alleluia! Thank you, Oh GOD, for healing me!!"

THE LOVE OF GOD

The love on our realms is more highly expressed. You have chosen, in coming into the physical, to limit your capacity and your tides. Love keeps your planets in orbit. Love keeps the solar system, the galaxies, the universes, the omniverses in perfect synchronization. It is the Love of the Father, for each and every cell within His Being. Know that each and every cell is living. Every living thing around you is an example of God's love. Your flowers are a beautiful portrayal of God's Love. What is nature but an expression of God's Love. All the vastness, the beauty of the blue sky, pleases you because love pleases you.

You are born into this earth, this way of living, with great need for love. It is the longing for the fullness of the love that you have left behind. It is the great longing to recapture this completeness in the knowing of the Allness of God's Love. Everything that happens in your life, whether it seems to you a tragedy or wonderous occasion, is an example of God's Love for you. It helps you grow; thus you blossom into the perfection that you are trying to achieve. You become at one with your Father again, completely and wholly as you were (as a spark of Light) when you came out from Him.

God's thoughts are beautiful. Are you not all God's thoughts? You exist as long as He thinks you. And remember, dear ones, that all of God's thoughts are beautiful. Therefore you must be beautiful. Your neighbor must be beautiful. All of the people around you must be beautiful. Know that the inner being is God's perfect Love.

I leave you all flooded in the glory of perfect Love. May you feel this comfort, this warmth, this satisfaction. May we all learn more, accept more, and live more of God's Love. SOLOGA! My beautiful beings.

IT'S TIME FOR ME TO GO MY WAY

"IT'S TIME FOR ME TO GO MY WAY", so let me leave a smile
 To cheer the weary traveller..who walks a lonely mile
 To sing of spring in wintertime..to all who come along
 Life is made of many moments..slowly passing by
 I cannot hold this moment if I try
 IT'S TIME FOR ME TO GO MY WAY..so let me leave a prayer
 And love to live eternally..though
 IT'S TIME FOR ME TO GO
 MY WAY...

THE ROYAL ROAD

Walk the Royal Road, My son,
 If Life for you has meaning.
 Death no more shall bring upon
 That blot in the Path of seeking.
 Invoke His Light of Holy Love
 On every atom of thy being.
 Purge with Flame from Above
 Every aspect of thy thinking.
 See no form not Perfection;
 Hear no sound of evil tinkling.
 Feel no motion of imperfection;
 Taste no fruit of Satan's making.
 Bless thy world and ask for Grace
 To do His Will and seek His Face!
 As echoes ring out loud and clear
 Adoring hearts yield up a tear
 That bathes the Soul in Holy Water
 And lifts it closer to the Father.
 Thus lost in Thought deep down in Joy
 One voice for all bespeaks this Joy
 With prayerful praise in loving thought
 And asks that we, His Sons, be taught
 Then bursting hearts with Love do sing
 And arrows of Light 'round Heaven fling
 For thus we set the stage for God
 To lift us up, each step we trod.
 His Light and Love descends in Power,
 A rainbow colored Spiritual Shower!
 Ensouled in Bliss and Healing Rays
 Each one thinks thanks for God's pure Ways,
 But filled too full to hold this Host
 Each Grail sends forth where needed most
 The Light that lifts and Love that heals
 And hope of Dawn 'cross Heaven steals.
 The Service ends with final hymn
 And souls move closer to Holy Shin!
