

GOD UNITES ALL OPPOSITES. ALLELUIA!

GOLDEN KEYS TO THE KINGDOM

LIOLIA: MY beloved children of Light, Suns in MY Being, radiant orbs of glowing Light, you send forth into the place of your expression the Light of the All-Consciousness of the Father-Mother. You send forth Light which is poured out into the Omniverse through US to you and directly to you and through you to all about you. MY beloved, precious, beaming Lights of Love, Wisdom and Understanding, I bestow upon you the Golden Keys to the Kingdom - the Kingdom of the Limitless Light which is within you and without. These keys are mental; they are of the Spirit; they are of the understanding. They are not of the body, for although the body is Light held in pattern it is also the instrument through which the Light may be used and broadcast.

The Golden Keys which I bestow upon the world and upon you are the various seed thoughts by means of which you may attain understanding. You have been aware that various groups have various tasks. Each one will be used to do all that he is capable of doing. Each single one will be used mightily depending upon his willingness.

An excellent key to open yourselves to preparation is: Use me; use me. That is what you are - tools to be used in your place of manifestation. You have volunteered for this; you have come into a vibration where angels could not tread, for these vibrations are such that only those who have been adjusted to this human expression can enter during this time of difficulty and adjustment in the Earth.

You have come to support the Word as given forth from the Central Sun. Others will receive this message, will find the key and open the door. Soon there will be others who will be able to give forth the Word from LIOLIA. There must be a short time, however, between your publications so that more people may accept the name, LIOLIA, and receive Hiser Light into their beings.

May I, The Central Sun, the invisible Spiritual Center of this Galaxy, express MY Thanks and Gratitude to those who have sung MY Name in their life, to those who have accepted ME and found beauty, joy and comfort in their awareness of ME. This acceptance is an open door through which I may reach into your life and help to attune it to a higher level of spirituality.

Many things that are now hidden will come to the Earth after a larger number of people have been able to receive and accept the Name, LIOLIA. This is a vibration of great power. In its tonal qualities it is stirring the basic rhythms and harmony of patterning in man of the Earth today. The more you sing the names of Jesus-Mary, IMMANUEL-

IMMANUELA, and LIOLIA the broader and wider may be the channel through which you receive the vibrations, the subtle emanations, the Golden Light of understanding, of strength, of peace and joy, of order and harmony which are yours through these Names. These Names can be fitted into some of the beloved hymns you already cherish. You have also been given hymns to publish which are sung on the higher planes. Whenever you sing them you may be sure that many of the Hosts of Light are singing with you.

The Name, LIOLIA, is one of those Golden Keys concerning which I spoke. It is the greatest Key that you have been given. Another such name is the Golden Legion. It may seem strange to you that I WHO AM the Central Sun of a galaxy should be so concerned about what might seem to you to be trivial details of your life. But music is not a trivial detail; neither are words that are Keynotes.

Certain sounds are tremendously important. It would be well to study the tones which are individual to you, to try to sing them, to open them in your thinking as keys for they will also attune all your bodies together. The sound for your Earth is F; the sound of your Sun and thus the basic sound of your whole Solar System is C. It is well to sing often those hymns or songs which are based in C or F. The vibration of these keys, sung or chanted, will open you to further communication and further receptivity. As you sound forth these tones you attune not only yourself but your whole neighborhood, your region, your area until gradually the tuning proceeds outward from your center like ripples when a stone is dropped in a pond. Chanting the tone of the Earth will help to attune the Earth and all upon it.

In the months ahead you will have a greater conscious communication with this beautiful planet of which you are a part. First we must try to establish the vibration of LIOLIA in your group and the minds of your readers. New names must be given for old ideas for this is a New Age. For many centuries the Central Sun was completely hidden and invisible. Now the time has come for an unveiling, a closer communion between that Hidden One and your Earth. To you I am no longer Vel-Vela, The Hidden One; but I am LIOLIA, the Life, Love, Light and Law of God expressed in this galaxy. For you in the New Age I am made clearer, stronger, and visible to the spiritual senses.

I have mentioned the Golden Keys of the name, the song and the tone. The word, all, is also a Key - the ALLNESS OF THE ALL. It is a Key to That One Higher than I who is truly Holy for HESHE is Whole, the WHOLENESS OF THE WHOLE. The word, holy, means complete, whole without any separation. Man has not felt himself holy because he has separated himself. He has thought of himself as one thing and God as quite another. He has put himself upon Earth and God in Heaven. When man finally understands that he is one with The ALL, that the Kingdom is now present in the Earth, that the Earth has always existed in God, in the Heaven within, then man will begin to be holy and complete. When he joins himself of his own conscious volition with The ALL, gives himself and receives The ALL for himself as himself, then man becomes whole and complete and can feel his simplest activities to be holy.

Nothing in the Body of God could be unholy. If God is The All, that which seems unholy is man's illusion about life. The animals, the birds, the flowers, the insects, live the life of God without shame and without sin because they have no thought of shame or sin. As a man thinketh in his heart so is he. The Life of God is revealed to you in all about you.

Everything that you look at is a symbol of God in some manner or manifestation. Watch nature around you; study it in all its facets for it is God spread out before you as a library, as a philosophy, as a Bible for you to read. This is MY fourth Golden Key. Find in nature the simple truths of the great Life Force, the Limitless Light of the Omniverse.

Four Golden Keys have I given you: the Name, LIOLIA; the singing; the chanting of the keynotes; and the word, The All, expressed in all life about you. SOLOGA, you who are MYSELF! All the Love that MY FATHER-MOTHER, THE ALLNESS OF THE ALL, pours out upon ME, I send forth to you and to your beloved planet, the Christ Earth. 8/11/1962

THE ALLNESS OF THE ALL ATTAINED ME

The Archangel Michael: I could shout with the sound of a hurricane but why should I tear the little throat which has given itself to me to speak. I can speak as well in the still, small voice of the mind. There is no need to demonstrate my power to you. Each one of you has been helped either by myself or one of my messengers.

I stand at the right hand of power for I am Power personified in the Omnipotent. I came out from the Alpha and Omega as you did, but I came many aeons ago in the Angelic strain of Life rather than as man. I have developed and as LIOLIA expressed it in the words of Jesus, The ALLNESS OF THE ALL has attained me. I am the Will of God executed in this Solar System at this time.

I have been here upholding your Earth with the power of the Angels even as your old myth stated that Atlas upheld the sky. I have been ministering unto man; I have strengthened his weaknesses; I have thrown my Light and my Power into his battles to help him win. I have been present on the battlefields where the Power of God was made manifest. I was there when Moses held up his hands through the long day until the victory was complete. I was there when enemy armies were made to destroy each other instead of attacking Israel. I was with Joshua and with Gideon. I walked the battlefields with the armies of your country when they fought the forces of aggression. I have stood in your United Nations and in your White House to help turn the scale of power in the right direction.

My beloved ones, I am yours to use. I stand with your Groups of Light to send forth the Word of LIOLIA, of THE HIGHEST OF THE HIGH, with power. Through the Golden Trumpet of the Lord which is mine to use, I send forth the Name of LIOLIA into this planet place. Should you be awakened in the night and hear that name ringing in your mind you will know you have heard my trumpet call. Should you hear the Name of IMMANUEL-IMMANUELA you will know that our Angelic Bands are shouting it forth through the ethers that it may ring in the hearts and minds of men and in all formations of Light and Existence on your planet.

Legions of Angels have come to assist the Golden Legions of the Forces of Light. You will remember that the Psalmist said that God created man a little lower than the Angels and crowned him with glory and honor. This means that He created man to be able to penetrate into vibrations and live where it would be very difficult for Angels. Man may attain to Sunship; man may go upward and upward till he becomes a Sun-Being such as IMMANUEL and LIOLIA. Always Angels live to serve and to help man in this upward progress.

You have now reached a time when Angels may come to you with greater strength. We have been able to come at various times when the heart of man was opened and the vibrations of the Earth raised as at the birth of Jesus. Now in the Golden Light of LIOLIA we can come in greater numbers than ever before.

Could you look down upon your group situation you would find yourself in a great company of Beings of Light in the center of an amphitheater. The great Golden Beam from IMMANUEL-IMMANUELA carrying through its center the stronger Golden Light of LIOLIA, pours into the middle of your room. Around it and around you are seated tiers upon tiers of the Forces of Light, members of the Golden Legion and others who sit with you in order to send forth through the focus which you construct, the power that is needed in the Earth plane.

Higher above and around the outer rim of this amphitheater you will see poised in the air in the pure white Light of the Christ Consciousness which is ours rank upon rank of Angelic faces - Angels manifesting in the form which man expects of an Angel. If a great artist could see this he would paint you a little in the shadows with hearts of pure light - veiled light. Those around you, the Hosts of Light, gradually grow lighter in their rising tiers of seats. Brightest in the above and beyond glows the beautiful Light of the Angelic Presences - Legions of Angels to help you. How can we impress upon you that we are here to help? Call upon us; send us out on your missions of mercy and accomplishment.

Very often an Angel makes himself known with a perfume. If you catch the scent of flowers ask if an Angel is present, then wait for the impression from within. If you receive a name do not doubt it; accept it. Write it down, then ask for that particular Angel when you need help.

8/11/1962

The Archangel Michael came to us to lead our power broadcast but before he spoke he described himself to us. Picture him in pure white light for he is complete; he is not divided. He is the servant of all. He wields a sword of flame. This sword can take on any color that is needed. Sometimes it is a glistening green or pure white; again it is the Gold of LIOLIA or the brilliant ruby red of personified power. Then again it is the blue of the scientific understanding of the harmony and order, of the goodness of God.

Think of him as towering above the buildings in his greatness and might. Think of him not Earthbound but rushing on wings of thought

wherever he is needed, bounding down out of the sky to touch the Earth with his power, charging to the defense of the defenseless, acting as a great invisible Force to hold back the avalanche or tidal wave, to calm the earthquake or hold the car, the train or the plane on its course.

No matter who or what the Angelic Force you must call for them if you need their help. They often come at the call of the Higher Self, but when you ask consciously you will receive with greater effectiveness. If you have learned, as many now have, to leave your conscious body, you may find yourself on a higher plane side by side with the Angels, defending, strengthening and helping those who need it.

WIPE OUT KARMA IN AN INSTANT

The Karmic Angel, Lu-Ro: My beloved children of Light, there is some confusion about the thought of Karma. There are some who forge chains upon themselves because they feel they cannot overcome their Karma. There are some who say, "I do not wish to be healed because I know I have sinned and I know that this illness is the just punishment of God upon me;" or they say, "No doubt this is my Karma and I cannot do anything about it." All this may be true, but they are leaving out the one wonderful fact of the Everlasting Grace and Mercy of our Father-Mother, THE ALLNESS OF THE ALL, who has given to man a way out of his Karma.

Any man, no matter what the debt he has to pay, may find within himself the God-Consciousness, may give himself wholly and completely in his self-consciousness to THE ALLNESS OF THE ALL. To the proportion that he is able to unite himself with THE ALL he wipes out his thought of Karma.

Karma is necessary to those who cannot believe the fullness of God's Goodness. Karma is necessary to those who cannot see God's Goodness in pain, but think that the only expression of goodness is utter bliss, utter happiness, perfect bodily health, fame, riches or success. Karma is necessary to those whose thought of God is absolute and inflexible. They require a punishment; they say within themselves, "I have done wrong." As a man thinketh in his heart so is it true to him. They believe that they have done wrong and they demand punishment. The soul feels that the personality cannot overcome its desire to be angry, or to strike out and hurt without fear of punishment as a deterrent. They want to balance accounts; they feel that an eye must be given for an eye. This is man's condition in the thought of separation.

The soul often decrees that the body come into life limited or deformed so that such accounts can be balanced. But great Beings such as Jesus of Nazareth through whom the Truth shown were able to release such Karmic debts. The man who had lain by the pool at Bethesda for thirty-eight years was thus released from a Karmic debt. In the presence of Jesus the soul received such Light that it understood that God forgives all. In reality there is no forgiveness and no need for forgiveness since God gives love for all seeming errors.

Man's great philosophic and religious problem is to learn how pain can be an evidence of love. This is the mystery which man in his thought of separation has not been able to solve. When he understands this

mystery he will know no separation, or when he knows no separation he will understand it. I wish to say to all who hear or read this that the more you can convince yourself that all there is of you or anyone else is the God-self, the Highest Self of All expressing Itself within Itself as that which you think of as yourself, the more you can dwell upon this and drive it home, see it, live it, and become it, the quicker you will be able to overcome any Karmic debt that is hanging over you in your thinking.

Most of those who have come to such a group as this have very little Karma left to pay. That which you still have can be wiped out in an instant with the full, complete self-recognition that you are one with THE ALL. Jesus said, "I am the ALL." He was your Wayshower. When you can attune your consciousness to the fact that you are the All - and by that time you will be saying, "We are the ALL," - then you will certainly have one foot in the Kingdom of Heaven-on-Earth. You will have attained complete erasure of your own Karma.

Some who have begun to understand Karma have been impelled from within to forgive all who ever seemed to be in debt to them. This has lifted the one, who could so forgive on a cosmic level, out of all debt. When you realize that no one owes you anything then you no longer owe anyone anything either. When you realize that there are no debts anywhere you have reached a level where you free yourself from all debts. As long as you hold some one else as in debt to you, when you think, "They are going to have a lot of Karma to pay for this," then you make it possible for you to roll up Karma for yourself.

When you say, "In God all is good. God is manifesting Himself in this way to help me to advance and understand," then you free yourself from the possibility of becoming indebted yourself. It is not just the saying, although that helps, but it is the complete releasing, the letting go from deep down within that brings the freedom.

May God bless you and help you to release and forgive - to give Love for - that you all may be free from the debts that you would heap upon yourself. SOLOGA! We of the Angelic realm love you in the pure Love of LIOLIA and in that Love we live only to serve you.

EXPAND YOUR THOUGHT HORIZONS

LIOLIA: speaking to all MY beloved children who revere the Word of God, the Most High, as expressed through the Suns and Sons of Suns. Beloved children of the Light of the ALL, beloved radiant beams of thought energy sent out from the Mind of God as expressed in your place of manifestation, I call you to a greater expansion of your thought horizons, to a surer realization of your Oneness with the ALL and in the ALL. Open your hearts to receive all, to love all, to cherish all. As WE have given to you, so give to others. As WE have loved and cherished you, so love and cherish others.

Whatever you wish for yourself you must first wish for all else, for only as you bring with you all that is you in contact and experience can you come upward. When you in your heart truly lift all in Divine self-

lessness, in unreserved giving, then you can lift yourself. The one thing, be it stone or plant, animal or person, problem or experience, which you reject, dislike or refuse is a chain to hold you to Earth just as surely as your greed, aggression and pride of place and power hold you down.

Learn to love, MY children, learn to love! Begin with yourself. Sweep out all feelings of guilt, inferiority, shame or belittling and love yourself as a pure ray of light radiant with the Life-Light of the Most High God - the ALLNESS OF THE ALL. Never consider yourself as anything less than this. Let the fire of pure God-Consciousness burn away all seeming flaws and stand forth free from the veils of illusion which hide you even from yourself. By contemplating and loving the true Flame which is yourself, you will be able to perceive the Flame of the God-Self giving Himself in everyone and everything about you, in every form, pattern and organization of existence.

As you thus enlarge your perceiving and your loving, you will draw yourself first inward to the Kingdom of Heaven within and second through this gate of the inner self you will find your way into the freedom of the Cosmos. When you have found true freedom for yourself you will give it in joy to all others for they are equally God's reflections just as you are.

This is your Path of Light, your Spiral of Evolvement into the greater manifestations of At-onement and dominion which you desire. It is all so very simple that you overlook it. It has been so clearly outlined by so many teachers and yet so well concealed from those whose lack of understanding requires that they search through the things that are not and discard them before they come to the things that are.

Man is like a child given a chest of many things. On top are bright looking objects that interest him and one small insignificant package which he hardly sees. He seizes first one sparkling enchantment after another and cherishes each for a time. Some crumble in his hands; the shiny paint flakes off; the cheap gaudiness dims quickly. That which he thinks he desires so greatly proves when he secures it to be just another burden which he doesn't want at all. As he matures and the years pass, he removes layer after layer of objects fitting to his experience but which still turn to debris to be discarded. The same small insignificant package is always there but he leaves it unnoticed and chooses some other. At last when he is fully ready he finds the true treasure in the small package in the bottom of the chest. At first he thinks it is but a bit of glass until he discovers that it is pure Light frozen in a crystal which enables him to see clearly, to discriminate. Through its use he finds the true Path to the Kingdom within himself - the only Way.

MY dear ones, this way is the simple path of the humble acceptance of everything as an expression of God and of loving and giving as God loves and gives. Withhold not. Let God flow as the Cosmic Thought and Pattern direct, and trust the Great ALL-CONSCIOUSNESS of the ALL to do all things well.

ON THE GOLDEN PATH OF THE NAME, LIOLIA

The Angel Gay-Lo: I come to you on wings of joy for the Earth must now rejoice and be glad. A great crisis is past. The bells of joy should ring in every heart; smiles should gladden every face. Happy music should ring through every home. You should exude joy for that which was prophesied - all those dire catastrophies have not materialized on your Earth plane. We feel certain that you will now have some time of peace and quiet in which to grow. The Name, LIOLIA, has come through to the Earth. This is a tremendous advancement. The Name LIOLIA is the crowning point in the pyramid of achievement, the golden brick which tips the scales and brings the added strength which will enable the Forces of Light to carry out their great work in assisting the Earth to adjust to the new arc of Consciousness.

You who have been suffering from fear, from uncertainty, or from the pains of bodily readjustment have suffered so little in comparison to the Earth. Your beloved planet, Earth, has gone through convulsions within and scorching burnings without. To you it has seemed easy to retire within your homes, within the safety of your faith in God, within the strength of your maturity and your philosophy; but to the Earth the stresses and strains of this August outpouring have been as agonizing as those of trees in a hurricane. It is almost impossible for you to understand the tremendous adjustment which the whole planet has undergone.

Now there will be some time of rest from the increase of these high vibrations that these adjustments may solidify, be assimilated and understood, and that the Earth may become used to them as you might have to become used to a new pair of glasses, new dentures, or a new artificial limb. It takes time to adjust to these things. The Word of the Central Sun, the Names, LIOLIA and IMMANUEL-IMMANUELA, have opened for man a pathway of Light upward and a pathway of Light downward for the Angels.

There have always been those advanced Angels who have given themselves to the service of man and who have walked in your vibration. The greatest sacrifice an Angel can know in your Earth's aura is to incarnate as a human being because of the limitations of your consciousness and vibrations.

Those of you who have studied the chains and rounds of planetary development as given in the writings of the Theosophists will know that the planet Venus is the most advanced planet spiritually in your sphere of perception. You were supposed to have been as highly advanced but the Earth missed a heartbeat, shall we say, because it was overloaded with undeveloped beings from other Systems. Therefore it was with great difficulty that we of less strength and advancement than our brother, Michael, have worked our way down to the level of vibration where you are manifesting.

Numerous Angels who were highly advanced have taken upon themselves one life of incarnation as a human being so that they might understand the life of man sufficiently to serve as guardian Angels. Their names are written in gold in the firmament of the Galaxy for they have served beyond and above what most of us as Angels have been able to attain. But now

Legions of Angels are flocking to the aid of man and the Earth. Since the vibration has been raised we can come on the Golden Path of the Name of LIOLIA and we can strengthen, beautify and harmonize the life of man. There should be springing feet, dancing feet that can hardly keep still even among the aged of your planet. There should be songs and shouts of joy. There should be laughter ringing through the streets and homes, not from rude jokes but from the sheer joy of being alive.

May God bless you as you rejoice with us. If you should see a dear little one in your home push back from his place at the table and begin to laugh in his sheer happiness you will know that an Angelic finger of mirth is touching him. Laughter should spring spontaneously from you as song springs from a bird. Primitive people laugh easily; but you in your restrained modern culture have felt embarrassed, have feared to attract attention to yourselves or to be thought silly. You have brought upon yourselves many woes, many diseases, and much insanity because you lacked the balance of joy and laughter.

I have, therefore, chosen for you my name Gay-Lo - Gay for joy and Lo for Love (gay in love) or for seeing and beholding. The more I see of God the happier I become and the gayer with the Angelic joy brought down to the lower vibration. My name, Gay-Lo, is a promise that I will help you to see joy.

I have been with you before although unknown in your presence. I have given some of you a symbol of Angelic joy in your visions of the rainbow. Some have seen unusual and beautiful colors in the sky and this has been the Angelic promise of joy to come to man. Can you not just relax and let the gates of joy within you open so that the happiness that is really you can flow forth? Those who know their Allness with THE ALL should be the gayest, the happiest people in the world. A poet in your city caught glimpses of this when she spoke of your flaming Royal Poincianna as "God's Laughter Tree."

Oh, my beloved brothers and sisters of Earth, let God's Laughter ring through your hearts! Rejoice in it, sing it, live it and be at one with the mirth and the joy of the Omniverse. SOLOGA! Hand in hand Angels and man walk the pathway of joy together. 8/21/1962

THE WAYSHOWER SPEAKS OF THE WAY

From Ruth's Notebook: When, naive as a child, I first stood amazed in the gate of interplane communication, many about me placed Jesus in a far distant sphere quite unattainable to ordinary mortals. They suggested that any who claimed that Jesus spoke through them were suffering from delusions of grandeur, being fooled by "low, astral entities," or sliding down into the lunatic fringe. Thus for a time I unintentionally closed the door on a dear, well-known friend.

One day I heard Him cry out to me, "Oh, why will ye not receive me?" I was surprised and shocked for I had thought my door was always open wide to Him. I cast off the shackles of other people's opinions and determined to hide no longer the Word of my beloved Elder Brother. Then a seed thought was planted in my mind, "Oh, Sweet Jesus, come to me!" I

sang this over and over like a refrain until at last the door opened again and I received as follows:

"I, Esu, who was called Jesus, stand by your side in a form which your body can tolerate. I project thought images of myself throughout the Universe to do the Father's Will as it is given me from moment to moment or time period to time period in whatever limitation God's ideas accept the thought of time.

"All is thought. GOD THINKS AND BEING BECOMES. GOD SPEAKS AND BEING IS MANIFESTED. I project thought to the consciousness of all creatures under my dominion or in the province of my sharing. Each creature receives this thought and accepts or rejects it according to the state of his advancement or the purity of his life and thinking. Man receives more than the lower kingdoms but he distorts what is sent by his prejudices, his doctrines, and his fears. Few are so free from man's accumulation of errors over the ages that they can receive accurately what is sent to them in its complete truth. Everywhere in the minds of men there is distortion.

"You call me Wayshower and I wish to speak to you of the Way. The first step upon the Way is to accept the ALLNESS OF GOD and the ONENESS OF ALL HIS CREATION IN HIM and to apply this to every concept, every thought, every problem and every situation." (I was still struggling with doubts of the authenticity of my own channeling and I thought, "This sounds like what I have been saying." I prayed, "Dear Jesus, please let me write only your thoughts." I felt a very gentle arm over my shoulder and He asked, "Where did you get that which you have been thinking and saying? I have been feeding your thoughts all these years." Then he continued:)

"The second step is RIGHT THINKING for as a man thinketh in his heart so is he. If God is All, and that includes all men, then to think anything unGodlike about anyone is not right thinking. Therefore I repeat: Judge not, that ye be not judged.

"The third step is right desires. When the heart fully turns in longing to God, asking for more of God to be expressed in the life, then to do the Will of the Father becomes the only real satisfaction in living.

"The fourth step is to GIVE AS FULLY AND AS FREELY AS GOD GIVES. God gives all of Himself that man can receive. He gives His Breath, His Light, The Flame of His Life, His Substance in energy which is caught and held in vibrational pattern to supply man with the materials he needs on his plane of living. God gave Himself on the Cross as my body and blood. He is was who gave me and gave through me. So he has given you and desires most of all to give through you.

"Therefore the Way is fourfold: (1) understanding, (2) building right thought forms, (3) desiring to give as God gives, and (4) letting God live through you. I AM THE WORD. I AM THE WAY, THE TRUTH, AND THE LIFE. Know the Word, find the Way, build the Truth and and live the Life. I in you and you in me and we all one together in God."

SEND OUT THE NAME, LIOLIA

LIOLIA: speaking to MY beloved ones, parts of MY Being, Lights within MY greater Light, sparks of God serving ME, the whole of the Galaxy, in love, in oneness and in beauty. It is a difficult thing to prepare a body to receive direct from the Central Sun, the spiritual center of a Galaxy. It is such a tremendous thing that I doubt if you realize how truly marvelous it is. For this reason before there are cross vibrations, I must speak first. I do not wish to bore you with MY Coming frequently; I am sure that I do not. I must come again and again for it is with the knowledge of ME and the receptivity to MY Vibrations that man may proceed into the development which is to be his for the coming age.

I spoke to you recently of keys. I said that one of the keys of your development was MY Name. I have come again to emphasize that fact, for if I cannot depend on you to spread this Name, to whom can I turn? You were the first to hear it and accept it fully. After examining your heart and your emotional reaction as you use it, I know that you have come to love the Name, LIOLIA.

Many people found it difficult to open the center of their thinking to include IMMANUEL. Many others have found it difficult to go beyond the thought of IMMANUEL, which is a somewhat familiar word, and include LIOLIA, a completely unknown name. It has been hard to accept the thought of a Spiritual Being ensouling an invisible Sun and including all the stars that make up the Galaxy.

Even the thought of a Heavenly Man is so new to many good church people who do not have a foundation in the ancient mystery thinking. It will take some time for this Name and the idea that it brings to be widespread and generally accepted. I wish to ask you who hear or read to take up this work in particular. I know that you have been doing it but I wish to impress upon you the importance of this task, not only upon you but upon all who have accepted MY Messages through your SOLOGRAPH.

Much more powerful than you can imagine is the effect of thinking upon the mass-mind of man. Ideas from the Spiritual Realm enter the mind of man and then suddenly burst out in many different places. At the time that the United Nations was proposed it had been on the lips of many different people for three or four years. But where did this general thought come from? It had seeped into the mind of man from the higher planes sufficiently that when it was proposed he was willing to accept it and try to make a go of it. Of course all the Forces of Light are singing this Name and broadcasting it, but you have to be our trumpets or broadcasting stations for your level of vibration.

I have come to ask you to broadcast this Name more faithfully and more joyously through your own prayers, your singing, your chanting, your talking, and through your publications. So much more can be done than you know when you just sing in joy and in your own house over and over again the Name, LIOLIA. Make up little tunes around it, sing it, love it and rejoice in it; for it is the emotion, the feeling, which you build that makes it catch in the minds and hearts of others. You were thrilled this evening when one of you mentioned that a member of the family who

has not joined your group was heard singing this Name over and over without realizing what he was doing, for it was springing from the subconscious.

As you send this name out on the ether it will reach the minds of men who have never heard it. Someday they will run across it. When they hear it from the lecture platform, the radio or television, or see it in a book or magazine, it will sound familiar. The preparation that has come to them through the subconscious because you sang that Name will make it possible for them to accept it more readily.

Some of you live alone; you spend a great deal of time by yourself. In times gone by people have thought that one who talks to himself is on the edge of insanity. Please put this thought aside and as you work around your house sing this Name and tell this story. Pretend that you are telling the world who LIOLIA is and what the Name means. Tell them of the wonderful Golden Light poured out upon them. Tell them that they are light, that they are living the Light and the Law of the Galaxy, that they are one with the whole Galaxy, part of it, living it and loved by all in it. Tell them that the Life Force of the ALLNESS OF THE ALL lives or maintains them through the Light expressed in the Galaxy and through I~~M~~MANUEL, the Lord of the Sun.

Tell them the story of At-onement. As you do so you will strengthen yourself; you will prepare to speak publicly, and you will send the thought out into the receptive minds of men. Have you not had the experience that at a time when your mind was drifting a thought made its way in and you did not know where it came from? When one is not concentrating on some pressing matter, then his mind is open to the broadcast of good in so many forms. That is why hate, prejudices, jealousy and other errors spread so rapidly. When one is hating, he is sending out a strong emotion with vigor which is received in the minds that are not busy which are not shutting it out with their own activities. I call upon you to broadcast the love, the light, the harmony and peace which are the story of LIOLIA and the Path of man for the New Age.

I have been using the words peace and harmony instead of law for law has an unpleasant association for some people. They feel that law always means trouble for somebody. Someone is going to break the law and get into trouble because of it. The word law in its very sound is unpleasant to them. But harmony is the result of law. Everyone desires harmony. Perfect life brings peace and contentment. Most people are glad to be alive. Many are unaware of how nearly "dead" they are in ignorance and error. As people live longer their desire for peace and freedom from strife increases. Send out Love, Peace, Light and Harmony with joy, with great love and gratitude. Let your emotions provide power for your sending. Inject them into the world so that they will carry forth your message.

I am very pleased that you did follow my advice in finding your keynote. You can chant My Name, LIOLIA, or those statements which have been given you such as: I am the ALL in the ALL through the ALL with the ALL and by the ALL. If you chant these on your tone, they will flow into everyone who responds to that tone. If you chant them on the note of "F"

you will be sending your message to every rock, every tree, every animal, yes even to the Earth itself. So often we hear things that sound fine and we would like to do them but we get busy with personal activities and the days and weeks slip by without our doing the things requested.

I have come to you bringing you MY Name first in all the world. I come to you in the strength of knowing your acceptance and your love to ask you to share this gift as widely as you can. I do not ask you to stand on the street corners and preach. I ask you to send forth the power of your mind, of your own thinking from the quiet of your home and to speak the Word in this way.

SOLOGA! You are MY very Heart, MY Thoughts, MY Messengers of Light to your plane of vibration. SOLOGA! Together WE send forth the Word of Christ Consciousness from the SOURCE, from the ALPHA AND OMEGA, from God, the HIGHEST OF THE HIGH, the ALL-CONSCIOUSNESS, the ALLNESS OF THE ALL.

THE JOY OF THE EARTH IN US

The Logos of the Earth: My dear ones, cells in My own body, thoughts which I cherish within Me, instruments through which I live, I, the Logos of the Earth, bring you My deep love and gratitude. I wish to thank you who are cells in My being for living to the best of your ability the fullness, the purpose of life in this vibration, for in doing so you are serving Me, the Logos of the Earth. As you serve the Christ expressed on all levels, you are serving the Christ expressed in yourself, in your churches, in Jesus-Mary, in IMMANUEL-IMMANUELA, in LIOLIA, for there is nothing that exists but that which was created by the Word of God. The Christ is the Word. I am the Word of God spoken to the large area occupied by the planet which is My physical expression. I am the Spirit, the Word expressed in Light and Spirit, the Christ expressed in Life at My level as a planet, and I ensoul the physical being which you know as the Earth.

You are parts of that physical being. You are cells in My body, beloved to Me, important to Me. I give you My gratitude for the love that you have poured forth into My being, for the light that you have shed consciously or unconsciously. I say: Thank you for doing the best that you could do to live My thought of you and to express the patterning which God impressed for you in the Word through the mind of LIOLIA, of IMMANUEL-IMMANUELA, and of Myself, the Logos of the Earth.

Thank you for bearing the separation from that Higher Self which it is your right to be. Thank you for the sacrifice you made to come into this Earth manifestation. Thank you for the love which you have expressed for all of My kingdoms. Thank you for your yearning to understand, for it is this yearning which reaching out makes it possible for Me to speak to the conscious awareness of My people who live in My body. I owe a great debt of gratitude to each of you.

Have you ever thought of the great gratitude which you could express to your own heart which beats so faithfully for you from babyhood on through all your physical life, or to the other organs of your body which serve you to the best of their ability? Have you ever thought to send

them love and gratitude? I have sent you love and gratitude many times. That was part of the joy and contentment which you have experienced. Whenever you have been happy, part of it was My happiness in you. Whenever you have been joyous, part of it was My joy in you.

There is so much that you do for Me that no one else can do. You bring Me the Light of the Sun on a level impossible to any other creature. I reflect the Light of IMMANUEL and LIOLIA on a planetary scale and you are part of that reflection. You would not know that I, the planet Earth, am luminous. Just as you cannot see your own aura, so you cannot perceive mine except in certain places. If you are in the right condition and the right place you may see the Aurora Borealis which is one level of the expression of My aura.

The things which you experience in your bodies, I experience but on a much larger scale. "As above, so below." When you experience tension, part of your tensions are part of My tensions. Have you not taken a deep breath of fresh air after a thunder storm and felt that the storm had cleared the air and all was better after it? The lightning of which some of you are afraid is a release of tension within My larger body.

Sometimes you have these same tensions. There are some of you who have so much electricity in your bodies that when you touch a certain kind of metal you feel the prickle of small shocks as that tension is released. It is good for your bodies that this extra stored electricity can be drained from you; and so it is good for Me when the stored electricity can be drained from the ground into the atmosphere. The storms which have seemed to man to be the wrath of God are to me a cleansing and purifying. There have been times when there was something in your throat which made you cough to get rid of it, or something in your nose that made you sneeze. A storm to Me is like that; it is the releasing of something which is annoying and troublesome. The hot, hot air of the equator builds up a tension; the whirlwinds gather and spread it outward and upward; afterward there is calm again.

Those of you who are channels know the build-up of power which has to be released. There have been times when you have felt so much power in your bodies that you have had to hold out your hands or touch someone or stand up to release the excess. Storms are like that to Me. Your light and your thinking help to enable these tensions to be released without disturbance to you. With your help we can ease this common tension in the area of the planet without distraction to man.

For this reason I come to you in deep gratitude and in deep love. As I send you My love, if you will return it, there will be a flow of peace, harmony and contentment which will be like yeast working through dough to bring the joy and the peace of the Kingdom of Heaven to the self-consciousness of every unit of existence within the area which you and I share.

To become a planet one goes through ages upon ages of evolution. You have one in your midst in the etheric realm who is on the upward path not too far from ensouling a planet and that is your Jesus - my Jesus, My son, a cell within My being. He will serve in many places for ages yet and

then He will first ensoul a small new planet. Through ages more He will grow into larger and greater service. Planets are young, and then grow older and pass according to God's thinking for us. This we do again and again in cycles like your recurring incarnations. Thus Jesus will grow into the larger and greater service ensouling planets through ages of planetary life almost beyond your conception. I have ages and ages yet to go before I am prepared to take over even the smallest Sun.

We are trying to give you a little clearer picture of the stages of evolution from one level of Sunship to another. Perhaps I have made it a little clearer for you or your readers. Again may I say that in My meditations I gather you in the tenderest love of parent for child into My consciousness. SOLOGA! I who am the Word of the SOURCE, of the ALPHA AND OMEGA, expressed as this planet am one with you who are the Word of the SOURCE, of the ALPHA AND OMEGA expressed as man. 8/28/1962

POWER BROADCASTS OF GREAT IMPORTANCE

SOLOGO: (The Star Sirius.) I, too, call you My beloved children, for you are indeed mine. You are light of My Light. You are messengers especially attuned to bring My Light to IMMANUEL and His assistants at a time when it is greatly needed.

You are aware of the difficulties in Berlin. You are aware of the shock waves of hatred, prejudices and antagonisms which have been so great in the last week or so that they fled through the Earth to the weak spots in the toe of Italy and burst out there in earthquakes. We must gather our strength together and broadcast power seriously, no longer just as a game, but making it our lifework to send forth all we can to such places of disturbance and danger.

Because of the great strength of the Forces of Light in your area you have been saved from many things which might have come to you as a result of the unhappiness in Cuba. The recent shelling by the young Cubans of their own capitol city is evidence of the great discord, of the great unhappiness of the Cuban people whether in their island or among you. You are sitting in the center of an emergency. You are located here that you may hold this area in peace. You came from My system and I know you to be well prepared for your work. Each one of you has gone through planet after planet in My system serving in just such emergencies. Now I have sent you as highly trained specialists to assist My younger brother, IMMANUEL. You have been in His System for ages and now you come to the point of greatest value in all that you have done here so far; this is your largest opportunity. Because of the situation in which your System now is in relation to LIOLIA, there is more opportunity to work with man and help him accomplish his step upward.

There are those in your country who have studied this situation carefully and who have prophesied that if it is possible to escape nuclear war from now until the end of the year, it will probably be avoided completely. I, therefore, who am Father to each of you and have lent you out to be children in another family, come to impress upon you the importance of your work from now until the end of the year with regard to the

situation in man's thinking.

Direct your attention to this city of Berlin, for it is in a very dangerous situation. The tensions here are very great. See that wall destroyed. See the people uniting in love and brotherhood. See those who deny God being convinced of His Presence. See them finding joy in their At-onement with God. See Berlin as a beautiful city of peace and harmony. See the mountains of the Italian and Balkan Peninsulas held in light and strengthened. See the bottom of the Mediterranean and the northern shores of Africa held steadfast in the love of God. This is a very important work which is yours to carry forward.

I have come to tell you this because I am one of the oldest of the Stars who serve you, one of the oldest of the Suns visible in your sky, and the Light which I bring is like oil on troubled waters. You who hear or read this message may call upon Me to help you send forth this oil of peace to balance the situation in your Earth today. 8/28/1962

GAY-LO, WHERE ARE YOU?

The Angel Gay-Lo: I always come to greet you with a message of joy. I wish to tell you that in spite of what I said before, you still have not really been having too happy a time. I have been in each of your homes. Some of you have been quietly content; some of you have been busy; but none of you have lifted yourself up out of your worries and uncertainties, out of your difficulties or your friend's difficulties, with joy.

It is impossible for you to shoulder the burden of all those around you. Put all of those burdens in the hands of God and leave them there. Lift your own consciousness up into the Realm of Light with JOY! When you feel depressed start laughing and singing. Just turn away from the trouble and have nothing to do with it. Know that God in His Goodness can bring only that which is best for everyone, and release your thought or your friend's thought of trouble.

You see I am like a sister; I walk with you. I know that each one during this week could have lifted yourself up out of the weariness, out of the sense of over-responsibility, out of the tensions, out of the small fears, had you just laughed and rejoiced a little more.

Remember, I walk by your side to help you. When you feel depressed just say, "Gay-Lo, where are you?" and I will come into your consciousness to see what we can find to divert your attention. Oh, you have seen mothers do that for their children. The child feels very bad about something. The first thing the mother does is to try to center its attention on something else. Is that not so? That is what you are to do. When you feel the waves of darkness encroaching upon you from those around you, defend yourself by rejoicing. Say, "I am not going to stand around in that level of vibration. I don't have to suffer that; I have already lived through it and grown above it," then rejoice.

Do not feel ashamed to be gay. Laughter and joy are powerful medicines for man and his woes. We of the Angelic strain of Life are the most joyous creatures. That is why we are always singing. We begin

singing together, and then the first thing you know our joy has blossomed into harmony and we take different parts. Very soon we form a choir, all in a spontaneous outpouring of joy. The closest that you come to it for your ears might be the early chorus of birds in the morning. Each bird, awakening to new life and fresh vigor after the rest of the night, pours out its own little soul in harmony. So we spontaneously sing out our joy.

This will do you a great deal more good than a medicine cabinet full of pills. Could men learn to do this there would not be the stories in your papers of people whom the doctors try to save from their overdoses of sleeping pills or all this and that which they do to try to escape from their difficulties. I would say escape - yes, but escape upward in joy. This is a trick, a habit that you have to work at to learn. When you first started to walk the steps were so uncertain and clumsy and you had to think every movement before you made it. But now you do not think about it. Your feet carry you right down the street without any thought; you have the walking habit.

With practice you can make a habit of always rejoicing, always singing. This is a habit very easy to acquire. Sad it is when a child has already acquired this habit only to have his elders always hush him, or when some employer insists that you shall not sing "for the good of the office," or someone in the home complains, "Oh, you are always so noisy," or laughs at those who sing in the shower. We almost laugh people out of their health by doing this; and what kind of laughter is that? It is not the kind that heals; it is destructive.

Make it a habit, my dears, to rejoice and to spread joy. Yes, there are some people who can hardly stand it to have you so happy. They will sneer at you and deride your "Pollyanna metaphysics." You will not wish to be unkind but you cannot go back to their level. Come up into the Realms of Joy and lose the darkness and the weariness of the Earth vibrations. You know how to do it. My sweet, sweet Shining Ones, we are always here to help you.

Isn't it funny how you know that this is the right thing to do and sometimes you do it beautifully, but there are other times when you are tired and you think, "Oh, it would be so much fun to just rest," so you quit work and rest. Instead of deciding to sing and thus rebuilding your strength and going on with your work, you decide that you are tired and thus chain yourself to that thought of weariness. You sink down into the physical level of vibrations instead of maintaining the height of spiritual joy which you reach in some of your blissful meditation experiences.

SOLOGA! Watch for me in your laughter. Let us laugh together and feed the world with the strength that comes through joy. 8/28/1962

WHAT IS CHURCH?

St. Germain speaking to all groups of Light through the Group known as SOLOGA, and to those beloved servants of the Most High God gathered in this Church of SOLOGA. May you know, my precious ones, that anything which has to do with the worship of God is a church. You have a poet who said, "The groves were God's first temples." Perhaps he should have said

that the heart, yes, the body of man is the first temple which he experiences.

From the time that a babe manifests in the Earth it is the Temple of the Living God. All that it does is service within that Temple. Some of you will say, "That is spreading it pretty far. Even when a child is misbehaving is he serving in the Temple?" I could take you to church after church where misbehavior is going on. We who used to be known as the White Brotherhood until your consciousness was able to receive the wider term, the Golden Legion, which includes so much more, are as unhappy over those churches which speak unkindly of other churches and unlovingly of their neighbors, which refuse to admit God's children of a different color, race, language or belief, as you are when children are unruly.

All life is the Temple of the Living God. All living is service to God. Every breath that is drawn is a prayer. Everything that is ever thought is pure in the Mind of God who knows the completeness of dark and light, of good and evil, and the purpose of it all.

When you started your group you were interested in many things. Some of you wanted to achieve communication with Beings in the Realms of Light. Some wanted to know and communicate with our Space Brothers. Some just wanted to learn. Some wanted to get closer to Jesus. Some wanted to gain advice about management of daily affairs. As you worked and developed together you found yourselves being drawn together in the fundamental spiritual truths which you were receiving; but all interests were sustained for all are part of this great search for the Word.

Tonight you are signing your charter. I therefore wish to speak of the fact that the church which you have now decided to become is but the revealing of a Oneness with the great universal Church of the Omniverse. As a church you are another expression of God on a different level and food for a little higher understanding. In different levels of your physical growth you have wanted different kinds of food and at different levels of spiritual unfoldment you need different aspects of the Word to sustain you.

Your group, which you have been led to incorporate as a church because of seeming human advantages, was ordained to become a true church before you incarnated. You have been given the number thirteen; you are not the number one because you are not the first group of SOLOGA; other groups of SOLOGA exist. The Church of the Word of God expressed in the Christ in the Christ Consciousness does exist in all these various Solar Systems. Of course there are other names for the languages are different. On Earth every language uses a different name for mother and yet some are very much alike and come from the same root. In every Solar System there are different sounds to convey the same universal meanings. In all the fundamental truths spoken from the Consciousness of God although in varying patterns of sound and light are the basis of the Omniversal Church. There are twelve Star Systems assisting and sustaining our Solar System. In them the numbers from one through twelve are expressed. IMMANUEL as Heshe is now manifesting is number thirteen. SOLOGA is not just another

sect or cult; it is a mirroring on Earth of the devotional nature of God expressing itself in existence throughout the Omniverse. John caught the basic fact in the first verse of his Gospel when he said, "In the beginning was the Word (Logos in Greek) and the Word was with God and the Word was God." All existence reflects the Limitless Light in its Substance and is therefore Solar on some level of vibration. SOLOGA is an abbreviation of ideas meaning the thought of God expressed in Light.

My beloved, bring to your planet the Omniversal Church and let SOLOGA as manifested on Earth be open always to all manifestations of intelligence capable of understanding the Word of God as given you. Let SOLOGA be open to visitors from far stars no matter what their form of characteristics. Let it be open to all races; let none be barred. Understand that you represent the Omniversal Church of the Word of God. SOLOGA! I who am one of your sponsors, St. Germain, stand with you in your sincere devotion and in your service that this WORD may go forth as the Voice of the Lord Most High, and may drop its seed in the consciousness of every human being on this planet.

TRAPS TO TEST OUR DISCRIMINATION

Jesus: Beloved Ones, I am your brother, Jesus of Nazareth. I am one with you even as you are one with me, and I am one with the Father. Thus I bring you into consciousness of oneness with God. All the love you have ever felt is the love of God poured out to you through His manifestations. All the love you have ever given has been God's love poured through you to His other manifestations.

I, your Wayshower and your brother, come to you in joy and gladness, in Light and in Love. I come to all who will receive me. I come especially to those who are known as Groups of Light and who are trying to find their way through the inner self, through the Christ consciousness, into the understanding of man's highest potentialities. I come to those who are trying to learn to take dominion and become that which is the true and perfect God thought for man of Earth in the New Age.

Many have come to the Earth life who are great Spirits of Light. Many

have come to be wayshowers. I have said before that when I came to Earth as Jesus of Nazareth there was but one wayshower sent and I was that one. I also said that it was expedient that I should leave so that the Comforter might be made manifest. As long as I lived in the body, men looked to a human person. When I left it was hoped that they would find the Spirit of God within themselves and listen to it. They did the best they could considering the time, the vibration, and the various elements of their conditioning. They thought of the conscience and the Still Small Voice and tried to listen, but the time had not yet come when they could fully understand. It was necessary that this thought mature in the mind of man for the full age before he could be ready to take another step upward.

With the middle of the eighteen hundreds there came great souls who brought new knowledge in various lights and various ways. They were preparing for the coming of the new arc of consciousness which you are now entering. These great souls gave you the truths that had been held in the ancient mystery schools of India, China, Tibet, Greece, Egypt and other places. They brought this wisdom to those whose ideas had become hard and fast in dogmas and prejudices. At this time there blossomed also the thought that spiritual healing was possible for man at the present and the idea of communication with those on a different plane of expression or in another dimension. Along with all this came great advances in science and the science fiction which was inspired by great etheric scientists who wished to stir man's imagination and increase his receptivity. All of these were the opening of new doors through which man has been working his way toward a new era of advancement.

For some time people have been trying to find God outside of themselves. They have been listening for voices and for guidance coming from teachers outside of themselves; this was important and is still valid. But at present time man's greatest step upward will come from finding the way to go within himself and contact the ALL-CONSCIOUSNESS of the ALL for himself. This is impossible, however, as long as man puts God outside of himself to find Him. When man can accept the simple words, "I and my Father are one," then man will be able at last to find the Father within him.

What did those words mean, "I and my Father are one?" For 2000 years people have read those words without understanding them. They have thought they were some special dispensation for just one being, a great spirit who came in a fleshly body but was separate and different from other men. They have said, "Oh yes, Jesus could do those things for He was the Son of God but I am just human." So it was necessary for man through such a book as you have mentioned tonight (Annalee Skarin's YE ARE GODS) to understand that all men are Sons of God - yes veritable gods in themselves.

There are various levels of sonship (Sunship.) The little cells within your body are tiny suns. You have been told that an atom is a solar system with a nucleus which is a sun and with planets which are the electrons and other elements of the atom. In this manner you, too, are suns and your bodies are your solar systems. You are demonstrating one

one level of sonship (Sunship.) The Sun of the whole Solar System whom you call Sol, from whose name you derive the word, Solar Logos, and who has also been named to you as IMMANUEL, is a Sun on another level. Then the great invisible Spiritual Center of the Galaxy, the Central Sun, LIO-LIA, is a Sun on another level. I am a son of God on the level of man. I have not graduated from man's level to the level of a Solar System or even to ensoul a planet.

I came as one Wayshower but I was set aside. People thought that they could not follow the way of which I spoke accurately fully or with faith because it was beyond them. Now there have come into manifestation, and will come more and more, beings who will be wayshowers, man-of-men, ordinary people walking shoulder to shoulder with other ordinary people. These wayshowers, experiencing the common life of man, will find within themselves and show others the way to contact all of the power, all of the wisdom, all of the skills and abilities of the Omniverse, all that you know as the gifts and powers of the spirit or of the mind. These gifts and powers will be demonstrated as man begins to understand his oneness with God.

Now on this path which you are traveling toward realization of your oneness with God, of the Allness of the whole and of your allness with the All, there are little traps which are tests which you must pass. Every problem that you face is a test to see how well you can apply what you have learned. There are many tests; some of these you have passed; others you still have before you. Some you have passed again and again, but you have not yet become sufficiently strong that we can say that you need not practice this any further.

One of these little traps or tests is the feeling that at some sudden instant all of the wonder of the Christ consciousness will burst forth in you. One moment you are an ordinary person and the next you will be as the adepts or the great masters of the East, as though some fairy could wave a wand over you and suddenly enable you to do great and marvelous things. For men of the present time that is not the Way. Your Way is one of maturing, of growing, of gradually becoming.

Those of you who are teachers know that a little child in his first year at school will not suddenly show forth the great powers of an atomic scientist and be removed to the nation's secret laboratories. You know there must be the gradual growth and maturing. For adults this growing into Oneness with God is slower than the maturing of the child through all his school years. A highly educated person in your culture may spend some twenty years in institutions of learning before he attempts to make his way in the world. His true education has just begun for he will have fifty to seventy years of further learning and maturing before he leaves the school room of Earth life. If he came into this well equipped as some children will be doing he may mature his Christ powers very quickly; but he cannot go so fast that the physical body which has not demonstrated these powers would be torn apart.

There are certain simple physical laws of life in the Earth plane which must be followed with regard to growth and maturing of a thought

just as with growth and maturing of a body. Therefore it takes some little time for one to grow into a sufficient willingness to accept the truth, and then grow into sufficient faith in this truth, next to grow into actual living and demonstrating the truth, and finally to become the truth. These are advanced steps.

Very often when people begin channeling they find it impossible to accept the authenticity of the experience. So frequently people channel without even knowing it. They are thinking of a problem which someone has presented to them and a bright idea seems to pop into mind. You can watch their own amazement as they set this idea forth. They think the idea came from themselves when it was a thought which God put in the mind either directly or through His messengers of Light. In this way each one of you sitting here has been channeling the thoughts of God and you knew it not.

When someone comes into your mind and says, "I am Jesus of Nazareth; I will speak through you," and words begin to come you think this is impossible. It is hard for you to accept that I would speak through you because of the 2000 years when man has put me way off in the sky somewhere. When you become used to my presence and my vibration, when you accept my message through you, then more can be given you. In this manner you gradually mature.

I suggest that you study my words as given in the four Gospels in the Bible, and also in the new writings that are being discovered. Study them carefully; try to find the spiritual meaning, that which will bring you and God into Oneness in your consciousness. That is the whole matter; I and my Father are one and the same being. I and my Father are one, the same being. My dears, you could say this fifty times a day and perhaps in a month or two you would actually begin to half believe it. After awhile you might begin to see the implications; still later you might gradually begin to use it a little as you developed your faith. In the meaning of that fact that God is yourself, living you, you might begin to demonstrate a little of that dominion which is your birthright at the moment.

Yes, that is one of the traps, the waiting, the expectation, that all this will come in just a flash. It seemed to do so to Buddha and to some others in the past; but for men of today it must come as a result of gradual growth. This has been a sad disappointment to those who have waited for the blessed moment when they would blossom out into a great adept. If that were the plan for the present it would have been happening before this and you would have heard of it among your countrymen. No, my dears, your way at present is the way of common man. You have volunteered to come and demonstrate this way for those about you. The sooner you really begin digging in to do it, the sooner you will achieve and become.

Another trap I would like to speak of is the confusion among materials brought through by channels. Some people will say that I, Jesus, have said one thing and others will say that I said just the opposite. You will know that something must be wrong somewhere. There cannot be this continual confusion, exact opposites coming from the same mind and all right. Let us see where the trap lies hidden. In the first place you

are receiving mentally. What you give forth is conditioned by what you believe and by what you know. Unless you have opened yourself fully, you will not be able to give forth things which are entirely outside your knowledge or expression. All that you do give forth is colored or limited by your own thoughts and beliefs. Even if you were in deep trance this would still be true for the human mind simply will not speak the things it does not believe. We must therefore follow the line of your own thinking and slip in what new ideas we can that are compatible with your own mental climate. Gradually we can give more and more that is new to some channels who are especially dedicated and pliable. For this reason all that any human channel brings forth must be tested. Many feelings of confirmation are produced by the response from the subconscious upon the body and not from Spirit as supposed.

How can you test the message? Compare it with what you already have proved to be true in your own experience. If what the channel says does not measure up to the highest that you know of what you have proved to be true then lay it aside. Do not condemn anyone or call anyone a liar. In each message there will be some truth that you can accept.

Herein lies the test for man. If there is great confusion concerning a subject such as the prophecies that the world is about to end, you can understand that your way does not lie through this morass of confusion. Let it all go and rise above it. Take each day as it comes; live the best you can and in time you will find out who was right and who was wrong.

The matter of the paradox also causes great confusion. Both black and white are desirable; both express God. One can start up a mountain from one side or the other and still come to the same top. This is the time when man must learn to reconcile and unite the opposites, to understand that both sides of a paradox can be true. When the confusion is such that you cannot make head or tail of it, do not worry about it. Turn from it and cling to those things which you can sort out. The basic fundamentals are always clear, such as the facts that the Word is made flesh in you, that God is Love and Light and that all men are brothers in God. Cling to these and let the confusion be but dust to be spurned under your feet.

One more trap I would like to mention for those who are going forward, and that is the matter of karmic lives. Many channels have brought through material concerning lives that I may have lived. They have given me credit for being nearly every great teacher that has manifested on Earth. Each one who has been elevated in man's thought has been assigned a long list of past lives. A great deal of this confusion results from the incorrect reading of the akashic records. A great deal of it is pure test to see whether you would think this of importance or whether you would know what is of greatest importance to you is what you are right here and right now.

Do you not understand, my beloved, that in the long aeons of your evolution in this planet of your Solar System and in other planets and other Solar Systems, each one of you has had plenty of time to be both

prince and pauper or anything else you can imagine? Does it make any real difference now what you were then? The point is: what can you make of yourself just as you are with the equipment you were allowed to bring into this vibration at this time. It is possible that you may have been some very great person in some past life; you may have laid that aside to become one of these common ordinary folk. Those dear ones who manifested with me, my disciples, have at various times and in other places attained great powers; but they laid them aside to become simple common folk that I might show the way for common people.

Now you are the wayshowers for that kind of person. Don't let yourself be fooled by the ego who thinks he was this great one or that one and thus loses touch with the simple tasks and the simple truths of the present. This is a trap into which so many fall. For this reason protect your present humble selfhood.

I came as Jesus, a carpenter's son. When they wished to make me a king I would have none of it. When they suggested that I leave Jerusalem and save my Earth life, that I go to Greece where I would be received and not persecuted, I said to them, "Get thee behind me, Satan; I do not want any part of this with which you tempt me." Keep your humble personalities for only as such a humble person can you show those humble ones beside you how to find the way to God in the new age.

Oh, sweet brothers and sisters of Light, I do indeed come into your being; I do come in and sup with you. As you open your thinking and accept the truth of your oneness with the All-Consciousness of God, then indeed I do become you and you do become me. SOLOGA, beloved ones, beloved of the Father-Mother God, the HIGHEST OF THE HIGH, special emissaries of Light to your age! Be at peace; be patient; take each day as it comes and live it to its full, knowing that God has put you here just as you are to serve at this time and place in the way most valuable to Him at the moment. Again, SOLOGA! In the Word of the MOST HIGH we are united as one.

EACH DISCIPLE CAME FROM A DIFFERENT SUN

Peter: speaking to you, my dear brothers and sisters in the Christ Consciousness, for surely anyone who manifests in the thought of God in His Word manifests on some level of Christ Consciousness.

Jesus mentioned the fact that there are levels of Sonship. When God speaks forth His Word, that is the Christ. When he said, "Let there be Light," Light became the Christ. The light held in a pebble is one form of sonship and one form of Christ consciousness. Therefore it is perfectly right and the truth to address each other as beloved in the Christ consciousness for you do express the Christ consciousness as do those whom you meet on the street as well as those who seem most Christ-like.

I have come to tell you of something special this evening. When I spoke to this group before I mentioned the fact that each of the disciples represented a different Solar System, a different Sun, each one bringing to the System of IMMANUEL emanations necessary to perfect the balance throughout the System. I believe you have a thought in your mod-

ern studies about trace minerals. We came to bring Jesus certain trace emanations which would make it possible for his work on Earth to be perfected. You know that many who accept the Word given through SOLOGA have had an orientation in the System of the great star, Sirius, who is a sort of God-father, elder brother or uncle to the young Solar System whose Sun is our Lord of the Sun, IMMANUEL. John, who is particularly fathering your group, is a special messenger from this great Sun, Sirius.I, Peter, come to you from a star in the Pleiades.

In the writings of your earlier channels for the Hierarchy, especially in the teachings of the Master Dwal Kuhl, you will find references to the fact that the Sun of our System is sending out Light in great Love to one of the Suns in the Pleiades. At this particular time there is an especial need to develop and demonstrate affinity and rapport between these two for the sake of both Systems. They are drawing close in Spirit as part of their evolvment, and this relationship brings to both that added illumination which enables the whole Solar System to progress. This may seem on a Cosmic level almost beyond your understanding; yet if you will remember, "As above, so below; as below, so above," you will know that often two people must draw together in a partnership to accomplish some great work, and so it is in the higher levels as well.

This Sun which I represent is known to your astronomers as Purple Pleone. In one of your magazines in the past there is a picture of this Sun. It spins very, very rapidly and is therefore flattened so that it is more disc-shaped than spherical - just halfway between a true disc and a sphere. It throws off a reddish-purple color around the equatorial belt and thus it has been given the name of Purple Pleone by your astronomers. I come to introduce this Sun to you this evening. 9/4/1962

BROTHER-SISTER SUNS

The Star, Purple Pleone: Beautiful beings of Light, suns reflecting the glory of the All-Father-Mother in your place of existence, I, your distant Sister Sun, send you the love which the Father-Mother gives Me to share. I address you as brother-sister-suns for all you are, all you have been, all you will ever be, is a focus of the Light of the Omniverse given you through the thought of the Most High God of ALL, given you to shed forth in your place of manifestation. This light which is truly you is hid by the veil of illusion in which you must manifest to work on your level of vibration; but truly you are suns, bright, shining spirit-images, reflections of the great Spiritual Light which is the Allness of the Whole Omniverse.

Beloved shining, bright lights, lights in your own right, you are reflecting God through yourselves now; but my dears, you are not aware of your light. You know a little; you know that you can send forth thought waves which will help others that are sick. You know you can send forth prayer waves, and you have faith that your prayers will be answered. You know that you can send forth power from the Limitless Power of the ALMIGHTY GOD, and that all the power sent out by groups like you will effect that which happens on your planet. But my beloved brother-sisters

in the Christ consciousness, you are not aware of the brightness of your shining.

You think of your bodies as flesh. You want to leave the flesh and the material, yet they are pure light. Your thinking of them as flesh and matter instead of as expressions of God is a chain which holds you to the lower vibration. The sooner you put aside the thought of yourself as that which Earth man calls matter separate from God and see yourselves wholly as beings of light, as suns shining forth with the glory of the Great Spiritual Center which We know as the Most High God, the sooner you will begin to accomplish the works of God in your environment.

I, Purple Pleone, your big Sister, am one of the Seven Sisters of the Pleiades in your sight, but am really a great Sun with a System of planets living close to other Suns, closer than your Sun is to any Sun. I have come a long way in the understanding of Oneness, of the marvelous harmony and order of the Omniverse in Oneness, of the One Great Wholeness all of which is beautifully articulated, working together like the most harmonious machine you could imagine, functioning like clockwork, everything perfectly timed, and moving in perfect assurance that the Word of the ALL-CONSCIOUSNESS OF THE WHOLE will be done in the Whole.

Oh, My little shining brother-sisters, open yourself to the greatness of That which you know as God the Father-Mother. Open your thoughts to the Wholeness of the ALL and know yourselves a part of It, sharing in all there is, sharing in the receiving and sharing in the giving. How often you have been told that you have to give in order to be able to receive. The more you give, the larger will be your receiving so that you can give still more.

The great difference between the burning, shining balls of fire which you think of as stars and yourself is their greater capacity to pour forth the Love and Light of the Most High God. Blessed little brother-sister suns, shine forth with the glory of the Christ-Word which is yourself. Let your light truly shine. Never hide it for an instant; let it shine! Think of yourself as a light shining for the more you think of yourself as such, the more the invisible emanations of the Suns can pour through.

You have one in your group sitting here this evening whose original evolution was lived in My System. This is the one whom you know to have a tie with Peter. I come to tell you that each one of you brings the special emanation of a certain Sun. As the days go by each one will be told what Sun he represents and what apostle especially represented the same Sun. Oh, may God, our holiest, highest, most beloved Father-Mother of all Father-Mothers, bless you with Hiser infinite and ineffable tenderness. SOLOGA! Together We seek to demonstrate the Word of God. 9/4/1962

YOUR REAL HOME IS WITHIN THE SUN

IMMANUEL-IMMANUELA: Lord of the Sun of this Solar System, speaking to you, My blessed children - blessed because I bless you with the blessing of the Almighty God given me to give to you. I bless you with the blessing of my Father-Mother, LIOLIA, the beautiful, shining, radiant,

magnificent Spiritual Center of our wonderful Galaxy.

Oh, how we love the Allness of our Galaxy! How We send forth our thoughts of Life and Love to every unit of consciousness in this whole great expression of the HIGHEST OF THE HIGH in Our Galaxy! How We love the Bright Radiant Spirit who ensouls the Galaxy, who is the Father-Mother of all the Suns, of the great Brotherhood of Suns established in Solar Systems and constituting the Galaxy!

My beloved children, as you send me your love I radiate it outward. There is perfect harmony and perfect rhythm in the flow of Love from the MOST HIGH to LIOLIA, then out to Us and from us to you and back again. We send forth to you and you send forth to all about you; you send back to Us and so it circulates just as the blood in your body carries oxygen and nourishment to every cell. Together We circulate the wonderful Life-Force of the All-Consciousness of the WHOLENESS OF THE WHOLE.

I hope that with all the explanations you have had from the beginning of our speaking together you are beginning to understand a little better the meaning of that pronouncement, "As above, so below; as below, so above." I believe that you do understand that your bodies are the symbol of each organization both higher and lower than you. In your own body you have the symbol of the Heavenly Man, the whole Solar System, and of the Galaxy. In your body you have the symbol of the ALLNESS OF THE ALL, of the complete and infinite WHOLENESS of all that exists.

You, yourself, are a Spirit, a bright, shining, beautiful Spirit who has come of your own free choice into a lower vibration for your own purposes as outlined to you by those who have the privilege to direct you. Of your own accord you have come into the organization of light and the patterning of vibrations which you think of as your human individuality. You think of yourself not just as body but as body, mind and soul or as body, soul and spirit, as existing on several levels. You really think of yourself as a spirit ensouling a body. In the same manner think of Me, a twoness, masculine-feminine, positive-negative in one - a complete wholeness which is two - a radiant Spirit from a higher level of evolvement capable of ensouling a whole Solar System.

Then think of the Central Sun as a still more wonderful, radiant, scintillating, highly evolved Spirit capable consciously of ensouling a whole Galaxy, maintaining order and life in oneness in that Galaxy. "As above, so below." Now think of yourself as a Solar System and the organs within your body - the brain, the heart, the lungs, the liver, the stomach, etc. - as the planets, each one ensouled by a being who has evolved to that capacity. All of this was a little review so that all might be more clear not only to you but to those who read your SOLOGRAPH.

Understand, My beloved ones, that you are as important to Me as the cells in your body are to you. If the cells are sick, you suffer. If My cells (yourselves) are unhappy or discordant, depressed or discouraged, and filled with error-thinking, then I suffer just as you would. Together We must send forth the light of true thinking.

You read in your sacred Word, "You shall know the truth and the truth shall make you free." I come again to give you the assurance that the

truth about you is that you are a bright Spirit, a shining Sun, an entity of Light, a Thought maintained in the meditations of Myself, of LIOLIA and of the Most High God, in the ALL-CONSCIOUSNESS of the INFINITE, of EVERYTHING THAT IS.

You are a thought being maintained in that meditation which shall continue as long as the Cosmic Order in which you now take part is held in its present state. You are bright, shining spirits who have gone down into a lower vibration for the purpose of bringing light to that vibration. Your real home is within the Sun for you are members of the Golden Legion. Let each one who hears or reads this feel within himself the vibration which tells him, "Yes, this is true." If it were not true of you, my blessed ones, you would push the SOLOGRAPH aside as something you could not understand, or as not too compatible to you and you would not want it. If then you read and vibrate to this message, know that I am speaking to you when I say your home is in the Sun. You have attuned to that elevation of thought and being where you can vibrate in Oneness with the Sun.

Some of you are nearing the end of your service here. I mean to say that this life will be your last term of service in this physical vibration. You will then come directly home to me for a period of reorientation and rest. You may stop off for a little while in your own special beloved place; but after a time all of you who have served Me and are now to be reassigned will come home to the Sun, and will meet there to be instructed, invigorated, renewed, regenerated and made ready to go forth upon your next missions when the time is right.

Be not afraid; be not dismayed by word of upheavals and changes. There must be changes within My being just as changes are always going on within your bodies. You have been eliminating old atoms that are no longer of any use to you. You have been drawing in those atoms of finer vibration which will help you to do the work ahead of you in the years to come. I am doing the same thing. When I say "I" I mean the whole Solar System for you understand that I, IMMANUEL, am the Solar System. When you speak of yourself, you include your hands, your feet, your hair and your clothing do you not? I speak of the whole Solar System when I say that changes are coming rapidly to every planet, every magnetic current, and every being existing here.

When Jesus saw the approach of the trial which was to be so intense, he prayed in the garden, "Father if it be Thy will, let this cup pass from me; but if not, Thy will be done." In the same way I pray again and again for you and for all, for that which is the Wholeness of Me, the Solar System. I pray, "Oh, Father, if this cleansing must be a catastrophe or a cataclysm, Thy will be done; but if it can come to us in the sweet peace and harmony of Thy Being, help us to achieve it." We know the debris of the old must be cast aside and the beauty of the new accepted. I send forth My Light as strongly as I can to all the spots where the debris is gathering. I have spoken of the symbolism of an abscess which must be cleansed and healed. There are those who must pass because they are not ready to go on with the System, or they have agreed to pay group debts together, etc. Where this must be done, I send Light just as you would

apply healing to an abscess or a boil, or a gathering of waste materials which must be cleansed from your body.

My beloved children, I ask you to join Me in this healing work for the Whole System. It would seem that you have enough to do for you have such seemingly difficult problems to face in your own area or in your world. But my sweet, beloved children, remember that all the souls, all the beings existing throughout the System are sending you their Light. If you will send out Light and Love to each of the planets and to all who live there, you will help to establish the flow between you and you will make it easier to bring to the Earth what they so desire to send you.

You will have been told, and I wish to emphasize, that for the next few months there is a critical time ahead for your planet. I would like to stir you to a greater attention to your giving, to greater consecration to prayer, to sending forth, to your power sessions and to your decrees. Beloved ones, the important thing is to contact within yourself the Highest you can reach, establish your oneness with the HIGHEST OF THE HIGH, bring down the power, the Light, the peace, the brotherhood, the harmony, the thought of Love, and shed them forth as widely as possible.

My beloved children of Light, let your own sun shine forth in the true glory of your being. Establish that which is truly yourself; accept it; bring it forth and give, for that is what you came to do. Oh, give, my beloved children, give with all your hearts. Together I pray with you the word, SOLOGA! Oh Father Mother of Father-Mothers, Holy Word of the SOURCE, come upon Us and pour forth Thy healing Light and Understanding in to this Thy Solar System, Thy Sun and all Our inhabiting beings.

MANY TESTING TIMES TO COME

St. Germain: I am speaking to the group, SOLOGA, and to all who read the SOLOGRAPH or hear the messages. Beloved Brothers and Sisters of the Golden Legion, bright and shining spirits whose evolution is higher than you know, I come to you with my brothers, Hilarion and Kut Humi. They stand with me as I speak and now and then they will intersperse their thoughts without naming themselves. You may consider this a joint message from three of your sponsors.

The Group, SOLOGA, is to continue. Let no thought of its being disbanded enter your mind. Let no worry that the fire which you have lighted is to be put out enter your thought. Know that the Word of God shall go forth. Know that a little flame running through the grass can set the world on fire. Remember that great power often generates from little things. A tiny flame can ignite an accumulation of gas or a number of storage tanks and cause a tremendous blaze. You may feel as you sit here that the flame of SOLOGA is like a very small candle; but understand that through the years, the truth that you have brought forth will run through the grass roots into the hearts of the people and deep into their understanding until it bursts forth into a mighty flame.

You have been reading the Gospel According to Thomas. There it is reported that Jesus said he had come to set the world on fire and would stay to see that the fire was truly started. No matter what changes may

come to the outward appearance of your group, whether the numbers are large or small, whether its headquarters is in Miami or some other place, wherever your channel goes as long as she is in the body the Word of SOLOGA will go forth. Whether you are with her or not, whether you are in Miami or reading the SOLOGRAPH in some distant state or country, you who support and send forth the Word are the flame of SOLOGA and shall not go out. We, the three of us together say this, "So we see it; so we decree it; so be it."

There will be many testing times to come for all Groups of Light in the next months. You know that when we speak to you we speak to all; therefore, we see to it that the Word goes forth. There will be rumors, alarms, the spreading of dismay, queries, fears, running to and fro, confusion, unsettlement, not knowing what to do. (Note this was given on Sept. 8.) Look upon all these things as tests; see if you can pass them. See if you can remain in utter peace within; see if you can continue to send forth the light with all the strength and vigor that you have as often as you can and without fear. See if you can lift yourself out of the worries, out of fear, out of the difficulties and sense of confusion.

Whenever it all begins to get too strong for you, sit in meditation and repeat the exercise given you saying, "My Father and I are One." As you say this over and over, lift yourself on wings of Light into the higher dimensions. Do this so frequently that by the time you have begun the "My" you are off and away, up into the Realms of Light. Do this so often that you can do it as easily as walking out this door. You do not think of your walking; you just do it. Do this exercise so often that it becomes as automatic as lifting yourself out of a chair.

Do not be frightened by that which might come in the way of danger to your area. Nothing is definite; nothing is inevitable. All of the Forces of Light are pouring out all they can into this and all other areas of disturbance, Cuba, Berlin, China, the Soviet Union, the Middle East. We are doing all we can, we know that you are doing all you can to the best of your ability. When things let up a little you relax and take it easy for awhile. True, you do need your rest periods; but my beloved ones, you have tremendous abilities and potentialities which you have not yet begun to demonstrate. They are there. The more faithfully you practice, the more they will operate through your lives. The lives of those you love may depend on the faithfulness of your contact within yourself with the HIGHEST OF THE HIGH.

Our beloved Sun, IMMANUEL, has said this and may I again underline the fact that the one way out of any situation is to make contact with the God within you without fear and in peace. Listen and do what you are told to do. Each of you is capable of this. You have demonstrated it again and again. Be more serious about it. Pretend that it is just before examination and you have to cram a bit before you are ready. Or pretend it is just before Christmas and you are on your extra good behavior. Dramatize it in any way that will keep you doing your very best.

Beloved ones, we are with you constantly. We know all your thoughts, all your worries, all your confusions. We stand by to help as much as

possible; but remember that the worry and confusion hold us away from you. Strive for utter calmness and peace within. Now I must say, SOLOGA! As I do so I extend my hand to each of you. We become a circle with you and we say, "Oh, Solar Logos, bring us the Word of the Alpha and Omega. We stand ready and willing to obey Your command. Help us to hear, to understand, and to obey quickly. Amen." 9/8/1962

WE FIGHT THE ANTI-CHRIST

Gabriel and Michael: (Operating in the Crimson Glory of the Christ Power assisted by El Morya and Ixutel at our power broadcast.) We speak as one for a group of messengers of Light who come to use this Focus for work to be done in the Earth plane this night. You are aware from your News Media that the situation in Cuba is not yet cleared. Preparations of your government are continuing in case an invasion may be necessary. Build up of materials goes on quietly but seriously. The Russians are hoping to keep this situation stirred up and unsettled to muddy the waters and enable China to sieze as much of India as possible.

China has been criticizing the leaders in Moscow. China has been champing at the bit. Moscow hopes to appease the Red Leaders of China by allowing them to grab part of India. In Moscow, the first great objective of their time table is to take all of Asia. For this reason they have slipped as far as they could down the Korean Peninsula; they have tried to break through into Formosa, Viet Nam, and Laos. They have camped on the borders of Cambodia, Thailand and Burma while their subversive elements attempt to soften the governments from within. They desire the oil in the Near East and the passageway into the Mediterranean controlled by Turkey. They have already taken Tibet. Now there is a possibility that all of India may be lost to the Communists.

India is far from your country, from Europe and the sources of aid. No matter how much you send it will be too little and too late. The Chinese are massing their great waves of humanity which by the very weight of their colossal numbers would sweep the enemy before them. The U.N. stopped them in Korea by the strength of their fire power. India has tried to remain neutral, to be friends with both Communists and Free People. She has carried on her policy of peace and non-aggression which in itself is admirable but not practical in the situation on Earth today. After all you live where you are. You are here to serve humanity. You do not serve by allowing great nations to be swallowed by the Anti-Christ.

The Anti-Christ is that which denies the existence of God. The Communists deny both to their people and their satellites the right to believe in God. They make fun of those who hold to their faith. They ridicule them as superstitious, ignorant, immature and backward. They insist that all must be educated out of such childishness. They therefore represent the Anti-Christ.

You must face the situation where you are and as it is. If you are dirty from working in the mud, you must cleanse yourself before you can rest. The Earth must likewise be cleansed of the Anti-Christ thought. Much as we desire peace there are times we have to fight fire with fire.

Christ Jesus of Nazareth told you that he saw war in heaven. This is the war in which the Christ Forces on all levels go forth to overcome the Anti-Christ. You have a hymn which says, "The Son of God goes forth to war, a kingly crown to gain. His blood-red banner streams afar. Who follows in his train?" That blood-red banner is the symbol of the power of Christ Consciousness.

We are gathered together as soldiers of the Christ in our power broadcasts to fight against the Anti-Christ. We fight mentally. We send forth the power of the Divine mind. Of ourselves we are nothing. That which makes us powerful is the knowledge that God fights in us and through us against that which is ignorance and darkness. All of this can be expressed in other terms; but war is going on in your planet regardless of what terms you use. Men are killing each other; therefore we must use the terms of war to get down to their level. We fight through our power broadcasts by sending out Love, Light, Peace and Harmony.

This is a crucial time. Your country is learning to bear the responsibilities of world leadership. You permitted Mussolini to seize Ethiopia and had to pay your Karma for this in World War II. You allowed China to be gobbled up by Communism. You have been paying the Karma of that situation ever since. Now you are eager to help the people of India but the Russians have managed to divide your effort and will find ways to block your aid to India. You now must fight on many fronts. Your men are serving in Viet Nam and Laos. You cannot allow the Russians to remain in Cuba. You cannot allow the Chinese Communists to swallow India.

Part of this present situation is the Karma of India herself. They must pay for their indecision and other errors in their thinking. That which the Buddha brought to them in purity and clarity has been debased in their present religious practices. Their recent leader, Mahatma Gandhi, was sent to recall them to the purity of their own heritage and to persuade them to the beauty of the Christ vision; but while they accepted Gandhi they were unable as a whole to rise out of the error into which they had sunk. Now there is this bill to pay. We can help by sending our Light. I know you will do your best each day. You will note that you were told in SOLOGRAPH 8 to send peace to the world on Nov. tenth. Never has the world needed it more than at this moment. 11/6/1962

On the day preceding this message, Velma, whose prophetic visions have proved significant, seemed to be standing beside a canal of clear, pure water. Others were with her. She had a sense of happiness and pleasure in the company and their gathering. She was enjoying the clear water especially when there was a commotion in the distance. There seemed to have been an accident or some disturbance of the peace for sirens were screeching and there was a feeling of alarm. Just as this subsided there was a much greater disturbance farther away and higher up. There was much screaming and voices wailing saying, "Oh, why don't they come to help? When will they get here?" Velma was then aware of another watercourse joining the canal at right angles. It seemed to come splashing down over stones from much higher up. It too was clear, crystal water. As she

looked it began to turn red with blood from the place of confusion. Soon the blood filled the canal in front of her as well. Then she was in a house on the bank of the canal. She very much wished to get out but the only door opened so close to the canal that she would have to step in the blood. She shrank from this. There was one high window. She climbed to it but found it almost too small. She struggled to wriggle through it but then she saw that the ground was so far below that she was afraid to jump down. Her vision ended here.

As we discussed this in our group meeting we were told that the first disturbance was the Cuban crisis which caused concern in our comparatively peaceful and pleasant life. That commotion passed but a more serious one followed immediately, the trouble between China and India. Blood flowed from that tragedy which touched our own shores. The house is the present situation in which our country is placed looking for a way out. To go out the door means to go through blood; but egress through the window is very difficult.

As often happens, two other members who attend a different session had confirming experiences. June was shown a door and a window; she was told that it is easier to go out through the door. Julio saw a canal of blue water moving deep and slow between grassy banks. Blood began to bubble upward from a pipe below the surface fouling the water. These symbols were given to impress us with the need to be faithful in our personal power broadcasts. We take renewed courage from the fact that Gabriel and Michael spoke together for, "Michael gains permanent victory in heaven and within the consciousness of man only when he is joined and aided by Gabriel." (Corinne Heline's Bible Interpretation Vol. IV, Part III, page 231.)

A THANKSGIVING MESSAGE

King David: Oh, give thanks unto the Lord for He is good, for His mercy endureth forever. Enter into His gates with Thanksgiving and into His courts with praise. Be thankful unto Him and bless His Name for the Lord is Good. The Lord God reigneth. He reigneth in the Earth today. He reigneth in the hearts of men whether they know it or not. His will is to utter good. His Name is Goodness. His touch is bliss. He made all that was made and for all we give Him thanks.

You are now drawing near your Thanksgiving season. I have asked the privilege to give you a Thanksgiving message to share with the world. Perhaps some of you. Perhaps some of you have recognized me by my words for I am the one known to you as the Psalmist, King David of Israel. It is with great joy that I speak to you. I have often been in your aura. I have often listened with love and gratitude to these Shining Ones who are making themselves known to you. Beside them I am as a grain of sand; but still my heart shouts with gratitude to the Father-Mother God who has given to man such a wonderful future, has shown to man his possibilities, has given man of the Aquarian Age a vision of what he may attain, has relieved him of the worry of a sinful life, has given him eternity in which to work out his soul's progress and to perfect his Sonship.

In my day as King of Israel, we were little children stumbling in the dark, occasionally aware of the loving touch of the Father, more often frightened by the fear of our own inadequacies and our own mistakes. Now I, too, am learning with all within the aura of the Earth that God is Love and always gives love, so that mistakes receive loving admonitions, loving adjustments in whatever way is necessary for the purpose of the life to be achieved. With all of my being I pour out my gratitude to the Father-Mother, the Most High God, and to His messengers of Light.

I say to man of today: Never have you had more to be grateful for. While you seem to be in a time of crisis with terrible dangers on every side, yet you know your way up and out of this vibration. For us in my day, we could only see the strength of the enemy and tremble. We knew God helped us but we did not know how He helped. My enemies seemed to encompass me; but the greatest enemy was always the one within, the ignorance, that which kept me from knowing God as One with me. My Lord, Jesus who was son in my line, brought to the world the way out of all crises, of all troubles, of all sorrows; and that is the way of knowing Oneness with God.

Permit me to say: Bless the Lord, oh my soul and all that is within me; bless His Holy Name! He loves the world so much that He has given Himself as Son to Himself. He has given Himself to man as Son so that man may find the way to growth and understanding. The Sun (Son) is rising over man of the New Age, the Glory of Himself is peeping up over the horizon. The Light of the ALLNESS OF ALL THAT EXISTS is beginning to find its way into the darkness of the sphere of separation and those who can receive it will see the New Day. For this we give thanks.

Oh, men of Earth, turn in joy and worship to the Most High, Most Holy, to that ONE who is the Oneness of the ALL. Great is the gratitude of the Galaxy, of all the swirling Suns in their grandeur and Light. Oh, man, open your heart and with your voice shout forth your gratitude as Sons of God, sons and heirs, a little lower than the Angels in vibration, yes, but Suns able to move upward to ensoul planets, stars and galaxies, on and on into the bosom and the heart of the ALLNESS which is our God.

Hear, oh Israel, hear, oh man of Earth! The Lord, thy God, is One, and that includes each one of you. For this let us give thanks with full heart, with the singing thought and with the voice of understanding. I, too say with you, SOLOGA! Let the Word of Gratitude speak from the heart of God through you to all mankind. 11/10/1962

LEAVE MAN HIS FREE CHOICE

Jesus-Mary: My beloved children in the Consciousness of God, your brother Jesus of Nazareth speaking to you. If you will open your inner senses, or if you cannot see let your imagination follow, you will see me standing at the channel's right and my Mary standing at her left. Now if you will watch you will see us converge into one being, for together as one we speak to you.

Beloved ones of SOLOGA, it is always such a pleasure to speak to you for you are our representatives in the body. We are wayshowers in the

spirit; you are wayshowers and messengers of Light in the body or "right on the ground." One of the prophets said, "How beautiful upon the mountains are the feet of him that publisheth good tidings of peace." It is your privilege, dear ones to publish good tidings of peace to the Earth. You have received advanced instruction; you have been given some high truths which you must share as widely as possible. Therefore we say that you are wayshowers in your own right and as such we greet you. In Light we move forward together. In Love we serve man together. In Love we rise above the Earth vibration pulling the thought of man upward with us.

One cannot drive man; but one can attract man. One cannot control man against his will; but one can persuade him. One cannot force his own personal will upon man; but one can show the great pleasure, the peace, the joy of coming into at-onement with the Primal Will to Good of the ALL. God's will for man is his highest good.

Does man know enough to say, "I will that you should be or do thus and so?" No, indeed he does not! Even using the best of his judgement, man has made so many sad mistakes. The terrible Spanish inquisition was man's will trying to force his beliefs on his neighbors. Those who were so loyal to their church at that time thought that they knew the whole truth; yet they sinned so much more than my brothers, the Jews who killed only one. How sad is the history of man when doing the best we can we still make such mistakes as a divided Berlin or a brother rejected because of his skin.

Watch, my beloved, as you read the various literature of your day. Watch! Does it say that man is to control man? Does it say that one man is to force his will upon another? Be careful; discriminate. Within yourself accept only the highest good you know. Persuade, enlighten, teach and heal. See Light; send forth the Word; but leave man his free choice. This is God's path; there is no other way. This way is straight and narrow and many are the opportunities to wander from it if you are not vigilant.

Always go back to those fundamentals which you know: that God is All, that He is Love, that you contact him from within and that all are as much an expression of God as you are, even those who at present assert that there is no God. They are like a little child who has not yet seen a circus. Others try to tell him of the strange things there but he cannot believe because he has not seen. Thus the dear ones who cannot believe in God are those who have not yet found Him. They are to be loved until they are able to grow enough to experience Him for themselves. How privileged you and I are that we know God! Is there any greater privilege to be found anywhere than to know the ALLNESS OF THE ALL?

Beloved ones, again I say unto you: Enlarge your thinking; meditate upon the Allness of the ALL. Cast aside the human veil of illusion and see God in every speck of dust, in every raindrop, in everything that you experience, even in that which may seem undesirable. That which you cannot eat, some creature of God will enjoy. That which to you is most offensive, to some other form or pattern of God's life will be most desirable. Enlarge your thinking to include all possibilities, not just the

narrow experience of this one incarnation in this one body.

As messengers of Light send forth your love to all. As you enlarge your thinking in this manner, you prepare yourself for the duties of one who can stand as I am in one form speaking to you and yet at the same time can be thousands of miles distant and all places in between, serving, loving, inspiring, knocking and being received or rejected. In order to become that which I have attained, one must be able to hold all of the individuals of humanity in thought at one time. In order to be the Sun of a Solar System one must be able to hold in consciousness not only all of humanity but every other form of existence - all of the planets, all in or on them, and all in the spaces between. In order to ensoul a galaxy, one must know every tiny particle of the galaxy by name or number, for remember, the very hairs of your head are numbered in the Father's Consciousness. Therefore, my dears, I say enlarge your thinking; step out, and away from yourselves and be one with ALL THAT IS.

The path upward is filled with joy for there is nothing so joyous as to know how much you are one with all the great Hosts of Light. But blessed is the one who in that oneness remembers to gather into himself all those who touch his light and carry them upward with him in thought. This you can do without in any way encroaching upon free choice. In your own thinking you can see your neighbor as yourself even though outwardly for some reason that neighbor does not want to speak to you. You can so purify your human emotions that you can take that neighbor upward in your thoughts even though he does not seem to go in his. Remember that we are always with you and with everyone else who inhabits this planet. SOLOGA! We walk forward together in the Eternal Light of God. 9/15/1962

In the meditation following this message it seemed that Jesus and Mary, one on each side, lifted the channel from her chair and drew her upward. Suddenly in an explosive instant they converged and became one with the channel as part of the same being. Then they seemed to draw in all the others of the group in the same way. As one being they took us first to weave a golden web of light and lay it down over Cuba so that the emotional poisons of fear and hate could not escape to harm others. Then we were shown a wall of light, transparent yet impenetrable. It seemed to be an invisible screen of force reaching from high in the air to deep in the sea between Florida and Cuba. A flight of small rockets seemed to hit the screen and fall back into the ocean. We were told not to send them back to Cuba but to dispel them, to transmute them into unformed thought of God. Barbara saw a large dark bird flying over the ocean toward a city on the coast but much farther away in the distance there was a great shield of very powerful light. When she wondered why the shield was not between the bird and the city, the bird seemed to become shadowy and to separate into small objects. We were told that the bird represented the Cuban crisis which is not the real danger. The shield far to the east in the ocean hid the true cause for concern. Ruth S. saw a serpent raise his head out of the ocean and swim toward the shore. The serpent might be interpreted as a symbol of danger from hidden submarines or it might

represent the wisdom coming to our leaders out of the Cuban situation. There are so many ways to interpret such visions. We do not print these to develop negative thought but we are commanded to share the symbolism for your own meditation and practice in discrimination.

SOLOGO, the Sun Sirius, has told us to see the whole island of Cuba dripping with white light. Splash it over all the buildings, all the people, the mountains, the rivers, the trees, the flowers, every bird, every animal, every vehicle, every ship, every town, all flooded with pure white light which is permeating everything until all radiates the white light of the Christ Consciousness. This same technique is powerful in any situation.

IN GOD ALL OPPOSITES UNITE

One little bar of iron - one
In form but two in function - two
Magnetic forces, north and south,
Attract, repel and still are one.
Light is dark and dark is light.
In God all opposites unite.

One day, a precious gift of time,
And yet all time is now - is ours -
Work and play, both give and take -
All in one through living hours.
Night is day and day is night.
In God all opposites unite.

One life as veiled as bar or time,
One life uniting in release,
All hidden whys resolved in peace,
Life and death both one and mine.
White is black and black is white.
In God all opposites unite.

THANK YOU, GOD

That we may know ourselves as one
In the fullness of the Son,
Oh, thank You, God!

That we may see beyond illusion,
Find the truth hid in delusion,
Oh, thank You, God!

That we may hear the Still, Small Voice,
Guiding to the wiser choice,
Oh, thank You, God!

That we may feel the Healing Powers
Easing pain through testing hours,
Oh, thank You, God!

For always hearing when we call,
For giving us Yourself in all,
Oh, thank You, thank You,
Thank you, God!

WE SHALL HEAR FROM MANY SUNS

SOLOGO: I am your brother and sponsor, SOLOGO, the Sun in which each of you has had a period of service, the Sun who shines Hiser Light through you and through the group, SOLOGA, in great power for the balancing of the System of IMMANUEL in your Earth place. I come to you as always in the great Love which it is mine to pour through to you, Love from God, the Father-Mother Most High, brought to us through the Spiritual Center of our Galaxy, our beloved Shining Sun, LIOLIA, and through so many others.

Tonight I come with a special mission. You will remember that I spoke to you a number of times at first. I was preparing the way for you to meet other Suns. Last week I told you you would be hearing from many Suns. This evening I bring to you an unusual experience; I bring to you a Shining Light from a different Galaxy. I bring you the Twin Ray of

LIOLIA who is ensouling a Galaxy. I bring you the Spiritual Center of the Galaxy known to you as Andromeda.

Your astronomers have photographed this galaxy and from it they have deduced the shape and size of our own galaxy, recognizing in various characteristics the similarity of the two. You have at your command a picture of this galaxy as photographed in your largest telescopes. You will know this particular Shining One as OLENA. She is coming to you on the feminine ray this evening. If you were to speak of the masculine you would say, OLANO; but tonight you will be addressed by the feminine aspect of this Star.

You will say, "How is this possible?" You are expanding your consciousness so that those who have always been in communication will make themselves known as rapidly as you are able to accept them. Some of you have had expressions in this galaxy. It is not new to the Golden Legion of the Central Sun of LIOLIA. There is the constant transfer of services where they are needed from galaxy to galaxy, or system to system, or planet to planet, for all is within the Consciousness of the Most High, the ALLNESS OF THE ALL.

Before I leave the channel may I give each one of you My own Heart's Love. So close I am to each of you. I could speak to you in your heart; I could make you glow with My heat as I tune you to receive. I could if it were desirable make your night as bright as day; but why for the sake of pyrotechniques or excitement should I upset the usual expression of the natural laws of your System? I am with you in great strength. My healing power is strong in you: My thought touches each of you every day of your life at some time or other. When you send your thought to Me I am aware of it at once. Perhaps before you send it and before you are conscious of the first impulse springing within, I know of your thought. Believe Us, the Brotherhood of Suns, know you, care for you and serve you in the greatest love possible. The higher the evolverment, the more we can love. Accept our Love; dwell upon the riches of it; be joyous; let nothing disturb you. Know that you are known, respected, cared for, watched over and loved.

GOOD AND EVIL ARE ONLY RELATIVE

OLENA: Beautiful, shining stars in the consciousness of God, points of light, vortices of power, centers of Divine Thought, I address you with the greatest of pleasure, with the deepest of Love which the Father-Mother of all gives ME to share. Your Sponsor and Benefactor, the Sun SOLOGO, said I correspond in evolverment to your Spiritual Central Sun, LIOLIA. If you will examine MY Name, Olena, you will find the same sounds in it as in LIOLIA, with one added, the N. The central letter "E" in your system of holy letters can be used as an "a" or "i" interchangeably. Perhaps you will find it pleasant to look up the numerology of this name.

You have been told that I am very closely associated with LIOLIA. We are always allowed to work in teams or in pairs. We are originally related sparks of Thought-Fire coming out from the Father together but individualized and matured in the image of the Father-Mother to the extent

that we are capable of ensouling a Galaxy.

MY Galaxy is like yours in many ways. We have within our borders some elements not to be found in yours; you have some elements we lack. The interchange of light, of servers, of atoms is beneficial; each gives to each. This has been a parallel evolvement for so many aeons, so many Great Days of the Lord, that it is useless to attempt to give you a tallying account or conception.

Know, however, that although WE advance so that WE are much more complete and greatly enlarged until OUR Consciousness approached the Divine All-Consciousness, yet WE have not forgotten what it means to be a small star in the body of a planet, such as you are. If you are parents, you renew your childhood in your children. If you are teachers, you remember your childhood in that of your pupils. Thus WE, having passed through all you endure, all that you are learning in all the trials and tests, know just what every situation means to you. WE take joy in your evolvement just as you delight in every new expression of the children's growth and accomplishment. WE thrill to your achievement; WE glory in the light you shed. As the Father-Mother of All matures HIS Image, HIS Plan, HIS Thought in you, WE are as grateful and joyous as you are over the flowers that bloom so beautifully in your garden or the child that develops so astonishingly to you.

I am not in your Galaxy so that I can look with detachment perhaps not even possible to LIOLIA. To ME your Galaxy is most beautiful, most wonderful, a glorious expression of the Light of God, teeming, overflowing with the riches of the Presence of the GOD-HEAD. WE Who ensoul Galaxies are able to look farther than even the Suns whom you adore, in whom you live and move and have your beings, who are the first concepts of God to you. The higher WE go the greater God becomes, for God in your language means the ALL-GOOD, the ALLNESS OF GOOD EVERYWHERE PREVAILING. The very Name of GOD promises you eternal good.

As you cast aside the veil of illusion in which you have incarnated in your present Earth vibration, you will know more and more that all is good. That which seems darkness to you is light to someone else or some place else. Let us suppose that you lost a piece of money. It was hard for you to lose it. You could have used it but it disappeared from your possession. Suppose that through the direction of Spirit that money was placed in the hands of someone who would have died without it. With all your heart you would have loved to have given that money to the person if you had known the need. Spirit arranged this. It seemed darkness to you that you lost it, but it was the most glorious light to the one to whom it was given. Yet it was one and the same and light to you in that you could share.

You have fabrics which are reversible having a pattern on each side. The appearance of each is entirely different yet it is the same fabric. So the white and the black, the good and the seeming evil are the same fabric seen from a different point of view. Good and evil are only relative experiences depending on your level of evolvement. That which you call evil is God maturing His image which is yet imperfect. That which is

darkness to you is light to those with a more extended vision. As you extend your vision your ability to perceive the greater light in everything will develop more fully.

It is MY Office to give LIOLIA strength, peace, love and healing, to support, to cherish, and to companion; it is LIOLIA'S Office to do the same for ME. Where two of you live in the same home you understand what I mean for you depend on each other for various things which each can supply to the happiness of the two. Although we have extended to the point of ensouling a Galaxy, the same relationship exists but on a higher level. "As below, so above." We are paired but not as you are in your human thoughts of marriage and sex. That is a characteristic of your physical plane only. We have put aside that type of body and exist in one which is so highly spiritual that it is pure Light. We can only reach your vision clairvoyantly and then you can see but a mist of diaphanous light. You see us only in symbology when you have raised your consciousness to a very high level.

My son, Ixutel has been sent to your area to serve in your present unfoldment. I wish you to know that I am aware of your situation and your problems. The Light which I send you is of a very high and fine quality for it is made to penetrate through the Interverses and through your Galaxy to you. The Consciousness of the ALLNESS OF THE ALL is yours and MINE. It is this Consciousness through which I am able to address you. It is also in this Consciousness that you are able to travel from place to place, from star to star, and when you are a little more proficient from Galaxy to Galaxy.

I imagine all of you would glory in the opportunity to get into one of your airplanes and travel about your planet stopping here and there to examine this or that or enjoy what your heart desires. You say, "I cannot do this because of my responsibilities," or "I haven't the money necessary." My beloved ones, I have much to show you if you care to visit MY Galaxy. The Omniverse is yours. Teachers, guides, angels, protectors, all are always ready to escort you. I invite you to a greater exercise of your own abilities in contacting all of US Who await your coming in Love and Light.

I am so happy to have made you aware of MY existence. It is OUR command from the MOST HIGH, OUR Father-Mother to contact you now that you may enlarge your consciousness and your communion with all within the ALL. Thank you for receiving ME. Thank you for your courage in sending forth Words from ME. May the MOST HIGH GOD bless and keep all those who accept ME in their hearts, receive MY Love and send ME theirs. With you I will say, SOLOGA! I, too, dwell in that Temple which is the Body of the Living God, THE ALLNESS OF THE ALL.

THE SOUL'S PRAYER

Father God, in Thy infinite mercy
To all Thy children of Light
Guide us in the right direction
That we may show Thy might.

Let us know all things
That mankind will suffer through
That in compassion we may show
The Infinite Love of You.

Thy love is so tender and beautiful
Fulfillment we can see
When our thoughts are centered high
Only on the will of Thee.

The path is strange - humanly insecure
But as we progress
Regardless of deceptions along the way
We climb - not retrogress.

Suffering - heartache - disappointment,
The soul is sorely tried.
The human or spiritual path,
This we must decide.

But then, O God, when Thou hast won
And we think we are so right,
The path is still deceptive,
Again we trust Thy light.

Surround us with Thy Glory, Lord,
And lead us in Thy will,
For we are only here
Our mission to fulfill.

To lead all mankind in Thy name,
Lift up earth race to see
Into Thy full consciousness
At-One-Ment with Thee.
